"It is highly regrettable that in spite of almost two decades of planning for National Development of this country, the Government and the Planning Commission have miserably failed to work out such a concrete policy or even a policy Resolution for the purpose. There is no doubt that our Five Year Plans contain a number of relevant points of a sound social philosophy which could clearly mean a definite planning for social reform of the type envisaged. But if we assess the social content of the various development programmes and public policies, it will be clear that there has been a deliberate dodging of the fundamental issues.... But the Government and the Planning Commission have failed to work out any concrete plan according to these professions. There is a complete lack of planning approach to social change."

This was quoted by Shri Elayaperumal in his report.

In the same way, it was confessed by the Central Government leaders that the Five Year Plans failed to achieve its goal. Then you can imagine the position about the development

programme for this section. Very very meagre amounts were given for the welfare activities of these people. At the same time, these amounts were allotted in a very arbitrary way. In the three Five Year Plans, the total amount allotted by the Central Government was Rs. 15.190 crores. Out of this the amount allotted for the development of Scheduled Castes and Tribes is only Rs. 72.46 crores, which comes to only 0.48 per cent. In the Fourth Plan the amount mentioned was Rs. 141.14 crores. But the Central Government have so far spent only Rs. 78.48 crores, even though the Fourth Plan is coming to an end.

Coming to employment opportunities, different States adopt different methods for reservation according to their convenience. I will mention some figures for the different States which will be very revealing. The figures are: Andhra Pradesh 14 per cent, Assam 6 per cent, Bihar 14 per cent, Gujarat 7 per cent, Kerala 9 per cent, Jammu and Kashmir 8 per cent Madhya Pradesh 13 per cent, Maharashtra 6 per cent, Mysore 13 per cent, Orissa 16 per cent, Punjab 23 per cent, Rajasthan 17 per cent, Tamil Nadu 18 per cent, West Bengal 20 per cent, UP 21 per cent and so on. No uniform procedure has been adopted by the States. I want to know from the Minister what steps have been taken by the Government to instruct the State Government's to follow uniform policy in this matter.

Neither the Central Government nor the State Governments keep in mind the Directive Principles of the Constitution when they make reservations in the matter of recruitment or promotion. For example, take LIC. The percentage of representation as on 31st March 1971 was as follows: Class 1 officers 0.13 per cent, Class 2 0.16 per cent, Class 3 1.24 per cent and Class 4 14.3 per cent. At the same time, they have appointed some officers on a temporary basis. The percentage there is: Class 1 nil; Class 2 nil; Class 3 1.4 per cent and Class 4 25 per cent.

[Shri C. T. Dhandapani]

In the same manner, the position in Central Government industrial and commercial undertakings, as on 1970, is as follows: Class I officers 0.5 per cent; Class II officers 0.77 per cent; Class III employees 5.2 per cent; and Class IV employees 80.06 per cent—a majority of them here are Scheduled Castes and Scheduled Tribes; this is what the Central Government or any Government entrust such type of work to Scheduled Caste people.

I want to quote the position in the nationalised banks also. Some banks never appoint Scheduled Caste people. I know this because I am an ex-employee of a bank; I know the difficulties of the Scheduled Caste people; they find it very difficult to join banks. They, of course, conduct examination, But it is a farce. The position here is; Dena Bank 'nil'; Allahabad Bank 'nil'; Indian Bank 'nil'; Bank of Maharashtra 'nil'; Indian Overseas Bank 'nil'; Central Bank of India 0.08 per cent; Punjab National Bank 0.5 per cent; Bank of Baroda 0.03 per cent; United Commercial Bank 0.05 per cent; Canara Bank 0.1 per cent; the United Bank of India 0.23 per cent. It is something like this.

There are 103 public undertakings in our country run by the Government. But no Scheduled Caste man has been appointed as Class I officer here; I mean, as head of any institute or institution.

Why not get the particulars from the other government departments as well as State Governments and other banks? This is what is happening in our country.

From this data you can very well understand how the Scheduled Caste and Scheduled Tribe people are being neglected in the Central services. Public undertakings, private colleges in the case of appointments cooperative societies, quasi-financial institutions and other industrial units, owned by big people, never have a soft corner in their hearts to help this suppressed

class—suppressed for centuries. Private industries owned by high caste people appoint their own men. That is why I want that the cooperative societies or companies and other financial institutions, financed by the State Government or Central Government or local boards should be brought under the purview of this Amendment. If the Government is sincere in the matter of Scheduled Caste and Scheduled Tribe people, the industrial licences should not be given unless they implement the terms of the proposed amendment.

In all parts of the country wherever you go, big monopolies or small persons who can invest Rs. 1 or 2 crores or Rs. 10 or 15 lakhs appoint their own men. That is why I want that there must be some change, so that the agricultural labourers belonging to Scheduled Castes and Scheduled Tribes may get some employment opportunities in the industries. So far as Scheduled Caste and Scheduled Tribe people are concerned, all are agricultural labourers. We all talk about removal of disparity and abolition of feudal order. Agricultural labourers are getting a very meagre amount. In some places they do not get cash, they get foodgrains which are generally unfit for human consumption. They work 20 hours in a day putting a hut in the field of their masters. According to the 1961 census—I could not get the latest Census figures—the total population of Scheduled Castes and Scheduled Tribes is 6,45,11,313. Out of this, 3,03,36,615 are workers of which 2,19,03,860 are involved in agriculture. All are agricultural labourers. They are suffering actually and theirs is an endless suffering. Discrimination prevails in the rural areas mostly because of the existence of the feudal system in the villages. Unlike the industrial labour, the agricultural labour belonging to the Scheduled Castes and the Scheduled Tribes has no right to speak against the commands of their masters. They are still being treated as animals. You know the atrocities committed on Ha-

rijans in various places of this country are increasing day by day. The most affected persons are the labourers involved in agriculture. Therefore, if we are really honest and sincere in the emancipation and upliftment of the Harijans and the Adivasis and protect them against the atrocities and injustices done to them in the fields of economic and social status, recruitment and promotion, I request the House, particularly, the ruling Congress to support by Bill and pass it.

Before I conclude, once again I want to make a submission about the present position. This Government could not keep up the undertakings and assurances given in the Constitution to the people of the Scheduled Castes and the Scheduled Tribes. They were pushed back in order not to allow them to enjoy the results of development, if at all anything is happening in this country. Culpable crimes continue to be committed on them and on account of this, many people are rendered homeless, jobless and become orphans. Brutal killings normally take place. Raping of Harijan women is common. Same way, all sorts of atrocities are committed on them. In spite of all these atrocities, these pitiable people could not get out of this ghetto because they have no livelihood except that. They mainly depend at the mercy of the landlords and the high-caste people living in the villages. They live amidst perpetual fear and tyranny. The agricultural labour cannot claim any right to live. If they can have their livelihood in vocations other than agriculture, they may have the chance of escaping through all these sorts of crimes.

All industrial units, big or small, are owned by non-Harijans. The Government sector also refuses to oblige the Harijans. The Harijans have no means to start any industry of their own like others. Where will they go because they have to fight for their own livelihood and other things?

Therefore, I conclude by saying that 25 per cent of the reservations should

be made for them in all Departments including the co-operative sector, Industrial Finance Corporation and other private industries which are enjoying financial assistance from the banks and other Government Departments. De-reservation should not be made at any cost. All industrial units whether Private or public, including the co-operative sector should made reservation according to the proposed amendment, to bring about a socio-economic equality between man and man.

I conclude by requesting the Government and the House to support my Bill.

श्री झम्भू नाथ (सँदपुर) : यह ठीक है कि यह बिल विरोधी पक्ष की ओर से आया है। चूंकि यह एक असलियत है कि इसलिये इस बिल का समर्थन करने के लिये मुझे मजबूर होना पड़ रहा है। यह जो संविधान है इसमें आर्टिकल 335 रखा गया है। इसके बर्डिंग को मैं आपके सामने पढ़ना चाहता हूँ।

"The claims of the members of the Scheduled Castes and the Scheduled Tribes shall be taken into consideration, consistently with the maintenance of efficiency of administration, in the making of appointments to services and posts in connection with the affairs of the Union or of a State."

शिडयूल्ड कास्ट्स और शिडयूल्ड ट्राइब्स के लिये उस समय जो बात कही गई, वह उस समय कुछ जंचती थी, कुछ उचित मालूम होती थी। इस अवधि में सरकार की तरफ से बराबर यह कोशिश रही है कि पिछड़े हुये लोग ऊपर उठें। जितना काम होना चाहिये था, उतना तो नहीं हुआ, लेकिन यह सत्य है कि आज शिक्षा के क्षेत्र में पिछड़े हुये लोगों की काफी तरक्की हुई है। इस लिये आजादी के पच्चीस वर्ष बाद आज इस बातवरण में यह देखना है कि जिस बर्डिंग

[श्री शम्भूनाथ]

में आर्टिकल 335 है, क्या उसको मैनटेन करना चाहिये या नहीं ।

इस देश का दुर्भाग्य है कि इस देश की सामाजिक व्यवस्था ऐसी रही है कि जहाँ वर्ग विशेष या जाति विशेष की बात आ जाती है, तो सारा गुण और सारा हुनर पीछे रह जाता है । यह मनोवृत्ति समाज में बराबर पहले से चली आ रही है और आज भी वह पायी जाती है । इसलिये इस वातावरण में हमको यह देखना है कि आर्टिकल 335 का जो वर्डिंग है, क्या उसमें चेंज करना लाजिमी है या नहीं ।

आज समाजवाद का नारा दिया जा रहा है और कई तरह की मनोवृत्तियाँ समाजवाद में पायी जाती हैं । कुछ लोग तो ऐसे हैं, जो आउटराइट बहुत ईमानदारी के साथ कहते हैं कि शिडयूल्ड कास्ट्स के लोग बराबर बैठने वाले हो गये, उनको हर तरह की फैसिलिटी दी जा रही है, उनको रिजर्वेशन क्यों दिया जाये । कुछ लोग ऐसे हैं, जो हृदय से चाहते हैं कि जब तक इस देश में सबसे पिछड़ा समाज बराबरी का हक नहीं पायेगा तब तक देश तरक्की नहीं कर सकता है, देश में मजबूती नहीं हो सकती है, देश में समाजवाद नहीं आ सकता है । कुछ ऐसे भी लोग हैं, जो ऊपर से तो बहुत ही प्रोग्रेसिव बनते हैं, लेकिन उनके मन में कलह और द्वेष बना रहता है । इन कारणों से यह सारे का सारा मसला खटाई में पड़ रहा है ।

मुझे जाती तौर पर मालूम है कि गृह मंत्री, श्री मिर्धा, के मन में हरिजनों के प्रति बड़ी पीड़ा है । वह बराबर महसूस करते हैं कि उनके साथ अन्याय हुआ है—वह राजनीतिक हो, सामाजिक हो, आर्थिक हो, या किसी भी प्रकार का हो । मुझे मालूम है कि वह चाहते हैं कि उनके साथ इन्साफ हो । जब इस तरह का

वातावरण सारे समाज में फैला हुआ है, तो इस बारे में ईमानदारी से सोचने की आवश्यकता है ।

उस समय कांस्टीट्यूशन में एफिशेंसी को आधार माना गया और कहा गया कि अगर इन वर्गों में योग्यता होगी, तो इन्हें नौकरी दी जायेगी । यह भी कहा गया कि एडमिनिस्ट्रेशन को ऐसे ही कैसे छोड़ दिया जाये, उसको ढीला कैसे कर दिया जाये । इसी नाम पर हुकूमत में बैठ हुये कई लोग एकदम कह देते हैं कि हमारा एडमिनिस्ट्रेशन लूस हो जायेगा, उसमें एफिशेंसी नहीं रह जायेगी, हम कैसे सरकार चला पायेंगे, आदि । लेकिन यकीन मानिये कि आज़ादी के पच्चीस वर्ष के बाद यह कह जा सकता है कि शिडयूल्ड कास्ट के जिन लोगों को रिस-पांसिबल जगहों पर बिठाया गया, उनमें से 99 परसेंट आदमियों ने—हो सकता है कि एक-आध अपवाद हो—अपना काम किसी से कम अंजाम नहीं दिया है । पिछले दिनों स्ट्राइक हुई, लेकिन चूंकि शिडयूल्ड कास्ट के एम्प्लोईज जानते थे कि वह स्ट्राइक गलत है, इसलिये उन्होंने उसमें हिस्सा नहीं लिया । इसलिये आज एफिशेंसी के नाम पर यह कह देना मेरी समझ में नहीं आता है कि शिडयूल्ड कास्ट के लोगों को सविस्तर में स्थान नहीं दिया जा सकता है ।

आज भी शिडयूल्ड कास्ट के लोगों की यह हालत है कि बी० ए० और एम० ए० की डिग्री प्राप्त करने के बाद भी उनको यह साबित करना पड़ता है कि हमने शिक्षा पाई है, हमने डिग्री प्राप्त की है । कांस्टीट्यूशन में दूसरे वर्गों के बारे में “आउट्रिफ एफिशेंसी” का कोई प्रतिबन्ध नहीं लगाया गया है, जैसा कि शिडयूल्ड कास्ट के बारे में लगाया गया है । यह कितनी बड़ी एना-मेली है । इस आधार पर हमको समझना है कि आज़ादी के पच्चीस वर्ष बाद शिडयूल्ड कास्ट में वाकई पड़े-लिखे लोग अल्प

करने लायक लोग, आफिसर्स, पालीटीशन्स और इकोनामिस्ट्स आदि, हुये हैं या नहीं।

राज्य सभा में पिछले सत्र में सिविल एविएशन पर एक चर्चा हुई। मुझे अफसोस के साथ कहना पड़ता है कि जो लोग कांग्रेस का मंत्री-मंडल चला रहे हैं, उनको भी स्थिति अच्छी तरह मालूम नहीं है। यह सवाल पूछा गया कि क्या इंडियन एयर लाइन्स और एयर इण्डिया में रिजर्वेशन होगा या नहीं। मंत्री महोदय ने तुरन्त कह दिया कि चूंकि पायलट आदि टेक्निकल सर्विसेज हैं, इसलिए उन में रिजर्वेशन का सवाल ही नहीं उठता। मेरी समझ में नहीं आता कि इस तरह की बात उन्होंने कैसे कह दी। बुड़िया के मर जाने का कोई डर नहीं है, डर यह है कि यमदूत घर देख लेगा। सरकार समाजवाद के नाम पर बराबर कापोरेशन बनाती चली जा रही है। बड़ी अच्छी बात है। लेकिन उन कापोरेशन की हालत क्या है? अभी माननीय सदस्य ने नेशनलाइज्ड बैंकों की हालत बताई है। वही हालत कापोरेशन की है। इण्डियन एयर लाइन्स और एयर इण्डिया भी कापोरेशन हैं, आटोनोमस बाडीज हैं।

यह सही है कि पायलट की जाब टेक्निकल है, सेप्टी का सवाल है, उसके लिये ट्रेनिंग की जरूरत होती है। लेकिन यह कह देना कांस्टीट्यूशन के विपरीत है कि चूंकि टेक्निकल जाब है, इसलिये उसमें रिजर्वेशन नहीं हो सकता है। सवाल कांस्टीट्यूशन की भावना का है। अगर कोई आदमी क्वालिफाइड है, तो वह इस जाब के लायक है।

शिड्यूल्ड कास्ट्स कमिश्नर की रिपोर्ट पर साल भर में एक बार यहां बहस हो जाती है। उस रिपोर्ट से मालूम होता है कि एडमिनिस्ट्रेटिव सर्विस हो या क्लेरिकल जाब हों, राज नहीं भी शिड्यूल्ड कास्ट्स

का कोटा पूरा नहीं किया जाता है। माननीय सदस्य ने अभी 51 में भी आंकड़े दिये हैं। यह बात मंत्री महोदय, सरकार और इस हाउस को मालूम है। हमारे एडमिनिस्ट्रेटर्स, जिन के मन में चोर है, जो—मैं बड़े अदब के साथ कहना चाहता हूं—नहीं चाहते कि शिड्यूल्ड कास्ट्स के लोग सर्विसिज में आयें, वे तुरन्त एफिशेंसी और योग्यता का बहाना पेश कर देते हैं। आज अन-एम्प्लायमेंट का आलम यह है कि अगर एक जगह हो, तो सी आदमी आते हैं, दूसरी आदमी आते हैं। दूसरी तरफ अगर शिड्यूल्ड कास्ट्स के लिए रिजर्व्ड एक जगह का एडवर्टाइजमेंट हो, तो कम से कम शिड्यूल्ड कास्ट्स के पचास कैंडीडेट्स आते हैं। आज-कल पचास का अंश है। लेकिन आज से पच्चीस साल पहले अगर एक पोस्ट होती थी, तो मुश्किल में एक दो आदमी आते थे। आज पचास आदमी को इसक्वालिफाई कर देना मेरी समझ में नहीं आता है। यह कौन सी विडम्बना है? कब तक यह विडम्बना चलेगी?

एक तरफ समाजवाद की बात की जा रही है और दूसरी तरफ आटोनोमस बाडीज और कापोरेशन के नाम पर एडमिनिस्ट्रेशन चलाया जा रहा है। अभी दिल्ली एडमिनिस्ट्रेशन के बारे में हमारे साक्षियों ने बताया कि आज वह बेचारे परेशान हैं कि होम मिनिस्ट्री से जी ओ जाता है कि इस इस डिपार्टमेंट में इस इस तरह से प्रमोशन होना चाहिए, इस इस तरह से रिजर्वेशन होना चाहिए, लेकिन जब इन अधिकारियों से शिड्यूल्ड कास्ट के एम्प्लॉई पूछते हैं कि यह जी ओ आया है होम मिनिस्ट्री की तरफ से तो वह कहते हैं कि हमारे पास तो नहीं आया, आप होम मिनिस्ट्री का जी ओ ले आएं। आई एं एक आफिसर कहता है

[श्री शम्भू नाथ]

कास्ट के कर्मचारी से कि आप होम मिनिस्ट्री का जी ओ से आएँ तब हम मानेंगे । यह बड़ी भारी विडम्बना है । आज अपने भाई भतीजे, रिश्तेदार और नातेदारों को नौकरी देने का सिलसिला चल रहा है जिसके कारण उन के साथ जस्टिस नहीं हो पाती है ।

हमारी सरकार 5 लाख सर्विसेज हर वर्ष देने की बात करती है । बड़ा अच्छा है । हर साल इतने लोगों को काम मिलेगा । 5 लाख ही नहीं इससे भी ज्यादा लोगों की सरकार सर्विस दिलाए यह बहुत अच्छा है । लेकिन मैं मंत्री महोदय से पूछना चाहता हूँ और चाहता हूँ कि वह इस पर गम्भीरता से गौर करें कि आया यह पाँच लाख या दस लाख सर्विसेज जो प्रति वर्ष निकलेंगी उसमें इसी तरह से शेड्यूल्ड कास्ट के साथ अन्याय होगा जैसा अब तक हो रहा है या उसमें कोई सुधार होगा ? मैं पूछना चाहता हूँ कि क्या सरकार इस तरह सोचेंगी । मेरा तो अपना विश्वास है कि इस तरह जो क्वालिफिकेशन और एफिशेंसी के नाम पर इन लोगों के साथ इतना अन्याय होता है उनको दूर नहीं किया जायगा तो यह देश अब इसको बर्दाश्त करने को तैयार नहीं है । मेरे अपने विचार से सबसे बड़ी योग्यता तो यह होनी चाहिए कि उस आदमी का लड़का अगर डिग्री प्राप्त किए हैं जिसके पास खाने पीने का सहारा नहीं है तो उस लड़के को सबसे पहले नौकरी मिलनी चाहिए बनिस्बत उसके जिसका बाप हर तरह सम्पन्न है । जिसके पास रोजी रोजगार है उस लड़के को बाद में नौकरी दी जाय और उसके लड़के को पहले नौकरी दी जाय जिसके पास कोई दूसरा सहारा नहीं है । मीन्स टेस्ट जब तक इस समाज में नहीं लागू होगा तब तक शेड्यूल्ड कास्ट के साथ सही तरीके से न्याय नहीं हो सकता है । एफिशेंसी के नाम पर उनके साथ जो अन्याय होता है मंत्री महोदय को मालूम है बराबर उसके बारे में लिखापढ़ी होती है ।

एक उदाहरण मैं आपके सामने रखना चाहता हूँ जो मंत्री महोदय को याद होगा क्योंकि वह उनके विचाराधीन है, असिस्टेंट सेक्शन आफिसर के पद के प्रमोशन के लिए लिखापढ़ी दो वर्ष से लगातार चल रही है । कई बार इसको मीटिंग में रख चुके हैं । लेकिन फाइल ला मिनिस्ट्री से होम मिनिस्ट्री और होम मिनिस्ट्री से ला मिनिस्ट्री में आ जा रही है । पहले तो भंडारे साहब और बी० एस० मूर्ति साहब इसके लिए हम लोगों की तरफ से चुने गए थे जिसमें भंडारे साहब तो गवर्नर हो कर चले गए हैं, मूर्ति साहब रह गए हैं, वह और सरदार बूटा सिंह जी दोनों मिल कर इस को देख रहे हैं । होम मिनिस्टर साहब तो पक्ष में हैं कि उस के साथ न्याय होना चाहिए । लेकिन जो वेस्टेड इन्टरेस्ट वाले बैठे हुए हैं, जो मंत्री महोदय को बताते हैं...

एक माननीय सदस्य : मिसगाइड करते हैं ।

श्री शम्भू नाथ : मिसगाइड क्या करेंगे ? इन को मिसगाइड नहीं कर सकते । अपनी अड़चन डालते हैं । लेकिन चूँकि मंत्री महोदय बाकई में इन्टरेस्टेड हैं, वह जानते हैं कि उसके साथ इनजस्टिस हुई है, इसलिए वह जस्टिस देना चाहते हैं । कोई दूसरा होता तो अब तक यह कह देता कि ऐसा करना सम्भव नहीं होगा और फाइल क्लोज कर दी जाय । मंत्री महोदय इसमें जस्टिस देना चाहते हैं । लेकिन अफसोस के साथ कहना पड़ता है कि दो दो वर्ष हो गए फाइल बराबर ला मिनिस्ट्री और होम मिनिस्ट्री में घूम रही है (मालूम नहीं क्या होगा ?)

सीधी सी बात तो यह है कि जो टेक्निकल सर्विसेज हैं, जहाँ बाकई में ट्रेनिंग की जरूरत है, योग्यता की जरूरत है, उसमें अगर शेड्यूल्ड कास्ट एण्ड शेड्यूल्ड ट्रीब्स के लोग एफिशियंट नहीं हैं तो उनको एफिशियंट बनाने की जिम्मेदारी भी सरकार की ही है । सरकार ही उसके लिए पूरी तरह से जिम्मेदार

है कि उनको उसके लिए एफिशियेंट बनाए। सरकार ने कुछ दूर तक इस जिम्मेदारी को निभाया है। कांम्प्यूटीटिव एग्जामिनेशन जो आई० ए० एस० और पी० सी० एस० के होते हैं उसके जगह जगह पर जो इंस्टीट्यूशन खुले हैं वहां पर कुछ लड़कों के कोचिंग क्लासेज चलते हैं जिसमें उनको कुछ ट्रेनिंग दी जाती है ताकि वह इम्तहान में कम्पीट कर सकें। लेकिन जो टेक्निकल सर्तिसेज हैं, हजारों की तादाद में जो कारपोरेशनस हैं उनमें अगर इस तरह की बात आती है तो यह जिम्मेदारी भी सरकार की होती है कि उनको एफिशियेंट उसके लिए बनाए। आखिर कौन एफिशियेंट बनेगा? आप एक तरफ तो उनको एफिशियेंट बनाने की कोशिश नहीं करते, दूसरी तरफ बी० ए०, एम० ए० की डिग्री के बाद भी आप उनको अयोग्य बनाना चाहते हैं और कही अगर सर्विस मिल भी जाये तो जब प्रमोशन का प्रश्न आता है तब धांधलेबाजी की जाती है, तो आखिर 335 आर्टिकल के तहत यह फाड कब तक उनके साथ किया जायेगा, यह मैं मन्त्री महोदय से जानना चाहता हूं। यह बिल्कुल क्लीअर फाड है कांस्टीट्यूशन के साथ।

आज हर राज्य में तरह तरह के और अलग अलग परसेटजे निर्धारित हैं। यह भी हमारी समझ में नहीं आता। मैं उदाहरण देना चाहता हूं कि उत्तर प्रदेश में सबसे पहले जब पन्तजी मुख्य मन्त्री थे तो वह चूकि शेड्यूलड कास्ट की प्राबलमस को जानते थे, इसलिए उन्होंने 18 प्रतिशत रिजर्वेशन उनके लिए किया था उन दिनों में जबकि दूसरी स्टेट्स में कहीं दस और कहीं बारह प्रतिशत था। आज सेंटरल गवर्नमेंट में भी करीब 15 प्रतिशत रिजर्वेशन कर दिया गया है। दुख इस बात का है जितना हमको कोटा मिला है 25 वर्षों में उसको पूरा करने की दिशा में, सरकार या सरकार के जितने कारकुन हैं वह किस ईमानदारी से, किस भावना से कोशिश कर रहे हैं, सवाल तो इस बात का है। जस्टिस होगी;

ऐसी बात है, लेकिन दस जस्टिस को दिलाने के लिए ईमानदारी से, सही भावना लेकर के कोशिश में हैं या नहीं सवाल इस बात का है। अगर आप विवेचना करें तो आपको मालूम होगा कि 25 वर्षों में इस आर्टिकल के नाम पर शेड्यूलड कास्ट के साथ बराबर मिस्वीफ किया जा रहा है। आज अनएम्प्लायमेंट हमारी ज्यादा हो रही है, पर खुले आम अधिकारियों को यह कहते हुए शर्म नहीं लग रही है कि शेड्यूलड कास्ट के लोग बराबर इसी तरह से हल्ला गुल्ला किया करते हैं। जी० ओ० पर जी० ओ० सरकार की तरफ से जाते हैं। मैं नम्र निवेदन करूंगा कि 25 वर्ष से बराबर आप एग्जीक्यूटिव आर्डर्स पा। करते जा रहे हैं। होम मिनिस्ट्री या दूसरी मिनिस्ट्री से एग्जीक्यूटिव आर्डर बराबर सकुलेट होते चले जा रहे हैं। जब कभी भी मौका आता है शेड्यूलड कास्ट की रिपोर्ट पर दस करने का या सवालों के जरिए अथवा किसी मोशन के जरिए जब कभी भी हाउस में बहस होती है तो इस बात पर तवज्जह दिलाई जाती है कि यह कोटा क्यों नहीं पूरा किया जा रहा है? सरकार की तरफ से हमेशा जवाब यह आता है कि होम मिनिस्ट्री से एग्जीक्यूटिव आर्डर्स चले गए हैं और एग्जीक्यूटिव आर्डर का यह आलम है कि आपकी नाक के नीचे दिल्ली एडमिनिस्ट्रेशन है, वहां उनको पता नहीं कि कोई आर्डर आया है या नहीं आया है। या तो वह जानबझ कर ऐसा करते हैं या फिर त्राकई में उनके पास नहीं गया है यह वह जानें। इसी तरह से स्टेट्स में, कारपोरेशनस में कहीं भी चले जायें सभी जगह यही हाल है। मेरा यह कहना है कि अगर इन हरिजनों को और शेड्यूलड कास्ट के लोगों को न्याय मिलना है और आज यह सरकार समझती है कि शेड्यूलड कास्ट के लोग इतने शिक्षित हो गए हैं कि अब उनके सामने क्वालीफिकेशन या एफिशियेंसी की कोई खास ऐसी बात नहीं रह गई है तो, हम मन्त्री महोदय से यह प्रार्थना करेंगे कि उनको जस्टिस दिलाने के लिए एक लेजिस्लेशन की आवश्यकता है। लेजिस्लेशन

[श्री शम्भू नाथ]

की आवश्यकता इसलिए है कि एक तो क्लामर एम्बेडमेंट हो जायगा। जो यह हाथ पाच चलता है कि हमारे यहां एग्जीक्यूटिव आर्डर नहीं आया है, यह खत्म हो जायगा। साथ साथ लेजिस्लेशन के जरिए कहीं अन्याय भी होगा तो आज शेड्यूलड कास्ट के लोग जो समर्थ हैं, न्याय लेने के लिए कोर्ट में जा सकते हैं। इस पार्लियामेंट में आ सकते हैं, कही भी जा सकते हैं, उनको न्याय मिल सकता है। ऐसी हालत में मैं यह समझता हूं कि यह एग्जीक्यूटिव आर्डर जो 25 वर्ष पहले निकाला गया था, उसका नतीजा अच्छा नहीं रहा है। अब उनके साथ न्याय करने के लिये, उनके सेफगार्ड्स के लिये, उनके राइट्स को दिलाने के लिये इस पार्लियामेंट में लेजिस्लेशन पास होना चाहिये

आर मन्त्री महोदय को इस सम्बन्ध में शांघ कार्यवाही करनी चाहिये।

इन चन्द शब्दों के साथ मैं मन्त्री महोदय से उम्मीद करता हूं कि किन कारणों से— इसका पता उनको है, यदि नहीं है तो पता लगावें और अच्छी तरह से जांच करें— शेड्यूलड कास्ट के लोगों को इन-एफिशियेन्सी के नाम पर धोखा दिया जा रहा है, न्याय नहीं दिया जा रहा है।

MR. CHAIRMAN: Shri Dinesh Joarder. You are on your legs and you will continue on the next day.

18.00 hrs.

The Lok Sabha then adjourned till Eleven of the Clock on Monday, April 9, 1973/Chaitra 19, 1895 (Saka).

LOK SABHA

Monday, April 9, 1973/Chaitra 19, 1895
(Saka)

The Lok Sabha met at Eleven of the Clock

[MR. SPEAKER *in the chair*]

ORAL ANSWERS TO QUESTIONS

Assistance to voluntary Associations for promotion of Urdu language and Literature

*661 PROF. NARAIN CHAND PARASHAR: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether the Central Government are assisting any voluntary associations in the country engaged in the promotion of Urdu language and literature;

(b) if so, the names of the associations which have been given financial assistance; and

(c) the amount of assistance given to the associations during the past three years ?

THE DEPUTY MINISTER IN THE MINISTRY OF EDUCATION, SOCIAL WELFARE AND IN THE DEPARTMENT OF CULTURE (SHRI D. P. YADAV): (a) Yes, Sir.

(b) and (c). A statement is attached.

Statement

The names of Voluntary Associations who have been given financial assistance by the Central Government in the last three financial years for the promotion of Urdu alongwith the amount of such assistance are as under:—

Name	Purpose	Financial assistance given		
		1970-71	1971-72	1972-73
(1)	(2)	(3)	(4)	(5)
		Rs.	Rs.	Rs.
1. Anjuman Taraqqi Urdu-Hindi, Aligarh	Promotion of Urdu language and literature.	38,000	2,52,000 *	2,28,000 *
2. Abul Kalam Azad Oriental Research Institute, Hyderabad.	Promotion of Urdu language and literature.	12,000	12,000	12,000
3. Majlis-i-Ishate-e Delhi.	Adab, Publication of works of Mushafi and Bayan.	4,996	..	..

* The figures include Rs. 2.00 lakhs in 1971-72 and Rs. 1.60 lakhs in 1972-73 towards construction of a building "Urdu Ghar" in Delhi.

1	2	3	4	5
4. Andhra Pradesh Sahitya Akademi, Hyderabad.	Publication of lexicon of Deccani Urdu.	2,787	..	..
5. Jamia Millia Islamia, Delhi.	Publication of teaching material for correspondence courses.	1,500	..	..
6. Indian International Centre, Delhi.	Preparation of a catalogue of Urdu manuscripts.	..	..	5,000
7. Villa Academy, Hyderabad.	Preparation of the book "Urdu Word Count".	..	..	3,000
Aiwan-e-Ghalib, Delhi	Towards Cost of Completion of the Ghalib Memorial and Ghalib Auditorium.	..	..	5,00,000

प्रो० नारायण चन्द पाराशर : जनाब स्पीकर साहब, क्या मैं आपके जरिए वजीरे तालीम से यह जान सकूंगा यहां पर कि हमें खुशी है कि उर्दू की तरक्की के लिए 7,48,000 रुपये इस साल सर्फ किये गये वहां आइन्दा साल में कोई ऐसा उर्दू का प्रोजेक्ट जो जरूरी समझा जाये वह माली मामलात के पेश नजर रोका नहीं जायेगा ?

श्री डी० पी० यादव : मैं पाराशर साहब को आश्वासन देना चाहूंगा कि पैसे की कमी के कारण किसी स्कीम को रोका नहीं जायेगा ।

प्रो० नारायण चन्द पाराशर : मेरा दूसरा सवाल यह है कि उत्तर प्रदेश और दूसरे सूबों में जहां उर्दू बोली जाती है वहां पर उर्दू के उस्तादों की बड़ी कमी पाई जाती है तो क्या उर्दू के मुद्दरिसों की तर्बियत के लिए

कोई सरकारी एजेन्सी या कोई स्कीम बनाई जायेगी ?

श्री डी० पी० यादव : पिछले दो सालों में और आगामी आने वाले साल में जो शिक्षकों की बहाली के लिए पैसा दिया गया है, प्रत्येक राज्य सरकार को उममें यह आग्रह किया गया है कि उचित मात्रा में उर्दू शिक्षकों की बहाली की जाये । उत्तर प्रदेश सरकार ने आश्वासन दिया है कि प्रत्येक प्राइमरी स्कूल में एक शिक्षक बहाल कर रहे हैं ।

अध्यक्ष महोदय : पंजाब में भी करिये । मैंने उस दिन कहा था न कि स्पीकर ही कहना चाहिए और कुछ न रखिए सदर वगैरह तो उस पर "अजीत" अखबार ने लिखा है । मैं कहता हूं सरदार न कहिए । (व्यवधान) वह तीन आर्टिकल लिख चुका है । वह सदर को सरदार बना रहे हैं । (व्यवधान)

श्रीमती सावित्री श्याम : क्या उत्तर प्रदेश की सरकार ने माननीय मंत्रीजी के सामने उर्दू लाइब्रेरीज के लिए, क्योंकि उत्तर प्रदेश में काफी लोग उर्दू बोलने वाले हैं, पुस्तकें और मैगजीन खरीदने के लिए एक ठोस डिमान्ड केन्द्रीय शिक्षा मंत्रालय के सामने रखी है ? मैं जानना चाहती हूँ कि मुख्य मंत्री की तरफ से जो डिमान्ड आई है वह कितनी है और क्या वह इसी बजट सेशन में पूरी की जायेगी ?

श्री डी० पी० यादव : तत्काल हम कुछ नहीं कह सकते हैं लेकिन हम माननीय सदस्या को आश्वासन देना चाहेंगे कि हमारे फंडमर्क में जो पैसे का आवंटन कर सकते हैं करेंगे ।

श्री एस० एम० बनर्जी : स्पीकर साहब, अभी अखबार के जरिये मालूम हुआ कि हमारी वजीरे आजम लखनऊ में प० आनन्द नारायण मुल्ला, जो कि हिन्दुस्तान के मशहूर शायर हैं, उनकी हिम्मत अफजाई करने के लिए गई थीं और वहां पर उन्होंने कहा कि उर्दू ज़बान हमारी तहजीब और तमद्दुन का एक हिस्सा है तो मैं अदब के साथ पूछना चाहता हूँ मिनिस्टर साहब से कि आखिर उर्दू की तरक्की के लिए सरकार ने जो कुछ किया, मुर्कजी हुकूमत ने जो कुछ किया वह ठीक है लेकिन सूबे की सरकार क्या कर रही थी ? उर्दू ज़बान जो हिन्दुस्तान की ज़बान है, जो आमफहम है, उसकी तरक्की के लिए आखिर कौन-कौन ऐसी चीजें की जा रही हैं जिससे उर्दूदानीं को यकीन हो जाये कि उर्दू ज़बान इस हिन्दुस्तान में मरेगी नहीं ?

श्री डी० पी० यादव : चतुर्थ पंचवर्षीय योजना में हमने उर्दू के विकास के लिए

एक करोड़ रुपये का आवंटन किया था और पुनः जो हमारी पंचवर्षीय योजना है उसमें भी उतनी ही राशि आवंटित करने जा रहे हैं और तरक्की ये उर्दू बोर्ड के माध्यम से एक हाई पावर्ड कमेटी बनाई गई है जिसके गुजराल साहब चेयरमैन हैं और उनकी जो सिफारिशें होंगी उन पर सरकार अमल करेगी ।

SHRI B. S. MURTHY: May I know as to the number of southern States which have asked for financial assistance for having Urdu teachers and the money given to each State ?

SHRI D. P. YADAV : This information is not readily available with me. However, I can inform the hon. Member in writing.

DR. RANEN SEN: I want to know whether the Government is aware of the fact that in West Bengal also, particularly in Greater Calcutta, there are a large number of Urdu-speaking people. There is an organisation called "Anjuman-a-Taraki Urdu, Magrabi Bengal" Among the organisations mentioned in the Statement, I do not find any help being given to that organisation which caters to the needs of Urdu-speaking people in Greater Calcutta. May I know whether the Government has any plan to help such an organisation ?

SHRI D. P. YADAV : We shall examine their case and I assure the hon. Member that if we find it feasible to help them, we shall help them.

श्री बी० पी० मौर्य : अध्यक्ष महोदय, मैं शिक्षा मंत्री जी से जानना चाहूंगा कि इस सत्य को ध्यान में रखते हुए कि उर्दू का इरादे के साथ 25 वर्षों में कत्ले आम हुआ है उस कत्ले आम को रोकने के लिए क्या शिक्षा मंत्रालय वह तमाम सुविधायें उर्दू को देगी जो सन् 1947 से पहले उसको मिलती थीं ?

श्री बी० पी० यादव : शिक्षा मंत्रालय अपने साधनों के अन्दर जितने भी उपाय किये जा सकते हैं वह करेगा ।

SHRI B. P. MAURYA: It is not a question of resources; it is a question of policy.

अध्यक्ष महोदय, मेरा प्रश्न दूसरा है । मैंने यह पूछा है कि उर्दू का इरादे के साथ 25 वर्षों से कल्ले आम हुआ है उसको रोकने के लिए क्या शिक्षा मंत्रालय वह तमाम सुविधायें उर्दू को देगा जो सन् 1947 से पहले उसको मिलती थीं ?

शिक्षा, समाज कल्याण तथा संस्कृति मंत्री (प्रो० एस० नुरुल हसन): जनाबेवाला, गुजरातिश वाअदब यह है कि सन् 1947 से पहले जो मुर्कजी हुकूमत ने उर्दू की तरवीज और इशाअत के लिए कार्यवाई की थी उससे कई गुना ज्यादा कार्यवाई वजीरे हिद इस वक्त कर रही है । (अवधान)

श्री बी० पी० मौर्य : आप कहते हैं प्रश्न सीधा होना चाहिए तो फिर जवाब भी सीधा होना चाहिए ।

PROF. S. NURUL HASAN: You referred to the position of the Central Ministry. The Central Ministry's records have been fully examined by me, and I am making this statement with due sense of responsibility. If you hear the rest of my answer, then may be your objection or difficulties would go. The difficulty that arises is that, in official matters....

श्री एस० एस० बनर्जी : आप उर्दू में बोलिये ।

प्रो० एस० नुरुल हसन : हुजुरेवाला, क्या करूं जब उर्दू बोलता हूं तो लोग समझते नहीं हैं, समझाने की कोशिश कर रहा हूं । जो उर्दू के हमदर्द हैं वह जानते हैं कि उर्दू में कितनी नफ़ासत है । उर्दू ज़बान में बड़ी लोच है, बड़ी लचक है, बड़ी नफ़ासत है । अब अगर उस पर कोई गौर न करे तो मुझे मजबूर होकर अंग्रेजी में बोलना पड़ता है ।

अध्यक्ष महोदय : आप नफ़ासत में ही बात करें ।

प्रो० एस० नुरुल हसन : जनाबेवाला, अर्ज यह है कि सरकारी उमूर में जो उर्दू के लिये सहूलियतें होनी चाहिये थीं उनका पूरी तरह से इंतजाम अभी तक नहीं हुआ, एक बात । दूसरी बात यह है कि इब्तदाई तालीम के लिये जो इन्तज़ाम होने चाहिए थे वह पूरी तरह इस जमाने में नहीं हुए । इस बात को मद्देनज़र रखते हुए, और यह भी मद्देनज़र रखते हुए कि लिंगुयिस्टिक माइनारिटीज़, जो ज़बानी अकलियत हैं, उनके तहफ़्फ़ुज़ की जिम्मेदारी होम मिनिस्ट्री की है, होम मिनिस्ट्री ने और एजुकेशन मिनिस्ट्री ने एक साथ मिल करके एक कमेटी कायम की है, गुजराल साहब की सदारत में, जो तालीमी पहलू पर भी गौर कर सकती है, और इस पहलू पर भी गौर कर सकती है कि सरकारी ममलात में उर्दू को उसकी मुनासिब जगह दी जा रही है या नहीं दी जा रही है ।

इसके अलावा मैं यह अर्ज कर देना चाहता हूं कि वह सूबे कि जहां पर उर्दू बोलने वालों की तादाद काफ़ी है, मसलन जैसे उत्तर प्रदेश, वहां पर इस साल में

इतनी कार्यवाही हो चुकी है कि अहकामात जारी कर दिये गये हैं कि आने वाले साल में तकरीबन 30,000 उर्दू के उस्ताद प्राइमरी स्कूलों के लिए मुकर्रर हो जायेंगे ।

श्री मोहम्मद इस्माइल : यह चुनाव की वजह से किया जा रहा है ।

प्रो० एस० नूरुल हसन : चुनाव की वजह से नहीं, यह तो हमने 1971 में कहा था, और उस वक्त से अमलदरामद किया जा रहा है वरना हथेली पर सरसों तो उगायी नहीं जा सकती । तैयारी करते करते होती है तब जाकर उसका निफ़ाज होता है ।

दूसरी चीज़ जनाबेबाला, यह है कि यू० पी० की सरकार ने जिस बात का ऐलान किया है वह यह है कि जो पुराने मक़तब थे वहां उर्दू के जरिए तालीम दी जाती थी, और जो अभी तक ग्रान्ट के पाने के मुस्तहक नहीं थे उनके लिये अहकामात जारी किये हैं कि इनकी पूरी तफ़सील बना करके और इनको ग्रान्ट दी जाय और जो किसी वजह से उस मेअर पर नहीं आ सकते हैं उनको इस मेअर पर लाने की जल्द-अज़-जल्द कोशिश की जाय । यह अहकामात यू० पी० सरकार ने जारी कर दिये हैं । उर्दू ऐकेडमी उन्होंने बनायी है और उर्दू ऐकेडमी ने उर्दू की तरवीज़ और तरक्की, दोनों कार्यों के लिए काफी कदम उठाये हैं, और यह वह काम है जो तरक्किये उर्दू बोर्ड, जो मरकज़ी सरकार का कायमशुदा है, उस से बढ़ कर के है, उसके अलावा है । मगर दोनों एक दूसरे से राबता कायम किये हुये हैं ताकि यह न हो कि एक ही काम को दोनों आदमी

करें । जो एक काम बोर्ड कर रहा है, ऐकेडमी उस काम के अलावा दूसरा काम कर रही है ताकि कुल मिला कर के जो पैसा खर्च हो रहा है उसका ज्यादा से ज्यादा फ़ायदा उर्दू बोलने वाले, उर्दू समझने वाले उठा सकें ।

श्री बी० पी० मौर्य : अध्यक्ष महोदय, मेरा व्यवस्था का प्रश्न है, क्योंकि दुबारा आप मुझे खड़ा नहीं होने देंगे ।

अध्यक्ष महोदय : अब छोड़िये मौर्य जी, इतनी देर लग गई है ।

श्री बी० पी० मौर्य : मान्यवर मेरा प्रश्न यह है कि जिस समय सदस्य प्रश्न करते हैं तो आपका सीधा उन पर दबाव होता है कि सीधा सीधा सवाल कीजिये । मैंने सीधा सवाल किया था लेकिन उसका उत्तर नहीं आया आपका वह दबाव मंत्रीजी पर भी होना चाहिये कि सीधा उत्तर दें, इधर उधर का गाना न गायें । मेरा प्रश्न यह था कि उर्दू को इरादे के साथ कल्ल किया गया है । 1947 से पहले उर्दू को एक खास स्थान था । क्या सरकार उस स्थान को उर्दू को देगी ? यह मेरा सवाल था, जवाब जाने क्या आया ।

अध्यक्ष महोदय : अब छोड़िये उसको । उन्होंने काफ़ी तफ़सील के साथ बयान किया है । (व्यवधान)

श्री बी० पी० मौर्य : शशि जी, मैं अपना जीब जानता हूँ (व्यवधान) मेरी तो सीतेली मां है, आप की तो सगी मां है ।

अध्यक्ष महोदय : आप छोड़िये इस बात को ।

श्री बी० पी० मौर्य : मेरा सवाल सीधा यह है कि 1947 से पहले मंसिफ्री, पी० सी० एस० आदि के कम्पीटीटिव ऐग्जामिनेशन में उर्दू के 100 नम्बर हुआ करते थे । वह नम्बर क्या कम्पलसरी आप रखेंगे या नहीं ?

प्रो० एस० नूरुल हसन : जनादेवाला, जो अहकाम है उस में जो कामों का बंटवारा हुआ है, इन इम्तिहानों का ताल्लुक मेरी वज्जारत से नहीं है ।

श्री एस० एस० बनर्जी : अध्यक्ष महोदय, यह लिखा उर्दू में जायेगा या हिन्दी में लिखा जायगा ?

अध्यक्ष महोदय : कौन सा जी ?

श्री एस० एम० बनर्जी : आपने जो इसरार किया कि उर्दू जवान में बात करें, और बहुत ही सलीस उर्दू में जवाब दिया । वह अगर हिन्दी में लिखा जायगा तो कोई तलफुज भी सही नहीं होगा । आप सोच लीजिये कि क्या होगा ।

श्री जगन्नाथ राव जोशी : हिन्दी में लिखा जायगा तो कम से कम हम भी पढ़ सकेंगे । फ़ारसी में लिखा गया तो हम उस का मज्जा नहीं ले सकेंगे ।

श्री एस० एम० बनर्जी : मैं आपसे गुज़ारिश करूंगा कि हर जवान का तर्जुमा किया जाता है तो साहब कम से कम यहां पर लिखने वाले उर्दू जवान में लिखें ताकि लोगों

को महसूस हो कि ऐवान में अगर कोई उर्दू जवान में सवाल करता है तो उर्दू में लिखा जाता है ।

अध्यक्ष महोदय : उर्दू और हिन्दी मिलती जुलती है । लेकिन आपने मगबरा अच्छा दिया है, मैं इसको देखूंगा ।

श्री एस० एम० बनर्जी : अध्यक्ष महोदय, मैं जानता हूं और मैंने खुद पढ़ा है कि तारिक साहब ने उर्दू में स्पीच दी थी वह उर्दू में लिखी गयी थी ।

अध्यक्ष महोदय : हां, यह ठीक है । मैं इसके बारे में दोबारा गौर करूंगा ।

श्री शशि भूषण : मैं जानना चाहता हूं कि बावजूद उर्दू का बुरा चाहने वालों के बावजूद सरकारी संरक्षण न मिली उन को, उसके बावजूद भी उर्दू हिन्दुस्तान में पढ़ने वाले ज्यादा बढ़े हैं, अखबार ज्यादा बढ़े हैं, आज़ादी से पहले से ज्यादा किताबें छपी हैं । इसके साथ साथ मैं यह जानना चाहूंगा कि आदिर उर्दू पढ़ कर लोग क्या करें, इस सिलसिले में भी आप कोई अपनी राय जाहिर करें कि पढ़ कर अगर नौकरियां नहीं मिलेंगी तो लोग उर्दू क्यों पढ़ेंगे ?

प्रो० एस० नूरुल हसन : जनादेवाला, मेरी वज्जारत का ताल्लुक सिर्फ़ टीचर्स की तकरीरी से है । उस सिलसिले में अगर कोई कोताही हुई हो तो माननीय सदस्य जरूर फ़रमायें ।

श्री शशि भूषण : मैं जानना चाहता हूं कि आज़ादी के बाद उर्दू पढ़ने वालों की तादाद बढ़ी है कि नहीं ?

डा० कैलाश : जनाब स्पीकर साहब, मैं यह जानना चाहता हूँ कि कितनी अजियां सरकार को दी गई थीं जिनको कि मंजूरी नहीं मिली जाहिर है उनको खपया नहीं दिया गया। यह मंत्रीजी को बताना चाहिये। सवाल यह किया गया है कि कितनी अजियां आयीं और कितनों को आपने नामंजूर किया, यह बताइये ?

श्री डी० पी० यादव : माननीय सदस्य को यह सूचना दी जायगी।

Expansion of activities of Shipping Corporation of India

* 662. DR. RANEN SEN:

SHRI BHAGWAT JHA AZAD:

Will the Minister of SHIPPING AND TRANSPORT be pleased to state:

(a) whether the scheme to expand the activities of the Shipping Corporation of India during the Fifth Plan has been finalised.

(b) if so, the main features thereof and

(c) what is the additional tonnage expected to be added during the Fifth Plan and the total expenditure expected to be incurred in this respect ?

THE MINISTER OF SHIPPING AND TRANSPORT (SHRI RAJ BAHADUR):

(a) to (c). The expansion scheme of the Shipping Corporation of India in the Fifth Plan will depend upon the final shape of the Fifth Plan. The Shipping target in Fifth Plan is yet to be finalised.

DR. RANEN SEN: May I know whether the recent orders given to foreign countries for building ships for India included in the Fourth or the Fifth Plan ?

If they are included in the Fourth Plan, what is the actual target achieved now and what is the target achievable at the end of the Fourth Plan ?

SHRI RAJ BAHADUR: Not at the end of the Fourth Plan, but, as a result of the mid-term Appraisal of the Fourth Plan, we have been permitted to place certain additional orders to the extent of 8 lakhs and the present position would be that at the end of the Fourth Plan we would have, so far as the Shipping Corporation of India is concerned, 110 ships of 15 '64 GRT.

So far as the Shipping Corporation is concerned.

DR. RANEN SEN: May I know whether or not the present units that are building ships in India are geared up to take the orders of the new ships that are planned in the Fifth Five Year Plan ? What are the specific schemes that are taken up ? Which are the units which are going to be expanded ?

SHRI RAJ BAHADUR: Every effort has been made over the years to do that. But as hon. Members know, ship building is a highly sophisticated industry and it is a specialised type of industry which requires special know-how which every country is not prepared to share. So far as the Hindustan Shipyard is concerned, we have plans to expand it and to improve upon its performance. The shipyard at Cochin is there with Japanese collaboration; we have got Mazagaon Dock where two passenger ships are being built with our own designs; Garden Reach workshop is also being expanded. Now we have got a big Dock there which will be able to cater up to about 25,000 tonnes DWT.

श्री राम सहाय पांडेय : मैं जानना चाहता हूँ कि क्या यह सच है कि मजगांव डाक में गहरे समुद्र में मछली पकड़ने के जो जहाज होते हैं, जिनको शायद ट्रालर कहा जाता

है, उनको बनाना आपने शुरू कर दिया है ? यदि यह सच है तो कितनी मिकदार में और कहां आप हमारी आवश्यकता को पूरी करेंगे ? क्या यह सच है कि फूड मिनिस्ट्री ने भी आपसे कहा है कि आप ज्यादा से ज्यादा ट्रालर उनको दें ताकि मछली पकड़ने का काम तेजी से चल सके ?

श्री राज बहादुर : जहां तक मजगांव डाक का सवाल है यह रक्षा मंत्रालय के तत्वावधान में आता है उनकी कितनी गिनती है, यह मैं नहीं बतला सकूंगा बाकी जो सूचना माननीय सदस्य ने दी है, वह मझे स्वीकार्य है ।

SHRI P. VENKATASUBBAIAH: He did not enlighten us about any specific measures that are taken so far. I want to know as to what steps have been taken by him so far as the ship building yard at Vizag is concerned. What sort of expansion programme have you envisaged ? What are the orders you have received ? Will you be in a position to fulfil the commitments made ? If so, by what time ?

SHRI RAJ BAHADUR: Our ship-building capacity is 3 ships on an average in the Hindustan Ship-building yard and we want to increase it to 6 ships. As hon. Members are aware, as I said, ship-building industry itself is a highly sophisticated and complex industry. Not only the hull of the ship but there are thousands and thousands of parts, equipments, components etc. We are self-sufficient indigenously to the extent of 50 per cent. When the Diesel Engine Factory comes up this percentage will go up to 70 per cent. But even then 30 per cent of components etc. will have to be imported. Ship-building has to go with the ancillary and auxiliary industries together. It is our effort, by various means, by organising exhibitions, by inducing

people to get interested, by making entrepreneurs become aware of these possibilities and to get interested. But the main question is that any such industry should be an economically viable unit. As I have already said about the Vizag yard that we want to increase the capacity to six ships.

SHRI DINESH JOARDER: About Haldia, may I know whether there will be a full-fledged ship-building yard there in future ? What will be its capacity ? What will be its production ? When will this be completed ? Has he got any proposal of that kind with him ?

SHRI RAJ BAHADUR: A working group was set up for Haldia, to examine this question, whether a shipyard could be located there or not. They appointed a sub-committee which went deep into this study. The report of the technical sub-committee has been received. It has been examined. Now Government will consider the recommendations of this committee.

SHRI B. K. DASCHOWDHURY: What are the recommendations about ?

SHRI RAJ BAHADUR: Whether it can be located there and other allied things.

SHRI D. D. DESAI: In view of the fact that we are spending a large amount of foreign exchange on importing ships of large tonnage (upto one million tonnes), and also because of the fact that our existing shipyards have been projected with slipways which do not permit a keel-lying capacity more than 25,000 tonnes, would the Minister consider either in the public sector or the joint sector or in the private sector establishment of shipyards for manufacture of ships exceeding 100,000 dwt on the coast of Gujarat ?

SHRI RAJ BAHADUR: As for the question of having shipyards in the private sector, under the Industrial Policy Resolution of 1956, shipyards are all to be in the

public sector, not in the private sector. As for our tonnage, it is not one million tonnes; it has increased from 2 lakh tonnes GRT in 1947 to 26.40 lakh tonnes GRT now in operation.

SHRI D. D. DESAI: I am referring to ships of large tonnage.

SHRI RAJ BAHADUR: We have *Lal Bahadur Shastri* and *Jawaharlal Nehru* tankers of 87,000 tonnes. We have got another of 100,000 to 104,000 tonnes, the latest orders placed with a Yugoslav Shipyard are for two vessels whose tonnage would be 269,000 dwt each.

Committee/Commission to enquire into working of Food Corporation of India

*663. SHRI BIRENDER SINGH RAO: Will the Minister of AGRICULTURE be pleased to state:

(a) whether there is any proposal under consideration of the Government to set up a Committee or Commission to enquire into the working of Food Corporation of India so as to improve its efficiency; and

(b) if so, its composition and terms of reference?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHAB P. SHINDE): (a) and (b). There is no such proposal before the Government. However, a committee of officials has been constituted to examine the procurement and distribution incidentals of the Food Corporation of India. Statement laid on the Table of the Sahba gives details in respect of this committee.

Statement

A committee under the Chairmanship of Union Food Secretary has been constituted in the Department of Food with Secretary, Ministry of Finance and Secretary, Planning Commission as Members

and Managing Director, Food Corporation of India as Member Secretary. This committee will examine the procurement and distribution incidentals charged by the Food Corporation of India for handling the Central stocks of foodgrains.

The terms of reference of the committee are as under:—

- (i) to examine the reasonableness of the procurement and distribution incidentals incurred by the FCI in undertaking the various operations on behalf of the Central Government;
- (ii) make specific recommendations regarding the measures that can be adopted to reduce the unit cost of operations by the Food Corporation of India;
- (iii) examine the incidentals charged by the FCI relating to the operations undertaken on behalf of the State Governments and suggest ways and means of reducing the same; and
- (iv) examine the present subsidy burden and its further continuance and recommend suitable measures that should be adopted in progressively reducing the burden of subsidy.

SHRI BIRENDER SINGH RAO: The hon. Minister has stated that a Committee has been appointed to examine the procurement and distribution incidentals charged by the FCI and the terms of reference of the Committee have a bearing only on the Financial aspects of the working of the Food Corporation of India. I would like to know whether there have been serious complaints of malpractice and corruption against the former Chairman of the Food Corporation and also against the Managing Director and whether it is not a fact that the Chairman of the Food Corporation had to make a sudden exit. Does this not mean that there was a *prima*

facie case against the Chairman? If so, what steps Government are taking to improve the administrative working of the Corporation and to plug loopholes that result in corruption?

SHRI ANNASAHEB P. SHINDE: A new Chairman has been appointed now. If there are any specific suggestions the hon. member wishes to make, we would welcome them. As for the other issues, they were fully debated on the floor of the House.

SHRI BIRENDER SINGH RAO: I did not quite follow. Are Government considering the charges that were made against the working of the Food Corporation when allegations were levelled against the former Chairman, and what is the stage of consideration? Is it not also a fact that there were charges against the Managing Director also and the same Managing Director has been appointed as Member-Secretary of this new Committee set up by Government? Why did not Government think it proper to appoint the present Chairman to the Committee? There must be somebody working as Chairman, as the hon. Minister stated, but he does not find a place on this Committee whereas the Managing Director, against whom there were serious accusations, is the Member-Secretary of this Committee, was not the present Chairman appointed as a member of this Committee?

SHRI ANNASAHEB P. SHINDE: This committee was set up earlier. May I assure the hon. Member that if there are any specific charges against anybody, however high-placed he may be, the Government will not hesitate to take action against anybody. As far as the enquiry is concerned, the CBI is still making enquiries, and when the report comes, naturally, we will take the House into confidence. (Interruption) If there are any specific charges, nobody will be spared.

SHRI BIRENDER SINGH RAO: Specific charges against the managing

director were brought before this House also.

SHRI ANNASAHEB P. SHINDE: If there are any specific charges against anybody, I said we will go into them.

श्री शंकर दयाल सिंह : मंत्रीजी ने बताया है कि भारतीय खाद्य निगम के कुछ पदाधिकारियों के खिलाफ कुछ चार्जिज आये थे जिन की जांच हो रही है। जिन के ऊपर जांच हो रही है उनमें से कितने ऐसे अधिकारी हैं जो अभी भी भारतीय खाद्य निगम में काम कर रहे हैं? आप उनको जब तक उनके खिलाफ चार्जिज की जांच हो रही है अपने पदों से हटा क्यों नहीं देते हैं, अलग क्यों नहीं कर देते हैं?

SHRI ANNASAHEB P. SHINDE: It is a suggestion for action. We will find out from the CBI whether for an impartial enquiry any such action is desirable. We will take necessary action.

श्री शंकर दयाल सिंह : चेयरमैन को तो आपने हटा दिया लेकिन पदाधिकारियों को जिनके ऊपर चार्जिज हैं, आप रखे हुये हैं? ऐसा क्यों? खाद्य की समस्या को ले कर सारे देश में हाहाकार मचा हुआ है। सरकार इसकी गम्भीरता को बिल्कुल समझ नहीं रही है

MR. SPEAKER: Order, please. Mr. Sanghi.

SHRI N. K. SANGHI: May I know from the hon. Minister, in view of the serious irregularities in the working of the Food Corporation, whether they are thinking of bringing the working of the Food Corporation under the control of the Comptroller and Auditor-General of India, so that the matter may be put on a proper footing? Are you thinking in this direction and will you have any proposition to bring it under the accountability of the Comptroller and Auditor-General of India?

SHRI ANNASAHEB P. SHINDE: This House has approved of the law and the Auditor-General has been authorised to go into accounts of the FCI, according to the amended Act which was unanimously endorsed in this House. As far as the current position is concerned, a sub-committee of financial experts has been appointed to go closely into the financial aspects of the FCI.

SHRI SAMAR GUHA: In the course of the reply to the debate on the 4th September last, the hon. Minister of Agriculture assured this House that the entire matter in regard to the functioning of the FCI will be probed into and the facts will be placed before the House. It is about eight months since then, and in between, a vital decision of taking over the foodgrains trade has been taken by the Government. They have formed a committee and still the committee is examining the whole issue. I want to know, in view of the serious decision taken by the Government, whether this committee is going to finalise this probe quickly and make final recommendations soon and whether any interim report has been got from this committee. According to the audited accounts, 25 per cent expenditure of the FCI is wasted and 25 crores of gunny bags are given free to mills, rollers and traders. If so, what steps have the Government taken and may I also know whether an interim report will be given?

SHRI ANNASAHEB P. SHINDE: The contention about the gunny bags is not correct obviously, because the wheat is being sold to the State Governments including the gunny bags. That has been the basis historically. But now, as the hon. Member himself is aware, all the products of the flour mills are to be taken over by the Government. They will have no freedom to sell, and the State Governments have been authorised to sell the products from the rollers and the flour mills through the public distribution system. Their freedom to sell it in the open market has been taken away. A small group of financial

experts are going into it and they are expected to submit a report within two months.

SHRI SAMAR GUHA: It is already eight months and it is going to have catastrophic consequences for the country. Why should they delay it by two more months to give their conclusions?

SHRI ANNASAHEB P. SHINDE: A detailed examination of all the facts has to be made and I am prepared to place before the hon. Member if he wants the reasons they want more time, I also feel that financial experts should be given adequate time to examine in detail all aspects of the operations. If there is any kind of wastage, I do not agree with the hon. Member that wastage is 25 per cent. I shall be glad to have information on that from the hon. Member.

Request from Rajasthan Government to take over relief work

*664. **SHRI P. GANGADEB:**
SHRI SHRIKISHAN MODI:

+

Will the Minister of AGRICULTURE be pleased to state:

(a) whether Rajasthan Government has requested the Centre to take over the relief work in Rajasthan; and

(b) if so, whether the Centre has agreed to the proposal?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE):
(a) No, Sir.

(b) Does not arise.

SHRI P. GANGADEB: I should like to ask the hon. Minister whether the State of Rajasthan has been able to utilise effectively the assistance given by the Centre for drought relief, and at the same time, what has been the contribution of the State Government in terms of money and effort?

SHRI ANNASAHEB P. SHINDE: According to my latest information, the State Government has spent about Rs. 15 crores; about Rs. 11 crores have been advanced from the Central Government and with this money the State Government is doing its best to provide relief. The number of persons working on relief works has reached 6.98 lakhs.

SHRI P. GANGADEB: May I also ask whether the Government are going to introduce intensive dry farming as a measure of permanent relief from the continuous drought in that region and if so what are the broad details and the next step contemplated in this regard?

SHRI ANNASAHEB P. SHINDE: The steps contemplated are well-known: soil conservation, water conservation, afforestation and wherever possible minor irrigation. Some of these projects have already been taken up by the Rajasthan Government.

श्री शिवनाथ सिंह : क्या राजस्थान सरकार ने आप से यह आग्रह किया है कि पक्की सड़कों के काम को हाथ में लिया जाये और उसमें लेबर और मैटीरियल कम्पोनेंट जो आपने तीस परसेंट निर्धारित किया है, उसको एक्सटेंड किया जाये ताकि राजस्थान की भौगोलिक स्थिति को देखते हुये वहां यूटिलिटी की सड़कें बनाई जा सकें ? क्या आपने इसके बारे में कोई निर्णय लिया है ?

SHRI ANNASAHEB P. SHINDE: The approach of the Government of India is not to take up road works, as far as possible, but to take up productive works. I have already submitted earlier that Rajasthan is one of the areas where people are subjected to recurrent droughts because of the weather conditions there and the only way is to provide permanent relief to people and that is possible only by

taking productive works. As far as productive works are concerned, we should like to support the Rajasthan Government to the extent possible. As far as roads are concerned our advice to them would be to reduce works on road because under Rajasthan conditions most of the roads get eroded and sometimes roads disappear in a short time.

श्री फूलचन्द वर्मा : राजस्थान में पिछले अनेक वर्षों से सूखा पड़ता आ रहा है। राजस्थान कैनल का काम भी अनेक वर्षों से चला आ रहा है। उसके सम्बन्ध में यह कहा जाता है कि ** (व्यवधान)

MR. SPEAKER: No, please. I am not going to allow it. I have not allowed it. There is no relevance in this.

श्री फूलचन्द वर्मा : मंत्री महोदय ने कहा है कि वह सड़क बनाने के काम को प्रोत्साहन नहीं देना चाहते हैं। मैं यह जानना चाहता हूं कि... (व्यवधान)

अध्यक्ष महोदय : यह इस सवाल से कैसे पैदा होता है ? माननीय सदस्य हर बात में पालिटिक्स को ले आते हैं। (व्यवधान)

So far as the remarks against some head of the State are concerned, they will not form part of the records according to the rules. And that is not relevant at all.

श्री फूलचन्द वर्मा : मैं रिलिवेंट सवाल पूछ रहा हूं। जो कुछ मैंने कहा है, वह सत्य है।

राजस्थान की स्थिति बाकी देश से बिल्कुल भिन्न है। वहां पर लोग अकाल से मर रहे हैं। मंत्री महोदय ने कहा है कि वह

सड़कों के लिये विशेष प्रावधान नहीं कर रहे हैं। मैं यह जानना चाहता हूँ कि क्या मंत्री महोदय राजस्थान नहर को युद्धस्तर पर तैयार करने के लिये कोई विशेष अनुदान या ऋण केन्द्र से देना चाहते हैं, या क्या इस प्रकार की कोई योजना सरकार के विचाराधीन है।

SHRI ANNASAHEB P. SHINDE: We have suggested to the Rajasthan Government that a maximum number should be employed on the Rajasthan Canal. I am glad that the Rajasthan Government is sincerely trying to implement our suggestion.

श्री मूलचन्द डागा : मैं यहाँ जानना चाहता हूँ कि राजस्थान जैसे विशाल राज्य में, जहाँ ज्यादा नदियाँ नहीं बहती हैं, और ज्यादा सिंचाई के काम नहीं किये जा सकते हैं, सरकार रोड्ज के काम को उपयोगी क्यों नहीं समझती है, क्योंकि जब तक रोड्ज का काम नहीं होगा, तब तक लोगों को काम नहीं मिलेगा और वे भूखों मरेंगे।

THE MINISTER OF AGRICULTURE (SHRI F. A. AHMED): May I just make the position clear? So far as construction of roads is concerned, we have not completely stopped the work of construction of the roads. The latest instruction issued, after consulting the Finance Department and the Planning Commission, is that whatever expenditure on the drought relief has to be incurred, that should be incurred on productive work. And where that work is available, then the question of construction of roads does not arise.

श्री राम कंवर : राजस्थान में अकाल की स्थिति भयंकर है। मंत्री महोदय ने जवाब

में कहा है कि राजस्थान सरकार ने 15 करोड़ रुपया खर्च किया है और केन्द्रीय सरकार ने 11 करोड़ रुपया दिया है। मैं यह जानना चाहता हूँ कि 11 करोड़ रुपये में से कितना खर्च हो गया है और क्या राजस्थान सरकार ने केन्द्र से और रुपये की मांग की है, ताकि वहाँ की जनता अकाल की स्थिति से छुटकारा पा सके।

SHRI ANNASAHEB P. SHINDE: I have said that Rs. 15 crores have already been spent by Rajasthan Government. Rs. 11 crores have been advanced by the Central Government. As the Rajasthan Government goes on incurring expenditure, naturally the Central Team which would be scrutinising the expenditure will, from time to time, make more advances.

Report of Working Group of National Commission on Agriculture regarding need-based minimum Wage for Agricultural Labourers.

+

*665. SHRI BIBHUTI MISHRA: SHRI NARENDRA SINGH:

Will the Minister of AGRICULTURE be pleased to state:

(a) whether the Working Group of the National Commission on Agriculture has submitted the Report on the need-based minimum wage for agricultural labourers and creating more employment opportunities for them in the rural areas; and

(b) if so, the main features thereof?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE): (a) and (b). The Working Group on Agricultural Labour constituted by the National Commission on Agriculture has not yet submitted its report to the Commission on various issues referred to it.

श्री विभूति मिश्र : पे कमीशन की रिपोर्ट के लिये बड़ा हल्ला होता था, हालांकि उसका सम्बन्ध केवल तीस लाख लोगों से था। इसकी तुलना में एग्रीकल्चर में हिन्दुस्तान के 75 फीसदी लोग काम कर रहे हैं, जो या तो मजदूर हैं और या मजदूर-कम-एग्रीकल्चरिस्ट हैं। मैं यह जानना चाहता हूँ कि इसकी रिपोर्ट के बारे में सरकार की तरफ से क्यों देरी की जा रही है। अगर वह रिपोर्ट जल्दी से जल्दी आ जाये और उसका इम्प्लीमेंटेशन हो सके, तो एग्रीकल्चरल लेबरर्स को राहत मिलेगी।

SHRI ANNASAHEB P. SHINDE: He is a senior member and he knows that this working group has been appointed by the National Commission on Agriculture. It will submit its report to the National Commission on Agriculture and then in turn the Commission will be submitting it to the Government.

श्री विभूति मिश्र : सरकार ने उस कमीशन को बहाल किया है। मारा दफ्तर सरकार का है। वह रिपोर्ट कोई कलकत्ता या बम्बई से नहीं आयेगी। वह यहां ही एक जगह से दूसरी जगह जायेगी। कोई भी साइकिल या कार पर जा कर उस रिपोर्ट को ला सकता है। मैं यह जानना चाहता हूँ कि क्या कृषि मंत्री इस बारे में कमीशन से तकाजा कर के उससे वह रिपोर्ट ले कर उसको जल्दी से जल्दी कार्यान्वित करने के लिये तैयार हैं, ताकि एग्रीकल्चरल लेबरर्स को नीड-बेस्ड मिनिमम वेज और एम्प्लायमेंट मिले; यदि हां, तो वह कितने दिनों में—क्या इसी सेशन में—उस रिपोर्ट को सदन के सामने रखने के लिये तैयार हैं।

SHRI ANNASAHEB P. SHINDE: We shall take it up with the National Commission on Agriculture. The hon. Member himself is a member there. But formally also we will take it up.

SHRI S. M. BANERJEE: Since the demand for need-based minimum wage has been rejected by the Pay Commission even in the case of industrial employees, I want to know whether the minimum wage paid by the various States is too low to cope with the rising prices and whether the Government has issued or will issue any directive to the States that the minimum wage paid to agricultural labour should reflect the realities to some extent and should compensate the rising prices in the country?

SHRI ANNASAHEB P. SHINDE: This matter is dealt with by the Labour Ministry. Of course, the view of my Ministry is that the present level of minimum wages is really low. We would very much like to upgrade it.

SHRI PILOO MODI: May I know whether it is true and it has come to the knowledge of Government that Gujarat Government which had set down a Rs. 3 per day minimum wage for agricultural labour refuses to pay that amount itself to those who are employed on scarcity works?

SHRI ANNASAHEB P. SHINDE: It is true Gujarat Government fixed a minimum wage of Rs. 3. In fact, in some other States it is still lower. But the problem of minimum wage is different from scarcity works.

SHRI PILOO MODY: He said minimum wages for agricultural labour is one thing but wage given for scarcity work is quite another. May I know whether his comprehension of the term 'minimum' applies to all activities or it is possible even to go below the minimum when Government itself is involved?

MR. SPEAKER: This question is about the report being submitted.

SHRI MADHURYA HALDER: Government allocated some money for crash programmes to give employment to agricultural labour and with some other objectives. May I know whether his Ministry has made any study as to how far this crash programme scheme has been able to increase employment opportunities and the wages of agricultural labour ?

SHRI ANNASAHEB P. SHINDE: I would request the hon. Member to put a separate question.

श्रीमती सहोदरा बाई राय : जो तीन रुपया मजदूरी मंत्री महोदय ने रखी है मैं जानना चाहती हूं कि उसमें कुछ महिलायें भी काम करती हैं तो क्या उनको बराबर रुपया मिलता है ?

अध्यक्ष महोदय : इस प्रश्न में तो रिपोर्ट सबमिट करने की बात है । उसमें अगर कोई महिला है तो उसके बारे में भी जरूर होगी ।

श्री शशि भूषण : महिलाओं को कम पैसा दिया जाता है ।

SHRI RANABAHADUR SINGH: I would like to be enlightened whether the Group which is going into the question of fixing the minimum wage for agricultural labourers will do so by going round the country and discussing the agricultural problems and making inquiries on the spot ?

SHRI ANNASAHEB P. SHINDE: This Group is already moving in various parts of the country.

श्री डी० एन० तिवारी : मैं जानना चाहता हूं कि मंत्री महोदय जो मिनिमम वेज ऐक्ट के अनुसार मजदूरी देने को कहते हैं उसके अनुसार ऐग्रीकल्चरल प्रोड्यूस का दाम

निर्धारित करते हैं या जो अभी कम रेट पर मजदूरी दी जाती है उसके अनुसार निर्धारित करते हैं ?

अध्यक्ष महोदय : इसमें तो इन्होंने वर्किंग ग्रुप की रिपोर्ट के बारे में पूछा है कि रिपोर्ट आ गई है या नहीं ।

श्री डी० एन० तिवारी : अध्यक्ष महोदय, जो भी ऐग्रीकल्चरल प्रोड्यूस का दाम आज निर्धारित किया जाता है वह समूचा खर्चा मिलाकर निर्धारित किया जाता है, तो मैं जानना चाहता हूं कि जो मिनिमम वेज मजदूरों को देने की बात कही जाती है उसके अनुसार वह निर्धारित किया जाता है या दूसरे तरीके से ?

SHRI ANNASAHEB P. SHINDE: Wage is one of the very important elements in the cost of production. Unfortunately, the present minimum wage structure is lower than the prevailing wage structure. What the Agricultural Prices Commission takes into consideration is the prevailing wage structure.

SHRI N. K. P. SALVE: Since the Minister enjoys the reputation of not merely a progressive agriculturist but a very knowledgeable person in agriculture, may I know whether he accepts that the agricultural labour is the most exploited section amongst the labourers in this country ? The Minister says that the other Ministries are also concerned with this problem. But since this is his prime responsibility, may I know by what time shall we have a semblance of an end to this exploitation of the agricultural labour ?

SHRI ANNASAHEB P. SHINDE: It is true that they happen to be the most down-trodden section of society. Therefore, they really deserve the sympathy of all. When the report of the Working Group

of the National Agricultural Commission is received, the Government will naturally give the highest importance to this problem.

परीक्षा प्रणाली को समाप्त करने के बारे में विश्वविद्यालय अनुदान आयोग का निर्णय

* 667. श्री चिरंजीव झा : क्या शिक्षा, समाज कल्याण और संस्कृति मन्त्री यह बताने की कृपा करेंगे कि :

(क) क्या विश्वविद्यालय अनुदान आयोग ने वर्तमान शिक्षा प्रणाली को समाप्त करने का निर्णय किया है, और

(ख) यदि हां, तो आयोग के उक्त निर्णय के अनुसार कक्षा उत्तीर्ण करने के लिए क्या कसौटी अपनाई जाएगी ?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) and (b). A statement is placed on the Table of the Sabha.

Statement

The University Grants Commission has taken a number of steps for improving the present system of examinations with a view to improving their reliability, validity and objectivity.

2. Lately, a Working Group had been appointed by the Ministry of Education and Social Welfare to examine the reports of the various Committee on Examination Reform set up by the Government, University Grants Commission, Inter-University Board, etc. The Group in its final report entitled "Examination Reform—a Plan of Action" has suggested some

important general principles on which the new or the desirable pattern of examinations must be based. The Group has also made important recommendations for improvement of examination conducted by different types of Universities and also for examination at the Elementary and Secondary stages. Some important issues like Internal Assessment, Marks and Grade, National Examination and Question Banks have been discussed.

3. The University Grants Commission has generally endorsed the recommendations and suggestions made in the report and has appointed an Implementation Committee to take steps to implement them. The report of the Working Group has also been circulated to all the State Governments to take immediate steps to implement these recommendations with necessary modifications as may be necessary to suit local conditions.

श्री चिरंजीव झा : अध्यक्ष महोदय, जो उत्तर उन्होंने दिया है उस सिलसिले में मैं यह जानना चाहता हूँ कि देश में शिक्षा के स्तर की गिरती अवस्था को देखते हुए शिक्षा-प्रणाली में आमूल परिवर्तन तथा परीक्षा प्रणाली में भी अनुकूल परिवर्तन के सम्बन्ध में आज शिक्षा प्रेमी बहुत ही चिन्तित हैं, तो क्या इस महत्वपूर्ण विषय पर ठीक से विचार करने के लिए कार्यकारी दल के प्रतिवेदन की एक प्रति संसद सदस्यों को भी दी जाएगी ?

PROF. S. NURUL HASAN: Sir, I will be glad to place on the Table of the House the report of the Working Group and the resolution which has been adopted thereon by the University Grants Commission.

श्री चिरंजीव झा : क्या आयोग ने वर्तमान शिक्षा-प्रणाली को समाप्त कर छात्र के सतत एवं सही अध्ययन-कार्य व कक्षा

में प्रदर्शित प्रगति को श्रेणी पास करने का आधार मानने का निर्णय ले लिया है? दूसरे, क्या आयोग ने यह सिद्धान्त भी स्वीकार कर लिया है कि कालेजों को स्वशासन दिया जाए और शिक्षा का स्तर ऊंचा बनाए रखने के लिए सुविधाएं दी जायें?

PROF. S. NURUL HASAN: So far as the details of these questions are concerned, they are under the consideration of the University Grants Commission as a part of the Fifth Plan.

SHRI PILOO MODY: I would like to know whether it is in pursuance of the decision taken by the University Grants Commission to abolish the examination system that the Aligarh Muslim University has been closed down? (*Interruption*)

PROF. S. NURUL HASAN: Am I supposed to reply in the same way in which the hon. Member has put the question?

SHRI PRIYA RANJAN DAS MUNSI: In view of the mass copying in various Universities, it has been suggested that the examination system should be reformed and that a comprehensive policy in this regard should be evolved. From the statement, I find that the Working Group has suggested certain norms and the University Grants Commission and the Central Advisory Board which have been working on the recommendations have prepared and presented certain things which are still under consideration. May I know whether in respect of such working groups or recommending committees, in every case, the opinion of the studying students is also taken and, if not, whether the Ministry will take the opinion of the studying students as to what are their suggestions in the matter of the abolition of the examination system and reforms therein?

PROF. S. NURUL HASAN: This is a suggestion.

The fact is that the Central Advisory Board had appointed a committee to go into this question. The Kothari Commission has also made certain recommendations in regard to this matter. Then, various seminars sponsored by the University Grants Commission and the inter-University Boards had gone into this very important issue. On the basis of these various recommendations and the recommendations of the various national conferences on teaching of Physics, Biology and Chemistry, taking all these recommendations into consideration, a consolidated paper was prepared by the Working Group which was submitted to the University Grants Commission. In view of the fact that this matter has been examined so widely and by so many experts and educationists, I do not know whether any useful purpose will be served by consulting individual groups of students.

SHRI C. K. CHANDRAPPA: In the last part of the statement, it is stated that the report of the Working Group has been circulated to State Governments to take immediate steps to implement these recommendations. I would like to know from the hon. Minister whether any State has so far taken any steps to implement the recommendations. Secondly, I would also like to know whether open-book-policy has been recommended by the Working Group in the examination hall.

PROF. S. NURUL HASAN: Some States have already implemented this policy at the school stage. For example, Andhra Pradesh has done it and, at the school stage, many of the recommendations have already been implemented. There are many States which have stated that they will make every effort to implement the recommendations at the earliest possible occasion. Among these are Assam and Himachal Pradesh, Nagaland agrees with most of the points raised. Meghalaya says, these shall be implemented as early as possible.

AN HON. MEMBER: What about Bihar ?

PROF. S. NURUL HASAN: Bihar has them under consideration.

WRITTEN ANSWERS TO QUESTIONS

Discovery of 17th Century Paintings in Man Singh Palace at Amber, Rajasthan

*666. SHRI P. K. DEO: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether precious wall paintings of the 17th century have been discovered inside the Man Singh Palace at Amber in Rajasthan; and

(b) whether efforts are being made by Government to preserve these paintings ?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) Yes, Sir Precious wall paintings of the 17th century have been discovered inside the Palace in the Amber Fort.

(b) Yes, Sir. The paintings were initially examined by the staff of the Chemical Laboratory of the National Museum at the instance of the Rajasthan State Department of Archaeology. Together, the Chemists of the two organizations exposed and preserved a couple of panels. The State Department has thereafter exposed and preserved a few more panels independently. Further work is in progress by the State Department of Archaeology and Museums.

Request by Mysore Government for increase in allocation for development of Inland Water Transport during Fifth Five Year Plan

*668. SHRI G. Y. KRISHNAN: Will the Minister of SHIPPING AND TRANSPORT be pleased state:

(a) whether the Mysore Government has urged the Centre that the *ad hoc* allocation of Rs. 1.8 crores by the Central Working Group for development of inland water transport for the Fifth Five Year Plan should be stepped up to Rs. 10 crores;

(b) if so, the reaction of Central Government thereto ?

THE MINISTER OF SHIPPING AND TRANSPORT (SHRI RAJ BAHADUR): (a) and (b). The Working Group for Inland Water Transport for the Fifth Plan has recommended *inter alia* six schemes totalling a provision of Rs. 1.83 crores for Mysore. The report of the Working Group is to be considered by the Planning Commission. In the meeting of Central Inland Water Transport Board on 16-2-1973, the representative of the Government of Mysore had urged that this provision of Rs. 1.83 crores was inadequate. A proposal has been received recently from State Port Officer, Mysore regarding 12 schemes totalling a provision of Rs. 12.60 crores, which is presumably referred to by the Honourable Member. No proposal from the Government of Mysore has yet been received. Out of these 12 schemes, 8 schemes were already covered by the recommendations of the Working Group. The proposal of the Govt. of Mysore when received along with proposals of other State Governments will be duly considered in consultation with the Planning Commission.

चालू वित्तीय वर्ष में मध्य प्रदेश को सड़कों और राष्ट्रीय राजमार्गों के लिए केन्द्र द्वारा स्वीकृत राशि

*669. श्री धनशाह प्रधान : क्या नौवहन और परिवहन मन्त्री यह बताने की कृपा करेंगे कि :

(क) क्या केन्द्र द्वारा मध्य प्रदेश को चालू वित्तीय वर्ष में सड़कों और राजमार्गों के लिए 10 करोड़ रुपये की स्वीकृति दी गई है ; और

(ख) यदि हां, तो इस धनराशि को किस प्रकार खर्च करने का विचार है ?

नौबहन और परिवहन मंत्री (श्री राजबहादुर): (क) और (ख). भारत सरकार राष्ट्रीय राजमार्गों के रूप में वर्गीकृत सड़कों के लिए और इन राजमार्गों के लिए धन की व्यवस्था के लिए मुख्यतः उत्तरदायी है। राष्ट्रीय राजमार्गों के अलावा अन्य सभी सड़कों का उत्तरदायित्व मुख्यतः सम्बन्धित राज्य सरकारों का है। परन्तु राज्यों को सहायता देने के लिए भारत सरकार अन्तर्राज्यीय या आर्थिक महत्व के चुने हुए राज्य सड़कों के लिए राज्यों को ऋण सहायता की भी व्यवस्था करती है।

कार्य जो पहले ही स्वीकृत हो चुके हैं या 1973-74 में स्वीकृत होने वाले हैं पर व्यय किये जाने वाले राष्ट्रीय राजमार्ग (मूल) कार्य पर सड़क कार्यों के निष्पादन के लिए 1973-74 के बजट अनुमानों में 300 लाख रुपये की व्यवस्था की गई है जो संसद के यत के आधीन होगा।

राष्ट्रीय राज मार्गों के रखरखाव और मरम्मत के लिए भी धन की व्यवस्था की जाती है इस शीर्ष के अन्तर्गत साधारण मरम्मत और नवीकरण के लिए 81.61 लाख रुपयों की उपलब्ध होने की सम्भावना है। इसके अलावा विशेष मरम्मत और बाढ़ से हुई क्षति की मरम्मत इत्यादि के लिए और धन की व्यवस्था की जाएगी जो वास्तविक आवश्यकता पर निर्भर करेगी।

इसके अतिरिक्त अनुसंधान और पांचवी योजना के भाग बनने वाली परियोजना

तैयारी के लिए राष्ट्रीय राजमार्ग कार्य से सम्बन्धित अग्रिम कार्य वाहनों के लिए राज्य सरकार को 7.95 लाख रुपये की राशि उपलब्ध किए जाने का प्रस्ताव है।

Development of a new High Yielding Variety of Wheat by Indian Agricultural Research Institute

*670. SHRI C.T. DHANDAPANI:
SHRI P.A. SAMINATHAN:

Will the Minister of AGRICULTURE be pleased to state whether the Indian Agricultural Research Institute has evolved a new high yielding variety of wheat claimed to be the only variety in the country which is resistant to all rusts.

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE: The Indian Agricultural Research Institute has recently identified, not one, but several high-yielding lines of wheat which have shown resistance to all the three rusts when tested at a number of centres under the All-India Coordinated Wheat Improvement Project. The lines are still under test for their yield potential and other desirable characters. Rust-resistant lines have also been identified by wheat breeders, at Kanpur, Pant Nagar, Durgapura, Ludhiana and other centres under the All-India Coordinated Wheat Improvement Project.

The main findings of the work done in this connection at the Indian Agricultural Research Institute, New Delhi are given in the Statement attached.

Statement

1. Development of high yielding rust resistant wheat varieties has been one of the main activities of the Indian Agricultural Research Institute and its wheat breeding stations located at Simla, Bhowali, Pusa, Indore and Wellington. A number of wheat varieties resistant to rusts such as N P 809, N P 818, N P 835, N P 846, N P 852, were released in the past. more

recently H S 1097-17, HS 1138-6-4 (developed by the Simla Centre), H B 117-107 (developed by the Bhowali Centre), H D 2009 (developed by the Delhi Centre) HW 124 and HW 165 (developed by the Wellington Centre) were found to be highly resistant to rusts. All these varieties are now being tested in the Uniform Regional Trials of the All India Coordinated Wheat Improvement Project.

In addition to the Indian Agricultural Research Institute, certain strains developed by the Wheat workers of Rajasthan, Uttar Pradesh, Maharashtra are also showing promise with regard to rust resistance and yield.

2. Unlike in many other wheat growing countries of the world all the three wheat rusts, namely, the black rust, the brown rust and yellow rust are found to attack the wheat crop in India. In each of these three rusts there are a number of physiologic races and biotypes which cannot be distinguished visually but only through their ability to attack certain wheat genotypes. In India there are about 45 such races and biotypes each of which can potentially create an epidemic. Wheat varieties to successfully grown in the main wheat belt of the country should have a good measure of resistance to a majority, if not all, of these races.

3. Breeding for rust resistance is virtually a never ending process. It is a continuous race between the pathogen and the breeder. When a wheat variety is grown on a large scale new races of rusts come up or some of the relatively unimportant races may suddenly become important. For example the most widely grown wheat variety Kalyansona showed resistance to all the three rusts when it was released 6 years back. Now it is susceptible to some races of all the three rusts because of new race or old races which were insignificant in the past. To reduce the losses due to rusts the varieties have to be continuously replaced by newer varieties with greater degree of resistance.

4. The Wellington Centre of the Indian Agricultural Research Institute developed 2 strains, viz., H W 124 and H W 165 which besides high yielding and having good grain quality have high resistance to all the three rusts. These strains are in final stages of testing in the All India coordinated trials. The Simla Centre of the I.A.R.I. developed the strains H S 1097-17 and H S 1138-6-4 that are resistant to all the three rusts. H S 1097-17 has been released for the high hills of north India during *rabi* 1972-73. HS 1138-6-4 is in final stages of testing.

The Delhi Centre has developed a strain H D 2009 which is showing high field resistance to rusts all over the country. It is now in all India Coordinated trials.

The Bhowali Centre of the I.A.R.I. has developed two strains HS 100-62 and HB 117-107 which are also resistant to all the three rusts in the field. These strains are also under final stages of yield evaluation tests of the All Coordinated Wheat Improvement Project.

The resistance of these strains has been confirmed in the glass house where artificial infections are carried out with rusts.

5. Besides the Indian Agricultural Research Institute, other wheat breeders in the country are also engaged on the development of rust resistant high-yielding varieties of wheat. Some of the newer wheat varieties showing high resistance are Raj 821 (developed in Rajasthan), UP 215 (developed at Pantnagar) and K 816 (developed at Kanpur).

Jayanti Villages in Andhra Pradesh

*672. SHRI P. NARASIMHA REDDY: Will the Minister of AGRICULTURE be pleased to state:

(a) Whether the Government of Andhra Pradesh have selected and submitted a list of villages in the State to be adopted as "Jayanti Villages" for implementing developmental programmes;

- (b) whether the villages so adopted include all hamlets thereof ; and
- (c) the pattern of expenditure and assistance for implementing this scheme ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH)(a) : Yes Sir.

(b) The State Government have not so far intimated that the selected 'Jayanti Villages' do not include all hamlets thereof.

(c) No pattern of assistance and expenditure for implementing the scheme has been laid down. The State Government have been asked that funds available under on-going Plan and non-Plan schemes of the State Sector, Central Sector and Centrally sponsored sector may be used in a concentrated manner in the selected 'Jayanti Villages'.

Task Forces to go into various aspects of Sugarcane and Sugar production

*673. SHRIMATI SAVITRI SHYAM : Will the Minister of AGRICULTURE be pleased to state :

(a) whether a number of task forces have been appointed in the country with particular reference to the State of Uttar Pradesh to go into the various aspects of sugarcane and sugar production in the country and also improving its quality ; and

(b) if so, the broad outlines thereof ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE

(PROF. SHER SINGH) : (a) A task Force has been constituted by the Steering Group set up by the Planning Commission to look into the various aspects of sugar industry for the 5th Plan.

(b) The Task Force no sugar has already submitted its report to the Steering Group in March, 1973. The report covers the present status of the sugar Industry lines of development of sugar industry during the Fifth Plan, likely difficulties in achieving the target aimed at and solutions therefor, development of raw material like sugarcane and sugar beet, better utilisation by-products and bringing about cost reduction etc.

Separate Seniority List of Scheduled Castes and Scheduled Tribes in Education Directorate, Delhi

*674. SHRI CHANDRA SHAILANI : Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state :

(a) whether the Education Directorate, Delhi Administration is not maintaining separate seniority lists of the Scheduled Castes and Scheduled Tribes serving in Delhi ; and

(b) if so, what are the reasons ?

THE DEPUTY MINISTER IN THE MINISTRY OF EDUCATION, SOCIAL WELFARE AND IN THE DEPARTMENT OF CULTURE (SHRI D. P. YADAV) : (a) and (b) In accordance with the orders issued by the Government of India, separate list of eligible Scheduled Castes and Scheduled Tribes Officials arranged in order of their *inter se* seniority is maintained by Delhi Administration.

Epidemic of Small-Pox and Measles in Delhi

*675. SHRI CHANDRA SHEKHAR SINGH : Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state :

(a) whether there is an epidemic of small-pox and measles in Delhi ; and

(b) the steps taken to arrest it ?

THE MINISTER OF HEALTH
AND FAMILY PLANNING (SHRI
R.K. KHADILKAR) : (a) No Sir.

(b) A statement explaining the position is laid on the Table of the Sabha.

Statement

(a) There is no epidemic of Smallpox in Delhi ; however sporadic cases are being reported. As for Measles, it is not a notifiable disease in Delhi Municipal Corporation Area. It is, however, notifiable in New Delhi Municipal Committee and Delhi Cantonment areas. From the available information, it cannot be said that there is an epidemic of Measles in Delhi. There has, however, been some increase in the incidence of Measles during the period January to March 1973, as compared to the corresponding period of 1972.

(b) In order to stop transmission of Smallpox the following steps have been taken:—

- (i) Vaccination, surveillance and outbreak containment activities have been intensified.
- (ii) Adequate quantities of potent thermostable freeze dried smallpox vaccine, bifurcated needleless and vaccination kits have been provided.
- (iii) To enhance voluntary acceptability to vaccination, adequate health education and publicity measures have been taken. A spot announcement in Hindi is broadcast daily from the Delhi Station of All India Radio in this respect to encourage people to report even suspected cases of small-pox to the nearest health centre.
- (iv) Cases are isolated in Infectious Diseases Hospital, Delhi.

Enquiry by Central Bureau of investigation into Import of RS-09 Tractors

*676. SHRI YAMUNA PRASAD MADAL : Will the Minister of AGRICULTURE be pleased to refer to the reply given to Unstarred Question No. 1661, on 3rd April, 1972 regarding the C. B. I enquiry into import of tractors from East Germany and state:

(a) whether the Central Bureau of Investigation have since completed the enquiry into the import of RS-09 tractors ; and

(b) if so, whether the report has been submitted ?

THE MINISTER OF STATE IN
THE MINISTRY OF AGRICULTURE
(SHRI ANNASAHEB P. SHINDE):
(a) No. Sir.

(b) Does not arise.

Setting up of Agriculture Forecasting Surveillance system

*677. SHRI RAM SHEKHAR PRASAD SINGH:
SHRI PRABHUDAS PATEL:

Will the Minister of AGRICULTURE be pleased to state :

(a) whether the Director of the Central Rice Research Institute has suggested the setting up of an agriculture forecasting and surveillance system in the country ;

(b) if so, whether this will help at the time of outbreaks of pests and plant diseases to prevent massive foodgrains losses ; and

(c) if so, the reaction of Government to this suggestion ?

THE MINISTER OF STATE IN
THE MINISTRY OF AGRICULTURE
(SHRI ANNASAHEB P. SHINDE) :
(a) Yes Sir,

(b) The forecasting and surveillance system will be of help in taking anticipatory and effective control measures against damage by destructive pests and diseases at low cost.

(c) The Government of India consider that proper steps for forecasting and surveillance of pests and diseases are of paramount importance. The following programmes have already been initiated in the 4th Five Year Plan:—

1. All India Wheat Diseases surveillance programme.
2. Rapid survey of destructive diseases and pests of rice in selected states.

Extension of C. G. H. S. facilities to the Staff reporters of Local News-papers and News-Agencies.

*678. SHRI DEVINDER SINGH GARCHA:

SHRI SUKHDEO PRASAD VERMA:

Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state :

(a) whether it has been decided to extend C. G. H. S. facility to the staff Reporters of the local news-papers and news-agencies;

(b) whether any representation has been received from the Delhi Press Reporters Association in this context ; and

(c) if so, the reaction of Government thereto?

THE MINISTER OF HEALTH AND FAMILY PLANNING (SHRI R. K. KHADILKAR): (a) No, Sir.

(b) Yes, Sir.

(c) Government are not now in a position to extend the CGHS facilities to any further non-Government Organisations due to paucity of resources.

Buildings grants to Institutions under various Universities

*679. SHRI SAROJ MUKHERJEE : Will the the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state :

(a) whether many institutions under different Universities of India are suffering from lack of proper accommodation for increasing the number of students ; and

(b) the amount of money sanctioned for aiding these institutions to erect new buildings under the Head "Building Grants", with State-wise break-up ?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) Due to rapid increase in enrolment many Universities and Colleges are finding it difficult to provide proper accommodation for their students.

(b) The required information is being collected and will be laid on the Table of the Sabha in due course.

नेशनल कैपिटल रीजन (राष्ट्रीय राजधानी क्षेत्र)

*680. श्री नरेन्द्र सिंह विष्ट : क्या निर्माण और आवास मन्त्री यह बताने की कृपा करेंगे कि :

(क) क्या सरकार ने राष्ट्रीय राजधानी क्षेत्र (नेशनल कैपिटल रीजन) के बारे में कोई अन्तिम योजना बनाई है ; और

(ख) यदि हां, तो राष्ट्रीय राजधानी क्षेत्र (नेशनल कैपिटल रीजन) में कौन-कौन से क्षेत्र शामिल किए जाएंगे और इस योजना की मुख्य बातें क्या हैं ?

संसदीय कार्य विभाग तथा निर्माण और
आवास मंत्रालय में राजमंत्री (श्री ओम मेहता) :

(क) जी नहीं। योजना का ब्योरा
तथा उसे कार्यान्वित करने के साधनों का
हिसाब सम्बन्धित राज्य सरकारों के परामर्श
से लगाया जा रहा है।

(ख) प्रश्न ही नहीं उठता।

**Allotment of Land to Shri Sanatan
Dharam Sabha (Regd.) Green Park,
New Delhi**

6450.-A. SHRI BISWANATH JHUN-
JHUNWALA : Will the Minister of
WORKS AND HOUSING be pleased to
state :

(a) whether Shri Sanatan Dharam
Sabha (Regd.), Green Park, New Delhi
has applied for allotment of land for the
construction of a Community centre-cum-
religious discourse hall adjacent to the
existing temple in that area ;

(b) whether a vast stretch of land
already available behind the said temple
which is said to have been earmarked for
some educational institutions ;

(c) whether DDA has already allot-
ted a piece of land which was earmarked for
educational institution to Nilakashila Seva
Samiti for constructing a temple-cum-
cultural centre in Haus Khas area (New
Delhi);

(d) if so, why the Sanatan Dharam
Sabha is being discriminated against in the
~~matter of allotment~~ of land when the DDA
themselves have created a precedent in this
regard; and

(e) when the land will be allotted to the
said Sabha ?

THE MINISTER OF STATE IN
THE DEPARTMENT OF PARLIA-
MENTARY AFFAIRS AND IN THE
MINISTRY OF WORKS AND HOU-
SING (SHRI OM MEHTA) : (a) Yes.

(b) Yes. Some land has been ear-
marked for educational purpose, in the draft
zonal plan of the area.

(c) About 1000 square yards of land has
been allotted to Sri Neelachala Seva Sangh
for religious purpose in Safdarjang Re-
sidential Scheme as such a religious site
is indicated in Delhi Development Autho-
rity's plan in the Safdarjang Scheme.

(d) Green Park colony was developed
by a private coloniser who did not make
provision for facilities like temples etc. in
the plan.

(e) Does not arise.

**Schemes for exploitation of water
resources in Kerala**

6451. SHRI VAYALAR RAVI : Will
the Minister of AGRICULTURE be
pleased to state :

(a) the total number and names of
schemes for which investigation has been
completed for the exploitation of water
resources in the State of Kerala; and

(b) broad outline of the follow up ac-
tions taken and the particulars of scheme
in priority to be taken up during the Fifth
Plan ?

THE MINISTER OF STATE IN
THE MINISTRY OF AGRICULTURE
(PROF. SHER SINGH) : (a) and
(b). The responsibility for investiga-
tions and exploitation of water re-
sources and formulation of schemes
for this purpose rests with the
State Governments. The schemes are
numerous and the names and other parti-
culars about these schemes are not avail-
able with the Central Government.

Inconvenience to the Residents of Sudershan Park (Moti Nagar), Delhi for Non-existence of sewer and Water facilities

6452 SHRI ISHWAR CHAUDHRY: Will the Minister of WORKS AND HOUSING be pleased to state :

(a) whether no water facilities exist in F-Block of Sudershan Park, Moti Nagar, New Delhi-15 causing great inconvenience to about 5,000 people living in this Block of Sudershan Park;

(b) whether no sewer facilities exist in the whole of Sudershan Park (Moti-Nagar), New Delhi-15 causing great inconvenience to 25,000 people living in this colony;

(c) the time by which Government propose to undertake the above jobs to remove the inconvenience of the residents ; and

(d) if not, the reasons therefor ?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING : (SHRI OM MEHTA) :

(a) and (b). The Delhi Water Supply and Sewage Disposal Undertaking have stated that F-Block falls in un-approved area of Sudershan Park and hence no water facility has been provided. There is no sewerage system in Sudershan Park Moti Nagar is partly sewerred.

(c) The work of laying sewerage system in Sudershan Park for which a scheme is under preparation is likely to take a period of 18 to 24 months. Laying of water mains in unauthorised colonies will be taken up in phases, after the residents execut agreement for payment of development charges.

The balance portion of Moti Nagar is to be connected to a Pump House from where it will be pumped to trunk sewer. The work of construction of pump house is in progress and is expected to be completed within a period of about 6 months.

(d) Does not arise.

Water and drainage facilities in Colonies of Delhi-35.

6453. SHRI ISHWAR CHAUDHRY: Will the Minister of WORKS AND HOUSING be pleased to refer to the reply given to Unstarred Question No. 7010 on the 22nd May, 1972 regarding Water and Drainage facilities in colonies of Delhi-35 and state:

(a) whether the decision for acquiring the plots by Delhi Administration in the above mentioned colonies have been taken ; and

(b) if so, the main features thereof and when the water and drainage facilities are likely to be implemented ?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA) :

(a) and (b). The position is being ascertained and the information will be laid on the Table of the Sabha.

**दिल्ली दुग्ध योजना द्वारा जयदेव पार्क,
दिल्ली में दूध का केन्द्र खोला जाना**

6454. श्री ईश्वर चौधरी :

क्या कृषि मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या दिल्ली-35 में स्थित "जयदेव पार्क" में दिल्ली दुग्ध योजना के एक डिपो खोलने सम्बन्धी प्रस्ताव को अन्तिम रूप दे दिया गया है ;

(ख) यदि हां, तो उक्त बस्ती में अब तक डिपो न खोले जाने के क्या कारण हैं ; और

(ग) सरकार का विचार उक्त बस्ती में कब तक डिपो खोलने का है?

कृषि मंत्रालय में राज्य मंत्री (प्रो० शेर सिंह) : (क) जी हां। दिल्ली दुग्ध योजना ने हाल ही में केन्द्रीय लोक निर्माण विभाग से इस कालोनी में दुग्ध बूथ का निर्माण करने के लिए कहा है।

(ख) और (ग). इस दुग्ध बूथ का निर्माण करने में अभी कुछ समय लगेगा। उसके बाद जैसे ही दूध की सम्भावित मांग प्रातः या सांय की पारी के लिए कम से कम 300 बोतलों की हो जाएगी, यहां एक दुग्ध डिपो खोल दिया जाएगा।

राजकीय माध्यमिक कला शिक्षक संघ,
दिल्ली (गवर्नमेंट सेक्रेण्डरी आर्ट
टीचर्स एसोसिएशन, दिल्ली)
द्वारा जापन देना

6455. श्री ईश्वर चौधरी : क्या शिक्षा, समाज कल्याण और संस्कृति मन्त्री यह बताने की कृपा करेंगे कि :

(क) क्या राजकीय माध्यमिक कला शिक्षक संघ, दिल्ली (गवर्नमेंट सेक्रेण्डरी आर्ट टीचर्स एसोसिएशन दिल्ली) के प्रतिनिधि मण्डल में अपनी मांगों के सम्बन्ध में 3-1-1973 को दिल्ली के मुख्य कार्यकारी पार्षद को एक जापन दिया था : और

(ख) यदि हां, तो जापन की क्या मांगें हैं ; और उन पर सरकार द्वारा क्या कार्यवाही की गई है ?

शिक्षा और समाज कल्याण मंत्रालय तथा संस्कृति मंत्रालय में उपमंत्री (श्री डी० पी० यादव) : (क) जी हां।

(ख) जापन में निम्नलिखित मांगें दी गई थी :—

1. 27-5-1970 से 250-540 रु० का वेतनमान स्वीकृत करना।

2. प्रति सप्ताह 6 पीरियड तथा रूग्णतार दो पीरियड निर्धारित करना।

3. ठीक-ठीक वरीयता सूची तैयार करना।

4. ग्राई० जी० डी० डिप्लोमा बम्बई को दो वर्षीय ड्राइंग डिप्लोमा के समकक्ष मान्यता देना।

5. उन कला अध्यापकों को जिन्होंने प्रशिक्षित स्नातक अध्यापकों के पदों के लिए अर्हता प्राप्त कर ली है तथा भाषा अध्यापकों को अपना काडर बदलने की अनुमति देना।

6. सभी स्कूलों में ड्राइंग कारनरों की स्थापना।

7. पदोन्नति के लिए, राज्य शिक्षा संस्थान, दिल्ली की दीर्घकालीन कल सेमिनार को मान्यता देना।

इन मांगों की जांच पड़ताल दिल्ली प्रशासन कर रहा है।

Opening of Model Primary School in every community development block

6457. SHRI RANA BAHADUR SINGH : Will the Minister of **EDUCATION, SOCIAL WELFARE AND CULTURE** be pleased to state :

(a) whether Government have decided to open one Model Primary School in every Community Development Block during the Fifth Five Year Plan ; and

(b) if so, what are the other main recommendations made by the Central Advisory Board of Education Ministry and has been accepted by Government ?

THE DEPUTY MINISTER IN THE MINISTRY OF EDUCATION AND SOCIAL WELFARE AND IN THE DEPARTMENT OF CULTURE (SHRI D.P. YADAV) (a) Government have a proposal under consideration to establish adequate number of model primary schools at the rate of one per block and model secondary schools at the rate of one per district, during the 5th Plan.

(b) The Central Advisory Board of Education at its 36th meeting held at New Delhi on September, 18-19, 1972 has approved proposals for "Education in the Fifth Five Year Plan (1974-79)". It is intended to make an intensive and radical effort to reconstruct the educational system in the country so as to make it a powerful instrument of social transformation, to improve standards to provide universal primary education to children and to create greater equality of educational opportunity at all levels. The main ingredients of the programme are:—

- (1) Transformation of the Educational System;
- (2) Improvement of Standards ;
- (3) Initiation of a comprehensive programme of pre-school development meant specially for the under-privileged social groups

- (4) The provision of universal primary education in the age-group 6-11 by 1975-76 and in the age-group of 6-14 by 1980-81;
- (5) The adoption of the uniform pattern of school and college classes viz., 10+2+3 in all States and Union Territories ;
- (6) Vocationalisation of education at the higher secondary stage ;
- (7) The development of a national scholarship policy so that the talented students and especially those coming from the most deprived sections of the community, are assisted to receive the best school or university education ;
- (8) The launching of a youth movement for the population in the age-group 14-25 ;
- (9) Reorganisation of collegiate and university education ;
- (10) Development of technical education;
- (11) Introduction of a large-scale programme of National Social Service; and
- (12) Strengthening of the administrative machinery to plan and implement this significant programme of expansion and qualitative improvement.

These recommendations are under the consideration of Government and the Planning Commission.

Projects to be taken by Archaeological Survey of India during Fifth Plan

6458. SHRI C. K. JAFFER SHARIEF: Will the Minister of **EDUCATION, SOCIAL WELFARE AND CULTURE** be pleased to state:

(a) whether 25 minor projects are to be undertaken by the Archaeological Survey of India during the Fifth Plan period for preservation and repairs ; and

(b) if so, the main features thereof

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) and (b). During the Fifth Five Year Plan period the Survey proposes to undertake as a plan project repairs to a large number of monuments under its charge throughout the country. The programme envisages not only structural repairs but also, chemical treatment and landscaping with a view to improving the environments. The scale of the work, however, will depend upon the allocation of funds for the purpose.

M. Tech. Course in Agricultural Engineering at I.I.T. Kharagpur

6460. SHRI DHAN SHAH PRADHN: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state :

(a) the number of seats available for the M. Tech. Course in Agricultural Engineering at I. I. T. Kharagpur and whether all the seats were fully utilised during 1972;

(b) the duration of the sessions and the time when applications are called for and admissions finalised ; and

(c) whether students who complete the B. Tech. Course in Agricultural Engineering from Agricultural Universities in September, 1973, can get admission in the second Semester at I. I. T., Kharagpur beginning from October/November, 1973

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN) : (a) Fifteen seats are available for M. Tech. Course in Agricultural Engineering at I. I. T., Kharagpur. All seats were utilised during 1972.

(b) Duration of session is from 1st August to 31st July. Applications are called for during April/May and admission is finalised in July.

(c) No, Sir.

नसबन्दी आपरेशन के बाद के प्रभावों

के बारे में शिकायतें

6461. श्री धन शाह प्रधान : क्या स्वास्थ्य और परिवार नियोजन मन्त्री यह बताने की कृपा करेंगे कि :

(क) क्या सरकार को कोई ऐसी शिकायतें मिली हैं कि नसबन्दी आपरेशन के पश्चात् टांगों अथवा शरीर के अन्य भागों में सूजन अथवा जखम आदि हो जाते हैं जिनका तुरन्त उपचार आवश्यक है परन्तु ग्रामवासियों को यह सुविधा उपलब्ध नहीं है ; और

(ख) यदि हां, तो क्या सरकार ने इस बारे में कुछ उपाय किए हैं ?

स्वास्थ्य और परिवार नियोजन मंत्रालय में उपमन्त्री (श्री ए० के० किस्कू) : (क) और (ख) नसबन्दी आपरेशन किए जाने वाले अंग (अण्ड कोष) की सूजन को छोड़ कर टांगों अथवा शरीर के अन्य भागों में सूजन अथवा जखम आदि हो जाने की कोई शिकायत प्राप्त नहीं हुई है।

उन सभी सेवा केन्द्रों में जहां नसबन्दी आपरेशन किए जाते हैं, निशुल्क उपचार की व्यवस्था उपलब्ध है।

मूंगफली के तेल के उत्पादन के लिए मध्य प्रदेश की सहायता

6462. श्री गंगा चरण बोक्षित : क्या कृषि मन्त्री यह बताने की कृपा करेंगे कि :—

(क) क्या केन्द्रीय सरकार ने मध्य प्रदेश सरकार से आगामी मौसम में मूंगफली का आरक्षित भण्डार बनाने को कहा है ;

(ख) यदि हां, तो केन्द्रीय सरकार ने मूंगफली के तेल के उत्पादन को बढ़ाने के लिए भी कहा है ;

(ग) क्या इस उद्देश्य को प्राप्त के लिए केन्द्रीय सरकार राज्य सरकार को सहायता देने पर सहमत हो गई है ; और

(घ) यदि हां, तो तत्सम्बन्धी मुख्य बात क्या है ?

कृषि मंत्रालय में राज्य मंत्री (श्री अण्णासाहेब पी० सिन्हे) : (क) जी नहीं ।

(ख) में (घ). प्रश्न ही नहीं उठता । तथापि राज्य सरकार के मूंगफली का उत्पादन बढ़ाने के प्रयत्नों में सहयोग देने के लिए मूंगफली का अधिकतम उत्पादन बढ़ाने के लिए केन्द्र द्वारा प्रायोजित योजना मध्य प्रदेश में क्रियान्वित करने के लिए मंजूर की गई है । इस योजना का लक्ष्य रेकेज कार्यक्रम की ही तरह सघन कृषि उपाय अपना कर उत्पादन में तेजी से वृद्धि करना है । 1972-73 के दौरान इस योजना को 1 लाख हेक्टर से अधिक क्षेत्र में क्रियान्वित करने की मंजूरी दी गई थी और इस पर होने वाला 4.35 लाख रुपये का पूरा व्यय भारत सरकार को वहन करना था ।

मध्य प्रदेश में छत्तीसगढ़ क्षेत्र की लोक संस्कृति का संरक्षण

6463. श्री गंगा चरण दीक्षित : क्या शिक्षा, समाज कल्याण और संस्कृति मंत्री यह बताने की कृपा करेंगे कि :

(क) मध्य प्रदेश के छत्तीसगढ़ क्षेत्र की लोक संस्कृति के संरक्षण के लिए क्या कार्य-

वाही की जा रही है ;

(ख) क्या इस लोक संस्कृति के अन्तर्गत अनन्तकाल से प्रचलित सामाजिक और सांस्कृतिक लोक गीतों का संग्रह करने के लिए सरकार कोई प्रयास कर रही है ; और

(ग) यदि हां, तो इसके क्या परिणाम निकले हैं ?

शिक्षा और समाज कल्याण मंत्रालय तथा संस्कृति विभाग में उपमंत्री (श्री डी० पी० यादव) : (क) से (ग) संगीत नाटक अकादमी, अपने नियमित कार्यक्रम के एक भाग के रूप में, विभिन्न क्षेत्रों और विभिन्न प्रकार के लोक, जन-जातीय तथा परम्परागत संगीत रिकार्ड करती रही है । इस कार्यक्रम के अधीन, मध्य प्रदेश का छत्तीसगढ़ क्षेत्र भी आता है और लोक तथा जनजातीय गीतों, भावगीतों तथा लोक नाटकों को रिकार्ड किया गया है । अकादमी ने 1000 घंटों की अवधि के लोक तथा जनजातीय संगीत के टेपों का एक बृहद् संग्रह तैयार किया है जिनमें विभिन्न क्षेत्रों के मुख्य मुख्य रूप शामिल हैं । यह सम्पूर्ण सामग्री, अनुसंधान विभागों, संगीत संस्थाओं तथा अनुसंधान कार्यकर्ताओं को उनके प्रयोग के लिए उपलब्ध है । लोक और ग्रामीण कला को प्रोत्साहित करने के लिए, नेहरू युवक केन्द्रों के मुख्य कार्य के रूप में युवक कार्यक्रमों को जुटाने के लिए सरकार ने मार्च, 1973 में, छत्तीसगढ़ के रायपुर नामक स्थान में एक दो सप्ताह की कार्यशाला तथा शिविर आयोजित किया था ।

मध्य प्रदेश में राज्यों के निकट नर्मदा नदी पर पुल के निर्माण के लिए धन राशि

6464. श्री गंगा चरण दीक्षित : क्या नौवहन और परिवहन मंत्री यह बताने की कृपा करेंगे कि मध्य प्रदेश में हंडिया के निकट (हरदा तहसील) नर्मदा नदी पर पुल के निर्माण पर कितनी धनराशि व्यय की जायेगी और इसके लिए केन्द्रीय सरकार द्वारा कितनी धनराशि दी जायेगी ?

नौवहन और परिवहन मंत्रालय में राज्य मंत्री (श्री एम० बी० राना) : प्रस्तावित पुल बन जाने पर मध्य प्रदेश में राज्य सड़क पर पड़ेगा। अतः राज्य सरकार इस परियोजना से मुख्यतः सम्बन्धित है। मध्य प्रदेश सरकार से अभी तक वित्तीय सहायता के लिए कोई प्रस्ताव प्राप्त नहीं हुआ है, अतः प्रस्तावित पुल के लिए केन्द्रीय सरकार द्वारा धन देने का प्रश्न नहीं उठता।

Electricity and Water charges Bills for Ministers

6465. SHRI BISHWANATH JHUNJHUNWALA : Will the Minister of Works and Housing be pleased to state :

(a) the breakup of electricity and water charges bills for Ministers that Government have paid during the last three years for their official residence ; and

(b) whether in view of the acute shortage of electricity Government have urged upon the Ministers to make at least a token cut in their consumption of electricity and if not, the reasons thereof?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) A statement, showing the breakup of the amount of electricity and water charges in respect of the residential portions of residences of the Ministers paid by the Government during the years 1970-71, 1971-72, and 1972-73 (to the date upto which the bills have been paid), is laid on the Table of the House.

(b) The Ministers have voluntarily agreed to a monetary ceiling of Rs. 2400/- per annum for free supply of water and electricity in the private portions of their residences. They re-imburse to the Government any expenditure in excess of the ceiling. The annual ceiling of Rs. 2400/- is applicable for the financial year commencing from 1st April to 31st March of the succeeding year and the amount recoverable from the Ministers concerned is billed for at the end of each financial year. A consolidated statement showing the progressive expenditure on water and electricity bills for the residence is sent to each Minister every month with a view to keep them informed and to enable them to keep the consumption as low as possible.

Statement

Statement showing the break up of the amount of electricity and water charges bills in respect of residential portions of the Ministers' residences paid by the Government during the years 1970-71, 1971-72 and 1972-73 (to the date upto which the bills have been paid).

Year	Expenditure incurred for water and electricity for the Residential portions of the residences			Amount borne by the Ministers in excess of the voluntary ceiling of Rs. 2400/- per annum	Net amount borne by Government
	Electricity	Water	Total expenditure		
1	2	3	4	5	6
1970-71 . . .	₹1,29,130.95	21,494.56	1,50,625.51	₹40,448.27	₹1,10,177.24
1971-72 . . .	1,13,917.65	21,220.39	1,35,138.04	30,736.54	₹1,04,401.50
1972-73 . . . (Electricity charges upto the end of January, 1973 and water charges upto December, 1972).	1,01,672.36	16,446.68	*1,18,119.04	Amount paid in advance 5,889.38	*1,12,229.66

*The amounts shown are subject to the voluntary ceiling of Rs. 2400/- per annum and when the final accounts are closed for the year 1972-73, amounts in excess of the ceiling would be borne by the Ministers concerned.

Sale Price of Fertiliser

6466. SHRI BISHWANATH JHUNJHUNWALA Will the Minister of AGRICULTURE be pleased to state :

(a) whether any element of subsidy is involved in the distribution price of fertiliser done through the Government agencies ;

(b) if so, the break up of this amount for each variety of fertiliser ;

(c) whether the sale price of fertiliser is same all over the country and if not, whether Government have considered the desirability of introducing equalisation in price structure and if so, the total amount of subsidy that will be required to implement the scheme and the sale price of fertiliser in different states, State-wise for different varieties of fertiliser in the country; and

(d) the element of distribution charge and the cost of production per ton for each variety and the actual sale price and how much is the element of profit per ton that Government earns, if any ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHIB P. SHINDE):

(a) and (b). The Government of India imports and distribute fertilisers, since indigenous production is not sufficient to meet requirements. The fertilisers imported from different countries are pooled together and are distributed by the Central Fertilisers Pool which is run on a no-profit no-loss basis. This concept applies to its overall operations over a period and not to any particular type of fertiliser. The National Development Council has laid down that agricultural inputs including fer-

tilisers should not be subsidised and that an incentive price of the produce should be maintained to act as an encouragement to the farmer.

(c) The imported fertilisers are issued to all the States and other interests at uniform rail-head prices throughout the country. In order to maintain uniform prices even in those States which do not have significant railway facilities like J & K, Assam and Meghalaya, the Department also

absorbs the road transport costs to some agreed centres in these States.

(d) The cost of production of fertilisers varies from factory to factory and from time to time. However, the retail prices of three major fertilisers are statutorily controlled under the Fertilisers (Control) Order 1957 issued under the Essential Commodities Act. The following table indicates the present Pool issue prices, distribution margins and the retail prices for these fertilisers :

Fertiliser	Pool issue price for States	Distribution Margin	Retail price to Cultivators
Urea 46 %	879	80	959
Amm. Sulphate	494	55	549
C.A.N. 26%	534	60	594

हरित क्रान्ति में भारतीयों के साथ संयुक्त राष्ट्र के विशेषज्ञों का सहयोग

6467. श्री एम० एस० पुरती : क्या कृषि मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या संयुक्त राष्ट्र संघ के विशेषज्ञों ने भारतीय अनुसंधान कर्ताओं के साथ मिलकर देश में हरित क्रान्ति लाने में भारत को सहायता की है ; और

(ख) यदि हां, तो भारत में कृषि की प्रगति पर इसका क्या प्रभाव पड़ा ?

कृषि मंत्रालय में राज्य मंत्री (श्री अण्णासाहेब पो० शिन्दे) : (क) जी हां ।

(ख) संयुक्त राष्ट्र संघ ने अपनी विभिन्न एजेंसियों के माध्यम से कृषि के क्षेत्र में अनुसंधान

और विकास के प्रयासों के लिये वित्त, भारतीय वैज्ञानिकों को उपस्कर तथा प्रशिक्षण की सुविधायें, भारतीय कृषि परियोजनाओं के लिये विशेषज्ञों की सेवाएं आदि देकर सहायता प्रदान की है । इन एजेंसियों में खाद्य तथा कृषि संगठन, संयुक्त राष्ट्र विकास कार्यक्रम, संयुक्त राष्ट्र विशेष निधि, अन्तर्राष्ट्रीय पुनर्निर्माण तथा विकास बैंक, संयुक्त राष्ट्र शिक्षा विज्ञान तथा संस्कृति संगठन, अन्तर्राष्ट्रीय अणु ऊर्जा आदि एजेंसियां शामिल हैं । ऐसी सहायता का अभी हाल ही का उदाहरण हैदराबाद में अन्तर्राष्ट्रीय अर्ध-रूक्ष उष्ण-कटिबन्धीय फसल अनुसंधान संस्थान की स्थापना है । इस संस्थान के विधान पर खाद्य तथा कृषि संगठन और अन्तर्राष्ट्रीय पुनर्निर्माण तथा विकास बैंक ने हस्ताक्षर किये हैं । [एक विवरण मंत्रालय में रखा गया । देखिए संख्या L T—4764/73]

बिहार सरकार द्वारा प्रस्तुत की गई
परिवहन योजना

6468. श्री एम० एस० पुरती :
क्या नौबहन और परिवहन मंत्री यह बताने
की कृपा करेंगे कि :

(क) क्या बिहार ने भारत सरकार को
233 करोड़ रुपये की एक परिवहन योजना
प्रस्तुत की है ;

(ख) यदि हां, तो उसका मुख्य व्यौरा
क्या है ; और

(ग) केन्द्रीय सरकार द्वारा इस योजना
में क्या सहयोग दिया गया ?

[नौबहन और परिवहन मंत्रालय में
राज्य मंत्री (श्री एम० बी० राना) :

(क) जी, नहीं ।

(ख) और (ग). प्रश्न नहीं उठते ।

**Allotment of Plots and Houses to
Refugees in walled city by D.D.A.**

6469. SHRI D. P. JADEJA : Will
the Minister of WORKS AND HOUS-
ING be pleased to state :

(a) the policy regarding the plots and
houses which are mostly occupied by the
refugees from West Pakistan for the last
20-25 years in walled city and are paying
damage charges to D.D.A.;

(b) whether Government will consider
to allot those premises to the occupant ;
and

(c) if so, the conditions thereof ?

THE MINISTER OF STATE IN THE
DEPARTMENT OF PARLIAMEN-
TARY AFFAIRS AND IN THE
MINISTRY OF WORKS AND HOU-
SING (SHRI OM MEHTA) :

230 L.S. 3

(a) to (c). The refugees from West
Pakistan squatting on Nazul land within
the walled city and covered by the Gadgil
Assurance will be provided alternative
housing accommodation as far as possible
before eviction, in or close to the place of
their squatting. Those not covered by the
Gadgil Assurance will be given alternative
accommodation according to their eligibility
under the Jhuggi Jhonpri Removal Sche-
me.

**Partly approved/unapproved Co-
lonies in Delhi**

6470. SHRI ARVIND M. PATEL :
Will the Minister of WORKS AND HOU-
SING be pleased to state :

(a) the number and names of such co-
lonies which are partly approved and partly
unapproved in Delhi ;

(b) the reasons for partly unapproved ;
and

(c) whether Government will consider
to approve that unapproved portion ; and
if so, when ?

THE MINISTER OF STATE IN THE
DEPARTMENT OF PARLIAMEN-
TARY AFFAIRS AND IN THE MINIS-
TRY OF WORKS AND HOUSING
(SHRI OM MEHTA): (a) A list of
such colonies is laid on the Table of
the House. [Placed in Library See. No.
L T-4765/73]

(b) The reason for not approving parts
of the colonies was either the fact that in the
portions not approved the number of the
constructed houses were not much or that
the land-use of the area was non-conform-
ing.

(c) In view of the above position, the
question of approving these portions does
not arise.

Demolition of houses of Trans-Yamuna Colonies

6471. SHRI RAMAVATAR SHASTRI : Will the Minister of WORKS AND HOUSING be pleased to state:

(a) whether houses in Trans-Yamuna colonies will not be demolished as assured by the Prime Minister in her election meeting in Shahdara just before the General Elections in February, 1972;

(b) whether similar assurance was given by the then State Minister for Works and Housing in Sakarpur ;

(c) the reasons under which 50 Jodi houses built in the year 1960 were demolished by the D. D. A. in Sakarpur area on the 3rd and the 5th February, 1973; and

(d) what action Government propose to stop demolition and uprooting of the masses in the said area in the future ?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA) (a) and (b). No information about such an assurance is available.

(c) 49 structures in the Trans-Yamuna Shahdara area were demolished. They were on Government-acquired land and were partly occupying land allotted to House Building co-operative Societies. The Societies had paid for the land and the Government was required to give them vacant possession.

Shifting of CGHS Dispensary from Moti Nagar to Punjabi Bagh, New Delhi

6473. SHRI M. S. SIVASWAMY: Will the Minister of HEALTH & FAMILY PLANNING be pleased to state :

(a) whether Government have considered to shift the CGHS dispensary from Moti Nagar, New Delhi to Punjabi Bagh side ;

(b) if so, the time by which it is likely to be shifted; and

(c) if not, the reasons therefor and the steps taken by Government in shifting the Moti Nagar dispensary to some better accommodation ?

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (SHRI A. K. KISKU): (a) No, Sir; •

(b) Does not arise.

(c) The present CGHS dispensary, Moti Nagar is located in a Central place where it is nearer to the maximum number of beneficiaries covered by it, Punjabi Bagh, on the other hand is located in one corner. It is therefore not proper to shift the CGHS dispensary from Moti Nagar to Punjabi Bagh.

However, the D. D. A. and the Municipal Corporation have been approached for allotment of a suitable plot of land for construction of a CGHS dispensary, so that it may be housed in a better accommodation.

Construction and allotment of Multi-Storeyed Quarters on Mandir Marg, New Delhi

6474. SHRI M. S. SIVASWAMY : Will the Minister of WORKS AND HOUSING be pleased to state ;

(a) the number and details of the multi-storeyed quarters on Mandir Marg (DIZ) area New Delhi built and allotted upto the 28th February, 1973;

(b) the number of such quarters proposed to be constructed in the near future in the nearby area of Mandir Marg ; and

(c) whether Government have considered to have a separate enquiry office for that area, and if so, when ?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE

MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA) (a)

Type	No. of Storeys	Nos. of quarters	
		Constructed	Allotted
I	4	64	64
II	-do-	192	192
III	-do-	168	167
		[One quarter with Executive Engineer (Elect.) for service].	

(b) 124 type IV quarters are already under construction in this area. It is proposed to take up construction of 152 type I, 344 type III and 56 type IV quarters in the first stage. Construction of some more quarters will be taken up after realignment of roads in the area.

(c) There is already a Sub-Enquiry under the charge of a Junior Engineer at 11/12 Diaz Square to look after the already constructed quarters.

Installation of Power point in type II quarters of DIZ area, New Delhi

6475. SHRI M. S. SIVASWAMY : Will the Minister of WORKS AND HOUSING be pleased to state :

(a) whether there are no power points in Type II quarters in DIZ area Mandir Marg, New Delhi ; if so, the reasons for the same ;

(b) whether some residents had applied for the installation of power points in their quarters ; if so, the action taken on those applications ; and

(c) the rules and regulations for supplying power points in such quarters and the steps taken by Government in supplying the same at the earliest ?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM METHA) :

(a) as per yard-stick existing at the time of sanctioning the construction of these Quarters, no power points have been provided.

(b) Some applications were received from the residents but power points could not be provided due to paucity of funds.

(c) Subject to the following conditions, provision of power points is agreed to:—

(i) Each request is examined and power points sanctioned if justified.

(ii) Provision of power points is technically feasible.

(iii) The liability of the Government on account of the work is limited to Rs. 200/-. Expenditure in excess to this limit is to be borne by the applicant.

(iv) Funds are available.

(v) The applicant is agreeable to pay additional rent.

Representation against Construction of Petrol Pump in Mandir Marg, New Delhi

6476. SHRI M. S. SIVASWAMY : Will the Minister of WORKS AND HOUSING be pleased to state :

(a) whether residents of the Government quarters in Mandir Marg area had represented against the construction of Petrol Pump in Mandir Marg, New Delhi in the year 1972 ;

(b) whether the residents had asked Government to provide the basic amenities like community hall and some essential shops facing the road in that place; and

(c) the steps taken by Government in agreeing to the just demands of the residents at the earliest ?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA) : (a) No, Sir.

(b) and (c): A request was received from the Resident's Association for the construction of a Community hall and provision of temporary shops in a piece of land in Sector 'D' till the development of a regular shopping centre in the area. In view of the fact that a Community Centre already exists in the D. I. Z. Area, the construction of a separate community hall for the exclusive use of the residents of Sector 'D' was not considered necessary.

In view of the existing shopping facilities, including a Consumers Co-operative Store, being available at a short distance from Sector 'D', it was not considered necessary to provide temporary shops pending the development of the proposed shopping centre in the area.

Triple benefit scheme for Teachers

6477. SHRI VARKEY GEORGE : Will the Minister of EDUCATION SOCIAL WELFARE AND CULTURE be pleased to state :

(a) whether any triple benefit scheme for teachers was urged recently ; and

(b) if so, the salient features thereof and the reaction of Government thereto ?

THE DEPUTY MINISTER IN THE MINISTRY OF EDUCATION AND SOCIAL WELFARE AND IN THE DEPARTMENT OF CULTURE (SHRI D. P. YADAV) (a) and (b) : The Triple Benefit Scheme for non-government school teachers has been in vogue in some States for several years. The Education Commission (1964-66) (Kothari Commission) has recommended the scheme for adoption in other States also. Eight States have adopted the scheme so far.

The scheme envisages provision of pension, provident fund and insurance benefits.

As regards Union Territories, the Government of India had sanctioned the scheme with effect from 1st April, 1965.

The University Grants Commission in consultation with the Central Government introduced with effect from 1.4.1964 the following two schemes for the employees of the *Central Universities* (including those of colleges in Delhi in receipt of maintenance grant from university Grants commission) :

- (1) Contributory Provident Fund-cum-Gratuity.
- (2) General Provident Fund-cum-Pension-cum-Gratuity.

The employees had the option to choose either.

The Commission circulated these schemes to the State Universities for a 'option for the benefit of their employees in consultation with authorities concerned. Implementation of the scheme, however, depends upon the State Governments concerned.

**Enquiry in to Fire in Indian Ship
'Ratna Kirti' at Las Palmas**

6478. SHRI VARKEY GEORGE :
Will the Minister of **SHIPPING AND
TRANSPORT** be pleased to state :

(a) whether any enquiry was made in the case of fire in Indian ship, 'Ratna Kirti', on 10th March, 1973 at Las Palmas (Spain); and

(b) if so, the broad outlines thereof and the approximate loss of amount involved?

THE MINISTER OF SHIPPING AND TRANSPORT (SHRI RAJ BAHADUR) : (a) and (b) . A surveyor of the Mercantile Marine Department has examined some officers and crew of Indian ship 'Ratna Kirti', who have been repatriated to Calcutta. The said Surveyor is also expected to proceed to Antwerp, where the ship would undergo repairs, to examine further witnesses and make an inspection of the ship with a view to ascertaining the cause of outbreak of fire on the ship and the approximate loss of amount involved.

House for Aged Freedom Fighters

6479. SHRI VARKEY GEORGE :
Will the Minister of **WORKS AND
HOUSING** be pleased to state :

(a) whether Government have chalked out any plan for the houses to be provided to the aged freedom fighters in different parts of the country ; and

(b) if so, the main features thereof ?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING

(SHRI OM MEHTA: (a) and (b). Provision of houses to the freedom fighters different States is primarily the responsibility of the State Governments. No proposal as such is under consideration in the Ministry of Works and Housing.

**Minimum use of Chemical Fertilizer
to check loss of Fertility of Land**

6480. KUMARI KAMLA KUMARI:
Will the Minister of **AGRICULTURE** be pleased to state :

(a) whether with the use of chemical fertilisers the land lose their fertility ; and

(b) if so, the steps taken by the Government to use minimum chemical fertiliser by substituting it with other fertilisers ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE) : (a) and (b). No, Sir, With the use of Chemical Fertilisers land does not lose its fertility, provided the fertilisers are used judiciously. To ensure judicious use of fertiliser, the Government are advocating the use of organic manures also along with chemical fertilisers. Various measures for stepping up the utilisation of organic manures during the 5th Plan period, to mobilise plant nutrients contained in these organic manures, are under consideration.

समाज कल्याण विभाग से अनुदान प्राप्त
मुरैना (मध्य प्रदेश) की संस्थाएं

6481. श्री हुकम चन्द कछवाय :
क्या शिक्षा, समाज कल्याण और संस्कृति
मंत्री यह बताने की कृपा करेंगे कि समाज
कल्याण विभाग द्वारा वित्तीय वर्ष 1971-
72 तथा 1972-73 के दौरान मध्य प्रदेश
के मुरैना जिले की किन-किन संस्थाओं को
कितना कितना अनुदान दिया गया ?

शिक्षा और समाज कल्याण मंत्रालय तथा संस्कृति विभाग में उप-मंत्री (श्री अरविन्द नेताम) : समाज कल्याण विभाग द्वारा सीधे कोई अनुदान नहीं दिए गए थे । तो भी,

केन्द्रीय समाज कल्याण बोर्ड द्वारा 1971-72 तथा 1972-73 में मुरैना जिले में निम्नलिखित संस्थाओं को अनुदान दिए गए थे :-

क्रम संख्या	संस्था का नाम	दी गई धनराशि	मंजूर की गई धनराशि
1	परिवार तथा बाल कल्याण परियोजनायें, शिवपुर कलां, जिला मुरैना	66,300 रुपये	76,358 रुपये
2	बी० एम० एस० संगम, राधा बल्लभ बिल्डिंग, मेहरू पार्क के समीप, मुरैना	—	1,000 रुपये

समाज कल्याण विभाग से अनुदान प्राप्त ग्वालियर (मध्य प्रदेश) जिले की संस्थाएं

तथा 1972-73 में मध्य प्रदेश के ग्वालियर जिले की किन-किन संस्थाओं को कितना-कितना अनुदान दिया गया ?

6482. श्री हुकम चन्द कछवाय : क्या शिक्षा, समाज कल्याण और संस्कृति मंत्री यह बताने की कृपा करेंगे कि समाज कल्याण विभाग द्वारा वित्तीय वर्ष 1971-72

शिक्षा और समाज कल्याण मंत्रालय तथा संस्कृति विभाग में उप-मंत्री (श्री अरविन्द नेताम) : ग्वालियर जिले में निम्नलिखित संस्थाओं को अनुदान दिये गये थे :—

I. समाज कल्याण विभाग द्वारा	1971-72 रु०	1972-73 रु०

लक्ष्मीबाई नगर, उज्जैन (मध्य प्रदेश)
में मकानों के निर्माण के लिए केन्द्रीय
सहायता

6483. श्री हुकम चन्द कछवाय : क्या
निर्माण और आवास मन्त्री यह बताने की
कृपा करेंगे कि :

(क) केन्द्रीय सरकार, राज्य सरकार
तथा केन्द्र और राज्य बित्त निगमों ने मध्य
प्रदेश के उज्जैन जिले के लक्ष्मीबाई नगर
में मकानों के निर्माण के लिए मजदूर संघ
गृह-निर्माण सहकारी समिति के माध्यम से
कितना ऋण, सहायता तथा अनुदान दिया
है ;

(ख) क्या केन्द्रीय सरकारी श्रमिकों
के लिए अब तक मकानों का निर्माण हुआ
है ; और

(ग) इस समय कितने मकान निर्माणा-
धीन हैं ?

संस्थायी कार्य विभाग तथा निर्माण
और आवास मंत्रालय में राज्य मन्त्री (श्री
श्रीम मंहता) : (क) से (ग) : अपेक्षित
सूचना मध्य-प्रदेश सरकार से मांगी गई है
तथा प्राप्त होने पर समा-पटल पर रख दी
जाएगी ।

**Tenements completed under the
Slum Clearance Programme**

6484. SHRI VAYALAR RAVI:
Will the Minister of WORKS AND HOUS-
ING be pleased to state :

(a) the total number of tenements sanc-
tioned and the number of tenements com-
pleted under the Slum Clearance Progra-
me during the year 1972-73, State-
wise break-up together with the amounts
sanctioned to different States as assistance;
and

(b) the number of additional tenements
expected to be completed during 1973-74
and the total amount proposed to be spent
for this purpose in 1973-74 ?

THE MINISTER OF STATE IN
THE DEPARTMENT OF PARLIA-
MENTARY AFFAIRS AND IN THE
MINISTRY OF WORKS AND HOUS-
ING (SHRI OM MEHTA) : (a)
and (b) : The slum clearance such
was transferred to the State Sector with
effect from the 1st April 1969. Block
assistance is made available by the Central
Government to the State Governments for
the State Plan as a whole without any por-
tion of the assistance being tied to perform-
ance in any specific sector. The State
Governments have complete freedom to
regulate expenditure according to their
priorities.

The information required is accordingly
available with the Central Government

**Progress in Development of
Inland Water Transport in Kerala**

6485. SHRI VAYALAR RAVI
Will the Minister of SHIPPING AND
TRANSPORT be pleased to state ;

(a) what progress has been made in the
development work of Inland Water Trans-
port in the State of Kerala during the years
1972-73 ; and

(b) the total amount allotted and spent
during 1972-73 and the amount sanctioned
for this purpose for the years 1973-74 ?

THE MINISTER OF STATE IN
THE MINISTRY OF SHIPPING AND
TRANSPORT (SHRI M. B. RANA) :

(a) and (b). The requisite information
has been called for from the State Govern-
ment and when received will be laid on the
table of the House.

**Financial Assistance to Nehru
Stadium in Kottayam, Kerala**

6486. SHRI VAYALAR RAVI : Will
the Minister of EDUCATION SOCIAL
WELFARE AND CULTURE be pleased
to state :

(a) whether Government have received
any representation from the Kottayam
Municipal Council, Kerala regarding finan-
cial assistance to the Nehru Stadium which
is at an advanced stage of completion ; and

(b) if so, be the outlines thereof and
the reaction thereto ?

THE DEPUTY MINISTER IN THE
MINISTRY OF EDUCATION AND
SOCIAL WELFARE AND IN THE
DEPARTMENT OF CULTURE
(SHRI ARVIND NETAM)

(a) and (b) : Yes Sir. An application
without essential details was received during
March 1973 for grant of financial assistance
towards the construction of the Nehru
Stadium at Kottayam. The applicants
were advised to process the application
through prescribed channels with complete
details. No further communications has
so far been received from the applicants.

**Expenditure on Maintaining Minis-
ters' Residences**

6487. SHRI S. N. MISRA : Will
the Minister of WORKS AND HOUSING
be pleased to state :

(a) what amount has been spent in
construction, repairs, colouring and main-
tenance of the residences of the Ministers
from the 1st January, 1972 to the 31st
March 1973 ;

(b) the total expense that has been spent on the same item in respect of the residences of the Members of Parliament for the same period ;

(c) whether it is a fact that the residences of the Ministers have been painted with plastic paint ; and

(d) if so, what expenditure has been incurred for such paint in respect of the residences of each of the Ministers ?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA) :

(a) Rs. 15,24,848 (upto 28th February, 1973).

(b) Rs. 30,82,502 (upto 28th February, 1973).

(c) Yes. Plastic emulsion paint has been used in the residences of a few Ministers.

(d) The expenditure incurred on plastic emulsion paint in the residences of Ministers from 1st January, 1972 to 28th February, 1973, is as under ;

Name of Minister	Amount
1. Shri R. K. Khadilkar	Rs. 2,217/-
2. Shri K. L. Rao	Rs. 743/-
3. Shri C. Subramanyam	Rs. 624/-
4. Dr. Sarojini Mahishi	Rs. 83/-
5. Prof. Nurul Hasan	Rs. 70/-
TOTAL Rs	3,737

सस्ते मूल्यों पर मकान बनाने का सामान

6488. श्री बिभूति मिश्र : क्या निर्माण और आवास मन्त्री यह बताने की कृपा करेंगे कि :

(क) क्या सरकार गरीब लोगों के वास्ते और उचित मूल्यों पर मकान बनाने

का सामान देने की कोई योजना बना रही है ; और

(ख) यदि हां, तो उसकी मुख्य बातें क्या हैं ?

संसदीय कार्य विभाग तथा निर्माण और आवास मंत्रालय में राज्य मंत्री (श्री श्रीम मेहता) (क) और (ख) जों, नहीं: कम आय वर्गों को मकान बनाने की सुविधा देने के लिए सस्ते अथवा सहायता प्राप्त दर पर भवन निर्माण मामलों में उधनबन्ध करने की ऐसी कोई केन्द्रीय योजना नहीं है। तथापि, केन्द्रीय सरकार का आर्थिक सहायता से निम्नलिखित ईट संयंत्र या तो पहले ही स्थापित कर दिए गए हैं अथवा स्थापित किए जा रहे हैं :—

(i) राष्ट्रीय भवन निर्माण निगम समिति के निधन्वागाधीन दिल्ली में एक मशीनों ईन्ट का भट्ठा चल रहा है।

(ii) आवास तथा नगर विकास निगम समिति ने यांत्रिक/अर्द्ध यांत्रिक ईट भट्ठे स्थापित करने के लिए हाल ही में निम्नलिखित ऋण मंजूर किए हैं :—

गुजरात 9.60 (लाख रुपयों में)

तमिलनाडू 7.22 (लाख रुपयों में)

(iii) तमिलनाडू सरकार द्वारा 2.60 करोड़ रुपये के केन्द्रीय ऋण से मद्रास में एन्नौर के स्थान पर एक सेल्यूलर कंक्रीट प्लान्ट स्थापित किया गया है।

नागरिक जागरूकता पर गोष्ठी

6489. श्री मूलचन्द डागा : क्या निर्माण और आवास मंत्रों यह बताने की कृपा करेंगे कि :

(क) क्या दिल्ली में 3 जनवरी, 1973 को नागरिक जागरूकता पर गोष्ठो हुई थी ; और

(ख) यदि हां, तो उसमें क्या सुझाव दिए गये और क्या सरकार का विचार उन सुझावों में से किसी को कार्यरत देने का है ?

संसदीय कार्य विभाग तथा निर्माण और आवास मंत्रालय में राज्य मंत्री (श्री श्री मेहता) : (क) जी हां, 2-3, जनवरी, 1973 को। यह दिल्ली नगर निगम द्वारा नगर प्रशासन में प्रशिक्षण तथा अनुसंधान के राष्ट्रीय केन्द्र (भारतीय लोक प्रशासन संस्थान) नई दिल्ली के सहयोग से आयोजित किया गया था।

(ख) सेमिनार द्वारा दिए गए सुझाव सभा पटल पर रखे विवरण में दिए गए हैं। [ग्रन्थालय में रखा गया। देखिए सत्या L T-4766/73]। सुझावों का कार्यान्वयन सीधे राज्य सरकारों तथा म्यूनिसिपल प्राधिकरणों से सम्बन्धित है।

Reported Allegation against District Manager of F.C.I. Saharanpur Re: Transportation of Sugar and Foodgrains

6490. SHRI DEVINDER SINGH GARCHA : Will the Minister of AGRICULTURE be pleased to state :

(a) whether the District Manager of the Food Corporation of India Saharanpur,

invited tenders for the transportation of sugar and foodgrains from his zone to various other places and in particular from Mansurpur to Muzaffarnagar ;

(b) whether keeping in abeyance these tenders, some other parties were asked to carry on with this work of transportation at 63 paise per quintal against the request of the other parties to do the same at 55 paise per quintal pending the decision on these tenders; and

(c) if so, the reasons thereof and the action taken by Government in this regard ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE) : (a) Yes Sir. The District Manager Saharanpur invited tenders for the transport of sugar and not foodgrains within and outside UP by an open tender enquiry. The tender notice was published in 'Dainik Prabhat' Meerut on 23-12-72 and 'Jagran' Saharanpur on 27-12-72. No rates were particularly invited for the transport of sugar from Mansurpur to Muzaffarnagar.

(b) No Sir. In fact the tender with the lowest rate was accepted. But the party did not report for duty. In view of this the District Manager was authorised by the Senior Regional Manager, Lucknow to make *ad-hoc* arrangements in order to do the transportation work at the rate fixed for foodgrains by the U.P. Govt. The rates so fixed were adopted by the Food Corporation of India and the Provincial Cooperative Marketing Federation for such work. No offer to do the transportation work @ 55 paise was received by the District Manager Saharanpur.

(c). Does not arise.

पाली में श्रमिकों द्वारा मकानों के स्वामित्व की मांग

6491. श्री मूल चन्द डागा : क्या निर्माण और आवास मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या भारत सरकार ने पाली में श्रमिकों के लिए महाराजा श्री उम्मेद मिस्र के सामने 600 रिहायशी मकान बनवाए थे और इन मकानों में श्रमिक गत 17 वर्षों से रह रहे हैं और राज्य सरकार को किराया दे रहे हैं; और

(ख) क्या इन मकानों में रहने वाले उक्त मिस्र के श्रमिकों ने मकानों का स्वामित्व अधिकार उन्हें प्रदान किए जाने के लिए केन्द्रों सरकार से प्रारोप किया है, यदि हां, तो इस पर सरकार को क्या प्रतिक्रिया है ?

मंसरोय कार्य विभाग तथा निर्माण और आवास मंत्रालय में राज्य मंत्री (श्री श्रीम मेहता) : (क) और (ख), निर्माण और आवास मंत्रालय द्वारा बनाई गई किसी भी सामाजिक आवास योजना के अन्तर्गत भारत सरकार मजदूरों के लिये मकानों का निर्माण स्वयं नहीं करती है । औद्योगिक अर्जबारियों तथा सहाय के अर्जित दृष्टि से कमजोर वर्ग के लिए एकत्रित सहायता प्राप्त आवास योजना, जिसमें औद्योगिक मजदूरों आदि के लिये मकानों के निर्माण की व्यवस्था है, का कार्यान्वयन राज्य सरकारों तथा उन द्वारा अनुमोदित अभिकरणों द्वारा किया जाता है । राज्य सरकारें इस

प्रयोजन के लिये आवास सम्बन्धी परियोजनाएं बनाने, उनकी स्वीकृति देने तथा इस उद्देश्य से उनके लिये वित्तीय सहायता देने में भी सक्षम है । अपेक्षित सूचना राजस्थान सरकार से एकत्रित की जा रही है तथा प्राप्त होने पर सभा-पटल पर रख दी जाएगी ।

Indian Sea Food Exporters

6492. DR. H. P. SHARMA : Will the Minister of SHIPPING AND TRANSPORT be pleased to state :

(a) whether as reported in the "Economic Times" of March 6, 1973 Indian Sea Food Exports have lately been up against the wall despite the fact that they have built up good markets in U.K. and in Europe in general mainly because of their failure to meet the delivery schedule because the ships calling at Cochin port lift only a fraction of the cargo piled up at the wharfs; and

(b) if so, the precise assessment about the piled up cargo of these items at that port during the months of January, February and March, 1973 and the actual cargo lifted in those months and the steps taken for smooth clearance of the cargo.

THE MINISTER OF SHIPPING AND TRANSPORT (SHRI RAJ BAHADUR) :

(a) and (b). There was some accumulation of cartons of canned shrimps at Cochin. However 84,019 cartons have already been lifted during the period January-March, 1973. The backlog on 26th March, 1973 was reported to be 40,000 cartons. Arrangements have been made for the lifting of this cargo by a chartered vessel, so as to clear the entire backlog.

Loan Granted to Farmers by Small Farmers Development Agency in Mysore

6493. SHRI D. B. CHANDRA GOWDA : Will the Minister of AGRICULTURE be pleased to state :

(a) the number of farmers and amount of loans granted by the Small Farmers Development Agency in the State of Mysore, district-wise during 1971-72 and

(b) the particulars regarding the loans sanctioned for sinking irrigation wells, to instal pumpsets alongwith the terms of loan ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH) : (a) Information regarding the 3 S. F. D.As. under the Central Sector Scheme as received from the Project Agencies is given below :—

(Rs. in lakhs)

Name of the SFDA	No. of small farmers	Amounts sanctioned
1. Mysore	14,046	49.32
2. North Kanara	6,616	45.94
3. Bidar	9,776	56.03

(b) Name of S.F.D.A.

Loans for

(Rs. in lakhs)

	Irrigation Wells		Pumpsets	
	No. of small farmers	Amount	No. of small farmers	Amount
1. Mysore	641	38.12	101	2.85
2. North Kanara	108	1.43	190	3.33
3. Bidar	548	19.62 *	359	*

*(This figure indicates the total amount of loans given by the Land Development Bank for both irrigation wells as well as for pumpsets.)

Long-term Loans for wells for Small farmers are given generally for a period of 15 years on the basis of Landed Security. Medium Loans for wells and pumpsets are given up to 5 years. Minimum land holding has also been fixed for each district separately by the Cooperative Bank concerned. The rate of interest is generally around 9%.

Report of Sugar Industry Enquiry Committee appointed by the Government of U. P. in 1970

6494. SHRI JYOTIRMOY BOSU: Will the Minister of AGRICULTURE be pleased to state :

(a) whether he is aware that the Sugar Industry Enquiry Committee appointed by the Government of Uttar Pradesh on 21st

February, 1970 under the Chairmanship of Shri Virendera Verma in its report submitted in May 1970, has recommended immediate nationalisation of the industry;

(b) if so, what are the findings and recommendations of the said Committee;

(c) whether the Union Government had tendered any advice to the Uttar Pradesh Government in this regard, and

(d) if so the broad out lines thereof?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) and (b). The Government of India have not seen the report. The Government of Uttar Pradesh have advised that it is being treated as a secret document;

(c) and (d). The question of the Government of India tendering any advice to the Uttar Pradesh Government on the report does not arise.

Revision in Prices of Foodgrains

6495. SHRI R. V. SWAMINATHA Will the Minister of AGRICULTURE be pleased to state

(a) whether Union Ministry of Finance have hinted that Government are considering to revise the price of foodgrains and if necessary they will be raised ;

(b) if so, whether they have been increased ; and

(c) by how much ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE) (a) to (b). In pursuance of the decision to take over wholesale trade in wheat Government of India have fixed the procurement price for specified superior varieties of wheat at Rs. 82 per quintal for rabi season 1973-74. The question of revising the issue

price of this superior wheat is under consideration. The procurement and issue prices for other varieties of wheat and other foodgrains remain unchanged at present.

साउथ दिल्ली झुग्गी झोंपड़ी सुधार समिति
की बैठक

6496. श्री रामावतार शास्त्री : क्या निर्माण और आवास मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या साउथ दिल्ली झुग्गी झोंपड़ी सुधार समिति ने गत 4 और 5 मार्च को अपनी बैठक बुलाई थी;

(ख) यदि हां, तो उसमें पास किये गये प्रस्तावों की मुख्य बातें क्या हैं; और

(ग) इस बारे में सरकार की क्या प्रतिक्रिया है ?

संसदीय कार्य विभाग तथा निर्माण और आवास मंत्रालय में राज्य मंत्री (श्री ओम मेहता) (क) सरकार को इसकी कोई सूचना : नहीं है ।

(ख) और (ग). प्रश्न नहीं उठता ।

भारत सरकार उत्पादन केन्द्र महिला
कर्मचारी संघ का मांग-पत्र

6497. श्री हुकम चन्द कछवाय : क्या शिक्षा, समाज कल्याण और संस्कृति मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या "निर्देशक महिला समाज कल्याण केन्द्र" को "भारत सरकार उत्पादन

केन्द्र महिला कर्मचारी संघ" का कोई मांग-पत्र मार्च, 1973 में मिला था;

(ख) उसमें उल्लिखित मुख्य मांगें क्या हैं; और

(ग) क्या इन मांगों के बारे में इस बीच सरकार ने कोई कार्यवाही की है ?

शिक्षा और समाज कल्याण मंत्रालय तथा संस्कृति विभाग में उप-मंत्री (श्री श्रीरविन्द्र नेत्राम) : (क) जी नहीं।

(ख) और (ग). प्रश्न नहीं उठते।

शिवपुरी, मध्य प्रदेश में एक सेंट्रल शीप फार्म की स्थापना

6498. श्री श्रीकृष्ण अग्रवाल: क्या कृषि मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या सेंट्रल शीप फार्म स्थापित करने के लिये मध्य प्रदेश में शिवपुरी को चुन लिया गया है;

(ख) यदि हां, तो उपरोक्त फार्म वहां कब तक स्थापित किया जायेगा; और

(ग) उस पर कितना व्यय होने का अनुमान है ?

कृषि मंत्रालय में राज्य मंत्री (प्रो० शेर सिंह): (क) से (ग). केन्द्र द्वारा प्रायोजित एक बड़े भेड़ पालन फार्म की स्थापना के लिये शिवपुरी के निकट एक स्थान की उपयुक्तता पर इस समय विचार किया जा रहा

है। इस स्थान को अंतिम रूप से चुन लिये जाने के बाद राज्य सरकार के परामर्श से एक विस्तृत योजना तैयार की जायेगी, जिसमें विभिन्न चरणों में पूरा किया जाने वाला कार्यक्रम और उसके लिये आवश्यक वित्त का व्यौरा दिया जायेगा। कोई बड़ा भेड़ पालन फार्म स्थापित करने में सामान्यतः चार-पांच वर्ष का समय लग जाता है।

Private Educational Institutions Receiving Financial Aid from Foreign Countries

6499. SHRI C. K. CHANDRAPPA : Will the Minister of EDUCATION SOCIAL WELFARE AND CULTURE be pleased to state :

(a) whether it will be possible for Government to furnish a list of private educational institutions in India receiving financial aid from foreign countries

(b) if so from which countries and the sources : and

(c) what is the policy of the Government of India in regard to this kind of financial aid ?

THE DEPUTY MINISTER IN THE MINISTRY OF EDUCATION AND SOCIAL WELFARE AND IN THE DEPARTMENT OF CULTURE (SHRI D. P. YADAV): (a) to (c). Under the current exchange control regulations there is no restriction on inward remittances. However, the exchange control data maintained by authorised dealers in foreign exchange showing the particulars of beneficiaries is only in respect of Rs. 10,000 and above. No individual record of remittances of less than Rs. 10,000 is maintained.

A list of private education and institutions in India which received aid from foreign countries upto Rs. 10,000 and above together with the names of the countries giving the aid and the details of the aid during 1972-73 is under compilation and will be placed on the Table of the House in the course. It is however likely to take some time.

The advice given by the Government of India in regarding to the receiving of aid from foreign countries by private educational institutions generally is that educational institutions or any other body working in the field of education should not make direct or indirect approach to foreign governments or organisations for any financial assistance or any other kind of assistance of any magnitude whatsoever. All proposals for assistance should be submitted to the Government of India with full details. Further in case of non-Government educational institutions other than universities and institutions of higher education such proposals should be routed through the State Government concerned. Further in case financial assistance is offered without any approach having been made it should not be accepted without the prior approval of the Government of India.

The Government proposes to enquire to what extent this advice has been strictly followed by private educational institutions.

Pilot Projects on Tribal Development during 1973-74

6500. SHRI K. PRADHANI: Will the Minister of AGRICULTURE be pleased to state :

(a) the amount so far released to pilot projects for tribal development in the country project-wise during the year 1972-73;

(b) the main heads under which the money allotted is being spent; and

(c) the progress in the expenditure in these projects ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH) : (a) The following amount have so far been released to pilot projects for the Tribal Development in the country project-wise during the year 1972-73 :—

<i>Name of the Agency</i>	<i>Amount released</i>
	(Rs. in lakhs)
(1) Girijan Dev. Agency, Srikakulam (A.P.)	53.00
(2) Tribal Dev. Agency, (Singhbhum (Bihar)	38.00
(3) Tribal Development Agency, Dantewada Project, Dantewada (MP).	10.00
(4) Tribal Development Agency, Konta, Konta Project (M.P.)	20.00
(5) Parlakhemundi T.D.A., Parlakhemundi (Ganjam) (Orissa).	54.00
(6) Gunupur-Rayagada T.D.A., Gunupur, Koraput (Orissa)	55.00
TOTAL	Rs. 230.00

(b) The following are the main heads under which the money allotted is being spent :—

- (i) Agriculture.
- (ii) Plough Bullocks.
- (iii) Implements and Equipments.
- (iv) Customs Service.
- (v) Land Development.
- (vi) Minor Irrigation,
- (vii) Animal Husbandry.
- (viii) Rural Industries.
- (ix) Other subsidiary occupations.
- (x) Electrification.
- (xi) Co-operation.
- (xii) Storage and Marketing.
- (xiii) Communication.
- (xiv) Forestry.

- (xv) Land Records Operation.
- (xvi) Debt Redemption.
- (xvii) Bench Mark Survey and Research Studies.
- (xviii) Training and Publicity.
- (xix) Demonstration.
- (xx) Staff and Contingency.
- (xxi) Miscellaneous.

(c) The following expenditure has been reported by the Tribal Development Agencies :—

Name of the Agency	Expenditure
	(Rs. in lakhs)
(1) Girijan Dev. Agency, Srikakulam A.P.	15.10 (Upto Nov. 1972)
(2) Tribal Dev. Agency, Singhbhum (Bihar)	9.83 (Upto Jan. 1973)
(3) T.D.A., Dantewada Dantewada Project (M.P.)	2.49 (Upto Feb. 1973)
(4) T.D.A., Konta Konta Project (M.P.)	2.95 (Upto Feb. 1973)
(5) Parlakhemundi, TDA. Parlakhemundi (Ganjam) Orissa.	37.58 (Upto Jan. 1973)
(6) Gunupur-Rayagada T.D.A., Koraput, Orissa.	38.11 (Up to Jan. 1973)
TOTAL	106.06

NOTE : Amounts of expenditure on "Co-operation" from Singhbhum and on "Arterial roads", have not been reported from the Project.

Probability of More Food Import

6501. SHRI SAMAR GUHA : Will the Minister of AGRICULTURE be pleased to state :

(a) whether the Spokesman of the Finance Department in a Press Conference held on 1st March, 1973 in Delhi hinted about the probability of further food imports and

(b) whether such observation was made in consultation with the Ministry of Agriculture ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE) :
(a) No representative of Finance Minister had indicated at Press Conference the possibility of food imports being larger than 2 million metric tons.

(b) Does not arise.

Request from Gujarat for Additional amount for New Kuchcha Wells and deepening of existing Wells

6502. SHRI VEKARIA :

SHRI ARVIND M. PATEL :

Will the Minister of AGRICULTURE be pleased to state :

(a) whether the Gujarat State had requested Central Government for a additional amount of Rs. 6 crores for the scheme of Taqavi for new kuchcha wells and deepening of existing wells; and

(b) if so, the action taken ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE) :
(a) and (b) : Under the Emergency Agricultural Production Programme, a total amount of Rs. 5 crores was administratively approved to the Government of Gujarat for taking up quick-maturing minor irrigation schemes. This included Rs. 1 crore for the construction of new kuchcha well and deepening of existing wells. In the course of implementation of the programme, the State Government came up with a request for an additional assistance of Rs. 6 crores for this scheme. The request was examined and the State Government were advised that they could, to the extent possible divert funds to this scheme from other Schemes included in the E.A.P.P. Accordingly, in consultation with the State Government, an amount of Rs. 1.5 crores was diverted to this scheme, thus making a total of Rs. 2.5 crores.

Request for Funds from Gujarat for digging Tube-wells during 1972-73

6503. SHRI VEKARIA: Will the Minister of AGRICULTURE be pleased to state :

(a) the amount demanded by the Government of Gujarat for digging new tube-wells in Gujarat during the year 1972-73; and

(b) the amount sanctioned and released by the Central Govt. ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH : (a) and (b). The demands of the State Government for construction of new tube-wells in Gujarat during the year 1972-73 was jointly appraised by the Area Officers appointed for the State in the Ministry of Agriculture and the State Government Officers and an amount of Rs. 1.25 crores was sanctioned by the Central Government. The amount released against this programme, however, is nil as the entire amount has been diverted for the construction of new kutchha wells and deepening of existing wells in the State.

Inadequacies of Suppression of immoral Traffic in Women and Girls Act

6504. SHRI S. A. MURUGANATHAM: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state :

(a) whether a seminar organised recently in Delhi by the Central Bureau of Correctional Services has pointed out the inadequacies of the Suppression of Immoral Traffic in Women and Girls Act, especially those relating to prosecutions under the Act; and

(b) if so, whether Government intend to amend the Act with a view to remove these inadequacies ?

THE DEPUTY MINISTER IN THE MINISTRY OF EDUCATION, SOCIAL WELFARE AND CULTURE (SHRI ARVIND NETAM) : (a) Yes, Sir.

230 LS—4

(b) The precise recommendations of the Seminar when received will be considered.

Loss to Agriculturists due to Power cut in Tamil Nadu

6505. SHRI M. R. LAKSHMINARAYANAN : Will the Minister of AGRICULTURE be pleased to state :

(a) whether Government are aware that since February, 1973 about 70 per cent power was cut to Agricultural in Tamil Nadu resulting in heavy loss to the farmers;

(b) if so, the reaction of the Central Government in the matter;

(c) whether Government propose to ask for a report on the subject from the Government of Tamil Nadu; and

(d) if not, the reasons thereof ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH) : (a) No, Sir. 70% cut on power supply in Tamil Nadu is not applicable to agriculturists. Agricultural consumers get power for 4 hours during the day and during the night there are no restrictions.

(b) to (d). Do not arise in view of the reply to (a) above.

Deterrent Punishment to Offenders under Central Adulteration Act, 1954

6506. SHRI DEVINDER SINGH GARCHA :
SHRI BIBHUTI MISHRA :

Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state:

(a) whether the Central Act of 1954 to deal with the adulterators does not provide any deterrent or exemplary punishment to such offenders resulting in the increase of this most heinous crime ;

(b) whether the State Government are to be directed to enact their own legislatures to allow the respective police authorities to deal with the offenders directly; and

(c) whether Government intend to amend the act to deal with the problem effectively ?

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (SHRI A. K. KISKU) :

(a) The Prevention of Food Adulteration Act, 1954 provides for fairly deterrent and exemplary punishments.

(b) The Hon'ble Member, presumably, has referred to the need to give directions to State Governments for enacting State legislation giving powers to police officers for dealing with offences in respect of food adulteration.

Under the Prevention of Food Adulteration Act only Food Inspectors are empowered to take cognisance of such offences. The qualifications required for being designated as Food Inspector are also specifically laid down in the rules. Under the Act it is not possible to empower police officers in general to function as Food Inspectors.

There is no proposal at present to issue any directions to the State Governments to enact their own legislation which would enable them to empower the police officers to deal with the offenders directly.

(c) The operation of the Act is constantly under review and whenever it is found that amendment is required to make it more effective, these are considered and appropriate action taken.

Work on Second Hooghly Bridge at a Standstill

6507. **SHRI NAWAL KISHORE SHARMA :** Will the Minister of SHIPPING AND TRANSPORT be pleased to state :

(a) whether the attention of Government has been drawn towards a new item appear-

ing in the 'Statesman' dated the 24th February, 1973 under the caption "work on second Hooghly bridge at a standstill", and if so, the reaction of Government there-to ;

(b) whether an enquiry commission has been set up by Government to find out the causes of closure of the work, and

(c) if so, the time by which the report of the commission is expected.

THE MINISTER OF STATE IN THE MINISTRY OF SHIPPING AND TRANSPORT (SHRI M. B. RANA) :

(a) The proposed Second Bridge across the river Hooghly is essentially a State Project and as such the State Government are primarily concerned with this project. Although a Press Report referred to by the Member did appear, the State Govt. who were asked to send their comments, have intimated that there has been no closure of Bridge work as such.

(b) and (c). Do not arise.

संकटकालीन सिंचाई योजना बनाना

6508. **श्री घनशाह प्रधान :** क्या कृषि मन्त्री यह बताने की कृपा करेंगे कि :

(क) क्या उनके मन्त्रालय ने एक संकटकालीन सिंचाई योजना बनाई है ;

(ख) यदि हां, तो इसकी मुख्य बातें क्या हैं और इस योजना पर कितना व्यय किया जायेगा ; और

(ग) इस बारे में की गई राज्यवार प्रगति क्या है ?

कृषि मन्त्रालय में राज्य मंत्री (श्री अण्णासाहेब पो. शिन्दे) : (क) से (ग). खरीफ के पिछले मौसम के दौरान सूखे से उत्पन्न स्थिति का सामना करने के लिये भारत

सरकार ने चालू कृषि वर्ष के दौरान रबी और ग्रीष्म कालीन फसलों का उत्पादन बढ़ाने के लिये मुख्य रूप से लघु सिंचाई पर आधारित एक आपाती कृषि उत्पादन कार्यक्रम शुरू किया है। इस कार्यक्रम के अन्तर्गत शीघ्र पूरा होने वाले लघु सिंचाई कार्यक्रम प्रारम्भ करने के लिये राज्य सरकारों को लगभग 152 करोड़ रुपए की अतिरिक्त ऋण सहायता प्रदान करने की प्रशासकीय स्वीकृति दी गई थी। राज्य सरकारों द्वारा शुरू किए गए कार्यक्रमों में वर्तमान नलकूपों / पम्पसैटों का विद्युतीकरण नदियों, तालाबों, बारहमासी नहरों आदि की उठाऊ सिंचाई परियोजनायें, गहरे तथा कम गहरे नलकूपों का निर्माण, मुख्य और मध्यम सिंचाई परियोजनाओं के क्षेत्र की नहरों और

छोटी नहरों का विकास तथा सुधार के अतिरिक्त शीघ्र पूर्ण होने वाले अन्य प्रकार के लघु कार्यक्रम शामिल हैं।

राज्य सरकारों द्वारा सूचित की गई प्रगति के आधार पर उन्हें 152 करोड़ रुपए की आवंटित राशि में से समय-समय पर किस्तों में धनराशि निर्मुक्त की गई। हाल ही में आपात कार्यक्रम की क्रियान्विति के सम्बन्ध में हुई प्रगति की संवीक्षा की गई थी। उसके आधार पर समस्त राज्यों को अन्तिम किस्त दे दी गई थी। निर्मुक्त की गई कुल राशि 148 करोड़ रुपए से कुछ अधिक है। प्रशासकीय रूप से स्वीकृत और निर्मुक्त की गई राशि का राज्य-वार व्यौरा संलग्न विवरण में दिया गया है।

विवरण

(लाख रुपये)

राज्य का नाम	स्वीकृत ऋण	स्तम्भ 2 में दी गई राशि में से निर्मुक्त की गई रकम
(1)	(2)	(3)
1. आंध्र प्रदेश	986.500	840.000
2. असम .	202.000*	202.000
3. बिहार	1772.782	1772.782
4. गुजरात	500.000	500.000
5. हरियाणा	1200.000	1200.000
6. हिमाचल प्रदेश	50.000	32.500
7. केरल .	250.000	250.000

* इसमें ट्रैक्टरों और गह्राई यंत्र खरीदने के लिए 32.00 लाख रुपए की रकम भी शामिल है।

(1)	(2)	(3)
8. मध्य प्रदेश	581.000	581.000
9. महाराष्ट्र	2496.380	2496.380
10. मणिपुर	57.700	38.275
11. मैसूर	638.900	529.983
12. नागालैंड	20.000	20.000
13. उड़ीसा	660.000	660.000
14. पंजाब	1472.000**	1472.000
15. राजस्थान	390.700	389.200
16. तमिलनाडू	382.000†	299.000
17. त्रिपुरा	22.875	22.875
18. उत्तर प्रदेश	2075.000	2075.000
19. पश्चिम बंगाल	1433.000	1433.000
कुल	15190.837	14814.000

अरुणाचल प्रदेश के लिये 6.75 लाख रुपये स्वीकृत किए गए और गृह मंत्रालय से आग्रह किया गया था कि अरुणाचल प्रदेश की "एरिया डिमांड" में इस रकम की व्यवस्था की जाए।

मिजोरम के लिये 2 लाख रुपये स्वीकृत किए गए और गृह मंत्रालय को प्रार्थना की गई थी कि मिजोरम की "एरिया डिमांड" में इस रकम की व्यवस्था की जाए।

**इसमें सीमान्त जिलों में नलकूपों के लिये 197.00 लाख रुपये की अनुदान सहायता भी शामिल है।

†इसमें फुहारों के ऋय के लिये 20.00 लाख रुपये की रकम भी शामिल है।

Co-operative Board for Fertilizer Projects in U. P. and Punjab

6509. SHRI PRABODH CHANDRA :
Will the Minister of AGRICULTURE be pleased to state :

(a) whether a Co-operative board for fertilizer projects is planned for Uttar Pradesh and Punjab; and

(b) if so, the composition of the board and the advantages thereof ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE) :
(a) and (b) : Certain proposals for setting up two fertiliser projects in the co-operative sector in U.P. and Punjab during the Fifth Five Year Plan are under consideration. The formation of a Board of Directors will arise only when these proposals are approved by Government and co-operative societies for taking up the projects are registered.

Wages Rate under Relief Manual

6510. SHRI GADADHAR SAHA :
Will the Minister of AGRICULTURE be pleased to state ;

(a) the actual rate of wage in cash or kind under Relief Manual ;

(b) whether this wage rate under the Manual is not antdated in view of the rise in Price-index and wide spread drought in the country and acute unemployment and starvation and whether Government have under active consideration or feel it necessary to have a proposal for revision of the manual ;

(c) the concrete steps being taken or proposed to be taken to provide relief work to the scarcity, drought, food affected people and check corruption in connection with relief work ; and

(d) whether Government's attention has been drawn to news item under heading 'low wage' published in the *Times of India* dated the 25th February, 1973 and what steps are being taken to check the corruption ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE) :
(a) A statement is laid on the Table of the House. [Placed in Library. See No. L.T. 4767/73].

(b) : The State Governments have already been advised to consider revision of the famine codes/manuals, in force in the respective States, Some State Governments have taken action for revision of the codes and have reported the revised wage rates as per statement laid on the Table of the House. [Placed in Library. See No. LT—4767/73]

(c) A statement is laid on the Table of the House. [Placed in Library. See No. LV—4767/73]

(d) Yes, Sir The position of the steps taken to check mal-practices is indicated in the statement referred to in reply to part (c) of the Question.

Supply of Hardwood to Saw Mill at Chatham

6512. SHRI BHAGWAT JHA AZAD :
Will the Minister of AGRICULTURE be pleased to state :

(a) whether Forest Department of Andamans Islands entered into agreement with the Andaman Timber Industries recently for supply of 200 cu. metre hardwood logs monthly to Saw Mill at Chatham ;

(b) if so, the required quantity being supplied ; and

(c) if not, or how many hours saw mill remained closed for non-supply of timber ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) Yes, Sir.

(b) The contractor did not supply stipulated minimum quantity of 200 cubic metres of logs per month except during February, 1972.

(c) Non-supply of stipulated quantity of logs by contractors not the reason for the saw mill remaining closed. The mill remained closed for 121 hours and 55 minutes from 1st April, 1972 to 28th February, 1973, for 24 hours and 40 minutes and 26 hours and 35 minutes during March, 1973 for power failure and non supply of logs because of the log-carrying crafts being out of commission.

Taking over of Agro-Based Industries by Co-operative Sector

6513. **SHRI E. V. VIKHE PATIL:** Will the Minister of AGRICULTURE be pleased to state :

(a) whether the Planning Commission are considering any proposal to the effect that new agro-based industries may be undertaken by co-operative sector ; and

(b) if so, the main features thereof ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE):

(a) and (b). No. Sir, No such proposal is at present under consideration of the Planning Commission. However, according to the decisions on Industrial Policy taken by Government recently, encouragement to the cooperative sector will receive special emphasis in industries which process agricultural raw materials, such as sugar-cane, jute, cotton, or produce agricultural inputs such as fertilisers. The cooperative sector is also ideally suited for the manufacture and distri-

bution of mass consumption goods. Besides, the Fifth Plan Working Group on Cooperation has recommended assistance for co-operative processing programmes particularly in under-developed areas.

Recognition of Devnagri Sindhi Script

6514. **SHRI D. P. JAD EJA :**
SHRI BHAGWAT JHA AZAD

Will the Minister of EDUCATION, AND SOCIAL WELFARE AND CULTURE be pleased to state :

(a) whether All India Sindhi Writers Guild has presented a memorandum to the Prime Minister demanding the recognition of Devnagri Sindhi Script ; and

(b) if so, what action Government have taken in this regard ?

THE DEPUTY MINISTER IN THE MINISTRY OF EDUCATION, SOCIAL WELFARE AND IN THE DEPARTMENT OF CULTURE (SHRI D. P. YADAV):

(a) Yes, Sir. Government have also received several representations asking that Sindhi should be written in the Perso-arabic Script only as otherwise the personality of the Language will be lost.

(b) having considered the matter in all aspects, Government have decided that it is for the authors/writers to decide in which script they would like to write the books. Transliteration in any other script is always possible if there is a demand.

Import of Tractors and their Allocation to States

6515. **SHRI D. P. JADEJA :**
SHRI ONKARLAL BERWA :

Will the Minister of AGRICULTURE be pleased to state :

(a) The number and type of tractors imported during the last three years, year-wise ; and

(b) the number of tractors allocated to each State, State-wise and Year-wise ?

खर्च नहीं कर पाई है; और

THE MINISTER OF STATE IN
THE MINISTRY OF AGRICULTURE
(SHRI ANNASAHEB P. SHINDE):

(ख) यदि हां, तो इसके क्या कारण

(a) and (b) : The required information
is being collected and would be laid on the
Table of the Sabha.

मध्य प्रदेश को दी गई सहायता का उपयोग
न किया जाना

6516. श्री गंगा चरण दीक्षित :
क्या कृषि मन्त्री यह बताने की कृपा करेंगे कि :

(क) क्या केन्द्रीय सरकार ने मध्य
प्रदेश सरकार को छोटे किसानों और पिछड़े
वर्ग के उत्थान के लिए योजनाओं के लिए
35 करोड़ रुपये की राशि मंजूर की थी परन्तु
राज्य सरकार अभी तक एक तिहाई राशि भी
लघु कृषक विकास एजेंसी

कृषि मन्त्रालय में राज्य मंत्री (प्रो०शेर
सिंह): (क) और (ख). केन्द्रीय क्षेत्र की लघु
कृषक विकास एजेंसी/सीमान्त कृषक तथा कृषि
श्रमिक योजनाओं के अन्तर्गत मध्य प्रदेश में
पांच वर्षों की परियोजना अवधि के लिए तीन
लघु कृषक विकास एजेंसियों में से प्रत्येक के
लिए 1.5 करोड़ रुपये और दो सीमान्त कृषक
तथा कृषि श्रमिक योजनाओं में से प्रत्येक के
लिए एक करोड़ रुपये की राशि निर्धारित की
है। इन एजेंसियों को निर्मुक्त की गई और इन
द्वारा 31 मार्च 1973 तक उपयोग में लाई
गई राशि नीचे दी गई है :

राशि (लाख रुपये में)

	निर्मुक्त की गई	प्रयोग में लाई गई
1. बिलासपुर	29.95	30.10*
2. चिवाड़ा	34.59	24.35
3. रतलाम-उज्जैन	19.55	10.62**
सीमान्त कृषक तथा कृषि श्रमिक.		
1. दुर्ग-राजनंदगांव	19.71	14.78* *
2. रायसेन-सी होर	32.28	22.44
	136.08	102.29

* इसमें अर्जित व्याज और अन्य प्राप्तियां शामिल हैं।

** 31-1-73 तक।

मध्य प्रदेश में निधि के उपयोग में प्रगति सामान्यतः संतोषजनक रही है।

Acreage of Land under Tobacco Cultivation in west Bengal and Cooch Behar

6517. SHRI R. N. BARMAN :
SHRI B. K. DASCHOWDHURY:

Will the Minister of AGRICULTURE be pleased to state the total acreage of land under tobacco cultivation in West Bengal and in the District of Cooch Behar, separately during the current year ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE) : Area under tobacco for the current year has not yet become available from West Bengal, Area under tobacco during the year 1971-72 in west Bengal and district of Cooch Behar was as follows :—

	area in hectares
West Bengal	12,100
Cooch Behar	8,900

Central aid for Scheme to set up Mini-Zoos in Mysore

6518. SHRI C. K. JAFFER SHARIEF: Will the Minister of AGRICULTURE be pleased to state :

(a) whether the State of Mysore has approached the Central Government for financial assistance to the maximum extent of Rs. 84.5 lakhs for the scheme of setting up Mini-Zoos at 16 Centres in the State ; and

(b) if so, the reaction of Government hereon ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH) : (a) Yes, Sir.

(b) There is no scheme in this Ministry in the current Plan or the Fifth Five Year to provide financial assistance to mini

zoos. This has been communicated to the Mysore Government.

Import of Dry fish from Bangladesh

6519. SHRI N. TOMBI SINGH

Will the Minister of AGRICULTURE be pleased to state :

(a) whether Government are considering the inclusion of dry fish in the list of imports from Bangladesh, if so, when the list is likely to be revised ;

(b) whether the Government are aware that there is considerable smuggling activity in this item especially on the borders of India and Bangladesh, if so, the Government's reaction thereto ; and

(c) whether the Government is aware of the large scale consumption of dry fish in the eastern zone, if so, the Government's policy to meet this demand ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE) :

(a) Import of dried fresh water fish—salted or processed—from Bangladesh has already been allowed under Public Notice No. 38/73 dated 20th March, 1973 issued by the Ministry of Commerce.

(b) Some allegations to this effect have been received. Arrangements have been made of check smuggling.

(c) Government is aware of this demand and it is expected that the inclusion of dried fish within the scope of the trade arrangements with Bangladesh will help to meet the demand.

कारबेट नेशनल पार्क में चीतों की संख्या

6520. श्री एम० एस० पुरती : क्या कृषि मन्त्री यह बताने की कृपा करेंगे कि:

(क) क्या कारबेट नेशनल पार्क (गढ़वाल और नैनीताल) में चीतों की संख्या, जो वर्ष 1970 में 74 थी, अब घट कर 46 रह गयी है ;

(ख) क्या सरकार ने इनकी संख्या कम होने के कारणों का पता लगाया है; और

(ग) यदि हां, तो उनका व्यौरा क्या है ?

कृषि मंत्रालय में राज्य मंत्री (प्रो० शेर सिंह) : (क) यह सही है कि 1970 की गणना के अनुसार कारबैट नेशनल पार्क में चीतों की संख्या 74 थी। 1972 की सर्दियों में की गई गणना के अनुसार इस पार्क में 44 चीते थे, न कि 46।

(ख) और (ग). उत्तर प्रदेश सरकार के अनुसार इन आंकड़ों में अधिक अन्तर होने का कारण गणना की विधि में अन्तर होना है।

ग्रामीण रोजगार सम्बन्धी द्रुत कार्यक्रम

6521. श्री कमल मिश्र मधुकर :
क्या कृषि मन्त्री यह बताने की कृपा करेंगे कि :

(क) बिहार के पूर्वी चम्पारन जिले में केन्द्र द्वारा सहायता प्राप्त द्रुत कार्यक्रम और ग्रामीण रोजगार संगठन के माध्यम से पिछले दो सालों में कितनी धनराशि खर्च की गई और उससे कितनी सड़कों की मरम्मत की गई तथा कितने पोखरों की सफाई की गई;

(ख) क्या सरकार ने पूर्वी चम्पारन के सन्दर्भ में इस कार्य की प्रगति की समीक्षा की है, यदि हां, तो तत्सम्बन्धी व्यौरा क्या है; और

(ग) यदि नहीं, तो क्या सरकार का विचार जन सहयोग के आधार पर ऐसे कार्य पूरे करने की दृष्टि से कार्य की प्रगति की समीक्षा करने के लिए जन प्रतिनिधियों और अधि-

कारियों के बीच बातचीत आयोजित करने का है, और यदि हां, तो तत्सम्बन्धी व्यौरा क्या है ?

कृषि मंत्रालय में राज्य मंत्री (प्रो० शेर सिंह) : (क) से (ग). सूचना एकत्र की जा रही है और सभा-पटल पर रख दी जाएगी।

चम्पारन, बिहार में लघु कृषि विकास परियोजना का कार्यकरण

6522. श्री कमल मिश्र मधुकर: क्या कृषि मन्त्री यह बताने की कृपा करेंगे कि :

(क) क्या केन्द्रीय सरकार द्वारा आयोजित लघु कृषक विकास परियोजना के अन्तर्गत चल रही योजना की प्रगति पूर्वी चम्पारन (बिहार) के प्रखण्डों में बिल्कुल भी सन्तोषजनक नहीं हैं;

(ख) यदि हां, तो क्या सरकार ने समय समय पर इसकी समीक्षा की है; और

(ग) यदि हां तो तत्सम्बन्धी मुख्य बातें क्या हैं ?

कृषि मंत्रालय में राज्य मंत्री (प्रो० शेर सिंह) : (क) और (ख). लघु कृषक विकास अभिकरण योजना चम्पारन जिले (जो कि अब पूर्वी चम्पारन और पश्चिमी चम्पारन के दो जिलों में विभक्त है) के 25 खण्डों में लागू है। विभाजन के उपरान्त 13 खण्ड पूर्वी चम्पारन में आते हैं इसके दो प्रखण्ड—मोतीहारी और मोतीहारी-11 12 खण्ड पश्चिमी चम्पारन जिले में आते हैं। योजना दोनों जिलों में समान तीव्रता से लागू है और प्राप्त सूचना के अनुसार फरवरी 1973 के अन्त तक प्रगति सन्तोषजनक कही जा सकती है।

योजना की प्रगति की समीक्षा थोड़े-थोड़े समय के बाद अभिकरण के प्रबन्ध निकाय, राज्य स्तरीय समन्वय समिति और भारत सरकार की स्वीकृति देने वाली समिति द्वारा की जाती है। यह समीक्षा पूरी परियोजना की

दृष्टि में रख कर की जाती है, न कि अलग-अलग प्रखण्डों के आधार पर।

(ग) फरवरी, 1973 के अन्त तक हुई अब तक प्रगति को स्थिति का विवरण संलग्न

विवरण

चम्पारन (बिहार), के कार्यान्वयन की प्रगति का विवरण

1. अभिज्ञात भागीदारों की संख्या (लाखों में)	लघु कृषक	32540
	सोमान्त कृषक	54269
2. सहकारी संस्थाओं के सदस्यों की संख्या (लाखों में)		18930
3. खातारूप/नलरूपों की संख्या		998
4. पम्पसेटों की संख्या		223
5. अन्य लघु सिंचाई कार्यों की संख्या		1247
6. कुल लघु सिंचाई कार्य		2468
7. सन्नत कृषि उपकरणों की संख्या		160
8. दुधारू पशुओं की संख्या		224
9. कुक्कट संख्या		13
10. ग्रामीण कारीगरों को योजनाओं के अधीन सहायता पाने वालों की संख्या		—
11. ग्रामीण कार्यों के अधीन सहायता पाने वालों की संख्या		—
12. प्रदर्शन-भूखंडों की संख्या		141
13. वितरित ऋण (लाख रुपयों में) प्रारम्भ से

14. प्रारम्भ से अब तक नियुक्त राशि (लाख रुपयों में)		33.60
15. प्रारम्भ से अब तक उपयोग में लाई गई राशि (लाख रुपयों में)		16.30

Loss of Matrices of Fotosetter Machine from Minto Road Press, New Delhi

6523. SHRI HUKAM CHAND KACHWAI: Will the Minister of WORKS AND HOUSING be pleased to state:

(a) whether matrices of Foto-setter machine, worth about thousand rupees were lost from Minto Road Press, New Delhi;

(b) whether the Foto-setter Section from where matrices were lost has quite separate room with locking arrangements and is working in single shift; and

(c) who conducted the Departmental enquiry of this loss and what are the findings thereof?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM. MEHTA) :

(a) Yes. In 1969, old matrices valued at Rs. 700/- being the value of new matrices, were lost.

(b) Yes.

(c) Neither the Police, to whom the case was reported nor a Departmental enquiry, could fix the responsibility on any individual. Steps have, however, been taken to ensure safety of loose items to be kept under safe custody when not in use.

Central Grants and Loans to States for Agricultural Productivities during 1971-72

6525. PROF. NARAIN CHAND PARASHAR :

SHRI HUKAM CHAND KACHWAI :

Will the Minister of AGRICULTURE be pleased to state:

(a) the amount of Grants and Loans provided to the various State Governments in

the Calendar years 1971 and 1972 for increasing agricultural productivity; and

(b) the comparative amount for the calendar year, 1973 ?

MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE) :

(a) and (b) . The procedure for release of Central assistance to State Governments for their Plan schemes has been revised from 1969-70. Assistance is now released to State Governments in block loans and grants for the annual Plan as whole and is not related to any individual scheme for programme.

A Statement showing the total approved Plan Outlay, and Outlay for Agricultural Programmes for the various States 1971-72 and 1972-73 is laid on the Table of the House. [Placed in Library. See No. LT-4768/73]. In addition to the Plan allocation, Grants and Loans sanctioned to the State Governments during the financial year 1971-72 and 1972-73 for Central and Centrally Sponsored Schemes in the Agriculture Sector is shown in the statement laid on the Table of the House. [Placed in Library. See No. LT-4768/73]. Over and above the Plan assistance, Loans have also been released to the State Governments during 1972-73 for Minor Irrigation Schemes, as a part of Emergency Agricultural Production Programme, as per details shown in the statement laid on the Table of the House. [Placed in Library. See No. LT-4768/73].

Strike by Port and Dock Workers Employed at Major Ports

6526. Dr. RANEN SEN: Will the Minister of SHIPPING AND TRANSPORT be pleased to state:

(a) whether two lakh port and dock workers employed at the major ports in the country have decided to go on an indefinite strike from April 10 in support of their long standing demands; and

(b) if so, what steps are being taken to come to a negotiated settlement with workers over their demands and avert the proposed strike ?

THE MINISTER OF SHIPPING AND TRANSPORT (SHRI RAJ BAHADUR): (a) Yes, Sir. Strike notices have been received from the All India Port and Dock Workers Federation and its affiliates intimating the intention of the Port and Dock Workers at the major ports to go on strike with effect from the mid-night of 10th April, 1973.

(b) Meetings have been held with the representatives of the Federation to consider their demands. Efforts to arrive at a settlement and to avert the threatened strike are continuing.

Offer by Indian Sugar Mills Association to Take Over Management of Sick Units

6527. DR. RANEN SEN:

SHRI SHRIKISHAN MODI :

Will the Minister of AGRICULTURE be pleased to state:

(a) whether the Indian Sugar Mills' Association has offered to take over the management of sick units numbering about 15 and provide finance and managerial and technical personnel to them; and

(b) if so, what is Government's reaction there to?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) and (b). The Indian Sugar Mills Association have submitted to the Government in the 3rd week of March, 1973, an outline of their scheme for setting up a sick units division in the Association to undertake the management of sick sugar mills. The Association propose to raise additional subscription from its members to the extent of about Rs. 1 crore every year. The scheme implies the take over of sick sugar mills by the Government under the Industries (Dev. & Reg.). Act, 1951, as amended, and their management by the Association to be appointed as authorised controllers under the Act. Neither the

number of sick sugar mills, nor the criteria for determining sickness have been stated in the scheme.

The terms of reference of the Sugar Industry Enquiry Commission include the investigation into the causes of sickness of a large number of mills and measures for remedying the situation. The interim report of the Commission on the subject of nationalisation of the sugar industry, which is also expected to deal with the sick sugar mills, is likely to be submitted by the end of April. The proposal of the Association for the management of sick sugar mills will be examined in all its aspects, after the interim report of the Sugar Industry Enquiry Commission is received.

Compulsory Manual Work in Rural Areas for Students

6528. SHRI BIRENDERSINGH RAO:
SHRI BHAGIRATH BHANWAR:

Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether it is provided to bring change in the education system and make it compulsory for a student to spend one year in the rural area doing manual work in agriculture and agro-industries; and

(b) if so, the main features thereof?

THE DEPUTY MINISTER IN THE MINISTRY OF EDUCATION AND SOCIAL WELFARE AND IN THE DEPARTMENT OF CULTURE (SHRI ARVIND NETAM): (a) and (b). A suggestion has been received that National service for a specified period should be made a pre-condition or the award for the first degree. This suggestion is under preliminary examination by Government. Details are yet to be worked out.

H. U. D. C. O. Assistance for Housing Projects for Hostels of Students and Employees of Public Undertakings

6529. SHRI P. GANGADEB :

SHRI P. M. MEHTA :

Will the Minister of WORKS AND HOUSING be pleased to refer to the reply given to Unstarred Question No. 2873 on the 12th March, 1973 regarding Housing and Urban Development Corporation's enlarged activities and state:

(a) the amount of aid to be given to finance housing projects for hostels for students and houses for the employees of Public Undertakings; and

(b) whether the H.U.D.C.O. has asked the Universities and Public Undertakings to send their Schemes?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA) : (a) There is no specific limit on financial assistance which is given in the shape of loans by HUDCO to finance the schemes of Universities and Public Undertakings. The loans will depend on the project estimates.

(b) Yes.

Import of Generators for use of Agricultural Operation

6530. SHRI P. GANGADEB: Will the Minister of AGRICULTURE be pleased to state:

(a) whether nation-wide programme to bring up old wells into use and to dig new wells have been evolved for agricultural operations;

(b) whether State Governments have been allowed to import or arrangements have been made by Government to import generators and power machinery component to meet power shortage for use for agriculture operation; and

(c) if so, steps taken to meet the cause?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) No, Sir. The responsibility for irrigation development rests with the State Governments and they are undertaking programmes for bringing up old wells into use and digging new wells, on State-wide basis, subject to regional techno-economic feasibilities and financial and other constraints.

(b) and (c). Yes, Sir, The States of Haryana and West Bengal have each been allowed import of two diesel generators of 3.5 M.W. capacity each to make up the power shortages in these States.

Jayanti Villages in Bihar

6531. SHRI CHIRANJIB JHA: Will the Minister of AGRICULTURE be pleased to state:

(a) whether the Government of Bihar has furnished to the Central Government the list of "Jayanti villages"; and

(b) if so, the names of the villages selected for the purpose?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) and (b). Yes, Sir A list indicating names of 'Jayanti Villages' so far selected by the Government of Bihar is laid on the Table of the House. [placed in Library See No. LT-4769/ 73].

Working of Soil Testing Laboratories in Bihar

6532. SHRI CHIRANJIB JHA: Will the Minister of AGRICULTURE be pleased to state:

(a) the number of soil testing laboratories functioning in Bihar at present;

(b) whether these laboratories are working much below their rated capacity; if so, the reason thereof;

(c) whether there is any such laboratory functioning in District Sahar, (Bihar) if not, the reason thereof; and

(d) the number of soil samples analysed and recommendations made during last year?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE): (a) There are 10 soil testing laboratories of Government and other agencies functioning in the State.

(b) Yes. The reasons for soil testing laboratories working much below their rated capacities are, inadequate laboratory building accommodation staff and equipments.

(c) Yes.

(d) The number of soil samples analysed and recommendations made last year were 3724.

Conference of Agricultural Scientists

6533. SHRI C. T. DHANDAPANI :
SHRI GIRIDHAR GOMANGO:

Will the Minister of AGRICULTURE be pleased to state:

(a) whether a conference of agricultural scientists was held on 12th March, 1973 in New Delhi; and

(b) if so, the subjects discussed and action taken thereon?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE) : (a) Presumably the Hon'ble Members refer to the National symposium on Agricultural Research and Development since Independence, held from March 4—12, 1973 in New Delhi. In addition to agricultural scientists, this Conference was attended by representatives of Farmers' Organisations, State and Central Departments of Agriculture and other agricultural experts. The plenary Session of this symposium was held on March 12, 1973.

(b) The discussions covered sixteen main topics as given in the attached statement and the recommendations made are being processed for further action.

Statement

1. Advances in plant sciences relevant to meeting the food and feed needs of the Nation.
 2. Agronomic Research and Development to support new cropping systems.
 3. Soil and Water Management Research and Development.
 4. Preparing for Drought and Aberrant Weather.
 5. Research and Development in Fodder and Feed.
 6. Advances in the improvement of Horticultural Crops.
 7. Research and Development on the Control of Insect Pests and diseases and Prevention of waste.
 8. Strategy for the improvement of Food & Nutrition.
 9. Advances in Animal Sciences and a long term policy on food burden.
 10. Agricultural Education and Training and Student Participation in National Development.
 11. Agricultural Prices, Marketing, Credit and Crop Insurance.
 12. Post Harvest Technology.
 13. Extension Farmers' Organisations.
 14. Scientific Management of Small Holdings.
 15. Research and Development in Farm Machinery and Implements.
 16. Agricultural Research Communication.
- Plenary Session.

Discontinuation of Block Development Grants

6534 SHRI SHANKERRAO SAVANT :
Will the Minister of AGRICULTURE be pleased to state:

(a) whether Block Development Grants paid through States for Community Deve-

lopment Programme undertaken at Block levels have been discontinued;

(b) if so, since when; and

(c) what arrangement has been made to take payment for incomplete works?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH) : (a) to (c). Community Development Programme has been classified as a State sector scheme in the Fourth Five Year Plan. While Central assistance was given on schematic basis for community development programme at the block level upto the end of the Third Plan period, this assistance was discontinued with effect from the beginning of the Fourth Five Year Plan as a result of a decision taken by the National Development Council. However, Central assistance is given to the States in the shape of block grants and loans each year and the States are free to utilise them for programmes like Community Development and others which have been classified as State sector schemes. It is, therefore, the sole responsibility of the State Governments to make available adequate funds for development programmes undertaken at the Block level as also to make payment for incomplete works, if any, under the Programme.

**Complaints by M/s Chaugule & Co.
Re: Losses Incurred**

6535. SHRI SHANKERRAO SAVANT : Will the Minister of SHIPPING AND TRANSPORT be pleased to state :

(a) whether M/s. Chaugule and Co. have complained to the Central Government that they are incurring losses in their coastal traffic;

(b) if so, how much loss do they complain of;

(c) what is the reaction of the Maharashtra Government to the claim of rise in fare; and

(d) what action has been taken or is proposed to be taken by the Central Government on this complaint of Chaugules?

**THE MINISTER OF SHIPPING AND
TRANSPORT (SHRI RAJ BAHADUR) :**

(a) Yes, Sir,

(b) They have complained of the following losses :—

1969-70	..	Rs. 13.45 Lakhs
1970-71		Rs. 13.32 Lakhs
1971-72	..	Rs. 15.32 Lakhs

(c) The State Government is not in favour of increase in passenger fares.

(d) The entire question of Konkan Coastal Passenger Shipping Service is being reviewed by the Government.

**Foodgrains and Sugar demanded
and supplied to Maharashtra.**

6536. SHRI SHANKERRAO SAVANT: Will the Minister of AGRICULTURE be pleased to state :

(a) what is the amount of foodgrains and sugar demanded by the Government of Maharashtra from the Centre since October 1972;

(b) how much has been released for them; and

(c) whether the release is less than the demand and if so, what is the reason for such reduced release and how the State Government was advised to tide over the deficit?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASHEB P. SHINDE): (a) and (b). In January-February, 1973 the Government of Maharashtra asked for its allotment of levy sugar to be increased to 30,000 tonnes per month. Apparently the State Government were satisfied with the quantities allotted to them every month prior to that. For the period from October, 1972 to April, 1973, a total quantity of 174.7 thousand tonnes of levy sugar (excluding 4.5 thousand tonnes for the pharmaceutical industry in the State) has been allotted to that State.

As regards foodgrains, against Maharashtra Government's demand for about 1515 thousand tonnes for the period from October, 1972 to March, 1973, about 967 thousands tonnes were supplied during that period. For the month of April, 1973 Maharashtra Government have asked for the allocation of 283 thousand tonnes of foodgrains, and against this 138 thousand tonnes have been allotted.

(c) The Central Government regretted their inability to accede to the State Government's demand for increased quota of levy sugar and explained that allocation is being made on a rational basis having due regard to the population of each State as recorded in 1971 census, and pattern of sugar consumption during 1967-68 and 1968-69 when the difference between the prices of of levy sugar and free sale sugar was significant and consequently the offtake of levy sugar was normal.

Allotments /supplies of foodgrains are made taking into account the overall availability in the Central pool and the needs of deficit and drought affected States. Within the limited availability of foodgrains in the Central pool, reasonable requirements of Maharashtra Government are being met.

Interim Reports Submitted by National Commission on Agriculture

6537. SHRI P. NARASIMHA REDDY:

SHRI BHOGENDRA JHA :

Will the Minister of AGRICULTURE be pleased to refer to the reply given to Unstarred Question No. 3670 on 28th August, 1972 regarding Report by National Commission on Agriculture and state :

(a) number and subjects of further interim reports submitted to Government by the National Commission on Agriculture;

(b) the main recommendations therein; and

(c) the progress of their implementation?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE) : (a) After 28th August, 1972 the National Commission on Agriculture have submitted four more Interim Reports to the Government on the following subjects on 13-3-73 :

1. Organisational aspects of All-India Coordinated Research Projects.
2. Modernising Irrigation systems and Integrated Development of Commanded areas.
3. Whole-village Development Programme.
4. Organisation and Functions of the Commodity Development Councils and Directorates.

(b) Copies of each of the above mentioned reports were placed in the Parliament Library. A summary of the recommendations made in these reports was laid on the Table of the Lok Sabha.

(c) These reports are under examination.

Purchase of American Books by Colleges and University Libraries Against Grants by U.G.C.

6538. SHRIMATI SAVITRI SHYAM: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether costly American books and other publications are being purchased by the Colleges and University libraries in the country against the grants provided to them by the U.G.C., during the last three years;

(b) if so, the amount spent by these Colleges and University Libraries for the purchase of such costly books during the last one year; and

(c) whether any assessment has been made for the proper utilisation of the grants and usefulness of the books so purchased?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN) :
 (a) to (c). Government of India, as well as the University Grants Commission, have no information in this regard. The Universities and Colleges purchase the books needed by them out of the grants provided by the Commission, generally on the advice of their teachers. Grants to Universities and Colleges are released in suitable instalments on the basis of progress of expenditure. They are also required to submit utilization certificates in respect of these grants from Statutory Auditors/Chartered Accountants.

Expenditure incurred on Additions and Alterations to the Residences of Ministers' Bungalows

6539. **SHRIMATI SAVITRI SHYAM:** Will the Minister of WORKS AND HOUSING be pleased to state:

(a) the total amount of expenditure incurred by the Government on the additions and alterations to the residences of the Ministers during the last three years;

(b) the total value of furniture, electric and other appliances, articles supplied in these residences during that period; and

(c) whether the furniture, additions and alterations so carried out were absolutely essential?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA) :

	Rs.
(a) 1970-71	2,79,478.00
1971-72	6,01,930.00
1972-73	2,01,080.00
(upto 28-2-73)	

(b) Furniture and Electrical appliances are supplied to each Minister according to ceiling prescribed in the Ministers' residences rules viz. Rs. 38,500/- for Ministers and Ministers of State and Rs. 22,500 - for Deputy Ministers. The Ministers are liable to pay additional rent for furniture supplied in excess of the ceiling,

(c) Yes, Sir.

Socialisation of Urban and Rural Lands in the Country

6540. **SHRIMATI SAVITRI SHYAM:** Will the Minister of WORKS AND HOUSING be pleased to state:

(a) whether the State Governments have accepted the suggestion of the Central Government to socialise urban and rural lands in the country;

(b) if so, the names of the States which have accepted the proposals; and

(c) the names of the States which have not accepted the proposal together with the reasons put forth by these States?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA) : (a) The recommendation of the Conference of State Ministers of Housing etc held in July, 1972 that all urbanisable land should be socialised has been intimated to State Governments. It is still being examined by the Government of India. It is a complex issue and the exact scope of such a policy and the ways and means to implement it have to be worked out after detailed consideration. Central Government have not made any specific suggestion in this regard to the States so far. The question of socialisation of rural land has not been considered.

(b) (c) Do not arise.

Provision of Share-Cropper in Land Reforms Legislations

6541. SHRI CHANDRA SHEKHAR SINGH : Will the Minister of AGRICULTURE be pleased to state:

(a) the provisions made in the existing Land Reforms Acts of various States to protect the interests of share-croppers;

(b) whether these provisions have been implemented by the State ;

(c) if so, the progress thereof; and

(d) to what extent the share-croppers have been benefited by the existing land reform acts ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE) : (a) Protection from eviction is provided to share croppers in the Telengana area of Andhra Pradesh, in Assam (in the temporarily settled areas), Gujarat (non-Saurashtra area), Haryana, Himachal Pradesh, Kerala, Maharashtra, Mysore, Orissa, Punjab, Tripura and West Bengal.

The right of resumption for landlords is restricted and the law provides that a minimum area is to be left with the share-croppers after resumption in the States of Assam, Haryana, Punjab, Himachal Pradesh, Kerala, Maharashtra, Orissa, Rajasthan and West Bengal. The time limit given for a resumption has since expired in most of the States.

Share-cropping is not allowed in Madhya Pradesh and Uttar Pradesh.

Rates of rent as share of the gross produce provided in the various laws are given below:—

Andhra Pradesh—Telengana area: 1/5th to 1/4th; Andhra Area: 28½% to 50%; Assam: 1/5th; Bihar: 1/4th; Gujarat (excluding Saurashtra area): 1/6th; Haryana: 1/3rd; Himachal Pradesh: 1/4th; Kerala: 1/4th to 1/6th; Maharashtra: 1/6th; Mysore: 1/4th to 1/5th; Manipur: 1/4th to 1/5th; Orissa: 1/4th; Punjab: 1/3rd; Rajasthan :

1/6th; Tamil Nadu: 33½% to 40%; Tripura: 1/4th; West Bengal: 1/4th to ½.

In the States of Andhra Pradesh (Telengana Area), Assam, Gujarat (non-Saurashtra area), Kerala, Madhya Pradesh, Maharashtra, Mysore and Rajasthan, the right to acquire ownership has been conferred on tenants including share-croppers.

The State Governments have been advised to take steps to ensure protection of share-croppers, and prevent their eviction.

(b) to (d). It is estimated that about 3.5 million tenants including share-croppers have acquired ownership in respect of 3.3 million hectares of land in the country.

Switch over to Hindi as Medium of Instruction in Universities

6542 SHRI RAMSHEKHAR PRASAD SINGH :

SHRI M. M. JOSEPH :

Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether quick switch over to Hindi as a medium of instruction in University has been recommended by a conference of representatives of Hindi speaking States for the production of university level books held in New Delhi on 9th March, 1973 ;

(b) if so, what were the other subjects discussed and decisions arrived at; and

(c) the reaction of Government thereto ?

THE DEPUTY MINISTER IN THE MINISTRY OF EDUCATION AND SOCIAL WELFARE AND IN THE DEPARTMENT OF CULTURE (SHRI D. P. YADAV) : (a) Yes, Sir.

(b) A statement showing the recommendations made by the 4th Conference of Representatives of Hindi Speaking States for the production of university level books in Hindi at its meeting held on 9th March, 1973 is attached.

(c) The recommendations have been forwarded to all State Government/Granth Akademies in the Hindi Speaking States for their guidance/compliance. The Government of India on their part have also noted the various recommendations for consideration and necessary action.

Statement

The Conference in the light of the remarks of the Union Minister for Education and Social Welfare and the discussion that followed, made the following recommendations :

(1) The Vice-Chancellors in Hindi Speaking States should send their suggestions in regard to the best methods of production and publications of journals, Digests and Abstracts to the Chairman, Commission for Scientific and Technical Terminology, who would have the matter examined by the Steering Committees and action taken accordingly.

(2) University Grants Commission should be requested to bring about some sort of uniformity in the syllabi of the Universities. The pattern of 10-2-3 years should also be introduced in all the Universities.

(3) The meetings of the Subject-Panels should be held at various State Centres and the admissible expenses of the participants might be borne by the Akademi of the area.

(4) Emphasis should be given to the writing of original books. Boards of editors should be constituted by Hindi Grant Akademies for such books and best talents available, whether within the State or outsider should be associated with their writing. The subject matter of such books could also be discussed and finalized in seminar held for the purpose. The authors should normally be paid on royalty basis. Books on readings should also be compiled.

(5) The Steering Committee should meet more frequently at various State Centres.

(6) The production cost of books should be subsidized by the Government of India and books should be priced low by taking into account only the post-MSS expenses.

(7) The Universities should purchase sufficient number of copies of books published by each Hindi Granth Akademy. State Governments should consider the question of giving a part of the Library grant to Colleges in the form of books produced by Hindi Granth Akademies.

(8) Government should consider the question of establishing a Central Sales Organisation to boost up the sale of books produced by the Hindi Granth Akademies.

(9) The Hindi Granth Akademies should make a thorough survey of books of University level available from Government and Private sources and with the help of the Heads of the Boards of Studies and State Subject-Panels should aim at filling the gaps and improving subsequent editions.

(10) The Central Hindi Directorate should periodically circulate to the Heads of Departments of various universities, subject-wise lists of books published by the Hindi Granth Akademies so that it might be possible for them to get them recommended/prescribed.

(11) The Universities should not defer the switch over on the ground that books in Hindi were not available. The Universities should adopt Hindi as an optional medium of education at all levels from the academic year 1973-74.

(12) The Government of India should persuade the Panjab University, Chandigarh to adopt Hindi as an optional medium of instruction and examination.

Long wait, Little Attention in Hospital in Delhi

543. SHRI DEVINDER SINGH GARCHA :
SHRI BIBHUTI MISHRA :

Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state :

(a) whether his attention has been drawn to a news item in the "Sunday Standard" of the 11th March, 1973 under the heading "Long Wait, little attention in hospitals in Delhi";]

(b) if so, whether an American expert was called by Government who recommended that not more than six patients an hour should be seen by a doctor to do a good job and justice with the patient, and

(c) whether the number of doctors in OPDs (Outdoor Patient Department) is going to be increased in the above context?

THE MINISTER OF HEALTH AND FAMILY PLANNING (SHRI R. K. KHADILKAR) : (a) Yes, Sir.

(b) Dr. J. R. Mc Gibony visited India as a Consultant for a period of two years in the field of Hospital Administration. He submitted a report in October, 1961. This report does not, however, contain any such specific recommendation.

(c) The question of increase in number of doctors in OPDs is considered on the basis of work load and the resources available.

Request from Delhi Administration to set up a Food Zone Comprising of Punjab, Haryana and Delhi

6544. SHRI DEVINDER SINGH GARCHA : Will the Minister of AGRICULTURE be pleased to state:

(a) whether the Delhi Administration has asked the Union Government to set up a food zone comprising of Punjab, Haryana and Delhi to allow free flow of foodgrains to Delhi, being only a consuming centre and not producing one and

(b) if so, what is the reaction of the Government thereto?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHENDE) (a) and (b) . As far as rice is concerned Delhi is in the Northern Rice Zone which comprises the States of Haryana, Himachal Pradesh, Jammu and Kashmir and Punjab and the Union territories of Chandigarh and Delhi. The position in respect of coarse grains is that the export of maize from Punjab and the export of bajra and maize from Haryana is prohibited.

The Delhi Administration have requested the Government of India that Delhi should be linked with Haryana to form a separate wheat zone. However, under the Inter-Zonal Wheat and Wheat Products (Movement Control) Order, 1973 promulgated by the Government of India, Delhi is a separate wheat zone by itself.

केन्द्रीय सरकारी विभागों में सरकारी क्वार्टरों के आवंटन के लिए बनाया गया विशेष पूल

6545. श्री नरेन्द्र सिंह बिष्ट : क्या निर्माण और आवास मन्त्री यह बताने की कृपा करेंगे कि :

(क) दिल्ली/नई दिल्ली में केन्द्रीय सरकारी कर्मचारियों को सरकारी क्वार्टरों के आवंटन के लिये किन-किन सरकारी विभागों के लिए विशेष पूल बनाया गया है और इन सरकारी विभागों को प्रतिवर्ष कितने सरकारी क्वार्टर विशेष पूल के लिये उपलब्ध कराये जाते हैं;

(ख) क्या दिल्ली/नई दिल्ली में स्थित कुछ और सरकारी विभागों के लिये सरकारी क्वार्टरों का विशेष पूल बनाने का कोई प्रस्ताव उनके मन्त्रालय के विचाराधीन है; और

(ग) यदि हां, तो ये सरकारी विभाग कौन से हैं; और प्रति वर्ष और चालू वर्ष के दौरान इन विभागों को कितने-कितने सरकारी क्वार्टर दिये जाने का विचार है ?

संसदीय कार्य विभाग तथा निर्माण और आवास मंत्रालय में राज्य मंत्री (श्री ओम प्रेहता) : (क) विभिन्न सरकारी विभागों के विशेष पूल बनाने तथा उनके कर्मचारियों को आवंटन करने के लिए रिहायशी एकक उन्हें सौंपने की नीति नहीं है तथापि जिन मन्त्रालयों/विभागों के अपने विभागीय पूल हैं उनके पूलों में वृद्धि करने के लिए सामान्य पूल के क्वार्टर उन्हें सौंपे गए हैं। जिन विभागों के अपने अलग से पूल हैं, उन को सौंपे गए क्वार्टरों की संख्या नीचे दी गई है :—

क्रम संख्या	पूल का नाम	सौंपे गए क्वार्टर
1.	रक्षा पूल	1099
2.	केन्द्रीय सरकार स्वास्थ्य सेवा/अस्पताल पूल	530
3.	दिल्ली प्रशासन (महानिरीक्षक पुलिस) पूल	493

इसके अतिरिक्त, भारत सरकार मुद्रणालय (मिन्टो रोड) का पूल बनाने के लिए सामान्य पूल से 1100 क्वार्टर अलग रखे गए हैं।

(ख) और (ग). लोक सभा सचिवालय के कर्मचारियों के लिए अलग से एक पूल बनाने का निर्णय किया गया है जो उसी सचिवालय द्वारा प्रशासित किया जाएगा। विभिन्न टाइपों

के 342 रिहायशी एककों को, जो इस समय लोकसभा सचिवालय के कर्मचारियों के दखल में हैं, उक्त पूल में शामिल किया गया है। अन्य विभागों के लिए अलग से पूल बनाने का कोई प्रस्ताव इस समय विचाराधीन नहीं है। लोक सभा सचिवालय को प्रतिवर्ष क्वार्टर सौंपने का इस समय कोई इरादा नहीं है क्योंकि वह सचिवालय अब अपने कर्मचारियों के लिए मकान बनवाने के लिए उत्तरदायी होगा।

दिल्ली विकास प्राधिकरण द्वारा निर्मित मकानों के लिए तीसरा रजिस्ट्रेशन

6546. श्री नरेन्द्र सिंह बिष्ट : क्या निर्माण और आवास मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या दिल्ली विकास प्राधिकरण आगामी वर्षों में दिल्ली संघ राज्य क्षेत्र में कई नये स्थानों पर भूमि विकास तथा भवन निर्माण सम्बन्धी अपनी योजना को क्रियान्वित करने जा रहा है ;

(ख) यदि हां, तो उन स्थानों के नाम क्या हैं और वहां पर कितने आवासीय प्लॉट किस आकार के विकसित करने और बेचने का विचार है और वहां पर कितने मकानों को बना कर बेचने का विचार है ;

(ग) क्या ये नये आवासीय भूमि प्लॉट पहले की तरह की प्रत्येक प्लॉट 200 वर्गगज से अधिक के बना कर नीलामी द्वारा बेचे जायेंगे अथवा छोटे आकार के बना कर लाटरी पद्धति द्वारा बेचे जायेंगे ; और

(घ) इन नये स्थानों पर बनाये जाने वाले मकानों के लिये तीसरा रजिस्ट्रेशन कब से आरम्भ किया जायेगा ?

संस्थीय कार्य विभाग तथा निम नि, और आवास मंत्रालय में राज्य मंत्री (श्री श्रीम मेहता) : (क) जी हां ।

(ख) दिल्ली विकास प्राधिकरण अपनी विकास योजनायें निम्नलिखित स्थानों पर कार्यान्वित करेगा :—

- (i) प्रीतम पुरा
- (ii) बोडेला
- (iii) शालीमार बाग ब्लॉक ए तथा बी
- (iv) पश्चिमपुरी
- (v) दिलशाद गार्डन तथा
- (vi) गोंडा

बनाये जाने वाले विभिन्न प्लॉटों के मकानों की संख्या तथा आकार अभी तक निर्धारित नहीं किये गये हैं क्योंकि योजनायें बनाई जा रही हैं ।

(ग) 200 वर्गगज से बड़े प्लॉट ग्राम नीलामी द्वारा बेचे जायेंगे ।

(घ) पहले वाली पंजीकरण योजनाओं के अन्तर्गत पंजीकृत किये गये व्यक्तियों की मांग काफी हद तक पूरी करने के बाद, पंजीकरण की तीसरी योजना आरम्भ की जा सकती है ।

चौथी पंचवर्षीय योजना के दौरान लगाई गई चीनी मिलें

6547. श्री नाथू राम अहिरवार : क्या कृषि मंत्री यह बताने की कृपा करेंगे कि:

(क) चौथी पंचवर्षीय योजना की अवधि में कितनी चीनी मिलें लगाने का लक्ष्य था ;

(ख) उक्त लक्ष्य किस सीमा तक पूरे हुये और इन चीनी मिलों की, राज्यवार संख्या क्या है ; और

(ग) अभी तक लगाई गई चीनी मिलों में से कितनी चीनी मिलें निजी क्षेत्र में हैं और कितनी सरकारी क्षेत्र में हैं ?

कृषि मंत्रालय में राज्य मंत्री (प्रो० शेर सिंह) : (क) नये चीनी कारखाने स्थापित करने के लिए चौथी पंचवर्षीय योजना के लक्ष्य के प्रति अब तक 63 आशय पत्र/लाइसेंस जारी किये गये हैं ।

(ख) और (ग). चौथी पंचवर्षीय-योजना के लक्ष्य के प्रति क्षेत्रवार और राज्य वार जारी किये गये आशय पत्रों/लाइसेंसों की संख्या और जिस हद तक लक्ष्य प्राप्त किया गया है, उसे बताने वाला एक विवरण सभा पटल पर रखा है । [प्रश्नालय में रखा गया दस्तावेज संख्या एन० टी०— 4770/73] ।

भारतीय कृषि अनुसंधान संस्थान, पूसा
नई दिल्ली के भूतपूर्व वैज्ञानिक
की मृत्यु के बारे में जांच

6548. श्री नाथू राम अहिरवार :
क्या कृषि मंत्री यह बताने की कृपा करेंगे
कि :

(क) क्या गत वर्ष भारतीय कृषि अनुसंधान संस्थान के एक वैज्ञानिक श्री शाह की रहस्यमय मृत्यु के कारणों की जांच करने के लिये केन्द्रीय सरकार द्वारा आदेश दिये गये थे ;

(ख) क्या उक्त जांच के बारे में सरकार को रिपोर्ट प्राप्त हो गई है और यदि हां, तो स्वर्गीय श्री शाह की मृत्यु के लिये कोई व्यक्ति जिम्मेदार ठहराया गया और यदि हां, तो उसके विरुद्ध क्या कार्यवाही की गई है ?

कृषि मंत्रालय में राज्य मंत्री (श्री अण्णा साहिब पी० शिन्दे) : (क) जी नहीं ।

(ख) प्रश्न ही नहीं उठता ।

पशु पालन और दुग्ध योजना के लिए
वित्तीय सहायता सम्बन्धी योजना

6549. श्री नाथू राम अहिरवार :
क्या कृषि मंत्री यह बताने की कृपा करेंगे
कि :

(क) क्या पशु पालन और दुग्ध योजना के अन्तर्गत लोगों की वित्तीय सहायता देने की सरकार की कोई योजना है ;

(ख) यदि हां, तो इस योजना की रूप-रेखा क्या है ; और

(ग) क्या ऐसी वित्तीय सहायता देने से लोगों में विशेषकर किसानों में उत्साह और रुचि को बढ़ावा मिलेगा ?

कृषि मंत्रालय में राज्य मंत्री (श्री० शेर सिंह) : (क) जी हां । सघन पशु विकास परियोजनाओं, लघु कृषक विकास अभिकरण और सीमान्त कृषक और कृषि श्रमिक कार्यक्रमों और डेरी योजनाओं के अधीन, दुधारू पशु खरीदने के लिये ऋण दिये जाते हैं और साथ ही बछड़ों के पालन के लिये राज सहायता दी जाती है ।

(ख) सघन पशु विकास परियोजनाओं के अन्तर्गत सहकारी संस्थाओं और अलग-अलग पशुपालकों को वित्तीय सहायता देने की व्यवस्था की गई है । यह सहायता दुधारू पशुओं को खरीदने के लिये ऋण के रूप में और बछड़ों के पालन के लिये उचित आहार को सुनिश्चित करने के लिये राज सहायता के रूप में दी जायेगी । सघन पशु विकास कार्यक्रम एक बहु-मुखी विकास योजना है जो एक-साथ पशु विकास के सभी पहलुओं यथा प्रजनन और पशु स्वास्थ्य और डेरी-विस्तार गतिविधियों सहित दुग्ध उत्पादक सहकारी संस्थाओं के सुनियोजित और समन्वित विकास की ओर ध्यान देती है । प्रत्येक परियोजना के अन्तर्गत प्रजननयोग्य एक लाख गाय/भैंस आती है और वे एक दुग्ध पूर्ति योजना से सम्बद्ध होती हैं ताकि परियोजना क्षेत्रों में उत्पादित दुग्ध का विपणन सुनिश्चित किया जा सके ।

लघु कृषक विकास परियोजनाओं और सीमान्त कृषक तथा कृषि श्रमिकों की विकास परियोजनाओं के अधीन, दो दुधारू पशुओं की पूंजीगत लागत का 25 प्रतिशत परिवहन खर्च और पशुशाला के लिये राज सहायता दी जाती है। यह सहायता आमतौर पर एक हैक्टर से तीन हैक्टर तक की जोत वाले कृषकों को दी जाती है। औसर के परिपक्व होने की आयु तक चारे-दाने के लिये 25 प्रतिशत राज सहायता की अनुमति दी गई है। एक हैक्टर से कम जोत की भूमि वाले सीमान्त कृषकों और भूमिहीन कृषि श्रमिकों को इन मदों पर 33½ प्रतिशत राज सहायता दी जाती है। चतुर्थ पंचवर्षीय योजना के अन्तर्गत देश के विभिन्न भागों में लघु कृषकों सीमान्त कृषकों और कृषि श्रमिकों के लाभ के लिये 46 लघु कृषिक परियोजनाओं और 41 सीमान्त कृषक और कृषि श्रमिकों की विकास परियोजनाओं की स्थापना की गई है। जनवरी, 1973 के अन्त तक इन अभिकरणों की सहायता से 22,570 डेरी एककों और 2,655 कुकट एककों की स्थापना की गई है।

(ग) जी हां।

Research for the Improved Method for Abortion

6550. SHRI VARKEY GEORGE : Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state:

(a) whether Government have conducted any research for the improved method for abortions as is being used in Britain now-a-days; and

(b) if so, the progress achieved in this regard.

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (SHRI A. K. KISKU) : (a) and (b). The improved methods for abortion used in U. K. are:—

(i) Suction curettage ; and

(ii) Prostaglandins.

Suction curettage is a well established method and has been universally accepted and no trials on this method are necessary. It is being used in India in a number of hospitals doing Medical Termination of Pregnancy.

Clinical trials on Prostaglandins have recently started in six different centres in India and are in the preliminary stage. As such conclusive or extensive results cannot be given at present.

Seminar on India and the World Sports

6551. SHRI VARKEY GEORGE :
SHRI ARJUN SETHI :

Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether any Seminar on India and the World Sports was held in Jaipur during March, 1973;

(b) if so, the discussion held in the seminar and decisions arrived at; and

(c) the names of the participants in the Seminar?

THE DEPUTY MINISTER OF EDUCATION AND SOCIAL WELFARE IN THE DEPARTMENT OF CULTURE (SHRI ARVIND NETAM) (a) A Seminar on "India & the World of Sports" was held by the University of Rajasthan.

(b) According to preliminary report received from the organisers, the following main recommendations were made after discussion :

(1) That a National Board of Physical Education & Sports on the pattern of University Grants Commission should be established.

- (2) That a National Policy on Play-fields on the pattern of National Play-field Association of U. K. should be laid down;
- (3) That qualified physical education personnel should be appointed in each educational institution;
- (4) That physical education should be made compulsory in schools and colleges;
- (5) That talented sportsmen in schools and colleges should be given scholarships;
- (6) That a National Sports Funds be created; and
- (7) That action for the selection of participants for the 1976 Olympic Games should be initiated immediately and promising sportsmen given intensive training to reach the international standards.

(c) This information is being collected and will be laid on the table of the house.

Separate Cells to Assist States in stepping up Agricultural Production, Animal Husbandry in A. P. and U. P. and Western Rajasthan

6552. SHRI K. RAMAKRISHNA REDDY : Will the Minister of AGRICULTURE be pleased to state:

(a) whether separate cells could be created at the Centre to review and assist the States in stepping up agricultural production, Animal Husbandry in the backward regions of Telengana, Rayalaseema, Eastern Uttar Pradesh and Western Rajasthan;

(b) if not, whether such cells are likely to be created during Fifth Plan; and

(c) if so, whether advance action would be taken during the year 1973-74.

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH) : (a) There is not

proposal before the Government of India to create separate State-wise cells for this purpose.

(b) and (c). The question does not arise.

Imported Wheat Supplied to Rajasthan

6553. SHRI SHRIKISHAN MODI: Will the Minister of AGRICULTURE be pleased to state :

(a) whether Rajasthan has been supplied imported wheat;

(b) if so, how much imported wheat has been given to the Rajasthan State upto the end of April, 1973; and

(c) whether the imported wheat which was supplied to the Rajasthan State has been found defective; and if so, the reaction of Union Government thereto?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE) : (a) and (b). The requirements of Rajasthan Government since January 1973, have so far been met out of indigenous wheat stocks except for a quantity of 568 tonnes of imported wheat which was supplied during March 1973, to the Roller Flour Mills.

(c) The imported wheat supplied was of sound quality.

मध्यम आय वर्ग और निम्न आय वर्ग के लोगों को मकान बनाने हेतु ऋण देने के लिए राज्यों को धनराशि देना ।

6554. श्री रामावतार शास्त्री :

क्या निर्माण और आवास मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या भारत सरकार मध्यम आय और निम्न आय वर्ग के लोगों को मकान बनाने हेतु ऋण देने के लिये राज्य सरकारों को धन राशि देती है ;

(ख) यदि हां, तो वर्ष 1970-71, 1971-72 और 1972-73 में राज्य-वार अलग अलग कितनी धनराशि दी गई ;

(ग) क्या भवन निर्माण सामग्री के दिनों दिन बढ़ते हुये मूल्यों को देखते हुये बिहार सरकार को कुछ अन्य राज्य सरकारों से इस धनराशि में वृद्धि करने की मांग की है ; और

(घ) यदि हां, तो इस बारे में केन्द्रीय सरकार की क्या प्रतिक्रिया है ?

संसदीय कार्य विभाग तथा निर्माण और आवास मन्त्रालय राज्य में मन्त्री श्री ओम मेहता) : (क) और (ख). निर्माण और आवास मन्त्रालय द्वारा आरम्भ की गई निम्नलिखित तीन सामाजिक आवास योजनाओं में निम्न मध्यम आय वर्गों के लोगों के लिये मकानों के निर्माण हेतु लम्बी अवधि के ऋण देने की व्यवस्था है :—

(i) निम्न आय वर्ग आवास योजना

(ii) ग्रामीण आवास परियोजन स्कीम

(iii) मध्यम आय वर्ग आवास योजना
ये सभी योजनाएँ प्लान के राज्य क्षेत्र में हैं। चौथी योजना के दौरान राज्य प्लानों के लिये केन्द्रीय सहायता "खण्ड ऋणों और खण्ड अनुदानों के रूप में दी जाती हैं जो विकास की किसी योजना विशेष से सम्बद्ध नहीं हैं। राज्य सरकारें अपने साधनों के आधार पर जिसमें केन्द्रीय सहायता भी शामिल है, उनके द्वारा निर्धारित की जाने वाली प्राथमिकताओं और आवश्यकताओं के अनुसार विधियों से कोई भी राशि नियत करने के

स्वतन्त्र हैं। राज्य सरकारों को राज्य क्षेत्र की योजनाओं के लिये किसी आवास योजना तथा कार्यक्रम विशेष के लिये विशिष्ट रूप से कोई निधियां नहीं दी जाती।

उपर्युक्त स्थिति को देखते हुये, इन योजनाओं के अन्तर्गत, 1970-73 के तीन वर्षों के दौरान, राज्यवार केन्द्रीय निधियों के देने का प्रश्न ही नहीं उठता।

(ग) और (घ). न ही योजना आयोग के पास और न ही इस मन्त्रालय को बिहार से या किसी अन्य राज्य से इस विषय पर कोई संदर्भ प्राप्त हुआ दिखाई देता है।

खण्ड विकास योजनाओं से धनी किसानों को लाभ

6555. श्री रामावतार शास्त्री :
क्या कृषि मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या राज्यों में खण्ड विकास योजनाओं का लाभ, गरीब और मध्यम वर्ग के किसानों को न हो कर, धनी किसानों को हो रहा है ;

(ख) यदि हां, तो इसके क्या कारण हैं ; और

(ग) खण्ड विकास कार्यों से अधिकतम लाभ गरीब और मध्यम वर्ग के किसानों को दिलाने की दृष्टि से कौन सी योजना लागू की गई है अथवा लागू करने का विचार है ?

कृषि मन्त्रालय में राज्य मंत्री (प्रो० शेर सिंह) : (क) और (ख). जी नहीं। सामुदायिक विकास कार्यक्रम 1952 में आरम्भ किया गया था। इसके अन्तर्गत इलाके के

भौतिक तथा मानवीय संसाधनों का पूरा-पूरा विकास सुनिश्चित करने का प्रयत्न किया जाता है और उसके द्वारा लोगों के सक्रिय सहयोग एवं पहलशक्ति संग्राम समुदाय के जीवन स्तरों को ऊपर उठाया जाता है। इस कार्यक्रम का उद्देश्य कृषि, पशुपालन, लघु-सिंचाई, भूमि विकास जैसे उत्पादी कार्य-कलापों और शिक्षा, स्वास्थ्य तथा सफाई, जल-आपूर्ति जैसी सुख-सुविधा कार्यक्रमों के मध्यम से ग्रामीण इलाकों का समन्वित विकास करना है और इसमें अमीर तथा गरीब के बीच कोई भेद-भाव नहीं किया जाता है। वास्तव में इस बात पर बल दिया जाता है कि कृषि प्रदर्शन छोटे किसानों के खेतों में किये जाने चाहिये और छोटे किसानों की आवश्यकताओं को पूरा करने पर विशेष ध्यान दिया जाना चाहिये। *

(ग) ग्रामीण इलाकों में रोजगार और अतिरिक्त आय पैदा करने के लिये चौथी योजना के दौरान हाल ही में "लघु कृषक विकास अभिकरण" और "सीमान्त किसान तथा कृषि श्रमिक विकास अभिकरण" जैसी योजनाएँ आरम्भ की गई हैं। ये सामाजिक न्याय की नीति का पालन करने के लिये कमजोर वर्गों को लाभ पहुंचाने की दृष्टि से तैयार की गयी हैं।

Number of Agricultural Aircraft for Aerial Spray on Crops of Rabi and Kharif Seasons

6556. SHRI RAMAYTAR SHASTRI :
SHRI C. CHITTIBABU:

Will the Minister of AGRICULTURE be pleased to state:

(a) whether Government have a proposal to undertake aerial spraying of crops in

various States during the coming Kharif and Rabi Seasons :

(b) if so, the area proposed to be so sprayed;

(c) whether the present agricultural aircraft potential is considered adequate to cover the said area; and

(d) if not, the steps being taken to acquire the requisite number of such aircraft immediately

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE): (a) to (c). The target for aerial spraying during 1973-74 is 20.21 lakh hectares. The aerial spraying programmes are organised by State Governments and are carried out by the fleet of the Directorate of Agricultural Aviation and that of the private operators. The existing fleet strength will have to be augmented to achieve the targets.

(d) In addition to the acquisition of aircraft to be manufactured by M/s. Hindustan Aeronautics Limited, Bangalore, the shortage in the fleet strength is proposed to be met by the import of Fixed Wing Aircraft.

Review of Policy for Import of Tractor

6557. SHRI M. S. SANJEEVI RAO :
Will the Minister of AGRICULTURE be pleased to state :

(a) whether policy of import of Tractors is under review; and:

(b) if so, by what time Government will be able to take a final decision in the matter

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE) (a) Yes, Sir.

(b) Very shortly.

Survey of Gulf of Kutch for Deep Sea Fishing

6558. SHRI VEKARIA : Will the Minister of AGRICULTURE be pleased to state :

(a) whether any survey has been conducted in the Gulf of Kutch in regard to deep sea fishing; and

(b) if so, the results thereof

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE): (a) and (b). Preliminary survey of the pattern and availability of fish in the gulf of Kutch has been carried out intermittently by the vessels of the Central Deep Sea Fishing Organisation. The surveys were carried out in the areas within the Gulf and in the adjacent open sea. Preliminary results have shown moderate availability of quality fish and prawns in the area. In order that regular and systematic surveys may be taken up in this area, arrangements have been made to establish a survey base at Kandla.

Indian Medical Association opposed to National Health Scheme

6559. SHRIMATI BHARGAVI THANKAPPAN :

SHRI Y.S. MAHAJAN :

Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state :

(a) whether the Indian Medical Association has strongly opposed the proposed National Health Scheme;

(b) if so, on what grounds the Association is opposing the Scheme; and

(c) what is Government's reaction thereto ?

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (SHRI A. K. KISKU) : (a) Yes.

(b) The main objections raised by the Indian Medical Association and others are given below :—

- (i) Mixing up of the various systems of medicine should be avoided.
- (ii) The Scheme provides a back-door recognition to un-educated and untrained practitioners.
- (iii) Instead of unqualified people being paid remuneration, the Government may pay honorarium to the medical people for their attachments to Primary Health Centre/hospitals etc.
- (iv) The training programme is not only inadequate and expensive but also uncalled, for, retrograde and would serve no useful purpose.
- (v) Doctors at Primary Health Centres would not have time and competence to supervise the work of this heterogeneous group of practitioners.
- (vi) It would be better to provide more amenities at Primary Health Centres so that the doctors may have no objection to be posted in rural areas or else start a parallel scheme of Primary Health Centres with ayurveds etc.
- (vii) Instead of launching the scheme the Government should force medical graduates to serve in rural areas and bonds should be taken from them during training period.

(c) The objections and suggestions raised by Indian Medical Association and others have been considered in great detail and the scheme has been suitably revised.

Request for Fodder from Mysore

6560. SHRI C.R. JAFFER SHARIEF :
SHRI DHARAMRAO AFZAL-PURKAR :

Will the Minister of AGRICULTURE be pleased to state :

(a) whether any request was made by the State of Mysore to the Central Government for the supply of fodder to the State ; and

(b) if so, the reaction of Government thereon ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH) :

(a) No Sir.

(b) Question does not arise. However as a result of fodder scarcity created by drought conditions a request was received from the State of Mysore for delegating Powers under the Essential Commodities Act, 1955 for placing restrictions on the stocking and movement of cattle feeds and fodder. Powers were accordingly delegated to the State of Mysore for this purpose by the Government of India. The restrictions were initially imposed upto 31-1-73 and were later extended upto 31-3-1973. The State Government have proposed a further imposition of these restrictions this month, which is being examined. The Ministry of Railways have granted concessions on freight charges for the movement of feeds and fodder into and within the State.

Development of Fishing Harbours

6562. SHRI C.K. JAFER SHARIEF : Will the Minister of AGRICULTURE be pleased to state :

(a) the number and names of the fishing harbours to be developed during the current plan;

(b) whether there are scopes to provide the infrastructure for deep sea fishing ; and

(c) if so, the main features thereof ?]

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHIB P. SHINDE) :

(a) Small-scale facilities for landing and bearinging of fishing vessels have been sanctioned during the current Plan period at about 70 sites, but the larger fishing harbours which have been sanctioned or are being developed during the current

Plan are at Madras, Bombay, Cochin, Tuticorin, Roychowk, Vizhinjhom, Karwar, Port Blair, Veraval, Baliapatham and Cannore. In addition, provision of large-scale fishing harbours is under consideration at several other centres, and plans and estimates have been drawn up for Vishakhapatnam, Paradeep, Malpe, Honnavar, Ratnagiri, Dighi, Satpati, Dhamra, Neendakara, Kakinada, Nizamapatnam and Narasapur.

(b) and (c) : The harbours at Visakhapatnam, Madras, Bombay, Cochin, Tuticorin, Roychowk, Vizhinjhom, Karwar, Port Blair, Paradeep, Malpe and Neendakara are designed to provide facilities for deep sea fishing vessels while the harbours at Honavar, Ratnagiri, Dighi, Satpati, Dhamra, Kakinada, Veraval, Baliapatnam and Cannonore can handle medium sized of-shore fishing vessels. These harbours will handle both small mechanised boats and larger off-shore or deep-sea fishing vessels. The designs of the harbours provide not only for the landing and berthing of fishing vessels, but also shore facilities for the handling of the catch. At most of the harbours provision has also been made for dry docking and repair facilities.

Incentive to Voluntary Organisations to Eradicate Illiteracy

6563. SHRI S.N. MISRA : Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE [be pleased to state :

(a) whether in view of the increasing mass illiteracy in the country, Government propose to give recognition to the voluntary organisations to shoulder the responsibility and allocate adequate finance to them ; and

(b) if not, in which way Government propose to give incentive to such voluntary organisations ?

THE DEPUTY MINISTER IN THE MINISTRY OF EDUCATION AND SOCIAL WELFARE AND IN THE

DEPARTMENT OF CULTURE
(SHRI D. P. YADAV) : (a) and (b) : Recognising the role the Voluntary Organisations can play in promotion of Adult Education/Adult Literacy financial assistance is given to them for carrying out their programmes of adult education and adult literacy under the scheme of "Assistance to Voluntary Organisations working in the field of Adult Education". It is envisaged that the scheme will be continued in the Fifth Five Year Plan.

Explosion in B.H.U.

6564. **SHRI S. N. MISRA :** Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state :

(a) whether an explosion incident took place in the Banaras Hindu University in the second week of March, 1973;

(b) if so, the damage caused therefrom; and

(c) the action taken by Government against the guilty persons?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN) : (a) to (c) According to the information furnished by University, 'on March 14, 1973, at about 11-30 P.M. when the Registrar came to his residence there was a big explosion. He came out of the Car and rushed towards the residence. A couple of minutes later some others also came out and saw that something had exploded towards the left-hand side of the car on the road. Pieces of paper and twine were spread around. Towards the right hand side on the road near the gate an object like a country-made bomb was lying. It was closely wound by a twine. The Proctors' Office and the police were informed, who came and took the object supposed to be a bomb in their possession as also the fragments of the exploded object. The police is investigating into the matter further.'

Supply of Pumping Sets and Tractors to Small and Marginal Farmers in Kosi Canal Command Area in Bihar

6565. **SHRI M. D. JAMILURRAHMAN :** Will the Minister of AGRICULTURE be pleased to state :

(a) the total number of registered Small and Marginal Farmers in Kosi Canal Command area and total number of pumping sets and tractors supplied to them in the State of Bihar in the years 1971-72 and 1972-73; and

(b) if so, the break-up thereof ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH) : (a) and (b) The information is being collected from the State Government and will be placed on the Table of the Sabha as soon as received.

Fertiliser Supplied to Small Farmers of Kosi Canal Command Area during 1971-72 and 1972-73

6566. **SHRI M.D. JAMILURRAHMAN :** Will the Minister of AGRICULTURE be pleased to state :

(a) total quantity of fertiliser (Ammonium Sulphate, and Urea) supplied to the small and marginal farmers in the Kosi canal command area in the year 1971-72 and 1972-73; and

(b) its break-up, year-wise ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE) : (a) and (b). No information regarding the quantity of fertilizers supplied to the small and marginal farmers in the Kosi canal command area during 1971-72 and 1972-73 is available with the Government of India. The information has been called for from the State Government and will be placed on the Table of the Sabha after its receipt.

**Setting up a drought Control Board/
Commission for Drought Prone
and Backward areas**

6567. SHRI MD. JAMILURRAH-
MAN :

SHRI PRABODH CHANDRA:

Will the Minister of AGRICULTURE
be pleased to state :

(a) whether the Government intend to
form a Drought Control Board or Com-
mission on all India basis; and

(b) if so, the broad outlines thereof?

THE MINISTER OF STATE IN THE
MINISTRY OF AGRICULTURE
(PROF. SHER SINGH) : (a) No, Sir.

(b) Does not arise.

**Persons employed under Crash
Programme for Rural Employment
in Kosi Canal Command Area in
Bihar during 1971-72 and 1972-73**

6568. SHRI MD. JAMILURRAH-
MAN : Will the Minister of AGRICUL-
TURE be pleased to state :

(a) the total number of Schemes taken
up and persons employed under crash pro-
gramme in the Kosi Canal Command area
in the State of Bihar in the year 1971-72
and 1972-73 and funds allotted under such
schemes; and

(b) if so, the broad outlines thereof

THE MINISTER OF STATE IN THE
MINISTRY OF AGRICULTURE (PROF.
SHER SINGH) : (a) and (b). The
information is being collected from the
State Government and will be placed on
the Table of the Sabha as soon as possible.

Improvement in Traffic at Kandla

6569. SHRI P. M. MEHTA : Will
the Minister of SHIPPING AND TRANS-
PORT be pleased to state :

(a) whether the major port of Kandla in
Kutch has shown considerable improve-
ment in traffic in 1972; and

(b) if so, to what extent it has improved?

THE MINISTER OF SHIPPING
AND TRANSPORT (SHRI RAJ.
BAHADUR) : (a) Yes, Sir.

(b) The total traffic handled by Kandla
port during 1972 was 23.83 lakhs tonnes as
against 18.05 lakhs tonnes in 1971, there-
by registering an increase of 32%.

**Enquiry into loss to Crop due to
Frost in Gujarat**

6570. SHRI P. M. MEHTA : Will the
Minister of AGRICULTURE be pleased
to state :

(a) whether crops worth Rs. 6.92 crores
were lost as a result of the frost in some part
of the Gujarat State recently; and

(b) whether Union Government has
asked the Scientists to go into the causes and
to suggest improvement in prevention of
crops under such circumstances?

THE MINISTER OF STATE IN THE
MINISTRY OF AGRICULTURE (SHRI
ANNASAHEB P. SHINDE) : (a) Yes,
Sir. A statement showing the crop-wise
damage due to frost during the month
of January, 1973 as intimated by the State
Government is attached.

(b) No, Sir. The State Government
have not approached the Ministry in the
matter with any specific proposals. The
Central Team consisting of the represent-
tives/experts of the Planning Commis-
sion, Ministries of Finance, Works & Housing
and Agriculture which visited the State
from 22nd to 26th February, 1973, how-
ever, advised the State Government to
raise the crops which require less water.
like gram, barley, mustard etc.

STATEMENT

Statement showing the crop-wise damage due to frost in Gujarat State during the month of January, 1973

Sl. No.	Name of the Crop	Area in lakh Hect. (estimated)	Damage in lakhs Rs. (estimated)
1	Cotton .	1.46	332
2	Castor .	0.12	58
3	Tobacco .	0.06	50
4	Wheat .	0.17	83
5	Vegetables	0.30	63
6	Other crops*	0.21	81
7	Fodder crops	0.05	25
		<u>2.37</u>	<u>692</u>

*Other crops included Rape, Cumin, Fennel, Tur, etc.

**Cost of Built up D.D.A. Flats
for Middle Income Group**

6571. SHRI R.K. SINHA : Will the Minister of WORKS AND HOUSING be pleased to state :

(a) whether the Government has seen clause II of the rules for registration of intending buyers of built up flats by D.D.A. (second registration) wherein it has been stated that the cost of built up flats for Middle Income Group will be Rs. 35,000/- (rupees thirty-five thousand)?

(b) whether Government are aware that the flats released by D.D.A. in Rajouri Garden area were sold for more than Rs. 40,000/- each and that the flats built by D.D.A. in Malviya Nagar and Munirka area are likely to cost still more; and

(c) if so, the reasons therefor and efforts being made to reduce the cost of these flats?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA) : (a) Yes, Sir. The cost mentioned is, however, an approximate figure.

(b) Flats in Rajouri Garden were not sold for more than Rs. 40,000/- each. The sale prices of flats was as follows :

- (i) Ground floor . . . Rs. 40,000/-
- (ii) First Floor . . . Rs. 37,500/-
- (iii) Second Floor . . . Rs. 38,000/-

The sale price of flats in Malviya Nagar and Munirka has not yet been worked out.

(c) Sale price of flats takes into account the cost of construction, changes in plan and plinth area to make the houses more comfortable and attractive and investments in providing external services like sewer lines, electricity etc. Though sale price is dependent on factors mentioned above, efforts are made to keep the increase in prices of flats to the minimum.

Suggestion from transport Development Council to remove Wine Shops from National Highways

6572. SHRI R.K. SINHA :

SHRI MUHAMMED SHARIFF :

Will the Minister of SHIPPING AND TRANSPORT be pleased to state :

(a) whether Government have initiated action on the suggestion of the Transport Development Council not to allow wine

shops to be established on National Highways and also to remove the existing shops from there and shift them to some other places;

(b) if so, the number of shops so removed; and

(c) if not, the reasons therefor ?

THE MINISTER OF STATE IN THE MINISTRY OF SHIPPING AND TRANSPORT (SHRI M.B. RANA):

(a) to (c). The recommendation of the Transport Development Council in regard to removal of licensed liquor shops from the main highways to the interior has been brought to the notice of the State Governments and Union Administrations for consideration. Replies are awaited from them about the action proposed to be taken on the recommendation.

लन्दन के संग्रहालय में रखी गई भारतीय पुरातत्व सामग्री की वापसी]

6573. श्री भारत सिंह चौहान : क्या शिक्षा समाज कल्याण और संस्कृति मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या भारत की प्रसिद्ध पुरातत्व सामग्री ब्रिटिश सरकार ने अपने लन्दन के संग्रहालय में रखी है ;

(ख) क्या आजादी के बाद भारत सरकार ने उनकी वापसी की मांग की है ; और

(ग) यदि हां, तो इस सामग्री का विवरण क्या है और क्या सरकार इसकी एक प्रति सभा पटल पर रखेगी ?

शिक्षा, समाज कल्याण और संस्कृति मंत्री (श्री० एस० नूरुल हसन) : (क) भारतीय पुरातत्व महत्व की बहुत सी महत्वपूर्ण वस्तुएँ लन्दन के विभिन्न संग्रहालयों में उपलब्ध हैं ।

(ख) जी नहीं ।

(ग) ऐसी विवरणात्मक सूची संकलित करना कठिन होगा ।

इन्दौर होकर भोपाल से ग्रहमदाबाद तक राष्ट्रीय राजपथ बनाने की योजना

6574. श्री भारत सिंह चौहान : नौवहन और परिवहन मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या इन्दौर होकर भोपाल से ग्रहमदाबाद तक राष्ट्रीय राजपथ बनाने की सरकार की कोई योजना है, और

(ख) यदि हां, तो कब तक यह योजना लागू की जायेगी ?

नौवहन और परिवहन मंत्रालय में राज्य मंत्री (श्री एम० बी० राना) : (क) और (ख) यह सड़क मध्य प्रदेश और गुजरात राज्यों में पड़ती है । सामान्य परिपत्र के उत्तर में जिसके द्वारा पांचवीं पंचवर्षीय योजना के दौरान राष्ट्रीय राजमार्ग पद्धति में नयी सड़कों को शामिल करने के प्रस्ताव आमंत्रित किये गये थे, इन दोनों राज्यों ने अपने अपने राज्यों में पड़ने वाली सड़क से सम्बन्धित भाग अपने अपने प्रस्तावों में शामिल कर लिये हैं । इस मार्ग के साथ साथ ग्रहमदाबाद और भोपाल के बीच एक अच्छी सड़क पहले ही से मौजूद है । इस मार्ग को राष्ट्रीय राजमार्ग के तौर पर घोषित करने के प्रश्न पर, विभिन्न अन्य राज्यों से प्राप्त होने वाले इसी तरह के दूसरे प्रस्तावों के साथ ही विचार किया

जायेगा । चूंकि पांचवीं पंचवर्षीय योजना अभी तैयार की जा रही है, अतएव इस समय किसी विशेष योजना के बारे में ठीक ठीक ब्योरा देना सम्भव नहीं है ।

Protein from Cow-dung

6575. SHRI BHARAT SINGH CHOWHAN : Will the Minister of AGRICULTURE be pleased to state :

(a) whether proteins can be prepared from cow-dung;

(b) whether these proteins can be used to enrich cattle, piggery and poultry feed; and

(c) whether Government are planning to get benefit from it.

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH) : (a) Yes please.

(b) Research was conducted at the Indian Veterinary Research Institute, Izatnagar on feeding of cow manure and water extracted residue of cow manure to poultry to the extent of 10% of the feed: growth and egg production were satisfactory. Due to the presence of sex hormones, however comb stimulation was observed in chicks fed on cow-dung. In view of high cost of processing and effects of sex hormones, its uses as feed ingredient has not been taken up by poultry feed manufacture. No work on feeding of cow-manure to pigs and cattle has been carried out.

(c) There are at present no plans to use this material on a large scale.

दिल्ली परिवहन निगम के अन्तर्गत चलने वाली प्राइवेट बसों का हटाया जाना

6576. श्री भारत सिंह चौहान : क्या नौवहन और परिवहन मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या पिछले तीन महीनों के अन्दर दिल्ली परिवहन निगम के अन्तर्गत चलने वाली कुछ प्राइवेट बसों को हटा दिया गया है ;

(ख) यदि हां, तो उनकी संख्या क्या है ; और

(ग) उनको हटाने के क्या कारण हैं ?

नौवहन और परिवहन मंत्रालय में राज्य मंत्री (श्री एम० बी० राना) : (क) जी हां ।

(ख) 85 ।

(ग) एशिया 72 की यातायात आवश्यकताओं की पूर्ति के लिये खासतौर से बसे भाड़े पर ली गई थी । इस मेले के समाप्त होने पर, बसों का भाड़ा करार समाप्त कर दिया गया ।

Land taken Possession of by States after Land Ceiling and its Distribution to Landless

6577. SHRI JYOTIRMOY BOSU:

SHRI C.K. CHANDRAPPA:

Will the Minister of AGRICULTURE be pleased to state :

(a) how many hectares of land have been actually taken possession of by the State Governments consequent on operation of land ceiling legislation.

(b) how many hectares of land have been distributed by each State Government till date, State-wise; and

(c) how many landless agricultural families have received land in each State till date ?

(a) and (b). On the basis of the ceiling laws which have been operative for the past several years 1042·5 thousand hectares of surplus land has been found of which 531·6 thousand hectares have been distributed State-wise details are given in the appended statement.

THE MINISTER OF STATE IN THE
MINISTRY OF AGRICULTURE
(SHRI ANNASAHEB P. SHINDE) :

(c) Information is being collected from the State Governments.

Statement										(in '000 acres)	
State										Surplus area	Surplus area distributed
Andhra Pradesh	.	.	.	.	.	.	.	.	.	74	Nil

*In Haryana and Punjab in non Pepsu areas, there was no ceiling ownership of land at the time this data was compiled.

Implementation of Recommendations of Education Commission

6578. SHRI JYOTIRMOY BOSU :

SHRI K.M. MADHUKAR :

Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state what steps have been taken so far to implement the recommendations of the Education Commission, 1965 in respect of Primary and Secondary Education ?

THE DEPUTY MINISTER IN THE MINISTRY OF EDUCATION AND SOCIAL WELFARE AND IN THE DEPARTMENT OF CULTURE (SHRI D.P. YADAV) : The recommendations of the Commission were forwarded to all State and Union Territory Governments for implementation. The Government of India also adopted in 1968 a National Policy resolution on Education based on the recommendations of the Kothari Commission.

Education being a State subject, the role of the Government of India is largely to advise and assist State Governments on matters relating to school education. The recommendations of the Kothari Commission in respect of equalisation of educational opportunities, the structure of school education, the states of teachers etc. have been implemented by the different State Governments according to available financial resources and local requirements. In particular, most states have improved teachers' emoluments and retirement benefits, upgraded the quality of teacher training institutions, introduced work experience at the school stage, re-organised curricula, strengthened the teaching of science and mathematics at the school stage particularly through the introduction of National Council of Educational Research and Training text books, teachers' guides etc. and strengthened educational

administration. The State and Central Governments have sanctioned additional funds to increase the number of scholarships for students from the deprived sections of the community.

Improvement of Hospitalisation Facilities in Rural Areas

6579. SHRI JYOTIRMOY BOSU :

Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state :

(a) the average number of Doctors per 10 thousand population in India, State-wise, in the urban and rural areas separately;

(b) average number of hospital beds in India per ten thousand population in India State-wise, in the urban and rural areas separately ; and

(c) what steps, if any, are being taken to improve the hospitalisation facilities in the rural areas.

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (SHRI A. K. KISKU) (a) and (b) . Separate Statewise figures relating to doctor population ratio and bed population ratio between rural and urban areas are not available. A statement showing the combined figures for rural and urban areas, State-wise, is attached.

(c) A scheme to upgrade about 200 selected primary health centres to 30 bedded rural hospitals during the last year of the Fourth Five Year Plan is under consideration. If this materialises about 5000/6000 beds would be added in the rural areas.

STATEMENT

Statement showing average number of beds and Doctors in India per 10 thousand of population Statewise

State/Union Territory	Bed Population Ratio (1969) (per 10,000)	Doctor Population Ratio (1970) (per 10,000)

**Foreign Experts invited for
Agricultural Development**

6580. SHRI JYOTIRMOY BOSU :
Will the Minister of AGRICULTURE
be pleased to state :

(a) number of agricultural experts invited
by his department during the last three
years to advise the Government on the
issues relating to agricultural development;

(b) how many U.S. experts are still in
India;

(c) the names and particulars of such
experts; and

(d) the purposes for which they are in
India ?

THE MINISTER OF STATE IN THE
MINISTRY OF AGRICULTURE
(SHRI ANNASAHEB P. SHINDE) : (a)
The services of 188 foreign experts
were requested during the last 3 calander
years under various programmes to advise
the Government of India in the field of
Agricultural Development.

(b) At present 14 US AID experts are in
India working in different Agricultural
Projects.

(c) A statement is attached.

(d) They are in India to advise Indian
officials for efficient implementation of the
various agricultural Projects.

STATEMENT

*List of U.S. Experts Under the USIAD Technical Assistance Programme as on 31st
March, 1973*

Sl. No.	Name of the Expert	Field of Specialisation	Name of the Project to- which attached.
1.	Mr. M. B. Russell	Water Technology	Agril. Universities Deve- lopment.
2.	Mr. T. R. Evertt	Entomology	Do.
3.	Mr. Forester Davidson	Commercial Production of Soyabean.	Do.
4.	Mr. A. I. Nelson	Food Engineering & Pro- cessing.	Do.
5.	Mr. J. R. Gingrich	Soil Science	Do.

Sl. No.	Name of the Expert	Field of Specialisation	Name of the Project to which attached
6.	Mr. J. Williams.	Animal Breeding	Agril Universities Development
7.	Mr. George R. Hall	Soil Survey, Classification	Do.

11.	Mr. J. R. Jones	Sr. Hydrologist	Soil & Water Management
12.	Mr. N. E. McClymonds.	Hydrologist	Do.
13.	Mr. W.F. Mildner	Sedimentation	Do.
14.	Mr. E. A. Sammel.	Hydrologist	Do.

Public Distribution system for Seeds

6581. SHRI RAJDEO SINGH Will the Minister of AGRICULTURE be pleased to state :

(a) whether Government are aware that Green Revolution has been menaced and sabotaged to a great extent by the traders who are adulterating seeds ;

(b) whether Government are prepared to invoke the provisions of the Seeds Act of 1968; and

(c) whether Government will devise some public distribution system for seeds?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE):

(a) to (c) . The major part of the production and distribution of quality seeds is even now being done by Government agencies and Public Sector Undertakings like the State Departments of Agriculture, the State Farms Corporation of India, the National Seeds Corporation, and the Tarai Development Corporation. There are only a few organised private seed producers and traders producing and distributing seeds. The Seed Act of 1966 is already in force in the country with effect from the 1st October, 1969. There are adequate provisions in this Act for regulating

the quality of seeds and for taking remedial action in cases of sale of sub-standard seeds. The enforcement of these provisions is mainly the responsibility of the administrative machinery set up by the State Governments. The Government of India have been urging the State Governments to ensure a more effective enforcement of the Seeds Act.

Change in Food habits

6582. SHRI RAJDEO SINGH : Will the Minister of AGRICULTURE be pleased to state :

(a) whether there is any publicity bureau or agency attached to the Food and Nutrition Board to give wide publicity to the peoples' daily diet in every State below the level of Gram Panchayat ;

(b) whether recent diet survey conducted in the country reveals that it is predominantly cereal-oriented;

(c) whether subsidiary and supplementary food items in the diet like potatoes, sweet potatoes and other root and green leafy vegetables' *per capita*, availability is 39 grams the lowest in our country ; and

(d) if the replies to (a), (b) and (c) above be in the affirmative, what steps Government propose to adopt to change the food habits and make available in desired quality

much need vitamin 'A' containing leafy and root vegetables?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHAB P. SHINDE) : (a) Yes, Sir. 21 Mobile Food and Nutrition Extension Units are located in different parts of the country for this purpose.

(b) and (c) : The average Indian diet is predominantly cereal oriented and the availability of green leafy vegetables, potatoes, sweet potatoes, roots and other tubers and other vegetables is low.

(d) : Necessary programmes for nutrition publicity and education have been taken up. Efforts are also being made to step up the production of vegetables in the country.

Break-up of Pilot Projects and Results achieved State wise

6583. SHRI RAJDEO SINGH :

SHRI BIBHUTI MISHRA :

Will the Minister of AGRICULTURE be pleased to state :

(a) the States with number of pilot projects on dry farming allotted to them so far ; and results achieved so far from these pilot projects, State-wise; and

(b) whether number of projects will grow on yearly till all suitable land for dry farming has been covered ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH) : (a) and (b). A statement is laid on the Table of the House. [Placed in Library, See No. LT-4771/73].

World Bank Aid for Intensive Cultivation of Non-Fibre and Soft Woods

6584. SHRI D.D. DESAI : Will the Minister of AGRICULTURE be pleased to state :

(a) whether the World Bank propose to assist the country in intensive cultivation of non-fibre and soft woods; and

(b) if so, the main features thereof ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHAB P. SHINDE) : (a) and (b) : A draft project had been prepared for Eucalyptus plantation in the Haldwani area of Uttar Pradesh after discussions with the officials of the Uttar Pradesh Government by the Government of India. The draft project, estimated to cost about Rs. 6 crores, aims at intensive cultivation of Eucalyptus tereticornis in an area of 35,000 hectares in the reserved forests of Northern Uttar Pradesh over a period of 8 years. A Mission from the World Bank came over to India during the summer of 1972 to study some aspects of the draft project. World Bank's further views are still awaited.

Research by Forest Research Institute, Dehra Dun regarding shortening period of growth of plants

6585. SHRI D.D. DESAI : Will the Minister of AGRICULTURE be pleased to state :

(a) whether the Forest Research Institute, Dehra Dun has been carrying on experiments in shortening the period of growth of tropical and sub-tropical pines;

(b) if so, the results thereof; and

(c) how far have these results been utilised in forest plantations ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH) : (a) Yes, Sir. Experiments are being carried out by the Forest Research Institute on the selection of suitable species and provenances of tropical and sub-tropical pines to that the rotation age of successful tropical and sub-tropical pines may be reduced.

(b) Fast growing tropical and sub-tropical pine species like *Pinus patula*, *Pinus caribaea* & *Pinus kesiya* have been identified as suitable for introduction in different parts of the country.

(c) Field trials in forests have been taken up on representative sites.

परिवार नियोजन के अन्तर्गत आपरेशन कराने के बाद भी बच्चों का पैदा होना

6586. श्री श्रीकार लाल बैरवा : क्या स्वास्थ्य और परिवार नियोजन मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या परिवार नियोजन के अन्तर्गत आपरेशन कराने के बाद भी बच्चे पैदा होने की शिकायतें प्राप्त हुई हैं ; और

(ख) यदि हां, तो इसके क्या कारण

स्वास्थ्य और परिवार नियोजन मंत्रालय में उप-मंत्री (श्री ए० क० किस्कू) :

(क) जी हां ।

(ख) नसबन्दी आपरेशन के असफल होने के निम्नलिखित कारण हो सकते हैं :—

(1) नसबन्दी अवधि के पश्चात् 12 खलनों तक गर्भ निरोधक तरीके के उपयोग में असावधानी । (केवल पुरुषों के आपरेशन के मामले में) ।

(2) बाहिका/ट्यूबों के काटे गये हिस्सों का फिर से जुड़ जाना ।

(3) बिरले मामलों में एक अति-रिक्त नाड़ी की उपस्थिति (केवल पुरुषों के आपरेशन के मामले में) ।

वर्ष 1971-72 के लिए परिवार नियोजन कार्यक्रम का लक्ष्य

6587. श्री श्रीकार लाल बैरवा : क्या स्वास्थ्य और परिवार नियोजन मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या सरकार का वर्ष 1971-72 का परिवार नियोजन कार्यक्रम का लक्ष्य पूरा हो चुका है ;

(ख) यदि हां, तो कितने आपरेशन करने की योजना थी तथा वास्तव में कितने आपरेशन किये गये ;

(ग) इस कार्य में कितना धन खर्च करने का प्रस्ताव था तथा वास्तव में कितना धन खर्च किया गया ; और

(घ) इस कार्यक्रम के अन्तर्गत राज्यों को कितना धन दिया गया है ?

स्वास्थ्य तथा परिवार नियोजन मंत्रालय में उप-मंत्री (श्री ए० क० किस्कू)

(क) 1971-72 वर्ष के दौरान नसबन्दी आपरेशनों के लक्ष्य से अधिक कार्य हुआ जब कि गर्भाशयी गर्भरोधक (लूप) पहनाने में 58.5 प्रतिशत तथा प्रचलित गर्भ रोधकों के प्रयोग में 61.3 प्रतिशत लक्ष्य प्राप्त हुआ ।

(ख) 1971-72 वर्ष के लिए प्रस्तावित 20.79 लाख नसबन्दी आपरेशनों के विरुद्ध कुल किये गये आपरेशनों की वास्तविक संख्या 21.85 लाख थी ।

(ग) 1971-72 के दौरान देश में परिवार नियोजन कार्यक्रम पर 6060.46 लाख रुपये खर्च करने का प्रस्ताव था तथा इस पर 6193.05 लाख रुपये (अनन्तिम) खर्च किये गये ।

(घ) 1971-72 में राज्यों को परिवार नियोजन कार्यक्रम के लिए 5222.78 लाख रुपये दिए गए ।

मलेरिया और चेचक बीमारियों पर नियंत्रण पाने में सफलता

6588. श्री ओंकार लाल बरवा :
श्री बी० के० दासचौधरी :

क्या स्वास्थ्य और परिवार नियोजन मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या सरकार ने मलेरिया और चेचक रोगों पर नियंत्रण कर लिया है ;

(ख) यदि नहीं, तो उसके क्या कारण हैं और इस सम्बन्ध में कितनी प्रतिशत सफलता प्राप्त हुई है ; और

(ग) इन रोगों का पूरी तरह से उन्मूलन करने के लिए क्या कार्यवाही की जा रही है ?

स्वास्थ्य और परिवार नियोजन मंत्रालय मे उप-मंत्री (श्री अमिय कुमार किस्कू) :
(क) जी हां , काफी हद तक ।

(ख) मलेरिया ।

1952 में मलेरिया से अनुमानतः 7 करोड़ 50 लाख व्यक्ति पीड़ित हुए थे

और उनमें मरने वालों की संख्या 8 लाख थी, वहां 1972 में दिसम्बर तक मलेरिया से पीड़ित व्यक्तियों की संख्या अनुमानतः 12,03,185 ही थी और उन में किसी की भी मृत्यु नहीं हुई बताई जाती है । इस समय देश में राष्ट्रीय मलेरिया उन्मूलन कार्यक्रम के अन्तर्गत 30 प्रतिशत क्षेत्र इस कार्यक्रम के अन्तिम चरण अर्थात् अनुरक्षण चरण में प्रवेश कर चुके हैं जब कि और 17 प्रतिशत क्षेत्र मलेरिया उन्मूलन की अग्रिम स्थिति अर्थात् समेकन चरण में है । केवल लगभग 25 प्रतिशत क्षेत्र अभी भी आक्रमण चरण में है जहां इसे दूर करने के लिए तेजी से उपाय किए जा रहे हैं ।

चेचक

1972 में चेचक से पीड़ित व्यक्तियों की संख्या लगभग 27,393 और उससे होने वाली मौतों की संख्या 5450 बताई गई है जबकि 1967 में चेचक से पीड़ित व्यक्तियों की संख्या 83,943 और मौतों की संख्या 26,225 थी । इससे पता चलता है कि चेचक की घटनाओं और उससे होने वाली मौतों में क्रमशः 67.4 प्रतिशत और 79 प्रतिशत की कमी हुई है ।

(ग) मलेरिया ।

देश में मलेरिया के उन्मूलन के लिए सरकार द्वारा जो उपाय किए गए हैं, वे इस प्रकार हैं :—

1. राष्ट्रीय मलेरिया उन्मूलन कार्यक्रम को चौथी योजना में एक केन्द्रीय बोधित योजना बना दिया गया है जिसके लिए 100 प्रतिशत केन्द्रीय सहायता

- की जाती है। इस योजना के अन्तर्गत भारत सरकार जितने खर्च के लिए वचनबद्ध है उसके अतिरिक्त वह इस योजना के संचालन के खर्च को भी वहन करती है। आक्रमण और समेकन चरण वाले एककों के लिए राज्यों को जो भी सामान और उपकरण दिया जाता है उसकी लागत भी भारत सरकार द्वारा वहन की जाती है। राज्यों में मुख्यालय/मण्डल स्तर पर नियुक्त कर्मचारियों पर होने वाले व्यय की पूर्ति के लिए भी आंशिक सहायता दी जाती है।
2. ऐसे क्षेत्रों में, जो अब अनुरक्षण चरण में आ गए हैं, बुनियादी स्वास्थ्य सेवाएं मजबूत करने के लिये 100 प्रतिशत केन्द्रीय सहायता दी जाती है।
 3. कीटनाशकों को अग्रिम रूप में प्राप्त करने के लिए कदम उठाए गए हैं ताकि विभिन्न राज्यों को छिड़काव कार्यों के लिए ये कीटनाशक समय पर सप्लाई किए जा सकें।
 4. चौथी योजना में आक्रमण और समेकन चरण वाले एककों की पुरानी और बेकार गाड़ियों को एक निश्चित ढंग से नई गाड़ियों में बदला जा रहा है।
 5. जहां कहीं, आवश्यक है, वहां एककों में डी० डी० टी० से छिड़काव करने के काम को तेज किया जा रहा है।
 6. ऐसे क्षेत्रों में जहां मच्छर बैक्टर में डी० डी० टी० सहन करने की शक्ति पैदा हो गयी है, वहां बी० एच० सी०

और मलेरिया जैसे अन्य कीटनाशकों का उपयोग किया जा रहा है।

7. स्वास्थ्य सम्बन्धी शिक्षा देकर लोगों को छिड़काव कराने और कीटनाशकों के छिड़काव के बाद गारे से दीवारें न पोतने के लिए समझाया जा रहा है। जन जाति समुदायों के ग्राम नेताओं के साथ भी सम्पर्क स्थापित किया जा रहा है।
8. जिन क्षेत्रों में रोग का संचरण निरन्तर बना हुआ है उनमें विशेष अन्वेषण कार्य किए जा रहे हैं।
9. राष्ट्रीय मलेरिया उन्मूलन कार्यक्रम के अन्तर्गत ही 1971-72 से एक शहरी मलेरिया योजना चलाई गई है जो एक केन्द्रीय पोषित योजना है और उस के लिए अनुमोदित पेंटन पर 100 प्रतिशत केन्द्रीय सहायता दी जा रही है।

चेचक

चेचक का उन्मूलन करने के लिए सरकार द्वारा जो उपाय किए जा रहे हैं, वे इस प्रकार हैं :—

1. टीका अभियान को तेज करना, प्राथमिक टीके को उच्च प्राथमिकता देना (जिसमें नवजात शिशुओं को टीका लगाना भी सम्मिलित है) और समय समय पर पुनः टीके लगाना। ऐसे लोगों जिन्हें यह रोग हो जाने की सम्भावना अधिक बनी रहती है अर्थात् श्रमिक घुमन्तू जनसमुदाय की ओर विशेष ध्यान दिया जा रहा है।

2. रोग पर तत्काल काबू पाने तथा उसके हो जाने के बाद उसका तुरन्त उपचार करने के लिए रोग का प्रारम्भ में ही पता लगाने और चेचक के संदिग्ध रोगियों की भी सूचना देने सम्बन्धी काम को उच्च प्राथमिकता दी जा रही है।
3. लोग स्वेच्छा से टीका लगायें और खसरे के ज्वर से पीड़ित रोगियों की सूचना समीपस्थ स्वास्थ्य केन्द्र में देने के लिए लोगों को प्रोत्साहित करने के विचार से स्वास्थ्य शिक्षा और प्रचार कार्य तेज करना।
4. राष्ट्रीय चेचक उन्मूलन कार्यक्रम को जिसे अब केन्द्र पोषित योजना बनाया गया है, क्रियान्वित करने के लिए शत प्रतिशत सहायता दी जाती है।
5. राज्यों और केन्द्र शासित क्षेत्रों को जमा कर सुखाई गई ताप स्थायी प्रभावी चेचक वैक्सीन, दो मुंह वाली सुइयां, इस टीके के पूरे किट, रेफरिजेशन तथा परिवहन सुविधाएँ पर्याप्त मात्रा में दी जाती हैं।
6. इस उद्देश्य से कि जिला स्वास्थ्य अधिकारियों तथा राज्य कार्यक्रम अधिकारियों का चेचक सम्बन्धी ज्ञान अद्यतन रहे उनके लिए समय-समय पर सांख्यिक प्रशिक्षण कार्यक्रम चलाये जाते हैं।

दिल्ली दुग्ध योजना के दूध के मूल्य में वृद्धि

6589. श्री श्रीकार लाल बेरवा :
क्या कृषि मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या सरकार का विचार दिल्ली दुग्ध योजना के दूध का मूल्य 15 पैसे प्रति लिटर बढ़ाने का है; और

(ख) यदि हां, तो उसके क्या कारण हैं ?

कृषि मंत्रालय में राज्य मंत्री (प्रो० शेर सिंह) : (क) और (ख) . सरकार ने यह फैसला किया था कि जब तक राष्ट्रीय डेरी विकास बोर्ड द्वारा दिल्ली दुग्ध योजना के काम में यथासंभव बचत करने की दृष्टि से किए जा रहे अध्ययन के निष्कर्ष प्राप्त नहीं हो जाते, तब तक दूध का मूल्य न बढ़ाया जाए। यह रिपोर्ट हाल ही में प्राप्त हुई है और इसको जांच की जा रही है।

Uniform National Policy in regard to choice of medium of instructions for linguistic minorities

6590. SHRI SAMAR GUHA :

SHRI K. M. MADHUKAR :

Will the Minister of EDUCATION SOCIAL WELFARE AND CULTURE be pleased to state :

(a) whether the issue of medium of instruction from school to University level for students belonging to linguistic minorities in various States has created many problems of conflict and agitation ;

(b) whether this problem is baffling solution on the basis of State policy in Assam ;

(c) whether the Central Educational Ministry will take initiative to formulate uniform national policy on the basis of constitutional provisions for guidance of different States in regard to choice of medium

of instruction by linguistic minorities in different States ; and

(d) if so, the steps taken or proposed for the purpose ; and if not, the reasons therefor ?

THE DEPUTY MINISTER IN THE MINISTRY OF EDUCATION AND SOCIAL WELFARE AND IN THE DEPARTMENT OF CULTURE (SHRI D.P.YADAV) : (a) and (b). The Government of India are aware that there has been controversy in Assam over the issue of medium of instruction at the university stage and the Government of India remain in touch with the Government of Assam and other interested parties with a view to helping in finding an amicable solution of the language controversy.

(c) and (d). The policy of the Government in regard to medium of instruction at the primary and secondary level is stated below :—

The right of linguistic minorities to have instruction at the primary stage of education in their mother-tongue is an accepted policy of the Government.

In regard to secondary education, Government feel that facilities should be provided for teaching through mother-tongue of linguistic minority if there is a reasonable number of students wanting instruction in their language.

At the university stage, Government of India is financing a scheme under which participating State Governments, in consultation with the universities in their States, are producing university level literature in regional language with a view to switching over to regional languages as one of the media of instruction. Government are also proposing to universities to institute correspondence courses and permit private candidates to appear at university examinations without restrictions. It is also considering proposal to establish an 'open university' with all the India jurisdiction with different languages as the media of

examinations as are available to Delhi Schools Students appearing for Delhi Higher Secondary Examination conducted by the Central Board of Secondary Education. If these measures are put into practice the hardship caused to linguistic minorities would be mitigated.

Agitation inside Aligarh Muslim University

6591. SHRI SAMAR GUHA :
SHRI BHOGENDRA JHA :

Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state :

(a) whether agitation has been started inside the Aligarh Muslim University to change the recent Act regarding the University, passed by the Parliament ;

(b) if so, the background of and the causes behind the agitation ;

(c) whether communal elements other than the students are associated with the movement ; and

(d) if so, the reaction of Government thereabout and other details thereof ?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN) : (a) to (d). The Students' Union of the Aligarh Muslim University has been agitating for sometime—first for getting an Act of their choice and later for getting it amended. A series of incidents have since taken place. Leaders of some political parties have also visited the University at the invitation of the Students' Union. The University has been closed on April 5, 1973. The Vice-Chancellor has issued a statement explaining the circumstances leading to the closure of the University. A copy of this statement was placed on the Table of the Sabha on April 6, 1973.

Admission to Medical Colleges in the States

6592. SHRI SAMAR GUHA : Will the MINISTER OF HEALTH AND FAMILY PLANNING be pleased to state :

(a) whether despite shortage of doctors qualified students do not find adequate admission to the medical colleges in most of the States ;

(b) the details of the various mal-practices that have been brought to the notice of Government regarding admission in medical colleges, if so, the details there about ;

(c) whether Government have adopted any plan to increase the number of Government sponsored medical colleges in various parts of the country on the basis of a policy of even regional distribution ;

(d) whether reports of corruption, nepotism and other mal-practices regarding functions of private medical colleges have been brought to the attention of the Government ; and

(e) if so, the steps taken or proposed by the Government to control and regulate functions of such private medical colleges ?

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (SHRI A. K. KISKU): (a) With an increase in the facilities for education in the country and improvement of socio-economic conditions the number of student seeking admission to various courses on higher education has been on the rise. There is thus a widening gap between the number of seats available and the number of students seeking admission in institutions of higher learning. This is true of medical colleges as well. Competition for higher education is becoming keen in all branches of studies. It is perhaps

comparatively more acute to-day in the field of medical education.

(b) The Government does not have detailed information on this.

(c) Yes. The opening of new medical colleges in the country has been receiving constant attention of the Government since independence. There are at present 99 medical colleges with an admission capacity of 12,500 as against 19 medical colleges and 19 medical schools in undivided India in the year 1946.

(d) and (e). Government are aware of the existence of private medical colleges functioning on the basis of capitation charges. Government disapproves and discourages the setting up of such private colleges. Education being a subject in the State List of the 7th Schedule of the Constitution, colleges for undergraduate medical education fall within the legislative jurisdiction of State Governments. As such, all the State Governments have been advised by the Central Government to pass necessary legislation banning the setting up of medical colleges without prior approval of the concerned Government so that mushroom growth of sub-standard medical colleges was checked. In pursuance of this request, the Government of Bihar and the Government of Uttar Pradesh have already passed necessary legislation. The other State Governments were requested to follow suit. The matter was also placed before the last meeting of the Central Council of Health at Bhubaneswar on 31-1-1973. The Central Council of Health has passed a resolution to the effect that on the request of two or more State Governments, the Central Government may pass necessary legislation on the subject to ensure uniformity. Accordingly, the State Governments have been requested to pass a resolution under Article 252 of the Constitution, empowering the Parliament to legislate on the subject. Further action in the matter will depend on the response from the State Governments

Intensification of Agricultural Production

6593. SHRI SAMAR GUHA : Will the Minister of AGRICULTURE be pleased to state :

(a) whether Government have given highest importance to intensification of agricultural production this year and also for the next year ;

(b) if so, whether people's committee, with various representatives, will be formed in each block for helping the cultivators to settle litigations on land, distribution of shares between the land owner and share cropper, getting bank credit, fertilizer, pesticides, good seeds, and proper distribution of surplus lands ;

(c) if so, the steps taken to set up such peoples committee; and

(d) if not, the reasons thereabout ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHAB P. SHINDE):

(a) Yes. A high priority has been given to agricultural development during 1972-73 and besides the normal development programme under the Annual Plan for the year, an Emergency Agricultural Production Programme based primarily on minor irrigation involving special central assistance to States has also been implemented. The emphasis on intensive efforts for agricultural development is proposed to be continued during 1973-74.

(b) to (d) . The Panchayati Raj envisages peoples participation in the agricultural development activities at the village/block levels including the distribution of agricultural inputs like seed, fertilizer, pesticides etc. The Panchayati Raj also envisages establishment of Nyaya Panchayats which act as judiciary wing and attend to minor local offences and disputes.

Cultural Exchange Programme With Foreign Countries

6594. SHRI B. K. DASCHOWDHURY : Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state :

(a) the names of countries with which cultural exchange programme have been

entered with and term of such agreement during the last year ;

(b) how many cultural troupes will be sent by Government in the year 1973 ; and

(c) whether any children's troupe will be sent abroad on a cultural exchange programme ?

THE DEPUTY MINISTER IN THE MINISTRY OF EDUCATION AND SOCIAL WELFARE AND IN THE DEPARTMENT OF CULTURE (SHRI D. P. YADAV) : (a) During the year 1972, India has signed cultural exchange programme with Poland, France, U.S.S.R., Federal Republic of Germany, Czechoslovakia, Bulgaria, Mongolia and Bangladesh. These programmes envisage cooperation between the Contracting Parties in the fields of education science & technology, art & culture ; radio, films, press & television, sports, health etc.

(b) No final decision has yet been taken. However, two cultural troupes have already been sent—one to South East Asian Countries as well as to Australia and another to the Caribben Sea Countries in January and February, 1973 respectively. The tour of the latter Cultural Troupe is likely to be extended to Tunisia and Algeria. 3—4 more troupes are likely to be sent during the year.

(c) No, Sir.

Reorientation Of Youth Services

6595. SHRI B.K. DASCHOWDHURY Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state :

(a) whether the Ministry has taken certain specific decisions to reorient and galvanise youth service in order to utilise them for the cause of national intergration and to bring about a social change ;

(b) if so, what are those schemes and the manner in which such scheme will be implemented ; and

(c) if not, whether the Ministry has any contemplation to do so ?

THE DEPUTY MINISTER IN THE MINISTRY OF EDUCATION AND SOCIAL WELFARE AND IN THE DEPARTMENT OF CULTURE (SHRI D. P. YADAV): (a) to (c). Government have undertaken a variety of programmes to provide opportunities for young people, so that they could develop a positive response to the challenge of change and involve themselves in nation building tasks. All these *inter alia* will promote national integration and certainly bring about social change. Some of the important programmes in this direction are :

National Service Scheme, Including the New Programme Of Youth Against Famine

Universities and colleges are operating a National Service Scheme for the students of the first two years of the degree classes on a voluntary basis, to render national service for a specified period. During this summer, one lakh youth will be engaged in construction programmes in rural areas and would utilise their spare time in the evenings on studying and, where possible, solving local problems relating to rural life in so far as it pertains to the area of study in which they are engaged. This is an experiment to stop alienation of students receiving higher education from the mainstream of Indian society.

Inter-State Students Camps

These camps provide opportunities for children in the age group 11-16 from various States to live together and thereby learn to appreciate the customs, habits, and cultural heritage of people in different regions of the country.

In addition, instructional materials and hand-books are prepared for conveying concepts of national integration to school children.

Language And Environmental Camps

These camps are organised by the Central Institute of Indian Languages, Mysore, to enable groups of students of one State studying the regional language of another State to camp in the region, where the language they are learning is the mother-tongue. These camps have contributed considerably to provide the campers a first-hand knowledge of the environment in which these languages are spoken and the local habits, tradition and culture.

Assistance to Voluntary Youth Organisations

Government provides financial assistance to Voluntary Youth Organisations, who take up youth programmes relating to national integration and which would strengthen national cohesions.

Nehru Yuvak Kendras

Government have taken up a programme of establishing one Nehru Yuvak Kendra in each District in India. These Kendra will concern themselves with the whole area of informal education and supplementation of educational opportunities available in institutions, developing human resources potential, provide facilities for self-instruction, enrichment of cultural life and development of human personality for the vast majority of youth who are outside the pale of formal school system.

Scholarship Policy

This encompasses basic opportunities for education, which *inter alia* will lead to equalisation of educational opportunities. Under the broad-based scholarship scheme, it is expected that by the end of this year, Government will offer nearly 30,000 scholarships, at the rate of two per Block per year, for fostering the rural talent.

Siliguri to Darjeeling as National Highway

6596. SHRI B. K. DASCHOWDHURY:
Will the Minister of SHIPPING AND
TRANSPORT be pleased to state :

(a) whether his Ministry has finally sanctioned the scheme to declare the road from Siliguri to Darjeeling as National Highway No. 31-B; and

(b) if so, the proposals of the scheme with estimated cost and the time for its completion ?

THE MINISTER OF STATE IN THE MINISTRY OF SHIPPING AND TRANSPORT (SHRI M. B. RANA) (a) and (b). The Siliguri-Darjeeling Road is at present an existing state road. The Government of West Bengal have included the road in question in their proposals for additions to the National Highway System during the 5th Five Year Plan (1974-79). The rough cost of development of this road to single lane National Highway standard is likely to be Rs. 213.00 lakhs. This proposal will be considered in the Fifth Plan along with similar other proposals received from other States. However, since the proposals for the Fifth plan are as yet in the preparatory stage, it is not possible to give any precise details in this respect.

Housing Problem in the Country

6597. SHRI B. K. DASCHOWDHURY:
SHRI S. A. MURUGUNAN-
THAM :

Will the Minister of WORKS AND HOUSING be pleased to state :

(a) whether his Ministry has made any assessment of homeless persons in the country and how many houses are required for them and the amount involved ; and

(b) if so, how the Ministry propose to solve this problem ?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA) : (a) No reliable data is available. However, according to a recent estimate the total estimate backlog of housing shortage in 1971 was about 24 million units—18.60 million units in rural areas and 5.50 million units in urban areas. This estimate has been worked out of likely useable housing stock (pucca and semi-pucca units in urban areas and pucca, semi-pucca and serviceable kutcha unit in rural areas) available in the country in relation to the number of households. The estimate is likely to change after the data collected during 1971 census becomes available.

Even at a modest estimated average cost of Rs. 21,000/- per house in Urban areas and Rs. 4,000/- in rural areas, investment of the order of Rs. 19,000 crore would be required.

(b) Keeping in view the colossal shortage and the extent of funds required, Government's efforts have been mainly directed ameliorating the housing conditions of persons in the lower income brackets. With this end in view, the Ministry of Works and Housing have introduced several Social Housing Scheme which are implemented by the state Government and Union Territories.

However, Central assistance for all State Sector programmes, including housing is being made available to the Governments of States and Union Territory Administrations in the form of 'block loans and block grants'. The States and Union territory Administration have the freedom to allocate funds for these schemes in accordance with the priorities and requirements determined by them.

A Central Government undertaking called the housing Urban Development Corporation has been established to finance housing and urban development project of State Governments and their statutory

agencies. The Corporation is expected to mobilise resources of the order of Rs. 200 crores in the next few years and utilise the same as a revolving fund.

This Ministry have recently introduce a new scheme for the Provision of House sites to a Landless Workers in Rural Areas as Central Sector Scheme. Under this Scheme, 100% grant assistance will be made available to State Governments and Union Territory Administrations to enable them to provide housesites free of cost to eligible persons.

Recognition of Medical College of Manipur

6598. SHRI N. TOMBI SINGH : Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state :

(a) whether the Medical College recently started in Manipur has received due recognition from competent academic authorities of the Central Health Ministry;

(b) if so, when such recognition was given and by which competent bodies, if not, the difficulties thereof ;

(c) whether the Government of Manipur have requested the Central Government for financial assistance to the setting up of the College its buildings, equipments and staff; and

(d) if so, the amount of assistance so far given to the Manipur Government ?

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (SHRI A. K. KISKU)

(a) and (b). No. It is for the State Government to get the College affiliated to the University and thereafter to approach the Medical Council of India through the University for its recognition. The recognition to any medical college is granted only after the college is affiliated to a University and, when the first batch of students appear for the final MBBS examination after due

inspection of the facilities existing in the institution and the standard of the examination for all the subjects. So far, this college has not been affiliated to a University.

(c) and (d). This college is proposed to be a joint cooperative enterprise of the Central Government and the State/Union Territory Governments concerned *viz.*, Manipur, Tripura, Meghalaya, Nagaland, Arunachal Pradesh and Mizoram. This will serve as a common institution for the four States and two Union Territories in the North-Eastern Region. The scheme will ultimately form part of the regional Plan to be prepared for the North Eastern Region by North Eastern Council and will be financed through the regional plan on the recommendations of the Council.

Pending the preparation of the regional Plan the entire cost of the medical college non-recurring as well as recurring is proposed to be initially financed by the Government of India. It was estimated sometime ago that the non-recurring expenditure on the college would be of the order of Rs. 2 crores. The estimated recurring expenditure during the Fourth Five Year Plan was estimated to be about Rs. 20 lakhs.

Study of Problems of Shifting Cultivation in Manipur, Tripura etc.

6599. SHRI N. TOMBI SINGH : Will the Minister of AGRICULTURE be pleased to state :

(a) whether Government have studied the problems arising out of the system of shifting cultivation in hill areas of Manipur, Tripura, Nagaland and Mizoram under the auspicious of some central institute or body duly interested and qualified for the purpose;

(b) if so, the findings thereof and the measures recommended for improved systems ;

(c) if not whether Government are making arrangements for such study ; and

(d) when the same will materialise and the basic features of such a scheme ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH). (a) The Experts of the Ministry of Agriculture have studied the problem of shifting cultivation in the Eastern States from time to time and submitted their reports.

(b) The measures recommended include stabilisation of agriculture on bench terraces on the hill sides and the valleys, provision of irrigation wherever possible, development of agriculture, plantation crops and forestry so as to offer a high level of sustained production in settled areas as an alternative to shifting cultivation practices.

(c) and (d). Further steps are also being taken by way of 5th Plan proposals for opening soil conservation research sub-stations in the problem areas of the Eastern region of the country for multiple-discipline research on shifting cultivation for evolving control measures.

Setting up of Central Organisation under Sangeet Natak Akademi to prepare ballets and performing Troupes

6600. **SHRI N. TOMBI SINGH :** Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state :

(a) whether Government are considering the setting up of a Central Organisation in Capital under the Sangeet Natak Akademi to prepare ballets and performing troupes in dance and music to be sent out to foreign countries ;

(b) if so, the facts thereof ; and

(c) if not, whether Government are aware of the facts that there is an urgent need for such a project in view of the pressing need for projection of Indian art and culture in the outside world ?

THE DEPUTY MINISTER IN THE MINISTRY OF EDUCATION AND SOCIAL WELFARE AND IN THE DEPARTMENT OF CULTURE (SHRI D. P. YADAV): (a) No, Sir.

b) Does not arise.

(c) Government have a programme of activities which aims at the proper projection of India's art and culture in the outside world.

Financial Assistance to private colleges in Manipur for construction of Hostel and College buildings

6601. **SHRI N. TOMBI SINGH:** Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether the private colleges in Manipur applied for financial assistance from the U.G.C. for the construction of Hostel and College buildings;

(b) if so, the amount of assistance given to these Colleges during the last three years and the purpose for which the grants were given;

(c) whether the Government are aware that the College in the hill and rural areas are suffering owing to lack of hostel facilities; and

(d) if so, whether Government are considering special allocation for hostel facilities in these colleges ?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) and (b). Of the 8 proposals for financial assistance received from 7 institutions, 2 were not approved and 2 are pending with the University Grants Commission. Details about the four approved proposals are given in the statement laid on the Table of the House.

[Placed in Library. See No. LT-4772/73].

(c) and (d). The University Grants Commission appointed a Visiting Committee with representation of the Gauhati University and Government of Manipur to visit the colleges in the North Eastern

Hill regions of India to assess their developmental needs. The Committee visited 16 Colleges in the State of Manipur and has submitted its report. The Committee has not made any special recommendations for the construction of hostel accommodation. The report of the Committee is being examined by the Commission in consultation with the State Government.

काशी हिन्दू विश्वविद्यालय और अलीगढ़ मुस्लिम विश्वविद्यालय के बन्द रहने के दिवसों की संख्या

6602. श्री शंकर दयाल सिंह :
श्री विभति मिश्र :

क्या शिक्षा, समाज कल्याण और संस्कृति मंत्री यह बताने की कृपा करेंगे कि फरवरी, 1972 से फरवरी, 1973 तक काशी हिन्दू विश्वविद्यालय और अलीगढ़ मुस्लिम विश्वविद्यालय में कक्षाएं कितने दिन लगीं तथा इसी अवधि में ये विश्वविद्यालय कितने दिन बन्द रहे और कितने दिन वहां हड़ताल चली ?

शिक्षा, समाज कल्याण और संस्कृति मंत्री(प्रो० एस० नूरुल हसन) : अपेक्षित सूचना एकत्र की जा रही है और उसे सभा पटल पर रख दिया जायेगा ।

राज्यों द्वारा खाद्यान्नों के थोक व्यापार को अपने नियंत्रण में लेने के कार्य में हुई प्रगति

6603. श्री शंकर दयाल सिंह : क्या कृषि मंत्री यह बताने की कृपा करेंगे कि प्रत्येक राज्य ने खाद्यान्नों का थोक व्यापार अपने नियंत्रण में लेने के लिए 17 मार्च, 1973 तक क्या कार्यवाही की है ?

कृषि मंत्रालय में राज्य मंत्री श्री अण्णासाहेब पी० सिन्हे) : यद्यपि 17 मार्च, 1973 को सही स्थिति उपलब्ध नहीं है, लेकिन गेहूं पैदा करने वाले प्रमुख क्षेत्रों को राज्य सरकारों ने गेहूं के थोक व्यापार पर प्रतिबन्ध लगाने और खुदरा व्यापारियों द्वारा गेहूं खरीदने, बेचने या बिक्री के लिए उसका भण्डारण करने के लिए उसकी सोमा निर्धारित करने के लिए अत्यावश्यक वस्तु अधिनियम के अधीन आदेश जारी कर दिये हैं । उत्पादकों और उपभोक्ताओं द्वारा गेहूं रखने की मात्रा पर भी प्रतिबन्ध लगा दिये गये हैं । कुछ राज्यों ने उत्पादकों पर क्रमिक लेवी लगाई है । राज्यों में अविप्राप्ति केन्द्रों को अन्तिम रूप दे दिया गया है । राज्य सरकारें राज्य स्तर पर समन्वय समितियां गठित करने के लिए भी सहमत हो गयी हैं । इन समितियों में अधिप्राप्ति के कार्य में सक्रिय रूप से लगा सरकारी एजेंसियों/विभागों के प्रतिनिधि होंगे ।

Unauthorised Buses Plying in Delhi

6604. SHRI SUKHDEO PRASAD VERMA : Will the Minister of SHIPPING AND TRANSPORT be pleased to state :

(a) whether Government are aware of the unauthorised buses plying in the Union Territory of Delhi; and

(b) If so, the number of such cases detained during the year 1972 and action taken thereon ?

THE MINISTER OF STATE IN THE MINISTRY OF SHIPPING AND TRANSPORT (SHRI M. B. RANA);

(a) and (b). The Delhi Administration have reported that 258 owners of drivers buses found plying in contravention of the

conditions of the permits in 130 cases during 1972 were prosecuted by the concerned authorities under Section 42 and 123 of Motor Vehicles Act, 1939.

Non-application of Delhi Co-operative Societies Act

6605. SHRI SUKHDEO PRASAD VERMA : Will the Minister of AGRICULTURE be pleased to state the reasons for not enforcing the Delhi Co-operative Societies Act which was enacted on the 17th June, 1972?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHAB P. SHINDE). : The Delhi Co-operative Societies Act, 1972, has come into force in the Union Territory of Delhi from 2-1-1973.

Construction Work of Sansdiya Soudha

6607. SHRI SAT PAL KAPUR : Will the Minister of WORKS AND HOUSING be pleased to state :

(a) whether the construction work of the Sansdiya Soudha has been stopped by the contractors for the last three months ;

(b) if so, the reasons therefor ; and

(c) the steps Government propose to take to ensure that the building is completed by the year end ?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA) : (a) Yes, Sir.

(b) The contractor had advanced the reason that the stipulated date of completion expired long ago and prices of material and labour have increased and that he cannot complete the work unless higher rates are paid.

(c) Tenders have been called for engaging another agency for completing the remaining portion of the work.

Expenditure on Sansdiya Soudha Air-Conditioning arrangements

6608. SHRI SAT PAL KAPUR : Will the Minister of WORKS AND HOUSING be pleased to state :

(a) whether the entire building Sansdiya Soudha under construction is not going to be air conditioned ; if so, the reasons therefor ;

(b) the arrangements being made for the heating and cooling other portions of the building ;

(c) the recurring and non-recurring expenditure likely to be there on providing heating and cooling arrangements in those portions of the building ; and

(d) the estimated expenditure in case air conditioning arrangements are made for these left over portions of the building also ?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA) : (a) Yes Sir. It proposed to aircondition only those areas which will be frequented by Members of Parliament.

(b) Room coolers / air conditioners/ heaters will be provided where necessary.

(c) The actual expenditure cannot be indicated as it will depend upon actual requirements.

(d) Rs. 24 lakhs approximately.

Bungling in the Allotment of Shop Flats in Azadpur , New Subzi Mandi Site, Delhi

6609. SHRI SAT PAL KAPUR : Will the Minister of WORKS AND HOUSING be pleased to state :

(a) whether the number of complaints have been received to the effect that there has been much bungling in the allotment

of shop flats in Azadpur, new Subzi Mandi site, Delhi ;

(b) whether more than one plots of land have been allotted to one man ;

(c) whether an enquiry has already been made in this respect ; if so, the conclusions thereof ; and

(d) the name of the person involved in this and the action taken or proposed to be taken against him ?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MBHTA) : (a) to (d). The information is being collected and will be placed on the Table of the House.

U.N.D.P. AID To International Crop Research Institute for Semi Arid tropics at Hyderabad.

6610. SHRI BIBHUTI MISHRA :
SHRI M. KATHAMUTHU :

Will the Minister of AGRICULTURE be pleased to state :

(a) whether the United Nations Development Project has approved assistance of \$ 3725000 for the International Crop Research Institute for semi arid tropics at Hyderabad during the current year;

(b) if so, how and on how many crops the research would be made ; and

(c) to what extent India will be benefited ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHAB P. SHINDE) : (a) and (b). The United National Development Programme has entered into an Agreement with International Crops Research Institute for the Semi-Arid Tropics to finance a research Project for a period of 5 years with effect from 31-1-73

at a total cost of US \$ 3,585,000. The Project aims at a Programme of Research Training directed towards the development of lines and varieties of Sorghums and Millets with high yield and high content and quality of protein as well as conventional acceptable taste and kernel appearance and suitability for use in a wide range of ecological and farming conditions throughout the semi-arid and tropical regions. :

(c) As India has about 17.4 m.hec. of land under Jowar and 12.9 m.hec. under Bajra, research for increasing the yield and improving the quality and protein content of these grains is bound to directly benefit the country.

Archaeological Library, New Delhi

6611. SHRI BIBHUTI MISHRA :
SHRI PILOO MODY :

Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state :

(a) whether Government's attention has been drawn to the 'Indian Express' published from Delhi dated the 2nd March, 1973; stating that the Archaeological Library, New Delhi is in mess ; and

(b) the steps Government are taking to give proper attention to check the deterioration of the library ?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN) : (a) and (b). The Library is not in a mess. However, it stands in need of additional space and staff. The requirements are being examined.

Northern Regional Institute of Printing Technology

6612 SHRI S.C. SAMANTA : Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state :—

(a) whether the State Government concerned has not been able to run the

Northern Regional Institute of Printing Technology in the desirable manner and that the Institute suffers from many ills;

(b) the reasons why the Central Government do not keep the Printing Technology Institutes under their direct control; and

(c) the steps being taken to run the institutes efficiently and improve them to the modern standards ?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN) : (a) No, Sir. The instructional facilities at this institute except for some deficiency in Buildings are generally in accordance with the recommendations of the All India Council for Technical Education and are adequate. The removal of this deficiency also is under consideration of the State Government.

(b) The Institutions of this type at the diploma level are not administered by the Central Government.

(c) The All India Council for Technical Education is formulating a plan for further development of these Schools on modern lines during the Fifth Five Year Plan.

Permission to Government Employees who have constructed their own Houses to live in the Accommodation allotted By Government

6613. SHRI S. C. SAMANTA : Will the Minister of WORKS AND HOUSING be pleased to state:

(a) whether his Ministry has given permission to Government employees who have or have constructed houses in town in which they are serving, either of their own or in the names of their family members, to continue to live in accommodations allotted by Government for residential purposes ; and

(b) whether any survey has been made as to which and how many of the Central Government Officers and employees or their nears and dears own houses and buildings and of what valuation ?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA) : (a) Yes, Sir.

(b) : No Statistical data are available as Government servants owning houses at the station of their posting are eligible for allotment of accommodation from the general pool. However, the policy in this regard is under review.

New Method for Teaching of Sanskrit in Schools

6614 SHRI D. B. CHANDRA GOWDA : Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state :

(a) whether any new method has been recommended by the Central Advisory Board or by the Central Sanskrit Council for the teaching of Sanskrit in the schools ; and

(b) if so, the facts thereof and the reaction of Government thereon ?

THE DEPUTY MINISTER IN THE MINISTRY OF EDUCATION AND SOCIAL WELFARE AND IN THE DEPARTMENT OF CULTURE (SHRI D.P. YADAV) : (a) The National Policy on Education has emphasised the need of development of new methods of teaching Sanskrit, which has also been supported by the Kendriya Sanskrit Parishad.

(b) The Rashtriya Sanskrit Sansthan in collaboration with the Central Institute of Indian Languages, have

already initiated action on preparing instructional material for teaching of Sanskrit based on a new method.

Cooperative sugar factories during Fifth Plan

6615. SHRI BHOGENDRA JHA : Will the Minister of AGRICULTURE be pleased to state :

(a) how many cooperative sugar factories are now in operation in the country ;

(b) the experience of their working ; and

(c) whether Government intend to encourage the setting up of more cooperative sugar factories during the Fifth Plan period and if so, the facts thereof ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH) :

(a) There are 85 installed cooperative sugar factories in the country at present. Out of these, two cooperative sugar factories have not worked during the 1972-73 season so far.

(b) The performance of the cooperative sector is, by and large, satisfactory.

(c) The present policy of the Government to give preference for the establishment of new sugar factories in the cooperative sector, will be continued during the Fifth Plan period also.

Research work Published by professors of I. I. T., Delhi

6616. SHRI PHOOL CHAND VERMA : Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state :

(a) titles of published research work during the last three years of all Professors of I. I. T., Delhi and the name of journals publishing each one of them; and

(b) list of doctoral dissertations successfully guided in the same period ?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN). (a) and

(b) : Information is being collected and will be laid on the Table of the House.

महंगाई के विरोध में दिल्ली की महिलाओं द्वारा प्रदर्शन

6617. श्री फूलचन्द वर्मा : क्या कृषि मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या दिनांक 12 जनवरी, 1973 को दिल्ली की महिलाओं ने महंगाई के विरोध में उनके निवास स्थान के सामने प्रदर्शन किया था ;

(ख) क्या उन्हें एक ज्ञापन भी दिया गया था ; और

(ग) यदि हां, तो अब तक इस सम्बन्ध में क्या कार्यवाही की गई है और भविष्य में क्या उपाय किये जायेंगे ?

कृषि मंत्रालय में राज्य मंत्री (श्री अण्णासाहेब पी. सिन्हे) : (क) से (ग). गेहूं, आटा, चावल आदि जैसी आवश्यक वस्तुओं की अनुपलब्धता के बारे में कृषि मंत्री को एक ज्ञापन प्रस्तुत किया गया था। उपर्युक्त ज्ञापन का उत्तर भेज दिया गया था जिसमें यह बताया गया था कि दिल्ली के उपभोक्ताओं को सरकारी वितरण प्रणाली के माध्यम से उपर्युक्त मात्रा में चावल, गेहूं और चीनी की पूर्ति की जा रही है। यह भी बताया

गया था कि देश के बहुत से भागों में गम्भीर रूप से सूखा पड़ने के कारण खाद्यान्नों का उत्पादन प्रभावित हुआ है जिसके परिणाम-स्वरूप खुले बाजार के मूल्यों में वृद्धि हुई है; और स्थिति को बराबर समीक्षा की गई तथा मूल्यों को नीचे लाने के लिए आवश्यक पग उठाये गये ।

मूल्यों में वृद्धि को रोकने के लिए निम्न-लिखित कुछ पग उठाये गये हैं :—

(1) उचित मूल्य की दुकानों से खाद्यान्नों का वितरण सशक्त बनाना; (2) सारा सरकारी स्टॉक उचित मूल्य को दुकानों से वितरित करना; (3) गेहूं के पदार्थों के थोक तथा खुदरा मूल्यों पर नियंत्रण लागू करना और उचित मूल्य की दुकानों से इनके वितरण को विनियमित करना; (4) इस समय लागू नियामक कानूनों को प्रभावी ढंग से लागू करना; (5) जमाखोरी को रोकने के लिए खुले बाजार पर कड़ी सतर्कता बरतना; (6) अतिथि नियंत्रण आदेश लागू कर खाद्यान्नों की खपत पर रोक लगाना; (7) खाद्यान्नों की अधिप्राप्ति तेज करना; (8) खाद्यान्नों की सीमित मात्रा आयात करना; (9) खाद्यान्नों पर दी जाने वाली पेशगियों पर नियन्त्रण कड़ा करना; (10) रबी और ग्रीष्म फसलों की पैदावार बढ़ाने के लिए बड़े पैमाने पर आयातक कृषि उत्पादन कार्यक्रम; (11) चालू रबी मौसम से गेहूं के थोक व्यापार को लेना ताकि उपभोक्ताओं को उचित मूल्यों पर गेहूं नियमित रूप से सप्लाई किया जा सके; (12) दिल्ली के गेहूं के कोटे में वृद्धि करना ।

दिल्ली में तम्बूओं में चल रहे विद्यालय

6618. श्री फूलचन्द वर्मा : क्या शिक्षा, समाज कल्याण और संस्कृति मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या दिल्ली में अभी तक लगभग 50 सरकारी विद्यालय तम्बूओं में लगते हैं जिससे विद्यार्थियों को हर मौसम में बहुत कठिनाइयां होती हैं और उनकी पढ़ाई में भी काफी बाधाएं आती हैं;

(ख) इन विद्यालयों के लिए भवनों की व्यवस्था करने हेतु सरकार ने अब तक क्या कार्यवाही की है; और

(ग) वित्तोद्य वर्ष 1973-74 में इन विद्यालयों के लिए भवनों हेतु कितनी धनराशि स्वीकृत की गई है ?

शिक्षा और समाज कल्याण मंत्रालय तथा संस्कृति विभाग में उपमंत्री (श्री डी० पी० यादव) : (क) दिल्ली में 22 राजकीय उच्चतर माध्यमिक स्कूल, तम्बूओं में लग रहे हैं ।

(ख) इनमें से 7 स्कूलों के लिए नए भवनों का निर्माण किया जा रहा है । 3 स्कूलों के लिए भूमि अधिग्रहण कर ली गई है तथा उनके भवनों के नक्शे तैयार किये जा रहे हैं । बकाया 12 स्कूलों के लिए स्थान अधिग्रहण किये जा रहे हैं ।

(ग) 164.62 लाख रुपये ।

**Request to World Bank Aid for
Famine Relief Scheme in Jodhpur**

6519 Dr. H. P. PSHARMA : Will the Minister of AGRICULTURE be pleased to state :

(a) whether 'Famine Relief Schemes' for Jodhpur costing about Rs. 24 crores had been sent to World Bank seeking aid for implementing them ;

(b) if so, the main features of the schemes ; and

(c) the response of the World Bank thereto ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH) : (a) A project with an outlay of Rs. 24.04 crores has been formulated for Jodhpur district under the Drought Prone Areas Programme for seeking World Bank Aid.

(b) The project comprises of scheme for sheep, cattle and dairy development, ground water exploitation, rural electrification and provision of drinking water supply, moisture conservation, afforestation and market yards.

(c) A World Bank Reconnaissance Mission visited the country in February, 1973 and made a preliminary study of the Drought Prone Areas Programme, and the projects formulated for seeking aid from the World Bank.

Implementation of Desert Development Programme in Rajasthan

6620. DR. H. P. SHARMA : Will the Minister of AGRICULTURE be pleased to state :

(a) the progress made so far in the implementation of Desert Development Programme in Rajasthan since 1970 ;

(b) the expenditure incurred thereon and the extent of Central aid and grants given so far for the programme ; and

(c) the targets fixed in regard to implementation of this programme for the year 1973-74 and the financial allocation made by the State and the Centre therefor ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH) : (a) to (c). During the Fourth Five Year Plan, pilot projects have been taken up in the desert areas of the three States of Rajasthan, Gujarat and Haryana. Out of a total Plan provision of Rs. 2.00 crores for this programme schemes costing Rs. 117.2 lakhs detailed below were sanctioned for implementation in Rajasthan State :—

Barmer Distt.	Rs. in lakhs
(i) Rehabilitation of forests on hills.	.
(ii) Grass land Development for fodder bank.	101.14
(iii) Development of pastures.	
(iv) Reclamation of saline soils.	
(v) Wind break plantations.	
Jaisalmer Distt.	
Cultivation of green fodder, pasture development, raising of wood lots around tubewells and nurseries in Jaisalmer Distt.	16.11
TOTAL :	117.25
	lakhs.

A statement showing the progress of these schemes is attached. This programme is financed on 100% basis by the Central Government. The upto-date expenditure i.e. upto 1972-73, reported by the State Government amounts to Rs. 87.14 lakhs against which funds to the extent of Rs. 85 lakhs have already been released upto the end of the financial year 1972-73. The entire programme is due to be completed by the end of 1973-74.

2. In addition, desert and arid areas are also getting substantial funds under the Drought Prone Areas Programme, which is also a 100% Centrally financed programme. Ten districts of Rajasthan are included in this programme and the outlay provided for them is Rs. 20 crores. Out of this, schemes costing Rs. 18.00 crores as detailed below have already been sanctioned :—

	Rs. in crores
(i) Minor Irrigation . . .	6.02
(ii) Soil Conservation . . .	0.31
(iii) Afforestation . . .	1.82
(iv) Roads . . .	5.10
(v) Others . . .	4.75
TOTAL .	18.00 crores

Out of this the total expenditure incurred upto December, 1972 is reported to be Rs. 824.89 lakhs. A sum of Rs. 926.93 lakhs has been released to the State Government for meeting expenditure already incurred and anticipated upto 31-3-1973. The outstanding schemes are to be completed during 1973-74 as far as possible and also new schemes upto the total outlay of Rs. 20 crores could be taken up during the current financial year.

3. The construction of Rajasthan Canal is also a major step in the development of desert areas in Rajasthan. A World Food Programme Project is in operation since October, 1968. Under this programme food articles are being supplied to labour engaged on the construction of Rajasthan Canal on subsidised rates and sale proceeds are utilised for the schemes relating to Land Development, Soil Conservation, Animal Husbandry, Forest Nurseries & Plantation etc. in the Rajasthan Canal command area. Schemes costing Rs. 260.00 lakhs

have been sanctioned out of which a sum of Rs. 146.89 lakhs has been spent upto the end of December, 1972.

STATEMENT

Sl. No.	Name of the Scheme	Physical achievement
---------	--------------------	----------------------

BARMER DISTRICT

1. Creation of Nurseries	18 No.
2. Rehabilitation of Degraded Forests.	7667 Hect.
3. Development of Grass Lands	4322 Hect.
4. Development of Pastures	4070] Hect.
5. Afforestation of Saline Soils	1412 Hect.
6. Shelter belt plantations	1932 RKM
7. Construction of Building	33 No.

JAISALMER DISTRICTS

1. Pasture Development.	Material purchased only in the year 1971-72. Fencing with angle iron and barbed wire has been completed, area has been divided into three parts by laying two interlona and barbed wire for the purpose of rotational grazing and ploughing was done in the area.
2. Cultivation of green fodder	Stonepatties purchased.

Drought Prone Area Programme in Rajasthan

6621. DR. H. P. SHARMA : Will the Minister of AGRICULTURE be pleased to state :

(a) whether a "Drought Prone Area Programme" had been launched in Rajasthan; if so, when and the progress made in its implementation so far together with the results achieved thereby; and

(b) the total cost of the programme, how much of it has already been spent thereon and the contribution made by the Central Government in this respect so far and the extent of further Central aid demanded and granted by Central Government in regard thereto ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH) :

(a) Drought Prone Areas Programme in Rajasthan covering 10 districts was started in 1970-71. Since its inception, an expenditure of Rs. 8.89 crores has been incurred till January 1973. Till the end of December, 1972, 1276 hectares have been benefited through minor irrigation Schemes ; 3908 hectares have been covered under soil conservation and 17766 hectares under afforestation measures. Roads with a length of 477 Kms. have been newly constructed and roads with a length of 731 Kms. have been upgraded.

(b) Over the four year programme period from 1970-71 to 1973-74 the State Government will get in allocation of Rs. 20 crores. As against the expenditure of Rs. 8.89 crores till the end of January, 1973, Central Financial assistance of Rs. 9.31 crores was released till the end of 1972-73. Further release of Central assistance will be made to the State Government on the basis of the actual expenditure and the provisions available in the Central Budget for the current year, within the overall ceiling of Rs. 20 crores.

Central Aid to Rajasthan for Minor Irrigation Schemes for 1973-74

6622. DR. H. P. SHARMA : Will the Minister of AGRICULTURE be pleased to state :

(a) the extent of Central assistance sought for minor irrigation schemes in Rajasthan during 1971-72 and 1972-73 and the extent of Central aid granted both as loans and grants during these year including that for emergency schemes;

(b) whether any programmes for 1973-74 for development of minor irrigation facilities in Rajasthan has been drawn up by that State Government and submitted to Government for approval ; and

(c) if so, the broad features thereof, its cost and Central aid requested for the same and Government's reaction thereon ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH) :

(a) No special Central assistance has been sought by the Rajasthan Government for their normal minor irrigation programme during 1971-72 and 1972-73. However, the demand of the State Government for Central assistance for taking up special minor irrigation schemes during the year 1972-73 under the E.A.P.P. was jointly appraised by the Area Officer appointed for the State in the Ministry of Agriculture and the State Government Officers and an amount of Rs. 389 lakhs was sanctioned as loan assistance by the Central Government. In addition central assistance has been granted in the form of loan/grant to the Government of Rajasthan for drought relief measures to the extent of Rs. 11 crores. This includes some provision for minor irrigation schemes also.

(b) No special programme for the year 1973-74 for development of minor irrigation facilities in Rajasthan has been received by the Government of India.

(c) In view of the reply above, the question does not arise.

Survey of deep Sea Fishing

6623. SHRI D. P. JADEJA: Will the Minister of AGRICULTURE be pleased to state:

(a) whether any survey has been conducted in regard to deep sea fishing during the current year; and

(b) if so, the area selected ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHAB P. SHINDE): (a) Surveys have been conducted by the Deep Sea Survey Organisation, the Integrated Fisheries Project, Cochin, and the Pelagic Fisheries Project, Cochin.

(b) The Deep Sea Fishing Organisation surveyed the Offshore and Deep Sea Fishery Resources of the Indian seas from bases established for the purpose at Bombay, Cochin, Tuticorin, Visakhapatnam and Port Blair. Action has also been taken to set up additional survey bases at Kandla, Goa, Mangalore, Madras, Paradeep and Calcutta. The Integrated Fishery Project has been surveying mostly deep water fishing grounds on the South West Coast. The Pelagic Fishery Project, which is a U.N.D.P. assisted Project, has been investigating the resources of pelagic species, particularly sardines and mackerel in the Goa-Quilon Sector.

Committee for preservation of folklore and folk literature

6624. SHRI MUKHTIAR SINGH MALIK: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether there is any proposal under consideration of Government to constitute a permanent Committee for the preservation of the folklore and folk literature;

(b) if so, the composition of the Committee; and

(c) its terms of reference ?

THE DEPUTY MINISTER IN THE MINISTRY OF EDUCATION AND SOCIAL WELFARE AND IN THE DEPARTMENT OF CULTURE (SHRI D. P. YADAV): (a) to (c). There is no such proposal at present. However, in December, 1972, an *ad hoc* committee of experts was set up for mobilising the activities of youth centering round Nehru Yuvak Kendras for galvanising folk and rural art and community singing. A statement giving the composition of the committee is attached.

STATEMENT

STATEMENT SHOWING THE COMPOSITION OF THE COMMITTEE OF EXPERTS TO DISCUSS THE PROGRAMME OF PROMOTING CULTURAL ACTIVITIES THROUGH TRAINING AND PARTICIPATION IN FOLK PERFORMANCE OF COMMUNITY SINGING INVOLVING THE NEHRU YOUTH CENTRE.

1. Prof. Nihar Ranjan Ray, Formerly Member, Pay Commission, Vigyan Bhavan Annexe, New Delhi.

U.G.C. Directions to Universities for preservation of Folk Arts

6625. SHRI MUKHTIAR SINGH MALIK: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether University Grants Commission has given any directions to the Universities for preservation of folk arts of educational and academic importance by opening special Departments in the Universities; and

(b) if so, the outlines thereof?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) and (b) ~~No such~~ directions have been issued by the University Grants Commission to the Universities. However, if a proposal for financial assistance for the purpose is received, it will be considered by the Commission.

Several Departments in the Universities are at present engaged in study research in this field and they receive assistance from the Commission. The Commission is considering the question of providing assistance to the Universities in the Fifth Five Year Plan for the development of Fine Arts and Cultural Studies. Folk Art would also be included within the scope of the scheme.

Central Government Employees who have not surrendered/vacated their Government Quarters after retirement

6626. SHRI HARI SINGH: Will the Minister of WORKS AND HOUSING be pleased to state:

(a) the number of Central Government employees who have still not surrendered or vacated their Government quarters after their retirement since (1) 1st January, 1970; (2) 1st January, 1971; (3) 1st January, 1972; and (4) 1st January 1973;

(b) whether the interest of the non-allottees is not being affected by allowing them to retain their accommodation even after their retirement for such a long time and if so, to what extent; and

(c) the steps Government propose to take for their eviction and by which date the action will be completed?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) The number of Central

Government employees who have not surrendered the general pool accommodation at Delhi/New Delhi after their retirement, year-wise, is as under :—

S. No.	Year	No. of retired employees retaining accommodation
1.	As on 1-1-70	40
2.	As on 1-1-71	75
3.	As on 1-1-72	136
4.	As on 1-1-73	102
	TOTAL	353

(b) To the extent the residential units remain in occupation of retired Government employees, the non-allottees are deprived of the accommodation. In some cases after the concessional period admissible under the rules, further retention is allowed for a period not exceeding six months on educational grounds of the children or sickness in the family of a retired Government employee in accordance with the provision contained in the Allotment Rules.

(c) The Government servants, who continue in occupation of the general pool accommodation, are dealt with in accordance with the provisions contained in the Public Premises (Eviction of Unauthorised Occupants) Act, 1971. Under the Act and in the interest of natural justice adequate opportunity is required to be given to an unauthorised occupant before he is finally evicted from Government accommodation. It cannot be indicated as to by which time physical eviction would be carried out in such cases.

Malpractices in Fair Price Shops in Delhi

6627. SHRI SHASHI BHUSHAN : Will the Minister of AGRICULTURE be pleased to state :

(a) the names and number of fair price shops in Delhi found guilty of various offences such as adulteration, having ghost ration cards and for other malpractices ;

(b) the action taken against them ; and

(c) the measures adopted to ensure that due publicity is given to these shops so that the public may become cautious, blacklist them and cancel their licences ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE) : (a) and (b) A statement is laid on the table of the House [Placed in Library see No. LT-4773/73]

(c) A Complaint Cell is functioning in the Food and Supplies Department, Delhi where inspectors remain on duty round the clock. Prompt action is taken on all the complaints received in the Complaint Cell. The persons found guilty are proceeded against and punished according to law.

Enquiry into Bogus Ration Units in Delhi

6628. SHRI SHASHI BHUSHAN : Will the Minister of AGRICULTURE be pleased to state :

(a) whether the checking of all ration cards in Delhi has since been completed ;

(b) if so, the bogus ration units detected ;

(c) the action taken or proposed to be taken against the offenders, and the number of persons prosecuted in this connection ; and

(d) whether it has been established that there was a hand of Ration Inspectors behind these bogus ration units ; if so, the names of such inspectors and the action taken against them ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE) : (a) No. Sir.

(b) to (d). Out of 15 Circles, checking has been done in the case of 5 Circles. The suspected bogus units in the case of cereals and sugar are of the order of 6.7% and 7.5% respectively. Further rechecking and verification are in progress.

Ex-MPs. Not Vacated Government Residences

6629. SHRI LALJI BHAI : Will the Minister of WORKS AND HOUSING be pleased to state :

(a) whether many of the Ex-MPs. have not yet vacated Government residences ; and

b if so, the facts thereof ?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMEN-
TARY AFFAIRS AND IN THE MINIS-
TRY OF WORKS AND HOUSING
(SHRI OM MEHTA): (a) Yes, Sir.

(b) Six ex-M.Ps. have not vacated their residences. Out of them, two ex-M.Ps. have requested for the retention of the residences for further period and their requests are under examination. Besides these six, there are five ex-M.Ps. who have vacated their main residences but have not yet vacated the servants' quarters/garages.

Central Aid for Vasectomy in Rajasthan

6631. SHRI LALJI BHAI : Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state :

(a) the number of vasectomy cases performed in different Districts of Rajasthan in the year 1971-72 ;

(b) whether there was any fixed target for Rajasthan in the year 1973 ; and

(c) if so, the results achieved there from and the aid given by Centre to the Rajasthan Government for this purpose ?

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING : (SHRI A. K. KISKU) :
(a) the required information is given in the attached statement.

(b) No separate target for vasectomy operations was fixed for 1972-73. However a target of 265,560 sterilisations was fixed for Rajasthan for that year. Target for sterilisations and financial allocation for the year 1973-74 have yet to be fixed.

(c) 61409 sterilisations (provisional figures) were done during 1972-73 upto February, 1973. Separate financial allocation is not made for vasectomy programme. The total financial assistance sanctioned for the Family Planning programme in Rajasthan during 1972-73 was Rs. 281.58 lakhs.

STATEMENT

Districts	Number of vasectomy cases performed in 1971-72

TOTAL	24,453

Conversion of Bungalows Allotted to Ex-Central Ministers into State Houses

6632. SHRI LALJI BHAI : Will the Minister of WORKS AND HOUSING be pleased to state :

(a) whether some of the Government allotted bungalows to the Ex-Central Ministers are converted into "Bengal House", "Madhya Pradesh House" or "Orissa House" and

(b) if so, the facts thereof ?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA) : (a) and (b) : Bungalow No 2, Circular Road which was in the occupation of Shri S. S. Ray while he was a Minister in the Central Government and No. 7, Safdarjang Road which was formerly occupied by Shri P. C. Sethi as a Minister in the Central Government, were placed at the disposal of the Governments of West Bengal and Madhya Pradesh respectively for use by the State Governments, Bungalow No. 13, Willingdon Crescent was also placed at the disposal of the Orissa Government on 4th January, 1973 for use by the State Government.

1971-72 तथा 1972-73 के दौरान राजस्थान नहर क्षेत्र की भूमि और उसका आवंटन

6633. श्री लालजी भाई : क्या कृषि मंत्री यह बताने की कृपा करेंगे कि :

(क) राजस्थान नहर के आस-पास की कितनी-कितनी भूमि सन् 1971-72 तथा 1972-73 के दौरान किन-किन व्यक्तियों को आवंटित की गई;

(ख) क्या राज नहर के आस-पास की भूमि को पिछड़े वर्गों तथा अनुसूचित जनजातियों के व्यक्तियों को आवंटित करने की कोई योजना है; और

(ग) यदि हाँ, तो तत्सम्बन्धी मुख्य बातें क्या हैं ?

कृषि मंत्रालय में राज्य मंत्री (श्री अण्णासाहेब पी. शिन्दे) : (क) से (ग). राजस्थान सरकार से सूचना एकत्रित की जा रही है और प्राप्त होने पर सभा-पटल पर रख दी जायेगी।

Setting up of Sports Schools in various regions

6634. SHRI PILOO MODY: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether Government of India decided some time back to set up five Sports Schools in various regions of India;

(b) if so, whether a decision has been taken as to the exact locations of these schools;

(c) whether it is based on the recommendations of the All India Council of Sports; and

(d) salient features of such schools and financial implications thereof ?

THE DEPUTY MINISTER IN THE MINISTRY OF EDUCATION AND SOCIAL WELFARE AND IN THE DEPARTMENT OF CULTURE (SHRI ARVIND NETAM) : (a) to (d). The proposal is still under examination.

**Plan for Development of Hinterland
of Mangalore Harbour**

6635. SHRI PILOO MODY:
SHRI H. M. PATEL:

Will the Minister of SHIPPING AND TRANSPORT be pleased to state the progress made in the Plan for development of the Hinterland of Mangalore Harbour to meet the new demands for subsidiary foods arising from the operation of the Port and of the Fertilizer Factory ?

THE MINISTER OF SHIPPING AND TRANSPORT (SHRI RAJ BAHADUR): The subject relating to the development of the Hinterland of Mangalore Harbour falls under the purview of the Govt. of Mysore. The Minister of Shipping and Transport have, therefore, no plans to meet new demand for subsidiary foods arising from the operation of the port and of the Fertilizer Factory.

It is understood that Govt. of Mysore have constituted a Hinterland Development Committee headed by their regional Divisional Commissioner to formulate and execute specific programmes with a view to ensuring integrated development of the Hinterland. That Committee is stated to be working out detailed schemes *inter alia* embracing demands for subsidiary foods in the Hinterland.

**National Policy on Urbanisation
in Large Cities**

6636. SHRI JHARKHANDE RAI : Will the Minister of WORKS AND HOUSING be pleased to state :

(a) whether the Conference of Commonwealth Association of Planners held recently in New Delhi has recommended that developing countries should urgently evolve national policies on urbanisation in the context of high state of urbanisation in large Cities ; and

(b) if so, whether Government propose to formulate a national Policy on urbanisation ?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) Yes, Sir.

(b) The matter is under consideration.

**Scheme for Development of Fishing
Harbours at Neendakara, Quilon in
Kerala**

6637. SHRI C. K. CHANDRAPPA :
SHRI A. K. GOPALAN :

Will the Minister of AGRICULTURE be pleased to state :

(a) whether the Government of Kerala has approached the Centre with a scheme to develop the port at Neendakara near Quilon in Kerala ;

(b) if so, the broad outlines of the scheme ; and

(c) what is the decision of the Centre thereon ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHAB P. SHINDE) : (a) Yes, Sir.

(b) The Government of Kerala had proposed provision of a fishing harbour at Neendakara at an estimated cost of Rs. 7.62 crores. Part (a) of the Project estimate covered the harbour and common facilities such as water supply, electricity, land acquisition dredging, wharves and jetties roads and parking areas, drainage, modifications to breakwater, etc. Part (b) was for buildings, plants for ice making, canning, transport facilities, repair facilities etc. The harbour plans were designed to provide facilities for 300 mechanised boats and 60 trawlers.

(c) The U.N.D.P. Project for Pre-investment Survey of fishing harbours, which is investigating potential harbour sites in the country and drawing up 'plans and estimates for selected sites, was instructed to include

Neendakara in the list of harbour sites to be investigated in Kerala and to take into consideration the project report prepared by the Government of Kerala. The U. N. D. P. Project after completing detailed investigations prepared a project report for Neendakara fishing harbour in two parts, namely (1) Engineering, Survey and Soil Investigations and Designs, and (2) Economic Evaluation. The report was received from the F. A. O. in March, 1973. The Project designed by the U. N. D. P. Survey Projects envisages construction of breakwaters, wharves, piers, boatyard, shore facilities and dredging at a total cost of Rs. 160 lakhs. It is designed to accommodate 400 small boats in the range of 10 mts. to 12 mts, 30 Nos. of 16 mts. to 18 mts and 10 Nos. of 28 mts. A copy each of this report is being sent to the Ministry of Shipping and Transport, Ministry of Defence and the Planning Commission for obtaining concurrence. A copy is also being sent to the state Government with the request that the cost estimates may be verified with reference to the current schedule of rates and to indicate yearwise phasing of fishing boats etc. After this examination has been completed, the question of sanctioning the harbour will be taken up for consideration in consultation with the Ministry of Finance.

Request for Auxiliary Nurses and mid-wives grant from Sree Naryana Medical Mission, Shertallay, Kerala

6638. SHRI C. K. CHANDRAPPA: Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state:

(a) whether Government have received any request for Auxiliary Nurses and Mid-wives grant from Sree Naryana Medical Mission, Shertally, Kerala;

(b) if so, the details thereof; and

(c) what is the decision of Government in this matter?

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (SHRI A. K. KISKU): (a) Yes.

(b) The Mission requested for recurring and non-recurring grants for starting an Auxiliary Nurse-Midwife training school at S. N. Medical Mission, Shertallay Kerala.

(c) The proposal was not accepted by Government as there are already surplus trained Auxiliary Nurse-Midwives in Kerala.

Progressive decline of Cane crushing at Central Sugar Mills, Samastipur

6639. SHRI BHOGENDRA JHA: Will the Minister of AGRICULTURE be pleased to state:

(a) whether Central Sugar Mills, Samastipur is crushing progressively decreasing quantity of cane each year for the last several years;

(b) if so, causes thereof and remedial measures undertaken; and

(c) whether the Mill is running at a loss; and if so, the causes and remedial measures?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE, (PROF. SHER SINGH): (a) to (c). A statement showing the quantities of cane crushed by Samastipur Sugar Factory during the last 10 years is attached. These quantities have been fluctuating from year to year and a decline in recent years is noticeable. This is because of reduction in sugarcane acreage due to competition from other cash crops. The factory has consequently been running into losses. The Bihar Government have advised that to remedy the situation, they have taken up a package programme for intensive cultivation of sugarcane in the factory area and the sugarcane cultivation for next year has gone up by about 40 per cent. Statement showing the quantities of cane

crushed during last 10 years by Samastipur Sugar Factory.

Year	Cane crushed (Tonnes)
1963-64	32555

1965-66	101333
1966-67	41789
1967-68	21203
1968-69	58671
1969-70	86673
1970-71	63585
1971-72	24618
1972-73	26730

HUDCO's Financial Assistance to Tamil Nadu:

6640. SHRI S. A. MURUGANANTHAM: Will the Minister of WORKS AND HOUSING be pleased to state:

(a) whether the Housing and Urban Development Corporation has provided any financial assistance to Tamil Nadu Government for the construction of houses in urban centres in the State;

(b) if so, the nature and extent of assistance provided; and

(c) the schemes for which this assistance has been given?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) Yes.

(b) and (c). A statement is attached,

STATEMENT

Issue of Ration cards to individuals for Rural landless people

6641. SHRI MADHURYYA HALDAR: Will the Minister of AGRICULTURE be pleased to state:

(a) whether the Government have decided to issue ration cards for every individual instead of the present system of family-wise ration cards for the rural landless people; and

(b) if so, the time when this system would be implemented?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASHEB P. SHINDE): (a) and (b). It is for the State Governments to decide about the mode of distribution of ration cards within a State. No report has been received to the effect indicating any change in the present system of family-wise ration cards.

हरिजनों की जबरन नसबन्दी

6642. श्री अम्बेश: क्या स्वास्थ्य और परिवार नियोजन मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या सरकार को 7 फरवरी, 1973 के 'नवभारत टाइम्स' में "हरिजनों की जबरन नसबन्दी की जांच" शीर्षक के अन्तर्गत प्रकाशित समाचारों की ओर ध्यान दिलाया गया है जिसमें यह बताया गया है कि उत्तर प्रदेश में राय बरेली जिले में जगतपुर की पुलिस के व्यक्तियों ने चार हरिजनों की जबरन नसबन्दी कराई है;

(ख) क्या पुलिस अधीक्षक को इस घटना की जांच करने का आदेश दिया गया है;

(ग) यदि हां, तो इस घटना का ग्यौरा क्या है; और

(घ) इस सम्बन्ध में सरकार द्वारा क्या कार्यवाही की जा रही है ?

स्वास्थ्य और परिवार नियोजन मंत्री

(श्री आर० के० खाडिलकर) : (क) से (घ). राज्य सरकार से सूचना मंगवाई गई है और प्राप्त होने पर समा पटल पर रख दी जायगी ।

Exemption of Examination Fee to Scheduled Castes and Scheduled Tribes students appearing in Examination conducted by Central Board of Secondary Education

6643. SHRI AMBESH: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether the Central Board of Secondary Education has exempted from payment of examination fee, the Scheduled Caste/Tribe students appearing for Higher Secondary Examination conducted by the above Board;

(b) whether this concession has been confined to Scheduled Caste/Tribe students who are bonafide residents of Delhi;

(c) if so, the circumstances under which non-residents Scheduled Caste/Tribe students of Delhi have been deprived of this concession; and

(d) the steps taken by Government in this regard ?

THE DEPUTY MINISTER IN THE MINISTRY OF EDUCATION, SOCIAL WELFARE AND IN THE DEPARTMENT OF CULTURE (SHRI D. P. YADAV): (a) to (d). In 1970, the Government of India decided that the students belonging to Scheduled Castes/Scheduled Tribes who are bonafide residents of the Union Territories may be exempted from payment of fee in respect of examinations conducted by recognised

Universities/Board in all the Union Territories. The Administrations concerned would make the necessary payments to the universities or Boards on the basis of the students appearing in the examination in a particular year.

As far as the Scheduled Caste/Scheduled Tribe students who belong to the State Governments but only reside in the Union Territories are concerned, it is for the State Governments to grant similar concessions. As such the Scheduled Caste/Scheduled Tribe students who are not bonafide residents of the Union Territory of Delhi, are not entitled to exemption from examination fee.

Acute shortage of seats in Medical Colleges in the Country

6644. SHRI NAWAL KISHORE SHARMA :

SHRI MARTAND SINGH OF REWA:

Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state:

(a) whether at present there is an acute shortage of seats in medical colleges in the country in comparison to the student seeking admission in the colleges;

(b) if so, whether there is a proposal under the consideration of Government to increase the seats in medical colleges; and how many seats are going to be increased, with particular reference to Medical Colleges in Rajasthan; and

(c) whether there is also a proposal under the consideration of Government for reservation of some seats for the members of Scheduled Castes and Scheduled Tribes in these colleges for those students who fulfill the required qualifications; if so, the main facts thereof ?

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (SHRI A. K. KISKU):

(a) Yes. With an increase in the facilities for education in the country and improvement of socio-economic conditions, the number of students seeking admission to various courses of higher education has been on the rise. There is thus widening gap between the number of seats available and the number of students seeking admission in institutions of higher learning. This is true of medical colleges as well. Competition for higher education is becoming keen in all branches of studies. It is perhaps comparatively more acute today in the field of medical education.

(b) Opening of new medical colleges or increasing the number of seats in the existing medical colleges is in the State Sector. Government are not aware whether or not State Governments particularly Rajasthan have any proposal for increasing admission capacity in the existing medical colleges. In case of Rajasthan, the State Government is stated to have a problem of unemployment amongst doctors. With such a situation prevailing in the State there is no likelihood for the Government of Rajasthan to increase the admission capacity of existing five medical colleges.

(c) Reservation of seats for Scheduled Castes and Scheduled Tribes already exists in the matter of admission in medical colleges in the country.

Persons appointed in honorary capacity as members of the various Committees under Ministry of Agriculture

6645. SHRI NAWAL KISHORE SHARMA: Will the Minister of AGRICULTURE be pleased to state:

(a) the total number and names of persons who have been appointed in honorary capacity on different Committees or Commissions under his Ministry; and

(b) their qualifications and the amount of various allowances etc. paid on each of them every year during the last three years ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHAB P. SHINDE): (a) and (b). The information is being collected and will be placed on the Table of the Sabha.

शहरी-ग्रामीण आयोजना संगठनों की मुख्य विशेषतायें

6646. श्री मूलचन्द डागा : क्या निर्माण और आवास मंत्री यह बताने की कृपा करेंगे कि :

(क) शहरी-ग्रामीण आयोजना संगठनों की मुख्य विशेषतायें क्या हैं और ये संगठन किन-किन स्थानों पर स्थापित किये गये हैं; और

(ख) उन्होंने क्या लक्ष्य प्राप्त किये हैं तथा गत वर्ष उन पर कितना धन व्यय हुआ ?

संसदीय कार्य विभाग तथा निर्माण और आवास मंत्रालय में राज्य मंत्री (श्री श्रीम मेहता) : (क) मिजोराम, अण्डमान तथा निकोबार द्वीपसमूह और अरुणाचल प्रदेश को छोड़कर लगभग सभी राज्यों और संघ क्षेत्रों के अपने अपने नगर तथा ग्राम आयोजना विभाग हैं। इन विभागों को

नगरीय तथा क्षेत्रीय कार्यक्रमों को युक्तिसंगत रूप में तैयार करने का कार्य सौंपा गया है। ये विभाग राज्य के मुख्यालय में स्थित हैं तथा वे क्षेत्रीय ढांचे के अन्तर्गत विकास कार्यों का नियमन, नियन्त्रण तथा मार्गदर्शन करते हैं।

(ख) तीसरी योजना की अवधि के दौरान 67 नगरीय केन्द्रों की विकास योजनाएं पूर्ण की गई थी। चौथी योजना के दौरान विकास की योजनाएं तैयार करने के लिए 206 और केन्द्रों को शामिल किया गया है।

क्योंकि यह योजना अब राज्य क्षेत्र में है तथा केन्द्रीय सहायता खण्ड ऋणों तथा खण्ड अनुदानों के रूप में दी जाती है, अतः पिछले वर्ष के दौरान इस स्कीम पर किये गये व्यय के आंकड़े इस समय उपलब्ध नहीं हैं।

विकलांग बच्चों पर खर्च किया गया धन

6647. श्री मूलचन्द डागा : क्या शिक्षा, समाज कल्याण और संस्कृति मंत्री यह बताने की कृपा करेंगे कि गत तीन वर्षों में समाज कल्याण विभाग द्वारा वर्षवार विकलांग बच्चों पर किस-किस काम के लिए कितना-कितना धन खर्च किया गया है ?

शिक्षा और समाज कल्याण मंत्रालय तथा संस्कृति मंत्रालय में उप-मंत्री (श्री अरविन्द नेताम) : एक विवरण पत्र संलग्न है।

विवरण

क्रम संख्या	कार्य का नाम	खर्च (लाख रुपये को राशियों में)		
		1970-71	1971-72	1972-73
1	2	3	4	5

खाद्यान्नों के थोक व्यापार के सरकारीकरण के पश्चात् नगरों और गांवों में खाद्यान्नों का वितरण

6648. श्री मूलचन्द डागा :
श्री जगदीश नारायण मण्डल :

क्या कृषि मंत्री यह बताने की कृपा करेंगे कि क्या खाद्यान्नों के थोक व्यापार के सरकारीकरण के पश्चात् नगरों और गांवों में खाद्यान्नों का वितरण राशन कार्डों के माध्यम से किया जायेगा और यदि हाँ, तो इसकी मुख्य बातें क्या हैं?

कृषि मन्त्रालय में राज्य मन्त्री (श्री अण्णासाहेब पी. शिन्दे) : गेहूं और चावल का थोक व्यापार लेने के बाद भी, शहरों, ग्रामीण और दुर्गम क्षेत्रों में उचित मूल्य की दुकानों के माध्यम से खाद्यान्नों के वितरण की मौजूदा प्रणाली चलती रहेगी। अधिप्राप्त स्टॉक केन्द्रीय मूल में लाया जायेगा और राज्यों की उपयुक्त जहरतें पूरी करने के लिए उन्हें खाद्यान्नों का आव-टन किया जाएगा। राज्य सरकार प्रत्येक

राज्य में वास्तविक स्थिति को ध्यान में रखकर वितरण की प्रणाली के बारे में निर्णय लेगी। शहरी क्षेत्रों में उपभोक्ता सहकारी समितियां और ग्रामीण क्षेत्र में सेवा सहकारी समितियों का खुदरा वितरण करने के लिए अधिकतम सीमा तक उपयोग किया जाएगा।

RICE SMUGGLING TO BOMBAY FROM PUNJAB, HARYANA AND DELHI

6649. SHRI RAM PARKASH : Will the Minister of AGRICULTURE be pleased to state :

(a) whether there are reports of rice smuggling to Bombay from Punjab, Haryana and Delhi ; and

(b) if so, the action taken against culprits ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE) : (a) The Government of Maharashtra have reported that they have detected 4 cases.

(b) In three cases, two persons were arrested in each case. Of these, two cases are pending investigation. In the third case one accused has been convicted and the other accused acquitted. In the 4th case no arrest could be made.

14 hrs.

CALLING ATTENTION TO MATTER OF URGENT PUBLIC IMPORTANCE

REPORTED IMMINENT IMPOUNDING OF WATER IN PONG DAM, HIMACHAL PRADESH

MR. SPEAKER : Now we take up the Call Attention motion....

SHRI PILOO MODY (Godhra) : I have something to raise. Shall I raise it now or after the Call-Attention ?

MR. SPEAKER : I have not received any intimation from you.

SHRI PILOO MODY : I was out of town, Sir.

MR. SPEAKER : Now you are in town. We shall see it tomorrow.

Shri Virbhadra Singh.

श्री मूल चन्द डागा (पाली) : अध्यक्ष महोदय, मेरा प्वाइन्ट आफ आर्डर है। काल एटेंशन में जिस विषय पर चर्चा होने वाली है, उस पर 250 करोड़ रुपये खर्च हो चुके हैं। पांग डैम का सवाल आज का नहीं है, 1956 से यह सवाल चल रहा है। इसलिये यह इतनी अर्जन्सी का सवाल नहीं था। 6 करोड़ की जगह अब 45 करोड़ रुपये की मांग कर दी गई है.....

श्री विक्रम महाजन (कांगड़ा) : अध्यक्ष महोदय, माननीय सदस्य को प्राबलम का पता नहीं है... ये 45 करोड़ किस को दिये जायेंगे—ये गरीब आदिमियों के लिये खर्च होंगे.....

MR. SPEAKER : Mr. Daga, please sit down. This is not a point of order.

श्री मूलचन्द डागा : अध्यक्ष महोदय, लोक सभा के सदस्यों को प्राप्तीयता और
230 L. S.—9

क्षीयता से ऊपर उठना चाहिये, ये प्राप्तीयता की बातें करते हैं।

अध्यक्ष महोदय : यह राजस्थान और हिमाचल का झगड़ा है—इसको यहां न उठाइये अगर आप भी कोई काल अटेंशन लायेंगे तो उस को भी लिया जा सकता है। लेकिन आपन में झगड़ा मत कीजिये। मैं इस तरह से किसी को इजाजत नहीं दे रहा हूं। I am not allowing any gentleman whose name is not in the call-attention motion. (Interruption)

SHRI VIRBHADRA SINGH (Mandi) : Sir, I call the attention of the hon. Minister of Irrigation and power to the following matter of urgent public importance and request that he may make a statement thereon:—
“Reported imminent impounding of water in Pong Dam, Himachal Pradesh, and the resulting displacement of one lakh people.”

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA) : A dam across the river Beas to conserve its waters for use in India has been under construction over last 13 years. A stage is now reached, when the waters of the river could be impounded during the coming monsoon and utilised for development of irrigation. This will result in significant benefits in the form of additional foodgrains to the extent of about one million tons. Also with the completion of this dam, the bulk of the monsoon waters of the river Beas which were so far running to Pakistan will be harnessed and put to effective use in India.

This year there will be partial storage of water upto EL. 1365 as against the Reservoir level of EL. 1400 envisaged in the project report. Towards the end of Rabi irrigation period, the water level in the reservoir will come down to about EL. 1200. (The level of the river bed is EL. 1100).

[Shri Balgovind Verma]

So far all lands and properties on 58,000 acres out of 71,000 acres have been mostly paid for and acquired. The balance of land will be acquired in a couple of months. As assessed by Himachal Pradesh, partial impounding this year is likely to affect about 14,000 oustee families as against about 20,000 to be affected at maximum reservoir level. Major portion of these families are to be rehabilitated in Rajasthan. For this purpose, Rajasthan Government has set apart about 0.91 lakh hectares (225 lakh acres) of land in the Rajasthan Canal area for allotment at the rate of 6.35 hectares (15.625 acres) per oustee family. Himachal Pradesh Government has undertaken to take care of the remaining families who cannot be accommodated in the above land.

Of the land set apart for the oustees, about 0.445 lakh hectares (1.10 lakh) acres has so far been provided with irrigation facilities. For the balance, while the land is available and will be allotted, perennial irrigation facilities will be extended only after water is stored in the Pong Dam. To do this, partial impounding of water as planned is necessary. Temporary transition arrangements as required, will be provided by the Project.

SHRI VIRBHADRA SINGH :
At the very outset I would like to point out that this Calling attention motion is not aimed against Rajasthan or any other State. It is mainly intended to bring our difficulties to the attention of the hon. Minister and to seek redress for the same.

I have very carefully gone through the statement of the hon. Minister and I must say that I am being disappointed by it. I find in it a tendency on the part of the Minister to shift the responsibility on to somebody else.

Sir, I do not want to go into the entire history of this matter because the hon. Minister is well aware of it. The matter was raised in this House also more than

once in the past. Briefly stated the cause is that as a result of construction of the Pong Dam about 20,000 families are going to be ousted and displaced. After much difficulty and after much procrastination, we got 2.25 lakhs of acres of land ear-marked by the Rajasthan Government in Rajasthan for the rehabilitation of these oustees. Now this dam is almost ready and the Government is thinking of impounding water in it from the next month, i.e. May as a result of the impounding of water, the water level in the dam is expected to rise to 1365' which will affect about 14,000 families, as admitted in the statement of the Minister itself.

Now, out of the 2.25 lakh acres of land ear-marked in Rajasthan for the rehabilitation of these oustees only 1.1 lakh acres of land is irrigated at present and the remaining land is unirrigated and dry land. On this 1.1 lakh acre of land only about 6,000 families can be rehabilitated, whereas 14,000 families are going to be affected

Now, we want to know what the Government is going to do about the remaining 7,000 families, the hon. Minister in his statement has said that the Himachal Pradesh Government has undertaken to take care of the remaining families who cannot be accommodated in the above land. But it has been denied by the Himachal Pradesh Government that they have given any such undertaking here, I would like to quote from the letter of the Chief Minister of Himachal Pradesh wrote to hon Dr. K. L. Rao on 6th April 1973. In para 5 of his letter he has stated :

'To put the records straight, I should like to remind you that for the sake of an early decision, I had reluctantly agreed at the Chief Minister's meeting held on the 3/4th September, 1970 that instead of 3.25 lakh acres of land to which 20,000 oustees from Pong Dam area were entitled, we could do with 2.25 lakh acres. . . .

But it has throughout been accepted that the Rajasthan Govt. has in the first instance to provide the 2.25 lakh acres of land for the oustees and it is only after the whole of this land has been utilised for their rehabilitation that Himachal Pradesh Govt. will take up the responsibility of rehabilitating the remaining number of any of oustees. The Rajasthan Government, as such, has to place 2.25 lakh acres of land for rehabilitation of Pong Dam oustees before the question of providing rehabilitation in H.P. for such oustees who could not get land in Rajasthan arises."

So, this is the position. It is quite clear that Himachal Pradesh Government gave no undertaking to rehabilitate any oustees as such. What they said was that the Rajasthan Government was to give 2.25 lakh acres. After that land was utilised, if there were any oustees left, they would be looked after by the Himachal Pradesh Government. From the hon. Minister's statement, it is seen that the Rajasthan Government has not done so. On paper they have done so, but actually only 1.1 lakh acres is available. This is my point.

(Interruptions)

MR. SPEAKER : I am not permitting it. We do not allow any others except those whose names are there in the Calling Attention motion.

SHRI VIRBHADRA SINGH : The Rajasthan Government has made available only 1.1 lakh acres as against 2.25 lakh acres which was stipulated earlier. Therefore, I would like to know.

(Interruptions).

अध्यक्ष महोदय : आप लोग बार बार क्यों उठते हैं ? अगर कोई गलत बात कहेंगे तो मिनिस्टर उसका जबाब देंगे । आप लोग क्यों तकलीफ कर रह हैं ।

SHRI VIRBHADRA SINGH : 2.25 lakh acres of land was not given. Only 1.1 lakh acres of land was given in which the people could immediately be rehabilitated. The rest of the land is barren. You cannot ask people from Himachal Pradesh to go to Rajasthan and settle down on barren land. Keeping this in view, will the hon. Minister give an undertaking to this House that impounding of water in the Dam will be deferred till such time as that the oustees are properly rehabilitated? In this connection, I would like to make a suggestion to the Minister. If he thinks that is not in national interest to defer the impounding of water, then I have a suggestion and I can tell him about a way out. I believe that there is still more irrigated land available with the Rajasthan Government which they have kept for allotment to other categories in their own State. You can persuade the Rajasthan Government to make that land available for rehabilitating these 7,000 odd extra families. It is not a charity that we are asking; we are only asking for rehabilitation facilities; these people are being ousted from their hearths and homes and they have got to be rehabilitated.

I would like to know from the hon. Minister whether he will take up with the Rajasthan Government the question of getting additional irrigated land from them for rehabilitation of these extra 7,000 or so families. If that is not possible, will Government give an undertaking that the water in the dam will not be impounded till such time as all these oustees are rehabilitated.

THE MINISTER OF IRRIGATION AND POWER DR. K. L. RAO : The hon. member has asked three questions. He referred to the allotment of irrigated land of 1.10 lakh acres and asked what about the balance. I would submit here that the Rajasthan canal depends entirely on the water from the Beas river. In the Beas there is not adequate amount of water to irrigate all the land in

[Dr. K. L. Rao]

Rajasthan in Rabi period. They require some impounding even for irrigating the 1·10 lakh completely at present the intensity will be low. It depends on the run of the water; in a good year, it may be there, but in a bad year, we cannot supply adequate water without impounding.

The whole function of the Pong Dam is to provide storage, to enable land in Rajasthan and Punjab to be irrigated. That is the main function of the project. In any case, whether we do it this year or next year or afterwards, there will be a certain period of six months when water cannot be given for all the land. The water has to be impounded first 1·25 lakh acres have been set apart for the oustees of the Pong dam. In regard to the 1·10 lakh acres in the Anupgarh branch, very good lands are there towards the end. Similarly in the next branch Pugal it is called, they have got very good land. The water to this area can probably be taken in the months of December or January. But if there is no water in the Pong Dam, you cannot reach that area, or anywhere. Even in the Anupgarh branch, we cannot have it, whether it is 1·10 lakh acres or 2 lakh acres or 4 lakh acres. Unless the water is impounded at least partially water supply cannot be given. So, this problem will remain.

I quite appreciate the anxiety of the hon. member of the Government of Himachal Pradesh and the Chief Minister who has very often represented this to us, correctly too, about the sufferings of these people. These people do not belong to Himachal Pradesh alone, they belong to India. They are our nationals and it is our responsibility to see that their suffering is reduced to the minimum there is no question about that. I have submitted in the statement every care will be taken, money will be provided, whether it is for a temporary arrangement and so on whatever money is required, we are fully prepared to do it because they are our citizens, our people, there is no question of their being neglected. If the hon. Member has any suggestions to make as to how to reduce the suffering of those people, we are fully prepared to consider them.

There are two alternatives: either to close the two tunnels which we have not yet done and store up the water and use it for irrigation purposes in this area to produce more food, or to keep these open for a year, or 1½ years till next July and allow things to take their own course.

In this connection we must remember one thing. In Pakistan, the Mangla dam was started at about the same time as the Pong Dam in 1959-60, with about the same capacity and the same cost. That project was completed in 1967 6 years ago, and they are enjoying the benefits of it.

SHRI VIKRAM MAHAJAN (Kangra)
Because of your inefficiency.

DR. K. L. RAO : Quite agree. What I am trying to say is that in this case, whatever may be the reasons, it may be anything; I quite accept it; the solid fact remains that while the Jhelum water is being utilised by Pakistan we are allowing the Beas water to go waste even after the lapse of 13 years.

Therefore, it is our duty to see that the waters are put to maximum use as early as possible. I do not say that this year, the next year or the year after we shall be able to do it. But that is our national duty. There are two things; this is the first national duty. The other national duty is that we should rehabilitate the affected people with the least amount of suffering. Between these two, we will have to find out a way, and we shall be glad to have some constructive suggestions from the hon. Member.

The other point that the hon. Member made is with regard to the land to be allotted in the Rajasthan canal area for oustees. Whenever the land allotted, is located there will be some difficulty. For the rabi crop, there will be no water. All the same I will request the Rajasthan Government whether they can allot additional land in areas where the water is flowing in canals. But I do not think there will be any benefit coming from that.

MR. SPEAKER : Out of the total time given for this subject, after allowing the four or five Members to speak, the Minister will get 10 minutes. So, please adjust yourself accordingly.

DR. K. L. RAO : Yes, Sir. I understand that the area in Rajasthan, proposed for allotment to oustees is a good area. I will talk to the Rajasthan Government on the suggestion made by him.

श्री प्रताप सिंह (शिमला) : अध्यक्ष महोदय, मेरे से पहले जिन्होंने प्रस्ताव पेश किया उन्होंने इस बात को साफ साफ जाहिर किया कि हमें राजस्थान से कोई झगड़ा नहीं है और मुझे भी व्यक्तिगत रूप से नहीं है। झगड़ा यह है कि मंत्री महोदय, इस बात को मानते हैं कि इस बांध को बनाते हुए 13 साल गुजर चुके हैं और इतने समय में लोगों को बसाने के प्रबन्ध में देरी हुई है, मैं जानना चाहता हूँ कि इस का कौन जिम्मेदार है? जब कि हिमाचल प्रदेश की सरकार इस बात की कोशिश में रही और सदन में हम लोग इस बात पर ध्यान दिलाते रहे कि वहाँ से जो लोग हटाये जायेंगे उन को जल्दी से जल्दी ठीक ढंग से बसाया जाय। 1970 में मीटिंग हुई, उससे पहले 1966 में मीटिंग हुई मुख्य मंत्रियों की और चीफ सेक्रेटरीज की और उस में यह तय हुआ कि 2.25 लाख एकड़ जमीन राजस्थान सरकार देगी जिस पर विस्थापित होने वाले लोगों को बसाया जायगा। लेकिन जब बसाने की बात आई लगातार उस में कोई न कोई अड़चन राजस्थान सरकार की तरफ से पेश की गयी जिस की ओर बराबर सरकार का ध्यान हम लोग दिलाते रहे। लेकिन वह मामला वहीं का वहीं पड़ा हुआ है। आज 13 साल बाद पानी भरने की तैयारी है और हजारों लोग वहाँ

से उजड़ जायेंगे, उस के लिये आज सरकार को चिन्ता हुई। लेकिन इस से पहले सरकार को कोई चिन्ता नहीं हुई कि उन लोगों को जल्दी से जल्दी बसाया जाय। तो जहाँ आप 13 साल रुक सकते हैं वहाँ अगर उस को एक साल और रोक दिया जाय और लोगों को ठीक ढंग से बसा दिया जाय तो कोई आपत्ति नहीं होनी चाहिये। इन लोगों को ठीक ढंग से बसाने के मार्ग में अगर किसी तरफ से कोई कमी या खामी है तो मैं चाहूँगा कि केन्द्रीय सरकार उन लोगों को रीहैबिलिटेट करने का काम अपने हाथ में ले ले और उन को ठीक ढंग से बसाये।

दूसरी बात यह है कि जितने भी लोग हैं सारे के सारे किसान हैं, कोई शहरी आदमी नहीं हैं। वे लोग छोटे, गरीब और हरिजन तथा पिछड़े हुए लोग हैं। क्या उन को आप इस तरह से पानी भरने के बाद कहेंगे कि जहाँ चाहों चले जाओ? अभी मंत्री जो ने स्वयं स्वीकार किया है कि उन लोगों को बसायेंगे तो जहाँ इस काम में 13 साल का समय बीत गया वहाँ कुछ दिन और इंतजार करें, पहले उन लोगों को बसा लें तब पानी भरें।

क्या मंत्री जी इस बात का अवश्वासन दिलायेंगे कि ढाई टनल उस वक्त तक बन्द नहीं होंगे जब तक कि उन को पूरी तरह नहीं बसा देंगे? इस के साथ ही अभी तक आप ने बहुत से लोगों को मुआवजा भी नहीं दिया है। अब अगर अगर कम्पेनसेशन के पानी भर देंगे तो उस का जिम्मेदार कौन होगा? यह इल्लिगल प्रोसीजर जो होगी उस की जिम्मेदारी किस पर होगी, इस का भी मंत्री

श्री प्रताप सिंह

जी जबाब दे। अन्त में मैं मंत्री जी से यह आश्वासन चाहूंगा कि जब तक आप लोगों को पूरी तरह बसा नहीं देंगे और 2.25 लाख एकड़ भूमि उन के लिये अवेलेबिल नहीं करेंगे उस वक्त तक आप बंध में पानी भरने में और इरीगेट करने में जल्दी नहीं करेंगे ?

[DR. K. L. RAO: The position is that out of Rs.28 crores, about Rs.25 crores had been paid and the balance of Rs. 3 crores will be paid straightaway. We hope that in the next two months it will be possible to complete the acquisition of the entire area and money is ready and it will be given straight-way.

The hon. Member suggests : why not the Central Government take over rehabilitation? I concede rehabilitation is a very difficult problem, especially because these people are living in a beautiful area like Himachal Pradesh with its beautiful valleys. It is difficult for them to go to some other area which is desert-like. But a situation has been imposed on us. Rehabilitation is not a matter for the Centre or the State alone; the Centre should be prepared to give financial and other assistance, but rehabilitation has essentially to be done with the complete co-operation and authority of the Himachal Government. The Chief Minister of that State has been calling our attention to this problem and he had written some letters about the sufferings of the people and this matter has got to be further discussed.

SHRI VIKRAM MAHAJAN : Nowhere have the farmers received such a raw deal as at the hands of the Ministry of Irrigation; never have they been treated so shabbily and the misery which they are going to face is going to be one of the greatest tragedies of the 20th century. I am constrained to say that the shabby treatment leaves one with the impression that this Ministry must be deliberately trying to

sabotage the entire programme of the Prime Minister to alleviate the conditions of the weaker sections, especially the farmer in this country. For three consecutive years, right from 1970, the hon. Minister has been giving assurances in this House and in the Rajya Sabha that he would not impound water in this dam till the oustees were rehabilitated. An assurance was given here on 11-3-1970. Did the Minister not realise at that time that he could not implement his assurance? I should like to quote from his assurance in Rajya Sabha : "It is true that we said, I still repeat, that we will not allow any impounding of water in the reservoir till the oustees are settled properly. I want to submit that we are not going to impound water till all these people are taken care of."

How can he go back on these assurances? He has given a solemn assurance in this House and in the Rajya Sabha. Will he reiterate the assurance he gave on two occasions?

If not, what is the remedy of the Members to see that those assurances are implemented? This is the second question, a question to you, Mr. Speaker. Thirdly, will you appoint a parliamentary committee to go into the entire question to see why this assurance is not implemented? That is one aspect of the question.

Is it not a fact that he assured the H.P. Government that 2.25 lakhs would be available and till that land was given to the oustees, water would not be impounded? Will he stick to that assurance and ask the Rajasthan Government to first provide for the settlement of 7,000 in Rajasthan? Then, the balance 7,000 may be resettled in Rajasthan first. Will Rajasthan provide the land? We want a clarification on this point also.

We want clarifications on this also. We want an assurance from the hon. Minister that he will stick to what he said in the other House. I have asked a specific question. Let him give his specific answer if possible.

DR. K.L. RAO: The hon. Member just now referred to my assurance given earlier. That assurance still stands. At the same time, there should be cooperation forthcoming from the other side as well. We have, for example, sent about 1,000 people last month. (*Interruptions*) but barely 280 people turned up.

SHRI VIKRAM MAHAJAN : Sir, the hon. Minister is not giving the correct figure only 300 people have been sent.

DR. K.L. RAO : Even today we are anxious that oustees must be settled properly. There is no question about that. It cannot be done by one side alone. Their should be cooperation from all sides. This assurance, for example, was given in 1970. It was expected that that dam would be completed earlier. But, that was not possible. Negotiations were still going on with the Himachal Pradesh Government. Only recently an agreement was arrived at and we are trying to do our best. What I want to submit here is that there should be some constructive cooperation between various sectors. We are trying to develop the country and, therefore, we are fully prepared to do that even today. We do not want to impound the water, thereby making the people suffer. If it is the will of the House to impound water, we may do it. How is it possible for us without the cooperation of the hon. Member? The hon. Member is very good to me outside. But, it is not so when he is in the House. As I submitted earlier, if we get the cooperation of all the people, we will be able to solve this problem. Rajasthan Government has to give them the lands, And there is no doubt about it. At any moment they may have to give them the lands.

SHRI VIKRAM MAHAJAN : Sir, he has given an assurance to this House. On the basis of that I have put a specific question. He must answer that question specifically.

अध्यक्ष महोदय : आप दोनों खड़े हो जाते हैं, इस तरह झगड़ने से तो मसला हल नहीं होगा में तो यही कहूंगा कि आप दोनों का

झगड़ा इस तरह से हल हो सकता है कि आप सारा पानी पंजाब को दे दें, हम पंजाब में सब को बसा लेंगे।

SHRI VIKRAM MAHAJAN: Mr. Speaker, Sir, I am asking him a specific question I want a specific reply from him. I can only ask the hon. Minister to reply to my question. But, he has not replied.

MR. SPEAKER : Dr. Rao, he has asked a specific question about the reiteration of the assurance.

DR. K.L. RAO : As I submitted earlier, regarding the rehabilitation of these people, cooperation from the other side also must come forth.

SHRI VIKRAM MAHAJAN : I have quoted that assurance and I requested him to give me a clarification. The assurance was given in the House. What is the value of such an assurance ?

MR. SPEAKER : You will kindly sit down. The Minister has just now replied to that.

SHRI VIKRAM MAHAJAN : He has specifically stated that all the people would be taken care of and that all of them would be rehabilitated. This is what he had said in the House. He cannot wriggle out of that.

PROF. NARAIN CHAND PARASHAR (Hamirpur) : In no other part of the country has there been such a devastation as in Himachal Pradesh. When Bhakra was constructed Hamirpur and Bilaspur were submerged; when Pong Dam is being constructed, it is the turn of Dehra Tehsil of Kangra District. Pong Dam has caused devastation of lands belonging to these people. Whatever Dr. Rao may talk about the people of this area, the sons of Himachal Pradesh are busy in defending their motherland. They are ready to shed the last drop of their blood for the defence of the country. And their families are treated most shabbily by the Ministry of Irrigation and Power.

[Prof. Narain Chand Parashar]

Sir, may I bring to your notice the assurance given by the hon. Minister, Dr. K.L. Rao, on 11th March, 1970 in answer to Short Notice Question No. 4? Shri Hem Raj asked :

"If the time-schedule is adhered to and all these families are ousted, will Government ensure that until and unless all the rehabilitation facilities are provided there, these families will not be ousted."—

—I repeat, "will not be ousted"—
"from that place and the work on the Pong Dam will be stopped."

—I repeat, "will be stopped"—
"till that time?"

The Minister replied :

"As I expect, about 12,000 families will be ousted by June 1971 if the present programme of construction is followed. I can assure the hon. member that unless these oustees are properly settled and their convenience is attended to, we shall not allow any impounding of water"

—I emphasize, "shall not allow any impounding of water"—

"in the Beas river and any construction of the dam across the river."

Here are thousands of families which are weeping. We are happy that in drought-stricken areas new railway lines are sanctioned. But in this beautiful valley, 30 KM of railway lines have been submerged. Army communication lines and defence communication lines have been submerged. On the one hand we have a Minister like Dr. Karan Singh who sent in his resignation when an Avro crashed. On the other hand, we have here a Minister who is not ready to listen to the cries, the wails and the sufferings of the people of this beautiful valley. May I ask you, Sir, to examine this question as a breach of privilege of this House, as he is backing out of a solemn assurance

given here? This is not impounding of water; this is impounding of the tears of these people that will wet the pages of history to come. And, Dr. Rao will be personally responsible for it. His army of engineers, officials and contractors have fattened themselves on the spoils of this dam, but they have dug the grave of the people of Himachal Pradesh. The promise given by him to this House is not being kept. He is backing out of that assurance and saying now that 7,000 families will be rehabilitated by the H.P. Government. At no time Dr. Parmar, our leader, has said that he will rehabilitate 7,000 families. I challenge Dr. Rao to produce a single line to prove that Dr. Parmar or any one of the hon. members from H.P. in this House or in Rajya Sabha said that 7,000 families will be resettled in H.P. At no time was it ever said All that Dr. Parmar said is, after the rehabilitation on 2.25 acres of land in Rajasthan is completed, Himachal Pradesh would look to those who were not settled. Now we are being asked to see that we rehabilitate 7,000 families. All for what? To cover up the inefficiency of his officers and engineers and their acts of great destruction and devastation towards the people of H.P. We demand that either the Minister should stick to his words or he should see to it that the people do not suffer any longer. The people of H.P. have committed no crime, burnt no trains, stopped no engineer on work, attacked no Government officer. The Dogra Regiment and the people of Kangra have sacrificed their lives for the defence of the country. Our people have willingly sacrificed for turning the desert of Rajasthan into a blooming valley. But this is the shabby treatment we have received at the hands of this Ministry. It should be rectified and the people who are living there, the widows, the sick and the others, should not be allowed to become victims of the inefficiency of the officers of the ministry.

SHRI BALGOVIND VERMA Sir,
the hon. Member..

PROF. NARAIN CHAND PARASHAR : We want a reply from Dr. Rao because he gave the assurance.

SHRI VIKRAM MAHAJAN : When Dr. K.L. Rao is present here, he should reply to this.

MR. SPEAKER : He has replied to three questions. The Deputy Minister wants to reply to one question at least.

PROF. NARAIN CHAND PARASHAR : I have specifically quoted the words of Dr. K.L. Rao. So, I want the reply to come from the beautiful lips of Dr. Rao.

SHRI BALGOVIND VERMA : We are not going back on our words.

SHRI VIKRAM MAHAJAN : We are not going to listen to him.

MR. SPEAKER : His lips are also equally beautiful.

DR. K.L. RAO : Except that my hon. colleague wanted to reply, there is no other reason for his trying to give a reply. Here I want to submit that we want all round co-operation to solve this problem. Even now we stick to the assurance that we would like to settle down all the oustees before we impound the water. We are not impounding the water now, but will be doing so only after some time. We want the oustees to be settled. We have a programme of settling 2,500 people every month and we hope in another two or three months we will be able to complete the work of rehabilitation. But there should be co-operation from the people. (interruptions) I have already submitted that the land is there and people would be resettled.

We stick to whatever we have said before. We want to settle the oustees before regular impounding is started. But for that we require the utmost co-operation from the Himachal Pradesh Government from the hon. Members of this House and the people of that area in order to achieve

the noble purpose of adding one million tonnes of foodgrains to this very heavily deficit country of ours.

12.42 hrs.

RE. CLOSURE OF ALIGARH MUSLIM UNIVERSITY

SHRI S.A. SHAMIM (Srinagar) : Sir, I had given notice of a Calling Attention on the closure of the Aligarh Muslim University. I understand that it has not been admitted. While the UP Assembly is going to discuss the closure of the Aligarh Muslim University, we are deprived of an opportunity to do so. How do we discuss the Aligarh Muslim University ?

अध्यक्ष महोदय : इसको मैं देखूंगा

SHRI S.A. SHAMIM : Sir, you have admitted a Calling Attention on the stopping of trains due to shortage of coal. When the UP Assembly is going to discuss the Aligarh Muslim University, how can you deprive Parliament from discussing it, especially when it is a Central University ? The entire Muslim community is agitated over this very serious issue. The Government of India can afford to ignore the Muslims, but you should not ignore the Muslims. If you do not allow the Calling Attention, how and when do I raise it ?

MR. SPEAKER : The Minister referred to it twice already. In the reply to the Demands for Grants on the Education Ministry this point was replied to only two or three days back.

SHRI S.A. SHAMIM : I am referring to the closure of the Aligarh University for an indefinite period. It is said that the law and order situation has deteriorated. Several vested interests are active and it is being exploited by a political party. So, it is in the best interests of the ruling party that we have a discussion on the floor of the House. When will this House have an opportunity to discuss this vital problem.

MR. SPEAKER : I have noted your sentiments.

SHRI S.A. SHAMIM : Will you allow it ?

MR. SPEAKER : I will look into it. I do not commit myself. You had an opportunity to discuss it in the Demands of the Education Ministry only two days back.

SHRI S. M. BANERJEE (Kanpur) : When the Minister was replying to the Demands, some of us put the question to him. But that was regarding the minority character of the University. The question of closure has not been discussed at all.

12.45 hrs.

RE. SITUATION IN SIKKIM

SHRI SAMAR GUHA (Contai) : Sir, About Sikkim..

MR. SPEAKER : The Minister is making a statement today, just now.

SHRI SAMR GUHA : Then, I do not press for an adjournment motion. You allow us to put some questions..
(Interruptions)

MR. SPEAKER : The rule is that when the Minister makes a statement, no questions are allowed after it. I am not going to depart from the rules.

SHRI S. M. BANERJEE (Kanpur) : You kindly allow us. We support the people's movement for freedom..(Interruptions)

SHRI SAMAR MUKHERJEE (Howrah) : I had given a Call Attention Notice on Sikkim..

MR. SPEAKER : The Minister has already intimated to me that he is going to make a statement today.

SHRI S. M. BANERJEE : Sir, we should be allowed to ask some questions..

SHRI SAMAR GUHA : We are getting telegrams from Sikkim..

MR. SPEAKER : Let the Minister first make the statement. I will consider it after that. No questions today. But I will look into it as to how to find out an opportunity. I cannot violate the rules. When the Minister makes a statement, it is not followed by questions.

SHRI SAMAR GUHA : Every hour developments are taking place.

MR. SPEAKER : I do agree it is an important matter.

SHRI S.M. BANERJEE : The people are fighting for freedom..

MR. SPEAKER : Papers to be laid.

12.47 hrs.

PAPERS LAID ON THE TABLE
ANNUAL REPORT OF POST GRADUATE
INSTITUTE OF MEDICAL EDUCATION AND
RESEARCH, CHANDIGARH

THE DEPUTY MINISTER IN THE
MINISTRY OF HEALTH AND FAMILY
PLANNING (SHRI KONDAJJI
BASAPPA) : On behalf of Shri R.K.
Khadilkar.

I beg to lay on the Table a copy of the Annual Report (Hindi and English versions) of the Post Graduate Institute of Medical Education and Research, Chandigarh, for the year 1971-72, under section 19 of the Post Graduate Institute of Medical Education and Research, Chandigarh, Act, 1966.

COMMITTEE ON PUBLIC UNDERTAKINGS

TWENTY-NINTH REPORT

DR. KAILAS (Bombay South): I beg to present the Twenty-ninth Report of the

Committee on Public Undertakings regarding action taken by Government on the recommendations contained in their twentieth Report on Shipping Corporation of India, Limited.

12.48½ hrs.

STATEMENT RE. SITUATION IN SIKKIM

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH): After the general elections in Sikkim recently, the tension had aggravated as there were charges of malpractices, corruption and rigging up of elections of the part of Sikkim Darbar.

As a result, polarization developed between the Maharaja of Sikkim on the one side and the popularly elected political leader and the masses on the other. The Darbar took stern measures and arrested the President of the Sikkim Janta Congress, Shri K.C. Pradhan on 27th March. Then followed the excesses of the police which resulted in a large number of casualties and mass upsurge against the Sikkim Darbar.

Thereafter there were large scale demonstrations all over Sikkim. Twenty thousand demonstrators collected in Gangtok demanding democratic rights and demonstrating against the Chogyal regime. Police stations of several important towns such as Rangpo, Rhenock, Melli, Namachi, Geyzing and Singtam were also taken over by the popular leaders and the population under their guidance.

As the situation in Sikkim went out of Chogyal's control despite strong measures adopted by the Sikkim Darbar, the Chogyal first made a formal request to the Government of India for its police stations in Rangpo, Rhenock and Melli to be manned by the Indian Army and then to entrust the responsibility for law and order in Gangtok itself to the Indian Army. Our acceptance of these requests was widely acclaimed.

[Shri Surendra Pal Singh]

med by the masses of Sikkim, Finally with the complete break down of law and order all over Sikkim, the Chogyal wrote to use on the 8th of April requesting us to take over the Administration of the whole of Sikkim. He also asked us for the services of a senior officer of the Government of India to be appointed as Head of Sikkim's Administration. Simultaneously, there were repeated demands from the popular leaders and the large masses of Sikkim for the Government of India to take over the Administration of the State. In response, therefore, to the request of the Chogyal and the demand of the people of Sikkim, the Government of India have taken over the Administration of the State and have also deputed a senior Officer to function as Head of Sikkim's Administration.

The popular and elected leaders of all the parties in Sikkim had also asked us to ensure the stability, security and integrity of Sikkim. They have welcomed our acceptance of the responsibility of maintaining law and order and running the Administration of Sikkim.

We will now make every effort to ensure that the interests of the people of Sikkim are secured and safeguarded and that Sikkim marches on the road to political stability and economic prosperity.

SHRI S. M. BENERJEE (Kanpur) : Mr. Bajpai, the Indian Political Officer, who has taken over the administration, has said this. This is what the newspaper report says :

"We intend to assist the Durbar also for a long-term solution of other problems...."

MR. SPEAKER : Not now. If you want a debate, we can consider it.

SHRI S. M. BENERJEE: The people have revolted against the Durbar. In the name of democracy, in the name of

socialism to which we are committed I would request them not to help the Durbar but to help the people to have their one-man-one vote Constitution.

SHRI SAMAR GUHA (Contai) : This issue is very delicate. It has taken such a turn that the Chogyal and the people of Sikkim have requested the Government of India to take over the administration. The situation is changing from hour to hour. Sikkim is placed in a strategic area. We have got our commitment. We should, therefore, get some opportunity to speak on that.

MR. SPEAKER: I have no objection. We shall have some time.

डा० लक्ष्मीनारायण पांडेय (मंडसौर): अध्यक्ष महोदय, भारत सरकार ने सिक्किम में जो कुछ किया है, उस के औचित्य को प्रतिपादित करने के लिए यहां पर चर्चा होनी चाहिए।

MR. SPEAKER : I quite agree.

12.52 hrs.

DELHI SALES TAX BILL*

THE MINISTER OF STATE IN THE MINISTRY OF FINANCE (SHRI K.R. GANESH) : I beg to move for leave to introduce a Bill to consolidate and amend the law relating to the levy of tax on sale of goods in the Union territory of Delhi.

MR. SPEAKER : The question is :

"That leave be granted to introduce a Bill to consolidate and amend law relating to the levy of tax on sale of goods in the Union territory of Delhi."

The motion was adopted.

SHRI K. R. GANESH : Sir, I introduce the Bill.

*Published in Gazette of India extraordinary, part II, section 2, Dated 9-4-73.

†Introduced with the recommendation of the President.

DEMANDS* FOR GRANTS 1973-74-Contd.

MINISTRY OF COMMERCE

MR. SPEAKER : The House will now take up discussion and voting on Demand Nos. 10 to 13 relating to the Ministry of Commerce for which/six hours have been allotted some marginal adjustments will be made.

Hon. members present in the House who are desirous of moving their cut motions may send slips to the Table within 15 minutes indicating the serial numbers of the cut motions they would like to move, giving also their preference, if any.

DEMAND NO. 10—DEPARTMENT OF FOREIGN TRADE

MR. SPEAKER : Motion moved :

"That a sum not exceeding 4,13,66,000 on Revenue Account be granted to the President *to complete* the sum necessary to defray the charges which will come in course of payment during the year ending the 31st day of March, 1974, in respect of 'Department of Foreign Trade'."

DEMAND NO. 11.—FOREIGN TRADE

MR. SPEAKER : Motion moved :

"That a sum not exceeding Rs. 116,54,98,000 on Revenue Account and not exceeding Rs. 35,00,00,000 on Capital Account be granted to the President *to complete* the sum necessary to defray the charges which will come in course of payment during the year ending the 31st day of March, 1974, in respect of 'Foreign Trade'."

DEMAND NO. 12.—EXPORT ORIENTED INDUSTRIES

MR. SPEAKER : Motion moved:

"That a sum not exceeding Rs. 7,26,20,000 on Revenue Account and not exceeding Rs. 6,78,03,000 on Capital

Account be granted to the President *to complete* the sum necessary to defray the charges which will come in course of payment during the year ending the 31st day of March, 1974, in respect of 'Export Oriented Industries'."

DEMAND NO. 13—DEPARTMENT OF INTERNAL TRADE

MR. SPEAKER : Motion moved :

"That a sum not exceeding Rs. 13,58,09,000 on Revenue Account and not exceeding Rs. 7,04,33,000 on Capital Account be granted to the President *to complete* the sum necessary to defray the charges which will come in course of payment during the year ending the 31st day of March, 1974, in respect of 'Department of Internal Trade'."

The hon. Members may now move the cut motions.

DR. LAXMINARAIN PANDEYA
(Mandsaur): I beg to move :

"That the demand under the head Department of Foreign Trade be reduced by Rs. 100."

[Failure to export many Indian products despite possibilities of their export with a view to earning foreign exchange (8).]

"That the demand under the head Department of Foreign Trade be reduced by Rs. 100."

[Continuance of import of a number of commodities despite ban on their import (9).]

"That the demand under the head Department of Foreign Trade be reduced by Rs. 100."

[Failure to take effective steps to promote export trade (10).]

"That the demand under the head Department of Foreign Trade be reduced by Rs. 100."

*Moved with the recommendation of the President.

[Dr. Laxmi Narayan Pandeya]

[Failure to remove difficulties faced by small traders in their avocation created as a result of huge profit being taken by S.T.C. in imported commodities (11).]

"That the demand under the head Department of Foreign Trade be reduced by Rs. 100."

[Failure to effect a balance between import and export trade of India. (12).]

"That the demand under the head Department of Foreign Trade be reduced by Rs. 100."

[Failure to remove difficulties faced by exporters (13).]

SHRI C. JANARDHANAN (Trichur) :
I beg to move :

"That the demand under the head Department of Foreign Trade be reduced Re. 1."

[Failure to nationalise the entire Import and Export Trade. (14).]

"That the demand under the head Department of Foreign Trade be reduced Re. 1."

Failure to nationalise the export trade of cashew. (15).]

"That the demand under the head Department of Foreign Trade be reduced Re. 1."

[Failure to nationalise the foreign owned Rubber and Tea plantations in India. (16).]

"That the demand under the head Export Oriented Industries be reduced by Rs. 100."

[Failure in giving more assistance to S. T. C. and Rubber Board to purchase the entire stock of rubber lying with the rubber growers. (17).]

"That the demand under the head Export Oriented Industries be reduced by Rs. 100."

[Failure to provide more shipping facilities to Marine Products Exporters. (18).]

"That the demand under the head Export Oriented Industries be reduced by Rs. 100."

[Failure to provide more deep sea fishing vessels. (19).]

"That the demand under the head Export Oriented Industries be reduced by Rs. 100."

[Failure to give adequate assistance for Kerala Cashew Corporation to take over more cashew factories. (20)]

"That the demand under the head Export Oriented Industries be reduced by Rs. 100."

[Failure to export more regional languages motion Pictures. (21)]

"That the demand under the head Export Oriented Industries be reduced by Rs. 100."

[Failure to stop the import of rubber. (22)]

"That the demand under the head Export Oriented Industries be reduced by Rs. 100."

[Failure to stop the import of arecanut. (23)]

"That the demand under the head Department of Internal Trade be reduced by Rs. 100."

[Failure to give a new orientation to the Khadi and Village Industries. (24)]

MR. SPEAKER : the cut motions are also before the House.

SHRI SOMNATH CHATTERJEE (Burdwan) : Sir, I rise to oppose the Demands for Grants of the Ministry of Commerce. The Report of this Ministry for the Year 1972-73, I am sorry to say, does not give the real picture that is prevailing now in trade and commerce in this country, and fails to take notice of the various problems that

are confronting the trade and commerce. The record of this Ministry for the period under review has been of poor performance, of unattained targets and of scandals in which the rag scandal has carved out a place of its own. Till today we do not know what steps have been taken with regard to the completion of the inquiry by CBI ; I am told that the CBI has been looking into the rag scandal. But till to-day we have not been informed what steps have been taken or whether the report has been given. We want an assurance from the hon. Minister that stern action would be taken against those persons who were found responsible.

The trade in this country has been suffering for a long time due to the lack of a clear policy. Our export policy has really been decided by *ad hoc* decisions which have been taken from time to time and which have failed to take note of the targets and the real causes that are confronting this part of the economy of the country.

Wide publicity has been given that during the period April to December 1972 there have been rapid strides by way of increase in our exports. It is claimed that exports have gone up during this period by 23.1 per cent as compared to the previous year's corresponding period. But, you will find that this is somewhat a misleading picture that is sought to be given. We certainly wish to give credit where it is really due. But we should not fail to take note of the real state of affairs which is now prevailing. You will find that what has been claimed has not really been achieved. India's exports, as a percentage of world exports, has declined from 2.2 per cent to 0.6 per cent during the years 1951-1971. While other developing countries are making progress, it is unfortunate that we are lagging behind. This rise of 23 per cent during this period, April to December 1972, though appears to be very impressive, has been achieved, what can be described, more by accident than by design, because this increase has been

effected more by rise in prices than by any increase in the quantum of exports. Half of the increase is due to the straight grants to Bangla Desh and also the *de facto* devaluation of the rupee following the decision of the British Government to float the pound and our decision to accept or to allow the rupee also to float along with the pound. It has also been found that there has been a windfall by reason of the rise in prices of hides and skins in the world market and the temporary disruption of the jute industry in Bangla Desh.

If you will be good enough to look at the Annual Report of this Ministry, at page 21, it says :

"This impressive growth in exports has been contributed by several commodities, principal amongst which are : cotton textiles, leather and leather goods, fish and marine products, tobacco, cereals and cereal preparations. A slackening tendency in the export of the following commodities has, however, been in evidence : jute manufactures engineering goods, chemicals and allied products and iron ore. The factors responsible for the declining trend in the case of these commodities require attention".

You will find that the report indicates that the shortfalls have been there in our traditional items of export, the main foreign-exchange earner items like jute manufactures, engineering, goods etc. But no solution is put forward and it is not indicated as to what is the policy that is being adopted by this Government to face these difficulties and to boost up the exports in these goods.

13 hrs.

If you are pleased to look at the Economic Survey which has been published by the Government of India for the year 1972-73, page 74, para 239, it states :

"But, in the absence of commodity-wise details of exports beyond the

[Shri Somnath Chatterjee]

month of August it is difficult to identify all the factors underlying the unusually rapid growth of exports over this period. Still, there is little doubt that it was induced more by rising demand abroad for Indian goods than by faster growth of domestic output and real national product."

Para 240 says :

"Provisional data relating to trade with Bangladesh have been compiled by the D. G. C. I & S for the period April to November, 1972. These show Rs. 51.6 crores worth of exports to Bangla Desh. If these exports financed mostly through loans and grants are excluded the rate of growth of exports during the first 8 months of 1972-73 effective has to be 18.0 per cent."

Although it has been claimed that there has been an increase of 23 per cent, the Economic Survey published by the Government itself belies that. The real growth will not be more than 18 per cent. So far as the planned target is concerned it has provided for an increase of 7 per cent annual growth. During the first 3 years of the fourth plan the average rate growth was of the order of 5.8 per cent. In certain spheres there are larger exports but in far more important items we are losing our markets. For example, this is so in jute manufacture. There are items like sugar, coffee, spices, iron-ore, manganese ore etc. in which we are losing our markets. We feel that for the export policy to be effective it should be linked with a realistic approach and proper assessment of exportable surpluses available in our country. The production base should be augmented. Proper steps should be taken for generating the required quota of exportable surpluses. That is this should be an integral part of production planning itself. Unfortunately I do not find any awareness of this at least from the report published or from policy decisions taken so far. How does the Government

propose to reach these export targets. How does the Government propose to coordinate these activities, the entire production planning in this country? How is this to be linked with exports? What are they going to do to create exportable surpluses? This is a very important aspect of the matter for developing our export trade. This has not been given its due importance. The prospects are bleak. There is the phenomenon of stagnant economy of the country because of the failure in the field of industrial production. Severe shortages of power are there. This also is bound to cause less and less industrial production and industrial activity in the country. There will necessarily be less and less of exportable surplus.

In this connection, I would like to refer to page 68 of the report which says :

"In the last few years the growth of India's exports has been hampered by adverse factors both internal and external such as shortages of certain essential raw materials (steel, non-ferrous metals, industrial fibres, etc.) sluggish trend in industrial production rising cost of production restrictive trade policies pursued by certain developed industries, international monetary crisis, recession in world steel industry, inadequate shipping space and increasing freight rate and more recently Indo Pak hostilities which exerted unusual strain on Indian economy during 1971-72."

Causes are being referred to ; but what is the effort made what is the Policy that is being adopted to counter act these factors? What is the new orientation given to the export policy? How can these difficulties be avoided? These have not been given the attention that they deserved. What is necessary is that there should be a Continuous process of exploration of foreign markets, generation of export surpluses, stepping up of export production, creation of

of export oriented industries, supply of raw materials at competitive prices, and if necessary, compulsory export also, in respect of important items. In regard to jute there are various difficulties. Export duty on jute is bound to affect the export of jute goods. In 1972-73 jute exports fell by only Rs. 50 crores.

Intense competition is there because of the synthetics that have come into the market, and also from Bangladesh. How will increase in export duty of jute goods help in large exports being made? This should be looked into. The export during November 1972 declined by 17 per cent. Carpet backing is one of the most important item of exports. There we find a decline of 36 per cent.

I would like the hon. Minister to spell out what is the policy that is being adopted by Government for the purpose of increasing our export and getting rid of this difficulty. It is necessary that the price of jute has to be made competitive and there has to be modernisation of the industry. The export duty has to be kept within a reasonable limit.

The other aspect which I wish to emphasise is that we must see that there is greater and greater production of tea. Instead of deliberate efforts being made in that direction, we find even some of the jute mills which had been functioning are either not functioning or closed down. For example, in some of them the workers are on strike. For the last three months from January 29, the workers of the J.K. Jute Mills, Kanpur, have been on strike. No attempt has been made by Government to see that this dispute is settled and the indifferent attitude of Government has really encouraged the management to take a vindictive attitude towards the workers. I request the hon. Minister to intervene in this matter because it is essential that there should be greater and greater production of jute in the country.

What is needed so far as jute manufacture is concerned is cost consciousness at the manufacturing level, modernisation of

production, professional management etc. If necessary, the Jute Corporation should take up upon itself the procurement of all available quantities of jute at a remunerative price without allowing the private trader or the mills to corner supplies or please the traders. In West Bengal, so far as the National Jute Mill Company is concerned—it is the biggest jute mill in the country—it is lying closed. I would like to know what the hon. Minister is proposing to do either to nationalise it or take over its management.

Then I come to tea which is one of the most important foreign exchange earners of the country. But unfortunately, every year the financial position of tea gardens is going down on account of growing competition in the international market and the incapability of the Indian tea industry to make prices competitive. Over and above this, the new zonal system which has been adopted for imposition of excise duty is causing great concern and is affecting the smaller gardens particularly. There are litigations pending. I do not want the hon. Minister to go into the merits of it. But I would ask whether Government feel that the imposition of this excise duty on a zonal basis without there being a rational classification is helping in the greater production of tea or not. If he is satisfied that this has not resulted in larger production of tea, he should scrap it—this unreal and unrealistic rate of excise duty imposed.

It is also essential that the sale of tea in foreign markets should be under the control of the public sector. Why should the most important part of the tea exports, that is, the marketing of tea, should be left in the hands of the foreign monopolists, the British monopoly concerns. This matter has been raised every year from time to time. What is the rational explanation that tea, which is one of our biggest foreign exchange earner, should in the matter of marketing be left in the hands of foreign monopolies in England, who have been doing it for ages now?

[Shri Somnath Chatterjee]

Why should we not enter this field ? If necessary, we want the public sector to intervene immediately and take over the marketing of tea.

The other important aspect in regard to tea concerns is the sick tea gardens. Undoubtedly, some of these gardens are now in difficulty. We want larger tea production. We want that the unemployment caused by the closing down of the sick gardens should be stopped and these persons should be given employment. I would request the hon. Minister to look into this matter and tell the country what Government are proposing to do with regard to the opening of the sick tea gardens ? Are you going to take them over or not or are you going to help them financially or not ? What is the policy of the Government ? This is a very important aspect, and I request the hon. Minister to give his attention to this matter.

Next is the question of engineering goods. The export has been lower during the period under review. It has come down from Rs. 200 crores to Rs. 150 crores. During 1971-72, the export was to the extent of Rs. 126 crores against the target of Rs. 165 crores. One of the main reasons for this drop in the export, as has been stated, is the increase in the home demand for engineering goods where unit prices are higher than the international market.

As a result, the urge to make greater and greater export has got blunted. It is essential to increase the capacity of this manufacturing sector and also to curb the home consumption.

It is surprising that in the matter of increasing the export of engineering goods, although we find incentives are given and encouragement is given, there has not been adequate response because the industrialists are not willing to lower the margin of their profit. They want their margin of profit and they do not want to curtail it, and so the incentives and encouragements which are

given are not utilised for the purpose of export but they are utilised for the purpose of making larger profits. If such incentives and encouragements are given to these industrialists, why should not the Government enter into this field and take upon itself the entire export trade in engineering goods ?

Then I come to a very important aspect which is now agitating the common people of this country, and that is with regard to the supply of yarn to the handloom weavers. The industry is now in a very serious state because of the lack of supply of handloom yarn to the handloom weavers, and there is now an acute shortage in the supply of yarn. So far as the handloom weavers are concerned, they are not assured of any supply and they are unable to get any supply and the handloom industry now is on the verge of closure resulting in large scale unemployment and increase in poverty. Recently, the price has been fixed. This is a very important matter and I request the hon. Minister to consider it. The price that has been fixed by the Government for cotton yarn is on the basis of the price prevailing in December, 1972. The December 1972 price was higher than the January, 1972 price. Now, while the price has been fixed at higher rate, why the December, 1972 price level has been accepted and why not the January 1972 price level be accepted to the basic price ? There have been representations by the various handloom weavers' societies which are complaining of high prices of the handloom yarn. The result of this is only big mills are able to make purchase of the yarn at a higher rate, and what has now resulted is nothing but a spurt in prices and it is nothing but surrender to monopolists who are getting the biggest slice of this yarn.

Therefore, I request the hon. Minister to give attention to this very important matter. So far as the common people are concerned, they are the real purchasers of handloom cloth and if the handloom cloth price is increased, they will suffer, apart from it, the handloom weavers are themselves suffering very much.

One more important aspect which I would like to bring to the notice of the hon. Minister is with regard to 11 cable companies which, it appears, are being prosecuted for violation of the import regulations. These are some of the leading and important cable companies in this country. The charges against them are they have misused the raw materials which were imported under actual users licence. But surprisingly, no order has been issued debarring them from getting licences or grant of licences. What is the reason behind it? If some of the lesser organisations or lesser concerns has been prosecuted for violation of the actual user licence long ago they would have been debarred also, but why these 11 cable companies are not debarred from getting the import licence? That is what I want to know.

The last point that I would like to make—my time is very short—It is with regard to the import of photographic goods and materials. This is very important. A British company, or a company with British collaboration or British capital, is now getting the largest chunk of photographic goods and materials that are imported into this country, while the Indian concerns, a well-established importers, are being given two to four per cent of their quota so far as the photographic goods and materials are concerned. This has resulted in unemployment and restriction of their activities.

There is cornering of almost the entire photographic trade by this concern; I believe it is Agfa Limited. Agfa limited gives its supplies to some of its favourite concerns; but old and well-established concerns who are also established importers are not given. Government should immediately direct its attention to this matter and redress the difficulties faced by the photographic dealers.

Lastly, we demand that in view of the fact that the jute industry as well as the tea industry have not been able to keep pace with the economic development which is expected to be in this country, they

should be nationalised. They have not been utilising the incentives and assistance given to them and there has not been larger production. We demand that their management should be taken over forthwith so that not only the export trade of this country is boosted but also the exploitation of these vital industries is not continued in the hands of the private sector. With these words, I oppose these demands.

SHRI M. SUDARSANAM (Narasaraopet): In supporting the demands for grants of this Ministry, I should first of all congratulate the Minister of Commerce Prof. Chattopadhyaya and his team of officers for the excellent work during the year 1972-73.

13.18 hrs.

[MR. DEPUTY-SPEAKER in the Chair]

The report of the Ministry of Commerce states somewhat modestly that exports would exceed the target of Rs. 1,760 crores. In fact, projections made by me on the basis of the actual data for the 10 months ending January 1973 indicate that exports may amount to Rs. 1,860 crores and exceed the target by about Rs. 100 crores. Furthermore, for the first time since independence we will have a favourable balance of trade of nearly Rs. 150 crores, even taking into account that imports in the months of February and March would be much larger than the average imports in the 10 months ending January 1973. The reasons for this happy trend have been mentioned on page 15 of the report and it is admitted that part of the spectacular rise is due to the fact of currency fluctuations and exports to Bangladesh. Be that as it may, one cannot but feel happy about the situation for the results have been achieved despite the fact that exports of certain items have not shown marked improvement, including engineering goods. One can ill-afford to be complacent. Indeed, the nation's goal must now be to achieve self-reliance on the basis of trying to run export surpluses from year to year. It is only then that we can meet our debt liabilities and increase imports of goods needed for development and defence.

[Shri M. Sudarsanam]

The new import policy announced on 2nd April has been welcomed fairly widely. The policy carries further the role of public sector, but at the same time it is quite pragmatic inasmuch as it provides that registered exporters would be granted letters of authority in respect of canalised items where such items are used in the manufacture of export products.

It also introduces a new and healthy principle that supplies of indigenous materials at international prices to exporters would be treated as exports for all purposes. My first comment concerns the working of the public sector units. Prof. Chattopadhyaya had given a clear indication at the meeting of the Advisory Council on Trade that they must work with devotion and commitment. He is quite correct. In other words, greater rationality in the distribution and pricing systems by these agencies must be achieved for, while canalisation has come to stay, it is not an end in itself. The end is to reap the advantages of bulk buying and to serve the interests of industry and trade. Unfortunately, this has not always been so. Evaluation teams of the working of some of the public sector corporations were set up by Government last July, and I would earnestly suggest that whatever recommendations have been made by these evaluation teams, must be implemented. It is also high time that the proposal for appointing an Expert Group to review the distribution and pricing policies is given concrete shape so that industry and trade have minimum of complaints against the S.T.C. and M.M.T.C. There is a feeling that supplies are not procured of requisite quality in time—the case of shortage of caprolactum used by nylon yarn producers has been highlighted through advertisements in the recent past—and there is no effective liaison with the users despite the fact that there are as many as 55 consultative or advisory committee and panels attached to the S.T.C. I feel very strongly that efforts must be made on a continuous basis to see that the state trading agencies have a better rapport with their

clients and recrimination and mutual criticisms are avoided. It is in national interest to see that the State trading agencies functions well.

In the past, I have sought to draw attention to the need for rationalising the work of commercial organisations which maintain contact and liaison with Government in general and Ministry of Commerce in particular. I find that, even at Central level, there are a large number of organisations, such as Federation of Indian Chambers of Commerce and Industry, Associated Chambers of Commerce of India, All India Manufacturers' Organisation, Federation of Indian Export Organisations, Federation of Associations of Small Scale Industries of India, National Alliance of Young Entrepreneurs, I do not know of any other country where there are so many organisations. India's case is also somewhat unique that in cities like Calcutta, Bombay and Madras, a large number of chambers of commerce apparently do the same kind of work. Even in the sphere of industrial associations, there are more than one all-India bodies for tea, engineering and chemical products. This naturally makes for some confusion and at times one does not know which organisation should be met by a visiting trade or commercial delegation. What I wish to suggest is that multiplicity of organisations is not conducive for maintaining live and purposeful liaison between them and Government. Is it, not therefore, time to think of having a review of their functions? Government could perhaps think of appointing a Committee or an Officer on Special Duty for this purpose so that he can study and recommend. We have 17 Export Promotion Councils. Could this work not be done by industrial associations in respect of items covered by each Council? Or alternatively should not a better liaison be established between them and industrial associations? May I also mention in this connection that in a country like the U.K. whose pattern we are following, a Committee has recently been set up to examine

whether the chambers of commerce should have a public law status, as is the case in the countries of the European Economic Community.

It is good to note that, for the first time in the report of the Ministry of Commerce, a whole chapter has been devoted to the implementation of the Export Policy Resolution. The review is good as far as it goes and outlines the positive steps that are being taken. Obviously, the guidelines in the Export Policy Resolution have to be pursued with vigour and energy continuously.

In this connection, I would like to commend the idea mentioned by the Minister for better liaison with the other concerned economic ministries. We now have a Cabinet Committee on Industry and Trade. Separately, some specific points have been mentioned in the report of the Ministry of the attempts being made between the Ministries of Commerce and Industrial Development in drawing up concrete export production plans with the assistance of other administrative ministries concerned. A number of Working Groups have been set up. Their task must be carried on with great expedition and speed, for, in the ultimate analysis, our export effort will succeed only on the basis of our ability to create export surpluses in agricultural and industrial sectors at internationally competitive prices.

I also suggest that some Members of Parliament drawn either from the Consultative Committees attached to the concerned Ministry or on any other basis should be selected so that the inter-ministerial problems in the export front can be discussed by them in a purposive manner with a view to suggesting positive programmes.

India's export effort is adversely affected by continuance of high export duties on some of our staple items of exports. The Ministry of Commerce should be able to

exercise greater weight and pull in convincing the Ministry of Finance to reduce the burden of these duties. For one thing, it occurs to me that, while we maintain export duties on some items, we also ask for removal of import duties on them by other countries. In this situation, our case can become stronger if we, on our part, take the first instance, requisite measures to remove the burdens. In this connection I would also like to suggest that appropriate rates of drawback and customs duties on different export items must be fixed very quickly because, in this year's budget, there has been a large increase in import and excise duties.

At a recent seminar on GSP organised by the Indian Institute of Foreign Trade, the problem came to the fore that we have not been one of the beneficiaries of the Generalised System of Preferences. Our failure to take advantage of the situation arises mainly from the fact that we could not build up export capacity and production quickly and at the same time we did not also attract foreign enterprises to shift their plants to India for export production. I think some hard thinking on this subject is required for no amount of effort in disseminating information or other steps will succeed unless we build the infrastructure for exporting more by creation of additional capacity and production in lines which have a growth potential. India has provided leadership to developing countries in international forums and this can be sustained only if we build up our economy in a big way.

While we have to continue making efforts for promoting exports to different parts of the world, the developing countries of South-East Asia offer tremendous opportunities. The Asian Trade Expansion Programme was launched in November 1971. Further negotiations have covered a much wider area than mere exchange of tariff preference.

I also suggest that for evolving a common policy for export of iron ore, we need discussions from time to time with Australia

[Shri M. Sudarsanam]
and Brazil, big exporter of iron ore like India.

Prof. Chattopadhyaya would be shortly visiting Japan for the meeting of the ECAFE. The opportunity of this visit should be taken to have in-depth discussions with the Japanese Government and businessmen to induce them to set up export-oriented enterprises of India. The future of world trade lies, in my view, in promoting exports of labour-intensive products and undertaking international sub-contracting. If we take quick measures, we should be able to make some positive advance in this direction.

It also occurs to me that serious studies must be initiated to assess the trade and economic impact of the coming together of China with Japan and America. From a long term point of view, the Chinese presence in the ECAFE region will be of great importance. The ending of war in Vietnam and the reconstruction and rehabilitation requirements of the region can also offer some opportunity for our export. On all these matters what is needed to have anticipatory planning of our commercial policy in close consultation with industry and trade.

One point which has been mentioned in the Report of the Ministry concerns the Ocean freight rates. The Ministry of Commerce is exerting itself in negotiating with the Conference Lines and some results have also been achieved. In recent months, however, the problem has become more and more acute. There is frequent levy of surcharges and freight hikes. The Conference Lines have also levied currency adjustment surcharge to the full extent of the dollar devaluation in February 1973, although there is no justification for increasing the surcharge to the full extent. I am of the view that India's national shipping lines must take a nationalistic view and help shape the policies of the Conference Lines in a manner that India's trade interests are not adversely affected. At the same time, I would suggest that the Ministry should examine the need for

introducing some form of compulsion, through legislation or otherwise, before any shipping line operating in India can increase freight rates.

I would also like to make a plea for speedily setting up the Tobacco Marketing Board, to which a reference has been made in the Report. I would request the Minister to give topmost priority to this.

I think that the Ministry have done a commendable job in the year 1972-73 and notwithstanding the difficulties that are at present, such as due to power shortage, it should be possible for us to plan for an export target of Rs. 2,000 crores in 1973-74.

SHRI C. JANARDHANAN (Trichur): Sir I rise to oppose these grants. The Ministry have come before us with a favourable trade balance and they have taken much pains in their report to establish that these improvements are due to the correctness of their 1970 policy resolution. I do not deny that there are many good points in their policy resolution.

Under this policy resolution three-fourths of the import trade and one-fifth of the export trade are canalised through public sector undertakings. While this is an achievement, I cannot understand why they cannot take over the entire import and export trade. What is the difficulty standing in their way? In order to fix priorities for essential things, to face more confidently the crisis in the international monetary system,—the recent devaluation of the US dollar, is the latest in the series— is it not better to nationalise the entire import and export trade?

This slogan was raised long back. But why this gradualness in the policy of this Government. Only some days back, the Minister had come out with a new import policy. Of course, there are some new points in it. I do not deny that. But there is no fundamental change, no basic change, in the new import policy also. They are taking over some more items; they are banning some more import items

and they are fixing some compulsory export obligations on some non-traditional industries. All these are welcome features. But why can't we make a fundamental change in the policy. Why can't we nationalise the whole thing? I fail to understand that.

Coming to the performance of this Ministry, as I said at the outset, they have a favourable trade balance. As my hon. friend, Shri Somnath Chatterjee and my Congress friend also said, everybody admits that this favourable trade balance may not be favourable by the end of this year. Rs. 38 crores of this trade is with Bangladesh. We do not expect it to continue. The other main thing is Rs. 72 crores worth of leather-goods exports. It is about Rs. 35 crores or Rs. 38 crores—I do not know the exact figure—more than that what was during the period in 1971. There was a sudden boom in the international leather market and we tried to exploit it. The exploitation was unscrupulously done. Wherever we could manage, we exported leather abroad. It is not manufactured leather goods that we exported. It is only leather, finished, unfinished and hides that we exported. By that we got about Rs. 72 crores. It is good. But what happened to our home industry? Many of the small-scale leather industries were closed down. Thousands of workers were out of jobs. Is it a good practice or a wise policy to export raw material by killing the home industry and by throwing thousands of workers on the streets? I can understand the difficulties about foreign exchange resources. But this sort of short-term policy should not be resorted to. The Ministry should think over it. The same thing is about engineering goods also.

As other hon. Members also pointed out, consecutively for two years, 1971-72 and 1972-73, we are not reaching the target. This is supposed to be the growth sector. This year, our target was Rs. 200 crores. We have not reached even the target of Rs. 150 crores. What has happened?

Some reasons are given. Some say, it is due to high prices; some say, there are other difficulties also. Any way, we are not reaching the target. So, the picture given is not very rosy. Even now only our traditional items are going up or, rather, we are maintaining them. In the new field, we have not been able to make a break-through as we want.

Coming to the STC, I wish to point out one thing. There is a severe criticism about the functioning of STC. Business people say that the STC is taking too much commission. Apart from the commission, they give sales-tax also. If the STC is buying in bulk from abroad, the benefit should be given to the entrepreneurs. But they are not getting it. What is happening there? This has been going on for a long time. On every commodity this complaint is there. So, I would like to have a clarification on this point.

We had a great fair here, Asia 72. It was wonderful. They had done some good business also. But I would like to have a point clarified. Many countries participated in that, both West and Asiatic countries. But two countries were conspicuous by their absence, namely, U. K. and U.S.A. What happened to those countries? Did we not invite them, or did they refuse our invitation? I would like to know this. If they had refused to participate in this Asia 72 Fair, then I would like to know whether the Ministry or the Government would consider the proposition of breaking our trade relationship with those countries, however great they may be, who refused our invitation and thus insulted us. If they are not going to consider us as their equals, then why should we carry on having the relationship with them?

Then, I would like to come to some of the items. Marine products industry is an up and coming industry. We have, of course, shown some improvement in this item. But taking it as a whole, I would say that the industry is still in its infant stage. Only in Kerala it has developed at

[Shri C. Janardhanan]

a certain extent. But that industry is facing many difficulties. Apart from port development and other things, they were demanding more trawlers by which they could exploit the deep sea. These trawlers can be very useful for deep sea fishing. Our Government were having some negotiations with the Soviet Union and some other countries. But upto this time nothing has happened. No new trawler has come to this country. From the press reports I find that we are having some negotiations with Poland; Poland has agreed to supply us trawlers and they have even agreed to have an industry to build trawlers. I have seen this in the papers. I do not know the details of this agreement. I would like to ask the Minister to make a detailed statement on this agreement because that is vital to this industry.

Another point here is that when this industry is coming up, as usual, the monopolists, both foreign and Indian, like the Imperial Tobacco, Union Carbide, the DCM, Tatas and Birlas, are trying to enter the trade. Everybody seems to have suddenly developed an interest in this trade and they are trying to corner this business. So, I would like to know what steps the Government propose to take to curb these monopolists from entering this business because this business was developed all along by the small scale entrepreneurs in the country and we should see that the monopolists do not enter this trade and exploit our wealth.

Another thing, Sir. Shipping has become the bottle-neck in our exports now. Not only this difficulty is there in respect of marine products exports, it is here in respect of engineering goods as also in respect of cashew nuts. It has become a major bottle-neck, I should say. Here, I would like to read out certain relevant portions from a letter, Mr. C. Achutha Menon, Chief Minister of Kerala, has written to Shri Raj Bahadur, our Shipping Minister. It is very relevant and I will

read out only the relevant and important portion :

"The main complaint is about the U.K. and Continental Conference lines. I should like to bring to your kind notice the following fact which I have been able to gather from the various Trade Associations.

The shipment of cargo from Malabar Coast—from Mangalore to Trivandrum—is the monopoly of the Malabar Coast/U.K. Conference and the Malabar Coast/Continental Conference.....

During the past 10 years the service has deteriorated, especially in respect of steamer opportunities to the U.K. and the Continent and provision of cargo space

MR. DEPUTY -SPEAKER : Too long a reference to shipping..... You are going out of the scope.

SHRI C. JANARDHANAN : Because it affects.....

MR. DEPUTY -SPEAKER : You can just refer to it, but don't dwell on it too long. Your time is limited.

SHRI C. JANARDHANAN : In this letter he has narrated the whole thing. There was a conference of shippers and in this conference the representatives of the Foreign Trade Ministry participated. There, at the conference, the representative of this conference line refused to give shipping facilities to our commodities and it is said—I will read only one para :

"Trade circles estimate that there are at least 20 crores of rupees worth of goods locked up in Cochin for the Conference ports (in the U.K. and the Continent). Some of these goods were required at the destinations for the 1972 X'Mas sales" "The cargo is still accumulating at the wharves."

I hope the Minister will now be convinced that the situation is very serious.

"So far as our export trade is concerned, it will bring a tremendous amount of business and foreign exchange and thousands of families engaged in the trade of various products as well as in the production of those goods and commodities will also be benefited and it will create a lot of employment. I therefore request you to urgently look into the matter."

MR. DEPUTY-SPEAKER : That is to Shri Raj Bahadur and not to him.

SHRI C. JANARDHANAN : It concerns exports. Their representatives participated in the conference. That man did not raise a single finger against the attitude of the Conference representative.

Another important point is about rubber. In rubber the country has achieved self-sufficiency. Even then synthetic rubber is produced and it is also imported. Why should Government do it, I don't know. I request Government to stop importing synthetic rubber or manufacturing synthetic rubber. Accumulation of 15,000 tonnes of natural rubber is causing a situation of grave anxiety. This is lying with rubber growers. Government should immediately ask the STC to take this over. The problem is very serious and should be immediately looked into. Unless you have rubber-based industries the growers of rubber will be bound to face various difficulties. This is a problem which you can solve and for a long time we have been asking this Government to take proper actions in the matter. These foreign-owned plantations, both tea and rubber plantations, are trying to destroy our plantations. I am sorry to point this out. I request Government to take over these plantations. These rubber plantations owned by foreigners should be taken over by Government immediately. This is my plea.

I want to say a word about khadi and weavers. Khadi and Village Industries is a subject which is coming under this Ministry now. The workers coming under Khadi and Village Industries have been demanding gratuity, bonus and for some wage

increase due to rising cost of living. But nothing has been done to these people. This should be looked into. Handloom weavers are not getting the yarn. This is not only in Kerala, but throughout the country. They do not get yarn and unless immediate steps are taken to remedy the situation, it is going to be very hard on the weavers of this country. Thank you.

SHRI S. R. DAMANI (Sholapur) : I rise to support the Demands of the Ministry of Commerce. This is one of the most important economic Ministries of the Government of India. It looks after our exports in the sense that the exports increase as per targets, and also, they look into the reduction of our imports in the sense that imports are properly controlled and regulated. Industries like textiles, cotton, woolen, art-silk and the jute industry are under the control of this Ministry. Plantation industries like rubber, tea, coffee and other big industries which are exporting and which are meeting the internal requirements are also under the charge of our hon. Minister. Big corporations like STC, MMTC, Cotton Corporation of India, are all under this Ministry. As such this Ministry has great economic importance and so far as the performance during the year is concerned, I think, this is very satisfactory. This is the first time our exports increased by 22 per cent. Opposition friends quoted some figures of world-trade. I don't know why we should at all get linked up with those factors. We are interested in our own export trade. We are interested to know whether our exports have increased or not. That is the point. That is the main criteria, Our exports increased by 22 per cent. This comes to Rs. 1800 crores. This is an all-time-high figure. I congratulate them, and compliment them for this increase of export items. Textiles have contributed about Rs. 39 crores. more this year. The figure for tea for 6 months is Rs. 6.8 crores. The half-yearly figure for jute is an increase of Rs. 18 crores. There are many other items. Therefore, this increase in our export performance has been considerable.

[Shri S. R. Damani]

Side by side, our imports have declined. Against our target, our imports will be Rs. 1,640 crores. Thus there will be a surplus trade balance this year, the first year this has happened. Therefore, the working of the Ministry so far as the export and import performance is concerned is very satisfactory and all concerned should be complimented for it.

But while on this point, I would like to sound a note of caution. As we all know, during this year throughout the country, on account of the failure of the monsoon, there is a power shortage with the result that a cut ranging from 15 to 75 per cent has been imposed. This has already affected, and is still going to affect, industrial production. As such, it is a very essential that the Ministry should plan ahead so that our exports are maintained and that our imports do not increase. I hope Government will take proper care about this aspect of the matter.

I would now like to say something about textiles before I move on to other points. In the last few years, the textile industry was suffering on account of shortage of cotton and many units have had to go out of production. But in the last two years, cotton production has been very good. In 1971, our production was 72 lakh bales and in 1972 in spite of the failure of the monsoon in Gujarat and Maharashtra, it is 65 lakh bales. The result was that many units which have had to close down could resume work and increase production. This year our export of textiles has gone up by as much as Rs. 39 crores. After meeting the requirements of the country, this has been achieved. Similarly, in the decentralised sector also, the production of handlooms and powerlooms has gone up.

There is another new development. This year we will be exporting to Japan, who is our competitor in textiles, cotton textiles in a substantial quantity. This shows that our quality has improved and we will be able to meet their competition.

While on this, I would like to speak about the import duty of 40 per cent proposed to be imposed on cotton in this year's budget. The reason given by the Finance Minister for doing so is that this cotton is being used for superfine or fine cloth which is for the upper classes, and hence it is justified. But I do not know whether he is aware that already there exist a heavy percentage of levy on this very cotton which yields Rs. 25 crores or a little more. This amount is being utilised for encouraging our export. This is how our exports are going up in this industry. The total export of the textile industry has been Rs. 150 crores this year and in the next year it may reach more than Rs. 175 crores including our exports to Japan. The effort is made by the industry itself, and so, this increase in import-duty is going to affect the industry very adversely.

14 hrs.

Side by side, I would like to say one thing. Many hon. Members have referred to the shortage of yarn and high prices of yarn, and how the handloom weavers are suffering. They have mentioned it. The reason is not far to seek. Because, yarn of fine and superfine counts is the raw material both for the handloom and the powerloom industries, and both the handloom and the powerloom industry are using 60, 80 and 100 counts of yarn. This proposed import duty will also effect the prices of yarn because such counts are made out of the imported cotton and this will contribute to the rise in the price of yarn. So, I request that the hon. Minister must take up the question of import duty with the Finance Ministry so that substantial relief is given to the industry in the matter of import duty and the export of both the handloom and the powerloom industry is not affected.

I would here like to make one suggestion to the hon. Minister. I have said that the production of the textile industry has been increasing. The time has come when the industry should be allowed expansion. The industry has not been allowed

any expansion for the last so many years. Now, it is very essential to meet the requirements of the country, to meet our export demand or to increase our export demand. In order to do this, it is very essential that the industry should be allowed to expand at least to the tune of 25 per cent and for that purpose the necessary foreign exchange for importing some plant and machinery which are not manufactured indigenously may be allowed. I would say that the hon. Minister should keep this in mind and do the needful to increase our production and also to increase the export, so that the industry can meet the home demand and maintain our export.

I would then like to say something about the STC's working and also about the working of the MMTC. It is a matter of regret that the MMTC has not shown in the last three or four years any improvement in the export. They are given the monopoly for exporting iron ore, manganese ore ferro-manganese ore. Every year, they fix a target which is never achieved. Last year, they mentioned a target of 13 million tonnes iron ore for export. Most of them were meant for Japan. Actually, their export has not been more than seven million to eight million tonnes. What is the use of fixing a target which is not achievable. Sometimes, they say there was a strike; sometimes they say that space was not available. The targets are not fulfilled. Therefore, I think the Minister should take care of the working of the Corporation and see that they fulfil the target. The labour is not getting employment and in most of the mines in Orissa and other backward States there is no alternative employment. Therefore, it is very essential that the MMTC should improve its functioning and the export of iron ore should be taken seriously.

Secondly, about the import of bulk commodities, that is, bulk purchases that are being made. According to my information, they issue tenders for 30 days or 40 days so that everybody knew what quantity was required to be imported. Suppliers of foreign countries join hands and

this contributes to high prices. Is this the system, and is it a business like purchase? In this way, it is well known that our country is not getting the benefit of bulk purchases by adopting this kind of tender system.

The STC are claiming that their exports are increasing but actually the export is not their own. Small entrepreneurs visit various countries, secure orders and export goods to those countries; they canalise their exports through the STC, which takes credit. What is the contribution of the STC in developing new markets—? What are the new items they have introduced? While replying to the debate, the hon. Minister should throw light on these points.

Lastly, about handicrafts board, the figure given is an export of Rs. 80 crores. If you examine it a little deeply, Rs. 50 crores are gems and diamonds. Are they handicrafts, actually? The handicrafts export is only Rs. 4.5 crores. We had great expectations of our artisans in rural areas; we felt that they should get employment and they should be able to export to many countries. But this is what is happening.

Lastly, my hon. friend talked about the nationalisation of the tea industry and also of the jute industry. I am not opposed to nationalisation; it is good in certain areas. But by constant repetition of this demand, one should know how much harm is being done to the country. It is known the life of a person is at the pleasure of God and the wealth of a person is at the pleasure of the Government. If one goes on shouting : nationalise it, it affects us injuriously. When the Government thinks fit they will nationalise it; they will not announce in advance. But this sort of shouting does not help the country.

*SHRI E. R. KRISHNAN (Salem) : Hon. Mr. Deputy Speaker, Sir, I rise to place my views on behalf of my party the Dravida Munetra Kazhagam on the Demands for Grants of the Ministry of Commerce for which the hon. Minister of

Commerce has sought the sanction of this House.

Sir, in Tamil Nadu, next to agriculture, the handloom industry is the mainstay of many millions of people. There are about 5.5 lakhs of handlooms in Tamil Nadu upon which 20 lakhs of people are dependant for their livelihood. I am deeply pained to inform you, Sir that these so many lakhs of people engaged in handloom industry are undergoing unprecedented hardships and untold miseries for the past few months. In fact, they have reached the point of starvation. the main reason for this is the short fall in the production of yarn and the steep rise in the price of yarn during the past three months. I am sorry to say that even the misery of millions of handloom weavers is being exploited for political gains by the members of the ruling party here, who happen to be in opposition in Tamil Nadu. All the Opposition parties in Tamil Nadu are out to discredit the D.M.K. Government by staging protest marches, by organising *dharnas* before the Office of Collector, by conducting meetings to condemn the State Government. In my constituency, Salem, the situation is getting worsened. day by day because of the violent approach of the members of the ruling party here, who are in opposition there. Taking advantage of this, some anti-social elements recently burn a State transport bus.

With a view to suggesting an immediate remedial step, the Tamil Nadu Assembly unanimously passed a Resolution sponsored by the State Industries Minister recommending that all the yarn produced in more than 200 spinning mills in the State should be exclusively distributed among the handloom weavers in the State. Our Chief Minister, Dr. Kalaignar Karunanidhi followed this by writing a detailed letter suggesting various steps to the Prime Minister on 24-2-1973. But the Central Ministry has paid so far no heed to these constructive suggestions.

I raised a Short Notice Question in this House on 2-3-73 to focus the attention of the Government on the grave situation prevailing in Tamil Nadu in the handloom industry. While replying to that Short Notice Question, the Hon. Minister of Commerce gave wrong information to the House stating that the Tamil Nadu Government had not lifted even the allotted yarn. I have to say categorically that such a favourable situation never arose in Tamil Nadu. But the opposition parties in Tamil Nadu, including the members of the ruling party here, took the cue from the Central Minister's wrong statement and made a mountain of the mole-hill. For them even a wrong statement from the Central Minister is a stick strong enough to beat the State Government. I am constrained to say that there seems to be a premeditated attempt on the part of the Centre and the members of the ruling party here who are in opposition in Tamil Nadu to discredit the State Government for no fault. I will not dilate on this much longer. Now, the Centre has controlled the distribution of yarn throughout the country. It is really regrettable that even now the requirement of yarn in Tamil Nadu is not being fully met. In March the requirement of yarn in 1 to 20 counts was 7750 bales, but the allotment was only 6610 bales, which comes to 85% of the requirement. The requirement of yarn in 21 to 40 counts was 7250 bales, but the allotment was 2297 bales, which is about 32% of the requirement. Above 40 counts the requirement of yarn in March was 5000 bales but the allotment was 903 bales, which is barely 18%. This is for handlooms. But for power-looms the requirement of cone yarn upto 40 counts in March was 16,000 bales, but the allotment was 1578 bales. It is only 9% of the requirement. The cone yarn requirement from 41 to 100 counts in March was 4000 bales and the allotment was 578 bales. It is about 14% of the requirement. Therefore, only 11966 bales have been allotted though the total requirement both for handlooms and for

power-looms in March was 40000 bales. I would like to know from you, Sir, whether this will even partially solve the problems of handloom weavers.

This may be called as adding insult to the injury. In Tamil Nadu there are 12 cooperative spinning mills. Under the new system the yarn produced in these mills has been brought under the General Pool System. Sir, you should know that there are 900 weavers' cooperative societies in Tamil Nadu in which there are many thousands of handloom weavers. Now they are also denied their supplies from these 12 cooperatives spinning mills. I strongly urge upon the hon. Minister of Commerce that the entire production of yarn in these 12 cooperative spinning mills should be taken away from the General Pool System and should be exclusively reserved for the 900 weavers' cooperative societies.

I would now refer to another annoying anomaly. When there is acute scarcity of yarn for handloom industry throughout the country it is really inexplicable to me that the Centre should maintain that the export of yarn should continue. The hon. Minister of Commerce has said this in very clear terms in this House. I entreat upon him that in the interest of millions of handloom weavers in the country the export of yarn should be stopped at least temporarily till the situation eases within the country. Unless this is done, the problem of handloom weavers will become very grave as has been mentioned by the hon. Members who preceded me.

Sir, there has been the long-standing demand that certain varieties of cloth should be exclusively reserved for the handloom sector, if it is to survive in competition with the mill-made cloth. Dr. Kalaignar Karunanidhi, the Chief Minister of Tamil Nadu has written a letter in this regard also to the Prime Minister on 11-8-72. I appeal to the hon. Minister of commerce that certain varieties of cloth

should be exclusively reserved for the handloom sector and immediately a directive should be issued to this effect.

Sir, reverting for a while about the export of yarn, I would like to suggest that after stopping it temporarily steps must be taken to boost up the export of handloom cloth. You know, Sir, that till recently there was a craze in international markets for Indian handloom cloth.

If the Government really want to do something for the survival of traditional handloom industry in our country, all the spinning mills must be forthwith nationalised. Then only the handloom weavers will be able to get their requirement of yarn in full and in time.

Sir, the estimated expenditure for the Third Asian international Fair was Rs. 583 lakhs. But in the end there was 50% increase in the expenditure and the expenditure according to final calculations was Rs. 853 lakhs. I would like to know from the hon. Minister the reasons for 50% increase in the expenditure on III Asian International Fair.

Last year the price of coffee was 8.50 per kg. But now it is being sold at Rs. 12 per kg. you must be knowing, Sir, that all the common people in Tamil Nadu take coffee. In 1970-71 there was the record production of coffee, i. e. about 1,08,000 tonnes. This target of production was expected to be achieved only in 1973-74. As per the international agreements and on account of trade agreements with East European countries, in 1970-71 38,167 tonnes of coffee were exported and the remaining 69,833 tonnes were made available for indigenous markets. This led to a fall in price of coffee in March, 1971. In 1971-72 the production of coffee was just 68,000 tonnes, which was just 50% of 1970-71 production. In 1971-72 40,104 tonnes were exported, at the cost of indigenous requirement. In 1972-73 the production slightly went up to 87,000 tonnes, but still it was much less than 1970-71.

[Shri E. R. Krishan]
procuction. I would like to know the reasons for sudden fall in coffee production during 1971-72 and 1972-73. I would also like to know what steps the Ministry has taken to bring back the coffee production to 1970-71 level.

The picture is not any different in tea also. In Darjeeling area 6 tea gardens have been closed. In North-east India many tea gardens are reported to be in the stage of being closed. What are the reasons for this? Besides this, there has been sudden drop in the export of South Indian tea. During April-December, 70 the export of South Indian tea was 31.02 million kgs.; during April-December, 71 38.01 million kgs.; in April-December, 72 32.69 million kgs. Is it that the quality of Nilgiris tea has gone down and this has resulted in less exports? If that is so, what steps the Government have taken to improve the quality of Nilgiris Tea? I would like to know the reasons for the closure of 6 tea gardens in the Darjeeling area. Have the Government tried to make out the reason for their closure? What steps have been taken to arrest this trend because tea is an important foreign exchange earner?

In reply to a question on 23.2.1973, the hon. Minister of Commerce stated that on account of scarcity of leather and steep rise in the price of leather, the footwear industry is in a crisis. He also said that a scheme is being formulated by the Government to assist the foot-wear industry. I want to know from the hon. Minister the details of this scheme and when this scheme is likely to be implemented.

Sir, the Khadi and Village Industries Commission has submitted a scheme to the Government for starting 445 rural fabric centres which will produce about 450 lakh metres of standard cotton cloth. This will also provide employment to 30,000 people. I request the hon. Minister to inform the House as to when this scheme will be implemented.

In reply to a question on 23.2.1973 the hon. Minister of Commerce stated that the information regarding the location of branches of Sahu Jain industries in foreign countries was not readily available. I need not say that the Ministry of Commerce has got a plethora of big and small officers. Without having information about the location of branches of companies like Sahu Jain and Co. in foreign countries, I wonder what kind of check can be exercised on this company in regard to alleged wide-spread practice of under-invoicing and over-invoicing indulged in by such companies.

On 14.2.1973 in the 'Times of India' there was an article giving details of wrong statistics supplied by the Directorate of Commercial Intelligence and Trade Statistics. Not only for the past two years, but also in 1972-73 this Directorate has given wrong figures about our trade. The Ministry of Commerce says that the exports to Bangla Desh in 1972-73 were of value of Rs. 78 crores, but this Directorate gave the figure at Rs. 29 crores. During the first eight months of last year, the Ministry reported that there was 16% increase in our exports. But according to this Directorate there was an increase of 23%. You will appreciate, Sir that such wrong statistics give a misleading picture of our economy. I feel that this Directorate could as well be wound up.

Before I conclude, I would urge upon the Government that all the export and import trade must be nationalised forthwith if the Government want to put an end to malpractices like under-invoicing and over-invoicing which in consequence lead to the creation of crores of black-market money, if the Government want to put an end to malpractices leading to expropriation of valuable foreign exchange by private traders, if the Government want to sustain the name of Indian goods in foreign countries and if the Government want to boost up our export trade. The Government which do not hesitate to swear by socialism cannot allow the export and import trade in private hands.

The export and import trade must be nationalised forthwith so that the nation's interest is served better.

With these words I conclude.

SHRI DINESH CHANDRA GOSWAMI (Gauhati): Mr. Deputy-Speaker, Sir, while taking my stand here to support the Demands for Grants, I will emphasize only one item of this grant, and that is the item of tea, an item which touches every individual in this country, because we cannot think of Indian hospitality without a cup of tea. This is an industry which holds a very important place in the Indian economy, a fact which tends to be ignored by many.

If we look at the specialities of the tea industry we find that today it ranks as the largest employer of labour in the organised sector in this country and more than one million workers are directly employed in this industry. Even in Bengal, which is ridden with acute unemployment, tea industry gets a very high place with 2,50,000 people in the muster rolls whereas in the jute industry which occupies the primary place in the State, the number of workers in the muster roll is only 2,00,000. Secondly, tea today is undoubtedly the second largest foreign exchange earner without adequate export incentives. Thirdly, it is the only land-based industry where agricultural operations are organised with workers on land getting guaranteed wages, allowances, housing and medical benefits etc. as compared to tobacco, sugar, jute and cotton textiles where we find the agriculturists are unprotected and disorganised. Another special feature of this industry is that it has carried modern development to the remote corners of Assam, the hilly areas of Darjeeling and the backward region of Duars. Also we must remember that in yield per hectare Indian tea tops the world whereas in the field of rice or wheat India does not come within the top 35 nations of the world. Furthermore without regular supply of institutional credit, even though tea is a low profit and slow gestation industry, it has remarkably raised output

by 63 per cent from 278 million kgs. in 1950 to 452 million kgs. in 1972.

From the social point of view, we find that tea is a low profit industry. A recent Reserve Bank of India survey shows that while in 1965-66 the gross profit as percentage of total capital employed in tea was 7.7% the corresponding figure for the year 1968-69 was only 5.1 whereas the relevant figures for tobacco for the same period show that there is an increase of more than 2 per cent in 1968-69 from 10% to 12%.

The most unfortunate feature is that in spite of these special and beneficial aspects, the tea industry is facing a big crisis throughout the country. As mentioned by the previous speaker a number of tea gardens in north eastern region are facing closure or many are already closed. In Assam 10 gardens are closed 9 for the last three years and one from January, 1972. In West Bengal 66 gardens were closed and 40 are struggling for survival. In Tripura two gardens are under closure. The attention of Government is urgently necessary in various directions today to remove maladies prevailing in the industry.

As time will not permit me to dwell on all the maladies, I will lay emphasis on only one aspect. I mentioned this aspect even during last year's discussion on the Demands for Grants of this Ministry. To my utter dismay, I have to say that I have not received any reply from the Ministry concerned or the authorities concerned as to what they have done about the serious complaint that I made about this point last year.

The point that I wanted to refer is regarding the inequitable levy of excise. There is inequitable levy of excise duty in different Zones in India today. The levy of excise duty has risen 15 times during the last 12 years from 10 Paise per pound in 1958 to Rs. 1.50 per Kg. in 1970. But, the more important factor is that this disproportionately high rate of excise duty has not been levied uniformly throughout the

[Shri Dinesh Chandra Goswami]

country. But, the country has been divided into 5 Zones and different rates have been fixed for the 5 Zones. In Zone I it is 25 paise; Zone II 50 Paise, Zone III—Darjeeling Rs. 1.50 paise, Zones IV Rs 1.00 and Zone V—export-oriented Assam tea Rs. 1.15 paise. That means, it varies from 25 Paise to Rs. 1.15 paise. Till now, Government has not been able to produce any thing to justify the reasonableness or the rationality of the formation of the Zones or the fixation of the rates. This levy has put the two most export-oriented Zones, namely Zones III and V, at a great disadvantageous position.

Now, in matters of export, tea in some cases gets a rebate of 75 paise per Kg. Thus in Zone I, in those cases of admissible rebate producer is getting back 50 Paise, Zone II—25 paise, But in Darjeeling, they will have to pay to the exchequer 75 Paise and in Upper Assam 40 paise. My main objections against the differences in the levy are that it is un-related to the differences in cost, price or yield. I would have understood some sort of a bigger excise levy if the cost of production of tea either in Darjeeling or in Assam, would have been lower, or in the export market if they have got some price un-related to the cost of production. Statistics do show however that whereas, money wages in tea in the three States together has risen by 126.8%, in Zone V, which has to pay a very high rate of excise duty, it has risen by 209.4 per cent. On the one hand, you are squeezing Zone V with a very high rate of excise duty. On the other hand, the cost of production has gone up. Under these conditions, how can you expect that tea in this Zone will remain export - oriented. The unfortunate part is that the differential excise duty falls mostly on the two export-oriented Zones. Darjeeling and Assam Zones, the two famous for their liquor and flavour.

I will only submit that the rebate as sole incentive lacks leverage—being partial, delatery and linked to wayward prices overseas. We have also seen that the complicated rebate formula and deferred

documentation increases paper work, blocks scarce resources and incurs risks of currency fluctuation. The only assumption on which the Ministry probably wants to support this levy or the difference, is that higher duty has an easy escape *via* export. They want to suggest, probably that because they are export zones, they have the capacities to pay more revenue. But, Sir, if we look to the price fetched in the auction market in London, we find that the situation is entirely otherwise. I have got some statistics. In 1954, in the London Auction market, our tea fetched a price of 63.3 pence per pound which came down to 48 pence in 1966, I do have all the figures but I shall quote only a few. It came down to 44.1 pence in 1969 and then it picked up in 1970 to 49.7 pence. It has come down to 41.6 pence in 1972. It means that our tea is fetching a price today, which is 21.7 pence less per pound. Though in Assam, in 1971, the production of tea increased by 6 per cent than the corresponding figures for 1970, Assam tea was selling at an average of 42 pence in the London market compared to 49.7 pence per Kg. earlier. It has come down further to 41.6 pence in the last year, i.e., 1972. Obviously, on the one hand, the fall in the price in the London market, and on the other hand, rise in the levy, a rise which is inequitable, has put the entire tea industry in a great crisis. Government tries to justify and show that it does not have any effect on the exports, because, exports have risen. They want to rely upon the figure of 1971 and 1972 to prove that exports have risen. But, unfortunately, the officials of the Government take only a cursory view of the statistics. After all, there are three kinds of lies—lies, damn lies and statistics. It is the third kind of lies which is playing its part in the export trade, I will show that from the statistics themselves.

According to the official figures, the total export of Indian tea in 1956 was 237.4 Kg. million. It came down in 1969 to 168.7 million Kg. It picked up to 206.1 million Kg. in 1971 and to

207.4 million Kg. in 1972. Even here in 1972, we have not reached the export figure of 237.4 million Kg. of 1956. The officials try to say that because in 1969, our export was 168.7 million Kg. in 1971, it was 206.1 million Kg. and today it is 207.4 million Kg; there has been a rise in exports. But they have not taken into account the factors due to which suddenly in 1971 there was a momentum of export in the international tea market from India.

What were the factors. One of the factors was that for some reason or other, in 1969, tea price rose in London and it picked up from 44% to 49.7 d. It gave a boost to the producers to put more tea in London market. The fact is that, in 1970, because of the rebate formula, a healthy optimism grew in the tea industry, which subsequently corporated and this opinion led to an increase in exports. But the more important fact which the officials of the Commerce Ministry tend to forget is that in 1971, there was a draught in East Africa and, therefore, tea production was greatly affected there and they could not supply tea adequately to the London, market. Then around 1970, there was insurgency in Ceylon due to which there was a telling effect upon the tea production and Ceylon could not supply tea to London market. Again, the officials of the Ministry tend to forget that because of Bangladesh trouble in 1971, tea could not pass from East Pakistan to West Pakistan and whatever production there was in Ceylon was diverted to west Pakistan and therefore, they could not fulfil their commitments to London market. For these reasons, in 1971, our exports showed an increase in 1972. If the statistics show an increase in exports, I say, that increase is misleading. Again because of Bangladesh trouble in 1971 and other things we could not supply all our commitments in 1971, and we fulfilled a part of our commitment in 1972 and that is why, in 1972, the figures have shown an increase in exports. If you compare the entire fact, keeping in view all these aspects, I would submit humbly but with all authority at my command that our 230 LS-11.

tea export is not as rosy as the officials of the Commerce Ministry want to show.

Let us see the figures of exports to traditional countries. In 1951, we exported to U. K. 136.3 million Kg. of tea. In 1971, it has come down to 71.3 million Kg., that is, a decrease of 65 million Kg. Our only healthy sign today is that we are exporting more to Russia. It has risen from 1 million Kg. to 41.3 million Kg. Other countries which are competing with us will try to increase their exports to Russia and other Socialist countries unless the Ministry gives a face-lift to the tea industry.

On the export of tea, I would request the Ministry to take into account the following factors. Firstly, they should see whether our official trade policy is export-oriented. My own submission that they take tea export too much for granted as "traditional", ignoring world market realities of falling demand and rising supplies and competition from other tea producing countries and alternative beverages. Quality tea as staple of Indian exports is squeezed between rising internal costs and falling international prices. Then, we cannot have more quality crop because of the inequitable excise levy. The tendency has been to substitute quality by quantity in the zone where the levy is too high.

Excise structure leading exported tea with sizeable levies places Indian tea at a great disadvantage, in competition with subsidised over-supply of cheap tea in the world market. Therefore, I will put forward before the Government the following suggestions. My first suggestion will be that the zonal excise levy should be restructured. I know that many of the important business houses are playing their part in the Commerce Ministry and are trying to avoid this restructure. For example, one of the most influential houses in the tea market today, namely, Duncan Brothers have got their total production of 21 lac kg. in Assam, whereas their pro-

[Shri Dinesh Chandra Goswami]

duction in other areas is 192 lac kg., Precisely because of this that Duncan Brothers find that the tea excise levy is more in Assam and is less in other areas and it is profitable for them as such to compete with Assam growers at the present rate of excise and they have used all their influence to prevent rationalisation of the duty. Then, we have also the Birla Brothers. I can name some more, but the time at my disposal does not permit me. These are the business houses which are trying to scuttle, destroy, the Commerce Ministry's efforts to restructure the excise levy. I would, therefore humbly submit that, today, a fresh thinking should be made.

Promotion of demand for our tea is an urgent need. Efforts should be made to explore new markets like Japan, and in that context, I will read out one paragraph from the *Hindustan Standard*, Calcutta, of 15th February 1973 :

"With the main promotional avenues such as the cinema, television and radio shut out, the media available for propaganda are limited. Sri Lanka Tea Bureau works through merchandising, road-advertising and public relations. Releases about Sri Lanka and her tea industry are made occasionally in the local papers. Its two large hoardings always confront the traveller on the Jeddah/Mecca and Jeddah/Medina roads..."

This is about Saudi Arabia.

"India, in comparison, is suffering from lack of any good campaign" An intensified campaign for tea abroad should be made.

Large scale replantation and replacement should take place. According to a recent survey, more than 56 per cent of our tea-bushes are 26-60 years old. I am happy, the Ministry has constituted a task force to look after this matter.

I would submit that the Tea Board should be reconstituted and its function reviewed. I have, with me, a letter from a small company which has lamented about the Tea Board. The Garden, the proprietor of which Shri J. K. Baruah, who is a personal friend of mine, has written this:

"The Tea Board is concerned only with technicalities more cumbersome and time-consuming and surpasses the Government machinery in its usefulness.

"Some loopholes in the application will be dug out to defeat the claims of smaller concerns.

"Only big producers who have got their offices in Calcutta and have connections with the Tea Board offices can get the benefit."

This type of feeling in the minds of small producers is extremely dangerous, and detrimental to the growth of the industry.

Before I conclude, I want to lay emphasis on another aspect that is, about the prospect of export of silk to other areas. I would request the Ministry to consider granting permission to export raw silk yarn or spun silk yarn to other countries. Also, the Ministry should take into account the possibility of increasing the export market in a yarn which is produced in Assam known as "Muga". This golden coloured yarn, which has no parallel in the world, has a tremendous export potential. I would request the Ministry to start a project known as project Muga. When an Assamese lady with Muga travels outside invariably all ladies enquire, 'how have you coloured this?' And they find it hard to believe that this a natural colour. The production of Muga clothes today is primarily located in a place called Swalkuchi in my own constituency. I can say with emphasis that, if a project for proper export of this yarn is taken up, this place will occupy a very important place in the

economy of the country. Many unemployed educated persons are interested in taking up this project. I would request the hon. Minister to take this project in hand.

I would particularly request this Ministry to see that we are not given an impression that we merely raise certain subjects here and they are not to be replied by the Ministry. I raised the question of inequitable levy of excise duty last year, but it has not been replied till now. I hope that reasonable and rational replies to the points that I have raised will follow.

डा० लक्ष्मी नारायण पाण्डेय (मंदसौर) :

उपाध्यक्ष महोदय, प्रतिवर्ष सरकार द्वारा व्यापार नीति लागू की जाती है और कहा जाता है कि उस नीति के कारण आयात में कमी होगी और निर्यात में वृद्धि होगी और इन दोनों के बीच का जो गैप है वह घटेगा और इससे विदेशी मुद्रा की भी काफी बचत होगी। लेकिन सरकार द्वारा दिये गये आंकड़ों से और उसके द्वारा दी गई रिपोर्टों से ऐसा मालूम पड़ता है कि सरकार द्वारा कही गयी ये बातें सरासर असत्य सिद्ध होती हैं। मैं उदाहरण देना चाहता हूँ। सरकार द्वारा कुछ अनुमानित आंकड़े तय किये गये थे और तय किया गया था कि हमें कितना आयात और कितना निर्यात करना है। आपकी अपनी जो 1972-73 की रिपोर्ट है उसके पेज 13 पर आप कहते हैं :

“With 1968-69 as the base year for the current Fourth Five Year Plan, exports increased by 4.1 per cent during 1969-70, by 8.6 per cent in 1970-71, and by 4.6 per cent in 1971-72. This amounts to an average compound growth rate of 5.8 per cent per annum. The targetted rate of growth for the Fourth Plan was 7 per cent.”

सात प्रतिशत आपका अनुमानित लक्ष्य था लेकिन आपको प्राप्त केवल पांच के कुछ ऊपर हुई। एक्सपोर्ट के बारे में इसको आपने स्वयं स्वीकार किया है। दूसरी तरफ आपने कहा है कि एक्सपोर्ट में आप और वृद्धि करेंगे। लेकिन वृद्धि तो हुई नहीं। बहुत सी चीजों से बहुत ज्यादा फारेन एक्सचेंज प्राप्त किया जा सकता था और उनको निर्यात करके विदेशों में काफी साख जमाई जा सकती थी, लेकिन उनके अन्दर भी बहुत भारी गिरावट आई है। पेज 14 पर आप कहते हैं :

“The export of the following commodities during this year declined noticeably as compared with the 1970-71 figures : iron and steel, iron ore, ferromanganese, oilcakes and engineering goods. Shortage of steel in the country was responsible for the sharp decline in the exports of iron and steel....”

आपने इसके कुछ कारण दिये हैं लेकिन मैं समझता हूँ कि ये कोई विशेष कारण नहीं हैं कि इनसे बुरा असर पड़ता। मैं समझता हूँ कि एक्सपोर्ट्स के बारे में जिस प्रकार की आपको दृष्टि रखनी चाहिये थी, जिस प्रकार से उसकी कार्यान्विति होनी चाहिये थी, नहीं हुई है। इसके विपरीत जो इम्पोर्ट की फिगर्स हैं वे काफी ऊँची गई हैं। वे घटी नहीं हैं। इस तरह से जो ट्रेड का गैप था जो कि घटना चाहिये था वह घटा नहीं। यह भी आपकी रिपोर्ट बताती है। आपने कहा तो है कि गैप घटा है लेकिन मुझे लगता नहीं है कि वह घटा है। आपने नौ महीने के आंकड़ों के आधार पर बातें कही हैं। लेकिन पूरे वर्ष के बाद आप देखेंगे तो आपको पता चलेगा कि गैप 265 करोड़ का जो था वह

[डा० लक्ष्मी नारायण पाण्डेय]

उतना ही है, उसमें कोई कमी नहीं आयी है। इसमें आप स्वयं इम्पोर्ट्स के बारे में कहते हैं :

"During 1971-72 the total imports were of the order of Rs. 1812 crores, which meant an increase of 11 per cent over the 1970-71 figure."

इससे साफ जाहिर होता है कि आप कहीं गई बात से पीछे हटे हैं। आप आर्थिक समीक्षा को देखें तो उसके पेज 77 पर आपने स्वयं इसको स्वीकार किया है। आप कहते हैं कि :

"कुल मिलाकर 1971-72 में, अपरम्परागत वस्तुओं का निर्यात निराशाजनक रहा। देश के अन्दर कुछ प्रतिकूल घटनाएं घट जाने के कारण इंजीनियरी वस्तुओं के निर्यात से, जिनका निर्यात अभी हाल के वर्षों में काफी तेजी से बढ़ रहा था, केवल 118.4 करोड़ रुपयों की प्राप्ति हुई।"

निर्यात नीति के सम्बन्ध में भी आप आगे चल कर पेज 83 पर कहते हैं :

"उत्पादन की तुलना में निर्यात से होने वाली आय के अनुपात में भी कोई महत्वपूर्ण वृद्धि नहीं हुई। इस प्रकार निर्यात में वृद्धि करने के लिये जोरदार प्रयत्न किये जाने तथा व्यापार में काफी विविधता लाने के बावजूद निर्यात में उसी गति से वृद्धि हुई जिस गति से कुल उत्पादन में हुई थी।

इससे साफ हो जाता है कि उतनी वृद्धि नहीं हुई जितनी की आप अपेक्षा करते थे।"

फिर आगे चल कर आप कहते हैं :

"1971-72 में समाप्त होने वाले दशक में जूट की बनी हुई वस्तुओं, चाय और काजू की गिरी जैसी महत्वपूर्ण वस्तुओं के निर्यात के अनुपात में लगभग बराबर गिरावट आती रही।"

ये आपके वर्डिंग हैं रिपोर्ट में। आज मायका के बारे में स्थिति भी चिन्तनीय है।

दूसरी तरफ भारत के निर्यात और अन्य देशों के निर्यात में किस प्रकार की असमानता रही है, उसकी भी तुलना करके आप देखें तो आपको पता चलेगा कि 1960 में हमारे निर्यात का जो प्रतिशत था वह 1.3 था जो कि 1971 में घट कर 0.9 रह गया और 1972 में 0.7 रह गया। यह निरन्तर घटता रहा है। अन्य देशों के निर्यात की तुलना में हम देखें तो पता चलेगा कि उनका 343.2 था। इससे साफ पता चलता है कि अन्य देशों का निर्यात निरन्तर बढ़ा है और हमारा निरन्तर घटा है।

मैं निवेदन करना चाहता हूं कि निर्यात के बारे में आपने जिस प्रकार की नीति बनाई है और उस पर चल कर जो आपने आशा की थी कि निर्यात बढ़ेगा, वह बढ़ा नहीं है इस वास्ते आपको उस नीति पर फिर से विचार करना चाहिये। निर्यातकों के मन में जो धारणायें बनी हुई हैं, जो शंकायें बनी हुई हैं उनको आपको दूर करना होगा। उनको पता नहीं कि किस चीज को आप कब अपने हाथ में ले लेंगे, कब कैनेलाइजेशन करने वाले

हैं, किस समय पर किस किस चीज को आप उद्योग को सप्लाई करोगे, करोगे भी या नहीं करोगे, किन रेट्स पर करोगे, इस सबके बारे में उनके मन में जो धारणाएँ हैं, जो शंकाएँ हैं, उनको यदि आप दूर करने का प्रयत्न करेंगे तो मैं समझता हूँ कि निर्यात में वृद्धि होने की सम्भावना बढ़ सकती है अन्यथा निर्यात में वृद्धि नहीं होगी। आज स्थिति यह है कि निर्यात आपका घटा है और जिस गति से वह बढ़ना चाहिए था, नहीं बढ़ा है।

मैं सभी विषयों में जाना नहीं चाहता और न ही ऐसा करना थोड़े से समय में सम्भव है। टैक्सटाइल के बारे में भी आपने नीति बनाई है। काटन कारपोरेशन भी रुई के वास्ते बनाया है। उसके द्वारा आप कहते हैं कि आप काटन की सप्लाई करेंगे। कुछ सिक मिलज को भी आपने अपने हाथ में लिया है, माडरनाइजेशन के नाम पर करोड़ों रुपया आपने उनको दिया है। पता नहीं कब माडरनाइजेशन होगा, किस तरह से ये सुधरेगी। यह दूसरी बात है और इसको मैं उठाना नहीं चाहता हूँ। लेकिन काटन का जहाँ तक सम्बन्ध है, काटन कारपोरेशन ने जब से काटन को अपने हाथ में लिया है इसकी कीमतों में निरन्तर गिरावट आई है और दूसरी तरफ मिल वाले चिल्लाते रहे हैं कि हमें रा मैटीरियल नहीं मिल रहा है, किसानों को कीमतें कम मिल रही हैं और मिल वालों को रा मैटीरियल ठीक ढंग से और समय पर नहीं मिल रहा है। यह स्थिति सरकार की नीति के कारण पैदा हुई है। सरकार ने अभी घोषणा की है कि सूत का सारा कारोबार वह अपने हाथ में लेगी और उसने इसको

ले भी लिया है। जब से ऐसा हुआ है तब से तमिलनाडू में ही नहीं जिसकी चर्चा अभी माननीय सदस्य कर रहे थे, महाराष्ट्र में, मध्य प्रदेश में, उत्तर प्रदेश में, सभी जगह सूत का एक प्रकार से संकट पैदा हो गया है। मैं अखबार को उद्धृत करना चाहता हूँ। इन्दौर से निकलने वाला यह नई दुनिया अखबार है। इसके 2-4-73 के अंक में यह छपा है, समाचार बरहानपुर से है :-

“नगर के साइजिंग मिल्स एसोसिएशन के एक प्रवक्ता ने पत्रकारों को बताया कि सूत व्यापार के राष्ट्रीयकरण एवं शासन की सूल वितरण प्रणाली के परिणामस्वरूप नगर के दस साइजिंग मिलें आगामी 10—15 दिन में बन्द होने की स्थिति में आ गई हैं। प्रवक्ता ने बताया कि लगभग एक हजार मजदूर बेकार हो जायेंगे। नगर की साइजिंग मिलें लगभग 70 प्रतिशत बिजली करबों की बीम की पूर्ति करती रही हैं। यदि इन मिलों को सूत नहीं मिला तो बीम बनने बन्द हो जायेंगे।”

यह एक स्थान की बात नहीं है। अनेक स्थानों पर ऐसी स्थिति है। चाहे हथकरघे हों या पावर लूम्स हों, उनके सामने भयंकर संकट आकर खड़ा हो गया है। जिस प्रकार से सूत का उत्पादन बढ़ना चाहिये था और उत्पादन बढ़ाने की ओर हमारा ध्यान जाना चाहिये था वह भी नहीं गया। इसका उत्पादन भी घटा है। इस कारण भी आज भयंकर स्थिति आ कर खड़ी हो गई है। हजारों बीवर्ष के सामने जीवन मरण का प्रश्न

[डा० लक्ष्मी नारायण पाण्डेय]

पैदा हो गया है। कहां से सूत लायें और हथकरघा कैसे चलायें, कहां से सूत प्राप्त करें, किसके द्वारा प्राप्त करें? आप कोई वितरण प्रणाली अभी तक स्थापित नहीं कर पाये हैं। किन के जरिये आप सप्लाई करवायेंगे, वितरण करावेंगे और किन प्राइजिज पर इसका कुछ पता नहीं है। वितरण कब प्रारम्भ होगा और किस राज्य में कौन सी एजेंसी काम करेगी, इस बारे में कोई निश्चय नहीं किया गया है। इसका परिणाम यह है कि सूत के दाम बढ़ रहे हैं। 1972-73 के पहले छः महीनों में सूत का उत्पादन तो घट गया और उसके दाम दो-ढाई गुना बढ़ गये हैं। आपका मंत्रालय इस दिशा में अक्षम सिद्ध हुआ है।

साड़ी वूल की सप्लाई और रेंज स्कैंडल के बारे में इस सदन में काफी चर्चा हुई है। खास तौर से पंजाब में ऊन के वस्त्रों का उत्पादन करने वाले लघु उद्योग पर कच्चा माल न मिलने के कारण भयंकर संकट आया है। मैं आशा करता हूं कि इस सम्बन्ध में अमृतसर के हैंडलूम साड़ी वीवर्स एंड प्रासेजर्स एसोसिएशन लिमिटेड की ओर से मंत्री महोदय को जो मेमोरेण्डम दिया गया है, वह उस पर ध्यान देंगे और इस उद्योग की कठिनाइयों को दूर करने का प्रयत्न करेंगे।

रेंज के बारे में जो कुछ हुआ, वह किसी से छिपा नहीं है। करोड़ों रुपयों का माल धाया और सीधे सीधे बाजार में बिका। मुझे आशा है कि सी० बी० आई० ने इस बारे में जो एनक्वायरी की है, उससे कुछ

निष्कर्ष निकलेंगे। लेकिन इससे इन्कार नहीं किया जा सकता है कि उसमें भारी गोलमाल हुआ है और इस बात से भी इन्कार नहीं किया जा सकता है कि उस गोलमाल में बड़े अधिकारी भी सम्मिलित हुए होंगे।

एस० टी० सी० बहुत सी चीजों का बाहर से आयात करता है और अपने देश में उनका वितरण करता है। इस सदन में यह प्रश्न कई बार उठाया गया है कि एस० टी० सी० द्वारा किसी चीज पर कितना मुनाफा कमाया जाये और उस चीज को किस दाम पर बेचा जाये। एस० टी० सी० किसी चीज पर 10 प्रतिशत मुनाफा कमाता है, किसी चीज पर 20 प्रतिशत मुनाफा कमाता है और किसी चीज पर 70 प्रतिशत तक मुनाफा कमाता है। 70 प्रतिशत मुनाफा कमा कर जब वह उस चीज को किसी उद्योग को देता है, तो उसका परिणाम यह होता है कि उस उद्योग द्वारा बनाई गई चीज बहुत महंगी बिकती है। हम निरन्तर इस बात का प्रयत्न करते हैं कि हमारे देश में धरेलू इस्तेमाल की चीजों का उत्पादन बढ़े और वे उपभोक्ता को उचित दाम पर मिलें। लेकिन जब एस० टी० सी० 70 प्रतिशत मुनाफा कमा कर किसी चीज को उद्योग को देता है, तो उससे बनाई जाने वाली वस्तुएं भी बाजार में महंगी बिकती हैं। मैं चाहता हूं कि मंत्री महोदय इस बारे में स्थिति स्पष्ट करें। स्टेनलेस स्टील के बारे में भी छोटे उद्योग वस्त्रों को माल मिलने के बारे में शिकायत है, इसे आप दूर करें।

आंकड़ों को देखने से पता चलता है कि एस० टी० सी० सल्फर पर हाइएस्ट मुनाफा कमा रहा है। कुछ कैमिकल्स के बारे में सरकार ने यह व्यवस्था कर रखी है कि चूंकि देश में उनका उत्पादन भारी मात्रा में होता है, इसलिये विदेशों से उनके आयात पर प्रतिबन्ध लगा हुआ है। इम्पोर्ट ट्रेड कंट्रोल पालिसी 1972-73, के वाल्यूम 1, पेज 199 पर "कैमिकल्स, दि इम्पोर्ट आफ विच विल नाट बी एलाउड" के अन्तर्गत एल्युमिनियम फास-फाइड भी आता है। लेकिन "कैमिकल इंडस्ट्री न्यूज" नामक पत्रिका के एपेंडिक्स के पेज 6 पर बताया गया है कि कितना एल्युमिनियम फासफाइड बाहर से मंगाया गया। उस में क्वॉंटिटी 40.0 एम० टन और उसकी कीमत 411 हजार रुपये दी गई है। यद्यपि देश में एल्युमिनियम फासफाइड का उत्पादन भारी मात्रा में होता है, लेकिन फिर भी किसी कम्पनी विशेष के प्रति सहानुभूति प्रकट करने के लिये सरकार द्वारा उसको निर्यात किया जाता रहा है। मैं उस कम्पनी का नाम बता सकता हूं। उस कम्पनी का नाम डेनिशिया (आई) लिमिटेड है और उसको जी० डी० आर० से 9930 किलोग्राम एल्युमिनियम फासफाइड जिसकी कीमत लगभग एक लाख रुपये है, मंगाने की अनुमति दी गई। यह कैमिकल हमारे देश में काफी पैदा हो रहा है और उसको बाहर भेजा जा सकता है। लेकिन यहां पर साल डम्प हो रहा है फिर भी किसी फर्म को लाभ पहुंचाने के लिये उसको बाहर से मंगाया जा रहा है। मंत्री महोदय, उत्तर देने समय बतायें कि इस प्रकार की घाघली में किन लोगों का हाथ है।

बंगाल में फाइबर रोप इंडस्ट्री को उसका रा मैटीरियल-सिसल एंड मैनिफा फाइबर नहीं मिल रहा है, जिसके कारण वह इंडस्ट्री सफर कर रही है। इसका परिणाम यह है कि उसमें काम करने वाले हजारों मजदूरों के सामने बेरोजगारी का संकट खड़ा हो गया है।

काटन, चमड़ा और फाइबर रोप आदि उद्योगों के लिये रा मैटीरियल की शार्टेज के कारण आन्तरिक व्यापार से सम्बन्धित उन छोटी छोटी इंडस्ट्रीज में गिरावट आई है। मैं आशा करता हूं कि मंत्री महोदय इस तरफ ध्यान देंगे।

अभी एक माननीय सदस्य ने टी इंडस्ट्री के बारे में चर्चा की है। मैं उसमें विस्तार से नहीं जाना चाहता हूं। लेकिन पब्लिक एकाउन्ट्स कमेटी, 1971-72 की 28वीं रिपोर्ट में बताया गया है कि चाय बागान में फारेनर्स द्वारा जो एनक्रोचमेंट की गई है, सरकार उसको समाप्त करने में असफल रही है। सरकार चाय बागान के सम्बन्ध में कोई सुनिश्चित नीति निर्धारित नहीं कर पाई है। सीलिंग के बारे में कोई स्पष्ट नीति या विचार-धारा न होने के कारण चाय-बागान के मालिकों ने चालीस पचास बरस पुरानी टी बुशिंग के स्थान पर नया प्लान्टेशन नहीं किया गया है। इसका परिणाम यह है कि हमारे इतने बड़े उद्योग को हानि पहुंच रही है और उसमें काफी गिरावट आई है। हमारी चाय की क्वालिटी गिरी है। मैं चाहता हूं कि मंत्री महोदय इस उद्योग की ओर ध्यान देने की कृपा करें।

[डा० लक्ष्मी नारायण पाण्डेय]

खादी ग्रामोद्योग के कर्मचारियों को ठीक वेतनमान नहीं दिये जा रहे हैं। मेरा निवेदन है कि उन लोगों की न्यूनतम मांगों की पूर्ति की जाये और उन्हें ठीक वेतन दिये जायें, ताकि खादी तथा अन्य लघु उद्योगों का विल्लेज इंडस्ट्री के रूप में उत्थान हो। वहाँ काम करने वाले कर्मचारियों का शोषण बन्द हो।

एक्सपोर्ट्स में हमारे असफल रहने का एक कारण यह है कि कई बार हमारे देश में क्वालिटी की तरफ पूरा ध्यान नहीं दिया जाता है और हम क्वालिटी में पिछड़ जाते हैं। इसी कारण श्रीलंका और बर्मा को हमारे देश में मसालों और चिल्लीज व ओनियन का निर्यात घट गया है। हमारे निर्यात में लाखों रुपये की कमी हुई है। हम अपने देश से छोटी छोटी किन्तु कई वस्तुएं निर्यात कर सकते हैं, उदाहरण के लिये राकफास्फेट, पापीहस्क को भी निर्यात किया जा सकता है। इनसे भी करोड़ों रुपयों की विदेशी मुद्रा अर्जित की जा सकती है।

हमारी ठीक क्वालिटी हो और हम ठीक क्वांटिटी में समय पर सामान दे सकें। इसका विचार जरूरी है। इस के साथ साथ हमारा जो शिपमेंट में बहुत ज्यादा टाइम लगता है वह कम हो। काडला जो व्यापार क्षेत्र है वहाँ हमारे व्यापारी आ कर के व्यापार करने में हिचक अनुभव करते हैं। उस की तरफ माननीय मन्त्री जी देखें कि उन की क्या कठिनाई है? हमारा निर्यात व्यापार बढ़े और आयात और निर्यात में एक सन्तुलन पैदा हो जिस से हम अपनी पूंजी बढ़ा सकें।

निर्यात अधिकतम हो और आन्तरिक आवश्यकता की वस्तुएं जो हैं हम अधिक से अधिक अपने यहां उत्पादन कर के उन की पूर्ति करें। देश के अन्दर जो आवश्यक वस्तुएं हैं जिन के कारण हमें आयात करना पड़ता है उन की पूर्ति हम अपने यहां करें जिस से आयात में कमी हो। अपने यहां जो इस प्रकार के काम करने वाले लोग हैं उन के मन में किसी प्रकार की हिचक न हो और वह देश के व्यापार को सक्षम बनाने में तत्पर हों। इन तमाम बातों की ओर मन्त्री महोदय ध्यान दें, यही मुझे निवेदन करना है। मैं चाहूंगा कि आर्थिक स्वायत्तता या स्वावलम्बन के लिए व्यापार मन्त्रालय अधिक प्रभावी ठोस कदम उठावे जिससे कि हमारा अर्थतन्त्र सुदृढ़ हो सके।

श्री माधोराम शर्मा (करनाल) : उपाध्यक्ष महोदय, मैं मिनिस्ट्री आफ कामर्स की डिमांड्स को सपोर्ट करने के लिए खड़ा हुआ हूँ। अभी पिछले दिनों इसी मार्च की 9 तारीख को सूत के बारे में एक कण्ट्रोल आर्डर जारी किया गया था और उस की वजह से जो खड्डों के काम करने वाले हैं उन को बहुत बड़ी तकलीफ हुई है।

15 hrs.

[Shri K. N. Tiwary in the Chair.]

मैं हरियाने के पानीपत क्षेत्र से आता हूँ जहाँ पर कि 16 और 18 हजार के बीच में खड्डियां हैं और उन खड्डियों पर काम करने वालों को एकदम इस सूत के कण्ट्रोल के बाद जो तकलीफ हुई और सूत मिलना बन्द हो गया, सूत पर ब्लॉक हो गया, उस से उस इंडस्ट्री को आज बड़ी भारी मुसीबत का सामना करना पड़

रहा है। काफी बर्कर उस से बेकार हो गए हैं। इस से पहले सूत मिलता था। महंगाई उस की जरूर थी। लेकिन हर खड़ी वाला सूत बाजार से खरीदकर अपना काम चला लेता था। दूसरी जगहों की तरह पानीपत में खड़ी का काम बहुत ज्यादा बड़े आदमियों के हाथ में नहीं है। बल्कि बहुत से लोगों की एक एक दो दो चारचार खड़ियां हैं जो रोजाना या दूसरे तीसरे दिन बाजार से सूत ले कर और बुनाई का काम कर के गुजारा करते हैं। उस काम से वह अपना जीवन-निर्वाह करते हैं। लेकिन एकदम सूत के महंगा होने से और इस कंट्रोल के बाद उन पर जो मुश्किल आई, अभी एक महीना हो गया उस का हल नहीं निकला और वह बेकार हुए चले जा रहे हैं। इसलिए मैं गवर्नमेंट से कहना चाहूंगा कि वह उन को सूत दिलाने के लिए कोई उपाय करे। मुश्किल की कोई बात नहीं है। पानीपत का जो खड़ी का काम है वहां पर चढ़ें खेस और टपेस्ट्री वगैरह इस किस्म की चीजें बनती हैं। बरौक काउण्ट का सूत पानीपत वालों को नहीं चाहिए और न ही उन्हें बम्बई या मद्रास से बारीक सूत मंगा कर देने की जरूरत है। वह सूत हरयाने के अन्दर, दिल्ली के अन्दर और पंजाब की मिलों में ही बनता है। वहीं से वह सूत उन को मिल सकता है। लेकिन एक महीने के अन्दर जब तक एक किलो सूत जो उन को सप्लाई नहीं हो सका। जो डिमाण्ड टैक्सटाइल कमिश्नर को भेजी भी है वहां से बहुत कम एलाटमेंट हुआ है और वह सूत भी अभी तक नहीं पहुंचा। यह कितनी दिक्कत की बात है।

उसी स्टेट के अन्दर मिलने वाला या दिल्ली जो हरयाने के नजदीक है, उस की मिलों से मिलने वाला सूत और उस का इन्तजाम करने में एक महीने से भी ज्यादा समय लग जाय और इण्डस्ट्री के गरीब मजदूर परेशान हों, यह एक बड़े ताज्जुब की बात है कि इस इन्तजाम करने के अन्दर कितनी खामी और कितनी सापरवाही इस्तेमाल में लाई जा रही है और किस तरीके से उन्हें परेशान किया जा रहा है। मैं मन्त्री महोदय से कहूंगा कि वह इस चीज को अपने ध्यान में लाएं और जल्दी से जल्दी उस इण्डस्ट्री में जो लोग तबाह हो रहे हैं जिन की खड़ियां बन्द होती चली जा रही हैं उन को सूत देने का बन्दोबस्त करें ताकि वह उस का पूरा फायदा उठा सकें और अपने रोजगार को पूरे तरीके से चला सकें। यह चीज जो मुझे सूत के बारे में कहनी थी।

दूसरी चीज एक और कहना चाहता हूं। अभी इण्डस्ट्री की बात हुई। मैं इण्डस्ट्री के बारे में बहुत कुछ तो नहीं जानता। लेकिन एक बात मेरी समझ में अभी नहीं आई। छोटी सी चीज है। मैं एक मिसाल के तौर पर बताता हूं। बहुत से लोगों को शहरों में स्टील का कोटा एलाट होता है। मामूली चढ़ें होती हैं और उन चढ़ों से वह बाल्टी और ट्रंक वगैरह बनाते हैं। कंट्रोल से उस का एलाटमेंट किया जाता है। जिस आदमी को वह कंट्रोल के भान पर मिलता है बहुत कम लोग हैं उन में से जो उसे बनाते हैं। ज्यादातर वह उसे ब्लैक में बेचते हैं और मजदूर ब्लैक में खरीद कर उस से बाल्टी या ट्रंक बनाते हैं। वह भी उसे बाजार

[श्री माधोराज शर्मा]

में बेचते हैं और जिस को हम कन्ट्रोल के भाव चढ़ें देते हैं वह भी मजदूरों से ही बनवा कर बाजार में बेचते हैं। खरीदार को उसी महंगे भाव पर वह चीजें मिलती हैं जिस भाव पर कि उस को ब्लैक में चढ़र खरीद कर उस से बाल्टियां या ट्रंक तैयार करने वालों से मिलती हैं। तो कन्ज्यूमर को तो उस का कोई फायदा नहीं है। फिर मेरी समझ में नहीं आता कि हम इस तरह से रामेटीरियल कुछ लोगों को ज्यादा मोटा होने के लिए, ज्यादा पैसा उन के पास जमा करवाने के लिए क्यों एलाटमेंट करते हैं? हम अगर गरीब आदमी को नहीं दे सकते और कन्ज्यूमर को उस का फायदा नहीं मिलता है तो गवर्नमेंट खुद उसे महंगे भाव पर बेचे और वजाय टैक्स लेने के बीच का जो फायदा है उसे अपने पास रखे। कन्ज्यूमर को उस का फायदा न हो और कुछ लोग बीच में ब्लैक का पैसा उस में से खाँय, यह बात कुछ मेरी समझ में नहीं आती।

उन के बारे में भी मैं कहना चाहता हूँ। शडी यार्न जो आस्ट्रेलिया से इम्पोर्ट होता है लूधियाने के बड़े बड़े कारखानेदार उस का यही फायदा उठाते हैं कि अपने लम्बे लम्बे कोटे उन्होंने दिए हुए हैं जिस में से बहुत थोड़ा माल अपने कारखानों में वह इस्तेमाल करते हैं और बहुतों ने तो बिल्कुल फर्जी कारखाने का नाम रखा हुआ है, कोटा आया और उन्होंने उसे ब्लैक में बेच दिया। तो जो उन का माल तैयार करने वाले हैं वह उस से माल खरीद कर बाहर एक्सपोर्ट भी करते हैं और यहां पर भी वह उस माल को बेचते हैं। उस का नतीजा यह है

कि वे लोग जिम के बड़े बड़े कोटे बंधे हुए हैं बीच में ब्लैक का पैसा खाते हैं और आराम से बैठ कर मौज उड़ाते हैं लेकिन वह गरीब आदमी जो खड़ी पर उस माल को बनाता है और कन्ज्यूमर को बेचता है उस को ब्लैक में खरीदना पड़ता है और ब्लैक में खरीदने के बाद जब वह उस से माल तैयार कर के बेचता है तो कन्ज्यूमर को वह महंगे भाव पर मिलता है। तो यह इस तरह से जो कोटे बांधने का काम है कम से कम मेरी समझ में नहीं आया कि इस से क्या फायदा है? जो आप कोटा देते हैं अगर उस से कन्ज्यूमर को सस्ते भाव पर चीजें न मिले तो बड़े-बड़े मिल वालों को यह कोटा बांध कर देना और उन के पास ब्लैक का पैसा जमा करवाना, इस से क्या फायदा है? इस पॉलिसी में कोई तबदीली आना चाहिये ताकि आम आदमी उन चीजों को सस्ते दामों पर खरीद सके। मैं जानता हूँ लोगों ने एक एक नहीं कई कई फर्म बना रखी हैं। बहुत से लोगों ने इन्फैक्टरी ने मिलकर के फर्मों के नाम रखे हुए हैं। कारखाने उनके आठ-आठ साल से नहीं लगे और आठ-आठ साल से वे उन्हीं कारखानों के नाम से कौंटा लेकर हर माल उसे ब्लैक में बेच रहे हैं। ऐसी एक नहीं सैकड़ों मिमालें मिल सकती हैं। अगर यह हाल हों तो आप गरीब आदमी को किस तरह से सस्ती चीजें दे सकते हैं? आप यह जो सोचते हैं कि कीमतें कम आयें, वह कीमतें किस तरह से कम आ सकती हैं? कीमतें कम तभी होंगी कि जो कोटा गवर्नमेंट उनको सस्ते दामों पर देती है उसका जो माल बनता है, वह

श्री मुनासिब कीमतों पर आम इस्तेमाल करने वालों को मिले—वरना इसका कोई फायदा नहीं है।

आज आपने सूत पर कन्ट्रोल किया है—ठीक है। कीमत बढ़ रही थी, कन्ट्रोल होना चाहिए था और मुनासिब तरीके पर होना चाहिये था और मैं समझता हूँ कि उस पर मुनासिब तरीके से अमल भी होगा। लेकिन अगर ठीक तरीके से अमल नहीं हुआ तो क्या नतीजा निकलेगा। जब लोग देखेंगे कि सूत पर ब्लैक-मार्केट है, लोग अफसरान को पैसा देकर फर्जी कोटा बनवा लेंगे और उसका इस्तेमाल खुद नहीं करेंगे। हर महीने कोटे की गांठों को लेकर ब्लैक में छोटे छोटे लोगों को, जिनके पास एक या दो खड्डियां हैं, ब्लैक में बेच देंगे। इस तरह से बिना माल बनाये फायदा उठा लेंगे। इसलिये जब तक आप डिस्ट्रीब्यूशन पर ठीक तरह से अमल नहीं करावेंगे, ईमानदारी से लोगों के अन्दर कोटा डिस्ट्रीब्यूट नहीं होगा, तब तक इस कन्ट्रोल के फायदे के बजाय नुकसान होगा। . . .

श्री नरेन्द्र कुमार साल्वे (बेतूल) : जब तक चट्टोपाध्याय साहब मिलों को नहीं लेंगे, डिस्ट्रीब्यूशन ठीक नहीं होगा।

श्री माधो राम शर्मा : इसलिये मैं कह रहा हूँ कि आपने सूत पर कन्ट्रोल कमी की वजह से किया है—अच्छा किया है, लेकिन उसके मिलने में जो देरी हो रही है वह दूर होनी चाहिये। हरियाणा दिल्ली से दूर नहीं है, वहाँ पर सूत की मिलें भी हैं। पानीपत के अन्दर जो 16 हजार खड्डियां हैं,

उन्होंने कभी भी बम्बई या मद्रास से सूत नहीं मंगाया, वहाँ के सूत से उनका काम चलता रहा है। अब अगर उन्हें एक महीना भी सूत नहीं मिला तो वे अपनी खड्डियों को बन्द करने पर मजबूर हो जायेंगे। ऐसी हालत में मेरी समझ में नहीं आता कि हम किस तरह से इसके कन्ट्रोल को चला सकेंगे, किस तरह से इसका डिस्ट्रीब्यूशन चल सकेगा।

मुझे ये दिक्कत आपके सामने रखनी थी। मैं उम्मीद करता हूँ कि मिनिस्टर साहब इन पर ध्यान देंगे और जल्द से जल्द इस मुसीबत को दूर करने की कोशिश करेंगे।

श्री झारखण्ड राय (घोसी) : मान्यवर, मैं आपका आभारी हूँ, आपने मुझे इस विषय पर बोलने के लिये थोड़ा समय दिया। मैं इस समय केवल एक विषय की तरफ आप का, इस माननीय सदन का तथा सरकार का ध्यान आकृष्ट करना चाहता हूँ। देश का जो सब से प्राचीन लघु उद्योग है, जिसे हैंडलूम के नाम से पुकारा जाता है, तथा अब जिसमें पावर लूम भी जोड़ दिया गया है—यह कितना विशाल है, इसकी कल्पना आप इस बात से कर सकते हैं—“कृषि में लगे हुए व्यक्तियों के बाद हमारे देश की सब से बड़ी जनसंख्या इस उद्योग में लगी हुई है।” आज लगभग दो करोड़ व्यक्ति इससे रोटी कमाते हैं।

उत्तर प्रदेश के 40 लाख आदमी इससे अपनी आजीविका अर्जित करते हैं। यह एक ऐसा उद्योग है जो करोड़ रुपये की विदेशी मुद्रा अर्जित करता है, लाखों आदमियों को रोजगार देता है—ऐसे उद्योग के प्रति अब तक के पिछले 25 वर्षों में हमारी सरकार की नीति बिल्कुल उपेक्षापूर्ण और सीतेली मां जैसी

[श्री आरसंभे राय] :

रही है। केवल उत्तर प्रदेश के पूर्वांचल के आजमगढ़ जिले में, जो उत्तर प्रदेश के 16 पिछड़े हुए जिलों में से एक है, इस समय 40 हजार हेंडलूमज हैं, जिनमें से 30 हजार बन्द पड़ी हुई हैं। 4 हजार पावर-लूमज हैं, जिनमें से 3200 बन्द हो गई हैं। डेढ़ लाख आदमी भुखमरी के कागार पर खड़े हैं। यह स्थिति क्यों पैदा हुई ?

माननीय चट्टोपाध्याय जी ने 9 मार्च को इस बात की घोषणा की थी कि सूत का पूरा कंट्रोल सरकार अपने हाथ में लेगी और उसका वितरण करेगी। तीन-चार दिन के बाद यानी 12-13 तारीख तक मिलों से सूत निकलना बन्द हो गया, लेकिन जो सूत मार्केट में जा चुका है, उस से 10-12 दिनों तक हिन्दुस्तान में—हमारे उत्तर प्रदेश के पूर्वांचल में, अन्य भागों में, काम चलता रहा, लेकिन जब 27-28 तारीख को स्थानीय अधिकारियों ने लोकल-स्टॉक भी अपने हाथ में ले लिया तो छोटी-छोटी खड्डियों को भी सूत मिलना बन्द हो गया। अब तक इस सदन में इस बात की आवाज उठाई जाती रही थी कि सूत का दाम बेहद बढ़ता जा रहा है, दिसम्बर, 1971 के बाद सूत के दामों में जो बढ़ोतरी हुई है, वह दुगुनी से भी ज्यादा हुई है, इस पर कंट्रोल किया जाय। लेकिन अब इस बात का हाहाकार मचा हुआ है कि सूत मिलता ही नहीं है, किसी भी दाम पर सूत नहीं मिल रहा है। सूत के बढ़ते हुए दामों का अब सवाल नहीं है, अब तो सूत के मिलने या न मिलने का प्रश्न है। उत्तर प्रदेश के गोरखपुर, बस्ती, आजमगढ़, फैजाबाद जैसी जगहों पर किसी दाम पर सूत नहीं

मिल रहा है, नतीजा यह है कि अगर यही स्थिति रही तो आप विश्वास मानिये, 10 दिनों के अन्दर सारे पावरलूम, हेंडलूम बन्द हो जायेंगे, लाखों आदमी भुखमरी के शिकार होंगे और वह बेकारी जो पहले ही भयावह रूप धारण किये खड़ी है और अब तक उसका कोई समाधान नहीं मिल पा रहा है, उस में और ज्यादा इजाफ़ा हो जायेगा और वह स्थिति कितनी विस्फोटक होगी, आप उसकी कल्पना कर सकते हैं।

सरकार ने वितरण प्रणाली बनाये बिना सूत पर कंट्रोल कर लिया है—कंट्रोल करना जरूरी था, हम तो राष्ट्रीयकरण के पक्ष वाले हैं, लेकिन वितरण प्रणाली बना कर सूत पर कंट्रोल करना चाहिये था। जो पुराना डिस्ट्रीब्यूशन सिस्टम था, वह भी भंग हो गया और नया बना नहीं, नतीजा यह हुआ कि सूत का मिलना ही बन्द हो गया। मैं आपके सामने एक नज़ीर देना चाहता हूँ—उत्तर भारत में सब से बड़ा पावरलूम का केन्द्र मऊनाथ भंजन है जो आजमगढ़ जिले में है। वहां पर 82 व्यापारी सूत का व्यापार करते थे, मिलों से सूत लेते थे और सब को दिया करते थे। अब उन की जगह सरकार ने 12 लाइसेंसीज एप्वाइन्ट किये हैं। कहां 82 और कहां 12—यह समाजवाद हो रहा है, यह तो मोनोपोलाइजेशन है। अगर 82 लोगों को दिया जाता तो थोड़ी-थोड़ी दाल-रोटी सब को मिलती, लेकिन उनकी जगह सारा व्यापार 12 आदमियों के हाथ में चला गया। इसके अलावा इसमें एक शर्त यह दी गई है कि जिसकी 24 हजार रुपये से ज्यादा की बिक्री साल में होगी उस को लाइसेंसी बनायेंगे।

समाजवाद की बात और पूंजीवाद को बढ़ावा, समाजवाद की चर्चा के आवरण में पूंजीपतियों को बढ़ावा, हर जगह जो पूंजीपति हैं उन को तरजीह और जो छोटे हैं उनको दबाया जा रहा है—यह समाजवाद की बात नहीं है, यह तो मामूली बुर्जुआ सिस्टम की नहीं है ।

दाम की बात को लीजिये—प्राज सरकार ने 1972 में जो दाम थे उनको स्टण्डर्ड माना है । 1971 में बंगला देश के स्वाधीनता संग्राम के बाद जो मनमाने दाम बड़े, हिन्दुस्तान के मगरमच्छ सूत के व्यापारियों ने उस एक साल में जो दाम बढ़ाये, उन बड़े हुए दामों को आप ने स्टण्डर्ड माना है । यह घोर अन्याय है । पूरे उत्तर भारत में बुनकरों की मांग थी कि 1971 के दिसम्बर में जो दाम थे, उस को स्टण्डर्ड प्राइस माना जाये और उसी हिसाब से सूत मिले—वही स्टेज हो या रेशम हो, लेकिन सरकार ने 1972 वाले को माना, जो बहुत बड़े हुए दाम हैं । पूंजीपतियों ने लूट कर पैसे से अपने घर को भर लिया और सरकार ने उसको मान लिया—यह अन्याय है ।

इतना ही नहीं—आज देश में बिजली का संकट है, जिसकी वजह से भी दामों में इजाफा हुआ है, यातायात के खर्चों का भी दामों पर असर पड़ा है, इन सब को जोड़ कर पावरलूम और हैण्डलूम को सूत मिलेगा । ऐसी स्थिति में मैं समझता हूँ कि इस कुटीर उद्योग ने, जिसने अंग्रेजों का मुकाबला किया, ब्रिटिश साम्राज्यवाद का डटकर मुकाबला किया, बंगाल और पूर्वीय भारत में, वह उद्योग आज बिल्कुल मौत के कगार पर खड़ा है ।

आखिर मैं यह कहना चाहता हूँ सुझाव के रूप में कि कंट्रोल तो हो गया अब वितरण की व्यवस्था बहुत जल्दी वार-फुटिंग पर की जाये । दूकानें ऐसी हों जहाँ पर काम का सूत मिले । सारी चीजें देखकर जिस स्थान पर जिस तरह के सूत की जरूरत है—वह रिकार्ड मौजूद है—उसी तरह का सूत उस स्थान पर मिलना चाहिए । यह न हो कि जहाँ पर 40 नम्बर का सूत चाहिए वहाँ पर 60 नम्बर का सूत दिया जाये और जहाँ पर 60 नम्बर का सूत चाहिए वहाँ पर 40 नम्बर का सूत दिया जाये—इससे दोनों जगह के कारोबार बन्द हो जायेंगे । इसलिए जिस काउन्ट का सूत जहाँ पर चाहिए उसी काउन्ट का सूत वहाँ पर मिले—ऐसी व्यवस्था होनी चाहिए ताकि जनता का यह कारोबार मरने से बचे ।

अन्त में एक आग्रह और करना चाहता हूँ । मैं यू० पी० असेम्बली में 16 साल तक कहता रहा हूँ और यहां भी जब कभी मौका मिला है तब कहा है और आज फिर कहना चाहता हूँ कि अगर हैंडलूम को बचाना है, अगर पावरलूम को बचाना है, बड़े-बड़े पूंजीपतियों की चोट से, अगर इस उद्योग को बचाना है तो कुछ कम्पनों का रिजर्वेशन हैंडलूम के लिए होना चाहिए और कुछ कम्पनों का रिजर्वेशन पावरलूम के लिए होना चाहिए । यदि यह नहीं होगा तो सूती वस्त्र उद्योग इन कारीगरों को खा जायेंगे जैसे कि बाँव भेड़िया भी खाता है और मेढरा भी खा जाता है । इसलिए मेरा आग्रह है कि सरकार बुनियादी तौर पर इस बात को मान ले कि कुछ कम्पनों का रिजर्वेशन हैंडलूम के लिए और कुछ

[श्री शारदादेव राय]

का रिजर्वेशन पावरलूम के लिए होना चाहिए ताकि कम्पटीशन में यह जिन्दा रह सकें और उनके बाल बच्चों की भी दाल रोटी चल सके।

धन्यवाद।

THE DEPUTY MINISTER IN THE MINISTRY OF COMMERCE (SHRI A. C. GEORGE): I propose only a very short intervention, to clarify a few points that have been raised by the hon. friends. All the Members who spoke earlier, had been very kind to the Commerce Ministry by and large and I am happy to note that there are quite a few complimentary remarks.

Only Dr. Pandeya was saying that the export performance shown during the past ten months of the financial year 1972-73, may not be kept up and ultimately, we may not achieve the target. Some points raised by him are not factually correct. It is only in that context that I would like to make a few corrections. It is true that during the first year of the Fourth Plan, though we have targetted for a rate of growth of 7%, we were able to achieve only 5.8% on the average compounded growth. But, in 1972-73, if you take the first ten months, April to January, our export performance is to the tune of Rs. 1557 crores, which over the comparable period of 1971-72 is more than 22% increase. We would never like to give an impression that for the financial year 1972-73, we are going to achieve a rate of growth of 22%. After all, the target was 7%. There is a compound rate deficit to the level of 1.2% and this rate of increase of 22%, we hope, will compensate for the 5.8%. Ultimately, we will be able to perform to the level of 7% when we take the first four years of the Fourth Plan. We do not make a tall claim that this 2% increase will be maintained all through. There are certain limiting factors and the rate of growth may not be to the extent of 22%.

When this note of pessimism was made by a few hon. Members, there was a ten-

dency on this part to forget some of the remarkable progress made in many of the important fields. In the case of jute, 1971-72 was an unusual year. We never expected that in 1972-73 we will be achieving the target and we never expected that we will be keeping to that level. We are not very unhappy over what has happened. Even when we mention the figure of Rs. 1557 crores that has been achieved in the first 10 months or we are hopeful to mention that we are confident that the figure of Rs. 1760 crores target will be achieved, it is not done with any sense of complacency. We are, every day, trying to improve upon what is prevailing and export progress is a constant exercise going on in the Ministry of Commerce.

It may be true that in the engineering goods, our performance is not up to the market. Whenever there are any constructive criticisms, we are quite prepared to take them and take corrective measures also.

डा० लक्ष्मी नारायण पांडेय : मैंने जो कुछ भी कहा है आंकड़ों के आधार पर कहा है। सरकार की जो रिपोर्ट है उसी को पढ़कर मैंने कहा है, अपनी तरफ से कुछ भी नहीं कहा है। आप अपनी रिपोर्ट देखें।

SHRI A. C. GEORGE: I will make only a short intervention and I am not yet through it.

I hope, the hon. Members will agree that during the first part of 1972, we were functioning under great strains and, naturally, these limiting factors are showing in the performance of 1972-73 also. In the case of engineering goods which are non-traditional items, it will be the endeavour of the Ministry, of the Government of India, to see that more and more of non-traditional items are exported. For quite a long time, our exports were based on agricultural commodities or primary raw materials. It is only if we are able to have more of value added to our exports that the situation will improve. That is the

ideal situation we are trying to achieve. But that does not mean that we should ignore our traditional items also. One of our traditional items is jute which will not be to the level of 1971-72 but it is better than that of 1970-71.

In the case of tea, there were quite a few criticisms about it. Tea is a beverage. In international market, tea exports, have reached a point of saturation. The trend among younger generation is to switch over from tea to other modern and different beverages. (*Interruptions*) Some say, it is soft drinks; there may be tendency for hard drinks also. All the same, the fact remains that the consumption of tea is not showing a steep rise, if not already stagnant. But in that stagnant export market, the Indian tea has really picked up. We have never suffered because of other strains that remain on the international field.

In 1972, our export was one of the highest during the past 5 years. We are trying hard to hold on to the international market. In the last FAO Conference on Tea, our delegates were able to persuade other participants to see that Indian tea keeps the supremacy or dominant position in the international market.

I do agree with the hon. Members when they mentioned a few points about modernisation. It is true that quite a few planters are not giving due attention to the modernisation or re-plantation. We are attending to this problem and soon we will be able to show some good results, specially in the case of sick tea estates.

Coming to coffee, in 1971-72, our export was only to the tune of Rs. 22 crores. In 1972-73, we have already achieved the target of Rs. 33 crores. A few friends were asking us how the internal price of coffee has gone up. It is obvious that when we make a hectic attempt to improve our exports, naturally, it will have reflection on the international market also. In this particular period of gap when there are certain developments in the International Coffee Council, Indian Coffee is making a really

good effort to see that we have a hold in the market. Our position has improved.

I would like to mention two important items. I am not sure whether I will be able to agree with Dr. Laxminarain Pandeya about cashew. In cashew, in 1970-71 our export was only to the tune of Rs. 55 crores. In 1971-72, it went up to Rs. 61.3 crores which was a good record. In 1972-73, we have not only exceeded the previous record but have also established a very high level, Rs. 65 crores. I do not know how Dr. Laxminarain Pandeya was giving that figure. I am prepared to check up. But this is a fact. Even if something has gone wrong in the Report, I stand by my figures....

DR. LAXMINARAIN PANDEYA: I referred to the Economic Survey.

SHRI A. C. GEORGE: This fact remains. If a correction is to be made, it may not be in what I said but in the Report that was printed.

In regard to marine export also, it has to be mentioned that, in 1961, this was almost a new venture. It was only Rs. 4 crores and in 1971-72 we had increased it 11-fold; it went up to Rs. 44.5 crores. In 1972-73, I am happy to inform this August House, we have gone beyond Rs. 58 crores and, quite hopefully, during the next two or three years, we may be crossing even the Rs. 100 crore mark. This is a field where we have earned hard currency and given employment and higher prosperity to the poor fishermen on the coasts of our country.

There is a Cut Motion from the hon. Member, Shri Janardhanan, about the alleged import of rubber. He was mentioning that in his speech also. I take this opportunity to mention a few words about rubber. By the normal standards, we may not call natural rubber as an export item, but it has to be remembered that, three years back, we were importing rubber. This year, our production is 1,13,000 tonnes. Because the production of natural rubber increased and the consumption of

[Shri A.C. GEORGE]

natural rubber did not come up to the expectation, there was a glut in the market. Three or four years back, as I said, we were importing natural rubber, but now we have surplus in natural rubber. Last year, we took measures, because of the glut in the market, to see that import of natural rubber was banned. But there was a small lacuna or discrepancy in that. Some of our tyre manufacturers were exporting tyres and as an import entitlement they were getting natural rubber which was considered as a raw material for tyre manufacturers. When this lacuna was noticed, we took measures to see that it was completely banned. Recently a notification has been issued, and I can assure the hon. Member that, from now on, until we have a situation where we have deficit in natural rubber, import of natural rubber will be completely banned.

SHRI C. JANARDHANAN: What about synthetic rubber ?

SHRI A. C. GEORGE: There is a plant in Rai Bareli which is producing more than 30,000 tonnes per year. This has been in existence for so many years, and our requirements are being met. Synthetic rubber of the type we are producing in Rai Bareli is not imported. There is a special type of synthetic rubber which is not a replacement for natural rubber and which is used by tyre units; the tyre units cannot function without that type of synthetic rubber. This type of special synthetic rubber which is imported is not a replacement for natural rubber. It will never affect the natural rubber market in the country. This comes to only 4,000 or 5,000 tonnes. (*Interruptions*)

About purchase, the hon. Member knows it very well that the STC is making its best effort to see that the quota is removed. Over and above that, we have given a loan of Rs. 2.5 crores to the Kerala Government so that the Kerala Government machinery can also be geared up for purchase of natural rubber. I hope it is functioning well.

Some criticisms were made by the hon. Member. It is about leather. Our main competitors in this field were Brazil and Argentina. Because these countries took measures to ban the export of semi-finished leather goods, we had an unusually booming export market. In the beginning it was found to be rather encouraging, but, later we found that this unusual export of semi-finished leather is ultimately doing harm to the cobblers and the shoe-makers and the foot-wear industry. When this unhealthy trend was noticed, as early as 14th December, 1972 the semi-finished leather export was canalised through STC. This was a mere regulatory and disciplining measures. I do not make out the point that just by canalisation, all the problems will be solved. This was to institute regulation and discipline in its particular operation. As mentioned earlier in this House, it is our intention to reduce the export of semi-finished leather as much as possible because the value added from semi-finished to finished is 2 : 3. Last year we had in export of Rs. 84 crores and this year we are having an export of Rs. 164 crores. Our intention is not to have this unusual rise in exports. We would like to have more of finished leather exports and in fact, leather goods, to go as exports. We are taking all necessary measures like incentives for finished goods exports and disincentives for semi-finished exports and these measures are being taken promptly and without any delay.

I will conclude by saying that our traditional items especially the agro-based commodities have performed well and to that extent, our farmers and ryots deserve congratulations. But, we are not going to be complacent by that fact alone because more and more of non-traditional items and more and more of finished goods exports and more and more of value added is the aim of the country as well as the Ministry of Commerce.

SHRI DHAMANKAR (Bhiwandi): I rise to support the Demands for Grants of the Commerce Ministry.

I compliment the new energetic Minister, Prof. Chattopadhyaya and his able colleague who are striving hard to increase the exports and minimise the imports as far as possible, because, that is the only way of increasing the national wealth.

The Commerce Ministry, if it goes hand in hand with the Industrial Development Ministry, I feel, sure, that the commerce and trade in this country will be augmented to a very great extent.

One hon. friend suggested that the import and export business should be nationalised. I feel that it is as good as nationalised. Most of the exports are channelised through Export Promotion Councils for different commodities and imports are canalised through STC and MMTC.

I find that the import of certain chemicals has to be reviewed again. If you look to the list of the articles allowed to be imported, item No. 55 is Dodocyl Benzene. It is required for detergent manufacture. They are importing this to the tune of lakhs of tonnes every year. It can be manufactured in India in the refineries. A project of the Government of India is lying, I think, for the last three years with the Ministry of Petroleum & Chemicals. This material is required for the manufacture of detergents. Every year the detergent production is increasing as the Government's policy is to reduce the use of edible oils for manufacture of soap. So, I request the Minister concerned to see that this Dodocyl Benzene scheme is immediately implemented and the imports of this raw material are reduced as far as possible. There are certain items which are not entirely canalised by STC but which are arranged through the STC. For example, there is the items OTS—Orthotonylene Sulphanamide. There are units which are capable of meeting the needs of this country. In spite of it the import of OTS is allowed. I don't understand why this import should be allowed.

Cinopyridine is a chemical for the manufacture of A vitamin and certain other vitamins. The import was banned for more

than a year. STC is thinking to buy 100 metric tonnes of Cinopyridine from America or other countries. It is necessary to import this. Of course, so far as distribution is concerned, it is distributed to monopolists who are in this trade for years together. It is my request that this should be given to small-scale units. Small-scale units should be encouraged. In respect of newcomers, the plea that is advanced is: What is your performance? We will give you according to performance. Since there is no performance, they don't get. Performance cannot be given unless they get the raw material and therefore, I request that this position may kindly be reviewed and necessary steps taken in this direction. There are small-scale units which have invested lakhs of rupees. If they are denied the supply of Cinopyridine it is impossible for them to develop their industry. This is something which should be reviewed. I therefore request the hon. Minister of Commerce to do the needful in the matter.

About polycethelene powder the small-scale manufacturers do not get this and their factories are closed. It is because it is given to largescale people. Smallscale industries deserve consideration at the hands of the hon. Minister, both hon. Minister of Commerce and the Minister of Industrial Development.

When the Prime Minister visited U.P. a deputation met her and she promised them that she will give sympathetic consideration to the needs of the small scale industries. I would urge upon the hon. Minister to do the needful in the matter.

So far as yarn is concerned many people have expressed their anxiety in regard to the supply of yarn. There are three sectors handloom, powerloom and cotton mills. It is the handloom which deserve the maximum of consideration from our hands. It gives employment to thousands of villagers. There are so many agriculturists who are without work and in their off-season they weave cloth. They should be given all encouragement. Preferential supply of yarn should be given to these people and

[Shri Dhamankar]

the handloom sector should be given all consideration. Also equal consideration may be given to the powerlooms also. Powerloom is not a big industry. Several State Governments have encouraged handloom weavers to convert them into powerlooms to increase production. There are two lakhs of powerlooms in the country. Some of them are lying idle since the last one month due to shortage of yarn. There were assurances given in the House that all yarn will be taken over by the Government and distribution will be entirely in the hands of Government. For three weeks no action was taken. The result was, the merchants hoarded lakhs of bales of this yarn and it is sold now at exorbitant prices. Fictitious names of weavers are entered and these bales issued to them. The sale of this unauthorised yarn should be stopped immediately. The cooperative spinning mills are manufacturing yarn for the consumer members. They should be treated as a sort of composite mills. The yarn produced by the cooperative spinning mills should be given to the members only and should not be taken over into the pool system. This is my request.

I think the figures in the Textile Commissioner's office regarding the production of yarn will have to be reviewed. They say that only 3 per cent of fine counts of yarn 60s and above is manufactured in the country. This is not correct. If you look to the figures of 1972, you will find that 9 per cent of fine counts of 60s is produced in the country. It is true that Tamil Nadu was producing the maximum quantity of fine counts. But along with Tamil Nadu, Ahmedabad and Bombay textile mills are also producing some percentage of fine counts of yarn. This yarn has altogether disappeared from the market. What have the merchants in the trade done? They have issued fictitious bills in different names to different powerloom and handloom factories. The bales are lying in the godown. Some State Governments have taken steps to confiscate and seize the yarn. But still lakhs of bales are lying with the merchants in some hidden godowns. This yarn is

not going to come under the pool system. It may be sold in the black market.

The shortage of yarn cannot be cleared in a very short time. I know it will take some time. But what are the powerlooms and handlooms going to do? On the powerloom there is a restriction that where they are licensed to use cotton yarn, they are not allowed to use nylon, viscose or rayon yarn, I would request Government to review this and see if diversification can be allowed for three months, so that if they cannot get cotton yarn, at least they should be allowed to use nylon, viscose or rayon yarn, that is man-made yarn. The Prices of this yarn have also gone up. The spinners have entered into a voluntary agreement with the actual users, but they do not implement it. When it suits them they implement it; When the bazar prices are down, they dump the quota on the actual users; when the prices are up, they sell their quota of 50 percent elsewhere.

The Tariff Commission had submitted a report in 1970 under which the prices of nylon and viscose yarn were to be fixed. I do not know why Government have still not implemented that report. Weavers feel that it is the pressure put on the Government that is preventing Government from accepting and implementing this report about the price structure of nylon and viscose yarn, I urge upon the Minister to review this position and implement the price structure recommended by the Tariff Commission.

With these words, I support the Demands. I would request the Minister to see that the distribution system of cotton yarn to weavers, handloom and powerloom, is implemented as immediately as possible and their grievances minimised as far as possible.

*SHRI R. P. DAS (Krishnagar): Mr Chairman, Sir while speaking on the Demands of the ministry of Commerce I will confine myself to the problems of the Handloom and other village/cottage industries. Many of the previous speakers have highlighted

*The original speech was delivered in Bengali.

the shortage of yarn in the handloom industry and as such I will not dwell upon it in detail excepting to stress how it affects the poor weavers.

Sir, as has already been pointed out, there is an acute shortage of yarn that is supplied to the handloom weavers and there is also a great disparity in the price of yarn in different zones in the country. I submit that an all India price should be fixed for cotton yarn so that the weavers in one part may not be handicapped in competing with the weavers in another part due to higher prices of yarn. The handloom weavers of West Bengal have sometimes to pay as much as Rs. 100 more for cotton yarn as compared to their counterparts in Bombay. This is very unjust. As in the case of coal and steel, Government should fix an all India price for yarn also as otherwise some States will enjoy the advantage of the location of production. The weavers in West Bengal should get yarn at the same price at which it is available in Bombay, Punjab or Haryana. Only then they will be able to enter upon a fair and equal competition with the weavers of other States.

Now, Sir, I will draw the attention of the Government to the problems of the village and cottage industries with particular emphasis on the Brass and Bell-metal industry. These industries are facing serious problems in matters of finance, production techniques, marketing, organisation and competition from the large scale organised sector of the industry. These old established village industries are in a serious financial crisis. There were at one time 72 Brass and Bell-metal industries in Bengal but I do not know how many of them have survived to this day. There have been a rapid fall in their number. Moreover, their technique of production is antiquated and the machinery used by them is very old and obsolete. They need modernisation. The Government should come to their rescue with well formulated plans and schemes to help them survive. Otherwise they will soon become

extinct. The few industries that have managed to survive to this day have done so due to some initiative and efforts of their own. The Government has done precious little to help them. The cost of their production is going up steadily. The price of the raw material used by these industries have gone sky high. The price of brass has gone up to Rs. 15 to 16 per kg. The price of copper has gone up much higher. These industries just does not have the necessary capital to survive against such heavy odds. Sir, as you are aware, the village brass and bell-metal industry has a very close connection with the local village life. Their business prospers at the time of village festivities and fairs. In the non-festive season their business slumps and there is terrible depression. For about six months in a year they have to close down production and the artisans face starvation. At this point the big business men step in and exploit them. They purchase their ware at extremely low prices and sell them elsewhere at a high price thereby making huge profits at the cost of the poor village artisan who is deprived of his rightful gains.

The Nationalised Banks and the STC can play an important role in helping these small producers. The banks should grant loans to them, and their products should also be purchased by such Government agencies during the slack season at just prices. This will help them to continue in production without fear of exploitation and starvation. The Government can also encourage the forming of village cooperatives. These cooperative societies can be advanced loans to promote production and marketing. The various Government emporia should come forward to buy the products of these village artisans so that during the time of depression they may survive.

Today this old established village industry is facing a stiff competition from other large scale industries like the aluminium, steel, glass and pottery. So, a proper plan

[Shri R. P. Das] on the part of the Government is needed to ameliorate the various difficulties and problems faced by this industry, so that they may stand up to the challenge. I do not know whether the Government has any such comprehensive scheme or plan to help this decaying industry to survive. The STC has an important role to play in the marketing of their products. If the STC buys their products, then the trade can hope to have an assured market. The STC should endeavour to export these artistic products of the small sector to our neighbouring countries like Bangladesh, Nepal, Ceylon etc. where they are likely to have a favourable market. Lastly, Sir, I will urge upon the Government to reduce the sales tax and Railway Freight on the goods of this industry. The Sales tax structure should be rationalised. At present the Sales tax is so fixed that the price of the finished product goes up 3 to 4 times. There is multiple sales tax. The raw materials like brass, copper, zinc etc. are taxed every time they are sold. When these reach the small manufacturer, the price becomes considerably higher due to the repeated taxes. Then the finished products are again taxed. This results in rendering the cost of the small manufacturer too uneconomical to compete. I submit, Sir, that sales tax may be charged on the raw material used by these industries only once. There should not be any further tax on the finished product. This will make the cost of the finished product attractive and competitive. Government should also supply the raw materials like copper, zinc, brass etc. to these industries at a fixed price and on preferential basis. The railway freight on the movement of the products of these industries should also be reduced considerably.

Sir, I am sure, if the Government implements the above suggestions it will go a long way in rehabilitating and revitalising this age old village industry which is facing extinction today.

SHRI B. K. DASCHOWDHURY (Cooch-Bihar): Just now I have heard the views of the hon. Deputy Minister who

intervened in the debate and I am really pleased that he tried to explain the position of some commodities so far as his Ministry is concerned. While intervening the Deputy Minister very pleasantly skipped over to say a few words on the largest export earner, jute. It is not my concern who will be replying on which subject but at least it was expected that jute being 20 per cent of the total foreign exchange earned by our country, it was expected the hon. Minister will deal adequately with this aspect of the situation. After jute next comes tea. Both jute and tea industries, two industries in the hands of the Ministry of Commerce, Department of Commerce of the Government of India have a sad tale to tell. I must say that both these industries have all the melancholy that Greek tragedies have.

16 hrs.

Firstly, the annual export in the Jute industry, as I said, is of the value of more than Rs. 300 crores. It is as nearly as 20% or a little more than the total exports made in all items and in all commodities. But, actually, the growers of jute do not get a fair price. It was discussed and raised on a number of occasions in this august House that the growers—the producers must be given certain incentives. They must be given a fair price for the jute which they produce so that they can produce more and more jute and the Government of India, in return, may earn more foreign exchanges. Hardly there is any mechanism by which even this minimum price is given to the jute growers in this country. Jute is grown in huge quantity in the areas beginning from Andhra, Orissa, Bihar, West Bengal, Assam, Tripura and Manipur—all these eastern States—and jute-growers, the poor people, are giving the greatest value just like gold in this country. And these people are not being considered even to have the minimum support price for jute. They are not even being considered to have the benefit of what they are giving to the Government in return.

Sir, in 1971, in this House, I raised a discussion that at least a minimum support

price of jute should be declared by Government and it should be nothing less than Rs. 200 a quintal. But, with the price like in the corresponding commodity, it should be nothing less than Rs. 250 a quintal. But, ultimately, the price was fixed up at about Rs. 123, 124 or 125 a quintal.

Sir, without going through much about this history I want to state clearly the parity for jute with the rice or paddy. It has been declared by the various committees and commissions and experts that one maund of jute's value should be equal to three maunds of paddy or two maunds of rice. We know what is the price of rice which is nearly Rs. 140, 150 or 160 or even more if we go in for the finer quality of rice. Nevertheless, the minimum is Rs. 150 or 160 a quintal. If, according to this ratio, one quintal of jute is equal to two quintals of rice, then for jute, it should not be anything less than Rs. 300. Even this price has not been given correspondingly for jute. Government has taken measures to give incentives to the cotton growers and also to the textile industry. I appreciate it. For the poor cotton growers, for the export of nearly Rs. 100 crores or even a little more than on an average for the past some years, are we not also importing even more than 100 crores, for dye, machines, cotton, long staple cotton—Egyptian cotton—to feed the industry? Will the hon. Minister consider as to what extent this Egyptian long staple variety of cotton is being allowed to be imported in each and every year? The figure is about Rs. 70 to 75 crores annually. If this is the figure according to the hon. Minister, then, to what extent, we are exporting these finished products, manufactured from this finest quality of cotton? I think it is nothing, magnificently nothing.

Now we are importing to the extent of Rs. 70 to 75 crores worth of long staple Egyptian cotton. I understand that it is for the benefit of the textile industry. But, to what extent are we exporting the finished products, the finer quality or finest variety of cloth in various forms? The Minis-

try of Commerce should make it compulsory or obligatory that at least 50% of our finished products from this imported cotton must be exported to earn more foreign exchange. Otherwise, the entire textile industry is a liability in the hands of the Commerce and Industries Ministry.

Whereas a good amount of profit is being made by the jute industry, we do not find any incentives being given to the poor jute growers. Only day before yesterday the Minister, while presiding over a function of the Indian Jute Mills' Association has already given certain hints that some consideration will be shown in the matter of export of finished jute products. I do not know for whose benefits these incentives will be given. I appreciate that certain incentives must be given to increase the volume of production of the jute industry, which in its turn will purchase more and more raw jute from the producers. But to whom should the real benefit be given? Should the incentives be given only to the big industrialists or a fair price should be given to the poor producers, who should be the real beneficiaries? I would expect the minister to clarify whether he will go to the extent of declaring that jute prices would be reviewed and a minimum support price of not less than Rs. 200 per quintal or even more as he finds suitable will be announced here and now.

Coming to the tea industry, we find that over the last few years, about Rs. 2700 crores of foreign exchange have accumulated in the hands of Government from this industry. And, the Government's net revenue by way of export duty is nothing less than Rs. 1500 crores. My hon. friend said, this industry employs nearly 1 million workers throughout the country. My figure is 1½ million workers. So, it is an industry which is giving substantial foreign exchange to the government. It is the industry which gives substantial export duty to the Government. It is the industry employing nearly 1½ million workers. It is the industry which is giving scope to a number of subsidiary employments. But

[Shri B. K. Daschowdhry]

the affairs of this industry have not been looked into. Earlier speakers have referred to this illogical division of tea zones into five zones, the excise duty varying from 25 paise to 150 paise, the highest being in the case of Darjeeling tea—150 paise per kg. The Central Board recommended that the yield of Darjeeling tea being lesser per hectare or per acre compared to the other areas, the labour should get 38 paise per day less. Kindly look at this anomaly. On the one side one agency of the Government declares that Darjeeling tea yield being lesser than other plantation areas, the labour should get 38 paise less. On the other side, accepting that, Government increased the excise duty to 150 paise, i.e. to the extent of 200 per cent or even a little more than that. What a wonderful logic! Production is lesser comparatively than other areas. So, excise duty must be made more and the labourers should be paid less. So, the basic question is whether this sort of irrational and illogical basis of dividing the different plantation areas is congenial to the ultimate interest of the industry and whether it is going to be an incentive to bigger industrial development in respect of tea. What was the fault of the Darjeeling tea? It is the best-priced tea in the world. It must be taxed more. On the labourers' side, because the yield is less so the labourers should be paid less. May I request the hon. Minister to consider this aspect seriously, as it has also been referred to by other members of this hon. House?

The second aspect is incentive. It is very good that incentive is being given to the tea industry. What is the form of the incentive? It is 75 paise for each kilogram of tea exported. To whom is this rebate going? It is going to a few exporters, may be three or four. To whom should this incentive be given? This incentive ought to have been given to the growers, to the labourers who are really producing it, those who are responsible for giving a sizable amount of revenue in the hands of the government. But this rebate of 75 paise per kilogram of export

is given to the exporters, whose number is not more than three or four.

My hon. friend has referred to the auction price in London, which is another peculiar feature of the tea industry. There is tea auction in London. What happens there? The whole consignment of tea is shipped and dumped there. The London local buyers and the buyers of other countries who are assembled there know the quantity and quality. Considering the volume and the quantity, the prices go up or down. My friend has explained it in a better way. When from the South African and other countries the supplies are less in a particular year, the prices are higher by 45 to 49 paise. So, it all depends on the extent of dumping of tea for the London auction.

If we really want to give proper incentives for the growth of the tea industry, the very system of auction has to be changed. Instead of having the London auction by dumping the tea there, is it not possible to have direct auction, sealed tender auction? There is another pattern known as the Dutch system. There the buyer does not know what is the quantity that is dumped in stock and the auction is being done by sealed tenders on the basis of the quality of the tea itself. It will give us a better price. To give some figures, during the last few years our country exported tea to the extent of 5,340 million kg. If we assume that under the present system of London auctions we are getting 10 paise less for each kilogram, our country is the loser to the extent of Rs. 53.40 crores. According to some other calculation it may be up to Rs. 100 crores. The tea industry is being made to lose Rs. 100 crores only because we are following the London auction system. So, let us have the closed tender system which will be most helpful to the tea industry.

The hon. Minister stated that the tea industry is picking up. Is it not a fact that our sale of tea to UK has come down from 49 per cent to 12 per cent? If this is a fact, how does the hon. Minister stand on his argument that it is picking up? Why has it come down from 49 to 12 per

cent ? What is the Tea Board doing ? My hon. friend said that the affairs of the Tea Board are not satisfactory and suggested that it should be reconstituted.

I fully endorse that view. I know many things, being a Member of the Tea Board, which I would not like to disclose here. I have referred to this on a number of occasions to the hon. Minister. What they have done so far ? According to the total demand in the world, in each and every year on an average, the demand for tea in the world is going up to the extent of 4.5%. But, our export sales, is not only not proportionate, but, it is far far below and it is to the extent of 56%. Is this the sort of development that we are having ? Is this the sort of new market that we are developing with the help of this Tea Board ? While the world demand is to the extent of 4.5%.....

MR. CHAIRMAN : You have taken 15 minutes.

SHRI B. K. DASCHOWDHURY : Give me some more time. There are not many speakers.

What I was saying was that, while the world demand is picking up to the extent of 4.5%, and other countries are exporting their commodities to the extent of 11%, 15% and 20% higher, our country is exporting only 56% and not even 1%.

With regard to coffee, the hon. Minister said that exports are going up. I have not collected statistics about coffee. My hon. friend requested me to prefer to this. I can appreciate that the Coffee Board is doing something. But, I cannot appreciate and I cannot say the same thing with regard to Tea Board.

The third point, that I would like to refer is this. What are the functions of the Tea Board ? tea gardens are not really being looked after. The Tea Board is meeting with grave failure in every step. In the matter of sick tea gardens, or even the poorer gardens or the small gardens,

within certain official norms and formulae, these garden-owners are not entitled to get some of the benefits from the Tea Board. But, the sterling garden-owners, the foreign garden-owners, or the garden-owners who have lakhs and lakhs and crores and crores of rupees worth of property, and who we crores of rupees to the Government in various ways are being given free distribution of financial assistance. I would like to ask only one question here. Are we also going to allow these sterling garden-owners, these foreign garden-owners, these big garden-owners and the big tea planters, particularly those who are repatriating huge profits to foreign countries, to have more and more financial assistance from our financial institutions, either through the Tea Board or any other institution ? Are we going to allow them to plunder the booty of this country ? How long we are going to allow this ? Sir, these are various aspects that should be considered.

So also is the case with regard to the brokers in auctions. In short,....

MR. CHAIRMAN : The hon. Member's time is up.

SHRI B. K. DASCHOWDHURY : You are ringing the Bell. I would request the hon. Minister that, so far as the tea industry is concerned, he must have a serious look into this matter. He should also consider as to whether it is possible to take control of full export of this industry, to fully canalise them and also to consider as to what extent, we can take it over, particularly, the sick tea gardens and the small tea gardens.

The sick tea gardens in West Bengal, about 47 of them, are in a very sad state. Some of them are already closing, I would request the hon. Minister to tell us as to what is the policy of the Government, whether the Government will make out a fresh policy with regard to this matter. West Bengal Government had a mind to take over these gardens and to have a new management for this industry, but, because of certain administrative or legal laws, it was not possible on the part of the Go-

[Shri B. K. Daschowdhury]

Government of West Bengal to do so. Here, the Government of India should come forward—the Ministry of Commerce should come forward—to give relief to it so that we may have a chance to revive this industry as well.

One last point. This is about the price of cotton. This is being very much talked about. We all know about the serious and acute problems that are being faced by the cotton industry, particularly, these cottage industries, hand-loom industries and power-loom industries. I am sure the hon. Minister will consider this aspect. But, what about the price of cotton? If the price of some other commodities, can be rationalised in such a way that these are very much vital to the development of the entire country, cotton is also very much vital. Millions and millions of people are depending on this industry, to go for their own home-made industries, hand-loom industries and power-loom industries. So, the price of cotton must be rationalised or the theory of the process of equalisation must have to be accepted, so that in all parts of the country, people can get cotton at the same price; because it is very vital.

SHRI DINESH JOARDER (Malda):
Mr. Chairman, Sir, I want to raise only two or three important questions.

Regarding silk industry in India, the silk is produced mainly in the State of West Bengal and, particularly, in the district of Malda. The raw silk is produced there in bulk. In the world market now the demand for silk has increased. But in our country, the silk cultivation and development of silk industry is neglected like anything. The silk growers are bounded by big merchants who give loans to them. These silk growers have no other alternative to market their produce anywhere in India of their own choice. They are bound to surrender their raw silk, their produce, to these big merchants who procure

silk at a very cheap rate and they earn huge profits, 100 times, 200 times, 300 times, according to the prevailing market rate.

Apart from that, the silk dyeing and printing process is also being controlled by certain privileged businessmen and big houses. The dyeing plants are imported from outside the country and they import colours for dyeing silk from foreign countries. This is being controlled by a few big businessmen and the silk weavers of the country are suffering to a great extent. They are not getting the facilities of silk printing and dyeing and its marketing in the wide market of our country and abroad. So, the silk industry is facing a crisis now-a-days. I want that the hon. Minister should pay proper attention to this industry.

Then, the wig industry is also another industry of our country. There is a very large demand for wigs outside the country. Now, Japan has become the top-most country in the wig industry. The State Trading Corporation has established a wig industry in Madras. Previously, the manufacturers of wigs were in West Bengal. Some small businessmen manufacture wigs and export them to other countries. But the State Trading Corporation has now taken over the wig industry and they have created a mess out of it. Actually, the wig industry is facing a great crisis today and it is at a point of closure. In west Bengal, about 4000 families who were depending previously on wig industry have become totally unemployed now. This also required proper attention by the Ministry.

Lastly, very recently, the Jute Corporation of India has taken on lease one flat on the Theatre Road in Calcutta at Rs. 11 lakhs. Its floor space could hardly be valued at Rs. 1 lakh or so. That building has been taken on lease by the Jute Corporation of India at Rs. 11 lakhs. That building is being owned by the Rampuria group of businessmen belonging to the Rampura family. Previously, in

this House, it was also discussed, when some other flats in the same building was taken on lease by the Indian Oil Corporation, at a fantastic value of Rs. 22 lakhs. Now, in the same building some other flat, at the same fantastic rate has been taken on lease by the Jute Corporation of India. Apart from that, the family members of Rampuria have been given contract for interior decoration of the same flat which has been taken on lease by the Jute Corporation of India.

In this Jute Corporation of India, there was ample opportunity for new employment that was created by the previous Minister, as I have been able to gather. Now that employment opportunity has been sealed by the present administration, and we do not know for what reason and that too in the context of the unemployment crisis that we are facing today. When there was ample scope for employment in the Jute Corporation, we do not know for what reason that has been closed now. I want the hon. Minister to enlighten us on this.

As my friend, Shri Priya Ranjan Das Munsy, mentions, regarding mango, Malda district is very rich in producing mango. Recently we have learnt that in U.P. one plant is going to be installed for manufacturing mango juice to export to Soviet Russia and other countries. Why not install one in Malda? Malda district belongs to north Bengal which is a very under-developed region. I, therefore, request that a mango-juice-producing plant be installed in Malda so that the acute unemployment problem in North Bengal may be removed.

श्री दानोबर पांडे (हजारीबाग) :
समाप्ति जो, यों तो बहुत सी बातों का जिक्र किया गया है लेकिन मैं खासकर अन्नक उद्योग की तरफ आपके साधन से मंत्री जी का ध्यान आकृष्ट करना चाहता हूँ। अन्नक एक परंपरागत वस्तु रही है जो हम हमेशा निर्यात करते रहे हैं और हमेशा इस पर निर्भरता

रही है कामर्स मिनिस्ट्री को लेकिन अभी जितनी दुर्घटनाएँ हैं उतनी गायद पहले कभी नहीं थी। पिछले साल भी हम लोगों ने कहा था कि अन्नक उद्योग की तरफ थोड़ा ध्यान जाये, उसके लिए कुछ करना चाहिए तो पहले के मंत्री महोदय ने कहा था कि हम पब्लिक सेक्टर से इसको कैनेलाइज कर देंगे। इस उद्योग में लगे छोटे छोटे लोग जिनको उद्योगपति तो नहीं कहा जा सकता क्योंकि बिल्कुल काटेज इंडस्ट्री की तरह हजारीबाग के इलाके में, राजस्थान और आंध्र प्रदेश में इसको एक्सपोर्ट के लायक बनाया जाता है तो उन छोटे-छोटे काटेज इंडस्ट्रीज में लगे लोगों को राहत पहुंचाने के लिए यह तय किया गया था कि इसको कैनेलाइज किया जायेगा एम०एम०टी०सी० को मार्केट किन्तु बद-किस्मती की बात यह है कि हम जो कुछ भी घोषणा करते हैं उसके प्रति सीरियस नहीं होते और उस पर गम्भीरतापूर्वक विचार करके कुछ काम नहीं करते। जिसका नतीजा यह होता है कि हमारी घोषणा जो कुछ भी होती है, इस मामले में खास कर भेष कहना है कि हम बिल्कुल इसमें असफल हुए हैं और यह इसी से साबित होता है कि साल भर के अन्दर ही दोस्ताना व्यवहार करने वाले देश ने, सोवियट यूनियन और पोलैंड जैसे देशों ने यह कहना शुरू कर दिया है कि हम पब्लिक सेक्टर से अन्नक नहीं लेंगे। आखिर, क्या कारण है कि पब्लिक सेक्टर से हम अन्नक नहीं भेज सकते? इन पर गम्भीरतापूर्वक विचार करना चाहिए। पिछले साल जब यह तय किया गया था कि एम०एम०टी०सी० के जरिये अन्नक का कैनेलाइजेशन होगा तो हुआ क्या कि बड़े-बड़े उद्योगपति जो थे

[श्री कामोदर पांडे]

पूरी आजादी दी गयी कि वह सप्लाई आर्डर आउटेट करे विदेशों से ? और कैनेडाइजेशन इतना ही हुआ कि जब सप्लाई आर्डर बाहर से मंगा लें तो उन को एम० एम० टी० सी० ने एक कनोयरेंस सर्टिफिकेट लेना पड़ेगा और उनको एक परसेंट कमीशन देना पड़ेगा । तो सिर्फ कमीशन खाते के लिए ही क्या यह कैनेडाइजेशन हुआ था ? हम समझते हैं कि इससे गलत बात और कोई हो नहीं सकती । कैनेडाइजेशन करने का मकसद यही था कि छोटे-छोटे उद्योगपति जो काम करते हैं उनको कुछ राहत पहुंचाये, हम उनका माल खरीदें । और वही माल जो बड़े-बड़े पूंजीपति विदेशों में जा कर अन्डर इन्वॉयसिंग करके ऊंचे दाम पर बेचते हैं, फोरैन ऐक्सचेंज को बोरो करते हैं, उसको रोकें और हम उचित दाम पर उस माल को बेचें, जो उचित दाम होता है वह उद्योग-धंधे में लगे लोगों को दे सकें । लेकिन कुछ नहीं हुआ । बदकिस्मती की बात है कि गिरीडीह और कोडरमा में काम करने वाले करीब 20,000 लोग बेकार बैठे हुए हैं, उन के मान का खमत नहीं होती, और बड़े उद्योगपतियों ने फिर कामर्स मिनिस्ट्री पर हावी हो कर के या विदेशों के मार्केट पर हावी हो कर के फिर अपना उल्लू सीधा करना शुरू कर दिया है और विदेशों से कहलवाने लगे कि पब्लिक सेक्टर से माल नहीं खरीदेंगे, बल्कि पूंजीपतियों से खरीदेंगे । आखिर छोटे-छोटे काम करने वाले लोग ही तो बड़े पूंजीपतियों के यहां वह माल बेचते हैं । एक प्लोर प्राइस फिक्स होती है वह भी साल भर बाद बड़े उद्योगपति उन को बेते हैं; और वही माल बाहर भेज कर

वह चैम्पियन बनते हैं; और बोलते हैं कि बढ़िया माल हम दे रहे हैं । तो यही माल एम० एम० टी० सी० में से क्यों नहीं भेज सकते ? मंत्री जी बतायें कि उद्योग-धंधे में लगे छोटे लोगों की राहत के लिये वह क्या उपाय करने वाले हैं ? जिस तरह से पहले चलता था, और अभी भी जिस तरह से चल रहा है अगर वैसे ही इस को छोड़ दिया गया हो तो अन्नक उद्योग, एक समय था जब हमारी बल्ब मोनोपली थी, फिर घट कर के 80 प्रतिशत पर आ गये, और आज उस से भी बहुत नीचे उतर गये हैं, धीरे-धीरे यह उद्योग भी हमारे हाथ से निकल जायगा । जिस तरह से मैंगनीज का व्यापार खो दिया, शायद उसी तरह अन्नक का व्यापार भी हम खो देंगे । इस पर गम्भीरतापूर्वक विचार किया जाय और एक ठोप निर्णय लिया जाय, और जो भी निर्णय लिया जाय उस पर गम्भीरतापूर्वक चलने की प्रतिज्ञा की जाये, उस को अमल में लाने का उपाय किया जाय । सिर्फ फँसना मुना देने से कि पब्लिक सेक्टर से कैनेडाइज कर देंगे, और असल माने में कैनेडाइजेशन करें नहीं, इस से काम बनने वाला नहीं है । इसी की वजह से यह सारी कुराफात पैदा हुई है और जो छोटे-छोटे लोग धंधे में लगे हुए हैं, उन के जीवन मरण का प्रश्न सामने खड़ा हो गया है ।

एक और महत्वपूर्ण पहलू की तरफ मंत्री महोदय का ध्यान आकर्षित करना चाहता हूं । समूचे देश में आयरन और बेचने के लिये एम० एम० टी० सी० की मार्केट एक रास्ता निकला है कि पूरे देश में जो भी लकड़ा खोहा मिलेगा वह एम० एम० टी० सी० के जरिये बेचेंगे । लेकिन गोष्ठा के कुछ लोग

क्या हिन्दुस्तान के बाहर रहते हैं जो उन को बिल्कुल आजादी है कि वह अपना माल डायरेक्ट विदेशों में भेजें। और भेजे ही नहीं बल्कि एम० एम० टी० सी० को जो पैसा मिलता है आयरन और बेचने के लिये उस से ज्यादा उन को पैसा मिलता है। तो क्या राज है, यह मेरी समझ में नहीं आता। गोआ में जो खदानों में काम करने वाले मजदूर हैं उन की बहुत खराब हालत है। अभी हाल में माइन्स कमिटी गोआ गयी थी, उन में उन अम-मंत्री श्री बालगोविन्द वर्मा जी थे, वह स्वयं देख चुके हैं कि कितनी दर्दनाक हालत वहां के मजदूरों की है। और दूसरी दर्दनाक हालत यह है कि 50 प्रतिशत से कम और कंटेंट वाला कच्चा लोहा फेंक दिया जाता है। उस से खेनी की जमीन भी बर्बाद होती है और राष्ट्रीय सम्पत्ति का भी नुकसान होना है। इसलिये मेरा सुझाव है कि गोआ से जो कुछ भी मान दम तरह में डायरेक्ट भेजा जाता है निजी पूंजीपतियों के द्वारा, जब आप ने निर्णय किया है कि पूरे देश में मिलने वाला कच्चा लोहा एम० एम० टी० सी० को मार्फत जाय, तो उन का लोहा भी उस के जरिये जाना चाहिये। और इस के साथ ही साथ मेरा सुझाव है कि इस तरह से लो ग्रेड और जिसे आप कहते हैं, हालांकि वह लो ग्रेड और नहीं है, विदेशों में 35 परसेंट और कंटेंट का य्टिजाइजेशन होता है, फिर हम जो 50 प्रतिशत तक और कंटेंट वाले लोहे को जो समुद्र में फेंक देते हैं, उस के बारे में भी कुछ उपाय करना चाहिये जिस से उस का उपयोग हो सके। या तो आप कोमेडाइजेशन प्लान्ट लगायें, या जो कुछ भी करिये, कुछ उपाय धंधे बढ़े कर के उस ओर की इच्छा करना चाहिये।

नवीन आइटम

मिलता रहेगा। और दुनिया में खस ह वाला है और अच्छे से अच्छा और विदेशों को ही भेजते रहेंगे तो हम को अपने घर में स्टील प्लान्ट के लिये अच्छा और नहीं मिल सकेगा। अच्छा और आप विदेशों को भेजे और विदेशी मुद्रा कमायें, लेकिन जो लो ग्रेड और है, जिस को आप बर्बाद कर देते हैं उस के उपयोग के लिये भी कोमर्स मिनिस्ट्री को कुछ उपाय करना चाहिये जिस से कि उस ओर का उपयोग हम कर सके।

तीसरी बात यह कहनी है कि जैसा अभी माननीय जोरदार ने कहा कि मालदा में बहुत आम होता है उस को एक्सपोर्ट किया जाय। लेकिन मैं उन को बताना चाहता हूं कि नाम तो मालदा जरूर है, लेकिन वह बिहार में ही ज्यादा होता है, और उस की हालत यह है कि बहुत जल्दी पकने के बाद वह ज्यादा दिन तक नहीं टिकता है इसलिये एक्सपोर्ट आइटम में शायद उस को जगह नहीं मिलनी है। मैं जब विदेश गया था तो देखा कि विदेश में अगर किसी विदेशी को सुवह-सुवह एक गिलास मींगो जूस मिल जाय तो भगवान को याद करता है। तो जब इतनी अच्छी चीज हमारे पास है और उस का सदुपयोग कर सकते हैं, फीरेन एक्सचेंज कमा सकते हैं, तो क्या कारण है कि इस तरफ कोमर्स मिनिस्ट्री का ध्यान नहीं जाता? इसलिये मेरा सुझाव है कि उत्तर बिहार के इलाके में जो मालदा आम होता है, जो ज्यादातर बर्बाद हो जाता है, जिस की अपने देश के मार्केट में ही खपत नहीं कर पाते, उस के लिये वहां एक कारखाना स्थापित करना चाहिये।

[श्री दामोदर पांडे]

मैं जो जूस बना कर के विदेशों में उस को भेज सकूँ। मैं प्रार्थना करता हूँ कि इस को एक्सपोर्ट करने की दिशा में आप कदम उठावें और अगर आप यह समझते हैं कि इस का टिकाउपन बाधक है तो उस का जूस बना करके यहां से आप एक्सपोर्ट करें तो कोई हर्ज नहीं है। उस से भी आप को फारेन एक्सचेंज मिल सकता है।

उत्तर बिहार में केला भी बहुत अच्छा होता है। समूचे हिन्दुस्तान से आप केला बाहर भेजते हैं। बिहार ने क्या कमूर किया है कि वहां का केला नहीं भेजा जाता है। उस ओर भी आप ध्यान दें।

वहां के केले को भी आप एक्सपोर्ट आइटम में जोड़ दें ताकि वहां के केला पैदा करने वाले लोगों को कुछ राहत मिल सके।

THE MINISTER OF COMMERCE (PROF. D. P. CHATTOPADHYAYA): I must first thank the hon. members who have participated in the debate pertaining to this Ministry. Some of the members have made friendly criticism and others have made criticism not so friendly; we are grateful alike to all of them. Many issues have been raised and questions have been asked. Since they are many, I hope hon. members would not mind if I cannot cover the whole of them, but within the time limit I will try to cover or at least touched upon as many as I can.

'Many hon. members have asked what is the policy of this Ministry, the Ministry of Commerce. I would like to say initially that the name of this Ministry has recently been changed from Ministry of Foreign Trade to Ministry of Commerce. The change, as rightly understood, is more nominal; it is real and substantial. It means some added responsibility has been given to this Ministry. Accordingly, some policy matters have also been reviewed

and some new different approaches are being made and necessary exercises are in hand.

We have been asked what are the main parameters of the policy. First, I would like to say that it has already been pointed out by the Prime Minister that in the changed context of the world, the developing countries should, not only at the political level but also at the trade and commerce level come close to each other. This is one of the main aspects of the new commercial policy. This is particularly important in the context of the fact that the developed countries are also trying to come close to each other and arrive at a sort of agreement to their mutual advantage. The EEC, America and Japan through different sorts of negotiations and agreements, arrangements or understandings are trying to strengthen their position *vis-à-vis* the economy of the developing countries.

In this changed and very important context India which is among the developing countries has in view of its size and also the sort of development we have achieved in the last two decades, has a special role to play.

So the two main aspects of our commerce and trade policy are, first, forging closer relations with the developing countries like the Latin American countries, African countries and other Asian countries and second, strengthening our position as far as possible in relation to the developed countries or the different groups often between the developed countries. These are two main aspects.

The other aspect that I would like to mention is in the fifth Plan approach paper it has been envisaged that around the year 1979, foreign assistance for the development of our national economy would be very meagre if not nil. As you will appreciate the task of augmenting the production base and strengthening the production base will still be there and necessitate a lot of foreign exchange till then. So, one of our approaches and endeavours is to seek and arm ourselves

with more and more foreign exchange which we will not get otherwise. So we are devising modalities and means and mechanism machinery so that export earning goes up in the coming years.

Together with this I would also like to mention another aspect that is the fourth aspect, which is a growing positive and, whenever necessary, an expansive role of the public undertakings in the export-import trade. As a corollary to this fourth point, I would like to mention that one of the endeavours of our Ministry would be to see that small scale exporters are benefited and public undertakings are taking a larger interest and more positive steps so that the small scale industries and the exporters who, in relation to the big houses and larger houses are as at present at a sort of disadvantage are better placed and are in a better position with the aid and assistance of the Government undertakings like the STC, MMTC or the proposed Miba Trading Corporation, for example. These are the four main aspects of our commercial policy. If I may add, I would like to mention a fifth one which is quite consistent with the other aspect, namely our endeavour to develop close relations with the developing countries in general and our neighbouring countries in particular.

As hon. Members are aware, our Foreign Minister in the recent past had been to the Gulf areas and he has gone to Burma. The Prime Minister had been to Nepal and she is going to Sri Lanka. That is a new thing. Commercial diplomacy and policy follows closely political policy and diplomacy. So, we will be trying to get close to our immediate neighbours in terms of trade and commerce and we will be trying more and more to see how better relations and more positive relations grow up between our countries on the one hand and some other countries who are our immediate neighbours and who are looking forward to our performance in the field of development, etc. with increasing interest and expectations. I think these are some basic aspects.

Another thing also which I may mention in this context is the getting closer of the Polynesian countries to the Asian trade and commerce. After Australia and New Zealand develop new interests in the trade and commerce of the Asian world, I think we have also to reciprocate it and see that they are drawn in the trade and commerce of the Asian world, so that we are mutually benefited. This problem will be taken up, as you know, in the ECAFE meeting at Tokyo where I have the privilege to represent India.

In this context I may also mention that we are trying to develop close relations with Bangla Desh. Our trade agreement with Bangla Desh expired on 27 March and with mutual consent we have extended it by three months. This time will be utilised by us in studying and surveying and identifying areas and commodities where we can expand and increase our trade and commerce and we hope after these studies in depth we may arrive at an agreement which will be more positive and more beneficial ourselves and to Bangla Desh.

It has been said that in the matter of bilateral trade our performance has not been what some of the hon. Members expected of us. If you like I shall quote some figures which will speak for the fact that bilateral trade has not been as unsatisfactory as made out by some hon. Members. With Latin American countries, for example, our balance of trade has moved from a deficit of Rs. 595 lakhs to an overall surplus of Rs. 684 lakhs over the past two years. During 1972-73, statistics are available for April to August, our imports were Rs. 182 lakhs as against our exports of Rs. 461 lakhs. Thus there has been a surplus in our favour to the tune of Rs. 279 lakhs. Our trade with Latin American countries followed our Prime Minister's visit to those countries. When some senior leader visits a particular country, we come closer to each other politically, and trade and commerce also respond to this close poli-

Prof. D. P. Chattopadhyaya]

tical relationship in a significant way. It has also happened in the case of trade and commerce relations with Africa.

After the Lusaka Conference, for example, there was a significant development of the contacts between our country and the African countries. When I am speaking of Indo-African trade, I mean all countries of the African continent. In 1969-70 we exported goods and commodities worth Rs. 2916 lakhs and imported Rs. 8937 lakhs. In 1970-71 our exports stood at 3981 lakhs as against our imports of 10,092 lakhs. In 1971-72 the exports were of the order of Rs. 5261 lakhs and imports, Rs. 8233 lakhs. These figures speak unmistakably for the fact that our bilateral trade with Latin American countries as well as the African countries has not declined; on the contrary they have shown a remarkable increase. The same can be borne out by the statistics of our trade and commerce relations with West European countries.

In 1969-70, I am expressing the figures in crores, our exports were nearly Rs. 300 crores and imports Rs. 306 crores; in 1970-71, our exports was nearly Rs. 300 crores and 29 lakhs and our imports were Rs. 350 crores; in 1971-72, our exports were Rs. 326 crores worth and our imports were Rs. 500 crores worth. These may sometimes show a surplus and sometimes a deficit in our favour because, there cannot be a steady trend in this. But, one fact is that when we started, there was a huge deficit and because of the tariff and other qualitative and quantitative restrictions, there were some difficulties. I shall come to them in a moment. The point is that in our trade and commerce with all components, we are going ahead and the volume of trade and our total turnover are increasing.

It has been said that E.E.C. perhaps may do something about it because as I told you, the developed countries have their own interests which are not same some times or which are not similar at times. And naturally, they may come

together and they want to protect their own interests mainly. In a bid to protect their own interests, what happens is this. There are certain avenues and in between the protective view, in their own economy G.S.P. possibility is there. This possibility we are trying to exploit as far as possible. It is on record. Perhaps we could not exploit it as far as possible. Now, we are endeavouring to see how much we can exploit it.

Due to our bargaining and other high-level talks, now, the E.E.C. has realised that they also have to come to some sort of terms or understanding with our country. So, some guidelines were submitted by the Committee of the programme representatives of the Council of Ministers of E.E.C. on 3rd April, 1973. They unanimously authorised the Commission of E.E.C. to enter into negotiations with the community with a view to concluding trade cooperation agreement. The proposed agreement includes all the various tariffs granted by the community periodically and incorporation of the existing sectorial agreements pertaining to textiles and other products. I may also mention in this context the sugar export quota. From their point of view, the import quota has also remained unaffected. Because of this sort of bilateral negotiation, by taking the E.E.C. as a whole as one party and ourselves the other party, our endeavour is to seek closer relation with the developing countries in relation to the developed countries. We are also trying to explore it as much as we can. A suggestion has been made as to why should we not nationalise the export and import trade? The question is : rationalisation is not for the sake of nationalisation ; nationalisation is a means for a particular end in view. With necessary expertise and experience, if we lower the export or import trade, then instead of reaching nearer to our goal, we may be a loser of somewhat avoidable score.

17 hrs.

I believe socialism does not mean nationalisation, nationalisation and rationalisation ; socialism means nationalisation,

consolidation, regionalisation, consolidation and nationalisation.

Those who think that socialism means nationalisation, nationalisation and nationalisation do not know socialism. In 1968-69 only 11 items were canalised. But in 1973-74 202 items have been canalised. So, the fact that we are giving bigger and bigger and constructive and more positive role to the public sector undertakings in the foreign trade is unmistakable from all available data. It is an open question ; everybody knows it. It is a fact that now the import trade in the public sector is as high as 70 per cent. I do not go by the cliché of nationalisation ; I believe in nationalisation. When consolidation, experience and expertise are good enough for taking a bold step forward, we will take a bold step forward.

In this context, I might perhaps mention the problem of sick and closed tea estates. I am aware of the problem faced by the jute, tea and many other industries. As hon. members have pointed out, there are many big houses rightly or wrongly, fortunately or unfortunately, very much in the field. These houses have interests in different fields—textiles, engineering, jute, tea etc. Like the general rule of the ordinary consumer—what we call 'liquidity preference', these big houses have a policy, what may be called 'profitability preference'. When in a particular sector there is high profitability, there is a natural economic propensity for them to take money from one industry to another industry. The modes and mechanisms of doing this are all known to the knowledgeable people, particularly the lawyers. But it is a fact that some big business houses and some which are not so big have indulged in some trade practices which are questionable. I said in very clear and categorical terms day before yesterday in Calcutta : "You are going to be ethically and economically myopic" because they are not investing in a sector or industry where the profit return is not high. So, everybody knows it and Government is quite aware of it.

Several steps have been taken by Government to discourage this bad business practice and the propensity for profitability preference. But it is a question of priority. We are not a rich country. Our total resources are limited. In the of allocation of resources we must draw up a schedule of priority and invest our investible capital resources accordingly. So we must be sure that before we nationalise an industry and invest our capital in that sector, capital drawn from the poor man's resources, it is good enough and productive enough for the national economy taken as a whole.

So, I do not believe in nationalisation just for the sake of nationalisation. At the same time, the plight of the poor workers and employees of the sick units, particularly of these closed down, is very much there. The West Bengal and Assam Governments have written to us and pressed us to do something about these closed tea estates. We are seized of the matter. We are thinking of taking certain steps which will benefit the unfortunate employees who have been thrown out of their job. But, as you will appreciate, there are some problems, legal and administrative which this Ministry of its own cannot sort out. For that we are in consultation and in touch with some other concerned Ministries so that appropriate steps and ultimate measures can be taken to the relief and advantage of the employees and workers of the closed tea estates.

DR. RANEN SEN (Barasat) : The steps which you are going to take will take some time. The gardens are closing. What happens in the mean time ?

PROF. D. P. CHATTOPADHYAYA : Nearly 15 days back in Calcutta there was a particular meeting attended by different sectors of industries, both strong and not so strong and weak, all trade unions belonging to all parties, including the party of the hon. Member intervening, where this problem was discussed. I went deep into the matter and I had set up a task force which is going into the matter.

[Prof. D. P. Chattopadhyaya]

It is true that this problem had been studied before, once by the Reserve Bank and again by the Barua Committee. I had the privilege of looking into these things. But the problem had taken a different shape and urgency. So, while I will not say anything against the findings of these two committees, I think some more steps, perhaps I may say bold steps, are called for to meet the problem or situation. It is not as if we are sitting idle or sleeping over the issue. We are taking active steps, and these steps are contemplated primarily in the interests of the workers and employees who have been thrown out of job already when the factories were closed.

Closed industries are not so easy to define because there are legal and other difficulties which you will find in defining sick industries. About that matter, as I said before, certain study has to be made and, at a latter stage, certain administrative and legal measures have to be taken. Some positive steps will be taken in respect of closed and sick industries, whatever might be the definition ultimately we arrive at about sick industries. But about the industry as a whole I would like to say very clearly that no decision of nationalisation or taking over is being contemplated.

AN HON. MEMBER : Why ?

PROF. D. P. CHATTOPADHYAYA : The answer is very simple. I can only say that an unstudied decision may better the pleadings or the craziness of the Minister but not the wisdom of the Ministry.

DR. RANEN SEN : It is said that some policy steps are being taken. We want to have an inkling of the positive steps.

PROF. D. P. CHATTOPADHYAYA : The hon. Members are well-versed in English language. I have said it very clearly and not in a very ambiguous way. They can understand what I mean.

SHRI B. K. DASCHOWDHURY : When will be done ?

PROF. D. P. CHATTOPADHYAYA : I cannot say when. The task force is going into

the Affairs. It is asked to submit its report within three months when I can take a decision this way or the other way. Before studying the question I do not intend to create unnecessary, unavoidable, uneconomical fear psychosis which is absolutely unwarranted. So, I do not like to do it, I do not propose to do it. My immediate question is closed and sick industries, whatever might be the definition of "sick" that we may ultimately arrive at.

Now, some hon. Members have suggested that some fiscal relief may be provided at least to some zones. As I have said before on the floor of this House and also there and I repeat it, I find that the demand for fiscal relief at least for one or two zones is justified indeed. I will try to see that that relief is provided. But, as you will appreciate, the fiscal relief-giving question is an integral part of a larger question of fiscal discipline of the Government as a whole. Subject to the fiscal discipline of the Government as a whole, my endeavour will be to see that the zones which badly need some fiscal relief in the larger interest of the industry itself get the relief.

SHRIDINESH CHANDRA GOSWAMI : Can you give some time indication of that ?

PROF. D. P. CHATTOPADHYAYA : I might say three months' time-limit is there. By three months, I will be able to take a decision. Sometimes, as I did in the case of yarn, when I said that I will give a decision within 7 days, I declared it within 4 days. When I say, three months, I mean, the outer limit. I might declare something before that.

SHRI B. K. DASCHOWDHURY : May be within two months.

PROF. D. P. CHATTOPADHYAYA : I do not know.

Then, the matter has been raised about yarn. As you know, it is a very big problem to enter into a trade which is traditionally in the private sector and to handle it to the entire satisfaction of all sections concerned. We find that that yarn trade is

going in a very bad shape. The weavers are suffering due to a very drastic power cut although unevenly throughout the country and the yarn production has gone down by about 30 per cent. The poor weaver in unorganised sector was suffering most acutely. So, we thought we should take certain steps. We have now taken certain steps. We have taken certain decisions. But the decisions have come into force only on the 13th March.

The figures which are being quoted sometimes show that the Government have not given the full entitled quota to the States and that it is really the half of the total entitled quota. For the whole of March, we are not supposed to give quota because this scheme came into operation only in the latter half of the month. So, the question of giving a figure which is very disproportionately low in relation to the entitled quota is due to the fact that while they are expecting the whole month's quota we are actually giving only half month's quota that is, when the scheme came into operation.

Secondly, there is a point that some sectors are not getting their supply State-wise e.g. the hosiery federation. They are not getting their State quota but they are drawing their quota from the Textile Commissioner and they are supposed to distribute it between different State units. While I give this explanation, I do not minimise in the least the plight and suffering of weavers. I am very much alive with their suffering. In order to remove their sufferings we have taken certain steps. One of the steps taken I have already indicated. On the day when I made the announcement, on the 9th March, I suggested that every State Government should set up a watch-dog Committee, consisting of MPs, MLAs, weavers and other persons concerned because I could anticipate that, when I tread on the toes of the traders or those who are well-entrenched in the field for years together, they will not take it lying down and they would hoard. In many cases they have hoarded and they do hoard. Without the help of the different sectors

of the industry and particularly the political leaders, it is not possible only for the administrative machinery, for the State Government, to unearth this huge hoarded quantity. I have no doubt, and knowledgeable people know it very well, that a huge quantity has been cornered by the traders who have been badly hit by our policy. So, in anticipation of this contingency, I had suggested to them; I am yet to be told that any State Government has set up such watch dog Committee....

SHRI DHAMANKAR : It has been set up, but MPs have not been associated.

PROF. D. P. CHATTOPADHYAYA: Secondly, I have sent my officers to various States. We have not waited for the State Governments to tell us their problems. It is true, many MPs, Ministers and Chief Ministers have informed us of the very sad situation. We, on our own, have already sent our officers to different States to study, on our own, the nature of the problems. The problems of all the States are not alike. Sitting in Delhi or Bombay we cannot prescribe a general solution to the problem which is not general and which has its peculiar contours in different States. We have sent our officers to U.P., West Bengal, Maharashtra, Gujarat, Tamil Nadu and all other places wherever necessary, and it will be followed up by a meeting to be called tomorrow or the day after tomorrow, after the return of these officers and after the submission of their reports, where the State Governments, representatives, Director or Secretary who-soever is the representative, will be there. We are thinking of slightly modifying our original policy and scheme in the light of the new experience that we gather ourselves or by the States conveying to us, and one of the contemplated changes.....

श्री मारलण्डे राय : इस बीच में क्या होगा ! आफिसर आयेंगे, ग्रुभव के बाद मीटिंग होगी, फैसला होगा, मीडिकल हेल्थ होगा, लेकिन इस बीच में मरने वाला मर जावेगा, फिर आने से क्या होगा ?

PROF. D. P. CHATTOPADHYAYA : It is to help those people that we are taking steps. We have said to the State Governments, first, that they may raid the hoarded quantity and whatever they get by raiding those godowns of different traders, that amount they will get in addition to their entitled quota. This is one thing that we have suggested to the States. Every State will get, in addition to its entitled quota, the unearthed hoarded element. Secondly we have suggested this. Different States had some quota, declared quota, within their States on the 31st March. All States will be entitled to retain the quota which they had till 31st March, because some of the States like Gujarat, West Bengal and Maharashtra had suggested this and we agreed to it.

Thirdly, we have suggested that, if by reducing power cut one spinning mill, they can produce more yarn, that extra production of yarn will go to the State quota, and this will be in addition to their entitled quota.

We have also made this scheme rather flexible. If two or three States adjoining can re-distribute their power problem and increase their yarn production, then that extra production they can retain within their own State or group of States who come to this sort of power allocation between themselves.

These are some of the modifications.

SHRI DHAMANKAR : One point of clarification, Sir. Will you please review the allocation to the different States ? Arithmetically it is from 1 to 80 counts that is allotted to different States. But Haryana does not want fine yarn as the Minister himself said. The Textile Commissioner's office knows the whole requirements of different States fine or coarse. Will you please review it ?

MR. CHAIRMAN : It is a suggestion for action.

PROF. D. P. CHATTOPADHYAYA : The only submission I would like to make is that we have our own figures about authorised looms—powerlooms and handlooms and it

is a fact that in certain States there are unauthorised powerlooms. So, now, since there is an overall shortage, naturally, our first attempt should be to meet the requirements of the authorised ones. The question of the unauthorised looms comes next, if it comes at all. So regarding the question of reviewing, of course, it will be made and it is being made. On the 11th April we are having that meeting as I referred to just a minute ago. So, all these things will be taken into account, but we cannot take a decision *a priori* without knowing the facts and figures and the difficulties. So, we have sent our own officers to States. They are coming back and we have also asked every State to send its own officer and we will take a decision. We have acted as expeditiously as possible and we will continue to act as expeditiously as possible. The poor weaver's cause is as much close to our hearts as it is to theirs.

Something has been said about jute prices...

SHRI B. K. DASCHOWDHURY : What about price equalisation of cotton yarn ?

PROF. D. P. CHATTOPADHYAYA : I have already submitted that. I have to speak under this time constraint. So, all questions that have been raised, while I do not deny their importance, but for obvious considerations, it is not possible for me to go into all those questions. But the major ones I am referring to.

Now, about jute, it is very pertinent to expect that the poor jute grower gets a fair price. The question of now guaranteeing a minimum floor price for the jute-grower is now mere academic because the reigning price is higher than the support price accepted by the Government. While I appreciate it very much, finally, in this matter we will be guided by the findings of the Agricultural Prices Commission.

Something has been asked as to what we are doing as a sort of incentive or encouragement to the small-scale exporters

or those who make exports and have small scale industries as their production base. In our new import-export policy we have said that the process of assessment of capacity of small scale industries in the private sector will continue.

Secondly, for non-priority sectors, an increased allocation of imported raw materials has been provided in the case of industries reserved for the small scale sector.

Thirdly, for new-comers, the basis of import licensing has been liberalised.

Fourthly, exporting units in the small scale sector will receive better encouragement.

Fifthly, the basis of import licensing for small scale industries to be set up in the backward areas by qualified engineers and ex-Service personnel has been liberalised.

Sixthly, the procedures for issue of licences for capital equipment have also been considerably simplified.

Seventhly, the existing facilities for setting up small scale industries in the country by Indian nationals returning from or residing abroad have been continued.

Lastly, more districts have been added in the list of backward areas.

These steps are intended to give more and more governmental assistance to the small scale industries so that their share and capacity in the export trade *vis-a-vis* the big competitors increases.

So our policy is to help the weaker sections in the industry or the medium sector etc. about Mica. I had already said something the other day and the MMTC is quite seized of the problem. We are proposing to set up a Mica Trading Corporation. So, this problem, of which we are seized of, will, we hope be looked after by Mica Trading Corporation. After the entry of MMTC in the field there is lot of improvement. I will not say that difficulties have been totally removed, but we are seized of the problems at issue.

I have referred to many points. I have touched upon many problems. But I am sorry to find that there are many points as I see from the notes which I have myself taken down, with a view to answer them, or at least to respond to them. But I could not do so. I wish to inform hon. Members through you that even the points which I could not answer will be borne in mind by me while I take decisions in those and other related matters. Thank you.

MR. CHAIRMAN : I will now put the Cut Motions that had been moved to the Demands relating to the Ministry of Commerce, to the vote of the House.

All the Cut Motions were put and negatived.

MR. CHAIRMAN : The question is:

"That the respective sums not exceeding the amounts on Revenue Account and Capital Account shown in the fourth column of the order paper be granted to the President to complete the sums necessary to defray the charges that will come in course of payment during the year ending the 31st day of March, 1974, in respect of the heads of demands entered in the second column thereof against Demands Nos. 10 to 13 relating to the Ministry of Commerce."

The motion was adopted.

17.28 hrs.

MINISTRY OF IRRIGATION AND POWER

MR. CHAIRMAN : The House will now take up discussion and voting on Demand Nos. 63 to 65 relating to the Ministry of Irrigation and Power for which 7 hours have been allotted.

Hon. Members present in the House who are desirous of moving their Cut Motions may send slips to the Table indicating the serial numbers of the Cut Motions they would like to move.

[Mr. Chairman]
DEMAND NO. 63—MINISTRY OF IRRIGATION
AND POWER

MR. CHAIRMAN : Motion moved :

"That a sum not exceeding Rs. 8,29,34,000 on Revenue Account be granted to the President to complete the sum necessary to defray the charges which will come in course of payment during the year ending the 31st day of March, 1974, in respect of 'Ministry of Irrigation and Power'".

DEMAND NO. 64—IRRIGATION AND FLOOD
CONTROL SCHEMES

MR. CHAIRMAN : Motion moved :

"That a sum not exceeding Rs. 12,94,81,000 on Revenue Account and not exceeding Rs. 7,01,33,000 on Capital Account be granted to the President to complete the sum necessary to defray the charges which will come in course of payment during the year ending the 31st day of March, 1974, in respect of 'Irrigation and Flood Control Schemes'".

DEMAND NO. 65—POWER SCHEMES

MR. CHAIRMAN : Motion moved :

"That a sum not exceeding Rs. 4,91,12,000 on Revenue Account and not exceeding Rs. 56,32,07,000 on Capital Account be granted to the President to complete the sum necessary to defray the charges which will come in course of payment during the year ending the 31st day of March, 1974, in respect of 'Power Schemes'".

The hon. Members may now move their cut motions.

SHRI BIJOY MODAK (Hooghly) : I beg to move :

"That the Demand under the head Irrigation and Flood Control Schemes be reduced by Rs. 100."

[Failure to complete Kansabati Project, West Bengal in scheduled period (18)].

"That the Demand under the head Irrigation and Flood Control Schemes be reduced by Rs. 100."

[Failure to supply water from D.V.C. for irrigation purposes to rabi crop in Hooghly district (19)] .

"That the Demand under the head Irrigation and Flood Control Schemes be reduced by Rs. 100."

[Failure to check erosion of Ganges down stream Farakka Barrage, that is threatening B.A.K. loop lines, N.H. 34 and big towns in Murshidabad District in West Bengal.(20).

"That the Demand under the head Irrigation and Flood Control Schemes be reduced by Rs. 100."

[Failure to have a definite policy of diverting 40,000 cusecs of water from Ganga to Bhagirathi through Forakka Barrage (21)].

"That the Demand under the head Irrigation and Flood Control Schemes be reduced by Rs. 100."

[Failure to expand the reservoirs at Maithon at Panchet for flood control purposes in Lower Damodar region by acquiring land in Bihar (29)].

"That the Demand under the head Power Schemes be reduced by Rs. 100."

[Failure to check load-shedding in Greater Calcutta area (32)].

"That the Demand under the head Power Schemes be reduced by Rs. 100."

[Failure to expand rural electrification in West Bengal (33)].

"That the Demand under the head Power Schemes be reduced by Rs. 100."

[Bad maintenance of electricity generating plants in West Bengal (34)].

SHRI GADADHAR SAHA (Birbhum):
I beg to move :

"That the Demand under the head Ministry of Irrigation and Power be reduced by Rs. 100."

[Failure to complete Mayurakshi Irrigation Project in West Bengal formulated long ago (25)].

"That the Demand under the head Ministry of Irrigation and Power be reduced by Rs. 100."

[Failure of the Mayurakshi Irrigation Project to supply water for paddy cultivation and wheat cultivation in major parts of Birbhum and Murshidabad and Burdwan to some extent (26)].

"That the Demand under the head Ministry of Irrigation and Power be reduced by Rs. 100."

[Urgent need for survey and investigation to make the Mayurakshi Irrigation Project a success and to implement the project in such a way as to provide intensive irrigation facilities for agricultural development (27)].

"That the Demand under the head Ministry of Irrigation and Power be reduced by Rs. 100."

[Need for extension of existing irrigation project in Burdwan district for Katwa sub-division areas in West Bengal (28)].

"That the Demand under the head Irrigation and Flood Control Schemes be reduced by Rs. 100."

[Need for formulation and implementation of flood control-cum-irrigation projects for Birbhum and Murshidabad districts, West Bengal (30)].

"That the Demand under the head Irrigation and Flood Control Schemes be reduced by Rs. 100."

[Urgent need for construction of an over-bridge on the river 'Ajoy' near Billeswar and Uddharanpur in Katwa Sub-division in Burdwan district, West Bengal (31)].

SHRI D. K. PANDA (Bhanjanagar) :
I beg to move :

"That the Demand under the head Ministry of Irrigation and Power be reduced to Re. 1."

[Failure to tackle the problem of floods in a massive way by providing for quick investments in Orissa (35)].

"That the Demand under the head Ministry of Irrigation and Power be reduced to Re. 1."

[Failure to link up river Chheli-gada with Ghodabada in Ganjam district, Orissa to fulfil the irrigation requirement of the district (36)].

"That the Demand under the head Ministry of Irrigation and Power be reduced to Re. 1."

[Failure to provide adequate funds for implementation of medium irrigation schemes, which have spilled into Fourth Plan in Orissa (37)].

"That the Demand under the head Ministry of Irrigation and Power be reduced to Re. 1."

[Failure to complete investigation of eighty medium projects in Orissa which are

Shri D.K. Panda]

approved for investigation (38)].

"That the Demand under the head Ministry of Irrigation and Power be reduced to Re. 1."

[Failure to reduce the gap between irrigation potential and irrigation utilisation which comes to about 15 per cent in Orissa (39)].

"That the Demand under the head Ministry of Irrigation and Power be reduced to Re. 1."

[Failure to complete the nine medium irrigation schemes in Orissa, viz., Darajanga Project, Bahuda Project and Uttai during the Fourth Plan period (40)].

"That the Demand under the head Ministry of Irrigation and Power be reduced to Re. 1."

[Failure to implement the Integrated Jarau-Harabhangi Project in Ganjam district in Orissa during a period of 15 years (41)].

"That the Demand under the head Ministry of Irrigation and Power be reduced to Re. 1."

[Failure to implement the medium irrigation projects namely, Baghua, Ghodahada, Daha, Manibhadra Irrigation Project and Bahuda Projects in Orissa (42)].

"That the Demand under the head Ministry of Irrigation and Power be reduced to Re.1."

[Failure to complete the irrigation projects within the scheduled time resulting in rise of the expenditure on the same project. (43)].

"That the demand under the head Ministry of Irrigation and Power be reduced by Re. 1."

[Failure to have coordinated planning on irrigation and power to achieve time bound programme (44)].

"That the demand under the head Ministry of Irrigation and Power be reduced by Re. 1." •

[Failure to overcome the power shortage in the country in general and Orissa in particular (45)].

"That the demand under the head Ministry of Irrigation and Power be reduced by Re. 1."

[Failure to secure quick loans from Government financial institutions to complete the irrigation and power projects in the country in general and in Orissa in particular (46)].

"That the demand under the head Ministry of Irrigation and Power be reduced by Re. 1."

[Failure to implement the recommendations of the great lamented Scientist Meghnada Saha for ensuring protection against flood and cyclone disasters in Orissa (47)].

"That the demand under the head Ministry of Irrigation and Power be reduced by Re. 1."

[Failure to construct dams to provide protection to the flood affected areas in Orissa (48)].

"That the demand under the head Ministry of Irrigation and Power be reduced by Re. 1."

[Failure to complete the survey of underground water for lift irrigation purposes in general and in river basin areas in particular in Orissa (49)].

"That the demand under the head Ministry of Irrigation and Power be reduced by Re. 1."

[Delay in taking up Salandi Project, Rengali and Bhimakunt Projects for flood control (50)].

"That the demand under the head Ministry of Irrigation and Power be reduced by Re. 1."

[Failure to link up Talcher in the Mohana to meet the power requirement of Berhampur area of about 15 M.W. and also of Rayagadu in Orissa (51)].

"That the demand under the head Ministry of Irrigation and Power be reduced by Re. 1."

[Failure to properly plan lift irrigation with rural electrification in Orissa, so as to achieve its impact in agriculture and food production (52)].

"That the demand under the head Ministry of Irrigation and Power be reduced by Re. 1".

[Failure to achieve the target of rural electrification in 2800 villages in Orissa (53)].

"That the demand under the head Ministry of Irrigation and Power be reduced by Re. 1".

[Extraordinary delay in providing the requisite funds to work out the Delta irrigation scheme which was contemplated to utilise 10,000 cusecs of tail race water available at Mahanadi Delta head from Hirakud Power House for extending irrigation facilities to 10,09,128 acres in Orissa (54)].

"That the demand under the head Ministry of Irrigation and Power be reduced by Re. 1".

[Failure to achieve agricultural production and employment opportunities as contemplated under the Delta irrigation scheme (55)].

"That the demand under the head Ministry of Irrigation and Power be reduced by Rs. 100."

[Need to allot funds for immediate construction of Dahi Project in Bhanjanagar area in Orissa (56)].

"That the demand under the head Ministry of Irrigation and Power be reduced by Rs. 100."

[Need to take up repair works of inundated channels in the district of Ganjam in Orissa (57)].

"That the demand under the head Ministry of Irrigation and Power be reduced to Re. 100."

[Need to accord approval by C. W. P. C. for Jarau-Harbhanga integrated project of 1964 and complete the work this year on a war footing to overcome the drought disaster in the district of Ganjam in Orissa (58)].

"That the demand under the head Ministry of Irrigation and Power be reduced by Rs. 100".

[Need to expedite the IIInd stage of survey of Beghwa medium irrigation project to ensure regular and required supply of cane to the sugar industry at Aska in Orissa (59)].

"That the demand under the head Ministry of Irrigation and Power be reduced by Rs. 100."

[Need to raise the height of Bhanjanagar Reservoir in Orissa by ten feet more in order to store more water and prevent the wastage of water (60)].

"That the demand under the head Ministry of Irrigation and Power be reduced by Rs. 100"

[Need to immediately take up the repair of Sorada Reservoir to make it deep for storing the river water (61)].

"That the demand under the head Ministry of Irrigation and Power be reduced by Rs. 100."

[Need to give immediate clearance by the C. W. P. C. to Rengalli Dam Project (62)].

[Shri D. K. Panda]

"That the demand under the head Ministry of Irrigation and Power be reduced by Rs. 100."

[Need to implement the integrated Irrigation project Bhimkund-Anandpur-Salandi (63)].

"That the demand under the head Ministry of Irrigation and Power be reduced by Rs. 100."

[Need to bring under irrigation 50 per cent of the land which is absolutely rainfed during the period of 4th Five Year Plan in Orissa (64)].

"That the demand under the head Ministry of Irrigation and Power be reduced by Rs. 100."

[Need to immediately work out the Dadraghati Irrigation Project in Dhankanal districts Sunder Irrigation Project Saipal Irrigation Project and Upper Indravati Project during 4th Five Year Plan period in Orissa (65)].

"That the demand under the head Ministry of Irrigation and Power be reduced by Rs. 100."

[Need to complete Kalo and Ong Irrigation Projects within two years, in Orissa (66)].

"That the demand under the head Ministry of Irrigation and Power be reduced by Rs. 100."

[Need to allocate more funds to raise the 4th Plan provision from Rs. 1.50 crores to 5 crores for lift Irrigation works in view of the remarkable potentialities for lift irrigation (67)].

"That the demand under the head Ministry of Irrigation and Power be reduced by Rs. 100."

[Need to establish ten thousand lift Irrigation points in the State of Orissa (68)].

"That the demand under the head Ministry of Irrigation and Power be reduced to Rs. 100."

[Need to implement the sixty-six lift irrigation projects selected by the State Government of Orissa to irrigate at least 65,029 acres of Kharif and 28,000 acres of Rabi (69)].

"That the demand under the head Ministry of Irrigation and Power be reduced by Rs. 100."

[Need to complete Ghodahad medium irrigation project by allocating the requisite funds to Orissa (70)].

"That the demand under the head Ministry of Irrigation and Power be reduced by Rs. 100."

[Need to take up Salandi Project in Orissa and expedite the work (71)].

"That the demand under the head Ministry of Irrigation and Power be reduced by Rs. 100."

[Need to take up construction of Anandapur Barrage before Salandi project tails off, so as to switch over the personnel of Salandi to Anandapur Barrage to derive the benefit of integration (72)].

MR. CHAIRMAN : The cut motions are also before the House.

SHRI BIJOY MODAK (Hooghly) : I rise to oppose the Demands of the Ministry of Irrigation and Power. Sir, this is an important Ministry and it has great bearing on the economy of the country as a whole. But I am sorry to say that this Ministry has failed to create the necessary increased potential in respect of irrigation and power. The year 1972 has been a year of flood, drought and famine in electricity. Floods have ravaged the country, inundated State after State. Drought has deprived the country of the necessary crop. Famine in electricity has dislocated all sectors of society, industry, agriculture and civil.

As a result, the people are helpless, food has become deficit, industry has stopped its

wheels, there is un-employment and lay-off has become the order of the day. The Ministry actually made the god of weather a mute scapegoat for all its failures. This is not permissible in this age of science. This indicates criminal negligence.

Regarding flood, conservation of the flood water is very valuable for generation of irrigation potential, for production of necessary crops. But this flood water is not being used in a rational way. Cannot the water of floods be locked up in reservoirs and used for irrigation purposes. This is not being done.

There is the problem of the flood waters in the Brahmaputra, in the Teesta valley, in fact in the whole country. But there is no proper plan for locking up the water in dams so that it can be rationally used for irrigation purposes.

I will cite one case. In West Bengal, there is the case of the Lower Damodar Valley. The British Government conceived of controlling the flood waters of the D.V.C. in 1943. Experts of the Tenessey Valley Scheme came here. They made a plan and advised Government to construct 8 dams to conserve the waters of the upper catchment area of the Damodar. But the Congress Government constructed only 4 dams. For this initial mistake, the lower Damodar region, the district of Hooghly and some parts of Howrah, have been subjected to the ravages of flood for 15 years. This was the initial sin committed by the Congress Government. Now, after 15 years, Dr. Rao has taken up this question and sanctioned Rs. 21 crores to rectify this. The plan is to contain the excess flood waters of the Damodar, that is, 2,60,000 cusecs; for this, construction of embankments on both banks of Maundeswari and some drainage works in the lower basin area have been planned. But can Dr. Rao definitely say that in days of heavy rains in 10 or 15 years, the heavy onrush of water will not exceed the limit of 2,60,000 cusecs? If it exceeds this limit, the excess flood waters will sweep through the Maundeswari and wipe

out the embankments. Then there will be a disaster in Arambagh greater than the disaster in Jalpaiguri in 1968.

According to expert opinion, the flood water can be contained in some dams in some lands in Bihar. Two more dams in Tenghat and Balpahari may be taken up. I had a talk with Dr. Rao; he said that the Bihar Government was not willing to give land. Now I see from a statement he made in the Lok Sabha on 14th August, 1972 that he had talked to the Bihar Government and they had agreed to give some land around Panchet and Maithon. Therefore, these two reservoirs at Panchet and Maithon may be expanded. Some more land could be requisitioned for constructing two more dams at Tenghat and Balpahari. I hope this can be done and also be used for irrigation purposes. The Arambagh and lower Damodar region require attention. I want a categorical answer from the Minister, Dr. Rao, on this point, whether two reservoirs at Panchet and Maithon are going to be expanded.

Furthermore, in its lower reaches the Rupnarayan has got to be desilted. I see in the Report that the work in the project has been taken up. I want to know definitely what he is going to do about this. Annual desilting must be done in the Rupnarayan, and that must be categorically assured here. There are floods everywhere. The question of containing the floods waters of the Brahmaputra and Teesta must be taken up here and now; and there is the question of controlling floods on the Brahmaputra, and Teesta and water properly used. There have been discussions recently with Bangladesh at the Committee level on joint river projects, and the question of the feasibility of the joint project was taken up there. What is going to be done after these talks? I want to hear from Dr. Rao on this Ganga-Brahmaputra-Teesta Grid project.

[Shri Bijoy Modak]

With regard to the generation of irrigation potential, I want to emphasise the importance of minor irrigation projects, in the course of the four Plans, crores of rupees have been spent and 90 per cent of this money has been spent on medium and major projects. What is the result? The actual irrigation potential was only 50 per cent or something more of the necessary potential of three million acres every year that is necessary to cope with the rate of growth of population. For this, I have got the figures. At the end of the third Plan, only 18 per cent of the cultivable land could be brought under irrigation. It cannot be called a good performance.

Moreover, out of the 450 million cft of the underground water resources, only a small percentage of it has been utilised. Dr. Rao has a bias for big projects and big reservoirs. 90 per cent of the money has been spent on big projects. Minor irrigation projects have been neglected. Everyone knows that minor irrigation involves less financial outlay and yields quicker results; they can be executed with local resources and in a shorter period. The bias for outlay on big projects is the root cause of the slow rate of augmentation of the irrigation potential of the country. This is not the way to augment the irrigation potential in a backward country and to develop it in a highly competitive age. In a developing country like ours, we must put our full efforts towards creating agricultural surplus and internal markets. This is the way to a steady and developing industrial base involving no dependence on foreign help.

Minor irrigation gives quicker results at a minimum cost. We cannot wait for long periods for commissioning of bigger projects. Big reservoirs have also proved to become sedimented after years, as is heard of Langol being sedimented after 30 to 40 years. On the other hand, big and medium projects take long periods to give results. I can speak of Kansabati. It is far behind schedule. Out of the target of 10 lakh acres, it is giving water only

to 2½ lakhs of acres after a long period of 15 years.

I would ask this Ministry to give up bias for big projects such as GANGA-CAVERI GRID which will cost Rs. 3000 crores and can be completed after 30 years.

It is a good sign that 25 lakhs tube wells are to be dug to tap underground water in the fifth plan. There must be a planned development to tap underground water resources by digging wells, tube wells; and also local storage system must be planned and encouraged. The role of minor irrigation must be developed increasingly along side the existing ones without taking in any new projects in the immediate planning.

The A.I.C.C. has also submitted a master plan for minor irrigation, wherein they say that we do not want big plans involving long gestation period, on the other hand we want to develop the irrigation potential in a short time so that we can benefit by the projects in the immediate future.

Sir, with regard to drought we feel helpless before this calamity. We must learn from China on this question. This year there was drought in North China. But how did they fight? They mobilised the entire population their co-operatives and village communes. This year in North China 500 big and small reservoirs dried up, 47000 pumping wells worked below capacity, canals ran dry. What did they do? With the help of co-operatives and people's communes they mobilised million peasants to wage a battle against drought. They built more than 5,000 pump wells, improved 5,000 old ones by digging deeper into the dried up streams and well beds and dug 2,000 pond size wells, thus infact expanding the irrigated acreage. Workers came from towns to help with fertilisers and insecticides etc. Government sent diesel engines and there was a record harvest.

Such things are beyond the dreams of our Government because they are away from the people and so cannot rouse them.

Now regarding generation of electricity, this is the kinetics of national development. Lenin said Soviet and Electricity is socialism. Here there is neither Soviet nor electricity. There is famine of electricity everywhere in Northern-Eastern-Southern and Western zones of Indian territory after so much planning. Dr. Rao blames weather for failure in Punjab, non-supply of coal for failure in M.P. bad coal and inefficient maintenance for failure in West Bengal, fault of Congress Government of Andhra Pradesh for failure there and so on. From his statements before Parliament it is evident that there is no planning, no co-ordination with different departments to guarantee the generation of this basic ingredient of production. It needs one centralised coordinating authority to guarantee everything on priority basis for its proper guaranteed production. We see units cannot function for want of coal, wagons in M.P., for want of spare parts, trained men in West Bengal ; for want of new generator sets which are to be imported and such other things. If there is electricity there are no transmission lines to transmit them to deficit areas.

Then there is the question of determining the priority of distribution of electricity in rural areas rather than to industry. But we have no option. We are living a hand to mouth existence.

The generation of electricity is lagging behind the necessary requirement at par with the rate of development in industry, agriculture and civic necessity. We must know how backward we are in generation of electricity. India occupies the lowest rung in production of electricity. While U.S.A. consumes 7,013 kwh, U.K. consumes 3,700 kwh and U.S.S.R. consumes 2,628 kwh.

Yugoslavia consumes 1,006 k.w.h. of power in 1969. India consumes, only 93 k.w. of power in 1971-72. Of course,

an ambitious scheme has been formulated to develop electricity from 18 million k.w. to 52 million k.w. in 1980. It is a huge programme to be implemented.

I hope this may be taken up with all seriousness. But, this cannot be done if a Central High Power body with power to coordinate all aspects of the generation is not set up, to do the job. I want to emphasise again that rural electrification for energising tubewells for development of irrigation potential should be given the highest priority. I want to say some thing on Farakka Barrage.

Calcutta port has got to be saved. It is in danger of being rendered useless due to silting of the bed of Bhagirathi. After much agitation Central Government decided to construct the Barrage over Ganges. It was stated by Mr. Rao that 40,000 cusecs of water would be diverted to Bhagirathi for flushing up the river bed. This was the minimum requirement. But, suddenly, the decision was changed. West Bengal Government was pressurised to accept a lesser amount of water through this Barrage. It was said that 20,000 cusecs of water will suffice. Who changed the original decision?

Later, Dr. Rao said before this Parliament on 14-8-72 that Prof. Hansen, an hydraulic expert from West Germany had categorically stated in 1957 that 40 thousand cusecs would be necessary for it for 10 months and 20,000 cusecs for the lean months from March to mid-May. And Government had accepted his suggestion that 40,000 cusecs is the minimum necessary for this.

If that is the final statement of Dr. Rao, then why did he give a wrong schedule in a statement on 31-5-1972 that reads:

"From January to middle of March the water available will be 40,000 cusecs to 20,000 cusecs and mid-March to mid-May upto 20,000 cusecs."

[Shri Bijoy Modak]

This means that this can be less than 20,000 cusecs. This does not tally with his statement on 14th August, 1972 as has been noted already. Dr. Rao must clarify why in face of Dr. Hansen's report, this misstatement was made deliberately?

We understand that some projects in U.P. and Bihar needs water from the Ganges. We have no quarrel with them. They should get water. The necessity of irrigation projects in U.P. and Bihar can be met, during the period of March to May, by some suitable schemes for drawing adequate ground water, surface water for that shorter period, till the Ganga-Brahmaputra grid project can be executed. If that can be done, let Dr. Rao categorically state in this House that he would divert 40,000 cusecs of water of Ganges throughout the year.

Sir, you know there is a serious erosion of Ganges down stream of Farakk Barrage in Murshidabad District. This erosion threatens the present alignment of B.A.K. Loop line, National highway No. 34 also the proposed Jangipara Barrage. Three big towns Dhulian, Aurangabad are in danger of being wiped out.

Sir, one would expect that something must be done immediately to check this. But we only see that Central and State Governments are trying to fix the main responsibility for this erosion on each other's shoulder. Nothing is being done. Even the sum of Rs. 1 crore as demanded *ad hoc* by West Bengal Government has not been given as yet by Central Government on the plea of the total estimate being sent.

On 6th March, 1973 an estimate of Rs.63 crores for protection of 51 K. M. down stream Farakka has been received by the Centre from West Bengal Government. But Dr. Rao has not mentioned how much cost the Central Government is going to bear, though he admits in a way that the Centre will bear some responsibility.

There is strong doubt that the change of the site of the barrage as suggested by the River Research Institute and eminent engineers like Mr. Devash Mukherjee and Mr. Chakravarty is the main reason behind this recent spurt in erosion. The River Research Institute and Poona Water and Power Research Institute suggested some devices to correct that mistake. But Dr. Rao has disregarded all their advices. Now he is asserting that Farakka Barrage has no connection with this spurt in erosion. There can be no denying the fact that the erosion at the place has increased since the construction of the Barrage. It may be tested by the Hydraulic Model test of river flow. The model is still at the above Institutes. If the Central Government is proved to be responsible for this spurt in erosion, they must bear the full cost for repairing the damage done to the people.

Dr. Rao has admitted that Ganga and Brahmaputra have been causing an immense amount of erosion problem. This cannot be met by the State. I expect that after the total estimates of the scheme are scrutinised, the Central Government must bear the full expenses for containing the erosion.

Regarding the strike by the workers of the State Electricity Board, Haryana, the strike is going on now. The union has called the strike because the Board has not implemented the agreement arrived at between the Union and the Board on interim relief, medical benefit etc. The police has let loose brutal repression on the people. In these days of shortage of electricity, this sort of thing should not be allowed to continue for a long time. I would request the minister to intervene personally in this matter so that a settlement could be arrived at very soon. Otherwise, there is already famine everywhere in northern India and this may add to the difficulties and the whole economic life of the northern zone will be dislocated.

With these words, I oppose the demands of the Ministry.

SHRI LILADHAR KOTOKI (Nowgong): Sir, I rise to support the Demands of the Ministry of Irrigation and Power. My friend from the opposition said that he is opposing the Demands. It is not for opposing him that I am supporting the Demands. I do sincerely feel that not only these Demands should be granted but Parliament should go a long way to see if bigger demands can be granted if we really mean that during the Fifth Plan period we should actually succeed in achieving the objective of democratic socialism and in that way remove poverty and regional imbalances and cater to the weaker sections of society and so on and so forth. Therefore, this Ministry has to play the basic role because for all economic development, it is electricity which is the basic infrastructure. I can do no better than quote from the document of the Ministry itself on Power Generation for the Decade 1971-81. In paragraph 1.1 it states :

"Electric power is one of the basic infrastructure of a developing economy. Through its use in industry, agriculture, transportation and in the commercial and domestic sectors, electricity penetrates directly or indirectly into every facet of the nation's life."

The *per capita* consumption of electricity is a very sure indicator of the standard of economic growth of any country. From the figures, you will find that although our electricity generation has gone up seven-fold, we are still at a staggeringly low level compared to the developed countries of the world. Our *per capita* consumption of electricity is only 90 K.W.H in 1970-71 as against the highest figure of 7013 in the United States in 1969. That shows where we stand.

But in passing I may say that although our *per capita* average is 90 K.W.H., the distribution is so uneven in this country that in some parts it is dismally low. I will come to that later on.

Today within the time limit I will refer to power, and I am glad the Finance Minister is also here. I hope he will appreciate the problem before us and he will be more liberal than hitherto in the allocation of funds for generation of power.

Today all our economic activities are being thwarted by the shortage of power. In fact, if I may say so, we are facing a grave crisis. The source of hydel power is drying up. In my State in the Umiam hydel project the minimum level has gone down and it is nearly closed. So, the industrial activity is at a standstill. It is so in other parts of the country also. This power crisis has created a difficult situation and I do not know how the government is going to face it.

The only thing that I would emphasize is that speedy measures must be taken and whatever the Government can do to meet the minimum power requirements of the essential sectors must be done so that the economy does not suffer, so that our agricultural activities may go on, so that a large number of labourers are not thrown out of employment as now threatened, which may create not only a grave crisis in the economic field but may create a law and order situation which it will be difficult to tackle either for the State Governments or the Central Government. This is how I view this problem. Therefore, before I go to the details of the problem. I would urge that this power crisis in the country today must be tackled with the utmost urgency by the Government, both at the Central and State level, because this is a problem for the entire country. Now the Centre may say that electricity is the responsibility of the State Governments and the State Electricity Boards and, therefore, they cannot do anything. I have an answer to this, which I will mention later on. I will say that the Centre must assume greater power and Parliament must amend the Electricity Act and strengthen the Central electricity authority so that the Government

[Shri Liladhar Kotaki]
of India, may not in future put forth this plea that it is the responsibility of the States. I will come with detailed suggestions later on.

This Ministry is concerned not only with power but also with irrigation, flood control and protection from erosion. Therefore, I have some suggestions to put forth on each of these items for the consideration of the House and the Government.

I will take one point now. I know, I have to close in a minute or two because there is a Half-An-Hour Discussion. But I would just now mention this point so that I can develop it tomorrow.

MR. CHAIRMAN: I think, you better develop it tomorrow. We now take up the Half-An-Hour Discussion.

18 hrs.

HALF-AN-HOUR DISCUSSION DEMAND FOR INQUIRY INTO WORKING OF RESERVE BANK OF INDIA

SHRI JYOTIRMOY BOSU (Diamond Harbour): Mr. Chairman, Sir, the Reserve Bank of India is a key institution for growth in the economic affairs of the country. We see very impressive buildings and they have, no doubt, become big patrons in the field of architecture but not in the field of economy.

Now, a former Governor of the Reserve Bank of India who knows its working thoroughly, Mr. H.V.R. Ienger, has been quoted thus:

"He attributed the present inflation in India to the virtually automatic process of credit expansion and wanted an Inquiry Commission to go into the extent of advice given by the Reserve Bank and accepted by the Government."

The suggestion was endorsed by Mr. R.G. Saraiya, Chairman of the Banking Commission. Mr. Ienger has been further quoted thus:

"Technically, the RBI was the primary currency authority and bank credit. But the real deciding authority was

the Government which was subjected to pressures.

He brushed aside the argument that inflation was a universal phenomenon and that the present inflation in India was part of the world-wide economic process. The effect of inflation in affluent societies was different from that in a poor country like India, he contended. In a poor country, inflation would hit millions of people at the vital spot-consumption of essential goods.

The ex-RBI Governor had also suggested the procedure of a parliamentary debate 'on the limit of credit expansion'.

I would like the Minister to make a note of this. Parliament has been so far, more or less kept in the dark and brushed aside.

Another gentleman has spoken about autonomy for the R.B.I. Mr B. N. Adarkar, the Bank's Governor told a meeting of the Rotary Club of Bombay:

"If there was one reason why the Reserve Bank should continue to enjoy due autonomy, it was to ensure that its power of credit creation was used wisely on the basis of an expert and non-political judgement.

This did not mean that the Bank's policies and decisions should be immune from public or parliamentary criticism. The Bank benefited from such criticism.

In a federal system, the Central Bank was exposed to constant pressure to create monetary resources to make good deficits arising from other sources.

At a time when the resources available to the State Governments were insufficient to satisfy all demands, the Reserve Bank was asked to make good the deficit, either by making additional credit available through credit banks or by agreeing to an increased amount of market borrowing."

This has been a very unhealthy practice.

Another person, Mr Sarwar Lateef, has also issued sentiments and voiced his views. Then, there is an article from the *Hindustan Times* which says :

"Of late, the Reserve Bank has come in for comment on its role in the management of the credit and monetary policies of the Government. Doubts have been expressed over its relationship with the Government and it has been suggested that its advice has not always been altogether free or independent of predilections in Delhi."

This is very alarming. Why should this happen ?

The Finance Minister has, of course, rejected these things.

Now, I would like to quote certain things about the duties of the Reserve Bank as shown in the book entitled "Functions and working of Reserve Bank of India". On p. 4 it says :

"The main functions of a central bank are broadly the same all over the world, namely, acting as note issuing authority, bankers' bank and banker to Government."

It also says :

"It is generally agreed that a central bank's objectives should be to promote or facilitate a high growth rate, full employment, price stability and a viable external payments position."

The Reserve Bank has the sole right to issue notes and it also acts as banker to the commercial banks and to some of the financial institutions including State cooperative banks, holding custody of their cash reserves and granting them accommodation in a discretionary way."

It mentions further

"...administration of the public debt was the direct responsibility of the Government, although the Public Debt Offices were being managed by the Imperial Bank of India. Both these aspects of Government finance have now been centralised in the Reserve Bank. Further, the Bank acts as banker not only to the Government of India, but in view of the federal character of the Indian Constitution, also to the Governments of the States."

It adds :

"The Bank is also entrusted with the management of the public debt..." etc.

So many things are enumerated. Let us know how much goods they have been able to deliver.

Then I come to the point as to how they have failed. This is from the famous book, *The Menace of inflation*, by Shri Gyanchand. It clearly says :

"The Reserve Bank of India is India's Central bank, and as is true of all central banks, the maintenance of price stability is one of its main functions. It has failed completely in the discharge of this function ; and at a time when the prices are under constant and increasing pressure, it is unable to counter it even by utilising fully all its power and instruments of regulation and control."

"The conclusion, of course, follows that the responsibility for the fact that the Reserve Bank, in theory and practice, has, largely speaking, looked up to and followed the lead of countries like USA, UK, and all other countries with which it shares their virtual commitments to the same major premises, articulate or inarticulate, of monetary theory and practice in all essentials and even in

[Shri Jyotirmoy Bosu]

some cases in non-essentials . . . ”
etc., etc.

I do not want to go into the details of that.
It also says :

“But inflation in India—creeping inflation, if we must use that epithet—in spite of all the subterfuges which the monetary authorities and their appointed apologists have tried to find for it, was not and is not inevitable. It could and should have been prevented and even now it can and should be tamed. But the men in power and the interests, which more and more have been fastening their hold over them, are held captive by the views and concepts of the economists which in spite of being obsolete, specially in relation to our conditions and problems, ought to be defunct but are not, besides of course their being in the grip of the narrow minority interests which they represent and serve. The result is that these men in a crisis could only yield to the pressure of U.S.A. as the way out and fall back upon a measure like devaluation as a sovereign remedy of inflation and barter away our economic independence national honour and dignity for only a mass of pottage—for aid of £900 million to import spare parts and components for some of our possibly highly favoured industries.”

That is the character, this is the achievement and performance, of this Government.

I now come to price rise. Let us see the index numbers of wholesale prices. Taking 1963 as the base year, as 100, we find that, in 1965, in the case of India it was 120 and in November, 1971 it jumped to 174. If you look at Egypt, as against 112 in 1965, it went up only to 119.1; in the case of France, the figures are 104 and 128; in the case of Iran, it was 106.3 in 1965 and it went up to 121.9 in 1971; in the case of Japan the figure was 101.1 and it went up to 110.9; in the case of Pakistan, it was 110.4 and it went up to 141.6, whereas in India as I said, from 120

in 1965 the figure jumped to 174 in November 1971. Today, you know, Sir, where we are, we are indeed in a burning furnace. Then, in the matter of consumer price index—in 1965, for all commodities taken together it was 124 and 127 for food items and then in 1971 it touched 197 and 212 respectively. In Pakistan it was 110 and 115.1 in 1965 and in 1971 it was 146.7 and 156.8. So Sir, in the matter of consumer price index rise we have in fact topped the world.

Then there is the glaring example of deficit financing. What does the Reserve Bank do except displaying its great power and glorious buildings ? Regarding deficit financing, Centre and the States combined, it was :

First Five Year Plan 1951—56—Rs. 233 crores, Second Five Year Plan 1956—61—Rs. 954 crores and the Third Plan—1961—66—Rs. 1133 crores and the three annual plans 1966—1969—Rs. 679 crores. Then the increase in money supply was : in 1970—71—Rs. 753 crores, 1971—72, Rs. 998 crores and 1972—73—Rs. 1067 crores and the percentage of variation to annual growth rate was: 4% in 1970—71—2% in 1971—72 and about 1% in 1972—73. And so, we are on the top of the world. That is the Reserve Bank's performance. Then the total actual deficit financing as measured by the bank credit to the Government sector was: 1970—71—Rs. 510 crores, 1971—72—Rs. 1183 crores and 1972—73—Rs. 1342 crores. These are the actual figures of deficit financing and I want to ask Mr. Chavan, I have written to him giving all these points because I want a detailed and elaborate reply from him, what advice the Reserve Bank tendered to the Government and how the Government reacted to the advice and if they have rejected it, on what grounds they have rejected it and if they have accepted it, how they have implemented it.

There has been a hush-hush and I do not know how many skeletons there are in the cup-board, so that they must sit tight.

Nearer home, in India, on December 21, 1957, the Finance Minister said in the Rajya Sabha :

"The Governor of the Reserve Bank is not an officer of the Government. The Reserve Bank happens to be a supreme autonomous body that was created. He is a non-official . . .

How true ?

" . . . He is entitled to criticise the Government, . . .

I have never heard

" . . . to differ from Government. . .

I have never known.

" . . . we can in matters where Government's policies are to be carried out, issue directives; but the Reserve Bank can hold a different opinion, though they have to act according to the directives issued by the Government for good reason's. He is bound to carry out the direction, but, in doing so, he is entitled to tell me and also publish it in his report that the Government of India was advised in the matter."

I would like to be enlightened on this, Mr. Chavan, and, correctly too.

The Issue Department of the Reserve Bank of India was separated from its banking department as per section 23(1) of the Reserve Bank of India Act, 1934. The details of the working of these two Departments are therefore supplied separately. However there are differences in the details of their working.

Whereas full details of its working are given by the Banking Department, details about the working of the Issue Department are invariably too brief,— Why is it so ? At present, the Issue Department published only a sterile weekly statement. We have a right to know why the Reserve Bank has been trying to hide things from us.

Then, a lot of other information regarding public debt the types of securities held their depreciation etc. would be necessary for an intelligent discussion of the Government's economic policy and its implementation by the Reserve Bank of India.

230 L S—14

There also, Mr. Chavan owes an explanation to the House as to how they have deprived us of this vital information. They are obliged to supply it but they have deliberately kept us in darkness. The Federal Reserve System of the USA does publish all such reasonable information about the working of its Issue Department in its monthly and annual reports. As told to the Radcliffe Committee of the FRS, the information given to the public by the Central Bank should be sufficient enough to create public confidence in the motives of those managing the system. It would then be possible in India to pin-point the defects in the actual working of the relationship between the Government and the R.B.I.

At present the general public is in the dark regarding the most important aspects of the working of the RBI. There is no way to know whether the RBI Governor had given any advice to the Government on some aspect of monetary policy, whether it was accepted by the Government, and if not accepted, why not. We will also never know whether there was any difference of opinion between the Governor and the Government. The RBI has devalued the Indian rupee on the sly. For the third time in 14 months the Government has managed to devalue the rupee without saying so. Before 15th February the rupee was worth 0.00333 ounces of gold, calculated at 38 dollars per ounce of gold and Rs. 7.90 per dollar. But on the day when the new international rates came into force the value of the rupee went down to 0.00312 ounces of gold.

I don't want to go into the details of this. I wish to point out how the Government and the Reserve Bank of India have cheated the country and the people of the country, and how they have done this behind the back of the country, and the utter darkness to which the people were kept.

[Shri Jyotirmoy Bosu] .

Then I come to currency notes destruction—this has become a public scandal. Mr. Chavan talks so much about employment, but this is what happens. The RBI employees have come out with statement that they will be going on a strike from the 10th, that is, tomorrow. This will be an all-India strike. This will be a major issue. I now say what they have said: This is what the All India Reserve Bank Employees Association says :

“One of the major functions of the Reserve Bank, the country's Central Bank, is regulation of currency system. As the Controller of the currency it puts currency notes into circulation . . .

Then they say :

Certain checks are essential to keep the quality and quantity of the currency notes at the desired level. Otherwise bad money overtake good money and this built-in defect puts the country's currency system out of its gear. This perspective necessitates a systematic and detailed process of through scrutiny and counting of the notes received back from circulation in accordance with the provisions incorporated in the Bank Manual for the purpose.

Upto early sixties this procedure was normally followed. Subsequently the Bank's management have been insisting that the volume of currency circulation having become unmanageable the standard procedure of counting, checking, sorting etc. has to be abandoned. So came the Emergency Procedure (EP) by which a total lot of notes are punched (defaced) and destroyed after subjecting them to a percentage checking. ”

That is the thing, Sir. That is what is worrying us.

“This wrong step led to the other.

This Emergency Procedure has been revised and Special Procedure (SP) introduced whereby even the defacement of the soiled notes before destruction has been given up.”

Then they say :

“These changes cannot but lead to forged notes being passed off undetected, shortages in packets unnoticed, the actual value of notes in circulation being less than their declared figure due to more notes being in the kethan provided for and notes fit for recirculation being burn to ashes.

Besides putting the currency system in jeopardy these changes procedures affect the employment potential of the institution as well as the job security of the employees. Further the flood-gates of fraudulent practices are opened. Had these procedures not been restored to several thousands of employed youths could have found employment.” etc. etc.

The Reserve Bank of India has got power with regard to Foreign exchange control. I have got a list of 12 items here which was given to me in Exchange reply to a question. They have absolute power to control Foreign Exchange to another question of mine.

“Do you maintain a detailed account of the incoming remittances particularly meant for foreign missions and missionaries ? If so, what are the details thereof ? If not, why not ?”

Vide p. 53 of the copy of the proceedings—
the answer was :

“there are no restrictions under the Exchange Control regulations on inward remittances to India through

banking channels. However, purely for statistical purposes authorised dealers are required to give particulars...."

But the Reserve Bank does not hold itself responsible for anything in the matter; it absorbs itself and clears out of the passage; because it involves very powerful white monopolists, it cannot do anything.

Then my question was :

"In the context of what he has stated just now, I quote from the Kaul Committee report which, I consider it is a gross under-estimate, says that the total leakage through the manipulation in trade channels is of the order of Rs. 240 crores. Then I place more reliance on this very useful *Economic and Political Weekly* which says that the foreign exchange leakage on all these counts would not be below Rs. 400-500 crores. My estimate is that under-invoicing and over-invoicing takes at least Rs. 500 crores a year. On the top of it, improper remittances and illegal remittances currency smuggling etc. is another Rs. 400 crores. So, a thousand crores of rupees of foreign exchange is the illegal outflow from our country".

I asked a question of a very high official of the Reserve Bank :

"The job for which we assemble here is conservation of foreign exchange in the country. Is there a leakage from India, company-wise ? Can you give a note on this ?"

The answer was :

"We do have a record of each remittance because it has to be reported to the Reserve Bank. But to give for each company, it is difficult because there are so many companies involved".

Can you imagine that a bank which is the Reserve Bank of the country could be so callous where we are losing money by billions ?

I put some more questions.

"How many international brand names are being used in India for which money

has been allowed to be remitted— give detailed figures".

The answer was :

"The present system of maintaining statistical data does not indicate the total number of all the brand names of foreign companies which are used in India or of the remittances made for the use of each one of them. Information is, however, available regarding the total remittances made towards 'technical know how' and 'royalties'."

I put another question, on capitalisation of foreign trade marks :

"Capitalisation of foreign trade marks has been permitted by the Government ; the amount of money that has been remitted on this account, and if the Government will be putting an end to this."

The reply was :

"From the data presently maintained, it is not possible to say whether any shares have been permitted to be issued to non-resident companies specifically for the use of trade marks."

But are they blind ? Don't they read the balance sheets ? These are the people who have worked us out.

How could Mundra's keep sterling holdings of about 2 millions in UK in benami names of the following running, controlled and administered public limited concerns : Brahmaputra Tea Co. UK Ltd. Hore Miller & Co. UK Ltd., Duncan Stratton & Co. UK Ltd., SB Industrial Development Co. UK Ltd., etc. etc.

I have got another piece of information concerning Shah Wallace & Co. This has become a big scandal, I have been told by very reliable, knowledgeable persons that the Punjab National Bank was in possession of a cable, a telegram, from one manufacturer, Hanover Trust, London

[Shri Jyotirmoy Bosu]

informing that Moira Investment, Luxembourg, was being formed with Mr. Kalyan Bose, a criminal man who should be put behind bars, and Mr. G.D. Kothari, who I know is a nephew of Mr. G.D. Birla, and Mr. Sudhir Deb, brother-in-law of Kalyan Bose, and Superintendent of Birla's Hukum Chand Jute Mills.

I want to ask Shri Chavan : what did the Reserve Bank of India do in this context as the authority on foreign exchange control ? I also want to ask him this question. The Punjab National Bank is an authorised as a dealer of foreign exchange by the Reserve Bank.

What action has been taken so far as against the Punjab National Bank ?

Is it true—the story of swindling the money of a West German Bank ? Or is it a smokescreen to make black money white ? Why was not section 4 of the Indian Penal Code applied against these people ? How did the Reserve Bank of India allow a man called Vim Rathko, an employee of Sudarsan Birlas, to go abroad, to London and Switzerland—

MR. CHAIRMAN : If you can avoid names, it would be better.

SHRI JYOTIRMOY BOSU : —on behalf of the Oriental Carpet Manufacturing Co., when he was not even an employee ? What about his stay in a posh guest-house in Bargell Square, owned by Birlas in London and Switzerland ?

I say this Reserve Bank is a monument of failure. If you know about the Hindalco, they have been remitting money from all possible sources, digging holes here and there. I do not want to take much time. But this is what they are doing,—commission running into millions of dollars was remitted somehow to Traders International. This was not enough for the Birla bosses. They even managed through manipulation a duplicate remittance of the purchase commission to another office of theirs located in Switzerland, which is known as Messrs. Birla AG., Zug. Similarly, commission remittances were made against exports

and imports since 1962 to both the Birla offices—that is one item—in Washington and Zug (Switzerland) in violation of foreign exchange rules. Not only this. They even managed to get duplicate commission remittances made to these offices against the same contract. What is the Reserve Bank, with its glorious building here and with Mr. Chavan at the top, doing ? I want to ask that question.

I will finish in one minute.

MR. CHAIRMAN : You want the Minister to reply.

SHRI JYOTIRMOY BOSU : Yes, Sir. The Government have said that they have been fighting black money. When we have been trying to unearth black money, the Reserve Bank had approached the Wanchoo Commission to destroy the report or to withdraw the report. That is the job of the Reserve Bank—not to curb inflation ! Then there is the mysterious story of Nagerwala. What has the Reserve Bank been doing about it ? It is their baby. We want to know what has finally come out.

Then, I want to ask him what is the criterion for the composition of this Board—Central Board of Directors. That a man must be a tycoon representative ? A man must be a *kulak*; a man must be a diehard; a bureaucrat, preferably a British tailored variety. They had been kicking hard on our back during freedom struggle. We have S. L. Kirloskar on the Board. Then there is Bhaskar Mitter. Is that the criterion ? I have got the names here. Mr Kirloskar, Mr. Bhaskar Mitter.

MR. CHAIRMAN : Avoid names.

SHRI JYOTIRMOY BOSU : It is all there in the printed document of the Reserve Bank. How can I avoid it ? On the Central Board of Directors, as on June 30, 1972, Mr Chavan's nominees or Mr S. Jagannathan's nominees are, Mr. Kirloskar, Mr. Bhaskar Mitter—speaks for the White man only, the

British; he was President of the Bengal Chamber of Commerce once upon a time,—Andrew Yule—good people! You know how they boot the Indians—tea, indigo, jute. Then Mr. Arvind N. Mafatlal—a socialist, of course. Then, Mr. G. Basu, Mr. D.C. Kothari etc. These are the nominees of Mr. Chavan on the Reserve Bank of India, and talk about—(Interruption) I can give you the whole book. It takes time.

Lastly, before I sit down, I want to bring to your notice a telegram from the Reserve Bank employees, which I received just five minutes before leaving my bungalow this afternoon. It says :

“Refer to-day’s newspapers and inform immediately that of total number of pieces repeat pieces in circulation one and two-rupee notes constitute fiftyone per cent stop Denominations one to twenty ninety-six per cent Stop Explain objection to chest opening by others where our office situated and not in distant places Stop Clarify Public Accounts Department position and Exchange Control Department power delegation Stop. Nearly three hundred persons work of ECD Export Section alone computerised.”

Because a big tycoon must sell his computer services because Mr. Chavan wants—

“Mention that pay revision relates to rising living costs and has no bearing on quota works.”

This telegram has come from the All India Bank Employees Association. It has a curious aspect. The Reserve Bank of India is a house of cards. It has impressive buildings, and impressive rooms, a conglomeration of tycoons and vested interests. The Reserve Bank of India has totally and utterly failed to stand by the common man, the working men in the country. It has completely ruined the economy of the country. Therefore, before I sit down, I would urge that a committee of enquiry should be

appointed. There should be parliamentarians and economists in that committee free from governmental influence and pressure and there should be a thorough probe as Mr. Iengar and other eminent persons have demanded. There should be a thorough probe for the sake of the welfare of the country.

SHRI D. K. PANDA (Bhanjanagar) :

Last year there was a discussion on the forward Contact Regulations Act and during that debate it was brought to the notice of the Hon. Minister that speculators and hoarders had been granted liberal loans and that false statements were made by those speculators. In that connection Mr. Chavan made a statement in this House that the speculators would not be granted loans and there would be more strict scrutiny in such cases. Within two or three days of that statement, the Governor of the Reserve Bank of India made a statement, and since then the Governor in violation of that order or declaration or promise to this House has been granting more loans to the speculators, a most flouting the hon. Minister’s promise. What steps are being taken to stop such violations by the Reserve Bank of India authorities ? Even after the hon. Minister’s promise and declarations to observe the rules strictly while granting loans to the speculators and hoarders, why has it been allowed to happen.

THE MINISTER OF FINANCE
(SHRI YESHWANTRAO CHAVAN) :

I have heard the strong speech full of quotations from hon. colleague Shri Jyotirmoy Bosu. He had raised a few points. Some of them were relevant to the subject matter that he had promised to raise. But he will kindly excuse me if I say some of them were not relevant.

SHRI JYOTIRMOY BOSU it is
a matter of opinion.

SHRI YESHWANTRAO CHAVAN :

It is a matter of opinion. He has raised a discussion with a view to ask for an enquiry and probe into the working of the Reserve Bank of India. I think it is much better if I make it clear at the very beginning that it is not the intention of the Government to start any such enquiry because it is not necessary. It appears that the purpose of this debate was to create doubts in the minds of people about the most important institution, the Reserve Bank of India, which is the central banking authority in our country. Let us go into the basic functions of the Reserve Bank of India. Even according to those who wanted to criticise the Reserve Bank of India—I was very pleased to see Mr. Bosu quoting H.V.R. Iengar—the twin purpose, the twin objective of the Reserve Bank of India is to secure or assure the stability of currency and also to work in such a manner that it would subserve the national interest and the country's economy. These are, in broad terms, the objectives of the Reserve Bank of India.

Now the question that Mr. H.V.R. Iengar has raised and hon. Member Shri Bosu also raised was about deficit financing. I have read the speech of H.V.R. Iengar and I have got with me some portions, some quotations from his speech I would read one of those quotations which is very relevant. His main point about deficit financing was whether there is any safe limit to deficit financing and whether in that matter the Reserve Bank of India has given any advice to the Government and if it has given any advice why should there not be a public dialogue. Why can there not be a public discussion in Parliament? That is the point he has made.

In this connection it would be very necessary to point out what Mr. H.V.R. Iengar has to say about the general problem as such, I have got a part of his speech. Possibly you also quoted from the same part of his speech. This is what he says.

"The furtherance of planned economic objectives in the case of a developing country such as India could only mean a continuous inflation of prices, which means a continuous erosion of the stability of currency. This is inevitable in any developing process and by no conceivable stretch of imagination could a country such as ours possibly raise resources by non-inflationary means, enough to meet both current needs of the administration as well as the needs of massive development effort."

This is what Mr. H.V.R. Iengar says. It is not Chavan speaking.

"The question has never been as to whether we can do without inflation."

According to him, the question has not been as to what we can do to stop inflation but the question has always been as to what is the degree of inflation that the country can tolerate. This is a very reasonable thing which we have also accepted. This is not a point on which any dogmatic views can be expressed. Also he has stated that there can be tolerable limits. But, on this matter also there cannot be any dogmatic views. This is what he says :

"Dogmatic views cannot be expressed because the problem is not one of mere economics. It is intermixed with the problem of psychology. The Reserve Bank is a primary creator of currency and bank credit and technically, has the major responsibility for creating monetary conditions which create and sustain inflation. But, unfortunately for the Bank and the people of this country, the Reserve Bank is not the sole deciding authority as to the degree to which the currency and credit can be expanded at any particular point of time. It is true that the Reserve Bank cannot take final view in the matter, and the reason is that the real deciding authority is Government and Government is

subjected to several pressures. I am not saying, for the moment, that Government should not decide this." That is what Shri Iengar says. Obviously, there can only be one sovereign authority in a country and that cannot be the Reserve Bank and that should be the Government elected by the people and responsible to the people. The Reserve Bank is in no position to assess the options open to Government and Government should assess the extent to which it is possible to resist political pressures etc. One thing is certain that the Reserve Bank, in this matter, has a certain role but the final responsibility for taking decisions about the limit of deficit financing is that of Government. Government is responsible to this Parliament.

SHRI JYOTIRMOY BOSU : We wanted to know as to how you react ?

SHRI YESHWANTRAO CHAVAN : Certainly, about deficit financing also, we cannot take a dogmatic view. The tolerable limit of deficit financing depends upon many factors.

SHRI JYOTIRMOY BOSU : We want to be told about that.

SHRI YESHWANTRAO CHAVAN : This is a continuous dialogue.

SHRI JYOTIRMOY BOSU : Can't you lay it on the Table of the House ?

SHRI YESHWANTRAO CHAVAN : These things cannot be placed on the Table of the House because a continuous dialogue and discussion goes on from day-to-day. It is not that on one point they just give orders to Government and the Government says 'No'. The hon. Member Shri Bosu must try to know how the administration runs. It is not that anyone point the Reserve Bank issues a *Dastava* to Government saying that there should not be any deficit financing beyond 'X' limit. (*Interruptions*).

MR. CHAIRMAN : Mr. Bosu, one minute please. I think that when you spoke nobody interfered. Nobody asked anything nor interjected. Would you not allow the same liberty to other hon. Members including the Ministers ? That puts him off from the argument.

SHRI YESHWANTRAO CHAVAN : So, Sir, the point that I was mentioning was this. As regards deficit financing, for example, if we want to raise a public loan, naturally, we go and discuss it with the Reserve Bank as to what is the safe limit for raising the loan ? Normally, in this particular matter, we go by the judgment of the Reserve Bank. So, on many points we have accepted it because ultimately in the matter of public loans raised by the Centre, the States or autonomous bodies like the State Electricity Boards etc. We go by the advice of the Reserve Bank of India. He quoted the statement of Mr. H. V. R. Iengar. It is a wise statement. I do not entirely agree with all the statements he has made. But he said, it is not merely an economic issue, but deficit financing is also an issue where you have to take certain political policies into consideration. In this particular matter Government always keeps Parliament informed. When the budget is presented, Parliament is taken into confidence and told that these are the possibilities. Whenever we come forward with further supplementary demands, if at all we have to go in for deficit financing, we do it with the approval of Parliament. Mr. Bosu may or may not approve of it, but this Parliament, as a sovereign body, approves of it. So, there is nothing done behind anybody. Nothing is concealed. It is an open matter. The fact we are discussing it here today shows that it is an open matter. As far as deficit financing is concerned, certainly the Reserve Bank has its independence to give us advice and it has been giving us such advice. Ultimately Government takes a decision with the approval of this sovereign body.

SHRI JYOTIRMOY BOSU : Did it at any point of time ask you not to do it ?

SHRI YEWANTRAO CHAVAN :

This is a matter between the Reserve Bank and the Government. cannot tell you at what time what advice it gave. Sometimes they say, don't do it. Sometimes we have to do that. Sometimes they publish their own views in their own bulletins, which are not favourable to Government. They have the autonomy and the right to do it.

SHRI JYOTIRMOY BOSU : Even in capitalist country like America, these matters are given far wider publicity than in this country which professes socialism.

SHRI YESHWANTRAO CHAVAN : I did not know that you were praising the American system and ideas.

SHRI JYOTIRMOY BOSU : I did not say that.

SHRI YESHWANTRAO CHAVAN : I do not want to go into polemics about it. He is a good friend of mine. He says that we resorted to devaluation on the sly. It is not correct.

SHRI JYOTIRMOY BOSU : Have you made any announcement on the floor of the House that you are devaluing ? You are devaluing it gradually bit by bit. Have you ever taken the House into confidence about it ?

SHRI YESHWANTRAO CHAVAN : I have made statements many times on the floor of the House about the international monetary scene as far as exchange rates are concerned, in reply to questions etc. Only the other day, I made a long statement about the monetary situation in the world. You are living in a world where there is a hot war of exchange rates; I would not say it is a cold war, it is a hot war. When the other currencies are either revalued or devalued, you cannot isolate yourself from the rest of the world. It has a certain effect on us. But the Reserve Bank takes care to see that we are the least affected. That is the only thing I can mention. There is no truth in the statement that we are devaluing on the sly. It is a question of

merely making an assessment of the international scene of exchange terms as it is today.

Then, he mentioned many names of individuals and firms in connection with foreign exchange. I do not know what the Reserve Bank has got to do about it. It is very unfair to make all sorts of allegations without any foundation, without any evidence. He has asked many questions which we have answered on the floor of the House. Now he has mentioned half a dozen companies.

SHRI JYOTIRMOY BOSU : I made a specific allegation that a cable came to the Punjab National Bank from Luxemburg about Moira Investment of Mr. Kalyan Basu. Secondly, the Reserve Bank is the supreme and final authority in the matter of control of foreign exchange, and the Punjab National Bank is one of the nationalised banks. How is it that the Reserve Bank did not act in the matter although there is evidence in black and white in the records of the Punjab National Bank ? Is it not because of the powerful influence of Birlas ?

SHRI YESHWANTRAO CHAVAN : I personally think that the Reserve Bank is not in any way connected with this. He has mentioned certain facts. I cannot say that the Reserve Bank can be held responsible for this. I am sure that whenever any matter is brought to the notice of the Reserve Bank, it goes into it. That is my presumption.

Then he mentioned about the directors of the Reserve Bank, perhaps from some old list. For his information I may say that Shri S. Jagannathan is the Governor and the other members are Shri P. N. Damry, Dr. R. K. Hazari, Shri S. S. Shiralkar and Shri V. V. Chari, all Deputy Governors, Prof. M. L. Dantwala, Chairman, Agricultural Finance Corporation Ltd., Bombay, Shri A. N. Haksar Chairman, India Tobacco Co. Ltd., Dr. Bharat Ram, Chairman & Managing Director, Delhi Cloth & General Mills Co.

Ltd., Shri C. Ramakrishna Advocate, Madras, Shri C. P. Srivastava, Chairman & Managing Director, Shipping Corporation of India, Shri M. P. Catiale, Chartered Accountant, Bombay, Dr. K. Kanungo, Dean and Joint Director, Indian Agro Research Institute, Dr. B. Datta, Calcutta, Dr. G. Parthasarathy, Vice-Chancellor, Jawaharlal Nehru University, Dr. V. Kurien, General Manager, Kaira District Co-operative Milk Producers Union Ltd., Dr. P. B. Gajendragadkar, Chairman, Law Commission and Dr. A. M. Khusro, Professor, Indian Institute of Economic Growth. This is the galaxy of economists and eminent public men sitting on the Board of Directors of the Reserve Bank and it is something of which we should be proud. Merely to mention some names here and try to give a very distorted picture is very unfair to Shri Jyotirmoy Bosu himself, unfair to the Reserve Bank and unfair to the country. Therefore, I do not accept any of the allegation made against the Reserve Bank. I repudiate all the allegations made against them and refuse to accept the demand for an inquiry.

Then one hon. Member said that the Governor of the Reserve Bank said something which in effect flouts one of my statements. I do not think anything of that sort has taken place. If he sends me more details, I shall look into it.

SHRI JYOTIRMOY BOSU: Shri Bharat Ram had to leave the Board because he was involved in a scandal about DC aircraft to be purchased from a foreign monopoly concern.

SHRI YESHWANTRAO CHAVAN : How can they do anything when there is such a large number of people sitting in the Board ?

How can I say that the allegations are true or not ? Therefore, my presumption is that the allegations are not true unless they are proved. These are eminent persons there. How can we go on accepting allegations of this type ?

Then, it was said that the Governor of the Reserve Bank of India agreed to give loans to speculators. The Reserve Bank Governor does not directly deal with giving loans. It is the Banks which give loans. What I have said is that we have taken steps and made certain arrangements in the banking procedures to see that speculators will not be able to get loans. This is what I have said. This is the policy even today, that we must see that the money that is given in the form of loans and advances must be for genuine economic viable purposes and for productive purposes. If on the sly somebody is taking advantage for speculation, certainly, it deserves going in to the facts and looking into them. But it is beyond my imagination how the Governor of the Reserve Bank of India is connected with this sort of thing.

I would like the hon. Member, when he makes a statement on a very important forum like this, to be more careful. I would request that whatever their views may be about 'A' or 'B' or 'C' let them remember, the Reserve-Bank is one very important structure of Indian economy which is very necessary for the stability of the country. It is the interest of everyone of us. Parliament, the country, the economy, that we keep up the prestige and dignity of this great institution, the Reserve Bank of India.

18.51 hrs.

The Lok Sabha then adjourned till Eleven of the Clock on Tuesday, April 10, 1973 (Chaitra 20, 1895 (Saka)).

LOK SABHA DEBATES

LOK SABHA

*Tuesday, April 10, 1973/Chaitra 20.
1895 (Saka)*

*The Lok Sabha met at Eleven of the
Clock*

[MR. SPEAKER in the Chair]

ORAL ANSWERS TO QUESTIONS

Memorandum from DESU Engineering Association

*681. SHRI RAM BHAGAT
PASWAN:

SHRI VARKEY GEORGE:

Will the Minister of IRRIGATION
AND POWER be pleased to state:

(a) whether DESU Engineering
Association has submitted a memo-
randum regarding the irregular re-
cruitment of engineers during 1972;
and

(b) if so, the salient features there-
of and the action taken by Govern-
ment thereon?

THE DEPUTY MINISTER IN THE
MINISTRY OF IRRIGATION AND
POWER (SHRI BALGOVIND
VERMA): (a) and (b). A statement
is laid on the Table of the House.

Statement

(a) and (b). The D.E.S.U. Engi-
neers Association submitted a memo-
randum alleging that:

- (i) about 30 engineers were re-
cruited as Assistant Engineers
by the D.E.S.U. manage-
ment in April, 1972 without
the authority of the Delhi
Electric Supply Committee

which is the appointing
authority for Assistant Engi-
neers in consultation with
the Union Public Service
Commission;

- (ii) the scale of pay of Rs. 325—
900 in which they were ap-
pointed does not exist;

- (iii) the posts were not advertised
and no qualifications for re-
cruitment were laid down;
and

- (iv) pointing out that the D.E.S.C.
had passed a resolution on
6-6-1972 in which the Com-
mittee had resolved that the
appointments made in the
pay scale of Rs. 325—900 of
Assistant Engineers be can-
celled forthwith.

2. The General Manager, D.E.S.U.,
from whom a report was called for,
has reported that the D.E.S.U. ap-
proached the Union Public Service
Commission on 26-5-1970 for filling
up 28 vacant posts in the grade of
Assistant Engineer. Of the candi-
dates recommended by the U.P.S.C.,
only 20 joined. Meanwhile, some
more vacancies occurred and the
U.P.S.C. were requested on 4-4-1972
to recommend candidates for 24 posts.
The U.P.S.C. asked the D.E.S.U.
on 14-4-1972 to send the requisition
in the revised form; this was done
by D.E.S.U. on 3-7-1972. The posts
were advertised by the U.P.S.C. on
28-10-1972 and interviews are likely
to be held shortly.

3. In the meantime, in the interest
of work, the General Manager,
D.E.S.U., filled up 29 posts of Assis-
tant Engineer in the grade of Rs. 325—
900 (against vacancies in the scale of

Rs. 350—900) on *ad hoc* basis pending regular appointment through the Union Public Service Commission.

4. As the matter is entirely within the purview of the Delhi Electric Supply Committee, which is a limb of the Delhi Municipal Corporation, we are asking that body to enquire into the matter and take necessary action.

SHRI RAM BHAGAT PASWAN: I would like to know from the hon. Minister whether it is not a fact that the DESU management have appointed Assistant Engineers without the concurrence of the UPSC and to circumvent the UPSC they had reduced the pay scale of these engineers from Rs. 350 to Rs. 325, and whether it is also not a fact that these engineers have been appointed when no such post in this scale has been created. If it is a fact, may I know whether any inquiry has been instituted into this lapse?

THE MINISTER OF IRRIGATION AND POWER (DR. K. L. RAO): The appointment has been made by the General Manager purely on an *ad hoc* basis. They cannot circumvent the UPSC. They have approached the UPSC and the application is pending before them. The UPSC have already advertised the posts and the interviews are likely to be held shortly. If the candidates selected do not happen to be the present ones, naturally they will have to quit and the new ones will join.

With regard to the other point raised by the hon. Member, it is in the domain of the Delhi Electric Supply Committee, and I have written to them to make such enquiries as they think fit in this particular case.

SHRI RAM BHAGAT PASWAN: May I know whether it is a fact that quite a good number of Assistant Engineers are still unconfirmed and are appointed on an *ad hoc* basis, and if so, may I know the time by which

these engineers will be regularised to avoid discontentment.

Lastly, may I know the reason why the Shivashankar Committee Report on this has not been implemented so far?

DR. K. L. RAO: With regard to the appointments being temporary, it is in the domain of the Delhi Electric Supply Committee, as I said, to create the posts. To the extent that they made permanent. Therefore, it is entirely in their discretion, depending sanction the posts, the posts will be upon the volume of generation capacity they are going to have and so on.

Regarding Sivasankar Committee's Report, the report has been submitted recently and I sent the report to the Delhi Electric Supply Undertaking to take such action as they deem fit because again the implementation is entirely for the Delhi Electric Supply Corporation and we do not want to interfere unless any injustice is done and that is specifically brought to our notice.

MR. SPEAKER: Shri Varkey George—not here.

SHRI A. P. SHARMA: What is going to happen to those engineers who have been recruited on an *ad hoc* basis? Are they going to be confirmed and or their cases going to be considered by the Commission? I would like to know what is going to happen to these people.

DR. K. L. RAO: Always such appointments are made like this pending UPSC selection. They also appear before the UPSC and if they are selected, they come in; otherwise, they will have to go out of the job.

PROF. NARAIN CHAND PARASHAR: As has been admitted by the hon. Minister, all appointments were made on an *ad hoc* basis. May I know as to what is the time required

for the regular incumbent to come in?

MR. SPEAKER: That is already given in detail in the statement.

DR. K. L. RAO: They have called the candidates for interview and they are expected any time, now, unfortunately, the UPSC has taken such a long time. As I said, they have taken nearly a year for the first batch to be selected and they may take some-time for the second batch. Therefore; as soon as the persons are selected, then they will join. There is no other time limit for the people taken on *ad hoc* basis.

MR. SPEAKER: Shri Rajdeo Singh—absent.

Shri Onkar Lal Berwa—absent.

Explosion of Coal Dust Bunker of Barauni Thermal Power Station

*684. SHRI SUKHDEO PRASAD VERMA:

SHRI C. K. CHANDRAPPA:

Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) whether the coal dust bunker of the Barauni Thermal Power Station exploded on March 12, 1973; and

(b) if so, the reasons therefor and the number of casualties as a result thereof?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): (a) and (b). A statement is laid on the Table of the House.

Statement

(a) and (b). One of the 50 MW sets at Barauni had to be shut down on 13th March, 1973 due to a leakage in one of the superheater tubes.

After about an hour and half a fire was detected in the air-preheater and the connecting ducts. This rapidly intensified, and resulted in explosion. The outbreak of fire was found to be due to the burning of the soot-deposits on the air-preheater tubes. Due to intensity of fire, portions of the hopper melted and the falling of the molten mass on the ground caused injuries to the people standing nearby.

47 persons were given first aid in the Thermal Station Hospital. 12 persons were referred to Hospital at Mokameh. Out of these, three were discharged immediately and seven the next day. The two remaining persons who were apparently standing on a higher platform, jumped to the ground and received fractures and are under treatment in the Hospital.

श्री सुखदेव प्रसाद वर्मा : अध्यक्ष महोदय, जो विवरण सभा पटल पर रखा गया है उस में यह बताया गया है कि सुपरहीटर ट्यूब में लीकेज के कारण यह एपिसोड हुआ है, मैं माननीय मंत्री जी से जानना चाहता हूं कि क्या यह जो विस्फोट हुआ कोयले के चूर्ण में वह असावधानी के कारण हुआ है या जो डस्ट वहां जमा था उस की देखभाल करने वाला कोई था या नहीं था यह इस विवरण से स्पष्ट नहीं होता है, इसलिए निश्चित पता नहीं चलता है कि इस विस्फोट में असावधानी बरती गई है या कैसे यह विस्फोट हुआ है ? यदि असावधानी बरती गई है तो उस के लिए किस किस की जिम्मेदारी है और उन के ऊपर क्या कार्यवाही की गई है ?

THE MINISTER OF IRRIGATION AND POWER (DR. K. L. RAO): A committee was appointed by the Bihar Government to go into this and pending the committee's findings, I do not want to say much on the subject. But, in this particular case, what

happened was that one of the super-heater tubes was leaking and, therefore, the boiler was shut down. Subsequently, after an hour and a half, the explosion took place in the air preheater, not in the super-heater tube but in the air preheater where the air is heated before it gets into the boiler. That heater got exploded and the exact reason for that is being investigated. If I say anything now, it will prejudice the inquiry. So, I will rather refrain from saying anything now.

श्री सुखदेव प्रसाद वर्मा : जांच करने के लिए जो कमेटी बनाई गई है वह आप ने बनाई है या बिहार सरकार ने बनाई है, उस कमेटी में कौन कौन लोग हैं और वह कमेटी कब तक अपनी रिपोर्ट सरकार के पास देगी ? उस के लिए कोई समय निश्चित किया गया है या नहीं ?

DR. K. L. RAO: This committee has been appointed by the Bihar State Government and its members are a retired Chief Engineer of DVC and the present Additional Chief Engineer of DVC and a fuel expert. A committee of these three has been appointed. The Committee's report is expected in one or two months.

SHRI KRISHNA CHANDRA HALDER: I would like to know from the Minister as to what was the total financial loss. What is the total loss incurred due to this accident of March 12, 1973?

DR. K. L. RAO: Total loss is about Rs. 20 lakhs. The repair work is estimated to take about three months.

SHRI KRISHNA CHANDRA HALDER: Whether any compensation was given to the injured persons? Can you tell this information?

DR. K. L. RAO: Injured persons have not been paid compensation so

far. But they will be paid according to the Workmen's Compensation Act.

मध्य प्रदेश विधान सभा के रिक्त स्थानों के लिये निर्वाचन

***686. डा० लक्ष्मीनारायण पांडेय :**
क्या बिधि, न्याय और कम्पनी कार्य मंत्री यह बताने की कृपा करेंगे कि

(क) क्या मध्य प्रदेश के मऊ तथा जरागांव जिला बिलासपुर निर्वाचन क्षेत्रों से विधान सभा के रिक्त स्थानों के लिए इस वर्ष निर्वाचन होने थे ;

(ख) क्या उक्त दोनों निर्वाचन क्षेत्रों में निर्वाचन की तारीखें भी घोषित कर दी गई थीं ; और

(ग) यदि हां, तो घोषित तारीखों को निर्वाचन न कराये जाने के क्या कारण हैं ?

THE MINISTER OF STATE IN THE MINISTRY OF LAW, JUSTICE AND COMPANY AFFAIRS (SHRI D. R. CHAVAN): (a) Elections were scheduled to be held in early 1973 for filling the vacant seats from the 250-Mhow and 96-Jarhagaon Assembly constituencies in the Madhya Pradesh Legislative Assembly.

(b) Yes, Sir. A programme was sent to the Chief Electoral Officer, Madhya Pradesh, for holding these two by-elections.

(c) The Chief Electoral Officer subsequently reported to the Election Commission that acute scarcity conditions caused by severe drought prevailed in a major portion of the State, that these constituencies were badly affected by scarcity, and that the entire administrative machinery of Government was deployed on relief measures and so it was neither possible nor desirable to hold the by-elections on the scheduled dates.

There was also large scale movement of population from the constituencies by reason of famine and drought conditions. This would not be conducive to the fairness of the elections if held. The Election Commission was satisfied with these reasons and accordingly decided to hold over the bye-elections until after the problems arising from scarcity conditions have been dealt with and have abated.

डा० लक्ष्मीनारायण पांडेय : अध्यक्ष जी, सम्भवतः मंत्री महोदय को पूरे तथ्यों की जानकारी नहीं है, अन्यथा वे इस प्रकार का भ्रमपूर्ण उत्तर नहीं देते। मैं जानना चाहता हूँ कि महु निर्वाचन क्षेत्र का चुनाव कितनी बार रोका गया? क्या यह सही है कि महु असेम्बली कांस्टीचूएन्सी है और इन्दौर लोक सभा कांस्टीचूएन्सी का एक भाग है। जब इन्दौर लोक सभा कांस्टीचूएन्सी का चुनाव हुआ तो महु का चुनाव रोकने के क्या कारण थे?

SHRI D. R. CHAVAN: I have mentioned the reasons and these have been given here. The programme was fixed for the election and the notification was issued on 25th January, 1973. Election was to be held on 25th February, 1973. On account of the conditions there, the Chief Electoral Officer said that the State was affected by drought; these constituencies were also affected by drought and as such, it would not be desirable or advisable under present conditions to hold these elections. Similarly, the Chief Secretary of the Madhya Pradesh Government also informed the Election Commission that the entire administrative staff will be deployed on relief work and it will not be possible to hold election under these circumstances. Under these circumstances they had to hold over the election.

डा० लक्ष्मीनारायण पांडेय : अध्यक्ष महोदय, मैं सब से पहले अपने पहले प्रश्न का स्पष्टीकरण चाहूंगा। मैंने स्पष्ट कहा है कि महु निर्वाचन क्षेत्र का चुनाव रोका गया, जब कि इन्दौर की लोक सभा निर्वाचन क्षेत्र का चुनाव हुआ, महु असेम्बली कांस्टीचूएन्सी है तथा इन्दौर की लोक सभा कांस्टीचूएन्सी का एक भाग है, महु का चुनाव भी इन्दौर के साथ साथ हो सकता था, उस को रोकने के क्या कारण थे?

श्री फूलचन्द वर्मा : इन्दौर में लोक सभा का चुनाव कराया गया, विधान सभा का क्यों रोका गया (व्यवधान) . . .

SHRI D. R. CHAVAN: The programme is fixed and approved by the Election Commission. The Election Commission actually had approved of the programme for holding the elections both in the Assembly and the Parliamentary (Scheduled caste) constituency but as a result of the conditions prevailing there it had to be withheld.

डा० लक्ष्मीनारायण पांडेय : अध्यक्ष महोदय, मेरे प्रश्न का उत्तर नहीं आया मेरे प्रश्न का उत्तर दिलवाइये।

मेरा दूसरा प्रश्न है कि क्या यह सही है कि इन्दौर जिला अकालग्रस्त जिला नहीं है, मध्य प्रदेश सरकार ने उसे अकाल ग्रस्त घोषित नहीं किया है, वहां किसी प्रकार का, काल नहीं है? राज्य सरकार ने जो जानकारी आप को दी है, वह गलत है। महु मध्य प्रदेश के मुख्य मंत्री की कांस्टीचूएन्सी है, इस लिये उसको रोका गया है। अध्यक्ष महोदय, मेरे दोनों प्रश्न का स्पष्ट उत्तर दिलवाइये।

SHRI D. R. CHAVAN: I am giving the information that has been supplied by the Chief Election Commissioner and the Chief Secretary, Madhya Pradesh Government. Whether drought is declared in Indore district or not that information is not with me.

डा० लक्ष्मीनारायण पांडेय : वहां उन का पेटिशन चल रहा था इस लिये चुनाव रोका गया है । उन के लिये कोई गवाही नहीं दे रहा है—दूसरे वहां सूखे की स्थिति नहीं है

MR. SPEAKER: The Minister has said that he is giving the information as is supplied by the Chief Election Commissioner.

डा० लक्ष्मीनारायण पांडेय : मैंने साफ-साफ पूछा है—इन्दौर जिला सूखा ग्रस्त या अकाल ग्रस्त जिला घोषित नहीं किया गया है, वहां के लोग दूसरे जिलों में नहीं गये हैं; वहां सारी मशीनरी ठीक ठीक काम कर रही है—उसके बावजूद भी आप को गलत जानकारी दी गई है

SHRI D. R. CHAVAN: I have already stated I go on the basis of the information given by the Chief Election Commissioner and the Chief Secretary, Madhya Pradesh Government. They said there is large-scale movement of population and these areas are affected by drought. Beyond that I do not have any information.

डा० लक्ष्मीनारायण पांडेय : अगर आप को गलत जानकारी दी गई है तो आप उन के खिलाफ कार्यवाही कर सकते हैं । आप सदन को जो जानकारी दे रहे हैं, वह गलत है, अमपूर्ण है ।

SHRI S. A. SHAMIM: The hon. Minister has to give a direct answer to the specific question which has been asked, that is, if elections can be held in Indore Parliamentary constituency why not the elections could be held in Mahu Assembly constituency? How is it in the first case no notice was taken of the drought whereas in the second case notice taken?

SHRI D. R. CHAVAN: The point is the Election Commission is an authority set up under the Constitution of India. It is for the Election Commission which is an independent body to be satisfied about the appropriate time to hold or not to hold this election. The notification was to be issued on 25th January and the election was to be held on 25th Feb., 1973. The Mahu constituency vacancy was caused on account of the resignation of Shri P. C. Sethi in 1972 and the scheduled caste constituency was caused on account of the death of Smt. Minimata on 12-8-1972. For the Mhow constituency, the date is 22-3-72 and for the Jarhagaon assembly constituency 10-6-72.

श्री झारखण्डे राय : क्या मंत्री जी बतायेंगे जब मध्य प्रदेश सरकार ने इन्दौर जिले को अकाल क्षेत्र घोषित नहीं किया और अकाल क्षेत्र होने के नाते मूह में चुनाव नहीं कराया तो फिर क्या वजह थी कि इन्दौर में पार्लियामेन्टरी चुनाव कराये गए ?

अध्यक्ष महोदय : बार बार वही सवाल आ रहा है । जो सवाल एक दफा पूछा गया दूसरी दफा दूसरे ने पूछा । इससे क्या निकलेगा ? वही जवाब देंगे । (अवधान)

SHRI D. R. CHAVAN: The first part of the question is why elections were not held. I answered it by saying that the Election Commission is the constituted authority

under the Constitution and is an independent body and it is for the Election Commission to decide when to hold election or when not to hold it."

About the second part, about the non-declaration of drought in the Indore area, I have given the answer on the basis of the information given by the Chief Electoral Officer and the Chief Secretary. I myself have not got information; I have to get it from them.

MR. SPEAKER: That is enough. He has passed on the information received by him. (*Interruptions*)

श्री फूलचन्द वर्मा : मैं मंत्री महोदय से जानना चाहता हूँ क्या किसी संसद सदस्य ने जब यह चुनाव स्थगित हुआ था उसके सम्बन्ध में आपको एक टेलीग्राम दिया था ? साथ साथ मैं यह भी जानना चाहता हूँ क्या महु चुनाव पिछले तीन बार स्थगित नहीं हुआ—एक बार न्यायालय में चुनाव याचिका के कारण, दूसरी बार कांग्रेस के आपसी झगड़े के कारण और तीसरी बार जो गलत इन्फार्मेशन दी गई है कि इन्दौर में सूखा पड़ा उस बहाने के कारण—तो मैं जनना चाहता हूँ मध्य प्रदेश के जों चुनाव अधिकारी हैं श्री चौधरी, क्या वह पूरी तरह से चीफ सेक्रेटरी की जेब में नहीं हैं ?

अध्यक्ष महोदय : यह सवाल नहीं है कि कौन किसकी जेब में है । (अवधान)

I am sorry. I have allowed so many questions. There is nothing coming out except that the Minister has given the reply already.

SHRI H. M. PATEL: The Minister says that the Election Commission is

an autonomous body and therefore Government is not in a position to ascertain from the Commission why they allowed this postponement. That is an answer which, it seems to me, cannot be accepted. There are two points involved in this question, one, that the Indore parliamentary election was held....

AN HON. MEMBER: He is repeating.

SHRI H. M. PATEL: How else do I clarify it? Mr. Maurya asked for the date on which the seat in this constituency fell vacant. The Lok Sabha constituency state fell vacant about the same time as the Mhow constituency seat. Mhow constituency is part of the parliamentary constituency.

SHRI D. R. CHAVAN: I said that for the Scheduled Castes parliamentary constituency, one seat fell vacant on account of death of Minimata on 12-8-1972. About the seat that fell vacant in the Mhow constituency, that was on 22-3-1972.

SHRI H. M. PATEL: That is earlier. The Mhow constituency seat fell vacant earlier to the vacancy in the Lok Sabha constituency. So, the reasons given are entirely unjustified, untenable. I think the Minister owes it to the House to say, "I will seek a clarification from the Madhya Pradesh Government on the facts which have just now been brought to my notice." That is the least that he can do. He cannot just say, "No."

SHRI D. N. TIWARY: The whole election matter is in the hands of the Election Commission. I want to know whether the Government has got any hand in those elections or whether the Election Commission alone conducts the elections. If the Election Commission conducts the elections, how is the Minister responsible?

MR. SPEAKER: The Minister has explained the same position to him.

SHRI DINEN BHATTACHARYYA: May I know whether the Election Commission depends for the date or the time when a bye-election should take place only on the report sent by the State Government, or, whether there is a mechanism at the Centre, in the Ministry, to ascertain whether there is any possibility or whether there is any failure in holding an election anywhere? What is the criterion?

SHRI D. R. CHAVAN: The procedure is that the Election Commission acts on the basis of the information supplied by the State Government. In consultation with the State Government, the Election Commission decides.

MR. SPEAKER: I am sorry this question has taken so much time. We will try to save it on others now.

Re-organisation of Zonal Consultative Committee of Members of Parliament

*687. **PROF. NARAIN CHAND PARASHAR:** Will the Minister of RAILWAYS be pleased to state:

(a) whether a demand has been made during the course of discussion on the Railway Budget for the re-organisation of Zonal Consultative Committees of Members of Parliament for better consultation and discussion of the problems of the various regions;

(b) if so, whether it is proposed to reorganise these Committees on the old pattern i.e., 16 Regional Committees; and

(c) whether any immediate re-organisation of the Zonal Consultative Committee of Members of Parliament for Northern Railway is being considered on Divisional basis, especially in view of the fact that the present Committee consists of more than 200 Members of Parliament, and no worthwhile discussion is possible in such a large body?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Yes, Sir.

(b) and (c). No, Sir. Government having experimented with Regional Committees during 1970 are of the view that they were not as effective as the present Zonal Committees of M.Ps. This being the position Government are not considering the re-organisation of the Northern Railway Zonal Committee of M.Ps. on Divisional basis. For dealing satisfactorily with Railway Users problems, at present we have also the Zonal Railway Users' Consultative Committees at the Railway Headquarters' level and Divisional Railway Users' Consultative Committees at the Divisional level, in which M.Ps., M.L.As., and other interests are represented.

PROF. NARAIN CHAND PARASHAR. In answer to part (c) of the question, the hon. Deputy Minister said that the old committees were not effective. May I know that as Parliament appoints a Committee of 45 Members, as the maximum strength, from both the Houses, here, the railways appoint a committee which has more than 100 members on it? Is it a committee or a mini Parliament, and how is it that any worthwhile discussion is possible when 108 members are seated around and you cannot find any time for one member to speak? I would like to know what is the reason for this, that the old method was regarded as ineffective. How do you regard this committee with more than 100 members to be more effective when they sit for a short interval of two to three hours and hold a discussion?

SHRI MOHD. SHAFI QURESHI: It does not depend on the strength or the number of committees, but upon the effective functioning of a committee. For instance, we have this procedure, namely, at the divisional level, there is a divisional

railway users' consultative committee. There is a zonal railway users' consultative committee at the zonal level. Then there are nine parliamentary committees for all the zones, of which two meetings are held in a year. Then there is a major consultative committee of which three meetings are held in a year. If we constitute those committees as has been desired by the hon. Member, I think the Minister and the Members will have to sit throughout the year on these committees.

MR. SPEAKER: That is what he wants.

PROF. NARAIN CHAND PARASHAR: Sir, he has not replied to the main question. What is the utility of such a committee when even a committee of both Houses of Parliament, a Joint Committee, has a maximum strength of 45? What is the justification for a committee to have 108 members or more than that? Secondly, does he expect the members to participate? Does he expect the members not to speak? What sort of development does he expect?

MR. SPEAKER: I think that it is quite unusual for such questions to come up. You put a question on the basis of what was discussed in the current budget debate. Now, you are putting supplementaries on the same basis. This a very unusual procedure that has been followed in this connection. I am sorry I may have to go into that. Otherwise, tomorrow, you may again come up with a question on the basis of the one asked by Shri Patel or any other member.

PROF. NARAIN CHAND PARASHAR: Sir, this question flows from the answer given. I want to know as to how a Committee of 108 Members can be more effective than the Zonal Committee pattern which the Ministry was following earlier. In answer to another question he referred to the Users' Committee, this Committee

and that Committee. All the M.Ps. are not there. In such a Committee with 108 Members, how much time one Member gets in order to present the problems of his region in such a Committee in which 108 Members are present? Would there be sufficient time for the Member to discuss about the development of the area concerned?

SHRI MOHD. SHAFI QURESHI: In the Consultative Committee only policy matters are discussed. An agenda is formed and the papers are circulated to all the Members of these Committees. The hon. Member says that a large number of Members are represented on this Committee wherein matters connected with the Member's constituency are taken up.

I say it is very useful to us.

श्रीमती शीला कौल : अभी मंत्री महोदय ने कहा कि यूजर्स कमेटीज मुब्तलिक लेविल पर बनी हुई हैं, लेकिन मैं जानना चाहती हूँ कि क्या उन्हें यह लालूम है कि ये जो कमेटीयाँ हैं उनकी कार्यवाही देखें, मिसाल के लिये यूजर्स कमेटी, तो यही होता है कि हर चीज रेफर की जाती है रेलवे बोर्ड को, और कोई उस पर ऐक्शन उस लेविल पर नहीं लिया जाता है। तो यह बड़ी दिक्कत की चीज है।

श्री मुहम्मद शफी कुरेशी : जनरल मनेजर्स को अख्तियारत दिये गये हैं कि वह जोनल कमेटीज के फैसलों पर अमल करें। अगर कोई ऐसा फैसला वहाँ पर लिया जाय जिसमें रेलवे बोर्ड या रेलवे मिनिस्ट्री को इजाजत की जरूरत होगी तो वही मामला रेलवे मिनिस्ट्री को आता है। लेकिन अगर कोई और शिकायत माननीय सदस्यों को है तो उसको देखा जा सकता है।

SHRI R. S. PANDAY: The very idea of forming the Consultative Committee like the Zonal Committee is just to have suggestions from the Members

of Parliament and other members representing the Chambers etc. Public grievances etc., made are brought before this Committee. We would like to be informed in the House on how to implement those suggestions which were made by the Members. You might remember that we were told that in all the Users' Committee, Consultative Committee and other Committees an agenda is drawn up and discussion takes place. But, nothing happens afterwards. Everything is referred to the Railway Board. I happen to be a Member I know that nothing else happens. This is my main grievance. And so, may I know whether the hon. Minister has any detailed information in regard to the matter. If so, let us know as to how far he has been able to implement those suggestions or grievances which were advanced by the Members of these Committees.

SHRI MOHD. SHAFI QURESHI: Sir, the suggestions made by the hon. Members are carried out within the availability of funds with the Railways. We are spending about Rs. 4 crores on amenities to the passengers. This amount is actually spent by the Zonal Committees. So, it is not that all the suggestions made by the Members are brushed aside. Only those suggestions which involve a heavy expenditure and which are beyond the railways, are not implemented.

अष्टाचार के आरोप में पूर्वोत्तर रेलवे के कर्मचारियों को दण्ड

*688. श्री मूलचन्द डागा : क्या रेल मंत्री यह बताने की कृपा करेंगे कि :

(क) 30 जून, 1972 को समाप्त होने वाली तिमाही में पूर्वोत्तर रेलवे के विभिन्न विभागों में विभिन्न पदों पर काम कर रहे कितने कर्मचारियों को अष्टाचार के आरोप में दण्ड दिया गया ; और

(ख) उन व्यक्तियों के नाम क्या हैं तथा उनको किस प्रकार के आरोपों के लिये दण्ड दिया गया और किस प्रकार का दण्ड दिया गया ?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Seventy, Sir in addition seven employees were administered warning.

(b) A statement is laid on the Table of the House. [Placed in Library. See No. LT-4779/73.]

श्री मूलचन्द डागा : अध्यक्ष महोदय, अष्टाचार देश के लिये अभिशाप है, और आपने आइटम नम्बर 10 में श्री रामलोचन सिंह के बारे में लिखा है :

Realisation of illegal money from passenger

इसी तरह से आइटम नम्बर 41 पर लिखा है कि :

Acceptance of illegal gratification

इनके लिये आपने सजा दी है वार्निंग और इन्कीमेंट रोक दिया है। तो देश के अन्दर जो इल्लिगल ग्रेटिफिकेशन ले ले उसका इंडियन पीनल कोड में चालान नहीं करना चाहिए और इन्किमेंट रोक देना चाहिये। क्या यह सजा काफी है ? जिन्होंने रिश्वत का पैसा लिया है उनको कम सजा दें, क्या रेलवे में अष्टाचार को मिटाने का यही तरीका है जो उदाहरण मैंने दिये हैं ? जिन्होंने इल्लिगल ग्रेटिफिकेशन ले लिये उनका इन्कीमेंट रोक दिया एक साल के लिये बस यही सजा है, या उनको प्रोसीक्यूट करना चाहिये ?

श्री मुहम्मद शाफी कुरैशी : स्पीकर साहब, इसमें दो रायें नहीं हो सकती कि जो रिश्वत लेता है उसको पूरी सजा मिलनी

चाहिये। लेकिन जहां तक रेलवे कर्मचारी हैं जिनके खिलाफ चार्जज लगाये गये हैं उनको सजा देने का अख्तियार वहां के डिबिजनल या जोनल लेवल के अफसर हैं उनको अधिकार होता है। अगर कोई इस किस्म का केस हो जहां ज्यादा सजा देनी चाहिये उस पर भी गौर किया जायेगा। आपने जो दो केसेज रेफर किये हैं, मैं जांच कराऊंगा कि इनको क्यों कम सजा दी गई है।

श्री मूलचन्द डागा : आज कल सभी रेलवे कर्मचारी बिना टिकट यात्रियों को अपने साथ ले जाते हैं उनको कम सजा मिलती carrying passengers in Sleeper coaches without tickets

यानी वार्निंग दे देते हैं। आइटम नम्बर 75 में कोई सजा नहीं, यह तो बड़ी बात है। या तो रेलवे बोर्ड में भी भ्रष्टाचार है। और भ्रष्टाचार को मिटाने का यही एक तरीका है कि एग्जैम्पलरी पनिशमेंट होना चाहिये। यह जो रेलवे कर्मचारी हैं जिनसे देश आशा करता है कि अपने कर्तव्य का पालन करेंगे, उन भ्रष्टाचारियों को कोई सजा नहीं। केवल वार्निंग और इन्कीमेंट रोकना, इसके सिवा और कोई सजा नहीं है? इससे ज्यादा हमारा कन्ट्री गिर नहीं सकता है।

श्री मुहम्मद शफी कुरैशी : माननीय सदस्य ने यह कहा है कि एग्जैम्पलरी पनिशमेंट देना चाहिये, मैं उससे सहमत हूँ। लेकिन यह जो सजाये हैं यह भी कानून की तइत दी गई है। अब या तो कानून बदलना पड़ेगा

डेटरेंट पनिशमेंट के लिये। लेकिन मौजूदा ऐक्ट में पनिशमेंट है इन्कीमेंट स्टोप करना और पासेज कम कर दिये जायें या कुछ मियाद के लिये ये स्टोप कर दी जाये। लेकिन अगर इस पर सारे सदस्य एक राय हो सकते हैं तो कानून में अमेंडमेंट लाया जा सकता

श्री नाथूराम अहिरवार : अध्यक्ष महोदय, मंत्री जी ने उत्तर दिया कि अगर कोई पैसंजर बिना टिकट यात्रा करता है तो उस पर जुर्माना होता है, और जेल में ले जाया जाता है। लेकिन अगर रेलवे का स्टाफ किसी को बिना टिकट ले जाय तो थोड़ी सी सजा देते हैं, यह कहां तक उचित है?

अध्यक्ष महोदय : अच्छी राय दी है आपने। प्रश्न का जबाब क्या देंगे मंत्री जी।

SHRI RANABAHADUR SINGH: During the course of the budget debate, it has come to the notice of the House that the Railway Ministry is contemplating to change the laws whereby if any non-official person damages some railway property, he would be penalised with imprisonment and it is also possible that this might also be stretched to life imprisonment. May I know how this present law wherein, according to the minister, for offences mentioned in this list, penalties laid down are only stoppage of increment, warning, etc., balances with the proposed law whereby a non-official person damaging the railway property may be sentenced to life imprisonment?

SHRI MOHD. SHAFI QURESHI: It depends upon the seriousness of the offence. So far as destruction of railway property is concerned, it is our feeling that the present law is not sufficient to punish the culprits. That is why we are trying to make it more deterrent so that destruction of railway property will have a punishment of not only imprisonment for life but also death if necessary. But these are the offences committed by the railway employees and there is a procedure laid down to deal with such cases. It is the appropriate authority which decides what the punishment should be. In cases where it is felt that the punishment has not been commensurate with the offences committed, if the matter is brought to the notice of the railway administration action is taken on that. I will go through the entire list and see if lesser punishment was given when more deterrent punishment can be given.

SHRI DINESH CHANDRA GOSWAMI: The hon. Minister has just now said that punishment has been given in accordance with the rules. May I know whether under the railway rules "warning" is one of the prescribed penalties. In the case of item No. 72, where there is 'wrong placement of timing of engine to show favour to the coal contractor' the employee has only been warned, which is not one of the prescribed punishment. In that view of the matter, will he take action against the officer who was authorised to give this punishment?

SHRI MOHD. SHAFI QURESHI: If the officers concerned have not dealt with these cases according to the rules, I will certainly look into them.

SHRI N. K. P. SALVE: A very diligent study of the statement made by the Minister is not necessary to find out that the guilty people have been treated in an extremely casual and lighthearted manner. Item No. 10 relates to Shri Ram Lochan Singh. The charge is realisation of illegal money

from passengers and the punishment is withholding of increment for two years. Item No. 25 is extraction of money from passengers without EFT and the punishment is withholding increment by two years. In another case, for carrying of material unauthorisedly the punishment is withholding of increment by six months. It is merciful that they have not been awarded Padma Shri (Thisra). Will the Minister agree to appoint a Vigilance Department, which is treating this matter in such a casual manner, or will he assure the House that he will look into all these cases and also the working of the Vigilance Department?

SHRI MOHD. SHAFI QURESHI: I suppose these two cases were referred to earlier by Shri Daga when I said that I will certainly look into them and if it found that the punishment awarded is less, more punishment will be given to the guilty.

SHRI N. K. P. SALVE: The Vigilance Department is not functioning vigilantly as its nomenclature suggests. Will he take action against the Vigilance Department?

SHRI MOHD. SHAFI QURESHI: Whoever is found guilty according to law will be seriously dealt with.

निबोला गांव से निकट रेलवे फाटक पर रेल के उपरि पुल का निर्माण

* 691. श्री गंगा बरन हीमंत : क्या
रेल मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या मध्य प्रदेश सरकार ने
बरहानपुर तहसील के निबोला गांव के निकट
के रेलवे फाटक पर रेल के उपरि पुल बनाने
का प्रस्ताव भेजा है ; और

(ख) यदि हाँ, तो उस पर सरकार की
क्या प्रतिक्रिया है ?

THE DEPUTY MINISTER IN THE
MINISTRY OF RAILWAYS (SHRI
MOHD. SHAFI QURESHI): (a) No,
Sir.

(b) Does not arise.

श्री गंगा चरण बीक्षित : रेलवे फाटक
जिस सड़क पर स्थित है उस सड़क पर
आवागमन बहुत भारी और ट्रैफिक ज्यादा
होने के कारण मार्ग अवरोध रहा करता है।
मैं जानना चाहता हूँ कि क्या शासन यहां
एक पुल बनाने का प्रयत्न करेगा ?

श्री मुहम्मद शफी कुरैशी : ओवर ब्रिज
बनाने का जो मामला है इसमें स्टेट गवर्नमेंट्स
को लागत की जिम्मेदारी लेनी पड़ती है।
रेलवे का सेप्टी फण्ड इसके लिये है। लेकिन
स्टेट गवर्नमेंट्स को लिंक रोड्स बगैरह बनाने
का भी जिम्मा लेना पड़ता है। अगर स्टेट
गवर्नमेंट्स यह जिम्मा ले ले और लिंक
रोड्स बनवा दे तो रेलवे को पुल बनाने में
कोई इतराज नहीं होगा।

श्री आर० बी० बड़े : क्या यह सही
नहीं है कि स्टेट ने आपको कहा है कि हम
अपना हिस्सा देने को तैयार हैं लेकिन आपका
कोई जवाब उसको नहीं गया है ?

श्री मुहम्मद शफी कुरैशी : स्टेट गवर्न-
मेंट की तरफ से कोई प्रोजेज नहीं आया

सरकारी और गैर-सरकारी क्षेत्र में मिट्टी के
तेल के उत्पादन की प्रतिशतता

*694. श्री फूलचन्द वर्मा : क्या
पेट्रोलियम और रसायन मंत्री यह बताने की
कृपा करेंगे कि :

(क) सरकारी क्षेत्र और गैर-सरकारी
क्षेत्र में अलग-अलग कितने प्रतिशत मिट्टी के
तेल का उत्पादन होता है; और

(ख) पिछले तीन वर्षों के दौरान मिट्टी
के तेल की मांग का वर्ष-वार व्यौरा क्या है और
सरकारी व गैर-सरकारी क्षेत्रों द्वारा इस
मांग को किस प्रकार पूरा किया गया ?

THE MINISTER OF PETROLEUM
AND CHEMICALS (SHRI D. K.
BOROOAH): (a) and (b). A state-
ment giving the desired information
is laid on the Table of the House.

Statement

The production of kerosene oil in
public and private sectors during 1970,
1971 and 1972 is shown below:

(1000 tonnes)

Production	Public Sector	Percentage share	Private Sector	Percentage share	Total
1970	1861	63.9	1051	36.1	2912
1971	1909	63.7	1086	36.3	2995
1972	1861	66.2	952	33.8	2813

2. During the last three years demand for kerosene oil was met fully by supplementing the indigenous availability of the product with imports. All imports of petroleum products are

channelised through the public sector Indian Oil Corporation.

3. The actual sales of kerosene oil by the oil companies in the public and the private sectors during the years 1970, 1971 and 1972 are shown below:

('000 tonnes)

Sales	Sales by public sector companies	Percentage share	Sales by Private Sector cos.	Percentage share	Total
1970	1977	60.6	1284	39.4	3262
1971	2321	67.1	1137	32.9	3457
1972	2413	68.9	1091	31.1	3504

श्री फूलचन्द बर्मा : देश में बिजली की, जलाऊ गैस की तथा कोयले की कमी है। इसके कारण मिट्टी के तेल की मांग बढ़ रही है। तेल का उचित मूल्य पर वितरण हो सके क्या इसको करने के लिए आप वितरण की सारी व्यवस्था अपने हाथ में ले रहे हैं ?

श्री देवकांस्त बरुआ : सदस्य महोदय ने अपने प्रश्न का जवाब आप ही दे दिया है। उन्होंने बिजली और खास करके कोयले की कमी का जिक्र किया है। इस कारण से कैरोसीन आयल की मांग काफी बढ़ गई है। लेकिन उत्पादन बढ़ाना इतना आसान नहीं है। इसलिए हम लोग बाहर से मंगाने का प्रयास कर रहे हैं। 6 लाख टन अभी रशिया से मंगाया गया है और वह आ रहा है और उसके आने से अभाव की काफी पूर्ति हो जायेगी। आप ने जो हाथ में लेने की बात कही है उसके बारे में मैं बताना चाहता हूँ

कि कैरोसीन एसेंशियल कम्पोजिडीज नएक्टमें आता है और स्टेट गवर्नमेंट्स ने किसी किसी जगह इसके ऊपर कंट्रोल भी लगाया है। लेकिन अभी तक ऐसी कमी नहीं हुई है कि हमें सब नियंत्रण करने की जरूरत पड़े।

श्री फूलचन्द बर्मा : पिछले विनों मध्य प्रदेश, गुजरात, दिल्ली आदि में मिट्टी का तेल ब्लैक में 1 रुपया 50 पैसे के भाव से बिका है। आपकी जानकारी में यह बात आई है या नहीं मुझे पता नहीं लेकिन मेरी जानकारी में तो यह आई है। आम जनता को मिट्टी का तेल आसानी से नहीं मिलता है। आपने स्टेटमेंट में बताया है कि 1972 में 36.2 परसेंट सरकारी और 33.8 परसेंट गैर सरकारी क्षेत्र में तेल का उत्पादन हुआ है। उसी प्रकार आप ने बिक्री के बारे में बताया है कि 68.9 परसेंट पब्लिक सेक्टर कम्पनीज और 31.1 परसेंट प्राइवेट सेक्टर कम्पनीज ने

इसकी बिक्री की है। इसके बावजूद भी लोगों को सुगमता से मिट्टी का तेल नहीं मिलता है, उनकी आवश्यकताओं के अनुसार नहीं मिलता है। मैं जानना चाहता हूँ कि क्या आप इसके लिए कोई प्रभावी कदम उठाने जा रहे हैं ताकि लोगों को आसानी से मिट्टी का तेल अपनी आवश्यकताओं के अनुसार मिल सके? तत्काल इसके बारे में आप कौन से कदम उठाने जा रहे हैं?

श्री देवशान्त बरुआ : किसी चीज की कमी होती है तो उसका एक ही उत्तर है कि उस कमी की पूर्ति की जाये। इसीलिए बाहर से मंगाना जायज समझा गया।

हमें जानकारी तो है कि बहुत सी जगह कमी हुई है और स्टेट गवर्नमेंट्स को हम लोगों ने इस्ट्रक्शंस दे दी हैं कि वे इसको ठीक से सम्भालें। जहां जहां उनसे इत्तिला मिलती है हम तेल और डीजल भेजने की चेष्टा कर रहे हैं और भेज भी रहे हैं।

SHRI P. VENKATASUBBAIAH: From the statement laid on the Table by the hon. Minister with regard to production figures, we find that in 1970 the production was 1861,000 tonnes and it went up to 1909,000 tonnes in 1971, but has come down to 1861,000 tonnes in 1972. The production in 1972 has come down compared to the production figure of 1971. May I know what are the reasons for this reduction in production of kerosene in this country and what action the hon. Minister is going to take to step up production consistent with the availability of mineral oil in our country?

SHRI D. K. BOROOAH: The hon. Member would have noticed that the fluctuation in production had been marginal. It was 1861,000 tonnes in 1970, 1909,000 tonnes in 1971, and

1861,000 tonnes in 1972. The difference has been marginal. In production you cannot always produce entirely, hundred per cent. There will be certain fluctuations.

I quite agree that there is a shortage of kerosene in this country and, therefore, we are making good this amount by importation of kerosene oil. If our new refineries come up, Haldia comes up and expansion of Cochin takes place—it has already taken place; it is going to be commissioned—I am sure, if not fully at least substantially, our demands will be fulfilled.

SHRI P. VENKATASUBBAIAH: My question has not been answered. In 1970 the production was 1861,000 tonnes. Again in 1972 it has come down to 1861,000 tonnes after having gone up to 1909,000 tonnes in 1971. I wanted to know the reasons for the reduction in production. There may be marginal fluctuations, but the fluctuations should be on the side of increase and not on the side of decrease.

SHRI D. K. BOROOAH: When there is fluctuations, sometimes there is increase and sometimes there is decrease.

SHRI C. T. DHANDAPANI: According to the statement given by the hon. Minister, the total production under private sector from 1970 to 1972 was 3,080,000 tonnes, but the sales by private companies during the period were 3,512,000 tonnes. In paragraph 2 of the statement, the Minister has stated that all imports of petroleum products are channelised through the public sector Indian oil Corporation only. The total production was 3,080,000 tonnes but the sales by the private sector companies were 3,512,000 tonnes. How do you explain this increase of about 500,000 tonnes in the sales by private sector companies?

SHRI D. K. BOROOAH: In the sale of petroleum products, there is a thing called product exchange. When IOC sells any oil in that sector, they take

it from ESSO. In Bihar when ESSO and Caltex sell any products there, they take from Barauni only. So, there is the system of product exchange. In product exchange, there is, sometimes, fluctuation.

SHRI C. T. DHANDAPANI: My specific question was this. In your statement, you have stated that the total sales by private sector companies from 1970 to 1972 were 3,512,000 tonnes, but the total production in that period was only 3,080,000 tonnes. How do you explain this increase of about 500,000 tonnes?

SHRI D. K. BOROOAH: It is sold by different companies. Sometimes they function in the same area; sometimes they function in other areas. For example, IOC sells oil in certain areas where there is no public sector refinery. In Upper Assam they take it from Digboi. The private companies also, when they distribute oil, do not always get from their own refinery but get from our refinery also.

That is why, sometimes, there is a difference.

Fertilizer Manufacturing Units in Private and Public Sectors with production capacities

*695. **SHRI D. B. CHANDRA GOWDA:**

SHRI DHARAMRAO AFZAL-PUKAR:

Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) the number of Fertilizer manufacturing units in the country in private and public sectors along with their production capacities and actual production, separately; and

(b) whether the fertilizer plants are located at places from where it is not convenient to transport fertilizers to far off places economically and expeditiously?

THE MINISTER OF PETROLEUM AND CHEMICALS (SHRI D. K. BOROOAH): (a) A statement is laid on the Table of the House.

(b) No Sir.

STATEMENT

Statement showing the fertilizer units in operation, their installed capacities and Production for the year 1972-73

(000 tonnes)

	Nitrogen		Phosphates	
	Installed capacity	Actual production (April-72 February 1973)	Installed capacity	Actual Production (April-72 February 1973)
	1	2	3	4
A—Public Sector				
Madras	164	92.8	85	47.4
Rourkela	120	46.2	..	..
Sindri	90	50.9	..	..
FACT	82	26.8	27	9.2
Alwaye Trombay	81	57.5	36	33.9
Nangal	80	50.6	..	..
Gorakhpur	80	63.6	..	..
Neyveli	70	20.3	.. 7	..
Namrup	45	28.9	..	..
Single Super-phosphate	..	..	36	12.7
By-product units	12	9.9	..	..
TOTAL(A)	824	447.5	184	103.2

	1	2	3	4
B. Private Sector				
Gujarat, Baroda	216	181·8	50	27·8
Kanpur	200	147·3	..	..
Kota	110	115·8	..	..
Vizag	80	54·2	73	55·9
Indore	16	11·0	10	7·6
Varanasi	10	4·9	..	..
Single Super-phosphate	..	..	172	99·7
Triple Super-phosphate	..	..	11	2·2
By-products	8	4·5	..	..
TOTAL—(B)	640	519·5	316	193·2
GRAND TOTAL—(A)+(B)	1464	967·0	500	296·4

NOTE.— There are 28 single super-phosphate production units, out of which 4 are in the public sector and 24 in the private sector.

SHRI D. B. CHANDRA GOWDA: The statement makes it very clear that the State of Mysore does not have any fertilizer-producing unit. May I know from the hon. Minister what arrangements have been made to meet the fertiliser requirements of Mysore?

SHRI D. K. BOROOAH: Does the hon. Member mean production of fertiliser? Mangalore Fertilisers has already been started. A fertiliser factory is being built in Mangalore.

SHRI D. B. CHANDRA GOWDA: What is the present arrangement? That I want to know.

SHRI D. K. BOROOAH: They have to get fertilisers from the FCI or Pool or from the private organizations.

SHRI D. B. CHANDRA GOWDA: There was specific reason in my asking this question. It has been said that so far as distribution of fertilisers is concerned, south has been treated as south and north has been treated as north. If that is the fact what are the reasons? If not, would the Ministry consider and see that fertiliser produced in north India reaches the south?

SHRI D. K. BOROOAH: I am not able to follow what the hon. Member wants. Will he kindly repeat his question?

SHRI D. B. CHANDRA GOWDA: It has been said that the Government has decided that fertiliser produced in South India is confined to the south.

and that produced in the north is confined to the north. If that is the fact, what are the reasons? If not, would he consider pushing the fertiliser from the north to the south?

SHRI D. K. BOROOAH: The distribution of fertilisers depends upon the transport facilities and also the availability in the neighbourhood. Therefore, fertiliser is sold generally in the neighbourhood of the area in which it is produced.

SHRI DINESH JOARDER: The northern part of West Bengal, north Bengal, North Bihar and the western part of Assam is very rich in agricultural production. They grow paddy, tobacco, wheat, and sugar cane and many other agricultural products which are cultivated in the north-eastern parts of our country. But there is no fertiliser plant and there is no supply of fertiliser at all to the agriculturists there and because of this non-supply of fertilisers, the agriculturists suffer a lot. May I know from the Minister whether a fertiliser factory will be installed in this area and in the mean time, what arrangements will be made for the supply of fertilisers to the cultivators of this area?

SHRI D. K. BOROOAH: So far as the first question is concerned, regarding fertiliser factories, there is a fertiliser factory in Assam at Namrup and that supplies fertilisers to Assam, Western Assam and also for north-Bengal. The Sindhri fertiliser factory supplies fertilisers to parts of Bihar. There is another fertiliser factory at Gorakhpur, nextdoor to Bihar which supplies fertilisers to North Bihar.

But, I quite agree with the hon. Member that there is shortage of fertilisers in this area....

SHRI JYOTIRMOY BOSU: It is there all over the country.

SHRI D. K. BOROOAH: .. because there are no fertiliser factories there. That is why, the Barauni fertiliser plant is being set up and it is almost complete now and we are going to build one in Haldia and I hope another one is being contemplated in Bihar with the result, I hope, these fertiliser factories will be able to provide the entire region with whatever fertilisers they require.

MR. SPEAKER: Now, Short-Notice Question ..

SHRI DINEN BHATTACHARYYA: Sir, it is not Short-Notice. Notice was given ten days back. How can it be treated as Short Notice, Sir? He has left in the meanwhile; he has some other programme.

MR. SPEAKER: The Member is absent. Next item. Calling Attention. Shri Jagannathrao Joshi.

WRITTEN ANSWERS TO QUESTIONS

Committee to go into Recruitment, Training, Pay Scales and Service Condition of Signal and Telecommunication Staff

*682. **SHRI RAJDEO SINGH:** Will the Minister of RAILWAYS be pleased to state:

(a) whether a Committee was set up to go into the question of recruitment, training, pay scales and service condition of Signal and Telecommunication Staff;

(b) whether final report of the Committee has been received; and

(c) if so, the gist of the recommendations and the action taken thereon?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Yes, Sir.

(b) Yes, Sir.

(c) A gist of recommendations of the Committee is placed on the Table of the Sabha. The recommendations have been examined by the Railway Board and views of the organised labour have been called for. The Federations have been asked to send their replies by 20th April, 1973 and instructions will be issued thereafter.

GIST OF RECOMMENDATIONS MADE BY THE COMMITTEE APPOINTED FOR REVIEW OF THE RULES REGARDING RECRUITMENT, TRAINING, SYLLABUS, ETC. FOR INSPECTORS AND ARTISAN STAFF OF THE SIGNAL & TELECOMMUNICATIONS DEPARTMENT OF THE INDIAN RAILWAYS.

1. Direct recruitment of Asstt. Signal Inspectors should be confined to diploma holders in Electrical and/or Mechanical Engineering. The period of training should be three years which will include 11-1/2 months course in Indian Railways Institute of Signal Engg. and Telecommunication, Secunderabad.

2. The quota for promotion from Electrical Signal Maintainers and Mechanical Signal Maintainers should be fixed as 60 per cent and 40 per cent of the number of posts of Asstt. Signal Inspectors to be filled in by promotion.

3. Recruitment of Graduate Engineers in the grade of Rs. 335—425 should be stopped but the proportion of posts of Asstt. Signal Inspectors to be filled in by direct recruitment should be raised from 40 per cent to 50 per cent.

4. Draftsmen in service may be selected for promotion as Asstt. Signal Inspectors limited to 10 per cent of the total vacancies in a year.

5. Recruitment of Asstt. Telecommunication Inspectors should, in the present context, be only from Science Graduates with Mathematics and

Physics as optional subjects. They may be given training for two years.

6. Direct recruitment to higher grade posts of skilled Artisans in scale Rs. 130—212 for maintenance of complex Telecommunication Equipment should continue. Quota for promotion to Asstt. Telecommunication Inspectors may be raised from 33-1/3 to 50 per cent.

7. The existing system of recruitment to 25 per cent of vacancies by Graduate Engineers in the grade of Rs. 335—425 may continue in the Telecommunication Branch.

8. Direct recruitment for Mechanical Signal Maintainers grade Rs. 110—180 upto 50 per cent of posts may be made as under:—

(i) From skilled Fitters on casual labour or from workshops, provided they have completed a minimum period of two years.

(ii) From Act Apprentices trained in Railway Signal Workshops who will be given a training of 12 months as Mechanical Signal Maintainers.

(iii) From I.T.I. trained fitters who will be given a training of 12 months as Mechanical Signal Maintainers.

9. Nature of skills required for the two categories of Signal Maintainers i.e. Electrical side and Mechanical side, is different and hence combining these two categories will not be feasible.

10. For the posts of Electrical Signal Maintainers in scale Rs. 110—180, 50 per cent of the vacancies will be by direct recruitment and 50 per cent by promotion.

11. 33-1/3 per cent of the vacancies of Electrical Signal Maintainers in grade Rs. 130—212 will be filled by promotion and 66-2/3 per cent by

direct recruitment with Matriculation with Science or equivalent qualification.

12. 50 per cent of posts of Telecommunication Maintainers in scale Rs. 110—180 should be filled by promotion and 50 per cent by direct recruitment. The direct recruitment may be made as under:

- (i) From skilled Telecommunication Fitters, from casual labour or from Signal Workshops provided they have completed a minimum period of two years.
- (ii) Electrical or Telecommunication Fitters from I.T.I. or other recognised institutions.

13. 50 per cent of Telecommunication Maintainers in scale Rs. 130—212 should be recruited directly. Direct recruitment to a small extent of about 25 per cent of the vacancies of Telecommunication Maintainers scale Rs. 175—240 may be made.

14. Wireless Maintainers—scale Rs. 110—180.

Direct recruitment to 50 per cent posts may be made as under:

- (i) From skilled Wireless Fitters, from casual labourers or from workshops provided they have completed a minimum period of two years.
- (ii) From Act Apprentices trained in Railway Signal Workshops.
- (iii) From I.T.I. trained Fitters.

15. Direct recruitment of Wireless Maintainers in scale Rs. 130—212 may be made upto 50 per cent whereas for scale Rs. 175—240 upto 25 per cent of the vacancies.

16. Teleprinter Maintainers should form part of category of Telecommunication Maintainers.

17. Vacancies reserved to be filled by promotion should not be carried forward beyond 2 years and deficiencies if any should be filled in by resorting to direct recruitment.

विदेशी फालतू पुर्जों से डीजल इंजनों की मरम्मत करना

*683. श्री श्रींकार लाल बेरवा :
क्या रेल मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या सैकड़ों रेलवे डीजल इंजन विदेशी पुर्जों के अभाव में मरम्मत के लिए बेकार पड़े हैं;

(ख) देश में उन इंजनों में कितने प्रतिशत विदेशी पुर्जों का उपयोग किया जाता है; और

(ग) उन देशों के नाम क्या हैं जहां से ये फालतू पुर्जे आयात किये जाते हैं ?

रेल मंत्रालय में उप-मंत्री (श्री मुहम्मद शक्की कुरैशी) : (क) 1425 डीजल रेल इंजनों में से केवल 16 (पश्चिम जर्मनी से छोटी लाइन के जेड डी एम-2 टाइप के 7, ब्रिटेन से आयातित वाई डी एम—1 टाइप के 7, अमेरिका से आयातित डब्ल्यू डी एस 1 टाइप का 1 और पश्चिम जर्मनी से आयातित डब्ल्यू डी एम 3 टाइप का 1 डीजल रेल इंजन) आयातित पुर्जों के अभाव में भारतीय रेलों पर रुके पड़े हैं ।

(ख) देश में डीजल रेल इंजनों का निर्माण वाराणसी के डीजल रेल जन कारखाना और चित्तूरंजन के चित्तूरंजन रेल इंजन कारखाने में किया जा रहा है । वाराणसी के डीजल रेल इंजन कारखाने में डीजल रेल इंजनों के निर्माण में उपयोग किया गया आयातित पुर्जों का प्रतिशत (मूल्य के हिसाब से) 1972-73 के दौरान बड़ी लाइन के रेल इंजनों के लिए 13.2 प्रतिशत और मीटर

साइन के रेल इंजनों के लिए 11.8 प्रतिशत था। डीजल शंटरो के लिए चित्तरंजन रेल इंजन कारखाने में निर्मित रेल इंजनों के सम्बन्ध में यह प्रतिशत 34 था।

(ग) आयातित पुर्जे मुख्यतः अमेरिका, कनाडा, ब्रिटेन और पश्चिम जर्मनी से मंगाये जाते हैं।

New Trains placed under Diesel Traction

*685. SHRI M. RAM GOPAL REDDY:
SHRI YAMUNA PRASAD MANDAL:

Will the Minister of RAILWAYS be pleased to state how many trains which were introduced during December, 1972 to February, 1973 have been placed under diesel traction?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): Sir, only one pair of trains viz. 131 Dn/132 Up New Delhi-Mangalore/Ernakulam Jayanti Janata Express has been introduced with diesel traction during December, 1972 to February, 1973.

Exceeding of Licensed Capacity by Pfizer India Ltd. for the manufacture of Tetracycline and certain other drugs

*689. SHRI K. S. CHAVDA: Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) whether M/s. Pfizer Limited, a foreign dominated firm, has exceeded the licensed capacity for the manufacture of Tetracycline, Oxy-tetracycline, Chloropamide;

(b) if so, what action is taken or proposed to be taken for contravention of the conditions of licenses granted to this firm; and

(c) what was the initial and what is the present foreign equity in this firm?

THE MINISTER OF PETROLEUM AND CHEMICALS (SHRI D. K. BOROOAH): (a) Yes, Sir.

(b) The question of taking action in the matter of production in excess of licensed capacity is under consideration, taking into account the essentiality of the drugs and the country's requirements of the same.

(c) Initial foreign share capital in 1950—Rs. 5.00 lakhs.

Present foreign share capital including capital raised by issue of bonus shares on capitalisation of Company's reserves in 1972—Rs. 420.03 lakhs.

Supply of Paraffin Wax to Nagpal Ambadi Plant at Manali, (Madras)

*690. SHRI V. MAYAVAN: Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) whether his Ministry are aware of the difficulties being experienced by the Nagpal Ambadi Petro-Chemical Refining Ltd. Manali, (Madras) in the matter of obtaining their feed-stock supplies both from indigenous and imported sources and, if so, what action the Ministry has taken to assist the plant in overcoming these difficulties; and

(b) whether the Ministry propose to supply to Nagpal Ambadi Plant indigenously available Paraffin Waxes which are required to be blended with imported Micro-Crystalline Wax in the manufacture of Petrolatum?

THE MINISTER OF PETROLEUM AND CHEMICALS (SHRI D. K. BOROOAH): (a) and (b). M/s. Nagpal Ambadi have been licensed to manufacture Transformer Oil and

other petroleum specialities, such as Light White Oil, Heavy White Oil and Petroleum Jelly. As regards the supply of feedstocks for these products, Transformer Oil Base Stock and raw material for Light White Oil are indigenously available from the Madras Refinery. Paraffin Wax is also indigenously available from the Assam Oil Company.

2. The other raw materials viz. Microcrystalline Waxes and base oil for manufacturing heavy white oil are imported from abroad. The Company proposed to import Microcrystalline Waxes from their own sources, which in the opinion of the Government was a semi-finished product, whose import at higher foreign exchange prices was not justified. The party was advised to use Microcrystalline Waxes ordinarily imported on a competitive tender basis and used by other manufacturers resulting in saving in foreign exchange. After some initial resistance, the party accepted this advice and supply is being arranged accordingly.

3. As regards base oil for manufacturing heavy white oil, the company had been insisting on obtaining this from the United States. The Indian Oil Corporation has offered them an alternative oil imported from Rumania which on evaluation at the Indian Institute of Petroleum has been found suitable. The use of Rumanian Oil would also result in saving in foreign exchange. IOC have in stock sufficient quantity of Rumanian Oil to meet the requirements of this Base Oil for the next six to eight months.

4. The distribution of Paraffin Wax is controlled under the Paraffin Wax (Supply, Distribution and Price Fixation) Order 1972; it can be sold only in pursuance of Allotment Orders issued to industries by the "Competent Authorities" nominated in this behalf by the State Governments. M/s. Nagpal Ambadi have accordingly been advised to obtain their requirements from the State Government.

National Holiday Allowance to Ministerial Staff booked to work on National Holidays

*692. SHRI RAMAVATAR SHASTRI: Will the Minister of RAILWAYS be pleased to state:

(a) whether Ministerial Staff in Railways are booked to work on National Holidays;

(b) whether the non-ministerial staff booked to work on National Holidays are paid National Holidays allowances; and

(c) if so, whether Government propose to order payment of National Holidays Allowance to all Ministerial staff?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Only in exigencies of service some ministerial staff may be required to be booked to work on National Holidays.

(b) Such of the non-ministerial staff as are not allowed any of the public holidays, are paid monetary compensation for working on National holidays.

(c) No, Sir. Compensation for working on three National Holidays is admissible to those who are not allowed any of the public holidays. Normally Ministerial staff are allowed to avail themselves of the public holidays and are, therefore, not entitled to monetary compensation.

Non-implementation of Agreement by the Management of Cochin Oil Refinery

*693. SHRI VAYALAR RAVI: Will the Minister of PETROLEUM AND CHEMICALS be pleased to refer to the reply given to Unstarred Question No. 1190 on the 21st November, 1972 regarding non-implementation of agreement by the management of Cochin Oil Refinery and state:

(a) whether Government have since received the Conciliation officer's Report; and

(b) if so, the main features thereof and the steps taken in the matter?

THE MINISTER OF PETROLEUM AND CHEMICALS (SHRI D. K. BOROOAH): (a) No, Sir.

(b) Does not arise.

Stage of Construction and Estimated cost of Mangalore Fertilizer Factory

*696. SHRI BHOGENDRA JHA: Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) whether the Mangalore Fertilizer Factory in Mysore State would go into production by 1974;

(b) at what stage the construction of this plant stands now; and

(c) what is the estimated cost of this project?

THE MINISTER OF PETROLEUM AND CHEMICALS (SHRI D. K. BOROOAH): (a) and (b). Yes, Sir. The project is expected to commence trial production by end of 1974. Construction work on the project is in progress and piling work is nearing completion. Foundation work for the buildings has also started. Plant and machinery are expected to be received from July/August 1973 onwards.

(c) The project was approved at an estimated cost of Rs. 57.50. crores.

Amendment of Patents Act

*697. SHRI K. LAKKAPPA:
SHRI P. GANGADEB:

Will the Minister of LAW, JUSTICE AND COMPANY AFFAIRS be pleased to state:

(a) whether Government are going to modify the Patents Act to curb its monopoly tendency; and

(b) if so, when it is expected to be done?

THE MINISTER OF STATE IN THE MINISTRY OF LAW, JUSTICE AND COMPANY AFFAIRS (SHRI D. R. CHAVAN): (a) The new Patent's Act, 1970 which aims, *inter alia*, to curb unrestricted growth of patent-based monopolies was brought into force only from the 20th April, 1972. There is at present no proposal to amend this Act.

(b) Does not arise.

Complaints against Directors of M/s. Shalimar Tar Products Limited, Calcutta

*698. SHRI INDRAJIT GUPTA: Will the Minister of LAW, JUSTICE AND COMPANY AFFAIRS be pleased to state:

(a) whether any complaints of serious financial mismanagement and irregularities by the Directors, past and present, of M/s. Shalimar Tar Products Limited, 6 Lyons Range, Calcutta, have been received by Government;

(b) whether they relate to the period when the concern was under the Managing Agency of M/s. Turner Morrison, later transferred to Hungerford Investments Ltd.; and

(c) whether any investigation has been ordered into the affairs of the company?

THE MINISTER OF LAW, JUSTICE AND COMPANY AFFAIRS (SHRI H. R. GOKHALE): (a) Complaints had been received against the earlier management of M/s. Shalimar Tar Products (1935) Limited.

(b) They related to the period during which Turner Morrison & Co. Ltd. were the managing agents of M/s. Shalimar Tar Products (1935) Ltd. as also to the period during which the company was being managed by a Board of Directors.

(c) No investigation has been ordered under the Companies Act, but specific instances of offences under the Indian Penal Code noticed during the inspection of the books of account have been referred to the C.B.I. for investigation.

Construction and Electrification of Broad Gauge line from Ahmedabad to Gandhinagar

*699. SHRI ARVIND M. PATEL:

SHRI D. P. JADEJA:

Will the Minister of RAILWAYS be pleased to state:

(a) the latest position regarding construction of Ahmedabad-Gandhinagar Broad Gauge line;

(b) whether Government propose to electrify this line alongwith the electrification of Virar-Sabarmati track; and

(c) whether Gujarat Government have made a request in this respect and if so, the action taken thereon?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Construction of 27.85 kms. long BG link between Sabarmati and Gandhinagar has been sanctioned on 12-1-1973, at an estimated cost of Rs. 2.85 crores and the work is in progress. Land acquisition proceedings have been taken in hand by the Gujarat Government who will transfer the same free of cost to the Railway. The State Government have already made available 52 hectares of land to the Railway out of a total of 169.03 hectares. Earthwork on the acquired portion of land is in progress. Tenders for balance earthwork and bridges are under finalisation. The target date for the completion of the line is December, 1974.

(b) No, Sir.

(c) Yes, Sir. The question of Electrification of Sabarmati-Gandhinagar Section has been examined and not found viable at present.

U.S. Businessmen delegation's visit to India for sale of Railway hardware

*700. SHRI R. R. SINGH DEO: Will the Minister of RAILWAYS be pleased to state:

(a) whether a delegation of U.S. Businessmen recently visited India;

(b) whether they have shown interest in selling Railway hardware to India; and

(c) whether their proposals have been examined by the Government and if so, the reaction of Government thereto?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Yes, Sir. A U. S. Specialised Railway Equipment Trade Mission is currently visiting India.

(b) The Mission headed by an official of U.S. Department of Commerce alongwith eleven representatives of various companies has come to India to explore the market for the sale of N.S. Equipments as well as to look for licensing opportunities in India. During discussion with the officials of the Railway Board, members of the Mission have shown interest in understanding our procurement procedures and the specifications and types of equipment generally imported by the Indian Railways.

(c) No specific proposals have been made by the Trade Mission as yet. Therefore the question of reaction of the Government at this stage does not arise.

Fixation of seniority of Assistants who have already officiated as Section Officers in Railway Board

6650. SHRI SHYAM SUNDER MOHAPATRA: Will the Minister of RAILWAYS be pleased to state:

(a) whether 15 Assistants of the Railway Board were empanelled for

promotion as Section Officers in June, 1972 and subsequently promoted as Section Officers in August, 1972;

(b) whether selection of these 15 Assistants was made on the basis of the 'Continuous Length of Service' in the grade of Assistants in terms of the Rule 9(1) of the R.B.S.S. Rules, 1969, as amended *vide* Notification G.S.R. No. 615 dated the 24th April, 1971;

(c) whether the promotions so made had also resulted in immediate reversion of some of the Section Officers including that of some Scheduled Caste candidates, who had longer approved service compared with the approved service of those promoted; and

(d) whether these 15 Assistants promoted as Section Officers in August, 1972 have been made senior to the persons, who had been promoted as Section Officers in 1966 and 1969 on regular basis and if so, the reasons therefor?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Yes.

(b) and (c). In terms of rules in force, the selection of these Assistants was made on the basis of 'longest period of continuous service' in the grade of Assistants. Consequent on the promotion of these Assistants as Section Officers, some Section Officers, including 3 Section Officers belonging to Scheduled Caste, who were working as such purely on *ad hoc* basis, were reverted. They have since been repromoted in temporary arrangements.

(d) The seniority of these officers has not yet been determined.

Wagons of Coal reaching Delhi

6651. SHRI AMBESH: Will the Minister of RAILWAYS be pleased to state the number of wagons of coal reaching Delhi, month-wise, since January, 1972?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): The total number of wagons loaded with different types of coal and coke (except for power houses) reaching Delhi since January, 1972 is given below:

(Figures in 4-wheelers)

Month	No. of wagons
January 1972	3945
February 1972	2917½
March 1972	3944
April 1972	2818
May 1972	2664
June 1972	2770
July 1972	2509½
August 1972	3867½
September 1972	3037½
October 1972	3982
November 1972	2891½
December 1972	2950
January 1973	3184½
February 1973	3014
March 1973	4125½

Body to watch expenses on Election

*

6652. KUMARI KAMLA KUMARI: Will the Minister of LAW, JUSTICE AND COMPANY AFFAIRS be pleased to state:

(a) whether Government propose to establish a permanent body to keep watch on expenses on elections and to prevent excess expenditure by candidates; and

(b) if so, the broad outlines thereof?

THE MINISTER OF STATE IN THE MINISTRY OF LAW, JUSTICE AND COMPANY AFFAIRS (SHRI NITIRAJ CHAUDHURY): (a) No, Sir.

(b) Does not arise.

**Mode of recruitment for company
Law Board Service**

6653. SHRI JHARKHANDE RAI:
Will the Minister of LAW, JUSTICE
AND COMPANY AFFAIRS be pleas-
ed to state:

(a) whether the Company Law
Board Service is an organised Class
I Service and its officials are ap-
pointed to high Secretariat posts;

(b) if so, the reason why recruit-
ment to this service is made through
U.P.S.C. by *ad-hoc* advertisements
and by selections through interview
only; and

(c) the reasons why no direct re-
cruitment to this service is made
through an open competitive exami-
nation on an All-India basis as in
case of other 12 Central Secretariat
Services?

THE MINISTER OF STATE IN
THE MINISTRY OF LAW, JUSTICE
AND COMPANY AFFAIRS (SHRI
D. R. CHAVAN): (a) Central Com-
pany Law Service (formerly known as
Company Law Board Service) is an
organised Class I Service and its offi-
cials are appointed to high Secreta-
riat posts.

(b) Under the Central Com-
pany Law Service Rules, appoint-
ment to this Service are made both
by direct recruitment through the
U.P.S.C. and through departmental
promotions according to the quotas
prescribed by these Rules. While
making direct recruitment, the
U.P.S.C. follows the practice of invit-
ing applications through advertise-
ment in newspapers and selecting
persons after interviewing the eligi-
ble candidates.

(c) The number of vacancies fall-
ing in the direct recruitment quota
are too small to warrant recruitment
through an open competitive exami-
nation.

**केदारबाग (मदन पार्क और धुनामल पार्क)
दिल्ली में विद्युतीकरण कार्य**

6654. श्री ईश्वर चौधरी : क्या
सिखाई और विद्युत मंत्री यह बताने की कृपा
करेंगे कि केदारबाग (मदन पार्क और धुनामल
पार्क) दिल्ली-55 में क्या विद्युतीकरण कार्य
पूरा हो चुका है और कालोनी के निवासियों
को व्यक्तिगत कनेक्शन मिलने शुरू हो
गये हैं ?

सिखाई और विद्युत् मंत्रालय में उपमंत्री
(श्री बालगोविन्द वर्मा): केदारबाग (मदन
पार्क धुनामल पार्क) दिल्ली-55 का सामान्य
विद्युतीकरण मार्च, 1973 में पूर्ण हुआ था।
कालोनी के प्रत्याशी उपभोक्ता अब वाणिज्यिक
औपचारिकताएं पूर्ण होने पर बिजली कनेक्शन
प्राप्त कर सकते हैं।

मध्य प्रदेश में चम्बल विद्युत् परियोजना

6655. श्री गंगा चरण दीक्षित :
क्या सिखाई और विद्युत मंत्री यह बताने की
कृपा करेंगे कि :

(क) क्या मध्य प्रदेश की चम्बल विद्युत्
परियोजना अपनी पूरी क्षमता पर कार्य कर
रही है;

(ख) यदि नहीं, तो इसके क्या कारण
हैं; और

(ग) इनमें पूरी क्षमता से कार्य कराने
के लिए सरकार का विचार क्या कार्यवाही
करने का है ?

सिखाई और विद्युत् मंत्रालय में उपमंत्री
(श्री बालगोविन्द वर्मा) : (क) से (ग).
31 जनवरी, 1973 तक अत्यधिक लोड
मांग और सिखाई के लिए जल की अधिक
आवश्यकताओं के कारण चम्बल जल-विद्युत्
केन्द्रों का अभिकल्पित क्षमता से अधिक स्तर पर
प्रचालन किया गया था। तत्पश्चात्, मांघी

सागर जलाशय में जल-स्तर कम होने के कारण विद्युत्-उत्पादन प्रतिदिन 3.5 मिलियन यूनिट से घटकर 2.5 मिलियन यूनिट प्रतिदिन हो गया। मानसून के प्रारम्भ होने पर पूर्ण उत्पादन को पुनः प्रारम्भ करने की संभावना है।

Opinion of Soviet regarding Transportation of Oil from Assam

6656. SHRI BISWANATH JHUNJHUNWALA: Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) whether recently some soviet experts have given the opinion that if the difficulties pertaining to the transportation of oil from Assam could be solved, India can augment its production of oil by one million tonnes;

(b) whether the Soviet experts have also given any indication as to how this problem in the existing circumstances could be solved; and

(c) whether the Government of India have already initiated any action in this direction and if so, the outlines thereof?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) to (c). Reports about the views of some Soviet Experts in this regard have come to the notice of the Government. It may, however, be mentioned that the Government is already aware that, but for the difficulties pertaining to the transportation of oil, the crude oil production from the Assam fields could be augmented by one million tonnes per annum. Following the decision taken to establish additional refining capacity in Assam at Bongaigaon to process one million tonnes of crude oil per annum, it has been decided to augment the pipeline facilities already existing. This would

involve expansion of the OIL's pipeline capacity as well as the setting up of an additional crude oil conditioning plant at Moran. Action on this scheme, which is being taken up in two stages, has already been initiated and it would be completed by the time the Bongaigaon refinery is commissioned.

Views of Soviet Experts regarding Oil needs of India

6657. SHRI BISWANATH JHUNJHUNWALA:

SHRI M. S. SANJEEVI RAO:

Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) whether Government's attention has been drawn to the news item appearing in the 'Hindustan Times' dated the 14th March, 1973 about the views of the Soviet Experts that India can meet its oil needs if 20 oil rich basins in the country are prospected; and

(b) whether the Soviet experts have since identified the 20 basins referred to above and if so, the names thereof?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) Yes, Sir.

(b) A Soviet team of experts who, alongwith the ONGC's experts, had earlier carried out a techno-economic feasibility study on oil production in the Public Sector in India in the next 10 years, had referred to 26 sedimentary basins, namely, Cambay, Kutch, Saurashtra, Assam-Arakan, Western Rajasthan, Jodhpur-Nagaur, Punjab, Ganges, Cauvery, Palar, Godavari-Krishna, Pranhita-Godavari, Andaman-Nicobar, Karewa, Kerala-Laccadive, Bengal, Son-Damodar, Mahanadi, South Rewa-Mahanadi, Narmada, Vindhyan, Kaladgi, Bhima, Bastar, Chhatisgarh and Cuddapah.

**अधिक लम्बी सवारी रेल गाड़ियां चलाने
सम्बन्धी 15 वर्षीय योजना**

6658. श्री अम्बेश : क्या रेल मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या सरकार के विचाराधीन कोई ऐसी पंद्रह वर्षीय योजना है जिसके द्वारा अधिक लम्बी सवारी रेल गाड़ियां चलाई जायेंगी; और

(ख) यदि हां, तो जोनवार उन लाइनों के नाम क्या हैं जहां लम्बी सवारी रेलगाड़ियां चलाने का प्रस्ताव है ?

रेल मंत्रालय में उप-मंत्री (श्री मुहम्मद शफी कुरैशी) : (क) और (ख). 15 वर्ष का अवधि के लिए कोई विशिष्ट योजना नहीं बनायी गयी है। फिर भी, यह नीति पहले से है कि यथासम्भव व्यस्त ट्रक मार्गों पर लम्बी गाड़ियां चलायी जायें।

Profitability in Hindustan Antibiotics Limited

6659. SHRI K. S. CHAVDA: Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) whether the profitability of the Hindustan Antibiotics Limited is on the decline; and

(b) if so, the reasons therefor and the measures proposed to remedy the position?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) and (b). The net profits of Hindustan Antibiotics Ltd. which stood at Rs. 44.12 lakhs in 1969-70 declined to Rs. 12.47 lakhs in 1970-71. The profitability of the undertaking, however, marginally improved in 1971-72 when it made a net profit of Rs. 12.97 lakhs. The total turn-over also increased from Rs. 683 lakhs yearly in 1970-71 to Rs. 801 lakhs in 1971-72.

The reduction in the profitability of the undertaking is mainly due to (i) fall in the level of production particularly of streptomycin; (ii) sharp increase in the cost of raw materials and other inputs since the prices of antibiotics were fixed; and (iii) the narrow product mix of the undertaking which limits its commercial manouverability.

(c) The various constraints which were found to inhibit production and hence the profitability of the undertakings have been identified. The undertaking is making efforts to secure higher efficiencies of extraction by use of high yielding strains of penicillin and streptomycin. The undertaking is also proposing an expansion and diversification programme which, when implemented, is expected to improve its profitability.

Appointment of Managing Director in Hindustan Antibiotics Limited

6659. SHRI K. S. CHAVDA: Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) whether Hindustan Antibiotics Limited has been without a regular Managing Director for a long time; and

(b) if so, what steps are proposed to be taken to fill the post at the earliest in the interest of the efficient working of this Undertaking?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) and (b). The post of Managing Director of Hindustan Antibiotics Limited is vacant since 1st October 1972. The Works Manager of the Company is presently performing the duties of the Managing Director in addition to his own. The question of filling up the post of the Managing Director on a regular basis is under active consideration.

Eligibility of Agricultural Engineering Graduates in Taking up other Examination

6661. SHRI DHANSHAH PRA-DHAN: Will the Minister of RAILWAYS be pleased to refer to the reply given to Unstarred Question No. 4850 on the 19th December, 1972 regarding Engineering Services Examination conducted by the Union Public Service Commission and state:

(a) whether instructions have been issued to the Union Public Service Commission that they should clearly state in the notification regarding the Engineering Services Examination that Agricultural Engineering Graduates are also eligible to take the examination;

(b) whether Agricultural Engineering Graduates are eligible for such Services as Indian Inspection Service; Indian Ordnance Factories' Service, Indian Civil Service, etc.; and

(c) whether in the notification No. F/2/7/72 EI(B) dated the 17th February, 1973 issued by the Union Public Service Commission regarding Engineering Services Examination, 1973 there is no mention about the eligibility of Agricultural Engineering Graduates for taking the said competitive examination?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) No.

(b) They are eligible for all services to which recruitment is made on the basis of the Combined Engineering Services Examination.

(c) A Degree in Engineering from a University is the basic qualification prescribed for admission to the Engineering Services Examination. The rules do not make any distinction between the different branches of Engineering and candidates holding degrees in different branches of engineering (including Agricultural

Engineering) are eligible for admission to the examination.

Representation from Mysore on National Water Grid Issue

6662. SHRI G. Y. KRISHNAN:
SHRI D. B. CHANDRA
GOWDA:

Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) whether Government of Mysore have made any representations regarding the National Water Grid Issue;

(b) whether Government of Mysore have requested for the diversion of surplus water of Godavari Basin to the Krishna Basin; and

(c) if so, the reaction of Government thereto?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): (a) The Government of Mysore made a request for supplying to them information on the subject of Ganga Cauvery link (National Water Grid). Such information, as was available as a result of office studies, has been sent to them.

(b) and (c). The question of diversion of surplus waters of Godavari to Krishna basin has been referred to the Krishna-Godavari Water Disputes Tribunal.

Agreement between India and Kuwait for setting up Fertilizer Project

6663. SHRI G. Y. KRISHNAN:
SHRI RANABAHADUR
SINGH:

Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) whether any agreement has been signed between India and

Kuwait for setting up Fertilizer Projects recently; and

(b) if so, the main features thereof?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) and (b). Yes, Sir. Under the joint note signed by the leaders of the Indian and the Kuwaiti Delegations in New Delhi on the 6th October, 1972, it was agreed, *inter alia*, that possibilities should be explored for setting up of a joint venture fertilizer project in Kuwait. Preliminary proposals in this regard have subsequently been sent by the Fertilizer Corporation of India to Kuwait.

Replacement of Existing Dining Cars by Pantry Cars to serve Pre-cooked Food

6664. SHRI C. K. JAFFER SHARIEF: Will the Minister of RAILWAYS be pleased to state:

(a) whether there is any proposal under the consideration of Government for the replacement of the existing dining cars by pantry cars to serve pre-cooked food;

(b) whether changes in this regard have been made in the Frontier Mail and Grand Trunk Express; and

(c) if so, the result of the changes made?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) It is proposed to replace the existing Dining Cars by Pantry Cars to serve pre-cooked food on a few selected trains.

(b) Yes.

(c) The changes made have eliminated the washing and cooking problems on the moving trains and has enabled the pantry cars being kept clean. It has also helped in the bearers and cooks to remain in clean uniforms.

Nylon Filament Yarn Projects in Joint Sectors

6665. SHRI D. B. CHANDRA GOWDA: Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) the number of Nylon Filament yarn manufacturing projects decided by Government to be set up in the joint sector; and

(b) the cost along with their locations, State-wise?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) Three.

(b):

S. No.	Name of the State Corporation	Location (State-wise)
1	Mysore State Industrial Investment and Development Corporation Ltd., Bangalore	Mysore State
2	Haryana State Industrial Development Corporation Ltd., Chandigarh	Haryana State
3	Andhra Pradesh Industrial Development Corporation Ltd., Hyderabad	Andhra Pradesh

The capital cost for a nylon project of a capacity of 2100 tonnes is estimated to be Rs. 7 crores.

Paid up Capital of companies in Assam

6666. SHRI ROBIN KAKOTI: Will the Minister of LAW, JUSTICE AND COMPANY AFFAIRS be pleased to state:

(a) the total number of Private Limited and Joint Stock Companies functioning in Assam at the end of the year 1969-70, 1970-71 and 1971-72; and

(b) the amount of paid-up Capital of these Companies at the end of 1971?

THE MINISTER OF STATE IN THE MINISTRY OF LAW, JUSTICE AND COMPANY AFFAIRS (SHRI D. R. CHAVAN): (a) The number of Joint Stock Companies limited by shares at work in the State of Assam (before reorganisation) at the end of the years 1969-70, 1970-71 and 1971-72 was 396, 409 and 445 respectively.

(b) The paid-up Capital of companies at work as at the end of 1971-72 aggregated to Rs. 54.5 crores.

चौथी पंचवर्षीय योजना में ईंधन गैस का लक्ष्य

6667. श्री एम० एस० पुरती : क्या पेट्रोलियम और रसायन मंत्री यह बताने की कृपा करेंगे कि क्या सरकार ने चतुर्थ पंचवर्षीय योजना में ईंधन की गैस के लिए कोई लक्ष्य निर्धारित किया था और यदि हां, तो क्या लक्ष्य प्राप्त कर लिया गया है ?

पेट्रोलियम और रसायन मंत्रालय में उपमंत्री (श्री बलबीर सिंह) : चौथी पंचवर्षीय योजना के दौरान कुकिंग गैस के उत्पादन के लिए कोई लक्ष्य निर्धारित नहीं

किया गया है। 1969, 1970, 1971 तथा 1972 के दौरान शोधनशाला में एल०पी० जी० का वास्तविक उत्पादन इस प्रकार है :

(घांकड़े '000 मीटरी टनों में)

1969	1970	1971	1972
			(अस्थायी)
127	161	195	227

(उपर्युक्त आंकड़ों में एस्सो शोधनशाला द्वारा लूब इंडिया को सप्लाई की गई मात्रा शामिल नहीं है)।

New Irrigation-cum-power projects in Mysore

6668. SHRI DHARAMRAO AFZALPURKAR: Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) the new irrigation and irrigation-cum-power projects sanctioned in the State of Mysore during the last three years;

(b) the total amount of Central help sought and granted for each of these projects; and

(c) the reaction of Government thereto?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): (a) The Government of Mysore have a number of major and medium irrigation projects in hand in the Fourth Plan and attention has been concentrated in progressing the projects already in hand. However, in the last three years, 4 new medium irrigation scheme namely Gundal, Taraka, Votahole and Sagaradoddakarc proposed by the State Government

were approved by the Planning Commission for inclusion in the developmental Plans of the State.

(b) and (c). The Mysore Government approached the Central Government for a special assistance of Rs. 30 crores annually for a period of six years for four of their major irrigation projects namely Upper Krishna, Malaprabha, Ghataprabha Stage-II and Hemavati projects. A special Central assistance of Rs. 2.72 crores for Ghataprabha and Malaprabha projects was allocated for the year 1972-73 and it was expected that the Government of Mysore would add Rs. 1.28 crores from their assessed State Plan resources; thus providing an additional outlay of Rs. 2 crores for each of these projects over and above envisaged earlier in the State Plan for 1972-73.

The Planning Commission is at present having under consideration a proposal for giving special central assistance to selected irrigation projects in the country whose accelerated construction can help to create

significant additional irrigation potential in the next three years. Some projects of Mysore are also being considered in this connection.

Prosecution launched against Manufacturers and Traders for violating Drugs (Price Control) Order, 1970

6669. SHRI BHALJIBHAI PARMAR: Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) the number of prosecutions launched to-date against manufacturers and traders, separately for violation of the Drugs (Price Control) Order, 1970; and

(b) in how many cases convictions were secured and what are the names of the firms and persons convicted?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) and (b). The number of cases in which prosecutions were launched for violation of the Drugs (Prices Control) Order, 1970 and the number convicted in various States are indicated below:

Name of State	Position as on	Prosecution launched	Number convicted
1	2	3	4
Maharashtra	14-7-72	23	8
Gujarat	21-7-72	15	11
Tamil Nadu	19-6-72	..	..
Mysore	21-6-72	..	..
West Bengal	24-6-72	1	..
Andhra Pradesh	11-7-72	..	..
Haryana	10-8-72	..	..
Himachal Pradesh	16-8-72	..	..
Uttar Pradesh	29-8-72	3	3
Punjab	28-9-72	1	..
Madhya Pradesh	20-9-72	1	1
Orissa	30-9-72	..	..

1	2	3	4
Kerala	27-11-72	I	I
Jammu & Kashmir	7-2-73	..	..
Bihar	19-2-73	..	..
Rajasthan	9-3-73	..	..
Delhi	24-2-73	I	I
Chandigarh	1-7-72	..	..
Manipur	29-6-72	..	..
Tripura	19-6-72	..	..
Dadra & Nagar Haveli	15-6-72	..	..
Andamans	21-6-72	..	..
Pondicherry	6-6-72	..	..
Goa, Daman & Diu	20-6-72	..	..

The collection of remaining information will involve time and labour not commensurate with the results achieved.

Expansion licence for Tetracycline/Oxytetracycline granted to M/s Pfizer Limited

6670. SHRI BHALJIBHAI PARMAR: Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) whether M/s. Pfizer Limited, foreign Drug firm was granted an expansion licence for Tetracycline/Oxytetracycline, subject to the condition that certain percentage of the production will be exported;

(b) if so, when this licence was granted and the terms and condition of the licence; and

(c) whether the party has executed a bond to export the production and if not, why not and what action Government have taken or propose to take in the matter?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) to (c). M/s. Pfizer Limited were granted an industrial licence for effecting substantial expansion for the manufacture of Tetracyclines to the extent indicated below, in September 1965:

Tetracycline .	2 tonnes to 3 tonnes
Oxytetracycline	3 tonnes to 7 tonnes
TOTAL	5 tonnes to 10 tonnes

The above licence was subject to the following conditions:

(a) That additional foreign exchange required for the import of raw materials in connection with the manufacture of additional 5000 kg. of tetracycline would be earned by exports under Export Incentive Schemes; and

(b) That 25 per cent (Twenty five percent) of the actual

production of tetracycline in value will be exported annually from 1966-67. A bond to this effect should be executed in consultation with the Ministry of Commerce.

In July 1967, M/s. Pfizer were issued another industrial licence for effecting substantial expansion as under:

Tetracycline .	3—5 tonnes
Oxtetracycline	7—9 tonnes
* TOTAL	10—14 tonnes

The licence issued in July 1967 was subject the following export conditions:—

- (a) Production in excess of ten tonnes of tetracyclines shall be exported, unless Government by prior approval give permission to sell any part of it in the country, in the first year four tonnes must be exported;
- (b) Irrespective of the actual quantity of tetracyclines exported from the second year onwards, as above, a total of Rs. 15 lakhs annually must be exported as an average over five years of tetracycline and other items of pharmaceuticals. This export of Rs. 15 lakhs should be over and above the current level of export;
- (c) The commitment to export 25 per cent of the initial capacity of ten tonnes of tetracyclines, in value, remains. There would, however be no objection to the export of tetracycline and other items of pharmaceuticals provided the total value of 2500 kg. of tetracyclines will be calculating factor.

With reference to the condition imposed in the licence issued in Sep-

tember, 1965, M/s. Pfizer have not executed any export bond so far. When the matter was taken up with the party in August 1971, the party represented that even without execution of export bond they have fulfilled the export obligation as stipulated in the licence. CCI&E was consulted, and he is of the view that an export obligation stipulated in 1964-65 cannot be continued in 1972 especially when the party represent that they have already conformed to the export obligation. As regards the industrial licence issued in July 1967 it was not subject to execution of such a bond.

Drugs exported and foreign exchange earned

6671. SHRI BHALJIBHAI PARMAR: Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) the quantum of exports of drugs, bulk as well as formulations and other items, made by each of the drug manufacturing firms in the organised sector (borne on the books of D.G.T.D.) during the years 1970-71 and 1971-72, separately;

(b) the names of the drugs, the F.O.B. prices and the countries to which exports were made;

(c) the import content of the drugs exported and the extent of the net foreign exchange earned as a result of exports; and

(d) the nature of concessions granted to each firm for the exports made by it during the said period?

THE DEPUTY MINISTRY IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) to (d). A statement showing the names of some of the units in the organised sector, items exported, value of exports during 1970-71 and 1971-72 and the main countries to which they were exported is laid on the Table of the House. [Placed in Library. See No. LT-4780/73].

The collection of the remaining detailed information will involve considerable time and labour which will not be commensurate with the results.

Difficulty in getting wagons experienced by People of Cottage Industry in Trivandrum District

6672. SHRI VAYALAR RAVI: Will the Minister of RAILWAYS be pleased to state:

(a) whether Government are aware of the hardship and delay experienced by the people of Trivandrum District who are engaged in cottage industries in getting permission for Railway booking and in getting Railway wagons to take their goods to different parts of Kerala and Tamilnadu;

(b) whether Government are aware that these difficulties in Railway booking have resulted in large scale unemployment among people who are engaged in cottage industries; and

(c) if so, the steps taken to redress their grievances?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) and (b). Traffic in coir yarn and cadjans is offered at Trivandrum station for despatch by rail by different cottage Industries in Trivandrum District.

This traffic is being cleared currently and during the period from 1st January to 20th March 1973, 54 wagons were loaded with coir and cadjans against the demand for 57 wagons.

(c) Does not arise.

Construction of an over-bridge at Kadakavur level crossing near Trivandrum

6673. SHRI VAYALAR RAVI: Will the Minister of RAILWAYS be pleased to state:

(a) whether Government have received any representation regarding the construction of a platform

over-bridge and an over-bridge at Kadakavur level crossing near Trivandrum; and

(b) if so, the gist thereof and the reaction of Government thereto?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) and (b). The representation received was for provision of a second platform, a foot over bridge on the platform and a road over bridge in replacement of the existing level crossing at Kadakavur Railway Station.

The work regarding provision of a second rail level island platform is proposed in connection with the scheme for conversion of the Quilon Trivandrum section from Metre Gauge to Broad Gauge. Provision of a foot over bridge to connect one platform with another is however not considered justified.

Work regarding the replacement of level crossing at Km 795/10-11 by a road over bridge has already been including in the Budget 1973-74, and the same will be carried out after finalisation of detailed plans and estimates in consultation with the State Government to whom the matter has already been referred.

उत्तर रेलवे में बिना शैंड के प्लेटफार्म

6674. श्री हुकम चन्द कछवाय : क्या रेल मंत्री यह बताने की कृपा करेंगे कि इस समय उत्तर रेलवे में ऐसे स्टेशनों की संख्या कितनी है जहाँ बिना शैंड के प्लेटफार्म हैं ?

रेल मंत्रालय में उपसत्री (श्री मुहम्मद शफी कुरेशी) : 1043.

पूर्वोत्तर रेलवे में बिना शैंड के प्लेटफार्म

6675. श्री हुकम चन्द कछवाय : क्या रेल मंत्री यह बताने की कृपा करेंगे कि इस समय उत्तर रेलवे में ऐसे स्टेशनों की संख्या कितनी है जहां बिना शैंड के प्लेटफार्म

रेल मंत्रालय में उपमंत्री (श्री मुहम्मद शाफी कुरैशी) : 438.

पूर्वी रेलवे में सम्पत्ति की चोरी की घटनाएं

6676. श्री हुकम चन्द कछवाय : क्या रेल मंत्री यह बताने की कृपा करेंगे कि :

(क) गत तीन वर्षों में पूर्वी रेलवे में रेलवे सम्पत्ति की चोरी की कितनी घटनाएं रजिस्टर की गई हैं और चोरियों में कितने मूल्य का माल गया; और

(ख) इस सम्बन्ध में कितने व्यक्तियों के विरुद्ध चोरी के मामले दर्ज किये गये हैं ?

रेल मंत्रालय में उपमंत्री (श्री मुहम्मद शाफी कुरैशी) : (क) पूर्व रेलवे में पिछले तीन महीनों अर्थात् जनवरी, 73 से मार्च, 73 के दौरान रेल सम्पत्ति की चोरी के 64 मामले दर्ज किये गये ।

इनमें चोरी गयी सम्पत्ति का मूल्य 1,14,954 रुपये था ।

(ख) इस सम्बन्ध में 46 व्यक्तियों के विरुद्ध मामले दर्ज किये गये हैं ।

पश्चिम रेलवे में बिना टिकट यात्रा करने वाले यात्रियों से प्राप्त की गई राशि

6677. श्री हुकम चन्द कछवाय : क्या रेल मंत्री यह बताने की कृपा करेंगे कि गत तीन महीनों में पश्चिम रेलवे में बिना टिकट यात्रा करते पकड़े गये यात्रियों से जुर्माने सहित कुल कितना रेल भाड़ा वसूल किया गया ?

रेल मंत्रालय में उपमंत्री (श्री मुहम्मद शाफी कुरैशी) : पिछले तीन महीनों अर्थात् दिसम्बर, 1972 से फरवरी, 1973 तक की अवधि में पश्चिम रेलवे में बिना टिकट यात्रा करते पकड़े गये यात्रियों से जुर्माने और किराये के रूप में वसूल की गयी रकम इस प्रकार है :—

	रुपये
जुर्माने के रूप में	4,85,843
किराये के रूप में .	2,40,405

Shares Held by Tatas and Birlas and the Members of their Families in Industrial Concerns Belonging to their Groups

6678. KUMARI KAMLA KUMARI: Will the Minister of LAW, JUSTICE AND COMPANY AFFAIRS be pleased to state:

(a) the total value of shares held by Shri Tata and the members of his family in the industrial concerns belonging to his group in the year 1969;

(b) the value of shares held by Shri Birla and members of his family in the industrial concerns belonging to his group in the year 1969; and

(c) the total value of shares held by Tatas and Birlas in their industrial concerns at present?

THE MINISTER OF STATE IN THE MINISTRY OF LAW, JUSTICE AND COMPANY AFFAIRS (SHRI D. R. CHAVAN): (a) to (c). The information being collected and will be laid on the Table of the House.

Electrification of villages in the country

6679. KUMARI KAMLA KUMARI: Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) the year by which all the villages in the country will be electrified; and

Name of State

Bihar
Uttar Pradesh
All-India

(b) the year by which all the villages in Bihar and U.P. will be electrified?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): (a) and (b). The emphasis in rural electrification schemes throughout the country since 1966-67 is on the energisation of pumpsets for increasing agricultural production. Electrification of villages is a subsidiary part of this programme. The position of electrification of villages and energisation of pumpsets in Bihar Uttar Pradesh and in the country as a whole as on 28th February, 1973 is given below:—

Name of State	Total No. of villages	No. of villages electrified	Percentage	No. of pumpsets energised
Bihar	67,665	8,929	13.1	84,277
Uttar Pradesh	1,12,624	26,185	23.2	1,92,964
All-India	5,66,878	1,34,160	23.6	21,37,013

According to the perspective plan for rural electrification for the decade 1971-81 drawn up, it is envisaged that by 1981, subject to availability of funds, at least 50 per cent of villages in each State would be electrified.

The time by which all the villages in the country including those in Bihar and Uttar Pradesh will be electrified depends upon the availability of resources in the Fifth and subsequent Plans.

Theft of Coal from Wagons during 1971-72 in Uttar Pradesh, Haryana, Rajasthan and West Bengal

6680. KUMARI KAMLA KUMARI: Will the Minister of RAILWAYS be pleased to state:

(a) the quantity of coal pilfered from Railway wagons in the year 1971-72 in Uttar Pradesh, Haryana, Rajasthan and West Bengal;

(b) whether huge quantity of coal is being daily pilfered from the loaded wagons in these States; and

(c) if so, the steps taken by Government to check the pilferage?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) The following table gives the quantity of coal pilfered from railway wagons in Uttar Pradesh, Haryana, Rajasthan and West Bengal during the years 1971 and 1972:

Year	State	Quantity of coal pilfered.
1971	Uttar Pradesh	. 1341 Kg.
1972	Uttar Pradesh	. 2089 Kg.
1971	Haryana	. 446 Kg.
1972	Haryana	. 721 Kg.
1971	Rajasthan	. 1816 Kg.
1972	Rajasthan	. 175 Kg.
1971	West Bengal	. 596305 Kg.
1972	West Bengal	. 3046913 Kg.

Note: The above figures represent Coal involved in detected cases.

(b) No. Compared to the quantity of Coal transported the amount pilfered is negligible.

(c) The following steps have been taken for prevention of pilferage of coal on Railways:

- (1) R.P.F. staff are posted round the clock to guard the booked consignments including coal, against criminal interference in Yards, Goods Sheds and Parcel Offices.
- (2) Constant vigilance is exercised over the criminals and their activities.
- (3) Regular collection of Crime Intelligence is done by CIB staff at Headquarters and in Divisions to exercise a check over criminals.
- (4) Incognito watch over the receivers of stolen property is maintained.
- (5) Escorting of goods trains is done by RPF in affected Sections.
- (6) Patrolling of affected and vulnerable yards and sections notorious for Crime is undertaken by Uniformed and Armed wing staff.
- (7) Frequent surprise checks are made by RPF supervisory staff to ensure that the preventive measures are adequate and effective.
- (8) Liberal utilization of powers vested in R.P.F. under R.P. (U.P.) Act is made against criminals/receivers of stolen railway property.

New Circle for Survey of Railway lines for Bihar and Madhya Pradesh

6681. KUMARI KAMLA KUMARI: Will the Minister of RAILWAYS be pleased to state:

(a) whether Government propose to set up a new circle for survey of work on new Railway lines in Bihar

and Madhya Pradesh and for doubling the Railway lines in these two States;

(b) if so, the gist thereof; and

(c) if not, the reasons therefor?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) to (c). No, Survey Teams are appointed as and when the need for carrying out Surveys for new lines/doubling arises. Such surveys covering Bihar and M.P. are already in progress.

Strike by Loco Staff Ratlam Division (Western Railway)

6682. SHRI BHAGIRATH BHANWAR: Will the Minister of RAILWAYS be pleased to state:

(a) whether the Loco Staff of the Ratlam Division of the Western Railway went on a strike in the third week of March, 1973; if so the reasons of the strike; and

(b) the measures proposed to settle the dispute?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) On 8th March 1973 a section of Loco Running Staff started reporting sick or refusing to work in higher capacity on a day-to-day basis and this continued till 16.3.73. Their main demand was that officiating arrangements in higher grades should be made by regular promotions and not on a day-to-day basis.

(b) The Railway Administration had already initiated action in this direction. The position was explained to the strikers, who were also assured that action would be finalized at the earliest.

Rigging in prices of Antibiotics by American Firm

6683. DR. H. P. SHARMA: Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) whether Senator Kefauver Committee has highlighted the large scale rigging in the prices of antibiotics by some of the American firms in India; and

(b) if so, the steps taken by Government to prevent such practices, especially in relation to life saving drugs?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) The report which came out in 1961 said that the prices in India for the broad-spectrum antibiotics, Aureomycin and Achromycin are among the highest in the world.

(b) The ceiling prices at which some of the drugs can be imported have already been specified in the Import Trade Control Policy Book. The import of several drugs has also been canalised through the State Trading Corporation Limited and the coverage of the items under canalisation scheme is reviewed and enlarged from time to time.

Operation of Posts of Commercial Inspectors and Asst. Commercial Inspectors in Bilaspur Division (South Eastern Railway)

6684. SHRI CHANDRIKA PRASAD: Will the Minister of RAILWAYS be pleased to state:

(a) whether out of six posts of Assistant Commercial Inspectors in Bilaspur Division of South Eastern Railway, 3 posts were filled by the Office-clerks of the Divisional Office vide D. S. Bilaspur's letter No. E/99/COMM./ACI/7, dated 14th January, 1972;

(b) whether one post of Commercial Inspector in grade Rs. 250-380(A) and 2 posts of Assistant Commercial Inspectors in grade of 205-280(A) which were sanctioned vide G.M., with the concurrence of FA & CAO, South Eastern Railway, are not operated so far; and

(c) if so, the reasons therefor?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Yes.

(b) and (c). One post of Commercial Inspector in grade Rs. 250-380 and two posts of Assistant Commercial Inspector in grade Rs. 205-280 were sanctioned by the Headquarters office in addition to the existing sanction at the Divisional level. There was a doubt regarding operation of these posts. After the same was resolved, action has since been taken for filling these additional posts.

Safety of Stations earnings in Travelling Cash Safes

6685. SHRI CHANDRIKA PRASAD: Will the Minister of RAILWAYS be pleased to state:

(a) whether Travelling Cash Safes used by Western Railway on Metre Gauge System are defective and Sealed leather Cash Bags having the Station Earnings can be taken out from these Safes;

(b) if so, the steps taken by the Administration to replace the same;

(c) the number of sealed Cash bags found missing from the Travelling Cash Safes during the years 1969-1972 by the Ajmer Cash Office of Western Railway, and the number of complaints lodged with the Government Railway Police Ajmer for the same; and

(d) the number of cases in which the thefts were traced and the number of cases which remained untraced and the loss of amount sustained by Government?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) No.

(b) Does not arise.

(c) During the years 1969 to 1972, twelve cash bags were not found in the Travelling Cash Safes in which they were stated to have been deposited. In all these cases, complaints were lodged with the Government Railway Police.

(d) No thefts have been located. All the twelve missing bags remain untraced. The amount of loss due to these missing bags is Rs. 12,171.77.

Shed over Platform No. 2 and 3 and covering of Foot over-bridge at Rohtak Railway Station

6686. SHRI DALIP SINGH: Will the Minister of RAILWAYS be pleased to state:

(a) whether the shed at Platform No. 2 and 3 has been extended and the foot over-bridge covered at Railway Station Rohtak according to the plan; and

(b) if not, the circumstances causing deviation from the basic requirements of this work?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Shed on platforms No. 2 and 3 has been extended. The work of covering the foot over bridge is in hand and will be completed shortly.

(b) Does not arise.

Punctuality of 369 Up Train at Rohtak

6687. SHRI DALIP SINGH: Will the Minister of RAILWAYS be pleased to state:

(a) the percentage punctuality of 369 Up train at Rohtak;

(b) number of complaints recorded between Delhi and Rohtak Station

about late running of this train during last one year; and

(c) action taken thereon?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) The percentage of arrival of 369 Up passenger right time or upto 15 minutes late at Rohtak during the year 1972-73 was about 26.

(b) One complaint for late running of this train was recorded at Bahadurgarh during this period.

(c) Steps have been taken by Northern Railway to keep a day to day watch on the performance of this train and take up all avoidable detentions with a view to achieve improvement in the performance of this train.

Complaints regarding late opening of Booking Office and Refusal to issue Monthly Tickets at Sampla Station

6688. SHRI DALIP SINGH: Will the Minister of RAILWAYS be pleased to state:

(a) the number of complaints recorded at Sampla station about the late opening of booking office and refusal of issuing monthly passes to the passengers during 1972-73; and

(b) action taken thereon?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) No complaint has been received regarding late opening of Booking Office at Sampla. But one complaint was recorded regarding difficulties in the issue of Monthly Season Tickets.

(b) Timings for issue of Monthly Season Tickets at Sampla have since been suitably changed to avoid any difficulty.

Since December, 1972 when the timings were changed no complaint has been received.

Insurance Scheme for the users of Railways

6690. SHRI ROBIN KAKOTI: Will the Minister of RAILWAYS be pleased to state:

(a) whether Government have since taken a decision on the proposal to introduce Insurance for long distance Railway passengers against accidents etc.; and

(b) if so, the salient features thereof and if not, by what time it will be introduced?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) and (b). The matter is still under consideration.

Children's train

6691. SHRI ROBIN KAKOTI: Will the Minister of RAILWAYS be pleased to state:

(a) whether Government have taken a decision some years past to give each State a children's train; and

(b) if so, the names of the States which have got such children's train and the price charged per such train?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Yes.

(b) Children's trains have so far been supplied to the following States:

Gujarat, Mysore, Andhra Pradesh, Madhya Pradesh, Uttar Pradesh, Kerala, Punjab, Orissa and Rajasthan.

The train is supplied free of cost, but the States have to bear expenditure for laying tracks and providing sheds and stations. The operating and maintenance expenditure is also borne by the States.

Unmanned Level Crossings

6692. SHRI ROBIN KAKOTI: Will the Minister of RAILWAYS be pleased to state:

(a) total number of level crossings which are still unmanned on different Railways, Zone-wise; and

(b) when these are going to be manned?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) There were 21,640 'C' Class unmanned level crossings upto the end of March, 1972—the Railwaywise position being as under:

Central	1018
Eastern	796
Northern	3211
North Eastern	1870
Northeast Frontier	1370
Southern	3126
South Central	2050
South Eastern	3298
Western	4901

(b) Generally, the level crossings where both road and rail traffic is heavy and/or visibility is restricted are manned on the basis of traffic census or on receipt of request from the State Government/Road Authority which is a continuous process and action is taken as and when necessary.

Development of Railway Workshop and Railway Hospital at Dibrugarh

6693. SHRI ROBIN KAKOTI: Will the Minister of RAILWAYS be pleased to state:

(a) whether Government have any plan for development of Railway Workshop and Railway Hospital at Dibrugarh; and

(b) if so, the salient features thereof and if not, the reasons therefor?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Yes.

(b) There is a plan to develop crane POH facilities with an estimated cost of Rs. 1.97 lakhs at Dibrugarh workshop. As regards the hospital, there are certain proposals under consideration at preliminary stages and depending on availability of resources they would be finalised in due course.

Electrification of villages in Agra, U.P.

6694. DR. GOVIND DAS
RICHHARIA:

SHRI PRABODH CHANDRA:

Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) the total number of villages in Bah Development Block and Jaitpur Kalan Development Block in Bah tehsil of Agra District in Uttar Pra-

desh which have been electrified and the number of the villages which have not been electrified so far;

(b) the number of villages in the aforesaid development Blocks, the population of which is more than 1,000 but which have not been electrified;

(c) the action being taken by Government to expedite electrification of these villages; and

(d) whether the State Government have asked for any special assistance to expedite electrification of all the villages in dacoit infested areas of Agra District and if so, the main features thereof and the reaction of Central Government thereto?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): (a) and (b). The requisite information is given below:—

Name of Development Block	No. of villages electrified	No. of villages not electrified	No. of villages with a population of 1000 and above not electrified.
Bah	27	11	2
Jaitpur Kalan	28	16	8

(c) The programme for rural electrification is drawn up and executed by the State Electricity Board. To accelerate the pace of rural electrification, additive finances are provided through the Rural Electrification Corporation which has been set up in the Central Sector. The Corporation has so far sanctioned one scheme in Agra District involving loan assistance of Rs. 48.02 lakhs for electrification of 68 villages and energisation of 645 pumpsets.

(d) No, Sir.

उत्तर प्रदेश के झांसी जिले में गांवों का विद्युतीकरण

6695. श्री गोविन्द दास रिश्वातिया :
क्या सिंचाई और विद्युत् मंत्री यह बताने की कृपा करेंगे कि :

(क) उत्तर प्रदेश के झांसी जिले में अब तक कितने गांवों का विद्युतीकरण किया गया है और अभी तक कितने गांवों का विद्युतीकरण रहता है ;

(ख) झांसी जिले में, 1,000 की जनसंख्या से अधिक कितने गांव हैं जिनका अभी तक विद्युतीकरण नहीं किया गया है ;

(ग) किसी गांव के विद्युतीकरण मानदण्ड क्या हैं ;

(घ) क्या सरकार का विचार बुन्देलखण्ड के गांवों का, इस क्षेत्र के पिछड़ेपन को देखते हुए विद्युतीकरण हेतु मान दण्ड में ढील देने का है; और

(ङ) बुन्देलखण्ड क्षेत्र में आगामी वित्तीय वर्ष के दौरान कितने और किन-किन गांवों का विद्युतीकरण करने का प्रस्ताव है ?

सिचाई और विद्युत् मंत्रालय में उपमंत्री (श्री बालगोविन्द वर्मा) : (क) उत्तर प्रदेश के झांसी जिले में 1,461 ग्रामों में से फरवरी, 1973 तक 113 ग्राम विद्युतीकृत हो चुके हैं और 1,348 ग्राम शेष बचे हैं जिन्हें विद्युतीकरण किया जाना है ।

(ख) झांसी जिले में 1,000 तथा इससे अधिक की जनसंख्या वाले 152 ग्रामों का अभी तक विद्युतीकरण नहीं हुआ है ।

(ग) और (घ). जैसा कि उत्तर प्रदेश राज्य बिजली बोर्ड ने सूचित किया है कि ग्रामों में बसे हुए क्षेत्रों के विद्युतीकरण के लिए सामान्य पद्धति यह है कि पूंजीगत व्यय पर न्यूनतम 15 प्रतिशत वार्षिक कुल लाभ की आवश्यकता होती है । बरहाल, बुन्देलखण्ड क्षेत्र के पिछड़ेपन को ध्यान में रखते हुए कुल वार्षिक लाभ को कम करके 8 प्रतिशत कर दिया गया है ; और

(ङ) राज्य बिजली बोर्ड का 1973-74 वर्ष के दौरान बुन्देलखण्ड क्षेत्र में 130 ग्रामों का विद्युतीकरण करने का प्रस्ताव है । विद्युतीकरण कार्यक्रम में लिए जाने वाले ग्रामों के नामों के संबंध में अभी तक अन्तिम निर्णय नहीं हुआ है ।

गुरदासपुर के गांवों का विद्युतीकरण

6696. श्री प्रवीण चन्दा : कृपया सिचाई और विद्युत् मंत्री यह बताने की कृपा करेंगे कि :

(क) गुरदासपुर जिले के कितने गांवों का विद्युतीकरण हुआ है और कितने गांवों में होना शेष है ;

(ख) उक्त जिले में 1,000 से अधिक जनसंख्या वाले ऐसे गांवों की संख्या कितनी है जिनका अब तक विद्युतीकरण नहीं किया गया और इसके क्या कारण हैं ; और

(ग) इन गांवों के विद्युतीकरण किए जाने की कितने समय तक आशा है ?

सिचाई और विद्युत् मंत्रालय में उपमंत्री (श्री बालगोविन्द वर्मा) : (क) गुरदासपुर जिले के 1500 गांवों में से, फरवरी, 1973 तक 810 गांवों का विद्युतीकरण किया जा चुका है तथा 590 गांवों का विद्युतीकरण अभी किया जाना है ।

(ख) और (ग). गुरदासपुर जिले में 1000 तथा इससे अधिक जनसंख्या वाले 168 गांवों में से फरवरी, 1973 तक 144 गांवों का विद्युतीकरण किया जा चुका है । 1973-74 के दौरान ऐसे 8 गांवों का विद्युतीकरण करने का कार्यक्रम बनाया गया

ग्राम विद्युतीकरण निगम, जिसकी स्थापना केन्द्रीय क्षेत्र में जुलाई, 1969 में हुई थी, राज्य बिजली बोर्डों की ग्राम विद्युतीकरण स्कीमों के कार्यान्वयन के लिए योगात्मक धन की व्यवस्था करता है । इस निगम ने अब तक गुरदासपुर जिले के तीन ग्राम विद्युतीकरण स्कीमों में स्वीकृत की हैं जिनमें 288 और गांवों के विद्युतीकरण के लिए 142.987 लाख रुपये की ऋण सहायता

परि-कल्पित है। इस स्कीम को 3 से 5 वर्ष की अवधि में पूरा करना चरणबद्ध किया गया है।

ग्राम विद्युतीकरण के कार्यक्रम को, राज्य सरकार के पास उपलब्ध संसाधनों पर निर्भर करते हुए, प्रत्येक वर्ष में कार्यान्वयन करने के लिए चरणबद्ध किया जाता है। गुरदासपुर जिले के सभी गांवों का विद्युतीकरण पांचवीं योजना में उपलब्ध किये गये धन पर निर्भर करेगा।

आगरा में बाह्य विकास खंड और जैतपुर विकास खण्ड में हरिजन गांवों का विद्युतीकरण

6697. डा० गोविन्द दास रिछारिया : क्या सिंचाई और विद्युत् मंत्री यह बताने की कृपा करेंगे कि :

(क) उत्तर प्रदेश के आगरा जिले में बाह्य विकास खंड और जैतपुर विकास

खंड में हरिजनों के कुल कितने गांवों का विद्युतीकरण नहीं किया गया है ;

(ख) गत तीन वर्षों के दौरान, वर्षवार विकास खण्डों में कितने गांवों का विद्युतीकरण किया गया है ; और

(ग) चालू वित्तीय वर्ष के दौरान कितने गांवों का विद्युतीकरण करने का प्रस्ताव है ?

सिंचाई और विद्युत् मंत्रालय में उपमंत्री (श्री बालगोविन्द वर्मा) : (क) जैसा कि उत्तर प्रदेश राज्य बिजली बोर्ड ने सूचित किया है, बाह्य विकास खण्ड में, हरिजन बस्तियां तथा जैतपुर विकास-खण्ड में 8 हरिजन बस्तियां अभी विद्युतीकृत की जानी शेष हैं।

(ख) इन दो खण्डों में पिछले तीन वर्षों के दौरान विद्युतीकृत किय गये गांवों की संख्या इस प्रकार है :—

विकास खण्ड	1970-71	1971-72	1972-73	योग
बाह्य	3	9	5	17
जैतपुर कला	4	6	5	15

(ग) राज्य बिजली बोर्ड का 1973-74 में आगरा जिले में लगभग 60 गांवों को विद्युतीकृत करने का प्रस्ताव है। खण्ड वार व्यौरों को अभी तक अंतिम रूप नहीं दिया गया है।

लद्दाल में कच्चे माल की खोज के लिए सर्वेक्षण

6698. श्री कुशोक बाकुला क्या पेट्रोलियम और रसायन मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या रसायन का उत्पादन करने हेतु लद्दाख (जम्मू और काश्मीर राज्य) में कच्चे माल की खोज के लिए सर्वेक्षण किया गया है ; और

(ख) यदि हां, तो इसका क्या परिणाम निकला है ?

पेट्रोलियम और रसायन मंत्रालय में उपमन्त्री (श्री दलबीर सिंह) : (क) और (ख). भारतीय भूगर्भीय सर्वेक्षण द्वारा अब तक किये गये सर्वेक्षणों के परिणामस्वरूप, पुष्पा में लगभग 5400 मीटरी टन क्रूड बोरिक्स और 0.2 मिलियन मीटरी टन सल्फर राक को विद्यमानता का अनुमान लगाया गया है । चालू क्षेत्रीय मौसम में भारतीय भूगर्भीय सर्वेक्षण द्वारा सल्फर और बोरिक्स के लिए और जांच किये जाने का कार्यक्रम है ।

Transfer of staff from T.R.A. and Coaching Section (OPTG) of Headquarters (Northern Railway)

6699. SHRI R. V. BADE: Will the Minister of RAILWAYS be pleased to refer to the reply given to Unstarred Question No. 2123 on the 28th November, 1972 regarding complaint against staff of TRA sections (Operating), N. Railway Headquarters and state:

(a) whether the staff dealing with the supply and haulage of stock for *yatra*, marriage and students parties come in contact with public during the course of their duties and have stayed in the same section for many years;

(b) whether it is the policy of Government to transfer the staff working in the CAB/TRA Sections of operating Branch, N. Railway Headquarters

at intervals to avoid cases of corruption; and

(c) if so, the action taken in pursuance thereof?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) to (c). The allotment of coaches and accommodation is made by the officers; the clerical staff have only to make the consequential arrangements. As such the staff in these sections do not have to deal with the public direct. They are not liable for regular periodical transfers. However, when complaints are received against any staff, the matter is investigated and action, as considered necessary, is taken.

Representation from All India Railway Commercial Clerks Association regarding violation of Indian Railway Code

6700. SHRI CHANDRIKA PRASAD: SHRI ONKAR LAL BERWA:

Will the Minister of RAILWAYS be pleased to state:

(a) whether during January, 1973 Government have received any representation from the All India Railway Commercial Clerks Association regarding the violation of the provision of Para 1002 of the Chapter 10 of the Indian Railway Code by the Accounts Department on Indian Railways; and

(b) if so, the action taken by Government thereon?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) A representation dated 21-12-1972 was received from the All India Railway Commercial Clerks Association.

(b) The matter is under consideration.

**Attaining self-sufficiency in
Kerosene Oil**

6701. SHRI M. S. SANJEEVI RAO: Will the Minister of PETROLEUM AND CHEMICALS be pleased to state what step the Government propose to take to make the country self-sufficient in Kerosene Oil?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): Kerosene Oil is obtained as a middle distillate from crude oil processed in the refineries. The overall refinery capacity in the country is being progressively augmented with a view to achieving self-sufficiency in regard to all the petroleum products obtained from the refineries. Special steps are also being taken to maximise the yield of the higher priced middle distillates including Kerosene Oil by suitable adjustments in refinery processing wherever feasible.

**Kilometrage of new Railway Lines
during Fifth Five Year Plan**

6702. SHRI M. S. SANJEEVI RAO: Will the Minister of RAILWAYS be pleased to state:

(a) what would be the kilometrage of new Rail lines proposed to be constructed during the Fifth Five Year Plan period, Zone-wise; and

(b) the zone which will be given priority?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) and (b). The details regarding Kilometrage of new rail lines (zone-wise) to be constructed during the Fifth Five Year Plan, are not available, as proposals for the Plan have not been finalised so far.

**Supply of power to Nangal Fertilizer
Plant**

6703. SHRI RAGHUNANDAN LAL BHATIA: Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) the requirement of power supply for the Nangal Fertilizer Plant and how much is supplied at present;

(b) the saving of power supply from the Nangal Fertilizer Plant and how it is being utilised; and

(c) the steps taken to restore the power supply to Nangal Fertilizer Plant and the private industry in the State of Punjab?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA):

(a) The full demand of Nangal Fertilizer Factory is 164 MW (3.95MU) per day and presently they are being supplied 60 MW (1.44 M.U) per day since 10-2-1973.

(b) Saving from 164 MW to 98 MW is distributed among all the partner States of Bhakra Project as per their share and saving from 98 MW to 60 MW is given only to Haryana and Punjab in the proportion of their shares.

(c) Supply of power is expected to be restored after setting in of the monsoon and commissioning of the new generating units at RAPP and Badarpur.

**Delay in setting up of five fertilizer
plants in collaboration with Japan**

6704. SHRI MUHAMMED SHERIEF: Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) whether the five fertilizer plants which are being set up with the collaboration of Toyo of Japan are likely to be delayed; and

(b) if so, the reasons thereof?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) and (b). The proposals received in this regard are being evaluated. An official team is currently visiting Japan for further discussions with the concerned Japanese authorities in the matter.

Enquiry into Bursting of Chikkahole Dam (Mysore)

6705. SHRI S. M. SIDDAYYA: Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) whether an enquiry into the recent bursting of the Chikkahole dam in Mysore District has been ordered by the State Government in consultation with the Central Government;

(b) if so, the composition of the enquiry Committee; and

(c) what are the terms of reference of the Committee?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): (a) and (b). The State Government of Mysore have informed that they have appointed Shri P. M. Mane, Retired Member of Central Water and Power Commission, as One-Man Commission of enquiry to enquire into the causes of breach in the Chikkahole Dam.

(c) The terms of reference of the Commission are:—

- (i) Determining the reasons for the breach of the dam, including defects in design, investigation, construction maintenance or operation etc; if any;
- (ii) Fixing of responsibilities in respect of the aforesaid.

Upgradation of Penanguzhi Railway Station

6706. SHRI VAYALAR RAVI: Will the Minister of RAILWAYS be pleased to state:

(a) whether Government are aware that the collections at the Pananguzhi Railway Station has increased considerably in recent times; and

(b) if so, whether Government propose to take necessary steps to convert this station as a flag station and if so, the time by which a decision is expected to be taken in this regard?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) There has been an increase in the number of passengers booked and earning therefrom at penanguzhi halt station during 1971-72, as compared to the previous two years. The figures for the last five years ending 1971-72 are given below:—

Year	No. of passengers booked	Earnings
1967-68	69431	2,7179
1968-69	61309	28,468
1969-70	54125	24,888
1970-71	50108	23,878
1971-72	57458	28,825

(b) The proposal to convert this halt station into a flag station will involve a capital expenditure of over Rs. 2,42,000 and a recurring expenditure of over Rs. 53,000 per annum. Besides it would result in a financial loss of over Rs. 17,000 per annum because of the above expenditure and meagre prospects of parcel and goods traffic. Hence, the proposal is not feasible of adoption.

**Collapse of or damage to Dams
constructed after 1957-58**

6707. SHRI S. M. SIDDAYYA: Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) how many dams constructed in the country since the year 1957-58 upto date have collapsed or have been damaged;

(b) what was the total cost of construction of each of them; and

(c) the total amount spent or proposed to be spent to reconstruct the same?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): (a) to (c). Irrigation is a State subject and dams etc. are investigated, built, operated and maintained by the State Governments. Information on dams where failure or damage occurred since 1957-58, as available at the Centre, is given in the statement laid on the Table of the House. [Placed in Library. See No. LT-4781 73].

**Rest Vans and Crew Vans for use of
Running Staff on Line**

6708. SHRI PANNA LAL BARU-PAL: Will the Minister of RAILWAYS be pleased to state:

(a) whether Rest Vans and Crew Vans are being used on Railways for the Running staff on line;

(b) if so, the nature of facilities provided in each van; and

(c) whether the facilities provided therein are adequate and if not, Governments reaction thereto?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Yes.

(b) In the standard Rest and Crew Vans facilities provided include kitchen, bath, lavatory and sleeping berths.

(c) While basic requirements for the crew who rest in these vans are catered to, provision of further amenities will involve higher recurring expenditure.

**Co-operation from other Countries in
Construction of Mathura Refinery**

6709. SHRI K. MALLANNA:
SHRI P. M. MEHTA:

Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) whether Government propose to seek the special co-operation from other countries in the construction of Mathura Refinery; and

(b) if so which are those countries and the nature of co-operation sought?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) and (b). The various modes of implementation of the Mathura Refinery Project are under consideration. The nature of assistance and cooperation required for the project pertains largely to the financing of the foreign exchange requirements for import of equipments and materials required for the project. In addition, certain licensed processes have to be obtained by payment of royalties or process fees. Back up from experienced and reputed foreign engineering consultants would also be required. Assistance for meeting part of the foreign exchange requirements for the project with a foreign exchange loan in the form of crude oil from Iraq is being obtained. The possibilities of obtaining process know-how, technical back up, and supply of equipment and materials from U.S.S.R. are also being considered.

**Railway Ticket Racket between
Kanpur and Lucknow**

6710. SHRI SHASHI BHUSHAN:
Will the Minister of RAILWAYS be
pleased to state:

(a) whether it has come to the
notice of Government that a Railway
ticket racket is functioning between
Kanpur and Lucknow and the use of
old tickets is being made very fre-
quently;

(b) whether Railway Travelling
Ticket Examiners are involved in this;
and

(c) the action taken or proposed to
be taken in this regard?

THE DEPUTY MINISTER IN THE
MINISTRY OF RAILWAYS (SHRI
MOHD. SHAFI QURESHI): (a) No.
However, as a result of information
furnished by the Railways to the
Central Bureau of Investigation, the
C.B.I. have detected five persons of
Kanpur printing forged tickets.
Another case is under investigation.

(b) It does not appear that in either
of these cases T.T.Es are concerned.

(c) A watch would be maintained.

**A.R.C.'s comments on functioning of
Accounts Officers on Indian Railways**

6711. SHRI CHANDRIKA PRASAD:
SHRI ONKAR LAL BERWA:

Will the Minister of RAILWAYS be
pleased to state:

(a) whether Administrative Reforms
Commission has adversely commented
upon the functioning of the Accounts
Officers in the Indian Railways;

(b) if so, the comments and recom-
mendations of the Commission in this
regard;

(c) whether the recommendations
of the Commission have been examin-
ed and accepted by Government;
and

(d) if so, the nature of orders
issued in this regard, and if not, the
reasons in rejecting the recommen-
dations?

THE DEPUTY MINISTER IN THE
MINISTRY OF RAILWAYS (SHRI
MOHD. SHAFI QURESHI): (a) to
(d). Relevant recommendation No.
235 contained in the Report of the
Administrative Reforms Commis-
sion's Study Team on Railways and
the decision taken by Government
thereon are stated below in this
connection:

S. No. Text of the recommendation
of re-
com-
men-
dation

Government decision

235 It has been represented by certain rail-
way administrations that the general
principle of the Accounts Officer
being a freindly critic is more or less
set at naught at the lower levels
because of lack of appreciation by
the latter of their proper role. The
correct attitude to be adopted by the
Finance and the executive officers in
dealing with the financial problems
needs to be re-emphasised. The
atritude of the financial officers

Suitable instructions will be issued to the
Railway Administrations and Production
Units to implement S.T.R.'s
recommendation No. 235 recommending
amicable relationship between the
executive officers and finance officers
at the lower level.

Sl. No. Text of the recommendation
of re-
com-
men-
dation

Government decision

should be to help the executive and to avoid being meticulous. Similarly, the executive officers on their part should give due consideration to the financial advice and if a difference of opinion still persists, the matter should be referred to the higher level for a decision.

Necessary instructions in pursuance of the above Government decision are under issue.

Corporation to carry on the work on terms mutually acceptable to the Railway and the Corporation or on the availability of another contractor.

Closure of Rewa Out Agency

6712. SHRI MARTAND SINGH OF REWA: Will the Minister of RAILWAYS be pleased to state:

(a) whether Rewa Out Agency, established during the time of Vin-dhya Pradesh, has been ordered to be closed down by the Chief Commercial Superintendent, Central Railway; and

(b) if so, the reasons therefor?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) and (b). The Madhya Pradesh State Road Transport Corporation who are at present operating the Out-agency are reluctant to continue the work on terms acceptable to the Railway. However, the Corporation has been requested to continue the work upto 30th April, 1973, pending finalisation of the conditions or availability of an alternate contractor, for whose selection the Central Railway Administration has invited applications.

The continuance of the Out-agency depends on the willingness of the Madhya Pradesh Road Transport

Construction of Meja Dam in Bhilwara District

6713. DR. H. P. SHARMA: Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) the progress made so far in the construction of Meja Dam for meeting the increasing demand of water in Bhilwara District;

(b) by what time it is likely to be completed; and

(c) the total cost of the dam and the extent of expenditure so far incurred thereon?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): (a) to (c). The Meja Dam on the Kothari river near Bhilwara town, costing about Rs. 97 lakhs, was completed in 1958. As the dam was not filling up in many years, and demand for water for agriculture in Bhilwara town was increasing, the Rajasthan Government have taken up the Meja feeder project to bring waters from the Banas river. The

Maja Feeder project is expected to cost about Rs. 4 crores. The expenditure upto March 1973 is about Rs. 1.1 crores. The work on the feeder channel is in progress and the project is planned to be completed by the end of Fifth Plan.

Discontinuance of Train Lighting Escorts on Western Railways

6714. SHRI PANNA LAL BARU-PAL: Will the Minister of RAILWAYS be pleased to state:

(a) whether the Train Lighting escorts have been discontinued in many trains on Western Railways; and

(b) if so, the number thereof and reasons therefor?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Yes.

(b) As a result of a review, escorts from 18 trains have been withdrawn, as escorting of these trains is not considered necessary.

Undercharges on consignments of Newspapers on Stations of Western Railway

6715. SHRI CHANDRIKA PRA-SAD:

SHRI ONKAR LAL BERWA:

Will the Minister of RAILWAYS be pleased to state:

(a) whether Dy. CAO (TA), Ajmer has worked out a huge amount of undercharges on the consignments of Newspapers booked on the Stations of Western Railway from April 1970 to December 1970;

(b) if so, the total amount so worked out, separately on each Station on Western Railway and the reasons therefor;

(c) whether the station staff were not advised about the changes in the rates in due time resulting in heavy loss to the Railway Revenues; and

(d) if so, the reasons therefor?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Yes.

(b) A statement is attached.

(c) No; They were advised in time.

(d) Does not arise.

Delay in Commissioning of Durgapur and Barauni Projects due to contracts granted to inferior Foreign and Indian contractors

6716. SHRI AMBESH:

SWAMI BRAHAMANANDJI:

Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) whether certain M.Ps. have alleged that the General Manager (P & D) Division of Fertilizer Corporation of India has collaborated with Managing Director of the Corporation in granting contracts to inferior foreign and Indian contractors leading to delay in commissioning of Durgapur and Barauni Projects; and

(b) if so, Government's reaction thereto?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) Yes, Sir.

(b) The allegation is under examination.

Trade and Economic relations between India and U.S.A.

6717. SHRI MUHAMMED SHERIFF: Will the Minister of RAILWAYS be pleased to state:

(a) Whether any trade mission from U.S. representing rail-road and transportation equipment is likely to visit this country in the near future; and

(b) If so, the main features thereof?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) A Railway Equipment Trade Mission sponsored by the U.S. Department of Commerce is currently in India to

explore the market for sales-promotion of American rail-road equipment and also discuss possibilities of their manufacture in India.

(b) The Mission is headed by Mr. Don R. Henderson of US Department of Commerce and has eleven other representatives of various US companies having interest in the supply of rail-road equipment. The Trade Mission has had discussions with the Railway Board on 2nd April, 1973 during which they informed that it was purely an exploratory mission for ascertaining the import requirements of Indian Railways and the areas in which they could participate in the tenders floated against credits given to the Railways by the International Development Association. The Members of the Mission are also visiting the Railways' Research Designs and Standards Organisation at Lucknow, the Diesel Locomotive Works at Varanasi and the railway administrations at Calcutta and Bombay between 5th to 14th April, 1973.

Reviving Legislative Councils in States

6718. SHRI RAM PRAKASH: Will the Minister of LAW, JUSTICE AND COMPANY AFFAIRS be pleased to state:

(a) whether Government's attention has been drawn to the reports that some of the States are contemplating to revive Legislative Councils where these were previously abolished; and

(b) if so, the reaction of Government thereto?

THE MINISTER OF STATE IN THE MINISTRY OF LAW, JUSTICE AND COMPANY AFFAIRS (SHRI NITIRAJ SINGH CHAUDHARY): (a) No such report has come to the notice of Government.

(b) Does not arise.

Branch-Lines to be discontinued in Gujarat on conversion of Metre Gauge into Broad Gauge

6719. SHRI D. P. JADEJA: Will the Minister of RAILWAYS be pleased to refer to the reply given to Starred Question No. 486 on the 27th March, 1973 regarding Branch lines to be discontinued in Gujarat on conversion metre gauge into broad gauge and state the names of the branch lines which are to be discontinued by the conversion of metre gauge into broad gauge lines in that area?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): Reference is apparently to the conversion of the Viramgam-Okha/Porbandar Metre Gauge into broad gauge, work on which is in progress. No branch lines will be discontinued as a result of this conversion but the following branch lines will continue as metre gauge branch lines after the Viramgam-Okha/Porbandar M.G. to B.G. conversion is completed:

- (i) Surendranagar-Dharangadhara-Kuda
- (ii) Than-Chotila
- (iii) Wankaner-Dahinsara-Navalakhi Maliya
- (iv) Hadmatiya-Jodiya, and
- (v) Khambalia-Salaya.

Increase in the Number of Members of Lok Sabha

6720. SHRI S. M. BANERJEE: Will the Minister of LAW, JUSTICE AND COMPANY AFFAIRS be pleased to refer to the reply given to Unstarred Question No. 4702, dated the 27th March, 1973 regarding increase in the number of Members of Lok Sabha and state whether the Opposition Parties in Parliament have been consulted in regard to the proposed increase in the number of Members?

THE MINISTER OF STATE IN THE MINISTRY OF LAW, JUSTICE AND COMPANY AFFAIRS (SHRI NITIRAJ SINGH CHAUDHARY): The opposition parties in Parliament were consulted in the matter.

Complaints against Shri Gokaldas D. Morarka for misappropriation of Funds and Properties of Companies

6721. SHRI SHANKERRAO SAVANT: Will the Minister of LAW, JUSTICE AND COMPANY AFFAIRS be pleased to state:

(a) whether Shri Gokaldas D. Morarka of Bombay is in the Managing Committees of several big companies like W. H. Brady & Co., Belapur Sugar and Allied Industries, Brady and Morris Engineering Company etc.;

(b) whether there are allegations of misappropriation of funds and property of companies against him;

(c) if so, what action has been taken in the matter; and

(d) the extent of misappropriation in each case and the names of persons involved?

THE MINISTER OF STATE IN THE MINISTRY OF LAW, JUSTICE AND COMPANY AFFAIRS (SHRI D. R. CHAVAN): (a) As per the Annual Return as on 30th June, 1972 filed with the Registrar of Companies, Bombay, Shri Gokalchand D. Morarka is on the Board of Directors of nine companies, including the three companies specifically referred to.

(b) Complaints containing allegations of mismanagement and misappropriation of funds against the managements of W.H. Brady & Co. Ltd. and Belapur Sugar & Allied Industries Ltd. were received.

(c) The then Minister for Company Affairs had made a statement on 22nd December, 1972 in the Lok Sabha in

respect of action taken on the inspection conducted under section 209(4) of the Companies Act in the case of Belapur Sugar & Allied Industries Ltd. Action is being taken on the inspection report of W.H. Brady & Co. Ltd. The report on the inspection of Brady & Morris Engineering Co. Ltd. has just been received and is being examined.

(d) It would not be possible to say at this stage whether there has been any misappropriation of funds, and if so, by whom.

**Contract given to Companies General
De Geophysics of France by
O & N.G.C.**

6722. SHRI RAJDEO SINGH: Will the Minister of PETROLEUM AND CHEMICALS be pleased to state.

(a) whether Oil and Natural Gas Commission gave a contract worth Rs. 1.5 crore to Companies General De Geophysics of France for seismic survey work;

(b) whether realising the dangers involved from the security point of view, in inviting outside agencies for a large scale survey of the coastal waters Government had given their consent sometimes back to O & N.G.C. to buy a seismic ship of the latest design; and

(c) if so, the reasons the O. & N.G.C. have ignored Government intentions?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) A contract for conducting seismic survey was awarded to CGG, the value of which was about Rs. 57.59 lakhs.

(b) The contract for conducting a seismic survey was awarded to CGG, long before the Government approved the proposal of the ONGC for inviting tenders for purchase of a seismic survey ship from abroad.

Moreover, the primary consideration before the Government in the latter decision was to enable the ONGC to conduct these surveys in the future years on a departmental basis, rather than rely on contractors.

(c) Does not arise.

Expansion of Synthetic Fibres

6723. SHRI RAM BHAGAT
PASWAN:

SHRI JAGANNATH
MISHRA:

Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) whether the task force for industry has recommended the expansion programme for synthetic fibres; and

(b) if so, the salient features thereof?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) and (b). The report of the Task Force, set up for formulating the development programme for synthetic fibres during the Fifth Plan period, is under examination of the Government.

**Decision by Government to bear
Election Expenses incurred by
Political Parties.**

6724. SHRI M. S. SIVASWAMY:
SHRI BIBHUTI MISHRA:

Will the Minister of LAW, JUSTICE AND COMPANY AFFAIRS be pleased to state:

(a) whether Government have taken any decision to bear the expenses incurred by political parties during elections; and

(b) if so, the main points thereof?

THE MINISTER OF STATE IN THE MINISTRY OF LAW, JUSTICE AND COMPANY AFFAIRS (SHRI NITIRAJ SINGH CHAUDHARY):

(a) No, Sir.

(b) Does not arise.

**Masters and Assistant Station Masters
Pradesh, U.P. and Delhi**

6725. SHRI PHOOL CHAND VERMA: Will the Minister of RAILWAYS be pleased to state:

(a) the total monthly requirements of coal in Madhya Pradesh, Uttar Pradesh and Delhi;

Month	Madhya Pradesh Ident	Pradesh Loading
Oct. 72	10503	7198
Nov. 72	12996	8827
Dec. 72	12891	9613
Jan. 73	11999	9229
Feb. 73	11437	8009
March 73	10404	7052

(c) The available rail transport capacity has to be distributed as evenly as possible among the various users spread over the entire country.

**Introduction of more Janta Express
Trains**

6726. SHRI RAM BHAGAT PASWAN: Will the Minister of RAILWAYS be pleased to state:

(a) whether Government propose to introduce more Janta Express trains on main trunk routes; and

(b) if so, the names of the routes and the tentative schedule of time to introduce these trains?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) and (b). A pair of bi-weekly Janata Express trains is proposed to be intro-

(b) the supply being made every month during the last 6 months; and

(c) the reasons for which supply could not be made according to requirements of these areas?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) and (b). The total monthly indents and loading of all types of coal and coke to Madhya Pradesh, U.P. and Delhi during the last six months are given below:

(Figures in four wheelers—approximate)
Uttar Pradesh Delhi
Ident Loading Ident Loading

32113	20984	13347	7965
22779	16147	11372	6214

duced between New Delhi and Samastipur from November 1973. The schedules of this train are under finalisation.

**Surrendering of Posts of Station
Masters and Assistant Station Masters**

6727. SHRI RAJDEO SINGH: Will the Minister of RAILWAYS be pleased to state:

(a) whether some posts of Station Masters and Assistant Station Masters have been surrendered;

(b) if so, the number of posts surrendered of both the categories, Zone-wise Division-wise; and

(c) whether Government are contemplating revival of these posts; and if so, when?

THE DEPUTY MINISTER IN THE
MINISTRY OF RAILWAYS (SHRI
MOHD. SHAFI QURESHI): (a) Yes.

(b) Information in respect of Cen-
tral, Eastern, Northern, N.F., South-
ern and South Central Railways is

given in the attached statement. In-
formation in respect of other Zonal
Railways is being collected and will
be laid on the Table of the Sabha.

(c) No.

Thien Dam Project

6728. SHRI RAJDEO SINGH: Will
the Minister of IRRIGATION AND
POWER be pleased to state:

(a) whether Thien Dam Project on
the river Ravi, which will enable
India to fully utilise the waters of
River Ravi under the Indus water
treaty of 1960 has been cleared; and

(b) whether on completion, the
Dam will provide additional irriga-
tion water and help to conserve the
flood water of Ravi and will also
generate nearly 300 M.W. of power?

THE DEPUTY MINISTER IN THE
MINISTRY OF IRRIGATION AND
POWER (SHRI BALGOVIND VER-
MA): (a) Not yet, Sir.

(b) Yes, Sir.

Memorandum from Sabarkantha Dis- trict of Gujarat for Modasa-Kapad- ganj Railway Connection

6729. SHRI SUKHDEO PRASAD
VERMA: Will the Minister of RAIL-
WAYS be pleased to state:

(a) whether a delegation from Sa-
barkantha District of Gujarat recent-
ly presented a memorandum to him

regarding Modasa-Kapadganj Railway connection; and

(b) if so, the reactions of Government thereto?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Yes.

(b) It is proposed to carry out a traffic survey for a metre gauge line from Shamlaji Road station on the Udaipur-Himmatnagar line to Modasa and Kapadganj and alternatively for the conversion of the Nadiad-Kapadganj N.G. section to B.G. and its extension upto Modasa. Necessary estimates have been called for from the Western Railway Administration. Further consideration to this proposal will be given after the proposed survey is completed and the report thereon is examined from all aspects.

Hunger Strike by All India Loco Running Staff Association, Delhi Division (Northern Railways)

6730. SHRI SUKHDEO PRASAD VERMA: Will the Minister of RAILWAYS be pleased to state:

(a) whether Members of the All India Loco Running Staff Association Delhi Division, were on hunger strike on March 13, 1973 outside the Northern Railway Divisional Office, New Delhi; and

(b) if so, what were their main demands and the reaction of Government thereto?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Yes, Sir.

(b) Their main demands are:—

(i) Recognition of their Association;

(ii) Provision of 16 hours home station rest after completion of 8 hours duty.

As regards item (i), it is Government's policy not to recognise sectional unions whose membership is not open to all categories of staff.

In regard to item (ii), this is already in vogue as far as passenger services are concerned; in regard to goods services, this is in the process of implementation.

Delay in Implementation of Recommendations of Sivasankar Committee on grievances of D.E.S.U. Engineers

6731. SHRI SUKHDEO PRASAD VERMA: Will the Minister of IRRIGATION AND POWER be pleased to state the reasons for delay in implementing the recommendations of the Sivasankar Committee appointed by Government in 1970 to look into the grievances of the Delhi Electric Supply Undertaking Engineers?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): The Sivasankar Committee, which was set up in January, 1971, submitted its final report on the 31st January, 1973. It has been remitted to the Delhi Electric Supply Committee for consideration.

2. The G.M., Delhi Electric Supply Undertaking, has reported that the D.E.S.U. passed a resolution on the 15th February, 1973, recommending to the Delhi Municipal Corporation the revision of pay scales of Assistant Executive Engineers and Assistant Engineers. The D.E.S.U. considered the recommendations regarding pay scales of Executive Engineers and above and of staff on the generation side on the 7th April, 1973 and recommended to the D.M.C. and revision of their pay scales also. The D.M.C. is expected to consider the matter shortly.

3. The remaining recommendations of the Sivasankar Committee are under examination in D.E.S.U.

**Progress made regarding Popularity of
"Own Your Own Container" Service**

6732. SHRI SUKHDEO PRASAD VERMA: Will the Minister of RAILWAYS be pleased to refer to reply given to Unstarred Question No. 2134 on the 28th November 1972 regarding introduction of "own your containers" scheme and state the progress made in regard to the introduction of "own your own containers" service?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): A few firms have evinced interest in the 'Own Your Own Containers' scheme. The proposals received so far are under examination.

मोदीनगर और मुरादनगर के बीच चलती गाड़ियों पर महिला यात्रियों से दुर्व्यवहार

6733. डा० लक्ष्मीनारायण पांडेय: क्या रेल मंत्री 12 दिसम्बर, 1972 के अतारांकित प्रश्न संख्या 4050 के उत्तर के सम्बन्ध में यह बताने की कृपा करेंगे कि मोदीनगर और मुरादनगर स्टेशनों के बीच नवम्बर, 1972 में चलती गाड़ो में महिलाओं के साथ अपमानजनक व्यवहार करने के आरोप में कितने और किन-किन व्यक्तियों को गिरफ्तार किया गया ?

रेल मंत्रालय में उपमन्त्री (श्री मुहम्मद अज़ीज़ कुरैशी) : इस मामले के सम्बन्ध में निम्नलिखित आठ व्यक्तियों को गिरफ्तार

किया गया

- 1 श्री बालकिशन उर्फ बाबू सुपुत्र श्री हरपाल, थाना मुरादनगर ।
- 2 श्री जंगमोहन सिंह सुपुत्र हरबंस सिंह, थाना मुरादनगर ।
- 3 श्री चन्दर सुपुत्र श्री बलन्वत, थाना मुरादनगर ।
- 4 श्री राम दास सुपुत्र श्री बुद्ध, थाना मुरादनगर ।
- 5 श्री कंवरपाल सिंह सुपुत्र श्री बनारसी, थाना मुरादनगर ।
- 6 श्री आबू सिंह सुपुत्र श्री भरता, थाना मुरादनगर ।
- 7 श्री शफी उद्दौल्लाह शफिया सुपुत्र श्री हस्तम, थाना मुरादनगर ।
- 8 श्री सतबीर सिंह, सुपुत्र श्री मलूका, थाना मुरादनगर ?

इन्हे मेरठ जेल में पहचान के लिए गवाहों के सामने पेश किया गया था । लेकिन इनमें से किसी को भी पहचाना नहीं जा सका ।

Reorganisation of F.C.I.

6734. PROF. NARAIN CHAND PARASHAR:
SHRI JAGDISH NARAIN MANDAL:

Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) whether Government have decided to reorganise the Fertilizer Corporation of India in near future; and

(b) if so, the main outlines of the proposed reorganisation?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) and (b). Yes, Sir. The details are being worked out.

Facilities to Office Bearers of registered Association/Organisations on Railways

6735. PROF. NARAIN CHAND PARASHAR: Will the Minister of RAILWAYS be pleased to state:

(a) the names of unions of Railwaymen recognised by Government at the (i) National level (ii) Zonal level;

(b) whether there are any other registered organisations which espouse the cause of the Railway employees at these levels, if so the names of these Associations; and

(c) whether any facilities are provided to the office bearers of these Associations by Government to carry on the activities of their Associations and if so, the broad outlines of these facilities?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) and (c). Necessary information is given in the attached statement.

(b) There are, in addition, about 80 unrecognized Associations/Unions on the Railways. These Associations/Unions do not enjoy any negotiating facilities. Government have no precise information as to how many of them are registered.

STATEMENT

Names of Unions and Federations of Railwaymen recognised by the Government.

(1) Federations—National level

- (i) All India Railwaymen's Federation.
- (ii) National Federation of Indian Railwaymen.

(2) Unions—Zonal level.

(a) Recognised Unions affiliated to National Federation of Indian Railwaymen:

- (i) Central Railway Mazdoor Sangh.
- (ii) Eastern Railwaymen's Congress.
- (iii) Uttariya Railway Mazdoor Union.
- (iv) North Eastern Railway Employees Union (P.R.K.S.).
- (v) Northeast Frontier Railway Employees Union.
- (vi) Southern Railway Employees Sangh.
- (vii) South Central Railway Employees' Sangh.
- (viii) South Eastern Railwaymen's Congress.
- (ix) Western Railway Mazdoor Sangh.

(b) Recognised Unions affiliated to All India Railwaymen's Federation:

- (i) National Railway Mazdoor Union.

- (ii) Eastern Railwaymen's Union.
- (iii) Northern Railwaymen's Union.
- (iv) North Eastern Railway Mazdoor Union.
- (v) Northeast Frontier Railway Mazdoor Union.
- (vi) Southern Railway Mazdoor Union.
- (vii) South Central Railway Mazdoor Union.
- (viii) South Eastern Railwaymen's Union.
- (ix) Western Railway Employees' Union.

The main facilities granted to the above mentioned recognised Unions and Federations are:—

1. Free passes and special Casual Leave for Organisational work, organisational meetings and meetings with Railway Administrations.

2. Provision of office accommodation, wherever possible, on payment of rent.

3. Provision of telephones in offices of the Unions/Federations, wherever possible, on payment basis.

4. Permission to hold meetings in Railway premises.

5. Collection of trade union subscriptions near place of work or near place of payment.

6. Accommodation for exhibiting notices.

7. Prior notice to Unions/Federations in case of transfer of their office bearers.

Appointment of Working Group of Officers to Study the working of Foreign dominated Drug Firms

6736. SHRI K. S. CHAVDA: Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) whether a Working Group of officers was appointed to study the working of foreign dominated firms in the drugs industry;

(b) whether the Working Group has completed the study and if so, what are the conclusions of the study group, particularly with regard to the share of foreign firms in the drugs market and the amounts repatriated by them as profits and dividends, year-wise *vis-a-vis* the initial investment of each; and

(c) if not, when the study will be completed?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH):

(a) to (c). Sometime back, it was considered useful to undertake a study in regard to the remittances made by the foreign firms in the drugs field by way of dividends, royalties, etc., as also their export earnings. For this purpose a small group on an informal basis, was set up to study this matter and collect information which would

be of help in considering their applications for grant of industrial licences, collaboration proposals, etc. A statement showing the names of foreign firms, their turnover, remittances and exports in 1970 and 1971 is laid on the Table of the House. [Placed in Library. See No. LT-4782/73.]

Since the above mentioned group was set up, certain policy decisions have also been taken by Government with a view to regulate the activities of all foreign firms, including those in the drugs industry. Such firms as come up with proposals for expansions are required to bring down their foreign equity holding in accordance with the dilution formula approved by Government and/or are required to undertake certain export obligations in relation to the expanded capacity.

Formulation of Drugs Plan

6737. SHRI K. S. CHAVDA:
SHRI BHALJIBHAI PARMAR:

Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) whether Government have laid down any Drugs Plan and if so, the salient features thereof;

(b) what measures are proposed to be taken in the Drugs Plan to see that the share of foreign dominated drugs manufacturers in the market is reduced and that of the Indian sector is correspondingly increased; and

(c) whether Government propose to lay the Drugs Plan on the Table of the House?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) to (c). The Planning

Commission, who are presently engaged in the formulation of the Fifth Plan, have set up a Task Force for the Drugs and Pharmaceuticals industry to assess the present status of the Industry, draw up its Fifth Plan requirements and make recommendations on these and related matters. This Task Force has recently submitted its report to the Commission. Based on the reports of the Task Forces, the Planning Commission will draw up plans for the development of the Drugs and Pharmaceuticals Industry for incorporation in the Fifth Five Year Plan. This draft Plan, after it is adopted by the National Development Council, will be laid on the Table of the House by the Planning Commission.

Opening of Branch Offices of Eastern Railway Co-operative Bank Limited, Calcutta

6738. SHRI RAMAVATAR SHASTRI: Will the Minister of RAILWAYS be pleased to state:

(a) whether there is an Eastern Railway Co-operative Bank Limited with its headquarters at Fairlie Place, Calcutta;

(b) whether this Co-operative Bank in addition to Banking business gives loan to the Shareholder Railway employees;

(c) whether this Bank had opened a Branch Office at Jamalpur to cater for the needs of the employees due to concentration of staff there; and

(d) if so, whether Government intend opening similar Branch Office at Divisional Headquarters of the Railway, where there is concentration of

staff, to save them from unnecessary harassment in running to Headquarters and consequent delay in transaction?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI):
(a) Yes. But, the registered office of the Eastern Railway Employees Co-operative Bank is at No. 17 Netaji Subhas Road, Calcutta-1.

(b) Yes.

(c) Yes.

(d) Co-operative Credit Societies/Banks are autonomous bodies who take their own decisions in the matter of opening branches. However, the Ministry of Railways have issued instructions that such Societies should be encouraged to open branches at Divisional Headquarters and at places where there is a large concentration of Railwaymen.

प्रत्येक विदेशी तेल कम्पनी द्वारा अशोधित किया गया तेल

6739. श्री फूलचन्द वर्मा : क्या पेट्रोलियम और रसायन मंत्री यह बताने की कृपा करेंगे कि :

(क) इन विदेशी तेल कम्पनियों में प्रत्येक कम्पनी द्वारा गत तीन वर्षों के दौरान कितना तेल शोधित किया गया; और

(ख) तेल का यह उत्पादन तेल के कुल उत्पादन का कितना प्रतिशत था ?

पेट्रोलियम और रसायन मंत्रालय में उप-मंत्री (श्री बलबीर सिंह) : (क) गत तीन वर्षों के दौरान शोधित किये गये कच्चे तेल की

मात्रा इस प्रकार है :

('000 मीटरी टन)

कम्पनी का नाम	1970	1971	1972
आरुम आदल			
कंपनी .	490	472	534
बर्मा शैल .	3448	3900	3657
एस्सो .	2350	2768	2523
कोचोन रिफा- इनरोज लि०	1178	1250	1139

(ख) क्रमशः 1970, 1971 तथा 1972 के वर्षों में देश में कुल शोधित कच्चे तेल का यह लगभग 40.4 प्रतिशत 42.8 प्रतिशत तथा 39.8 प्रतिशत है ।

Construction of irrigation projects in Mysore

6740. SHRI D. B. CHANDRA GOWDA: Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) the number of irrigation projects now under construction in the State of Mysore; and

(b) the salient features regarding their irrigation potential?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA):
(a) and (b). There are 6 major and 13 medium irrigation projects under construction in Mysore State. The ultimate irrigation potential and the potential so far created from these projects is given in the attached statement.

STATEMENT

Project	Ultimate Irrigation potential	Potential created by 1972-73 ^{est} (anticipated)
<i>Major :</i>		
	(In thousand hectares)	
1. Bhadra Reservoir	99.09	97.20
2. Ghataprabha Stage-I	74.11	57.51
3. Ghataprabha stage-II	46.57	12.85
4. Malaprabha	206.55	20.25
5. Tungabhadra HLC stage-II	40.50	28.35
6. Upper Krishna	409.05	..

Medium

1. Rajolibanda Diversion	2.38	2.38
2. Hathikoni	2.14	2.14
3. Hagaribommanahalli	2.98	2.98
4. Jambadahalla	2.63	2.63
5. Kanakanala	2.06	2.06
6. Harinalal	0.44	..
7. Gundal	4.05	..
8. Taraka	7.29	..
9. Votahole	5.26	..
10. Sagaradoddakere	0.81	..
11. Lakshmanathirtha	2.84	..
12. Arkavathi	3.04	..
13. Manchanabele	2.83	..

Discontinuance of system of Alarm Chains on Railways

6741. SHRI K. LAKKAPPA:

SHRI P. M. MEHTA:

Will the Minister of RAILWAYS be pleased to state:

(a) whether the system of alarm chains on different Railways was discontinued in 1971; and

(b) if so, to what extent this has helped the purpose for which the system was discontinued?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI):

(a) No. However, the alarm chain apparatus has been blanked off on a limited number of trains except in Ladies and full R.M.S. compartments.

(b) The number of cases of alarm chain pulling came down from 30147 per month in 1970-71 to 24683 per month in 1971-72 and 18997 per month in 1972-73 (upto December, 1972), curtailing thereby loss of time and inconvenience to passengers on this account.

Rent Charged from Trainees of Signal and Telecommunication School, Podanur, Southern Railway

6742. SHRI K. LAKKAPPA: Will the Minister of RAILWAYS be pleased to state:

(a) whether no rent is to be charged from the trainees attending Zonal Railways S & T Training Schools,

(b) whether some rent is charged from trainees attending S & T School, Podanur, Southern Railway and this discrimination is resented by the staff; and

(c) if so, when this anomaly is likely to be removed.

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI):

(a) to (c). Rent is being charged from trainees attending promotion and refresher courses in training schools on the Southern Railway and that portion of Southern Railway which now forms part of South Central Railway. The question of bringing them at par with trainees in training schools on other Railways where no rent is being charged is under consideration.

Posts of M.S.M. Grade Rs. 175—240 on AH Divisions of Zonal Railways

6743. SHRI K. LAKKAPPA: Will the Minister of RAILWAYS be pleased to state:

(a) the number of posts of M.S.M. grade Rs. 175—240 yet to be provided Division-wise on all zonal Railways in terms of Railway Board letter No. Pc-68/FE-2/4 dated 9th November, 1971; and

(b) when the implementation of the instructions contained in the above quoted letter is likely to be completed?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI):

(a) 13 posts in Lucknow Division of Northern Railway, 4 in Madras and 1 in Madurai Divisions of Southern Railway and 10 in Baroda Division of Western Railway are yet to be provided in scale Rs. 175—240.

On all the remaining Divisions of the above three Railways and on Central, North Eastern and Northeast Frontier Railways, requirements as necessary have already been provided in scale Rs. 175—240.

Information in respect of Eastern, South Central and South Eastern Railways is under collection and will be laid on the Table of the Sabha.

(b) The posts on Northern, Southern and Western Railways mentioned in the reply to part (a) above are likely to be sanctioned in about six months' time.

**Report of Expert Committee on the
Legal aid to Poor**

6744. SHRI K. LAKKAPPA:

SHRI P. M. MEHTA:

Will the Minister of LAW, JUSTICE AND COMPANY AFFAIRS be pleased to state:

(a) whether Expert Committee on Legal aid to the poor has submitted its report;

(b) if so, whether any legislative measures are being introduced in the present session; and

(c) what are the main features of the proposed scheme?

THE MINISTER OF STATE IN THE MINISTRY OF LAW, JUSTICE AND COMPANY AFFAIRS (SHRI NITIRAJ SINGH CHAUDHARY): (a) No, Sir,

(b) and (c). Do not arise.

Absorption of staff of former Howrah-Amta and Howrah-Sheakhala Light Railways

6745. SHRI INDRAJIT GUPTA: Will the Minister of RAILWAYS be pleased to state:

(a) whether on 16th December, 1970 the then Railway Minister had given a written assurance to the staff of the Martin Light Railways that they would be absorbed on the Indian Railways;

(b) whether it was also assured that those previously employed on Howrah-Amta and Howrah-Sheakhala lines would be absorbed in the Eastern and South Eastern Railways;

(c) if so, the reasons for posting about 80 such clerical staff in zones other than Eastern Railway and South Eastern Railway; and

(d) whether their prayer for transfer to the Metropolitan Transport Project in Calcutta is under consideration?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI):

(a) to (d). It was decided on 16-12-1970 that the staff belonging to Howrah-Amta and Howrah-Sheakhala Light Railways should be appointed on the Eastern and South Eastern Railways. On the Eastern and South Eastern Railways there were certain difficulties to appoint the light Railways staff because of the opposition of the recognised unions and of casual labour awaiting appointment to regular posts. On re-consideration it was decided that the staff concerned be appointed on Railways, other than Eastern, South Eastern and Northeast Frontier Railways.

Instructions exist that individual requests from such staff may be considered favourably in the Metropolitan Transport Project, Calcutta.

Representation from Guards, Delhi Division (Northern Railway)

6746. SHRI ISHAQUE SAMBHALI: Will the Minister of RAILWAYS be pleased to state:

(a) whether arrear of payment w.e.f. 2-2-1966 has been allowed to staff while stepping up senior men at par with juniors vide Railway Board's letter No. PC-60/PP-1 dated 22-7-1966;

(b) whether the Board's letter dated 22-7-1966 was challenged in Punjab and Haryana High Court by Guards of Ferozepur Division (Northern Railway) vide Civil Writ No. 465 of 1966 claiming arrears of benefit of stepping up w.e.f. 1-4-1961 and since agreed to by the High Court as per their Judgment dated 3-5-1971;

(c) whether affected Guards of Delhi Division (Northern Railway) also lodged their claim with their Divisional authorities for payment of arrears w.e.f. 1-4-1961 in view of High

Court's judgment as in part (b) above; and

(d) if so, what action has been taken on the representation of Delhi Division Guards for payment of arrears and whether the payment has since been made, if not, reasons therefor?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) to (d). The requisite information is being collected and will be laid on the table of the Sabha.

Power shortage hits public sector units

6747. SHRI C. T. DHANDAPANI:

SHRI RAMSHEKHAR
PRASAD SINGH:

Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) whether the attention of Government has been drawn to the Press Report published in the "Times of India" (New Delhi) dated the 8th March, 1973 under the caption "Power shortage hits public sector units"; and

(b) if so, the reaction of Government thereto?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): (a) Yes, Sir.

(b) It is true that, as reported in the Press, full capacity utilisation of Public Sector units has not been possible due to a variety of reasons including power shortage. Apart from a number of measures already in hand for minimising the power shortage, the power supply authorities have been advised to adopt a system of priorities so as to minimise shortfall of industrial and agricultural output.

Closure of Thermal Plants due to shortage of coal

6748. SHRI DHARAMRAO AFZALPURKAR: Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) whether there are thermal plants which remained closed for non-availability of coal; and

(b) if so, the names of such Thermal Plants and whether in view of the coal shortage Government propose to use R.E.O. and natural gas fuel?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): (a) and (b). Yes, Sir. The following thermal plants had to suffer closures for certain periods due to non-availability of coal.

(i) Nasik	1x140 MW Maharashtra
(ii) Porabundar	1x15 MW Gujarat
(iii) Shahpur	1x5 MW Gujarat
(iv) Balrampur	1x3.4 MW Uttar Pradesh
(v) Alwar	1x2 MW Rajasthan
(vi) Jodhpur	1x2 MW Rajasthan.

Every possible action is being taken jointly with the Department of Mines and Railway Board to maintain the requisite coal supplies but it has not been always possible to meet the increasing requirements of coal supply and transport. There is shortage of R.F.O. and natural gas also. However, it has been decided to continue to operate certain power stations in

Gujarat and Maharashtra on Petroleum fuels for some more months in view of the shortage of coal.

Setting up of a thermal generating station at Vijayawada in Andhra Pradesh

6749. SHRI P. NARASIMHA REDDY: Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) whether Government propose to set up a thermal generating station at Vijayawada in Andhra Pradesh; and

(b) if so, whether Government contemplate initiating advance action to start the work immediately?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): (a) Andhra Pradesh State Electricity Board have submitted a proposal for setting up of a thermal power station at Vijayawada with an initial capacity of 400 MW.

The Scheme has been cleared by the Advisory Committee on Irrigation, Flood Control and Power Projects and is awaiting sanction of the Planning Commission.

(b) Necessary action to acquire land etc. will be taken after the scheme has been sanctioned.

Assistance to Lower Sileru Power Project in Andhra Pradesh

6750. SHRI P. NARASIMHA REDDY: Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) whether the Central Government are aware that if suitable financial assistance is given, the Lower Sileru Power Project in Andhra Pradesh capable of adding 100 MW of firm power can be completed and commissioned during the current year, 1973-74; and

(b) if so, whether Government propose to extend the necessary assistance to enable its completion this year?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): (a) and (b). The first unit of 110 MW of Lower Sileru Project can be advanced by rescheduling of civil works and commissioned in 1974-75. This also requires additional funds being made available for the project over and above normal Plan provisions. Additional funds to the extent of Rs. 2 crores were given to the project in 1972-73 for expediting it. Provision of additional funds in the next two years is also under consideration.

Execution of Sri Sallam Hydro-electric generation Project

6751. SHRI P. NARASIMHA REDDY: Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) how far the execution of Sri Sallam Hydro-electric generation Project is behind schedule; and

(b) whether the Central Government propose to take over its execution as a Central Project to ensure its early completion?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): (a) The Sri Sallam Hydro Electric project was sanctioned by the Planning Commission in 1964 and was scheduled for completion in 1972. Due to paucity of funds and difficulties encountered in the construction of coffer dams and laying of dam foundations in deep river, the completion is delayed by seven to ten years.

(b) No, Sir.

Import of Equipment for Nagarjuna Sagar Power Project in Andhra Pradesh

6752. SHRI P. NARASIMHA Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) whether Government are considering the question of import of generating machinery and equipment for the 'Nagarjuna Sagar' pumped storage power project in Andhra Pradesh involving only a small outlay; and

(b) if not, the alternative arrangements proposed to enable early completion of this highly economical and quick maturing scheme?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): (a) and (b). The proposal for the import of generating plant and equipment for the Nagarjuna Sagar pumped Storage Scheme with an installed capacity of 2×50 MW has been deferred, pending examination, in detail, of the financial repercussions which the implementation of this scheme would have on the completion of two important schemes already in hand, namely, Lower Sileru Hydel Project and Kothagudam thermal power project in Andhra Pradesh. It has, however, been decided that M/s. BHIL should enter into negotiations with Czechoslovak manufacturer for the acquisition of the necessary technology so that such type of units could be manufactured by them after initial imports to the extent unavoidable.

Electrification of Sabarmati-Gandhinagar Railway Line

6753. SHRI D. P. JADEJA: Will the Minister of RAILWAYS be pleased to state:

(a) whether the Gujarat Government have requested the Central Government for electrification of Sabarmati-Gandhinagar Broad Gauge line; and

(b) if so, the reaction of Government thereto?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI):

(a) Yes.

(b) The question of electrification of Sabarmati-Gandhinagar section has been examined and not found viable at present.

Complaints regarding Lack of Water, Electricity and Cleanliness in Trains

6754. SHRIMATI SAVITRI SHYAM: Will the Minister of RAILWAYS be pleased to state:

(a) whether lack of proper inspection of bogies at starting points of trains has given rise to complaints regarding lack of water, electricity and cleanliness in local trains and intermediate trains in the country; and

(b) if so, the arrangements being made by Government at the starting points of these trains and to improve the existing inspection arrangement?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) and (b). Railways are maintaining "Opinion Books" at major rake maintaining stations and these have revealed that by and large the position regarding supply of water, cleanliness and provisions of fittings is satisfactory. There have been very few complaints with regard to the condition of the coaches at originating stations. A proper system of maintenance of coaches has been laid down and the local Supervisory staff are given guidance. The instructions regarding maintenance of coaches and cleanliness and upkeep of all fittings apply to all long distance, intermediate as well as local trains. Periodical drives are arranged to ensure that all amenity fittings and electrical fittings are provided in coaching stock and water is filled. Surprise checks of

the passenger rakes by the supervisors, inspecting officers and officers are being done at the starting stations to ensure proper condition of the passenger coaches. Opinion Books had been introduced at starting stations specifically to get the passengers to record their impressions and opinions with regard to cleanliness of the coach, availability of water and the condition of the electric fittings etc.

Loss suffered by Railways due to Competition between Road and Railway Traffic

6755. SHRIMATI SAVITRI SHYAM: Will the Minister of RAILWAYS be pleased to state:

(a) whether high rated traffic is carried by road and only low rated traffic is diverted to the railways;

(b) Principal measures adopted by be adopted by Railways to attract more and more traffic in competition with road traffic; and

(c) the extent of loss suffered by the Railways as a result thereof during the last three years?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) No.

(b) Principal measures adopted by Railways to attract more traffic are:

- (i) Liaison with trade and industry,
- (ii) introduction of container services,
- (iii) introduction of freight forwarder services,
- (iv) exemption of high rated commodities classified at class .60 and above from operating restrictions normally,

(v) running of super express goods trains to time schedules,

(vi) introduction of Quick Transit Services,

(vii) Street collection and Delivery Services and Mobile Booking services."

(c) It is not possible to assess the loss, if any, as distribution of available traffic between rail and road is a constantly varying factor in respect of all commodities.

Implementation of Barachanka basin Drainage Scheme (West Bengal)

6756. SHRI SAMAR GUHA: Will the Minister of IRRIGATION AND POWER be pleased to refer to the reply given to Unstarred Question No 2064 on the 28th November, 1972 regarding Barachanka Drainage Scheme (West Bengal) and State:

(a) whether Government propose to re-examine the question of finding Rs. 32 lakhs for early implementing the Barachanka Basin Drainage Scheme; and

(b) if so, the outlines of the proposal in this regard?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): (a) and (b). The funds for the implementation of the scheme have to be found by the State Government of West Bengal, as flood control forms part of State Plan. Taking into account the usefulness of early completion of the work in providing protection to the agricultural area which is affected by drainage congestion year after year, it has again been suggested to the State Government of West Bengal recently, to explore the possibility of providing some funds for this scheme by adjustment within the State Plan.

Negotiation about resumption of Railway Communications with Bangladesh

6757. SHRI SAMAR GUHA: Will the Minister of RAILWAYS be pleased to state:

(a) whether Government have undertaken any negotiation with the Government of Bangladesh for inter-linking Railway communications as existed before Indo-Pak war of 1965;

(b) whether Calcutta-Darjeeling, Calcutta-Gauhati, Calcutta-Tripura Railway communication through Bangladesh, as was agreed upon earlier, will be resumed; and

(c) the gist about the negotiations on the resumption of mutually agreed Railway communications between India and Bangladesh?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Railway links with Bangladesh were established in January, 1972 by linking track on the metre gauge at Radhikapur, Gitaldah and Mahishasan, and at Petropol and Gede on the broad gauge system between Indian and Bangladesh Railways. In consultation with the Bangladesh Railways, a new broad gauge link has also been established between Malda on the Indian Railways and Amnura on the Bangladesh Railways with effect from 31-3-1973. The broad gauge link at Haldibari between Indian and Bangladesh Railways, as existed prior to 1965, has, however, not been established.

(b) There is no intention at present to connect Calcutta with Darjeeling, Calcutta with Gauhati and Calcutta with Tripura by rail through Bangladesh.

(c) An agreement for interchange of goods traffic has already been signed between Indian and Bangladesh Railways. This agreement briefly

describes the commercial procedures to be followed in the booking of traffic, hire charges to be paid by Bangladesh and Indian Railways on wagons held in excess of targets laid down and also includes the utilisation of locomotives of each country in the territory of the other country.

Report of study of Transit System for Madras

6758. SHRI M. M. JOSEPH: Will the Minister of RAILWAYS be pleased to state:

(a) whether the study of the Transit system for Madras has since been completed; and

(b) if so, the gist thereof and the time by which it is likely to be implemented?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Not yet, but a report is expected to be finalised soon.

(b) Does not arise.

Setting up of Petro-chemical Complex at Haldia

6759. SHRI MUKHTIAR SINGH MALIK: Will the Minister of PETROLEUM AND CHEMICALS be pleased to refer to the reply given to Unstarred Question No. 177 on the 20th February, 1973 regarding expansion of Haldia Refinery and setting up petro-chemical complex and state:

(a) whether Government have since considered the matter of setting up of petro-chemical complex at Haldia; and

(b) if so, the outcomes thereof and if not, by when the decision would be taken?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) and (b). The question

of setting up of a petrochemical complex at Haldia will be considered after final decisions on the proposals made on Reports of the Task Force on Petro-chemicals and Oil Refining are taken.

Raising of Minimum Age of Marriage

6760. SHRI BIRENDER SINGH RAO: Will the Minister of LAW, JUSTICE AND COMPANY AFFAIRS be pleased to state:

(a) whether the proposal under consideration of Government to raise the minimum age of marriage has since been finalised; and

(b) if so, the main features thereof?

THE MINISTER OF STATE IN THE MINISTRY OF LAW, JUSTICE AND COMPANY AFFAIRS (SHRI NITIRAJ SINGH CHAUDHARY): (a) The matter is still under consideration.

(b) Does not arise.

Target of Fertilizers Production during Fifth Plan

6761. SHRI M SANJEEVI RAO: Will the Minister of PETROLEUM AND CHEMICALS be pleased to state the target of production of Fertilizers during the Fifth Plan period?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): The Approach Document for the Fifth Plan, while projecting an output estimate of 39.12 lakh tonnes of nitrogen and 11.75 lakh tonnes of P2 O5 by 1978-79, recognises the need for higher production to obviate substantial imports from the balance of payments angle. Fertilizer consumption is presently assessed by the Ministry of Agriculture at 52 lakh tonnes of nitrogen and 22 lakh tonnes of P2 O5 by 1978-79 and the is to develop sufficient capacity well in time to reach near self-sufficiency by the end of the Fifth Plan.

Detailed cost of West Coast Railway from Apta to Mangalore

6762. SHRI SHANKARRAO SAVANT: Will the Minister of RAILWAYS be pleased to state:

(a) what is the exact cost of the West Coast Railway Project from Apta to Mangalore including rolling stock and hospital and excluding rolling stock and hospital;

(b) whether the project has been cleared by the Railway Board, the Planning Commission and the Finance Ministry; and

(c) when the work of bridging and tunnelling on the line is likely to commence?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) A statement has been made by the Minister for Railways in the Lok Sabha on 5-4-1973 indicating the correct position regarding the cost of this project.

(b) and (c). The project is under active consideration. Meanwhile earthwork in the Apta-Dasgaon section (108 km.) has been taken up as drought relief and necessary urgency certificate has already been sanctioned. In the remaining portion of the Dasgaon-Mangalore Section about 800 km., a detailed Engineering Survey is being taken up. Planning Commission has been requested for additional allotment of funds in the Fifth Plan for developmental lines including the West Coast Railway Project.

Declaration of Strikes as "Illegal"

6763. SHRI S. C. SAMANTA: Will the Minister of RAILWAYS be pleased to state:

(a) whether the Railway services in the country are considered essential and if so, what are the reasons that

strikes in the undertaking are not declared illegal; and

(b) the steps being taken to see that the Railways do not suffer loss and irregularity in service due to strikes?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) and (b). According to Section 2 (n) of the Industrial Disputes Act, 1947, Railways constitute a "Public Utility Service". A strike on Railways is illegal if it violates the provisions of Sections 22 to 24 of the said Act. A strike can be banned by invoking Rule 118 of the Defence of India Rules, 1971.

Inter-connected Companies

6764. SHRI JYOTIRMOY BOSU: Will the Minister of LAW, JUSTICE AND COMPANY AFFAIRS be pleased to state:

(a) whether as per Monopolies and Restrictive Trade Practices Act's definition of inter-connected companies, there are some 1,500 companies with assets of over Rs. 4,000 crore belonging to 48 large houses each with assets of Rs. 20 crore and over;

(b) if so, whether less than 4,000 companies with assets of about Rs. 1,000 crore have been registered with the Monopolies and Restrictive Trade Practices Commission;

(c) whether only 29 companies belonging to the Birla group have been registered with the Monopolies and Restrictive Trade Practices Commission; and

(d) if so, the factors responsible for the same?

THE MINISTER OF STATE IN THE MINISTRY OF LAW, JUSTICE AND COMPANY AFFAIRS (SHRI D. R. CHAVAN): (a) to (d). The expression "inter-connected undertakings" is defined in clause (g) of section 2 of the MRTP Act. Part A of Chapter III of the MRTP Act applies as provided for in Section 20

of the Act to (a) an undertaking, if the total value of (i) its own assets or (ii) its own assets together with the assets of its inter-connected and undertakings is not less than Rs. 20 crores and (b) a dominant undertaking the value of whose assets or the sum total of the value of the assets of all its inter-connected undertakings is not less than Rs. 1 crore. Every undertaking within the purview of Section 20 of the Act is legally obliged to register with the Central Government under Section 26 of the Act. In accordance with these provisions, 902 undertakings have registered themselves with the Central Government so far and of these, the registration of 59 undertakings has since been cancelled under sub-section (3) of Section 26 as they ceased to be within the ambit of Part A of Chapter III. The sub-total of the value of assets of the undertakings which stand registered at present is approximately 4,800 crores. The number of undertakings known to belong to the Birla group of companies which have registered themselves under section 26 is 44 having assets of approximately Rs. 450 crores.

Crimes on Railways during last three years

6765. SHRI JYOTIRMOY BOSU: SHRI HUKAM CHAND KACHWAI:

Will the Minister of RAILWAYS be pleased to state:

(a) the total number of crimes of each type committed on Railways, Zone-wise and year-wise during the last three years;

(b) what steps, if any, had been taken by Government to prevent these crimes; and

(c) outcome of the steps taken by Government?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) to (c). A statement is attached.

(b) The following preventive steps are being taken to check such crimes:—

- (i) To the extent possible, Government Railway Police escorts are provided on all important night passenger trains to ensure safety of passengers in the affected areas.
- (ii) Surprise checks/supervision of escort duties has been further intensified.
- (iii) Train escorts found negligent in their duties are punished suitably.
- (iv) Railway Protection Force staff have been directed to extend active cooperation to Government Railway Police and Civil Police in tracking down criminals responsible for such incidents on the Railways.
- (v) Close liaison is maintained with the Government Railway Police and Civil Police to keep strict surveillance over bad characters operating in the affected sections and frequent raids are organised by the Police for the arrest of wanted criminals.
- (vi) Periodical meeting, at all levels are held by the RPF Officials with the Government Railway Police and Civil Police officials with a view to ensure better coordination and effective prevention and detention of crime.
- (vii) Railways on their part, are, however, vitally concerned with the safety of passengers and goods and have been taking all necessary steps by way of.
- (1) Bringing to the notice of the State Government and Ministry of Home Affairs, wherever considered

necessary all such occurrences for suitable preventive action and holding coordination meetings with State Police, at all levels.

- (2) Bringing up this subject in the periodical Inspectors-General's Conference.
- (3) Providing safety devices in carriages and improving security measures.
- (viii) Concerned at the growing incidence of heinous crimes in running trains and railway premises in the Eastern States of U.P., Bihar West Bengal, Orissa and Assam, the Minister of Railways convened a meeting of Home Ministers and Inspectors General of Police of these States in New Delhi on 21-3-1973 to take effective steps to check the cases of heinous crime. As a result of this meeting, a working group consisting of senior officers of the Central and State Governments has been formed to thoroughly examine the various suggestions made at the meeting, effectively tackle the problem and to report to the Minister of Railways as early as possible.

(c). There has been reduction in the incidence of Murder and Robberies during 1972.

New Broad Gauge Track from Krishnagore to Berhampur via Karimpur (Eastern Railway)

6766. SHRI SAROJ MUKHERJEE: Will the Minister of RAILWAYS be pleased to state:

(a) whether the Ministry contemplates to erect new Railway line in broad gauge track to connect Krishnagore with Berhampur via Karimpur in Eastern Railway;

(b) whether the local people in that area have been representing for this new line again and again for a long time; and

(c) whether this new project of setting up Railway line will augment trade and commerce in this border area adjoining Bangladesh and improve Railway revenue in the long run?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) No.

(b). Yes.

(c) No investigation has been made for the proposed rail link. As such it is not possible to indicate whether the proposed rail link will augment trade and commerce in the area.

Authorised Scales of Pay for Gangmen under P.W.I., Khurda Road Division (South Eastern Railway)

6767. SHRI ARJUN SETHI: Will the Minister of RAILWAYS be pleased to state:

(a) whether there are gangmen working under P.W.I. Khurda Road Division for the past ten years, whose authorised scale of pay is equivalent to Class IV staff, are still being treated as Casual Labourers;

(b) if so, the reasons therefor; and

(c) whether in Kharagpur Division of South Eastern Railway, the position is quite contrary?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) to (c). On Khurda Road Division as well as Kharagpur Division of the South Eastern Railway, casual labourers are engaged to execute various seasonal works relating to track according to requirements. When continued for more than six months, they are to be given regular scales of

pay. About 1,500 permanent posts of gangmen have been created during the last 10 years in Khurda Road Division according to the requirements of track maintenance. The position is reviewed from time to time. An examination of the requirements is in progress at present.

Cases of Alarm Chain Pulling in 45 Up Howrah Hyderabad Express

6768. SHRI ARJUN SETHI: Will the Minister of RAILWAYS be pleased to refer to the reply given to Unstarred Question No. 3183 on the 13th March, 1973 and state:

(a) out of 248 cases of alarm chain pulling during December, 1972 over Balasore-Bhadrak Stations how many cases were lawful and how many cases were unlawful; and

(b) what action was taken against unlawful chain pullings and if no action was taken, the reasons therefor?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) All the cases were unlawful.

(b) No action could be taken because none of the chain pullers could be detected.

Installation of Power Generating sets of Unit Ratings

6769. SHRI D. D. DESAI: Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) the number and the capacities of power generating sets of unit ratings exceeding 15 MW installed in the country since 1956;

(b) their present output in units as related to their original rated outputs; and

(c) the number and capacities of the units working at below 50 per

cent rating as well as out of commission?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): (a) The number of generating units of capacity 15 MW and above installed in the country from 1956 upto March 1972 is as per Statement I laid on the Table of the House. [Placed in Library. See No. LT-4783/73.]

(b) The hydro units are yielding energy corresponding to the full quantum of potential based on water availability. Most of the thermal units have the same output as their original rating. Some of the units which have been derated are given in Statement II laid on the Table of the House [Placed in Library. See No. LT-4783/73.]

(c) No units are working below 50 per cent rating. Units taken out for capital maintenance are given in Statement III, laid on the Table of the House. [Placed in Library. See No. LT-4783/73].

Completion of doubling of Railway tracks near Delhi during 1973-74

6770. SHRI SHASHI BHUSHAN: Will the Minister of RAILWAYS be pleased to state:

(a) the names and number of tracks near Delhi which are being doubled in view of the heavy traffic; and

(b) when the doubling work on these tracks and the plans for doubling Railway track near Delhi during the year 1973-74 are likely to be completed?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) and (b). The work on the doubling of 59.63 km between Shakurbasti and Rohtak is in progress. Of this the portion between Shakurbasti and Bahadurgarh has been completed and the balance is expected to be completed by March 1974. The doubling between Ghaziabad and Muradnagar

Exploration of mineral oil with foreign collaboration

6771. SHRI SHASHI BHUSHAN: Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) whether Government have decided in principle to seek foreign collaboration in respect of exploration of mineral oil; and

(b) whether some agreements have since been reached with any country and if so, the terms and conditions of the agreements and the names of those foreign countries with which such collaboration is being sought?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) It is proposed to consider collaboration with interested foreign parties for oil prospecting in a few off-shore areas on the basis of 'General Contractor Type' of arrangement.

(b) No, Sir. It is not in the public interest at this stage to disclose the names of the Companies who have expressed interest in the matter.

सिचाई और विद्युत मंत्रालय द्वारा विदेश भेजा गया प्रतिनिधिमंडल

6772. श्री मूलचन्द डांगा : क्या सिचाई और विद्युत मंत्री यह बताने की कृपा करेंगे कि:

(क) वर्ष 1971 और 1972 में उनके मंत्रालय द्वारा विदेश देशों में अपने प्रतिनिधिमंडल भेजे गए ;

(ख) इन प्रतिनिधिमंडलों में शामिल व्यक्तियों के नाम क्या हैं और उन्हें किस-किस उद्देश्य से बाहर भेजा गया; और

(ग) प्रत्येक वर्ष उन पर कितना व्यय किया गया ?

सिंघाई और विद्युत मंत्रालय में
उपमंत्री (श्री बालगोविन्द वर्मा) :

(क) से (ग). अपेक्षित जानकारी का
विवरण सभा पटल पर रखा है। [ग्रन्थालय
में रखा गया। देखिये संख्या LT-4784/
73]

वर्ष 1972 में आयात की गई औषधियां तथा
इस विषय में आत्मनिर्भरता प्राप्त करना

6773. श्री मूलचन्द डागा : क्या
पेट्रोलियम और रसायन मंत्री यह बताने
की कृपा करेंगे कि:

(क) वर्ष 1972-73 में कौन-कौन
सी औषधियों का आयात किया गया तथा
उनका मूल्य क्या है; और

(ख) देश औषधियों के मामले में
कब तक आत्मनिर्भर हो जायेगा ?

पेट्रोलियम और रसायन मंत्रालय में उपमंत्री
(श्री बलबीर सिंह) : (क) वर्ष 1972-73
के लिये औषधियों के आयात आंकड़े अभी
उपलब्ध नहीं हैं ?

(ख) औषधि और भेषज उद्योग,
में, जो कि तकनालोजी पर बहुत अधिक
आधारित है, किसी भी देश के लिये आत्म-
निर्भर होना अत्यधिक कठिन है, विशेषतः
उपयोग होने वाले उत्पादों की विभिन्नता
के कारण। इसके अतिरिक्त विदेशों में समय
समय पर निरन्तर विकास और अनुसंधान
द्वारा नई नई और अधिक प्रभावशाली
औषधियों का विकास हो रहा है, जिनके
देश में विकास और उत्पादन में काफी समय
लगता है। परन्तु स्थानीय औषधि उद्योग
के विकास और हमारी बढ़ती हुई आवश्यक-
ताओं को पूरा करने और आयात पर निर्भरता
को अधिकतम संभव मात्रा तक कम करने
के लिये औषधि उत्पादन के लिये अनुसंधान
के प्रयत्न किये जा रहे हैं।

औषधियों के मूल्यों में हुई वृद्धि की प्रतिशतता

6774. श्री मूलचन्द डागा : क्या
पेट्रोलियम और रसायन मंत्री यह बताने की
कृपा करेंगे कि, औषधियों के मूल्य में वर्ष
1961 की तुलना में कितने प्रतिशत की
वृद्धि हुई है ?

पेट्रोलियम और रसायन मंत्रालय में उपमंत्री
(श्री बलबीर सिंह) : 1961-62
से लेकर 1972-73 तक औषधियों
एवं भेषजों के सूचकांकों ने सभी
पदार्थों के लिए 107.1 प्रतिशत की (वृद्धि
की) तुलना में औषधियों के मूल्यों में 48.7
प्रतिशत की वृद्धि दर्शायी है।

Trains without alarm chains, Zone-wise

6775. SHRI C. K. CHANDRAPAN:
Will the Minister of RAILWAYS be
pleased to state the number of trains
without alarm chains on Indian Rail-
ways, Zone-wise?

THE DEPUTY MINISTER IN THE
MINISTRY OF RAILWAYS (SHRI
MOHD. SHAFI QURESHI): The alarm
chain apparatus has been blanked off
on a limited number of trains exclud-
ing ladies and full R.M.S. compart-
ments. This number varies from time
to time, and at present, the number of
trains on which the alarm chain
apparatus has been blanked off on
each Zonal Railway is as under:—

Railways	No. of partially blanked off trains	
Central	2	
Eastern	191	plus all suburban trains
Northern	168	
North Eastern	204	
Northeast Frontier	12	
Southern	4	
South Central	6	
South Eastern	22	
Western	16	
TOTAL	625	

Bid for consultancy services in laying pipelines on global scale by oil India Limited

6776. SHRI C. K. CHANDRAPPAN: Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) whether Oil India Limited has made a bid for the consultancy services in reservoir engineering and in the designing and laying of petroleum pipelines on a global scale; and

(b) if so, the broad features thereof?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) and (b). No Sir. However, the Engineering Projects (India) Limited (EPIL), a Government of India Undertaking under the Ministry of Heavy Industry, has submitted a bid to the Pertamina of Indonesia for the construction of natural gas compressor stations, transmission pipelines etc. for a gas project in Sumatra; the EPIL has taken the Oil India Ltd. (OIL) as its consultant. So far as reservoir engineering is concerned, the OIL has not yet made any bid for consultancy services on a global basis.

Setting up of New Broad Gauge Shed for Kerala

6777. SHRI C. K. CHANDRAPPAN: Will the Minister of RAILWAYS be pleased to state:

(a) whether the Broad Gauge Shed in Erode is nearing its full capacity; and

(b) if so, when the question of setting up a new Broad Gauge Shed will be considered, and whether that would be set up in Kerala?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) No. Rather 22 diesel locos of South-Central Railway at present homed at Erode will be transferred to South-Central Railway diesel shed at Kazipet. This will release more capacity for South-

ern Railway. Similarly 56 diesel locos of South-Central Railway based at Gooty will also be transferred to diesel shed at Kazipet of South-Central Railway releasing further capacity on Southern Railway.

(b) Question of setting up a new B.G. diesel shed, therefore, does not arise at present.

सिंचाई सुविधाओं के लिए वित्तीय सहायता हेतु मध्य प्रदेश की योजना

6778. श्री धनशाह प्रधान : क्या सिंचाई और विद्युत मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या मध्य प्रदेश सरकार ने जिलेवार सिंचाई सुविधाएं देने हेतु वित्तीय सहायता के लिये केन्द्रीय सरकार को कोई योजना भेजी है ; और

(ख) यदि हां, तो उसके प्रति केन्द्रीय सरकार की क्या प्रतिक्रिया है ?

सिंचाई और विद्युत् मंत्रालय में उपमंत्री (श्री बालगोविन्द वर्मा): (क) जी, नहीं ।

(ख) प्रश्न नहीं उठता ।

Railway line from New Cooch Behar to Golakganj and New Mainaguri to Sitai (Northeast Frontier Railway)

6779. SHRI R. N. BARMAN: Will the Minister of RAILWAYS be pleased to state:

(a) whether his Ministry proposes to construct two new lines (i) from New Cooch Behar to Golakganj over Tufariganj Sub-Division in the District of Cooch Behar and (ii) from new Mainaguri to Sitai &c. from Jalpaiguri to Cooch Behar District;

(b) whether there is tremendous scope to make the lines viable and Profitable; and

(c) if so, the period during which the survey report will be completed?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) No.

(b) *Prima facie* there appears to be little traffic justification for the construction of the suggested rail links.

(c) Does not arise.

Increase in reservation of 1st and IIIrd Class for Calcutta from New Cooch Behar

6780. SHRI B. K. DASCHOWDHURY: Will the Minister of RAILWAYS be pleased to state:

(a) whether rush of passengers has tremendously increased at New Cooch Behar station for the last two years;

(b) if so, whether the number of reserved berths and seats in the 1st Class and IIIrd Class is proposed to be increased to 12 and 32 respectively for Calcutta from New Cooch Behar; and

(c) if not, the reasons therefor?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) No.

(b) and (c). Does not arise as the quota of 4 first class berths and 12 berths and 16 seats in third class already allotted at present to New Cooch Behar station for Calcutta is not fully utilised.

हरयाला के निकट रेलगाड़ी और ट्रक की टक्कर

6781. श्री महादीपक सिंह
क्या रेल मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या 6 मार्च, 1973 के "भारत समाचार पत्र" में प्रकाशित समाचार के अनुसार हरयाला के निकट एक ट्रक और रेलगाड़ी की आपस में टक्कर हो गई थी।

(ख) क्या उक्त रेलगाड़ी मध्य रात्रि तक मुरादाबाद नहीं पहुंची थी और स्टेशन प्राधिकारियों ने इसे लेने से इन्कार कर दिया है और

(ग) यदि हाँ, तो इसके क्या कारण हैं और इस प्रकार हुई क्षति का ब्योरा क्या है और सम्बद्ध व्यक्तियों के विरुद्ध क्या कार्यवाही की गई है ?

रेल मंत्रालय में उपमंत्री (श्री मुहम्मद शफी कुरेशी) : (क) सम्भवतः प्राशम 3-3-1973 को हरयाला और अगवानपुर स्टेशनों के बीच इंजीनयरी समपार फाटक नं० 422-बी पर गाड़ी नं० 2 एम एच और एक ट्रक के बीच हुई टक्कर से है।

(ख) और (ग). गाड़ी नं० 2 एम एच दुर्घटना-स्थल पर 1 घंटा 27 मिनट रुकने के बाद 23 बजकर 10 मिनट पर मुरादाबाद पहुंची।

दुर्घटना केबिनमैन और चौकीदार की गलती तथा ट्रक के ड्राइवर की असावधानी के कारण हुई जिसने पहुंच रही गाड़ी के सामने से समपार को पार करने की कोशिश की थी। यद्यपि दोषी कर्मचारियों के विरुद्ध विभागीय कार्यवाही की जा रही है, मुरादाबाद की सरकारी रेलवे पुलिस ने भारतीय दंड संहिता की धारा 304 और भारतीय रेल अधिनियम की धारा 101 के अन्तर्गत एक मामला दर्ज कर लिया है।

इस दुर्घटना में ट्रक ड्राइवर को मामूली चोट आयी और ट्रक का क्लीनर दुर्घटना-स्थल पर ही मर गया। ट्रक भी क्षतिग्रस्त हो गया।

Investigation into consignments booked Underweight from Delhi Station to Howrah by Parcel Staff, Delhi Station

6782. SHRI MAHADEEPAK SINGH SHAKYA: Will the Minister of RAILWAYS be pleased to refer to the reply given to Unstarred Question No. 2935 on the 6th March, 1973 regarding investigations into consignments booked underweight from Delhi Station to

Howrah by Parcel Staff, Delhi main station and to state:

(a) whether the enquiry report has been examined by the Commercial Department of Northern Railways;

(b) if so, further action taken in the matter;

(c) whether it is also a fact that these consignments of fresh peas and carrots were booked underweight by the Parcel staff with the connivance of merchants; and

(d) if so, reasons for not transferring them out of Delhi to break their contacts with the merchants?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Yes.

(b) Action under Discipline and Appeal Rules is being initiated against the concerned Parcel Clerks.

(c) This will be fully known only after the Discipline & Appeal Rules Enquiry Proceedings become available.

(d) This would be considered on receipt of statements of defence of the Parcel Clerks on whom charge-sheets would be served.

Investment on survey of National Water Grid Scheme

6783. SHRI GIRIDHAR GOMANGO: Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) whether the State Governments have given their opinion before deciding on any investment on the survey of National Water Grid;

(b) if not, whether Government propose to take categorical opinions of different State Governments before launching the survey works; and

(c) if so, the time by which it will be done?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): (a) to (c). Only preliminary office studies have so far been made on the proposals for a National Water Grid. The question of taking up the field surveys and studies is under consideration in consultation with the Planning Commission. Discussions will be held with the States while planning the survey programme and at various stages of such investigations before the concept of a National Water Grid is given a concrete shape.

Godavari Water dispute

6784. SHRI GIRIDHAR GOMANGO: Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) whether Government of Orissa discussed with the Chief Ministers of Maharashtra, Mysore, Andhra Pradesh and Madhya Pradesh at Ahmedabad in the month of October, 1972 the question of withdrawing Orissa's case from the Godavari Water dispute; and

(b) if so, what was the result?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): (a) and (b). The Government of Orissa have intimated that their ExMinister for Irrigation and Power had a programme to discuss the Godavari Water dispute with the concerned Ministers of Maharashtra, Andhra Pradesh, Madhya Pradesh and Mysore State Governments at Ahmedabad in October, 1972. There is no record available with the State Government to show whether a discussion was held.

The State Governments have been recently addressed whether they would like a fresh attempt to be made to settle the Godavari dispute by negotiations, in view of the consideration that its adjudication by a Tribunal may take time.

व्यापारियों और उद्योगपतियों के परामर्श से बाक्स बैगनों में छत लगाना

6785. श्री अम्बेश : क्या रेल मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या सरकार के विचाराधीन ऐसा कोई प्रस्ताव है जिसके अन्तर्गत बाक्स बैगनों में छत लगाने का कार्य किया जायेगा ;

(ख) क्या देश के बड़े व्यापारियों और उद्योगपतियों की इस बारे में सलाह ली गई है ; और

(ग) यदि हां, तो उन व्यापारियों और उद्योगपतियों के नाम क्या हैं और इस बारे में उन्होंने क्या सलाह दी है ?

रेल मंत्रालय में उपमंत्री (श्री मुहम्मद शफी कुरेशी) : (क) और (ख) जो हां ।

(ग) शुरू में, सरकारवां छतों वाले बी ओ एक्स माल डिब्बे का एक नमूना बनाया गया था और उसे कलकत्ते में कोयला, इस्पात, खान उद्योगों तथा ग्राम व्यापार के प्रतिनिधियों को दिखाया गया था । उनमें टिस्को, राष्ट्रीय कोयला विकास निगम, हिन्दुस्तान इस्पात धुलाई कारखाने, भारतीय खान संघ, भारतीय कोयला व्यापार संघ, मैसर्स एंड्र एण्ड कम्पनी आदि के प्रतिनिधि शामिल थे । इस माल डिब्बे की मुख्य मुख्य बातें और व्यावहारिक पहलुओं पर उनसे विचार-विमर्श किया गया । उन्होंने यह महसूस किया कि यह अभिकल्प सन्तोषजनक होगा

यद्यपि कुछ साधारण दोष लगाये गये थे धुलाई और सेवा के लिये इसकी क्षमता का पता लगाने के लिये इस प्रकार के माल डिब्बों के परीक्षण करने के सुझाव को उन्होंने मान लिया । तदनुसार, 30 माल डिब्बों का निर्माण किया गया है और नियमित रूप से काम पर लगा कर उन का परीक्षण किया जा रहा है ।

Proposal for manufacture of carriage fans at Rs. 174 each

6786. SHRI AMBESH: Will the Minister of RAILWAYS be pleased to state:

(a) whether his Ministry received any proposal during June, 1971 for manufacturing 100 carriage fans per month at the cost of Rs. 174 if so, the gist thereof?

(b) the reasons why no reply was given to the Chief Electric Engineer and General Manager during the last about two years;

(c) what is the reaction of Government on this proposal; and

(d) whether this proposal will cause considerable savings to Railway?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) No.

(b) to (d). Do not arise.

Cancellation of Trains from and to Bombay owing to staff Trouble on Ratlam Division

6787. SHRI R. K. SINHA: Will the Minister of RAILWAYS be pleased to state:

(a) whether a large number of trains were cancelled from and to Bombay in the month of March, 1973

owing to staff trouble on Ratlam division of Western Railway;

(b) the loss suffered by Government on this account; and

(c) the steps taken to improve the situation?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Only one pair of trains viz., 25 Dn/26 Up AC/Paschim Express was cancelled from and to Bombay for 2 days.

(b) Rs. 1,42,000/- approximately.

(c) The Railway Administration had already initiated action on the demand of the concerned staff. The position was explained to them, who were also assured that action would be finalised at the earliest.

Taking over Kosi and other river Projects

6788. SHRI R. K. SINHA:

SHRI MD. JAMILUR-
RAHMAN:

Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) whether the Centre has studied the plan to take over the Kosi, Gandak and some other river projects in Bihar on which huge public funds have been invested with no commensurate returns; and

(b) if so, the outcome thereof?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): (a) and (b). It is not proposed to take over Kosi, Gandak or any other river project in Bihar for execution by the Central Government. The Government of India will however give every possible assistance to the State Government in ensuring fullest benefits from the River Projects of the state.

Loss incurred by the Departmental Catering at Katihar

6789. SHRI MD. JAMILURRAHMAN:: Will the Minister of RAILWAYS be pleased to state the amount of loss, year-wise, incurred by the Departmental catering unit of Katihar in Northeast Frontier Railway during the last three years?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): The losses incurred by Departmental Catering unit at Katihar during the year 1969-70, 1970-71 and 1971-72 are as follows:

Year	Loss
	Rs.
1969-70	. 20,073.00
1970-71	. 10,469.00
1971-72	. 25,690.00

Conversion of metre gauge Katihar-Jogbani line into broad gauge (North East Frontier Railway)

6790. SHRI MD. JAMILURRAHMAN: Will the Minister of RAILWAYS be pleased to state:

(a) whether there is a proposal for conversion of metre gauge to broad gauge from Katihar to Jogbani, North-East Frontier Railway; and

(b) if so, the gist thereof?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) No.

(b) Does not arise.

Handing over of Pillars of Railway Bridge over River Donk to P.W.D. of Bihar State

6791. SHRI MD. JAMILURRAHMAN: Will the Minister of RAILWAYS be pleased to state:

(a) whether pillars of Railway Bridge over river Donk have been abandoned by N.E.F. Railway and the same are proposed to be handed over to the P.W.D. of Bihar State for a direct link to Pothia (Kishanganj Sub-Division, Purnea);

(b) whether any such demand has been made by the State Government; and

(c) if so, the outlines thereof?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) to (c). A request was received by the North-east Frontier Railway in the year 1971 from the State P.W.D. Chief Engineer for the transfer of the abandoned railway bridge over river Donk. The State P.W.D. was requested by the Railway to furnish a plan showing the extent of land required on the approaches and also to confirm that the waterway of the proposed road bridge will be increased to correspond the waterway of the new railway bridge (3 spans of 100 ft.). The abandoned bridge consists of 3 spans of 60 ft. with two spans of 18' 6". So far, the State Government have not given any reply.

Supply of Electricity to small and marginal farmers in Kosi Canal area

6792. SHRI MD. JAMILURRAHMAN: Will the Minister of IRRIGATION AND POWER be pleased to state the total units of electricity supplied to the small and marginal farmers in the Kosi Canal Command area in the year 1971-72 and 1972-73?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): The total units of electricity supplied to small and marginal farmers in the Kosi Canal Command area in the year 1971-72 are 6.81 lakhs units and during 1972-73 9.66 lakhs units.

Microwave Communication system for Major Operational Centres

6793. SHRI P. GANGADEB:

SHRI P. M. MEHTA:

Will the Minister of RAILWAYS be pleased to state:

(a) whether Government have already commissioned over 5,000 route-kilometres of microwave communication;

(b) if so, what are the areas that will be covered under the scheme; and

(c) to what extent this will be helpful to Government?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Yes.

(b) The areas covered under the Microwave schemes already commissioned are as under:

- (1) Bombay-Lonabala, Bombay-Kalyan and Katni-Jabalpur of Central Railway;
- (2) Delhi - Moradabad-Tundla-Kanpur - Lucknow-Allahabad - Mughalsarai-Varanasi of Northern Railway;
- (3) Gorakhpur-Sonepur - Samastipur-Gorhara-Katihar of North Eastern Railway;
- (4) Madras - Bangalore-Mysore-Guntakal, Madras-Tiruchirappalli - Otavakkot-Madurai and Madras-Gudur of Southern Railway;
- (5) Gudur-Kavali - Vijayawada and Guntakal-Hubbli of South Central Railway;

(6) Chakradharpur - Bondamunda - Bilaspur-Bhilai-Nagpur and Bilaspur-Anuppur-Katni of South Eastern Railway.

(7) Baroda-Ratlam of Western Railway.

(c) The Microwave System of communication will provide "on demand" communication between important centres of railoperation like major Loco Sheds, yards, Inter-change points control offices, Divisional and Zonal Headquarter offices, along with Radio patching of existing open wire control communication.

Reversion of Guards of Khanalampura as Booking Clerks, Delhi Division (Northern Railway)

6794. SHRI BHARAT SINGH CHOWHAN: Will the Minister of RAILWAYS be pleased to state:

(a) whether some guards working at Khanalampura, Delhi Division (Northern Railway) were reverted as Booking Clerks in the month of April, 1972 on charges of embezzlement of Government cash and were posted at Sakhoti Tanda Railway Station;

(b) whether instead of carrying out the orders of transfer they remained on unauthorised absence for 3-4 months from May, 1972;

(c) if so, whether any disciplinary action was taken against them for their failure to follow up the set procedure under extant orders when they were in occupation of Railway quarters; and

(d) if not, the reasons therefor?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Yes. Only one Guard was reverted as a Booking Clerk, after following the disciplinary procedure and posted at Sakhoti Tanda on 26th April, 1972. On appeal, the penalty was reduced to that of withholding of increment for one year with cumulative effect.

(b) to (d). He remained absent on Private Medical Practitioner's certificate from 2nd May, 1972 to 23rd July, 1972. During this period, the reversion order was modified. No disciplinary action for absence, was taken against him but the question as to how the absence should be treated, is under consideration. He was not in occupation of a Railway quarter.

Appointment of Committee to find out the difficulties to Third Class Passengers

6795. SHRI NAWAL KISHORE SHARMA: Will the Minister of RAILWAYS be pleased to state:

(a) whether there is any proposal under the consideration of Government to appoint a high power committee of the persons who travel by Third class in Railways to find out the difficulties faced by the Third class passengers in trains in the country; and

(b) if so, the salient features thereof; and

(c) the steps being taken by Government on the suggestions made by the Third class passengers in the past to remove over-crowding in Third class compartments?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) No.

(b) Does not arise.

(c) Consistent with the availability of requisite resources by way of sectional and terminal capacity, rolling stock etc., continuous efforts are made to introduce new trains, to extend runs of and to augment the loads of existing trains, in order to relieve overcrowding in third class. During the period April to November, 1972, a total of 136 trains involve 7398 additional daily train Kilometres were introduced/extended and the loads of 338 trains were augmented utilising 521 coaches. Second class coaches/compartments are being progressively replaced by third class coaches/compartments. This step will also help to relieve overcrowding in third class.

Shortage of Light Diesel Oil in Rajasthan

6796. SHRI NAWAL KISHORE SHARMA: Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) whether there is an acute shortage of light diesel oil in Rajasthan;

(b) whether the Government of Rajasthan have approached the Central Government for the supply of light diesel oil to meet the demand of the States; and

(c) if so, the quantity of light diesel oil demanded by the State Government and the time by which the supply will be made?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) There have been some shortages of Light Diesel Oil (LDO) in Rajasthan. These shortages were mainly due to unanticipated spurt in the demand of petroleum products in the North West Area and the consequent problems of logistics. There were also some delays in the receipt of imported LDO at Kandla resulting in inadequate availability of the product. To get over the problem of transport, Broad Gauge facilities at Kandla were extended to the oil sidings on a crash basis.

(b) and (c). The State Government informed the Government of India in December, 1972 that their monthly requirement of LDO was of the order of 10,000 Kls. The actual despatches of LDO to Rajasthan during the three months from January to March 1973 compared to the corresponding three months of 1972 are shown below:

Period	(Figures in Kls.)
January—March, 1972	15304
January—March, 1973	23345
Percentage increase	52.5

It may thus be seen that the supplies during the first quarter of this year were 50 per cent more than the supplies made during the corresponding period last year. The actual supplies would have been still more but for the difficulty encountered in positioning the product in Kandla in the early part of March 1973. The product availability has now improved appreciably.

Silting in Rajasthan Canal

6797. SHRI NAWAL KISHORE SHARMA: Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) whether silting is increasing in Rajasthan Canal rapidly;

(b) whether Rajasthan Government are not in a position to get it desilted due to financial and technical difficulties; and

(c) if so, the financial and technical assistance sought by Rajasthan Government and Central Government's reaction thereto?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): (a) to (c). In the absence of full capacity flow, some silting in the head reaches of the Rajasthan Feeder, lying in Punjab had been reported and most of the desilting work has already been completed.

Number of wagons in working order on Western Railway

6798. SHRI NAWAL KISHORE SHARMA: Will the Minister of RAILWAYS be pleased to state:

(a) the total number of wagons in working order and running on lines on the Western Railway;

(b) the number of such wagons detained by the industries during the last three years and the amount of demurrage charged from them;

(c) the steps being taken by Government to minimise such detention to avoid inconvenience to other traders and the number of wagons declared unserviceable on the Western Railway during the last three years; and

(d) the number of wagons which were replaced by the new wagons?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Total number of wagons in working order and running on lines on the Western Railway during the last three financial years was as follows:—

	B.G.	M.G.
1970-71 .	29164	24987
1971-72 .	25212	24132
1972-73 .	3337	24966

(b) Information on the number of wagons detained by Industries during the last three years is being collected and will be laid on the Table of the House. The amount of demurrage collected from Industries was 1969-70: Rs. 2422735.83, 1970-71: Rs. 2405247.04, 1971-72: Rs. 875847.22.

(c) In order to minimise detention to wagons, demurrage rates for all types of wagons have been enhanced with effect from 1st December, 1972. Particularly bad cases are also being taken up with the individual units concerned. The number of wagons declared unserviceable on Western Railway was as follows:—

	B.G.	M.G.
1970-71 .	462.5	466
1971-72 .	413	585
1972-73 (upto end of Feb.)	390.5	443

(d) Number of wagons replaced was as follows:—

	B.G.	M.G.
1970-71 .	19	918
1971-72 .	22	51
1972-73 (upto end of Feb.)	736	144

सब्जी मंडी रेलवे स्टेशन से पुरानी दिल्ली स्टेशन को ले जाये जाने वाले कंश बक्स में धन का कम किया जाना

6799. श्री हुकम चन्द कछवाय : क्या रेल मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या दिसम्बर, 1972 में पुरानी दिल्ली के रेलवे स्टेशन के कंश बक्स से, जो सब्जी मंडी रेलवे स्टेशन से भेजा गया था, गिनती करने पर 7551 रुपये कम पाये गये थे ; और

(ख) सरकार ने इस सम्बन्ध में क्या कार्यवाही की है ?

रेल मंत्रालय में उपमंत्री (श्री मुहम्मद शफी कुरेशी) : (क) जब 20 दिसम्बर, 1972 को माल से हुई आमदनी वाला सब्जी मण्डी स्टेशन का रोकड़ थैला उत्तर रेलवे के रोकड़ कार्यालय में खोला गया, तो उसमें 9,551 रुपये की (न कि 7,551 रुपये की) राशि कम पायी गयी ।

(ख) रुपया बरामद करने के उपाय अब तक असफल रहने के कारण इस मामले को पुलिस के सुपुर्द किया जा रहा है । स्टेशन मास्टर को निलम्बित कर दिया गया है ।

Seniority of directly recruited and Ranker APWIs (Northern Railway)

6800. SHRI JAGANNATHRAO JOSHI: Will the Minister of RAILWAYS be pleased to state:

(a) whether as per Railway Board orders *inter-se* seniority of directly recruited APWIs and Ranker APWIs is to be maintained;

(b) if so, whether *Inter-se* seniority of APWIs is not being maintained by some Divisions of Northern Railway in spite of General Manager, N. Railway letter No. 754-E/118-v(EIIB), dated 28th March, 1973.

(c) whether DS, Moradabad has issued revised seniority list of APWIs as per General Manager, Northern Railway's letter mentioned above; and

(d) if so, whether fresh instructions are proposed to be issued to all Divisions of Northern Railway to maintain *Inter-se* seniority of APWIs as maintained by Moradabad Division and if not, the reasons therefor?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Yes.

(b) *Inter-se* seniority is maintained.

(c) The revised seniority list issued by DS, Moradabad, was not in accordance with the instructions issued by General Manager, Northern Railway and has since been cancelled by D. S., Moradabad.

(d) The question of issue of any further instructions at this stage does not arise.

स्विचिंग तथा दूर संचार विभाग (पूर्वोत्तर रेलवे) के फालतू कर्मचारियों को काम पर लगाना

6801. श्री कमल मिश्र मधुकर :

क्या रेल मंत्री यह बताने को कृपा करेंगे कि :

(क) क्या पूर्वोत्तर के रेलवे सिगनल विभाग के फालतू कर्मचारियों को दो वर्ष 1972 में चतुर्थ श्रेणी में वैकल्पिक कार्य दिया गया था तथा उन्हें यह आश्वासन दिया गया था कि अवसर आने पर उन्हें यह पुनः उपयुक्त श्रेणी में काम दे दिया जायेगा ;

(ख) यदि हा, तो ऐसे कर्मचारियों की संख्या क्या है और उन्हें तथा दिये गये आश्वासन के अनुसार उन में से विज्ञान व्यक्तियों को उपयुक्त श्रेणी में खड़ा लिया गया है ; और

(ग) उन्हें दिये गये आश्वासन के अनुसार सरकार का विचार उन सब कर्मचारियों को कब तक उपयुक्त श्रेणी में काम पर लगाने का है ?

रेल मंत्रालय में उपमंत्री (श्री मुहम्मद शफी कुरेशी) : (क) से (ग). पूर्वोत्तर रेलवे के सिगनल और दूर संचार विभाग के निर्माण स्कंध के कनिष्ठतम 51 कुशल और अर्द्ध-कुशल कर्मचारी, जिन्हें आवश्यकताओं से अधिक होने पर बर्बास्त कर दिया गया था, 70—85 रुपये के ग्रेड के पक्षों पर समाहृत किये गये थे । उपयुक्त कोटि

से फिर से तैनात करने के सम्बन्ध में उन्हें कोई आश्वासन नहीं दिया गया था। परन्तु इस सम्बन्ध में हिदायतें हैं कि फालतू कर्मचारी को निर्धारित भरती सारणी के माध्यम से भरती हुये हों और जिन्हें नौके के ग्रेडों में वैकल्पिक नियुक्ति में संगृहीत किया गया हो, उनको अपनी वरीयता के क्रम के अनुसार भविष्य में होने वाली रिक्तियों पर अपनी मूल कोटियों में समाहित किये जाने के सम्बन्ध में विचार किया जाना चाहिये, परन्तु इतक लिये कोई समय-संज्ञा निर्धारित नहीं की जा सकती। फिर भी, इस 51 में से, 5 भूतपूर्व यांत्रिक सिगनल अनरलकां को मध्य रेलवे में उसी कोटि में संनहित किया गया है।

"Poor Upkeep of Thermal Plants"

6802. SHRI PRABHUDAS PATEL:

SHRI P. A. SAMINATHAN:

Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) whether the attention of Government has been drawn to a press report published in 'Statesman' dated the 12th March, 1973 (Delhi Edition) under the caption "Poor Upkeep of Thermal Plants", and

(b) if so, the reaction of Government thereto?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): (a) and (b). Yes, Sir. Except for a few stations in the Southern and Eastern regions, the performance of thermal power stations in the country has generally been satisfactory. Better quality of coal to thermal power stations in the eastern region where units were getting damaged due to use of inferior quality of coal has been arranged. Repairs to units have been expedited and proper spares

arranged. An experts team has been set up for visiting the power stations and suggesting improvements in operation and maintenance.

Schemes for Manipur Rivers as Flood Control Water Supply and Hydro Electric Projects

6803. SHRI N. TOMBI SINGH: Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) whether Government are considering schemes for damming some Manipur rivers, namely, the Imphal, Iril and the Thonbal at their sources as flood control, water supply and hydro electric project; and

(b) if so, the main features thereof?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): (a) and (b). Proposals for storage dams for multipurpose benefits across the Iril and Thonbal rivers in their upper reaches are under investigation. The main features of the schemes will be clear only after the investigations are over.

Extension of Railhead to Jiribam sub-Division of Manipur

6804. SHRI N. TOMBI SINGH: Will the Minister of RAILWAYS be pleased to state:

(a) whether Government have taken up the survey for extension of a Railhead to the Jiribam Sub-division of Manipur from the nearest Railway station in Cachhar District of Assam;

(b) if so, when such a survey will be completed; and if not, the difficulties thereof;

(c) whether Government are aware that there have been repeated demands for the said extension during the last several years; and

(d) if so, whether Government are considering the matter as a special case?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Preliminary Engineering-cum-Traffic Surveys for the extension of metre gauge line from Silchar to Jirighat are already in progress.

(b) The surveys are likely to be completed by the end of May, 1973.

(c) Yes.

(d) Further consideration will be given after the surveys are completed.

Survey in Manipur for Petroleum and Natural Gas

6805. SHRI N. TOMBI SINGH: Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) whether a survey has been conducted in Manipur to find out the possibility of Petroleum and Natural gas in that region;

(b) if so, the findings thereof and the time taken in the survey; and

(c) whether Government feel the need for further survey?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) and (b). A reconnaissance geological survey of the Manipur Valley and the adjoining hill area had been conducted during the year 1963-64. The data thus gathered had revealed that the exposed rocks in those parts are not of interest for exploration for oil/gas.

(c) No, Sir.

Central Assistance for Nagarjuna Sagar Project in Andhra Pradesh

6806. SHRI ANNASAHAB GOTKHINDE: Will the Minister of IRRIGATION AND POWER be pleased to state the amount of Central assistance, special or otherwise, given for the Nagarjuna Sagar Project in Andhra Pradesh from 1969-70 to 1972-73 year-wise?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): Irrigation is a State subject and funds for the execution of irrigation projects are provided by the State Governments in their development Plans. The Central assistance to State Plans is given in the form of block loans and grants, not related to any individual sector of development or project.

However, a special non plan central assistance of Rs. 1 crore was given for Nagarjunasagar Project in 1969-70, Under the Emergency Agricultural Production Programme of the Ministry of Agriculture, an assistance of Rs. 16 lakhs for improvement of the Nagarjunasagar right canal and Rs. 127.19 lakhs for lift irrigation on Nagarjunasagar left canal was approved in 1972-73.

देश के समस्त तहसील केन्द्रों में किसानों को बिजली की सप्लाई

6807. श्री लालजी भाई : क्या सिंचाई और विद्युत् मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या सरकार ने देश के समस्त तहसील केन्द्रों में किसानों को बिजली देने हेतु कार्यक्रम बनाया है ;

(ख) यदि हां, तो देश में प्रत्येक राज्य को जिलावार तहसीलों के नाम क्या हैं जिनका विद्युतीकरण करने की स्वीकृति दी जा चुकी है ; और

(ग) शेष तहसील केन्द्रों में किसानों को बिजली की सप्लाई कब तक की जायेगी ?

सिंचाई और विद्युत् मंत्रालय में उपमंत्री (श्री बालगोविन्द वर्मा) : (क) ग्राम विद्युतीकरण के लिये कार्यक्रम विभिन्न राज्य सरकारों द्वारा तैयार और कार्यान्वित किये जाते हैं और इसलिये सभी तहसील केन्द्रों तक विद्युत का विस्तार करने के लिये भारत सरकार ने कोई कार्यक्रम अलग से तैयार नहीं किया है ।

(ख) और (ग). प्रश्न नहीं उठता ।

राजस्थान में माल डिब्बों में लदान समय पर न करने के कारण जुर्माने की अदायगी

6808. श्री लालजी भाई : क्या रेल मंत्री यह बताने की कृपा करेंगे कि :

(क) राजस्थान में उन फर्मों की संख्या क्या है जिन्होंने वर्ष 1969-70, 1970-71 और 1971-72 में आवंटित किये गये माल डिब्बों में निर्धारित समय में लदान कार्य पूरा नहीं किया और इस कारण उनसे कितना जुर्माना वसूल किया गया ; और

(ख) उन पर अभी तक कितना जुर्माना बकाया है ?

रेल मंत्रालय में उपमंत्री (श्री मुहम्मद शाफी कुरैशी) : (क) और (ख): क्षेत्रीय रेलों में सूचना इकट्ठी की जा रही है और सभा-घटल पर रख दी जायेगी ।

रिंगस, श्याम खाटूदाता रामगढ़ होकर जयपुर से दिल्ली तक नई रेलवे लाइन

6809. श्री लालजी भाई : क्या रेल मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या रिंगस, श्याम भोसाल, खाटू-दाता रामगढ़, रपड़ लोसम, डिडवाना आदि से होकर जयपुर रेलवे जंक्शन (राजस्थान) से दिल्ली तक 60-70 किलोमीटर लम्बी नई रेलवे लाइन का निर्माण करने सम्बन्धी कोई प्रस्ताव सरकार के विचाराधीन है ; और

(ख) यदि हां, तो तत्सम्बन्धी मुख्य बातें क्या हैं ?

रेल मंत्रालय में उपमंत्री (श्री मुहम्मद शाफी कुरैशी) : (क) जी नहीं ।

(ख) प्रश्न नहीं उठता ।

Complaint against Booking Clerk, Meerut City Station

6810. SHRI LALJI BHAI: Will the Minister of RAILWAYS be pleased to refer to the reply given to Unstarred Question No. 3940 dated the 25th April, 1972 regarding complaint against Booking Clerk, Meerut City Station and state:

(a) whether the investigations have since been completed by the Government Railway Police, Meerut City; and

(b) if so, result thereof?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Yes.

(b) The case is under trial in Court.

Insecurity in Trains due to removal of Alarm Chains

6811. SHRI SHRIKISHAN MODI: Will the Minister of RAILWAYS be pleased to state:

(a) whether Railway passengers have been exposed to insecurity as a result of removal of alarm chains in certain Railways; and

(b) if so, the reaction of Government thereto?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) and (b). Government is aware that blanking off of alarm chain apparatus on trains deprives the passengers of the only means of communication between them and the trains staff on running trains in times of emergency. Despite this, selective blanking off of alarm chain apparatus has had to be introduced as a last resort to check the increasing trend in the misuse of this apparatus which was seriously affecting train operation and causing delays to trains and inconvenience to passengers. The number of such trains is however kept to the minimum and the ladies compartments and full postal vans are not blanked off in any case.

The Government would like to restore the alarm chain apparatus on the trains on which it has been blanked off, as soon as possible. For this purpose, the position is reviewed periodically.

Hardships caused to people in reservation of seats in Mail/Express Trains from Stations other than Starting Points

6812. DR. KARNI SINGH: Will the Minister of RAILWAYS be pleased to state:

(a) whether it has been brought to his notice that as a result of the proposed scheme of reserving all the

seats in certain Mail and Express trains many people living at places which are away from the starting stations would be deprived of train journeys altogether and face great difficulties; and

(b) if so, whether it is proposed to revise the scheme to mitigate the hardship of such people?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Suitable quotas for reservation of accommodation have been earmarked to enable passengers from intermediate stations to avail the trains in which all berths and seats are reserved.

(b) No, as the scheme is intended to prevent overcrowding and to bring much needed relief to the long distance passengers.

Report of Koelkaro Hydel Project

6813. SHRI E. V. VIKHE PATIL: Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) the time by which the Report of the Koelkaro Hydel Project is likely to be ready; and

(b) the approximate cost of the project?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): (a) The project report of the Koel Karo Hydel project is expected to be ready in about 2 months time.

(b) The detailed estimates are presently under preparation. The approximate cost of the Project Stage-I comprising installation of 3 x 120 MW units is estimated at Rs. 53 crores.

Contract for Civil and Fabrication Work given in Haldia Refinery

6814. SHRI E. V. VIKHE PATIL: Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) the names of the contractors who were given the contract for civil and fabrication work in the Haldia Refinery Project and if they are companies or firms, the names of the Managing Directors/partners/proprietors thereof;

(b) the total value of each contract originally given dates of commencement and completion of the works by each contractor;

(c) the additional amount, if any, paid to each contractor under the Escalation Clause together with the year of such payment; and

(d) factors taken into consideration in each case for payment of additional amount?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) to (d). The information is being collected and will be placed on the Table of the House.

Import of Lubricating Oil during last Three Years

6815. SHRI E. V. VIKHE PATIL: Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) the quantity of lubricating oil and the value of such oil imported during the last three years, year-wise;

(b) the names of the companies from which lubricating oil was imported on the basis of competitive tendering; and

(c) the names of companies (together with quantity and value) from

which the oil was imported on the basis of Trade Plan agreements during the said period?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) The import of lubricating oil viz. finished lube and lube base stocks during the last three years is indicated below:

Year	Quantity in '000 tonnes	c.i.f. value Rs. crores
1970	261	18.12
1971	113	8.87
1972	134	9.20

(b) and (c). It is not in the public interest to disclose the names of the companies from which lubricating oil was imported.

Replacement of Rajdhani Express Trains with Third Class Coaches and Janta Express

6816. SHRI E. V. VIKHE PATIL: Will the Minister of RAILWAYS be pleased to state:

(a) whether Rajdhani Express operating between Delhi-Calcutta and New Delhi-Bombay routes are being run at a loss compared to major express trains having Third Class Coaches like Janta Trains;

(b) if so, whether Government are considering the question of replacing these trains by Janta Expresses;

(c) whether a Third Class 3-Tier Sleeper Coach, taking into consideration maintenance cost etc. earns more revenue, than the First Class coach having the same dimensions; and

(d) if so, whether Government propose to replace First Class coaches by Third Class Three-Tier Sleeper Coaches?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) No.

(b) Does not arise.

(c) and (d). The remunerativeness of these two types of coaches varies according to their actual occupation which differs from train to train and section to section. However, if the coaches are fully occupied, the earnings from a first class coach on night service will be slightly less than those from a three-tier third class coach, but over longer distances, a first class coach is more remunerative.

Promotion of Assistant Chemists as Laboratory Superintendent on North Eastern Railway

6817. **SHRI BHOGENDRA JHA:** Will the Minister of RAILWAYS be pleased to state:

(a) whether in the North Eastern Railway some Assistant Chemists had been shouldering full responsibilities of Laboratory Superintendents and receiving full allowances therefor;

(b) whether because of lack of vacancies such Assistant Chemists could not be promoted to the posts of Laboratory Superintendents;

(c) whether vacancies of Laboratory Superintendents have now arisen and if so, whether Assistant Chemists having acted as Laboratory Superintendents are being appointed as such against the vacant posts; and

(d) if not, the reasons therefor?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) One Assistant Chemist performed the duties of Laboratory Superintendent in short leave vacancies in the past in addition to his own duties. He was paid dual charge allowance.

(b) to (d). One post of Laboratory Superintendent has fallen vacant from 20-8-1972. This post is required to be filled through Railway Service Commission. Such of the staff in lower categories who possess the minimum prescribed educational qualifications for the post are eligible to apply; they are also allowed relaxation in age limit upto 45 years.

West Bengals' proposal regarding protection of Farakka Barrage from Erosion of Ganges

6818. **SHRI PRIYA RANJAN DAS MUNSI:** Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) whether the West Bengal Government have submitted an estimate of Rs. 63 crore to protect the adjacent areas of Farakka Barrage and Jangipur from the erosion of Ganges; and

(b) if so, what action has so far been taken by his Ministry to consider the measure suggested by the West Bengal Government and to implement them?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): (a) and (b). The State Government of West Bengal have prepared a scheme for protection against erosion in a length of 51 km between Nainsukh and Lalgola on the right bank of the river Ganga downstream of Farakka Barrage at an estimated cost of Rs. 63 crores. The scheme was received at the centre in the first week of March, 1973, for scrutiny and approval of the Planning Commission. This is a major scheme requiring detailed examination in Central Water and Power Commission and consideration of the Technical Advisory Committee of Planning Commission before it can be approved by the Planning Commission for implementation by the State Government. As

this is likely to take some time and it is necessary to provide protection to some important populated areas such as Dhulian, it has been suggested to the State Government to formulate proposals for protection of most vulnerable areas before the ensuing floods.

Drilling in Bodra Centre of ONGC at Sonarpur (W.B.)

6819. SHRI PRIYA RANJAN DAS MUNSI: Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) whether Government have seen reports that the drilling in the Bodra Centre of O & N.G.C. at Sonarpur (West Bengal) has not been satisfactory; and

(b) if so, whether further efforts are proposed to be made to investigate the reasons therefor and to assess the quantum of Oil after proper drilling?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) and (b). Only one exploratory well, has been drilled in Bodra so far. The well was drilled upto a depth of 4197.5 metres (as against a projected depth of 5000 metres). Further drilling was not possible because of the drill-string getting stuck up at 4197.5 metres. All efforts to remove the stuck-up met with failure. The well did not give any indication of the presence of oil or gas.

Further exploratory drilling in the area has not been taken up, in view of unfavourable results obtained from Bodra Well No. 1. However, the question of further exploratory drilling in this region will be re-examined, if favourable structural indications are obtained by Seismic Surveys in future.

Wireless Operators drawing less pay on Southern Railway

6820. SHRI T. S. LAKSHMANAN: Will the Minister of RAILWAYS be pleased to state:

(a) whether some of the Wireless Operators on the Southern Railway are drawing less pay than their juniors;

(b) whether there was any representation from the aggrieved to clear the anomaly under FR-22C Rule 2018B RI; and

(c) if so, what were the remedial measures taken to render justice to the affected persons?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI):

(a) Yes, one Wireless Operator is drawing less pay than his junior.

(b) Yes, the anomaly was not due to the introduction of FR-22C, Rule 2018-B-RII but was as a result of promotion to the post of Wireless Operator through a different channel of promotion.

(c) Under the extant orders there is no provision for removing such anomalies which are inescapable under the operation of normal rules.

Periodical transfers of Inspectors of Telegraph Traffic (Southern Railway)

6821. SHRI T. S. LAKSHMANAN: Will the Minister of RAILWAYS be pleased to state:

(a) whether the Inspectors of Telegraph Traffic on Southern Railway are in the same Divisions ever since their promotion to that grade; and

(b) if so, the reasons for not effecting their periodical transfers?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI):

(a) Yes.

(b) The orders for periodical transfers (which have also been now revoked) did not apply to the category of Inspector of Telegraph Traffic.

(d) whether there is any proposal under consideration to increase the grants for inter-State projects and if so, the main features thereof?

Location of Inter-State Irrigation and Power Projects

6822. SHRI ANADI CHARAN DAS:

SHRI M. S. SANJEEVI RAO:

Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) the number and location of inter-State irrigation and power projects receiving central grants;

(b) the time by which each one of these projects will be completed;

(c) the results likely to accrue from these projects in the matter of irrigation acreage and power generation; and

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA):

(a) to (d). The outlay needed for irrigation and power projects (with the exception of a few central sector power schemes) is provided in the developmental plans of State Governments. Central assistance to State Plans during the Fourth Plan is in the form of block loans and grants for the State Plans as a whole and is not related to any specific head of development for project and there are no proposals under consideration to change the pattern of central assistance.

Irrigation and power projects taken up as inter-state ventures are listed below:—

Projects and States involved	Expected time of completion	Benefits expected	
		Irrigation (thousand ha.	Power installed capacity M.W.
Gandak Project (Bihar and Uttar Pradesh)	Fifth Plan	1460	..
Mahi Bajajsagar (Gujarat and Rajasthan)	Fifth Plan	30.86	..
Beas Unit I & II (Haryana, Punjab and Rajasthan) . .	Fifth Plan	741.00	900 MW
Chambal Stages I & II (Madhya Pradesh and Rajasthan)	Fifth Plan (Irrigation) Power already completed	560	287 MW
Chambal Stage III (Madhya Pradesh and Rajasthan) . .	1973-75		99 MW
Gurgaon Canal (Haryana and Rajasthan)	Fifth Plan	105.94	
Bagh (Madhya Pradesh & Maharashtra)	Fifth Plan	44.19	
Tungabhadra High Level Canal stage II (Andhra Pradesh & Mysore).	Fifth Plan	96.50	
Bajimala hydro-electric Project (Orissa & Andhra Pradesh).	1974-75		360 MW
Pench Hydel Project (Maharashtra and Madhya Pradesh)	1979-80		160 MW

Joint ventures in the field of drugs, Petro-chemicals and fertilizers between India and Poland

6823. SHRI RAGHUNANDANLAL BHATIA:-

SHRI M. S. SANJEEVI RAO:

Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) whether there is proposal to set up joint ventures in the field of drugs, Petro-chemicals and fertilizers between India and Poland;

(b) if so, the salient features of the joint ventures; and

(c) how the trade between the two countries in the field of drugs, petro-chemicals and fertilizers would be increased consequently?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) Certain ideas have been mooted for setting up joint ventures/collaboration in areas of mutual interest during recent Indo-Polish discussions. No concrete proposal has crystalized as yet.

(b) and (c). Does not arise.

मध्य प्रदेश में ग्रामीण विद्युतीकरण योजनाएं

6824. श्री गंगा चरण दीक्षित : क्या सिचाई और विद्युत् मंत्री यह बताने की कृपा करेंगे कि :

(क) मध्य प्रदेश के उन जिलों के नाम क्या हैं जिनकी ग्रामीण विद्युतीकरण योजनाएँ ग्रामीण विद्युतीकरण निगम के पास अनुमोदनार्थ पड़ी हुई हैं और ये किस तारीख से अतिरिक्त पड़ी हैं ; और

(ख) इन योजनाओं की कब तक मंजूर हो जाने की सम्भावना है ?

सिचाई और विद्युत् मंत्रालय में उपमंत्री (श्री बालगोविन्द वर्मा): (क) और (ख).

ग्राम विद्युतीकरण निगम द्वारा स्वीकृत की गई स्कीमों की संख्या के सम्बन्ध में मध्य प्रदेश का दूसरा स्थान है। निगम ने इस राज्य की 40 ग्राम विद्युतीकरण स्कीमें स्वीकृत की हैं जिनमें 1848.296 लाख रुपये की ऋण सहायता से 1912 गांवों का विद्युतीकरण, 64,55 पम्प सेटों का अर्जन तथा 3,971 लघु तथा कृषि उद्योगों के लिये बिजली सप्लाई करना परिकल्पित है। राजगढ़, पन्ना, बस्तर, छिदवाड़ा, शाहजापुर, रतलाम, भिंड मोरेना, खण्डवा, छतरपुर, झाबुआ, गुना, सिडनी, ग्वालियर, मंडाला, सागर, खरगोन, सतना, बिलासपुर, बालघाट, इन्दौर, दनिया और उज्जैन जिलों से सम्बन्धित मध्य प्रदेश की 20 स्कीमें ग्राम विद्युतीकरण निगम द्वारा विचार करने के लिये प्रकट, 1972 (i) दिसम्बर, 1972 (1), जनवरी, 1973 (8), फरवरी, 1973 (3), और मार्च, 1973 (6) से निलम्बित हैं जिनकी अनुमानित लागत 978.44 लाख रुपये हैं। इसके अतिरिक्त निगम द्वारा नियत मानदण्डों के अनुसार संशोधित करने के लिये 16 स्कीमें मध्य प्रदेश बिजली बोर्ड को लौटा दी गई हैं। निलम्बित स्कीमों की निगम द्वारा निर्धारित मानदण्डों के आधार पर जांच की जा रही है और उन्हें तकनीकी तौर पर व्यवहार्य तथा आर्थिक रूप में उपयोगी पाये जाने पर मध्य प्रदेश तथा अन्य राज्य बिजली बोर्डों की ऐसी स्कीमों के लिये धन की उपलब्धता पर निर्भर करते हुये वित्तीय

सहायता देने के लिये स्वीकृति प्रदान कर दी जायेगी ।

Flood devastation in lower Damodar region

6825. SHRI MANORANJAN HAZRA: Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) whether Government are aware that without the construction of remaining four reservoirs in upper catchment area of the Damodar Valley the flood devastation takes place in lower Damodar region almost every year; and

(b) if so, the steps taken by Government in this regard?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): (a) and (b). The Flood and drainage problem in the Lower Damodar region was recently studied in detail by a Technical Committee appointed by the Government of India. In their report submitted in May, 1972, the Committee have recommended measures for effective control of floods and drainage congestion in the region. The important measures suggested are as follows:—

- (i) The old course of the Damodar (Amta channel) should be closed at its head and the channel used only for drainage of areas on the left of Mundeswari;
- (ii) To prevent Damodar floods water spreading out and to enable the Mundeswari channel to improve with flushing discharges, food embankment should be constructed on both banks of the Mundeswari from Rhondia to Buxi for accommodating a discharge of 8500 cumecs (3 lakh cusecs);

(iii) The carrying capacity of Rupnarayan should be improved by dredging and cutting pilot channels and preventing encroachment into the tidal basins;

(iv) Full design storage as provided in the project reports of Maiton and Panchet dams should be made available for effective moderation of the floods.

The Committee have stated that the need for additional flood storage may be reviewed after some experience of the results accruing from the implementation of the measures as suggested above and also taking into account the economics.

In the light of the recommendations of the Committee, the State Government of West Bengal have prepared a comprehensive scheme for flood control and drainage improvement in the Lower Damodar region estimated to cost Rs. 40 crores. Phase I of the scheme for the improvement of drainage in the Amta basin, costing Rs. 6.8 crores, has been approved for implementation and work is in progress. The other phases of the scheme are now being finalised by the State Government.

Protected workmen on Railways

6826. SHRI ONKAR LAL BERWA: Will the Minister of RAILWAYS be pleased to refer to the reply given to Unstarred Question No. 3197 on the 18th April, 1972 regarding declaration of protected workmen on Railways and state:

(a) whether the provisions of Industrial Disputes Act in regard to the Protected Workmen have been violated by the Railway Administration, while granting protection to the workers of 'Recognised Federations'; and

(b) if so, the reasons therefor?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI):

(a) and (b). Information regarding office-bearers of recognised unions who may have been declared as 'protected workmen' under the Industrial Disputes Act, 1947, is being collected from Railway Administrations and will be laid on the Table of the Sabha.

Directive about Periodical Transfer of Staff

6827. SHRI ONKAR LAL BERWA: Will the Minister of RAILWAYS be pleased to refer to the reply given to Unstarred Question No. 1298 on the 8th August, 1972 regarding Periodical Transfer of Railway employees and state:

(a) whether Railway Board has issued any directives in regard to its decision of accepting the recommendations of A.R.C. regarding periodical transfers;

(b) if so, whether a copy of the directive issued will be laid on the Table of the House; and

(c) if not, the reasons therefor and the time by which the directives will be issued by Government?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI):
(a) Yes.

(b) A copy of the directive is laid on the Table of the House. [Placed in Library. See No. LT-4785/73].

(c) Does not arise.

Procedure to fix responsibility in the event of loss of Tickets from Ticket Tubes

6828. SHRI ONKAR LAL BERWA: Will the Minister of RAILWAYS be pleased to state:

(a) the procedure prescribed to fix up the responsibility in the event of a

ticket found missing from the ticket tube; and

(b) whether any amount is debited to the Booking Clerk in case Passenger Portion of the Blank Paper Ticket is found missing?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) In such cases, an enquiry is made to determine the cause of loss of the ticket and if it is established that the missing ticket was actually sold and there is loss of money to the Railways, the amount of loss is recovered from the railway staff held responsible. Besides, disciplinary action, as may be considered necessary according to the merit of the case, is also taken.

(b) Yes; the same procedure as indicated in reply to part (a) above is followed for debiting the amount.

Recovery from Goods Clerks of Mughalsarai for Shortages Notices from Sealed Goods Vans (Eastern Railways)

6829. SHRI CHANDRIKA PRASAD: Will the Minister of RAILWAYS be pleased to state:

(a) whether huge amounts are being debited to the Goods Clerks who were working at Mughalsarai Station of Eastern Railway for shortages noticed at destination from the sealed goods vans;

(b) if so, the names of the Goods Clerks and the amount debited to each of them during the period from 1970 to 1972;

(c) whether similar debits are also being raised on other Indian Railways; and

(d) if not, the reasons for the discrimination between the staff of Eastern Railway and other Railways?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) No. In cases where responsibility of the staff for loss of goods is fixed, small amounts are recovered from the staff as corrective measure which is termed as minor penalty under the Railway Servants Discipline and Appeal Rules.

(b) The names of the staff held responsible and recoveries made from them during the year 1970, 1971 and 1972 are given below:—

Name of the Staff	Recovery made
1970	Rs.
Shri G. P. Singh Ex. Transshipment Clerk	200
Shri R. B. Lall Transshipment Clerk	50
Shri Parmeshwar Singh Transshipment Clerk	50
1971	
Shri N. R. Miski Transshipment Clerk	100
Shri Manohar Lal Transshipment Clerk	100
Shri Etwari Lal Transshipment Clerk	50
1972	
Shri A. N. Singh Transshipment Clerk	100
Shri D. P. Kesier Transshipment Clerk	59.40
Shri M. H. Mullick Transshipment Clerk	35
Shri N. K. Ojha Transshipment Clerk	150
Shri N. K. Ojha Transshipment Clerk	250
Shri N. K. Ojha Transshipment Clerk	150
Shri S. B. Ram Transshipment Clerk	100
Shri R. N. Ram Transshipment Clerk	160
Shri Surendra Singh Transshipment Clerk	150
Shri Surendra Singh Transshipment Clerk	200
Shri R. B. Singh Transshipment Clerk	150

(c) In case where responsibility of the staff for loss of goods is fixed, similar recoveries are also made by other Zonal Railways under extant rules.

(d) Does not arise.

"Managers of Railways on the War Path"

6830. SHRI VASANT SATHE: Will the Minister of RAILWAYS be pleased to state:

(a) whether attention of Government has been drawn to the news report on p. 1 of *Times of India* dated the 22nd March, 1973 under the heading "Managers of Railways on the War Path"; and

(b) if so, the reaction of Government thereto?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Yes, Sir.

(b) The Federation of Class I Railway Officers' Association and the Indian Railways Class II Officers' Federation have been recognised by Government for ventilation of grievances, if any, of the officers. Government will consider appropriate remedies in the light of such representations as are received and bearing in mind all relevant circumstances.

Shifting of Thermal Power Project from West Bengal to Bihar

6831. SHRI R. N. BARMAN: Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) whether the attention of Government has been drawn to a news item published in the *Ananda Bazar Patrika* dated the 24th March, 1973 regarding shifting of thermal power station from Dalkhola (West Bengal) to Purnea in Bihar; and

(b) if so, the reasons for this decision?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI DALGOVIND VERMA): (a) Yes, Sir. There is no proposal to shift the thermal power station from Dalkhola in West Bengal to Purnea in Bihar.

(b) Does not arise.

Promotion of Clerks Grade I against Leave Vacancies in Accounts Department

6832. SHRI FATEHSINGHRAO GAEKWAD: Will the Minister of RAILWAYS be pleased to state:

(a) whether as a consequence of promotion of senior suitable staff in 25 per cent quota against leave vacancies, in the posts of clerks grade I in the Accounts Department of the Indian Railways, Appendix 2 IREM qualified staff promoted in their own quota from 1st April, 1968 and onwards were reverted on expiry of leave vacancies;

(b) whether the above irregularity has been stopped, and if so, from what date; and

(c) what relief has been given to the Appendix 2 IREM staff reverted in excess of their quota?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) to (c). The information is being collected and will be laid on the table of the Sabha.

Duty Hours of Engine Crews working Ax-Phulra-Sojat Road

6833. SHRI PANNA LAL BARUPAL: Will the Minister of RAILWAYS be pleased to state:

(a) whether Railway Board had issued instructions to relieve the engine crews on completion of 10 hours' duty according to the recommendations of the Railway Accident Inquiry Committee;

(b) whether these instructions are being followed at Ajmer Station in the case of crews working ex-Phulra to Sojat Road; and

(c) if not, the reaction of Government thereto?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) and (b). No. However, instructions were issued in October 1968, in consultation with organised labour, that the overall duty at a stretch of running staff from the time of 'signing on' should not normally exceed 14 hours and they should be entitled to claim relief after 14 hours provided they have given two hours' notice for relief. The hours of overall duty of staff working on the Phulra-Sojat Road Section are also being regulated in accordance with these instructions.

(c) Does not arise.

Reopening of Cases of Promotions to Post of Clerk Grade I, Accounts Department (Western Railway)

6834. DR. KARNI SINGH: Will the Minister of RAILWAYS be pleased to state:

(a) whether cases of promotions to the post of Clerk Grade I from 1-10-1962 have been reopened recently, *vide* Railway Boards letter No. PC-66/PS-5/OS-8, dated the 31st January, 1970 to give benefit of retrospective promotion, fixation of pay and arrears to those unqualified Clerk Grade I in 25 per cent quota who were not eligible for promotion originally;

(b) whether similar cases of unqualified Clerk Grade I had been reopened and they were given promotion from 1st April, 1968 *vide* Railway Boards letter No. E(P&A)I-70/PS-5/OS-26, dated the 4th January, 1971;

(c) whether Railway Board issued a letter No. E(NG)168-PMI/99, dated

the 25th September, 1969 in reply to the representations, dt. 14th November, 1968 of the qualified staff of the Accounts Office of the Railway and had mentioned that the cases already dealt with otherwise need not be reopened; and

(d) if so, the reasons for not reopening of the cases of promotions in leave vacancies of Clerk Grade I w.e.f. 1st April, 1968?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) A doubt had been raised whether the benefit of grant of 4 advance increments with effect from 1-10-62 as recommended by Justice Sankar Saran Ad-hoc Tribunal should be given to such of the unqualified Accounts Clerk Grade II (Rs. 110—180 AS) on promotion as Clerk Grade I who had already passed the written test at the time of crossing Efficiency Bar prior to 1-10-62 but whose service records were reviewed after that date. Since different practices were being followed in this respect on the Railways, a clarification was issued vide Railway Board's letter No. PC 66/PS-5/OS-8, dated 31-1-1970 to all Railway Administrations that benefit of grant of 4 advance increments w.e.f. 1-10-62 should be given to all such Clerks.

(b) Another clarification was issued vide Railway Board's letter dated 4-1-1971 to one Zonal Railway viz., Western Railway that the pay of Clerks Grade I who were promoted as such against vacancies released from quota reserved for direct recruitment of Graduates, as also against "Shadow Posts" may be fixed w.e.f. 1-4-68 by grant of 4 advance increments provided the staff concerned had passed the prescribed written test/Efficiency Bar test prior to 1-4-1968 though their service records were reviewed after 1-4-68.

(c) Yes.

(d) The reopening of past cases would upset the promotions already made. Orders referred to in parts (a) and (b) above are not relevant to this issue.

Divisional System working of trains by Divisional Crews, Ajmer Division (Western Railway)

6835. SHRI PANNA LAL BARUPAL: Will the Minister of RAILWAYS be pleased to state:

(a) whether the Railway Board had issued orders for introducing Divisional System working of trains by Divisional crews and the reasons for doing so; and

(b) whether this system is in operation in Western Railway?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) No.

(b) Does not arise.

Enquiry into affairs of Jiyajee Rao Cotton Mills Ltd., Gwalior

6836. SHRI SHASHI BHUSHAN: Will the Minister of LAW, JUSTICE AND COMPANY AFFAIRS be pleased to state:

(a) whether investigations are being made into the affairs of the Jiyajee Rao Cotton Mills Limited, Gwalior;

(b) if so, the Act under which the investigations into the affairs of the Company have been ordered and the present stage of the investigations;

(c) the names of the Directors of the Mill;

(d) whether this Mill is being allowed expansion of its chemical plant to the tune of Rs. 7.5 crores; and

(e) if so, the reasons therefor?

THE MINISTER OF STATE IN THE MINISTRY OF LAW, JUSTICE AND COMPANY AFFAIRS (SHRI D. R. CHAVAN): (a) and (b). An investigation into the affairs of the Jiyajee Rao Cotton Mills Limited, Gwalior, had been ordered under section 237(b) of the Companies Act, 1956. The company filed a writ petition under article 226 of the Constitution of India, against the order of investigation, in Madhya Pradesh High Court at Jabalpur. The court struck down the investigation order. The Company Law Board has gone in appeal and the case is pending before the Supreme Court.

(c) The names of the Directors of the Company are: Sarvashri Gordhandas Jadavji Ruparel, R. B. Vaishya, K. G. Maheshwari, A. V. Birla, B. K. Jhawar, S. K. Birla and Nawal Kishore Kejriwal.

(d) and (e). The application under section 21 of the M.R.T.P. Act, 1969 for expansion of the Company's chemical plant is under consideration.

Execution of Kallada Irrigation Projects in Kerala

6837. SHRIMATI BHARGAVI THANKAPPAN: Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) whether Government are responsible for defective planning and acceptance of defective tenders for the Kallada Irrigation Projects, which have caused delay in its execution;

(b) if not, the authorities responsible therefor; and

(c) the steps being taken by Government to help the State Government in completing the above project speedily?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): (a) and (b). Irrigation is

a State subject and the execution of the irrigation projects is the responsibility of the State Governments. The Government of Kerala who are in charge of the Kallada project have reported that no defect has been noticed in the planning and acceptance of tenders for Kallada project.

(c) Central assistance to State Plans is in the form of block loans and grants for the Plans as a whole, not related to any specific head of development or project. The question of providing special assistance to selected major irrigation projects in the country, including Kallada project, whose accelerated construction can help to create significant additional irrigation potential in the next three years, is being looked into by the Planning Commission.

Retention of Accounts in Railway Board's Office Drafted from Zonal Railways

6838. SHRI FATEHSINGHRAO GAEKWAD: Will the Minister of RAILWAYS be pleased to state:

(a) whether Accountants in Railway Boards Office are drafted from Zonal Railways on tenure basis, and if so, what is the tenure; and

(b) the number of Accountants drafted from Zonal Railways who are being retained in Board's Office after completion of the tenure?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Yes; normally their tenure extends upto a period of 5 years.

(b) Out of 31 Accountants in the Board's office, 13 Accountants have since completed their tenure. Arrangements are being made to replace them by suitable Accountants on railways, who are willing to accept transfer to the Board's office.

Conversion of Metre Gauge Bhatni-Varanasi and Barabanki-Samastipur lines into Broad Gauge (North-Eastern Railway)

6839. SHRI NARSINGH NARAIN PANDEY: Will the Minister of RAILWAYS be pleased to state:

(a) whether Bhatni-Varanasi Metre-gauge line surveyed long ago has not been given priority for conversion into Broad-gauge, and if so, the reasons therefor;

(b) whether conversion of Barabanki-Samastipur via Muzaffarpur is being delayed for want of funds and staff; and

(c) if so, the reasons therefor?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) The reports of the surveys carried out for this conversion and the economic study have not established any immediate need for the conversion.

(b) and (c). No; work on this conversion project is progressing according to schedule.

Implementation of Recommendations Nos. 582, 584 and 593 of Expert Committee Report on Compensation and Claims

6840. SHRI ONKAR LAL BERWA: SHRI PANNA LAL BARUPAL:

Will the Minister of RAILWAYS be pleased to refer to the reply given to Unstarred Question No. 2728 on the 22nd June, 1971 regarding report of Expert Committee on Compensation and Claims and state:

(a) whether recommendations Nos. 582, 584 and 593 have since been examined;

(b) if so, the decision taken thereon;

(c) whether the decision has been conveyed to the Zonal Railways; and

(d) if so, the broad outlines of the decisions, and if not, the reasons for delay?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) and (b). Recommendations No. 582 and 584 are still under examination. Recommendation No. 593 has two aspects which relate to investigations by the Special Police Establishment and the Vigilance Organisation. Action in respect of investigations by Vigilance has been finalised and that in respect of the Special Police Establishment is under examination.

(c) Decision in respect of investigations by Vigilance referred to in recommendation No. 593 has been conveyed to the Zonal Railways.

(d) As indicated in reply to part (c) of the question, instructions have been issued to the Zonal Railways that in cases involving non-gazetted employees, where the irregularities detected or established by the Vigilance branch, are of a purely departmental nature without any evidence of malafide or ulterior motive or suspicion of the existence of these elements i.e., without a vigilance angle or a potential vigilance angle, the cases should be forwarded by the Vigilance Organisation to the concerned department for final action. Final instructions in respect of irregularities detected by the Special Police Establishment will be issued after the matter, which is still under examination, is decided.

The delay in finalisation of these recommendations is due to the policy issues involved, which have far reaching implications.

Construction of Link Road and Over-Bridge at Retang Railway Station

6841. SHRI CHINTAMANI PANI-GRAHI: Will the Minister of RAILWAYS be pleased to state:

(a) whether Government have received any representation for an approach road to Retang Railway Station under Khurda Road Division of South Eastern Railway and for a foot over-bridge there for the convenience of the passengers; and

(b) whether any steps are being taken in this regard?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Yes.

(b) An approach road to the station on the west side of the Railway Station already exists. However, an approach road on the eastern side of the station building has been demanded in the representation and this can be considered only after the State Government or the local authorities construct a corresponding road beyond the railway land boundary.

As regards foot over-bridge, the same will be processed for inclusion in the future year's Works Programme subject to the availability of funds.

Legal Aid to the Poor in Orissa

6842. SHRI CHINTAMANI PANI-GRAHI: Will the Minister of LAW, JUSTICE AND COMPANY AFFAIRS be pleased to state:

(a) whether the Orissa Government have now implemented the model scheme for free legal aid to the poor; and

(b) the outlines of the model scheme?

THE MINISTER OF STATE IN THE MINISTRY OF LAW, JUSTICE AND COMPANY AFFAIRS (SHRI NITIRAJ SINGH CHAUDHARY): (a) No, Sir.

(b) However, the State Government has formulated a scheme for financial assistance to the Scheduled Tribes and Scheduled Castes in land cases. The outline of the scheme is that persons desirous of aid may apply to the concerned collector in the prescribed form through the concerned welfare officer with a certificate from a gazetted officer or M.L.A. or M.P., to the effect that the applicant is a member of the Scheduled Caste or Scheduled Tribe and the opposite party does not belong to the Scheduled Caste or Scheduled Tribe community. After necessary enquiry, the application will be forwarded to the District Magistrate concerned, with the recommendation. The Scheduled Tribe people seeking justice will be at liberty to engage a pleader of their choice and the pleaders fee will be negotiated between them. However, the rate of fees shall not exceed half of what is payable to the Government Pleaders in similar cases. The quantum of legal aid will be in the shape of assistance and need not necessarily cover the entire cost of litigation. This is apart from the aid given to accused persons in capital cases before the Court of Sessions, cases involving a death sentence and the like.

रेलवे समय सारणी के हिन्दी तथा अंग्रेजी संस्करणों के बीच अन्तर

6843. श्री जगदीश नारायण मण्डल : क्या रेल मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या रेलवे समय सारणी के हिन्दी तथा अंग्रेजी संस्करणों में कोई अन्तर है ; और

(ख) यदि हां, तो उसका स्वरूप क्या

Limited, Bombay, are given as under:—

रेल मंत्रालय में उपमंत्री (श्री मुहम्मद शफी कुरैशी) : (क) और (ख). क्षेत्रीय रेलों द्वारा प्रकाशित अंग्रेजी और हिन्दी की समय सारणियों में विज्ञापनों के अन्तर के अलावा कोई खास फरक नहीं होता। लेकिन, रेलवे बोर्ड द्वारा अखिल भारतीय रेलवे समय सारणी केवल अंग्रेजी में प्रकाशित की जाती है।

Links between Chairman of M/s Automobile Products of India Limited, Bombay and Maruti and Company

6844. SHRI JYOTIRMOY BOSU: Will the Minister of LAW, JUSTICE AND COMPANY AFFAIRS be pleased to state:

(a) the names of the Chairman and other members of the Board of Directors of M/s Automobile Products of India Limited, Bombay;

(b) whether the Chairman of this Company is in any way connected with Maruti and Company, a small car manufacturing firm in Haryana; and

(c) the names of the firms in which the Chairman of the Automobile Products of India, Limited has interests in some form or other?

THE MINISTER OF STATE IN THE MINISTRY OF LAW, JUSTICE AND COMPANY AFFAIRS (SHRI D. R. CHAVAN): (a) As per the latest available information, the names of the Chairman and other Directors of M/s. Automobile Products of India

1. Shri M. A. Chidambaram, Chairman and Managing Director.

2. Dr. J. M. Rane, Director.

3. Shri C. B. Saraf, Director.

4. Shri R. N. Mafatlal, Director.

5. Shri K. N. Talwar, Director.

6. Shri J. M. Ghorpade, Director.

7. Shri R. P. Gaekwad, Director.

8. Shri F. K. F. Nariman, Director.

9. Shri A. A. Deshpande, Director.

10. Lt. Col. F. P. Gaekwad, Director.

(b) The Chairman of M/s. Automobile Products of India Ltd., is also the Chairman of M/s. Maruti Ltd., Haryana.

(c) The Chairman of M/s. Automobile Products of India Ltd., was connected with the following companies as Chairman/Managing Director/Director/Committee member, as on 28th January, 1972:—

Chairman:

1. Tubes & Malleables Ltd.,

2. South India Steel & Sugars Ltd.,

3. Southern Industrial Corpn. Ltd.,

4. Jenson & Nicholson (India) Ltd.,

5. Southern Petro-Chemical Industries Corpn. Ltd.,

6. Tokushu-Manon Paper Manufacturing Company Ltd.,

7. Maruti Ltd.,

8. South India Wire Ropes Ltd.,
9. Western Thomson (India) Ltd.,

**De-registration of Undertakings
registered under Companies Act**

6846. SHRI SAT PAL KAPUR:
Will the Minister of LAW, JUSTICE
AND COMPANY AFFAIRS be
pleased to state:

(a) the total number of companies
registered as dominant undertakings
under the MARTP Act and how
many of them have been deregistered
so far;

(b) whether Government are examining
the question of modifying
the classification of product Groups
made under the M.R.T.P. Rule to
determine correct dominance of undertaking,
and if so, the broad features
of the proposal under examination;
and

(c) the reasons for large number of
deregistrations?

THE MINISTER OF STATE IN
THE MINISTRY OF LAW, JUSTICE
AND COMPANY AFFAIRS (SHRI
D. R. CHAVAN): (a) 119 undertakings
have registered from time to
time as dominant undertakings within
the meaning of clause (b) of section
20 of the M.R.T.P. Act, 1969. Of
these 22 undertakings have been de-
registered so far.

(b) Yes, Sir. The question is
under examination with a view to
splitting up certain broad groups into
further groups, and also including
certain new commodities not listed in
the present notification.

(c) Many undertakings had registered
themselves as dominant undertakings
before publication on the
26th June, 1971 of the M.R.T.P. (Classification
of Goods) Rules, 1971. After

the publication of these Rules some dominant undertakings applied for de-registration on the ground that they were not dominant under the classification of commodities notified under the Rules.

Appointment of full-time Chairman in F.C.I.

6847. SHRI R. P. YADAV: Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) whether Government intend to appoint a full-time Chairman in the Fertilizer Corporation of India;

(b) if so, when; and

(c) if not, the reasons therefor?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) to (c). A plan for the re-organisation of the Fertilizer Corporation is under consideration and the question of appointing a full-time Chairman will be considered as a part of that plan.

Scrapping of Heavy Water Plant at Nangal

6848. SHRI S. A. MURUGANANTHAM: Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) whether the present heavy water plant built at a cost of Rs. 31 crores at Nangal will be scrapped; and

(b) if so, the reasons therefor?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) and (b). The question of continued operation of the facilities presently available at Nangal for production of heavy water will be reviewed when the expansion scheme,

which is currently under implementation, is completed. In doing so, all relevant factors like availability of power, economics of production, etc. will be kept in view.

Construction of Foot Over-Bridge at Tughlakabad (Northern Railway)

6849. SHRI ISHAQUE SAMBHALI: Will the Minister of RAILWAYS be pleased to state:

(a) whether staff residing in Railway Colony, Tughlakabad (N. Railway) and some Members of Parliament had represented for construction of a foot over-bridge connecting their residential colony with the town; and

(b) if so, by which time the construction is expected to begin?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Yes.

(b) The provision of a foot over-bridge at Tughlakabad is being considered and is likely to be included in Northern Railway's Works Programme 1974-75 subject to availability of funds.

SHORT NOTICE QUESTION

Crisis in Production of Power in Andhra Pradesh

S.N.Q. 6. SHRI B. N. REDDY: Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) whether his attention has been drawn to the report of his press interview as published in the "Hindu" dated the 9th March, 1973 indicating grave crisis in the production of power in Andhra Pradesh; and

(b) if so, what urgent steps he proposes to take in the matter?

THE MINISTER OF IRRIGATION AND POWER (DR. K. L. RAO): (a) and (b). Yes, Sir. As stated in the report, there is at present a shortage of 330 MW in peak load and nearly 4 million kWh per day shortage in energy. The shortage will increase in the years to come. In order to overcome this, the State must raise adequate resources and add at least 1500 MW to the existing installed capacity in the Fifth Plan.

Expediting Kothagudem two units of 110 MW each to be commissioned in 1973-74 will reduce the immediate shortage to some extent.

12.00 hrs.

CALLING ATTENTION TO MATTER OF URGENT PUBLIC IMPORTANCE

Reported serious shortage of coal resulting in cancelation of trains on Northern Railway

SHRI N. K. SANGHI (Jalore): Under Rule 377, I raise a point of order. My Calling Attention was addressed to the Minister of Railways. It should be answered by the Minister of Railways. Actually it is a matter for the Railway Minister. This deals with shortage of coal supply resulting in cancelation of nearly 74 branch-lines of the Railways. So, I think, the Railway Minister should be allowed to participate....

MR. SPEAKER: It has been addressed to the Minister of Steel and Mines.

SHRI N. K. SANGHI: It is a matter for the Minister of Railways; it is a subject pertaining to him....

MR. SPEAKER: This has arisen a number of times in the House. We address it to the Minister concerned to whom it is addressed by the first Member.

SHRI N. K. SANGHI: I have addressed it to the Minister of Railways.

AN HON. MEMBER: Mr. Joshi has addressed it to the Minister of Steel and Mines.

MR. SPEAKER: Let the first Member start it. That is according to the procedure. Different Members address to different Ministers. So, we have to adopt this procedure.

SHRI S. M. BANERJEE (Kanpur): One copy of the Calling Attention Motion was also addressed to the hon. Railway Minister. The hon. Railway Minister is sitting here. He can participate. There is no difficulty.

SHRI N. K. SANGHI: This relates to 74 branch-lines of the railways which suffer due to shortage of coal....

MR. SPEAKER: This position has been clarified in the House a number of times earlier also. I do appreciate your point of view, but I am helpless in the matter.

Now, Shri Jagannath Rao Joshi.

श्री जगन्नाथ राव जोशी (शाजापुर) :
अध्यक्ष महोदय, मैं अविलम्बनीय लोक-महत्त्व के निम्नलिखित विषय की ओर माननीय इस्पात और खान मंत्री जी का ध्यान दिलाता हूँ और प्रार्थना करता हूँ कि वे इस बारे में एक वक्तव्य दें:—

“कोयले की सप्लाई में भारी कमी और उसके परिणामस्वरूप उत्तर रेलवे की लगभग 74 शाखा लाइन रेलगाड़ियों को रद्द कर दिये जाने तथा उत्पादन में कमी आने और फिरोजाबाद में बूड़ी निर्माण उद्योग में जबरन छुट्टी दिये जाने तथा उसके कारण हजारों कामगारों के बेकार हो जाने के समाचार।”

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUBODH HANSDA): Mr. Speaker, Sir, there has been no short-fall in the production of coal in the country. The production is increasing since 1972 and it is estimated that during 1972-73, it will be about 75 million tonnes as against about 72 million tonnes in 1971-72.

Prior to take over, a substantial portion of the non-coking coal used by the Railways was supplied from the Bengal-Bihar coalfields. These coalfields, particularly in West Bengal, which were largely in the hands of the private sector, could not maintain production due to various reasons. After the take-over of the management of the coal mines, the Government are making coordinated efforts to increase production.

As a result, the level of production has not only been maintained, but has also been improved upon marginally after the take-over. Before the take-over of the management of the mines, the coal production in the Bengal-Bihar fields was 4.66 million tonnes in January, 1973; it increased to 4.80 million tonnes in February, 1973 representing an increase in daily production from about 1,50,000 tonnes to about 1,70,000 tonnes. This trend has been maintained in March, 1973.

There has, however, been a large increase in the demand for coal during the last few months due to the following main reasons:—

- (i) Increased consumption by thermal power stations due to short fall in hydel power generation, arising out of drought condition in many States in the Western and Southern India; and
- (ii) increase in demand from the steel industry.

Efforts are being continuously made to meet this increased demand by developing the existing mines and making the best use of the available transport capacity.

Within the overall daily average loading of coal in the Bengal-Bihar coalfields varying between 5750 and 5827 wagons, the loco coal loading was being maintained till the end of February at a satisfactory level of about 1130 weagons a day. The Northern Railway which mainly depends for its coal supply on the Bengal-Bihar fields, had no difficulty in maintaining all the train services. However, in March, 1973, the demand of various consumers for steam coal from the Bengal-Bihar fields increased and consequently the share of steam coal for the Railways in the overall movement decreased by approximately 200 wagons per day i.e. by nearly one lakh tonnes during the whole month. The Northern Railway, therefore, cancelled certain un-important trains so as to conceive coal stocks for the more important services, goods traffic, including foodgrains movement. The Coal Mines Authority has tied up arrangements to offer additional steam coal suitable for Railways use in the Bengal-Bihar area itself and the Railways have now made arrangements to load this coal. With an improvement in loco coal despatches, it should be possible to restore the services that have been cancelled on the Northern Railway within a few days.

As regards supply of coal to the manufacturers of bangles in Ferozabad during the last three months, it may be stated that the rate of receipt of coal wagons was 601 in January, 735 in February and 691 in March. It will thus be seen that there is marginal deterioration of supply of coal to Ferozabad. The Government is not aware of any lay-off of workers engaged in the manufacture of bangles at Ferozabad.

The Minister for Steel and Mines, is at present touring the coalfields and is personally looking into the possibilities of developing these collieries and increasing production as rapidly as possible.

श्री जगन्नाथ राव जोशी : अध्यक्ष महोदय, कोयले की कमी की वजह से गाड़ियां और

[श्री जगन्नाथ राव जोशी]

चूड़ी दोनों उद्योग ठप्प हो गये हैं। सब से पहले तो मैं चूड़ी उद्योग का सवाल उठाता हूँ क्योंकि छोटे उद्योगों पर ध्यान देने की बात यहाँ अक्सर दुआ करती है। हाल में प्रधान मंत्री जी ने भी कहा था कि छोटे उद्योगों में ज्यादा लोगों को काम मिलता है, इस लिये छोटे उद्योगों का जाल बिछाना चाहिये। ऐसी स्थिति में चूड़ी उद्योग में लगभग एक लाख कर्मचारी काम करते हैं, वह उद्योग कोयले की कमी की वजह से ठप्प हो जाय, तो इस में केवल मजदूर ही बेकार नहीं होंगे, बल्कि सरकार को भी उस की वजह से नुकसान होता है, याने प्रदेश सरकार को सेल्ज टैक्स का और केन्द्र सरकार को इन्कम टैक्स का नुकसान होता है।

मैं मंत्री महोदय से जानना चाहता हूँ जैसा उन्होंने कहा—

“However, in March 1973 the demand of various consumers for steam-coal from Bengal-Bihar fields increased.....”

तब ऐसी कौन सी इंडस्ट्री है कि स्टीम कोल की मांग ज्यादा बढ़ गई है, जिस की वजह से जो उद्योग पहले उस पर निर्भर रहा करते थे, जैसे चूड़ी उद्योग, उन की सप्लाई में कमी हो गई है तथा वे बन्द हो गये हैं।

दूसरी बात यह है कि फीरोजाबाद का जो ग्लास सिण्डीकेट है, यानी जो लोग चूड़ी उद्योग में लगे हुए हैं उन्होंने प्रदेश सरकार के अफसरों को इस के सम्बन्ध में लिखा—मैं उन के पत्र से यहां उद्धृत करना चाहता हूँ :

“हमें अत्यन्त दुख के साथ आप की सेवा में यह सूचित करना पड़ रहा है कि हमारे द्वारा बार बार प्रार्थना किये जाने के बावजूद भी कानपुर स्थित उद्योग निदेशालय एवं उस के अधीन सम्बन्धित अधिकारियों द्वारा अपने पदों का दुरुपयोग कर के स्थानी कांच व चूड़ी उद्योग में संलग्न कांच व चूड़ी के कारखानों को कोयला एलाट करने में इस समय भारी

घांघलेबाजी की जा रही है, और उस की ग्राह में भारी भ्रष्टाचार किया जा रहा है, और एक एक अधिकारी जो इस एलाटमेंट से सम्बन्धित है, लाखों रुपये रिश्वत के रूप में ले रहा है तथा सही कारखानों को कोयला देने में कटौती कर के उसे बोगस कारखानों को दिया जा रहा है।”

यह मामला न केवल रेल मंत्रालय और इस्पात खान मंत्रालय से बल्कि उद्योग मंत्रालय से भी सम्बन्धित है। यानी कोल की सप्लाई होने के बाद भी वास्तव में जिस उद्योग को कोल सप्लाई होना चाहिए उस के अलावा कोई ऐसी बोगस फर्म खड़ी कर के उन को कोल एलाट कर के जो बड़ी रिश्वतखोरी और भ्रष्टाचार चलता है, उन्होंने नाम ले कर कहा है लेकिन वह सरकार के दफ्तर में हैं इस लिये नाम नहीं लेना चाहता, कानपुर के उद्योग निदेशालय से सम्बन्धित जो अधिकारी हैं जिस के पास सप्लाई का अधिकार है उनके भ्रष्टाचार की वजह से यह उद्योग ठप्प होता जा रहा है तो उस के लिए माननीय मंत्री महोदय पहले हमें आश्वासन दें कि इस की पूरी जांच वे करेंगे। सही उद्योग जो चल रहे हैं, रजिस्टर्ड फर्म जो हैं, जिन को दिया जाता है कोल, यह देख कर दिया जाता है कि कौन कौन रजिस्टर्ड हैं और उन की कितनी आवश्यकता है, यह सारा कुछ देख लिया जाता है तो ऐसी स्थिति में यह घांघलेबाजी और घपला फीरोजाबाद के बारे में क्यों हो रहा है—इस के बारे में पूरी जानकारी कर के और उन की सप्लाई बन्द न हो, इस का आश्वासन आप हम को दें।

जहां तक रेलवे का सवाल है, यह तो बिल्कुल असाधारण सी स्थिति है कि कोल की कमी की वजह से 74 रेलगाड़ियां बन्द कर दी जायें। उत्तरी रेलवे में बड़ौदा से भोपाल तक चलने वाली गाड़ी रतिलाम और भोपाल के बीच में बन्द कर दी गई। यह गाड़ी दिसम्बर में बन्द कर दी गई। उस के बारे में हमने

जनरल मैनेजर को लिखा और मंत्री महोदय को भी लिखा। मजे की बात यह है कि जनरल मैनेजर ने हम को सूचना दी कि अब गाड़ी फिर से शुरू हो गई है किन्तु उस के 15 दिन बाद मंत्री महोदय का जवाब आया कि मैं इस पर विचार करूंगा—यह बात हमारी समझ में नहीं आई। शायद यह हुआ होगा कि हमने पत्र भेजा हनुमन्तैया जी को, उस को पढ़ा टी० ए० पाई जी ने और आखिर में जवाब दिया एल० एन० मिश्र जी ने। क्योंकि जनरल मैनेजर का जवाब है कि गाड़ी फिर से शुरू कर दी है और मंत्री महोदय का जवाब 15 दिन बाद आता है कि हम विचार करेंगे। तो यह कोल सप्लाय जो रेलवे की होती है जो बताया है स्वयं मंत्री जी ने अपने वक्तव्य में कि फरवरी तक यह काम बिल्कुल ठीक चला और उन्होंने ने जो कारण बताये हैं उस में एक पावर शार्टेज का है कि हाइडल के बन्द होने से थर्मल के लिए ज्यादा कोयला लगता है लेकिन यह पावर शार्टेज तो नवम्बर से चल रही है—आज से नहीं है। पावर शार्टेज की वजह से कितनी मांग बढ़ेगी, रेलवे के लिये कितनी आवश्यकता है यह देखना तो बहुत जरूरी है क्योंकि छुट्टी की वजह से गर्मी के दिनों में आवागमन ज्यादा होता है और शादी ब्याह की वजह से भी आवागमन ज्यादा होता है। इतना ही नहीं, सरकार न जो नया निर्णय लिया है टेकओवर आफ फूड ग्रेन्स उस में उत्तरी रेलवे का बहुत महत्व है क्योंकि हरयाणा और पंचाब ग्रैनरी हैं यहां से सारा माल बाहर जायेगा। ऐसी स्थिति में उत्तरी रेलवे में 74 गाड़ियों के बन्द होने से अगर एक गाड़ी में एक हजार पसेन्जर्स लें तो 74 हजार

पसेन्जर्स का घाटा होगा ही। इस के अलावा उत्तरी रेलवे में गेहूं का यातायात उधर से दक्षिण की ओर या जहां जहां भी ले जाते हैं होता है। ऐसी स्थिति में इतनी गाड़ियों का बन्द होना ठीक नहीं है।

अब जहां तक कोल सप्लाय का मामला है, पब्लिक एकाउन्ट्स कमेटी की रिपोर्ट देखने लायक है। कोल जो उठाया जाता है उस के बारे में पब्लिक एकाउन्ट्स कमेटी की रिपोर्ट कहती है :

“The total number of wagons programme during that period was 19,759.”

जबकि :

“12,644 wagons were actually loaded.”

यानी प्रोग्राम था 19,759 वैगन्स को लोड करने का लेकिन वास्तव में 12,644 वैगन ही लोड किए गए। और प्रत्यक्ष जाकर पहुंचे 7362 वैगन यानी केवल 58 परसेन्ट ही डेस्टिनेशन पर पहुंचे। बाकी वैगन पहुंचे ही नहीं भगवान जाने कहां गए।

“5282 wagons was the difference between the wagons loaded by collieries and wagons which reached destination as per their original programme. Out of 5,282 wagons, they were able to find 1635 wagons, that is 30 per cent, which were received by other sheds on the Central Railway. Actually 209 wagons have not been traced by them till the date of the report...received from them”

1972-73 की यह रिपोर्ट है और आखिर स्वयं जब रेलवे कहती है कि यह मामला इतना बड़ा है तो इस को पढ़कर बड़ा आश्चर्य हुआ। इतने बड़े पैमाने पर यह सारा हो

[श्री जगन्नाथ राव जोशी]

और हम कोयले की शार्टेज की वजह से गाड़ियां बन्द करें यह बात समझ में नहीं आती है।

जहां तक चोरियों का सवाल है, मैं सिर्फ कोयले के बारे में बता रहा हूँ, कोयले की जो चोरियां होती हैं, रेलवे की वह 1969 में नम्बर आफ केसेज 4593 और 1970 में वह हो गई 5672 यानी बढ़ गई। 1972 में थोड़ी घटी—4530 : (व्यवधान) चोरी के लिये जो जिम्मेदार हैं, वह बात भी देखने लायक है। रेलवे एम्पलाईज जो अरेस्ट हुए—मैं आउटसाइडर्स को नहीं लेता—1969 में 158 और 1970 में 267। यह भी बढ़ रहा है। तो कोल की जो चोरियां होती हैं वह बढ़ रही हैं।

रेलवे कन्वेनशन कमेटी की जो रिपोर्ट है उस में लिखा है, मैं उद्धृत करना चाहता हूँ :

“During the year 1971-72, the railways carried 16.4 million tonnes of coal for their own use—

क्योंकि रेलवे मंत्री ने बताया था कि कोयल की शार्टेज होगी तो उस पर ध्यान देंगे, चिन्तित होने की कोई बात नहीं है।

“.....the railways carried 16.4 million tonnes of coal for their own use. It is not a secret that this coal is equally subjected to pilferage and loss in transit. If the extent of the loss is conservatively estimated, at an average of 10 per cent....”

जो रेलवे अपने लिये कोयला लेती है उस में 10 परसेन्ट की कमी हो जाती है पिल्फेज की वजह से। बैगन्स तक गायब हो जाते हैं। 19 हजार बैगन्स यदि जाने हैं तो 12 हजार

बैगन्स भेजे जाते हैं और वह भी सभी डेस्टिनेशन पर पहुंचते नहीं। इस सारी धांधली को भुगतता कौन है? सामान्य आदमी ही इस को भुगतता है, जो चीजें वह खरीदना चाहता है, वह उस को प्राप्त नहीं होती हैं। इसलिए मैं जानना चाहता हूँ कि शार्ट सप्लाय की वजह से हुआ है, धांधली की वजह से हुआ है यह भी पता चले और फिरोजाबाद का चूड़ी उद्योग, जो बन्द हुआ है वह धांधली की वजह से हुआ है, अष्टाचार की वजह से हुआ है, रिश्वतखोरी की वजह से हुआ है उस पर रोक लगा कर जो रजिस्टर्ड फर्म हैं उन को ठीक ढंग से कोयला सप्लाय हो और जो मजदूर बेकार हैं उन की छटनी न हो।

SHRI SUBODH HANSDA: As regards the bangle factories at Firozabad, the hon. Member read out certain notes. I do not know from which source he has got them, but to our knowledge there is no such complaint from the Government of Uttar Pradesh or from the Director of Industries, Uttar Pradesh Government; that there is a shortage of coal for these bangle factories. It may be true that there are certain cases where there are some bogus firms. These bogus firms may be having coal from the coal fields and may be selling it in the black market. But the Government is looking into all these things. I am sure that all these bogus firms should be punished, and they should not get any coal in future. Government will look into it.

SHRI JAGANNATHRAO JOSHI: I can give you the names: Raghav and Nanku Works.

SHRI SUBODH HANSDA: We have no information from the Uttar Pradesh Government and we have also no information that the bangle factories are going to close because of the short supply of coal. We have not received

any information from Firozabad also that they are going to close down the factories or that the workers have been laid off. We have no information at all.

I have already said that we are looking into it. You have mentioned certain bogus firms. We are looking into all these things. We will also see that all these bogus firms are detected and are punished.

If the hon. Member is having anything in his knowledge, if he kindly passes on the information to us, we will look into it. So far as the supply to railways is concerned, I have already said that the supply of coal has not decreased. It has increased and I have already read out in my previous statement. Regarding the despatches, we have despatched 13,050 wagons in February, 1973, and in March, we have despatched 14,431 wagons. I do not think that there is any shortage of coal and there is any shortage of coal at the pitheads. It may be true that there are certain reasons because of which the coal might not have reached the railways who are the carriers of this coal. But, as the hon. Member is aware, there are certain emergency matters like the movement of foodgrains. The hon. Member knows that there have been severe drought conditions throughout the country and the Government have given top priority to the movement of foodgrains for which all these wagons are used.

Then there is the question of power houses. As you know, there was a strike in Uttar Pradesh and because of the strike the wagons could not be moved. And then the power houses could not be fed, because without coal we cannot run our thermal power stations.

Regarding the steel plants also, we have had to rush the wagons to run the steel plants properly. Therefore, I do not think that because of shortage

of coal all these trains have been cancelled.

श्री फूलचन्द बर्मा (उज्जैन) : पांच बैगन पहुंचे ही नहीं इस के बारे में नहीं बताया मंत्री जी ने ।

श्री विभूति मिश्र (मोतीहारी) : अध्यक्ष जी, सरकार का जो बयान है इस में विरोधाभास है । यह बताते हैं कि 1972-73 में 75 मिलियन टन होगा । 1971-72 में 72 मिलियन टन तक कहते हैं कि प्रोडक्शन बढ़ गया । यह शायद फिगरज अगर इस साल के किसी महीने की देते तो समझ में आता कि ठीक हैं । लेकिन सरकार ठीक फिगरस नहीं देती है । आप लिखते हैं कि प्रोडक्शन कुछ कारणों की वजह से मंटेन नहीं कर सके । तो सरकार को साफ बताना चाहिये कि वे क्या वैरियम क्या रीजन्स हैं । सरकार बताये कि कौन से कारण हैं ।

अध्यक्ष जी, एक फिगर इन्होंने दी है कि डेली प्रोडक्शन डेढ़ लाख टन से बढ़कर एक लाख 70 हजार टन हो गया पहली मार्च, 1973 को : यह इन्होंने ने अबाउट फिगरस में लिखा है । इस के माने यह है कि 20,000 टन के करीब इन का उत्पादन बढ़ा । लेकिन जो इनका खर्चा बढ़ गया, खुद देखते हैं कि ड्राउट की वजह से थर्मल पावर स्टेशन बन्द हो रहा है वहां कोयला देना पड़ा । इस के अलावा इन के और खर्चे जो हैं जो बड़े बड़े कारखाने हैं उन में जरूरत पड़ी तो उस की खपत बढ़ गयी । तो मैं जानना चाहता हूं कि इन के ऊपर डिमान्ड कितनी है और डिमान्ड के मुताबिक इन प्रोडक्शन का क्या है ?

[श्री विभूति मिश्र]

यह स्टेटमेंट देना चाहिये। आप तो वकील हैं, सदन में बहुत से बड़े बड़े वकील हैं, सरकार को साफ़ बताना चाहिये कि कितनी मांग है और कितनी सप्लाई है। यह स्टेटमेंट मैं में इन्होंने नहीं दिया।

श्री नरेन्द्र कुमार साल्वे (बेतूल) : अध्यक्ष महोदय, क्या वकील लोग ही समझते हैं इस बात को ?

अध्यक्ष महोदय : आप दोनों नजदीक बैठे हैं, बताइये क्या बात है ?

श्री विभूति मिश्र : इन के पास स्टॉक कितना है ? क्या यह सही है कि सरकार ने जो कोयला खदानों को टेक ओवर किया तो जो लोग इनमें काम करते थे प्राइवेट सैक्टर वाले, और जो प्राइवेट सैक्टर की हां में हां भरने वाले ऐम्प्लॉईज हैं, उन लोगों ने प्रोडक्शन को कम करने की कोशिश की है ताकि सर वदनाम हो। यह बात है कि नहीं ?

दूसरी बात यह है कि रानीगंज वगैरह, जहां तहां, झरिया में जो इन के कस्टोडियन हैं वहां पर कुछ घूरा की बात भी चलती है कि नहीं चलती है। यदि चलती है तो कितने रुपए एक ट्रक पर चलती है ? और क्या यह नहीं सही है कि प्राइवेट ट्रकों को यह ज्यादा प्रोत्साहन देते हैं। बनिस्वत रेलवे के वैगन्स को लदाने में ? रेलवे वैगन्स को यह कम तरजीह देते हैं और प्राइवेट ट्रकों को ज्यादा तरजीह देते हैं क्योंकि प्राइवेट ट्रक वाले कुछ लेते देते रहते हैं।

अध्यक्ष जी, चाणक्य खुद पता लगाता था, लोगों से पूछता नहीं था। अब हम को वहां

कहा फुर्सत कि चोरी का पता लगायें और अगर पकड़ भी लें तो फिर कचहरी में गवाही देने जायें। तो यह काम सरकार का है, और सरकार को जनता इसीलिये टैक्स देती है कि सरकार का नियंत्रण देश में ठीक से रहे और राज काज ठीक से चले। इसलिये इन को पता लगाना चाहिये। तो मैं जानना चाहता हूं कि क्या सरकार जो कोयले की स्थिति आज है इस को सुधारने की कोशिश करेगी ? जो राष्ट्रीयकरण आप ने किया है, जो उस में ऐंटी सोशल आदमी हैं जो उत्पादन को नहीं बढ़ा रहे हैं उन को तुरन्त निकाल बाहर करेंगे ? क्या सरकार यह फिगर देगी कि कितनी मांग है सरकार के ऊपर और कितनी सप्लाई आप कर सकते हैं। और यह भी बतायें कि जो 74 रेलगाड़ियां नार्थर्न रेलवे ने बन्द कर दी हैं उन को जल्दी से जल्दी कोयला दे करके क्या आप उन गाड़ियों को चलाने की बात सोच रहे हैं कि नहीं ?

इस के अलावा जो फिरोजाबाद में चूड़ी के कारखाने बन्द पड़े हैं, उन की यही आजीविका है, तो क्या सरकार उन को मुनासिब मांग के मुताबिक तुरन्त कोयला देगी कि नहीं ताकि लोग वाग चूड़ी के कारखाने चला सकें ?

इस के अलावा क्या सरकार का जो उत्पादन है, उस में जो मजदूर हैं उन को ये इंसेंटिव देने जा रहे हैं कि नहीं कि जितना उत्पादन करोगे उसी हिसाब से तुम्हारी मजदूरी बढ़ेगी ताकि उन मजदूरों का उत्साह बढ़े जिस से उत्पादन ठीक से कर सकें। और

आखिरी पात यह जानना चाहता हूँ कि इन के पास अभी कितना स्टॉक है ?

SHRI SUBODH HANSDA: The last point which the hon. Member raised was about the present stock position. The total stock position up to 1st March, 1973 is 7.23 million tonnes. Out of that 60 per cent, that is, nearly 4 million tonnes is at the pit-head. He mentioned about the bangle factory. This is a small-scale industry. It is not that the bangle factories are to get coal only from the pit-head direct. But, it has been the policy of the Government now that the State Governments should assess the requirements not only of bangle factories but also other small-scale industries as to their total demands. It is assessed on the basis of the demands of these industries.

श्री विमूति मिश्र : प्रधान मंत्री ने कहा है कि छोटे छोटे कारखानों की मदद करनी चाहिये । जो फिरोजाबाद में कारखाने लगे हैं वे बन्द हो रहे हैं , उन का पहले आप इंतजाम सोचें ।

SHRI SUBODH HANSDA: Mr. Speaker, Sir, we have no objection to supply coal to the bangle factories or any other small-scale industry provided they are prepared to get it direct from the pit-head and they have their own transport. We are prepared to get them direct from the pit-head, if necessary.

SHRI JYOTIRMOY BOSU (Diamond Harbour): But, the transport cost is much more expensive.

SHRI SUBODH HANSDA: But, that should be sponsored by the Director of Industries of the State Government. If they are sponsored by him, then they may get the coal direct from the pit-heads for their own consumption.

The hon. Member has mentioned certain other points as well. One was regarding the demand and supply. The total requirement of railways is 50 million tonnes per year. In the Northern Railway, there is a programme to receive 340 wagons of coal daily. Accordingly, in February 1973, for the Northern Railways, their demand was 340 wagons per day while the supply was 382 wagons a day. In March, 1973, the demand was 340 wagons per day while the supply was 236 only. It is slightly less. But, I do not think that because of this, the trains have been cancelled. He mentioned also about certain other things. For example, he said that there are certain unscrupulous persons who were trying to let down the Government. Government is aware of this. The coal-mine authorities are trying their best. They are screening the officials as well as the employees and if anyone is found guilty in the coal-mining areas, certainly, strong action would be taken against all those officers.

SHRI S. M. BANERJEE (Kanpur): Mr. Speaker, Sir, I am aware that the hon. Minister, Shri Hansda is unwell. Still he has come to answer this. According to the Cabinet Minister, Shri Mohan Kumaramangalam's statement, he is trying to get coal from the coal-fields. He says that he will personally look into this and see that there is increase in the coal production as rapidly as possible. But, I am sorry, I have to put certain questions on that.

Mr. Speaker, Sir, I have put this question to the Railway Minister as to why the supply of coal for U.P. including the stock in the pit-heads is so less. The supply of soft coke daily should have been 2,400 wagons. As against that, in July, 1972, only 382 wagons were supplied; in August, 1972, 955 wagons were supplied; in September, 1972, 551 wagons only were supplied, but in October, 1972, 698 wagons were supplied. 272 wagons in November, 733 wagons in

[Shri S. M. Banerjee]
December, 1972 and 626 wagons in January 1973, were supplied. The percentages are as follows:—

U.P. It got 25 per cent of its quota only;

Punjab. It got 32 per cent of its quota;

Haryana. It got 35 per cent of its quota;

J. & K. It got 37 per cent of its quota;

Himachal Pradesh. It got 52 per cent of its quota.

Delhi. It got 89 per cent of its quota.

You can imagine this. Are all the V.I.Ps here using coal? No, they are using gas. But, still, the coal supplied is 89 per cent of the requirements. U.P. got only 25 per cent of its requirements in spite of the fact that it has got more industries than Delhi.

Rajasthan has got 32 per cent of its quota. Out of the total requirement, only 43 per cent of the average requirement is met. Still, the hon. Minister says that there is no coal shortage and that the coal production has increased. Either there is no co-ordination between the Railway Ministry and the Steel and Mines Ministry or there is something wrong somewhere. Whether it is bangle manufacturers of Ferozabad or the brick-makers in U.P. or Delhi, they are made as shuttle-cocks to move between the Ministries of Railways and Steel and Mines. I would like to know from the hon. Minister whether it is a fact that coal is available at the coalpit but there is inadequate supply of wagons only. If you take Mughalsarai, there is dearth of coal. Same is the case with regard to Haryana and other places. As a result of this, the hon. Minister said that some unimportant trains have been suspended. He said that 74 unimportant trains have been suspended. By doing so, thousands of passengers are in adequandary. They have to be moved from the place to another. In-

dustrial units in aKnpur, Banaras and other places are practically on the verge of closure firstly because of power crisis and secondly because coal is not available. Hardly there is any coal available in industrial units in Kanpur. Those who have conserved coal are selling it at black market prices to the small units. I fully endorse the view expressed by Shri Jagannathrao Joshi that the bangle produce in Ferozabad—this is the main industry in that area—have to pay Rs. 50 or 60 or even 200 more to have coal and keep their units working. I want to know whether there is any coordination between the Railways and the Steel and Mines Ministry. The other day when I represented the case of soft coke, Mr. Shafi Qureshi was kind enough to supply one rake. So, if there is coordination why should there be any lapse on the part of this or that ministry? I want to know whether a fixed quota has been given to those who are producing bangles and other articles in Ferozabad, because their livelihood depends on the production of such articles. I want to know why the requirements of U.P. are not being met and what steps have been taken to see that the wagons with coal do move from Mughalsarai. The minister said that people can lift the coal with their own conveyance like lorries etc. Sir, it is impossible and it will be extremely costly. If people are asked from Delhi, Haryana or U.P. to go to the coalfields and take delivery of coal in their own conveyance like scooter, taxi or lorry or buses, why is this Government functioning at all? I am not warning the minister, but I can tell him honestly that the industrial units in Kanpur, whether small or medium, will have to be closed down for want of coal.

SHRI SUBODH HANSDA: Sir, there is full coordination on between the Railway Ministry and our Ministry, as a result of which we have been able to supply coal to the different parts of the country and also feed our steel plants and power houses. So, there is no point in saying there is no

coordination between the Steel and Mines Ministry and the Railway Ministry. It has been mentioned that 74 trains have been cancelled. It is not a fact. I think only 37 trains have been cancelled and these are local shuttle trains. One train goes and the same train comes back. So, this figure of 74 is inflated, as if something unprecedented has happened. I would remind hon. members that a number of new long distance trains have been introduced to facilitate the public going from one place to another. As regards fixation of quota of coal for bangle factories, if they can have a planned programme and if they submit it to us, certainly we can see, so that they can have the coal from the pithead for these factories. As regards U.P.'s requirements, if the U.P. Government can give us their total requirements of coal for their State, certainly we will try to supply that amount of coal to them. Government is looking into this matter.

SHRI S. M. BANERJEE: About soft coke, I am quoting the U.P. Government—their demand is 2400 wagons per day against which only 700 wagons have been supplied.

SHRI PILOO MODY (Godhra): This probably is the only Government which can make its trains run in both directions, because the Minister has just now claimed that the train which is going and coming is the same train and that they have cancelled only 37 trains and not 74 trains.

SHRI SUBODH HANSDA: It is only between Delhi and Ghaziabad and Ghaziabad and Delhi.

SHRI PILOO MODY: According to the Minister 1 Up and 2 Down are no longer relevant because they happen to be the same train going in both directions. I am not at all surprised because this Government have done similar things in the past.

The Government maintains, on the one hand, as the hon. Minister for Steel informed me only the other day, that there is no shortage of coal at all. Naturally, he has to say that, because he has stuck neck and nationalised the coal fields. Having done that, he has to maintain now that everything in the coal industry is hunky-dory and fine. Therefore, he has to maintain that there is no shortage of coal. Yet, when it comes to supplying coal to the end-consumer, the Government have one thousand and one reasons why they cannot supply.

All of a sudden, even in this statement which is made—I do not know why it is called a statement—it is mentioned that these mines were mostly owned by private owners in the past. I can appreciate their wanting to draw attention to the fact that when private owners owned these mines, they did not produce. This, of course, is the philosophy and theory of the Government. One can argue about it but one cannot knock sense into them. At the same time, the statement says that up till nationalisation the supply was well and good and nothing was lacking and it is only after the take-over that something went wrong.

If you accuse them that there is no co-ordination, they say "no, there is perfect co-ordination". You say there is no production, and they say "no, there is plenty of production". If you say the end-user is not getting it, they say "the end-user is getting it". At the most they will only concede "we have not heard any complaints". It so happens that my wife goes to Firozabad quite often and she knows the shop-keepers there, the end-users of this coal in Firozabad; not a single one of the little manufacturing units there, is functioning. Sometimes they work for only two hours a day and sometimes they work for no hours a

[Shri Piloo Mody]

day; at the most they will work for two and a half hours a day, which is the maximum period they can work because of the shortage of not only coal but soda ash, power, in fact every conceivable thing. The only thing that we are not short of is shortage itself.

So, I would like to know the Minister whether he will first concede that there are 74 trains have been cancelled and not only 37. Because, unless we can establish an honest basis for a reply, I do not think that the rest of the reply can have any credibility. So, let him first admit on the floor of this House that there are 74 trains that have been cancelled and not 37. Secondly, I want him to admit on the floor of the House that there is a shortage of coal in the country, despite the best protestations of Shri Mohan Kumaramangalam, the Minister for Steel. Let him admit thereafter that there is no proper co-ordination between his Ministry and the Ministry of Railways. Otherwise, even shortages can be made to go far and wide.

What I presume is happening is that because there is a shortage of coal, all the coal is taken over the shortest possible distance and dumped into the Steel mills. They have also to prove that the steel mills are working.

So, in all this rigmarole of shortage and inefficiency and lack of coordination, what have you, I would like to know what guarantee the Minister is prepared to give on the floor of the House, here and now, to the end-consumer without waiting for his complaint, that he will get his coal, particularly, the small ones, in the shortest possible time without any excuse of shortages, as soon as possible.

SHRI SUBODH HANSDA: Sir, the hon. Member, Shri Piloo Mody, has repeated the same question about our stock position. I would like to

assure him, as I have already said, that the production in 1971-72 was 72 million tonnes and, in 1972-73, it is 75 million tonnes.

As regards pit-head stocks, it is very difficult from here to convince him. I would rather invite him to come to the pit-head and see all these things for himself.

Regarding coordination, as I have already said, we have full coordination with the Railways. There is nothing between the Ministry of Steel and Mines and the Railways that has hampered in transporting coal from one place to another place.

He has rightly said about the Ferozabad bangles factories. There are certain difficulties. The power shortage is there; the soda-ash shortage is there. It may be due to these fact that all the factories were closed down. Why should one blame that it is because of shortage of coal that Ferozabad bangles factories have been closed?

SHRI PILOO MODY: So, you say, it is the fault of other Ministries. I do not mind which Ministry or Minister you blame for it.

SHRI SUBODH HANSDA: Since he has said that there is shortage of soda ash and some other things, it may be true that because of the shortage of soda-ash and some other things that the factories were closed down.

SHRI PILOO MODY: Whatever it is, I don't mind which Ministry you blame. But it is there.

SHRI SUBODH HANSDA: It is not because of shortage of coal that the factories were closed down.

As regards the supply of coal to small-scale industries, the Government is seriously thinking over it. As the hon. Member knows, the coal mines have been taken over only at the end of January. Only two months have elapsed. Within these two

months, during this transition period, it is very difficult to reorganise the whole thing. It may take some time to re-organise the whole thing. I can assure the hon. Member that within a short period, all the small-scale industries will get their coal for their consumption from the nearest point where the Government is trying to put up some dumps for their benefit.

SHRI N. K. SANGHI (Jalore): Sir, the subject-matter of this Call Attention Notice appears to be innocuous. It only says, reported serious shortage of coal supply resulting in the cancellation of nearly 74 branch-line trains of Northern India. But this Call Attention Notice has serious repercussions in the country.

Firstly, the cancellation of such a large number of trains gives a feeling to the people all over the country that once a thing is taken over in the public sector, the people who are at the helm of affairs do not handle it properly. This is the very reason why that the public sector is suffering. The Minister should have taken up that matter and cleared that these things do not happen. The answers that are given here are not very convincing.

I would like to draw the attention of the hon. Minister to the reply that he has given. He has said that there has been no shortfall in the production of coal in the country. He says that it is estimated that, during 1972-73, it will be about 75 million tonnes as against 72 million tonnes in 1971-72. This is only an estimate, a guess-work of what we may achieve. But the answer that has been given recently on the floor of the House amply proves that the production has been short after nationalisation. The coking coal mines were taken over on 1st May 1972, and in answer to Unstarred Question No. 4184, on 22nd March, 1973, the Minister told us that the production, prior to taking over, in March was 1,124,000 tonnes and in April it was 1,049,000 tonnes, and

after nationalisation, the production was 1,071,000 tonnes and 1,024,000 tonnes in May and June. Now, let us see the despatches from the coal-fields. They have despatched 825,000 tonnes in March and 728,000 tonnes in April. In May, the despatches were 757,000 tonnes and in June, only 771,000 tonnes. This shows that the production of coal has certainly not been to the extent what it was before nationalisation, and certainly the despatches have not been commensurate with the production; a large amount of coal has been left undespached every month. This is the situation that is obtaining today.

Now, what has been the effect of the cancellation of the 74 trains on the minds of the people? You may call them branch lines, but if you go through it a little deeply, you will find that most of the trains that have been cancelled area of the border areas. This creates a moral weakness in the people of those areas. Those people who had suffered on the border areas are made to suffer again by these handicaps. Without giving any reason or making alternative arrangements, these trains have been cancelled. I would like to know from the Railway Minister whether, when these trains have been cancelled, they have made any alternative arrangements for those people to go from there to other places. For example, if a person has to go from Delhi to Fazilka, he is stranded at Ferozepur. I want to know whether any alternative arrangement has been made. Some steps have to be taken so that the people living there do not suffer. On the one hand we find that special trains are being run. 'Northern Railway will run special trains during April, May, June and July to clear the summer rush' says a Press release. Is this the way you want to deal with the people of this country? These are branch lines and are not important from your point of view. On the one hand you want to run special trains for the urban people, but the people who are far

[Shri N. K. Singh]

off in rural and border areas are made to suffer-because these trains have been cancelled. This is a very callous attitude on the part of the Railways.

I would like to draw the attention of the Minister to the answer given by him to Shri Jagannathrao Joshi; in conclusion, he has said, 'I do not think, the trains are cancelled due to shortage of coal'. I would like him to go through the reply and tell us whether he has come to the conclusion that cancellation of these trains is not due to shortage of coal. It is for him to check that and tell us the reason why the cancellation has resulted. If the trains have been cancelled for any other reason, the responsibility clearly lies on the Railways to tell us what are the reasons for the cancellation. The quarrel between the Steel Ministry and the Railway Ministry is a different matter.

We have read in the papers that a large amount of coal has been sent to Bangla Desh. We are very happy that coal has been sent, but I would like to know from the Minister whether it has created insufficient stocks of coal to meet our own requirements.

As I said earlier, I would like to know what are the alternative arrangements made by the Railways. Have they taken any effective steps to see that diesel locomotives are brought to operate in far-away places and steam locomotives are utilised near the coal pitheads so that consumption of coal is much less? Have they taken any step in that directions? I would like to know this from the Railway Minister. They have the electrical section in the Northern Railway. Are they not using steam engines for goods train and shunting in the electrical section?

You should do away with the steam engines and go in for electric trac-

tion or diesel engines and conserve coal to see that trains are not cancelled.

Lastly, I would like to ask the hon. Minister for Steel as to whether he has got any programme to see that coal is properly and adequately supplied to different States and stored. The other day, Mr. Kumaramangalam told the House that they are going to make some arrangements for distribution of coal in the urban cities. Have you got any blue-print for making dumps in different States where coal can be brought and conserved and then given away whether to the railways, industries or other consumers.

To-day a greater responsibility lies on this Ministry to see that a proper transportation and supply of coal is maintained in every States. I think it is fair to expect an answer to all these questions from the hon. Minister.

In conclusion, I would like to know whether these trains have been cancelled for want of coal or not. Then what arrangements have been made by the railways to see that coal is conserved so that cancellation of trains does not take place in the manner it has taken place.

I would also like to be assured that with regard to these Branch lines which are equally important where small people and rural people live, you will not repeat this performance and cancel these branch line trains. If you have to cancel some train services, we would like to see the main lines services to be cancelled so that people may know what is happening. We would like to see that the remedial measures are taken quickly.

Finally, I would like to know from the hon. Minister whether he is making necessary arrangements to see that coal is available in different States through railways and other measures.

SHRI SUBODH HANSDA: As regards the supply of coal to the different States, a meeting was held with the representatives of various States to find out ways and means how and in what way the coal can be reached to the different urban cities. As the hon. Member is well aware, there was a question raised on the floor of this House whether there was shortage of coal in Delhi. Steps are being taken and already there has been a proposal to set up five dumps in Delhi and probably, one has already been set up and the other four are under way and discussions are going on about the location of these dumps, and we are trying our best to send the coal to the dumps so that people can have the coal from that place.

The hon. Member raised as to what are the reasons for the cancellation of the trains and whether it is due to the fact that there is short supply of coal. I would not say that this is because of the short supply of coal. There is some sort of dislocation in transporting the coal from one site to the other and that is one of the reasons that some of the local trains have been cancelled. But I would like to assure the hon. Member that within the next few days all these trains which have been cancelled, will be restored.

As regards the estimate, he asked as to what is the estimate. I have already said that this is the estimate, this is the actual figure I am giving. The actual daily production of coal in the month of February was 1,50,000 tonnes and in the month of March it was 1,70,000 tonnes. This is the figure which I have got. Therefore, it cannot be said that the production of coal has gone down or there is no stock of coal.

Regarding Bangla Desh, the hon. Member should keep in mind that we have entered into certain contracts and we have to supply coal to Bangla Desh as per the contract and we are

committed to it. Even if we have to send coal to Bangla Desh, it has not affected our supplies to the country.

13 hrs.

RE. CRISIS IN POWERLOOM INDUSTRY IN GUJARAT

MR. SPEAKER: Now, Papers to be laid on the Table. Shri K. R. Ganesh.

SHRI P. G. MAVALANKAR: (Ahmedabad): Sir, the powerloom industry in Gujarat is facing a grave crisis. I have received this morning over 125 telegrams from Ahmedabad. 25,000 powerlooms are paralysed. There has been no yarn allotment made to them and they are facing a very serious situation. May I request you kindly to ask the hon. Minister to look into the matter and see that allotment of yarn is done expeditiously?

MR. SPEAKER: Mr. Mavalankar, you should have given some written notice to me earlier.

SHRI P. G. MAVALANKAR: Sir, this is a very serious matter. I have received over 125 telegrams so far.

MR. SPEAKER: You should not get up abruptly; you should have given notice.

SHRI P. G. MAVALANKAR: Sir, the situation is very serious and very severe and already 10,000 workers are without jobs. I request the hon. Minister, through you, to kindly look into this immediately.

SHRI JYOTIRMOY BOSU (Diamond Harbour): Let them make a statement, Sir. Three lakhs of people are involved in West Bengal alone.

SHRI P. G. MAVALANKAR: Tomorrow is a holiday. The situation is very serious there. That is why I want them to make a statement.

MR. SPEAKER: I think you would have done it much better if you had send to me in writing giving some

[Mr. Speaker]

intimation, so that I could also look into it and fix up.

SHRI P. G. MAVALANKAR: My aeroplane from Ahmedabad to Delhi this morning was late; that is not my fault.

MR. SPEAKER: I have already asked them...

SHRI JYOTIRMOY BOSU: You may kindly ask them to make a statement.

MR. SPEAKER: I have already asked them about it. This has been coming up for the last 10 days and he has already made statements twice. Still, if you think there is something new, please let me know and I will send it to him. Shri K. R. Ganesh.

PAPERS LAID ON THE TABLE
NOTIFICATIONS RE. ANDHRA PRADESH
ENTERTAINMENT TAX RULES, APPROPRIATION ACCOUNTS RAILWAY FOR 1971-72 AND COMPTROLLER AND AUDITOR GENERAL'S REPORT THEREON AND FINANCIAL ACCOUNTS (GENERAL) FOR 1969-70.

THE MINISTER OF STATE IN
THE MINISTRY OF FINANCE
(SHRI K. R. GANESH):

I beg to lay on the Table—

(1) (i) A copy each of the following Notifications under sub-section (6) of section 16 of the Andhra Pradesh Entertainments Tax Act, 1939, read with clause (c) (iii) of the Proclamation dated the 18th January, 1973 issued by the President in relation to the State of Andhra Pradesh:—

(a) G.O. Ms. No. 459 published in Andhra Pradesh Gazette dated the 10th August, 1972 making certain amendments

to the Andhra Pradesh Entertainments Tax Rules, 1939.

(b) G.O. Ms. No. 469 published in Andhra Pradesh Gazette dated the 10th August, 1972 making certain amendments to the Andhra Pradesh Entertainments Tax Rules, 1939.

(ii) A statement (Hindi and English versions) explaining reasons for not laying on the Table Hindi version of the above Notifications.

(Placed in Library. See No. LT-4774/73).

(2) A copy of the Report (Hindi version) of the Comptroller and Auditor General of India, for the year 1971-72, Union Government (Railways), under article 151 (1) of the Constitution.

(3) A copy of Appropriation Accounts, Railways, for 1971-72, Part I-Review (Hindi version).

(4) A copy of Appropriation Accounts, Railways, for 1971-72, Part II-Detailed Appropriation Accounts (Hindi version).

(5) A copy of Block Accounts (including Capital Statements comprising the Loan Accounts), Balance Sheets and Profit and Loss Accounts, Railways, for 1971-72 (Hindi version).

(6) A copy of the Finance Accounts (Hindi version) of the Central Government for the year 1969-70.

(Placed in Library. See No. LT-4775/73).

ANNUAL REPORTS OF MONOPOLIES AND RESTRICTIVE TRADE PRACTICE COMMISSION, 1970-71 AND WORKING OF THE MONOPOLIES RESTRICTIVE TRADE PRACTICES, ACT FOR 1970-71.

THE DEPUTY MINISTER IN THE MINISTRY OF LAW, JUSTICE AND COMPANY AFFAIRS (SHRI BEDA-BRATA BARUA): I beg to lay on the Table a copy each of the following reports (Hindi version) under section 62 of the Monopolies and Restrictive Trade Practices Act, 1969:—

- (i) Annual Administrative-Report on the working of the Monopolies and Restrictive Trade Practices Commission for the period August 6, 1970-December 31, 1971.
- (ii) Report on the working and Administration of the Monopolies and Restrictive Trade Practices Act, 1969, for the period from 1st June, 1970 to 31st December, 1971.

[Placed in Library. See No. LT-4776/73].

EXPORT OF DE-OILED RICE BRAN (QUALITY CONTROL AND INSPECTION) AUDIT RULES, 1973

THE DEPUTY MINISTER IN THE MINISTRY OF COMMERCE (SHRI A. C. GEORGE): I beg to lay on the Table a copy of the Export of De-oiled Rice Bran (Quality Control and inspection) Amendment Rules, 1973 (Hindi and English versions) published in Notification No. S.O. 878 in Gazette of India dated the 24th March, 1973, under sub-section (3) of section 17 of the Export (Quality Control and Inspection) Act, 1963.

[Placed in Library. See No. LT-4777/73].

LIGHT DIESEL OIL (FIXATION OF CEILING PRICES) ORDER, 1973

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND

CHEMICALS (SHRI DALBIR SINGH): I beg to lay on the Table a copy of the Light Diesel Oil (Fixation of Ceiling Prices) Order, 1973 (Hindi and English versions) published in Notification No. G.S.R. 189 (E) in Gazette of India dated the 1st April, 1973, under sub-section (6) of section 3 of the Essential Commodities Act, 1955. [Placed in Library. See No. LT-4778/73].

ESTIMATES COMMITTEE

THIRTY-SIXTH REPORT AND MINUTES

SHRI K. N. TIWARY (Bettiah): Sir, I beg to present the following Report and Minutes of the Estimates Committee:—

- (1) Thirty-sixth Report on the Ministry of Agriculture (Department of Agriculture)—Special Programme for Weaker Sections and Employment.
- (2) Minutes of the sittings of the Committee relating to the above Report.

13.04 hrs.

PLANE CRASH NEAR PATNA

श्री शंकर ब्याल सिंह (चतरा) : अध्यक्ष महोदय, कल पटना के पास रोहतास इंडस्ट्रीज का एक प्लैन क्रैश किया जिस में चार आदमी मारे गए । मैं सरकार का ध्यान केवल इस ओर आकृष्ट करना चाहूंगा कि उस प्लैन की

[श्री शंकर दयाल सिंह]

जांच सिविल एविएशन द्वारा होती है या नहीं ? मैं यह भी जानना चाहूंगा कि बिहार सरकार के जो अधिकारी उस में बैठे थे वह किस हैसियत से बैठे थे यद्यपि उन के प्रति हमारी सिम्पैथी है। इस के साथ साथ मैं यह भी जानना चाहूंगा कि यह जो प्राइवेट प्लेन्स उड़ते रहते हैं उन पर कोई रोक लगाने का क्या विचार है ? जब तक उन को ठीक से जांच न हो तब तक उन को उड़ने की परमिशन नहीं मिलनी चाहिए। मैं चाहूंगा सिविल एविएशन मिनिस्टर इस सदन के सामने इस सम्बन्ध में अपना एक वक्तव्य दे।

13—4½ hrs.

RE. STRIKE BY EMPLOYEES OF
RESERVE BANK OF INDIA

SHRI DINEN BHATTACHARYYA
(Serampore): Under Rule 377, I wish to raise the following matter of urgent public importance.

"The employees of the Reserve Bank of India are holding country-wide demonstrations including one day strike today, that is, April 10, 1973, against various schemes introduced by the Bank including installation of computers which would result in elimination of jobs and against new methods adopted for destruction of notes contrary to the normal rules giving rise to wide scope of fraud and also seriously affecting future job potential. Serious resentment has also expressed by the employees against the transfer of employees to other banks."

My request to the Minister through you is to immediately take up the issue, otherwise there will be all India prolonged strike on this issue. The Minister should take note of this situation which is developing throughout the country.

(Interruptions)

13.06 hrs.

RE. MODE OF ADDRESSING THE
SPEAKER

अध्यक्ष महोदय : पिछले दिन यहां पर जब पेट्रोलियम के मंत्री बरुआ जी बोल रहे थे तो वे मुझे सदर साहब कह रहे थे तो मैंने देखा जिसकी मर्जी चाहे कुछ कह देता है, कोई सदर साहब, कोई प्रधान साहब, कोई सभापति, तो मैंने उन्हें रोका कि स्पीकर ही कहिए क्योंकि स्पीकर शब्द के पोछे एक इतिहास है। अगर आप लोगों को इस हाउस में कोई शब्द कहना हो तो वह एक ही होना चाहिए, वह हिन्दी का ही शब्द ले लीजिए लेकिन एक ही होना चाहिए। तो पंजाब में एक अखबार है "अजीत" उसके एडीटर साहब ने कुछ को कुछ बात बना ली, वे कहते हैं कि मैंने कहा मुझे सरदार साहब नहीं कहना चाहिए। (व्यवधान) उन्होंने सदर साहब को सरदार साहब बना लिया और उसको लेकर दो लोडिंग आर्टिकल लिखे कि देखो, यह अच्छा आदमो है, पंजाब से आया है, सरदारों में से है और अपने आप को सरदार नहीं कहलवाता। जबकि और सभी अखबारों में ठीक छया "सदर साहब" तो मुझे अजीत अखबार ने सरदार लिखने में जान-बूझी शरारत की। उनको सिवाय स्पीकर के और कोई मजबूत ही तलाश नहीं होता है ? और भी कोई विषय हो सकता है। इसलिए मुझे इस बात का अफसोस हुआ। (व्यवधान) बहुत डिस्टार्ट किया है। उनका यह काम है लेकिन स्पीकर को तो उन्हें छोड़ देना चाहिए और आपस में झगड़ा रखें। मैंने इस बात

को पसन्द नहीं किया है, मैं प्रेस गैलरी कमेटों के चेयरमैन के पास भेजूंगा कि जानबूझकर ऐसी बातें नहीं होनी चाहिए।

मैंने सोचा था कि सारी पार्लमेन्ट्स में स्पीकर ही बोलते हैं, यहां स्पीकर ही ठीक है या और कोई शब्द कना हो, इस सिलसिले में मैंने एक महापुरुष से पूछा भी और उनके बोलते बोलते निकल गया कि संसद अध्यक्ष होना चाहिए। एक शब्द होना चाहिए आप कोई भी रख लीजिए लेकिन यह नहीं होना चाहिए कि जब मैं यहां बैठा हूं तो कोई सदर साहब कहता है, कोई सभापति कहता है या कोई नाथ कहे या स्वामी कहे—यह बात गलत है। मैंने सबसे पूछा है, मेरे अपने खयाल में जो मॉडल को कमेटो होती है उसको भी अध्यक्ष बोलते हैं। औरों से फर्क डालने के लिए लोक सभा अध्यक्ष के लिए “संसद अध्यक्ष” ठीक रहेगा व बेहतर हो स्पीकर हां कहा करें क्योंकि इके पाछे इतिहास है। (व्यवधान)।

MR. SPEAKER: Order, Order. Both of you please sit down.

SHRI LILADHAR KOTOKI (Now-gong): Mr. Speaker, Sir, yesterday....

अध्यक्ष महोदय : आप से मैंने कह दिया वह ठीक है।

श्री शिवनाथ सिंह (झुंझनू) : स्पीकर अंग्रेजी का शब्द है और हिन्दी में अध्यक्ष कहना चाहिये (व्यवधान)।

अध्यक्ष महोदय : राष्ट्रभाषा हमारी जो है उस का एक शब्द होना चाहिये, यह नहीं कि जिसकी भर्जी जो कह दे। अध्यक्ष ठीक रहेगा। संसद अध्यक्ष होना ठीक है। यही शब्द मान लेना चाहिये।

श्री एस० ए० शमीम (श्रीनगर) : आप के प्रोडिसिसर इन आफिस, सरदार हुकम सिंह ने एक दर्दनाक दास्तान लिखी है अखबार में कि टेलीफोन वालों ने उन से रिश्तत लो हैं, और उन का टेलीफोन मुस्तकिल खराब रहता है। और खासतौर से साबिक स्पीकर जो हों वह यह कहें कि टेलीफोन वालों ने 10 मर्तबा उन से रिश्तत ली है, मैं समझता हूं कि बहुगुणा जी की तबज्ज आप इस तरफ दिलायें। यह बात अगर साबिक स्पीकर के साथ हो सकती है तो कल को आप के साथ भी हो सकती है।

SHRI PILOO MODY (Godhra): What is the final decision on the 'Speaker'?

MR. SPEAKER: I think the word should be retained as 'Speaker'. In case you want to use a word in your own language, the only word that should be approved should be the word in the national language and not in regional languages.

श्री राम सहाय पांडे (राजनंदगांव) : अध्यक्ष जी, आप चूंकि एक निर्णय देने जा रहे हैं जिस का सम्बन्ध इतिहास, परम्परा और संसद की प्रक्रिया से भी है, और मैं आप की इस भावना से और आदेश से जो अपने दिया, और शब्द व्याख्या के परि-वेश में जो कहा है कि अध्यक्ष कहा जाय तो ज्यादा अच्छा है कि संसद अध्यक्ष कहा जाय क्योंकि जहां कहीं भी उल्लेख होगा अगर संसद को जाड़ देते हैं तो उस से आप को और इम सदन की गरिमा बढ़ जाती है। आप ने ठीक कहा कि अध्यक्ष बहुत सो साभाओं में हो सकते हैं। लेकिन अगर कहीं हम सभा में संसद अध्यक्ष कहें तो यह रूप, प्रारूप, व्याख्या यह सब कुछ अपने आप में सम्पूर्ण है। संसद अध्यक्ष ठीक है।

SHRI PILOO MODY: It appears the three words approved are: Sansad Adhyaksh, Speaker and Espeaker.

SHRI S. A. SHAMIM: Adhyaksh is used in Parliament that has special significance, just as we use speaker, Speaker does not mean an ordinary speaker. Therefore Adhyaksh is correct and we should not add Sansad to that word.

अध्यक्ष महोदय : अध्यक्ष तो जो भी सभा हो उस में होता है । बाहर भी जो सभा होती है तो उस में अध्यक्ष होता है । मुहल्ले की मीटिंग में भी अध्यक्ष होता है । इस में संसद जरूर आना चाहिए ।

श्री एस० एम० बनर्जी (कानपुर) : अध्यक्ष महोदय, मेरा निवेदन है कि आम तौर से तो हम स्पीकर कहते हैं । लेकिन स्पीकर शब्द अंग्रेजी का है, यह हमारे देश का नहीं है । कुछ लोगों को संसद अध्यक्ष कहने में दिक्कत हो सकती है, वह चाहें तो आप को केवल अध्यक्ष ही कहें, क्योंकि अध्यक्ष के माने में जब अध्यक्ष आप को कोई कहता है तो माने है कि संसद के अध्यक्ष कल आप ने उर्दू जवान की काफी तर्जुमानी की

अध्यक्ष महोदय : मैं समझता हूँ कि मेरे से बड़ा उर्दू जवान की तर्जुमानी करने वाला कोई नहीं है ।

श्री एस० एम० बनर्जी : मैं कह रहा था कि अगर शमीम साहब उर्दू में बोलते हैं और सदरे ऐवान कहें तो मेरे खयाल में ऐवान तो हम कहते हैं, सदरे ऐवान ठीक है । इसलिये मेरी गुजारिश है कि अगर कोई उर्दू में भाषण देना चाहें तो वह आप को सदरे ऐवान कहें, इस कोई एतराज को बात नहीं है ।

SHRI PILOO MODY: Even in Gujarati it is a bad word.

MR. SPEAKER: Speaker or Sansad Adhyaksh.

SHRI P. G. MAVALANKAR (Ahmedabad): What have you to say Sir, about the telephone difficulties experi-

enced by the former Speaker, Sardar Hukam Singh?

SHRI S. A. SHAMIM: He had been charged ten times.

MR. SPEAKER: If the ex-Speaker says it has happened, if he writes to the Minister, the Minister can examine it. (Interruptions)

SHRI S. A. SHAMIM: Is there no protection to Sardar Hukam Singh?

MR. SPEAKER: I shall go to him personally and enquire about it.

13.17 hrs.

DEMANDS FOR GRANTS, 1973-74—
contd.

MINISTRY OF IRRIGATION AND POWER
CONTD.

SHRI LILADHAR KOTOKI (Now-gong): Yesterday, I was dealing with shortage of power and I mentioned that the per capita consumption of electricity in India in 1970-71 assessed at 9 kwh is dismally low, compared to the per capita consumption of 4013 kwh in America. I also mentioned that four figures of per capita consumption are low; they are staggering-ly low in some parts of the country. May I substantiate it with some figures? In 1970-71 the per capita consumption in Assam happened to be kwh, Andhra 55, MP 55, Rajasthan 46, UP 58, Bihar 65 and on the higher side, Maharashtra 157, Punjab 144, Tamilnadu 132. West Bengal 115, Gujarat 135. It shows how uneven it is our country itself. I raise this point to remind the planners of what they should do when they talk of removing imbalances in the country.

SHRI P. G. MAVALANKAR (Ahmedabad): On a point of order. May I seek your guidance? Cut motions in respect of the Ministry of Irrigation and Power were moved at the fog end of the debate yesterday. Would you therefore kindly permit us to move cut motions at this stage because we could not do so yesterday?

MR. SPEAKER: Normally that is the practice we follow. The Speaker gives 15 minutes time and they are moved. If there is departure from that, it will be a precedent for the future; so we shall have to follow that.

SHRI LILADHAR KOTOKI: What is the approach in the Fifth Plan? This has been approved by the National Development Council and laid on the Table of the House and is shortly going to be discussed in this House also. Very welcome and imperative and urgent measures have been suggested such as, removal of poverty, removal of imbalances, catering to the weaker sections of society, combatting the menace of ever increasing unemployment, both urban and rural, more especially the educated unemployed and particularly, unemployed technocrats. How can these things be achieved unless there is power? Electricity is the basic infrastructure of all development and we are going to land ourselves in a crisis in this matter, to which I drew the attention of the House yesterday. We should take serious note of the present shortage. The projections in this perspective of decade 1971-81 will not be achieved for two reasons. Firstly, this document itself says that power generation takes a long gestation period and secondly it is a highly capital intensive thing. Advance action of a considerable size which is necessary has not been provided for. It is precisely because advance action of the needed magnitude was not taken in the earlier plans and in the earlier years of this Plan that we are today in this crisis. How is it we are going to achieve the target of 50 million kw by 1981 when today in 1970-71 our achievement is only 15.10 million kw installed capacity?

There is another aspect in power development. There are various sources—thermal, coal or fuel oil based. Coal and fuel oil, are in short supply. Even though a particular installed capacity is there, the actual generation will not be there unless other raw materials are there. For instance, we

have hydel projects. But we are in the grip of a drought and our reservoirs are drying up, which affects power generation. It is a catastrophe. I am therefore cautioning the Government, the Planning Commission particularly to see that adequate finances and other perquisites including the technical know-how, if necessary, import of machinery, etc. are made available so that power is generated without delay.

I am saying this because in many cases the generation of power is delayed due to the non-receipt of generating machinery or other essential raw material like steel or cement. I am not blaming one or the other; it is the responsibility of this Government and the concern of this Parliament to find out the causes and remove them. The country will not tolerate any delay in economic development, more so the advancement of weaker sections and backward classes.

The other thing is the economical development of power. On page 5 of the document Power Generation of the Decade 1971-81, on their own admission, they say: "hydel resources represent the cheapest source of power in the country and they would have to be the first choice and they would warrant development to the maximum extent wherever possible; in addition hydel projects also afford the highest employment potential." That is what they say. What do we find in their programme?

13.24 hrs

[MR. DEPUTY-SPEAKER in the Chair]

In connection with the economic exploitation of water resources, may I congratulate Dr. K. L. Rao for conceiving a very ambitious and at the same time a very welcome idea of having a national water grid. Many an expert derided this idea. I am glad to find that even the UN experts have recently not only agreed with the idea but have also emphasised that

[Shri Liladhar Kotoki]

this should be taken up expeditiously. What does it mean? Linking Ganga with Cauvery, and again Ganga with Brahmapura. It will take a long time no doubt but a time has come to take a firm decision that this is a feasible proposition and we must go ahead with it, more particularly I emphasise the Ganga-Brahmaputra canal. In that connection I also link it up with the Ganga-Brahmaputra basin which includes the newly-emerged Bangla Desh. The entire flow of the northern rivers and the southern rivers also, which flow into the Bay of Bengal, the flow of Brahmaputra and the Ganges which constitute huge water resources for our country are allowed to go waste, not only that, they create colossal havoc year after year, more particularly after the big earthquake of 1950. I will not go into those arguments; year after year I have raised these things and only last year, on 8 August, we discussed that subject; I am not referring to it at all now. I welcome is the formation of the Joint Indo-Bangladesh River Commission. This is very necessary and I hope it will start the work soon.

About irrigation, I would only refer to the volumes I and II and parts 1 and 2 of Volume III of the report of the Irrigation Commission about the integrated development of the water resources. If you take it in isolation only for hydel power or for flood control or for irrigation, it may be turned down because it may be uneconomic. But if they are taken in an integrated manner, it would be found to be feasible. So far as Brahmaputra flood control is concerned, only lately the Governor of Assam in his address to the Assembly has stated that the Assam Government have agreed with the Centre's draft legislation for taking over the Commission by the Centre. This is a long standing demand because it is beyond the capacity of the State Government to cope with this colossal problem. I hope the Government will bring the legislation expeditiously.

Apart from the benefits of flood control and irrigation, and power, if hydro-power is surplus, it can be further processed as feedstock for fertilisers, of which also we are in short supply and we have to import. In Nangal, they have processed hydro-power into feedstock for fertilisers. In Kameng in Arunachal Pradesh, there is a proposal to do so but in the report they have omitted it. So, this integrated development of our water resources for flood control, irrigation and power and if there is surplus power, for feedstock for fertilisers, is the answer.

श्री कमल मिश्र मधुकर (केसरिया) :

उपाध्यक्ष महोदय, इस मंत्रालय के बजट पर सरकार की कड़ी से कड़ी आलोचना होनी चाहिये इसलिये कि कुछ नई स्थिति पूरे देश में अभूतपूर्व ढंग से आ गई है और उसका नतीजा यह हो रहा है कि आज एक तरफ से बिजली की कमी के कारण सारे देश में हाहाकार मचा हुआ है। हर क्षेत्र में, चाहे कृषि हो, उद्योग हो, राजकीय उद्योग हों, या रक्षा संस्थानों में जहां रक्षा उत्पादन होते हैं, वे संस्थान हों, पावर लूम हों, तमाम क्षेत्रों में बिजली की जो कमी है उसके चलते स्थिति ऐसी पैदा हो गई है कि मंत्रालय की कड़ी से कड़ी आलोचना होनी चाहिये। जैसी स्थिति देश में बिजली की कमी से पैदा हुई है उसके लिये इस मंत्रालय की जितनी भी आलोचना की जाय वह नाकाफी है। इतनी बड़ी अदूरदर्शिता का परिचय इस मंत्रालय ने दिया है। यह नीम की पत्ती चाहे माननीय मंत्री जी चबायें या उनके अधिकारी लोग चबायें, लेकिन उनके आज यह नीम की पत्ती चबाने के लिये मजबूर होना पड़ेगा चाहे जितनी भी कड़ी वह क्यों न हो।

इस बात को देखा जाय कि पावर शार्टेज आज हिन्दुस्तान में ही रही है उसके चलते रहने क्या स्थिति हो रही है ? जो आंकड़े हमें उपलब्ध हैं उनको ही लिया जाय तो महाराष्ट्र में 50 प्रतिशत, पंजाब में 60 प्रतिशत, तमिलनाडु में 75 प्रतिशत, उत्तर प्रदेश में 40 प्रतिशत, हरयाने में 40 प्रतिशत, इस तरह से तमाम राज्यों में कुछ एक राज्यों जैसे केरल इत्यादि को छोड़कर बाकी तमाम जगह बिजली की घनघोर कठिनाई हो गई है। नतीजा यह है कि इकोनोमिक सर्वे जो आपका निकलाता है उसमें यह कहा गया है कि :

"The prospect of a serious power shortage hangs like a dark cloud over the growth of Industrial production."

आप देखिये। यह आपकी ही रिपोर्ट है, उसी में यह स्थिति आपको बताई गई है। जो स्थिति हो रही है आये दिन लगातार आपके सदन में भी इस बात पर चर्चा हो रही है।

इतना ही नहीं बिजली की आपूर्ति में क्वाटें, लो-वोल्टेज, बिजली की दरों में लगातार वृद्धि, बिजली के कनेक्शन लेने में घूसखोरी, किसानों के लिये न्यूनतम इस्तेमाल की गारन्टी और उसके लिये लिया जाने वाला चार्ज, इन सारी चीजों के कारण कितनी ही कठिनाई हो रही है। अगर इसका हिसाब लगाया जाये तमाम क्षेत्रों में जो कमी हुई है और जो नुकसान हो रहा है उसका दखा जाये तो करोड़ों करोड़ रुपये हथ भुगताने जा रहे हैं।

आप यह कह सकते हैं बहुत गौरव के साथ कि हमने हिन्दुस्तान में बिजली के मामले में काफी तरक्की की है। 1951-52 में जहां हमारी क्षमता 1363 मैगावाट थी उसे बढ़ा कर आज 17.5 मिलियन मैगावाट कर दिया है और 1973 के अन्त तक 18 मिलियन मैगावाट तक क्षमता बढ़ाने जा रहे हैं। पांचवीं योजना के अन्त तक 28 मिलियन मैगावाट बिजली बनाने की योजना है। आप यह भी कह सकते हैं कि हिन्दुस्तान में पांच लाख 66 हजार गांवों में से करीब एक लाख तीस हजार गांवों में बिजली 1973 के अन्त तक पहुंचाने जा रहे हैं। लेकिन यह जो आपने काम किया है, जो देश की आवश्यकता है उससे इसका मिलान किया जाये तो आपके ये आंकड़े सन्तोष के लायक नहीं हैं। जो देश की आवश्यकता है उसको ध्यान में नहीं रखा गया है जब कि देश की आबादी का अस्सी प्रतिशत खेत पर निर्भर करता है तो खेती को मैकेनाइज करने के लिये बिजली की आवश्यकता है और बिजली की आवश्यकता आप पूरी नहीं कर पा रहे हैं तो खेती की तरक्की भी आगे नहीं बढ़ेगी। आप डिवेलेप्ड देशों को देखें, अमरीका में 7 प्रतिशत लोग खेती पर हैं, लेकिन वह देश न केवल अपनी आवश्यकताओं की पूर्ति कर रहा है बल्कि वह आपको भी अन्न देता है और यह आज इस देश के लिये शर्मिदा होने की बात है, अपमानजनक है कि हम अमरीका से अन्न लेकर अपने यहां लोगों को खिलाते हैं। रूस में 23 प्रतिशत लोग खेती में लगे हुये हैं लेकिन वहां की तमाम खेती मैकेनाइज्ड है और उसमें बिजली का इस्तेमाल हो रहा है। आंकड़ों

[श्री कमल मिश्र मधुकर]

को देखा जाये तो दुनियां की 22 प्रतिशत आबादी 98 प्रतिशत बिजली का इस्तेमाल कर रही है और 78 प्रतिशत आबादी के पास बिजली की बहुत ही कमी है। भारत में सबसे बुरी हालत है। आपकी रिपोर्ट को मान लिया जाये तो 93 किलोवाट बिजली प्रति व्यक्ति की खपत आपके यहां है और उत्तर बिहार में तो 15 किलोवाट प्रति व्यक्ति पड़ता है। आपकी रिपोर्ट की प्रस्तावना में एक जगह कहा गया है कि Electricity supply is life blood of development. आप सोचिये कि शरीर में ब्लड सर्कुलेट नहीं होता रहेगा तो कब लकवा मार दे इसका कोई ठिकाना नहीं और लकवा मार चुका है। इस सार्टेज के चलते आज यह हो रहा है कि ग्रामों के उद्योग खेती, खानों का काम, बिजली से चलने वाली रेल गाड़ियां, ये सारे के सारे काम ठप्प हो रहे हैं। नतीजा यह है कि आपने जो लक्ष्य निर्धारित किया है बेकारी दूर करने का और समाजवाद लाने का वह पूरा नहीं हो रहा है। इसका कारण यह है कि आपकी नीति न पूंजीवादी डेवलपमेंट की है न समाजवादी डेवलपमेंट की है, बल्कि पूरे मंत्रालय की नीति सामन्ती दृष्टिकोण से गाइड हो रही है। इसमें न कोई योजना है, न दूरदर्शिता और न भविष्य की कोई परिकल्पना है। आप ने जो लक्ष्य निर्धारित किये हैं चाहे वह खेती के मामले में हों, बाड़ नियंत्रण के मामले में हों, ग्रामीण औद्योगिकीकरण के मामले में हों, या किसी भी मामले में आपने जो लक्ष्य निर्धारित किये हैं

उनकी पूर्ति नहीं हो पा रही है। मैं आपके ही आंकड़े सामने रखना चाहता हूं। बिजली के उत्पादन का लक्ष्य 1973 के अन्त तक 23 मिलियन किलोवाट आपने निर्धारित किया था। लेकिन वह लक्ष्य आपका पूरा नहीं होने जा रहा है। 1972-73 में 1.5 मिलियन किलोवाट बिजली पैदा करने का लक्ष्य था, उसमें केवल 1 मिलियन किलोवाट पूरा होने की आशा है। वैसे ही बाड़ नियंत्रण के सम्बन्ध में भी 7.5 मिलियन हेक्टेयर भूमि की सुरक्षा का लक्ष्य था जिसमें केवल 7.1 मिलियन हेक्टेयर की पूर्ति आपने की है। वैसे ग्रामीण विद्युतीकरण के लिये 1 लाख 30 हजार गांवों में बिजली लगाने की योजना थी, लेकिन केवल 1 लाख गांवों में बिजली लगाने जा रहे हैं। हरिजन बस्तियों के लिये स्कीम बनाई गई—लेकिन उसका क्या हुआ ? गांव-गांव में पोल रख दिये जाते हैं और रिपोर्ट भेज दी जाती है कि बिजली लग गई, परन्तु वास्तव में बिजली नहीं लगती, स्ट्रीट लाइट तक उनको नहीं मिल पाती है। हरिजन बस्तियों के साथ एक तरह से खिलवाड़ किया जा रहा है। उत्तर प्रदेश का बोर्ड काम को करना चाहता है, लेकिन उनके साथ न्याय नहीं हो रहा है, उनके फण्ड को डाइवर्ट किया जा रहा है।

इसी तरह से आपका जो सिंचाई का लक्ष्य था, वह पूरा नहीं हुआ है—10 मिलियन हेक्टेयर की योजना थी, 8 मिलियन हेक्टेयर को कर पायेंगे। गण्डक, कोसी और दूसरी योजनाओं की यही स्थिति है—नतीजा यह हो रहा है कि देश को तरक्की के जिस रास्ते

पर जाना चाहिये था, वह सफ़लता प्राप्त नहीं हो रही है। उत्तर बिहार, में जहाँ लगातार पानी देने वाली नदियाँ हैं, उपजाऊ भूमि है, वहाँ केवल 15 किलोवाट बिजली लोगों को मिलती है। नतीजा यह होता है जहाँ यूरेनियम, थारियम जैसी चीजें उपलब्ध हैं, उनका इस्तेमाल बिजली के उत्पादन के लिये नहीं हो रहा है, यहाँ तक कि कोयले तक का इस्तेमाल नहीं हो रहा है, जिनसे बिजली पैदा की जा सकती है। इसी तरह से केरल में बिजली के इतने साधन हैं यदि उनका सही रूप में इस्तेमाल किया जाय तो केरल में इतनी बिजली पैदा हो सकती है कि अपनी आवश्यकता की पूर्ति के बाद बड़े अन्य प्रदेशों को भी दे सकता है। उन्होंने आप को इसके सम्बन्ध में एस्टीमेट्स भी दिये हैं, लेकिन आपका ध्यान उनकी ओर नहीं जा रहा है। बिहार के लिये चौथी पंचवर्षीय योजना में आप 183 करोड़ रुपया इस पर खर्च करने वाले थे, परन्तु अब उसको घटा कर 137 करोड़ कर दिया गया है। 12 हजार 500 गांवों के लक्ष्य को घटा कर 4500 गांवों को बिजली देने की योजना चल रही है। बिहार में आपने एक अच्छे चेयरमैन दिये हैं, लेकिन आप उनको फण्ड नहीं दे रहे हैं, जिसकी वजह से काम नहीं हो रहा है। नतीजा यह हो रहा है कि आपके काम के हर क्षेत्र में गिरावट आ रही है। मेरा सुझाव है कि—

1. देश की न्यूक्लियर एनर्जी से बिजली पैदा करने वाली बृहद् योजनाएँ बनाई जायं। देश के अन्दर पर्याप्त न्यूक्लियर पावर उपलब्ध है, उसका इस्तेमाल किया जाय और ऐसी योजनाएँ बनाई जायं जो देश की बढ़ती हुई

बिजली की आवश्यकता को पूरा कर सकें और वे लगातार चलने वाली योजनाएँ हों।

2. आप नेशनल वाटर ग्रिड बना रहे हैं—जमना-कावेरी को मिलाने की योजना बना रहे हैं, उसी तरह से आप देश के अन्दर बिजली के लिये भी अधिक से अधिक प्रयास करें। विभिन्न योजनाओं के अन्दर केन्द्र को अधिक से अधिक भाग लेना चाहिये। हमारा बिहार का अनुभव है—आपने बिहार को बरोनी में एक नया यूनिट देने की बात कही है—लेकिन बिहार के पास पैसा नहीं है, वह यूनिट काम नहीं कर रहा है। इसलिये केन्द्र को आगे आकर उसमें राज्य सरकार की सहायता करनी चाहिये। आपको चाहिये इन्टीग्रेटेड आपरेशनल प्रोग्राम बनायें, इससे यह लाभ होगा कि जहाँ सरप्लस हो या जहाँ कमी हो, उसका ठीक ढंग से इस्तेमाल किया जा सकेगा। उत्तर बिहार ऐसा इलाका है जहाँ ऐसी पहाड़ी नदियाँ हैं, जिनमें हर समय पानी मिलता है—वहाँ आपको अधिक से अधिक पन-बिजली योजनाएँ लागू करनी चाहियें।

3. आज एक नये आउटलुक की जरूरत है। जहाँ कोई नया प्लांट खोला जाता है, उसमें ब्रेक डाउन होती है, गड़बड़ होती है, उसका कारण यह है कि उनके जो मैनेजर हैं या अधिकारी हैं, उनका दृष्टिकोण अभी भी पुराना बना हुआ है। मैं समझता हूँ कि इसके लिये उन पर जिम्मेदारी होनी चाहिये, उनका प्रमोशन और डिमोशन इसी बात पर निर्भर करना चाहिये कि वे काम को आगे बढ़ाते हैं या उसमें रुकावट पड़ती है।

[श्री कमल मिश्र मधुकर]

4. आपको इस बात का ध्यान रखना चाहिये कि आपका मंत्रालय अभी तक स्टेट-मिनिस्टर की हैसियत रखता है, पता नहीं इसी के कारण जो फण्ड आप मांगते हैं, वह नहीं मिलता है या अन्य मंत्रालयों के साथ आप का प्रोपर कोऑर्डिनेशन नहीं है—यह खींचातानी अब समाप्त हो जानी चाहिये।

5. इस देश में बिजली का तमाम उत्पादन राजकीय संस्थानों के हाथ में है। अमरीका तथा दूसरे स्थानों में प्राइवेट संस्थानों के हाथ में है। आप को यह अनुभव करना चाहिये कि जहां बिजली का उत्पादन तथा वितरण राजकीय संस्थानों के हाथ में है तथा उसमें सब राजकीय पूंजी लगी हुई है—वहां पर एक नये सिस्टम के मैनेजमेंट की जरूरत है तथा वह ऐसा हो जिसमें रूलर और रूल्ड, छोटे अधिकारी और बड़े अधिकारी की भावना न रहे। रूलर और रूल्ड की भावना को, नौकरशाही की भावना को खत्म करना चाहिये, मैनेजमेंट में तमाम वर्कर्स का पार्टिसिपेशन होना चाहिये ताकि वे महसूस करें कि यह थर्मल पावर प्लांट हमारा प्लांट है। बड़े अधिकारियों और छोटे अधिकारियों के बीच में सहयोग की भावना हो। हम को जो भी प्लांट पूरा करना है—उसमें दोनों की भूमिका समान है, उनमें भेद नहीं होना चाहिये। उसमें ऐसी व्यवस्था नहीं होनी चाहिये जिसमें मतभेद बढ़े। कुछ अफसर अपने आप को बड़ा समझें और छोटे कर्मचारियों को थर्ड-क्लास लोग समझें, आदमी नहीं बल्कि जानवर समझें।

6. लेबर ट्रबल क्यों होती है—इसलिये होती है कि आपके मैनेजमेंट का दृष्टिकोण अभी

नहीं बदला है, नया आउट-लुक उन्होंने एडाप्ट नहीं किया है—इस बात पर ध्यान देना चाहिये।

7. आपको अपने देश में डिजाइन के नये नये संस्थान खोलने चाहियें, कम से कम एक जोन में एक डिजाइन संस्थान अवश्य होना चाहिये।

8. बिजली संस्थानों के निर्माण एवं अन्य मुख्य कार्यों में ठेका व्यवस्था समाप्त होनी चाहिये।

9. आपरेशनल ट्रेनिंग की समुचित व्यवस्था की जाय।

10. स्पेअर पार्ट्स के ऐसे कारखाने खोलने चाहियें, जिसमें अपने देश में ही स्पेअर पार्ट्स बन सकें। हमें बाहर से मंगाना न पड़े।

11. ग्रामीण विद्युतीकरण में इस बात का ध्यान रखा जाय कि जिन गांवों में बिजली लगा दी जाय, वहां ऐसे छोटे-मोटे कारोबार खोले जाय जिनसे वहां पर लगाई गई बिजली का इस्तेमाल हो सके और वहां के रहने वालों को मुनाफा हो सके।

12. छोटे किसानों, श्रमिकों की सहयोग समितियों के द्वारा बिजली के इस्तेमाल की व्यवस्था की जाय ताकि ग्रामीण आबादी को नई जिन्दगी के निर्माण का अवसर प्राप्त हो और आप के द्वारा लगाई गई बिजली की खपत हो सके और उनको मुनाफा हो।

सिंचाई के मामले में आपने जो काम किया है, यद्यपि उसमें आपने कुछ तरक्की की है, मैं उसकी प्रशंसा करता हूँ, लेकिन आज देश की जो आवश्यकता है उसका आपने ध्यान नहीं

रखा है। आपने जो रिपोर्ट दी है, उसके अनुसार चौथी पंचवर्षीय योजना के अन्दर आप 1200 करोड़ रुपये खर्च करने जा रहे हैं, लेकिन उससे भी देश का 20 फीसदी भाग सिंचित होगा। बिहार में 24.1 प्रतिशत, पंजाब में 43.1 प्रतिशत, तमिलनाडू में 41 प्रतिशत और उत्तर प्रदेश में 31 प्रतिशत सिंचित होगा। यह क्या स्थिति है? सबसे पहले तो आपने देश की तमाम बड़ी बड़ी योजनाओं का राज्य सरकारों पर छोड़ दिया है—जैसे राजस्थान कैनल योजना है, गण्डक योजना है, काशी योजना है, बागमती योजना है—ऐसी बहुत सारी योजनाएँ हैं। हिन्दुस्तान में बहुत सारी नदियाँ हैं—हमारे यहां के पंडित लोग हथेली में जल लेकर—गंगा, गोदावरी, कृष्णा, सभी नदियों का नाम लेते हैं और कहते हैं कि सब का जल हाथ में आ गया, लेकिन जरूरत इस बात की है कि सब नदियों का जल हाथ में न आये, बल्कि खेतों में जाय। इसलिये जरूरी है कि आप इन बड़ी बड़ी नदियों की जो स्कीमें हैं इनको अपने हाथ में लीजिये और इस बात का भी ध्यान रखिये कि जहां बड़ी बड़ी योजनाएँ पानी देने वाली नहीं हैं, वहां ट्यूब वेल्ज की व्यवस्था कीजिये। जहां ऐसी नदियाँ हैं, जिनमें लगातार पानी मिलता है, वहां बड़े पावरफुल पम्पिंग सैट्स लगायें, जिससे कि उन इलाकों की सिंचाई हो सके।

मुझे बिहार का अनुभव है—आप गण्डक योजना को ही लीजिये। उसके बारे में मैंने रिपोर्ट भेजी है—गण्डक योजना ने पिछले साल अच्छा काम किया है, लेकिन आज भी गण्डक योजना के इंजीनियर, बहुत ही निराश और हताशा हैं। उनकी प्रमोशन, डिमो-

शन, ट्रांसफर के मामलों में मन्त्री जी के यहां जीहुजूरी कीजिये, दलाली दीजिये, धूस दीजिये—सब कुछ हो सकता है—इस बात की सूचना प्रधान मन्त्री जी को भी है कि कैसे गड़बड़ी होती है। उनके प्रमोशन के मामले में गड़बड़ी होती है। यदि कोई इंजीनियर या कोई अधिकारी सही ढंग से काम करना चाहते हैं तो उनको आप डिमोट कर देते हैं। ऐसी स्थिति में क्या कोई भी ईमानदार आदमी काम करने लायक रहेगा? इंजीनियर्स के प्रमोशन में आप उनके काम को देखिए, सीनियारिटी के हिसाब से ही मत कर दीजिए। इस बात से उनमें बड़ा असन्तोष है।

बागमती योजना के कार्य में कोई विशेष प्रगति नहीं हुई है। अभी तक अधिकारी एवं स्टाफ की पूरी नियक्तियां भी नहीं हो पाई हैं। उच्च सोन कैनल का काम भी फण्ड के अभाव में बिहार में धीमा पड़ा है। पश्चिमी कोसी नहर, नार्थ कोयल, पुन पुन आदि स्कीमें तो पता नहीं यह कांग्रेस का राज्य जाने के बाद ही बनेंगी या पहले। यद्यपि कुछ समझौता नैपाल से किया है। पूर्वी कोसी नहर में जो सिल्ट का जमाव हुआ है उसके बारे में चर्चा हुई है। गंडक योजना में भी फील्ड चैनल बनाने का काम स्कीम के अन्तर्गत लेना चाहिए। जब तक ग्राम पंचायतों के अधिकार में दिया जायेगा तब तक कठिनाइयां होंगी। इसलिए जहां पर बड़ी बड़ी योजनाओं को लागू करने का सवाल है उन योजनाओं की सरकार अपने हाथ में ले और राज्य सरकारों को छोटी छोटी योजनाएँ बनाने के लिए और ट्यूबवैल खोदने के लिए सहायता दे। बिहार, मध्य प्रदेश, राजस्थान आदि की नदियों का सही ढंग से इस्तेमाल नहीं हो रहा

[श्री कमल मिश्र मधुकर]

है। सात नदियां ही इस्तेमाल में आ रही हैं, बाकी नदियां नहीं आ रही हैं। गंगा कावेरी को जोड़ने की बात है उसी तरह से दूसरी नदियों को भी जोड़ने के विषय में ध्यान दिया जाये ताकि राष्ट्र की इस जल सम्पत्ति को इस्तेमाल में लाया जा सके।

बाढ़ के मामले में स्थिति यह है कि बाढ़ नियन्त्रण पर करीब 253 करोड़ रुपया खर्च करने के बाद भी समस्या का समाधान नहीं हुआ है। असम, पश्चिम बंगाल, बिहार, यू० पी० तथा समुद्री तट से लगे हुए प्रदेश उड़ीसा, आंध्र प्रदेश, केरल आदि पीड़ित रहते हैं। समुद्री तूफान से उड़ीसा, तमिलनाडू, आंध्र और केरल में करोड़ों रुपए की बर्बादी होती है। पिछले साल केरल में दो करोड़ की बर्बादी हुई। (व्यवधान) इसलिये मैं चाहूंगा कि इन तमाम इलाकों में बाढ़ नियन्त्रण की स्कीम लागू करने के लिए राज्य सरकारों ने जो मांग की है उन पर ध्यान दिया जाये और उनको सहायता दी जाये ताकि बाढ़ नियन्त्रण का काम ठीक से चले।

साथ ही सिकरहना कटाव से पीड़ित स्थान को आपने स्वयं देखा है लेकिन उस पर अभी तक कोई कार्यवाही नहीं हुई है। योजना फाइल में पड़ी है उसको कार्य में लाया जाये।

आपने गंगा फ्लड कण्ट्रोल बोर्ड कायम किया है उसमें केवल 19 बड़े अधिकारी और 54 छोटे अधिकारी बहाल हुए हैं ऐसी स्थिति में गंगा फ्लड कण्ट्रोल बोर्ड का काम पटना में कैसे चल सकता है? उनको और अधिकारी दीजिए और उनको और अधिक फण्ड दीजिए ताकि काम हो सके। इसमें नये दृष्टिकोण की

आवश्यकता है उसको समझ कर आप ऐसी योजनाओं पर काम करें ताकि देश में जो बिजली की कमी है वह दूर हो सके और सिंचाई के साधन भी बढ़ सकें।

डा० गोबिन्द दास रिछारिया (भांसी) :
उपाध्यक्ष जी, मैं आपका आभारी हूँ कि आपने मुझे इस सब से अधिक राष्ट्रीय महत्व के मंत्रालय के अनुदानों की मांगों पर बोलने का समय दिया। मैं इन मांगों का समर्थन करते हुए यह अनुरोध करना चाहता हूँ कि आज देश के स्वावलम्बन और विकास के दृष्टिकोण से बिजली के उत्पादन और बाढ़ नियन्त्रण की सब से बड़ी आवश्यकता है। इस देश में जो विधान बना है उसमें एक संशोधन करने की आवश्यकता है। हमारे देश का जो विधान बना उसमें पानी का अधिकार प्रदेशों को दिया गया है जिससे आये दिन दिक्कतें और मुसीबतें पैदा होती हैं। मेरा मंत्रालय से अनुरोध है कि वह शीघ्र ही इसमें परिवर्तन करे और पानी के ऊपर देश का और राष्ट्र का अधिकार होना चाहिए। आज इस देश में नर्मदा, कावेरी, सोन, बेतवा आदि बहुत सी नदियां हैं जिनका पानी बहता जाता है और उनके किनारे की जमीन सूखी रहती है। उन प्रदेशों में विवाद है जिनमें से होकर वे नदियां बहती हैं। उन प्रदेशों के विवाद तय न हो सकने के कारण उन नदियों का पानी बहता हुआ समुद्र में पहुंच जाता है और देश की जमीन सूखी पड़ी रहती है। इसलिए यह आवश्यक है कि यदि हो सके तो लोक सभा के इसी सत्र में यह परिवर्तन लाने की कृपा करें। मंत्री महोदय से मैं आपके द्वारा अनुरोध करना चाहता हूँ कि इस परिवर्तन को करके

इस देश के विकास में, इस देश की सिंचाई योजनाओं को बनाने में जो बड़ी भारी दिक्कत है उसको दूर करें। आप बाढ़ नियंत्रण के कार्य को प्रदेशों पर छोड़ देते हैं लेकिन जिन नदियों में बाढ़ आती है जैसे ब्रह्मपुत्र की बाढ़ का नियंत्रण करना आसाम व बंगाल के वश की बात नहीं है, यह उनके काबू के बाहर की बात है। उसी प्रकार से गंगा में जो बाढ़ आती है वह उत्तर प्रदेश, बिहार या बंगाल के अलग अलग काबू के बाहर की बात है। इस बाढ़ नियंत्रण के कार्य और दैवी विपत्ति के लिए आप कहते हैं कि यह प्रदेश के अधिकार में है और इसका प्रबन्ध करें। तो मुझे आपसे यह अनुरोध करना है कि आप इसको केन्द्रीय मामला मान कर केन्द्र के द्वारा इसकी सारी व्यवस्था, अर्थात् बाढ़ नियंत्रण की, करने की कृपा करें। बाढ़ें नियन्त्रण करके और सूखे स्थानों के लिए जो हमारे देश में ऐसे प्रदेश हैं जहां पानी की कमी है वहां पानी भेजें। बड़ी बड़ी नदियों में ब्रह्मपुत्र और गंगा बेसिन में देश का दो तिहाई पानी रहता है और बाढ़ द्वारा नुकसान होता है, और समुद्र में बेकार चला जाता है, उसको नियन्त्रित करके देश के ऐसे भूभाग में पहुंचा दें जहां पर पानी की कमी है, और सूखा रहता है इससे बाढ़ पर नियन्त्रण भी हो जायेगा और सूखे का मुकाबला भी किया जा सकेगा।

14.00 hrs.

मैं उस योजना की याद करता हूं जिसकी कल्पना हमारे सिंचाई मंत्री ने की है कि गंगा के पानी को कावेरी से मिला देना चाहते हैं। उससे बाढ़ का नियंत्रण होगा और साथ साथ देश के उस भूभाग को पानी पहुंचेगा

जहां पर आज सूखा रहता है। यह बहुत अच्छी योजना है, इस पर भी कार्य होने की आवश्यकता है और इस योजना को याद करते हुए यह कल्पना करता हूं कि किसी समय भगीरथ ने जो काम किया था कि गंगा का पानी जो हिमालय के ऊपर बहता था उसको उत्तर प्रदेश, बिहार और बंगाल में लाकर समुद्र तक पहुंचाया, उसी तरह की यह दूसरी कल्पना है, और जब सरकार होगी तो डा० राव को भगीरथ के रूप में याद किया जायेगा। मैं चाहता हूं कि उसमें शीघ्रता की जाय।

इसी के साथ साथ बिजली के उत्पादन का जहां तक सम्बन्ध है मैं कहना चाहता हूं कि इस वर्ष जो सूखा पड़ा है उस से यह प्रमाणित हो गया कि जहां दूसरे देश द्वारा हम पर आक्रमण होने पर उसका मुकाबला करने में हम सक्षम हैं, वहां दैवी आपदाओं का मुकाबला करने में, चाहे वह बाढ़ के रूप में हो, या सूखे के रूप में, स्वतन्त्रता के 25 साल बाद भी हम सक्षम नहीं हुए। इस वर्ष के सूखे ने यह साबित कर दिया कि केन्द्रीय सरकार को इससे सबक लेकर के उसे अपनी दिशा को बदलने की आवश्यकता है। और सब से बड़ी चीज जो मैं चाहता हूं वह यह कि बिजली उत्पादन के लिए आपने छोटे छोटे जलाशयों पर, छोटी छोटी नदियों पर जो बांध बनाये हैं जो एक आध वर्ष सूखे के कारण बिजली के उत्पादन में कमी कर देते हैं, तो उसको छोड़ कर आप ऐटमिक पावर से बिजली पैदा करें। इसके साथ साथ आपके पास कोयला अधिक है, जहां पर कोयला पैदा होता है वहां पर आप थर्मल पावर स्टेशन लगायें जो कि केन्द्रीय सरकार के अधीन हों, आपके

[डा० गोविन्द दास रिछारिया]

नियंत्रण में लगाये जायें क्योंकि जो थर्मल पावर स्टेशन प्रान्तीय सरकारों द्वारा लगाये गये हैं उन पर आये दिन कोयले की दिक्कत पैदा होती है, आये दिन केन्द्रीय विभागों में समन्वय न होने के कारण असुविधा होती है और बिजली का उत्पादन रुकता है। इसलिए बड़े बड़े थर्मल पावर स्टेशन जो 300, 400 मेगावाट बिजली पैदा कर सकें, उन को केन्द्रीय सरकार के मातहत लगाना चाहिये। और अगर प्रान्तीय सरकारों द्वारा लगाये जायें तो समन्वय रखें ताकि सामान समय पर पहुंच सके।

जहां तक बिजली पैदा करने का सवाल है मेरा सुझाव है कि पानी के द्वारा ऐसी जगहों पर बिजली पैदा करें जिन नदियों में हमेशा पानी रहता है। गंगा बेसिन की नदियों पर जैसे ब्रह्मपुत्र आदि हैं, जिन में हमेशा पानी रहता है, इन के ऊपर ही जल विद्युत के कारखाने लगा कर या बांध बना कर इनसे बिजली पैदा करें और उस बिजली का एक नेशनल ग्रिड बना कर सारे देश में उस बिजली का वितरण समान स्तर पर करें। जहां पानी होगा वहीं बिजली बनेगी, यह योजना होनी चाहिये और उसको सारे देश में भेजें तो अच्छा रहेगा।

साथ ही यह भी ध्यान रखें कि जिन प्रदेश सरकारों के द्वारा आप के पास जल विद्युत उत्पादन के लिए योजनाएं भेजी हैं उनको पांचवीं योजना में शामिल करना चाहिये। उत्तर प्रदेश में आज बिजली की अत्यन्त कमी है जिसके कारण उत्तर प्रदेश में बिजली का

संकट है। वहां की आबादी अधिक है इसलिये वहां की सरकार ने चार थर्मल पावर स्टेशनों की योजनायें और चार पानी विद्युत की योजनायें आपके पास स्वीकृति के लिये भेजी हैं। उनके नाम यह हैं: ऋषिकेश, हरद्वार जल विद्युत योजना 100 मेगावाट की, मनेरी पाली जल विद्युत योजना 156 मेगावाट की, विष्णु प्रयाग जल विद्युत परियोजना 262 मेगावाट की, बोवाला नन्द प्रयाग जल विद्युत परियोजना 130 मेगावाट की। और इसी तरह से थर्मल पावर स्टेशन की योजनायें यह हैं: हरद्वारागंज तापीय विस्तार, षष्ठम चरण 120 मेगावाट की, ओबरा तापीय विस्तार तृतीय चरण योजना, 400 मेगावाट की, गोरखपुर तापीय परियोजना 400 मेगावाट की और गैसटरबाइन परियोजना 100 मेगावाट की। ये योजनायें आपके विभाग में स्वीकृति के लिये उत्तर प्रदेश की तरफ से आयी हुई हैं। मेरा निवेदन है कि जब उत्तर प्रदेश में बिजली का संकट है तो आप के विभाग से इन सारी योजनाओं की स्वीकृति मिलनी चाहिये।

इसी तरह आपके उत्तर प्रदेश और मध्य प्रदेश के बीच जल विवाद तय कराया। उस सूखे भूखंड के लिये जो योजनायें स्वीकृत की हैं जिनमें राजघाट बेटवा नदी पर, उमिल जिला हमीरपुर में और ग्रेटर गंगऊ जिला बांदा में, ये सिंचाई की योजनायें आपने स्वीकार करायी हैं। 14 अप्रैल को प्रधान मंत्री राजघाट योजना का शिलान्यास करने जा रही हैं, बाकी जो योजनायें हैं उनकी भी आप राजघाट की तरह से व्यवस्था

करें कि पांचवी पंचवर्षीय योजना में वे पूरी हो सकें। आप इन योजनाओं की इस तरह से व्यवस्था करें कि पांचवी योजना के अन्दर ही इनका काम हर हालत में पूरा हो सके।

सुरक्षा के बाद अगर देश के लिये किसी चीज की आवश्यकता है तो बिजली उत्पादन की है जिसके द्वारा हम गरीबी की लड़ाई जीत सकते हैं क्योंकि बिजली द्वारा सिंचाई के साधन बढ़ते हैं। इसलिये मैं केन्द्र से अनुरोध करना चाहता हूँ कि उनको अपनी योजनाओं की प्राथमिकता बदलने की आवश्यकता है। मैं चाहता हूँ कि सदन वहे कि सरकार अपनी प्राथमिकता बदले। सुरक्षा के बाद यदि दूसरे किसी विभाग पर ध्यान देने की आवश्यकता है, पैसे की व्यवस्था करने की आवश्यकता है तो वह सिंचाई के लिये, बिजली के लिये और बाढ़ नियंत्रण के करने की आवश्यकता है क्योंकि गरीबी से लड़ाई लड़ने का आधार है अन्न का उत्पादन।

दूसरे देश जब हमारी अवस्था में थे, रूस और चीन, उन्होंने भी जिस समय विकास किया तो सब से अधिक ध्यान बिजली के उत्पादन पर दिया था। इसलिये हमारी केन्द्रीय सरकार भी अपनी पंचवर्षीय योजना की प्राथमिकताओं में परिवर्तन ला कर सर्व प्रथम स्थान बिजली उत्पादन के लिये दे। यही आपसे मेरा अनुरोध है।

*SHRI E. R. KRISHNAN (Salem): Mr. Deputy Speaker, Sir, on the demands for grants presented on the

House by the hon. Minister of Irrigation and Power for the year 1973-74, I would like to say a few words on behalf of Dravida Munnetra Kazhagam.

I would first refer to irrigation facilities in our country. Till March 31, 1973 our Government have invested on major and medium irrigation schemes an amount of Rs. 2770 crores. As a result of implementation of these schemes, the Government have been incurring losses continuously and the losses are increasing year after year. In 1968-69, the loss incurred by the Government was to the tune of Rs. 80 crores. In 1972-73 the loss went upto Rs. 140 crores. It is not what I say; Dr. Minhas, a member of the Planning Commission has given these figures recently.

Sir, it is not enough to have a few irrigation projects. The Government have to ensure that proper link canals are so provided that the small farmers are able to derive full benefits out of these schemes.

Since we have in our country "Free for all irrigation system", it is found that only 10 to 15 per cent of rich farmers in the upper reaches of the canal system are able to enjoy the fruits of the irrigation projects. Sir, this is not a statement from me; it has been made by no less a person than Shri Jagjivan Ram, our Defence Minister.

It has been said Sir, that we have in our country 588 major and medium irrigation projects. It is not enough just to feel proud by saying this. The annual report of the Ministry of Irrigation and Power should contain the information as to how many small farmers have actually been benefited as a result of these 588 irrigation projects.

*The original speech was delivered in Tamil.

[Shri E. R. Krishnan]

Sir, the irrigation Commission has made many useful and valuable recommendations in its report to the Government of India. I would urge upon the hon. Minister that these recommendations should be taken up for implementation without any delay.

Sir, there is a proverb that even though water flows in a river the dog has to lick only to drink water. Sir, the same is the situation so far as utilisation of river waters in our country is concerned. The total volume of water that flows in the various rivers of our country has been estimated by the experts in the field to be of the order of 17 crores hectare meters. It is understood that the total utilisation of the river waters at the end of the 4th Five Year Plan period would only be 0.5 crores hectare meters. Thus Sir, a very huge volume of river water goes thoroughly unutilised. It only points out that not much has been done by the Government in harnessing huge river water resources in our country. In spite of very good availability of water for irrigation purposes in our country since irrigation projects have not been properly formulated and implemented, our country has to go through the sufferings caused by drought in various parts of our country and every year the Government is compelled to spend huge amounts of money by way of drought relief. In the year 1972-73 the Government had to spend Rs. 297 crores for mitigating the rigours of drought. Our country has been facing the twin problem of floods and droughts every year. It is due to the inefficiency, incompetence and the lack of advance planning of the Ministry of Irrigation and Power that our people are continuously afflicted by the phenomenon of floods and droughts. We have been hearing the complaints and accusations of the Ministry of Irrigation and Power against planning Commission and vice-versa. The mutual charges against each other are in no way going to help the millions of people who are suffering for want of proper irrigation and flood control

measures. Under the head irrigation, for "Surveys and Investigations" an amount of Rs. 192.5 lakhs were allocated for the year 1972-73 but the revised estimates of the year show a reduction of Rs. 9 lakhs under this account. If the amount meant for conducting surveys for irrigation is not spent to the extent of Rs. 9 lakhs, however are we to think that this Government is fully alive to the irrigation needs of our country.

In the course of 18 years that is from 1953 to 1971, our country has sustained a huge damage due to floods. During that period the value of crops damaged was Rs. 419.6 crores; the value of property lost was Rs. 79.0 crores; the public utility like roads etc. suffered a damage to the tune of Rs. 129.1 crores. Thus the damage caused by the floods amounted to Rs. 628 crores in all. As many as 587 lakhs of people were affected by the floods. Sir, the amount spent for the flood control measures was not more than Rs. 288.30 crores till March 1971. It seems that Government are only making half-hearted attempts to protect the people and the crops from damage of floods. I wonder how many decades it will take for this country to rid itself from the devastations that are periodically caused by the floods. Sir, the Tamil Nadu Government sent to the Central Government two important flood control schemes for approval. They are (1) Varattu Pallam scheme and (2) Thodahalla Scheme. I regret to say, Sir, that so far the Tamil Nadu Government have not received any response from the Central Government regarding these two schemes. I would therefore appeal to the hon. Minister of Irrigation and Power that immediate clearance should be given by the Centre to these two schemes. Sir, we find that Northern States of our country are frequently affected by floods while the Southern States are afflicted by drought. To combat this problem the only permanent solution seems to be the link up of the Ganges and the Cauvery. This is not any new pro-

posals; many years ago Sir C. P. Ramaswamy Iyer mooted the scheme. Had it been implemented then the country would not be facing the problems of droughts and floods as it does today. In fact, the project could have been completed at a very low cost. Because of the dithering and indifference of the Central Government, the project has not taken any shape till today and the present estimates are around Rs. 2,000 to 3,000 crores. Be that as it may, I would appeal to the hon. Minister that the Central Government should expeditiously complete all the preliminary work connected with the implementation of the most important and vital project is taken up on hand at the earliest possible time.

Sir, most of the rivers in our country flow through the territories of more than one state. As a result many inter state water dispute have arisen. The only way to ensure that all the waters of the rivers are fully utilised for the best national interest is to nationalise all the rivers and to bring them under national water grid to be controlled by the Central Government.

Sir, I would now refer to the power situation that is obtaining in our country. Till March 31, 1973 the total investment on power projects by the Central Government was Rs. 4700 crores. But it is estimated that the State Electricity Boards would incur a loss of Rs. 36 crores during the year 1972-73.

At this juncture Sir, I would like to refer to one important point. After 25 years of independence, let us see the progress made in the field of rural electrification. As you are aware Sir, there are 5 lakh villages in our country. According to a Government Plan for the decade, 1971-81, 2.5 lakhs villages would be electrified. The news item giving this information further states that even this would be achieved only if the necessary finances are made available. Sir, inspite of investment to the tune of Rs. 4700

crores on power projects, 44 crores of our people living in the rural areas are going without electricity and there seems to be no immediate hope of their getting electric facilities.

On 27-3-1973 in reply to a question hon. Minister of Irrigation and Power, Dr. K. L. Rao said that 1,22,094 villages have been electrified till 1972. At this rate, it will be no wonder if it takes 60 years to provide electricity to all the 5 lakh villages of our country.

Till 1972, 19,00,695 pump sets have been energised. I am proud to say that Tamil Nadu accounts for 30 per cent of the pump sets.

The population of Tamilnadu is about 4.1 crores. 1.2 crores out of this number live in 443 towns. The number of villages in Tamil Nadu is 61396. During the period of Congress rule, that is from 1947 to 1967 the number of villages electrified was only 20250. But during the short period from 1967 to 1972, when the DMK was in power, the number of villages electrified was 38524. Sir, the number of villages yet to be electrified is only 2622. Our Chief Minister, Dr. Kalaingar Karunanidhi, is determined to see that these villages are also electrified before the end of 1973. Similarly, Sir, out of 23096 harijan colonies of Tamil Nadu only 4354 were electrified during the 20 year rule of the Congress Party. During the DMK rule as many as 18036 harijan colonies were given electric connection leaving a balance of 706 yet to be electrified. I can assure you that even this would be electrified very soon.

Sir, in Tamil Nadu so far 6 lakh pump sets have been energised. With the complete utilisation of the Cauvery waters flowing into Tamil Nadu from Mysore State and with the energising of 6 lakhs pump sets, the Tamil Nadu Government have done its best for augmenting agricultural production and also to provide the necessary facilities required by the farmers in Tamil Nadu.

[Shri E. R. Krishnan]

Sir, in the Southern States, the requirement of electricity per day is as follows:—Kerala, the need is 60 lakh units; Andhra it is 90 lakh units; Mysore needs 130 lakh units and Tamil Nadu needs 225 lakh units of electric power.

As a result of economic and balanced distribution of electric power without much of transmission loss Tamil Nadu has made good strides in the field of agriculture and industry. At the same time the State Government has tried to augment the generation of electricity which is increasingly in demand in Tamil Nadu. Sir, in 1966-67 hydel power generated was 21 lakh units per day. In 1971-72, the hydel power produced was 37490 lakh units. Sir, so far as thermal power is concerned, in the year 1966-67 it was 4050 lakh units, in 1971-72 it went upto 6180 lakh units. At the end of the first plan period, the quantum of electricity generated was 110 megawatts. At the end of second plan, it came upto 315 megawatts. The end of the third plan saw generation of electricity at the level of 510 megawatts. During the period 1967-72 the electricity generated came to 625 megawatts. Not content with this generation of electricity, the State Government of Tamil Nadu formulated a few more power projects and have forwarded them to the Central Government for approval. These projects are:—

- (1) Koday H.E.C. with an estimated cost of 14 crores was sent to the Central Government on 16-4-69.
- (2) Upper Tambaravarani H.E.S. with an estimated cost of Rs. 6 crores for Mundanthorai unit. It was sent to Central Government on 5-9-70.
- (3) Nellithorai H. E. S. with an estimated outlay of Rs. 6.70 crores. It was sent to Central Government on 28-12-70.

- (4) Paralayar H. E. S. with an estimated cost of Rs. 4.73 crores. It was forwarded to Central Government on 13-5-71.
- (5) Shanmuga Nadhi H. E. S. with an estimated cost of Rs. 9.02 crores. It was sent to Central Government on 29-5-1972.
- (6) Kalpakkam 3rd unit. It was sent to Central Government on 7-6-1972.
- (7) Neyveli 2nd Thermal power station. Sent on 9-6-1972.
- (8) Upper Amravati H. E. S.—Kumbhar Unit with an estimated cost of 5.55 crores.
- (9) Tuticorin Thermal Power station with an estimated outlay of 73 crores.
- (10) Mettur Thermal power station with an estimated cost of 65 crores.

All these projects are still pending for clearance with the Central Government. I appeal to the hon. Minister of Irrigation and Power that he should give immediate clearance to these projects.

Sir, according to the original schedule the two units of Kalpakkam atomic power station should have gone on stream during the year 1971-72. But because of the indifference of the Central Government it appears that they will generate electricity only from 1976. Sir, if these two units had been completed in 1971-72, you would agree that Tamil Nadu would not be facing the serious power crisis as it does today. Tamil Nadu Government has been acting with great deal of foresight and imagination. Dr. K. L. Rao has himself said that the Tamil Nadu Government have been distributing electricity economically and without loss in transmission. The hon. Minister had also pointed out that the

failure of monsoon was the main cause for the present power crisis in Tamil Nadu and also the inadequate power generation in the Thermal power stations under the control of Central Government had greatly contributed towards the power crisis in Tamil Nadu. In spite of all this, merely because an opposition party is in power in the State, persons belonging to the ruling party at the Centre namely the Congress Party have been accusing the State Government for the power cut that has been imposed in the State. It is indeed regrettable that political capital should be made out of a situation which has arisen due to natural causes.

In reply to a starred question on 27th February, 1973 the hon. Minister for Irrigation and Power Dr. K. L. Rao explaining the causes for power shortage in Tamil Nadu stated that the failure of monsoon resulting in low level in hydel reservoirs was one of the factors for low generation of electricity. He added that due to shortage of lignite supply from Neyveli to Thermal power stations, the production of power in those stations became less. Thirdly, Dr. Rao had stated that shortage of cooling water supplies to Ennore and Basin Bridge Thermal power stations was another factor leading to power crisis in Tamil Nadu.

Sir, the Tamil Nadu Government have been demanding for a long time now that there should be second mine cut in Neyveli lignite project. This demand has fallen on the deaf ears of the Central Government so far and the Central Government have not taken any initiative in this respect. But Dr. K. L. Rao has suggested that if the thermal power generation in the Neyveli station is to be increased then instead of lignite, 280 tons of oil should be used per day in the power stations. I would like to know from the Government what action has been taken by the concerned Ministry.

Sir, from what I have so far stated it would be amply clear that the Tamil

Nadu Government could not be blamed for the power crisis prevailing there. In spite of a very clear statement made by Dr. K. L. Rao as to the contributory factors to the power crisis in Tamil Nadu, I regret to say that the ruling Congress Party members are accusing the State Government for partisan political ends and are indulging in a virulent false propaganda.

As an example, I would like to refer to the speech made by a responsible Minister of the Central Government Shri Mohan Kumaramanglam in a public meeting at Vellore on 25th February, 1973. Sir, he said in that meeting that the Central Government was in no way responsible for the power crisis faced by Tamil Nadu. He also added that the Central Government had not received any official communication from the Tamil Nadu Government regarding the shortage in the supply of coal leading to power crisis even till 10 days ago. When this matter of power crisis came up in Tamil Nadu Assembly our Chief Minister Dr. Kalaignar Karunanidhi explained on 2nd March, 1973 the reasons for the power crisis. Rebutting the charge of Shri Mohan Kumaramanglam that the Central Government was not apprised of the shortage of coal supply to Tamil Nadu Thermal Power station pointed out that this matter was taken up with the Central Government many months before the crisis overtook the State. In fact, on May 26, 1972, the Chairman of the State Electricity Board wrote a letter to the Deputy Chairman of the Central Water and Power Commission and also to the Department of Mines. It was stressed in the letter that as there was delay in the supply of coal from Singareni mines of Andhra more Railway wagons should be made available. Again Sir, the Central Government was requested in the matter that coal from Bihar and Bengal should be supplied through ships. This matter again figured at a meeting on 30th May, 1972 at Delhi when the Chairman of Electricity Board met

[Shri E. R. Krishnan]

the representatives of Department of Mines, Ministry of Railways and Ministry of Irrigation and Power. It followed it up by a letter on 3rd June, 1972 to the Department of Mines. At a meeting held at Delhi on 30th September, 1972 the matter was raised with the representatives of the Department of Mines, Irrigation and Power and Railway Board by the Chairman of the State Electricity Board who drew pointed attention to the shortage of coal supply in Tamil Nadu. On 7th October, 1972 and on 11th October, 1972 letters were again addressed to the Central Government. The Department of Mines was again addressed in the matter on 12th October, 1972 and on 18th January, 1973. The Chief Minister himself wrote a letter on 10th February, 1973 to Shri Mohan Kumaramangalam explaining the shortage of coal in the State and requesting supply to 1 lakh tons of coal at once. Thus it will be seen what the hon. Minister Shri Mohan Kumaramangalam had stated at Vellore was not the correct position. He seems to have been motivated by the fact that an opposition party is in power in Tamil Nadu.

Sir, if this was the behaviour of a Central Minister, I would refer to the type of speeches made by the responsible Congress leaders in Tamil Nadu. In the Triplane beach meeting on 26th February, 1973 Shri Ramaiah the Tamil Nadu Pradesh Congress Committee President demanded that the DMK Government should resign as it did not anticipate the power shortage. I would like to remind the House that the power crisis is not confined to Tamil Nadu alone. The power cut in Haryana was to the extent of 80 per cent; in Punjab it is 75 per cent; in UP 40 per cent; Rajasthan 50 per cent; West Bengal 15 per cent and in parts of Gujarat 100 per cent. Sir, will the Central Government and the Congress leadership would advise the Governments in these States to resign. It is highly regrettable that responsible leader like

Shri Ramaiah should make statement of this nature.

Sir, we the people of Tamil Nadu and the State Government hold Dr. K. L. Rao, the hon. Minister for Irrigation and Power in high esteem. But I would like to invite the attention of the House to what Shri Ramaiah has said about Dr. Rao in a meeting on 2nd April, 1973. His speech has appeared in a Congress daily, the Swadeshmitram, whose honorary editor is Shri M. Bhakthavasalam the ex-Chief Minister of Tamil Nadu. He said that he opposed the agreement of Tamil Nadu with Kerala in 1968 as harmful to Tamil Nadu. Though Dr. Rao belonged to his party he would like to state the truth about Dr. Rao. According to Shri Ramaiah, Dr. Rao could do no good to Tamil Nadu. Though he is a Minister in the Central Government, all his attention is on Andhra crisis. Our Chief Minister might not know about Dr. K. L. Rao. Dr. Rao was an Assistant Engineer at one time in Mettur project. At that time he was interested in collecting material for the separation of Andhra from the composite Madras State. Therefore, he would not believe that Shri Rao would be helpful to Tamil Nadu. what Shri Ramaiah said about our esteemed Minister of Irrigation and Power. If such an irresponsible statement had been made by any of our party members then immediate disciplinary action would have been taken against him. However, I would assure Dr. Rao that we hold him in great esteem and we have immense confidence in him. I regret that just to discredit the opposition party which is in power in Tamil Nadu all kinds of statements are being made by the ruling Congress party members which do no good to the Congress party in Tamil Nadu. Before I conclude Sir, I would once again appeal to the hon. Minister for Irrigation and power that he should expedite the clearance of the schemes for power generation submitted by the Tamil Nadu Government and are pending with the Central Government. With

these words I conclude.

SHRI D. N. TIWARI (Gopalganj): Mr. Deputy-Speaker, all my praise is due to Irrigation Minister and his junior colleague for making tireless efforts to make irrigation and power potential of the country a success. But, it is a misfortune that in spite of very good experts being in this Ministry, I want to know as to why our targets are not being fulfilled? What is the hitch? Why is the department not able to colate this target? Has the procedure not been so streamlined as to cope with the task that the minister has in mind?

We have got here two reports of the Ministry of Irrigation and Power—one report contains 164 pages while the other contains about 90 pages. But, we do not find anything in these reports with which we want to deal. They are full of extraneous matters—not concerning the fulfilment of the projects that have been taken in hand. Nowhere it has been mentioned in this report as to how much work has been done in regard to one or the other projects and what remains to be done or when is the project going to be finalised? These details are not given here. Is there anything worthwhile contained in these reports which we, the Members of Parliament, want to discuss in the House? No one can find any material with regard to shortcomings, shortfalls or successful completion of the projects that have been undertaken by the Ministry. These reports could have been put together and could form part of one volume by adding some more pages. Why so much money is to be spent at all for making two reports? What is the use of that? For example, in the performance report, on page 62-63 it has been mentioned that all India *per capita* consumption this year is 93 k.w. It means that in some States, as has been said by some other friends, the *per capita* consumption of power

is only one sixth. That means in some States, the *per capita* consumption of power is very low. Why is this regional imbalance? Dr. Rao has been in charge of this Ministry for more than ten years. What has he done to remove this imbalance? Disparities are increasing and along with that, the regional imbalance is also increasing. The *per capita* consumption of power is too low—20 or 25 k.w.—in Bihar, especially, North Bihar, which is a tract inhabited by more than 21½ crores of people. Their *per capita* consumption of power is less than 10 or k.w. If he cannot immediately bring us on par with the other advanced States, even if he brings us at least to half of the level of these States, I shall be very happy. What is he going to do about that? And in how many years is he going to bring us to the level of other States? During the last 12 years that has been in-charge of this Ministry, what has he been doing to remove this imbalance? What is standing in his way? Why is he ignoring the States which are very and very backward in the matter of power?

I shall take North Bihar. This is a very backward area which is mostly dependent on agriculture. 86 per cent of its population depends on agriculture. There are two irrigation projects—Kosi and Gandak. In these reports, Gandak Projects has been totally backed out. No mention is made here about this project. What has been done by this Ministry for this project? In the performance report, a casual reference has been made that so much allotment has been made. But what part of the work has been done and what part is yet to be done has not been given. How can we rely on these reports and discuss these matters? In North Bihar, there is no industry worth the name except a few out-dated sugar factories. Then, how can the 86 per cent of the population eke out their livelihood if even for agriculture sufficient arrangement is

[Shri D. N. Tiwari]

not made for irrigation and power? Do you want them to starve? There is often failure of the pumps due to power shortage. They are not being energised and they cannot give water to the fields. Has anybody given thought to this as to how these people will live? That area is called Gandak valley area. It has on an average 1020 persons per sq. mile. It is one of the most densely populated areas of the country. It is one of the most fertile agricultural tracts of India both in North Bihar and Nepal. It produces almost all crops. The Gandak project is an international as well as inter-State project for development of irrigation and power. This project is going to irrigate as much as 3.68 acres of land, which is more than what your biggest dam, Bhakra Nangal can irrigate, only 3.5 acres. This can irrigate more than the Rajasthan Canal or Nagarjunasagar. It is the biggest canal in India and cheapest too. Its first estimate was Rs. 52 crores. Due to delay, it has gone up by more than four times, and you are making it dearer still by delays. Had it been completed in time, if not Rs. 52 crores, Rs. 60 or 65 crores would have sufficed. But due to this time lag and increase in cost of materials and other things, the per-acre cost of this project has also gone up several fold.

In 1964, in the Governors' meeting, the Bihar Governor told the Government of India that Bihar was not able to execute this work due to its slender resources. Again the Governor wrote about it to Shri Asoka Mehta when he was Planning Minister. Again a letter was written to Shri Morarji Desai, who was then Deputy Prime Minister and Finance Minister. But all were turned down and that tract of North Bihar has been left to suffer for all time to come in the matter of both irrigation and power.

Coming to my district of Saran, it is more than 12 years that the work

began on this project. On 3rd December, 1972, water was brought to some part of Saran, over a mile or so. Now it is April, 1973. In these four months the water has not gone a step further. In Saran, it will irrigate 14 lakhs acres. At this rate, it will perhaps take 10 or 15 years to achieve the target of irrigation in the districts of Saran and Siwan. The water goes through UP. In reply to my query the Minister said that UP is not releasing water for Saran. I am not blaming UP or raising inter-provincial rivalry. I blame the Irrigation Ministry for this lack of initiative and promptness in making available resources for completing this project.

There are many other projects in North Bihar. None of them is working according to schedule. Even the Western Kosi Canal, on which several crores of rupees have been spent, is not achieving anything. If it takes further time, I am afraid the estimate will have to be again revised. From the original estimate of Rs. 60 crores, it will go up to Rs. 300 crores.

A word about the National Project Construction Corporation, which does contract work for Government, especially in the construction of barrages. There are thousands of employees serving this organisation for the last ten years. Those who have joined this organisation when they were 23 or 24 are now 34 or 35. They are still temporary and there is no certainty of their services being continued. This organisation is incurring loss every year. If this goes on, I am afraid it will have to be closed down one day. Then, what will you do with these employees? Will you spoil their lives or will you give them some alternative employment so that they may not go on the streets and suffer? I want a definite answer because this concerns the lives of thousands of people working in this organisation.

श्री आर० बी० बड़े (खरगोन) : माननीय उपाध्यक्ष महोदय, इरिगेशन तथा पावर मन्त्रालय की डिमाण्ड पर जब हम बोलते हैं या उस की टीका करते हैं, तो वह डा० राव की व्यक्तिगत टीका नहीं करते हैं, हम उन के डिपार्टमेंट की टीका करते हैं—इस बात को ध्यान में रखें।

अभी एक माननीय सदस्य ने कहा था कि आप को भागीरथ समझा जायेगा जो गंगा को ले आये थे, लेकिन मैं कहता हूँ कि कुछ लोग उन को राक्षस भी समझेंगे। अभी हमारे मध्य प्रदेश में मेरी कांस्टीबूएन्सी से नर्मदा नदी जाती है। मध्य प्रदेश के 90 प्रतिशत क्षेत्र से नर्मदा जाती है और 0. 10 गुजरात को छूती है, लेकिन गुजरात के वास्ते आप 530 फुट ऊंचा बांध बना रहे हैं। हमारे प्रदेश में नर्मदा नदी के दोनों बाजू की जमीन, करीब 3 लाख एकाड़, ऐसी फर्टाइल जमीन है, जहां चार चार फसलें होती हैं तथा जो कुरं, मकान पुराने चले आ रहे हैं, वे सब इस से प्रभावित होंगे। सब पानी में डूब जायेंगे। वहां से उन लोगों को उखाड़ा जा रहा है और कहा जा रहा है कि उन को कच्छकरण ले जायेंगे जो यहां से 500 मील दूर है। अपने पूर्वजों के मकान, पक्के बंधे हुए कुएं, उपजाऊ जमीन सब छोड़ना पड़ेगी—वे लोग कहेंगे कि हमारे डा० राव मिनिस्टर थे, वे राक्षस थे, भागीरथ नहीं थे। मैं यह नहीं कहता हूँ कि डा० राव का कोई खराब मत है? वह अच्छा करना चाहते हैं, उनके गुड इन्टेन्शन्स हैं लेकिन मैं कहना चाहता हूँ डा० के० एल० राव से कि हमारे यहां रीजनल इम्प्रूवमेन्स है, हमारा मध्य प्रदेश सबसे बैकवर्ड प्रदेश है। जबकि दूसरे प्रदेशों में सिबाई का एक्सेज 23 प्रतिशत है तो हमारे मध्य प्रदेश में सिबाई केवल 7 प्रतिशत है। हमारे यहां जो मालवा पठार है, जहां पर गेहूं होता है वहां के लिए आपने क्या किया है? आपने कहा कि सिंध की

योजना जोकि एक बड़ी योजना है वह स्वीकृत हो चुकी है लेकिन दो पंचवर्षीय योजनायें हो गई अभी तक उसपर कार्य शुरू नहीं हुआ। मैं उसको सिंधी की परियोजना कहता हूँ उस पर काम क्यों नहीं शुरू किया। तो मालवा का जो पठार है वहां पर आपने कुछ नहीं किया। वहां से सिंध नदी जाती है वहां पर परियोजना स्वीकार की है लेकिन दो योजनायें निकल गई, अभी तक कोई काम शुरू नहीं किया गया। इसी प्रकार से भीलवाड़ा में तीन करोड़ की योजना है वहां भी काम शुरू नहीं हुआ है। इस प्रकार से जो रीजनल इम्प्रूवमेन्स है वह कैसे दूर होंगे। चंबल की जो योजना है, ठीक है वह राजस्थान से जाती है लेकिन मालवा के पठार के बारे में आपने क्या किया है? इसीलिए मैं कहता हूँ कि आप जो इम्प्रूवमेन्स दूर करने की बात कहते हैं रिपोर्ट में उसमें कोई तथ्य नहीं है। आपके जो लक्ष्य हैं वह दक्षिण की तरफ हैं या उत्तर की तरफ हैं लेकिन मध्य में आपका कोई लक्ष्य नहीं है। मध्य प्रदेश जो एक बैकवर्ड एरिया है जहां आदिवासी रहते हैं वहां के लिए आपको कोई स्कोम नहीं है।

दूसरे जहां तक नर्मदा योजना का सम्बन्ध है, उसमें गुजरात का हित हो लेकिन मध्य प्रदेश का भी हित हो। इस प्रकार का कोई रास्ता निकाला जाये जिससे गुजरात भी नाराज न हो और मध्य प्रदेश भी नाराज न हो। डा० राव से हम लोग भी मिले और वह लोग भी मिले और प्रधान मन्त्री जी ने भी कहा कि आपका नुकसान नहीं होगा लेकिन हम को इस बात में विश्वास नहीं है।

जब हम आपके बजट को देखते हैं तो मध्य प्रदेश में पहले एलेक्ट्रिसिटी का जो बेस था वह कोल था लेकिन बाद में आप हाइड्रिल पर आये लेकिन उसमें मानसून की वजह से आपका काम नहीं चला

[श्री आर० बी० बड़े]

आप मानसून पर गैम्बलिंग कर रहे थे। अगर मानसून फेल हो गई तो आपने पावर पर कट लगा दिया। आपने पंजाब में 50 परसेंट कट लगा दिया, गुजरात में 50 परसेंट लगा दिया, हरियाणा और तमिलनाडू में 30 परसेंट का कट लगा दिया। इस प्रकार से जो आपने बिजली में कट लगाया है उससे उद्योगों में कितना नुकसान हुआ है यह तो आप जानें क्योंकि बहुत से कारखाने बन्द हो गए। एग्रीकल्चर के लिए इरीगेशन बन्द हो गई। हाइड्रल पावर होने की वजह से यह नुकसान हुआ है। इसके कारण जो आपके लक्ष्य थे उसमें फर्स्ट प्लान में 20 परसेंट की कमी रहो, सेकेण्ड प्लान में 36 परसेंट की कमी रहो, थर्ड प्लान में 35 परसेंट की कमी रहो और फोर्थ प्लान में 38 परसेंट की कमी रही। हाइड्रल पर ज्यादा भरोसा होने की वजह से आपके टार्गेट्स कम हो गए और आज इतना नुकसान हो रहा है। मैं नहीं जानता हाइड्रल पावर को चेन्ज करने के लिए आपने कुछ सोचा है या नहीं। मैं समझता हूँ इसके बारे में आपको सोचना चाहिए। यदि आप न्यूक्लियर पावर शुरू करते तो बहुत ज्यादा फायदा होता। आपने अभी जो न्यूक्लियर पावर शुरू की है उसका इस्तेमाल नहीं किया है। न्यूक्लियर पावर होने पर आज जो हाइड्रल पर आप गैम्बलिंग करते हैं वह चीज नहीं रह जायेगी।

इसके अलावा आज आपने जो ग्रिड सिस्टम किया है उस में 35 परसेंट का नुकसान होता है ट्रान्समिशन पर। अन्य देशों में यह नुकसान केवल 4 परसेंट ही होता है। फिर क्या कारण है कि इस देश में 35 परसेंट का नुकसान ट्रान्समिशन पर होता है? इस नुकसान को अगर रोका जा सके तो 35 करोड़ का लाभ हो सकता है। आप बाकी देशों के आँकड़े देखें कि ट्रान्समिशन में क्या नुकसान होता है। मेरे पास बैंक ऑफ इंडिया का बुलेटिन है जिसमें लिखा है :

"A factor which has hampered the maximum utilisation of the generated power is the energy losses in the grid systems. According to a recent review by the Ministry of Irrigation and Power, Government of India, such losses are estimated to have increased to about 18.5 per cent in 1971-72; in some States, the losses are as high as 30 per cent. It seems that for every one per cent reduction in these losses, the revenue benefit would be about Rs. 5 crores."

तो यह जो यहां पर ट्रान्समिशन में बिजली का नुकसान होता है वह ज्यादा क्यों होता है और बाकी देशों में केवल 4 परसेंट ही क्यों होता है—इस बात को भी आपने कभी देखा है या नहीं?

दूसरे इसी प्रकार से इस योजना में शार्ट टर्म और लांग टर्म मेथड्स को बात है। शार्ट टर्म मेथड्स के लिए लिखा हुआ

"A thorough study of the working of the existing plants both thermal and hydel be undertaken and the ills that are afflicting each one of them should be identified. As pointed out earlier, the hydel plants are working below capacity because of poor water storage in the dams consequent upon failure of rains this year and there is not much that one can do to improve their working this year. However, break-down in the plants where water is available should be minimised by taking measures to keep the plants in good condition."

इसका मतलब यह है कि हाइड्रल पावर का उपयोग किस प्रकार से करना चाहिए वह देखना चाहिए। एच. ई. एल., भोपाल को जो आर्डर्स देते हैं वह बराबर मिलते नहीं हैं। भोपाल में मजदूरों का झगड़ा रहता है। उस पर भी आपने ध्यान नहीं दिया है। मध्य प्रदेश में भोपाल में बिजली के ट्रांसफार्मर्स

तैयार होते हैं लेकिन वह बराबर मिलते नहीं हैं। यह रिपोर्ट में भी कहा गया है। आपने रिपोर्ट में कहा है :

"The reasons for this shortfall are mainly: delay in the supply of generating equipment by indigenous manufacturers, shortage of essential materials like steel, cement, etc., and inadequacy of funds. In order to maximise the output from the existing power stations by reducing their outages, two expert groups have been set up—one for hydro and the other for thermal stations—to visit the power station and advise on measures to be taken for improving the performance of the existing plants to get more power."

पेज 4 पर आपने रिपोर्ट में यह कहा है कि भोपाल, हैदराबाद और हरिद्वार से जो मशीनरी मिलती है वह ठीक से मिलती नहीं है, वहां पर प्रोडक्शन ठीक नहीं होता है। इसके बारे में भी ध्यान देना चाहिए।

लांग टर्म मेजर्स में जितने बिजली के बोर्ड हैं उनको अपने कंट्रोल में लेना चाहिए। जैसे मध्य-प्रदेश, महाराष्ट्र के जो बोर्ड हैं वह अलग अलग हैं और उनकी अलग अलग आटोनामी चलती है।

और सब बोर्डों का कंट्रोल आपके हाथ में रहना चाहिए। यदि ऐसा होगा तो उसका परिणाम ही अलग होगा। इसलिए लांग टर्म और शार्ट टर्म, दोनों आपको लेना चाहिए।

पर कैपिटा कंजम्पशन देखिए कि वह हमारे यहां सबसे कम है। यू० एस० ए० में 6065 के० डब्ल्यू० एच० है, स्वीडन में 5,913 है, यू० के० में, 3,254 है, बेस्ट

जर्मनी में 2,800 है और हंगरी में 1,185 के० डब्ल्यू० एच० पर कैपिटा कंजम्पशन है, जबकि हमारे यहां केवल 71 के० डब्ल्यू० एच० है। यह इतना कम क्यों है, इस पर कभी विचार किया है कि नहीं। मेरे ख्याल से इसका कारण यह है कि किसी एक गांव का नक्शा बना कर भेजने हैं तो पहले वह कलेक्टर के यहां जाता है, कुछ समय उनके यहां कागजात पड़े रहते हैं और कलेक्टर के यहां से बोर्ड को जा जाता है और हर योजना 5, 6 महीने वहां पड़ी रहती है। वह क्यों पड़ी रहती है कभी इसका कारण आपने सोचा है कि नहीं? इसलिए मेरा निवेदन है कि बोर्ड पर आपका पूरा कंट्रोल होना चाहिए।

इसी प्रकार से आप देखें कि 80 परसेंट बिजली इंडस्ट्रियलिस्ट्स को मिलती है और 20 परसेंट रूरल एरियाज में लोगों को मिलती है। मेरे पास एक किताब है ;

'Power for the Villages—A Perspective'

इसमें लिखा है कि जितनी बिजली देश में होती है, एक तो बैसे ही कम पैदा होती है, और जो होती भी है उसका 80 प्रतिशत इंडस्ट्रीज और अर्बन एरियाज को मिलता है और 20 परसेंट बिजली रूरल एरियाज में लोगों को मिलती है दूसरा कारण यह है कि आप इंडस्ट्रीज के लिए 50 परसेंट डिस्काउंट देते हैं, जबकि हमको मिनिमम चार्ज देने ही पड़ते हैं चाहे बिजली इस्तेमाल करें या न करें। इस बात पर ध्यान देंगे तभी आपका सिंचाई और पावर का जो उद्देश्य है वह पूरा होगा वरना नहीं। पूरे भारत

[श्री आर० पी० बड़े]

को एक ग्रिड करदे जिससे कि वे आफ बंगाल से बिजली निकले तो सीधे गांवों में जाय तभी आपका सपना साकार होगा। काश्तकारों को बिजली महंगी मिलती है और कम मिलती है इसकी तरफ आपको ध्यान देना चाहिए।

SHRI PRABODH CHANDRA (Gurdaspur): Mr. Deputy-Speaker, Sir, I am deeply grateful to you for providing me an opportunity to say a few words on a subject which is of tremendous importance not only to India but to the mankind. There is not a facet of our life that is not affected by irrigation and power. Till 1947, it was the intention of the British empire or the Britishers to keep us poor so that they could get cheap recruits, but then after the end of the First World War, to provide raw materials for their industries and to settle the demobilised soldiers of India, the Britishers gave some attention to the irrigation field. The records that are available show that the first canal in India was built on the Cauvery in the Second Century; there is a mention about the canal on the Yamuna in the 14th Century. It was 90 years back that, on a systematic scale, the Britishers built the Ganges Canal and then the Upper Bari Canal, not for the good of the Indians but for the good of the mill-owners of Lancashire and Birmingham for whom they wanted to have cotton and other raw materials so that their industries could work.

14.54 hrs.

[SHRI K. N. TIWARY in the Chair.]

But, Sir, immediately after independence to be spent on that a large portion of our resources had to be spent on importing wheat and other eatables from abroad;

About Rs. 745 crores had to be spent by India on importing only

wheat from America and other countries. So, they took very seriously towards irrigation and power.

The total resources of India, so far as water, is concerned, are 1345 million acres ft. and at the moment only 90 million acres feet are being used for irrigation purposes. The others are either allowed to flood the country-side or go straight to the sea. I do not say that the whole of our water resources can be utilised for irrigation, but at least, 33 per cent, i.e. about 450 million acres feet of water can be utilised for irrigation purposes which will irrigate another 30 per cent of the land which can be easily irrigated.

I would draw the attention of our worthy Minister to the fact that greater attention should be given towards utilising the river waters for irrigation purposes. But, it is a pity that, on the one hand, we have done away with the princes but on the other, we have created a new type of Nawabs and princes in different States that we are today noticing. A river may flood one State but they will not allow the neighbour State to utilise that water because they feel that the water belongs to them only. Every State feels that water or electricity or whatever is produced by them or by the Central Government belongs hereditarily to them or to their ancestors. This spirit of provincialism must be done away with immediately if we have to properly utilise the resources of water or power of our country.

Only yesterday our Prime Minister talked about the integration of the country. Integration of the country cannot be brought about simply by words and conferences. Integration can be brought about only if we feel in terms of Indians and take whatever India has, whether it be in Rajasthan or Madhya Pradesh or Punjab, as belonging to the whole of India. In this connection I would

suggest to Dr. K. L. Rao one thing. A reference has been made about to his qualities of head and heart. We are proud of him. At the same time, we are also sorry that when a man like him is at the helm of the affairs, we have not been able to make as much progress as we should have done.

I will not repeat what has been said by other speakers. I will only confine myself to some of the features that have not been discussed by any friends here. The multi-purpose projects started with Bhakra Nangal in 1948. The idea was mooted about 20 years ago but since the Britishers were not interested in giving water to this side of the Punjab and they wanted only that side which is now lying in Pakistan to be irrigated, so, instead of Bhakra Nangal, they gave preference to the Thal project, Haveli project and other canals that were irrigating those areas where the Muslims were residing or those areas from which most of the soliders were recruited.

In 1948 we started with Bhakra Nangal and within a period of seven years—all credit goes to our engineers—the Bhakra Nangal was inaugurated by our revered Panditji in 1955. That was the beginning of the multi-purpose projects. But of late, as I have stated, a sort of tendency has crept up in different States that 'Because this dam is situated in my area, I must have all the benefits of it.' This sort of provincialism, the sooner it is done away with, the better it is for the country.

Sir, the Punjab Government mooted the Thein dam in 1968 because we expected that by the end of 1970, the Beas dam will be completed. We know that 10,000 work-charged men and 4000 regular labour will be thrown out on the streets if no new project was taken up. So, we mooted the idea of the Thein Dam. But,

unfortunately, the Punjab was divided and because of certain constitutional obligations, the Punjab is not allowed to take the work on hand. Now, it has been entrusted to the Centre for completion of the Thein dam. I would most respectfully request the hon. Minister that till the Centre is prepared to go ahead with the construction of the Thein Dam, they must permit the Punjab Government to start the work so that most of the people who are retrenched from the Beas Dam are not thrown out on the road and they are employed at the Thein Dam.

MR. CHAIRMAN: The hon. Member may please be brief.

15 hrs.

SHRI PRABODH CHANDRA: Sir, I have just started. I have a feeling that those people who are obstinate get the better of it....

MR. CHAIRMAN: You will be given not more than 10 minutes. You have finished 3 minutes. You may take another 3 or 4 minutes.

SHRI PRABODH CHANDRA: Another point which I would like to bring to the notice of the hon. Minister is about the bogey of autonomy of the Electricity Board. The Electricity Boards were constituted with a purpose so that the engineers could give their wholehearted attention to the production of electricity. But, Sir, they have become hot beds of corruption. Only in March, 1973 there has come out a Government publication which says:

"A number of diesel generating sets with capacity ranging from 5 KV to 310 KV have been lying idle for the last many years, some of them for 10 to 12 years at five different stations."

I am sorry that our hon. Minister made a statement that only six generating sets were not working, while it is a fact that more generating sets

[Shri Prabodh Chandra]

are lying idle. In 1971 we got some generating sets to generate 6 lakhs units of electricity. And now the total amount of electricity generated by the generators is not more than 1,25,000 units. I am sorry that he made a mis-statement to say that only six generators were not working.

While coming to the next point of States' imbalances, I would like to point out that I am an Indian first and Indian last. I do not only speak for Punjab. I speak for the whole of India. I know my principal saying: First deserve, then decide. I had on my letter head: Know thy rights and have them. But the Principal of my College, instead of having that, wrote: Know thy duties and perform them. This is what has happened in Punjab; Punjab has performed its duties admirably well during the last three wars. So we have the sympathy of the whole country. We gave ourselves so that the country may be free. We sacrificed so that the country may be protected. Millions of our people were uprooted. But we did not graudge. It is below my dignity, it is below the dignity of a Punjabi, to ask for any favour. But, I would plead only because of the fact that there is no public sector enterprise. Our people are agriculturists; we have got only agriculture. Unless you give us enough power we cannot supply enough of wheat and other staple crops to the people with the result that Government will have to spend much more. I know, obstinacy and insistence has a premium in this House. People who defy the Chair have the better of it. But I shall not defy the Chair. I will sit down within a minute.

I would like to bring this to the notice of the hon. Minister. About 8 years back I was at Nangal Dam. I had the privilege of meeting the Admiral of the Navy who was there with some naval divers to see how much silt collected at Bhakra-Nangal. He told me this. The life of

Bhakra-Nangal was expected to be 250 years. If the rate of the silt that is being collected goes on at this rate, he says, it will be lasting only for 70 years. What is a boom for Punjab and Haryana will become a bane after some years. The hon. Minister should look into this aspect of the problem and he should give attention to the de-silting of these dams. When I sought the reasons, I was told, this is because of the catchment area lying in Himachal Pradesh. If the goatwallahs and shepherds are not allowed to graze their cattle, if they are stopped from grazing, they will go against the Government and Himachal Congress will lose four seats. I was told they will be losing 4 constituencies. Actually, we are losing a project which cost us about Rs. 300 to Rs. 400 crores, just to save four Assembly seats.

At the end I would request the hon. Minister to see what is the reason when the estimates are made they are for Rs. 20 crores but when they are revised they become Rs. 40 crores and by the time the project is finished they become Rs. 50 crores. I would not use the word 'corruption' but it is a picture of inefficiency, mal-administration and bad planning. Somebody is to be blamed either in the beginning, middle or at the end. With these words, I thank you very much.

DR. KAILAS (Bombay South): Mr. Chairman, Sir, I rise to support the Demands of Ministry of Irrigation and Power. This Ministry is mother for industrial growth and for assisting the higher production of goodgrains in the Country. Till the task of balancing the economic growth is fulfilled, there cannot be social justice for which we are trying to strive. Hence, Dr. Rao has got great responsibility for which he has drawn a ten years plan and I hope he will stick to it. Until and unless he works on war-footing and repeatedly pursues into the implementation of 10 year plan, I think, the usual story will be that the projects have

been delayed unusually long raising the cost of the project itself and the other cost also going up of acquisition of the land for paying compensation.

I want to ask the Minister why this indigenous capacity utilisation, construction of Pong Dam, rural electrification, loans for power from World Bank, the transmission project, the Kosi Canal and other dams have been delayed so long. Maharashtra, minus Bombay and Poona, is as backward as any other State in this country. The irrigation potential opportunities are there in Maharashtra but we are denied the facilities which we want. Maharashtra is the second lowest in the rung as compared to the all-India figures of irrigation. Why this is happening, I do not know? We have submitted our projects but they have not been cleared by the Government of India, the Planning Commission or the Central Water and Power Commission. Perhaps, they enjoy delaying the clearance of the projects which amounts to loss of production of foodgrains and retarded growth of small scale industries and agro-industries resulting in the increase of unemployment of large number of people which are increasing year after year.

Maharashtra has to suffer scarcity year after year. Even the irrigation projects upto the allocated waters from disputed rivers have not been cleared. Why, this has happened?

I wish to inform the House that the projects costing Rs. 5 crores require clearance from the Ministry of Irrigation and Power and Planning Commission. The medium projects costing less than Rs. 5 crores but not less than Rs. 25 lakhs need also clearance from the Government of India and the Planning Commission. But exhaustive projects are not to be submitted.

As many as 57 irrigation projects from my State have been sent for

clearance to the Central Water and Power Commission but they are lying in the cold storage from one year to eight years. We have sent detailed schemes of some 10 hydro power projects for clearance to the Government of India; two of them have also substantial irrigation potential. These hydro projects of power generation and irrigation will benefit thousands of hectares of land and hence these should be cleared as early as possible. We have Hirana-kesh power generation project of 653.5 MW, irrigation potential 45,916 hectares of land. This was submitted for clearance on 10th May 1966. The second was Kasari power generation project, 336 MW with irrigation potential of 22,424 hectares. This was submitted on 9th June 1966. Papers regarding the Sahasrakund project were submitted on 23rd March 1964; Bhandardare was submitted on 12th September, 1968; Girna was submitted on 18th June 1970; Pravara canal project was submitted on 22nd May 1965; the Kas project as submitted on 6th October 1969; the Jalsindhi project was submitted on 31st July 1970; the Vaitarna project Stage II, with which I am connected, because the water supply and transmission relate to the constituency from which I come, namely, Bombay, was submitted on 7th October 1971, and the Pawne project was submitted on 17th January 1970.

The Government of India's clearance is not obligatory under any statute. But the Central Government and the Planning Commission do not even agree to the inclusion of projects in the annual plan without a clearance. Why should we not change this outdated and outmoded concept that the expenditure incurred on these uncleared projects is not treated as plan expenditure on which central assistance is calculated? How can Maharashtra, nay, the whole country, progress when the hold-up on clearance has been from 5 to 7 years? Thereby the cost of the projects goes up. I demand that these

[Dr. Kailas]

projects must be cleared within one year.

The Government of Maharashtra has chalked out a programme for 1973-74 to spend about Rs. 8.58 crores on uncleared projects and the stage has come when either we have to slow down the projects or start losing on central assistance. We receive typical replies in regard to these projects that there are river disputes and till they are settled, the projects cannot be cleared. May I impress and urge upon the Minister, Dr. K. L. Rao, to bring the Bill declaring rivers as national property before the House this session itself?

SHRI PILOO MODY (Godhra): National wealth.

DR. KAILAS: National wealth. I want an assurance that this Bill will be brought before this House during this session.

SHRI PILOO MODY: Nationalise the rivers.

DR. KAILAS: Disputes concerning the Krishna, Godavari and Narmada should be settled finally. Otherwise, these will linger on for many more years to come for want of statutory provision.

Maharashtra, as I have earlier said, is the second lowest in the country in terms of irrigation. Here I would like to tell the Minister that two assurances were given in this House. One was by the late Prime Minister, Pandit Nehru, which I will quote a little later. But I would request Dr. Rao to kindly see that the Dudhganga project, pending since 1964, the Kukadi project held up since 1966 and the Upper Wardha pending since 1964 should be cleared immediately. Even projects like Surya, Bhatsa, Suki and Aner, in respect of which there is no river dispute or tribunal, are not being cleared. The Minister may kindly tell me why they are not being cleared.

Pandit Nehru had written a letter to the Chief Minister of Maharashtra on 31st December, 1963 which said:

"So far as your irrigation projects are concerned, all waters that you required for them would be supplied."

Further, a statement was made in Parliament on 23rd March, 1963 that Maharashtra can have all irrigation projects on Godavari and may draw by 1978 about 400 TMC in the Godavari. Why then are the projects on the Godavari not being cleared at least up to the limits of the balance of the allocation of water, which I have mentioned a little earlier?

I do not know why the completion of the Pong dam, to be delayed by one year, is being pressed by my friends. Why not the Himachal Pradesh Government depute a senior officer to see that each and every oustee who is going to be displaced gets the land, when 2.5 lakh acres of land are there, and also get compensation? By delaying the Pong dam, perhaps we will lose in many ways. Firstly, we lose by way of agricultural produce, and then the Rajasthan Government loses crores of rupees for paying compensation, while the cost of the project goes higher and higher year after year.

I am told that there a compensation is being asked for, for the trees. Naturally compensation for the trees also should be paid because the trees are now three to seven years old and an amount of Rs. 5 crores has to be paid. Further, an interest of nine per cent which is charged will affect the Rajasthan Government. That is another reason why the cost of this project are going up. Why Rajasthan should suffer any more?

Let us think of the country as a whole and let us see that all the oustees get what they were assured from time to time. But let us see that

the Pong dam is completed this year.

During the fourth Plan, we have fixed a target of generating capacity to be 23 million kw after leaving the old and obsolete generating plants. But perhaps we did not determine the manufacturing capacity of HEIL, Bhopal, BHEL of Hardwar, and BHEL of Hyderabad, and hence, 4.3 million kw of equipment have to be imported. I am sorry to note that there is so much of foreign exchange which has got to be utilised. The only answer for industrial growth and agricultural production is that we must have more thermal generating stations rather than depend on hydel projects.

So, I would request Dr. Rao to personally look into the delays in getting the equipment, delay in the completion of civil works, delay in erection and delay in the finalisation of agency to supply the equipment.

Rural electrification has not been so satisfactory as it should have been, after 25 years of independence, so many villages still remain without electricity. Harijan bustees have been kept apart. Even when the whole village gets electricity, the Harijan bustees nearabout do not get electricity. I am sorry to note that though the Plan is there, the electrification of the Harijan bustees is not done. I hope Dr. Rao will apply his mind and see that we celebrate the 25th year of the independence of our country in a dignified way by electrifying all the villages including the Harijan bustees.

SHRI H. M. PATEL (Dhandhuka): Mr. Chairman, Sir, I had looked forward to reading the achievements of the Ministry of Irrigation and Power with considerable interest, and I must confess that I was a little disappointed because what the Minister has had to say both in regard to irrigation and power is that there has been a considerable shortfall in achievement in both cases.

In regard to power the Ministry says that in 1961 we had 2.3 million

kw of power and today we have 18 million. It is of course a matter for some satisfaction, but then, when we look to the targets that have been set for ourselves, we find that we had hoped to achieve 23 million kw of power by the end of the fourth Plan period, and we expect perhaps that with some luck we shall reach the figure of 20 million kw. That means a considerable shortfall of three million kw at the end of the fourth Plan. Today, already, we are short by over a million kilowatts. The report goes on to say that in the fifth Plan, we hope to double this, that is to say, we hope to have 41 million kw of energy, an additional established capacity of a little over 20 million kw. How is this going to be achieved? The shortfall that was there has been attributed to the failure of indigenous manufacturing capacity to supply sufficient equipment; secondly, shortfall in resources—not enough financial resources. Thirdly, failure in the establishment, maintenance and operation. The point about the indigenous capacity is very important. If the Fifth Plan target is to be realised, then one decision will have to be taken right from the outset and the Ministry of Irrigation and Power should press for it right from this moment—whatever the indigenous capacity is unable to cope with should be allowed to be imported. The indigenous capacity today is no more than 8 million kws; perhaps if pressed very hard they may claim to be able to do 10 million kws. Where then is this gap of 10 million kws to be filled from clearly through imports; there is no other way in which we can achieve this target that we have set before ourselves. The demand for power rises rapidly; in fact in our country it doubles itself every five years; in an advanced country it may take ten years. That is why the Ministry has rightly said that during the Fifth Plan we must establish another 20 million kws and that is why I would urge the Minister to take a strong line in regard to im-

[Shri H. M. Patel]

ports of equipment required which the indigenous manufacturing capacity will be unable to fulfil.

The indigenous manufacturing capacity has in fact a great deal to answer for. It knew what its limitations were; nevertheless it came in the way of import of equipment in good time. That is why we have to pass through tremendous shortages in power all over the country, last year. The cost of that has been incredible loss of industrial production, loss of agricultural production and so many other difficulties into which the whole country was placed; these were entirely because of the shortfall in power generation which shortfall was due to no small extent to the obstinacy of the indigenous manufacturing capacity. Even to this day they insist that they can manufacture everything that the country requires. Quite rightly, we should aim to be self-reliant. But there is no point in shutting our eyes to the fact that indigenous manufacture can only produce certain amount of equipment and no more. If we are satisfied that our requirement is of a certain order, we must see to it that the rest is imported and the foreign exchange necessary for it is found.

I would now like to say a few words in regard to irrigation.

In fact, the Irrigation Ministry takes a great deal of satisfaction from this fact that since independence, we have brought under irrigation 10.7 million hectares of land—far more than anything that was done before that date. That is undoubtedly a matter for satisfaction. But, this report goes on to say that we have so far utilised not more than one-seventh of the available irrigation potential. Why have we not been faster? You yourself say that irrigation facility is one of the foremost and important of infrastructures that is required. If that is so, it would mean that we should do something more in this regard. Water or whatever be the irrigation facility

available is a national resource. This is a point which my hon. friend, I am glad to say, has emphasised. Emphasising must also mean that he proposes to see that this laudable objective or principle is realised in actual practice.

You referred to a number of projects which are still virtually still-born. And Narmada is one which is one of the most important rivers which has remained unharnessed during the last twenty-five years. It carries as much water, I am told, as Sutlej, Beas and Ravi together carry. Water to-day is going into the sea whereas the water of those three rivers has enabled Haryana, Punjab and parts of Rajasthan to achieve the green revolution. Why are we continuing to do this? It is true that the matter is now referred to the Prime Minister for a decision. The Chief Ministers of the four Governments have agreed to refer this to her by withdrawing it from the Tribunal. I hope that the decision will soon be taken. It should be realised that if what Gujarat asks for is agreed to, then it will enable seventy lakhs of acres of land to be irrigated. Only if the height of Navagaondam is of the order which Gujarat has asked for, would it be possible for the Narmada water to reach Rajasthan. Otherwise, what is the point of allotting 500 thousand cusecs of water to Rajasthan? Only if the height of the dam is of that order, call the canal take off from the Narmada reservoir at a high enough level, and then only would you be able to take water upto Rajasthan. In fact the allotment of water to Rajasthan pre-supposes the acceptance of the principle of having a canal system capable of taking the Narmada water right up to Rajasthan borders. The position is simple. But, the point that I would like to mention is this. We have already got the Khosla Committee Report. The Committee was composed of engineers of the highest repute. It is a great pity that we should have allowed so much water to go into the sea and not taken a

decision at the earliest possible moment. If I may venture to make this suggestion for the Prime Minister's consideration it is this that whatever may be the decision in regard to the height of the dam that you may decide upon, let the foundations be laid for the full height that Gujarat requires so that later on we may not say that it was a pity that we have made this mistake in not laying the foundations capable of taking the dam up to the full required height. If the foundations for the full height are laid now, even at that late stage, you can allow the dam to be built upto the right height.

I wish to say one more thing. The hon. Minister, in reply to a Calling Attention Motion regarding Bihar, said something about the tremendous problem that silt creates for all our irrigation works. That is due, very largely, to the fact that not much progress has been made in regard to soil conservation in the catchment areas and afforestation is not proceeding at the pace that is necessary. This, I think, is something to which greatest importance should be attached and I think that it should be taken up in earnest. The programme of afforestation should be taken up on a war footing. That is the only way by which we can, perhaps, prevent the floods from increasing year after year. It will be noticed that every year, a significant increase in floods is bringing in greater destruction. This is the only answer to this.

श्री राम सहाय पांडे (राजनंदनगांव):
सभापति जी, विद्युत और सिंचाई मन्त्रालय की मांगों पर मैं समझ नहीं पा रहा हूँ कि मैं मन्त्री जी को बधाई दूँ या उनके प्रति संवेदना प्रकट करूँ। संवेदना इसलिए कि जितना बड़ा दायित्व, जितना बड़ा भार, देश की हरित क्रान्ति का भार, उनके कंधों पर है उतना उनको सशक्त नहीं किया गया। न तो वे उतने सशक्त

हैं और न उनका मन्त्रालय उतना सशक्त है। मैं अनुभव करता हूँ कि अगर सिंचाई और विद्युत के विकास के सन्दर्भ में बार-फुटिंग पर इस मन्त्रालय को सशक्त नहीं किया गया तो फिर हम गरीबी हटाओ नारे को एक कल्पनामात्र ही समझेंगे। किसान आपसे कुछ नहीं चाहता है, किसान श्रम की अंजलि देना चाहता है, श्रम की साधना के माध्यम से धरती की पूजा करना चाहता है और आपसे केवल पानी चाहता है। धरती की वंदना में हमने सुजलाम् सफलाम् का गीत गाया है। यदि धरती सुजलाम् नहीं है तो सफलाम् नहीं हो सकती है। धरती यदि पानी से परिप्लवित नहीं है तो फिर उस उससे यह आशा नहीं कर सकते कि वह हमें खाद्य सामग्री दे, फल दे। इस सन्दर्भ में मैं प्रधान मन्त्री जी से निवेदन करना चाहता हूँ, प्रार्थना करना चाहता हूँ कि पांचवी योजना के माध्यम से अधिक से अधिक धन का प्रावधान करके इस हरित क्रान्ति की परिकल्पना के सन्दर्भ में इस मन्त्रालय को सशक्त करें। डा० राव बड़े योग्य मन्त्री हैं, उनका मन्त्रालय भी बड़ा योग्य है लेकिन कर्मठ होना एक बात है और साधनों को बटोर कर समृद्धि की ओर लगाना दूसरी बात है। मैं आप से निवेदन करना चाहता हूँ कि 12 हजार करोड़ का सिंचाई का प्रावधान चौथी योजना में था और पांचवी पंचवर्षीय योजना में उसको बढ़ाकर 21 सौ करोड़ किया जायेगा। यदि आप हमारी स्थिति को देखें तो इस देश में, संसार में जितनी धरती पर खेती होती है उसकी दो प्रतिशत धरती यहाँ पर है जिसपर खेती होती है लेकिन हमारी आबादी

[श्री राम सहाय पांडे]

संसार की कुल आबादी का 14 प्रतिशत है। लेकिन इन्द्र भगवान की कृपा से संसार का जल जो हमको प्राप्त है वह दस प्रतिशत है यानी दस प्रतिशत जल, जो संसार में ऊपर से बरसता है वह हमारी धरती को प्राप्त होता है। लेकिन जो पानी बरसता है वह पानी नाली में, नालों में, नहरों में, नदियों में, बड़ी-बड़ी नदियों में बहकर समुद्र में विलीन हो जाता है। उस पानी का हम केन्द्रीयकरण नहीं कर पाते हैं, उस पानी को हम इकट्ठा नहीं कर पाते हैं। यही कारण है कि जब हर हर करके पानी बरसता है तो नदियों में बाढ़ आती है, हम फ्लड कंट्रोल नहीं करते और वह पानी समुद्र में चला जाता है। यदि हम संसार के पानी के इस दस प्रतिशत भाग को, जो ऊपर से बरसता है, उसका संयोजन कर सकें तो क्या हमारी धरती भूखी रहेगी, प्यासी रहेगी? हम समझते हैं कहीं न कहीं फाल्टी प्लानिंग है जिसके कारण हर जगह धरती प्यासी है, प्यासी है, किसान भूखा है, किसान भूखा है—यह नारा लग रहा है। यदि आप चाहे, धरती को पानी दे सकें तो बेकारी दूर कर सकते हैं, अनाज की समस्या को समाधान कर सकते हैं और वहां पर और तमाम विकास के काम हो सकते हैं।

में इस सन्दर्भ में अपने प्रदेश पर आ जाना चाहता हूं क्योंकि आपकी घंटी का मुझे बड़ा डर है। मध्य प्रदेश इस देश का सबसे बड़ा भाग है जिसका कुल क्षेत्रफल 4,34,452 वर्ग किलोमीटर है जोकि हमारे देश का 13.5 प्रतिशत भाग है और आबादी 7.5 प्रतिशत है। आप सिंचाई की स्थिति

को भी देखें। यह सबसे बड़ा दुर्भाग्य है, आपसे क्या कहूं जब मैं कहता हूं कि दुर्भाग्य है, हमारा प्रदेश पिछड़ा हुआ है तब न तो हमें यह कहना अच्छा लगता है कि हमारा दुर्भाग्य है और न यह कहने में बड़ा गर्व होता है हमारा प्रदेश पिछड़ा हुआ है लेकिन वस्तुस्थिति यह है कि मध्य प्रदेश पिछड़ा हुआ है। साधन होते हुए भी, पानी होते हुए भी, नर्मदा, तापती, सोन, महानदी, गोदावरी इन नदियों के होते हुए भी जिनकी धारायें हमारी सीमा के बीच से होकर निकलती हैं, इतनी नदियों का नैसर्गिक प्रसाधन हमारे पास हो उसके बाद भी हमारे प्रदेश में केवल 7.5 प्रतिशत सिंचाई हो जबकि और स्थानों पर 23 प्रतिशत हो। (व्यवधान) इस सिंचाई की न्यूनता और कमी के कारण हमारा उत्पादन, देश भर में जितने प्रदेश हैं उनमें सबसे कम है क्योंकि सिंचाई हमारे यहां है केवल 7.5 प्रतिशत। इसी के कारण हमारे यहां जो चावल का उत्पादन होता है वह केवल 841 किलोग्राम पर-हेक्टर होता है और गेहूं 760 किलोग्राम पर-हेक्टर होता है। अब और प्रदेशों की जो स्थिति है उसकी तुलना में आप देखें कि चावल के लिए सिंचित क्षेत्र 13.3 प्रतिशत और 1970-71 में उत्पादन 841 किलोग्राम प्रति हेक्टर जबकि तमिलनाडु में 93 प्रतिशत चावल का क्षेत्र सिंचित और उत्पादन 1974 किलोग्राम प्रति हेक्टर। इसी प्रकार से गेहूं में मध्य प्रदेश में सिंचित क्षेत्र 10.6 प्रतिशत और उत्पादन 1970-71 में 760 किलोग्राम प्रति हेक्टर जबकि पंजाब में गेहूं का सिंचित क्षेत्र 70 प्रतिशत और उत्पादन 2215 किलोग्राम प्रति हेक्टर। इसी प्रकार से और प्रदेशों में भी होता है। इससे मैं यह सिद्ध करना चाहता हूं कि पानी होते हुए भी पानी प्राप्त नहीं होता है। सिंचाई के साधनों की कमी

के कारण हमारा उत्पादन कम होता है। हमारा क्षेत्र बड़ा है। और यदि आप नदी नाले और बड़ी बड़ी नदियां जिनका मैंने उल्लेख किया उनके पानी को बांधकर उसकी जलधारा खेती की तरफ उन्मुख कर दें तो पंजाब के अनुपात में, हरियाणा के अनुपात में और तामिलनाडू के अनुपात में हम भी आ सकते हैं। इस विपन्नता और अकिंचनता की स्थिति में भी हम तीन चार वर्ष पहले सरप्लस थे। इन तमाम परिस्थितियों को देखते हुए मैं निवेदन करना चाहता हूं कि आप प्रधान मन्त्री जी से कहिये मध्य प्रदेश की ओर से, कि एक हजार करोड़ का विशेष प्राविान करने का प्रयास करें। इस एक हजार करोड़ के लिए यदि हम रेगिस्तान में बसे होते तो कह सकती हैं कि एक हजार करोड़ क्यों दें लेकिन जहां पानी है—मध्य प्रदेश में 50 इंच पानी बरसता है—जहां गेहूं के लिए मालवा की भूमि है और चावल के लिए छत्तीसगढ़ की भूमि है, गेहूं भी है, चावल भी है और दालें भी हैं, वहां यदि एक हजार करोड़ का विशेष रूप से प्राविधान किया गया और जो हमारे प्रोजेक्ट्स अधूरे हैं नदियों के वह पूरे कर सकें, तमाम पानी का संयोजन करके खेतों की तरफ बहा सकें—यदि इस प्रकार की सहायता आप हमारी करेंगे तो हमारे प्रदेश के पिछड़ेपन को भी दूर करेंगे जहां कि हर तीसरा आदमी अदिवासी है, हर तीसरा व्यक्ति हरिजन है। आज हमारा प्रदेश पिछड़ा हुआ है, जंगलों में हैं और खेती के तमाम साधनों और उपकरणों का हम उपयोग नहीं कर पा रहे हैं। यही हालत बिजली की भी है, उस पर भी मैं आऊंगा।

इसके साथ साथ मैं नर्मदा नदी के सम्बन्ध में भी निवेदन करना चाहता हूं। यह नदी हमारे यहां से निकली है, इसका उद्गम हमारे यहां से है। उसका कुछ झगड़ा गुजरात से है। यह झगड़ा नवगांव बांध की ऊंचाई कितनी हो उसके सम्बन्ध में है और यह मामला प्रधान मन्त्री जी को सौंप दिया गया है। मैं आपके माध्यम से माननीय मन्त्री जी से निवेदन करना चाहता हूं कि वह प्रधान मन्त्री जी से कहें एक-दो महीने में उसका निर्णय दे दें, बड़ी उत्सुकता से मध्य प्रदेश और गुजरात उसकी प्रतीक्षा कर रहे हैं। यह जो डिस्प्यूट है वह कहीं न कहीं जाकर हल होना चाहिए। एक चम्मच पानी हम उसका इस्तेमाल नहीं कर पाये हैं। यह एक पेरीनियल रिवर है जो कि समुद्र में जाकर विलीन हो जाती है किन्तु दुर्भाग्य की बात है कि उसके जल का हम उपयोग नहीं कर सके तो फिर हम भूखें रहेंगे ही। हमारी प्रधान मन्त्री बड़ी सशक्त हैं, आज के समय की वह नेता हैं, हमारे देश की कर्णधार हैं, हम निवेदन करना चाहते हैं कि इसका तुरन्त निर्णय वह दें।

बिजली का जहां तक सम्बन्ध है, हमारे यहां सस्ता कोयला है, घटिया क्वालिटी का कोयला है वहां पर सुपर थर्मल पावर स्टेशन्स लगा दिये जायें। डा० राव बतायेंगे, हमने उनको बाहर भेजा स्टेट की तरफ से और कहा कि पिटहेड्स पर आप पावर स्टेशन लगा दीजिये। हम ने नाम दे दिये। अब मालूम नहीं क्या कठिनाई है, शायद अन्ततोगत्वा यही कहेंगे कि इनके पास पैसा नहीं है, साधन नहीं है। लेकिन

[श्री राम सहाय पांडे]

हम कहते हैं कि साधन हमारे पास हैं, पैसा आप लगा दीजिये । हमारे पास साधन हैं, इनफ्रीरियर क्वालिटी का कोयला हमारे पास है, हम ने उनको गिनाया है कि अगर इस पिट हैड पर पावर स्टेशन लगा दें तो आपका काम बहुत आसान हो सकता है, और पांच, छः स्टेट्स को हम सस्ती बिजली दे सकते हैं अगर पिट हैड्स पर सुपर पावर स्टेशन लगा दें । सतपुड़ा में 6 यूनिट लगा दें तो 1200 मेगावाट बिजली हम पैदा कर सकते हैं, कोरबा में 5 यूनिट लगा दें तो 1000 मेगावाट बिजली पैदा कर सकते हैं और सिंगरौली में 5 यूनिट लगा दें तो 1000 मेगावाट बिजली पैदा कर सकते हैं । इस तरह से हम 3,200 मेगावाट बिजली पैदा कर सकते हैं अगर इन तीनों योजनाओं को आप पूरा कर दें । इस तरह से बिजली पैदा करके हम सारे प्रदेशों को बिजली दे सकते हैं केवल आप पिट हैड्स पर सुपर पावर स्टेशन लगा दें । और इसमें कमी क्या होगी कि ट्रांसमिशन टावर से बिजली जाये, अपनी अपनी स्टेट्स में ट्रांसमिशन टावर लगा लें, और हम रेलवे की भी मदद कर सकते हैं जो ऐक्सट्रा बैगन्स ऐनगेज होते हैं कोयला ले जाने में उनकी बचत होगी अगर पिट हैड पर आप पावर स्टेशन बना दें तो । पिट हैड पर पावर स्टेशन लगाने के बाद हम यह करेंगे कि वहां से सस्ती बिजली सप्लाई करेंगे और अलग-अलग स्टेट्स अपने ट्रांसमिशन टावर लगा दें । बैगन्स की भी बचत हो जायेगी ।

हमारे यहां क्या स्थिति है ? हमारे यहां 1,90,191 सिंचाई के कूप बन पाये, जब कि

लाखों-लाखों कूपों के लिए कूप पम्प्स की आवश्यकता है । आप तमिलनाडु, पंजाब और हरियाणा को देख लीजिये कि बिजली की बजह से वह ज्यादा पानी खींच सकते हैं, सब-सौइल वाटर उन के यहां मिलता है । हमारे यहां सब सौइल वाटर उतना नहीं है, इसलिए हम को ज्यादा गहराई में जाना पड़ता है । अब जरा यह भी देखें कि खेती में हमारे यहां कितनी बिजली लगती है ? केवल 4 प्रतिशत बिजली लगती है जब कि हरियाणा में 34 प्रतिशत, तमिलनाडु में 25 प्रतिशत, पंजाब में 24 प्रतिशत, आंध्र प्रदेश में 21 प्रतिशत । जरा देखिये तो मध्य प्रदेश है कहां ? कहीं नहीं । भूगोल में तो बड़ा दिखता है, लेकिन सिंचाई में कहीं नहीं दिखता है ।

हमारे मध्य प्रदेश में 70,414 गांव हैं उनमें से हम केवल 9,273 गांवों में बिजली दे सके हैं । जबकि हरियाणा में जितने गांव हैं अंतिम गांव को बिजली देने की सेरेमनी प्रधान मंत्री ने अपने हाथों से की, यानी 100 प्रतिशत । तामिलनाडु 96 परसेंट, महाराष्ट्र 40 परसेंट, मैसूर 42 परसेंट, आन्ध्र 35 परसेंट, गुजरात 27 परसेंट और उत्तर प्रदेश 23 परसेंट, गांवों में बिजली पहुंचायी जा चुकी है । लेकिन मध्य प्रदेश में केवल 13 परसेंट गांवों में बिजली पहुंचायी जा सकी है । अब श्रीमन्, हम किससे रोयें ? का पर करूं सिंगार, पिया मोर आंध्र । ऐसी स्थिति हमारी हो गयी है ।

हालांकि हमारे मंत्री जी बड़े योग्य हैं, लेकिन कोई सुनने वाला नहीं है । मैं कहता हूं कि आप मंत्रालय को सशक्त कीजिये, पैसे का प्राविधान कीजिये, बीजनाओं को सशक्त कीजिये ताकि देश की हरित क्रांति की-

कल्याण को सेफली देंगे । और मध्य प्रदेश जो पिछड़ा हुआ है, गरीब है, निर्धन है, अधिकतर है, तमाम साधनों से अति-प्रीति होते हुए भी उसका कटोरा खाली है । धरती प्यारी है, उसकी प्यास बुझाईये जिससे हमारी धरती सुजलोम हो ताकि सुफलाम हो सके । धन्यवाद ।

15.44 hrs.

[DR. SARADISH ROY in the chair.]

श्री नाथू राम मिर्चा (नागौर) : सभापति जी, देश का सिंचाई और बिजली मंत्रालय एक बहुत ही महत्व का मंत्रालय है और इसके जरिये देश को बनाने का सबसे अच्छा तरीका है । स मंत्रालय की कार्यवाहियों से क्योंकि सिंचाई से और बिजली से कृषि का उत्पादन बढ़ता है और देश के अन्दर उद्योग का उत्पादन भी बढ़ता है । इसलिए इसकी मांगों का समर्थन करना जरूरी है, और मैं उसका समर्थन करता हूँ । पर मांगों का समर्थन करते हुए कुछ फ़ैसले जो हमारी केन्द्रीय सरकार को करने हैं, और जिसमें इस मंत्रालय को भी अपना हिस्सा अदा करना है, उनका जिक्र करना चाहता हूँ । उनमें सब से अहम फ़ैसला तो यह है कि हमारे देश की नदियों का पानी का उपयोग, जो कई राज्यों से हो कर गुजरती हैं, उन योजनाओं का, जो काफ़ी अर्थ से विचाराधीन पड़ी हुई हैं, इम्प्लीमेंटेशन नहीं हो पाया । और वह इसलिए नहीं होता कि कई तरह के विवाद हमारे राज्यों के आपस में होते हैं । उनको निपटाने के लिए कई व्यवस्थाएँ हमारे विधान में हैं, पर वे व्यवस्थाएँ जो विधान में हैं वह काफ़ी उपयोगी नहीं हैं, काफ़ी सफ़िशियट नहीं हैं,

जिसकी वजह से उन विवादों को निपटारा जा सके । इसलिए कांस्टीट्यूशनल अमेंडमेंट करने का निश्चय केन्द्रीय सरकार ने किया है । और वह बिल आना चाहिए था इस सदन में । पिछली दफ़ा नहीं आया, इस बार भी आयेगा कि नहीं पता नहीं । पर मैं खास तौर से डा० राव से कहना चाहता हूँ, और आप की मार्फत केन्द्रीय सरकार से निवेदन करना चाहता हूँ कि जब कांस्टीट्यूशनल अमेंडमेंट होता है तो राज्यों से पूछते हैं कि आप लोग अपनी राय दीजिये । कुछ राज्यों ने जवाब भेजा है, लेकिन कुछ ने नहीं भेजा है । मैं सोचता हूँ कि अगर जरूरत पड़े तो प्रधान मंत्री को राज्यों को चिट्ठी लिखनी चाहिए और इस सदन के उठने से पहले कांस्टीट्यूशनल अमेंडमेंट बिल पास होना चाहिए क्योंकि उसको बिना पास किये कई विवादग्रस्त मामले जो पड़े हैं वह नहीं निपट पायेंगे । उनको निपटाने के लिए एक ताकतवर कांस्टीट्यूशनल प्रोवीज़न जब तक हमारे पास नहीं होगा तब तक उन विवादों को नहीं निपटाया जा सकता । नेशनल ग्रिड का आइडिया बड़ा अच्छा है क्योंकि जहाँ सारे देश का है और उसका उपयोग भी सारे देश के लिए होना चाहिए । लेकिन यह काम ठीक ढंग से तभी कर पायेंगे जब कांस्टीट्यूशनल अमेंडमेंट बिल पास हो जाये, और वह इसी सेशन में पास होना चाहिए । इसलिए मेरी माँग है कि केन्द्रीय सरकार उस बिल को इसी सेशन में लाये । पोलियामेट्री मैत्री जो निवेदन करना चाहता हूँ कि यह हमारे देश के लिए बहुत ही जरूरी और अहम कानून है और उसको जल्दी से जल्दी इसी सेशन में पास करना ।

[श्री नाथू राम मिश्रा]

सभापति जी, खास तौर से अब मैं देश के सुखाग्रस्त इलाकों की तरफ सरकार का ध्यान दिलाना चाहता हूँ कि किस तरह से बिजली और पानी की व्यवस्था न होने की वजह से इस देश का करोड़ों रुपया खर्च हो जाता है हर साल अकाल की समस्या को सुलझाने के लिये। करीबों ६०० राजस्थान में खर्च होता है, गुजरात में खर्च होता है, हरियाणा के उन इलाकों में खर्च होता है, महाराष्ट्र में खर्च होता है। उन इलाकों के अन्दर पानी और बिजली की व्यवस्था को जमाना है तो जिन नदियों का पानी आ सकता है रावी, व्यास और सतलज जिन के जरिये भाखड़ा बना और उस के बाद राजस्थान कैनल बन रहा है, ऐसी योजनाओं को चालू करना पड़ेगा जिस से सूखे की समस्या का मुकाबला किया जा सके और जो करोड़ों रुपये हर साल खर्च करना पड़ता है उस को बचाया जा सके।

राजस्थान कैनल प्रोजेक्ट के बारे में खासतौर से जो काम एक विवाद खड़ा हुआ था काल अटेंशन के जरिये कि जब तक उन विस्थापितों को न बसा दिया जाय तब तक पानी स्टोर न करो पीग बांध में। तो यह शर्त लगाना, मैं सोचता हूँ उचित नहीं है। जिस योजना से 10 लाख टन अनाज पैदा होने की गुंजाइश है, बांध बना हुआ तैयार है, पहले भी उस में बहुत देरी हो चुकी है, उस में अब और विलम्ब नहीं होना चाहिये। रावी, व्यास और सतलज के पानी का उपयोग राजस्थान के उन इलाकों में करने जा रहे हैं जहाँ कि आज पीने का पानी भी नहीं है। 10 साल

में एक बार बरसात होती है, 9, 9 साल अकाल पड़ता है। राजस्थान कैनल के अन्दर मैंने निवेदन किया है कि उस का सारा पानी पश्चिम की ओर ढाल है जो पाकिस्तान बोर्डर की तरफ है, तो उस पानी को लिफ्ट इर्रिगेशन स्कीम्स के जरिये पूर्व की तरफ लाया जाय। उस के लिये हम ने तीन लिफ्ट योजनाय रखी हैं, पहली तो छतीसगढ़ से नीखा होते हुए नागौर और नागौर से जोधपुर तक की योजना है। इस लिफ्ट से करीब 50,000 एकड़ की सिंचाई बाँकानेर जिले में होगी, डेढ़ लाख एकड़ की सिंचाई नागौर जिले में और 1 लाख एकड़ भूमि की सिंचाई जोधपुर जिले में करने से इन तीनों जिलों की अकाल की समस्या समाप्त हो सकती है। दूसरी लिफ्ट स्कीम है नाचना, रामदेवरा, पोफरान भिनियाना, कालमुंड तक। इसी नहर के जरिये फलो द्वारा बाड़मेर जिले के तिलवाड़ा गांव तक पानी पहुंचाया जा सकता है। और तीसरी योजना रामगढ़ से पाकिस्तान बोर्डर के किनारे फलो के जरिये इसी पानी को बाड़मेर की चौहाटन तहसील तक पहुंचाया जा सकता है। जब तक इन स्कीमों के जरिये एक एक जिले की डेढ़, दो लाख एकड़ भूमि की सिंचाई को स्टेबिलाइज नहीं करेंगे तब तक इन इलाकों के अन्दर और कोई पानी का व्यवस्था नहीं हो सकती है।

वहाँ पर कुछ पोंकेट्स में भूमिगत पानी है, उस पानी को निकालने के लिये उन डेपार्टमेंट के इलाकों में बिजली पहुंचानी पड़ेगी। बिजली बोर्ड अपनी मौजूदा इकोनामिक्स

में उन इलाकों में बिजली पहुंचाने में सक्षम नहीं है । इसलिये बिजली के प्राविधान को रखने के लिये केन्द्रीय सरकार को बड़े पैमाने पर उन इलाकों में काम अतने हाथ में लेना चाहिये जिस से वहां पर ट्यूब वेल चलाये जा सके । उन इलाकों में बिजली की बड़ी-बड़ी लाइन लगाने और उस के डिस्ट्रिब्यूशन का काम केन्द्र को करना चाहिये जिस से हर साल जो करोड़ों रुपया अकाल राहत कार्यों में खर्च करना पड़ता है, उस की बचत हो सकती है, और समस्या का स्थायी हल भी निकल सकता है । अगर इन योजनाओं को सबसिडाइज करना पड़े, ग्रांट देनी पड़े तो भी मेरी समझ में यह एक प्रोफ़ीटेबिल प्रोपोजीशन रहेगा और तब जा कर के हम उन इलाकों के अन्दर बिजला पहुंचा सकेंगे भूमिगत पानी लेने के लिये ।

इसी तरह से गंगा-कावेरी लिंक का नेशनल ग्रिड का जो आइडिया है वह बहुत अच्छी स्कीम है । उसके बारे में यू० एन० ओ० की टीम ने कहा है कि हिन्दुस्तान में इस काम को करने की सक्षमता है, थोड़ी सी बाहर से कुछ बातों में सहायता लेनी पड़ेगी । इसलिये जब हमारे पास सक्षमता है तो हम को उस पानी को कावेरी तक जोड़ना चाहिये जिस के कई उपयोग हैं जैसे ट्रांसपोर्टेशन होगा, बिजली जेनरेट होगी जिस से बड़ी भारी सिंचाई होगी । जमीन में पानी की रिसाई होने से जहां जमीन में पानी नहीं है वहां पानी बढ़ेगा । इस तरह से वह बड़ी इम्पार्टेंट योजना है । राजस्थान के लिए भी नर्बदा से फायदा पहुंचाने की

बात है । लेकिन वह तभी सम्भव हो सकती है जबकि हम नर्बदा पर जो बांध बन रहा है नवगांव में उसकी हाइट का फैसला तुरन्त करें । मैं प्रधान मंत्री जी से निवेदन करूंगा कि वह इसका फैसला तुरन्त करें और उसकी हाइट को बढ़ायें । तभी उस पानी का उपयोग राजस्थान के बाढ़मेर तथा जालौर के सूखे जिलों में हो सकेगा जहां हमेशा अकाल की वजह से करोड़ों रुपया हर वर्ष खर्च करना पड़ता है । गुजरात का भी बहुत सा इलाका नवगांव और नर्बदा के पानी के उपयोग से सैलाब होगा और करोड़ों रुपये का देश को लाभ होगा । यह बहुत जरूरी है । यह बहुत महत्वपूर्ण प्राजैक्ट है । इसको बनाना चाहिये यह कोई काल्पनिक नहीं है, प्रैक्टिकल प्राजैक्ट है । इस दृष्टिकोण से हमें चाहिये कि इस नैशनल ग्रिड के आइडिया को हम देश में जल्दी से जल्दी लागू करने की कोशिश करें । उस पानी का उपयोग होना चाहिये ।

बिजली के लिए खास तौर से मैं निवेदन करना चाहता हूं कि सूखे इलाकों में बिजली पहुंचाने के लिए हमें आज भी देश में थर्मल पावर पर ज्यादा जोर देना होगा । कोटा में सो मैगावाट का पावर स्टेशन लगाने की बात भी है ।

लेकिन उसका अभी तक सर्वे भी नहीं हुआ है । आपको चाहिये कि आप उसके अन्दर जल्दी से कार्रवाई करें और साथ ही राजस्थान सरकार को भी जोर दे कर इसके बारे में लिखें कि वह इस काम को जल्दी पूरा करे । सिंचाई और बिजली के अन्दर हमें बहुत

[श्री नौधू राज मिश्र]

सूख बूझ से और निश्चित नीतिका लागू करके चलने की आवश्यकता अभी काफी देर तक रहेगी और उस में थर्मल पावर पर ज्यादा जोर देना होगा।

आप सम्झते हैं कि एटमिक पावर सस्ती पड़ती है। चार सौ मेगावाट का कोटा में आपने एटमिक पावर प्लांट लगाया है। उसको आप उधें ही चालू करते हैं उसका बैरिंग निकल जाता है और वह चले नहीं पा रहा है। उसको जल्दी दुस्त किया जाये ताकि देश की समस्याओं का कुछ हल निकल सके। जो कनेडियन एक्सपर्ट्स हैं उनको आप कहें कि वे इस काम को जल्दी से जल्दी पूरा करें। साथ ही थर्मल पावर पर आप ज्यादा जोर दें क्योंकि जैसी स्थिति आज इस देश में पैदा हुई है वह और भी आगे पैदा हो सकती है। एटमिक पावर पर आपका नौ दस पैसे खर्च आता है जबकि थर्मल पर दस ग्यारह पैसे आता है। थोड़ी सी थर्मल पावर महंगी जरूर पड़ती है लेकिन वर्तमान स्थिति में यह मान कर आपको चलना होगा कि थर्मल पावर पर जोर दिया जाए। कारण यह है कि देश में कोयला है। कोयले से जेनरेशन चौहे पिट हैड्रोज पर करें या नजदीक से नजदीक कहीं पर कोयले का ट्रांसपोर्ट करके करें, आपको इसके बारे में कोई न कोई व्यवस्था करनी होगी ताकि पावर की कमी की वजह से जो इनस्टेबिलिटी आती रह रही है वह न आ सके।

गंगा में से फ्लड के दिनों में पानी प्राप्त किया जा सकता है और खास तौर से नरीरा के पास बीस तीस हजार क्यूसेक पानी लिफ्ट करके भनखुन लाया जाए। कुछ

हिस्से में लिफ्ट और कुछ हिस्से में फलों से वहाँ इस पानी से सिंचाई की व्यवस्था की जा सकती है। नागौर, चरु, बाड़मेर, जालोर, जोधपुर आदि में फलों से इसका उपयोग खरीफ फसल के वक्त सिंचाई कर के किया जा सकता है। पटने के पास जो पानी आप लेना चाहते हैं कावरी के लिए उसका भी कोई विरोध नहीं है। वह पानी भी सरपलस गंगा में है। इस तरह से गंगा के पानी के बारे में हरियाणा सरकार ने यह तजवीज की कि फ्लड के दिनों में जो पानी अवलेबल है उसको हरद्वार के पास से बैरेज बना करके गंगा कैनल, यमुना कैनल को फ्लास करते हुए जो उन्होंने अपनी आगमेंटेशन कैनल बनाई है, उसके साथ महेन्द्रगढ़, गुड़गांव आदि के सूखे इलाकों में पानी से सिंचाई की व्यवस्था वह करना चाहती है। इसके लिए वह दस हजार क्यूसेक पानी लेना चाहती है। मैं चाहता हूँ कि इस योजना को पांच हजार क्यूसेक और बढ़ा कर राजस्थान के नौहर, मादरा आदि के इलाकों की भी फलों के जरिये सिंचाई की व्यवस्था की जाए। गंगानगर आदि इलाके राजस्थान "नाल" में नहीं आते हैं। इनकी ऐसा करके 80-90 दिन तक सैलाब किया जा सकता है और उत्पादन बढ़ाया जा सकता है। सूखे इलाकों के लिए जो आप प्रतिवर्ष करोड़ों रुपया खर्च करते हैं उसका एक विविध नक्शा आपके सामने होना चाहिये। आज जो आप सोचते हैं कि फालतू खर्चा अकाल के वक्त आप कर रहे हैं उससे आप बच जाएंगे और इन योजनाओं के अन्दर अगर पैसा लगाया जाएगा तो यह पैसा का सदुपयोग होगा।

SHRI VIKRAM MAHAJAN (Kangra): To-day we are discussing the Demands of the Irrigation and Power Ministry. Sir, to-day, in view of the certain conditions prevalent in the country, I have to submit that a new look, a new approach and a new planning is needed to solve the problems facing the country.

The entire country is facing a power shortage and I would request the hon. Minister to scrap all the previous approaches and have a fresh look at the entire power system in the country. The maximum power in the next five years can be developed in Himachal Pradesh if a crash programme is gone through and I am sure, for the next 20 years, the power shortage can be met only from that small region. Therefore, the entire programme or at least the major programme should be diverted towards developing the power potential of Himachal Pradesh where minimum land will be utilised for the dams and the maximum power can be generated. Not only this, efforts should be made to complete the power projects in the shortest possible time instead of wasting the time in spreading out the projects over five or seven years. I will quote the instance of Seul project in the Himachal Pradesh. The project was supposed to be completed within a year but it was delayed and, not only there is delay in the production of power, but the cost also has mounted up. Instead of one shift, if three shifts have been put in, then, by this day, the project would have been completed and the cost would have been much less than what it will be when the project is ultimately completed. Not only this, the country would have got more power by now than it would get later on and the industries which have suffered and irrigation which has suffered, would not have suffered to that extent.

Therefore, what I am submitting now is that if a new look, a new approach is made and if you select only

a few projects and complete them at the earliest possible time by putting in three shifts so that the country gets the maximum power within the shortest possible time, that is the approach that is needed. We do not want spreading out 20 projects and each one taking 20 years. We need a few projects and maximum amount should be put in and they are completed and they are put in execution and more power is generated so that more industries come up. So, what we need is a new approach.

Sir, one of the biggest blunders which has been committed is the construction of the Pong Dam. I will give three major reasons why it is the blunder of the 20th century. 50,000 acres of irrigated land which produce half a million tonnes of foodgrains is going to be dammed up, is going to be submerged in water for the production of a million tonnes of foodgrains. I have never heard a greater blunder in the history of irrigation, where land producing half a million tonnes of foodgrains is going to be submerged for the production of a million tonnes of foodgrains. It is what the project is ultimately going to cost us. This is what the Minister has stated in the House yesterday that the irrigation which the water that will come out on account of this dam will produce a million tonnes of food-

Not only this, this project is mainly meant for the benefit of the Rajasthan State. Now this project is wholly meant for the benefit of the Rajasthan State and I for one, would try to give the maximum benefit to the people of Rajasthan because it is an area which is regularly facing famines and there is no water and maximum help should be given to Rajasthan. But, at the same time, the people with whose tears the particular project is made, should be given a humane treatment. There should be a humanistic approach and all the efforts should be

[Shri Vikram Phalajan]

to minimise the misery of these people. These two different points of view should be fused in such a way that minimum misery is caused to the people affected and maximum benefit accrues to the nation. That should be the objective. From this point of view, Dr. K. L. Rao did take in the early stages a very humanistic view. Thrice he gave an assurance in the House that he will reduce the miseries to the minimum, by saying that these oustees will be rehabilitated first and then the water will be impounded. In a sense, that was his approach then but I don't know how suddenly he has changed his view. His entire approach now is this, he has now started thinking like this, that he will have to impound the water whatever the consequences may be. This he is going to do in this very year. As I mentioned yesterday, if such assurances are not implemented and are not kept up, what happens is, such things bring congress party to ridicule, the Minister who gives such assurance to ridicule, it does bring the Government to ridicule. Therefore every effort should be made to implement these assurances which are given in this House. This is my respectful submission, Sir.

16 hrs.

A point was made that if we do not impound the water in this dam then we will lose millions of tonnes of foodgrains and all that. I have another point to make. This very land which is going to be submerged under water is producing about half a million tons of foodgrains. Therefore, if the same water is taken to Rajasthan in the next two years one million tonnes of foodgrains is not going to be produced. At the moment it will be quarter million in 1974 and half a million in 1975 and so on, it will be a gradual rise. The hon Minister should maintain the assurance which he has given in this House. He should implement such assurances. He should

see that they are rehabilitated and then only he should impound the water. This will not harm the interest of Rajasthan at all. Because, whatever the gains made there are the losses in this particular region. We have to take both the factors into account. Therefore, I submit, water should not be impounded at all for another 6 months or one year till rehabilitation takes place. It will not cause any damage to the foodgrain production in the country. Actually it will cost less to the Government of India and to the country. It is because the amount which is spent on temporary rehabilitation of these people, 70,000 of them, will be much more than the corresponding benefit which will accrue if the water is impounded. I have no quarrel with the representatives of Rajasthan. I do think that if hon. Members from Rajasthan had taken deep interest in this problem they would have solved it by this time and this situation would not have arisen at all. It is only because the bureaucracy in Rajasthan has been feeding them with wrong facts and information that they are taking this particular attitude. I want them to form a Committee, a Committee consisting of Rajasthan MPs who should see that these people who are going to be thrown out for the benefit of Rajasthan, are given proper treatment in Rajasthan.

The rainy season will be coming in June, 1973. The impounding of water will start. There will be enough water coming and difficulty will be faced by these 70,000 people, because there is no other source of income for them. Whatever nominal compensation has been given is not enough. It has been said that majority, 80 per cent, have got compensation and an impression has gone round to the effect that huge amounts have been given to the majority of the people. It is not so, I represent that area. I know that area. I can assure the House that they have not got compensation of more than 20,000. What can you get

for Rs. 20,000? For Rs. 20,000 you cannot get a single irrigated acre of land at all. It costs about Rs. 25,000 to get a good perennial acre of land and it is this class of people that I am speaking for. If there are five to seven persons who have got huge land Dr. Rao can amend the law and deny the entire compensation to them but I am speaking for 80 per cent of people who are small farmers. Therefore, I entreat Dr. Rao to treat their case in a way that the misery which is going to be caused now is reduced to the minimum. Therefore, I submit that he should keep up the assurance which he has given to this House so that all of us are not put to ridicule.

Lastly, he should make an attempt to coordinate the entire power in the country from whatever source it is. They should have a broader outlook and coordinate the three systems so that maximum electricity is produced and each region is given the proper share.

SHRI RANABAHADUR SINGH (Sidhi): Mr. Chairman, Sir, I suppose that in this era of shortages Dr. Rao would happily combine qualities of a statesman and an engineer. We would have, of course, plenty of occasions to be exercised over the conditions as this country is passing through but at the same time, I feel, that for a country like ours that we are experiencing a power shortage at the moment is the first indication that we are entering the age of progress and development. As such, this is not the time when we should be overwhelmed by the difficulties that we are facing. I submit this is the time when the qualities of a statesman should be used and helped by the qualities of an engineer should take a long-term view of the difficulties that we face. I think the projection of 52 million KW of power needed in 1980-81 might again turn out to be conservative as our projections in the previous years turned out to be far short of what we are needing now. So, I plead that

it is time that we take a broader perspective of this particular problem.

At this time our country is mainly dependant on hydel electricity and thermal power. We are just entering the atomic age of power generation. I submit respectfully, because Dr. Rao is a specialist in this field, would it not be possible, and I am afraid reading the present Report of the Ministry there are no indications to this effect, and cheaper also to start thinking of harnessing the geo-thermal power that we have in our country. As per the latest publication of a scientist we have a geo-thermal vein running parallel to the Himalayas in the North and then crossing over to the South in Tamil Nadu. These areas happen to be most endemically short of power and if we were able to do something in this field there might be a solution to our problem there.

At the same time, this is an age which snowballs in its progression rate, when we recall that what happened in the last 500 years in this country has been repeated in ten years and, may be, in the coming five years, that will repeat itself. The projects that may be made for the future have to take into account the gradually accelerating pace of the world as such.

So may I respectfully therefore submit that it is time that apart from these orthodox energy sources that we have been using so far, this geo-thermal power that is capable of being used was also taken account? Again, I am told—this is as per one of the papers I have with me—that the source of energy for the future is going to be hydrogen gas. It might sound rather too utopian to think about it in the present context of the economy, but what I mean to submit is that when we look at this power position in a pragmatic way, we have to take into account these factors which might help us in the future,

[Shri Ranabhadur Singh]

and there is no point in closing our eyes to these possibilities.

At the same time, incidentally, what we are going to face as a problem gradually over the years is and will be environmental pollution. When we talk about geo-thermal and hydrogen gas power, we obviate the possibility of this.

Closer to home, as my hon. friend, Shri R. S. Pandey, has very ably put it, the area of Singrouli, which is very rich in low quality coal, is an ideal setting for a super-thermal power station. The shortage points of North India would be ideally commanded by a super-thermal power station that can be located at that place. It is a matter of satisfaction that in answer to a question recently, we are told that particular suggestion of the State Government to set up a super-thermal power station has reached this Ministry, and I am sure that they would give quick clearance to that.

I wish also to draw the attention of Dr. Rao to the fact that one thing which is exercising almost all the farmers in my region is the question of tariffs. Our Electricity Board has set about the task of charging the farmers for the electricity that they consume on their farms in a very complicated manner. I do not wish to go into that particular complication because there is no time, but I would entreat Dr. Rao here to take this matter up with the Electricity Board and see whether it is possible to simplify the tariffs so that they become comprehensible to the small farmers. Right at this moment, they are incomprehensible and the farmer is hard put to understand them. Consequently, he is also exploited and he sometimes loses more money than the electricity he uses.

As far as rural electrification goes, this is one particular aspect of the Ministry which is grati-

formance. I say that it particularly this aspect of this Ministry that can really do something for backward regions as such. All this talk of removal of the imbalances and of bringing up the backward regions can be put into effect by this one particular Rural Electrification Corporation scheme but for the fact that this particular Corporation is now starved of funds. I would make a very sincere plea that Dr. Rao should take all the precautions necessary to see that the Rural Electrification Corporation is not put back due to shortage of funds.

In the same context, I feel that this new mini project that has been brought out by the Rural Electrification Corporation is a very meaningful one and it should be put to use. Villages of 2,000 to 2,500 population spread out over the whole country which, in spite of the assurances given on the floor of the House and in other State Assemblies, have remained unelectrified, should be given electricity by taking advantage of this mini project.

Also, I have come across one particular aspect of the functioning of the REC which I would like to bring to the notice of the Minister, and it is this. The REC has two types of programmes, one for the normal regions and one for the backward regions. The programme for the backward regions takes account of the fact that areas are predominantly Adivasi and have very little paying capacity and so they recover the amount which is recoverable from the farmer or from the Electricity Board. I have been facing this problem that some of the Electricity Boards initially started out by sending all the schemes, even for advanced regions, as backward schemes. The result has been that the Corporation being a careful authority started to reject those schemes. Now, the reverse procedure has set in. Now, even schemes meant for backward regions are processed in the State Electricity Boards as schemes for advanced

ed regions and subsequently the people who are backward initially are new saddled by the schemes which are meant for advanced regions. I would contract that this aspect should be looked into, and in case there is a machinery that is possible to be set up, those areas which have been sanctioned the advanced area schemes might be again classified as and given the advantage of backward area schemes.

Now, my learned friend Dr. Karni Singh has requested me to put before the Minister his views which I shall read out from his letter. He says that for many years he has been making the request on the floor of Parliament that the Rajasthan canal project should be taken over by the Centre. "Since I am going to be out, I shall be grateful if you can read out this particular thing and say that the hon. Minister might look into this matter in the context of the famine problem in that area at the moment." I support this request in view of the famine conditions prevailing in that region and also the magnitude of the project.

He goes on to say:

"The hon. Minister had also assured me that the Churu district of Rajasthan which suffers from acute water shortage would be explored by the survey team of the Ministry of Irrigation and Power to find out if the Rajasthan canal project water could be lifted to the Churu district, or, alternatively, the Ghaggar flood water can be down to the Churu district. I at this survey will be done and if already done, the Government may kindly inform the House of the results of the survey."

MR. CHAIRMAN: The hon. Member's time is up.

SHRI RANABAHADUR SINGH: I shall just take one more minute. One full year has gone by and we the or Rewa region have waited an-

xiously for the Ban gar Project. This is a unique project. It is something like the new schemes for air travel; where you go now and pay later. In this scheme, a slight amount of money is put up for a barrage and then you divert the floodwaters into a certain canal to generate electricity and the rest of the dam will be built by the revenue that will accrue from the electricity. Each year that is lost, apart from the fact that nearly six and a half million acres are losing the capacity of doubling their production, nearly 10 crores of rupees of revenue that is possible from the electricity is also being lost. I do not mean to hasten the process wherein we have been fully assured of Dr. Rao's encouraging attitude to this thing. What I mean to mention is only a fact that a backward region has many ramifications.

If an advanced region is denied something which it wants, it can raise a strong voice, but a backward region does not even have the capacity to raise a strong voice. It can only pray that a sympathetic and early decision would be reached on the matter and the only possibility that appears to us is to reach a decision is this: Whereas the amount of water-flow itself ranges from—according to the Khosla Committee Report—42,888 million cubic metres. It goes down in another estimate to 30,000 million cubic meters and the Bihar Government's own assessment is nearly 50,000 million cubic meters. In such a situation would it not be possible for him to accept this suggestion to set up a high power national body of experts which could evaluate the availability of water correctly and having done that, could evolve an equitable distribution formula.

I hope that Dr. Rao will study this suggestion for whatever it is worth. I did get a shock of my life when on 6 March Dr. Rao answering starred question 201 failed to mention Banagar project as a project under dis-

[Shri Ranabhadur Singh]

pute. My feelings could only be described by a certain based in his *sher*;

गुल रखेंगे लेहद पर
जिनसे यह उम्मीद थी
सीने पर पत्थर रख कर
चल दिए दफनाने के बाद ।

I hope that situation will not arise, and by next year when we meet again to discuss this Ministry's demands the Ban Sagar Project shall have been formally launched.

श्री विश्वनाथ राय (देवरिया) : सभा-
पति महोदय, आज भी देश की 80 प्रतिशत
जनता कृषि पर निर्भर करती है और कृषि
के लिये सिंचाई अत्यन्त आवश्यक है । हमारे
देश में जल की कमी नहीं है, नदियां हैं, पानी
भी बरसता है लेकिन उसका सिर्फ सातवां
हिस्सा ही उपयोग होता है और बाकी पानी
समुद्र में जाता है या ऐसे ही सूख जाता है ।
ऐसी हालत में यह प्रश्न उठता है कि क्यों नहीं
पहले से और काम किए गए । यूं तो 1951
में पहली योजना प्रारम्भ होने के बाद 588
बड़ी और छोटी योजनाएँ चलीं लेकिन वह
पूरी नहीं हो पाई । अभी तक सिर्फ 361
पूरी हुई और बाकी अभी चल रही हैं । जैसे
गंडक योजना है, राजस्थान योजना है,
ऐसी योजनाएँ जो बहुत उपयोगी हैं
वे अभी चल रही हैं । इसलिये यह
सवाल उठता है कभी-कभी क्या प्रदेश की सरकारें
उनको पूरा करने में, उनको अच्छी तरह से
चलाने में अयोग्य हैं और केन्द्र को उन्हें ले
लेना चाहिए या नहीं लेना चाहिए बहरहाल
इस विवाद में मैं पड़ना नहीं चाहता लेकिन
यह अवश्य चाहता हूँ कि केन्द्रीय सरकार जैसे

गंडक योजना है जिसको पूरा करने में 12 वर्ष
लगभग लग चुके हैं उस पर विशेष ध्यान दें
और जो योजनाएँ प्रारम्भ हो चुकी हैं वे
पूरी हो जायें । केवल 361 नहीं बल्कि 588
जो पहली योजना के शुरू के बाद प्रारम्भ हुईं
वह पूरी हों ।

इस सम्बन्ध में मैं अपने प्रदेश—उत्तर प्रदेश के
बारें में कहूँगा कि वहाँ 54 जिले हैं जिनमें से
27 जिले बैकवर्ड हैं । प्लानिंग कमिशन की
तरफ से जो रिपोर्ट निकली है उसके हिसाब से
27 जिले पिछड़े हुए हैं । पहली और दूसरी योजना
में तो कोई प्रोजेक्ट वहाँ चला नहीं और उसका
नतीजा यह हुआ कि वह प्रदेश दस साल
पिछड़ गया । अब उसको पूरा करने के लिये
प्रदेश भी उत्सुक है और केन्द्रीय सरकार का
ध्यान भी जा रहा है । इस सम्बन्ध में उत्तर
प्रदेश सरकार ने 7-8 छोटी छोटी योजनाएँ
केन्द्रीय सरकार के पास भेजी हैं जो इस मंत्रालय
के सामने विचाराधीन हैं । इसमें पहली 400
मेगावाट की गोरखपुर के पास एक योजना
है जिसमें दो मशीनें लगेंगी जो कि दो दो सौ
मेगावाट की होंगी । इसके लिये 61.84
करोड़ रुपए की आवश्यकता होगी । पांचवीं
योजना में यह पूरी हो सकती है और इससे
लाभ होने लगेगा । इसलिये यह योजना न०
एक पर है । दूसरे ओवरा का जो प्रोजेक्ट है
उन्को बढाने के लिये है । उसमें भी दो दो सौ
मेगावाट की दो मशीनें लगनी है । उसको
लगाने से वहाँ पावर जेनरेटिंग का काम भी बढ़
सकता है । इसी तरह से हरदुआगंज का जो
प्रोजेक्ट है जिस पर पहले से काम हो रहा है,
उत्पादन भी हो रहा है वहाँ 120 मेगावाट
की दो मशीनें लगाने की योजना प्रदेशीय

सरकार ने केन्द्रीय सरकार के साथ भेजी है। इसी प्रकार से विष्णु प्रयाग और नन्द प्रयाग में जो नदियों का जल आता है उसकी भी योजनाएँ हैं। ऋषीकेश के पास भी छोटी-मोटी योजना शुरू करने की बात है। सब मिलाकर 8 छोटी मोटी योजनाएँ पांचवीं योजना में चलाने के लिये उत्तर प्रदेश सरकार का आपसे अनुरोध है। मैं इस बजह से जोर नहीं दे रहा हूँ कि मैं उस प्रदेश से आता हूँ बल्कि जनसंख्या की दृष्टि से देश का सबसे बड़ा प्रदेश होते हुए भी जैसे वहाँ प्रति व्यक्ति आय कम है वैसे ही प्रति व्यक्ति बिजली की खपत भी बहुत कम है। अंतिम तो नहीं लेकिन देश में जो पिछड़े हुए प्रदेश हैं उनमें नीचे से दूसरे या तीसरे स्थान पर उत्तर प्रदेश का नम्बर आता है। इस बजह से जो प्रदेश और देश के भाग बहुत पिछड़े हुए हैं उनके सम्बन्ध में प्लानिंग कमिशन ने यह नीति अपनाई है कि जो पिछड़े हुए हों, जिनकी आवादी अधिक हो वहाँ पर धन के दृष्टिकोण से विशेष ध्यान दिया जाये। यदि उसी नीति को आप भी अपनायें तो उत्तर प्रदेश के लिये पावर और सिंचाई के सम्बन्ध में विशेष ध्यान देना पड़ेगा क्योंकि वहाँ पिछड़ापन कम नहीं है बल्कि 27 जिले ऐसे हैं जिनके लिये प्लानिंग कमिशन ने कह दिया है कि वे पिछड़े हुए हैं। यह तो मैं नयी योजनाओं के सम्बन्ध में अनुरोध कर रहा हूँ।

अब जो योजनाएँ पहले से चल रही हैं उनके सम्बन्ध में बतलाऊँ। हमारे देश में फ्लड की जो समस्या है वह एक राष्ट्रीय समस्या है। 1951-52 के बाद आपकी रिपोर्ट के अनुसार औसतन 126 करोड़ रुपए की सम्पत्ति

की बर्बादी हर साल बाढ़ से होती है। अब तक आप ने बाढ़ से रक्षा के लिये कुल मिलाकर जो खर्च किया है वह केवल 266 करोड़ है। इसका मतलब यह है कि जहाँ करीब 22-23 सौ करोड़ रुपए की बर्बादी अब तक बाढ़ से हुई है उसकी सुरक्षा के लिये आपने अब तक सिर्फ 266 करोड़ रुपए ही लगाए हैं। यह इस देश की एक ऐसी बड़ी समस्या है जिसका आपके मंत्रालय से सीधा सम्बन्ध है। यदि आप इसके लिये कदम नहीं उठायेंगे तो जैसे कभी किसी एक साल में ही लगभग 4 सौ करोड़ की बर्बादी बाढ़ के कारण हुई थी उसको कैसे रोक सकेंगे। मैं इसलिये इसकी चर्चा कर रहा हूँ कि मैं ऐसे इलाके से आता हूँ जहाँ बहुत सी नदियाँ हैं। इस समय भी जो बड़ी गंडक है उसका कटाव बड़ी तेजी पर है। उसकी बजह से दो चीनी की मिले खतरों में हैं और रेलवे भी खतरे में है। पार साल रेलवे लाइन कट भी चुकी थी। यही तक नहीं आपकी गंडक योजना जो है जिसमें 129 करोड़ से अधिक लगने जा रहा है, अगर कटाव उसी तरह से जारी रहा तो जो आपकी नहर है वह किसी वक्त धारा के रूप में परिवर्तित हो सकती है। इसलिये मैं आपका ध्यान विशेष तौर पर दिलाना चाहता हूँ कि आप प्रदेश सरकार पर उस गंडक के कटाव को न छोड़ें, इस रूप में न छोड़ें कि वह बढ़ते बढ़ते रेलवे लाइन भी निगल जाये, जोकि पार साल कट भी चुकी थी—उस रेलवे लाइन की उतनी फिक्र नहीं है—लेकिन बात यह है कि इस योजना पर जितना रुपया खर्चा हुआ वह और बिहार और यू० पी० की सिंचाई के लिये जिससे लगभग साठे पांच लाख एकड़ की सिंचाई होगी, वह योजना भी नदी

[श्री विश्वनाथ राय]

के रूप में परिवर्तित हो जायेगी तथा धन जो खर्चा है उसका भी नुकसान हो जायेगा और जो आमदनी हो सकती है, जो उत्पादक बढ सकता है उसका भी नुकसान हो जायेगा। इसलिये मेरा मंत्री जी से आग्रह है कि उस कड़ाव के रोक्ने के कार्य को केन्द्रीय सरकार के हाथ में लें और उस पर विशेष ध्यान दें। इस साल की बात है, जहाँ से खबर आई है कि कदाव बड़ी सेज़ी पर है उसको रोक्ने के लिये लगभग पाँच लाख करोड़ रुपये लग गए। उत्तर प्रदेश का जो रूपया लगता है उससे जब तक एक ठोकर बरती है जब तक दूसरी जगह सेज़ी से कदाव होने लगता है। इसलिये उस पर सेन्ट्रल गवर्नमेंट विशेष तौर से ध्यान दें।

जहाँ तक बिजली का सम्बन्ध है, जैसा कि मैंने पहले कहा, हमारा प्रदेश बहुत सिकड़ा हुआ है ही इस सम्बन्ध में दो बातें फँस रही हैं। मंत्री जी एक्सपर्ट होने के नाते बतलायेंगे। एक बात तो यह है कि पानी कम बरसने से देश में बिजली पैदा करने में दिक्कत हो रही है एक सय यह है। इससे यार यह भी है कि जो लम्बा है, जो लम्बे ब्रेम्स हैं उनमें सिल्टिंग बहुत हो गई है जिसकी वजह से उसकी गहचई खतरी नहीं रह गई है, उनमें पानी कम होता जा रहा है। जिसका काम यह दे सकते हैं उसके लिये उनमें उत्तम पानी नहीं रह पाता है। दूसरी बात यह है कि जो थर्मल प्लांट्स हैं उनके बारे में कहा जाता है कि वह बहुत पुराने हो गए हैं और उसकी वजह से उनका काम अच्छी तरह से नहीं चल रहा है। उसकी वजह से इस साल बिजली के उत्पादन में विशेष प्रतिकूल हुई है। तो इन बातों के बारे में, जो

आपके स्पेशलिस्ट्स हैं वे सारे देश में जायें और देखें कि जो थर्मल प्लांट्स हैं या जो डैम्स हैं जिनमें सिल्टिंग हो रही है उनकी हालत कैसी है। जैसे कि नंगल के बारे में अभी पंजाब के एक सदस्य जी ने कहा था कि उसकी उम्र केवल 70 साल रह जायेगी। तो ऐसी स्थिति और जगह भी हो रही है, उस सम्बन्ध में देखना चाहिये।

गांवों में बिजली पहुँचाने के सम्बन्ध में जो कार्य हुआ है वह ठीक है, उससे हम सन्तोषजनक कह सकते हैं। लेकिन एक बात है कि वह बिजली जो उद्योग धंधे के लिये सस्ती जाती है वह कृषि उत्पादन के लिये महंगी दी जाती है। इसके सम्बन्ध में बार बार यहां प्रश्न उठता है लेकिन तब भी सरकार अपनी पौजिशी में ज़ेज नहीं करती है। यह ख्याल करें कि केवल इंडस्ट्रीज से ही देश की उन्नति हो जायेगी, ऐसा नहीं है। देश की उन्नति में कृषि उत्पादन का भी महत्वपूर्ण स्थान है क्योंकि राष्ट्रीय आय का 50 प्रतिशत कृषि से आता है और 50 प्रतिशत में और बाकी सारी चीज़ें हैं। ऐसी दशा में जो उद्योग धंधे के लिये दी जाने वाली बिजली और सिंचाई आदि के लिये खेतों में उत्पादन बढ़ाने के लिये दी जावे वाली बिजली के रेट्स में इतना अन्तर हो यह उचित नहीं है। सरकार को इस बारे में सोचना चाहिये और इतना अन्तर नहीं होना चाहिये।

आखिरी बात मैं मंत्री प्रोजेक्ट के बारे में कहना चाहता हूँ। सबसे पहले मैंने 5 मार्च, 1953 को इस प्रोजेक्ट के बारे में प्रश्न उठाया था और सिंधु के एक सदस्य ने उसका

समर्पण किया था। उन्होंने बताया कि 12 वर्ष बनते ही गये लेकिन अभी तक वह योजना पूरी नहीं हुई। उनके यहां थोड़ा पानी पहुंचा है लेकिन हमारे यहां देवरिया जिले से गोरखपुर होकर के, जो पश्चिमी कैनाल कहलाती है, वह जाती है। परन्तु हमारे यहां उस से एक एकड़ की भी सिंचाई नहीं हुई। जहाँ सड़ें पाँच लाख एकड़ की सिंचाई होनी है वहाँ उससे एक एकड़ की सिंचाई नहीं हुई, जब कि हमारे दो जिलों को पार करके दूसरी ओर बिहार में पानी पहुंचता है। तीनों ऑप इंजीनियरों से कहें कि जिधर से पानी आता है उधर भी पानी देना चाहिये उसके बाद आगे पानी पहुंचाये तो किसी की कोई आपत्ति नहीं होगी

SHRI R. V. SWAMINATHAN (Madurai): Sir, while supporting the Demands of the Ministry of Irrigation and Power, I would like to place certain aspects before the Government. If an agricultural country like India is to prosper, irrigation comes first and foremost. Top priority should be given to it and an assured water supply should be made available to the agriculturists. But Irrigation and Assured water supply under irrigation system always remains as a scarce commodity because they are not available all over the country. Only one-third of the cultivable land in this country has got assured water supply under irrigation systems and two-thirds are rain-fed. Even taking into account all the water resources like tubewells, rain water, tanks, etc. not even 50 per cent of the cultivable land gets irrigation facilities. A major portion of the land still depends on rain. This is the fate of agriculture in our country.

The National Commission on Agriculture has come up with a proposal that irrigation should be modernised.

Modernisation means improving the efficiency of the existing irrigation systems, remodelling the headworks, raising the level of the crests, augmenting the channel capacity and reinforcing the bunds of the channels to prevent seepage of water.

In Tamil Nadu, it appears most of the river projects have been tapped and we have to look to other sources. Of course, there are certain rivers on the borders of Kerala whose water is flowing waste into the Arabian Sea. I know it is very difficult to convince the Kerala Government to help Tamil Nadu by supplying some water.

Even one ordinary scheme, the Upper Periyar Scheme, which is only to raise the crest of the dam, is hanging fire with the Government for a very long time. We do not know what is the reason for the delay. Is it because the Kerala Government stand in the way since they have also got a say in this Upper Periyar Project?

In Ramnad we have got a beautiful irrigation system on account of which water is not wasted. There are a number of tanks, one adjacent to the other, in such a way that the outlet of water from the tank flows to another tank. Even the drainage water flows to the tank. This system is prevalent from the Western Ghats to the Bay of Bengal, from West of Madurai to East of Madurai, because the slope of the land in that region is also favourable for such a system. In Tamil Nadu invariably the ayacuts under these Tanks comes to only 50 acres to 500 acres. Of course, in some cases the tank irrigation caters to 1,000 to 2,000 acres. As these tanks are depending on rain water, there is shortage of one or two wetting for the crops resulting in low yield. If we provide some tube-wells by deepening the tanks by 1,000 to 1,500 ft. we will be able to provide the farmers one or two more wetting which will help them in getting a good yield. This is a stupendous task and the State Government will not be able to afford it. So, this should be taken up by the Central Government.

[Shri R. V. Swaminathan]

and executed immediately. I am very sorry to mention that I am disappointed that Hon. Minister Dr. Rao did not come forward with a token grant for the Ganga-Cauveri scheme, which is the dream of our people for a very long time. Many experts and politicians have talked about it. In the olden days, Sir C. P. Ramaswami Aiyar and Shri Satyamurthi top congress leaders talked about this project. While Shri Satyamurthi was contesting a seat for the old Central Assembly during the year 1936, he assured the people that he will bring the Ganga-water to the south if he is elected, in the same way as Bhagirath brought Ganga to the earth. We have been talking about this for a very long time. Very recently foreign experts came, investigated the matter and made an aerial survey and declared it as a feasible proposition. The hon. Minister has not come forward even with a token grant.

Here I would say that this project should be renamed and hereafter called Ganga-Kanyakumari project and not as Ganga-Cauveri project. In the olden days in the south Cauveri was the only source and it was flowing in the Trichy and Tanjore districts. The politicians who came to the Central and State legislatures were the vociferous leaders from Tanjore and Trichy who were benefited by the Cauveri. Further, there were no river projects beyond Cauveri north to mention at that time. Therefore, they thought of Ganga-Cauveri scheme. Now, they are the projects of Periyar Vaigai and Tambrabaranj beyond Kaveri extending upto Kanyakumari. Therefore, the Ganga project should be taken up and extended to Kanyakumari. I think the hon. Minister, Dr. K. L. Rao will agree to my suggestion to re-name this project as Ganga-Kanyakumari Project. This project, if it is taken up, will be a multi-purpose project. Firstly if the project is put through, it will control floods and reduce devastation, provide irrigation for several States in the country by bringing several lakhs of acres under cultivation and it will

also provide a suitable inland water transport system from the North to the South, from the foot-hills of Himalayas to Kanyakumari. This is a very important project. Maybe one of the biggest in the world. I do not know why the Government has not done anything about it so far. We have been talking about this; hon. Members from both sides of the House have been asking for this project for a very long time. In the Congress Election Manifesto, it was mentioned that this project would be taken up. Therefore, the Minister who represents the Congress Government, should give an answer to this.

I would like to mention another important thing. This is about water disputes. The hon. Member, Shri H. M. Patel mentioned about the dispute over the Narmada waters. There is also the dispute over the Cauvery waters. In order to solve this problem, we must have an autonomous National Irrigation Commission. This Commission should function independently on the lines of the Election Commission and the Attorney General and their verdict should be final and binding on all concerned. Had this Commission been established before, many of the disputes could have been solved long long ago.

I would also like to mention about the power crisis. This has affected the whole country. It is much worse in Tamil Nadu. Seventy-five per cent power cut has been imposed in Tamil Nadu. I am very sorry to mention here that the Tamil Nadu Government has been sleeping over this matter. They have not looked into the future position and assessed the shortage. They have not anticipated the deficit. I would request the hon. Minister to look into this and come forth with immediate as well as long-term solutions. In fact, not only the Tamil Nadu Government, but the Central Government has also been lethargic over this subject. The Hon. Minister should enlighten us as to what is being done to solve the power crisis in Tamil Nadu immediately.

We have been clamouring for major power projects. We cannot depend only on hydel sources. Hydel sources have been fully tapped in Tamil Nadu and now we have to go back to the thermal power sources. As far as thermal power is concerned, I understand, Tamil Nadu Government have sent about 11 new proposals for a total power generation of about 500 MW. I like to know how these new proposals stand. The Central Government, besides implementing the Kalpakkam Scheme, and bringing the installed capacity at Neyveli to 800 MW. and commissioning of Kalpakkam Atomic Power Station should establish two thermal power stations one at Tuticorin and also one at Madurai. They should also establish two Atomic Power Stations in the coastal area of Tamil Nadu, one Tanjore and the other at Ramand.

With these words, I conclude my speech.

SHRI P. VENKATASUBBAIAH (Nandyal): Mr. Chairman, Sir, I am very much conscious of the time-limit and I would like to lay stress on certain points and complete my speech.

Several hon. Members have very rightly stressed about the desirability of bringing in a constitutional amendment so as to make water as a national asset. In the Report, they have said:

"Water is a national asset and we have to develop this concept in the interests of proper utilisation of our resources. As a first step, it would be necessary to amend some of the existing provisions of the Constitution to reflect the concept of water as a national asset and to provide for the settlement of water disputes by conciliation, arbitration or otherwise."

So, it has only remained a pious wish and I do not know when Dr. K. L. Rao and the Government as a matter of fact, will bring forward

this important issue before the House and see that what they have envisaged in their Report will become a reality.

They have also said in the Report:

"Despite the rapid strides made in developing irrigation, it has been possible to utilise only about a seven of the available water resources of the country so far."

So, the position remains that the majority of the water potential that is going waste into the sea has not been fully utilised.

As a matter of fact, every State has developed a sort of vested interest and there have been endless disputes with regard to sharing of waters. Referring disputes to arbitration or appointing tribunals has not accelerated the solution but has delayed it.

For years together, for instance, Krishna-Godavari water dispute has been going on endlessly with the result that millions of people are suffering. Also, there is no project that could be made available with the result that disparities and regional imbalances have been growing from day to day.

Coming to my State, it looks as though we have been denied power as well as water but we have been given a Minister incharge of irrigation and power. Dr. K. L. Rao being an eminent Minister as well as an engineer has got many schemes at hand. But I do not know whether they will be a bit hesitant when it comes to economic conditions of Andhra Pradesh. I only request him not to be hesitant but to do justice to this neglected area.

About the power position in Andhra Pradesh, I would only quote an editorial that has been brought out in the *Hindu*, date March 31st. *Hindu* is a reputed daily whose editorials are read with respect. The

[Shri P. Venkatasubbaiah]

editorial has said about the completion of the Srisaïlam hydro-electric project in Andhra Pradesh. The editorial says—I quote:

‘In the light of the Union Minister for Irrigation and Power, Dr. K. L. Rao’s statement in the Rajya Sabha the other day that there was no proposal for the Centre to take over the Srisaïlam power project in Andhra Pradesh, it is highly doubtful if the schedule of 1974-75 for commissioning the project can be kept up. The installed capacity is 440 MW in four units of 110 MW each. With nearly Rs. 30 crores spent on the scheme so far out of an estimated cost of Rs. 74 crores (the cost of transmission lines is another Rs. 10 crores), the project has absorbed enough funds already and reached a stage when further delay beyond 1974-75 would not only mean a rise in cost, but a grievous loss of revenue from use of power from the project. The indications are not encouraging. The annual expenditure incurred by the State Government is about Rs. 4 crores. If at this rate where is the question of adhering to the time schedule? The financial position of Andhra State is not very comfortable. It has gone through some agonising months of agitation, destruction and administrative disruption that whatever resources it can muster would go to meet the immediate needs of bringing the State to normal working condition. Nor is it placed in the matter of power generation and in the context of the travails of power shortage experienced in large areas of the country now, the self-interest of each State is likely to predominate over the large need to share any extra power with more vulnerable neighbouring States.

Some kind of Central assistance seems to be called for. Any expeditious power generation adds to the well-being of the country.

Allocation of funds is said to be not yet finalised. If the Central Government cannot take over the Srisaïlam project to accelerate the work on some technical grounds, it should certainly underwrite the expenditure in this regard. Indeed, the budgetary position of Andhra Pradesh is such that the State Government is unable to find funds for even some of its important Plan projects. In the case of the Kalinadhi scheme in Mysore, the Central Government has agreed to finance the first phase of the project outside the Plan during the remaining period of the Fourth Plan and during 1973-74, the Mysore Government expects Rs. 23.42 crores as Central assistance, the balance of Rs. 37 crores promised for 1972-73 and 1973-74. A similar approach in the case of the Srisaïlam project can help its early completion.”

They have said in the editorial elaborately that this project must be financed by the Central Government as they have done in the case of Kalinadhi Project of Mysore. They have clearly said in the editorial that, if there is no Central assistance coming outside the State Plan and as Andhra Pradesh, as it is now in a troubled state, would not be able to finance the project, this project will not be completed even during the Sixth Plan period. So, they have very strongly pleaded that this project must be taken up by the Central Government as they have done in the case of Kalinadhi project. (Interruptions). They have given extra financial assistance during the first phase of its execution. Therefore, it has been pleaded that Srisaïlam project should be treated on par with Kalinadhi project of Mysore.

About acute power shortage, Andhra Pradesh occupies a pride of place next only to Assam. It is far below the all India average. Today, in that State, there is acute power shortage. Only 40 per cent of the

installed power capacity in the State is done by hydel projects and the rest by thermal projects. I do not know whether the continuing schemes of Srisaillam, Upper Sileru and Nagarjunasagar will be completed by the end of the Fifth Plan. Upper Sileru is a project where the infrastructure is ready, everything is ready; with Rs. 30 to 40 crores of Central assistance, that project can be commissioned soon; it has a generating capacity of 400 megawatts.

Andhra Pradesh is one State where thermal projects can be executed without any difficulty. Coal is in abundance there—the coal suited for generation of thermal station. I do not find any reason for the Planning Commission or for the Government of India to sanction schemes outside Andhra Pradesh where they have to depend on Andhra Pradesh for the raw material, coal. Instead, they can as well start a thermal plant in Andhra Pradesh. For instance, they can straightaway sanction the thermal plant envisaged at Vijayawada where cheap coal is available. That will not only feed Andhra Pradesh but also the other power-hungry States in the south. I only plead with Dr. K. L. Rao that this thermal plant must be accelerated. Otherwise, as and when the other States advance in power generation, there will be a wide gap between Andhra Pradesh and other States and it would be said that because of certain circumstances, they were able to get more power than Andhra Pradesh through Central assistance. The Neiveli Power Station and the Kalpakkam Atomic Power Station were purely Central projects and the benefits have gone to Madras. Likewise, we reasonably feel that there should be an atomic power plant in Srisaillam. I am told that they are selecting certain atomic power plants. I would request Dr. K. L. Rao that the proposed atomic power station that has been thought of for being located in the south be located in an ideal place like Srisaillam.

Coming to the irrigation aspect, I feel that these river water disputes must be taken out from the purview of the Tribunal and they must be settled soon. With regard to sharing of Krishna waters, I plead with Dr. K. L. Rao to implement the recommendations of the Khosla Committee. The Khosla Committee, while recommending the Nagarjunasagar Project, have said that 250 TMCT of water must be spared for irrigation purposes for Rayalaseema. The Srisaillam Hydro-electric project is purely a power project and it should be converted into an irrigation project. That project alone will be able to irrigate the drought-affected and famine-stricken areas of Rayalaseema.

Now, coming to another project which has been envisaged as a gigantic project—the Ganga-Kaveri link, I think it will take shape soon. While implementing or surveying that project, I am sure Dr. K. L. Rao will keep in mind that the alignment should be in such a manner that it covers the drought-affected and poverty-stricken areas in the country which include Rayalaseema also and I do not know what the alignment as at present envisaged is, but I want him to bear in mind this aspect.

There are certain medium irrigation projects about which we have made representations, for instance, the Varadarajaswamy project, the Gazuladinne project and the Pulivendla canal in Rayalaseema. Unless we pay more attention for bringing irrigation to the drought-stricken and famine-stricken areas, the backward areas will not be brought on par. Other irrigation projects also need very urgent attention. For instance, the Godavari Barrage which has been constructed hundreds of years ago. The barrage is about to collapse. I do not know what is going to happen to the delta districts of Andhra Pradesh if the repairs to the Godavari barrage are not attended to soon. So also, the Pochampahad project and the Vam-

[Shri P. K. Kalasubhaiah]
sadhara project. They must be looked into.

Coming to the Nagarjunasagar project, it has become yet another white elephant, as white elephant as the Rajasthan Canal, with the result that the financial resources of the State Government have been spent on the Nagarjunasagar project and consequently other minor irrigation projects and some other which will give immediate benefit to the people have been held up for want of resources.

I would again plead with the Planning Commission, with the Central Government and with Dr. K. L. Rao that a way has to be found for these huge river valley projects which are eating into the financial resources of the State Governments, they must be taken out from the purview of the State Governments and tackled at the national level so that they become national projects. The power generation hydel projects at Vijayawada and Lower-Sileru project, like the thermal plant should be given top priority. All the irrigation projects must be taken on hand as early as possible and then the all India National Grid must be put into a concrete shape as immediately as possible. I am sure every section in this House will whole-heartedly support this because we have suffered enough for the last 25 years because of these river disputes from State to State, each State behaving as if it is an independent sovereign State. It is a national asset—power and water, and it should be shared by all and I hope the proposed Bill will be brought soon to see that water is made available to every State irrespective of whether it flows through that State or not.

Sir, I whole-heartedly support the Demands and I am sure Dr. Rao, while replying to the debate, will make a specific mention about the Srisailem project as to when it is going to be taken up and how it is going to be implemented and also the irrigation aspect of the matter.

SHRI BIRENDER SINGH RAO (Mahendragarh): The progress and development of a country is measured by its power consumption. Even twenty five years after Independence, India has the lowest rate of per capita consumption of power in the world.

17 hrs.

Dr. K. L. Rao is an able person. He is a technician. He is an engineer. But I am sorry to say that he has been absolutely ineffective during this considerably long period that he has been in charge of this most important Ministry of Irrigation and Power. I do not blame him. I blame the Government for not paying proper attention, perhaps, to his plans and to his demands. I would have been happy if a man of his calibre had been a full fledged Minister of the Cabinet, so that his voice carried greater weight.

17-01 hrs.

[SHRI K. N. TIWARY in the Chair]

We have seen that power on which depends our agriculture and our industry has been in short supply. Out of the total of Rs. 122 crores, demanded by the Ministry of Irrigation and Power, about Rs. 86 crores are to be spent on Power alone. This is the position. We know that power is in short supply because of wrong planning. Most of our projects have not been completed. The costs have been rising. One of the former Planning Minister is sitting here. The Planning Commission and the Planning Ministers have not paid due attention to the importance of production of power in this country. Our projects have not been commissioned because we want machinery only from Bharat Heavy Electricals and Heavy Electricals Limited. We have failed to import power machinery from abroad. If it had been done, the situation would have been probably very different today.

As an example, Sir, I would like to mention about Badarpur Thermal Station. It was stated in 1967. The cost of the project, initially estimated was Rs. 40 crores. Today it is nearly Rs. 60 crores. Dr. Rao assured me in 1967 that power would be made available from Badarpur in 1968. Now we are in 1973. And, still, there is nothing in view. It may take another year or two when even the first unit could be commissioned. Same is the fate of all the State thermal projects all over the Country.

Similarly, the cost estimates on Baira Salal and Salal projects have gone up by more than 100 per cent. Now, this amount of Rs. 86 crores which is being demanded by the Ministry for Power Development, would really amount to about Rs. 40 crores in terms of the money value of what it was two years back. If the money had been found then, probably much better work could have been done and most of our projects could have been completed. But this was not thought of.

I would particularly wish to voice the complaint of the farmers. They have received a raw deal at the hands of the Irrigation and Power Ministry. 70 per cent of the power is being utilised for industry. Only 10 per cent is being consumed by the agricultural sector. The remaining 20 per cent is for commercial use, for street-lighting, for house-lighting in big cities and so on. Only 1 per cent of the total production goes for rural electrification. To meet the power shortage in villages why can't the Cities be looked after by private electric supply Companies? If that is the picture, what has been the need for setting up the Rural Electrification Corporation? Why should money be spent if there was no power? Haryana has been electrified only on paper. I can say from experience that hardly any village has seen electric light during the past

one year. That is the position in the whole of the country also. They plan to electrify 75,000 villages more in the current Plan. That would mean nothing without power. Out of your installed capacity, hardly 45 per cent is being utilised for production. This is what I believe and out of the production of 20 per cent is lost in transmission. This is not a satisfactory state of affairs. I would prefer that the existing projects should be made to work more efficiently. Our transmission losses should be reduced. More power should be found for agriculture which produces 50 per cent of our gross national income and which is receiving only 10 per cent of power. There would have been no shortage of foodgrains if adequate power had been found for agriculture.

As regards irrigation the situation is no better. We are utilising hardly 17 per cent of our water resources in the country today. During our four Five Year Plan there has been an increase of only about 3 or 4 per cent. It is lack of irrigation that is responsible for food shortage in that vast agriculture country.

There has been talk about Ganga-Kaveri link. Dr. Rao termed it as a grant project. People call it a dream. To my mind this dream would remain a dream. It would never come true. According to the present estimates it is going to cost about Rs. 3,000 crores and about 6 million KW of energy would be used, which is one-sixth of the total power that we produce today in India, for lifting Ganga over 2,300 ft. over a canal of 3,000 miles. There have been many wisemen in the world, and Dr. Rao also may be a very wise-man but I would advise him to go slow. Most of the wisest men of the world are not known for their wisdom but better known for their whims and eccentricity. Let us not see that a very able engineer started a project which proved disastrous. These friends of mine from U.P., Bihar and Bengal, some of whom

[Shri Birender Singh Rao]

refuse to have U.P. divided because it is the land of Rama and Krishna. Does Dr. Rao believe they would allow mother Ganga to be taken to South so easily. U.P. requires water; Bihar and West Bengal require water. All the navigation will suffer in Bihar and West Bengal if Ganges is diverted. Port of Calcutta would suffer as the Hooghly requires 40,000 cusecs of Ganga water. Therefore, this project certainly requires re-consideration and very deep thought. After U.P., Bihar and Bengal, Haryana and Rajasthan have a prior claim on Ganga water.

As regards irrigation projects, I would suggest that the projects which would give immediately benefit to the country in the matter of foodgrains should be taken up first. Inter-State water disputes should be speedily resolved. Haryana is asking for a canal, the Nehru Canal, which would irrigate about 7 lakh acres. It would only require about Rs. 30 crores, but sanction has not been accorded to it and work has not started. Haryana's share in Ravi-Beas waters has not yet been determined. It is holding up Haryana's irrigation projects.

There may be many more projects like this. If Dr. Rao would see that the water resources of the country are utilised in such a way that the dry areas get benefit and at the same time, immediate benefit accrues, perhaps this country would get out of the food crisis very soon.

I would suggest that Irrigation should receive more funds. Only Rs. 25 crores have been allotted for irrigation and flood control measures this year, as against Rs. 86 crores for power alone. This amount is certainly insufficient. Dr. Rao should fight with his Cabinet colleague. He should make a case for allotment of more funds because irrigation and power are going to bring us progress and prosperity. But this Ministry, I am sorry to say, has not received the attention of the Government it deserves; it has not received

the attention of the House that it deserves.

With these words, I would wind up and hope that Dr. Rao would give due consideration to the agricultural sector, that he would see that the farmers receive a fair treatment, that the flat rate being imposed on tubewells is terminated, that there should be meters for tubewells, that industry receives power at night if there is shortage and that agriculture receives power during the day when farmers can work in the fields.

श्री शिवनाथ सिंह (झुंझनू) : सभापति:

महोदय, पावर और इरीगेशन हमारी एको-नोमी के आज बहुत ही महत्वपूर्ण तत्व हैं। मैं निवेदन करना चाहूंगा कि जहां तक पावर का सम्बन्ध है, हमारी प्लानिंग फेल हुई है। हमने शुरु से हाइडल पर जोर दिया और उस वक्त हम समझते थे कि हाइडल पावर हम इतना पैदा कर सकेंगे जिससे जनता की आवश्यकता को पूरा कर सकेंगे लेकिन हमारा एक्सपीरियन्स यह रहा है कि हमारी प्लानिंग डिफेक्टिव थी। हमने थर्मल पावर पर जोर नहीं दिया और उसका नतीजा हम आज भोगत रहे हैं। आज हम जगह जगह में पावर कट की बात सुन रहे हैं। यदि हम हाइडल के साथ साथ थर्मल पावर को बेस बनाकर चलते तो आज इस कन्टिन्जेंसी को मीट कर सकते थे। जहां तक हाइडल पावर का सम्बन्ध है, जिस साल अच्छी वर्षा हो गई, हमारे अंगर भर गए तो हम पर्याप्त बिजली पैदा कर सकते हैं लेकिन यदि वर्षा नहीं हुई, हमारे बांधों में पूरा पानी नहीं भरा तब हम अपनी आवश्यकता के अनुसार बिजली पैदा नहीं कर सकते हैं। इसलिए मैं मिनिस्टर साहब से निवेदन करूंगा

कि हमारी प्लानिंग इस तरह की होनी चाहिये कि हम थर्मल पावर पर ज्यादा जोर दें, जहां पर कोयले का उत्पादन होता है वहां पर अलग अलग थर्मल पावर स्टेशन का निर्माण करें और उनका एक ग्रिड बनाकर सारे देश को पावर की सप्लाई करें। हो सकता है ऐसे साल आयें जिनमें थर्मल पावर की आवश्यकता न हो तो हम थर्मल स्टेशन को बन्द रख सकते हैं लेकिन जैसे ही कहीं आवश्यकता हो हम उनको स्वीच आन करके उस नेसेसिटी को पूरा कर सकते हैं। एक बात तो यह मैंने आप से निवेदन की।

दूसरी बात, पावर के सम्बन्ध में मैं यह निवेदन करना चाहता हूँ कि इसका जो डिस्ट्रिब्यूशन सिस्टम है वह दुरुस्त होना चाहिए। जो बड़े बड़े बिजली के प्रोजेक्ट हैं वह केन्द्रीय सरकार के हाथ में होने चाहिये। अलग अलग स्टेट्स के हाथ में होने से इस में दिक्कत आती है। किसी स्टेट का किसी प्रोजेक्ट में कुछ परसेन्टेज होता है और उन में आपस में कोऑर्डिनेशन न होने की वजह से पूरे कन्ट्री को सफर करना पड़ता है। इसलिए बड़े पावर प्रोजेक्ट्स केन्द्रीय सरकार के हाथ में ही होने चाहिए। जब केन्द्रीय सरकार उन प्रोजेक्ट्स को फाइनेन्स करती है तो फिर उनका मैनेजमेंट भी केन्द्रीय सरकार के हाथ में होना चाहिए। एक यूनाइटेड ग्रिड हो और सभी प्रान्तों को उनकी आवश्यकता-नुसार पावर का वितरण किया जाये—इस तरह की योजना होनी चाहिए।

एक बात मैं और निवेदन करना चाहता हूँ कि बिजली का किस प्रकार से वितरण

होगा उसकी एडवान्स प्लानिंग होनी चाहिए। मैं खास तौर से कृषि के लिए निवेदन करना चाहता हूँ कि अक्टूबर नवम्बर के महीने में पता होना चाहिए कि कितनी विद्युत पैदा करेंगे और उसी के हिसाब से आप काश्तकारों से कह दें कि अक्टूबर नवम्बर के महीने में इतनी बिजली मिलेगी और इतना पावर कट होगा कि उसी के हिसाब से काश्तकार भी अपना काम करें। आज हम देखते हैं कि हरियाणा, राजस्थान उत्तर प्रदेश और दूसरे प्रान्तों के किसान तबाह हो गए। हमारी पिछली खरीफ की फसल अच्छी नहीं हुई तो हमने कहा कि अधिक से अधिक एरिया में रबी का कल्टिवेशन किया जाये मगर उसका नतीजा हमारे सामने है। आज किसान की हालत बड़ी दयनीय है। एक पानी न मिलने की वजह से किसान की चार महीने की कमाई बेकार हो जाती है। इसके अलावा किसान को जो बिजली दी जाती है वह रात के समय दी जाती है जबकि कल-कारखाने जोकि छत के नीचे काम करते हैं उनको दिन में बिजली दी जाती है। हमारे किसान रात के समय बिच्छू सांप से लड़ते हैं, कड़-कड़ाती सर्दियों में अपनी खेती का काम करते हैं क्योंकि उनको दिन के समय बिजली मिलती नहीं है और उसके बाद फसल में जब आखिरी पानी देने का समय आता है तो पावर-कट हो जाता है जिससे उसकी सारी मेहनत बेकार हो जाती है। इसलिये आप राज्य सरकारों को आदेश दें और इसके लिये कोई कमेटी बनायें ताकि किसानों को एडवान्स मालूम हो सके, अक्टूबर, नवम्बर के महीने में कि इतनी बिजली उसको मिलेगी और फिर वह बिजली उसको जरूर मिलनी चाहिये

[श्री विश्वनाथ सिंह]

वरना फिर इसका एडवर्स इफेक्ट किसान की पैदावार पर पड़ता है।

अन्डरग्राउन्ड वाटर के सम्बन्ध में हमारे यहां जी० एस० आई० का सर्वे हुआ है तो उसके अनुसार जहां जहां अन्डरग्राउन्ड वाटर है वहां पर हमें बिजली का अधिक से अधिक विस्तार करना चाहिये। कृषि का उत्पादन बढ़ाने के उद्देश्य से जो आपका रूरल एलेक्ट्रिफिकेशन कारपोरेशन है उसको विशेष ध्यान देकर उन प्रदेशों में और उन इलाकों में बिजली का विस्तार करना चाहिये। आज तो एक रैंडम सेलेक्शन होता है, कभी एक टुकड़ा यहां लिया जाता है, कभी एक टुकड़ा वहां ले लिया जाता है उससे एक्सपेंशन अधिक होता है और रिटर्न्स बहुत कम मिलते हैं। इसलिये जहां जहां इस प्रकार का पानी है वहां पर कुंयें खोदकर ठीक से बिजली सप्लाई की जाये। इससे हमारे एक्सपेंशन में खर्चा भी कम आयेगा। और ट्रान्समिशन में जो हमारा लास होता है वह भी लास कम होगा। इस सम्बन्ध में मैं राजस्थान के कुछ जिलों की तरफ इशारा करना चाहता हूं जैसे सीकर, झुन्सुनू, चुरू, उदयपुर, अलवर—यह ऐसे इलाके हैं जहां अन्डरग्राउन्ड वाटर बहुत है लेकिन हमें बिजली की कोई योजना नहीं मिल रही है। हमारे यहां से कई स्कीमें राज्य सरकार ने भेजी हैं क्योंकि रूरल एलेक्ट्रिफिकेशन कारपोरेशन के पास स्वीकृति के लिये पड़ी हैं लेकिन वह स्वीकार नहीं की जाती हैं। यदि वह स्वीकार हो जायें तो एमीजिष्ट रिटर्न्स मिल सकते हैं। आज किसान को आप बिजली दें तो 6 महीने

में उससे रिटर्न्स ले सकते हैं। यदि इस प्रकार के टैजिबिल प्रोजेक्ट्स आप न लें तो यह बड़ी ज्यादाती होगी।

अब मैं सिंचाई के सम्बन्ध में निवेदन करना चाहता हूं। आज सिंचाई का एक सिस्टम बना हुआ है कि जहां पानी अधिक है, जहां नदियों का पानी है उसी को सिंचित किया जाता है। आप उन भागों की तरफ भी देखें जहां पीने के लिये पानी नहीं है। राजस्थान में कितने ऐसे इलाके हैं जहां 15-20 मील दूर से पीने का पानी लाना पड़ता है। बार बार यहां पर राजस्थान नहर के बारे में चर्चा हो चुकी है, उसके सम्बन्ध में मैं ज्यादा निवेदन नहीं करूंगा। अभी कुछ दिन पहले सिंचाई मंत्री ने एक प्रश्न के उत्तर में बतलाया था कि राजस्थान के इंजीनियर्स ने गंगा से पानी लेने के लिये एक योजना बनायी है और सर्वे करके आपके पास पेश की है। उन्होंने मांग की है कि 40 हजार क्यूसेक्स गंगा का फ्लड वाटर उनको दिया जाये लेकिन आपका निर्णय नहीं हो रहा है। आप कहते हैं कि नेशनल ग्रिड जब बनेगा तब इस बात को सोचा जायेगा लेकिन आप अनुमान लगायें कि उन इलाकों का जहां पर पीने के लिये पानी नहीं है और लोग तरस रहे हैं। इसलिये आप राजस्थान के झुन्सुनू, अलवर, चुरू, नागौर जिलों को गंगा का फ्लड वाटर दें जिसकी योजना राजस्थान के इंजीनियर्स ने आपके सामने पेश की है, उसको आप जल्दी से स्वीकार करें। राजस्थान का चुरू का इलाका ऐसा है जो बिल्कुल सूखा रहता है और जहां पीने के लिये पानी नहीं है। वहां

नहर की योजना काफी दिनों से पड़ी है, राज्य सरकार के पास फंड्स नहीं हैं, वह बार बार फंड्स मांग रहे हैं लेकिन आपके यहां से स्वीकृति नहीं होती है। उसको भी आप स्वीकार करें। अभी माननीय सदस्य ने जवाहर नहर का जिक्र किया। झुनझुनू जिले का उत्तरी हिस्सा तो बिल्कुल पानी से सूखा है। वहां का पानी खारा है जो कि पीने के लिये अच्छा नहीं है। तो जवाहर नहर की योजना को आप स्वीकार कर सकते हैं और वहां पर पीने का पानी दे सकते हैं। उसको भी आप स्वीकार करें, उसका भी एक्सपेंशन हो तो झुझनू जिले का उत्तरी भाग उससे लाभान्वित हो सकता है और चुरू का भी कुछ भाग उससे लाभान्वित हो सकता है। उसी प्रकार जैसे नरेरा से पानी इकट्ठा हो कर राजस्थान में आने की बात है। उसको भी आप स्वीकार करें। यह कुछ इस प्रकार के सबाल है कि यदि हम इन बैंकबर्ड एरियाज को आज की हालत में भी दूसरों के बराबर नहीं लायेंगे तो वह हमेशा के लिए बैंकबर्ड ही रह जायेंगे जिससे देश में एक असन्तुलन हो जायेगा तरककी के हिसाब से और फिर वह इलाके कभी भी बराबरी में नहीं आ सकेंगे और हमेशा के लिए देश पर बर्झन होते रहेंगे। इसलिए मैं सिचाई व विद्युत मंत्री जी से निवेदन करना चाहूंगा कि यह छोटी मोटी बातें हैं जिनके बहुत बड़े रिजल्ट्स मिल सकते हैं।

मैं अन्त में पोंग डैम के सम्बन्ध में दो शब्द कहना चाहूंगा। पिछले कई दिनों से यहां पर कहा गया है, जिससे स्थिरी बहुत एजिटेड हो रही है। राजस्थान के बारे में यह बहुत

बड़ी ट्रैजडी है। मैं निवेदन करूंगा कि पोंग डैम में राजस्थान की बहुत बड़ी राशि खर्च हो चुकी है लेकिन आज भी हिमाचल प्रदेश के सदस्यों की तरफ से और गवर्नमेन्ट की तरफ से मांग होती है कि वाटर इम्पाउन्ड न किया जाये उसको डेफर किया जाये।

माननीय सभापति महोदय इस पोंग बांध के अन्दर जितना कम्पेनसेशन लोगों को दिया गया उतना किसी प्रोजेक्ट के लिए नहीं दिया गया है। मैं थोड़े से आंकड़ें देना चाहता हूं, पोंग डैम में 75,000 एकड़ जमीन डूब में आयी है जिसके लिए 58 करोड़ रु० मुआवजे का दिया जा रहा है। हीराकुड में 1,82,590 एकड़ जमीन डूब में आयी, मुआवजा दिया गया 11.71 करोड़। गांधी सागर डैम में 1,69,984 एकड़ जमीन डूब में आयी थी और मुआवजा दिया गया साढ़े पांच करोड़ रु०। भाखड़ा में 44,000 एकड़ जमीन डूब में आयी और मुआवजा दिया गया 4 करोड़ रु०। इसी तरह से रिहान्ड डैम में जमीन डूब में आयी, मुआवजा दिया गया 2.14 करोड़ रु०। उकई डैम में 1,28,000 एकड़ जमीन डूब में आयी, मुआवजा दिया 4.41 करोड़ रु०। रामगंगा में 23,600 एकड़ जमीन डूब में आयी, मुआवजा दिया गया 1.78 करोड़ रु०। तुंगभद्रा प्रोजेक्ट में 93,440 एकड़ जमीन डूब में आयी और मुआवजा दिया गया 1.50 करोड़ रु०। नागार्जुन सागर डैम में 71,000 एकड़ जमीन डूब में आयी, और उस के लिए मुआवजा दिया गया 1.29 करोड़ रु०। इसके बाद भी कल एक माननीय सदस्य ने कहा

[श्री विश्वनाथ सिंह]

कि पानी अभी नहीं भरना चाहिये। मैं उन से पूछना चाहता हूँ कि वें किस की पैरवी कर रहे हैं। आप देखें की मुआवजे की रकम किन किन लोगों को दी जा रही है, एक हैं दादा सीता के राजा, जिनकी 8012 एकड़ जमीन डूब रही है, उस में से सिर्फ 312 एकड़ जमीन काबिलें काबत थी। उन को एक करोड़ 25 लाख रु० मुआवजा दिया जा रहा है। इसी तरह से दूसरे राजा मुलेर के हैं जिनकी 6,068 एकड़ जमीन डूब रही है जिसमें से 341 एकड़ जमीन कल्टीवेटिल है, उन को भी 1.25 करोड़ रु० मुआवजा दिया जा रहा है। अब आप कहते हैं कि वाटर इम्पाउण्ड नहीं हो। 13 साल से लोग इंतजार कर रहे हैं राजस्थान कैनाल एरिया के अन्दर, उन के लिये आप कहते हैं कि पानी न दो और दो, तीन साल के लिए पोस्टपोन कर दो। मैं मंत्री जी का स्वागत करता हूँ जिन्होंने कल कहा कि इस साल से वाटर इम्पाउण्ड होगा। मैं चाहता हूँ कि वह अपने वचन पर कायम रहें और इस साल पीगं डैम में वाटर इम्पाउण्ड हो ताकि हम हिमाचल से आने वाले लोगों को इर्रिगेंटेड जमीन दे सकें। हम ने अभी तक एक लाख एकड़ से ज्यादा जमीन दे दी है। लेकिन वें लोग वहां बसना नहीं चाहते हैं। इस मामले में हिमाचल प्रदेश की नौकरशाही ने फ़र्जी नामों से अपनी फ़ैमिलीज बना कर जमीन ली है और अट उस जमीन को बेच रहे हैं। मैं चाहता हूँ कि एक कमेटी बैठे जो इस की जांच करे ताकि पता लगे कि कौन शोषी है।

SHRI K. CHIKKALINGALAH
(Mandya): India is predominantly

an agricultural country where more than 70 per cent of the population are living in the villages and their principal avocation is agriculture. Agriculture to be successful needs adequate and timely moisture in the soil. Rainfall in India is mostly confined to the months of June to September when the south west monsoon brings in rain.

Many times the rains are inadequate and untimely and as a result agriculture depending upon rainfall is precarious. Therefore irrigation plays a crucial role in successful agricultural operations. Assured water supply is necessary for increased agricultural production. Further in the interest of earning more foreign exchange for improving the balance of trade, increased production of commercial crops has also to be given high priority.

Agriculture has, therefore, been accorded high priority in the National Plan which began in 1951. At the beginning of the First Five Year Plan, the irrigation potential from major and medium projects was 9.66 million hectares. There has been substantial increase in the area provided with irrigation facilities during the last two decades. Out of the 589 major and medium irrigation projects undertaken since planned development was initiated in the country, 361 projects have so far been completed and others are in various stages of construction; many of them have already started yielding benefits. The anticipated outlay for the year 1972-73 is Rs. 275 crores on major and medium irrigation projects and it is anticipated that 0.9 million hectares of additional irrigation potential would have been provided during this year against a target of 1.1 million hectares. The likely achievement of additional irrigation potential created from major and medium projects during the Fourth Plan is expected to be about 3.8 million hectares against a target of 4.8 million hectares.

There is always some timelag in the utilisation of irrigation potential in almost all new projects. Especially in the tail end reaches, it takes a few years for these areas to be developed and the entire potential as envisaged is achieved.

Paucity of water is very keenly felt by the ryots in the tailend reaches. This is most effectively solved in the Nira Canal Area in (Old Bombay Presidency) Maharashtra. There, a *phatkari*, an official, is appointed in each distributory to see to the proper control and distribution of water. Dating card will be given to each ryot, who will be in readiness to take water to his land. Otherwise he will be deprived of water for that period. The last man to be served with water is the *Maduboy* man, i.e., the ryot, who will be in the immediate vicinity of the distributory.

How water distribution is controlled? Before the advent of water to the newly dug canal, measuring devices, such as Gibbs module 'V' notches and Ventury meters are installed. In every distributory water is measured and distributed for the crops. Every drop of water is utilised to the best advantage of all concerned.

Unauthorised and clandestine use of water by any ryot is severely dealt with. The P.W.D. is given summary powers to deal with such cases. The minimum punishment given in such cases is to throw away his filled out of wet cultivation, so that it may be a standing example for those who are likeminded to follow. I was one of the deputationists, who was sent to Nira canal area by the Government of Mysore to study the analogous conditions prevailing there and to adopt the methods in the Viswesvariah Canal Area whatever is feasible.

Therefore, wherever new schemes are to be sanctioned, the costs of installing the measuring devices etc. have to be included in the Estimate. This works out cheaper in the long-run to maintain the Canal and to

have control over distribution of water.

The Hikkal system in the Nira Canal Area is perfect. The nikkals are cement pointed. It eliminates the disputes among the ryots and also arrests the loss of percolation water.

As regards agricultural drainage system, huge pipes are hewn underneath. The percolation water is tapped and led again to the main distributory at the tailend so that paucity of water is avoided and the difficulties may be minimised.

Coming to the Inter-State Water Disputes, there are certain differences of opinion which have arisen among the States of Mysore, Tamil Nadu and Kerala over the utilisation of the water of the Cauvery river. The salient features of the 1924 agreement between Mysore and Tamilnadu are:

(i) Mysore has the right to construct the Krishnarajasagar dam up to a height of 130' to collect water upto a height of 124'—49,300 M.C. ft. of water to irrigate 1.25 lakhs of acres of land.

(2) Mysore is allowed to construct additional reservoirs upstream of Krishnarajasagar across Herma-vati and Cauvery to impound 45,000 M.C. ft. to irrigate 1.10 lakh acres. But somehow or other, the technical sanction is withheld.

(3) Madras Government is allowed to have a reservoir at Mettur to collect water to the tune of 93,000 M.C. ft. to irrigate 3.1 lakh acres. It may also construct reservoirs across Bhavani, Amaravati and Noil rivers, in which case Mysore may constructan offset reservoirs to impound 60 per cent of what Madras impounds.

So, whereas the Mettur project is allowed to collect 93,000 M.C. ft. of water Mysore is allowed only 49,000 M.C. ft of water. So, Madras gets the lion's share according to the agreement

[Shri K. Chikkalingaiah]

I do not know why this injustice has been done to Mysore. I request Dr. K. L. Rao to take into account this injustice which has been done to Mysore.

Berber who is an authority has written a book entitled *Rivers in International Law*. The undermentioned extract from this book on the Cauvery Agreement merits special notice:

"In India, Cauvery dispute between Mysore and Madras settled in 1925 was a dispute between British India and the other was a dependent Princely State under British Suzerainty. The dispute was not settled by the application of law but through an authoritative decision of the Sovereign Power of the British Crown, under the general responsibility to interfere in every matter, in which, according to its estimation, the public interest was threatened with injury."

So, the Madras Government has enjoyed a lion's share. According to the formula, we have a right to a certain amount of water to be impounded over and above K.R.S., but they are not allowing us to construct dams to impound 45,000 M.C. ft. The Tribunal appointed to go into this matter has not done anything. A fact-finding committee was constituted and it has sent its report. Now the Chief Ministers of these three States—Mysore, Tamil Nadu and Kerala—are expected to meet during the course of this month. I request Dr. Rao to take into consideration the fact that Mysore has suffered and Madras has stood to gain under the Agreement. Under the law of equity, those who come to equity courts must come with clean hands. So, the Madras Government has to come with clean hands. Those who claim equity from others must do equity to others. Under these circumstances, I request Dr. Rao to see that justice is done to Mysore.

*SHRI MADHURYYA HALDAR (Mathurapur): Mr. Chairman, Sir, I would like to raise only a few points. I would at the outset take up the Ganga Cauvery link issue. Dr. Rao is trying to take the Ganga water to the South and merge it in Cauvery. I must say that it is wholly an unrealistic plan. Ganga water is needed for the port of Calcutta and the Government is unable to supply 40,000 cusecs of water which is absolutely necessary to keep the port alive. The Central Government under the strong pressure from the State of West Bengal have temporarily permitted the flow of 40,000 cusecs of water for a period of 5 years and I do not know what will happen when this period is over. Sir, if Ganga water is diverted to the South, the river Hooghly will dry up and the State of West Bengal will wither and not only this but the State of UP will also be affected very badly. Apart from all these, the paucity in water flow will also cost its disastrous spell on Bangladesh too. Dr. Rao may be a religious minded man and through this project he may be trying to enhance the religious importance of the river Cauvery by mixing Ganga water into it. But this apart, if his idea is to give more water to the South then I would ask him why he is not trying to divert the surplus Brahmaputra water to Cauvery? Why is he not making effort to divert this water to the port of Calcutta through the river Hooghly? He is not mindful of doing any one of these things but on the contrary he is bent upon pursuing an unrealistic plan of linking Ganga with Cauvery. For all these reasons I very strongly oppose the whole project because it is unrealistic and it will bring ruinous effects on the States of West Bengal and Bihar and also Bangladesh. This cannot be done and this should not be done.

Secondly, Sir, in 1971 in reply to my question Dr. K. L. Rao had stated

*The original speech was delivered in Bengali.

that a plan had been formulated to set up 100 sluice gates in Sunderbans area which will ultimately be linked with the Sunderband Delta Project. Since then every year we are being told about these 100 gates and every year allocations are also made in the budget but in reality nothing is done beyond this. It must be borne in mind Sir, that 96 per cent of the population of the Sunderbans area are cultivators and they can raise only one crop in a year. But for the last few years these cultivators are unable to raise this one crop even. They are facing starvation and driven by hunger. They are flocking around the city of Calcutta with begging howls. This is the reality of the situation prevailing in Sunderbans today.

We have been hearing for a long time about this Sunderbans Delta Project but nothing precious is being done. At that time it was estimated that the whole project would entail an expenditure of Rs. 200 crores but we do not know how far the project has progress and in which direction. With a proper implementation of this project many salt water rivers can be turned into sweet water rivers and we would be able to bring 10 lakh acres of land under two-crop cultivation and through this cultivation the recurring food scarcity which prevails in the State of West Bengal can be mitigated to a great extent.

I would also like to know from Dr. Rao as to what is actually happening to the Mograhat Scheme. A sum of Rs. 4 crores has been earmarked for this project and for the Mograhat (West) Scheme expecting some earth work, nothing substantial has been done so far and this work has cost the Government a few lakhs of rupees. Dr. Rao has himself visited this place some time back and I would therefore like to know from him the actual progress made in this regard.

Therefore, I sum up my speech by my vehement opposition to

the Ganga Cauvery link and with my queries about the progress so far made with regard to the installation of 100 sluice gates in the Sunderbans area and about the progress made with regard to the Mograhat Scheme.

DR. H. P. SHARMA (Alwar): Sir, there are two ways of looking at the power development of the past two decades. If we consider our functioning among the constraints that we have today since independence, the result has not been a very bad one. We have done pretty well. Even though the population has doubled, the *per capita* consumption of electricity has multiplied five times. But if we look at the other side and compare it with the world figures, then perhaps we do not have such a heartening picture. The total power production of India as compared to the total world production is only 1.2 per cent.

The *per capita* consumption of power in India is only 8 per cent of the world average. I do not have to go into these figures. But these figures show that we stand almost at the bottom of the world figures. While USA consumes 7150 kwh, Canada consumes 8450 kwh and USSR consumes 2680 kwh, we consume only 95 kwh as against the world average of 1200 kwh. While we have been struggling along the picture of power shortage, there is one factor that came, the failure of monsoons and drought conditions, and which immediately lent seriousness to the problem. But we must remember one thing that a country of this size and magnitude will have to live with the monsoon failure not only this time but even in the future. This we must be prepared to do.

What I find not so creditable is that there has been poor planning and even poor implementation. We started with an assumption that the power growth will be 12 per cent. All our

[Dr. H. P. Sharma]

plans have been made on this assumption while we find that the figure should have been about 15 per cent and that would not have put us into this difficult position. There is the other side of it also. All through past four Plans and three single Annual Plans, there has been a continuous shortfall of the order of about 35 per cent. In the First Plan, it was a shortfall of 20 per cent, that is, in the installation of generating capacity. In the Second Plan, it was 36 per cent; in the Third Plan, it was 35 per cent; during three Annual Plans, it was 38 per cent and in the Fourth Plan, it was 37 per cent. When there is such a record all through, not only for the duration of First Plan, not only that it might spill-over the Second Plan, when this shortfall continues right from the beginning. I think, it is time we should sit up and examine our priorities and the way in which we make our Plans. Even now, I do not know what is the position about the Fifth Plan. If it is going to be 33 or 35 per cent continuous shortfall, if this is the same amount of built-in shortfall in the next Plan, then the country should really sit up and examine the whole picture.

I think, one thing that we can do at this stage is that we should identify our major problems and identify them in a realistic manner. There have been four or five manors which I can summarise. First is the non-implementation of the installation of generating capacity. I have already given that figure. Then, there is non utilisation of installed capacity. We have not produced power according to the capacity we have had. Then, there is also absence of machinery to allow flow of power from one surplus State to another deficient State. There is also the absence of inter-State grids. Another factor is that there have been transmission losses of the order of 16 to 18 per cent. In one State, the transmission losses were as high as 25 per cent. This is a strange picture that one-quarter of the total power

generated can just go down the drain. That certainly needs that we should examine the way we are functioning.

Another thing is that there was a Mid-Term Appraisal by the Planning Commission to find out why the things were going so slow and they pinpointed or they put their finger on the late deliveries by the H.E.L. and B.H. E.L. This has been the Mid-Term Appraisal by the Planning Commission that there have been late deliveries by these two public sector undertakings.

About 80 per cent of our population lives in villages. In any development plan, in any social programme, we have to complete our rural electrification programme and give it the first priority.

There are so many other problems. I do not want to go into all of them. There is variation in the supply of voltage and frequency. All throughout the country, they have exceeded the statutory limits that have been laid by the Ministry. We have to accept power under these conditions. But the point is that even under the statutory limits that we have laid, they violate even those conditions.

The point which needs a very thorough and dispassionate examination is the Fifth Plan. We have somehow crossed the difficult years and have come upto this stage. The target that is set in the Fifth Plan for installation of generating capacity is 21.8 million kilowatts. During the Fourth Plan—I do not know the exact figure because there is still some time left—there will be a total installation of 7 to 8 million kilowatts. But what I wish to say is that the target that is set in the Fifth Plan, namely, 21.8 million kilowatts, has to be seriously examined. That means, every year, we should be installing generating capacity of the order of 4 million kilowatts. What has been our performance so far? In 1965-66 it was 1.8 million kw., in 1966-67 it was 1.21 million kw, in 1967-68 it was 1.77

million kw, in 1968-69 it was 1.15 million kw, in 1969-70 it was 1.18 million kw, in 1970-71 it was 0.98 million kw, and in 1971-72 it was 0.58 million kw. And we are supposed to accomplish nothing less than 4 million kw every year in the Fifth Plan! About that, the figures that are available are these. This is the break-up of 21.8 million kilowatts. 6.7 million kw would be the spill-over in the Fifth Plan from the Fourth Plan, 7.8 million kw would be the extension schemes proposed to be taken at developed sites and the remaining 7.2 million kw would be the new generating schemes; the first two can perhaps be achieved. but what about the third, namely, 7.2 million kw? Whether you would be able to fulfil this target, I have a genuine doubt—because, as I said, our capacity in 1971-72 was just 0.58 million kw. This is the base, this is the position we are in at the moment.

Then, you do not have the capacity to build equipment for that. The Fifth Plan target, as I said, is 21.8 million kw. The indigenous capacities are limited. Our total equipment-building capacity, including thermal, nuclear and hydel, comes to 17 million only. That still leaves a balance of 4 million. That means, you do not have the capacity. Either you should come out with a proposal that HEL and BHEL would be expanded or there is simply no getting out of it unless you have decided to import equipment of 4 million kw capacity.

Then, one of the constraints that are put on the Ministry is this. There is shortage of steel. It is a genuine problem. They are only getting about 10 per cent from the indigenous supply and 40 per cent from the imported quota. For the balance of almost 50 per cent, they have to work on their own to get the supply, and that is something which is beyond this Ministry. The Government as a whole, the House as a whole, should think about it whether we want to put this Ministry in this position where they have to find for themselves to get 50 per cent of the supply.

Another point that I want to mention is about transmission loss. The present loss on transmission is about 18 per cent whereas the world average is not more than eight per cent. In one State it is as high as 25 per cent. I would like to read out from the report of the Power Economy Committee. The point is that even if you do succeed in putting up generating plants you still would have to have transmission facilities which you do not have. There might be one surplus State adjoining a deficit State. Yet, the picture would not improve without the transmission line. I am quoting from the report of the Power Economy Committee.

“If the results are to be achieved within the required time, a decision on the next higher voltage, i.e., 400 or 500 kw has to be taken without any further loss of time.”

They have further said:

“We have, therefore, to plan for an interchange of over one million kw between the different regional power systems. Such power transfer would need extra high voltage lines with voltages of 400 or 500 kw.”

“At present, not a single inter-State or inter-regional tie with such capacity is proposed nor have any feasibility studies to evolve the concept and plans for a national grid...”

We do not have even the feasibility report on this kind of power transfer...

MR. CHAIRMAN: Please conclude.

DR. H P. SHARMA: There are so many other things. One of the problems with which the Ministry is faced is the organisational set-up. You have the CWPC, the Regional Boards and the Central Electricity Authority. They have no statutory powers, they have only recommendatory powers. The State Electricity Boards get your recommendations and they say that,

[Dr. H. P. Sharma]

since you do not have any statutory powers, these are simply recommendations and they are not obliged to accept those.

Then, there is necessity for regional load despatching stations. Unless you have these, there is not going to be any efficient transfer from one region to another.

There is also need for standardisation. If you adopt that, then there will be savings all round— increase in capacity, increase in efficiency, savings in inventory, and so on.

I now come to atomic energy. Atomic energy produces only 2.2 per cent of the power generated in the country. But that should not be taken at its face value. It is an effort which would be responsible for meeting the major power needs of this country after two decades. We have a good job at Tarapur. I do want to say one thing. We had some difficulties at Tarapur and somehow there seems to be some impression that we do not either have the experts or the scientists or a team to run the plant. I would certainly want to dispel that suggestion with all the earnestness at my command. We have the finest team functioning there. We were faced with finding a solution to one of the most difficult problems faced anywhere in the world and I am glad that the job was completed with total satisfaction.

18 hrs.

श्री नाथूराम अहिरवार (टीकमगढ़) :

सभापति महोदय, मैं इरिगेशन तथा पावर मिनिस्ट्री की मांगों का समर्थन करते हुए अपने कुछ सुझाव पेश करना चाहता हूँ। इस में कोई शक नहीं कि पिछले 25 वर्षों में देश में सिंचाई और विद्युत के क्षेत्र में काफी प्रगति हुई है, लेकिन वह प्रगति कुछ क्षेत्रों तक सीमित रही है। यदि हम भारत के मानचित्र को उठाकर देखें तो हमें मालूम पड़ेगा—

यदि एक प्रान्त में ज्यादा सिंचाई का काम हुआ है तो दूसरे प्रान्त में विद्युत ज्यादा है, लेकिन कुछ क्षेत्र ऐसे भी हैं जिन की प्रगति न के बराबर है, उनमें उल्लेखनीय उन्नति नहीं हो सकी है। उन क्षेत्रों में मैं अपने मध्य प्रदेश के सम्बन्ध में कुछ कहना चाहता हूँ। मध्य प्रदेश के लिये पिछले 25 वर्षों में कोई भी बृहत् सिंचाई योजना आज तक नहीं बनी है। एक गांधी सागर डैम बना, लेकिन वह भी राजस्थान के लिये, मध्य प्रदेश को उस से सिंचाई की कोई भी सुविधा नहीं मिल पाई

सभापति महोदय, मध्य प्रदेश हिन्दुस्तान के बीच में बसा हुआ है, अनेकों नदियां इस क्षेत्र से हो कर बहती हैं। यहां की आधी आबादी हरिजन और आदिवासियों की है जो जंगलों और पहाड़ी इलाकों में रहती हैं। इस प्रान्त में अपार पानी है, लेकिन बांध न बंधने के कारण इस प्रदेश को उस पानी का कोई लाभ नहीं मिल रहा है और वह बहता चला जा रहा है। अगर कोई योजना बनाई जाती है तो पड़ोसी प्रान्तों के साथ कोई न कोई विवाद खड़ा हो जाता है और यही कारण है कि जितने भी प्रोजेक्ट सरकार द्वारा बनाये गये, सब पेन्डिंग पड़े हैं। 10-15 साल तो उस की मंजूरी और सर्वेक्षण में लग जाता है, उस के बाद विवाद पड़ जाने से यदि प्रारम्भ में उन की कीमत 10 करोड़ तक थी तो आज महंगाई की बजह से उनकी कीमत 15 करोड़ तक पहुंच गई है, इसी वजह से वे स्कीमें लिमिटर-ग्रान होती चली जा रही हैं, उस पर ज्यादा खर्च होने से टाली जा रही है।

कुछ ऐसी भी बृहद् योजनायें हैं जिन का विवाद पड़ा हुआ है। जैसे नर्मदा का मामला है, जिस पर प्रधान मंत्री जी फैसला देने वाली हैं, जो भी फैसला होगा वह देंगी। दूसरी बाण-सागर योजना है जिस से रीवा तथा सतना में साठे छः लाख एकड़ भूमि में सिंचाई होगी, जहां अन्य किसी साधान से सिंचाई नहीं की जा सकती। इस सम्बन्ध में डा० राव साहब की अध्यक्षता में मध्य प्रदेश और बिहार के मुख्य मंत्रियों की बैठक हुई थी, लेकिन अभी तक किसी निर्णय पर नहीं पहुंच पाये हैं। मैं उन से निवेदन करना चाहता हूं कि इस का जल्द से जल्द निबटारा करें।

इस के अतिरिक्त 600 फुट ऊंचाई से गिरनेवाले सिंचाई जल प्रपात से 780 मेगावाट बिजली तैयार की जायेगी। इस परियोजना में सोन नदी के कुल जल ग्रहण क्षेत्र के केवल 27 प्रतिशत भाग को तथा मध्य प्रदेश के जल ग्रहण क्षेत्र के लगभग 38 प्रतिशत भाग को उपयोग में लाया जायगा। अतः चर्चाई प्रपात से बिजली दूसरे राज्यों को कोई नुकसान पहुंचाये बिना उत्पादित करना सम्भव है। वहां पर 780 मेगावाट बिजली तैयार होने से दूसरे क्षेत्रों को बिजली मिल सकेगी।

अब मैं मध्य प्रदेश की कुछ और सिंचाई योजनाओं के बारे में डा० राव साहब का ध्यान आकृष्ट करना चाहता हूं जो 1969 से लेकर 1972 तक मंजूरी के लिये भेजी गई हैं—इन पर जल्दी से स्वीकृति प्रदान की जाय। ये योजनायें—बारंगी, पुनासा, बाण-सागर, जलसिंधी, बोधघाट, ऊपरी बैन गंगा, हसदेव बाघ, हरिण फाल तथा महेश्वर, जिन की

लागत 517.74 करोड़ रुपये है। इन योजनाओं से 33.31 लाख एकड़ जमीन की सिंचाई होगी तथा विद्युत की 2860 मेगावाट स्थापित क्षमता (इंस्टाल्ड कैपेसिटी) प्राप्त होगी। जिन से मध्य प्रदेश न केवल अपनी पावर की आवश्यकता की पूर्ति करेगा बल्कि देश के दूसरे प्रान्तों को भी विद्युत सप्लाई करेगा जो देश के खेती और उद्योग के मामले में काफी लाभदायक होगी और दूसरे प्रदेश भी उस से लाभ उठायेगे।

इस के साथ साथ एक अन्य विषय पर भी मैं सिंचाई मंत्री महोदय का ध्यान दिलाना चाहता हूं। पिछले 25 वर्षों में हम ने देखा कि हमारे मध्य प्रदेश में कुछ ऐसे इलाके हैं जिन की कोई प्रगति नहीं हुई और वे आज भी पिछड़े हुए हैं—जैसे बुन्देलखण्ड का क्षेत्र, जहां कोई उद्योग धन्धा नहीं है, सिंचाई के कोई साधन नहीं है, आर्थिक स्थिति इतनी कमजोर है कि लोगों को तंग आकर डाकू-पन का धन्धा अपनाना पड़ता है। पिछले वर्ष इस क्षेत्र की डाकू समस्या का समाधान हुआ, मध्य प्रदेश सरकार ने बहुत प्रयत्न किया और डाकुओं से सरेण्डर कराया गया। अब अगर वहां की आर्थिक स्थिति न सुधारी गई, सिंचाई की सुविधायें उस क्षेत्र में न उपलब्ध कराई गई तो फिर से वही हाल हो जायगा। मध्य प्रदेश सरकार ने वहां के लिये जो तीन बड़ी बड़ी योजनायें की हैं, उन की तरफ डा० राव साहब का ध्यान खींच जाना चाहिये ताकि उन को जल्द से जल्द कार्यान्वित किया जा सके। वे योजनायें हैं—1, टीकमगढ जिले में जामने एब बेतवा पर ओरछा जल विद्युत एवं सिंचाई योजना। इस बांध का सर्वेक्षण कार्य पिछले

[श्री नाथूराम अहिरवार]

15 वर्ष से चल रहा है और सरकारी सूचना के अनुसार इस योजना से 75 मैगावाट विद्युत तैयार होगी तथा 30 हजार एकड़ भूमि में सिंचाई होगी।

2. घसान नदी पर टीकमगढ़ एवं छतरपुर की सीमा पर बराठा एव कुर्रा बांध। इस सिंचाई योजना का सर्वेक्षण कार्य हो चुका है? इन दोनों योजनाओं से टीकमगढ़ एवं छतरपुर जिले की भूमि तो सींची जायेगी किन्तु इस से उत्तर प्रदेश के बांदा एवं हमीरपुर जिलों की हजारों एकड़ भूमि भी सींची जावेगी।

3. अपर केन कैनल सिंचाई योजना : इसका निर्माण पन्ना जिले की सीमा में होना है। इस सिंचाई योजना से पन्ना एवं छतरपुर दोनों जिलों की दो लाख से अधिक भूमि सींची जावेगी। मंत्री महोदय इन योजनाओं के लिये यदि शीघ्र स्वीकृति प्रदान कर दें तो इस प्रदेश की जनता को लाभ हो सकता है। हमारे यहां नदियों की कमी नहीं है, अपार पानी है लेकिन उनका उपयोग नहीं हो पा रहा है।

इसके साथ साथ मैं प्रार्थना करना चाहता हूं कि जहां हम इस बात की कोशिश करते हैं कि बड़ी बड़ी योजनायें बने, वहां हमें छोटी योजनाओं पर भी अधिक से अधिक ध्यान देना चाहिये जिससे कि किसानों की हालत ठीक हो सके। नदी नालों पर पक्की पट्टी बनाकर, ट्यूबवेल खोदकर और टूटे फूटे तालाबों की मरम्मत

करके किसानों के लिये अधिक सिंचाई की साधन उपलब्ध कराये जाये और किसानों की हालत सुधारने की तरफ ध्यान दिया जाये।

मैं डा० राव का ध्यान मध्य प्रदेश की ओर दिलाते हुए निवेदन करना चाहता हूं कि तीन चार थर्मल पावर स्टेशन्स की स्वीकृति के लिए केन्द्रीय सरकार को लिखा है उसकी स्वीकृति जल्दी से देनी चाहिए। इसी प्रकार से सतपुड़ा, सिंगरौली की कोयले की खदानों में घटिया क्वालिटी का कोयला पाया जाता है वहां पर थर्मल पावर स्टेशन लगाने के सम्बन्ध में आपने प्रश्न के उत्तर में भी बताया है कि सरकार विचार कर ही है तो वहां पर थर्मल पावर स्टेशन बनाकर और नैशनल ग्रिड बनाकर दूसरे प्रदेशों को पावर सप्लाई करें। आज बिजली की कमी के कारण उद्योग-धंधे बन्द पड़े हैं और किसानों को सिंचाई की परेशानी है इसलिये मध्य प्रदेश में कोयले के पिटहेट्स पर थर्मल पावर स्टेशन बनाकर इस समस्या को हल करें।

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): Mr. Chairman, Sir, I am really thankful to all these Members who have participated in the debate. They have made many useful suggestions.

MR. CHAIRMAN: You may continue your speech on the 12th.

18 hrs.

[The Lok Sabha then adjourned, till Eleven of the Clock on Thursday, April 12, 1973/Chaitra 22, 1895 (Saka).]

LOK SABHA DEBATES

Thursday, April 12, 1973/Chaitra 22.
1895 (Saka)

The Lok Sabha met at Eleven of the Clock

[MR. SPEAKER in the Chair]
ORAL ANSWERS TO QUESTIONS

Trial of War Criminals by Bangladesh Government

+

*702. SHRI N. K. SANGHI:

SHRI CHANDULAL CHANDRAKAR:

Will the Minister of EXTERNAL AFFAIRS be pleased to state:

(a) whether Government's attention has been drawn to the news-item appearing in the Times of India dated the 18th March, 1973 that the Government of Bangladesh has made all arrangements for holding the trial of the war criminals and this will be over by the end of April, 1973;

(b) if so, whether the Government of Bangladesh has forwarded to the Government of India any list of names of the prisoners of war who will be required to face the trial; and

(c) if so, the total number of such persons with the break-up of their respective ranks and whether the Government of India have since made these persons available to the Government of Bangladesh for the purpose of the trial?

THE MINISTER OF EXTERNAL AFFAIRS (SHRI SWARAN SINGH):

(a) Yes, Sir.

(b) No, Sir.

(c) Does not arise.

SHRI N. K. SANGHI: It is more than a year since these prisoners of war surrendered to the Joint Command of Bangladesh and India. Since they have surrendered to the Joint Command of Bangladesh and India, have any modalities been decided regarding the trial of these prisoners, as, for example, the modalities that were decided upon for the Nuremberg trial when the Charter of London was drawn up? What are the charges that would be brought against them, what will be the constitution of the military tribunal, would India be represented on it? All these formalities are matters of vital effect. Have these been decided upon for the trial of these prisoners of war because justice should not only be as it ought to be but should also look to be justice done.

MR. SPEAKER: No argument please.

SHRI N. K. SANGHI: What are the details of modalities?

SHRI SWARAN SINGH: I have not got the details. He had not asked for these details.

MR. SPEAKER: He is asking about modalities.

SHRI SWARAN SINGH: That is primarily for the Government of Bangladesh to decide as to what are the offences and how do they want to try them.

SHRI N. K. SANGHI: My question is very specific. Since these prisoners had surrendered to the Joint Command of Bangladesh and India, India is also a vital party to the whole matter and we

should also be a party in the trial of these prisoners. Has any thought been given to this matter?

SHRI SWARAN SINGH: Yes, a great deal of thought has been given to it. Our decision is that we will co-operate with the Government of Bangladesh. If they want to try any of these prisoners for offences committed in Bangladesh, then it is their responsibility and they will decide about the manner in which the trials should take place.

SHRI N. K. SANGHI: Recently when Shri Haksar was in Bangladesh, he discussed this matter with them. Besides the charge of genocide, will the charge of aggression against the established Government of Bangladesh be brought against these prisoners, because the Government of Bangladesh was established on 10th April, 1971?

SHRI SWARAN SINGH: Shri Haksar did not discuss this question with the Government of Bangladesh. The hon. member is trying to ask for information which is not with me and is not likely to be with me, because I have made it clear that primarily it will be for the Government of Bangladesh to hold preliminary investigations because these offences were committed within Bangladesh, within the jurisdiction of that country and it will not, I submit, be proper for us to cross-examine; on this aspect because this is not within our jurisdiction.

DR. RANEN SEN: When the Pakistan Army surrendered to the Joint Command on 16 December, 1971, it was reported that certain documents involving Rao Firman Ali and others were seized by the Joint Command. Later on, very recently, it was further stated in Indian newspapers that the Bangladesh Government had decided to try Gen. Niazi and Rao Firman Ali along with some other prisoners. May I know whether the Government of India is in the possession of any information with regard to these matters?

SHRI SWARAN SINGH: No, Sir. We have no information.

DR. RANEN SEN: It is very difficult to get any reply from the Minister.

AN HON. MEMBER: Cryptic answers.

श्री विभूति मिश्र : मैं जानना चाहता हूँ कि क्या बांगला देश सरकार ने भारत सरकार को कोई पत्र लिखा है कि कितने आदमियों पर मुकदमा चलायेगी, और मुकदमा चलाने के क्या क्या उन के उसूल हैं ? और ट्रायल भारत में होगा या बांगला देश में होगा ? इस सम्बन्ध में कोई इत्तिला बांगला देश ने दी है ।

SHRI SWARAN SINGH: They have not given us the numbers yet of the persons whom they want to try, because they were completing the investigations. The trials will not take place in India because it is for offences committed in Bangladesh, and if the Government of Bangladesh decides to try the prisoners of war the trial will take place in Bangladesh.

श्री राम सहाय पांडेय : संयुक्त कमान के सम्मुख पाकिस्तानी आर्मी ने आत्मसमर्पण किया था, मैं जानना चाहता हूँ कि बांगला देश ने भारत को कानफ्रीडेंस में ले कर चार्ज-शीट तयार करने के सम्बन्ध में कोई कार्यवाही की है ? यदि हाँ, तो क्या ? मेरा दूसरा प्रश्न यह है कि कितने प्रिजनर्स हैं और कितना खर्चा हो रहा है हमारे यहाँ ?

अध्यक्ष महोदय : खर्च की बात बीच में कहां पैदा होती है । पहला सवाल ठीक है ।

SHRI SWARAN SINGH: About the charge-sheet, the understanding is that when the Government of Bangladesh have completed their investigations and have taken a decision that there is a *prima facie* case against such and such of the prisoners of war, then we intend to co-operate with them and would like to transfer those prisoners of war to them.

We do not want to be associated in the matter of investigations because it is primarily their responsibility.

About the expenses—it does not arise out of this—I have not got the figures with me at the moment.

श्री झारखंडे राय : क्या विदेश मंत्री जी बतायेंगे कि इस बात को ध्यान में रख कर कि युद्धबन्धियों का सवाल भारत और पाकिस्तान के बीच का सवाल अब न रह कर धीरे धीरे अन्तर्राष्ट्रीय सवाल बनता जा रहा है और इस पर एक इस्लामिक मीट भी अभी हो चुकी है और उन्होंने एक प्रस्ताव इस मिलसिले में पास किया है जिस की जानकारी भारत सरकार को भी है। इन सब बातों को ध्यान में रख कर इस बीच में बंगला देश की सरकार और भारत सरकार में जो बात हुई है क्या उस में कहीं किसी स्तर पर यह चर्चा आयी है कि जों बन्दी बिल्कुल निर्दोष हैं जिन पर दूर दराज़ में भी कोई केस चलाने की सम्भावना नहीं है उन को छोड़ कर बाकी पर मुकदमा चलाया जाय ?

SHRI SWARAN SINGH: The question of the settlement of the prisoners of war is a matter in which we have said that the final settlement can take place with the agreement of both India and Bangladesh. That position continues.

The hon. Member has mentioned that in the Islamic meet there was some talk about the prisoners of war. Well, we cannot prevent meets of that nature or other nature to carry on talks or make observations. But they are not totally irrelevant so far as we are concerned. None of any such organisations has got any right to advise us or to tell us as to what should be done. It is primarily a matter between Pakistan on the one side and India and Bangladesh on the other. I think everybody knows that India will refuse to be pressurised on this score. That

does not mean that we are not aware of the necessity of finding a just and satisfactory solution of this problem; and that is a matter which is engaging our very serious attention.

Amount spent on settlement of East and West Pakistan Refugees

*703. **SHRIMATI MAYA RAY:** Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) what is the total amount received by the West Pakistan Refugees and East Pakistan Refugees respectively by way of compensation; and

(b) whether further sums are to be allotted for the complete rehabilitation of the East Pakistan refugees in the Fifth Five Year Plan?

THE DEPUTY MINISTER IN THE MINISTRY OF LABOUR AND REHABILITATION (SHRI G. VENKATSWAMY): (a) Upto 28th February, 1973, an amount of Rs. 191.28 crores has been paid by way of compensation to Displaced Persons who held verified claims and as rehabilitation grant under the Displaced Persons (Compensation and Rehabilitation) Act and Rules framed thereunder to those displaced persons who did not file claims or who came late from the former West Pakistan (now Pakistan).

Under the Nehru-Liaquat Pact of April, 1950, the migrants from East Pakistan retained proprietary rights in the properties left behind by them and they could sell, exchange or dispose of their properties in any manner they liked. Hence, no compensation was paid to them.

(b) Taking into account the magnitude of the problem, provision will be made in the Fifth Five Year Plan for the rehabilitation of migrants from the former East Pakistan.

SHRIMATI MAYA RAY: Inasmuch as the Nehru-Liaquat Ali Pact eventually turned out to be completely abortive and

to take cover under it is a mere sophistry, and inasmuch as these East Pakistan refugees did not receive any compensation for the property left behind them in erstwhile East Pakistan and, inasmuch as these East Pakistan refugees are unable to obtain any monetary assistance from the Government or any other financial institution because they do not have any right title or interest in the land they occupy, does the Government have any plan to grant every refugee family a developed plot of homestead land as a gift from the State in this year of our Silver Jubilee Anniversary of Independence?

THE MINISTER OF LABOUR AND REHABILITATION (SHRI RAGHUNATHA REDDY): Efforts are being made to rehabilitate these persons in various States in this country.

SHRIMATI MAYA RAY: Inasmuch as in regard to the western region 19 new full-fledged townships and 136 colonies as suburbs of existing towns and cities came into existence containing full civic amenities, such as, schools, hospitals, shopping centres and industrial centres forming viable units—this is according to publications of the Union Ministry of Rehabilitation—does the Government have any plan for similar standards of development for the eastern region in the course of the next five years?

SHRI RAGHUNATHA REDDY: The Government is making plans for rehabilitating these persons and an exercise is being done in the course of the next Five Year Plan.

SHRIMATI JYOTSNA CHANDA: So far as I understand from the reply of the hon. Minister, no such plan has been made in the Five Year Plan to help the refugees of East Pakistan. I want to know whether the Government will consider about refugees who are in Assam and who could not be rehabilitated due to failure of the Indian Tea Association's scheme, particularly in my district of Cachar during the Fifth Plan.

SHRI RAGHUNATHA REDDY: I am not able to give particular details about the district of Cachar. But as far as the Fifth Plan is concerned, as I have already said, an exercise is being carried out in regard to Plan and non-Plan expenditure with regard to this aspect of the problem.

SHRI SAMAR MUKHERJEE: Has the hon. Minister received any master plan from the West Bengal State Government regarding the rehabilitation of East Pakistan refugees and, if so, what is the reaction of the Central Government thereto?

SHRI RAGHUNATHA REDDY: Yes, Sir. The Government has received master plan from the West Bengal Government for Rs. 144 crores. The master plan has been referred to the Committee of Review and we are awaiting the recommendations of the Committee of Review.

SHRI A. K. M. ISHAQUE: The hon. Minister has assured that something will be done in the Fifth Plan to rehabilitate the unfortunate refugees from East Pakistan. May I know why Government took such a long time to make a plan for the rehabilitation of these unfortunate refugees who are the floating population of West Bengal and are creating political turmoil in that State?

SHRI RAGHUNATHA REDDY: Government has been doing everything to rehabilitate these persons. I have made this clear on several occasions. With regard to the Fifth Five-Year Plan, as I have said, an exercise is being carried out with regard to both plan and non-plan expenditure in order to deal with this problem.

श्री जगन्नाथ राव जोशी : पश्चिमी पाकिस्तान से आए हुए, विशेषतः सिन्ध से आए हुए शरणार्थियों के सेटलमेंट क्लैम्स बहुत सालों से लटके पड़े हुए हैं, क्या उन को जल्दी से जल्दी पूरी करने की कोशिश करेंगे और वह कब तक फाइनालाइज हो जाएंगे, यह बताने की कृपा करेंगे।

SHRI RAGHUNATHA REDDY: Regarding refugees from West Pakistan, the major problem has been settled, and whatsoever minor problems are there with regard to a small number of families every step is being taken in order to solve them.

SHRI MUHAMMED KHUDA BAKHSH: May I know whether they have finalised the processes and procedure for the payment of 25 per cent as *ad hoc* grant on the value of properties left behind in East Pakistan—now Bangladesh—by the ref

SHRI RAGHUNATHA REDDY: I do not have any information about this immediately.

High Level Talks with Pakistan..

***704. SHRI MUKHTIAR SINGH MALIK:**
SHRI K. LAKKAPPA:

Will the Minister of EXTERNAL AFFAIRS be pleased to state: *

(a) whether the attention of Government has been drawn to the Press Report in the *Hindustan Times* dated the 15th March, 1973 under the heading 'High-level talks with Pak sought';

(b) if so, whether he has stated to the Australian Correspondent that India wanted a high-level conference between the two countries to normalise relations; and

(c) if so, whether Pakistan has also desired the same?

THE MINISTER OF EXTERNAL AFFAIRS (SHRI SWARAN SINGH): (a) Yes, Sir.

(b) and (c). My remarks to the Australian Correspondent on the subject were in line with my earlier statements in the House. I have all along said that Government would welcome bilateral negotiations with Pakistan to resolve mutual problems. In our view summit-level talks should be preceded by adequate preparation through discussions at other

levels so that the summit, when it takes place, produces the desired results. No suggestion for officials-level meeting has been received from Pakistan so far.

SHRI MUKHTIAR SINGH MALIK: The President of Pakistan, Mr. Z. A. Bhutto, always accuses the Government of India for non-implementation of the Simla Agreement. But we feel that Pakistan is standing in between and the Simla Agreement is not being implemented. In view of the experience of the Simla Agreement, I would like to know from the hon. Minister whether he feels it or not that a package deal is necessary to normalise relations with Pakistan, and if he thinks like that, I would like to know from the hon. Minister whether the Government of India has finalised any details of the issues to be settled with Pakistan before the release of POWs.

SHRI SWARAN SINGH: There is no doubt that it would be more desirable if a package deal could materialise and could be struck. But at the same time it will not be very wise not to settle matters in the absence of a package deal. Anything that is settled and is out of the way is a step towards normalisation and, therefore, should not be rejected.

In view of my reply to the first part of his query, there is no need to answer his second part in which he asks whether we have finalised the issues that should be incorporated in the package deal. I would like to say that some of the important issues have been spelt out in the Simla Agreement, and both sides have agreed that those should be settled without the use of force, by mutual agreement.

SHRI MUKHTIAR SINGH MALIK: The hon. Minister has said that most of the issues have been spelt out in the Simla Agreement. I would like to know from the hon. Minister whether the various issues like recognition of Bangla Desh, release of Bangla Desh refugees who have been retained in Pakista compensation for the refugees, war compensation, etc., had been spelt out in the Simla Agreement.

SHRI SWARAN SINGH: I would like to recall that at Simla, matters which concerned India and Pakistan were the subject-matter of discussion and the Simla Agreement related to those aspects which concerned Pakistan and India. It may also be recalled that President Bhutto, before he landed at Chandigarh when he came for the Simla meeting, had said that he would not like Pakistan's relations with Bangladesh to be discussed on Indian soil. We also received a message from Bangladesh that the Bangladesh Government also would not like us to deal with matters concerning Bangladesh and Pakistan. Therefore, for obvious reasons, questions like recognition of Bangladesh and some matters mentioned by the hon. member could not be the subject-matter of discussion or agreement at Simla, in accordance with the intentions made clear both by Pakistan and Bangladesh. At the same time we did point out that recognition of Bangladesh is something which is only recognition of a reality and in that respect this matter did come up at Simla. I remember having made a statement at an earlier stage that some indication was given by Pakistan that continued non-recognition of Bangladesh is not in the interest even of Pakistan. This was the definite indication given. Notwithstanding that, recognition has not yet taken place. It is very difficult sometimes to compel countries to see even their own interest.

SHRI MUKHTIAR SINGH MALIK: What about compensation for POWs and for Bangladesh refugees and war compensation?

SHRI SWARAN SINGH: These matters did not come up for specific discussion. Some mention, not of all these matters but some of them, did take place, but I would not like to go into details at the present stage.

SHRI VISHWANATH PRATAP SINGH: In Motherland there is a report that a mini-summit is going to be held between Pakistan, India and Bangladesh. I would like to know whether it is true, and if so, what would be the scope of this meeting?

SHRI SWARAN SINGH: I do not know what he means by mini-summit....

SHRI VISHWANATH PRATAP SINGH: At the official level.

SHRI SWARAN SINGH: He could have put it by using more simple words like whether a meeting at official level between India and Pakistan is likely to take place. We have always been in favour of such a meeting, but it would not be correct for me to say that any meeting has been fixed or any talk has taken place about such a meeting. The position of the Government of Bangladesh has been categorically stated by the Bangladesh Government that they will not be able to participate in any discussion unless it is on terms of sovereign equality, which means, unless the independence and sovereignty of Bangladesh is recognised by Pakistan.

SHRI KRISHNA CHANDRA HALDER: I would like to know from the hon. Minister whether the Government have received any proposal from the Bangladesh Government that the prisoners of war of Pakistan will be exchanged with the Bengalis detained in Pakistan and, if so, what is the reaction of the Government?

MR. SPEAKER: That question would have been relevant in the previous question. This question is about high-level talks with Pakistan.

SHRI SWARAN SINGH: Obviously, it does not arise from the main question.

SHRI M. RAM GOPAL REDDY: In the future high-level talks will the Minister raise the question of refugees who have been sent out of former West Pakistan being paid some compensation?

SHRI SWARAN SINGH: I cannot pre-empt any mention at any subsequent time. But, at the present moment, there are many immediate issues which will have to be tackled and settled before and much earlier than this.

SHRI S. M. BANERJEE: According to a news item in the *Patriot* of today, the Foreign Minister of Bangladesh would be arriving here soon when the question of Pakistani prisoners of war will be discussed with him. Since the initiative has been taken by the Bangladesh Government in stating that it is prepared to release the prisoners of war if the Banglalis detained in Pakistan are released, may I know whether that would be discussed with the Foreign Minister of Bangladesh?

MR. SPEAKER: This question is about a report in the *Hindustan Times*.

SHRI S. M. BANERJEE: The Foreign Minister of Bangladesh is arriving here for talks about prisoners of war.

MR. SPEAKER: I have already said that this question relates to a report in the *Hindustan Times*, to which the Minister gave a reply in detail.

SHRI SWARAN SINGH: The Foreign Minister of Bangladesh is expected to visit Delhi. I cannot give the exact time because the Bangladesh Minister are also busy with their own Parliament. According to press reports, their Parliament is discussing the President's Address. So, the date of his arrival will depend on his ability to extricate himself from parliamentary work. I would request hon. Members not to ask me as to what will be discussed even before the discussion takes place.

SHRI S. M. BANERJEE: I am only quoting a newspaper report.

SHRI SWARAN SINGH: I cannot prevent the newspapers from publishing such reports. They are intelligent guesses. When the Foreign Minister of Bangladesh comes, I will be very glad to discuss with him all important matters. It will not perhaps be proper for me to indicate either the items to be discussed or the nature of those discussions. That will not be fair to me, and certainly not to the Foreign Minister of Bangladesh, that we discuss beforehand in Parliament as

to what is going to be the subject matter of exchange of views.

E.S.I. Doctors | Agitation

+

*705. **SHRI SHASHI BHUSHAN:**
SHRI SAT PAL KAPUR:

Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) whether the Doctors of the Employees State Insurance Scheme had been agitating for some time;

(b) if so, their demands; and

(c) the steps taken to meet their demands and redress their grievances?

THE DEPUTY MINISTER IN THE MINISTRY OF LABOUR AND REHABILITATION (SHRI G. VENKATSWAMY): (a) and (b). The Doctors in the Employees State Insurance dispensaries in Delhi had been agitating for some time against the proposed move for withdrawal of payment of Employees' State Insurance Allowance of Rs. 100 per month to them.

(c) The Employees' State Insurance Corporation considered the matter at its meeting held on the 17th March, 1973 and agreed to continue the payment of Employees' State Insurance Allowance, for the time being.

श्री शशि भूषण : ई एस आई के अन्तर्गत काम करने वाले डाक्टरों को एक सौ रुपया भत्ता मिलता था । उसको बन्द कर दिया गया । इस को आप दुबारा जारी कर रहे हैं । डाक्टर दो सौ मांग रहे हैं । मैं जाना मैं जानना चाहता हूँ कि आप उनको कितना देना चाहते हैं ?

THE MINISTER OF LABOUR AND REHABILITATION (SHRI RAGHUNATHA REDDY): Rs. 100 were being given to the ESI Doctors as ESI allowance. It was not discontinued, but there was a recommendation that Rs. 100 need not be paid. This was recommended by the

Director-General of Health Services but the Corporation which went into this matter, did not agree with this recommendation. So, this Rs. 100 which was being paid is continued.

With respect to the demand of another Rs. 100, that does not arise immediately, but that matter will be examined.

SHRI K. S. CHAVDA: ESI doctors in Delhi have to attend to about 200 patients a day and they have to work for six hours a day. This has created discontent among them and made the doctors unpopular, for no fault of their own. I would like to know what action Government want to take in this matter to remove the discontentment among the doctors.

MR. SPEAKER: This is what he replied to. A question was raised regarding the payment of Rs. 100 and he has replied to it.

SHRI RAGHUNATHA REDDY: This matter has been brought to our notice now and it will be examined.

SHRI DINEN BHATTACHARYYA: This agitation does not concern Delhi alone, it is all over India and my question is:

whether it is a fact that the panel doctors are free to take private practice and those who are on the service system are not entitled for any private practice. So, how do the Government propose to remove this disparity and discrimination? Will they consider giving a further increment in the remuneration of the service system doctors?

SHRI RAGHUNATHA REDDY: With regard to the doctors employed by the ESI, the reasons why ESI is paying them Rs. 100 extra in contrast to other doctors are the following:

1. Prohibition of private practice.

2. Non-provision of residential accommodation.

3. Liability for domiciliary visit.

4. Treatment of higher order to the insured persons and their family members.

5. Duties involving great circumspection requiring tact, patience and endurance.

Because of these reasons they are being paid Rs. 100 extra. I think I have clarified the question of the hon. Member.

News-item "Indian Tricolour Absent at Mecca"

+

*707. SHRI JAGANNATH MISRA:
SHRI INDRAJIT GUPTA:

Will the Minister of EXTERNAL AFFAIRS be pleased to state:

(a) whether Government's attention has been drawn to the news item "Indian tricolour absent at Mecca" as appearing in Times of India dated the 20th March, 1973; and

(b) if so, the reaction of Government thereto?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH): (a) and (b). Yes, Sir. The Indian national flag was not flown at Mecca during the Haj as national flags of other countries were also not hoisted there on that occasion.

SHRI JAGANNATH MISHRA: In view of the answer given by the hon. Minister I would like to know whether there is any restriction imposed by the Government of Mecca on nations with regard to flying of their flags. If it is so, what is the Government going to do for its removal? If not, as a matter of principle, our national flag should have been hoisted, no matter other nations did not hoist theirs.

Since it is a breach of discipline and a failure in the discharge of their duties on the part of our Embassy officials posted there, I would like to know whether they have been asked to explain and what action has been taken against them.

SHRI SURENDRA PAL SINGH: There is no lapse on the part of our Embassy in not flying our flag at Mecca.

As regards the rules applicable there, it is very difficult to say, but if there are any, they are applicable to all the countries. I have said in the main reply that the national flags of other countries were also not flown. It is not a question of discrimination, and India alone not being allowed to fly its flag.

SHRI JAGANNATH MISHRA: Under what circumstances did it happen? Are there any legal restrictions?

SHRI SURENDRA PAL SINGH: There is no controversy or conflict at all. Customarily these flags are not flown. No country is flying its flag there.

AN HON. MEMBER: Including Pakistan.

SHRI JAGANNATH MISHRA: Out of this answer, I want to put my second supplementary. Has Government come to know that the collection of money given by pilgrims for charity has not been properly apportioned among the countries?

MR. SPEAKER: What are you asking? You were asking about the flag. Now, you are asking about apportionment of money. How is it relevant?

SHRI JAGANNATH MISHRA: Mecca attracts pilgrims from all over the world. They give money for charity there. It is but proper that that money should be used for humanitarian works all over the world.

MR. SPEAKER: I am sorry, this is not relevant. You asked about the flag; now you are asking about the apportionment of the money.

SHRI JAGANNATH MISHRA: I want to know whether the Government is in favour of an international organisation being constituted to see that it is properly distributed among all the countries.

THE MINISTER OF EXTERNAL AFFAIRS (SHRI SWARAN SINGH): May I just clarify as there appears to be some misunderstanding? Pilgrims go to Mecca from all parts of the world. If they offer any charity, it is for the recipients of that charity to make such use of it as they like. A pilgrim goes to Haridwar or Golden Temple, Amritsar. He offers some money. None of the State Governments have ever suggested that it should be apportioned among the various States. To say so would be something ridiculous. I request hon. Members not to bring in political considerations in religious matters. Mecca is a place held in great reverence by the Muslim community of the entire world. People go there for Haj pilgrimage. They make some offering; they believe it is in their spiritual interest. It will be very wrong to suggest that such a religious offering should be subject to any international control or that they should be responsible for answering to somebody. I wish the hon. Member does not pursue this line of approach or thinking.

Nationalisation of Mines under Private Control

*709. SHRI ARVIND M. PATEL: Will the Minister of STEEL AND MINES be pleased to state:

(a) the number of coal mines which are still running in the private sector, State-wise;

(b) whether Government propose to nationalise them; and

(c) if not, the reasons therefor?

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUBODH HANSDA): (a) There are ten mines—nine in Bihar and one in West Bengal—running in the private sec-

tor owned by Companies engaged in the production of iron and steel.

(b) and (c). There is no proposal to nationalise these mines as they are the captive coking coal mines of the Steel Plants in the private sector.

श्री अरविन्द एम० पटेल : जहां लोहे और इस्पात का उत्पादन होता है और कोयला खान भी वहां है उससे अलग अकरके इस खान का राष्ट्रीयकरण करने की बात आप सोच रहे हैं ?

THE MINISTER OF STEEL AND MINES (SHRI S. MOHAN KUMARAMANGALAM): Government are not considering nationalisation of these coal-mines.

श्री अरविन्द एम० पटेल : लोहे और इस्पात का उत्पादन जहां होता है और वहां खान और जुड़ी हुई है क्या आपको पता है कि वहां जो कोयले का उत्पादन होता है वह उसी में लगता है या वहां से वह बाहर भी चला जाता है ?

SHRI S. MOHAN KUMARAMANGALAM: It will be used entirely in the steel plants. There is a provision also in the Coking Coal Mines Nationalisation Act under which if there is surplus production beyond what is needed by the steel-plants it will be at the disposal of the Government to be used for whatever purpose Government thinks fit.

SHRI B. K. DASCHOWDHURY: The hon. Minister has stated that there are nine such captive mines in Bihar and one such in West Bengal. I would like to know whether any such captive mines of any particular company has already been nationalised and if so, why there are two sets of rules whereby some of these captive mines have already been nationalised while others have not been nationalised. May I also know whether there are still quite a few numbrs of such captive mines in Madhya Pradesh and elsewhere in the country?

SHRI S. MOHAN KUMARAMANGALAM: So far as the iron and steel industry is concerned, there are only these captive mines that I have mentioned, namely nine in Bihar and one in West Bengal. Out of them, six belong to the Tata Iron and Steel Co., two to the Indian Iron and Steel Co. and one to the West Bokaro Co. which is a subsidiary of the Tata Iron and Steel Co. So, there is no question of any discrimination. All the mines belonging to companies which are producing steel, the products of which also go for the purpose of use in production of steel, have not been taken over but have been left for the use of the steel plants.

So far as Madhya Pradesh and other States are concerned, including Bihar and Bengal, in relation to other industries, we have not followed that policy.

SHRI S. M. BANERJEE: From the reply of the hon. Minister it appears that there are two mines which cater to the Indian Iron and Steel Co. Since the management of Indian Iron and Steel Co. has been taken over by Government, may I know the legal difficulties in taking over those mines which actually supply iron to that company? May I also know the difficulties in taking over the 85 collieries in Bihar which are still in the hands of the private mineowners?

SHRI S. MOHAN KUMARAMANGALAM: I am not able to follow exactly the import of the hon. Member's question, but I shall answer it to the extent that I was able to follow it.

So far as the mines which are captive to the Indian Iron and Steel Co. are concerned, they still remain captive mines of the Indian Iron and Steel Co., but the management of the Indian Iron and Steel Co. has been taken over by Government; that is, they have not been taken over by the Bharat Coking Coal, the organisation which is looking after the coking coal mines as a whole excluding these coking coal mines which are the captive mines of the steel plants. So, the taking over of mines of the In-

dian Iron and Steel Co. is only in consequence of the taking over of the management of the Indian Iron and Steel Co. This is the position.

SHRI S. M. BANERJEE: What about the 85 collieries which are in the hands of private mineowners in Bihar?

SHRI S. MOHAN KUMARAMANGALAM: Actually, that comes under question No. 712 which is just three questions ahead. But if you want me to answer the question, I am prepared to answer it.

SHRI S. M. BANERJEE: Since I have put the question, he may answer it. I did not know that that question was coming up today.

MR SPEAKER: He may ask that question when that is taken up.

**Gujarat Government's approach to
Centre Re: Import of Steel**

*710. SHRI VEKARIA:
SHRI D. P. JADEJA:

Will the Minister of STEEL AND MINES be pleased to state:

(a) whether Gujarat Government has approached the Central Government regarding the purchase of steel from abroad; and

(b) if so, the facts thereof and the reaction of Government of India thereto?

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUBODH HANSDA): (a) and (b). In October/November, 1972, the Government of Gujarat has made a request for allowing them to import 10,000 tonnes of billets which could then be rolled into mild steel bars in the country. However, in view of the unsatisfactory availability position of billets abroad, the State Government was advised to explore

the possibility of obtaining ingots/billets available from other sources within the country for meeting their more immediate requirements.

SHRI VEKARIA: The hon. Minister has stated in his main answer that:

"However, in view of the unsatisfactory availability position of billets abroad, the State Government was advised to explore the possibility of obtaining ingots/billets from other sources within the country for meeting their more immediate requirements."

The Gujarat Government have asked for permission to import billets because they have not been able to obtain the same from indigenous sources. I would like to know which source Government have in mind, which can supply the billets to the Gujarat State.

THE MINISTER OF STEEL AND MINES (SHRI S. MOHAN KUMARAMANGALAM): The idea suggested to the Gujarat Government was really in relation to the procurement of billets through the ingots fabricated in the electric furnaces. There are a large number of electric furnaces in the country and we suggested to the Gujarat Government that it would be better to try to get something from the electric furnace production because so far as imports are concerned, availability was very short in the international market.

SHRI VEKARIA: I have to know from certain sources of the Gujarat Government that billets are available abroad. If so, do Government propose to allow billets to be imported by the Gujarat Government?

SHRI S. MOHAN KUMARAMANGALAM: I am not aware of what the special sources of information of the Gujarat Government in respect of this matter to which the hon. member refers are, but I can only say that during 1972-73, MMTC, which is the canalising agen-

cy for the import of billets had planned to import about 100,000 tonnes. However, they have only been able to import something in the region of 65,000 tonnes. Further billets were not available. Therefore, had we even permitted the Gujarat Government to place the order for 10,000 tonnes of billets with MMTC, it would only have been a paper permission and would not have advanced the cause of the Gujarat Government in any way. Further, against a global tender opened by the MMTC as recently as 7 April 1973, we have received only one offer from the US for the supply of 5,000 tonnes of billets and that too at a very high price. This, I think, would adequately show the difficulties so far as imports of billets are concerned.

SHRI P. G. MAVALANKAR: The hon. Minister just now stated that he had advised or asked the Gujarat Government not to import steel from abroad but to get it from within the country. Did other State Governments make a similar request and were they also asked to follow suit? Also, what specific central assistance and help was made available to the Gujarat Government in regard to the procurement of steel internally?

SHRI S. MOHAN KUMARAMAN-GALAM: I had never said that I had advised the Gujarat Government not to import. I stated that no purpose could have been served by permitting the Gujarat Government to place an order through MMTC for another 10,000 tonnes of billets because the very permission given to the MMTC to import 100,000 tonnes could not be fully implemented owing to lack of billets in the international market. So far as I am aware, we have never advised any other State Government in any other way, but you will pardon me if I put my answer a little cautiously because my memory may not be accurate as it should be, but I doubt very much.

Finally, regarding other Governments asking for any assistance, our answer has

been the same. It arises out of the difficulties we are facing in relation to import of billets. If we could import more billets, we would have imported, but unfortunately, we are not able to.

अधिकारों की शिकायतें बढ़ा करने के लिए नियुक्त किये गये अधिकारियों

***713. श्री एम० एस० पुरती :** क्या भ्रम और पुनर्वासि मंत्री यह बता की कृपा करेंगे कि :

(क) क्या सरकार ने ऐसे पदाधिकारी नियुक्त किए हैं जिनके पास प्राइवेट तथा पब्लिक सेक्टर के श्रमिक अपनी शिकायतें दर्ज करा सकें; और

(ख) यदि हां, तो तत्सम्बन्धी ब्योरा क्या है ?

THE DEPUTY MINISTER IN THE MINISTRY OF LABOUR AND REHABILITATION (SHRI G. YENKAT-SWAMY): (a) and (b). Workers employed in the public and private sector undertakings can bring their grievances to the notice of officers and inspectors appointed under the various labour laws. Besides, in Central Undertakings (other than the Railways) where five hundred or more workers are employed, there are Labour Officers with whom grievances and complaints about the implementation of the various labour laws can be taken up for obtaining redress.

श्री एम० एस० पुरती : अध्यक्ष महोदय, श्रमिकों की शिकायतें सुनने वाले जो अधिकारी नियुक्त होते हैं, वे श्रमिकों की समस्या का समाधान करने में बिलकुल सक्षम होते हैं और वे गरीब श्रमिकों को न्यायालय की शरण से जाने का सुझाव देते हैं। ऐसी हालत में क्या सरकार इन अधिकारियों को ऐसा निर्देश देगी जिससे वे अपने ही स्तर तक श्रमिकों की समस्या का समाधान कर सकें ?

THE MINISTER OF LABOUR AND REHABILITATION (SHRI RAGHUNATHA REDDY): It has been provided in

the various enactments; several types of machinery have been provided for looking into the grievances of the workers and also the various officers whom they can approach.

With regard to the suggestions made, I may submit that the entire industrial relations, in what manner they will have to be regulated and what type of machinery we have to provide for, is under examination and I hope we will introduce the Bill as early as possible.

श्री फूलचन्द वर्मा : क्या यह बात आप की जानकारी में है कि जो श्रमिक अधिकारियों के पास अपनी शिकायतें दर्ज कराने के लिये जाते हैं उन के साथ दुर्व्यवहार किया जाता है, उन्हें डिस्टर्ब किया जाता है कि वे अपनी शिकायतें दर्ज न कराये ? इस सम्बन्ध में क्या आप अलग से कोई ऐसी व्यवस्था करने जा रहे हैं ताकि इस प्रकार की शिकायतें आगे तो उन पर तत्काल कार्यवाही हो ।

SHRI RAGHUNATHA REDDY: It is very general observation for which I have no answer. If the hon. Member can give a specific instance in this regard, necessary action will be taken.

SHRI S. M. BANERJEE: I would like to know whether he is aware that the code of discipline and grievance procedure adopted in the 16th Labour Conference have not been adopted by either the Railway Ministry or the Defence Ministry or any other undertakings which are departmentally run and, if so, may I know the steps taken by the Government in this regard?

May I know also whether it is a fact that the labour officers who are working there are just no more than dignified canteen managers because the confidential reports are written by the department itself and they are, for administrative purposes, not under the Labour Ministry and, so, whether this anomalous position will be rectified?

SHRI RAGHUNATHA REDDY: I have already stated the existing position under the various enactments. The other suggestions made will be looked into.

Re: STARRED QUESTION No. 714

DR. RANEN SEN: Sir, may I draw your attention to one point in this question? Though the hon. Members who have tabled this question are not here, I would like to mention that one thing is wrongly stated here. In part (c) of the question, the Rashtriya Mazdoor Congress has been shown as the All India Trade Union Congress within brackets. They are two different organisations. So, it is very wrong to bracket them like this. The All India Trade Union Congress is different, and the Rashtriya Mazdoor Congress is something else.

MR. SPEAKER: Well, if you write to me about this, I will see that this question is corrected. I am very sorry it came in this shape, but it must have been sent by the Members.

Rehabilitation of Territory vacated by Pakistani Armed Forces

*715. **SHRI S. C. SAMANTA:** Will the Minister of LABOUR AND REHABILITATION be pleased to state the amounts of assistance and compensation which have been spent or are to be spent in the task of rehabilitation of the Indian territory vacated by the Pakistani armed forces as a result of the Simla Agreement?

THE MINISTER OF LABOUR AND REHABILITATION (SHRI RAGHUNATHA REDDY): The amounts of assistance by way of relief and rehabilitation spent and to be spent by the State Governments in the Indian territories vacated by the Pakistani armed forces as a result of the Simla Agreement are being ascertained.

SHRI S. C. SAMANTA: It is for the Defence Ministry to reply to this, question. However, I would like to know whether any State Government has taken up this work in right earnest and if so, how much time it will take to ascertain it and who will bear the rehabilitation expenses?

SHRI RAGHUNATHA REDDY: We will have to get the information from the State Governments. We are trying to get it. When the information is available, I will let the hon. member know.

SHRI S. C. SAMANTA: May I know whether all Indian territories that were to be vacated by Pakistan have been vacated?

SHRI RAGHUNATHA REDDY: It is with regard to the territories that have been vacated that this information is being collected.

श्री नारसिंहे राय : क्या मंत्री महोदय के पास इस बात की सूचना है कि पाकिस्तानी फौजों ने हमारे जिस क्षेत्र को कब्जे में लिया था, वहां से वापस जाने के पहले उन्होंने 'सरदार भगत सिंह के स्मारक को तोड़फोड़ दिया और वहां से उन की मूर्ति को उठा कर ले गये ? यदि यह सूचना है तो इस विषय में क्या सरकार ने पाकिस्तान सरकार को कोई विरोध पत्र भेजा है अथवा नहीं ?

MR. SPEAKER: This question is about the amounts of assistance and compensation which have been spent or are to be spent in the task of rehabilitation of the Indian territory vacated by Pakistan. I wish you had sent a specific question on this.

SHRI S. M. BANERJEE: That place was given to us ultimately. We have visited it. We want to know whether it is still with us or not. This is a historical place.

MR. SPEAKER: It may be remotely concerned.

SHRI RAGHUNATHA REDDY: If it has happened, it is highly deplorable. But the hon. member may kindly put a separate question.

MR. SPEAKER: Shri Narasimha Reddy.

SHRI P. NARASIMHA REDDY: Question No. 718.

MR. SPEAKER: I have no information as to why the minister is not present. I will have to bring up this question again next week.

SHRI JYOTIRMOY BOSU: It is a question of contempt of the House. It is a serious matter. They are whole-time paid people.

MR. SPEAKER: Mr. Kumaramangalam, the question is not that a substitute is lacking. All of you can reply to this question. The question is that the minister concerned is not present and he has not intimated anything to me. I strongly disapprove of it. I will put this question again next week. It will have priority.

श्री विभूति मिश्र : अध्यक्ष जी, यदि कोई रास्ते में बीमार हो जाय तो कैसे आ सकता

अध्यक्ष महोदय : बीमार हों गये थे तो मुझे लिख सकते थे—श्री किसकु के मामले को ले लीजिये,

He wrote to me and I pleaded on his behalf that he is not well. So, a few lines could have been written to me.

THE MINISTER OF STEEL AND MINES (SHRI S. MOHAN KUMARAMANGALAM): Sir, I had been in charge of this subject till recently. If the hon. Member wants, I am prepared to read it.

श्री शशि भूषण : अभी यहां बंटे हुए थे, उनका कुछ तबीयत खराब हो गई है ।

अध्यक्ष महोदय : तबीयत क्या खराब होनी है, गलत बात क्यों कहते हैं । जो बात होगी वह बता देना । कोई खास वजह हो गई होगी लेकिन बेकार में उनको बीमार क्यों बतलाते हैं । वह अब आ रहे हैं ।

THE DEPUTY MINISTER IN THE MINISTRY OF HEAVY INDUSTRY (SHRI SIDDHESHWAR PRASAD): Sir, I am very sorry this has happened.

MR. SPEAKER: What happened to you? I advised them not to say that you are in the hospital.

Fulfilment of Fourth Plan Targets in Heavy Industry

*718. SHRI P. NARASIMHA REDDY: Will the Minister of HEAVY INDUSTRY be pleased to state:

(a) to what extent Heavy Industry in the Public Sector has fulfilled the targets set for the Fourth Five Year Plan; and

(b) the steps contemplated to make up the shortfall, if any?

THE DEPUTY MINISTER IN THE MINISTRY OF HEAVY INDUSTRY (SHRI SIDDHESHWAR PRASAD): (a) and (b). A statement is laid on the Table of the House. [*Placed in Library. See No. LT. 4788/73*].

SHRI P. NARASIMHA REDDY: This is an important question which is entitled to an unambiguous reply. Yet, the statement says:

"A number of other measures have also been undertaken under consideration to improve the performance of public sector undertakings for strengthening the organisation, management and operation."

We would like to know what specific steps have been undertaken and what are the steps under consideration for improvement of the performance of the public sector undertakings?

SHRI SIDDHESHWAR PRASAD: In some of the public sector undertakings under the Ministry some top-level changes have been brought about. As far as material planning is concerned, we are discussing it in great detail and we hope that this will be finalised soon. After these two steps are taken, the performance of these public sector undertakings will surely improve.

SHRI P. NARASIMHA REDDY: Sir, you may kindly postpone the question so
241 LS.—2.

that they can provide a full and correct reply.

MR. SPEAKER: Then he should not have asked the first supplementary. Now we are in the mid-stream. Let him ask the other supplementary.

SHRI P. NARASIMHA REDDY: I am not satisfied with the answer.

MR. SPEAKER: Let him ask the next supplementary.

SHRI P. NARASIMHA REDDY: He has not replied as to what proportion of the deficiency in the targets laid for the Fourth Plan is due to managerial deficiency what proportion is due to disturbed industrial relations and what proportion due to lack of imports of critical items. The answer will not be completed unless he enlightens the House on these point.

SHRI SIDDHESHWAR PRASAD: The Action Committee which has been constituted by the planning Commission is going into all these matters which have been referred to by the hon. Member. After getting their report we will be in a position to have a detailed view of the whole question.

WRITTEN ANSWERS TO QUESTIONS

Implementation of Simla Agreement

*701. SHRI DHARAMRAO AFZALPURKAR: Will the Minister of EXTERNAL AFFAIRS be pleased to state:

(a) whether the Pakistan President has blamed India for not fulfilling the Simla Agreement;

(b) if so, whether there is a deliberate attempt on the part of Pakistan to delay implementation of the Simla Agreement; and

(c) the number of recommendations of the Simla Agreement acted upon so far?

THE MINISTER OF EXTERNAL AFFAIRS (SHRI SWARAN SINGH): (a) Government have seen some press reports to this effect.

(b) Pakistan's interest in implementing provisions of the Simla Agreement per-

taining to normalisation measures under paragraph 3 has shown signs of decline.

(c) With the delineation of the Line of Control in Jammu and Kashmir and the withdrawal of troops from occupied territories, paragraph 4 of the Simla Agreement has been implemented in full.

Revival of International Control Commission in Laos

*706. SHRI PILOO MODY: Will the Minister of EXTERNAL AFFAIRS be pleased to state:

(a) whether the Laotian Government has requested the Government of India for the revival of the International Control Commission; and

(b) if so, the reaction of the Government of India in this regard?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH): (a) The International Commission for Supervision and Control in Laos continues to be in existence. During his visit to India in January, 1973, however, the Prime Minister of Laos, suggested that the Commission be reactivated.

(b) It is the earnest desire of India to help Laos in the task of restoring peace and safeguarding her independence. India would be glad to help in this task with the agreement of all parties concerned and would fulfil its responsibilities in the Commission.

Report on Incident of Attack on Indian High Commission in U.K.

*708. SHRI BHAGWAT JHA AZAD: Will the Minister of EXTERNAL AFFAIRS be pleased to refer to the reply given to Unstarred Question No. 4239 on the 22nd March, 1973 regarding the Investigation into the attack on the Indian Mission in London and state:

(a) the salient features of the report submitted by two officials; and

(b) the action taken thereon?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH):

(a) The salient features of the report submitted by the two officials are as under:

(i) The raid on the Indian High Commission in London was an isolated incident. • Intensive enquiries of the security agencies in the U.K. did not reveal any evidence that this raid was planned and executed at the instigation or guidance of any anti-India-Political Organisation, any individual person or group of people, or any terrorist organisation.

(ii) The raid was planned and executed by three teenaged participants who were unduly agitated over the alleged illtreatment of Pakistani Prisoners of War in India.

(b) Our Mission already have detailed instructions regarding measures to be adopted in dealing with security problems of this nature. These instructions have been further reiterated.

Non-Implementation of Industrial Tribunal Award of Maharashtra by Mazagon Dock/Department of Defence Production

*711. SHRI S. N. MISRA:

SHRI BIRENDER SINGH RAO:

Will the Minister of DEFENCE be pleased to state:

(a) whether it has come to the notice of the Government that Mazagon Dock Limited, Bombay and Department of Defence Production have not implemented the Award of Justice Shri F. H. Lala, Industrial Tribunal, Maharashtra, if so, the reasons thereof;

(b) whether the dispute has arisen between the Management and the workmen (Clerical and Subordinate staff) due to the non-implementation of the Award; and

(c) whether Central Government propose to issue directives to the managements to implement the Award and if not, reasons thereof?

" THE MINISTER OF STATE (DEFENCE PRODUCTION) IN THE MINISTRY OF DEFENCE (SHRI VIDYA CHARAN SHUKLA): (a) The management of Mazagon Dock Ltd., Bombay have, with the approval of Government, filed a special leave appeal against this award in the Supreme Court.

(b) The dispute has arisen because the management has filed an appeal.

(c) The question of issuing directions does not arise in view of the reply to clause (a) above.

बिहार की 80 कोयला खानों का निजी खान मालिकों के हाथ में होना

*712. श्री रामावतार शास्त्री : क्या इस्पात और खान मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या सरकार को घोषणा के बावजूद भी बिहार की 80 कोयला खानें अब भी निजी खान मालिकों के नियंत्रण में हैं और

(ख) यदि हां, तो इसके क्या कारण हैं ?

इस्पात और खान मंत्री (श्री एस० मोहन कुमारमंगलम्) : (क) और (ख). कोयला खान (प्रबन्ध ग्रहण) अधिनियम, 1973 के अधीन, इस्पात संयंत्र की ग्रहीत खानों को छोड़कर, समस्त कोयला खानों का प्रबन्ध केन्द्रीय सरकार में निहित हो गया है ।

असम्बद्ध मजदूर संघों द्वारा हड़ताल

*714. श्री शिवकुमार शास्त्री :
श्री सुखदेव प्रसाद वर्मा :

क्या श्रम और पुनर्वासि मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या 1972 से फरवरी, 1973 के बीच असम्बद्ध मजदूर संघ अधिकांश हड़तालों के लिए जिम्मेदार थे ;

(ख) क्या इनके परिणामस्वरूप 68 लाख 70 हजार श्रम घंटों का नुकसान हुआ ;

(ग) क्या सब से अधिकांश हड़तालों राष्ट्रीय मजदूर कांग्रेस (आल इंडिया ट्रेड यूनियन कांग्रेस) से सम्बद्ध संघों के आह्वान पर की गई थीं जिसके फलस्वरूप 9 लाख 39 हजार श्रम घंटों का नुकसान हुआ ; और

(घ) यदि हां, तो इस स्थिति में सुधार करने के लिए सरकार क्या कार्यवाही करने पर विचार कर रहा है ?

श्रम और पुनर्वासि मंत्री (श्री रघुनाथ रेड्डी) : (क) से (ग). एक विवरण, जो 1972 के दौरान केन्द्रीय श्रमिक संगठनों/असम्बद्ध संघों आदि द्वारा की गई हड़तालों तथा इनके कारण नष्ट हुए श्रम दिनों की संख्या के सम्बन्ध में उपलब्ध अंतिम सूचना दर्शाता है, सदन के मेज पर रखा गया है ।

(घ) सरकार का ध्येय सांविधिक उपबन्धों और स्वैच्छिक व्यवस्थाओं के अधीन अनौपचारिक मध्यस्थता संरक्षण, न्याय निर्णय या विवाचन द्वारा, जैसा भी आवश्यक हो, औद्योगिक विवादों के कारण काम-रोधों को कम करना रहा है । सरकार सम्बन्धित पक्षों से भी औद्योगिक सम्पर्क पद्धति में सुधार करने के लिए सम्मत उपाय उद्भूत करने हेतु विचार-विमर्श करती रही है ।

विवरण

केन्द्रीय श्रमिक संगठन/संघ	हड़तालों की संख्या (1972 अन्तिम)	नष्ट हुए श्रम दिनों की संख्या (1972 अन्तिम)
1	2	3
राष्ट्रीय मजदूर कांग्रेस	297	934,857
अखिल भारत ट्रेड यूनियन कांग्रेस	249	831,752
हिन्दु मजदूर सभा	120	1,401,078
संयुक्त ट्रेड यूनियन कांग्रेस	10	52,329
विधि संघ	56	1,702,366
असम्बद्ध और अन्य*	1,798	6,871,971
जोड़	2,530	11,794,353

*'अन्य' उन हड़तालों से सम्बन्धित हैं जिनकी शुरुआत किसी संघ द्वारा नहीं हुई या जिनके बारे में यह मात्तम नहीं था कि वह किस संगठन से सम्बद्ध हैं।

Loss due to non-use of USA know-how for Fabrication of Steel Rolling Mills.

***716. SHRI SAMAR GUHA:
DR. LAXMINARAIN
PANDEYA:**

Will the Minister of STEEL AND MINES be pleased to state:

(a) whether the attention of Government has been drawn to a report published in the *Times of India* on the 19th March, 1973 to the effect that India is losing 100,000 Dollars per year for the last four years due to the Soviet opposition to use U.S.A. 'know-how' technology for the fabrication of steel rolling mills;

(b) whether Government have had 10 years contract with Engineering and Foundry Limited of the USA for supplying 'know-how' technology for the above purpose; and

(c) the reaction of Government regard-

ing the contract entered into with the above USA Engineering concern?

THE MINISTER OF STEEL AND MINES (SHRI S. MOHAN KUMARA-MANGALAM): (a) The report in question has come to the notice of Government.

(b) Government of India have not entered into any such contract. However, Hindustan Steel Limited entered into an agreement, with the approval of Government, in February, 1969, with M/s. United Engineering and Foundry Company, Pittsburg, USA (now named Wean Limited incorporated, for the acquisition of know-how in the design and manufacture of rolling mills and auxiliary equipment. The agreement is valid for a period of ten years and envisages an annual payment of \$ 100,000 as compensation for know-how.

(c) The agreement provides for the supply of technical and manufacturing information, data, detailed designs and related calculations for rolling mills and auxiliary services. It also provides for

facilities for the training of Indian technicians for this purpose. The acquisition of this know-how would help bridge an important gap in the field of design and manufacture of rolling mills which form a major part of capital investment on a steel plant and would lead to self-sufficiency in this regard.

Expenditure incurred on implementing the scheme to assist families of Jawans/Officers killed or Disabled in Indo-Pak War, 1971

*717. SHRI S. A. MURUGANANTHAM: Will the Minister of DEFENCE be pleased to state the total expenditure so far incurred on implementing the various schemes formulated to assist the families of jawans and Officers killed or disabled in the Indo-Pak war of December, 1971?

THE DEPUTY MINISTER IN THE MINISTRY OF DEFENCE (SHRI J. B. PATNAIK): The scheme for rehabilitation of war bereaved families and the disabled servicemen is package of concessions extended by the Central and State Governments. These include the liberalised pensionary awards, free education for the children of those killed or permanently disabled, assistance in finding employment for dependents of the deceased servicemen and placement of such disabled servicemen as are fit for economic activity in employment and self-employment ventures. In addition, suitable accommodation, agricultural land and homestead land are being made available to them by the State Governments.

2. The most important feature of the rehabilitation programme is the liberalised pensionary awards. Under the scheme widows of officers killed in action are eligible to a pension of 3/4ths of the pay of the rank held at the time of death till the deemed date of retirement of the officer and thereafter to normal family pension. In the case of JCOs/ORs, pension is payable at the rate of last pay drawn to the nominated heir for life. The disability pension for those invalided out of service consists of two elements: the disability element and the service element. The disability element for 100 per

cent disability is equal to the emoluments last drawn minus the service element, the amount being limited to Rs. 500. For lower percentages of disability, the disability element is proportionately reduced. All those eligible are in receipt of these pensions.

3. The educational concessions extended to children of servicemen killed in action and those permanently disabled provides for free education upto the first degree level, including cost of books, uniforms, board and lodge in schools run or aided by the Union Government. State Governments have also issued similar orders. Assistance in the matter of employment to dependents and those discharged from service is regulated by rules and orders issued by the Central and the State Governments. The concerned individuals can be appointed in Government employment without the intervention of the employment exchanges. Facilities for training have been extended to them in training institutions both under the Central and State Governments; and the Ministry of Defence co-ordinates and ensures that applicants for such training are assisted for admission to these institutions.

4. As expenditure on the increased pensionary awards is a continuous charge, educational facilities are being availed of in institutions of both the Centre and the States, assistance for the purpose of employment is a co-ordinated activity between different Departments of Central Government and the State Governments, it is not feasible to assess the expenditure on these schemes on a given date.

Use of Computers

*719. SHRI SHRIKISHAN MODI:
SHRI P. M. MEHTA:

Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) whether he has pointed out that computers will not help India at a time when the country is facing unemployment problem; and

(b) whether resources utilisation could be effectively controlled by computers?

THE MINISTER OF LABOUR AND REHABILITATION (SHRI RAGHU-NATHA REDDY): (a) Large-scale and injudicious use of computers will not be desirable. Government's policy is that automation including computerisation should be tried out on a selective basis and that technological advance should be regulated to make it consistent with the social good of the community.

(b) Computers are capable of being used to help in the effective utilisation of resources.

Import of Substantial Portion of requirements of Engine developed for a new Plane

***720. SHRI D. K. PANDA:** Will the Minister of DEFENCE be pleased to state:

(a) whether a substantial portion of the engine requirements of the new planes that are being developed will have to be imported from foreign countries; and

(b) if so, whether any steps are being taken to bring down these imports?

THE MINISTER OF STATE (DEFENCE PRODUCTION) IN THE MINISTRY OF DEFENCE (SHRI VIDYA CHARAN SHUKLA): (a) and (b). It is not possible to indicate at this stage to what extent engines for the planes that are now being developed will be required to be imported. However, in all such projects a few engines may have to be imported initially until our own indigenously designed engines are available. Steps are being taken to design and develop sophisticated aero-engines to meet our future requirements. Where such engines cannot be developed, technical collaboration from foreign manufacturers for indigenous production is also considered.

Diamond Drilling Contract to 'Bird & Co.'

6850. SHRI S. N. MISRA: Will the Minister of STEEL AND MINES be pleased to state:

(a) whether 'Bird and Co.' had a diamond drilling contract at Khetri Project;

(b) whether the present Chairman of Hindustan Copper Limited who was then an employee of the said company, operated the contract at that time; and

(c) what consideration weighed heavy with the Government to appoint him as Chairman of the Khetri Project?

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUKHDEV PRASAD): (a) Yes, Sir. The diamond drilling contract was awarded to M/s. Bird & Co. in 1967 by the National Mineral Development Corporation, then responsible for the Khetri Copper Project.

(b) The present Chairman of Hindustan Copper Ltd., who was in 1967 an employee of Bird & Co., was in no way connected with this contract in 1967 when the Contract was awarded. He was then working in the Minerals Department of Bird & Co. a department which had nothing to do with the drilling. He was transferred in mid-1968 from Calcutta to Delhi as Incharge of Delhi Office and the drilling department of Bird & Co. then came under him. It may be mentioned however, that a penalty of forfeiture of the entire amount of Bank Guarantee of Rs. 1,50,000 furnished by Bird & Co., for their failure to complete the work within the stipulated period was imposed after the present Chairman joined Hindustan Copper Limited.

(c) He had worked with Bird & Co. for over a decade and held various top level managerial positions before his appointment in Hindustan Copper Ltd. It was considered that with his managerial experience, he should be able effectively to handle the problems of the Company during critical phase of its development. He had also been empanelled under Schedule 'C' by the Empanelment Selection Board.

Constitution of High Power Committee Re-organisation of N.C.C.

6851. SHRI DHARAMRAO AFZALPURKAR: Will the Minister of DEFENCE be pleased to state:

(a) whether Government have constituted a high power Committee to recom-

mend measures necessary for changes in the aims and objectives and organisation of the National Cadet Corps; and

(b) if so, the particulars thereof and when its report is likely to be submitted?

THE DEPUTY MINISTER IN THE MINISTRY OF DEFENCE (SHRI J. B. PATNAIK): (a) and (b). A statement is laid on the Table of the House. [*Placed in Library*]. See No. LT-4789/73].

Production of High Standard of Steel Sheets at Durgapur Alloy Steel Plant

6852. SHRI G. Y. KRISHNAN: Will the Minister of STEEL AND MINES be pleased to state:

(a) whether the working of present hand-driven sheet mill of Durgapur Alloy Steel Plant is not satisfactory according to the capability of producing various types of steel sheets of high standard; and

(b) if so, what efforts have been made by Government in this regard for the improvement in this field?

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUBODH HANSDA): (a) While the hand sheet mill of Alloy Steels Plant, Durgapur, is not unsuitable for production of small tonnages of certain types of alloy steels, it is, in terms of present day technology, not quite suited for production of high quality flat products on a commercial scale in a competitive market.

(b) This is linked up with the question of the product-mix for the expansion of the plant which is under review.

Soviet Support to India's stand on Aksai Chin

6853. SHRI G. Y. KRISHNAN: Will the Minister of EXTERNAL AFFAIRS be pleased to state:

(a) whether Government have received intimation from U.S.S.R. regarding Soviet Government's support to India's stand on Aksai Chin; and

(b) if so, the details regarding the stand of U.S.S.R. on Aksai Chin as indicated to the Government of India?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH): (a) No recent intimation has been received from the U.S.S.R. Government on the subject

(b) Does not arise.

Meeting of Non-Aligned Nations

6854. SHRI BISHWANATH JHUN-JHUNWALA: Will the Minister of EXTERNAL AFFAIRS be pleased to state:

(a) whether India has been sounded for a meeting of the non-aligned nations and a preparatory meeting will be held shortly in Kabul to work out the details of the proposed conference; and

(b) whether India participated in the preparatory meeting and if so whether any decision has been taken with regard to the nations that are to be invited in the proposed conference, the venue and the agenda and if so, the details thereof?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH): (a) It was agreed at the conference of Foreign Ministers of non-aligned countries held in Georgetown in August, 1972 that a Conference of Heads of States Governments of non-aligned countries should be held in Algiers in September, 1973. A Preparatory Committee consisting of 17 countries including India will meet in Kabul, Afghanistan, from 13 to 15 May, to work out the agenda for the Summit and other details.

(b) Does not arise.

Proposal to post a Senior Officer at Indian Consulate in Saigon

6855. SHRI BISHWANATH JHUN-JHUNWALA: Will the Minister of EXTERNAL AFFAIRS be pleased to state:

(a) whether the Indian Consulate at Saigon is not being manned by the Con-

sulate General and is in charge of a junior official;

(b) when the Consulate General was withdrawn from Saigon; and

(c) whether the present incumbent of the post is being handicapped owing to his junior position to have access to the policy-making level at Saigon and as such the country is not being kept posted with the developments at an early date and whether any attempt is being made to send a senior officer of the rank of a Consulate General at Saigon and if so, when?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH):
(a) Yes, Sir.

(b) The previous Consul-General left Saigon in November, 1972 on transfer.

(c) Government have no reasons to believe that the present incumbent of the post in Saigon is being handicapped in the discharge of his normal duties on account of his being a relatively junior official. The question of sending a new Consul-General to Saigon is under consideration.

Loss in Hunter Coal Field, District Palamau, Bihar

6856. KUMARI KAMLA KUMARI: Will the Minister of STEEL AND MINES be pleased to state:

(a) whether Hunter Coal field (District Palamau, Bihar) will lose nine lakh tonnes of coal and it will not be possible for Mines management to take out coal lying under earth in the area of Hunter Coal Field due to road construction over the coal field as has appeared in the press report of *Saptahik Haldhar* (Daltanganj, Palamau, Bihar) dated the 15th March, 1973; and

(b) if so, the action taken by Government thereon?

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUBODH HANSDA): (a) and (b).

The information is being collected and will be laid on the Table of the House.

Memorandum submitted to Custodian of Karanpura and Daltanganj Coal Field

6857. KUMARI KAMLA KUMARI: Will the Minister of STEEL AND MINES be pleased to state:

(a) whether any memorandum has been submitted to the custodian of North Karanpura and Daltanganj Coal field (District Palamau, Bihar) regarding some of the demands of workers of the said coal field; and

(b) if so, the reaction of Government thereto?

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUBODH HANSDA): (a) and (b). The information is being collected and will be laid on the Table of the House.

Expenditure on Indian Embassy in U.S.S.R.

6858. SHRI HUKAM CHAND KACHWAI: Will the Minister of EXTERNAL AFFAIRS be pleased to state:

(a) the total amount of expenditure incurred on the Ambassador and the Embassy of India in U.S.S.R. during the financial year 1971-72;

(b) whether the expenditure is increasing year by year; and

(c) the action being taken by Government to decrease the enhancing expenditure?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH):

(a) The expenditure incurred on the Ambassador was Rs. 2.13 lakhs and on the Embassy of India in U.S.S.R. was Rs. 40.08 lakhs.

(b) There is no increase in the expenditure on Ambassador. There was a decrease in the expenditure on the Embassy.

(c) Does not arise.

Fire at Indian Market in Durban

**6859. SHRI C. K. JAFFER SHARIEF:
SHRI VARKEY GEORGE:**

Will the Minister of EXTERNAL AFFAIRS be pleased to state:

(a) whether Durban's popular Indian market, one of Natal's major tourist attractions, was totally gutted by a fire on the 16th March, 1973; and

(b) if so, the damage estimated to have been suffered?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH):

(a) Government of India regret to learn from Press reports that a fire broke out at the Indian market at Durban on the night of 16th March, 1973, causing extensive damage to the stalls and goods stored therein.

(b) The magnitude of damage is not exactly known, but according to the above-mentioned Press reports it is estimated to be of several million Rands.

Iron-ore Deposits

6860. SHRI DHARAMRAO AFZAL-PURKAR: Will the Minister of STEEL AND MINES be pleased to state:

(a) the names of the States in which large deposits of iron ore have been discovered;

(b) the estimated quantity of the Iron ore deposits; and

(c) whether the economic feasibility of extracting the same have been examined?

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUKHDEV PRASAD): (a) and (b). Statewise reserves of hematite iron ore in India so far estimated are 15.77 million tonnes in Andhra Pradesh, 1137.63 million tonnes in Bihar, 396.22 million tonnes in Goa, 2624.77 million tonnes in Madhya Pradesh, 231.20 million tonnes in Maharashtra, 1052.16 million tonnes in Mysore, 2677.81 million tonnes in Orissa and 12.78 million tonnes in Rajasthan. Statewise reserves of Magnetite iron ore are 97.00 million

tonnes in Andhra Pradesh, 3.00 million tonnes in Haryana, 58.70 million tonnes in Kerala, 1467.00 million tonnes in Mysore and 447.73 million tonnes in Tamil Nadu.

(c) Yes, Sir. Iron ores of Andhra Pradesh, Bihar, Goa, Madhya Pradesh, Maharashtra, Mysore and Orissa are already under exploitation. Large iron ore mines are under development expansion at Kiriburu (Bihar), Bailadila (Madhya Pradesh), Donimalai and Kudremukh (Mysore).

मध्य प्रदेश के कोयला खनिकों को बूट और हैलमेट देने की व्यवस्था

6861. श्री गंगा चरण दीक्षित : क्या भ्रम और पुनर्वास मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या सुरक्षा नियमों के अन्तर्गत मध्य प्रदेश के कोयला खानों के खनिकों को बूट और हैलमेट दी गई है; और

(ख) यदि नहीं, तो इस बारे में सरकार ने क्या कार्यवाही की है ?

भ्रम और पुनर्वास मंत्रालय में उप-मंत्री (श्री जी० वेंकटस्वामी) : (क) 42146 कोयला खान श्रमिकों में से, जो कि जूते पाने के हकदार हैं, 11106 श्रमिकों को जूते दिये गये हैं। 39496 खान श्रमिकों में से, जो हैलमेट पाने के हकदार हैं, 38299 श्रमिकों को हैलमेट दिये गये हैं।

(ख) चूक-कटावों को कारण बताओ नोटिस जारी किए जा रहे हैं और उनके खिलाफ कानूनी कार्यवाही करने के लिए मामलों की जांच की जा रही है।

छिंदवाड़ा, मध्य प्रदेश के कोयला खान श्रमिकों की न्यूनतम मजदूरी

6862. श्री गंगा चरण दीक्षित : क्या भ्रम और पुनर्वास मंत्री यह बताने की कृपा करेंगे कि :

(क) मध्य प्रदेश के छिंदवाड़ा क्षेत्र के एक कोयला खान श्रमिक के लिये नियमों के

अनुसार कितनी न्यूनतम मजदूरी स्वीकार की गई है और उसे कितनी वास्तविक मजूरी दी जाती है;

(ख) क्या उत्पादन के आधार पर मजूरी का भुगतान करने के लिये इन कोयला खानों में कोयले को तोलने के लिये कोई व्यवस्था नहीं है; और

(ग) यदि हां, तो इस बारे में सरकार की क्या प्रतिक्रिया है ?

श्रम और पुनर्वास मंत्रालय में उप-मंत्री (श्री जी० बैरुडस्वामी) : (क) कोयला खानों में श्रमिकों की विभिन्न श्रेणियों को देय न्यूनतम मजदूरियां, कोयला खनन उद्योग सम्बन्धी केन्द्रीय मजदूरी बोर्ड की रिपोर्ट में विस्तृत रूप से निर्धारित की गयी है।

(ख) और (ग). बोर्ड की रिपोर्ट बताती है कि खनिकों और लोडरों के मामले में, मूल मजूरी, टबों और उनके मापों के निबन्धन में वर्तमान कार्यभार के आधार पर देय होगी। अतः, मजदूरियों के भुगतान करने के लिए कोयले की तोल प्रचलन में नहीं है।

मध्य प्रदेश के बालाघाट जिले की तांबा खानों के कार्य में हुई प्रगति

6863. श्री गंगा चरण दीक्षित : क्या इस्पात और खान मंत्री यह बताने की कृपा करेंगे कि :

(क) मध्य प्रदेश के बालाघाट जिले की तांबा खानों के कार्य में इस बीच कितनी प्रगति हुई है;

(ख) वहां स्थापित किये जाने वाले तांबा सन्यन्त्र की उत्पादन क्षमता कितनी है; और

(ग) वहां सम्भवतः कब तक उत्पादन आरम्भ हो जायेगा ?

इस्पात और खान मंत्रालय में उप-मंत्री (श्री सुल्लेश्वर प्रसाद) : (क) इस समय मध्य

प्रदेश में बालाघाट जिले में मालेजखण्ड ताम्र निक्षेप में भूवैज्ञानिक समन्वेषण कार्य किया जा रहा है। अभी तक तल व्ययन के 11,000 मीटर और भूमिगत विकास के 130 मीटर तक का कार्य किया गया है। खनन संक्रियाओं के लिए साध्यता अध्ययन तैयार करने का कार्य और सान्द्रक सन्यन्त्र की स्थापना का कार्य सोवियत संगठन को सौंपने का विनिश्चय किया गया है। संविदा का प्रारूप, जो सरकार को सोवियत पक्ष से पहले ही प्राप्त हो गया है, अब विचाराधीन है।

(ख) और (ग). इस समय मालेजखण्ड में स्थापित किए जाने वाले ताम्र सन्यन्त्र की क्षमता और उस समय को जबकि उत्पादन आरम्भ होने की सम्भावना है, उपदर्शित करना सम्भव नहीं है। यह मामले रूसियों द्वारा तैयार किए जाने वाले साध्यता अध्ययन में सम्मिलित होंगे।

Production Programme of M. A. M. C., Durgapur

6864. SHRI KRISHNA CHANDRA HALDER: Will the Minister of HEAVY INDUSTRY be pleased to state:

(a) the programme of Production made for the years 1970-71 and 1971-72 and their actual achievement in terms of tonnage by MAMC Ltd., Durgapur;

(b) out of the achieved production during the years 1970-71 and 1971-72, the amount of production made through the outside agency; and

(c) to what extent the productive capacity of the machine tools of the MAMC has been utilised during that period only out of MAMC's production?

THE DEPUTY MINISTER IN THE MINISTRY OF HEAVY INDUSTRY (SHRI SIDDHESHWAR PRASAD): (a) During 1970-71 and 1971-72 MAMC Ltd., Durgapur had a programme of production of 11,000 tonnes and 13,540 tonnes respectively. Against this programme the actual production achieved

during the aforesaid period was 7,742 and 11,990 tonnes respectively.

(b) Of the total achieved production of the company during 1970-71 and 1971-72 mentioned in (a) above the production of outside agencies was 1,515 and 1,595 tonnes respectively.

(c) The production capacity of the plant in 1970-71 and 1971-72, as assessed by an Expert Committee on Diversification of Production in MAMC was 11,000 and 14,000 tonnes respectively. On this basis the company could utilise its productive capacity during the aforesaid period to the extent of 56.2 per cent and 74.3 per cent respectively.

Indian Delegation's Visit to Saudi Arabia

6865. SHRI M. S. SANJEEVI RAO
SHRI RAGHUNANDAN LAL
BHATIA:

Will the Minister of EXTERNAL AFFAIRS be pleased to state:

(a) whether an Indian Delegation headed by the Deputy Minister of Railway recently visited Saudi Arabia;

(b) if so, the nature of discussions held; and

(c) the outcome thereof?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH):
(a) Yes, Sir.

(b) and (c). The Delegation had an audience with the King of Saudi Arabia and met other distinguished members of the Royal Saudi Government. The Delegation explained Government's policies and programmes to them. They also exchanged views with the Haj Delegations of other countries, who were visiting Saudi Arabia during the Haj season. As a result of these discussions, Government's point of view was better understood by all concerned.

Sale of Foreign Goods in 'Modern Bazar' Residential Colony, Vasant Vihar, New Delhi

6866. SHRI PRATAP SINGH NEGI.
Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) whether imported and foreign goods are being freely sold in 'Modern Bazar' a residential colony of Vasant Vihar, New Delhi;

(b) whether the firm is observing working hours and weekly holiday under the Delhi Shops Registration Act; and

(c) if not, the action taken in the matter?

THE DEPUTY MINISTER IN THE MINISTRY OF LABOUR AND REHABILITATION (SHRI G. VENKATSWAMY): (a) to (c). According to the Delhi Administration, this shop which deals in milk products, poultry, eggs, general merchandize etc. was checked on 12th March, 1973 and was challaned for remaining open after 7 p.m. which is the hour prescribed under the Delhi Shops & Establishments Act, 1954. Watch is being kept to detect any violation in the opening and closing of the shop and weekly close day.

प्रतिरक्षा कर्मचारियों हेतु दवायें खरीदने के लिए इलाहाबाद में दुकानें

6867. श्री हुकम चन्द कछवाय : वया
रक्षा मन्त्री यह बताने की कृपा करेंगे कि :

(क) क्या उत्तर प्रदेश सरकार ने इलाहाबाद में केवल कुछ ही दुकानों को अधि-कृत किया है जहां से प्रतिरक्षा विभाग के असेनिक कर्मचारी दवायें खरीद सकते हैं;

(ख) क्या ए एम ए रुल्ज 1944 के अनुसार कोई कर्मचारी अपने निवास स्थान से एक मील के अर्द्धव्यास तक के क्षेत्र में स्थित किसी भी पंजीकृत दवा की दुकान से दवाएं खरीद सकता है; और

(ग) इस सम्बन्ध में सरकार का विचार क्या प्रबन्ध करने का है ?

रक्षा मंत्री (श्री जगजीवन राम):(क) जी हां श्रीमान् । उत्तर प्रदेश सरकार ने इलाहाबाद में 6 दुकानों को प्राधिकृत किया है जिससे रक्षा विभाग के असैनिक कर्मचारी चिकित्सा खर्च की प्रतिपूर्ति के लिए औषधियां खरीद सकते हैं ।

(ख) केन्द्रीय सेवा (चिकित्सा परिचर्या) नियमावली, 1944 के अधीन केन्द्रीय सरकार का कर्मचारी (जिस में रक्षा विभाग के कर्मचारी सम्मिलित हैं) किसी प्राधिकृत चिकित्सक के नुस्खे पर बाजार से औषधि खरीद सकता है । तथापि, जून 1967 में यह निर्धारित किया गया कि चिकित्सा खर्च की प्रतिपूर्ति के लिए केन्द्रीय सरकार के कर्मचारी को केवल उचित मूल्य की सरकारी दुकानों, सहकारी उपभोक्ता स्टोरो, केन्द्र अथवा राज्य सरकारों अथवा स्थानीय निकायों अथवा सहकारी सोसाइटी अधिनियम के अधीन प्राधिकृत किसी संगठन द्वारा चलाए जा रहे औषध स्टोरो अथवा डिपुओ से, जहां ऐसी दुकानें अथवा डिपुओ हों, औषधियां खरीदनी चाहिए । सितम्बर 1967 में इस आशय के आदेश जारी किए गए कि जहां किसी कर्मचारी के निवास स्थान के 2 कि० मी० के घेरे में ऐसी दुकानें अथवा डिपुओ नहीं हों, यह किसी भी कैमिस्ट से औषधियां खरीदने में स्वतन्त्र होगा । नवम्बर, 1967 में यह स्पष्ट किया गया कि विभिन्न स्टेशनों पर स्थानीय प्रशासन द्वारा प्राधिकृत कैमिस्टों से खरीदी गई औषधियों की लागत को भी प्रतिपूर्ति की जा सकती है ।

(ग) इस मामले में रक्षा विभाग के असैनिक कर्मचारी उन्हीं नियमों तथा आदेशों से शासित हैं जिन से केन्द्र सरकार के अन्य विभागों के कर्मचारी शासित होते हैं । तथापि, इलाहाबाद में और अधिक दुकानों को प्राधिकृत करने का मामला उत्तर प्रदेश सरकार के साथ उठाया गया है ।

अजमेर में सरकारी क्षेत्र में मशीन टूल निर्माण उद्योग

6869. श्री मूलचन्द डागा : क्या भारी उद्योग मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या अजमेर में सरकारी क्षेत्र में मशीन टूल निर्माण उद्योग है और यदि हां, तो उसमें कितनी पूंजी लगी हुई है और उस उद्योग में क्या क्या वस्तुएं तैयार की जाती हैं; और

(ख) क्या सरकारी क्षेत्र के इस उद्योग का आगे विकास किया जायेगा ?

भारी उद्योग मंत्रालय में उप-मंत्री (श्री० सिद्धेश्वर प्रसाद) :(क) जी, हां । मशीन टूल कारपोरेशन आफ इंडिया लिमिटेड, अजमेर में अंश पूंजी के रूप में 400.00 लाख रु० की राशि विनियोजित की गई है । इस समय कम्पनी निम्नलिखित वस्तुओं का निर्माण कर रही है :—

1. टूल और कटर ग्राइंडर
2. वर्टिकल रूफैक्स स्पिंडल ग्राइंडर,
3. केन्कशापट ग्राइंडर,
4. इंटरनल ग्राइंडर
5. सेन्टरलेस ग्राइंडर, और
6. टूल पोस्ट ग्राइंडर,

(ख) जी हां ।

Land for House Building Society of Employees of Department of Rehabilitation

6870. SHRI BHAGIRATH BHANWAR: Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) whether the Regional Settlement Commissioner, Delhi had sometime ago offered to allot a piece of evacuee land in South Delhi to the House Building Society formed by the employees of the Department of Rehabilitation;

(b) if so, the total area offered, its annual rental value and the price at which the land was proposed to be offered to the said Society?

(c) under whose occupation the said piece of land is at present; and

(d) the steps taken by Government for handing over vacant possession of land to the said Society?

THE MINISTER OF LABOUR AND REHABILITATION (SHRI RAGHU-NATHA REDDY): (a) and (b). About 60 acres of land acquired under the Resettlement of Displaced Persons (Acquisition) Act of 1948 has been so allotted. The land is mostly lying vacant and hence its annual rental value is not known. About the price to be charged from the Society, the question is under consideration.

(c) and (d). Possession has been given to the Society of the major portion of the land allotted. However, since a part of this land had been leased out by the Delhi Development Authority to some persons upto April-May, 1973, the Delhi Development Authority has been requested by this Department not to extend the lease.

Wagons for Bangladesh

6871. SHRI NAWAL KISHORE SHARMA: Will the Minister of EXTERNAL AFFAIRS be pleased to state:

(a) whether the Government of Bangladesh have requested the Government of India for supply of Railway wagons to Bangladesh;

(b) if so, the broad outlines of the request made;

(c) the time by which the wagons will be supplied; and

(d) the details and mode of payment to be made by the Government of Bangladesh?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH): (a) Yes, Sir.

(b) The Government of Bangladesh has requested for the supply of 500 broad gauge wagons from India in view of the shortage of railway carriages in that country and the consequent transportation bottlenecks there.

(c) and (d). Matter is under consideration.

रोजगार एवं प्रशिक्षण महानिदेशालय द्वारा राजस्थान के उदयपुर जिले का इसके साधनों के अध्ययन के लिए चुना जाना

6872. श्री नवल किशोर शर्मा : क्या श्रम और पुनर्वास मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या रोजगार एवं प्रशिक्षण महानिदेशालय ने राजस्थान के उदयपुर जिले को क्षेत्रीय तकनीकी सर्वेक्षणों के अन्तर्गत इस के साधनों के अध्ययन के लिये चुना है, और यदि हां, तो योजना की मुख्य बातें क्या हैं; और

(ख) किन कारणों के अन्तर्गत इस जिले को राजस्थान के जयपुर जिले की अपेक्षा प्राथमिकता दी गई है ?

श्रम और पुनर्वास मंत्रालय में उप-मंत्री (श्री जी० वेंकटस्वामी) : (क) सम्भवतः प्रश्न में संकेत क्षेत्रीय तकनीकी-कला सर्वेक्षणों की ओर है जो कि रोजगार और प्रशिक्षण महानिदेशालय द्वारा चुने हुए 15 जिलों में किए जा रहे हैं, जिन में राजस्थान का उदयपुर जिला भी शामिल है। क्षेत्रीय तकनीकी-कला सर्वेक्षण का मूल लक्ष्य किसी विशेष भौगोलिक क्षेत्र के सम्बन्ध में उपलब्ध कलाओं एवं निकट भविष्य की आवश्यकताओं का निर्धारण करना है। यह सूचना नियोजकों, प्रशिक्षण संस्थानों और कालेजों, भविष्य में स्थापित होने वाले नए प्रतिष्ठानों आदि स्रोतों से एकत्र की जाती है। इस के अतिरिक्त, ग्रामीण क्षेत्रों के सम्बन्ध में गैर-कृषि क्षेत्र में स्व-नियोजन के उपलब्ध और प्रत्याशित अवसरों के बारे में भी आंकड़े एकत्र किये जा रहे हैं।

(ख) गहन अध्ययनों के लिए जिलों का चयन पांच अंचलों से किया गया था जिन में देश विभाजित है। प्रत्येक अंचल से लिए गए तीन जिल निम्नलिखित तीन प्रकारों के निरूपक थे :—

(एक) औद्योगिक दृष्टि से विकसित जिले,

(दो) विकासशील क्षेत्र, और

(तीन) लघु औद्योगिक आधार वाले कृषि प्रधान जिला।

उत्तरी अंचल से, जिस में हिमाचल प्रदेश, पंजाब, हरियाणा, राजस्थान, जम्मू काश्मीर, दिल्ली और चण्डीगढ़ के राज्य सम्मिलित हैं, योजना आयोग के परामर्श से निम्नलिखित तीन जिलों का निरूपक के रूप में चयन किया गया :—

(एक) फरीदाबाद (गुड़गांव)

(दो) लुधियाना, और

(तीन) उदयपुर।

Shifting of Steel Plant from Maharashtra to Bulandshahr (U.P.)

6873. SHRI SHANKERRAO SAVANT: Will the Minister of STEEL AND MINES be pleased to state:

(a) whether the Maharashtra Steel Limited is thinking of shifting its plant from Nagpur to Bulandshahr District in Uttar Pradesh;

(b) whether his Ministry has given it the necessary permission for shifting; and

(c) if so, what factors weighed with his Ministry while giving this permission?

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUBODH HANSDA): (a) M/s. Maharashtra Steel Limited are registered with the Iron and Steel Controller for the manufacture of mild steel ingots for a capacity of 18,000 tonnes at MIDC Industrial Area Nagpur. No formal request has so far been received

from them, nor any permission accorded to them by Government in regard to shifting of their plant from Nagpur to Bulandshahr District in U.P.

(b) and (c). Do not arise.

Proposal for Soft Border with Pakistan.

6874. DR. RANEN SEN: Will the Minister of EXTERNAL AFFAIRS be pleased to state:

(a) whether Mr. Bhutto had made the proposal for a soft border in Kashmir some time ago;

(b) whether Shrimati Gandhi in an interview to "The Statesman" said that there could be a 'soft' border along the entire Pakistan frontier; and

(c) if so, the outlines thereof?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH): (a) No, Sir. The President of Pakistan was, however, reported to have stated in his interviews with the Indian correspondents in 1972 that the cease-fire line in Jammu and Kashmir could be made "a line of peace" across which the people of Kashmir could move freely.

(b) and (c). In reply to a purely hypothetical question in a press interview, the Prime Minister stated that there could not be a soft border between any part of India and Pakistan, if there was hostility between the two countries. She indicated that she was not in favour of a soft border in Kashmir alone, adding that if there was friendship, all the borders could be soft.

Central Relief Committee for Bangladesh Refugees

6875. SHRI NAWAL KISHORE SHARMA: Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) whether any properties, residential or commercial and running business houses were allotted to the Central Relief Committee for Bangladesh refugees;

(b) if so, the broad outlines thereof; and

(c) how and by whom the same were disposed of and in whose possession these properties are now?

THE MINISTER OF LABOUR AND REHABILITATION (SHRI RAGHU-NATHA REDDY): (a) to (c). The required information is being collected and will be laid on the Table of the Sabha.

Letter received containing Allegations against Officers of Coal Board

6876. SHRI JYOTIRMOY BOSU: Will the Minister of STEEL AND MINES be pleased to state:

(a) whether he has received a letter dated the 17th February, 1973, through the I.G., C.B.I. Cabinet Secretariat, containing allegations of corruption, favouritism and nepotism against some officers of the Coal Board, which is under the administrative control of his Ministry;

(b) if so, the nature of allegations so received; and

(c) what action, if any, has been taken on the same?

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUBODH HANSDA): (a) No, Sir.

(b) and (c). Do not arise.

Talks with U.K. to bring back Kohinoor

6877. SHRI MANORANJAN HAZRA: Will the Minister of EXTERNAL AFFAIRS be pleased to state:

(a) whether Government are considering to start dialogue with Government of U.K. to bring back the Kohinoor from London; and

(b) if so, the facts thereof?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH):

(a) No, Sir.

(b) Does not arise.

Steps to improve working and performance of Public Sector Projects

6878. SHRI FATESINGHRAO GAEKWAD: Will the Minister of HEAVY INDUSTRY be pleased to refer to the reply given to Unstarred Question No. 5266 on the 29th March, 1973 regarding Public Sector Undertakings within the jurisdiction of Heavy Industry and state the steps proposed to be taken to improve the working and performance of units that are suffering losses?

THE DEPUTY MINISTER IN THE MINISTRY OF HEAVY INDUSTRY (SHRI SIDDHESHWAR PRASAD): In order to improve the working of those public sector undertakings under the administrative control of the Ministry of Heavy Industry which are suffering losses, Government have taken a number of measures. These include progressive introduction of rational personnel policy, incentive schemes, improved methods of production, planning and control and procurement of raw materials, double/tripple shift working in identified areas, diversification of production programme, development of ancillary industries, strengthening of management etc. Apart from this, the performance of all the public sector undertakings is reviewed periodically and various expert groups are appointed to go into the working of these units and suggest ways and means for improvement. As a result of these intensified measures, it is expected that the performance of these public sector units will improve further in the coming years and the losses would be minimised.

इस्को-स्टाण्टन पाइप एण्ड फाउण्डरी, उज्जैन

6879. श्री हुकम चन्द कछवाय : क्या श्रम और पुनर्वास मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या इस्को-स्टाण्टन पाइप एण्ड फाउण्डरी उज्जैन के मजदूर काफी लम्बे समय से हड़ताल पर हैं;

(ख) मजदूरों की मुख्य मांगे क्या हैं; और

(ग) इस बारे में सरकार का विचार क्या कार्यवाही करने का है ?

श्रम और पुनर्वासि मंत्रालय में उप-मंत्री (श्री जी० बैकटस्वामी): (क) से (ग)। मामला अनिवार्य रूप से राज्य के क्षेत्राधिकार में आता है। उपलब्ध सूचना के अनुसार, श्रमिक 16 फरवरी, 1973 से हड़ताल पर हैं। उन की मुख्य मांगें बोनस और इंजीनियरी वेतन बोर्ड की सिफारिशों के परिपालन से संबंधित हैं। राज्य औद्योगिक सम्पर्क तंत्र इस मामले पर ध्यान दे रहा है। यह सूचित किया गया है कि 1 मार्च, 1973 को इस हड़ताल को श्रम न्यायालय द्वारा अवैध घोषित किया गया है।

भारत, यूगोस्लाविया और संयुक्त अरब गणराज्य में जहाज बनाने के उद्योग के बारे में सहयोग

6880. श्री शिव कुमार शास्त्री : क्या रक्षा मंत्री यह बनाने की कृपा करेंगे कि :

(क) क्या यूगोस्लाविया से जहाज खरीदने अथवा उस देश में जहाज बनाने वाली कंपनियों के साथ सहयोग करने के बारे में यूगोस्लाविया के प्रधान मंत्री के साथ कोई बातचीत हुई है ;

(ख) क्या इस सम्बन्ध में यूगोस्लाविया संयुक्त अरब गणराज्य और भारत के बीच इस उद्योग में नए ढंग से सहयोग करने के प्रस्ताव पर विचार हो रहा है; और

(ग) यदि हां, तो इस पर कब तक अंतिम निर्णय कर लिया जायेगा ?

रक्षा मंत्रालय (रक्षा उत्पादन) में राज्य मंत्री (श्री विद्या चरण शुक्ल) : (क) और (ख) : जी नहीं, श्रीमान्।

(ग) प्रश्न नहीं उठता।

Sailors captured by India and Pakistan during War

6881. SHRI D. B. CHANDRA-GOWDA: Will the Minister of EXTERNAL AFFAIRS be pleased to state:

(a) the number of Indian sailors captured by Pakistan during the Indo-Pak. War in 1971 and how many of them have been released;

(b) the number of Pakistani sailors captured by Indian Government and have been released; and

(c) the number of Indian sailors still under the custody of Pakistan and the efforts of Indian Government made to get them released?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH):

(a) Of the 188 Indian merchant seamen believed to have been captured by Pakistan 167 have in all been released so far.

(b) All the 101 Pakistani merchant seamen and 152 passengers captured from Pakistani merchant vessels apprehended on the high seas by the Indian Navy during the December, 1971 conflict who did not fall within the purview of the Joint Command of the Indo-Bangladesh forces in the Eastern Sector have been released.

(c) 21 Indian merchant seamen have not so far been accounted for by Pakistan. Government is in touch with Pakistan to ascertain their whereabouts and secure their release.

हैवी इंजीनियरिंग सर्विस में अनुसूचित जाति गैर/ अनुसूचित जनजातियों के कर्मचारी

6882. श्री महा दीपक सिंह शाक्य : क्या भारी उद्योग मंत्री यह बताने की कृपा करेंगे कि :

(क) हैवी इंजीनियरिंग सर्विस में, प्रथम श्रेणी के पदों के अतिरिक्त, विभिन्न श्रेणियों के पदों पर कार्य कर रहे अनुसूचित

जातियों और अनुसूचित जनजातियों के कर्मचारियों की संख्या क्या है ;

(ख) क्या उनकी संख्या उनके लिये आरक्षित कोटे से कम है ; और

(ग) यदि हां, तो इसके क्या कारण हैं और इस बारे में सरकार द्वारा क्या प्रगतिशील उपाय किये गये हैं ?

भारी उद्योग मंत्रालय में उप-मंत्री (श्री सिद्धेश्वर प्रसाद) : (क) सम्भवतः माननीय सदस्य भारी इंजीनियरिंग निगम, रांची, के बारे में जानना चाहते हैं । भारी इंजीनियरिंग निगम में प्रथम श्रेणी के पदों को छोड़कर अन्य विभिन्न श्रेणियों के पदों पर अनुसूचित जातियां तथा अनुसूचित जनजातियों के 3,739 कर्मचारी काम कर रहे हैं ।

(ख) जी हां ।

(ग) अनुसूचित जातियों और अनुसूचित जनजातियों के लिये पदों के आरक्षण के बारे में सरकार द्वारा मार्च, 1971 में निर्देश जारी करने से पूर्व भारी इंजीनियरिंग निगम में अधिकांश पद उपयुक्ततम उपलब्ध उम्मीदवारों की भर्ती द्वारा भरे गये थे । मार्च, 1971, के बाद पर्याप्त संख्या में अनुसूचित जातियों और अनुसूचित जनजातियों के उम्मीदवार प्राप्त करने हेतु भारी इंजीनियरिंग निगम ने चयनपूर्व प्रशिक्षण पाठ्यक्रम भी शुरू किये हैं । इस के अलावा, भारी इंजीनियरिंग निगम में भर्ती के लिये अनुसूचित जातियों और अनुसूचित जनजातियों के उम्मीदवारों को आयु, पास होने के अंकों, और स्वास्थ्य के मापदण्डों में भी ढील दी गई है ।

हैवी इंजीनियरिंग कारपोरेशन में अनुसूचित जातियों/अनुसूचित जनजातियों के कर्मचारियों के लिए पृथक सेल

6883. श्री महा दीपक सिंह शास्त्री : क्या भारी उद्योग मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या समाज कल्याण समिति ने सरकार से यह सिफारिश की है कि हैवी इंजीनियरिंग कारपोरेशन में एक पृथक सेल स्थापित करे जिससे अनुसूचित जातियों तथा अनुसूचित जनजातियों के कर्मचारियों के आरक्षण तथा उचित न्याय दिया जा सके ; और

(ख) यदि हां, तो उक्त सेल कब तक बना दिया जायेगा और इस बारे में सरकार द्वारा की गई कार्यवाही का व्यौरा क्या है ?

भारी उद्योग मंत्रालय में उप-मंत्री (श्री सिद्धेश्वर प्रसाद) : (क) सम्भवतः अभिप्राय अनुसूचित जातियों और अनुसूचित जनजातियों की कल्याण समिति (चतुर्थ लोक-सभा) की रिपोर्ट में दर्ज सिफारिश से है, जिसमें समिति ने यह सिफारिश की थी कि अनुसूचित जातियों और अनुसूचित जनजातियों की शिकायतों के निवारण के लिये भारी इंजीनियरी निगम में एक "शिकायत कक्ष" खोला जाना चाहिये ।

(ख) भारी इंजीनियरी निगम समिति की सिफारिश पर विचार कर रही है । फिर भी इस विषय पर सरकारो निर्देश के अनुसार उन्होंने एक संपर्क अधिकारी और अपेक्षित कर्मचारी नियुक्त कर दिये हैं ताकि अनुसूचित जातियों और अनुसूचित जनजातियों की शिकायतों और अभ्यावेदनों पर तत्काल ध्यान दिया जाय और उनका शीघ्र निपटान किया जाय ।

Production of Heavy Electrical Equipment by B.H.E.L./H.E.L.

6884. SHRI S. N. MISRA: Will the Minister of HEAVY INDUSTRY be pleased to state:

(a) whether the capacity of units under Bharat Heavy Electricals and Heavy Electricals, Bhopal is sufficient to cater for future needs of Heavy Electrical equipment for our power generation schemes;

(b) the present range of products of the above public undertakings and those of private sector; and

(c) whether Government have contemplated a five year forecast for these products?

THE DEPUTY MINISTER IN THE MINISTRY OF HEAVY INDUSTRY (SHRI SIDDHESHWAR PRASAD):

(a) Yes, Sir.

(b) Heavy Electrical Equipments required for power generation are being manufactured in the public sector units namely BHEL and HEL, Bhopal; the other items are being manufactured both in the public and private sector units. The present range of such products is as under:—

Item	Range
1. Steam Turbines and Turbogenerators.	60 MW, 110 MW, 120 MW and 200 MW.
2. Nuclear Turbines	235 MW
3. Industrial Turbo-sets	15 MW to 60 MW
4. Hydro Turbines and Generators	165/200 MW
5. AC Motors	75 KW to 10,000 KW
6. DC Motors	5 KW to 8000 KW
7. High Pressure boilers	for turbosets of 60, 110, 120 and 200 MW.
8. High Pressure Valves and fittings	from pressure rating of 150 lbs. to 2500 lbs.
9. Industrial and Recovery Boilers.	from 6 tonnes per hour to 300 tonnes per hour
10. Power Transformers.	upto 220 KV
11. Circuit breakers and other control equipment.	Up to 220 KV

In addition, HEL/BHEL manufacture and supply industrial and traction motors, traction generators, flame proof motors, marine turbines, compressors for chemical and fertilizer plants, turbo blowers for steel plants.

(c) Targets for the more significant of these items are being worked out.

उत्तर प्रदेश में बिजली की कमी के कारण मजदूरों की छंटनी

6885. श्री महा दीपक सिंह शास्त्री : क्या श्रम और पुनर्वास मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या सरकार का ध्यान 7 मार्च, 1973 के दैनिक "जागरण", में छपे समाचार की ओर दिलाया गया है कि जिसमें उत्तर प्रदेश में बिजली की कमी के कारण 50 हजार मजदूरों की छंटनी पर चिन्ता व्यक्त की गई है ; और

(ख) यदि हां, तो सरकार का विचार क्या कार्यवाही करने का है जिससे उनकी छंटनी रोकी जा सके ?

श्रम और पुनर्वास मंत्रालय में उप-मंत्री (श्री जी० बेंकटस्वामी): (क) और (ख). जी हां। कई अन्य राज्य भी हाल के विद्युत् संकट से प्रभावित हुये हैं। सरकार व्यवहार्य सीमा तक सहायता प्रदान करने की व्यवस्था करने के लिए सभी सम्भव कार्य-वाहियां कर रही है।

Recognition of Bangladesh by Pakistan

6886. SHRI DHARAMRAO AFZALPURKAR: Will the Minister of EXTERNAL AFFAIRS be pleased to state:

(a) whether any indication from Pakistan has been given for the recognition of Bangladesh after the recent elections held in Bangladesh; and

(b) if so, the nature thereof?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS

SHRI SURENDRA PAL SINGH:

(a) No, Sir.

(b) Does not arise.

Kuwait National Assembly Resolution for release of Pakistani P.O.Ws.

6887. **SHRI K. LAKKAPPA:**

SHRI P. M. MEHTA:

Will the Minister of **EXTERNAL AFFAIRS** be pleased to state:

(a) whether the attention of Government has been drawn to the Kuwait National Assembly resolution dated the 13th March, 1973 asking India to release immediately the Pakistan Prisoners it has held since the December, 1971 War; and

(b) if so, the reaction of Government thereto?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH):
(a) Yes, Sir.

(b) The Government of India are unhappy that the Resolution has ignored the basic facts that these Prisoners of War surrendered to the Joint Command of India and Bangladesh, that Bangladesh is therefore a necessary party to any discussions on this matter, and that it is the non-recognition of Bangladesh by Pakistan which is holding up such discussions. Government have also noted with sorrow that the Resolution makes no reference to the much larger number of Bengalis being held in Pakistan in miserable conditions.

Pakistan not keen for resumption of Air Flights between India and Pakistan

6888. **SHRI K. LAKKAPPA:**

SHRI P. M. MEHTA:

Will the Minister of **EXTERNAL AFFAIRS** be pleased to state:

(a) whether Pakistan has not shown keenness to resume the air flights which were suspended earlier; and

(b) whether after Simla Agreement it had informed the Indian Government of its intention of withdrawing the case from the ICAO?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH):
(a) and (b). In response to Government's initiative, the Pakistan Government had earlier communicated their willingness to hold bilateral negotiations on the over-flights question with the Government of India, while the consideration of their respective complaints before the ICAO remained suspended. These negotiations have, however, not taken place so far. Recently, Pakistan Government have also intimated that discussions on this matter may have to await resolution of other bilateral problems.

Medical benefits to Workers under E.S.I.

6889. **SHRI SHASHI BHUSHAN:**
DR. RANEN SEN:

Will the Minister of **LABOUR AND REHABILITATION** be pleased to state:

(a) whether Government have been considering a proposal to increase expenditure on medical benefits to workers under the Employees' State Insurance Scheme; and

(b) if so, the particulars thereof, the decision taken in this respect and the date from which the increased benefits would be given to the workers?

THE DEPUTY MINISTER IN THE MINISTRY OF LABOUR AND REHABILITATION (SHRI G. VENKATSWAMY): The Employees' State Insurance Corporation has furnished the following information:—

(a) and (b). The Employees' State Insurance Corporation has in its meeting held on the 17th March, 1973 decided to raise the ceiling on expenditure on medical care under the E. S. I. Scheme, as per details given below:—

1. Restricted Medical care:

From Rs. 56 to Rs. 63 per annum per employee.

2. Expanded medical care:

From Rs. 60 to Rs. 67 per annum per employee.

3. Full medical care:

From Rs. 70 to Rs. 80 per annum per employee.

The Corporation has also decided that expenditure on drugs, dressings and medicines in excess of Rs. 30 but not exceeding Rs. 45 per employee per annum shall be allowed over and above the above ceilings. This expenditure will also be shared between the State Governments and the Corporation in the usual ratio.

The revised ceilings on expenditure are effective from 1st April, 1973.

Steel requirement of Gujarat State

6890. SHRI ARVIND M. PATEL: Will the Minister of STEEL AND MINES be pleased to state:

(a) whether Gujarat Government has sent their requirement of steel for the year 1973-74; and

(b) if so, the quantum thereof?

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUBODH HANSDA): (a) and (b). Since there is no state-wise allocation of steel under the present system of distribution, the question of the State Government sending their annual requirement of steel for the year 1973-74 does not arise. Despatches of steel from the main steel plants are, however, regulated every quarter by the Steel Priority Committee after taking into account the end uses, availability and the competing demands.

Potential of Birla Institute of Technology in field of rocketry and Missiles

6891. SHRI S. N. MISRA:
SHRI BIRENDER SINGH RAO:

Will the Minister of DEFENCE be pleased to state:

(a) whether a Committee has since been appointed by the Scientific Adviser

to the Defence Ministry to assess the potential of the Birla Institute of Technology in the field of rocketry and missile;

(b) if so, whether the Committee has also submitted its report to the Government; and

(c) the recommendations made by the Committee in the report and the reaction of Government thereto?

THE MINISTER OF STATE (DEFENCE PRODUCTION) IN THE MINISTRY OF DEFENCE (SHRI VIDYA CHARAN SHUKLA) (a) and (b). Yes, Sir.

(c) The recommendations of the Committee appointed by the Scientific Adviser to Raksha Mantri were as follows:—

- (i) The potential developed by the Birla Institute of Technology in the field of rocket propulsion could be utilised for the benefit of missile activity in the Defence Research & Development Organisation. The Institute may be allotted some research and development tasks/grants-in-aid schemes in the field of propellants and propulsion systems;
- (ii) The research potential and the expertise available in the Department of Electrical and Control Engineering in the Birla Institute of Technology could also be exploited for the benefit of Defence Research and Development Organisation.
- (iii) Defence Research and Development Organisation may also avail of the academic potential in the Institute for training a few of our scientists.
- (iv) Birla Institute of Technology may be included in the list of institutions which might be considered for establishing teaching facilities in rocketry and missile parallel to those available at the Indian Institute of Science, Bangalore.

The above recommendations were considered and after detailed examination, it

has been decided to allot a grants-in-aid project to the Birla Institute of Technology so that they could further build up the base in the field of rocket propulsion. Birla Institute of Technology has already submitted some other projects on the lines suggested by the Committee which are now under scrutiny. As regards training of Defence Research and Development Organisation scientists in the Birla Institute of Technology, it was considered that the courses as at present planned did not meet the requirements in full. As a result of discussions, certain changes in the syllabi are being effected by the Birla Institute of Technology. The position will be reviewed next year.

Covering of Nagpur Cloth House, Patna under E. P. F. Act

6893. SHRI RAMAVATAR SHASTRI:
SHRI K. M. MADHUKAR:

Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) whether M/s. Nagpur Cloth House, Patna have been covered under the E. P. F. Act and the Scheme framed thereunder but the compliance has not yet been secured; and

★ (b) if so, the reasons thereof?

THE DEPUTY MINISTER IN THE MINISTRY OF LABOUR AND REHABILITATION (SHRI G. VENKAT-SWAMY): The Provident Fund Authorities have intimated as under:—

(a) Yes.

(b) The Inspection Staff visited the establishment but the employer failed to produce the full records before them. The liability on account of Provident Fund contributions was however, determined but as the details of the amount in respect of each eligible employee were not available, the proceedings under Section 7A of the Act could not be held. On receipt of the above details assessment under Section 7A will be made and legal action initiated.

Covering of M/s. Azad Transport Agency, Patna under the E. P. F. Act

6894. SHRI RAMAVATAR SHASTRI:
SHRI K. M. MADHUKAR:

Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) whether M/s. Azad Transport Agency, Patna has several branches throughout Bihar and the same have not yet been covered under the E. P. F. Act and the Scheme framed thereunder; and

(b) if so, the reasons thereof?

THE DEPUTY MINISTER IN THE MINISTRY OF LABOUR AND REHABILITATION (SHRI G. VENKAT-SWAMY): (a) and (b). The Provident Fund Authorities have intimated that the establishment could not be covered under the Employees' Provident Funds and Family Pension Fund Act, 1952 and the Employees' Provident Funds Scheme as the Management did not produce the relevant records before the Provident Fund Inspector who visited it to examine the applicability of the Act. Legal action will be initiated against the Management for non-production of records if they fail to produce the records by 12th April, 1973.

Covering of M/s. Dudhwala Brothers, Muzaffarpur under the E.P.F. Act

6895. SHRI RAMAVATAR SHASTRI:
SHRI K. M. MADHUKAR:

Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) whether M/s. Dudhwala Brothers of Muzaffarpur have not yet been covered under the E. P. F. Act and the Scheme framed thereunder; and

(b) if so, the reasons thereof?

THE DEPUTY MINISTER IN THE MINISTRY OF LABOUR AND REHABILITATION (SHRI G. VENKAT-SWAMY): (a) and (b). The Provident Fund Authorities have intimated that M/s. Dudhwala Brothers of Muzaffarpur have not been covered under the Em-

ployees' Provident Funds and Family Pension Fund Act, 1952 as each of its four separate factories is employing less than 20 persons.

अमरीका के साथ संबंधों में सामान्यता लाना

6896. श्री एम० एस० पुरती :

श्री राज राज सिंह देव :

क्या विदेश मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या अमरीका द्वारा पाकिस्तान को शस्त्रास्त्र देने की नीति का अनुसरण किये जाने के बावजूद, सरकार अभी भी अमरीका के साथ सम्बन्धों में सामान्यता लाने का कोई प्रयास कर रही है; और

(ख) क्या भारत सरकार को अपनी नीति में मूलभूत परिवर्तन लाने के लिये अमरीका से कोई प्रस्ताव प्राप्त हुआ है और यदि हां, तो उसका स्वरूप क्या है और सरकार की उस पर क्या प्रतिक्रिया है ?

विदेश मंत्रालय में राज्य मंत्री (श्री सुरेन्द्र पाल सिंह) : (क) सरकार की यह नीति है कि सभी देशों से सामान्य सम्बन्ध बने रहें। भारत-अमरीकी सम्बन्धों के बारे

केन्द्रीय श्रमिक संगठन/संघ

में भी हमारा यही उद्देश्य है। लेकिन यह सही है कि पाकिस्तान को अमरीका द्वारा शस्त्रों की सप्लाई शुरू करने से भारत-अमरीकी सम्बन्धों पर प्रतिकूल प्रभाव पड़ेगा।

(ख) जी नहीं।

सम्बद्ध यूनियनों द्वारा की जाने वाली हड़ताल

6897. श्री शिव कुमार शास्त्री :

श्री सुखदेव प्रसाद वर्मा :

क्या श्रम और पुनर्वास मंत्री यह बताने की कृपा करेंगे कि वर्ष 1972 से फरवरी, 1973 तक की अवधि के दौरान यूनियनों द्वारा की गई हड़तालों का ब्यौरा क्या है ?

श्रम और पुनर्वास मंत्रालय में उप-मंत्री (श्री जी० वेंकटस्वामी) : उपलब्ध अन्तिम सूचनानुसार, केन्द्रीय श्रमिक संगठन/असम्बद्ध संघों आदि द्वारा 1972 के दौरान की गई हड़तालों की संख्या और इनके कारण न-ट हुये श्रम दिनों की संख्या निम्न प्रकार थी : -

	हड़तालों की संख्या 1972 (अन्तिम)	नष्ट हुए श्रम दिनों की संख्या 1972 (अन्तिम)
राष्ट्रीय मजदूर कांग्रेस	297	934,857
अखिल भारत ट्रेड यूनियन कांग्रेस	249	831,752
हिन्दू मजदूर सभा	120	1,401,078
संयुक्त ट्रेड यूनियन कांग्रेस	10	52,329
विविध संघ	56	1,702,366
असम्बद्ध और अन्य†	1,798	6,871,971
जोड़	2,530	11,794,353

† 'अन्य' उन हड़तालों से सम्बन्धित हैं, जिसकी शुरुआत किसी संघ द्वारा नहीं हुई या जिनके बारे में यह मालूम नहीं था कि वह किस संगठन से सम्बद्ध है।

Import of Supplies

6898. SHRI S. C. SAMANTA: Will the Minister of SUPPLY be pleased to refer to the reply given to Unstarred Question No. 3467 on the 15th March, 1973 regarding scheme to make purchases of Indian goods, and state:

(a) the items of import in the financial year 1972-73 and 1973-74; and

(b) the amounts or foreign exchange needed in these years for import purposes in respect of various supply items?

THE MINISTER OF SUPPLY (SHRI SHAHNAWAZ KHAN): (a) and (b). The items of import and the value thereof made during the financial year 1972-73 (upto December, 1972) are given in the statement laid on the Table of the House. [Placed in Library. See No. LT-4790/73]. The total value of imports upto December, 1972 works out to approximately Rs. 216.67 crores and includes besides the value of the stores, certain elements such as agency commission, customs duty, inland and port clearing charges which are not paid in foreign currencies.

It is not possible to give an idea of the items of import and the foreign exchange requirements for the year 1973-74 as these will depend upon the indents placed by the various indentors.

Supply of U.S. Arms to Pakistan

6899. SHRI SAMAR GUHA: Will the Minister of DEFENCE be pleased to state:

(a) whether U.S. spare parts and other "non-lethal" supplies to Pakistan will be utilised by the latter to re-activate latter's idle defensive and offensive arms; and

(b) if so, the details about the tanks, military aircraft and other equipments likely to be re-activated by Pakistan?

THE MINISTER OF DEFENCE (SHRI JAGJIVAN RAM): (a) and (b). The spare parts and other arms supplies to be made by the U.S.A. could be utilised by Pakistan to re-equip and improve her defensive and offensive potential. It is not possible to give more details.

Protection to Staff and Workers in the New Management of Coal Mines

6900. SHRI SAMAR GUHA: Will the Minister of STEEL AND MINES be pleased to state:

(a) whether the staff and workers of the coal mines have been absorbed and their salaries and other due benefits have been protected under the new managements;

(b) whether assets, properties and accounts of the mines taken over by the Government have been properly handed over to the new managements;

(c) whether schemes have been evolved for involvement of the staff and workers of the coal mines in the management and other functions of the coal mines; and

(d) other features thereabout?

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUBODH HANSDA): (a) Yes, Sir, in so far as the workers are concerned. As regards the staff, they will be fixed in the appropriate scales after due screening, taking into consideration factors like qualifications, experience, record of service etc.

(b) At the time of take over, all assets, properties and records available at the mines were taken over by the Custodians under a joint inventory signed by the existing Managers.

(c) and (d). Instructions have been issued to all Officers managing the coal mines to take the Trade Unions into confidence in regard to all measures of activities in the field so that their full support is available not only during the takeover operations but in the subsequent steps to be taken.

Return of Bangladesh Refugees

6901. SHRI SAMAR GUHA: Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) whether all the refugees who took shelters in India from Bangladesh before and during the last Indo-Pak war have gone back to their homeland;

(b) whether any section of them still remained in India;

(c) whether any other section returned back to India from Bangladesh; if so, the particulars thereof; and

(d) the steps taken by Government to settle all the outstanding problems of their rehabilitation?

THE MINISTER OF LABOUR AND REHABILITATION (SHRI RAGHUNATHA REDDY): (a) and (b). The total number of Bangladesh refugees who came over to India after 25th March, 1971 was 98.99 lakhs. 67.97 lakhs sought admission into camps and the remaining were residing outside with their friends and relatives. All the camp refugees, except 540 persons, have since been repatriated to Bangladesh. These 540 persons will also be sent back to their country as soon as possible.

As regards the non-camp refugees i.e. those who were staying with their friends and relatives, most of them are reported to have returned to Bangladesh on their own. Isolated cases, as and when detected, are dealt with by the State Governments concerned in accordance with the provisions of Foreigners' Act, 1946.

(c) and (d). 7547 families comprising about 38,000 persons have returned to India up to 17th March, 1973. On screening it has been found that most of these families had come to India before the commencement of the internal strife in the erstwhile East Pakistan, but had deserted from Camps/rehabilitation sites in India in the wake of liberation of Bangladesh. After verification such families are being moved to Mana and being given shelter and cash doles for their maintenance. Blankets, utensils and clothings are also being issued in deserving cases. Rehabilitation assistance will be given to them in due course.

Scheme to reorient Retiring Commissioned Officers to needs of Civilian Life

6902. SHRI SHRIKISHAN MODI:
SHRI P. M. MEHTA:

Will the Minister of DEFENCE be pleased to state:

(a) whether Directorate General of Re-settlement of his Ministry has launched a

scheme to reorient retiring Commissioned Officers to the needs of civilian life; and

(b) if so, the salient features of the scheme?

THE DEPUTY MINISTER IN THE MINISTRY OF DEFENCE (SHRI J. B. PATNAIK): (a) Yes, Sir.

(b) The scheme consists of running various courses on business management, industrial management, marketing management labour and company law, etc. These courses are expected to enhance employability prospects of retiring Commissioned officers in public and private sectors after their release from the Armed Forces. Some of these would also increase their prospects of self-employment after retirement. All these courses are of short duration and training is restricted to volunteers. Officers attend the courses after office hours or during their leave period.

A sum of Rs. 40,000 is earmarked annually from the Defence Services Estimates for running these courses. During the last two years, 21 such courses were conducted and 579 officers availed themselves of the facility.

Indian Territory vacated by Pakistan and Pakistan Territory vacated by India

6903. SHRI SAMAR GUHA: Will the Minister of EXTERNAL AFFAIRS be pleased to refer to the reply given to Starred Question No. 46 on the 22nd February, 1973 regarding the Indian Territory vacated by Pakistan and Pakistan Territory vacated by India and state:

(a) whether any part of the territory vacated by India was under occupation of India as a part of the Indian Union before the beginning of the 1971 Indo-Pak war and whether any part of the territory vacated by Pakistan during the same period was under occupation of Pakistan;

(b) if so, the name, location and areas of the territories either ceded to Pakistan or acceded to India;

(c) whether such 'giving' or 'taking' of territories to or from Pakistan are per-

missible under the provision of the Indian Constitution without concurrence of the Parliament; and

(d) if so, the reasons therefor?

THE MINISTER OF EXTERNAL AFFAIRS (SHRI SWARAN SINGH): (a) Along the international border troop withdrawals were effected from territories occupied during the 1971 conflict. However in Jammu & Kashmir a Line of Control in terms of the Simla Agreement was delineated by agreement between the two sides, by minor adjustment of their conflicting claims. This has already been explained in my earlier statements in the House.

(b) to (d). Do not arise.

Tribal and Displaced Persons settled by Dandakaranya Project

6904. **SHRI K. PRADHANI:** Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) whether displaced persons and local tribals were settled on the land reclaimed by Dandakaranya Authorities and Government of India spent money for the rehabilitation of both the groups; if so, the reasons weighing with Government to hand-over the rehabilitation work of tribals to the State Government of Orissa and Madhya Pradesh keeping the other work with them;

(b) whether any distinct difference is noticed in the living standard of these two groups after their settlement; and

(c) if so, whether Government proposed to take up some special steps for the improvement of these tribal settlers?

THE MINISTER OF LABOUR AND REHABILITATION (SHRI RAGHU-NATHA REDDY): (a) The expenditure on resettlement of displaced persons and tribal families resettled in Dandakaranya Project is met by the Government of India. The displaced persons are granted loans for resettlement. The tribals are given outright grants for settlement through the State Governments of Madhya Pradesh

and Orissa. According to the understanding between the Centre and the two State Governments, the schemes for the settlement of tribals are executed by the respective State Governments. On the suggestion of the Government of Madhya Pradesh, the Dandakaranya Development Authority have, however, undertaken to settle 300 tribal families in the Parelkote Zone through its own agency.

(b) No survey has been conducted by the Dandakaranya Project Administration to ascertain the difference in living standard of settlers and tribals settled in the Dandakaranya Project area.

(c) There is no such proposal under consideration of the Dandakaranya Project.

Scheme proposed for Tribal and Displaced persons settled in Dandakaranya

6905. **SHRI K. PRADHANI:** Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) whether Dandakaranya Authorities have completed all the schemes they had proposed to take up for the interest of the displaced and local tribal settlers;

(b) if not, the schemes left over for completion; and

(c) when they are going to take up those schemes?

THE MINISTER OF LABOUR AND REHABILITATION (SHRI RAGHU-NATHA REDDY): (a) to (c). The schemes for resettlement of displaced persons, tribals and area development broadly comprise of development of land, setting up of villages, provision of irrigation, water supply, educational and medical facilities and construction of roads, etc. The programme for the execution of these schemes is drawn up on an year to year basis and implemented according to availability of land and other resources. The rehabilitation programme is a continuous process and the schemes not completed as per programme are generally taken up for execution during the next programme year.

Payment of Compensation and Employment of Tribals Displaced by MIG Factory at Sunabeda

6906. SHRI K. PRADHANI: Will the Minister of DEFENCE be pleased to state:

(a) whether all the tribals who were displaced by the establishment of MIG Factory at Sunabeda have been paid compensation fully;

(b) whether any of them have been employed in the factory; and

(c) if so, what is their number and in which class of service have they been employed?

THE MINISTER OF STATE (DEFENCE PRODUCTION) IN THE MINISTRY OF DEFENCE (SHRI VIDYA CHARAN SHUKLA): (a) Land for the MIG Factory at Sunabeda was acquired by the Government of Orissa and given to the Government of India free of cost. Compensation to the displaced tribals was to be paid by the State Government.

(b) Yes, Sir.

(c) 25 Scheduled Castes and 9 Scheduled Tribes candidates from area have been appointed in the Factory in Group 'A' in the scale of Rs. 100-4-140.

मध्य प्रदेश में कारखानों के मालिकों द्वारा कर्मचारी भविष्य निधि की राशि जमान कराया जाना

6907. डा० लक्ष्मीनारायण पांडेय : क्या भ्रम और पुनर्वासि मंत्री यह बताने की कृपा करेंगे कि :

(क) कारखाने, भविष्य निधि की राशि के अपने अंशदान को वित्त वर्ष के समाप्त होने के पश्चात कब तक जमा करा सकते हैं ;

(ख) क्या मध्य प्रदेश के विनोद मील, उज्जैन, जाबरा शूगर मील, जाबरा, तथा गोविन्दराम मोदी शूगर मील, मादिदपुर ने भविष्य निधि के अपने हिस्से को निर्धारित

समय के भीतर जमा नहीं कराया है और उक्त राशि को दो वर्ष पश्चात भ्रमिकों के भविष्य निधि के खातों में जमा करा दिया गया है; और

(ग) यदि हां, तो इस बारे में सरकार द्वारा क्या उपाय किये गये हैं ?

भ्रम और पुनर्वासि मंत्रालय में उप-मंत्री (श्री जी० बैकटस्वामी) : (क) कर्मचारी भविष्य निधि योजना, 1952 के उपबन्धों के अन्तर्गत, नियोजकों को भविष्य निधि अंशदानों के दोनों भाग (नियोजकों के और कर्मचारियों के भाग), प्रशासनिक प्रभारों सहित, प्रत्येक मास की समाप्ति के 15 दिन के अन्दर अन्दर कर्मचारी भविष्य निधि में जमा कराने पड़ते हैं ।

(ख) और (ग). सूचना भविष्य निधि प्राधिकारियों द्वारा एकत्र की जा रही है । वह यथा-समय सभा की मेज पर रख दी जायेगी ।

मध्य प्रदेश में इस्पात रोलिंग मिल्स

6908. डा० लक्ष्मी नारायण पांडेय : क्या इस्पात और खान मंत्री यह बताने की कृपा करेंगे कि :

(क) मध्य प्रदेश में इस्पात रोलिंग मिल्स की कुल संख्या कितनी है और वे कहाँ कहाँ पर स्थित हैं ;

(ख) उनकी वार्षिक उत्पादन क्षमता कितनी है ; और

(ग) सहायता और ऋण के रूप में सरकार द्वारा कितनी सहायता दी गई है ?

इस्पात और खान मंत्रालय में उप-मंत्री (श्री सुबोध हुंसवा) : (क) से (ग). जानकारी प्राप्त की जा रही है और सभा पदस पर रख दी जायेगी ।

Demand for increase in price of Indigenous Zinc

6909. SHRI M. RAM GOPAL REDDY: Will the Minister of STEEL AND MINES be pleased to state:

(a) whether Cominco Birani has sought price rise of indigenous Zinc; and

(b) if so, the reasons advanced for the price rise and the decision of Government thereon?

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUKHDEV PRASAD): (a) Yes, Sir.

(b) M/s. Cominco Binani Zinc Ltd. have represented that the selling price of Rs. 4090 per tonne of zinc (exclusive of excise and regulatory excise) fixed by the Government is unremunerative and needs revision. The matter is under consideration and a decision is likely to be taken shortly.

Recruitment Rules for Instructional Staff of Technical Training Centre

6910. SHRI B. K. DASCHOWDHURY: Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) whether the recruitment rules for the post of Instructional Staff of Technical Training Centre has been framed, if so, when;

(b) the number of persons declared Quasi-Permanent as Instructional staff of T.T.C., alongwith their qualifications and experience individually; and

(c) whether certain Instructional staff of T.T.C. have been denied their Quasi-Permanent status for want of recruitment rules in February 1973; if so, the reasons for this discrimination?

THE MINISTER OF LABOUR AND REHABILITATION (SHRI RAGHU-NATHA REDDY): (a) The recruitment rules are under consideration.

(b) and (c). The information is being collected and will be laid on the Table of the Sabha.

Posting of Staff in Kendry Camp

6911. SHRI B. K. DASCHOWDHURY: Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) whether the earlier Deputy Minister of Rehabilitation assured that the staff who have already been transferred for two to three times from one camp to another will not be transferred; and

(b) if so, whether this assurance has been followed at the time of posting of staff at medical wing in Kendry Camp; if not, the reasons therefor?

THE MINISTER OF LABOUR AND REHABILITATION (SHRI RAGHU-NATHA REDDY): (a) This Department is not aware of Shri Balgovind Verma, former Deputy Minister of Rehabilitation having given any assurance during the visit to Mana that the staff who have already been transferred for two to three times from one camp to another will not be transferred further.

(b) Does not arise.

Mana Group of Camp Employees

6912. SHRI B. K. DASCHOWDHURY: Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) whether all the employees including Drivers and Primary Teachers working in Mana Group of Camps are Central Government Employees; and

(b) if so, whether they are being paid Central scales of pay and allowances including Interim Relief; if not, the reasons therefor?

THE MINISTER OF LABOUR AND REHABILITATION (SHRI RAGHU-NATHA REDDY): (a) Yes, Sir.

(b) With the exception of Principal, Lecturers, Graduate Teachers of Higher Secondary Schools, Assistant Teachers of Middle Schools and Primary School Teachers, who are on the scales of pay of the Government of Madhya Pradesh, all other employees working in the Mana Group of Camps are on Central Government scales of pay and allowances. They,

however, receive allowances including interim relief at Central Government rates excepting the Primary School teachers who receive allowances also at State Government rates. The State Government scales of pay have been introduced with a view to facilitating transfer of schools with staff to the State Government on closure of the camp.

Setting up of Auto Industries in Gujarat

6913. SHRI D. P. JADEJA: Will the Minister of HEAVY INDUSTRY be pleased to state:

(a) whether Government are aware of the fact that Gujarat is suffering for not having any public sector 'Auto Industries';

(b) if so, whether Government have any plan to set up such industry; and

(c) if so, the salient features thereof?

THE DEPUTY MINISTER IN THE MINISTRY OF HEAVY INDUSTRY (SHRI SIDDHESHWAR PRASAD):

(a) It is a fact that there is no public sector plant for automobiles in Gujarat. Government of India is not aware of any suffering as a result. M/s. Gujarat Small Industries Corporation have, however, recently been licensed to set up a plant for the manufacture of sectors with a capacity of 24,000 nos. per annum.

(b) Does not arise.

(c) Does not arise.

Jobs to Disabled Ex-Servicemen

6914. SHRI D. P. JADEJA: Will the Minister of DEFENCE be pleased to state the number of persons benefited during the year 1972 by the measures adopted for providing jobs to disabled ex-servicemen?

THE DEPUTY MINISTER IN THE MINISTRY OF DEFENCE (SHRI J. B. PATNAIK): 276 disabled ex-servicemen were provided jobs during 1972. Besides, 3 disabled ex-servicemen were allotted kiosks in Delhi and 162 such personnel were allotted Indian Oil Corporation agencies in the field of self-employment.

Mining Lease of Sargipalli, Orissa

6915. SHRI P. GANGADEB: Will the Minister of STEEL AND MINES be pleased to state:

(a) whether mining lease of Sargipalli lead ore deposit in Orissa will be given to the proposed Corporation as stipulated; and

(b) the progress made so far in the matter?

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUBODH HANSDA):

(a) and (b). Yes, Sir. Approval of the Central Government to the grant of Mining Lease to M/s. Hindustan Zinc Ltd. for lead, zinc and other associated minerals is Sargipalli village of Orissa was conveyed to the Government of Orissa on 5th April, 1973.

Improvement in Quality of Coking Coal and Coke Washery Facilities

6916. SHRI P. GANGADEB: Will the Minister of STEEL AND MINES be pleased to state:

(a) the latest measures proposed to improve the quality of coking coal and expansion of coal washery facilities; and

(b) whether inferior standard of coking coal and coal washery facilities have proved an impediment to production in the integrated steel plants?

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUBODH HANSDA):

(a) Latest measures proposed to improve quality of coking coal and expansion of the coal washery facilities are:

(i) Gearing up the existing washeries to increase production of washed coal;

(ii) new washery capacities are proposed to be developed to match the estimated coal demand;

(iii) efforts are being made to intensify beneficiation at the colliery point by manual picking of impurities.

(b) Inferior quality coal is definitely a constraint in maintaining the technical efficiency of coke ovens and blast furnaces. However, we try to wash the coal available in the country to make it useable for the steel plants. The shortage of washery facilities has not so far proved a serious impediment to production in steel plants.

Honour to Indians for Role in Indonesian Independence Struggle

6917. SHRI GIRIDHAR GOMANGO:
SHRI PRABHUDAS PATEL:

Will the Minister of EXTERNAL AFFAIRS be pleased to state:

(a) whether Indonesian Government have conveyed to India to honour several Indians who played a leading role during the independence struggle of Indonesia; and

(b) if so, the number of Indians honoured?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH): (a) and (b). The Government of Indonesia has awarded Letters of Appreciation to three Indians for their service to the cause of Indonesian independence.

Self-reliance in Production of Military Aircraft

6918. DR. RANEN SEN: Will the Minister of DEFENCE be pleased to state:

(a) the steps taken by Government to achieve self-reliance in the production of military aircraft in India; and

(b) when the country is expected to be self-reliant in this respect?

THE MINISTER OF STATE (DEFENCE PRODUCTION) IN THE MINISTRY OF DEFENCE (SHRI VIDYA CHARAN SHUKLA): (a) Different types of military aircraft, helicopters and associated equipment are at present being produced by HAL for meeting the re-

quirements of Defence. These include aircraft designed and developed indigenously, as well as those produced under licence. At present most of the raw material and proprietary equipment are being imported, but coordinated efforts are being made to achieve maximum self-reliance by establishing indigenous production of as many items as possible. Steps are also being taken to build up and expand indigenous design and development capability for taking up advanced aircraft and helicopter projects for meeting future requirements.

(b) Complete self-reliance in production of military aircraft is difficult to achieve in the foreseeable future, but every effort is being made to achieve maximum indigenisation.

Military and Naval Bases by Anglo-American Powers in Indian Ocean

6919. DR. RANEN SEN: Will the Minister of DEFENCE be pleased to state:

(a) whether the Anglo-American powers are going ahead with the construction of military and naval bases in Indian Ocean islands despite India's concern over the establishment of such bases in the Indian Ocean area; and

(b) if so, whether Government propose to take the initiative in organising a joint move by the countries of the Indian Ocean region against the establishment of military and naval bases in the Indian Ocean Islands?

THE MINISTER OF DEFENCE (SHRI JAGJIVAN RAM): (a) and (b). In 1967, Britain and USA entered into an agreement to set up naval, air and communication facilities in the British territories in the Indian Ocean, India and several Afro-Asian countries are opposed to the use of the Indian Ocean for such purposes. India protested against the Anglo-American activities in November, 1970. Efforts are in progress at international level and under the auspices of the U.N. to achieve a consensus on our plea to keep the Indian Ocean free of such bases.

Activities of International Control Commission for Indo-China

6920. DR. RANEN SEN: Will the Minister of EXTERNAL AFFAIRS be pleased to state the present activity of the International Control Commission for Indo-China set up by the Geneva Conference?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH): The Geneva Conference had set up three International Commissions for Supervision and Control for Vietnam, Laos and Cambodia.

The ICSC for Cambodia was adjourned *sine die* on 31st December, 1969.

The ICSC for Vietnam was adjourned *sine die* on 13th March, 1973.

The ICSC for Laos continues to function.

Expert Committee for Expansion of Durgapur and Rourkela Steel Plants

6921. DR. RANEN SEN: Will the Minister of STEEL AND MINES be pleased to state:

(a) whether an Expert Committee has been examining the different aspects of expansion of the steel plants in Durgapur and Rourkela;

(b) if so, what are their recommendations; and

(c) what is the decision of the Government on these recommendations?

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUBODH HANSDA): (a) Metallurgical and Engineering Consultants India Limited, formerly known as the Central Engineering and Design Bureau of HSL, have been commissioned to study the feasibility of further expansion of both Durgapur and Rourkela

(b) The studies are yet to be completed.

(c) Does not arise.

Political Isolation of India in South-East Asia

6922. SHRI DEVINDER SINGH GARCHA: Will the Minister of EXTERNAL AFFAIRS be pleased to state:

(a) whether India is fast losing its image in South-east Asia due to political isolation in this region; and

(b) if so, the steps that are being taken diplomatically or otherwise to improve the situation in this context?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH): (a) No, Sir. India has friendly relations and mutually beneficial co-operation with the countries in South-east Asia.

(b) Does not arise.

Take over of M/s. Martin Burn and Co. Stock-yard at Calcutta

6923. SHRI INDRAJIT GUPTA: Will the Minister of STEEL AND MINES be pleased to state:

(a) whether the Calcutta stock-yard of M/s. Martin Burn & Co., has been taken over by Government along with the take-over of IISCO;

(b) if not, what are the arrangements made for operating the stock-yard; and

(c) whether the workers employed in the stock-yard under contractors have now been regularised with security of service?

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUBODH HANSDA): (a) and (b). IISCO have given notice to Martin Burn & Co. that they will be terminating their stockyard arrangements with Martin Burn with effect from the 1st July, 1973. IISCO are arranging to set up their own stock-yard in Calcutta from 1st May, 1973.

(c) The workers employed in Martin Burn stock-yard are employed by a contractor for Martin Burn. IISCO have no direct connection with these workers. However, an understanding has been arrived at with the union representing these workers that they will be employed in HSCO's stock-yard to the maximum extent possible when it starts functioning.

News Item Captioned 'Coal Supply may be Government Monopoly'

6924. SHRI INDRAJIT GUPTA: Will the Minister of STEEL AND MINES be pleased to state:

(a) whether the attention of Government has been drawn to the write up in *Hindustan Standard* dated the 20th March, 1973 captioned "coal supply may be Government monopoly"; and

(b) if so, the reaction of Government thereto?

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUBODH HANSDA):

(a) Yes, Sir.

(b) In the write up, it has been mentioned that the Government may be the monopoly supplier of coal under a new system of distribution that is being worked out by the centre in collaboration with the States. The immediate object has been given as to meet the situation arising out of the price rise and shortfall in supply following the take over of the coalmine. It has also been reported that all quotas whether Central or State would be frozen and no permits from April onward will be issued by the sponsoring authorities and that the Director of Industries and Civil Supplies would sponsor coal movements in block rakes to selected points where dumps will be formed from which all consumers including large industrial consumers would be asked to draw their supplies. The difficulties which the large consumers would face if they are compelled to make the dumps their only source of supply, have also been highlighted.

2. The scheme which is at present under consideration of the Government envisages opening of coal dumps at important locations for meeting the requirements of small scale industries, brick kilns and for domestic consumption only. Under it, coal would move in full rakes to selected destinations in the different states and from there coal will be distributed to small consumers either directly by the State Government/Union Territories themselves or through their agents, having re-

gard to the coal circumstances. Once this scheme is introduced the system of sponsoring in the present form, may be discontinued in respect of coal required by small scale industries, brick kilns and domestic consumers. The scheme will not disturb the existing arrangements for the supply of coal to major consumers, who are already taking coal in block rakes.

Committee of Chiefs of Armed Forces for Coordinating and directing the activities of Armed Forces

6925. SHRI INDRAJIT GUPTA: Will the Minister of DEFENCE be pleased to state:

(a) whether the Committee of the Chiefs of Staff of the three wings of the armed services which functioned effectively during the Indo-Pak War of December, 1971 is to continue as a permanent Organisation set up for coordinating and directing the activities of the armed forces; and

(b) if so, whether Government have laid down any guideline for the functioning of the Committee and for the selection of its Chairman?

THE MINISTER OF DEFENCE (SHRI JAGJIVAN RAM): (a) and (b). The Chiefs of Staff Committee is a permanent organisation whose constitution and functions were laid down by Government as early as 1947. The Committee consists of the three Service Chiefs as members and the chairmanship will be held by the member who has longest service in the Committee. The functions of the Committee are:—

(a) To function as the supreme co-ordinating agency in the Higher Defence organisation and to take a coordinated view on all matters affecting all the three Services.

(b) To advise the Defence Minister and normally through him the Political Affairs Committee of the Cabinet on all military matters which require ministerial consideration.

(c) To direct the day to day work of the Joint planning, Joint training and other sub-committees which function under this Committee.

Bulk Import of Steel urged by Engineering Association of India, Calcutta

6926. SHRI INDRAJIT GUPTA: Will the Minister of STEEL AND MINES be pleased to state:

(a) whether the Engineering Association of India, Calcutta has urged bulk import of steel up to 50 per cent of the requirements of 1.5 million tonnes; and

(b) if so, Government's decision thereon?

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUBODH HANSDA). (a) and (b). In a communication recently received from the Engineering Association of India, they have estimated that it would be necessary to import steel of various categories to the extent of 1.5 million tonnes every year. The Association has, *inter-alia* suggested that 50 per cent of this quantity, i.e., 750,000 tonnes (+ 10 per cent) should be imported in bulk by the canalising agencies.

While advance import of this magnitude is not considered feasible at this stage, some bulk imports in advance would be arranged by the steel bank set up by Hindustan Steel Ltd., which would enable priority users to obtain supplies ex-stock against valid import licences or release orders. Further, in the Import Trade Control Policy for 1973-74, actual users have to make direct applications to the licensing authorities by July 31, 1973, for the grant of release orders for canalised categories of steel against their specified entitlements. This will enable Hindustan Steel Ltd. as the canalising agency, to arrange for all these to be imported in bulk. In effect, therefore, the total bulk import programme of steel may be of about the same order as suggested by the Association.

List of Bengali Families for exchange with Families of P.O.Ws. and Civilians detained in India

6927. SHRI P. A. SAMINATHAN:
SHRI PRABHUDAS PATEL:

Will the Minister of EXTERNAL AFFAIRS be pleased to state:

(a) whether Pakistan has finally cleared a list of 15,000 Bengali Women and children whom they will be willing to exchange for all the Bengali women and children dependents of the P.O.Ws. and civilian detainees in India;

(b) if so, whether they have submitted the list to India; and

(c) when the final exchange of such persons is likely to take place?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH): (a) to (c). Government are aware of Pakistan having sent a list of nearly 15,000 persons of Bangladesh origin, mostly families of destitutes and non-officials, but also including some men, to the Bangladesh Government with a view to their eventual repatriation to Bangladesh. Bangladesh Government is understood to have sought some clarifications from Pakistan through the ICRC which had communicated this list directly to Bangladesh Government. The date for the exchange of the persons mentioned in the Pakistan list with the families of Pakistani POWs and civilian internees in India has not yet been fixed.

Escape of Pak P.O.Ws. from Fatehgarh Camp, U.P.

6928. SHRI P. A. SAMINATHAN:
SHRI MAHADEEPAK SINGH
SHAKYA:

Will the Minister of DEFENCE be pleased to state:

(a) whether some Pakistani Prisoner of war escaped on the 13th March, 1973 from the Fatehgarh Camp;

(b) if so, the number thereof; and

(c) the steps which are taken to prevent their escape?

THE MINISTER OF DEFENCE (SHRI JAGJIVAN RAM): (a) and (b). One Prisoner of War escaped from the Fatehgarh Camp on the 12th March, 1973; none escaped on 13th March, 1973.

(c) Adequate security measures have been taken in the Camps to prevent any escape.

Retirement Age of Armed Personnel

6929. SHRI RAGHUNANDAN LAL BHATIA: Will the Minister of DEFENCE be pleased to state the retirement age of the armed personnel of different ranks?

THE MINISTER OF DEFENCE (SHRI JAGJIVAN RAM): A statement is laid on the Table of the House. [Placed in Library. See No. LT-4791/73].

Tender Rates of Dressed Meat, Hoofed Meat, Potatoes and Green Vegetables in Bendoobi, Hashimara, Darjeeling, Kurseong and Gauhati Supply Centres

6930. SHRI MD. JAMILURRAHMAN: Will the Minister of DEFENCE be pleased to state:

(a) the lowest tender rate of dressed meat, Hoofed meat, Potatoes and green vegetables in Bendoobi, Hashimara, Darjeeling, Kurseong and Gauhati supply centres of Indian army during the years 1971-72 and 1972-73; and

(b) the rates of Tenders for these items accepted by Government and the reasons therefor?

THE MINISTER OF DEFENCE (SHRI JAGJIVAN RAM): (a) and (b). The information is being collected and will be placed on the Table of the Sabha.

Registered Contractor Co-operative Societies for supply of Meat, Vegetables and Edibles to Eastern Command

6931. SHRI MD. JAMILURRAHMAN: Will the Minister of DEFENCE be pleased to state:

(a) the total number of Private Contractors registered and co-operative Societies entrusted to supply meat, vegetable and other edibles in Eastern Command; and

(b) the particulars thereof?

THE MINISTER OF DEFENCE (SHRI JAGJIVAN RAM): (a) and (b). The information is being collected and will be placed on the Table of the Sabha.

241 LS.—4.

Disabled Army Men retrenched from Active Services

6932. SHRI MD. JAMILURRAHMAN: Will the Minister of DEFENCE be pleased to state the total number of disabled army men retrenched from active services in the year 1971-72?

THE MINISTER OF DEFENCE (SHRI JAGJIVAN RAM): The information is not readily available, it is being collected and will be laid on the Table of the House.

Rehabilitation in H. E. C., Ranchi after Communal Riots

6933. SHRI MD. JAMILURRAHMAN: Will the Minister of HEAVY INDUSTRY be pleased to state the total number of persons rehabilitated as yet in H. E. C., after communal riot in Ranchi (Bihar)?

THE DEPUTY MINISTER IN THE MINISTRY OF HEAVY INDUSTRY (SHRI SIDDHESHWAR PRASAD): Out of 687 employees of Heavy Engineering Corporation Ltd., who had quarters allotted in the township in 1967 at the time of communal disturbances, 502 employees had shifted to the two CTI Artisan Hostels. So far 395 employees living in the Artisan Hostels have been rehabilitated in the township. The others will be rehabilitated as and when more houses in the township are available.

विदेशों में भारतीय दूतावासों में रिक्त पदों का भरा जाना

6934. श्री धनशाह प्रधान : क्या विदेश मंत्री यह बताने की कृपा करेंगे कि :

(क) विदेशों में भारतीय दूतावासों में इस समय कितने पद रिक्त पड़े हैं और कब से ;

(ख) इन पदों के कब तक भरे जाने की सम्भावना है और इनके अब तक न भरे जाने के क्या कारण हैं ; और

(ग) कितने भारतीय दूतों को एक से अधिक देशों का काम सौंपा गया है ?

विदेश मंत्रालय में राज्य मंत्री (श्री सुरेन्द्र पाल सिंह) : (क) और (ख). सूचना एकत्र की जा रही है और सदन को मेज पर रख दी जायेगी।

(ग) पच्चीस।

Violation of Cease-Fire Line by Pakistan

6935. PROF. NARAIN CHAND
PARASHAR:
SHRI HUKAM CHAND
KACHWAI:

Will the Minister of DEFENCE be pleased to state the dates and places on which Pakistan has violated the cease-fire, since the signing of the Simla Agreement in the middle of 1972?

THE MINISTER OF DEFENCE (SHRI JAGJIVAN RAM): Between 2nd July 1972, when the Simla Agreement was signed, and 31st March, 1973, 83 land violations and 14 air violations were committed by Pakistani forces. Details regarding the dates and places are given in the statement laid on the Table of the House, [Placed in Library. See No. LT-4792/73].

Names of Regiment of Indian Army on basis of Castes .

6936. PROF. NARAIN CHAND PARASHAR: Will the Minister of DEFENCE be pleased to state:

(a) whether it has been decided not to name any more Regiments on the names of the castes;

(b) if so, whether the names of the Regiments based on castes would also be changed so as to have a uniform policy towards all castes; and

(c) if not, the reasons therefor?

THE MINISTER OF DEFENCE (SHRI JAGJIVAN RAM): (a) Yes, Sir.

(b) and (c). No, Sir. The existing caste nomenclature of certain regiments in the Army has been allowed to continue for

historical and traditional reasons. The general policy of the Government however, has been, and continues to be, to make recruitment into the Army as broad-based as possible. Steps are being taken to provide equal opportunities to all citizens irrespective of caste, creed or domicile to the extent practicable. In view of this the old class or caste names of some regiments are continuing.

Grant of Gallantry Awards to Tele-Communications Employees for Heroic Role in Indo-Pak War, 1971

6937. PROF. NARAIN CHAND PARASHAR: Will the Minister of DEFENCE be pleased to state:

(a) whether any employees working in the field of Tele-Communications (P. & T. Department) in the Army were also given gallantry awards for their heroic role in the Indo-Pak War of 1971; and

(b) if so, the names and permanent addresses of the employees so honoured?

THE MINISTER OF DEFENCE (SHRI JAGJIVAN RAM): (a) No, Sir. No member of the P. & T. Department working with the Army was given any gallantry award.

(b) Does not arise.

Nepalese Support to U.S. decision of supplying Arms to Pakistan

6938. SHRI R. V. SWAMINATHAN: Will the Minister of EXTERNAL AFFAIRS be pleased to state:

(a) whether the attention of the Union Government has been drawn to the State-owned English daily, the 'Rising Nepal' which has come out from Kathmandu backs U.S. decision of supplying arms to Pakistan;

(b) if so, whether India has got clarified the matter from Nepal Government;

(c) whether other countries who are our neighbours have also welcome this move and what are the countries who have opposed the U.S. move; and

(d) whether India has taken up this question with U.N. Secretary General who had recently visited India, Pakistan and Bangladesh?

THE MINISTER OF STATE IN THE
MINISTRY OF EXTERNAL AFFAIRS
(SHRI SURENDRA PAL SINGH):

(a) Yes, Sir.

(b) Yes, Sir.

(c) As far as Government are aware, no country in this region, excepting of course Pakistan, has officially welcomed the American move. Government believe that no country would favour such a development having negative effects on building durable peace in the sub-continent.

(d) Apart from other considerations, the U.N. Secretary General's visit to India took place before the announcement of the U.S. decision to lift embargo on arms supply to Pakistan; the question of discussing this matter with the U.N. Secretary General during his visit to the sub-continent therefore does not arise.

Demand and Production of Coal ..

6939. SHRI AMBESH: Will the Minister of STEEL AND MINES be pleased to state:

(a) the total demand for all varieties of coal during the last three years, year-wise;

(b) the total production of all varieties of coal during the last three years, year-wise;

(c) the total annual demand of coal in excess of the total annual production in the country; and

(d) the amount paid for importing coal during the last three years, year-wise to the foreign countries, country-wise?

THE DEPUTY MINISTER IN THE
MINISTRY OF STEEL AND MINES
(SHRI SUBODH HANSDA): (a) to (c).

The production of coal, yearwise, during the last three years has been as follows:

(Million tonnes)

1969-70	75.71
1970-71	72.95
1971-72	72.06

The demand for coal during each of these three years is not known, but there has been unsatisfied demand mainly due to transport difficulties. The production could have reached a higher level had there been adequate wagon availability.

(d) Mostly anthracite and specific type of hard coke, not available in the country, were being imported for meeting special requirements. The quantity and the value of import made during each of the last three years had been as follows:—

Year	Anthracite Quantity (Tonnes)	Coke Quantity (Tonnes)	Total value (Rs. lakhs)
1969-70	634	5035	28.05
1970-71 .	734	533	10.38
1971-72 .	963	4556	39.05

Coal and coke are imported mainly from U.S.A., West Germany, Canada, U.K. and Norway.

Wages of Salt Workers

6940. SHRI B. V. NAIK: Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) the wages of the labourers employed in production of common salt by evaporation process on the West Coast of India;

(b) whether they are at par with minimum wages; and

(c) if not, the steps Government propose to take in this regard?

THE DEPUTY MINISTER IN THE MINISTRY OF LABOUR AND REHABILITATION (SHRI G. VENKATSWAMY): (a) and (b). According to available information, the Government of Gujarat fixed a minimum wage of Rs. 2.75 per day in 1967, and the Government of Mysore fixed a minimum wage at Rs. 2.37 per day prior to 1953. Information in respect of other States and the actual wages is not available.

(c) The State Governments have powers under the Minimum Wages Act, 1948, to take action against any employer who pays wages lower than those notified under the Act.

Defence Service Housing Cooperatives in the country

6941. SHRI BIRENDER SINGH RAO: Will the Minister of DEFENCE be pleased to state:

(a) the number of the Defence Services Housing Co-operatives functioning in the country;

(b) the names of the States that have agreed to set up and earmark land for setting up Defence Colonies;

(c) the number of houses constructed so far; and

(d) the Centre's aid given to each State for the purpose?

THE DEPUTY MINISTER IN THE MINISTRY OF DEFENCE (SHRI J. B. PATNAIK): (a) Eight Defence Services Housing Cooperatives are functioning in the country.

(b) Haryana, Jammu and Kashmir, Punjab, Rajasthan and Union Territory of Chandigarh.

(c) The information is being collected and will be laid on the Table of the House.

(d) These colonies are set up under the arrangements of local Commanders/State Governments. No grant from the Defence Services Estimates has been made to the State Governments for the purpose.

Journeys on tour in Dandakaranya Project Area

6942. SHRI HUKAM CHAND KACHWAI: Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) whether any order has been issued by Government to treat the journeys on tour in Dandakaranya Project area as local journeys and the Employees Association has demanded to lift this restriction;

(b) if so, the action taken on this demand of the Employees Association; and

(c) whether the restriction is being lifted; if so, when?

THE MINISTER OF LABOUR AND REHABILITATION (SHRI RAGHUNATHA REDDY): (a) General orders were issued by the Government in April, 1972, according to which the journeys between two places falling within the qualifying limits of Project allowance, if admissible, should be treated as local journeys. The employees of the Dandakaranya Project automatically come under the purview of these orders. The Employees Association has represented to lift this restriction.

(b) and (c). The matter, whether the Dandakaranya Project employees should be exempted from the provisions of these orders, is under active consideration.

Diet to Patients of Umerkote Hospital of Dandakaranya Project

6943. SHRI HUKAM CHAND KACHWAI: Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) whether there were complaints by the patients of Umerkote Hospital of Dandakaranya Project that diet was not being supplied properly and as per prescribed standard and the concerned medical officer did not take any action; and

(b) if so, the action taken against the persons responsible?

THE MINISTER OF LABOUR AND REHABILITATION (SHRI RAGHUNATHA REDDY): (a) No, Sir.

(b) Does not arise.

.Victimisation of Workers of Telco and Tube Company, Jamshedpur

6944. **SHRI BHOGEN DRA JHA:** Will the Minister of LABOUR AND REHABILITATION be pleased to refer to the reply given to Unstarred Question No. 3524 on the 15th March, 1973 and state:

(a) whether in pursuance of the assurance given by him and the Minister of State for Labour that there would be no victimisation, Government are taking steps to ensure reinstatement of the dismissed employees of Telco and Tube Company, Jamshedpur; and

(b) if so, the nature of the steps taken?

THE DEPUTY MINISTER IN THE MINISTRY OF LABOUR AND REHABILITATION (SHRI G. VENKATSWAMY): (a) and (b). The matter was taken up with the State Government who are principally concerned with the subject. According to their report dated March 26, 1973. Other efforts having failed, they had referred the dispute over the dismissal of workers to adjudication. The managements of the two establishments filed a writ petition in the Patna High Court challenging the validity of the reference, and the Court is reported to have issued a Stay Order.

Transfers/suspensions/removal of Employees of Balarpur Collieries (Maharashtra)

6945. **SHRI BHOGEN DRA JHA:** Will the Minister of STEEL AND MINES be pleased to state:

(a) how many employees of the Balarpur collieries (Maharashtra) have been transferred, suspended or removed from service since the date of take over by the Government and what are their States of permanent residence; and

(b) Government reaction to such removals from services and whether they are to be re-instated?

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUBODH HANS DA): (a) Certain staff of the Ballarpur Colliery have been transferred on administrative grounds; no staff has yet been removed from service. Certain allegations of malpractices have come to the notice of the Coal Mines Authority, who have instituted enquiries against the concerned staff.

(c) Does not arise.

Return of Hindu residents of border Areas to Pakistan

6946. **SHRI R. R. SINGH DEO:** Will the Minister of EXTERNAL AFFAIRS be pleased to state:

(a) whether attention of Government of India has been invited to a statement made by Mr. Mumtaz Ali Bhutto, Chief Minister of Sind, Pakistan on 12th March, 1973 saying that Pakistan's efforts to persuade Hindu residents of border areas to return to Pakistan have been largely unsuccessful;

(b) whether there have been any discussion on the subject with the Pakistani Government; and

(c) if so, the particulars thereof?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH): (a). Government have seen press reports of the Sind Chief Minister's statement to this effect.

(b) and (c). Following the Simla Agreement there have been several exchanges with Pakistan Government on this problem. As a result while Pakistan Government sent some political leaders from Sind to meet the displaced persons, they were unable to convince the latter that the requisite conditions prevailed in Pakistan for their safe return.

Objectives of Steel Bank

6947. SHRI C. K. JAFFER SHARIEF: Will the Minister of STEEL AND MINES be pleased to state:

(a) the objectives of Steel Bank and the total requirement of steel in the priority sector; and

(b) how far this bank has succeeded in achieving its objectives?

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUBODH HANSDA): (a) and (b). The steel bank has been charged with the responsibility of physically maintaining the requisite levels of stock of specified critical categories of steel for meeting the requirements of priority units off the shelf against valid import licences/release orders held by them or against specific foreign exchange allocations for release of steel material from the steel bank to project authorities. The main purpose is to eliminate the delays in the physical availability of steel of certain matching sections of steel to important projects.

The steel bank started functioning in 1972-73 and has so far placed orders for 4,710 tonnes of boiler quality plates, 640 tonnes of stainless steel sheets and plates, 3,940 numbers of stainless steel and carbon steel flanges, 74 tonnes of stainless steel tubes and 9,500 tonnes of seamless pipes. Against these 4,643 tonnes of boiler quality plates, 625 tonnes of stainless steel sheets and plates and 3,710 numbers of carbon steel flanges have been received, and balance is due in April-May, 1973. So far supplies from steel bank are 1,356 tonnes of boiler quality plates and 229 tonnes of stainless steel sheets and plates.

Another 27,000 tonnes of critical items of steel required to be imported by the steel bank have been identified and the question of their import is under consideration of the bank.

Workers participation in Management of Departmentally Run Undertakings

6948. SHRI S. M. BANERJEE: Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) whether the decision of participation of labour in management in public and private sector undertakings will also apply in case of departmentally run undertakings; and

(b) if not, the reasons for the same?

THE DEPUTY MINISTER IN THE MINISTRY OF LABOUR AND REHABILITATION (SHRI G. VENKATSWAMY): (a) and (b). The scheme of Joint Management Councils, which envisage labour-management cooperation, is applicable to all undertakings. As regards the appointment of workers' director on the Boards of Management in the public sector, the experiment is to be tried in certain undertakings, run as companies and corporations.

Report of the Expert Committee on Unemployment

6949. SHRI S. M. BANERJEE: Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) whether the Committee on Unemployment has submitted its report; and

(b) if not, the reason for the delay?

THE DEPUTY MINISTER IN THE MINISTRY OF LABOUR AND REHABILITATION (SHRI G. VENKATSWAMY): (a) No, Sir.

(b) A number of Working Groups which were appointed by the Committee to make a study in depth of the various issues necessarily took time in collecting the relevant data, in taking evidence and finalising their reports. Besides, in order to make an on-the-spot study of the problem and to ascertain the views and suggestions of leaders of Government and political parties, the State Governments and a wide spectrum of knowledgeable persons including leaders of trade unions,

chambers of commerce, universities, etc., the Committee held discussions with them both at the headquarters and in the States. It had to pay visit to as many as 14 States. The Committee had to discuss and digest the evidence, arguments and conclusions contained in the reports of the Working Groups, to collect some further data and information and to arrive at a balanced judgment on various issues. All these processes of the finalisation of the draft report have involved meticulous examination and time taken has been found to be unavoidably necessary.

Delicensing of tractor and power tiller industry

6950. SHRI S. M. BANERJEE: Will the Minister of HEAVY INDUSTRY be pleased to state:

(a) the reasons which prompted Government to delicense the tractor and power tiller industry in February, 1968; and

(b) whether the objectives sought to be achieved by this drastic step have been achieved and if so, to what extent?

THE DEPUTY MINISTER IN THE MINISTRY OF HEAVY INDUSTRY (SHRI SIDDHESHWAR PRASAD): (a) The tractor and power tiller industry was de-licensed with a view to facilitate the establishment of additional production to meet the increased demand for mechanisation of agriculture.

(b) Yes, Sir. As a result, facilities have now been established for the production of 40,000 to 50,000 tractors in the country and about 15,000 power tillers, which are adequate to meet the current demand.

तांबे के उत्पादन में आत्मनिर्भरता

6951. श्री मूलचन्द डागा :

डा० कर्णो सिंह :

क्या इस्पात और खान मंत्री यह बताने की कृपा करेंगे कि :

(क) तांबे के उत्पादन में देश कब तक आत्मनिर्भरता प्राप्त कर लेगा और इस

प्रयोजन के लिए कितने व्यय की आवश्यकता है;

(ख) क्या इस कार्य में रूस का भी सहयोग है, और यदि हां, तो किस रूप में और क्या रूस ने कार्य प्रारम्भ कर दिया है; और

(ग) क्या खेतड़ी तांबा एकक के विस्तार के पश्चात सोना और चांदी भी उपलब्ध होने की सम्भावना है ; और यदि हां, तो राजस्थान सरकार को कितना स्वामित्व दिया जाएगा ?

इस्पात और खान मंत्रालय में उप-मंत्री (श्री सुखदेव प्रसाद): (क) देश में ताम्र धातु के उत्पादन की वर्तमान दर लगभग 80,000 टन प्रति वर्ष के वर्तमान मांग की तुलना में लगभग 13,000 टन प्रति वर्ष है। हिन्दुस्तान ताम्र लिमिटेड ने देश में ताम्र उत्पादन के सारवान विस्तारण के लिए कार्यक्रम बनाए हैं और आशा की जाती है कि ताम्र धातु का देशज उत्पादन, 5वीं योजनावधि के अन्तिम चरण तक लगभग 57,000 टन प्रति वर्ष तक और आगामी दस वर्षों में लगभग 80,000 टन तक वर्धित हो जाएगा। पंचम योजनावधि के अन्तिम चरण तक ताम्र की अनुमानित मांग 100 हजार टन से अधिक और षष्ठम योजनावधि के अन्तिम चरण तक लगभग 120 हजार है : इसलिए ऐसी स्थिति में उस समय को उपवर्धित करना संभव नहीं है जब तक कि देश ताम्र के उत्पादन में और इस प्रयोजन के लिए उपगत किये जाने वाले व्यय का वहन करने में आत्म निर्भर हो जाएगा।

(ख) केवल एक ही परियोजना, अर्थात् मध्य प्रदेश के मालजखण्ड ताम्र परियोजना के मामले में यह विनिश्चय किया गया है कि खनन संक्रियाओं के लिए साध्यता अध्ययन को तैयार करने और सान्द्रक संयंत्र की स्थापना का कार्य सोवियत संगठन को सौंपा जाए। उस संगठन के साथ शीघ्र ही

संविदा पर हस्ताक्षर किए जाने की सम्भावना है जिसके पश्चात साध्यता अध्ययन को तैयार करने का कार्य उस संगठन द्वारा किया जाएगा।

(ग) जी, हां : जहां तक राजस्थान सरकार को स्वामित्व के संदाय का प्रश्न है, यह मामला खान और खनिज (विनियमन और विकास) अधिनियम, 1957 के उपबन्धों और तदधीन बनाए गए नियमों के अनुसार अवधारित किया जाएगा। इसलिए इस समय, राजस्थान सरकार को संदेय स्वामित्व की प्रमाणा को उपदर्शित करना सम्भव नहीं है।

Issue of letters of intent for manufacture of Small Cars

6952. SHRI JYOTIRMOY BOSU: Will the Minister of HEAVY INDUSTRY be pleased to state:

(a) the names of persons who applied for industrial licences or letters of intent

to manufacture small cars during 1966 to 1969 and the date of receipt of each application, and the names of persons who were granted letters of intent and dates of issue of letters of intent;

(b) whether one applicant, whose claim was ignored, had approached the Delhi High Court through a writ (No. 192); and

(c) whether during hearing of the case, Government agreed to issue a letter of intent to the applicant and the case was withdrawn, and if so, when Government agreed to issue the letter of intent and when the case was withdrawn?

THE DEPUTY MINISTER IN THE MINISTRY OF HEAVY INDUSTRY (SHRI SIDDHESHWAR PRASAD): (a) The names of the parties who applied for industrial licences to manufacture cars during 1966 to 1969 and the date of receipt of their applications are indicated below:

Sl. No.	Name of the applicant	Date of receipt of application	Date of issue of letters of intent
1	M/s. Mysore State Industrial Investment & Development Corporation Ltd., Bangalore.	6-6-1966	Rejected
2	Shri Som Prakash Rekhi, M/s. Zeta India, Delhi	9-9-1966	Rejected
3	Shri Manubhai H. Thakkar, Partner, Ashwin Industries Distt. Baroda (Gujarat).	30-6-1967	Rejected
4	M/s. R. R. Chokshi & Co., Ahmedabad-2	10-7-1967	Rejected
5	M/s. Ganesh Renault, Lucknow	16-10-1967	Rejected
6	M/s. Bhooviman Ltd., Jaipur	17-10-1967	Rejected
7	M/s. Aravind Automobiles, Trivandrum	19-2-1968	Rejected
8	Shri Sanjay Gandhi (Now Maruti Ltd., Gurgaon)	13-12-1968	30-9-1970
9	M/s. Kerala State Industrial Development Corporation Ltd. Trivandrum.	18-4-1969	Rejected
10	Shri M. Madan Mohan Rao, Madras	25-9-1969	30-9-1970

(b) One of the applicants, whose application envisaged foreign collaboration and import of capital goods represented against the proposed rejection of his application on the ground that he had subsequently modified his scheme to do away with foreign collaboration and import of capital goods. Since his application, as originally submitted had already been considered by Government and disposed of, he was advised to apply afresh to enable Government to examine his scheme within the frame-work of the Government's policy. Instead of submitting a fresh application, the said applicant filed a Writ Petition in the Delhi High Court against the proposed rejection of his scheme.

(c) At one of the hearings of the case before the Delhi High Court, the Counsel for the applicant informed the Court that his client had decided to make a fresh application to Government and prayed for adjournment of the case so that his client could submit a fresh application. The fresh application submitted by the applicant was considered by Government and, as it satisfied all the conditions laid down in regard to this matter, a letter of intent was issued to him on 11th February, 1972. Taking note of the letter of intent received by the applicant, his writ petition pending before the Delhi High Court was dismissed as withdrawn by the Court on 16th February, 1972.

Installed capacity and actual production in Public Sector Undertakings under Ministry of Heavy Industry

6954. SHRI JYOTIRMOY BOSU: Will the Minister of HEAVY INDUSTRY be pleased to state:

(a) the installed capacity and actual production in each of the public sector undertakings under the administrative control of his Ministry, year-wise, during the last three years; and

(b) the factors responsible for increase or decrease in capacity utilisation in each case?

THE DEPUTY MINISTER IN THE MINISTRY OF HEAVY INDUSTRY (SHRI SIDDHESHWAR PRASAD): (a). A statement is laid on the Table of the House. [Placed in Library. See No. LT-4793/73].

(b) It will be seen from the statement that production in all the units, except in the Heavy Machine Tools Plant, has increased. Increase in production is due to systematic identification of problems and bottlenecks and measures taken to improve production, planning and control, improved procedures in procurement of materials, better training to the manpower employed in these units.

The decrease in production in the Heavy Machine Tools Plant is mainly on account of inadequate supply of quality of casting and to some extent to the non-availability of skilled workers.

It is expected that the concerted measures taken to increase production will further improve the performance of the units under the administrative control of this Ministry.

Devices for eliminating tragedies in Coal Mines

6955. SHRI RAJDEO SINGH: Will the Minister of STEEL AND MINES be pleased to state:

(a) whether in view of the tragedy in Jitpur Colliery, there are devices and machine by which the work in the underground collieries will be done only by machines;

(b) if not, whether there are devices which may lessen the hands or minimise the number of workers without lessening the coal output; and

(c) if not, what steps Government propose to eliminate such tragedies?

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUBODH HANSDA): (a) Modern Science and Technology have not advanced to such an extent as to eliminate completely employment of persons in mines belowground. Experimental efforts are,

however, understood to have been made in some Western countries particularly in United Kingdom, United States of America and Poland on remote control operations by machines in belowground workings.

(b) Mechanisation at the face and in transport are two aspects of replacement and reduction of manpower in coal mines. Such mechanisation is not yet extensively used in underground coal mines in India.

(c) The causes and circumstances of the accident in Jitpur colliery are to be determined by a court of enquiry appointed by the Government of India.

Further action for prevention of similar accidents will depend upon the findings of the enquiry.

Half-Built E.S.I.C. quarters at Andheri-Versova Road, Bombay

6956. SHRI ONKAR LAL BERWA: Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) whether one hundred sixty staff quarters under the Employees' State Insurance Corporation at Andheri-Versova Road, Bombay are lying half-built for the last two years;

(b) if so, the total amount blocked on this half construction and the loss of revenue to the Corporation due to non-receipt of rents; and

(c) the reasons for this?

THE DEPUTY MINISTER IN THE MINISTRY OF LABOUR AND REHABILITATION (SHRI G. VENKATSWAMY): The Employees' State Insurance Corporation have furnished the following information:—

(a) Yes.

(b) A sum of Rs. 12,66,662.00 representing about 40 per cent of the sanctioned estimates for the construction of 160 staff quarters was paid to the Maharashtra Housing Board, who have been

entrusted the construction work in November, 1969. As the construction work has not so far been completed, the question of loss of revenue on account of rent does not arise.

(c) The work remained suspended because the contractors engaged by the Maharashtra Housing Board defaulted half way. The Board has, however, restarted the work departmentally with effect from 15th February, 1973.

Erabzezzelment by cashier of E.S.I.C., Bombay

6957. SHRI ONKAR LAL BERWA: Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) whether a Cashier of the Local Office of the Employees' State Insurance Corporation, Bombay fled away with Rs. 38 thousands which was unauthorisedly kept there; and

(b) if so, whether it was due to the negligence and dereliction of duty on the part of the Accounts Officer of the Employees' State Insurance Corporation?

THE DEPUTY MINISTER IN THE MINISTRY OF LABOUR AND REHABILITATION (SHRI G. VENKATSWAMY): The Employees' State Insurance Corporation have furnished the following information:—

(a). A cashier of the Local Office Kurla who is absconding with effect from 31st March, 1971 is involved in the defalcation of funds to the extent of Rs. 39,469.10 P.

(b) No.

Transfer of E.S.I.C. Personnel to West Bengal

6958. SHRI ONKAR LAL BERWA: Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) whether one hundred Inspectors from various parts of the country under the Employees' State Insurance Scheme were transferred and posted to West Ben-

gal and subsequently transferred back to their respective places;

(b) if so, the total amount involved on such to and fro transfers of Inspectors including their families and personal effects; and

(c) whether these transfers were in the interest of the poor workers who are contributory to the Scheme; if so, the exigencies for the same?

THE DEPUTY MINISTER IN THE MINISTRY OF LABOUR AND REHABILITATION (SHRI G. VENKATSWAMY): The Employees' State Insurance Corporation have furnished the following information:—

(a) No.

(b) and (c). Do not arise.

Industries dependent on steel in U.P.

6959. SHRIMATI SAVITRI SHYAM: Will the Minister of STEEL AND MINES be pleased to state:

(a) the total number of industries which are fully dependent on steel for the production of their goods in Uttar Pradesh and their annual demand of steel;

(b) the extent to which their demands are fulfilled by the Steel Plants and Government;

(c) the extent to which short supply of steel has affected the production in those industries; and

(d) the steps being taken by Government to meet their demands?

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUBODH HANSDA): (a) to (c). Information is being collected and will be laid on the Table of the House.

(d) The availability of steel has been short of the demand in respect of several categories of steel. The steps taken to meet this situation include efforts to increase indigenous production by technological improvements, better industrial relations, improved maintenance, etc., a

fairly liberal import policy, particularly in respect of categories in short supply; regulation of exports; streamlining of the distribution system; and encouragement for the setting up of electric furnaces.

Loss to mining Industries due to power shortage during current year

6960. SHRIMATI SAVITRI SHYAM: Will the Minister of STEEL AND MINES be pleased to state:

(a) whether Mining Industry in the country has suffered a heavy loss as a result of shortage of power during the current year; and

(b) if so, the steps being taken by Government to increase the production in mining industry and produce required power?

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUBODH HANSDA): (a) and (b). The information is being collected and will be laid on the Table of the House.

Research for Developing Rocketry Missiles and Under-Water Weaponry for India

6961. SHRIMATI SAVITRI SHYAM: Will the Minister of DEFENCE be pleased to state:

(a) the steps taken by Government for the developments in research for the purpose of developing India's rocketry and missile and under-water weaponry;

(b) what will be India's position in this regard after two years; and

(c) the amount spent on this project so far and the amount to be spent on such projects during the next two years?

THE MINISTER OF STATE (DEFENCE PRODUCTION) IN THE MINISTRY OF DEFENCE (SHRI VIDYA CHARAN SHUKLA): (a) A planned build up of infra-structure and competence to undertake development of missiles for the services has been initiated. Development of liquid propulsion rocket engine has been given importance. Similarly, action has been taken to build up competence and infra-structure and to undertake tasks pertaining to under-water weaponry.

(b) In two years time, we would have considerably increased our developmental activity in the missile field and would have set up some facilities for undertaking development of under-water weaponry.

(c) It is not in the public interest to disclose this information.

Award of Shaurya Chakra for Acts of Bravery

6962. SHRI Y. ESWARA REDDY: Will the Minister of DEFENCE be pleased to state:

(a) whether "Shaurya Chakra" Presidential awards for acts of bravery during the last war with Pakistan were given;

(b) if so, the total number of persons to whom such award was given;

(c) their names and particulars of acts of bravery; and

(d) the basis on which these persons were selected?

THE MINISTER OF DEFENCE (SHRI JAGJIVAN RAM): (a) Yes, Sir.

(b) 58.

(c) A statement is laid on the Table of the House. [*Placed in Library. See No. LT-4794/73*].

(d) Shaurya Chakra is awarded for gallantry, otherwise than in the face of the enemy. Recommendations received by Government for the award of Shaurya Chakra are examined by the Central Honours and Awards Committee, which is presided over by Raksha Mantri. The recommendations made by the Committee are notified after approval by the Pradhan Mantri and Rashtrapati.

Air crash of MIG-21 near Badgam, Srinagar

6963. SHRI SUKHDEO PRASAD VERMA:
SHRI VARKEY GEORGE:

Will the Minister of DEFENCE be pleased to state:

(a) whether an Indian Air Force MIG-21 crashed near Badgam, Srinagar on the 16th March, 1973;

(b) whether any enquiry has been made into the causes of the crash; and

(c) if so, the report of the enquiry and the action taken thereon?

THE MINISTER OF DEFENCE (SHRI JAGJIVAN RAM): (a) and (b). Yes, Sir.

(c) The proceedings of the court of Inquiry have not yet been finalised.

Scheme to set up coal dumps

6964. SHRI SUKHDEO PRASAD VERMA: Will the Minister of STEEL AND MINES be pleased to state:

(a) whether Government are considering a scheme to set up coal dumps at selected places; and

(b) if so, the salient features thereof?

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUBODH HANSDA): (a) Yes, Sir.

(b) The scheme envisages movement of coal in block rakes to selected destinations in the States for distribution to the small consumers, viz., the domestic consumers under the aegis of the Government of the States/Union Territories.

Robbery at Indian Diplomat's House in Dacca

6965. SHRI D. B. CHANDRA GOWDA: Will the Minister of EXTERNAL AFFAIRS be pleased to state:

(a) whether there has been an incident of robbery by some gun carrying robbers at the Indian Diplomat's house in Dacca on the 13th March, 1973;

(b) whether any investigation has been made by Government of Bangladesh in this regard; and

(c) if so, the outcome thereof?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH): (a) Yes, Sir. Three armed youths entered the residence of one of our First Secretaries in our High Commission in Dacca at 4.00 P.M. on the 13th March, 1973.

They ordered the two domestic servants there in the house to stand against the wall after threatening them with their weapons and took away one record player.

(b) The Bangla Desh Government was informed of the robbery who took immediate necessary action in the matter.

(c) The Bangla Desh Government have not yet been able to locate the culprits responsible for this act.

Proposal to set up Brain Trust of Technical Experts for Heavy Industry

6966. DR. KARNI SINGH: Will the Minister of HEAVY INDUSTRY be pleased to state:

(a) whether there is a proposal to set up a Brain Trust of technical experts to plan and evaluate the production programme for the heavy industries under his Ministry; and

(b) if so, the composition of the brain trust and the nature of work to be assigned to it?

THE DEPUTY MINISTER IN THE MINISTRY OF HEAVY INDUSTRY (SHRI SIDDHESHWAR PRASAD): (a) and (b). The Ministry has a proposal under consideration to have a small Planning and Evaluation Cell for ensuring the better utilisation of resources available with the public undertakings in the charge of the Ministry. The other element of the proposal under consideration is to provide this Cell with the benefit of advance of a panel of experts working in an honorary capacity. It has been suggested that this Panel, which is the means of tapping some of the best brains available in the country, might be drawn from the fields of business, finance and general management, organisation & methods and industrial engineering, personnel management and marketing.

राष्ट्रीयकृत कोयला खानों में विस्फोट.

6967. श्री शंकर बयाल सिंह : क्या इस्पात और खान मंत्री यह बताने की कृपा करेंगे कि :

(क) कोयला खानों के राष्ट्रीयकरण के बाद अब तक कितनी कोयला खानों में विस्फोट और दुर्घटना हुई हैं तथा उनमें कितने व्यक्ति मरे और कितने घायल हुए; और

(ख) इन दुर्घटनाओं के मुख्य कारण क्या रहे हैं और सरकार ने उनकी रोकथाम के लिए क्या-क्या विशेष कदम उठाए हैं ?

इस्पात और खान मंत्रालय में उप-मंत्री (श्री सुबोध हंसदा) : (क) और (ख). जानकारी एकत्रित की जा रही है और सभा पटल पर रखी जाएगी ।

Radars installed on Himalayan Borders

6968. SHRI VISHWANATH PRATAP SINGH: Will the Minister of DEFENCE be pleased to state:

(a) whether the radars installed on our Himalayan borders are the products of a private firm of U.S.A.; and

(b) if so, how the secrecy of the operating radio-frequencies of these radars is ensured?

THE MINISTER OF DEFENCE (SHRI JAGJIVAN RAM): (a) and (b). It would not be in public interest to disclose this information.

Progress Regarding Self-Sufficiency in designing and building of war-ships

6969. SHRI VISHWANATH PRATAP SINGH: Will the Minister of DEFENCE be pleased to state the progress made towards self-sufficiency in the designing and building of war-ships?

THE MINISTER OF DEFENCE (SHRI JAGJIVAN RAM): The designing and building of war-ships indigenously.

are progressing satisfactorily within the constraints of the available resources—both financial and technical. We have so far designed survey ship, Fast Seaward Defence Boat, Landing Craft (Utility), High Speed Target Towing Vessel and various ancillary craft such as Tugs, Tankers, etc. As regards building of War Ships, so far Survey vessels, Seaward Defence Boats, Minesweepers and Frigates have been built in India. Efforts are also being made to indigenise as much of the equipment and machinery to be installed on warships, as possible.

Extension in Territorial Waters Limit of Pakistan

6970. SHRI VISHWANATH PRATAP SINGH: Will the Minister of EXTERNAL AFFAIRS be pleased to state:

(a) whether Pakistan is considering extending the present limit of its territorial waters; and

(b) if so, reaction of Government of India thereto?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH): (a). The Government of India is not aware whether Pakistan is considering extending the present limits of its territorial waters, which are 12 nautical miles measured from the appropriate base line. The representative of Pakistan made a statement in the U.N. Seabed Committee on March 20, 1973, indicating his delegation support to the limits of territorial waters beyond 12 nautical miles. However on March 21, 1973, according to reports published in Pakistan newspapers, the Government of Pakistan extended its exclusive fishery zone in areas of the high seas adjacent to the territorial waters of Pakistan upto a distance of 50 nautical miles from the coastline.

(b) The Government of India is examining the implications of the extension of fishery jurisdiction by Pakistan.

कथरा कोयला खान, बिहार में हड़ताल

6971. श्री कमल मिश्र मधुकर :

क्या इस्पात और खान मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या राष्ट्रीय कोयला विकास निगम की बिहार स्थित कथरा कोयला खान के 600 बैगन लोडिंग मजदूरों ने अपनी इस मांग के समर्थन में 11 जनवरी, 1973 से हड़ताल कर रखी है कि उनको राष्ट्रीय कोयला विकास निगम के मिक समझा जाए और उनको वही मजदूरी तथा सुविधाएं दी जाएं जो निगम के मजदूरों को दी जाती हैं;

(ख) क्या उन्हें इस बात की भी शंका थी कि आगामी मास में उनकी छटनी कर दी जाएगी और इसलिए उन्होंने बाद में हड़ताल कर दी; और

(ग) यदि हां, तो 600 हड़ताली मजदूरों के भय से दूर करने तथा ह ताल को खत्म करने और उन्हें छटनी से बचाने के लिए सरकार ने अब तक क्या कार्रवाही की है ?

इस्पात और खान मंत्रालय में उप-मंत्री (श्री सुबोध हंसदा) : (क) से (ग) : राष्ट्रीय कोयला विकास निगम से अपेक्षित जानकारी एकत्रित की जा रही है और प्राप्त होते ही उसे सभा पटल पर रखा जाएगा ।

Increase in production of Blister Copper

6972. SHRI M. M. JOSEPH: SHRI M. S. SIVASWAMY:

Will the Minister of STEEL AND MINES be pleased to state:

(a) whether there has been an increase in production of blister copper during this year by Indian Copper Complex, Ghatsila; and

(b) if so, the extent thereof?

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES

(SHRI SUKHDEV PRASAD): (a) Yes, Sir.

(b) The production of Blister Copper during 1972-73 was 12,596 tonnes as against 8,405 tonnes during 1971-72.

Purchase of Radars and Communication Equipment by India from U.S.A.

6973. SHRI VAYALAR RAVI:
SHRI BISHWANATH JHUN-
JHUNWALA:

Will the Minister of DEFENCE be pleased to state:

(a) whether the United States has recently lifted its ban regarding the purchase of radar equipments and other communication equipments for defence purposes by India;

(b) if so, whether Government propose to be purchase these materials from U.S.A.; and

(c) if so, the main features thereof?

THE MINISTER OF DEFENCE (SHRI JAGJIVAN RAM): (a) to (c). The U.S. Government announced on 14th March, 1973 that it will lift its embargo on supply of previously contracted communication equipment including radar systems to India. This matter is under our consideration.

Eviction of Indians from Foreign Countries

6974. SHRI VAYALAR RAVI: Will the Minister of EXTERNAL AFFAIRS be pleased to state:

(a) whether the Union Defence Minister has recently called for the creation of World opinion against the eviction of the people of Indian Origin, who had contributed their mite for the development of different undeveloped nations; and

(b) if so, a gist thereof?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH): (a) and (b). While inaugurating a Seminar on 'Problems of Indians abroad with special reference to Uganda and Kenya', organised by the Institute of Constitutional and Parliamentary Studies, New Delhi, on the 17th March, 1973, the Defence Minister had stressed the need for the creation of world opinion against the eviction of the people of Indian origin from Uganda. The Minister had also stated that these people had contributed much to the development of that country, and what had happened there could not be justified. That was why India had raised its voice of protest. At the same time, he had appealed to the Indians abroad to identify themselves with the people of the respective countries.

Requirement of Stainless Steel

6975. SHRI NAWAL KISHORE SHARMA: Will the Minister of STEEL AND MINES be pleased to state:

(a) the total requirement of stainless steel of the country for the year 1973-74;

(b) the requirement of the same being the Fifth Five Year Plan; and

(c) the steps being taken by Government to meet the requirements of stainless steel in the country?

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUBODH HANSDA): (a) and (b). The National Council of Applied Economic Research has estimated the demand for stainless and heat resisting steel at about 50,000 tonnes in 1975 and 117.4 thousand tonnes in 1980. The demand in 1973-74 is estimated to be about 77,000 tonnes.

(c) The present estimate is that with the proposed steel plant at Salem it will be possible broadly to satisfy the increased demand of stainless steel at the end of the Fifth Five-Year Plan.

पर्वतीय क्षेत्रों के लिए सस्ते तथा छोटे ट्रैक्टरों का निर्माण

6976. श्री पन्नालाल बारूपाल : क्या भारी उद्योग मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या देश में पर्वतीय क्षेत्रों के लिए सस्ते तथा छोटे ट्रैक्टरों के निर्माण की कोई योजना बनाई गई है ;

(ख) यदि हां, तो उसकी मुख्य बात क्या है ; और

(ग) यदि नहीं, तो क्षेत्रों में पर्वतीय कृषि के अघुनिकरण में सरकारी क्षेत्र के उद्योग किस प्रकार से योग दे रहे हैं अथवा देने का विचार है

भारी उद्योग मंत्रालय में उपमंत्री (श्री सिद्धेश्वर प्रसाद : (क) से (ग) : पहाड़ी इलाकों में कृषि सम्बन्धी कार्यों की आवश्यकताओं को पूरा करने के लिए छोटे ट्रैक्टरों और शक्तिचालित हलों (दो पहिए वाले खड़े होकर चलाये जाने वाली किस्म (वार्किंग टाइप) के छोटे ट्रैक्टरों का निर्माण करने के लिए देश में सरकारी और गैर सरकारी दोनों क्षेत्रों में पर्याप्त क्षमता उत्पन्न कर दी गई है ।

Representations from Shareholders Association regarding the compensation for taken over coal and copper mines

6977. SHRI P. M. MEHTA: Will the Minister of STEEL AND MINES be pleased to state:

(a) whether any representations have been received from the Shareholders Association regarding the compensation for any of the coal mines and copper mines taken over recently;

(b) the names of the Associations, the name of the units and the number of shareholders involved;

(c) the exact contents of the representation and Government's reaction thereto; and

(d) the names of the company in above case having more than 500 shareholders?

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUBODH HANSDA): (a) to (d). Two statements containing the relevant information in regard to coal mines and copper mines are given in the statements laid on the Table of the House. [Placed in Library. See No. LT-4795/73].

Allotment of Agricultural land in Delhi to Refugees from Pakistan

6978. SHRI R. P. ULAGANAMBI: Will the Minister of LABOUR AND REHABILITATION be pleased to refer to the reply given to Unstarred Question No. 4322 on the 22nd March, 1973 regarding allotment of Agricultural land in Delhi to refugees from Pakistan and state:

(a) the nature and manner of undertaking given by the Delhi Colonists thereby absolving the responsibility of the Rehabilitation Department from taking any steps to get the unauthorised occupants evicted from the allotted land and deliver vacant possession to the allottees.

(b) whether all the colonists had given such undertakings; and

(c) whether in one of the five cases stated, relating to exchange of land, the orders for allotment of land were issued more than a year back but so far no allotment has actually been made to him?

THE MINISTER OF LABOUR AND REHABILITATION (SHRI RAGHUNATHA REDDY): (a) and (b). Some of the Delhi Colonists had represented before the Chief Settlement Commissioner on 27th May, 1963 and stated that firstly they would like possession to be given to them as provided in the Displaced Persons (Compensation and Rehabilitation) Rules, 1955; but if the Government decided not to evict the unauthorised occupants, they would, as a last resort, be prepared to accept the allotments with unauthorised occupants on the land. This matter was re-examined and it was decided that in cases where agricultural land is allotted, it would be the responsibility of the Department to evict the unauthorised occu-

pants and hand over vacant possession to the allottees, as provided in the Displaced Persons (Compensation and Rehabilitation) Rules, 1955.

(c) Yes, Sir.

Delegations sent Abroad to express India's stand on issue of Bangladesh .

6979. SHRI BHALJIBHAI PARMAR: Will the Minister of EXTERNAL AFFAIRS be pleased to state:

(a) the number of delegations sent abroad to express the view of Government of India on the issue of Bangladesh; and

(b) the expenditure incurred on delegations in Indian as well as in foreign currency?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH): (a). 16.

(b) Rs. 5,65,000.00 approximately.

12.05 hrs.

CALLING ATTENTION TO MATTER OF URGENT PUBLIC IMPORTANCE

REPORTED DEMAND BY FOREIGN OIL COMPANIES FOR FURTHER INCREASE IN CRUDE PRICE

SHRI H. N. MUKERJEE (Calcutta—North-East): I call the attention of the Minister of Petroleum and Chemicals to the following matter of urgent public importance and I request that he may make a statement thereon:—

“The reported demand by foreign oil companies for further increase of 17 cents per barrel of imported crude.”

(Interruptions)

MR. SPEAKER: May I request you all to sit down?

आप लोगों के लिए कोई सुपर ह्यूमन स्पीकर चाहिए जोकि 15-20 सदस्यों को एक साथ सुन सके। आपको मैं रोज़ बताता
241 L.S.—5

हूँ कि आईर आफ दि बिज़नेस में क्वैश्चन्स के बाद कालिग अटेंशन आता है और उसक बाद और बातें आती हैं। अगर कोई बात कहनी हो तो लिखकर भेजा करें।

श्री ज्योतिर्मय बसु (डायमंड हार्बर) : लिखकर भेजा है।

अध्यक्ष महोदय : भेजा होगा तो वक्त पर आयेगा। लेकिन यह क्या बात है कि रोज़ बताऊँ और रोज़ आप ऐसा करें। कोई तो इसका हल होना चाहिए। रोज़ ही आप ऐसी बात करते हैं, यह बहुत गलत बात है।

THE MINISTER OF PETROLEUM AND CHEMICALS (SHRI D. K. BOROOAH): Crude oil prices have been going up all over the world continually since November, 1970. This increase has been particularly steep during the last 6 months. The principal reason for this has been the virtual cartelisation of crude oil production. Some of the crude oil producing and exporting countries have, for example, doubled their revenues in the recent past despite a reduction in production in some cases. There has also been acute competition among buyers; during the last two months alone, this competition has pushed up the price of a well-known crude from \$2.33 per barrel to \$2.67 per barrel.

India has not remained unaffected by what has been happening elsewhere in this field. Light Iranian crude oil (which is being imported by two of the foreign oil companies operating refineries in India) was quoted at \$1.28 per barrel in October, 1970; this price rose by several stages to \$2.08 on 15th January, 1973 and to \$2.25 per barrel with effect from 1st April, 1973. The increase in the price of the crude oil imported by these oil companies has thus been 97 cents per barrel within the last 2½ years, including a rise of 17 cents during the period between January—April, 1973. Elements of this large increase are said to be due to the Tehran Agreement of February, 1971, which provided for an automatic escalation in prices at pre-determined intervals until 1975, the Geneva Agreement dealing with changes in the par values of

[Shri D. K. Borooah]

major currencies including the dollar, participation by the oil producing companies in the production of oil in their respective countries and the general hardening of prices.

Like all countries which are not importers of crude oil today, we are also greatly concerned at the present situation. The Government have already taken certain measures to meet our short-term requirements of crude oil and are considering an overall strategy to deal with this problem in the long-run. The principal feature of this strategy is of course intensification of efforts to maximise crude oil production within the country, both on-shore and off-shore and a number of steps have been taken towards achieving this objective. We have already made a beginning towards exploration and crude oil production activities in other parts of the world; we propose to diversify our sources of supply by substantially increasing these activities alongwith increase in our domestic exploration and developmental activities. Attention has also to be given to the question of curbing consumption of oil products to the extent possible without slowing down the pace of economic development and also to the long-range question of development of alternative sources of energy.

SHRI H. N. MUKERJEE: I am distressed at the complacency shown by the Minister of Petroleum and Chemicals and what amounts to a spirited acquiescence in blackmail practised by these foreign interests who go on increasing prices to our detriment. Sometimes we tried to resist it, but from the tone of the Minister's reply I discover that he has given up all idea of resisting this continuing blackmail. It is strange that he seems to have forgotten—I mean, the Minister—that oil Imperialists whose record is so black are now fighting their last ditch battle for domination in countries like ours, and it is important for us to do something really and truly basic in regard to this challenge. We have known throughout the years that these oil interests from abroad are past-masters in the art of cheating countries like ours.

Sir, for a long time, we did not ever know that they were deceiving us over what they called 'gulf price'. We thought that they were charging for transport from the Persian Gulf whereas they were actually charging us money for transport from the Gulf of Mexico while actually oil was coming from the Persian Gulf. They were doing it with impunity over the years and we did not know. We did not know until 1969, if I am not wrong, that they were selling crude to other countries at a much cheaper rate than they were selling to us. Therefore, these people are pastmasters in the art of deceiving countries like ours, and they gave all kinds of phoney reasons in order to justify their demand for price increase.

I am really astonished that the Minister seems to accept, at face value, the notion that all the blame for the price increase—at least a substantial part of it—lies on oil-producing countries who have increased their tariff, something like that, and that is why the escalation has taken place. There were all kinds of agreements, Geneva Agreement and all that sort of thing.

Today we are in direct contact—and we wish to be in such contact—with the oil-producing countries and, with a country like Iraq, we have entered into a sort of agreement which ought to be a pointer for the future. And by our direct dealings with oil-producing countries, in which task, as I tried to say the other day moving the Resolution on oil nationalisation, the Ministry of External Affairs should have a large say, we can get rid of the blackmail which these middlemen, these foreign oil sharks, are perpetuating. This kind of thing has been going on for so long, and we did not know that! Why should we accept this increase? During the last five years there had been repeated increases, and as to what they do occasionally, I have no time to go into all details that are relevant in this matter. Sometimes they ask for an increase and Government succumbs to the blackmailing. Sometimes Government had not conceded their claim for the increase, but Government had been compelled to release foreign exchange to the companies

at the new rates. This sort of thing has happened in recent years. And whenever Government refused to release the foreign exchange required for the higher price of crude, the companies have cut down their imports and have reduced their production at the refinery. Last year, for example, the companies demanded 1.84 dollars per barrel and the Government released foreign exchange at the rate of 1.68 dollars per barrel because that, according to the Government's calculations which must have some sort of expert basis, was the rightful price. We wanted to pay at the rate of 1.68 dollars, but they wanted at a rate of 1.84 dollars. But immediately the companies retained by reducing their import and by cutting their refinery operations and they gobbled up the foreign exchange allocation which this Government had given to them. This sort of thing goes on, and this latest demand for an increase of 17 cents is a very dreadful burden on our exchequer. In 1970, we had to fish out foreign exchange to the extent of Rs. 102 crores for the import of crude oil; in 1971 it was Rs. 138 crores for the same purpose; in 1972 the estimated expenditure of foreign exchange on crude import is Rs. 144 crores. This is not a laughing proposition, this is a very serious matter.

And it is more than time, particularly when the Minister himself had experience of the kind of operation which takes place internally as well as internationally on the oil front, it is high time that something very serious is done to safeguard the interests of our country and to fight the ways of blackmail of these foreign interests. They circumvent all Government decisions and I would like to draw your attention to the fact that these oil companies send out huge monies from this country. From 1968 to 1971, the three foreign oil companies have taken away from India Rs. 320.37 crores. In 1968 it was Rs. 71.11 crores, 1969—Rs. 81.91 crores and 1970—Rs. 72.94 crores and 1971—Rs. 94.41 crores and all—this on account of profits and other remittances. The total capital employed by these companies, however, is about Rs. 111 crores. They go on sending out money to the

extent of nearly their total capital in a period of four years.

Then they have a grip over our country's Government and the administration. They have a grip by all underhand means. For example, they have their own agents planted in the higher echelons of the administration in the Petroleum & Chemical Ministry. The former boss of the Indian Oil Corporation blocked the import of Rustum crude for two years on the plea that it could not be refined in Barauni Oil Refinery. It was an absolute fabrication made by one of the high-ups in the Ministry who did that in the interests of the foreigners. I suppose he has gone scotfree and nobody does anything to get hold of him and give him that kind of punishment that he deserves. We find again that the Managing Director in charge of the Marketing Division of the IOC is one of the former management personnel of the Burmah-Shell. So many other instances can be given. On the last occasion when I spoke about the oil nationalisation, so many instances came to our mind. This Thakru Commission, if it proceeds properly, can bring to light so many scandals related to this matter. These foreign interests have got their representatives in the highest echelons of the administration and they give out arguments to the Ministry which are utterly wrong and which go against the interests of our country and that is why, briefed by his officers, he has now given a statement which is derogatory to the sovereignty of this country.

I would very much like to know why the Minister has agreed. From the look of things, if this statement conveys any sense in English language, he has agreed to a rise when it was patently, obviously, clearly and explicitly against the will of the Government of India. I would like to know: why do you accept a wrong and phoney argument about the tariff escalation and similar things in the oil producing countries? Why don't you find out more about it by direct contact with the oil producing countries, not only with Iraq with which we have established friendly relations and with which the Minister also had contacts but with countries like Algeria and so many others with

[Shri H. N. Mukerjee]

which, we should go even out of our way in order to set up friendly relations, for a variety of other reasons which can be discussed in the External Affairs debate? Why can't we? Why should you accept these wrong, completely wrong and motivated arguments offered by the foreign interests?

The Minister speaks of an overall strategy. I do hope he had anything in the nature of an overall strategy. Why should we postpone nationalisation as we said the other day, if at all he has any serious intention, till 1979, and in the meantime, they would do the maximum damage to these installations. If at all, they would leave ruination behind them and we are telling them, 'You can rule the roost till 1979'. Why do we enable these foreign interests to fleece us in the way they do in the meantime?

He refers to our efforts to increase our production. Now, what is his view in regard to what?

The Soviet experts have repeated very recently, like Prof. N. A. Kalinin who made so many efforts to put India on the oil map of the world. Our Minister knows a good deal about it. The other day he expressed his gratitude to the Soviet experts. He had said, and recently he and other Soviet experts had repeated that with a crash programme, in five years' time, from our own internal resources we can produce 50 million tonnes which is even more than what we require at the present moment.

I want to know why it is that in spite of all this we are not trying to go ahead. And I want to know, pending 1979—the hon. Minister says that 25 years being over, he can then take over these foreign companies,—pending that period, why cannot we take over the administration of these companies so that we can keep whatever assets they may have in tact, so that we can rid ourselves of this incubus of exploitation and blackmail which they are continuing to pursue. I want to know why this increase is accepted. I want to know why we are not taking radical steps

to prevent this blackmail, why we allowed our administration to be cluttered with foreign agents who are shown up to be wicked manipulators for foreign interests. I want to know as to what steps you are taking and if you do not take up nationalisation, why cannot you take over the administration of these oil companies in the meantime, without detriment to anything in the nature of our international relations. What is being done to increase our transport capacity so that we do not have to depend upon oil sharks from abroad, so that we may have our own ships and bring the oil from whichever country we want to? I would like the hon. Minister to give his attention, in the earnest manner that they deserve, to these matters.

SHRI D. K. BOROOAH: Mr. Mukerjee has said something about which I might enter a caveat. He had said that the Ministry of Petroleum is cluttered with foreign agents. I repudiate this. I say, they are as good Indians as Mr. Mukerjee and, therefore, it is certainly incorrect to say that they are foreign agents. Clutter means full, it is not a few only. It would be wrong to make such a kind of statement. Mr. Mukerjee said that increase in oil prices has been due to the manipulation of the foreign oil companies. It could have been, Sir, I do not know, all the facts are not before me, before 1970—72. But, from January, 1972, this is what happened. From January, 1972, they organised themselves. Eleven well-known oil producing countries from Libya to Venezuela combined together and they asked for a higher price. All the foreign companies have been compelled to give them higher price. That is the reason for the increase in price. The increase in price is due to the insistence of the oil producing countries from Libya to Venezuela led by Libyan President Gadaffi and so they had to give a higher price. That higher price is for everybody in the whole world, whether it is America or Great Britain or India or Japan. Whichever country wants to buy this oil, it has to buy in the world market at the world prices, as I have already mentioned. In fact, we had a Telex message which is also confirmed by other sources. Earlier,

the oil prices were decided by tenders. Now, there is an open bid. In Abu Dhabi there was an open bid where active bidding for some 630 million barrels (and possibly more) of low-sulphur participation crude being offered for sale by the Abu Dhabi Government over the period 1974—1980 has pushed up the starting price of Murban crude to as high as \$2.65/ barrel for 1974 deliveries (including the 7 cents/ barrel. Teheran increment for 1974, but excluding any adjustment for last month's dollar devaluation).

Now, this is an open bid. All the countries that want to buy have to bid openly. Brazil's State-owned Petro-bras which is in the lead, is offering \$2.65/ barrel for Murban (actually \$2.67/ barrel with 90 days' credit, which works out at about \$2.5/ barrel with 60 days' credit as was allowed in the Japan Line deal) followed closely by the Swiss trading company Naftamondial—\$2.654/ barrel—and the New York-based John Sahaheen Organisation—\$2.64/ barrel. Three US oil companies—Continental Oil, Phillips Petroleum and Charter Oil—have made slightly lower offers in the \$2.58—\$2.62 range.

So, there is an open bid in which Brazil has bought it by bidding against the American companies. So, what Brazil has done, we shall also have to do. If we want to buy oil today, we must go to the open market and buy it. Today, the tender system is as good as abolished. One has to purchase by negotiating or by open bidding. No country in the world including Iraq is willing to sell it at less than the world market price. All this has been done by the OPEC countries under the leadership of the Libyan President, President Gadaffi. In fact, they are not satisfied with this, but now they are having also another discussion and they want to raise the price again. I talked to the Iraqi Oil Minister who himself is a member of the committee to negotiate the proposed revision of the Geneva Agreement, namely, the Ministerial Committee which has appointed a three-man team composed of the Oil Ministers of Iraq (Dr. Sa'dun Hamad), Kuwait (Mr. 'Abd

al-Rahman al-'Atiqi) and Libya (Mr. Izz al-Din al-Mabruk), and presided over by the Libyan Oil Minister. Negotiations with the companies are scheduled to begin in Beirut on 12th April. So, this may be followed up and the price again raised.

So, if we want to buy crude today, as we have to, we have to buy in the open market, and we have to pay the same price as other countries are paying. There is no hide-and-seek in this. In 1970 it was selling in a buyers' market, and oil was being hawked about everywhere. But today we cannot buy because it is entirely a sellers' market. It is not due to the monopolies of the companies. The companies have no hand now....

SHRI JYOTIRMOY BOSU: Let him not be too sure about these things.

SHRI D. K. BOROOAH: I had a talk with the people who are vitally concerned with this. We discussed this problem with the Iraqi delegation and they said that it had to be purchased at what is known as the world market price, and the price has to be reviewed annually. So, what can we do about it now?

Another thing that is more important is the availability of crude. No company or country is willing to enter into a long-term agreement, not even a two-year agreement, and they say that the price has to be reviewed annually and we have to bid in the open market. Because of our friendship with Iraq and because of our community of ideas, they have agreed to give us 3 million tonnes for ten years, but at the world price. There is no concessional price in this.

Our problem is to get more crude. We must get crude as quickly as possible and as much as we can.

Prof. Mukerjee mentioned about the Russian experts. Prof. Kalinin was in the team of the Russian experts which discussed with us at great length how to improve the production of ONGC. I do not know who the Russian expert who said that we could have 50 million tonnes in five years; it was certainly not Prof. Kalinin, because Prof.

[Shri D. K. Borooah]

Kalinin and others—the Deputy Minister who is himself an oil expert was there—said that in five years if 'you could work hard, it could go upto 13 million tonnes'. For that, we need better equipment. They themselves examined our rigs and told us that our rigs have become old-fashioned and out of date and so we must buy at least 22 rigs in order to double the drilling capacity.

Therefore, as I said we are trying to get oil from on-shore exploration as far as we can and in the closest collaboration with the Soviet experts.

Then we are trying also to get some oil outside. The Iraqi Government discussed this matter with us. They have been good enough to give a location for us so that ONGC can drill there, and the location they have given has certainly more prospects for oil than any we have in this country. Drilling facilities there are also better because in the Middle East, particularly in Iraq; the location we have got in Romania is a flat land where drilling for oil could be limited to 2,000 to 3,000 meters, that is, about 9,000 to 10,000 ft. In Assam, we have to drill 15,000 to 16,000 ft. to get oil and the terrain is very difficult and the chances are less bright than in Iraq.

So our strategy is to get in touch with them and get assurances on this, not about the price. We may not get a price concession but what we can get will be an assurance of supply of crude if we get in touch with the oil producing countries themselves.

We have made contacts with Iraq. They have been very fruitful. It may not be just 3 million tonnes; it may be they may give us more. We are in touch with Kuwait. The External Affairs Minister himself visited Kuwait. He visited Bahrain, he also visited Qatar. We are in close co-operation with Qatar, Bahrain and Kuwait, also with Abu Dhabi and Dubai to get as much oil as we can from them.

So I hope that before long, within a month, they will give us their views or

decisions about our oil purchase, the purchase of crude in that area.

We have also discussed the matter of putting up a refinery here in which they will have a share which Qatar may give in terms of crude oil. So we are doing all this. Our expectations are simple, that we must get oil from all countries concerned. Oil is available to us only in the Gulf, the Persian Gulf, not the Gulf of Mexico where there is hardly any oil. We are now negotiating with these countries and I hope we will be successful in getting oil from them.

He said that the oil companies were demanding a higher price. There is one very interesting thing about this. The increase in crude oil prices need not necessarily increase the price of products at least to that extent because there could be a reduction in the refining margin. It is very interesting to note that last year when crude prices had gone up, the prices of finished products did not go up to that extent.

MR. SPEAKER: May I remind the Minister about one thing? We had decided that the duration of the call attention motion be increased from half an hour to 45 minutes; ten minutes for the first member, five minutes each for the others, leaving the total time which can be taken by the Minister to be 10 minutes. It is very difficult to regulate business if this goes beyond this time-limit and into the other business. The Minister will kindly be brief.

SHRI D. K. BOROOAH: I only wanted to reply to all the points raised by Prof. Mukerjee. Naturally, it is a somewhat complicated question.

MR. SPEAKER: But the time you are taking is double the time he took. I would request all Ministers to be careful and stick to the time. Otherwise, I cannot regulate the business.

SHRI D. K. BOROOAH: I will have done in another five minutes.

MR. SPEAKER: Otherwise I will have to ask the Ministers also to sit down. If

you break this rule, how can I control it?

श्री सतपाल कपूर (पटियाला) :
यह सवाल बड़ा लम्बा है और गान्धेबल
मेम्बर ने इतने रेलिबेंट सवाल पूछे हैं, जिन
का जबाब देना जरूरी है। कमेटी ने लिमिट
लगा दी है, लेकिन सवालों का जबाब देना
तो जरूरी है।

SHRI D. K. BOROOAH: Sir, I will
be very brief now. The point that I
would like to make is that our strategy
is to get more oil from these countries
direct, and also to explore for oil not
only in this country but in the Middle
East countries, those who will allow us
to do so, as well as to go out off-shore
as much as possible. It is only by pro-
ducing more oil and getting it directly
from those countries that we will be
able to meet the increasing demand for
oil in this country. Otherwise, we will
be in a very embarrassing and difficult
position.

MR. SPEAKER: Shri Bhagwat Jha
Azad—absent. Shri C. K. Chandrappan.

SHRI C. K. CHANDRAPPAN (Telli-
cherry): Sir, listening to the answers
given by the Minister, I thought that
the Minister was saying that the country
was so helpless that we have to go by
the dictates of the international cartels.
This is the picture he has portrayed. He
may have differences of view, but the
facts seem to be something different.

I would like to know from the hon.
Minister whether this is a fact. You
have denied, I remember you have said
that Mr. Kalinin has not said that 50
million tonnes of crude can be produced
in India. But have the Government re-
ceived any report any time during the
recent past saying that the production
of crude can be increased to the extent
of 50 million tonnes? It may be Kalinin
or it may be somebody else.

Now, another thing is, this Govern-
ment is agreeing to the dictates, due to
helplessness, of the international cartels

for more prices for crude. The foreign
refineries in this country are asking for
more and more prices as the months are
passing. I would like to know from the
hon. Minister: what will be the loss that
we are going to incur if we agree to the
latest demand from the foreign oil com-
panies? The Minister vigorously denied
that there was anybody in the Petroleum
Ministry who had got anything to do
with the foreign oil companies or foreign
interests. The Minister might have been
objecting to the usage of the term "full
of". But he cannot deny the fact. May
I know whether it is not a fact that
there are some people who are colluding
with the international cartels and inter-
national monopolists and who are more
interested in defending the interests of
the international oil monopolists than in
defending the interests of his country?
They may be Indians. For example,
Mr. Verma, the Joint Secretary of your
Ministry, who has got a very, very bad
record in his dealing with the foreign
oil companies, had been a party in all
the foreign dealings, negotiating on be-
half of the Government. Can you make
an enquiry about his shady transactions?
Your Ministry was notorious for various
other things in the past.

SHRI N. K. SANGHI (Jalore): On
a point of order, Sir.

MR. SPEAKER: I myself have al-
ready pointed it out a number of times.
Please don't refer to any name, because
he is not present to defend himself. It
must be sent in advance. We have al-
ready settled the procedure. You can
mention his designation, but not the
name.

SHRI C. K. CHANDRAPPAN: The
question was asked by Mr. Mukherjee as
to what happened to the Rustom crude
from Iran? Are you selling it to Japan
at the international price? No. You
are selling it at a much lower price. This
wisdom has been sold to the Ministry
by—I will not mention his name—a
top bureaucrat sitting in your Ministry.
Your Ministry's officials told you that
this oil could not be refined in the
Barauni refinery and we had to sell it.

[Shri C. K. Chandrapan]

You are selling it to Japan and other countries at a lower price. Why are this sort of shady transactions allowed in your Ministry? Your hands may be clean but the Ministry's are not. There is already an enquiry into the pipeline scandal. Can you order another enquiry about the bureaucrats who are sitting in the Ministry dealing hand-in-glove with the foreign oil interests in this country to the detriment of our interests?

What prevents you from nationalising the foreign oil refineries in India? When you say that the interest of the country is very much at stake because of various pressures from abroad, is it not a fact that we can nationalise the foreign oil refineries and maximise the production of crude? Is it not a fact that your Ministry had agreed to foreign collaboration even in the case of offshore drilling where again you are going to depend on foreign countries for building the platform? I think the platform was designed wrongly and you lost time also in drilling in the Bombay High. I want categorical answers to my questions. If you are not very much interested in defending everyone in the Ministry, the country would like that the matter be enquired into. Something is very much stinking in your Ministry. This is what we feel.

SHRI D. K. BOROOAH: The hon. Member has raised a few points which were raised by Prof. Mukherjee also. About our capacity to produce 50 million tonnes in the next five years, nobody has told us so, and our discussions with the Soviet experts also do not indicate that it would be 50 million tonnes. I do not know whether a formal report has been sent by them—I will certainly look into that—but I am sure that it will not considerably vary from what they had told us earlier.

About Rustom crude, the refineries are built on the basis of the crude. The quality of the crude determines the character of the refinery. Therefore, the construction and the character of the refinery varies from refinery to re-

finery on the basis of difference in quality of crude. I will not go into that because it is a very technical question. Rustom crude has not been sold at a lower price than the international price. With the Rustom crude which is sold we can buy similar quantity of lighter Iranian crude, which is suitable for our refinery. Now we have got a large quantity of crude from Iraq. Therefore, we have to make suitable alterations in our refineries to process that crude. The Rustom crude is only about half million tonnes. To make changes in the refinery in the production pattern only for ½ million tonnes would not be economically feasible.

So far as charges against certain officers concerned with the pipeline are concerned, I would not like to say anything because that is being enquired into by a Commission of Inquiry. If there are any specific charges against individual officers, if he gives us the details. Government would certainly like to investigate them, if not for anything else at least to give a chance to the officer to clear himself. Whenever charges are levelled against an officer, it is better that they are looked into early and he is cleared rather than his being under the cloud all the time.

When I said that the crude prices had gone up I did not say that it was due to international cartelisation. I made it very clear that it is due to the demand of the petroleum-producing countries. It is not that we are helpless. I have told the hon. House what steps we are going to take. I am an optimist, more so in this matter, because our recent negotiations with Iraq have proved that it is possible for us to get crude from other crude-producing countries and from our own country. Some of those countries which have not got oil resources of their own are exploring in different parts of the world. India has to follow a similar pattern. I am sure with the very well-trained persons we have, the expertise we have acquired, it will be possible for us to provide at least a substantial part of our crude oil requirements in the next five years.

SHRI JYOTIRMOY BOSU: The present situation is the outcome, to my mind, of a complete surrender of this Government to the foreign tycoons. There is a very interesting news item in the *Economic and Political Weekly* of 26th August, 1972, which says under the caption 'SCUTTLING MALAVIYA REPORT':

"The Malaviya Committee Report on the Oil and Natural Gas Commission has got stuck in the Petroleum Ministry. That this should be the fate of a report which was supposed to clear the way of a big thrust forward in oil exploration is an interesting commentary on the ways of our government and bureaucracy.

The Petroleum Ministry, as things stand, means the bureaucracy. Since the Ministry has for long lacked effective political leadership or even a full-time Minister, it is very unhappy about the adverse comments in the report on its role in weakening the oil exploration effort and hampering the work of the ONGC. The Ministry's nominee on the Committee did his best to prevent such criticism being incorporated in the report while the report was under preparation. When this effort failed, the Ministry decided to quietly put the report in cold storage."

I want a categorical reply from the hon. Minister as to how far this is true and whether the Malaviya Committee Report would be placed on the Table of the House for perusal of Members. Then the Shantilal Committee says:

"....it is recommended that a National Petroleum Commission be established on a statutory basis to renegotiate the agreements with the foreign oil companies and to serve as the policy making and co-ordinating authority in respect of all aspects of this industry from exploration and supply of crude to the marketing of products."

We want to know why this Petroleum Commission has not been constituted so

far. Is it not being done to serve the interests of foreign monopolists? We want a clear answer to that.

Here is a Report of the Committee on Public Undertakings. He said, he did not know about the rise of crude prices before a certain date. He should have had a look at it. He should have been guided by the Ministry. It is a very interesting report of the P. U. Committee. It says:

"The increases that have taken place as a direct result of the concerted action taken by the OPEC and otherwise are summarised below.

	Cents/bbl
November, 1970	7
February, 1971	27
June, 1971	6
July, 1971	5
January, 1972	11.7
TOTAL	56.7

Between them the three foreign oil companies are currently importing 7.7 million tonnes of crude oil each year. This is equal to a little over 56 million barrels of crude oil per annum. An increase in the crude oil price by every cent, therefore, results in additional foreign exchange outgo of \$5,62,000.

They have asked for a certain price rise. It says:—

"Two of the three foreign oil companies—Burmah-Shell and Caltex—have sought an increase of 17 cents per barrel to the price of crude from April 1. The third Esso is likely to follow suit.

Among them the three companies import about 7.75 million tonnes of crude oil annually to feed their refineries in India. The latest increase, if

[Shri Jyotirmoy Bosu]

accepted by the Government, would mean an additional expenditure of about Rs. 6.5 crores in the country's crude import bill of about Rs. 120 crores.

The last increase sought by the companies is about 24 cents...."

MR. SPEAKER: He may try to conclude now.

SHRI JYOTIRMOY BOSU: Then I sit down if you like. You kindly see what time you gave to others. I am trying to make out a case....

MR. SPEAKER: 10 minutes for the first member and 5 minutes each for others.

SHRI JYOTIRMOY BOSU: I can sit down then. This is not the way.

MR. SPEAKER: Nobody likes the bell. What to do?

SHRI JYOTIRMOY BOSU: Then, the original and existing coastal refining capacities in private sector (foreign) are as follows:

	(million tonnes)	
	Original Capacity	Present capacity
Burmah Shell Refinery, Bombay . . .	1.50	3.75
ESSO Refinery, Bombay . . .	0.92	2.50
Caltex Refinery, Vishakhapatnam	0.50	1.55
	2.92	7.80

This is what the Estimate Committee says:

"The Committee learn with concern that expansion of the refineries in the private sector was carried out without the approval of Government inasmuch as Government's permission was not sought...."

Here is a newsitem entitled "Big change in oil policy under study". The Government is completely surrendering to foreign monopolists.

I refer you to a book written by a very eminent person Dr. Michael Tanzer who is an authority on international oil trade.

This is what he says:

"Approximate prices and costs at three levels of the International Oil Industry:—

	Price per bbl.	Cost per bbl.
Crude oil production	\$ 1.50	\$0.25
Transportation .	\$ 0.25	\$0.25
Refining . . .	\$ 0.50	\$0.50
TOTAL;	\$ 2.25	\$ 2.00

Profitability in the industry basically stems from the sale of crude oil. While this is explainable by our hypothesis of greater monopoly control in crude oil production than in refining or transport, in the real world the supply of low-cost crude is not controlled by a single monopolist but by a member of companies which number in recent years has been increasing."

I advise the Minister to read this book so that he can get a clear picture of it....

MR. SPEAKER: I think, I should ring the bell only when the Member asks me to ring the bell. Otherwise, it is no use.

SHRI JYOTIRMOY BOSU: This is the report of what Dr. Michael Tanzer has said in New York:

"Dr. Michael Tanzer, world renowned petroleum expert of New York has suggested in an interview that India should nationalise all foreign oil refineries and pay no compensation. He says.

that considering the enormous profits they have made, these companies deserve no compensation. "India might look to the example set by the Chilean government with regard to international copper companies."

He further says:

"...that oil exporting underdeveloped countries should take steps to provide relief in crude prices to underdeveloped oil importing countries and that a measure should also be taken to eliminate oil cartels."

He should read Michael Tanzer. That would serve as an eye-opener for this gentleman. He need not be guided by the bureaucrats most of whom are on the pay-rolls of monopolists.

Now I come to the profits and dividends. Burmah-Shell netted—it is only for marketing and not for crude oil—Rs. 5.61 crores and Rs. 8.60 crores in 1969 and 1970. M/s. Caltex Oil earned Rs. 1.2 crores, Rs. 1.19 crores and Rs. 1.18 crores in 1969, 1970 and 1971.

The correct picture has been given by the PUC. I want to know from the hon. Minister what is preventing them from nationalising this. You should nationalise crude oil importation, refining, the entire thing, because you cannot touch the Agreement upto 1979. We want to have a clear and categorical assurance from them. What has happened to the Malaviya Committee Report? Why are you not forming a commission? You should nationalise the whole thing to do away with the Agreement which is nothing but a garland of slavery on the country.

SHRI D. K. BOROOAH Hon. Member, Mr. Jyotirmoy Bosu, tried to create an impression that we did not know anything about oil prices. I have said in the statement that crude oil prices have been going up all over the world continually since November 1970. And what he has said only confirms what I have said. Oil prices have gone up and are still going up. Crude oil prices have not only gone up but are still going up....

SHRI JYOTIRMOY BOSU: For you.

SHRI D. K. BOROOAH: For the entire world.

SHRI JYOTIRMOY BOSU: It is a matter of opinion.

SHRI D. K. BOROOAH: It is a fact. I am willing to discuss the matter with Mr. Bosu. I am giving facts.

Secondly, about the Malaviya Committee Report, that is under consideration of the Government....

SHRI JYOTIRMOY BOSU: Since when?

SHRI D. K. BOROOAH: Since I took over. We have discussed this matter....

SHRI JYOTIRMOY BOSU: I want a clear reply, Sir. When was the Committee constituted and when was the report given?

SHRI D. K. BOROOAH: These are factual matters. Every Member knows about it. Let me make it very clear that this was discussed by the Consultative Committee of this House on two occasions and they came to certain conclusions. PUC has also sent their recommendations....

SHRI JYOTIRMOY BOSU: When was the Malaviya Committee Report received?

SHRI D. K. BOROOAH: Let me say what I have done.... (*Interruptions*) I am only replying to the question that he has raised. His question was, is it a fact that the Government is trying to scuttle the report....

SHRI JYOTIRMOY BOSU: When was he Report received?

MR. SPEAKER: Please do not interrupt him.

SHRI JYOTIRMOY BOSU: I am trying to get the reply.

MR. SPEAKER: But not without my permission.

I am not allowing.

13.00 hrs.

SHRI JYOTIRMOY BOSU: That does not really matter much.

MR. SPEAKER: If he says something without my permission, you need not reply to it.

SHRI D. K. BOROOAH: The hon. Member asked a question. He has asked the question but he is not willing to listen to the reply.

The reply is very simple, that this has been already considered by the Consultative Committee. It has been discussed by the Public Undertakings Committee and it has come to the Government. We have come to certain conclusions and we are going to finalise it now. So, it is not going to be scuttled....

SHRI JYOTIRMOY BOSU: You have sat over it for two years....(Interruptions)..

SHRI D. K. BOROOAH: Now, Sir, Mr. Bosu is deeply interested in ancient history and the books which he referred to were published four years ago....

SHRI JYOTIRMOY BOSU: That makes no difference.

SHRI D. K. BOROOAH: So, Sir, when Tanzer wrote that book and also the article which was published in the *Times of India*, if I am not mistaken.....

SHRI JYOTIRMOY BOSU: It is *Economic Times*.

SHRI D. K. BOROOAH: I am sorry, it is *Economic Times*. This article also I have read but, after that, things have changed quite a good deal and prices have gone up....

SHRI JYOTIRMOY BOSU: Sir, on a point of submission. I wanted a clear answer as to when the Malaviya Committee's report was submitted, but the Minister is hiding it. Why does he want to hide it?

MR. SPEAKER: Order, please. That matter was mentioned in the House earlier, much earlier than he came. Why do you insist upon it?

SHRI JYOTIRMOY BOSU: Because they have put it in cold storage....

MR. SPEAKER: I am, not allowing. Not only you are taking your full time but you are intruding into others' time also.

SHRI D. K. BOROOAH: It is not put in cold storage. It is very much on the anvil.

SHRI JYOTIRMOY BOSU: What about Shantilal Commission's report for a National Commission for Petroleum?

SHRI PRABODH CHANDRA (Gurdaspur): Every minute he is disturbing.

MR. SPEAKER: A very incorrigible man.

SHRI PRABODH CHANDRA: He cannot hold the House to ransom. He should hold his tongue.

SHRI JYOTIRMOY BOSU: I will consult you.

MR. SPEAKER: If he goes on interrupting, the Minister should not answer it.

SHRI D. K. BOROOAH: So far as the question of nationalisation is concerned, it is not a question of refineries. The main problem before us is the crude. If we have more crude, certainly we can take whatever radical measures we want to take.

SHRI JYOTIRMOY BOSU: He is misinterpreting me. We are not getting the crude....

SHRI D. K. BOROOAH: So far as Mr. Bosu is concerned, he knows as well as I do, that so far as the crude production is concerned, it is entirely in the public sector except a small partial participation by the BOC. Therefore,

increase in crude price (CA)

so far as production of crude is concerned, the private sector has nothing to do with it. It is a very clear question of....

SHRI JYOTIRMOY BOSU: The entire thing should be nationalised.

MR. SPEAKER: If this man goes on like this, I have to prevent him....

SHRI JYOTIRMOY BOSU: I take objection to your way of talking....
(Interruptions)

DR. KAILAS (Bombay South): He cannot threaten the Speaker like this. He cannot behave like this.

MR. SPEAKER: Every time he is interrupting.

SHRI K. P. UNNIKRISHNAN (Badagara): This is not a civilised way.

MR. SPEAKER: This Member is not allowing others to listen. He is interrupting every time.

SHRI JAGANNATH MISHRA (Madhubani): He should be named.

SHRI D. K. BOROOAH: Sir, I think. I have replied to all the questions put by Mr. Jyotirmoy Bosu. (Interruptions)

MR. SPEAKER: Mr. Bosu, you don't allow the Minister to speak. You are interrupting him every time. This is not proper. I will not ask him to reply if you go on like this.

DR. KAILAS: Sir, his party does not believe in Parliamentary democracy at all. That is why he is not behaving properly.

MR. SPEAKER: Next Member, Shri Indrajit Gupta,—absent. If he interrupts, the Minister is entitled to sit and we shall proceed to the next item, unless the Member speaks with my permission.

SHRI DINEN BHATTACHARYYA (Serampore): Just a minute, Sir. He put a specific question as to when the

Malaviya Committee's Report was submitted. That is all. He can say this was submitted in this month or this year. That is the end of the matter. Or, he can say, I was not here at that time.

SHRI AMRIT NAHATA (Barmer): But, you cannot ask any question under the sun.

SHRI D. K. BOROOAH: I have answered all his questions.

MR. SPEAKER: Now, Papers to be laid on the Table. Shri J. B. Patnaik.

13.07 hrs.

PAPERS LAID ON THE TABLE**ANNUAL REPORT OF BHARAT EARTH MOVERS FOR 1971-72**

THE DEPUTY MINISTER IN THE MINISTRY OF DEFENCE (SHRI J. B. PATNAIK): I beg to lay on the Table a copy of the Annual Report (Hindi and English versions) of the Bharat Earth Movers Limited, Bangalore, for the year 1971-72 along with the Audited Accounts and the comments of the Comptroller and Auditor General thereon, under sub-section (1) of section 619A of the Companies Act, 1956. [Placed in Library. See No. LT-4786/73].

NOTIFICATIONS UNDER MINES AND MINERALS (REGULATION AND DEVELOPMENT) ACT

THE DEPUTY MINISTER IN THE MINISTRY OF STEEL AND MINES (SHRI SUBODH HANSDA): I beg to lay on the Table—

(1) A copy each of the following Notifications (Hindi and English versions) under sub-section (1) of section 28 of the Mines and Minerals (Regulation and Development) Act, 1957:—

(i) G.S.R. 617 published in Gazette of India dated the 27th May, 1972.

(ii) The Mining Leases (Modification of Terms) Amendment Rules, 1972, published in Noti-

[Shri Subodh Hansda]

Notification No. G.S.R. 874 in Gazette of India dated the 29th July, 1972.

(2) A statement showing reasons for delay in laying the above Notifications. [Placed in Library. See No. LT-4787/73].

13.7½ hrs.

ESTIMATES COMMITTEE

THIRTY-FOURTH REPORT AND MINUTES

SHRI K. N. TIWARY (Bettiah): Mr. Speaker, Sir, I beg to present the following Report and Minutes of the Estimates Committee:—

- (1) Thirty-fourth Report on the Ministry of Petroleum and Chemicals (Department of Chemicals)—Petrochemicals.
- (2) Minutes of the sittings of the Committee relating to the above Report.

PUBLIC ACCOUNTS COMMITTEE

EIGHTIETH REPORT

SHRI SEZHIYAN (Kumbakonam): Mr. Speaker, Sir, I beg to present the Eightieth Report of the Public Accounts Committee on Chapter II of the Report of the Comptroller and Auditor General of India for the year 1970-71—Central Government (Civil)—Revenue Receipts relating to Customs.

13.08 hrs.

COMMITTEE ON PUBLIC UNDERTAKINGS

THIRTIETH AND THIRTY-THIRD REPORTS

SHRI AMRIT NAHATA (Barmer): Mr. Speaker, Sir, I beg to present the following Reports of the Committee on Public Undertakings:—

- (1) Thirtieth Report regarding action taken by Government on

the recommendations contained in their Seventeenth Report on Personnel Policies and Labour-Management Relations in Public Undertakings.

- (2) Thirty-third Report regarding action taken by Government on the recommendations contained in their Sixty-sixth Report (Fourth Lok Sabha) on Indian Oil Corporation (Pipelines Division).

13.8½ hrs.

COMMITTEE ON PETITIONS

ELEVENTH AND TWELFTH REPORTS

SHRI A. P. SHARMA (Buxar): Mr. Speaker, Sir, I beg to present the Eleventh and Twelfth Reports of the Committee on Petitions.

13.09 hrs.

ELECTIONS TO COMMITTEES

(i) ESTIMATES COMMITTEE

SHRI K. N. TIWARY (Bettiah): I beg to move:

“That the members of this House do proceed to elect in the manner required by sub-rule (1) of Rule 311 of the Rules of Procedure and Conduct of Business in Lok Sabha, thirty members from among themselves to serve as members of the Committee on Estimates for the term beginning on the 1st May, 1973 and ending on the 30th April, 1974.”

MR. SPEAKER: The question is:

“That the members of this House do proceed to elect in the manner required by sub-rule (1) of Rule 311 of the Rules of Procedure and Conduct of Business in Lok Sabha, thirty members from among themselves to serve as members of the Committee on Estimates for the term beginning on the 1st May, 1973 and ending on the 30th April, 1974.”

The motion was adopted.

(ii) PUBLIC ACCOUNTS COMMITTEE

SHRI SEZHIYAN (Kumbakonam): I beg to move:

"That the members of this House do proceed to elect in the manner required by sub-rule (1) of Rule 309 of the Rules of Procedure and Conduct of Business in Lok Sabha, fifteen members from among themselves to serve as members of the Committee on Public Accounts for the term beginning on the 1st May, 1973 and ending on the 30th April, 1974."

MR. SPEAKER: The question is:

"That the members of this House do proceed to elect in the manner required by sub-rule (1) of Rule 309 of the Rules of Procedure and Conduct of Business in Lok Sabha, fifteen members from among themselves to serve as members of the Committee on Public Accounts for the term beginning on the 1st May, 1973 and ending on the 30th April, 1974."

The motion was adopted.

SHRI SEZHIYAN: I beg to move:

"That this House do recommend to Rajya Sabha that Rajya Sabha do agree to nominate seven members from Rajya Sabha to associate with the Committee on Public Accounts of the House for the term beginning on the 1st May, 1973 and ending on the 30th April, 1974, and do communicate to this House the names of the members so nominated by Rajya Sabha."

MR. SPEAKER: The question is:

"That this House do recommend to Rajya Sabha that Rajya Sabha do agree to nominate seven members from Rajya Sabha to associate with the Committee on Public Accounts of the House for the term beginning on the 1st May, 1973 and ending on the 30th April, 1974, and do communicate to this House the names of the members so nominated by Rajya Sabha."

The motion was adopted.

(iii) COMMITTEE ON PUBLIC UNDERTAKINGS

SHRI AMRIT NAHATA (Barmer): I beg to move:

"That the members of this House do proceed to elect in the manner required by sub-rule (1) of Rule 312B of the Rules of Procedure and Conduct of Business in Lok Sabha, ten members from among themselves to serve as Members of the Committee on Public Undertakings for the term beginning on the 1st May, 1973 and ending on the 30th April, 1974."

MR. SPEAKER: The question is:

"That the members of this House do proceed to elect in the manner required by sub-rule (1) of Rule 312B of the Rules of Procedure and Conduct of Business in Lok Sabha, ten members from among themselves to serve as members of the Committee on Public Undertakings for the term beginning on the 1st May, 1973 and ending on the 30th April, 1974."

The motion was adopted.

SHRI AMRIT NAHATA: I beg to move:

"That this House do recommend to Rajya Sabha that Rajya Sabha do agree to nominate five members from Rajya Sabha to associate with the Committee on Public Undertakings of the House for the term beginning on the 1st May, 1973 and ending on the 30th April, 1974, and do communicate to this House the names of the members so nominated by Rajya Sabha."

MR. SPEAKER: The question is:

"That this House do recommend to Rajya Sabha that Rajya Sabha do agree to nominate five members from Rajya Sabha to associate with the Committee on Public Undertakings of the House for the term beginning on the 1st May, 1973 and ending on the 30th April, 1974, and do communicate to this House the names of the members so nominated by Rajya Sabha."

The motion was adopted.

13.12 hrs.

**RE. STRIKE BY TEXTILE WORKERS
IN DELHI**

MR. SPEAKER: I have allowed a few notices under rule 377. I shall call the Members one after the other.

श्री शशि भूषण : (दक्षिण दिल्ली) : अध्यक्ष महोदय, काल अटेंशन का क्या हुआ ? बड़ा महत्वपूर्ण मामला है। दिल्ली के लिए 30,000 मजदूर स्ट्राइक पर हैं। दिल्ली क्लाय मिल्स के 60 माननीय सदस्यों ने लिख कर दिया है।

MR. SPEAKER: I allowed certain Members जिन्होंने 377 में दिया है उन को अलाउ कर दिया है।

SHRI DINEN BHATTACHARYYA (Sarnampore): Under rule 377 of the Rules of Procedure and Conduct of Business in Lok Sabha, I wish to raise the following matter. With your permission. I would like to mention that a calling-attention-notice should have been allowed by you on this subject....

MR. SPEAKER: He should confine his submissions to just one minute.

SHRI DINEN BHATTACHARYYA: This is not such a matter where I can place my point of view before the House within one minute.

MR. SPEAKER: Then, why does he send the notice under rule 377? If he were interested in a calling-attention notice, he should not have tabled one under 377 also.

SHRI DINEN BHATTACHARYYA: That would have come up after the strike was over.

MR. SPEAKER: For Monday, the calling-attention notice is fixed up already.

SHRI S. M. BANERJEE (Kanpur): We want that the hon. Minister should make a statement on this today.

SHRI DINEN BHATTACHARYYA: From yesterday, the news which is emanating is this. From 11th April, that is, yesterday, 27,000 textile workers of Delhi are on strike. The mills are DCM where 6000 workers are employed, the Swatantra Bharat Mills where 8000 employees are concerned, the Birla Mills where 8000 workers are employed, the Adyudhya Mills where 3500 employees are working and the DCM Silk Mill where 1500 workers are employed. They are all on strike. They have taken to this as a last resort since all their attempts to settle their demands amicably have failed. The strike call was given by the Lal Janda Kapda Mill Mazdoor Union and the INTUC-affiliated Textile Mazdoor Union and the Hind Mazdoor Sabha Union. Hundred per cent of the workers are on strike. They are all peaceful....

MR. SPEAKER: Let there be no speeches now. He should just make his submission within one minute. If hon. Members are going to use rule 377 for speeches, in future, I am not going to allow it.

SHRI S. M. BANERJEE: You may allow it today as a special case.

SHRI DINEN BHATTACHARYYA: Delhi textile consumption is the costliest. But the workers are getting Rs. 30 less than the Kanpur workers, while the Bombay textile workers are getting Rs. 65 more than the Delhi workers. So, among other demands, their main demand is for a revision of the wages to have 100 per cent neutralisation of the increase in the cost of living....

MR. SPEAKER: I had made a mistake by allowing this.

SHRI DINEN BHATTACHARYYA: Kindly give me one minute, Sir.

This is the House of the People. This is Lok Sabha. 27,000 people are on the streets. You are not allowing time for this. But for some petty matters, you allow time.

MR. SPEAKER: Not under 377.

SHRI DINEN BHATTACHARYYA: I request the Minister through you to here and now make a statement as to whether he is immediately intervening in the matter and settling the demands which are all justified and are not very impossible to settle, because the textile magnates are here. Charat Ram, Bharat Ram and Birlas are the managements, all belonging to the big houses. Why are they hesitating? Let them come forward to settle the matter.

SHRI S. M. BANERJEE: This strike is supported by the All India Trade Union Congress. When they had negotiations with the Birla—Charat Ram—Bharat Ram axis, they refused to concede the demands of the workers. As explained by my hon. friend, Shri Dinan Bhattacharyya, the workers' spokesmen in Delhi stated that they are getting Rs. 30 less than the Kanpur workers. I congratulate the 27,000 workers who are fighting against the injustices perpetrated on them by the Birlas, Charat Ram and Bharat Ram. I would request the hon. Minister to make a statement. I want an assurance because many leaders of the ruling party who had attended the meeting said that these mills would be taken over. I want that these mills should be taken over immediately. We do not want Birlas, Charat Ram and Bharat Ram to manage the mills like this. We want nationalisation. (Interruption)

श्री टी० सोहन लाल : (करोल बाग) : हम ने तो कहा था, लेकिन पहले आप ने उस का विरोध किया। अब कैसे कह रहे हैं राष्ट्रीयकरण के लिए? जब देखा कि एक एक आदमी ने स्ट्राइक की है तो आप भी सहमत हो गये।

241 L.S.—6

SHRI S. M. BANERJEE: We fully support the strike. He is refusing to support the takeover because he is a Birla stooge....

MR. SPEAKER: No, no.

श्री टी० सोहन लाल : हम तो नहीं हैं, लेकिन आप जरूर हैं, और इस को साबित कर देंगे।

AN HON. MEMBER: He must withdraw it.

SHRI S. M. BANERJEE: These mills should be taken over and the workers' demands should be conceded immediately. Tomorrow, the day after and the 15th are holidays. I would urge upon the Minister to make a statement today.

SHRI A. P. SHARMA (Buxar): I will not take longer time than those friends. It is very unfortunate that even a trade union like the Indian National Trade Union Congress which believes in constitutional means for settlement of disputes of workers has been forced to go on strike.

SHRI DINEN BHATTACHARYYA: Strike is a constitutional right.

SHRI A. P. SHARMA: He has enough support from Shri Banerjee.

I was saying that it is very unfortunate that a Union which believes in constitutional means of settling disputes has been compelled by these employers, Bharat Ram, Charat Ram and Birlas, to let the workers go on strike. The workers have no other alternative than to resort to strike. The House knows why these workers have gone on strike. It was only because the workers of these textile mills are not being given the same dues and emoluments as workers in class one cities like Calcutta, Bombay and Madras are given. Why should this discrimination be practised in this capital city of the country? Therefore, it is the immediate duty of the Government of India to intervene in this dispute and settle it to the advantage of the workers.

I do not like to say anything about the other thing. Shri Banerjee was accusing my friend when he was intervening....

SHRI S. M. BANERJEE: I never accused him. I believe in united action.

(व्यवधान)

हमेशा दलाली की आप ने। आप दलाल नम्बर एक हैं।

श्री टी० सोहन लाल आप हैं, यह मैं साबित कर दूंगा।

अध्यक्ष महोदय : आप तो ऐसे लड़ रहे जैसे सास और बहू लड़ती हैं। बहुत मुश्किल बात है। अगर इसी तरह से चलना है तो फिर लोक सभा इसी इशू पर होनी चाहिए कि आपस में लड़ने झगड़ने वाला कौन ज्यादा है।

SHRI S. M. BANERJEE: Mr. Sohan Lal says he is a labour leader. Does he look like a labour leader, Sir? All of them are supporting the black legs, and they are responsible for the strike. We know the history.

AN HON. MEMBER: Rule 377.

अध्यक्ष महोदय : मैं बता दूँ सब को कि 377 कभी डिबेट के लिए नहीं है। यह बिल्कुल गलत परम्परा होगी।

After all, this House proceedings are to be conducted by argument, by exchange of views and peaceful discussions.

SHRI A. P. SHARMA: I am just completing. (Interruptions)

MR. SPEAKER: Order, please.

SHRI A. P. SHARMA: It is good that Mr. Banerjee has now declared that he is also supporting the strike. All the workers are on strike. I want the Government to intervene in this strike immediately so that the workers' demands could be settled.

SHRI R. S. PANDEY (Rajnandgaon): I support Mr. A. P. Sharma is what he said.

SHRI S. M. BANERJEE: Let the Minister make a statement today.

13.21 hrs.

RE. REDUCED SUPPLY OF R. F. O. TO DHUVARAN AND AHMEDABAD POWER PLANTS

SHRI P. G. MAVALANKAR (Ahmedabad): Mr. Speaker, Sir, I am grateful to you for permitting me to invite briefly but urgently the attention of the House and in particular the attention of the hon. Minister of Petroleum and Chemicals to a very serious situation resulting in severe loss in power generation due to substantially reduced supply of the RFO—residuary fuel oil—to the Dhuvaran and Ahmedabad power plants caused by the labour trouble at the Oil and Natural Gas Commission's several projects in Gujarat.

The workers of the ONGC projects at various places like Navagam, Kalol, Ahmedabad, Cambay and Ankleshwar and other places have been carrying on a work-to-rule agitation for the last several days and this has resulted in a loss of production and unemployment in the industry.

Mr. Spaker, Sir, the negotiations between the workers on the one hand and the management of the ONGC on the other are going on for the last two years. The demands are so few and are of a minor nature. They want cash payment of their arrears and they have been urging some fixation of grades and a few other minor points need to be settled. The amazing part of the whole thing is that the amount involved is only Rs. 8 lakhs to Rs. 12 lakhs. The negotiations have been going on for the past two years. And the ONGC workers at last are now conducting a work-to-rule agitation. Moreover, I cannot understand how a work-to-rule agitation can result in all these difficulties. What kind of

rules have been framed by which this work-to-rule agitation results in all kinds of difficulties? I request the Minister of Petroleum and Chemicals to intervene immediately in the matter and arrange to have a tripartite conference among the Oil and Natural Gas Commission representatives, the labour representatives and the Government with a view to having an amicable settlement so that the power plants in Gujarat do not suffer any more.

13.23 hrs.

RE. NON-SUPPLY OF YARN TO
POWERLOOM INDUSTRY IN
GUJARAT

SHRI P. M. MEHTA (Bhavnagar): Mr. Speaker, Sir, on the 13th March, 1973, the Government imposed a control on yarn. Since then, yarn is not allotted to the power loom industry in Gujarat and other States according to their requirements. One month has passed by and the power loom units of Gujarat and other States are hard hit. In Gujarat, 50,000 workers have lost their job and a further 50,000 workers will be thrown out of employment within a very short time, say, within a week. This situation will adversely affect five lakh souls and they will be pushed to further suffering and hardship for no fault of theirs in these hard days.

The powerloom industry of Gujarat produces one million metres of cloth per year at the average selling price of Re. 1 only. This cheap variety of cloth is mostly used by working class people and the rural population.

My hon. friends, Shri Mavalankar and Shri Banerjee and some others had raised this matter in the House, but there is no improvement at all in the situation. It appears the ministry is indifferent, careless and negligent. Therefore, under the circumstances, I appeal to the Government to come forward immediately to release sized beams and coarse yarn from control and make sized beams and yarn available to the powerloom industry in Gujarat and other States to solve the crisis.

SHRI DINEN BHATTACHARYYA (Serampore): About the strike by the textile workers in Delhi, let the Labour Minister make a statement, Sir.

MR. SPEAKER: If he wants to make a statement, I have no objection. The Labour Minister is not here.

THE MINISTER OF PARLIAMENTARY AFFAIRS (SHRI K. RAGHU RAMAIAH): About the discussion on the demands of the Irrigation and Power Ministry, there are a good number of members on this side who want to participate in it. I have consulted the leaders of the opposition also. We request you to extend the time by 3 hours. That will mean, the Minister will be called to reply at about 5 P.M.

SHRI S. M. BANERJEE (Kanpur): We have no objection to it. But let the Labour Minister make a statement.

MR. SPEAKER: If the minister wants to make a statement, he is very welcome.

SHRI JYOTIRMOY BOSU (Diamond Harbour): When something under rule 377 is admitted, why is it that the minister is not informed? Otherwise, there is no point in giving notice under rule 377.

MR. SPEAKER: It is not a calling attention or a debating point that I should direct the minister to make a statement. You have invited the attention of the minister. It is up to him to make a statement or not. I cannot force him.

SHRI S. M. BANERJEE: You can give a direction.

MR. SPEAKER: I cannot give any direction.

SHRI DINEN BHATTACHARYYA: If he is not making a statement, we are walking out of the House in protest.

MR. SPEAKER: May I tell you, again it is week-end. Don't do it every time. The Minister of Parliamentary Affairs says, the Labour Minister is not here.

[Mr. Speaker]

He will pass it on to him. You cannot expect him to be ready in a minute. If he wants to make a statement any time during the day, he will be allowed to do so. Don't make the walk-out so cheap.

SHRI S. M. BANERJEE: Sir, I have a very small submission to make. The coming three days are holidays. I hope you do not want the strike to continue. The Labour Minister was here and he has heard some of our submissions. So, you should direct the Minister of Parliamentary Affairs to request the Labour Minister to make a statement.

MR. SPEAKER: In such matters there is no need of my direction. I will allow the Minister to make a statement any time he likes. But there is no question of my directing him to make a statement. No, I am not prepared to do that. If the Minister has heard the submissions and if he wants to come out with a statement any time during the day, he will be allowed to do so.

13.31 hrs.

DEMANDS FOR GRANTS, 1973-74—
contd.

MINISTRY OF IRRIGATION AND POWER—
contd.

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI BALGOVIND VERMA): Mr. Speaker, I was telling you the other day that I am grateful to all those hon. Members who have participated in the debate. They have made very valuable suggestions and I am sure my Ministry will be benefited by those suggestions.

13.32 hrs.

[Mr. Deputy-Speaker in the Chair]

India is predominantly an agricultural country and more than 70 per cent of our people depend upon agriculture. Therefore, it is very necessary that agriculture should play a very important role in our country. Our population is increasing and in order to feed the in-

creasing mouths it is very necessary that agriculture should be carried on on sound lines. In order to carry on agriculture on sound and scientific lines, irrigation is very much needed. Therefore, irrigation is one of the very important components of the process of development. This has been recognised and irrigation has been given a proper place in our plans.

It has been mentioned that irrigation has not made much headway in our country. It is true. There is demand for irrigation all round and looking towards the resources we have not been able to make much headway in this direction.

Before 1951 the irrigational facilities available from medium and major irrigation schemes came to 9.7 million hectares. After 1951 we have made much progress and additional irrigation potential has been created. By the end of March 1973 we have reached at the additional figure of 10.7 million hectares. In other words, the irrigation potential has almost doubled. Since 1951 we have taken up 589 major and medium projects out of which 361 have been completed and the result is that 10.7 million hectares have been provided with irrigation facilities. After all those schemes have been completed, an additional irrigation potential will be created to the extent of 10.8 million hectares. Taking all these schemes together, the irrigation potential to the extent of 31 million hectares will be there from major and medium schemes.

For irrigation projects, we have spent about Rs. 275 crores in 1972-73. For the whole of the Fourth Plan, there is a provision for Rs. 953 crores. But since the States are putting more emphasis on irrigation projects, this amount is likely to go up to Rs. 1200 crores. So far as the Fifth Plan is concerned, the Plan provision is going to be about Rs. 2100 crores.

A charge has been laid at our door that we are not taking interest in the irrigation schemes. That is not correct. It will be clear from this very fact that

the Government is taking up special welfare schemes. As such, the Central Government is going to give special assistance to the States. We had started a scheme in 1969 in order to carry out intensive field investigations for irrigation, flood control and power schemes. This is a more or less welfare scheme. What the Government wants is that investigations will be carried out to find out good irrigation schemes in the country and, at the same time, these will provide employment to unemployed engineers and other technical hands.

In 1969-70, 1970-71 and 1971-72, the Government have given loan assistance to the tune of Rs. 809.68 lakhs to the State Governments for the purpose. In 1972-73, the Government had decided to give up loan assistance and instead the Central Government came out to give Central assistance in the form of grant from 1972-73. The Planning Commission has also come out with extra special assistance in the form of grant during 1972-73 to the tune of Rs. 605.63 lakhs. There is also a provision for Rs. 496 lakhs in 1973-74. As I said before, these schemes are going to provide employment opportunities to qualified engineers and other technical hands. In 1972-73, as many as 3429 engineers and other technical persons got employment. In 1973-74, 3734 engineers will be getting employment. The number of schemes which have been taken up for investigation are 698 and surveys of some of them have already been completed.

It has been raised here over and again that Government is not doing anything to minimise the menace of floods. Government is alive to its duty. There are a few rivers which are noted for this menace—the Brahmaputra river, the Ganga and its tributaries like Sharda and Ghagra—and there are some other rivers also which are causing floods year after year. As the hon. members know, ours is a country where rains are most uncertain. Sometimes there is complete drought and sometimes the vagaries of nature are such that there are too much of rains and as a result of those rains, there are floods. These floods are caused, as

we have been able to understand, by congestion of drainage and absence of natural drainage lines, by obstructions caused by canals, roads and railways and by inadequacy of waterways provided in the developmental works; and sometimes dams also give way due to excessive rains. These are some of the things which cause floods. Every year, we find, the average area affected by floods is 67 lakh hectares and out of this area nearly 26 lakh hectares in which crops are sown are destroyed. It has been assessed that the damage to crops, on an average, is to the tune of Rs. 88 crores; apart from this, there is damage to houses, public property, loss of human lives and cattle, and indirect loss to communications and disruption of other essential services. All these taken together, the loss goes to an average of Rs. 150 crores.

We have seen in recent years that there are cyclones which are accompanied by heavy rains and the resultant floods, and we have seen that, in Andhra Pradesh and Orissa, they have caused havoc. The population which has been affected by cyclone and flood havoc in 1972 is 200 lakhs, the area affected is 56 lakh hectares, and the loss suffered is of the order of Rs. 147 crores.

We have taken some relief measures also. We started the national programme for flood control in 1954, and much work has been done during the last 18 years. We have tried to collect basic hydrological data; we have taken up construction of embankments, improvement of river channels, and raising of level of villages; and investigations have been carried out for formulation of long-term proposals.

We have made much progress. I shall mention a few achievements which we have made upto March 1973: construction of new embankments 7,375 kilometres, drainage channels 11,134 kms., town protection schemes 197, raising level of marooned villages 4,585; the area saved as a result of these works is 65 lakh hectares. We have spent a huge amount on flood control. Till the beginning of the Fourth Plan we had

[Shri Balgovind Verma]
spent Rs. 185.32 crores. During the Fourth Plan there has been a provision of Rs. 138 crores. The outlay proposed in the decade plan upto 1981 is of the order of Rs. 540 crores. The tentative outlay for the Fifth Plan is Rs. 300 crores. We hope by 1981 we will be able to protect 50 per cent flood prone area, i.e. 106 lakh hectares of land from floods. The States have been asked to prepare comprehensive plans and to fix up the priorities of work.

Sir, flood control is a State subject and the Central Government tries to help the States in the form of certain block grants and loans under the plan schemes not tied to any particular project or head of development. The Central Government also renders technical assistance in the formulation and implementation of the schemes.

We have also taken certain other measures like setting up of flood forecasting centres. There was a flood in 1959 in the river Yamuna and, therefore, for the first time a flood forecasting unit was set up at Delhi for Yamuna. Then a technical committee was appointed in 1969 which suggested that some more flood forecasting centres should be set up. After the floods of 1968, six flood forecasting units have been located at various places in the country. In 1973-74 further improvements are going to be carried out by putting up a wireless net work and various other equipments like the installation of rain and river gauges.

We have spent nearabout Rs. 65.67 lakhs in 1972-73 on these flood forecasting measures and in 1973-74 we are going to spend Rs. 94 lakhs. The total approved outlay for the entire Fourth Plan is Rs. 342 lakhs. In addition, a provision of Rs. 9.50 lakhs for a Flood Forecasting Centre at Rajahmundry for the Godavari Basin and a provision of Rs. 20 lakhs for meteorological offices has been made for 1973-74.

A Committee of Ministers on Floods and Flood Relief was set up in 1970 which recommended setting up of Flood Forecasting Centres on other important

rivers also and the Government is looking into the matter.

Then I come to erosion. There has been some erosion both by the rivers as well as by the sea. Erosion is a perpetual feature in those rivers where there are high floods, particularly, in the Ganga Basin as also the Brahmaputra Region. Government is fully alive to this problem and the Government is going to take-over the control of the Brahmaputra river so far as floods and other things are concerned and for that purpose, a Brahmaputra River Control Board is going to be set up very soon. So also for the Ganga Basin, there is a Ganga Flood Control Commission. A Ganga Flood Control Board has also been set up with the Chief Ministers of States as Members and the Central Irrigation Minister as its Chairman.

So also sea erosion is taking place at some of the places and this is more acute in Kerala. Out of 560 km, 320 km of coastline is subject to erosion by sea. Besides causing damage to dwelling houses and other buildings, this also poses a threat to national highways and railway lines at some places where they run along the coast. Sea erosion in Kerala is very serious and we are paying our utmost attention towards this also. Anti-erosion measures like construction of sea walls, groynes etc. were initiated at the end of the First Plan and we have got in the Fourth Plan an outlay of Rs. 500 lakhs for this purpose. The expenditure was Rs. 352 lakhs during the first four years of the fourth plan. The State Government anticipated additional outlay of Rs. 270 lakhs by way of special assistance from the Centre. The total anticipated outlay on anti-sea erosion works during first four years of the Fourth Plan is of the order of Rs. 622 lakhs. The coastline which we are going to protect by these schemes during the fourth plan would be 21.4 k.m. bringing the total upto March 1973 to 93 K.M. A length of 72 KM had been protected upto beginning of the Fourth Plan. The outlay proposed by the State Government for 1973-74 is of the order of Rs. 1.5 crores. Special Central Assistance is also being

given outside the plan to the tune of Rs. 2.5 crores. The total outlay for 1973-74 is Rs. 4 crores. This project is to be completed by 1982.

Anti sea-erosion works are taken up by the State Governments. The Government of Kerala have stated that the anti-sea erosion works are beyond their resources and that is the reason why the Centre had recently agreed to provide some special financial assistance outside the plan to the Government in order to enable them to implement the programme of works in the last two years of the Fourth Plan. The Kerala Government suggested that anti-sea erosion programme should be treated as a centrally-sponsored scheme. This is a matter on which a decision is yet to be taken and we are considering it.

The Beach Erosion Board was also re-constituted in 1966. They will make a thorough study of the coastal erosion processes and of all things essential to tackle this problem and to proceed ahead in a scientific and coordinated manner.

References were made to power shortages in the country. There is no doubt that there is power shortage. Power projects are very costly.

श्री झारखंडे राय (घोसी) : हरियाणा स्टेट इलेक्ट्रिसिटी बोर्ड की स्ट्राइक हो रही है, उस को समाप्त करवा दीजिये ।

SHRI BALGOVIND VERMA: These power projects are very capital intensive and we have been able to make some headway in this direction, according to the availability of resources. Before 1951 there was 2.3 million k.w. of power available in the country and by March 1972 it was 17 million k.w. The demand is increasing every day and in a developing economy it is bound to increase. Against 4th Plan target of about 23 million k.w., there is a gap of 3.5 million k.w. There is a gap and we do not deny it. By the end of March, 1973, 18 million k.w. has been installed, and we hope to instal more; we wanted to instal 23 million k.w. by the end of 4th Plan, but due to

circumstances beyond our control, I think we shall be able to instal only about 20 million k.w. of capacity.

There are reasons behind this shortfall of 3.5 million k.w., and they are: delay in the delivery of main equipment by indigenous suppliers such as the HEIL and the BHEL and others, delay in completion of civil works, because sometimes, cement is not available, and sometimes steel is not available, delay in erection of plant also, because the necessary equipment could not be made available; lack of financial resources; and delay in receipt of replacement stores. All these things were responsible for the shortfall of 3.5 million k.w. of energy.

The demand for power is increasing by 12 per cent every year. This is a well known fact. In order to keep pace with the growth of demand, we are laying emphasis on further massive investment on generation of power. At the same time, we are also taking in hand adequate measures for transmission and distribution of power. We have also constituted two committees of experts, one for the hydel and the other for thermal power stations, to go into details in order to plug the outages of the existing plants. We have also tried to expedite the completion of plants under construction. Rapport has also been established with the Ministry of Industrial Development for the timely delivery of equipment. We are also making arrangements to get spare parts at the earliest.

The report of the Study Group which was appointed in order to assess the load demand made out in 1972 proved useful in formulating the Fifth Plan on power. The Power Survey Directorate in the CWPC which has been entrusted with the task of drawing up a firm and dependable forecast of the country's power equipment, has undertaken annual electric power surveys with a view to indicate power supply and demand situation in respect of all the States/Union Territories individually, region-wise and for the country as a whole for a period of four or five years hence. Seven surveys have been completed so far. The

[Shri Balgovind Verma]

study has been found to be useful in taking corrective measures for improving the power supply situation in the country.

For power development, huge sums are needed. As I have just now stated, according to the availability of resources we have been able to generate power, but this time we are trying to put in more funds for the purposes. In the Fifth Plan, there is provision for Rs. 5700 crores for generation of power. But our plans are very ambitious, and, therefore, we are hoping that the funds will still go up.

We have also decided to go in for power generation in the Central sphere. We have made a beginning in this direction. We are establishing now four Central power projects, one at Badarpur here in Delhi, another at Loktak in Manipur, the third at Baira Siul in Himachal Pradesh and the fourth at Salal in Jammu and Kashmir. These projects are progressing, and we hope that very soon, we shall be able to get energy from Badarpur.

We have also decided in principle to establish giant size thermal power stations at the coal pit-heads. This is to ensure that we have not to carry coal to far off places. Only what will be needed is to take this power to the rest of the country.

14.00 hrs.

Many hon. members talked about rural electrification and some complained that some States are lagging far behind in this respect.

SHRI JYOTIRMOY BOSU: What are Government doing to bring up the backward States to the national average?

SHRI BALGOVIND VERMA: I am coming to that.

More than 75 per cent of the people live in villages and unless there is some improvement in the way of living of people in villages, we cannot hope to take India to our desired goal. With

that end in view, we established a Rural Electrification Corporation in July 1969. As you know, this Corporation has done yeoman service to our country. The main object of rural electrification is to increase agricultural production by providing energised irrigation which brings radical changes in the technique of cultivation, crop pattern etc., also to promote development of small scale industries and agro-industries in the rural sector. It will also give employment to those who have no employment either because of very little land with them or otherwise. In our country there are 5,66,878 villages. The percentage we have been able to achieve in the matter of electrification is 23.6. This is really very little in comparison to other countries.

SHRI D. N. TIWARY (Gopalganj): One per cent per year since independence.

SHRI BALGOVIND VERMA: At the beginning of the Fourth Plan, only 73,722 villages had been electrified and 10.88 lakh pump sets energised. During the Fourth Plan alone, 75,000 villages were to be electrified and 15 lakh pump sets to be energised, but upto 28th February 1973, 1,34,160 villages have been electrified and 21,37,013 pump sets energised.

What the Rural Electrification Corporation does is to call for schemes from States for purposes of rural electrification. The States sent in 633 schemes, out of which REC sanctioned 410. The total loan assistance sanctioned by REC till 28 February, 1973 was Rs. 227 crores.

In the fourth Plan, for the States and the Union territories, provision has been made for a sum of Rs. 294.69 crores and in the Central sector, a provision has been made for Rs. 190 crores. This amount of Rs. 190 crores will be disbursed through the REC. For the Fifth Plan also, a tentative estimate has been prepared by the Ministry, and we hope to electrify 1.31 lakhs of villages, and energise 25 lakhs of pump-sets. For this purpose, a sum of Rs. 1,400 crores is being provided.

SHRI D. N. TIWARY: All these figures are given in the report. You say something new.

SHRI BALGOVIND VERMA: Mr. Jyotirmoy Bosu asked how we are going to make good the deficiency in some of the States.

SHRI JYOTIRMOY BOSU: Especially the eastern States—Orissa, Assam, West Bengal and a part of Bihar—which are far below the national average.

SHRI BALGOVIND VERMA: There are State which are far below the national average. For that purpose, we have decided to open regional offices of the Rural Electrification Corporation. For example, one office is going to be opened in Calcutta and officers of that office will be required to go to and visit all those States and help the State Governments in the preparation of the reports because the reports which we receive from the States sometimes are defective, and there are so many shortcomings. For that purpose, we have to return those schemes over and again to the States. In order to avoid this procedure and to save time, we have decided to open those regional offices—

SHRI JYOTIRMOY BOSU: Assam 2.75; Bihar 11.79; Madhya Pradesh 11; Orissa 2.71. This is a miserable state of affairs.

SHRI BALGOVIND VERMA: That is correct. So, we give preference to the backward States over others.

SHRI JYOTIRMOY BOSU: Bring them up to the national level.

SHRI BALGOVIND VERMA: We will do that. We will do it as best as we can. We are trying to give preference to those backward areas over others in the country, and we will see that soon they come up to the level of the advanced States of the country.

SHRI JYOTIRMOY BOSU: How soon.

SHRI BALGOVIND VERMA: We cannot fix the time, but it will be our endeavour to see that they come up to the same level.

I want to give the House some facts regarding the electrification of Harijan bastees. Some Members mentioned that nothing in that direction is being done. I would say that no scheme will be sent by the REC now in which provision for the electrification of Harijan bastees is not there and where villages have been electrified without the Harijan bastees, we are giving special assistance to the States at very concessional rates of interest.

The House will be glad to know that a sanction for electrification, up to the 28th February, 1973, of 4,753 Harijan bastees, has been given. 37 schemes costing Rs. 200 lakhs have been sanctioned. Up to the middle of March, 1973, 9,743 Harijan bastees have been electrified. There is a provision of Rs. 250 lakhs in the year 1973-74. In the fourth Plan as a whole, 20,000 bastees at a cost of Rs. 500 lakhs are proposed to be electrified. For the fifth Plan also, a provision of Rs. 15 crores has been suggested.

MR. DEPUTY-SPEAKER: You have taken almost 40 minutes. How long more will you take?

SHRI BALGOVIND VERMA: Only 10 to 12 minute more. (*Interruption*)

MR. DEPUTY-SPEAKER: The Deputy Minister's intervention is as long as or longer than the Minister's reply.

SHRI BALGOVIND VERMA: 10 to 12 minutes.

AN HON. MEMBER: Time was extended.

MR. DEPUTY-SPEAKER: Time was extended, but there is a long list of speakers from your party. If the Ministers take two hours, what is left for the Members?

SHRI BALGOVIND VERMA: Only five to six minutes more I will take.

MR. DEPUTY-SPEAKER: You were giving statistics.

SHRI BALGOVIND VERMA: In order to bring about a uniform development of our country, we have started a scheme known as rural engineering survey scheme.

The purpose and object of this scheme is (i) to bring about uniform development of villages by—(a) raising standard of living of people, specially harijans and other backward classes; and (b) providing basic amenities of life, such as drinking water, electricity, roads etc;

(ii) To assess the possibilities of providing irrigation facilities; and

(iii) To suggest improved modern agricultural practices.

This Rural Engineering Survey Scheme is intended to provide these basic data to the planners by on-the-spot surveys of villages in selected districts. The data so compiled will help in the formulation and implementation of Rural Development programmes. This will be made use of by different ministries for the purpose of bringing about improvement in the villages. The main programme of this RES will be to tell us about the:

- (a) Minor irrigation works;
- (b) Rural roads;
- (c) Drinking water supply;
- (d) Rural electrification;
- (e) Soil conservation and land use planning including contour bunding and Gully control.

This scheme has been started in 26 backward districts—drought prone, flood or cyclone affected districts—in 17 States.

There will be 575 survey parties during 1973-74. 425 parties are now working because there are some difficulties in our way. The engineers are not coming forward to work in the villages, and we are trying to bring them round. In every district, there are 25 teams except in five States of Assam, Himachal Pradesh,

Jammu and Kashmir, Kerala and Punjab where there are 10 teams per district one team consists of 9 persons (2 engineers; 1 agricultural graduate, 1 field assistant-cum-tracer and 5 non-technical staff).

This scheme is job oriented. It will provide jobs to the unemployed engineers and other persons. We hope that during the 4th Plan, the total number of persons who will be employed will be 5,862. Till now we have been able to employ 3,180 and I hope in due course more persons will be coming forward. The villages which have been surveyed are 750. It is a Central scheme and the entire expenditure is to be borne by the Centre as grants-in-aid to the States and it will be the duty of the State to carry out the scheme. The activities will be co-ordinated at the Centre by the CW & PC on the one hand and Land Use Survey Organisation of Indian Agricultural Research Institute on the other. These surveys have been started in almost all the 17 States and in 1973-74 we hope to see that 17250 villages are surveyed. In the Fourth Plan the provision is for a sum of Rs. 610.5 lakhs. The provision for 1972-73 is Rs. 285 lakhs and for 1973-74 it is Rs. 287 lakhs. In the Fifth Plan we hope to take up 70 districts in which drought prone, flood or cyclone affected or hilly backward districts and also tribal areas will be covered. We hoped that 2½ villages per party would be surveyed in one month. But it should not be completed due to variation in areas of the villages. Now, therefore, we have fixed up 1250 hectares per party per month. Because the areas of villages vary from 1400 to 45600 sq. kms. I think this scheme will take from two to six years, except in Kutch and Jodhpur which are bigger districts.

I want to say something on N.P.C. as Shri Tewari says that I should speak on this subject.

MR. DEPUTY-SPEAKER: You may speak at the cost of the timing of your party's colleagues.

SHRI BALGOVIND VERMA: Shri Tiwari mentioned yesterday that the

National Projects Construction Corpora- tion was running at a loss. It is a fact, Sir. It was running at a profit till 1966-67 but since then it has incurred losses to the tune of Rs. 435.54 lakhs. The reasons for losses were: fall in volume of work, depreciation on idle machinery, idle labour interest on borrowings for working capital and uneco- nomic rates quoted by the NPCC for certain projects.

Early in 1972 the Cabinet reviewed the working of the Corporation and de- cided to give it a further lease of three years. Since then we find that it is doing well. A number of steps have been taken to improve the working of the Corporation. Unserviceable equip- ment upto Rs. 53 lakhs has been dis- posed of; strict economy measures have been implemented; idle labour which is neither permanent nor workcharged has been reduced; proper planning and con- trol has been introduced; and incentive scheme has been introduced to ensure fulfilment of targets. You would see that the turn-over is now going up from Rs. 402 lakhs in 1970-71 to Rs. 443 lakhs in 1971-72 and Rs. 750 lakhs in 1972-73. Losses had come down from Rs. 131.59 lakhs to Rs. 70.48 lakhs in 1971-72. The losses are expected to come down further. New works to the tune of about Rs. 8 crores were obtained in 1971-72 and Rs. 85 lakhs in 1972-73. The Corporation has on hand works amounting to Rs. 20 crores.

The Corporation has about 700 regu- lar employees, technical and administra- tive. Apart from this, they employ work-charged and muster roll for specific works. The later category will be ren- dered surplus as and when a work is completed but the Corporation makes efforts to divert the workcharged staff to other jobs. Their services are not dispensed with. Regular staff continue to be employed by transfer to other pro- jects. There is no plan at present to retrench regular staff.

SHRI D. N. TIWARY: Are you mix- ing up permanent staff?

SHRI BALGOVIND VERMA: There are permanent people; there are work- charged also.

SHRI TRIDIB CHAUDHURI (Ber- hampore): I have been waiting patiently for two days to draw the attention of the House to a dire threat which over- hangs the entire Bengal in the form of erosion of the right bank of Ganga downstream Farraka. I have been trying to raise this matter earlier also but un- fortunately I have not succeeded in evok- ing the requisite response from the Cen- tral Government. If a man of unim- peachable integrity and great scientific eminence as Dr. Rao were not involved. I am almost tempted to say that there was some kind of collusion between the Government of West Bengal and the Gov- ernment over here. Under the screen of a public controversy about the res- ponsibility, who would take up the re- quisite protective measures, valuable time had been lost and the fact is that things which could be done if taken on hand three or four months ago, could not be done now this year. Two lakhs of persons face the threat of being ren- dered homeless; economically prosperous areas and particularly three big towns face the threat of being washed out and eroded completely.

What is more, there is also the danger that from the point where Bhagirathi branches off from Ganga downstream the Jangipur barrage, the amount of erosion that is taking place is such that the river Ganga may cut through the place and meet the river Bhagirathi and the whole of Bhagirathi-Hooghly basin on both sides would be flooded. The towns of Jangipur, the district headquarters town of Murshidabad, Sankopara, Ber- hampore, Maldah and even Calcutta would not be safe if this is allowed to happen. Lest it is thought that it is merely the erosion of the bank of a river and so the homesteads of some people are at stake, I would like to draw the attention of the House to the fact that National Highways, which are a central undertaking, railway line from Howrah to Farakka, which is a central undertak- ing, a part of the feeder canal, which is a central undertaking—all these central

[Shri Tridib Chaudhuri]

undertakings, apart from the towns I have mentioned are threatened very much. I was surprised the other day to hear the Railway Minister saying that no part of the railway line was threatened by Ganga erosion. He does not know, perhaps nobody has informed him, that the broad gauge mainline from Howrah to Farakka is less than 500 yards from the river Ganga at a place called Sankopara. From the same place, the railway line has been diverted thrice before. You must realise that the general tendency of the Ganga has been to move westwards. For the last 50 years, this erosion is taking place. At two or three places, the National Highway is about 100 to 200 yards from the river and the river is moving westwards. The feeder canal is only 1½ miles from the river. What is most dangerous is, from the place where the Bhagirathi-Hooghly branches off from Ganga, about 3 or 4 years back when the Jangipur barrage was being constructed, the river was about 3 miles away. Now it has come within 500 yards of the Jangipur barrage. I know the House was informed that the Farakka authorities will take up some anti-erosion measures at least to save the Jangipur barrage, but that also cannot be done this year. I say it straight on the face of the minister that the plans that were prepared are before the technical advisory committee, and that committee has not passed them. Why could not these things be taken up two or three months back?

Similarly, so far as the estimates and plans sent by the West Bengal Government are concerned, a public controversy is going on in the West Bengal press for the last two months. The West Bengal Irrigation and Waterways Minister has accused the Central Government of refusing to give any Central assistance for anti-erosion measures and all papers have flared it. The only answer that we got from here was that the State Government had not sent any plans or estimates. Now the State Government have sent a plan costing Rs. 63 crores. And no less a person than the present Chief Minister of West Bengal himself announced on the 6th of April when he met the press

at the airport on his return from Delhi "well, don't you worry; Rs. 63 crores would be given for immediate measures." But a cold douche has been thrown on that illusion that was created by the Chief Minister by our friend, the hon. Deputy Minister, Shri Verma, when he said in reply to a question by our young friend, Shri Das Munsi, that the matter is before a technical committee of the Ganga Flood Commission, it is being examined and then it will go to the Planning Commission. I realise that Rs. 68 crores is not a small amount and that it will take some time. But I want to know why these things could not be taken up a little earlier. I am not interested in blaming this Government or the West Bengal Government, but between the two of them they have created a situation where nothing can be done this year.

I have to draw the attention of the House to another dire threat that overhangs the district of Malda. You know, that disastrous floods took place in the district of Malda because of which the Farraka Barrage authorities and the Ministry here took the decision to build up a flood bund. It beats my comprehension how things like these can be allowed to pass but it seems that this government have allowed themselves to be brow-beaten by a very high-placed person in the West Bengal Government not to complete the flood bund. My in-bund remains to be completed. If, heaven forbid, high floods come this year, there will again be another disaster and I do not know whom we shall then blame. We can blame the Government there and for that there is the Assembly. But whatever help we could get from here, we are entitled to get, that we did not get. So, I would conclude by appealing to the hon. Minister that although valuable time has been lost, at least now let him go to the spot and see things for himself and take whatever emergent measures are needed to save us from ruin and destruction.

MR. DEPUTY-SPEAKER: Owing to a long list of speakers from the Congress Party. I have been requested to allot only seven minutes to each. Even

so, I do not know whether it will be possible to accommodate everybody.

SHRI B. R. SHUKLA (Babraich): Mr. Deputy Speaker, Sir, Dr. K. L. Rao and the Ministry headed by him deserves sympathy, support and understanding. If in spite of his brilliant conception of linking Ganga with Kaveri, we are reluctant to offer a bouquet of flowers to him, we should at least refrain from hurling brickbats of harsh criticism at his Ministry, because his task is tremendous and his limitation are many.

At the very outset, I would submit that there should be an attempt to initiate a measure in this House of Parliament to put the Departments of Irrigation, Flood Control and Electricity on an all-India integrated system. Because, if Railways and Communications are important and they are Central subjects, on the same logic these three subjects should be included exclusively in the Central List. The second thing which I would suggest is that the tube-wells, which are dealt with by the Ministry of Agriculture, should be shifted from that Ministry and they should be taken over by the Ministry of Irrigation and Power. Otherwise, there cannot be full justice to the construction of tube-wells in the country.

It is needless to emphasise the obvious fact that electricity is the life-blood of modern economic activity in this era. But, what are we doing? The hon. Deputy Minister has taken pains to place before this House the various achievements of this Ministry. But I find that the pace with which these activities are being carried on is dismally slow, and it needs to be quickened up. Otherwise, I am sorry to submit that even ten or fifteen Five Year Plans would not be sufficient to carry electricity and irrigation facilities to the different parts of the country. The time is the essence of the situation.

Then, there is another thing which I would like to emphasise. There should be uniformity in the rates of electricity. If you have statutorily fixed one price

for rice and wheat throughout the country, there is no reason why electricity, which is consumed in bulk by agriculturists for the production of these food-grains, should not be uniformly charged.

Then, I would come to some local problems. Mr. Verma has touched almost every part of the country. But, wittingly or unwittingly, he has forgotten to mention and touch the part of the country to which he has the honour to belong. North-eastern region of U.P. is the most neglected part of the country. There are five rivers which are perennial source of water, namely, Ghagra, Rapti, Sarju, Kauriala and Bhakra. These are the five rivers which come down from the Himalayan mountains and then they enter the plains of Indian territory. They enter it not at a high altitude. Therefore, it is not possible to generate electricity through hydro-electric methods in the plains of Indian territory.

Now, fortunately, we have got good relations with Nepal *raj*. Two schemes were conceived long ago. One was Jalkondi dam over the river Rapti in the territory of Nepal. That scheme was conceived, duly investigated and the feasibility report was submitted to the Government at least a decade ago. Then, there is the Kalyani project in the Nepal territory. If the Jalkondi dam project the feasibility of which has been duly certified by the technical experts is implemented, then the whole of the districts of Babraich, Gonda, Basti and other districts in Faizabad Division will get ample facilities of irrigation and they would have ample supply of electricity.

We have designated many districts as industrially-backward ones. In order to remove economic imbalance in different regions of the country, it is necessary to make adequate and ample supply of electricity to those parts because in the absence of adequate supply of electricity no industrialist is going to set up his industry howsoever financially he may be helped by the Central Government. Therefore, in order to remove the economic imbalances, the regional disparities and to remove the industrial backward.

[Shri B. R. Shukla]

ness of these districts, it is necessary that there should be ample provision for the supply of electricity in these districts.

Then, there is the drainage scheme which is a Centrally-sponsored scheme. I submit that this is the most mismanaged Department of the Government of India. The people of this Department have no contact with any of the representatives. Some offices are located here and there. They take up a scheme, they try to open drainage in fertile fields and pocket the money for themselves by way of bribery. One scheme was initiated in my district, that is, in Baghel Tal. Something has been done and then it has been abandoned. I submit let us be more realistic and more earnest about it.

So far as the flood control is concerned, the less said the better. We have not made any serious attempts to prevent floods. The only thing we do is that when the floods occur, we allocate money year after year and the people's misery becomes the opportunity for officials to get the money allocated.

श्री भागीरथ भंडार (झाबुआ) उपाध्यक्ष महोदय, प्रति वर्ष कहीं अतिवृष्टि और कहीं अनावृष्टि के कारण देश की फसलें खराब हो जाती हैं। फसलों को ठीक रखने के लिए और उत्पादन बढ़ाने के लिए यह बहुत आवश्यक है कि देश में सिंचाई के साधन बढ़ाये जाने चाहिए।

सिंचाई के साधनों को बढ़ाने के लिए एक मात्र उपाय छोटे बांध, ट्यूब वेल आदि बनाना है। बड़ी योजनाओं को कार्यान्वित करना भी बहुत जरूरी है। यह देखा गया है कि शासन इस मामले में बहुत ही उलझा हुआ है। नर्बदा, कृष्णा, गोदावरी बाणसागर और देश की ऐसी कई बड़ी बड़ी योजनायें हैं जिन के बारे में अभी तक कोई निर्णय नहीं हो पा रहा है। जितना पानी है वह तमाम बहकर समुद्र में जा रहा है जबकि इसका उपयोग सिंचाई के लिए होना चाहिए था। मैं चाहता हूं कि सब से पहले जो मामले लम्बे समय से पड़े हुए हैं विवादग्रस्त प्रकरण हैं,

उनको निपटाया जाए और खास करके उन क्षेत्रों के लिए जहां पर पहाड़ी क्षेत्र हैं, जहां सिंचाई के साधन सीमित हैं, वहां अगर किसी योजना को उलझाए रखा गया तो यह वहां की जनता के लिए और देश के लिए बड़े दुर्भाग्य की बात होगी। कई क्षेत्रों में कुआं को गहरा करने की योजनाएं बनी हैं, चाहे वे राज्य सरकार की रकम से हों या केन्द्र की रकम से हों, या केन्द्रीय सरकार को उस में कुछ हिस्सा देना हो, उस में भी काफी दुरुपयोग होता है। एक एक कुआं जो खोदा जाता है किसानों को ऋण के रूप में उसके लिए पैसा दिया जाता है या कुछ हरिजन और आदिवासी क्षेत्रों में जहां सहायता दी जाती है, उसका दुरुपयोग होता है और उसको कोई देखता नहीं है। सिंचाई के साधनों को बढ़ाने के लिए और खाद्यान्न का उत्पादन बढ़ाने के लिए यह जरूरी है कि जहां पर बड़े बांध नहीं बन सकते, बड़ी योजनाएं कार्यान्वित नहीं हो सकती, वहां कुएं ज्यादा से ज्यादा गहरे कराए जाएं, ट्यूबवेल लगाए जाएं और छोटी नदी योजनाएं बनाई जाएं। पहाड़ी क्षेत्रों में स्थान के अभाव में सिंचाई के साधन नहीं बढ़ाए जाते हैं तो इस प्रकार की योजना वहां के लिए कारगर हो सकती हैं।

देश के कुछ प्रान्तों में सिंचाई के साधन काफी हैं। मुझे इस बात की कोई ईर्ष्या नहीं है कि किसी प्रान्त में ज्यादा हों, किसी में कम हो लेकिन मैं चाहता हूं कि सिंचाई के साधनों को संतुलित किया जाना भी बहुत जरूरी है। यदि किसी प्रदेश में चाहे वह हरियाणा या पंजाब हो, सिंचाई के साधन ज्यादा बढ़ाये गए हैं तो मध्य प्रदेश जैसे विशाल प्रदेश में आप सुन कर आश्चर्य करेंगे कि केवल सात प्रतिशत सिंचाई के साधन बढ़े हैं। वहां सिंचाई के साधन बढ़ाने के लिए कोई गुंजाइश न हो ऐसी बात नहीं है नबदा योजना ली गई थी उसको भी खटाई में डाल रखा है।

वाणसागर और कई और योजनायें भी ऐसे ही खटाई में पड़ी हुई हैं जिनकी ओर किसी का भी ध्यान नहीं जाता है और न केन्द्र और राज्य कोई निर्णय ले पाता है। आधुनिक युग में खेती का उत्पादन जब हम बढ़ाना चाहते हैं और कल कारखाने लगाना चाहते हैं तो अगर पानी नहीं मिलेगा और बिजली नहीं मिलेगी तो यह कैसे हो सकेगा ?

विद्युत के बारे में भी मैं कुछ कहना चाहता हूँ। इसका भी खाद्यान्न उत्पादन के मामले में बहुत महत्व है। इसके बिना सिंचाई योजनायें नहीं होती। इस मामले में भी देश में बहुत असंतुलन है। कई ग्रामीण क्षेत्रों में और खास करके आदिवासी क्षेत्रों में बिजली आज भी नहीं पहुँची चाहे वह उद्योग धंधों के लिए हो या खेती के लिए हो। अधिक से अधिक आप पिछड़े क्षेत्रों में बिजली पहुँचाएं यदि कोई नियमों में शर्त हो तो जब इस मामले में बाधक हो तो उस शर्त में भी काफी ढिलाई आप बरतें और विशेष सुविधायें उनको आप दें ताकि वहां बिजली पहुँच सके और वे पिछड़े क्षेत्र विकसित क्षेत्रों के मुकाबले में आगे आ सकें।

मध्य प्रदेश में इस साल तमाम कुएं सूखे पड़े हैं। किसानों की मोटरें लगी हुई हैं लेकिन विद्युत विभाग की ओर से उन से न्यूनतम दर जो बारह तेरह रुपये है वह वसूल की जाती है जबकि किसानों के कुओं में पानी नहीं है। ऐसे मामले आप देखें। न्यूनतम दर या जो भी टैक्स आपने लगा रखा है उसको आप खारिज करें, किसानों को ज्यादा से ज्यादा सुविधाएं दें, इतना ही मेरा निवेदन है।

श्री ई० बी० बिस्ले पाटिल (कोपरगांव): उपाध्यक्ष महोदय, इन डिमांड्स का मैं समर्थन करता हूँ। सभी सदस्यों ने अभी कहा है कि देश में पावर की बहुत कमी है, हमने जो पावर कट किया है उसका असर अगले साल अंदाज पत्रक में जो रेड् आफ ग्रोथ लिखा है उस पर पड़ेगा और जितना दिखाया गया है उससे बहुत

कम ग्रोथ होगा क्योंकि पावर की वजह से उस में कमी आयेगी। इंडस्ट्री और एग्रिकल्चर दोनों का उत्पादन कम हो जायगा।

दूसरी बात यह है कि 23 नवम्बर, 1973 को सिंचाई मंत्री ने एक उत्तर में बताया था कि 1981 तक इलेक्ट्रिकल मोटर पम्पस सभी जगह लग जाएंगे। कोई भी कुआं नहीं रहेगा जहां मोटर न लगी हो। जितना कमिटमेंट है वही पूरा करने के लिए जब पावर कम है और पावर कट करना पड़ता है तो यह कैसे पूरा होगा। आज ये कह देते हैं कि नैसर्गिक आपत्ति आई है और काम भी अधूरा पड़ा है, सिमेंट नहीं मिलता, स्टील नहीं मिलता और कांटेक्टर जो काम लेते हैं वे समय पर पूरा नहीं करते हैं। पावर और इरिगेशन प्रोजेक्ट्स में पता नहीं उन कांटेक्टर पर कोई पैनलटी लगाते हैं या नहीं लेकिन एक्स-क्लेशन क्लोज लगने से उनको ज्यादा पसा मिल जाता है। ऐसा कोई प्रोजेक्ट हमने नहीं देखा जो समय पर पूरा हो जाए। किसी भी विभाग के और खास करके इरिगेशन और पावर विभाग के प्रोजेक्ट तो कभी समय पर पूरे नहीं हुए, कुछ न कुछ टैक्नीकल बात निकल आती है। जब इंडिजिनस मैन्युफैक्चरिंग नहीं दे पाते हैं तब इम्पोर्ट के बारे में सोचा जाता है जिसकी वजह से समय पर प्रोजेक्ट पूरा नहीं हो पाता। पावर की बहुत कठिनाई है। इस लिए अभी कितना भी पैसा लग जाए आपको पावर पैदा करना ही होगा। हमें लगता है कि पावर के बारे में प्लानिंग सही नहीं है और पावर खेती के लिए तथा इंडस्ट्री के लिए मिलती नहीं है। जब हम प्रोडक्शन करना चाहते हैं तो इस तरह की प्लानिंग क्यों नहीं करते हैं। जब इंडिजिनस मैन्युफैक्चरिंग का अनुभव हमें है कि वे समय पर तैयार करके चीज नहीं देते तो फिर टारगेट को डबल क्यों नहीं करते ?

पावर डिस्ट्रिब्यूशन सिस्टम के बारे में मुझे यह निवेदन करना है कि ए एफ सी, ए आर सी और आर ई सी ये तीनों लोन देते

[श्री ई० वी० बिखे पाटिल]

है। लेकिन अगर ई सी की स्कीम जहाँ लगी हुई है वहाँ दूसरा पैसा खर्च करने के लिए रुकावट है। तो ए एफ सी और ए आर सी की स्कीम्स जिस ढंग से हैं वैसे ही अगर ई सी की भी बना दें। अगर ई सी की स्कीम में भी यह सुधार किया जाना चाहिए।

सिचाई के बारे में डा० राव साहब ने इंडिया 25 ईयर्स में दिखाया है कि हमने 96 मेजर प्रोजेक्ट्स लिए थे उसमें केवल 22 कम्पलीट हुए। इस से पता लगता है कि हमारी प्रगति कितनी धीमी है यानी 96 प्रोजेक्ट्स लिए उनमें से केवल 22 कम्पलीट कर पाए और मीडियम प्रोजेक्ट्स 498 लिए थे उस में से कम्पलीट हुए हैं 342। तो मुझे ऐसा लगता है कि जब हम मेजर प्रोजेक्ट्स जल्दी नहीं खत्म कर पाते और उन का फायदा नहीं मिल पाता तो मीडियम प्रोजेक्ट ज्यादा लेना चाहिए और मीडियम प्रोजेक्ट ले कर इरिगेशन को आगे बढ़ाना चाहिए ताकि उस का फायदा जल्दी मिल सके और उत्पादन भी तेजी से बढ़े।

हमारे यहाँ जितने प्रोजेक्ट्स चल रहे हैं, उन के पूरा होने में देरी होती है, जिस से उन का खर्च बढ़ता जाता है जिन प्रोजेक्ट्स का काम शुरू में 1617 करोड़ रुपये आंके गये हैं, आज उन का खर्च प्रोजेक्ट पूरी करने के लिए 3427 करोड़ रुपये हो जायेगा, अर्थात् दुगुने से भी ज्यादा हो गया है, इस से हमारी राष्ट्रीय सम्पत्ति की हानि होती है। इस लिए जरूरी है कि इन प्रोजेक्ट्स को तेजी से पूरा किया जाये। मैं मंत्री महोदय से यह भी विनति करना चाहता हूँ कि देरी होने के जो कारण हैं, उन को निकालना चाहिए। इस सम्बन्ध में आप की मिनिस्ट्री की जो परफार्मेंस है, वह सन्तोषजनक नहीं है। हमें सर्फ रिलायेंस की बात करते हैं,— लेकिन इस तरह से तो सर्फ रिलायेंस नहीं आ सकता। आप को शीघ्रता से कदम उठाना चाहिए ताकि ये प्रोजेक्ट्स जल्द से जल्द पूरे हो सकें।

इस साल पांचवीं पंच वर्षीय योजना के लिए एडवांस एक्शन के रूप में 10 लाख रुपया टोकन धनराशि रखी गई है। इस रकम को बढ़ा कर, अच्छा प्लानिंग कर के इरिगेशन तथा पावर के काम को बढ़ाना चाहिए। इस साल आपने 272 करोड़ रुपये का आउट-ले किया है और 9 मिलियन हैक्टअर में इरिगेशन देने का वायदा किया है, लेकिन मुझे शक है कि इतना इरिगेशन हो सकेगा। मैं यह बात इस लिए कहता हूँ कि आप कहते हैं कि पावर एण्ड इरिगेशन स्टेट सब्जेक्ट है और सेक्टर उस में असिस्टेंस देता है। मैंने पिछले तीन दिनों से लाइब्रेरी में पता लगाने की कोशिश की कि पिछले तीन-चार सालों से किस किस स्टेट को कितना-कितना एलोकेशन दिया गया और कितना उन्होंने बिना खर्च किये सरेण्डर किया लेकिन पता नहीं चला। हम हमेशा रकम को बढ़ाने की बातें करते हैं, केन्द्र सरकार रुपया भी खर्च करना चाहती है, एलोकेशन भी करती है, उस के बाद रुपया खर्च न हो और सरेण्डर किया जाये—यह तो अच्छी बात नहीं है। रुपया क्यों सरेण्डर होता है उस के कारण की तलाश करना चाहिए।

चौथी पंच वर्षीय योजना में 4.8 मिलियन हैक्टअर को पूरा करने का आपने वायदा किया था, लेकिन अब 3.8 मिलियन हैक्टअर के यूटिलाइजेशन की बात कही जाती है और यह भी कहा जाता है कि 90 परसेंट यूटिलाइजेशन हो रहा है। यह कैसे सम्भव है— जब कोई प्रोजेक्ट बहुत देर से पूरा होता है तो उसके 10 साल बाद 90 परसेंट यूटिलाइजेशन होता है। इस लिए मेरा सुझाव है कि इसमें इन्टीग्रेटेड डेवलपमेंट प्लानिंग होना चाहिए। इरिगेशन और एग्रीकल्चर दोनों को मिला कर एक कोऑर्डिनेशन कमेटी बननी चाहिए। हमारी जमीनों के नीचे जो पानी है, नहरों में जो पानी है, उसको निकाल कर ज्यादा से ज्यादा इरिगेशन किया जाय। कई जगहों पर सब-सायल वाटर जो ड्रेन करने

की जरूरत पड़ती है, यदि ज्यादा से ज्यादा कुएं बनाये जायें और कुओं के जरिये उस पानी का उपयोग सिंचाई के लिए हो तो फिर ड्रेनेज की जरूरत नहीं पड़ेगी और जमीन भी खराब नहीं होगी।

हमारे यहां इन्टर-स्टेट रिवर डिस्प्यूट्स चल रहे हैं—जिनके फैसले नहीं हो पा रहे हैं। आप इलैक्ट्रिसिटी के लिए नेशनल ग्रिड बनाने जा रहे हैं, यदि पानी के लिए भी ऐसा ही नेशनल ग्रिड बनायें तो मैं उस का भी समर्थन करूंगा। लेकिन इस के साथ ही शुक्ला साहब ने जैसा कहा है, मैं उस का भी समर्थन करता हूं। इलैक्ट्रिसिटी का रेट सारे देश में एक-सा होना चाहिए और पानी का रेट भी एक-सा होना चाहिए। इस समय एक-तिहाई इरिगेशन सरकारी नहरों से होती है और दो-तिहाई प्राइवेट कुओं, नहरों या ट्यूब-वेलज से होती है। इसके बारे में इरिगेशन कमीशन ने हिसाब लगाया था और उस के बाद पंजाब यूनिवर्सिटी ने भी एक कमेटी नियुक्त की थी, उन्होंने हिसाब लगाकर बतलाया कि प्राइवेट इरिगेशन पर 72 रुपये से 340 रु० प्रति एकड़ तक खर्च आता है, क्योंकि उन को डीजल या इलैक्ट्रिसिटी से पानी निकाल कर खेती करनी पड़ती है, जबकि सरकारी साधनों से जो इरिगेशन की जाती है, उस पर एक रुपये से 9 रुपये इरिगेशन टैक्स पड़ता है—यह बहुत कम है। मेरा सुझाव है कि इस को बढ़ाना चाहिये इस से राष्ट्रीय सम्पत्ति बढ़ेगी और इरिगेशन तथा पावर प्राजेक्ट में लगाने के लिए ज्यादा पैसा मिल सकेगा।

मेरी कांस्टीचूएन्सी में माहली—दीबी अर्थात् अमर-प्रवार प्राजेक्ट है—यह मल्टी प्राजेक्ट है—हाइड्रो-इलैक्ट्रिकल इरिगेशन प्राजेक्ट है। यह अभी तक सेंटर द्वारा कलिभर नहीं किया गया है, मैं चाहता हूं कि इसको जल्द से जल्द कलिभर करना चाहिए। मेरे प्रदेश में सुखा पड़ा हुआ है, इस लिए वहां पर फाइ-नेन्शल यार्ड-स्टिक को रिलेक्स करना चाहिए।

सूखे के समय में प्रदेशों ने जो जो प्राजेक्ट लिए हुए हैं उन को इरिगेशन डिपार्टमेंट मान्यता दे ताकि वे काम जारी रह सकें। मेरे यहां कूकड़ी योजना है, उस की सेकण्ड स्टेज की मंजूरी दीजिये। डिम्बा डैम कब शुरू होगा—इसके बारे में भी बतलाइये। उपाध्यक्ष महोदय, महाराष्ट्र में इरिगेशन बहुत कम है, सारे देश का 25 परसेन्ट है, जिस में 3 टका नहरों से और 4 टका कुओं से है। इस लिए महाराष्ट्र के इरिगेशन को ज्यादा से ज्यादा बढ़ाने की कोशिश करनी चाहिए।

इन्टर स्टेट रिवर डिस्प्यूट्स के बारे में जल्दी विचार करें और हो सके तो पोलिटिकल डिजीजन्ज दे दें। जिन जिन कामों के लिए ट्रिब्यूनलज बने, उनके फैसले आये, लोगों ने उन को नहीं माना, इस लिए मैं प्रधान मंत्री जी से निवेदन करना चाहता हूं कि जब ट्रिब्यूनलज की बात को कोई नहीं मानता तो पोलिटिकल डिजीजन्ज दें, जिस से समस्या हल हो सके। लवाद में पड़ने से कोई फायदा नहीं है और बहुत समय खराब जाता है। जल्दी निर्णय करने से सूखा-ग्रस्त प्रादेशों को बहुत फायदा होगा।

श्री विभूति मिश्र (मोतीहारी) : उपाध्यक्ष महोदय, मैं मंत्री जी की मांगों का हार्दिक समर्थन करता हूं, लेकिन मंत्री जी से शिकायत करता हूं—पहले वह मेरे यहां गण्डक की देख-रेख में जाया करते थे, लेकिन साल भर से वहां नहीं जा सके हैं। नतीजा यह हुआ है कि गण्डक का काम धीमा पड़ गया है। गण्डक पर 150 करोड़ पये खर्च हो चुके हैं, लेकिन सारे एरिया को मिलाकर केवल ढाई लाख एकड़ में सिंचाई हुई है, और जगह सिंचाई नहीं हो रही है इतना रुपया खर्च होने के बाद सिंचाई का काम न हो तो यह अच्छी बात नहीं है, इस लिए मुझे कहना पड़ता है—बीजों की कीमत बढ़ रही है—सरकार का ध्यान इस तरफ जाना चाहिए जब बाज बन गया है, तैयार हो गया है तो किसान के खेतों में पानी जाय इसमें क्या

[श्री विभूति मिश्र]

क्या दिक्कतें हैं, उनको समझना चाहिए, तथा, उनको हल करना चाहिए ताकि किसानों का फायदा हो सके, उन को पानी मिल सके।

दूसरी बात — गण्डक में बहुत ज्यादा सीपज हो रहा है, नीचे की जमीनों में पानी भर जाता है, जिस की वजह से वे जमीन बरबाद हो रही हैं। सीपज को रोकने के लिए जो मैन-कैनल है, उसकी बगल से एक दूसरी कैनल देने जा रहे हैं, उसके वास्ते आप जमीन प्राप्त कर ने के लिए फिर किसानों को तंग करेंगे। किसानों से जमीन लेने के बजाय मेरा सुझाव है कि आप नहरों को पक्की करें ताकि सीपज न हो। यह एक बहुत जबरदस्त समस्या बन गई है, इस लिए मैं चाहता हूं कि नहरों को पक्का बनाना चाहिए। इससे पानी भी बरबाद नहीं होगा और सीपज भी रुक जायेगी।

मंत्री जी से जयपुर में हमारा जो करार हुआ था कि आप कैनल को नार्थ में रेलवे लाइन के करीब ले जायेंगे, लेकिन अब उस को नार्थ में ले जाने के बजाय साउथ की तरफ ले जाया जा रहा है, जिस से उत्तर का बहुत बड़ा एरिया छूट रहा है, इस लिए मैं चाहता हूं कि जयपुर में जो बात तय हुई थी उसके अनुसार काम करायें हम लोगों के सामने सारे नक्शे को बना कर वहां के अफसरों को हिदायत दें कि जो तय हुआ था उसके खिलाफ न जायें।

बहुत से आदमियों को मुआवजा नहीं मिला है नहरों के लिए जमीनें ले लीं, लेकिन मुआवजा अभी भी बाकी है। बहुत से ठेकेदारों को पैसा नहीं दिये हैं। हमारे देश भक्त श्री फतहबहादुर महतो का पैसा बाकी है, आज तक उन का फैसला नहीं हुआ है। इसलिए जिनका मुआवजे का पैसा बाकी है, ठेकेदारी का पैसा बाकी है, उसे तय करना चाहिए।

हमारे यहां सिकरहना का खगरिया से ऊपर तक आने-राम सुबुआ तक बांध बन गया

है इसके ऊपर बांध न होने से पानी फैलकर बाढ़ कर देता है। मोतिहारी से लौरिया तक नदी का पानी फेल जाता है, बाढ़ आ जाती है, इस से बहुत ज्यादा क्षति होती है एक रिपोर्ट में मैंने देखा है कि चनतपटिया से मोतिहारी तक दोनों तरफ बांध बनाने जा रहे हैं, यदि दोनों तरफ बांध बन जाय वो बहुत ही अच्छी बात है, लेकिन इस काम को जल्द से जल्द किया जाय। सिकरहना क्षेत्र में बांध बनने से वहां के गांवों की भूमि बांध में चली जायेगी, वहां के लोगों को बड़ी चिन्ता है—उनके बारे में पहले से उचित व्यवस्था होनी चाहिए। मैं चाहता हूं कि मंत्री महोदय वहां चले और सब के सामने संतोषप्रद उत्तर दें, उनके वहां जाने से जो आप के इंजीनियर हैं, वे भी ठीक से काम करेंगे।

एक बागमती योजना बनी है, इस में हमारे क्षेत्र के ढाका योजना के बनने से पताही और मधुवन क्षेत्र पड़ते हैं। इसमें इतनी देर हो रही है कि उस इन तीन थानों को कोई फायदा नहीं होने वाला है। इसलिए मैं चाहता हूं कि मंत्री जी वहां चल करके हमको बतायें कि हमको फायदा होगा या नहीं। उस समय कहा गया था कि तीन थानों को फायदा होगा

15.07 hrs.

एक बात यह है कि उत्तर बिहार में सारे देश से सबसे कम बिजली है। यदि सारे देश का एवरेज 11 है तो उत्तर बिहार का एवरेज एक है। आजादी के 25 सालों बाद भी अगर यही हालत रही इस तरह से डेबेलपमेंट हुआ तो फिर मैं तो यही कहूंगा कि इस डेबेलपमेंट से हम को कोई फायदा नहीं है। इस देश के कुछ क्षेत्र तो बहुत डेबेलप हो गए लेकिन कुछ क्षेत्र वैसे ही पड़े हुए हैं। इस देश में जो जो बिजली मिलती है, उसका जो एवरेज है वह 97 किलोवाट है जबकि हमारे प्रदेश का एक क्षेत्र ऐसा है जहां पर एक आक्मी को केवल 8 किलोवाट बिजली मिलती है। उपाध्यक्ष जी, यदि आप हमारे यहां चले तो आम

खाते ही रहेंगे और बिजली चली जायेगी। फिर वहाँ पर लालटेन और मोमबत्ती भी नहीं मिलती है। इसलिए मैं कहता हूँ कि बिजली की हालत को सुधारें और उसका ठीक से इंतजाम करें।

एक बात यह भी है कि बरौनी में यर्मल पावर स्टेशन है और मुजफ्फरपुर में दूसरा बनाने जा रहे हैं। मुजफ्फरपुर से बरौनी 60 मील है और मुजफ्फरपुर से भैंसालोटन सैंकड़ों मील है। इनके विभाग को क्या न्याय सूझा है कि 60 मील पर पावर स्टेशन बनायें और फिर सौ मील आगे बिजली ले जायें। अगर ऐसा ही न्याय करेंगे तो उसको लोग उहने के लिए तैयार नहीं रहेंगे; इसलिए मैं हिदायत करना चाहता हूँ कि सरकार इस सम्बन्ध में उचित निर्णय ले। हमारे मन्त्री जी बहुत बड़े विशेषज्ञ हैं, उनके ज्ञान का फायदा उठाना चाहते हैं। हम चाहते हैं वह न्याय करें।

एक बात और है। मेरे जिले में मसान नदी का पानी सिंगरहरना नदी में आता है। उसमें आधा पानी मसान नदी का होता है और उसकी बजह से सिंगरहरना नदी में पानी भर जाता है और बाढ़ बहुत ज्यादा हो जाती है। नतीजा यह होता है कि सिंगरहरना नदी के दोनों तरफ के काफी लोग बह जाते हैं। इसी लिए मसान नदी पर एक डैम बनाने की बात थी लेकिन पता नहीं वह डैम क्यों नहीं बना, कहां वह रुका हुआ है? हमारे मिनिस्टर तो कहते हैं कि बनेगा लेकिन यहां आने पर वह स्कीम खटाई में पड़ जाती है। इसलिए जो भी काम करना है वही कहें कि इस काम को हम करने जा रहे हैं और इतने दिनों में करेंगे तथा जिस काम को नहीं करना हो उसके बारे में नहीं कहना चाहिए। सही बात कहने से लोगों का भरोसा होता है और गलत बात कहने से लोगों का विश्वास उठ जाता है।

आप नेशनल वाटर ग्रिड बनाने की बात कर रहे हैं। मैं चाहता हूँ बिजली का भी नेशनल

ग्रिड होना चाहिए। केवल पानी का ही नेशनल ग्रिड नहीं होना चाहिए बल्कि पानी और बिजली दोनों का नेशनल ग्रिड होना चाहिए ताकि सभी जगह लोगों को बराबर सुविधा मिल सके। (व्यवधान)

उपाध्यक्ष जी, यदि आप कहें तो मैं बैठ जाऊँ। किसी को तो 20 मिनट मिले, किसी को 15 मिनट मिले। अगर यही न्याय है तो ठीक नहीं है। आपके ऊपर लिखा हुआ है धर्म चक्र प्रवर्तनीय।

MR. DEPUTY-SPEAKER. आप एक मिनट रुकिए।

It is not so. After I had announced that 7 minutes would be given, on the request of your Whip, I have not made any discrimination. So do not bring this charge against me. If you take more time, it means that your other colleagues will not have the time. Otherwise, I have no reason to deny you the time.

श्री विभूति मिश्र : किसी को तो आप खिलायें पूर्ण रूप से और किसी को केवल जलपान करायें—ऐसा मत कीजिये। किसी को भरपेट भोजन और किसी को जलपान इसमें झगड़ा हो जायगा। आप एक रूप से न्याय करें।

15.05 hrs.

DEATH OF MEMBER

MR. DEPUTY-SPEAKER: I have a very sad news to announce. A little while ago, a very valued colleague, Shri Teja Singh Swatantra, was seized with a heart attack and he was taken to the Willingdon Hospital where he was declared to have passed away.

Death comes to everybody, but when it comes in this manner it is like a mighty blow at the heart. I think obituary references to his passing away will be made on Monday. We cannot

[Mr. Deputy-Speaker]
do it just now. But I take it that the House joins with me in conveying to the members of his family that we share their grief, and we send to them our sympathies and condolences.

As a mark of respect to the memory of this departed colleague, the House

will stand adjourned to meet again at 11.00 A.M. on Monday.

15.07 hrs.

The Lok Sabha then adjourned till Eleven of the Clock on Monday, April 16, 1973|Chaitra 26, 1895 (Saka).

LOK SABHA DEBATES

LOK SABHA

Monday, April 16, 1973/Chaitra 26,
1895 (Saka)

*The Lok Sabha met at
Eleven of the Clock*

[MR. SPEAKER in the Chair]

OBITUARY REFERENCE

MR. SPEAKER: Hon. Members, the House is already aware of the sad and sudden demise of Shri Teja Singh Swatantra, a sitting Member of this House. Shri Teja Singh Swatantra had attended the House on Thursday last but suddenly developed heart trouble. He was immediately attended to by our doctor and rushed to Willingdon Hospital but within a few minutes on reaching he expired.

Shri Teja Singh Swatantra represented the Sangrur constituency of Punjab. Earlier he had been a Member of the Punjab Legislative Assembly during the years 1937—1945 and of the Punjab Legislative Council during the years 1964—1969. A very very amiable and soft spoken person, he was a devoted social worker and worked a lot for the betterment of the peasants and introduction of land reforms. In the House also he used to champion the cause of the agriculturists and down-trodden. One of our stalwart freedom fighters, a great patriot and revolutionary, he spent most of his early years abroad carrying on the struggle for freedom from other countries and organising the Ghaddar Party. He was with me only

a day before and we had a common programme of going together to Amritsar to attend the freedom fighters convention but the powerful hand of death snatched him away.

We deeply mourn the loss of this friend and I am sure the House will join me in conveying our condolences to the bereaved family.

THE PRIME MINISTER, MINISTER OF ATOMIC ENERGY, MINISTER OF ELECTRONICS, MINISTER OF INFORMATION AND BROADCASTING AND MINISTER OF SPACE (SHRIMATI INDIRA GANDHI): Mr. Speaker, Sir, we share the sentiments you have expressed.

Death has snatched away Shri Teja Singh Swatantra with tragic suddenness last week. He was full of plans for his intervention in the Lok Sabha discussions and for future tours and other work. How could anyone have thought that his end was so imminent?

He was a fine person, a grand old man and indeed he was a warrior who fought for the nation's freedom and for the rights of the oppressed. His work for the kisan movement will be particularly remembered, as will his early wanderings abroad pleading our cause and his later services as legislator in the Punjab and here in our national Parliament.

We lose a respected colleague, the nation, a veteran worker. Our sincere sympathy and condolences go to his family and colleagues.

SHRI JYOTIRMOY BOSU (Diamond Harbour): Sir, we are plunged in deep sorrow due to sudden demise

of Shri Teja Singh Swatantra. Shri Swatantra was a great fighter for the peasants and workers and he was always there in the forefront. His passing away is a deep loss to our country and to all of us.

Would you kindly convey our deep sense of sympathies and condolences to his bereaved family?

SHRI INDRAJIT GUPTA (Alipore): Sir, this is particularly a sorrowful day not only for all of us but particularly for our party. I do not wish to say much because Comrade Teja Singh's life is known to all, not only that he was a freedom fighter but he was a living symbol of that generation of immortal revolutionaries who risked everything including their lives, security of their homes and everything in order to fight for the liberation of our motherland.

You know that, for many years, he led a hunted life. For years, he had to work in illegal conditions with a price on his head. He never financed for a single moment. He was associated with the immortal Ghaddar Movement. Many of his colleagues paid with their lives and later on, he organised and led the militant struggle of the peasants of the old Pepsu for their freedom and rights against the princely rule. He was essentially a man of the soil with deep bonds, with the peasantry whom he served all his life. He served the cause of the Communist Party.

As you have remarked, he was so gentle and soft-speaker that one could hardly guess from his demeanour what a story and revolutionary life he had led! He died in tragic circumstances, I am told. I was not here at that time but the doctors at the hospital said that when his body arrived there, he was already dead. I am not in a position to say whether it would have been possible to save him if immediate and requisite medical attention had been forthcoming when he was stricken with heart attack here in this

House. Anyway, nothing will bring him back now.

I request you, on behalf of all of us, to convey the condolences of this House to his family and I take this opportunity, on behalf of our party, of thanking you, the Prime Minister and other colleagues for the sentiments they have expressed on this occasion.

श्री अटल बिहारी वाजपेयी (ग्वालियर): अध्यक्ष जी, मैं अपने दल की ओर से और अपनी ओर से भी श्री तेजा सिंह स्वतन्त्र के प्रति विनम्र श्रद्धाञ्जलि समर्पित करना चाहता हूँ। उनका देहावसान बड़ी दुखदायी परिस्थितियों में हुआ। वे सदन में उपस्थित थे, अचानक हमारे बीच में से उठा लिये गये। मंसूब में उनके साथ हमारा परिचय बहुत थोड़ा रहा। लेकिन श्री तेजा सिंह स्वतन्त्र उस पुरानी पीढ़ी से सम्बन्धित थे स्वतन्त्रता के युद्ध में जिनके योगदान ने सारे देश को प्रेरित और अनुप्राणित किया। बाल्यावस्था में जिन क्रान्तिकारियों की कथाएँ आजादी की लगेन जगाती थीं उनमें, गदर पार्टी के व्यक्ति और उनमें श्री स्वतन्त्र का नामोल्लेख, अपरिहार्य था। जीवन भर वह संघर्ष करते रहे और अचानक हमारे बीच में से अन्तर्धान हो गये। पंजाब के सार्वजनिक जीवन को उनके निधन से गहरी क्षति हुई है। राजनीतिक मतभेद के बावजूद उनकी प्रामाणिकता, उनकी कर्तव्य निष्ठा और दलित पीड़ितों के लिए सतत संघर्ष करने का उनका संकल्प हमारे लिए सदैव मार्गदर्शन का काम करेगा।

आज सारा देश उनके निधन से दुखी है। पार्टियों की दीवारें ऐसे व्यक्तियों को नहीं बाँध सकतीं। मैं चाहूँगा कि आप हमारी संवेदना को भी उन के शोक-संतप्त परिवार तक पहुँचा दें।

श्री इमाम-उल-हिन्द (देहरादून): अध्यक्ष महोदय, मैं एक देहात में था और वहाँ मुझे यह दुःखद खबर नहीं मिली थी। मैं

साम को नहीं जाने पर जब मुझे यह समाचार मिला तब मैं बहुत मर्माहत हुआ। कभी-कभी श्री तेजासिंह स्वतन्त्र से बातें करने का सीमाव्य होता था और उनकी मिठास का एक बड़ा जाड़ हम लोगों के ऊपर छा जाता था। वे हमारे बड़े पुराने नेताओं में थे। 1919 में ही वे कांग्रेस में शरीक हुए और उसके बाद उनकी जिन्दगी सतत संघर्ष और त्याग की जिन्दगी रही। आज हम सभी यह अनुभव करते हैं कि वे उस पुरानी पीढ़ी के नेता थे, कार्यकर्ता थे, जो हम लोगों के बीच से अब खत्म हो रही है।

हम अपने दिल की तरफ से दिवंगत आत्मा के प्रति श्रद्धांजलि अर्पित करते हैं और शोक-संतप्त परिवार के प्रति अपनी संवेदना जाहिर करते हैं।

SHRI V. MAYAVAN (Chidambaram): Mr. Speaker, on behalf of the DMK Group in Parliament, I associate myself with the sentiments expressed by the Speaker, the Leader of the House and the Leaders of other groups on the demise of comrade Teja Singh Swatantra. He was my neighbour and he was living in the next flat. In spite of his old age, he was very active and I could see him discussing party problems with his colleagues. On behalf of the DMK Group, I request the Speaker to convey our heartfelt condolences to the bereaved family.

PROF. MADHU DANDAVATE (Rajapur): Sir, one by one the great leaders of our freedom struggle are being snatched away from us, the latest being Shri Teja Singh Swatantra. In this country we had always true friends for our freedom struggle one within our border and one without. Here was one who fought on both fronts. His membership was the reflection of his position at the grass root level in his own State and elsewhere. He was also a man of the masses and he worked inside the House. On my behalf and on behalf of the Socialist Party, I pay my tribute to the departed leader and

I request you, Sir, to convey our condolences to the members of the bereaved family, the proudest family being the Communist Party of India.

श्री राम कंठर (टोंक) : अध्यक्ष महोदय, मैं अपने दिल, स्वतन्त्र पार्टी की ओर से श्री तेजा सिंह स्वतन्त्र के निधन पर गहरा शोक प्रकट करता हूँ। 13 तारीख को जब श्री तेजा सिंह स्वतन्त्र बैंक जा रहे थे तब मैं लिफ्ट में उनके साथ-साथ आया था। थोड़ी देर के बाद यह खबर मिली कि उनका स्वर्गवास हो गया है। श्री तेजा सिंह स्वतन्त्र के प्रदेश पंजाब में मैं कितनी ही दफे गया। मैंने देखा कि वह एक सच्चे और ईमानदार कार्यकर्ता थे और कृषकों और गरीब वर्ग के विशेष वफादार थे, तथा उनके हितों के लिए लड़ाई लड़ते थे। इस लिये आप प्रधान मंत्री जी और अन्य नेताओं की संवेदना के साथ-साथ हमारी संवेदना भी शोक-संतप्त परिवार तक पहुँचाने की कृपा करें।

श्री भाग सिंह जोरा (भटिहा) : अध्यक्ष महोदय, बेशक आज श्री तेजा सिंह स्वतन्त्र हमारे बीच में नहीं हैं, मगर उनके पीछे एक इतिहास है। पचास साल से ज्यादा वह स्वतन्त्रता संघर्ष में रहे। बचपन से लेकर अंतिम षड़ी तक एक क्षण के लिए भी उन्होंने अपने आप के लिए और अपने घर के लिए नहीं सोचा। वह बराबर लड़ते रहे गुदगर्दों को स्वतन्त्र कराने के लिए। पहले उनका नाम समुन्द सिंह था, लेकिन जब एक सन्धे की लीडरशिप करते हुए गुदगर्दों से लेना भीतना, गुदगर्दपुर को उन्होंने स्वतन्त्र करवाया, उसके बाद उनका नाम स्वतन्त्र पड़ा और आज तक वह इसी नाम से जाने जाते रहे। उन्होंने किसानों और मजदूरों के लिए अपनी सारी जिन्दगी लगा दी और अन्दरगाउँ रह कर भी उन्होंने दो पालिसीमेंट के एलेक्शन लड़े। हम उस समय छोटे छोटे थे और उनके लिए हम को काफी काम करना पड़ा।

मैं उनके साथ पिछले बारह तेरह साल से रहा, लेकिन मैं हमेशा उनकी याद में

पोलिटिकल गुरु समझता रहा। मुझे अफसोस है कि जब उनकी आखिरी बड़ी आई तब मैं यहां पर नहीं था। मैं एक गांव में था जहां रेडियो पर मैंने उन के निधन की खबर सुनी। उन्होंने अपनी सारी जिन्दगी लोगो के काम के लिए बिताई और कई कालेज खोले। आखिरी समय आने के पहले भी उन्होंने एक कालेज खोला, जिसको गुरुद्वारा प्रबन्धक कमेटी ने ले लिया। अब भी वह एक कालेज कीर्ति कालेज के नाम से चला रहे थे। तीन या चार दिन पहले वह बहा गये। वहां पर तन्खवाहें देने के लिए रुपया नहीं था। उन्होंने दो दिन लगा कर 10 हजार रुपये इकट्ठा करके उनको दे दिया कि तनखवाहे दो। इसी तरह से वह हर समय लोगो के लिए मोचते रहते थे।

उनको श्रद्धांजलि अर्पित करते हुए मैंने पंजाब के लोगो से अपील की है और यहा भी अपील करूंगा कि उन्होंने इस कालेज का जो काम शुरू किया है वह एक महान् काम है। आज वह हमारे बीच में नहीं है। उनके लिए सच्ची श्रद्धांजलि यह होगी कि प्राइम मिनिस्टर साहब पंजाब सरकार से कहे कि वह उनके इस कालेज को अपने हाथ में लेकर उनके नाम से चलाये। यही उनकी सारी जिन्दगी है। एक ही बच्ची उनकी थी जो उनकी ग्रन्ड-ग्राउंड लाइफ में सात साल ही हो कर चली गई। उनका छोटा भाई था जिस को बीस साल की कैद हुई। उनकी जायदाद भी जब्त हुई और उनका घर भी। जो उनका अन्तिम संस्कार हुआ वह वही पर हुआ है जहां उनका घर था। उन्होंने अपनी सारी जिन्दगी कुर्बानी की है और आखिरी दम तक वह लोगो के लिए लड़ते रहे हैं।

उनको श्रद्धांजलि अर्पित करते हुए उनके नाम पर मैंने जो अपील की है मैं समझता हूं कि उसमें सब लोग मदद करेंगे। मैं आपसे विनती करता हूं कि आप मेरे इन सेंटिमेंट्स को उनके परिवार तक पहुंचा दें

श्री सारबजो राय (बोसी) : अध्यक्ष महोदय, यह संयोग की बात थी, पता नहीं, इसको दुर्भाग्य कहूं या सौभाग्य कि स्वतन्त्र जी के अन्तिम क्षणों में मैं उनके पास खड़ा था। उनका और मेरा सीधा सम्पर्क बाईस साल से रहा, हालांकि ऐतिहासिक रूप में मैं उनके बारे में 35-36 सालो से सुनता चला आ रहा हूं। उनका 55 वर्ष का सघर्षमय जीवन अपने में स्वयम् एक इतिहास छिपाये हुये चल रहा था। वे स्वतन्त्रता संग्राम के सेनानी रहे और समाजवाद की स्थापना के लिये उनका सिपाही जीवन अन्तिम क्षणो तक बना रहा। उनके जीवन का अन्तिम सपना यह था कि हिन्दुस्तान में एक ऐसी भारतीय व्यवस्था कायम हो जिस में विषमता का नामो निशान न रहे। मेरा विश्वास है कि उनके प्रति हमारी सच्ची श्रद्धांजलि यही होगी कि हम उनके अधूरे सपने को पूरा करें। हमारे राष्ट्र ने समाजवाद के लक्ष्य को स्वीकार कर लिया है, इससे अवश्य ही उनको अन्तिम समय में सन्तोष रहा होगा। जिस व्रत को लेकर वे और उनके जैसे कुछ लोग शुरू शुरू में अकेले चले थे, आज सारे राष्ट्र ने उसको अपना लिया है। मेरा सौभाग्य है कि मैं 13 अप्रैल को वीर-प्रसविनी भूमि पंजाब के उस अंचल का, आलुना गांव की जिस घरती की कोख ने उस क्रान्तिकारी वीर पैदा किया था; उसका दर्शन किया।

इन शब्दों के साथ मैं श्री स्वतन्त्र को अपनी श्रद्धांजलि अर्पित करता हूं और आप से आग्रह करता हूं कि हमारी तुच्छ संवेदना उनके परिवार तक पहुंचाने की कृपा करें।

MR. SPEAKER: The House may stand in silence for a short while to express its sorrow.

The Members then stood in silence a short while.

Setting up of a Road Board

*721. SHRI ARVIND M. PATEL:
SHRI S. A. MURUGA-
NANTHAM:

Will the Minister of SHIPPING AND TRANSPORT be pleased to state:

(a) whether Government are considering to set up a Road Board on the pattern of the Railway Board;

(b) if so, the broad outlines thereof?

THE MINISTER OF SHIPPING AND TRANSPORT (SHRI RAJ BAHADUR): (a) Government have under consideration the proposal to set up a Central Road Board. The proposed Road Board will not be statutory in character like the Railway Board.

(b) Details of the proposal are still being worked out.

श्री अरविन्द एम० पटेल : रास्तों के अच्छे विकास पर देश का विकास, और खास तौर पर ग्रामीण क्षेत्रों का विकास, निर्भर है। रोड बोर्ड का पहले से ही गठन किया जाना चाहिये था। लेकिन ग्राज भी सरकार ने इस बारे में निर्णय नहीं लिया है। मैं मंत्री महोदय से जानना चाहता हूँ कि सरकार का यह सोचना निर्णय में कब बदलेगा।

श्री राज बहादुर : इसमें एक प्रश्न नहीं, बल्कि कई प्रश्न हैं, जिनको निर्णीत करना है। हम सब जानते हैं कि राष्ट्रीय राजसगों तथा उन मार्गों को छोड़कर, जिनको केन्द्रीय सरकार द्वारा सहायता मिलती है, शेष सड़कें राज्य सरकारों के क्षेत्र में आती हैं। इसलिए इस रोड बोर्ड का काम ठीक चले, आपस में तालमेल, कौशल-

नेशन, स्थापित किया जा सके और अधिक तेजी से, गति से, काम हो, ये सब बातें बहुत महत्वपूर्ण हैं। अभी तो हमें रोड्स का ऐकजीक्यूशन, उनका बनाना, भी राज्य सरकारों की मार्फत कराना होता है। इसलिये यह प्रश्न काफी उलझा हुआ है।

श्री अरविन्द एम० पटेल : सभी राज्यों के मुकाबले में गुजरात राज्य रास्तों के मामले में पिछड़ा हुआ है। नागपुर प्लान के मुताबिक कई राज्यों ने सड़कों सम्बन्धी अपनी योजना पूरी कर ली है। लेकिन नागपुर प्लान के मुताबिक गुजरात राज्य में कुछ भी काम नहीं हुआ है। मैं यह जानना चाहता हूँ कि जब रोड बोर्ड गठित होगा, तो क्या नागपुर प्लान के मुताबिक गुजरात राज्य को प्राधान्य दिया जायेगा।

श्री राज बहादुर : जिन परिस्थितियों में 1943 में नागपुर प्लान बनाया गया था, वे बहुत दूर पीछे रह गई हैं। उसके बाद 1961 में हमारे चीफ इंजीनियर्स के एक सम्मेलन ने 1961 से 1981 तक का एक बीस वर्ष का एक प्रोग्राम बनाया, जिसके अन्तर्गत लगभग सात लाख किलोमीटर सड़कें हम बना चुके हैं। आशा है कि शेष आठ बीस वर्षों में उस योजना के अन्तर्गत लगभग बस लाख किलोमीटर सड़कें बनाने का हमारा जो लक्ष्य है—मैं याददास्त से कह रहा हूँ—उस को हम पूरा कर पायेंगे।

SHRI HARI KISHORE SINGH: In view of the fact that some of the State Governments have not been able to utilise funds allocated for building of lateral road projects, may I know whether the Government will consider setting up of its own agency for the construction of roads specially in the backward regions of the country?

श्री राज बहादुर : जहां तक लेटरल रोड प्रोजेक्ट का सम्बन्ध है, मुख्यतः बरेली से अमीनबाग तक की एक विशेष सड़क है।

जो विशेष कारणों से, विशेष हेतु से, निर्मित की गई है। उसमें काफी प्रगति हुई है और काफी कार्य सम्पन्न हो चुका है। उसमें जहां कहीं थोड़ी बहुत विशेष कार्यवाही बाकी है, वह बहुत तेजी से की जा रही है।

SHRI JYOTIRMOY BOSU: Will the hon. Minister kindly tell us whether they have formulated any national transport policy and if so, the details thereof and if not, the reasons therefor?

MR. SPEAKER: This is about setting up of Road Board.

SHRI JYOTIRMOY BOSU: National transport policy covers road transport also.

SHRI RAJ BAHADUR: The Road Board will essentially cover the activities about road construction.... (Interruption) We have a policy.

श्री शंकर बयाल सिंह : देश में जो नेशनल हाईवेज हैं केन्द्रीय सरकार उनके लिये बहुत रुपया देती है, लेकिन उनका मेंटेनेंस ठीक से नहीं हो पाता है। खास कर ग्रांड ट्रंक रोड की हालत इतनी बदतर है कि एक-एक जगह दो दो सौ, चार चार सौ ट्रक खड़े हो जाते हैं मैं यह जानना चाहता हूं कि क्या सरकार के विचाराधीन कोई ऐसी योजना है कि देश में जितने नेशनल हाईवेज हैं, उनका नियंत्रण और मेंटेनेंस केन्द्रीय सरकार अपने हाथ में ले ले।

श्री राज बहादुर : यह कहना कि सारे नेशनल हाईवेज का मेंटेनेंस सन्तोषजनक नहीं है, मेरे खयाल में हमारे इंजीनियर्स, उन सड़कों को बनाने वालों और हमारी राज्य सरकारों के प्रति न्याय नहीं होगा। हां, यह निश्चित बात है कि कहीं कहीं बहुत सन्तोषजनक कार्य नहीं हो रहा है। जहां तक ग्रांड ट्रंक रोड का सम्बन्ध है, जैसा कि माननीय सदस्य जानते हैं, उसमें से एक भाग

नेशनल हाईवे में आता है और कुछ भाग नेशनल हाईवे में आता ही नहीं है। इसलिये उसका उत्तरदायित्व राज्य सरकार पर है। लेकिन मुझे यह कहते हुए प्रसन्नता है कि विशेष रूप से यू० पी० सरकार की तरफ से, और बिहार में भी, इसकी तरफ ध्यान दिया जा रहा है और राष्ट्रीय राजमार्गों पर विशेष रूप से पिछले दो वर्षों में काम काफी तेजी आयी है।

श्री शंकर बयाल सिंह : मेरे क्षेत्र में ग्रांड ट्रंक रोड का साठ किलोमीटर भाग है। उसकी हालत बहुत बदतर है।

श्री राज बहादुर : मैं इस पर ध्यान दूंगा।

SHRI D. BASUMATARI: May I know whether there is a proposal from the Army to divert this road which the hon. Minister mentioned from Boroma to Missamari? This is important from strategic point of view.

SHRI RAJ BAHADUR: This concerns not the Road Board but a particular road which might come under Border Roads Development Board.

शहरों और कस्बों का सुव्यवस्थित विकास करने के लिये योजना

*722. **श्री मूल चन्द डागा :** क्या निर्माण और आवास मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या केन्द्रीय सरकार ने देश में शहरों और कस्बों का सुव्यवस्थित एवं सुन्दर ढंग से विकास करने के लिये कोई योजना बनाई है ;

(ख) यदि हां, तो उसकी मुख्य बातें क्या हैं ; और

(ग) इसे सुधारने के लिये सरकार ने क्या क्या कदम उठाये हैं ?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) to (c). Development of cities and towns is primarily the function of local bodies and State Governments. The Central Government assists by way of technical guidance and advice. Master Plans for 72 cities have also been drawn up with funds made available by the Central Government. The States have been asked to implement them through enactment of suitable legislation and allocation of funds from plan resources.

श्री मूलचन्द डागा : अध्यक्ष महोदय, सुन्दर शहर सुन्दर वातावरण पैदा करते हैं, जिस देश में शानदार नागरिक पैदा होते हैं, मंत्री महोदय का उत्तर गोल मोल है। उन्होंने कहा है कि अभी तक सरकार ने इस की तरफ कोई कदम नहीं उठाया है। मैंने यह पूछा था कि क्या सरकार की कोई योजना है। मंत्री महोदय को यह उत्तर देना चाहिए था कि "नहीं"। मैंने पूछा था कि क्या सरकार कोई योजना कार्यान्वित करेगी। मंत्री महोदय को कहना चाहिए था कि "नहीं"।

अपने लोकल बाडीज़ पर बला टाल दी है, जो यूनियन टैरिटरीज़ हैं, जहां आपका शासन चलता है वहां पर कोई योजना आप लागू करने को तैयार हैं या नहीं, कोई योजना आपकी बनी हुई है या नहीं?

श्री ओम मेहता : इस में कोई दो रायें नहीं हो सकती हैं कि सुन्दर शहरों से सुन्दर व्यक्ति डागा जी की तरह पैदा हो सकते हैं। उन्होंने यह भी कहा कि 25 साल में सेंटर ने कुछ नहीं किया। हमने तीसरी योजना में

पांच करोड़ रुपया इसलिए दिया था कि लोग अपने अपने मास्टर प्लान बनाएं और उन में से 72 शहर जो हैं उनके लिए मास्टर प्लान बनाए गए थे। जहां तक यूनियन टैरिटरीज़ का ताल्लुक है दिल्ली यूनियन टैरिटरी है। यहां पर दिल्ली डिवलेपमेंट आथोरिटी है और इसके तहत सारा काम यहां होता है।

श्री मूलचन्द डागा : आपने इस में यह भी कहा है :

"The States have been asked to implement them through enactment of suitable legislation and allocation of funds from Plan resources."

मैं जाना चाहता हूं कि आपने स्टेट्स को सलाह कब दी और क्या किसी स्टेट ने आपकी सलाह को आज तक माना या नहीं माना?

श्री ओम मेहता : 1969 में ऐसा कहा गया था। हमारी फाइनेंस मिनिस्ट्री उनको ब्लाक ग्रांट्स और ब्लाक लॉन्ज देती है और उस वक्त कहा था कि जहां तक हो सके वे अपने कुछ फंड्स इसकी तरफ डाइवर्ट करें ताकि हमारे शहर सुन्दर बन सकें।

SHRI KRISHNA CHANDRA HALDER: The Minister in his reply stated that 72 cities have been covered by Master Plans. I want to know whether the historic city of Burdwan and Murshidabad of West Bengal have been included in the Master Plan or not?

SHRI OM MEHTA: The Master Plans from West Bengal have been drawn for Asansol, Siliguri and Haldia only. Only these three cities were included at that time.

SHRI KRISHNA CHANDRA HALDER: What about the historic cities of Burdwan and Murshidabad?

SHRI OM MEHTA: It is the State Governments that have drawn up the Master Plans.

SHRI NAWAL KISHORE SINHA: May I know from the hon. Minister whether he proposes to advise the State Governments that cities and towns should be so located and developed as to act and function as growth centres in rural areas and not allowed to grow in a haphazard manner at the moment?

SHRI OM MEHTA: That is the actual function of our planning and in that connection we have already prepared some proto-type plans and we have circulated them to almost all the States advising them that they draw up plans on those lines.

SHRI PRABODH CHANDRA: The Minister has been kind enough to say that the Government of India had sanctioned Rs. 5 crores for the Master Plans for Delhi alone or for the whole country?

SHRI OM MEHTA: For the whole country.

SHRI PRABODH CHANDRA: The population of India is more than 50 crores and according to the Government's own estimates, hardly 40 per cent of the people have proper shelter over their heads. Does he feel that Rs. 5 crores sanctioned by the Government will in any way suffice the Governments of the States to make any plans worthwhile to give accommodation to the people?

SHRI OM MEHTA: The question is not of accommodation. The question is regarding preparation of the Master Plans. Rs. 5 crores has been given only for preparation of the Master Plans and not for providing houses.

PROF. MADHU DANDAVATE: Have the Union Government and the Planning Commission approved the twin Bombay project and I would like to know whether some central assistance has been assured and, if so, what is the quantum of assistance?

SHRI OM MEHTA: This question requires notice. But actually, the City and Industrial Development Corporation Ltd. for the twin city is already functioning.

PROF. MADHU DANDAVATE: Has any central assistance been assured or not?

SHRI OM MEHTA: I cannot say

श्री कृष्ण चन्द्र पांडे : आपने बताया है कि 72 शहरों को लिया गया है इस वास्ते कि उनका विकास हो सके। मैं जानना चाहता हूं कि उनको लेने का आधार क्या रखा गया है, जन संख्या रखा गया है, बैकवर्ड-नैस रखा गया है, क्या आधार रखा गया है ?

श्री ओम मेहता : ऐसे शहर लिए गए हैं जैसे कैपिटल ऑफ दी स्टेट्स, फास्ट ग्रोइंग इंडस्ट्रियल सिटीज, अर्बन टाउन और साथ ही जहां पर यूनिवर्सिटी है या एजुकेशन ग्रो कर रही है।

SHRIMATI MUKUL BANERJI: What steps have been taken regarding Kotla Mubarakpur area? This is just like a pimple on the beautiful face of a lady. This area is in my constituency. There is no sewer and on one side there is some expansion. On the other side there is the Defence Colony. In between it is just like a very bad slum.

SHRI OM MEHTA: That is a separate question. I require notice.

श्री शारदादे राय : बड़े टाउन का जहां तक सम्बन्ध है, चाहे कारपोरेशन वहां हो या न हो, उनकी आमदनी कुछ हो सकती है और सरकार से भी विकास के काम करने के लिए कुछ धन मिल जाता है और वे काम कर लेते हैं लेकिन जहां तक टाउन एरिया और नोटिफाइड एरिया का सम्बन्ध है उनकी आमदनी बिल्कुल ऐसी नहीं होत

है कि कुछ भी कर सकें। क्या आप ऐसी योजना बना रहे हैं ताकि टाउन एरिया और नोटिफाइड एरिया के जो क्षत्र हैं उन पर विशेष ध्यान दिया जाए और उनके विकास के लिए विशेष धनराशि स्वीकार की जाए ?

श्री श्रीम मेहता : सेंट्रल सैक्टर में तो ऐसा नहीं है। स्टेट सैक्टर से उनको कुछ रुपया ब्लाक लोन और ब्लाक ग्रांट्स से डिवलपमेंट के लिए दिया जा सकता है।

Supply of Rigs to U.P.

*725. SHRI B. R. SHUKLA: Will the Minister of AGRICULTURE be pleased to state:

(a) whether Central Government have failed to provide the requisite number of rigs to the State of Uttar Pradesh;

(b) whether boring of tube-wells in the Parganas of Bhimga, Tulsipur and Chards of District Bahraich (Uttar Pradesh) is being held up due to non-availability of rig machines; and

(c) whether the Central Government propose to send rigs to these areas?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) No, Sir. The responsibility for groundwater development through drilling of tube-wells or boring of wells and for acquiring suitable rigs for this purpose rests with the State Governments. Central Ground Water Board operates rigs in the States primarily for exploratory purposes.

(b) No such report has been received from the State Government.

(c) Does not arise in view of (a) and (b) above.

SHRI B. R. SHUKLA: May I know whether it is a fact that the rigs are

exclusively supplied by the Central Government to the State Government and the State Government has no agency through which they can have their own rigs? Secondly, how many rigs have been provided to the State of U.P.? Thirdly, is it a fact or not that representations have been made by the State Government for taking up exploratory construction of tube-wells? Because, Sir, in the area mentioned in part (b) it was stated by the State Government that deep boring machines were not available in the State and therefore it was not in a position to bore the tubewells. This is my point. Therefore, the responsibility of the Centre comes in.

PROF. SHER SINGH: Several types of rigs are there which are manufactured indigenously. They are all available and the State Governments purchase those rigs and if I am correct, in U.P., in all, there are about 110 rigs of various types which are needed. As for the district Bahraich, hydro-geological survey is going on and it is only after that results are made available that one can say about these things definitely. It is only after the results are known that work relating to exploratory tube-wells could be taken up. But it is not held up because of the paucity of rigs. Rigs are available.

SHRI B. R. SHUKLA: Since when hydrological survey has been going on in the areas mentioned in part (b) of my question? This statement is being made on the basis of wholly incorrect data because no team of investigation has actually reached the spot and started work.

PROF. SHER SINGH: As I have already stated work is going on—the work of hydrological survey—and it is only when we have located the points where we have to dig these exploratory tubewells that the work will be taken up.

SHRI A. K. M. ISHAQUE: The hon. Minister has told us that it is the State Government who has to secure

the rigs. Will the Minister tell us about the availability of rigs in the country? Are there sufficient rigs in our country to meet the needs of the country? If not, whether the Centre has provided facilities to the State Governments to import rigs from abroad?

PROF. SHER SINGH: At present we have no request from the State Governments for import of rigs. There was a demand from U.P. and we have provided foreign exchange for that. From other States we do not have any request. Rigs are available in sufficient number in our country.

श्री अम्बेश : मंत्री महोदय ने बताया कि रिग्स की कमी नहीं है तो वह कौन से दूसरे कारण हैं जिन की वजह से वावजूद इसके कि सर्वे जिन का कई वर्ष पूर्व हो चुका है, ऐसे बहुत से स्थान य० पी० के अन्दर हैं, उन अनेक स्थानों पर अभी तक द्यूबवैल् की खुदाई पूरी नहीं हो सकी ?

श्री० शेर सिंह : य० पी० में जो ये बोरिंग द्यूबवेल्स हैं, जिन एरियाज़ में एल-वियल सायल है 4111 के करीब, उन की बोरिंग के लिए हमारे पास सामान है और उस के जरिए काम चल रहा है जहां एक्स-प्लोरेशन हो चुका है । कुछ जगहों पर जैसे गाजीपुर और कानपुर जिलों में एक्स-प्लोरेटरी द्यूबवेल्स का काम हो रहा है । कुछ जगहों पर हाइड्रो ज्यालाजिकल सर्वे हो रहा है । फिर एक्स-प्लोरेटरी द्यूबवेल्स का होगा और जहां एक्स-प्लोरेशन हो चुका है वहां द्यूबवेल्स बन रहे हैं, उस के लिए साधन हैं ।

SHRI P. M. MEHTA: I would like to know from the hon. Minister as to how many rigs were demanded by the State of Gujarat?

MR. SPEAKER: The question is a specific one. It is not relevant here. Please give a separate notice.

SHRI M. RAM GOPAL REDDY: The monsoons are failing year after year. I want to know whether the Government is going to have more rigs so that we may have more tube-wells in all the States?

MR. SPEAKER: It is a very specific question about Uttar Pradesh.

SHRI M. RAM GOPAL REDDY: The Minister has made a general statement. I want to know whether it is correct.

PROF. SHER SINGH: So far as U.P. is concerned, in Bahraich and the other areas it is not that the work is not going on because there is shortage. Rigs are available in U.P. As for hard-rock areas, we had to import some rigs of that type. For hard-rock areas, and for areas where there is not sufficient water available for drinking and where there is hard rock below, we have to import. We have imported some rigs, and we shall import rigs, if we require more

Orders placed for Ships by Shipping Corporation of India

+

*726. SHRI P. GANGADEB:

SHRI K. LAKKAPPA:

Will the Minister of SHIPPING AND TRANSPORT be pleased to state:

(a) whether the Shipping Corporation of India has ordered 38 ships this year; and

(b) if so, whether they are expecting only 17 ships this year?

THE MINISTER OF SHIPPING AND TRANSPORT (SHRI RAJ BAHADUR): (a) As on date, total number of ships on order are 43, out of which 6 ships were ordered prior

to 1st April 1969; 10 ships during 1969-70, 8 ships during 1970-71, 12 ships during 1971-72. 5 ships during 1972-73 and 2 ships after 1st April 1973.

(b) Yes, Sir, in accordance with a phased programme of orders and deliveries of ships.

SHRI P. GANGADEB: May I know how Government are proposing to finance the purchase of new ships and which are the countries which have offered credit for purchase of ships?

SHRI RAJ BAHADUR: Most of these ships or practically all of them are bought on the basis of deferred credit or instalment basis. There is some downright payment to the extent of 10 per cent, 15 per cent or 20 per cent as the case may be, and the balance is arranged through credit. That is the way in which we do the financing. Apart from that, there are certain allocations made to us by the Finance Ministry in the light of our requirements and orders placed.

SHRI P. GANGADEB: May I know whether the hon. Minister has made any estimate of the number of new ships that will have to be acquired over the next five years, and if so, how many will be available from the Indian shipyards and how many will be acquired from other countries?

SHRI RAJ BAHADUR: In fact, these proposals have been worked out by a study group. I cannot exactly say the number, but according to the proposals that have been worked out, a target of 10.6 million tonnes to be achieved by the end of the Fifth Plan has been worked out, which will mean an addition of about 6 million tonnes to our present tonnage.

SHRI INDRAJIT GUPTA: May I know the total foreign exchange cost involved for these 43 vessels which have been ordered by the Shipping Corporation of India and how much of this expenditure is being advanced to the Shipping Corporation out of the Shipping Development Fund?

SHRI RAJ BAHADUR: I am sorry I would not be able to give the total foreign exchange needed,—but I can certainly give the types of vessels and the tonnage of each one of them,—because that foreign exchange depends upon the types of sizes of the vessels, and I shall collect this information and give it to the hon. Member.

SHRI INDRAJIT GUPTA: How much is it? Has he no idea of it?

SHRI RAJ BAHADUR: I think that it would be hazardous to give any idea, because the vessels are of different types such as tankers, bulk carriers, ordinary liners, cargo vessels and so on.

SHRI INDRAJIT GUPTA: Is any part of that being given out of the Shipping Development Fund?

SHRI RAJ BAHADUR: Yes, that goes without saying. The Shipping Development Fund is there to finance this.

SHRI INDRAJIT GUPTA: How much is it for these 43 vessels?

SHRI RAJ BAHADUR: I have not got that information presently with me.

SHRI M. S. SANJEEVI RAO: I understand from a news item that during his recent visit, the Minister of Shipping and Transport from Poland has offered to the Government of India to sell bulk carriers of 105,000 tonnes capacity. If that is so, may I know whether the Shipping Corporation is going to take advantage of that offer?

MR. SPEAKER: The main question relates to orders that have already been given, and not to those to be placed in the future. The hon. Member may table a separate question.

SHRI VISHWANATH PRATAP SINGH: May I know from the hon. Minister whether orders for bulk carriers were placed as long back as

1969 with the shipyard in Rumania and later, the prices of each were raised by Rs. 60 lakhs from the contracted prices, and the orders are to be finalised by 1967, and if so, the reason for Government's agreeing to the price rise to the tune of Rs. 60 lakhs, and the delay in the delivery of the ships?

SHRI RAJ BAHADUR: When the orders were placed, the number was in fact 10, and prices have escalated in between. So the shipyards in Rumania wanted an escalation in prices. After a good deal of discussion, we have been able to finalise those orders, and some escalation has been agreed to in regard to these vessels.

तपेदिक के रोगियों की संख्या में
बृद्धि

*; 728. श्री महादीपक सिंह शाक्य :
क्या स्वास्थ्य और परिवार नियोजन मंत्री
यह बताने की कृपा करेंगे कि :

(क) क्या तपेदिक के रोगियों की
संख्या दिन प्रति दिन बढ़ती जा रही है ;

(ख) क्या रोगियों के ठीक इलाज के
लिए भारत सरकार के पास पर्याप्त चिकित्सा
केन्द्र नहीं हैं ; और

(ग) यदि हां, तो इस बारे में वर्ष
1972-73 के दौरान सरकार क्या प्रभाव-
कारी कदम उठा रही है ?

**THE DEPUTY MINISTER IN THE
MINISTRY OF HEALTH AND
FAMILY PLANNING (SHRI A. K.
KISKU):** (a) There is no evidence to
show that the number of T.B. patients
is increasing day by day.

(b) 547 T.B. Clinics are functioning
in different States and Union Terri-
tories. Of these, 278 have been up-
graded as District TB Centres to
undertake district-wise TB Control
Programme. A total of more than

37,000 TB beds are available in
various States/Union Territories for
in-patient treatment.

(c) A statement is laid on the Table
of the Sabha.

STATEMENT

The National Tuberculosis Con-
trol Programme is a Centrally
Sponsored Scheme during the Fourth
Five Year Plan with 100 per cent
Central assistance to the State Gov-
ernments. The Programme provides
for establishment/upgrading of Dis-
trict TB Centres, establishment of TB
Isolation beds and supply of anti-TB
drugs to the TB Centres for effective
treatment of TB patients throughout
the country.

BCG Vaccination in age group of
below 20 years is being done as a
preventive measures. The District
TB Centres serve as base to carry out
case finding, treatment and BCG
Vaccination Programme throughout
the District in collaboration with the
existing health and medical institu-
tions.

Steps are also being taken for the
expansion of the BCG Vaccine
Laboratory, Guindy, for the produc-
tion of freeze dried vaccine in larger
quantities.

Grants-in-aid and free anti-TB
Drugs are also given to Voluntary TB
Institutions.

In addition, grants are given to the
Tuberculosis Association of India for
the maintenance of New Delhi TB
Centre and Lala Ram Sarup TB
Hospital, Mehrauli.

Under this Scheme during the year
1972-73, against the target of
establishment of 25 District TB Cen-
tres, 31 Centres have been established
to undertake district-wise TB control
programme in various States. During
the year 1972-73, anti-T.B. drugs
worth Rs. 99.60 lakhs have been
supplied.

श्री महा बीपक सिंह शास्त्री : मंत्री महोदय ने जो उत्तर दिया है, उसमें ऐसा लगता है कि कुछ टालमटोल करने की कोशिश की गई है। उन्होंने अपने उत्तर में कहा है कि ऐसी कोई बात मालूम नहीं पड़ती है कि टी०बी० के मरीजों की संख्या बढ़ी है, लेकिन प्रश्न के दूसरे भाग के उत्तर में उन्होंने आंकड़े देते हुए स्वीकार किया है और बताया है कि 543 टी०बी० केन्द्र खोले गये हैं और 278 विकसित किये गये हैं। मैं मंत्री महोदय से जानना चाहता हूँ कि अभी आप को ऐसे कितने केन्द्र खोलने की आवश्यकता है तथा उन को खोलने के लिये आप क्या कार्यवाही कर रहे हैं?

SHRI A. K. KISKU: Government are very vigilant about the entire position and arrangements for diagnosis are being expanded. In 1972-73, although the target was to open 25 centres, we had been able to open 31, but that does not mean that therefor the number of TB patients is on the increase, because that is being watched by sample surveys in different areas and we find that the number of TB patients is actually decreasing.

श्री महा बीपक सिंह शास्त्री : आप ने अपने वक्तव्य में कहा है कि आप ने बहुत सी ऐसी योजनाएँ निकाली हैं जिन से टी०बी० रोग पर नियन्त्रण पा सके। आप ने यह भी कहा है कि बी०सी०जी० इंजेक्शनों के द्वारा क्षय रोग को रोकने का इन्तजाम किया जा रहा है। मैं जानना चाहता हूँ— क्या आप के पास कोई ऐसी योजना है, जैसे एण्टी कालरा वैक्सीनेशन, चेचक वैक्सीनेशन का काम चलता है, उसी तरह से बी०सी०जी० वैक्सीनेशन का काम भी सार्वजनिक तरीके

से चले तथा 1972-73 के दरमियान कितने बी०सी०जी० के टीके लगाये गये तथा उन में कितने सफल हुए हैं तथा कितने असफल हुए हैं।

THE MINISTER OF HEALTH AND FAMILY PLANNING (SHRI R. K. KHADILKAR): So far as the B.C.G. vaccination programme is concerned, every effort is made to provide vaccination, but just now it is not part of a national programme. So wherever anybody voluntarily offers himself or where TB centres are functioning, the vaccination is provided. As to how many are covered by the vaccination, I have no figures now. I require notice.

SHRI BISHWANATH ROY: May I know whether any attempt has been made for ascertaining the number of TB patients throughout the whole country including the rural areas?

SHRI R. K. KHADILKAR: As my colleague said, there were sample surveys and they were indicative. But, as I said, as it is not part of the national programme, it is very difficult to cover the entire country at this stage.

SHRI DINESH JOARDER: May I know from the Minister whether he has any information about the percentage of TB patients among the tribal people, particularly in the Santhal Parganas area and in the Jharkhand and West Dinajpur districts of West Bengal and whether they are going to set up TB centres attached to the union health centres for giving treatment to the TB patients, particularly the Santhals, Mundas and Korahs?

SHRI R. K. KHADILKAR: We have no information. He should address that question to the State Government, or we shall collect from the State Government the required information and place it here.

Construction of bridges over Yamuna at Kachaura Ghat and Bateshwar

*730. SHRI RAM PRAKASH: Will the Minister of SHIPPING AND TRANSPORT be pleased to state:

(a) whether the Government of Uttar Pradesh had sent any scheme for the approval of the Centre for the construction of bridges over Yamuna, one at Kachaura Ghat and the other at Bateshwar (Naurangi Ghat) in Tehsil Bah of District Agra;

(b) if so, whether the bridges over Yamuna would be included in the Fifth Five Year Plan; and

(c) whether there is proposal to include the construction of bridges over Yamuna—one at Kachaura Ghat and the other at Bateshwar (Naurangi Ghat) in the Fifth Five Year Plan?

THE MINISTER OF SHIPPING AND TRANSPORT (SHRI RAJ BAHADUR):

(a) No, Sir.

(b) and (c). Do not arise.

श्री पन्नालाल बाख्पाल : मैं मंत्री महोदय से जानना चाहता हूँ कि क्षेत्रफल और जनसंख्या दोनों ही दृष्टियों से आगरा जिला एक बहुत बड़ा जिला है। आगरा जिले के अधिकांश भाग को एक ओर से जमुना नदी घेरे हुए हैं और दूसरी ओर से चम्बल नदी घेरे हुए हैं। आगरा से कचौरा घाट तक सीधी सड़क जाती है, परन्तु कचौराघाट आगरा से 100 किलोमीटर दूर है और उदावा केवल 20 किलोमीटर दूर है। जमुना नदी पर पुल कचौराघाट में न होने की वजह से उस क्षेत्र की जनता को 100 किलोमीटर दूर आगरा जाना पड़ता

है, जिस से इस क्षेत्र के किसानों को भारी कठिनाई होती है क्या सरकार इस तथ्य को ध्यान में रखते हुए कचौराघाट में पुल के निर्माण को उच्च प्राथमिकता देगी तथा क्या मंत्री महोदय उस पर पुल बनाने के लिये विचार कर रहे हैं ?

श्री राज बहादुर : यह पुल राज्य सरकार की सड़क पर पड़ता है, जिस के लिये राज्य सरकार उत्तरदायी है लेकिन आप ने जो सुझाव दिया है, उसे राज्य सरकार तक पहुंचाने की चेष्टा करूंगा।

श्री अटल बिहारी वाजपेयी : मंत्री महोदय ने कहा है कि यह राज्य सरकार से सम्बन्धित प्रश्न है, किन्तु क्या उन्हें इस बात की जानकारी है कि बटेश्वर के मेले से जो धनराशि एकत्र होती है वह पुल बनाने के लिये खर्च नहीं की जाती है, वह आगरा जिले के अन्य विकास कार्यों के लिये खर्च की जाती है—इतना बड़ा अन्याय बटेश्वर के साथ हो रहा है, इस में केन्द्र हस्तक्षेप करने के लिये तैयार है या नहीं तैयार है ?

श्री राज बहादुर : वाजपेयी जी जिस हस्तक्षेप की मांग कर रहे हैं, वह मेरे ख्याल से कहीं अनाधिकार चेष्टा न मानी जाय, क्योंकि वहां जो आमदनी होती है वह केन्द्र को नहीं होती है, राज्य सरकार को होती है और वह किस प्रकार से व्यय की जाय, यह उन के अधिकार की बात है लेकिन वहां पुल की आवश्यकता है और उस के लिये मैं राज्य सरकार को लिख सकता हूँ।

श्री नरेंद्र सिंह बिष्ट : क्या सरकार को विदित है कि आजादी मिलने से पहले अंग्रेजों के समय में आगरा से बाह तक जी०आई०पी० रेलवे लाइन थी, परन्तु ब्रिटिश शासन काल के दौरान ही इस रेलवे लाइन को उखाड़ दिया गया था—इस क्षेत्र के लोग रेलवे की सुविधा से अभी तक वंचित हैं ?

श्री राज बहादुर : मैं रेल मंत्री तो नहीं हूँ, परन्तु जहाँ तक सड़क का सम्बन्ध है, सड़क बन गई है

Food production stagnant in Andhra Pradesh

*731. SHRI Y. ESWARA REDDY: Will the Minister of AGRICULTURE be pleased to state:

(a) whether food production in Andhra Pradesh has remained stagnant since 1964-65;

(b) if so, the reasons therefor; and

(c) the steps taken by Government to increase food production in the State?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE): (a) to (c). A statement is laid on the Table of the Sabha.

Statement

(a) to (c). It is a fact that food-grains production is more or less stagnant in Andhra Pradesh since 1964-65. There are many reasons for it. The State has suffered heavily due to drought conditions in successive years. Apart from adverse seasonal conditions, the other factors responsible for

this situation are: unsuitability of the newly evolved varieties, particularly in the case of rice, pest and disease problem, price and marketing difficulties, etc.

The Ministry is alive to the situation and various steps have been taken to increase food production in the State. These include (i) expansion of area under the High-Yielding Varieties Programme, (ii) launching of district trial-cum-demonstration programme for newly evolved rice varieties, (iii) intensification of plant protection measures, (iv) intensive development of irrigation facilities and introduction of multiple cropping, (v) adequate and timely supply of inputs like seeds, fertilisers and credit, (vi) emphasis on adequate and balanced use of fertilisers, (vii) farmers' training along-with national demonstration programme.

SHRI Y. ESWARA REDDY: Besides the measures to overcome the stagnation in production, mentioned in the statement, increase in production is invariably linked up seriously with the implementation of the land reforms. Andhra Pradesh has enacted a land Ceiling Act last September and the President has given assent to it on 31st December but the Government of Andhra Pradesh feels that it could not be implemented because it might be challenged in a court of law. They feel that it should be included under the 9th Schedule of Constitution so as to make it non-justiciable. When is the Government going to include it in the 9th Schedule? Can they mention any definite date?

SHRI ANNASAHEB P. SHINDE: Obviously the implementation of land reforms has some relevance to production. As for the inclusion in the 9th Schedule, we propose to include all land legislations under the 9th Schedule so that necessary protection is given to land reform measures for all the State Governments, including Andhra Pradesh Government.

WRITTEN ANSWERS TO QUESTIONS**Steps for quicker loan to Farm Engineers**

*723. SHRI M. M. JOSEPH: Will the Minister of AGRICULTURE be pleased to state:

(a) whether Government have taken any steps for sanctioning quicker loans for Farm Engineers in the country; and

(b) if so, the broad outlines thereof?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHAB P. SHINDE): (a) and (b). The special scheme for providing employment to unemployed technical personnel through Agro-Service Centres being implemented by the Ministry, does not contemplate sanction of loans by Government for setting up such Service Centres. The commercial banks are expected to provide loan assistance for the purpose; special facilities are however available under the scheme to attract bank credit, e.g. the Agro-Service Centres are treated as eligible industry to be covered under the Credit Guarantee Scheme and subsidy on interest payable on the loan is admissible under the scheme subject to certain limits.

Educational facilities outside Brahmaputra Valley

*724. SHRI R. R. SINGH DEO: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether the Central Government has taken any initiative to provide educational facilities outside the Brahmaputra Valley to the students who left Assam as a result of last year's disturbances; and

(b) if so, the main feature thereof?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) and (b). According to the available information out of about 250 Bengali-speaking students who left Assam as a result of last year's disturbances about 200 students have already returned to Assam and re-joined their respective educational institutions. Efforts are also being made to persuade the remaining students to return to their institutions in Assam.

The Central Government remain in close touch with developments in Assam and continuous efforts are being made to find an amicable solution of the controversy relating to medium of instruction in Assam.

Question of taking any initiative by the Central Government to provide education facilities in any part of the State of Assam, therefore, does not

Ways to help educated jobless

*727. SHRI C. T. DHANDAPANI:
SHRI P. A. SAMINATHAN:

Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether certain ways of helping the educated jobless have been suggested;

(b) whether it has also been suggested that before giving the degree, the student should be asked to work on land for one year and also undergo military training for one year;

(c) if so, the reaction of the Union Government on these suggestions?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) Yes, Sir. A number of schemes are already in operation.* A proposal for creating additional job opportunities

for 5 lakh educated people during 1973-74 is under consideration of the Government of India.

(b) A suggestion has been received that National Service for a specified period should be made a pre-condition for the award of the first degree.

(c) The proposal in the part (a) and the suggestion in part (b) are under examination.

Indo-Soviet Cultural Co-operation

*729. DR. LAXMINARAIN PANDEYA: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether the Indo-Soviet Cultural Society (I.S.C.U.S.) and the Union of Soviet Cultural Society (U.S.C.S.) signed a plan for Cultural Co-operation in 1973;

(b) if so, the salient features of the plan; and

(c) whether any such plan with any other country has also been signed?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) Yes, Sir.

(b) The salient features of the plan are that the Contracting Parties shall promote and strengthen friendship and cooperation between the two countries by acquainting the public with the life, history and culture and development of science & technology of the other side. In order to achieve this objective exchanges of delegations, tourists, teachers, public figures, scientists, cultural and art workers have been agreed upon. Also literature, photo exhibitions etc. are proposed to be exchanged.

(c) The Indo-GDR Society has an agreement with its counterpart organisation. Government is not aware of any other plans with any other country.

Conclusion of the Working Group of N.B.O.

*732. SHRI FATESINGHRAO GAEKWAD: Will the Minister of WORKS AND HOUSING be pleased to state:

(a) whether Government's attention has been drawn to the conclusion of the Working Group of the National Building Organisation in preparing a profile of construction in the Fifth Plan to the effect that construction activity will be impeded by shortages of building materials if the production of bricks, cement, steel and timber is not stepped up at least by 50 per cent in the next five years; and

(b) if so, the reaction of Government thereof?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) Yes, Sir.

(b) The recommendations of the Working Group are under the consideration of the Planning Commission.

National Commission on Agriculture for development of villages and command areas of major and medium irrigation projects

*733. DR. RANEN SEN:

SHRI M. S. PURTY:

Will the Minister of AGRICULTURE be pleased to state:

(a) whether the National Commission on Agriculture has recommended an integrated approach for the development of villages and command areas of major and medium irrigation projects;

(b) if so, the salient features of this scheme; and

(c) the reaction of Government thereon?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) The National Commission on Agriculture has submitted its Interim Report on Modernising Irrigation Systems and Integrated Development of Command Areas.

(b) A summary of the recommendations in this Interim Report is laid on the Table of the House [Placed in Library. See. No. LT-4798/73.]

(c) The recommendations of the Commission are under examination.

Work on West Coast Road

*734. SHRI SHANKERRAO SAVANT:

SHRI S. L. PEJE:

Will the Minister of SHIPPING AND TRANSPORT be pleased to state:

(a) when the work on the West Coast Road was started and when it is expected to be completed;

(b) how much work has been done so far and what is the amount spent thereon so far; and

(c) whether work on the portion of the road between Sanganeshwar and Wandri in Ratnagiri District has not still been commenced?

THE MINISTER OF SHIPPING AND TRANSPORT (SHRI RAJ BAHADUR): (a) and (b). The West Coast Road, which has been declared as National Highway No. 17 with effect from 8th March, 1972, passes through the States of Maharashtra, Mysore, Kerala and the Union Territory of Goa. The work on this road was started originally about 15 years back as part of programme of Centrally-aid Roads of Inter-State and Economic Importance.

The statement laid on the Table of the House gives the Statewise information about the work done on the road so far against the original programme. [Placed in Library. See No. LT-4799/73]. On its having been declared as National Highway, the road is proposed to be further improved to single-lane National Highway standard as part of the 4th Plan programme, for which inventorisation of deficiencies and formulation of improvement proposals is in hand. The said improvement is likely to be achieved by the close of the 5th Plan period.

(c) Work on the construction of the section from Sanganeshwar to Wandri in Ratnagiri District in Maharashtra had been taken up initially under the earlier programme of Centrally-aided Roads of Inter-State and Economic Importance. The same is not yet complete and is now to be completed under National Highway Development Programme and shall be pursued accordingly.

Hospitals in Andaman and Nicobar Islands short of medicines

*735. SHRI R. V. BADE: Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state:

(a) whether the Hospitals of far-flung Islands of Andaman and Nicobar are short of medicines of daily use because of their non-supply by Government; and

(b) what steps Government are going to take to keep the Hospitals well equipped?

THE MINISTER OF HEALTH AND FAMILY PLANNING (SHRI R. K. KHADILKAR): (a) No, Sir.

(b) Does not arise.

Foodgrain missing from godowns of F.C.I. in Ferozepur and Faridkot

*736. SHRI LALJI BHAI: Will the Minister of AGRICULTURE be pleased to state:

(a) whether recently hundreds of bags of foodgrains were stolen from the godowns of Food Corporation of India in Ferozepur and Faridkot Districts;

(b) if so, the broad outlines thereof; and

(c) what action has been taken against the guilty persons?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE): (a) and (b). Yes, Sir. About 848 bags of foodgrains comprising 836 bags of wheat and 12 bags of paddy were recently stolen from the godowns of Food Corporation of India in Ferozepur and Faridkot Districts.

(c) Investigations of these cases by the police have not yet been completed. However, in some cases, where *prima-facie* it was found that some officials were directly or indirectly involved, they have been placed under suspension pending further action against them.

Delay in Farm Scheme

*737. SHRI M. RAM GOPAL REDDY: Will the Minister of AGRICULTURE be pleased to state:

(a) whether the Government's attention has been drawn to the news item "Ministry delays Farm Schemes" published in the *Motherland* dated 31st January, 1973; and

(b) if so, the reaction of the Government thereto?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE):

(a) Yes, Sir.

(b) The Government do not subscribe to the views expressed in the news item.

Four day convention organised by Indian Society for Technical Education

*738. SHRI R. V. SWAMINATHAN: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether the four day convention organised by the Indian Society for Technical Education in Bombay has suggested Post-Graduate study in Engineering;

(b) if so, the other recommendations made at the convention; and

(c) whether Government have examined the suggestions and recommendations?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) and (b). The recommendations made by the Convention have not so far been received by the Government.

(c) Does not arise.

Extension of Homoeopathic and Ayurvedic medical facilities to C.G.H.S. Dispensaries

*739. SHRI SUKHDEO PRASAD VERMA: Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state:

(a) whether Government are considering a proposal to extend the Homoeopathic and Ayurvedic medical facilities to all the Central Government Health Scheme Dispensaries; and

(b) if so, the main features thereof?

THE MINISTER OF HEALTH AND FAMILY PLANNING (SHRI R. K. KHADILKAR): (a) No, Sir.

(b) Does not arise.

Statutory autonomous authority on development problems of Rajasthan desert

*740. SHRI DEVINDER SINGH GARCHA:

SHRI RAJDEO SINGH:

Will the Minister of AGRICULTURE be pleased to state:

(a) whether some scientists, who studied the developmental problems of the Rajasthan desert, have recommended the setting up of a statutory, autonomous authority for this purpose immediately; and

(b) if so, reaction to these recommendations?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) and (b). A Study Team was constituted by the Indian National Science Academy, for an on-the-spot study of certain aspects of the arid zone in Western Rajasthan particularly of the severe sand-storms that prevailed in the region in July, 1970. The Study Team submitted only a summary of its recommendations in 1970. It is now understood that the Team has submitted its final report to the Academy. This report has not yet been received by the Government of India. The Study Team has, it is understood, recommended that the Desert Development Board constituted by this Ministry in 1966 should be a high-powered, permanent and statutory body. It should have a regular secretariat with permanent technical office. The experts may be drawn from the

disciplines of ecology, geology, geomorphology, veterinary sciences, atomic energy, agronomy, agrostology, breeding, soil sciences, environmental sciences, etc. The Board should be responsible for looking after all three aspects, i.e., research, training and extension programmes connected with the development and reclamation of the desert.

The final report, when received, will be examined in consultation with the State Governments concerned.

Seniority List of Scheduled Castes and Scheduled Tribes Employees in Education Department, Delhi,

6980. SHRI AMBESH: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to refer to the reply given to Unstarred Question No. 931 on 26th February, 1973 regarding seniority list of Scheduled Castes and Scheduled Tribes Employees in Education Department, Delhi and state:

(a) whether some Scheduled Castes teachers (T.G.Ts.) were appointed *vide* order No. 607 letter No. DE1(4) ADII/ dated the 23rd October, 1962 in Delhi Administration, Delhi on temporary basis;

(b) whether they are still temporary whereas there is reservation in confirmation *vide* No. 10/28/68-Est(SCT) dated the 12th September, 1968 by Ministry of Home Affairs; and

(c) if so, reasons therefor?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) Yes, Sir.

(b) No, Sir.

(c) Does not arise.

दिल्ली में घटिया किस्म की राशन की वस्तुओं की सप्लाई

6981. श्री चन्दू लाल चन्नाकर :
क्या कृषि मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या सरकार के पास कुछ ऐसी शिकायतें आई हैं कि दिल्ली में राशन की दुकानों पर घटिया किस्म की राशन की वस्तुएं बेची जा रही हैं ; और

(ख) यदि हां, तो क्या सरकार ने इसके बारे में कोई कार्यवाही की है ?

कृषि मंत्रालय में राज्य मंत्री (श्री अण्णा-साहेब शिंदे) : (क) और (ख). दिल्ली प्रशासन को ऐसी कुछ शिकायतें प्राप्त हुई हैं। गोदामों और मिलों में निरीक्षकों की तैनाती की गई है जो यह देखेंगे कि उचित मूल्य के दुकानदारों को केवल बढ़िया किस्म के खाद्य-पदार्थ सप्लाई किए जाते हैं। भारतीय खाद्य निगम अपने यहां से उचित मूल्य की दुकानों को केवल ऐसा स्टॉक सप्लाई कर रहा है जो कि पी० एफ० ए० मानक के अन्तर्गत आता है। उचित मूल्य के दुकानदारों को सीलबन्ध नमूने दिए जाते हैं ताकि कार्डधारी यह सुनिश्चित कर सकें कि उचित मूल्य के दुकानदारों द्वारा उन्हें उचित किस्म की राशन की चीजें सप्लाई की जाती हैं।

Working Paper prepared by Central Advisory Board of Education

6982. SHRI MARTAND SINGH OF REWA: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether the Central Advisory Board of Education has prepared a Working Paper for the Fifth Five Year Plan; and

(b) if so, the salient features thereof?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) and (b). The Central Advisory Board of Education at its 36th meeting held at New Delhi on September 18-19, 1972 has approved a blue print on "Education in the Fifth Five Year Plan (1974-79)". The main ingredients of the programme are:—

- (i) Transformation of the Educational System;
- (ii) Improvement of Standards;
- (iii) Initiation of a comprehensive programme of pre-school development meant specially for the under-privileged social groups;
- (iv) The provision of universal primary education in the age-group 6—11 by 1980-81;
- (v) The adoption of the uniform pattern of school and college classes viz. 10+2+3 in all States and Union Territories;
- (vi) Vocationalisation of education at the higher secondary stage and introduction of work-experience as an integral part of education at school stage;
- (vii) The development of a national scholarships policy so that the talented students and especially those coming from the most deprived sections of the community are assisted to receive the best school and university education;
- (viii) The launching of a youth movement for the population in the age-group 14—25;
- (ix) Reorganisation of collegiate and university education;

- (x) Development of technical education;
- (xi) Introduction of large scale programme of National Social Service; and
- (xii) Strengthening of the administrative machinery to Plan and implement this significant programme of expansion and qualitative improvement.

Proposals for declaring new National Highways in Madhya Pradesh

6983. SHRI MARTAND SINGH OF REWA: Will the Minister of SHIPPING AND TRANSPORT be pleased to state:

(a) the number of proposals received from the State of Madhya Pradesh during the last three years for the purpose of declaring new National Highways in Madhya Pradesh;

(b) the number of cases disposed of; and

(c) the action taken by the Central Government so far?

THE MINISTER OF STATE IN THE MINISTRY OF SHIPPING AND TRANSPORT (SHRI M. B. RANA): (a) In the Fourth Five-Year Plan (round about 1970) the State Government submitted a programme for the declaration of 11 roads as National Highways. Recently they have suggested a fresh proposal for declaring 10 roads as National Highways under the Fifth Five Year Plan.

(b) and (c). Due to financial limitations and comparatively lower priority possessed by proposals of Madhya Pradesh Government *vis-a-vis* projects suggested by other States, it was not found possible to make any new addition to the existing N. H. System in Madhya Pradesh in the Fourth Plan. However, loan assistance amounting to Rs. 110 lakhs was approved for the

following bridges on the roads included in the State Government's Fourth Plan proposals:

	Rs. lakhs
1. Bridge over Chambal on Sheopur-Swai-Madhopur Road	70.00
2. Bridge over Ghar river on Jaipur-Biaora road Bridge over Kalisindh on Jaipur Biaora road	40.00
	110.00

The proposals received from the State Government in connection with the Fifth Five Year Plan have been noted for consideration along with similar proposals received from other States but a final view on them could be taken only when the proposals for the Fifth Plan are finalised dependent upon Plan allocation made available for the scheme.

समाज कल्याण विभाग द्वारा मध्य प्रदेश के भिड़ जिले की संस्थाओं को अनुदान

6984. श्री हकम चन्द कछवाय: क्या शिक्षा, समाज कल्याण और संस्कृति मंत्री यह बताने की कृपा करेंगे कि :

(क) समाज कल्याण विभाग द्वारा मध्य प्रदेश के भिड़ जिले में किन किन संस्थाओं को 1971-72 तथा 1972-73 के वित्तीय वर्षों में कितना-कितना अनुदान दिया गया ; और

(ख) उपरोक्त अवधि में कितनी संस्थाओं ने अनुदान की मांग की ?

शिक्षा, समाज कल्याण तथा संस्कृति मंत्री (प्रो० एस० नरहल हसन) : (क) भिड़ जिले में किसी संस्थान को इन वर्षों के दौरान कोई अनुदान नहीं दिया गया।

(ख) जानकारी शीघ्रता से प्राप्य नहीं

समाज कल्याण विभाग द्वारा मध्य प्रदेश के देवास जिले में संस्थाओं को अनुदान

6985. श्री हुकम चन्द कछवाय : क्या शिक्षा, समाज कल्याण और संस्कृति मंत्री यह बताने की कृपा करेंगे कि :

(क) वित्त वर्ष 1971-72 तथा 1972-73 के दौरान समाज कल्याण विभाग द्वारा मध्य प्रदेश के देवास जिले में किन-किन संस्थाओं को कितना-कितना अनुदान दिया गया; और

(ख) उक्त अवधि में कितनी संस्थाओं ने अनुदान मांगा है ?

शिक्षा, समाज कल्याण तथा संस्कृति मंत्री (प्रो० एस० नरलहसन):(क) केन्द्रीय समाज कल्याण बोर्ड द्वारा इन वर्षों के दौरान देवास जिले में निम्नलिखित संस्थाओं को अनुदान दिये गये :—

	1971-72	1972-73
	रुपये	रुपये
1. महिला मंडल, कन्नौड, देवास	1,300	1,857-50
3. अहिल्या वाई महिला मंडल, गन्धर्व पुरी, देवास।	1,500	1,500-00
3. शिशु विहार, देवास।	1,500	2,557-50

(ख) यह जानकारी शीघ्रता से प्राप्य नहीं है।

Enquiry into affairs of Delhi School Teachers' Cooperative House Building Society Ltd., Delhi

6986. SHRI SUKHDEO PRASAD VERMA: Will the Minister of AGRICULTURE be pleased to refer to the reply given to Unstarred Question Nos. 2984 and 2985 dated 12-3-1973 and state:

(a) when the enquiry into the affairs of the Delhi School Teachers' Cooperative House Building Society Limited, Delhi was ordered;

(b) the terms of reference thereof; and

(c) the time fixed for completion of the enquiry?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE): (a) The enquiry was ordered on the 21st March, 1972.

(b) To enquire into the constitution, working and financial condition of the Society.

(c) In the order of enquiry, the Enquiry Officer was asked to complete the enquiry and submit the report within 2 months. The operation of the enquiry was stayed by the Delhi High Court till the 31st July, 1972. Thereafter, the High Court directed under their order dated the 4th September, 1972, that the enquiry should be continued and completed within 2 months from the date of that order. As complete relevant records were not made available by the record-holders to the Enquiry Officer, the High Court directed on the 11th December, 1972, that the Society should produce all relevant records before the Enquiry Officer and the enquiry be completed, if possible, by the 20th March, 1973. As complete records have not yet

been produced before the Enquiry Officer by the record-holders, the Enquiry Officer has moved the High Court for permission to use coercive methods, according to law, for the production of records.

General Body Meeting of Delhi School Teachers' Cooperative House Building Society Ltd., Delhi

6987. SHRI SUKHDEO PRASAD VERMA: Will the Minister of AGRICULTURE be pleased to state:

(a) whether there is any provision in the Delhi Cooperative Societies to call for General Body Meetings of such Societies whose elections have not been held for long time and where there is different groups;

(b) if so, whether there is any proposal to call for a General Body Meeting of the Delhi School Teachers' Cooperative House Building Society for election of its office bearers; and

(c) if so, when the proposed meeting is likely to be convened?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHAB P. SHINDE):

(a) There is a provision in the 'Delhi Cooperative Societies Act, 1972, empowering the Registrar of Cooperative Societies to call a General Body meeting of a cooperative society, if such a meeting is not called by the Society within the stipulated or extended period laid down in the Act.

(b) As an enquiry has been ordered by the Delhi Administration into the constitution, working and financial condition of the Society, under the provisions of the Cooperative Societies Act, there is, at present, no proposal to call such a meeting.

(c) The question does not arise.

चालू वर्ष में चीनी का उत्पादन

6988. श्री एस० एस० रतौरी : क्या कृषि मन्त्री यह बताने की कृपा करेंगे कि :

(क) चालू वर्ष में राज्यवार चीनी का कितना उत्पादन हुआ; और

(ख) क्या गत वर्ष की भांति इस वर्ष भी चीनी के उत्पादन में कमी होने की सम्भावना है ?

कृषि मंत्रालय में राज्य मंत्री (प्रो० शेर सिंह) : (क) और (ख). 1972-73 के दौरान 31 मार्च, 1973 तक चीनी का राज्यवार उत्पादन बताने वाला एक विवरण संलग्न है । इस वर्ष उत्पादन पिछले वर्ष के कुल 31.13 लाख मीटरी टन के उत्पादन से अधिक हो चुका है और अन्ततः उत्पादन 36 लाख मीटरी टन के पूर्व अनुमान से भी अधिक हो सकता है ।

समुद्री जल को सिंचाई के काम में लाने की योजना

6989. श्री धनशाह प्रधान : क्या कृषि मन्त्री यह बताने की कृपा करेंगे कि :

(क) कृषि उत्पादन बढ़ाने और अकाल की स्थिति का सामना करने के लिए समुद्री जल को सिंचाई के काम में लाने के सम्बन्ध में सरकार का क्या कार्यवाही करने का विचार है; और

(ख) यदि हा, तो तत्सम्बन्धी मुख्य बातें क्या हैं ?

कृषि मंत्रालय में राज्य मंत्री (प्रो० शेर सिंह) : (क) समुद्री जल का कृषि के लिए उपयोग करने की व्यावहारिकता को जांच के लिए गवेषणा सम्बन्धी अध्ययन-कार्य शुरू किये गये हैं । इनके निष्कर्षों के अभाव में समुद्री जल के उपयोग से कृषि उत्पादन बढ़ाने के लिए

कोई विकास परियोजना हाथ में नहीं ली गई है।

(ख) प्रश्न ही नहीं उठता।

कृषि उपकरण का अभाव और उनका निर्माण करने के लिये सरकारी कारखाने

6990. श्री धनशाह प्रधान : क्या कृषि मन्त्री यह बताने की कृपा करेंगे कि :

(क) क्या कृषि उपकरणों का अभाव है;

(ख) यदि हां, तो उनकी कमी को पूरा करने के लिये स्वयं सरकार द्वारा कितने कारखाने लगाये जायेंगे, और

(ग) गैर-सरकारी फर्मों को ऐसे कितने कारखाने लगाने के लिये लाइसेंस दिये जायेंगे ?

कृषि मंत्रालय में राज्य मंत्री (श्री अण्णा साहेब पी० शिन्दे) : (क) जी नहीं।

(ख) प्रश्न ही नहीं उठता।

(ग) छोटे पैमाने पर कृषि उपकरण बनाने के लिये कई कारखाना लगाने हेतु किसी प्रकार की अनुमति या लाइसेंस की आवश्यकता नहीं है।

मध्य प्रदेश में केन्द्रीय स्कूलों और पब्लिक स्कूलों में आदिवासी छात्र

6991. श्री धनशाह प्रधान : क्या शिक्षा, समाज कल्याण और संस्कृति मन्त्री यह बताने की कृपा करेंगे कि :

(क) मध्य प्रदेश में कहां-कहां केन्द्रीय स्कूल तथा पब्लिक स्कूल हैं;

(ख) एक फरवरी, 1973 को कक्षावार कितने छात्र थे तथा प्रत्येक कक्षा में उनमें से कितने आदिवासी छात्र थे;

(ग) क्या भारत सरकार ने इन स्कूलों में भर्ती के लिए आदिवासियों के लिए कोई स्थान सुरक्षित किये हैं, यदि हां, तो कितने प्रतिशत और यदि नहीं, तो इसके क्या कारण हैं; और

(घ) क्या भारत सरकार मध्य प्रदेश में स्थित पब्लिक स्कूलों के आदिवासी छात्रों को छात्रवृत्तियां देती है, और यदि नहीं तो इसके क्या कारण हैं ?

शिक्षा, समाज कल्याण तथा संस्कृति मंत्री (प्रो० एस० नूस्स हसन) : (क) मध्य प्रदेश में निम्नलिखित केन्द्रीय स्कूल और पब्लिक स्कूल हैं :—

केन्द्रीय स्कूल	पब्लिक स्कूल
1. ग्रामना—एक	1. इन्दौर—एक
2. भोपाल—एक	2. रायपुर—एक
3. इन्दौर—एक	3. रीवा—एक
4. ग्वालियर—एक	4. ग्वालियर—दो
5. जबलपुर—एक	
6. पंचमढी—एक	
7. मागर—एक	
8. नीमच—एक	
9. बछेली—एक	

(ख) सूचना एकत्र की जा रही है और सभा पटल पर रख दी जाएगी।

(ग) और (घ). केन्द्रीय विद्यालय मुख्यतः केन्द्रीय सरकार के स्थानान्तरणीय कर्मचारियों के बच्चों के लिए हैं, जिनमें रक्षा कर्मचारी भी शामिल हैं। इन विद्यालयों में प्रवेश के नियमों के अन्तर्गत अनुसूचित जातियों और अनुसूचित जनजातियों के कर्मचारियों के बच्चों की प्रत्येक प्राथमिकता वर्ग में प्राथमिकता देने की व्यवस्था है बशर्ते कि वे प्रवेश

परीक्षा में पास हो जाएं। तथापि, पब्लिक स्कूलों का प्रबन्ध निजी संस्थाओं द्वारा किया जाता है जिनके प्रवेश सम्बन्धी अपने नियम हैं।

पब्लिक स्कूलों सहित रिहायशी स्कूलों में अध्ययन के लिए भारत सरकार की योग्यता छात्रवृत्ति योजना के अन्तर्गत अनुसूचित जातियों और अनुसूचित जनजातियों के छात्रों के लिए क्रमशः 7½ प्रतिशत और 2½ प्रतिशत स्थान सुरक्षित हैं।

आदिवासियों के लिए दिल्ली में राजकीय स्कूलों और कालेजों में सीटों का आरक्षण

6992. श्री धनशाह प्रधान : क्या शिक्षा, समाज कल्याण और संस्कृति मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या भारत सरकार ने आदिवासियों को उचित उच्च शिक्षा की व्यवस्था करने की दृष्टि से आदिवासियों के लिए दिल्ली के राजकीय स्कूलों और कालेजों में कुछ सीटों का आरक्षण करने का प्रावधान विद्यमान है;

(ख) यदि हां, तो उनके लिए कितने प्रतिशत सीटें आरक्षित की गई हैं, और यदि नहीं, तो इसके क्या कारण हैं;

(ग) दिल्ली के राजकीय स्कूलों और कालेजों में 1 फरवरी, 1973 को कुल कितने विद्यार्थी पढ़ते थे और उनमें से आदिवासी छात्रों की संख्या क्या थी; और

(घ) दिल्ली में आदिवासियों के लिए शिक्षा की व्यवस्था करने हेतु सरकार की क्या योजना है ?

शिक्षा, समाज कल्याण तथा संस्कृति मंत्री (प्रो० एस० नूरुल हसन) : (क) और (ख) : दिल्ली के सरकारी स्कूलों में क्योंकि सभी एक्ट उम्मीदवारों को दाखिल किया

जाता है; इसलिए अलग से स्थान सुरक्षित नहीं किए जाते। जहां तक कालिजों का सम्बन्ध है, अनुसूचित जातियों और अनुसूचित जनजातियों के छात्रों के लिए क्रमशः 15 प्रतिशत और 5 प्रतिशत स्थान सुरक्षित हैं।

(ग) सूचना एकत्रित की जा रही है तथा सभा पटल पर रख दी जायेगी।

(घ) दिल्ली में कोई जनजातियां नहीं हैं और न ही दिल्ली प्रशासन द्वारा इस वर्ग के लोगों की शिक्षा के लिए अलग से कोई योजना तैयार की गई है। फिर भी, अन्य राज्यों/संघ शासित प्रदेशों से सम्बन्धित जनजातियों के विद्यार्थी जो दिल्ली के कालिजों में पढ़ रहे हों, वे सामान्यतः उत्तर मैट्रिक छात्रवृत्तियां पाने के हकदार हैं।

मध्य प्रदेश में अकाल और पेय जल का अभाव

6993. श्री गंगाचरण दीक्षित : क्या कृषि मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या मध्य प्रदेश के कुछ भागों में भयंकर अकाल पड़ा है और वहां पेय जल का अभाव है;

(ख) यदि हां, तो मध्य प्रदेश के लोगों की कठिनाइयां को दूर करने के लिए कितनी केन्द्रीय सहायता की आवश्यकता होगी, और

(ग) इस सूखे से प्रभावित जिलों के नाम क्या हैं और इसका कितने लोगों पर प्रभाव पड़ा है ?

कृषि मंत्रालय में राज्य मंत्री (श्री अण्णा साहिब पी० शिन्दे) : (क) मध्य प्रदेश के कुछ भाग सूखे से प्रभावित हुए हैं और कुछ क्षेत्रों में पीने के पानी की कठिनाई महसूस की जा रही है।

(ख) केन्द्रीय अध्ययन दल जिसने फरवरी, 1973 में मध्य प्रदेश का दौरा किया था, द्वारा की गई सिफारिशों के आधार पर राहत कार्यों के अलावा, राहत उपायों के लिए केन्द्रीय वित्तीय सहायता के प्रयोजन के लिए 1.44 करोड़ रुपये के खर्च की सीमा अपनाई गई है। राहत संबंधी ऐसे कार्यों जो कि उत्पादनकारी और दीर्घकालिक स्वरूप के हैं,

पर होने वाले खर्च के लिए राज्य और केन्द्रीय सरकारों के बीच नया हुई अग्रताओं के अनुसार केन्द्रीय महायत्ना सुलभ की जायेगी।

(ग) मध्य प्रदेश में 93 लाख जनसंख्या के 30 जिले विभिन्न परिमाण में सूखे से प्रभावित हुए बताये जाते हैं। इन जिलों के नाम इस प्रकार हैं :—

- | | |
|---------------|-------------------|
| 1. रायपुर | 16. पश्चिमी नोमाड |
| 2. दुर्ग | 17. पूर्वी नोमाड |
| 3. बस्तार | 18. मिहोर |
| 4. विन्दासपुर | 19. बेतुल |
| 5. रायगढ़ | 20. रीवा |
| 6. मरगुजा | 21. सतना |
| 7. जबलपुर | 22. शाहडौन |
| 8. छिंदवाडा | 23. छत्तरपुर |
| 9. सेवनी | 24. पन्ना |
| 10. मांडला | 25. राजगढ़ |
| 11. बालघाट | 26. शाजापुर |
| 12. घर | 27. इंदौर |
| 13. देवास | 28. उज्जैन |
| 14. रतलाम | 29. मदनसौर |
| 15. झाबुआ | 30. टीकमगढ़ |

ग्रामीण क्षेत्रों में अशिक्षित बेरोजगार व्यक्तियों के रोजगार के बारे में होशंगाबाद और पूर्वी निमाड़ के जिलाधिकारी के प्रस्ताव

6994. श्री गंगाचरण दीक्षित : क्या कृषि मंत्री यह बताने की कृपा करेंगे कि :

(क) होशंगाबाद और पूर्वी निमाड़ जिले के ग्रामीण क्षेत्रों में अशिक्षित बेरोजगारों को रोजगार उपलब्ध कराने सम्बन्धी द्रुत कार्यक्रम के अन्तर्गत होशंगाबाद और पूर्वी निमाड़ जिलों (म० प्र०) के जिला अधिकारियों से कितने प्रस्ताव प्राप्त हुए और उनमें से कितने प्रस्तावों को केन्द्रीय सरकार ने मंजूर किया;

(ख) उक्त जिलों के ऐसे खण्ड अधिकांशों की संख्या क्या है, जिनकी योजनाओं को मंजूरी दी गई है और जहां स्वीकृत योजनाओं के अनुसार काम भी शुरू किया जा चुका है, और स्वीकृत योजनाओं के कितने काम को पूरा किया जा चुका है;

(ग) अब तक कितने व्यक्तियों को रोजगार उपलब्ध कराया गया है और उक्त जिलों की उपर्युक्त योजनाओं के अन्तर्गत निर्माणाधीन कार्यों पर अब तक कितना धन व्यय किया जा चुका है; और

(घ) चलू वित्तीय वर्ष की शेष अवधि के दौरान अभी कितनी और धनराशि की आवश्यकता और पूरे किये जाने वाले कार्यों की

के प्रस्तावों का और वित्तीय वर्ष की शेष अवधि के दौरान प्रारम्भ किये जाने वाले कार्यों का खण्डवार व्यौरा क्या है ?

कृषि मंत्रालय में राज्य मंत्री (प्रो० शेर सिंह) : (क) भारत सरकार ने परियोजनाएं मंजूर करने की शक्ति राज्य सरकारों को प्रत्यायोजित कर दी है। इसलिए भारत सरकार को इन जिलों से कोई प्रस्ताव प्राप्त नहीं हुआ है।

(ख) में (घ). मांगी गई सूचना एकत्र की जा रही है और सभा पटल पर रखी जाएगी।

मध्य प्रदेश में रबी की फसल की सम्भावनाएं

6995. श्री गंगाचरण दीक्षित : क्या कृषि मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या सरकार को मध्य प्रदेश में रबी की फसलों की सम्भावनाओं के बारे में कोई रिपोर्ट मिली है;

(ख) क्या वर्षा की कमी का प्रभाव इस फसल पर पड़ा है और यदि हां, तो आगामी फसल में कितना उत्पादन कम होने की सम्भावना इस रिपोर्ट में दिखाई गई है; और

(ग) मध्य प्रदेश के विभिन्न भागों में सूखे और वर्षा के अभाव से उत्पन्न स्थिति का सामना करने के लिए क्या आरम्भिक कार्यवाही करने का विचार है ?

कृषि मंत्रालय में राज्य मंत्री (श्री अण्णा साहेब पी० शिंदे) : (क) से (ग). राज्य सरकार से सूचना मांगी गई है और वह प्राप्त होते ही सभा पटल पर रख दी जाएगी।

Short Term Summer Food Production Programme for Implementation of Emergency Food Production Programme

6996. SHRI C. K. JAFFER SHARIEF: Will the Minister of AGRICULTURE be pleased to state:

(a) whether a meeting was convened by Agriculture Ministry which was attended by the senior Agriculture Production officials from Mysore, Andhra Pradesh, Tamil Nadu and Kerala, regarding the implementation of the emergency food production programme for rabi/summer 1972-73;

(b) whether to tone up the shortfall in the kharif production, the Centre have sponsored a special short-term, summer food production programme apart from the usual rabi production; and

(c) if so, the main features thereof?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE): (a) Yes, Sir.

(b) Yes, Sir.

(c) A special programme was taken up for rabi/summer 1972-73 to make up the shortfall of foodgrains due to severe drought in kharif. For summer, the main crop included was summer rice. Special grants have been sanctioned for creating minor irrigation facilities in the States to take up summer rice programme. Short-term loans were also given for the purchase of inputs. The targets agreed to by the State Governments of Mysore, Andhra Pradesh, Tamil Nadu and Kerala are given as under:—

Name of the State	Area agreed to by the State in '000 hect.
Mysore	140
Andhra Pradesh	1000
Tamil Nadu	50
Kerala	120

**Selection Grade to T.G.Ts. and P.G.Ts.
in Delhi Municipal Corporation
Schools**

6997. SHRI JAGANNATH MISHRA:
SHRI ARJUN SETHI:

Will the Minister of EDUCATION,
SOCIAL WELFARE AND CULTURE
be pleased to state:

(a) whether Government have decided to give Selection Grades to Trained Graduate Teachers and Post-Graduate Teachers working in Government Schools in Delhi with effect from 5th September, 1971;

(b) whether 15 percent T.G. Teachers and P.G. Teachers (both males and females) working in Government Schools under Delhi Administration have been given Selection Grades;

(c) whether Selection Grades have also been given to teachers working in Primary Schools by the Delhi Municipal Corporation; and

(d) whether T.G. Teachers previously working under Delhi Municipal Corporation and now merged with Delhi Administration with effect from July, 1970 have not been given any Selection Grade so far; if so, the reasons for such a discrimination?

THE MINISTER OF EDUCATION,
SOCIAL WELFARE AND CULTURE
(PROF. S. NURUL HASAN). (a) to (c). Yes, Sir.

(d) These cases are being processed by the Delhi Administration.

**Effect of multiple taxation on demand
for Tractors**

6998. SHRI RANABAHADUR
SINGH: Will the Minister of AGRICULTURE be pleased to state:

(a) whether as a result of multiple taxation, farmers buying a tractor were paying as much as 32 per cent more than what they would have paid normally;

(b) whether the net result of additional burden is that the demand for tractor is declining sharply, retarding on one hand the future of Indian tractor industry and on the other, the pace of mechanisation; and

(c) if so, the steps Government propose to take in this regard?

THE MINISTER OF STATE IN
THE MINISTRY OF AGRICULTURE
(SHRI ANNASAHEB P. SHINDE):

(a) As a result of levy of customs duty, excise duty and sales tax on tractors, the prices of both indigenous and imported tractors have increased considerably.

(b) and (c). There is a down-ward trend in the registration of tractors with the State Agro-Industries Corporations and indigenous manufacturers of tractors. Information received from the Agro-Industries Corporations in various States indicates that the main reasons for the fall in demand are:—

- (1) Higher prices (particularly due to customs, excise and other duties).
- (2) Uncertainty due to proposed land ceiling.
- (3) Drought conditions in some States.
- (4) Tightening of credit facilities, cumbersome procedural formalities and delay in the sanctioning of loans.

Any decline in demand for tractors is likely to slow down the programme of farm mechanisation. With a view to providing necessary facilities to farmers, custom hiring work of the State Agro-Industries Corporations and setting up of Agro-Service Centres by entrepreneurs is also being stepped up. The question of reduction in customs duty on imported components of tractors and waiving of excise duty on indigenous tractors is under consideration of the Government of India. State Governments

have also requested to consider the question of reduction in sales tax on tractors.

Testing fee for water meters in Delhi

6999. SHRI RANABAHADUR SINGH: Will the Minister of WORKS AND HOUSING be pleased to state:

(a) whether the testing fee for water meters in Delhi has been increased from Rs. 5 to Rs. 17 per unit but their correctness is never ensured, with the result that the consumers have to pay more than is due;

(b) whether the authorities charge Rs. 100 as security deposit for each meter in addition to the monthly rent of 75 paise;

(c) whether no interest at the rate of 12 per cent per annum is paid to the consumers on the security deposit; and

(d) if so, the reasons therefor?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) The testing fee for water meters both in New Delhi Municipal Committee area and in the Delhi Municipal Corporation area is only Rs. 5 per unit. However, an additional charge of Rs. 12 is levied by the Corporation when the meter is removed from the premises by the staff of the Delhi Water Supply and Sewage Disposal Undertaking and refitted back after testing.

(b) No. The New Delhi Municipal Committee charges only Rs. 50 as security deposit per meter and the Delhi Municipal Corporation charges Rs. 75 as security deposit per meter.

(c) and (d). No interest is paid on meter security deposits as per Municipal rules.

Parents Teachers Association in H.S. Schools, Delhi

7000. SHRI AMBESH: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether in the Delhi Higher Secondary Schools, there is provision for the establishment of Parents Teachers Association; and

(b) whether some fund is collected every year from the students for the above P.T.A. and if so, the rate of collection from each student for Parents Teachers Association Fund?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) Yes, Sir.

(b) The rate of collections for the Parents Teachers Association Fund is generally one rupee per student per year. However, the Association can, by specific resolution, provide for a higher rate.

Construction of DDA Flats for Low-income Group

7001. SHRI S. N. SINGH DEO:
SHRI C. M. STEPHEN:

Will the Minister of WORKS AND HOUSING be pleased to state:

(a) the names of places in Delhi where the construction of flats for allotment to persons belonging to Low-income Group, has been recently completed by D.D.A. or nearing completion indicating the number of flats and storeys built in each area;

(b) the likely dates when the announcements for their allotment will be made during the year 1973; and

(c) the names of places where the construction of D.D.A. flats for Low-income Group is likely to be completed during the years 1973 and 1974 separately indicating the number of flats and storeys proposed to be built for each area?

**THE MINISTER OF STATE IN
THE DEPARTMENT OF PARLIA-
MENTARY AFFAIRS AND IN THE
MINISTRY OF WORKS AND HOUS-
ING (SHRI OM MEHTA):**

**Rehabilitation of Displaced Persons
under Gadgil Assurance**

7002. SHRI K. MALLANNA: Will the Minister of WORKS AND HOUSING be pleased to refer to the reply given to Unstarred Question No. 7718 dated the 29th May, 1972 regarding rehabilitation of displaced persons under Gadgil Assurance and state:

(a) whether steps have been taken to rehabilitate 1221 persons found eligible to receive benefits under the Gadgil Assurance;

(b) if so, the particulars thereof, and

(c) if not, the time by which the scheme will be finalised?

**THE MINISTER OF STATE IN
THE DEPARTMENT OF PARLIA-
MENTARY AFFAIRS AND IN THE
MINISTRY OF WORKS AND HOUS-
ING (SHRI OM MEHTA):** (a) to (c). The Delhi Development Authority have decided to resettle 323 families on the places where they are squat-

ting at present. In respect of the remaining residential squatters, schemes for resettlement will be drawn up after making a detailed physical survey and finalisation of the Zonal Implementation plans of the particular areas.

Out of Turn Allotment

7003. SHRI K. MALLANNA:

SHRI MUKHTIAR SINGH
MALIK:

Will the Minister of WORKS AND HOUSING be pleased to state:

(a) the number of applications for out of turn allotment of Government accommodation received in 1970, 1971 and 1972;

(b) the number of persons who have been allotted accommodation on medical grounds, being on personnel staff and on retirement of parents and on other grounds separately, year-wise; and

(c) the number of such applications pending as on the 31st March, 1973?

THE MINISTER OF STATE IN
THE DEPARTMENT OF PARLIA-
MENTARY AFFAIRS AND IN THE

MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA) : (a) to (c). The information is being collected and will be laid on the Table of the House.

Staff strength in Delhi Public Library

7004. SHRI A. S. KASTURE: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) the staff strength, category-wise, in the Delhi Public Library as on 31st October, 1972 and the number of employees belonging to the Scheduled Castes and Scheduled Tribes;

(b) whether reservation quota for Scheduled Castes and Scheduled Tribes has been maintained;

(c) if not, the reasons therefor; and

(d) the specific steps Government propose to take to fulfil the shortfall?

THE MINISTER OF EDUCATION,
SOCIAL WELFARE AND CULTURE
(PROF. S. NURUL HASAN): (a) The required information is given in the statement below:—

Category	Actual staff strength on 31-10-1972	Number of employees belonging to Scheduled Castes	Number of employees belonging to Scheduled Tribes
Class I	1	..	..
Class II	12	..	..
Class III	159	14	1
Class IV	65	26	3
	237	40	4

(b) to (d). The Delhi Public Library, which is an autonomous body, is observing since 1967 the orders and instructions relating to reservation of

posts for Scheduled Castes and Scheduled Tribes issued by the Government of India from time to time. Employees belonging to Scheduled

Castes and Scheduled Tribes constitute about 18.6 per cent of the total staff strength of the Library. The shortfall is due to the difficulty in getting persons with requisite qualifications in Library Science. The Library Board will be asked to intensify its efforts to make up the shortfall.

Staff Strength in Central Secretariat Library

7005. SHRI A. S. KASTURE: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) the staff strength, category-wise, in Central Secretariat Library as on 30th October, 1972 and the number of employees belonging to Scheduled Castes/Tribes;

(b) whether the reservation quota has been maintained;

(c) if not, the reasons therefor; and

(d) the specific steps Government propose to take to fulfil the shortfall?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) A statement is attached.

(b) to (c). The posts in the Central Secretariat Library form part of the overall cadres of the Departments of Education and Culture. The reservation orders are invariably kept in view while making recruitment to these posts.

Statement

STATEMENT SHOWING THE VARIOUS CATEGORIES OF STAFF IN THE CENTRAL SECRETARIAT LIBRARY AND THE NUMBER OF EMPLOYEES AMONGST THEM BELONGING TO SCHEDULED CASTES/ SCHEDULED TRIBES AS ON 30TH OCTOBER, 1972.

14.	Peon	3	..	..
15.	Sweeper-cum-Farash	1	1	..
16.	Sweeper	1	1	..
17.	Chowkidar	..	..	..

*The candidate was appointed with effect from 31-12-74

No separate communal roster is maintained for the Central Secretariat Library. The staff working in the Central Secretariat Library belong to the common cadres of the Departments of Education and Culture.

Staff of D.G.H.S. Library

7006. SHRI A. S. KASTURE: Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state:

(a) the staff strength, category-wise, in the D.G.H.S. library as on the 31st October, 1972 and the num-

ber of employees belonging to Scheduled Castes/Tribes;

(b) whether reservation quota for Scheduled Castes/Scheduled Tribes has been maintained; if not, the reasons therefor; and

(c) the specific steps Government propose to take to fulfil the shortfall?

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (SHRI KONDAJJI BASAPPA): (a) The staff strength, category-wise, in the Directorate General of Health Services Library as on 31st October, 1972 was as follows:—

	Total strength	Scheduled castes	Scheduled tribes
1. Additional Deputy Assistant Director (Library) Class I			
2. Librarian Grade I (Class II, Gazetted)			
3. Librarian Grade II (Class III, Non-Gazetted)			
4. Librarian Grade III (Class III, Non-Gazetted)			
5. Library Attendants (Class III, Non-Gazetted)			
TOTAL	24	3	

(b) No separate quota for reservation of posts for Scheduled Castes/Scheduled Tribes is maintained for posts in the National Medical Library as these posts form a part of the Directorate General of Health Services headquarters' establishment. The special Representation Roster is maintained for the Directorate General of Health Services as a whole.

(c) Does not arise.

Delay in Development of Lawns of Type II Quarters in Mandir Marg,

7007. SHRI VARKEY GEORGE:
New Delhi

SHRI M. S. SIVASWAMY:

Will the Minister of WORKS AND HOUSING be pleased to state:

(a) whether the edging, hedging, fencing and grassing of the plots|

lawns has not since been provided by the Horticulture Department in the Type II quarters of Mandir Marg, New Delhi and there is no sanitation in the area also since the allotment of the said newly built quarters was made for last one and a half year;

(b) the steps taken in improving the situation in the area; and

((c) the action taken against the persons involved in making delay in this respect?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) Mild steel fencing has been provided on the periphery of these quarters. The grassing in the area has been taken up. In some area the work done was

found to be sub-standard. Action is being taken against the contractor in terms of agreement. There is no proposal to provide edging and hedging the area. The open space between the quarters will be provided with railing and curbs, wherever necessary. Sewerage and storm water have been completed in the area and the cleaning, including cleaning of roads and open space, are being attended to regularly.

(b) Does not arise.

(c) Action in terms of the conditions of agreement is being initiated against the grassing contractor for delay in grassing the area.

Scholarship Scheme for Scheduled Castes/Tribes in Government Medical College, Mysore

7008. SHRI S. M. SIDDAYYA: Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state:

(a) out of the 300 Additional Scholarships Schemes (Batch I and Batch II) for the year 1972-73, how many post-graduates belonging to the Scheduled Castes and Scheduled Tribes have been awarded the scholarship.

(b) whether it has come to the knowledge of the Minister that in the Government Medical College, Mysore, some students belonging to the Scheduled Castes and Scheduled Tribes who were awarded the above scholarships have either discontinued their studies or have been awarded the scholarship from the Government of Mysore, and if so, whether those awards made by the Central Government will lapse; and

(c) if so, whether such scholarships will be awarded to those Scheduled Castes and Scheduled Tribes students who have applied for the award?

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (SHRI KONDAJJI BASAPPA): (a) Under "300 Additional Scholarships Scheme" during 1972-73 (1st Batch), 11 scholarships were awarded to candidates belonging to Scheduled Castes, and none to Scheduled Tribes as there was no applicant from this category. During 1972-73 (2nd Batch), 16 scholarships were awarded to Scheduled Castes and one to Scheduled Tribes candidates.

(b) Yes. As two Scheduled Castes candidates who were selected for the award of scholarships under the "300 Additional Scholarships Scheme" in 1972-73 (2nd Batch) have been sanctioned the payment of stipends by the State Government they will not be eligible for the grant of scholarship under the aforesaid scheme in accordance with the conditions applicable to the grant of such scholarships.

(c) The scholarships are awarded on the recommendations of the Selection Committee. No scholarship under the aforesaid scheme will be available to the candidates of Scheduled Castes and Scheduled Tribes who applied for the same but have not been recommended by the Selection Committee for the award of scholarships.

Posts created in Town and Country Planning Organisation

7009. SHRI M. S. SIVASWAMY: Will the Minister of WORKS AND HOUSING be pleased to state:

(a) whether some posts have been created in Town and Country Planning Organisation (a subordinate office of the Ministry of Works and Housing) on the Technical side since 1966;

(b) if so, the numbers thereof; and

(c) if not, the reasons therefor?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) Yes.

(b) The number of posts created since 1966 on the Technical side is as under:—

Year	No. of Posts created
1966	28
1967	48
1968	1
1969	10
1970	16
1972	21

(c) Does not arise.

Promotion in Town and Country

Planning Organisation

7010. SHRI M. S. SIVASWAMY: Will the Minister of WORKS AND HOUSING be pleased to state:

(a) whether some promotional avenues have been opened to the Departmental Upper Division Clerks and Lower Division Clerks and the approximate period for which they may have to wait for promotion in Town and Country Planning Organisation (a subordinate office of the Ministry of Works and Housing); and

(b) if so, the facts thereof?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) and (b). Lower Division Clerks are eligible for promotion as Upper Division Clerks and Upper Division Clerks are eligible for promotion as Head Clerk.

The period of waiting for promotion is dependent on vacancies in the grade of Upper Division Clerk and Head Clerk.

Sanitation and CGHS Arrangements in DIZ Area, New Delhi

7011. SHRI M. S. SIVASWAMY: Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state:

(a) whether there is no proper sanitation arrangement in the DIZ area, Mandir Marg, New Delhi for the last one and a half years;

(b) whether there is no CGHS dispensary in the newly built Government colony of Mandir Marg area also and the Government servants are having great difficulty in going to the far away dispensary situated near Gole Market, if so, the steps taken by Government in making provision for the same; and

(c) the steps taken by Government in making the provision of dispensary in the area and keeping the colony clean?

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (SHRI KONDAJJI BASAPPA): (a) No, Sir.

(b) and (c). One C.G.H.S. dispensary is required to serve an area within a radius of 3 Kms. The newly-built colony of Mandir Marg is well within the limits of the C.G.H.S. dispensary functioning at Gole Market. To cater for the increased number of residents in this area, it was hoped that it will be possible to open another dispensary in this area during 1973-74 but it is not now possible due to the paucity of the resources.

To keep the colony clean the C.P.W.D. has provided adequate sewerage and storm water drainage facilities in the area. The C.P.W.D. is also attending to any blockage that occurs in the gully-traps or the man-holes. The storm water drains are also being cleaned from time to time. The N.D.M.C. has provided dust bins at suitable points where the tenants are supposed to throw the garbage. Cleaning of the roads and open areas is being done regularly.

Construction of Office and Residential Accommodation in Kerala

7012. SHRI RAMACHANDRAN KADANNAPPALLI: Will the Minister of WORKS AND HOUSING be pleased to state:

(a) whether Central Government have sanctioned any scheme for the construction of office and residential accommodation in the General pool in Kerala in 1973-74; and

(b) if so, the main features thereof and the amount allotted for this purpose?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) No.

(b) Does not arise.

Net Work of Rural Dispensaries

7013. SHRI RAMACHANDRAN KADANNAPPALLI: Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state:

(a) whether the Government of Kerala has submitted any scheme for starting a net work of rural dispensaries in Kerala; and

(b) if so, the broad outlines thereof and the steps taken thereon?

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (SHRI KONDAJJI BASAPPA): (a) Yes.

(b) The salient features of the Scheme are as indicated below:—

- (i) There should be at least one dispensary for every 5000 population.
- (ii) With the Central assistance, the State Government may start 550 dispensaries for Ayurveda System and 225 dispensaries for Homoeopathy.

(iii) The State Government proposes to build a revolving fund out of Central assistance for the construction of permanent buildings for the dispensaries in rural areas.

(iv) The object of the scheme is to provide employment to qualified medical practitioners as well as to provide cheap medical care to the rural people.

A final Scheme for health services for rural areas is yet to be evolved.

Subsidised Housing Schemes for Plantation Workers

7014. SHRI VAYALAR RAVI: Will the Minister of WORKS AND HOUSING be pleased to state:

(a) the total amount to be spent by the Government for the Subsidised Housing Schemes for Plantation Workers in the year 1973-74; and

(b) the particular of such schemes submitted by different States and the State-wise break up of the amount allotted for the year 1973-74?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) and (b). A provision of Rs. 64.00 lakhs (Rs. 36.00 lakhs as loan and Rs. 28.00 lakhs as grant) has been proposed in the Central Budget for the year 1973-74 for the implementation of the subsidised Housing Scheme for Plantation Workers by the Governments of Assam, Kerala, Mysore, Tamil Nadu, Tripura and West Bengal where there are plantations. The State Governments themselves are competent to sanction the housing projects formulated under the Scheme, and advance financial assistance therefor. Funds will be allocated to the respective States after their requirements for 1973-74 have been reported by them and the demands for Grants are voted by the Parliament.

Cargo Handled by Cochin Port during 1972-73 as compared to the Major Ports and its Development

7015. SHRI VAYALAR RAVI: Will the Minister of SHIPPING AND TRANSPORT be pleased to state:

(a) the total quantity of Cargo handled by the Cochin Port during the year 1972-73 and how it compares with the quantity of Cargo handled at the other major Ports of the country; and

(b) a brief outline of the development works to be undertaken in the Cochin Port during 1973-74 and the total expected expenditure?

THE MINISTER OF SHIPPING AND TRANSPORT (SHRI RAJ BAHADUR): (a) A statement is attached.

(b) The important development schemes expected to be undertaken in the Cochin Port during 1973-74 are extension of open berth, construction of super tanker berth, facilities for handling fertilizers and containers, provision of facilities for handling liquid ammonia, purchase of four Wharf Cranes, one hopper grab dredger, one high power tug, one hopper suction dredger and housing schemes etc. The total estimated expenditure for all these schemes during 1973-74 is Rs. 3.00 crores.

Name of Major Port	Traffic handled during 1972-73 (in million tonnes)
Calcutta . . .	6.68
Bombay . . .	15.41
Madras . . .	6.78
Cochin . . .	4.30
Visakhapatnam	7.54
Kandla . . .	2.43
Mormugao . .	12.85
Paradip . . .	2.02

N.B. The figures mentioned above are provisional as final figures are still awaited.

Central Assistance of Amount to be Spent on Housing in 1973-74

7016. SHRI VAYALAR RAVI: Will the Minister of WORKS AND HOUSING be pleased to state:

(a) the total amount to be spent by different State Governments for housing in the year 1973-74 and the share of Kerala for this purpose; and

(b) the total amount of Central assistance for this purpose and its State-wise break up?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) and (b). The tentative figure of total approved Plan outlay on Housing in the State Sector for 1973-74 for all the States (excluding Union Territories) is Rs. 3,063 lakhs of which the outlay for Kerala is Rs. 149 lakhs.

From 1969-70, i.e., the beginning of the Fourth Five Year Plan, Central financial assistance for all State Sector programmes (including Housing) is being given to the State Governments in the shape of 'block loans' and 'block grants' by the Ministry of Finance in the ratio of 70:30. This block Central assistance is not relatable to any individual scheme, project or head of development. The State Governments are thus free to utilise the block Central assistance on various schemes and projects included in their Plan according to the requirements and priorities to be determined by them. The amount earmarked for Housing by the various State Governments out of the Central block assistance allocated to them for the year 1973-74 is not therefore available.

This Ministry, however, sanction financial assistance for the following two social housing schemes which are in the Central Sector, outside the State Plan ceiling:—

(i) Subsidised Housing Scheme for Plantation Workers; and

(ii) Scheme for provision of House-sites to Landless Workers in rural areas.

Scheme at (i) above has been transferred to the Central Sector with effect from the year 1970-71. A sum of Rs. 64 lakhs (Rs. 36 lakhs as loan and Rs. 28 lakhs as subsidy) has been provided for this Scheme during 1973-74. Allocations will be made to the State Governments of Assam, Kerala, Mysore, Tamil Nadu, Tripura and West Bengal which have plantations in their areas, after they intimate to this Ministry their requirements of funds for the year 1973-74.

The Scheme at (ii) above has been introduced in October, 1971. A sum of Rs. 5 crores has been provided for the implementation of this scheme during 1973-74. No State-wise allocation of funds for 1973-74 has been made. Funds under the scheme are released to the State Governments on the basis of projects approved and the actual expenditure to be reported by them from time to time.

Criteria for Inclusion of Roads in Crash Programme for Rural Employment

7017. SHRI DHARAMRAO AFZAL-PURKAR: Will the Minister of AGRICULTURE be pleased to state:

(a) the criteria fixed by the Central Government for choosing rural roads for inclusion in the Centrally Sponsored Crash Programme for job-oriented development work in the interior of the State;

(b) whether there has been any consideration by including population communication facilities and backwardness of the people also; and

(c) if so, the main features thereof?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) to (c). The Government of India have not

fixed any special criteria for choosing rural roads for inclusion under the Crash Scheme. Any project that is labour intensive and useful for the development of a district can be undertaken under the scheme. Subject to this condition the discretion in selecting projects has been left with State Governments. There has, however, been a predominance of road works in the case of most of the States for various reasons.

स्टेट बैंक ऑफ इण्डिया की शाखाओं में दिल्ली विकास प्राधिकरण के फार्मों की कमी

7018. श्री चन्द्र लाल खन्नाकार: क्या निर्माण और आवास मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या स्टेट बैंक ऑफ इण्डिया की शाखाओं में दिल्ली विकास प्राधिकरण के वे फार्म उपलब्ध नहीं हैं जिनके माध्यम से प्राधिकरण के नाम में रुपया जमा कराया जाता है;

(ख) यदि हां, तो क्या इस कारण रुपया जमा कराने वालों को कठिनाई का सामना करना पड़ता है;

(ग) क्या इस बारे में सरकार को कुछ शिकायतें भी प्राप्त हुई हैं; और

(घ) यदि हां, तो उक्त कठिनाई कब तक दूर कर दी जायेगी ?

संसदीय कार्य विभाग तथा निर्माण और आवास मंत्रालय में राज्य मंत्री (श्री ओम मेहता) : (क) जी नहीं। मांग आने पर शाखाओं को चालान फार्म अपेक्षित संख्या में नियमित रूप से दिये जाते हैं।

(ख) प्रश्न ही नहीं उठता।

(ग) जी, नहीं।

(घ) प्रश्न ही नहीं उठता।

**Foreign Consultants appointed for
Execution of New Bridge over
Hooghly**

7019. DR. RANEN SEN:

SHRI SAMAR GUHA:

Will the Minister of SHIPPING AND TRANSPORT be pleased to state:

(a) whether as many as three foreign consultants have been proposed to be appointed for execution of the New Hooghly River Bridge Project in Calcutta, viz. F.F.P. for the contractor (M/s. B.B.C.C. Limited), RPT for the C.P.C. (the implementing agency for the main span of the bridge) and L. and A. for the H.R.B.C.

(b) if so, the amount of foreign exchange required for each of these consultants;

(c) whether M/s. R.P.T. is found to have no experience or expertise in the type of bridge proposed to be constructed in Calcutta, viz., cable stayed box girder design; and

(d) if so, the reasons for appointing M/s. R.P.T. as a consultant in addition to M/s. L. & A. who are reported to have the best expertise in the field of designing and construction of this type of bridge?

THE MINISTER OF STATE IN THE MINISTRY OF SHIPPING AND TRANSPORT (SHRI M. B. RANA): (a) to (d). The proposed Second Hooghly Bridge is essentially a State project. The State Government are, therefore, primarily concerned with all matters connected with this project. According to the information furnished by them, it is true that there is a proposal with the State Government to have three Consultants referred to in part (a) of the Question. The foreign ex-

change required by them for these three Consultants is as under:

Name of Consultants	Foreign Exchange required
Fees of M/s Freeman Fox & Partners—Foreign Consultants of the Contractor (M/s B.B.C.C. Ltd.)	£ 1,05,000
Fees of M/s Rendal Palmer & Tritton—Foreign Consultants to Calcutta Port Commissioners	£2,99,375
Fees of M/s Leonhardt Vnd Andra—Foreign Consultants to Hooghly River Bridge Commissioners	£2,27,500

The State Government have indicated that the Calcutta Port Commissioners who are the implementing agency for the bridge proper on behalf of the State Government have advocated the appointment of M/s. Rendal Palmer and Tritton as their Consultants on the following grounds:

- (a) They have been a regular consultant of the Port for many years now.
- (b) They have intimate knowledge of the regime of River Hooghly and of Dock Structures. Close proximity of the Kidderpore Docks to the bridge site requires careful planning of the methods and sequence of construction with due regard to its effect on the regime and the draft of the river; otherwise serious dislocation of Port activities may result.
- (c) M/s. RPT have been associated with this bridge project since 1962. They vetted the tender documents and subsequently evaluated the tenders when received. Since the replacement of work order, they have rendered very

valuable advice on the aerodynamic tests which are now being carried out at the Indian Institute of Science, Bangalore and also regarding the indigenous manufacture of bridge cables for the first time in India.

- (d) M/s. RPT have independently designed the two cable stayed box girder bridges 1500 ft span and other of 1800 ft. span as received from the tenderers and found certain flaws with the tenderers' design, which were duly modified by the tenderers' Consultants after discussions with them.
- (e) By virtue of their experience in the design of box girder bridges they have been appointed by the U.K. Government as one of the Consultants for carrying out the Merrison Rule Check on the existing box girder bridges. This Rule of Design Checking was evolved after several failures of box girder Bridges to prevent such future failures. Check by Merrison Rule is one of the primary conditions of contract for this bridge
- (f) They have vast experience in the erection of steel bridges and monolith foundations. The existing Rabindra Setu was designed by them and constructed under their consultancy.
- (g) The proposed bridge will have the longest main span (1500 ft.) of this type built anywhere in the world, the maximum span so far constructed being only 1050 ft. The cable-stayed box girder bridge is a modern innovation in the design of long span suspension bridges and it is found to be economical in the

range of the span proposed for the Hooghly bridge. Appointment of M/s. RPT as a Consultant in addition to M/s L. & A will provide double check on the design of the bridge and reduce risk and failures during construction to the absolute minimum.

Home for Freedom Fighters in Delhi

7020. SHRI RAMAVATAR SHASTRI: Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state:

(a) whether Government have formulated any scheme for establishing Home for Freedom Fighters in the city of Delhi;

(b) if so, broad outlines thereof; and

(c) when the scheme would be implemented?

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (SHRI KONDAJJI BASAPPA): (a) to (c). The question of setting up a home for Freedom Fighters is under consideration. The scheme has however yet to be concretised with regard to its location, scope and other details regarding agency for running the home—Government or voluntary.

दिल्ली में आवास की समस्या और अनधिकृत मकानों को गिराने के लिये सरकारी आदेश

7021. श्री महादीपक सिंह शास्त्री : क्या निम्न और आवाहक मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या गत कुछ वर्षों में दिल्ली में जनसंख्या में वृद्धि तथा बाहर से लोगों के बड़ी संख्या में आ जाने के कारण आवास समस्या गम्भीर हो गई है;

(ख) क्या रिहायश सम्बन्धी आवश्यकताओं के लिए लोगों ने जो उपाय किये हैं, उनसे मकानों का अवैध निर्माण हुआ है; और

(ग) यदि हां, तो इन लोगों के मकानों को गिराने के लिए सरकार द्वारा आदेश जारी किये जाने के क्या कारण हैं ?

संसदीय कार्य विभाग तथा निर्माण और आवास मंत्रालय में राज्य मंत्री (श्री प्रोम मेहता) : (क) से (ग). नगर के रिहायशी तथा अन्य निर्माण कार्य, अवश्य ही स्थानीय निकायों के अधिनियमों तथा विनियमों और बृहत योजना के प्रतिबन्धों के अनुसार होने चाहिये। दिल्ली इसका अपवाद नहीं है तथा अनधिकृत निर्माणों का कार्यवाही इस विषय पर बने कानून के अनुसार करनी होगी।

**Reserved Posts for Scheduled Castes/
Scheduled Tribes in the Ayurvedic
Vaids Class II**

7022. SHRI T. SOHAN LAL:

SHRIMATI SAVITRI SHYAM:

Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state:

(a) how many Ayurvedic Vaids Class II posts have been filled in the Delhi Administration, New Delhi

Municipal Committee and Delhi Municipal Corporation including the posts of Drug Inspectors during the last three years, and how many such posts have been reserved for the Scheduled Caste and Scheduled Tribe candidates;

(b) if none of such posts have been reserved for the Scheduled Castes and Scheduled Tribes during this period, reasons therefor; and

(c) what steps Government have taken to see that the reservations of posts for the Scheduled Castes and Scheduled Tribes are actually implemented and are not flouted or circumvented by the various appointing authorities?

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (SHRI KONDAJJI BASAPPA): (a) The information has been given in the enclosed statement.

(b) Does not arise.

(c) Instructions exist for maintenance of rosters for reservation according to Government policy, nomination of Liaison Officers and setting up of small cells to ensure the proper implementation of the orders and submission of annual statements showing particulars of recruitment made and for obtaining prior approval of the Department of Personnel for de-reservation of vacancies.

STATEMENT

Sr. No.	Name of the Organisation	No. of posts filled during the last 3 years		Remarks
		Ayurvedic Vaids Class II	Drug Inspec- tors	
1.	Delhi Administration	..	1 (ad hoc basis)	Have sent requisition for recruitment to 6 posts of Drug Inspectors and out of these posts one each has been reserved for Scheduled Caste and Scheduled Tribe candidates.

Sr. No.	Name of the Organisation	No. of posts filled during the last 3 years		Remarks
		Ayurvedic Vaid Class II	Drug Inspectors	
2.	New Delhi Municipal Committee			One of these 3 posts is meant for Scheduled Caste candidate. The reserved vacancy has been carried forward due to non-availability of suitable candidate.
3.	Municipal Corporation of Delhi	14 (ad hoc basis)		The posts have been filled on an ad hoc basis from amongst the departmental candidates from time to time according to seniority and only one Scheduled Caste candidate fulfilled the qualifications. The recruitment rules for filling up the posts of Vaid are under process and provision for fixed quota for candidates belonging to Scheduled Castes, Backward Classes and ex-services men has been kept in the recruitment rules.
Piped Water Supply to Residents of Khurda N.C.A. Area in District Puri (Orissa)		laid on the Table of the Sabha as soon as received.		
7023. SHRI CHINTAMANI PANIGRAHI: Will the Minister of WORKS AND HOUSING be pleased to state:		Pay Scales of Teachers working in Schools run by Bharat Sewak Samaj		
(a) what progress has been achieved so far for supplying piped water supply to residents of Khurda N.A.C. area in the District of Puri in Orissa in view of the coming summer season;		7024. SHRI SAT PAL KAPUR: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:		
(b) whether the scheme can be completed before the coming summer season; and		(a) whether the pay scales for teachers working in schools run by Bharat Sewak Samaj have not so far been prescribed;		
(c) the estimated cost involved in this scheme?		(b) whether fee charged from student is much more than charged in other schools; and		
THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) to (c). The information is awaited from the State Government. The material will be		(c) the reasons for not prescribing the pay-scales of the teachers?		
		THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) and (c). The two unaided schools run by		

the Bharat Sewak Samaj have been given recognition by the Delhi Administration only for one year, and that on condition that the pay scales of teachers employed in the schools would be as prescribed by the Directorate of Education. The Management has not fulfilled this condition and the question whether, in the circumstances, recognition should be extended or not is under examination by the Delhi Administration.

(b) At present, the fees charged are higher than what obtains in Government and Government-aided schools

Rig for Tube-well programme in Maharashtra

7025. SHRI SHRIKISHAN MODI:

SHRI P. GANGADEB:

Will the Minister of AGRICULTURE be pleased to state:

(a) whether six rigs have been received by the Maharashtra Government from Government of Sweden;

(b) whether the tube-well programme was affected owing to lack of rigs; and

(c) whether some other States which had started tube-well programme have also requested the Centre for supply of rigs?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) No drilling rig has been received by the Maharashtra Government from Swedish Government for irrigation purposes.

(b) The irrigation tubewells have very limited scope in Maharashtra and their progress was not affected by lack of rigs.

(c) The States are required to approach the Centre only for allocation of foreign exchange, in case, the rigs required are not indigenously available and are proposed to be imported. No case is presently pending for allocation of foreign exchange in respect of rigs.

खलघाट के नर्मदा पुल का निर्माण का कार्य

7026. श्री भारत सिंह चौहान : क्या नौबहन और परिवहन मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या खलघाट के नर्मदा पुल का काम अभी तक शुरू नहीं हुआ है, और

(ख) यदि हा, तो इसके क्या कारण हैं ?

नौबहन और परिवहन मंत्रालय में राज्य मंत्री (श्री एम० बी० राना) : (क) कार्य अभी शुरू नहीं किया गया है ।

(ख) कार्य के लिए टेंडर पहले दिसम्बर, 1970 को प्राप्त हुए । टेंडरों की संवीक्षा के फलस्वरूप न्यूनतम दर वाले टेंडर में कुछ बड़ी बड़ी कमियां पाई गई । तदनुसार ये कमियां बनाई गई और राज्य सरकार से अनुरोध किया गया कि वह टेंडरदाताओं से स्पष्टीकरण मांगे और कमियों को दूर कराये । राज्य सरकार ने ऐसा ही किया और जबकि टेंडर विचाराधीन था, दिसम्बर, 1971 में टेंडरदाता ने टेंडर की कुछ शर्तों में कुछ संशोधन करने के लिए कहा । इस पर राज्य मुख्य इंजीनियर ने यह अनुभव किया कि इन संशोधनों के परिणामस्वरूप टेंडर के स्वरूप पर बुनियादी तौर पर प्रभाव पड़ेगा और इसलिए टेंडरों के पुनः आमंत्रण के लिए जनवरी, 1972 में सिफारिश की गई ।

राज्य सार्वजनिक निर्माण विभा
नवम्बर, 1972 में फिर से टेंडर आमंत्रित किये
और जिन्हें मार्च, 1973 में उम्मेदवारों को
सिफारिशों सहित भारत सरकार को भेज
दिया। इनकी जांच की जा रही है।

**दिल्ली में दवाओं में मिलावट और अधिक
मूल्य लिये जाने के बारे में
शिकायत**

7027. श्री शंकर बयाल सिंह: क्या
स्वास्थ्य और परिवार नियोजन मंत्री यह
बताने की कृपा करेंगे कि

(क) क्या सरकार को दिल्ली में बड़े
पैमाने पर दवाओं में मिलावट और अधिक
मूल्य लेने की शिकायत मिली है, और

(ख) यदि हाँ, तो सरकार ने इस
सम्बन्ध में गत 6 महीनों में कितनी दुकानों के
विरुद्ध कार्यवाही की है और उसका व्यौरा
क्या है ?

**स्वास्थ्य और परिवार नियोजन मंत्रा-
लय में उपमंत्री (श्री कोन्डाजी बासप्पा) :**

(क) जी नहीं।

(ख) बड़े पैमाने पर नमूने लेने तथा
परीक्षण करने के परिणामस्वरूप, अक्टूबर,
1972 से मार्च, 1973 तक दवाइयों में
मिलावट के दो मामलों का पता चला था।
जांच पड़ताल के लिए दोनों मामलों को
पुलिस में दर्ज करा दिया गया है। अधिक मूल्य
लेने तथा औषध एवं अंगरसग अधिनियम और
नियमों के कतिपय उल्लंघनों पर एक औषध
विक्रेता का लाइसेंस 14 दिन की अवधि के
लिए निलंबित कर दिया गया था।

**Setting up of Experts Committee to
Assess the various problems of the
Drought Affected Areas**

7028. SHRI VASANT SATHE: Will
the Minister of AGRICULTURE be
pleased to state:

(a) whether in view of recurrent
nature of droughts Government pro-
pose to set up Experts Committee/
Commission/Task Force to assess the
magnitude of the problem, identify the
nature of the problem and work out
suitable strategy of resources develop-
ment of the chronically drought affect-
ed areas; and

(b) if so, the outlines of the propo-
sal?

THE MINISTER OF STATE IN THE
MINISTRY OF AGRICULTURE
(PROF. SHER SINGH): (a) and (b).
There is no proposal to set up Experts
Committee/Commission/Task Force to
study the problems of the chronically
drought prone areas. However, a Task
Force in the Planning Commission,
under the Chairmanship of Member
(M), is studying the problems of in-
tegrated rural development in different
resources situations. One of the re-
source situations being studied by this
Task Force is that of the chronically
drought affected areas.

श्रीमती फिशर को सम्मानित करना

7029. श्री कमल मिश्र मधुकर : क्या
शिक्षा, समाज कल्याण और संस्कृति
मंत्री यह बताने की कृपा करेंगे कि

(क) क्या भारत सरकार ने श्रीमती
फिशर को विश्व नागरिक के सम्मान से
विभूषित किया है;

(ख) यदि हाँ, तो उनका विशिष्ट
योगदान क्या रहा है जिसके कारण उन्हें
इस उपाधि से सम्मानित किया गया है;
और

(ग) भारत द्वारा उपाधि किन-किन अन्य देशों के नागरिकों को प्रदान की गई है तथा प्रत्येक देश के ऐसे कितने नागरिक हैं जिन्हें वह उपाधि दी गई है और तत्सम्बन्धी अन्य व्योरे क्या हैं ?

शिक्षा, समाज कल्याण और संस्कृति मंत्रालय में राज्य मंत्री (प्रो० एस० नरुल हसन) : (क) और (ग). सरकार द्वारा ऐसी कोई उपाधि नहीं दी गई है ।

(ख) प्रश्न नहीं उठता ।

प्रशिक्षण तथा उत्पादन केन्द्रों में काम करने वाली महिलाओं के बारे में भारतीय मजदूर संघ का ज्ञापन

7030. श्री हुकम चन्द कछवाय : क्या शिक्षा, समाज कल्याण और संस्कृति मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या सरकार को अगस्त, 1972 में भारतीय मजदूर संघ, दिल्ली प्रदेश का कोई ज्ञापन भारत सरकार के प्रशिक्षण तथा उत्पादन केन्द्रों में काम करने वाले महिलाओं के सम्बन्ध में मिला है;

(ख) मांगों की मुख्य बातें क्या हैं ; और

(ग) इस सम्बन्ध में सरकार ने अब तक क्या कार्यवाही की है ?

शिक्षा, समाज कल्याण तथा संस्कृति मंत्रालय में राज्य मंत्री (प्रो० एस० नरुल हसन) : (क) हां, श्रीमान् ।

(ख) और (ग). मुख्य मांगें अंश-दर कार्यकर्त्ताओं के स्थायी किये जाने, निःशुल्क इलाज की व्यवस्था, निःशुल्क शिक्षा तथा पुस्तकों और अंश-दर वेतन में से काट लिये

जाने वाले 25 प्रतिशत 'केन्द्र-चार्ज' के हटाने जाने के विषय में हैं । पहली तीन मांगों के विषय में तो प्रश्न ही नहीं उठता । ये सरकारी कर्मचारी नहीं हैं; पूर्ण रूप से ऐसे स्वैच्छिक कार्यकर्त्ता हैं जो अपनी इच्छानुसार जब चाहें काम पर आते हैं । तो भी, उनके अंश-दर वेतनों को पुनः निश्चित किये जाने का प्रश्न विचाराधीन है ।

Financial Implications of taking over Foodgrains Trade by Government

7031. SHRI S. C. SAMANTA:

SHRI JAGANNATH MISHRA:

Will the Minister of AGRICULTURE be pleased to state:

(a) how Government are proposing to meet the financial involvement in the take-over of grain trade;

(b) what are the needs of the States and the kind of assistance in shape of loans, subsidies etc., proposed to be given to States; and

(c) the percentage of financial burden and the estimated amount of expenditure to be borne by the Centre?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE):

(a) to (c). The financing of food procurement operations of the Food Corporation of India, State Governments and the cooperative agencies is being undertaken by the public sector banks and a few private sector banks under a consortium arrangement. An aggregate limit of Rs. 575 crores is the amount allocated among the participating banks for financing food procurement operations. This limit is likely to increase after April, 1973, in view of the anticipated increase in the food procurement operations on account of take-over of wholesale trade in wheat. The Reserve Bank of India has advised the banks participating in the consortium that all the credit needs of

the Governmental procurement agencies from the banking sector should be met through the consortium. The allocation of the share of food credit among the banks in the consortium is done by the Reserve Bank of India. The Reserve Bank of India has also constituted a committee of bankers to ensure, *inter alia* equitable distribution of food procurement credit among the banks participating in the consortium.

Small Farmer's Access to Credit

7032. SHRI S. A. MURUGANANTHAM: Will the Minister of AGRICULTURE be pleased to state:

(a) whether the attention of Government has been drawn to the news appearing in *Hindustan Times* dated the 10th March, 1973, under the heading 'Small farmer should have access to credit-Pai';

(b) if so, Government reaction thereto; and

(c) whether credit policy towards farmers, shop-keepers, small industrialists and scooter drivers is likely to undergo a big change?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE):

(a) Yes, Sir.

(b) Government are aware of the need to reach credit to small farmers, so that they can adopt modern technology in agriculture. It is Government's policy to re-orient institutional credit to meet this objective.

(c) With the introduction of Credit Guarantee Scheme with effect from 1-4-1971 and the scheme of Differential Rates of Interest, being implemented by the Commercial Banks, it is expected that small farmers, shopkeepers transport operators, etc. would be increasingly helped by commercial banks in future.

Monkey as a Menace to Farming

7033. SHRI P. GANGADEB:

SHRI P. M. MEHTA:

Will the Minister of AGRICULTURE be pleased to state:

(a) whether some delegates in the symposium on Agriculture development which was held in New Delhi pointed out that monkeys are a big menace to farming;

(b) if so, whether scientists had no solution to this; and

(c) if so, what steps Government are proposing in this regard?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE):

(a) Yes, Sir, a mention of money menace was causally made in the symposium when one of the delegates was referring to crop damage by wild beasts such as elephants, jackals, foxes etc.

(b) No specific solution to money menace is available at present except scaring them away from the crops by one or other means.

(c) At the present moment there is no proposal under consideration to study and prevent money menace to crops, since the problem is of very limited importance in comparison to damage done by other agents such as birds, rodents etc. and the efforts are mainly concentrated on them.

Tour of Speaker of A.P. Legislative Assembly to Famine Stricken Area

7034. SHRI P. NARASIMHA REDDY: Will the Minister of AGRICULTURE be pleased to state:

(a) whether the Speaker of the Andhra Pradesh Legislative Assembly after a tour of Rayalseema and other

famine-stricken areas of Andhra Pradesh has submitted his report and recommendations to Andhra Pradesh Government;

(b) the main features thereof; and

(c) the action proposed or taken to alleviate distress?

THE MINISTER OF STATE IN
THE MINISTRY OF AGRICULTURE
(SHRI ANNASAHEB P. SHINDE):

(a) Yes, Sir.

(b) Statement I is attached.

(c) Statement II is attached

STATEMENT I

The main features of the report submitted by the Speaker of the Andhra Pradesh Legislative Assembly to the State Government pertaining to the drought situation are as under:—

- (i) Power supply for agriculture should be made available for six hours instead of four hours. This could be done by streamlining other measures such as curtailing power supply to non-essential activities, augmenting power supply by installing some thermal units etc.
- (ii) The difficulties of drinking water arrangements may be tackled on a war footing by measures such as obtaining rigs from all possible sources, pooling of oil engines so as to make them available to poor ryots on nominal hire charges.
- (iii) Arrangements for supply of adequate foodgrains may be made.

STATEMENT II

Measures undertaken by the State Government to met the drought situation in Andhra Pradesh are as under:

- (i) A large number of relief works to provide employment

to the population affected have been undertaken.

- (ii) In order to meet the difficulties in drinking water supply the State Government has undertaken programmes of putting deep bores and also for deepening of existing wells.
- (iii) The State Government has also deployed a large number of rigs for sinking of drinking water wells.
- (iv) Taccavi loans have been granted to marginal farmers for subsistence, for purchase of seed and fodder, for deepening of irrigation wells. Special scheme has been sanctioned for collection of forest grass and for its processing into hay in the affected areas.
- (v) Preventive measures against the outbreak of epidemics have been taken.
- (vi) On the basis of the report of the Central Study Team which visited the State, a ceiling of expenditure of Rs. 28 crores has been adopted and an amount of Rs. 36.50 crores has been released to the State Government so far.
- (vii) Under the Emergency Agricultural Production Programme, an amount of Rs. 8.40 crores has been released to the State Government for special minor irrigation programme, against the administrative approval of Rs. 9.86 crores. Besides, an amount of Rs. 13.50 crores has been released as short term loan for agricultural inputs.
- (viii) Reasonable quantities of foodgrains have been made available to the State Government.

**Construction of Baisaghat Bridge
(District Purnea, Bihar)**

1036. SHRI MD. JAMILURRAHMAN: Will the Minister of SHIPPING AND TRANSPORT be pleased to state;

(a) whether the Government of Bihar has submitted any proposal or plan for construction of Baisaghat Bridge (District Purnea, Bihar) or for allotment of fund for the construction of the above said bridge; and

(b) if so, the broad outline thereof?

THE MINISTER OF STATE IN THE MINISTRY OF SHIPPING AND TRANSPORT (SHRI M. B. RANA):

(a) Yes, Sir.

(b) Does not arise.

Execution of Hooghly Bridge Project

7037. SHRI INDRAJIT GUPTA:
SHRI SOMNATH CHATTERJEE:

Will the Minister of SHIPPING AND TRANSPORT be pleased to state:

(a) whether any reappraisal has been made of the qualifications and practical competence of the various foreign consultants proposed to be appointed for execution of the Hooghly Bridge Project in Calcutta, as a prelude to finalising the consultancy contracts; and

(b) if so, results of the reappraisal?

THE MINISTER OF STATE IN THE MINISTRY OF SHIPPING AND TRANSPORT (SHRI M. B. RANA):

(a) and (b). The proposed Hooghly Bridge falls on a State Road and therefore, the Government of West Bengal are primarily concerned with all matters pertaining to this project covering planning, tendering, award of work execution etc. including the reappraisal if any, of the qualifications and practical competence of the various foreign consultants proposed to be appointed by the State Government.

**Unfilled posts of General Manager in
Government of India Press Minto Road
New Delhi**

7038. SHRI HUKAM CHAND KACHWAI: Will the Minister of WORKS AND HOUSING be pleased to state:

(a) the number of posts of General Manager in Government of India Press, Minto Road, New Delhi;

(b) when each of these posts were sanctioned by Government and from which date to which date they remained filled;

(c) how many of these posts are now down-graded and from which dates; and

(d) the reasons for keeping them unfilled and down-graded?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) One.

(b) The post in the scale 1100—1400, was sanctioned with effect from the 14th October, 1955. The post remained filled up till 22nd September 1972.

(c) The post has been temporarily down graded to that of Manager Grade I in the scale 900—1250, with effect from the 28th September, 1972.

(d) The post of General Manager is filled up by promotion of Managers Grade I with 2 years' service in their grade. No officer who fulfils this requirement is available at the moment.

Acreage of land under Minor Irrigation

7039. SHRI G. Y. KRISHNAN: Will the Minister of AGRICULTURE be pleased to state:

(a) the existing acreage under minor irrigation in the country, State-wise; and

(b) the per acre average cost of minor irrigation in each case?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) The total area under irrigation from all sources in the country during the year 1969-70 (latest year for which information is available) was 37.20 million hectares (gross). The State-wise break-up is given in the statement enclosed. Separate break-up of area irrigated from major-medium and minor irrigation is not available.

(b) The cost per acre for minor irrigation schemes varies from scheme to scheme and from State to State and it generally ranges between Rs. 300 to Rs. 2,000 per acre. Since, apart from public sector outlay, sizeable investment on minor irrigation schemes is from institutional and private sources (of which estimates are not available) it is not possible to indicate precisely the State-wise average figures for the cost per acre of minor irrigation schemes.

Disposal of huge quantities of Fertiliser lying unused with Co-operative Societies and other Distributing Agencies

7040. PROF. NARAIN CHAND PARASHAR: Will the Minister of AGRICULTURE be pleased to state:

(a) whether complaints have been received by the Government regarding the huge quantities of fertiliser lying unused with the co-operative Societies and other Distributing Agencies, as it was supplied to these Agencies much against their will and without any justification or requirement;

(b) whether these bags of fertilizers would be recollected from these Agencies by the whole-sale Distributors in the near future;

(c) if not, the ways and means under the consideration of the Government for the disposal or the utilization of this Khad in any other area; and

(d) whether any action is contemplated against those who thrust this Khad on unwilling customers?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE):

(a) to (d). There was some accumulation of fertilisers stocks with Co-operative Societies in some States three years ago on account of optimistic assessment of requirements made by State Governments and also on account of failure of rains and lower sales of fertilisers, in those States. However, since then, almost all of these stocks have been sold; and no State Government has reported any significant accumulation of old stocks with their cooperative societies. On the other hand, the demand for fertilisers has picked up considerably and the available stocks are being sold very fast without requiring much storage. In the circumstances, Government do not consider it necessary to take any additional measure for disposal of fertilisers.

Procedure regarding Dealership in Fertiliser

7041. SHRI VEKARIA:
SHRI D. P. JADEJA:

Will the Minister of AGRICULTURE be pleased to state:

(a) whether a person can start a business in fertilizer and apply for registration afterwards under the present procedure;

(b) if so, whether some of the persons misuse the facility; and

(c) if so, whether Government are considering to change this procedure?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE):

(a) Under the Fertiliser (Control) Order, 1957, a person can start business of selling fertilisers provided he applies for registration within 14 days of commencement of business.

(b) Some of the State Governments have requested for a change in the above procedure with a view to stopping possible misuse of the facility, but no specific report of any person misusing this facility has been received.

(c) A change in the procedure is under consideration.

Ban on movement of Fertiliser from one State to another

7042. SHRI ARVIND M. PATEL:
SHRI D. P. JADEJA:

Will the Minister of AGRICULTURE be pleased to state:

(a) whether the allocation of fertiliser is regulated under the Fertilisers Control Order;

(b) whether there is no ban on movement of fertilizers from one State to another; and

(c) if so, whether Government will consider to put ban on movement of fertilizer?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE): (a) With a view to having equitable distribution of fertilisers in the country, the manufacturers of fertilisers are directed through Notifications issued periodically under the Essential Commodities Act, 1955 to supply specified quantities of fertiliser to specified States during specified period.

(b) Yes, Sir.

(c) A proposal is under consideration to prevent unauthorised movement of fertilisers from one State to another State.

Loss to Visakhapatnam Port due to power cut

7043. DR. RANEN SEN: Will the Minister of SHIPPING AND TRANSPORT be pleased to state:

(a) whether the Port of Vizag has suffered loss due to power cut;

(b) if so, to what extent the power cut has affected this port; and

(c) what are the steps taken to avoid such situation in future?

THE MINISTER OF SHIPPING AND TRANSPORT (SHRI RAJ BAHADUR): (a) Yes.

(b) As per the agreement, under normal conditions the Andhra Pradesh State Electricity Board should supply 7950 KVA (425 A) for both Inner Harbour and Outer Harbour (construction works). Against this they have supplied only about 2650 KVA (140 A).

This drastic reduction has affected the port vessels as under:

(i) Export iron ore vessels	14
(ii) Export Ore vessels (Manganese and other ores).	29
(iii) Import Food/Fertiliser and general cargo vessels	29
(iv) Vessels diverted	11 (Export se Mangane Ore). (Export Steel beams).

Besides, tipping of wagons (Iron ore wagons) at dumper yard, loading of iron ore by Mechanical Ore Handling Plant, loading/unloading of POL tank wagons at oil sidings were also affected.

(c) The Visakhapatnam Port Trust has purchased a 1000 KW stand-by Diesel Generating set from National Mineral Development Corporation and there is a proposal to procure another 3.5 M.W. Generating set.

Development of a New Variety of wheat by a Farmer of Ganganagar, Rajasthan

7045. SHRI BHOGENDRA JHA: Will the Minister of AGRICULTURE be pleased to state:

(a) whether it has come to Government's knowledge that one ordinary farmer, Kalwant Rai Verma of Kumbharwala (59 R.B.) P.O. Gangubala (56 R.B.) District Ganganagar, Rajasthan has developed two new varieties of wheat K.R.-1 and K.R.-2 which yield both grains and straw much more per acre than any wheat developed by the I.C.A.R.; and

(b) if so, facts thereabout and Government reaction thereon?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHAB P. SHINDE): (a) and (b). The Wheat Specialist in Rajasthan has laid out trials during Rabi, 1972-73 season of these two varieties, i.e., K.R.-1 and K.R.-2 at Gurgapur and Sriganganagar with a view to comparing them with the currently recommended varieties like Lalbahadur, Kalyan Sona and Raj. 821. Harvest data of the trial are not yet available. Therefore information on their yielding ability will be possible only after the data are received. From the available observations during the crop growth period, it has been observed that these two varieties are excessively tall and extremely late in flowering and maturity. The grain which has developed is small. From these indications it may be inferred that in-varieties may not be suitable under intensive cultivation. If the data warrant it, these varieties will be tested on a wider scale under All-India Coordinated trials next season.

Master Plan for Minor Irrigation During Fifth Plan

7046. SHRI M. S. SANJEEVI RAO: Will the Minister of AGRICULTURE be pleased to state:

(a) whether a Master Plan for the minor irrigation has been proposed for the Fifth Plan period; and

(b) if so, the broad outlines thereof?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) and (b). The responsibility for survey and exploitation of water resources as well as formulation of schemes including preparation of Master Plans, rests with the State Governments. Most of the States are taking steps to survey the water resources (which is an essential pre-requisite for preparation of Master Plans) subject to constraints of finances and staff available. It is

decided to assist the State Governments for strengthening their ground water organisations from the funds of about Rs. 5.0 crores available for survey of natural water resources. It is also proposed to continue similar assistances during the fifth plan period. This would help the State Government in expediting the preparation of their master plan.

Agreement by Organisation of Indian Seamen with Foreign Shipowners Association

7048. SHRI S. A. MURUGANANTHAM: Will the Minister of SHIPPING AND TRANSPORT be pleased to state:

(a) whether any agreement has been arrived at by Organisation of Indian Seamen serving on foreign going vessels, and foreign shipowners association by which the seamen will get an overall cash benefit of about 40 per cent; and

(b) if so, the facts thereof?

THE MINISTER OF SHIPPING AND TRANSPORT (SHRI RAJ BAHADUR): (a) and (b). An agreement was reached between the shipowners and seafarers at the National Maritime Board meeting on 25th February, 1973 resulting in cash benefit to various categories of seamen varying from 20 per cent to 30 per cent. Apart from the increase in basic wage and Overseas Allowance Devaluation Supplement the seamen of all Foreign Going Ships are now entitled to a bonus of 8.33 per cent from 1st March, 1973, and certain other additional benefits.

Lock-out in Chittoor Cooperative Sugar Factory

7049. SHRI P. NARASIMHA REDDY: Will the Minister of AGRICULTURE be pleased to state:

(a) whether an illegal lock-out was imposed recently by the Management of the Chittoor Cooperative Sugar Fac-

tory, Chittoor (A.P.) resulting in hardship to workers and loss of production;

(b) whether the irresponsible attitude of the official Managing Director and the nominated Board have been responsible for this available loss and hardship; and

(c) what action has been taken to enquire into this and take suitable action against the Management?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) to (c). The information is being collected from the Government of Andhra Pradesh and will be placed on the Table of Sabha as soon as it is received.

Supply of Soyabean, Sunflower Seeds to Gujarat

7050. SHRI ARVIND M. PATEL:
SHRI VEKARIA:

Will the Minister of AGRICULTURE be pleased to state:

(a) whether Government are aware that the prices of edible oils in Gujarat are going up day by day due to drop of groundnut crops this year;

(b) whether most of the oil crushing mills are closed down;

(c) whether Government will consider to supply soyabean, sunflower seeds as much as possible to Gujarat State; and

(d) the quantity of each item during the next three months?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) Prices of edible oils all over the country, including Gujarat, have been intermittently rising over the past few months.

(b) Reports of diversion of crushing from groundnut to cotton-seed in some cases, or temporary suspension of crushing in the case of weaker units, have been received.

(c) and (d). Efforts are being made to maximize production of soyabean and sunflower-seeds in the country and the mills and/or solvent extraction units are free to obtain their requirements of these seeds to the extent they are available.

Requirement of Fertiliser for Gujarat

7051. SHRI ARVIND M. PATEL:
Will the Minister of AGRICULTURE be pleased to state:

(a) the requirement of fertilisers of Gujarat sent to the Centre during the year 1972-73 and 1973-74;

(b) the quantity supplied during the year 1972-73; and

(c) the quantity sanctioned for the year 1973-74?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE): (a) For the years 1972-73 and 1973-74, the net requirements of the State of Gujarat were assessed at the Zonal Conference, as follows:—

(’000 tonnes)

Net requirements

Year	P ₂ O ₅	K ₂ O	No. P ₂ O ₅ + K ₂ O
1972-73	109.80	70.80	6.90 187.50
1973-74 (approx)	162.50	85.05	14.38 261.10

(b) During the year 1972-73, an approximate quantity of 113290 tonnes N, 48438 tonnes of P_2O_5 and 10506 tonnes of K_2O were supplied to the State i.e., a total of 1,72,234 tonnes of nutrients.

(c) Efforts will be made to meet the total requirements of the State, for the year 1973-74, as given above. At present, 67590 tonnes of N, 37600 tonnes of P_2O_5 and 10890 tonnes of K_2O have been sanctioned to meet the total net requirements of the State for Kharif, 1973 season.

The quantity to be allotted to the State during Rabi 1973-74 season will be finalised sometime during the middle of this year, just before the start of the Rabi season, when conferences will be held with the State Governments and the manufacturers, to finalise the requirements for Rabi and assess the availability for the period.

Selection Grade in T.G.T. after Promotion in P.G.T. Grade

7052. SHRI M. C. DAGA: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether Selection Grade is far better than the scales of next higher grade in the case of Delhi Trained Graduate teachers i.e. T.G.Ts Selection Grade 550-700 whereas P.G.Ts scale is only 350-700; and

(b) if so, the justification for the Selection Grade of teachers to be refixed in the lower scale i.e. 350-700 after they are promoted in the next higher cadre i.e. P.G.T.?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) and (b). The T.G.Ts are in the grade of Rs. 250-550 with a Selection Grade of Rs. 550-700, whereas the P.G.Ts are in the grade of Rs. 350-700 with a Selection Grade of Rs. 600-800. In terms of qualifications and responsibilities the post of P.G.T. is higher

than that of T.G.T. and is, *inter alia*, filled up on promotion from the T.G.T. grade. On promotion, the Selection Grade T.G.T. is given the protection of the higher substantive pay accruing in the Selection Grade, if the pay drawn in the higher officiating grade happens to be lower.

Anomaly in salary of Delhi Teachers due to Selection Grade

7053. SHRI M. C. DAGA:

SHRIMATI BHARGAVI
THANKAPPAN:

Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether by providing Selection Grade to Delhi teachers Government have created a wide gap between the salary of Departmental promotees and of the teachers directly recruited; and

(b) if so, whether Government are considering any step to remove this great cause of disappointment among directly recruited teachers?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) and (b). The departmental promotees as well as teachers directly recruited are equally entitled to the Selection Grade, provided they have the requisite seniority in the relevant cadre and are otherwise fit.

P.G. Teachers getting benefits of Selection Grade T.G. Scales

7054. SHRI M. C. DAGA:

SHRIMATI BHARGAVI
THANKAPPAN:

Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether some Post Graduate teachers are having their seniority in Post-Graduate teachers' cadre and at the same time they are getting the

benefits of Selection Grade of Trained Graduate Scale; and

(b) if so, the justification for giving them two benefits of two different cadres simultaneously i.e. benefit of seniority in P.G.T. Cadre and monetary benefits of T.G.T. cadre?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) and (b). A post-graduate teacher, holding a substantive post in the lower grade of Trained Graduate Teachers and officiating in the higher grade of Post-Graduate Teachers, is eligible for *pro-forma* appointment to a substantive vacancy in the Trained Graduate Teachers' Selection Grade. He is allowed the protection of the substantive pay accruing in the Selection Grade, if the pay drawn in the higher officiating grade happens to be lower.

गुलाल का प्रयोग स्वास्थ्य के लिये हानिकारक होना

7055. श्री मूल चन्द डागा :

श्री रघु नन्दन लाल भाटिया :

क्या स्वास्थ्य और परिवार नियोजन मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या स्वास्थ्य संबंधी एक अध्ययन के अनुसार गुलाल का प्रयोग स्वास्थ्य के लिए हानिकारक है; और

(ख) यदि हां, तो कैसे और इस बारे में सरकार की क्या प्रतिक्रिया है ?

स्वास्थ्य और परिवार नियोजन मंत्रालय में उपमंत्री (श्री कोंडाजी बासप्पा) :

(क) और (ख). जहां तक सूचना उपलब्ध है होली के त्योहार पर प्रयोग किए जाने वाले गुलाल के हानिकारक प्रभावों पर कोई अध्ययन नहीं किया गया है ।

फिर भी अप्रैल, 1972 में अखिल भारतीय आयुर्विज्ञान संस्थान, नई दिल्ली में होली के रंग के एक नमूने का जिसमें सीसा मिला हुआ था, अध्ययन किया गया था। उक्त नमूने में कुछ सीसा पाया गया था। चूंकि होली के रंगों का वर्ष में केवल एक बार बाह्य प्रयोग किया जाता है, ऐसा महसूस किया जाता है कि अनजाने में थोड़े से रंग के पेट में चले जाने से या नाक या त्वचा के रास्ते उसके शरीर में प्रविष्ट कर जाने से सीसे का जहर फैल जाएगा इसकी सम्भावना नहीं है।

Stagnation in the Town and Country Planning Organisation

7056. SHRI M. M. JOSEPH: Will the Minister of WORKS AND HOUSING be pleased to state:

(a) the number of Upper Division Clerks and Lower Division Clerks who have been stagnating in their respective grades in Town and Country Planning Organisation (a subordinate office of the Ministry of Works and Housing) for more than 10 years; and

(b) the steps taken by Government to open some sort of channel for their promotions?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) Number of Upper Division Clerks and Lower Division Clerks in their respective grades for over 10 years is as under:—

(i) Upper Division Clerks	5
(ii) Lower Division Clerks	10

(b) Lower Division Clerks are eligible for promotion as Upper Division Clerk and Upper Division Clerks are eligible for promotion as Head Clerk.

Milk Booths in D.I.Z. Area of Mandir Marg, New Delhi

7057. SHRI M. M. JOSEPH:

SHRI VARKEY GEORGE:

Will the Minister of AGRICULTURE be pleased to state;

(a) whether two milk booths in Mandir Marg DIZ area which were duly sanctioned in the month of March, 1972 have not been made available in the area;

(b) whether some representations were sent by the residents of the area to open the milk booth in morning only till the construction of the said sanctioned booths; and if so, reaction of the authorities therefo;

(c) the reasons for delay in construction of the sanctioned booths and the time by which these are likely to be constructed and start functioning; and

(d) the action taken by the authorities against the persons involved in the delay in this regard?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) Originally, Delhi Milk Scheme proposed to construct two new milk booths in the area and selected two sites. Subsequently after examining the present level of sales from the existing depots in the area, D.M.S. felt that construction of only one additional milk booth would be sufficient.

(b) Yes. It has, however, not been possible for D.M.S. to open a milk depot in a premises other than on a D.M.S. milk booth.

(c) The delay in construction of a new milk booth in the area is due to the inability of the two Residents' Associations to agree on a mutually acceptable site. The Central P.W.D. will be requested to take up construction as soon as an agreed site is selected.

(d) Does not arise.

Enquiry Offices run by C.P.W.D. in Government Colonies in Delhi

7058. SHRI M. M. JOSEPH:

SHRI VARKEY GEORGE:

Will the Minister of WORKS AND HOUSING be pleased to state:

(a) the number of Enquiry Offices being run by C.P.W.D. in the Government colonies in Delhi;

(b) the strength of the staff in detail, working in those Enquiry Offices against each enquiry office; and

(c) whether any yardstick for the number of quarters to be maintained has been fixed for each Enquiry Office; if so, the particulars thereof?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) 54.

(b) The information is being collected.

(c) No.

Setting up of Panel by HUDCO for providing Low Cost Housing

7059. SHRI M. M. JOSEPH:

SHRI P. GANGADEB:

Will the Minister of WORKS AND HOUSING be pleased to state:

(a) whether any panel has been set up by HUDCO to evolve methods and designs for providing low-cost housing; and

(b) if so, the main features thereof and the progress achieved in this regard?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) Yes. A Research and Advisory Committee

consisting of eminent Architects, Engineers, Town Planners, Scientists and specialists from allied disciplines has been set up by the HUDCO.

(b) The Committee considers, evaluates and recommends new building materials and techniques and evolves basic designs for low cost housing. The Committee also considers all aspects of housing in order to achieve best utilisation of available resources in financing large scale housing programmes.

The Committee has recommended the use and propagation of new building materials and techniques as under:—

- (i) Use of Fly Ash in Concrete.
- (ii) Semi-mechanised production of Bricks.
- (iii) Use of Under Reamed Piles for Foundation.
- (iv) Single Thickness Load Bearing Brick Walls for 4 storeyed construction.
- (v) Use of Pre-cast Concrete Thin Lintels.
- (vi) Use of Pre-cast Concrete Cored Units for Floors and Roofs.
- (vii) Use of Waffle Shells for Flooring and Roofing.
- (viii) Minimum Ceiling Heights.
- (ix) Guidelines for plot and plinth areas for different categories of houses.
- (x) Guidelines for preparation of layouts of housing colonies.
- (xi) Basic Design Concepts for various categories of Houses.

The recommendations made by the Committee have been brought to the notice of various construction agencies for guidance.

Suggestion from Chief Minister of Tamil Nadu for diverting cultivable land for growing fodder

7060. SHRI C. T. DHANDAPANI:
SHRI P. A. SAMINATHAN:

Will the Minister of AGRICULTURE be pleased to state:

(a) whether Tamil Nadu Chief Minister has suggested to the Union Government the need for a massive programme for assisting farmers to divert part of their cultivable land for growing green fodder for cattle;

(b) if so, whether he has stated that entire milk production programme depended on such programme; and

(c) if so, the reaction of the Government thereto?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) No. The Government of India have not received any such communication from the Chief Minister of Tamil Nadu.

(b) and (c). The questions do not arise.

दिल्ली में चतुर्थ श्रेणी के कर्मचारियों को क्वार्टरों का आवंटन

7061. श्री महादीपक सिंह शास्त्री :
क्या निर्माण और आवास मन्त्री यह बताने की कृपा करेंगे कि :

(क) क्या वर्ष 1971-72 के दौरान दिल्ली राज्य में चतुर्थ श्रेणी के कर्मचारियों को क्वार्टर आवंटित किए गए थे ; और

(ख) यदि हां, तो कितने और यदि नहीं , तो इसके क्या कारण हैं ?

संसाधन कार्य विभाग तथा निर्माण और आवास मंत्रालय में राज्य मंत्री (श्री श्रीम मेहता) : (क) और (ख). दिल्ली प्रशासन के कर्मचारी सामान्य पूल से वास के आवंटन के पात्र हैं। 1971-72 के दौरान, दिल्ली प्रशासन के चतुर्थ श्रेणी के कर्मचारियों को सामान्य पूल से 56 मकान आवंटित किए गए थे। इसके अतिरिक्त, दिल्ली प्रशासन ने चतुर्थ श्रेणी के आने कर्मचारियों को अपने पूल से 96 मकानों का भी आवंटन किया था।

कम बिजली सप्लाई के कारण तम्बाकू की फसल को हानि

7062. श्री महादीपक सिंह शास्त्री : क्या कृषि मंत्री यह बताने की कृपा करेंगे कि :

(क). क्या बिजली को कम सप्लाई होने के कारण वर्ष 1972-73 के दौरान विभिन्न राज्यों में तम्बाकू की फसल को हानि पहुंची है; और

(ख) यदि हां, तो उत्पादन में कितनी क्षति हुई और इसके परिणाम स्वरूप राजस्व प्राप्ति में राज्यवार कितनी हानि हुई ?

कृषि मंत्रालय में राज्य मंत्री (श्री अण्णा-साहेब पी० शिन्दे) : (क) और (ख). 1972-73 में बिजली की अत्यधिक कमी के कारण कई राज्यों में बिजली की कटौती लागू की गई थी। तथापि, राज्य सरकारों से यथासंभव कृषि के मामले में ये

कटौतियां लागू न करने के लिये कहा गया था।

1972-73 के दौरान तम्बाकू के अन्तर्गत क्षेत्र और उसके उत्पादन के पक्के अनुमान अभी तक उपलब्ध नहीं हुए हैं। अतः बिजली की पूर्ति में कमी तथा मौसम संबंधी अन्य कारणों से तम्बाकू की फसल को कितनी हानि हुई अभी यह बता सकना संभव नहीं है।

Shortage of Wheat and Rice in Delhi

7063. SHRI RAM PRAKASH: Will the Minister of AGRICULTURE be pleased to state:

(a) whether Delhi is facing shortage of wheat and rice; and

(b) if so, the reasons therefor and remedies proposed?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE): (a) No, Sir.

(b) Does not arise.

Development of Fisheries on Eastern Coast during Fifth Plan

7064. DR. RANEN SEN:

SHRI INDRAJIT GUPTA:

Will the Minister of AGRICULTURE be pleased to state:

(a) whether most of the country's marine fishing projects are concentrated on the West Coast and the East Coast has been rather neglected in the development of marine fisheries;

(b) if so, whether there is any proposal to develop marine fishing in a big way on the East Coast during the Fifth Five Year Plan?

**THE MINISTER OF STATE IN THE
MINISTRY OF AGRICULTURE
(SHRI ANNASAHEB P. SHINDE):**

(a) While on the West Coast a slightly larger number of fishery projects are located, the East Coast has been by no means neglected. The relative importance given to West Coast for the establishment of fishery projects has been due to certain special features of the sea, off the West Coast of India, like wider continental shelf, greater primary organic production and fish production and more favourable weather conditions.

(b) With a view to developing marine fishing, infra-structural facilities like construction of fishing harbours, charting and survey of resources and training of technical manpower for deep sea fishing are being provided.

On the east coast a large fishing harbour, capable of handling deep sea fishing vessels is under construction at Tuticorin. Fishing harbours have been sanctioned at the major ports of Madras and Roychowk. Plans and estimates prepared in respect of fishing harbours at Vizagapatnam, and Paradeep are under scrutiny for issue of sanction. Besides, landing and berthing facilities are also being provided at a large number of minor ports.

Exploratory fishing is being undertaken at present from bases located at Tuticorin, Visakhapatnam and Port Blair. In addition to strengthening these stations it is also proposed to start exploratory fishing from Madras, Paradeep and Calcutta. A detailed resources survey of the East Coast of India is proposed to be conducted with the assistance of the United Nations Development Programme. A Central Institute of Fisheries Operatives has been established at Madras to train engineers, skippers and other categories of personnel to man large fishing vessels.

Commercial offshore and deep sea fishing has already started from East

Coast and in view of the encouraging results obtained, new ventures in deep sea fishing, processing and export are expected to operate from East Coast bases.

**Amendment of Articles 226 and 227 of
The Constitution for Implementation
of Land Reforms**

7065. DR. RANEN SEN: Will the Minister of AGRICULTURE be pleased to state:

(a) whether a Regional Seminar on implementation of land reforms recommended the amendment of Articles 226 and 227 of the Constitution;

(b) if so, the outlines thereof; and

(c) the decision of the Government thereon?

**THE MINISTER OF STATE IN THE
MINISTRY OF AGRICULTURE
(SHRI ANNASAHEB P. SHINDE):**

(a) The Eastern Regional Seminar on Land Reform Implementation recommended, among other things, suitable amendment of Articles 226 and 227 of the Constitution with reference to land reform measures for restricting the writ jurisdiction of the courts.

(b) A statement is appended.

(c) The recommendations are being studied by the Government.

STATEMENT

The main recommendations of the seminar were as follows:—

(i) Preparation with the assistance of tenants, share-croppers, marginal farmers etc. of up-to-date records of rights recording tenancy and share-croppers' rights;

(ii) Tenancy reform measures based on the principle "land to the tiller" should be expedited on the basis of the up-to-date records of rights; benami transfers should be declared

illegal and watch-dog committees with representatives of the beneficiaries on them should be set up at various levels; and tenancy reform measures should be supported by suitable complementary institutions and services;

(iii) There should be unambiguous political directions in the implementation of ceiling laws. Benami transfers should be verified by popular bodies with participation of beneficiaries, legal hurdles in the implementation of the land reform measures should be overcome by suitably amending Articles 226 and 227 of the Constitution;

(iv) In tribal areas already covered by land reforms, collusive dealings in land, alienation and indebtedness should be provided against with popular cooperation through suitable bodies. In non-land reform tribal areas an integrated programme should be taken up;

(v) For implementation, a suitable independent administrative machinery should be set up, popular committees representing beneficiaries at different levels and special tribunals to adjudicate upon disputes arising out of land reform measures and a Land Reform Council at the State level for coordination should be set up. For the implementation of land reform measures, funds should be allotted now under the Five Year Plans;

(vi) Regional Land Reform Institutes for training, evaluation and research should be set up quickly.

Norms and Assistance for Universities

7066. SHRI SHANKERRAO SAVANT:.

SHRI S. L. PEJE:

Will the Minister of AGRICULTURE be pleased to state:

(a) the number of agricultural universities in India and their State-wise location;

(b) financial assistance given and proposed to be given to each of agricultural universities in each State University-wise;

(c) whether any norms have been laid down by the Centre for starting such universities; and

(d) if so, what are they?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHAB P. SHINDE): (a) to (d). A statement is laid on the Table of the House. [Placed in Library. See No. LT-4800/73.]

Implementation of Aligarh University (Amendment) Act

7067. SHRI SHANKERRAO SAVANT: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether the implementation of the new amendments to the Aligarh University Act is delayed; and

(b) if so, in which respects and what are the reasons for this delay?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) and (b). The Aligarh Muslim University (Amendment) Act, 1972 came into force with effect from June 17, 1972. With the exception of the Court, the Executive Council and the Students Council, the important bodies and Committees of the University have been constituted/reconstituted according to the provisions of the Amended Act. Draft Ordinances relating in Electoral Colleges for representation on the Court and the Students Council have been framed and are under consideration of the University authorities. Since the Court has to elect five persons from among its

members for being members of the Executive Council, the reconstitution of the Council has also been delayed.

Appointments of Deans of Faculties, Heads of Departments of Studies etc., have also been made according to the provisions of the Amended Act.

Norms fixed for starting new Universities

7068. SHRI SHANKERRAO SAVANT:

SHRI S. L. PEJE:

Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether any norms have been fixed for starting new Universities; and

(b) if so, the salient features thereof?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) and (b). On the recommendations of its Committee on New Universities, the University Grants Commission is constituting a Working Group to lay down criteria for the establishment of new Universities and University Centres during the Fifth Five Year Plan.

नसबन्दी आपरेशन

7069. श्री हुकम चन्द कछवाय :

श्री जी० वाई० कृष्णन् :

क्या स्वास्थ्य और परिवार नियोजन मन्त्री यह बताने की कृपा करेंगे कि :

(क) सरकार ने देश में वर्ष 1971-72 में कितनी नसबन्दी आपरेशन करने का लक्ष्य निर्धारित किया था; और

(ख) उस अवधि के दौरान कितने नसबन्दी आपरेशन किए गए ?

स्वास्थ्य और परिवार नियोजन मंत्रालय

में उपमंत्री (श्री कोंडाजी बासप्पा) :

(क) पुरुष नसबन्दी आपरेशन के लिये अलग से लक्ष्य निर्धारित नहीं किये जाते।

1971-72 के दौरान 2078592 नसबन्दी

(पुरुष नसबन्दी तथा महिला नसबन्दी)

आपरेशन करने का लक्ष्य निर्धारित किया गया था।

(ख) 1619030.

Setting up of Food Corporations by States

7070. SHRI M. RAM GOPAL REDDY:

SHRI K. M. MADHUKAR:

Will the Minister of AGRICULTURE be pleased to state:

(a) whether some State Governments have requested the Centre to have their own Food Corporations;

(b) if so, the names of such States; and

(c) the reasons advanced for suggestion and the reaction of the Government thereto?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE): (a) to (c). Yes, Sir. Some of the State Governments like West Bengal, U.P., Madhya Pradesh, Gujarat and Bihar have proposed to set up their own Food Corporations or separate Organisations in the nature of Public Corporations. The main reasons advanced by the State Governments are:—

(i) that the Food Corporation of India has become too unwieldy as an organisation and is unable to meet the special

needs of the State Governments particularly in the matter of purchase and distribution of other essential commodities; and

- (ii) to provide for multiple purchasing agency system with a view to offering convenient alternatives to the producers as a result of the decision of the Government to takeover wholesale trade in wheat and rice.

The various pros and cons involved in the proposals are under active consideration of the Government.

**Ram Sarup TB Hospital, Mehrauli
New Delhi**

7071. SHRI R. V. BADE: Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state:

(a) whether baths, lavatories and beds etc. are not properly cleaned and up-kept by the authorities concerned in Lala Ram Sarup T.B. Hospital Mehrauli, New Delhi;

(b) whether no provision such as hooks and bolts etc. has been made in the baths and lavatories in the above said hospital;

(c) whether the floor of the baths and lavatories is slipping and as a result of which many sick children and ladies fell down and are thus injured; and

(d) if so, the action taken by the Government in this regard?

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (SHRI KONDAJI BASAPPA): (a) According to our information all the baths, lavatories and beds in the hospital are kept clean.

(b) Hooks and bolts have been provided in all the bath-rooms and lavatories.

(c) No patient has ever slipped on the floors of the baths or the lavatories.

(d) Does not arise.

Reform in Examinations

7072. SHRI R. V. SWAMINATHAN: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether the meeting of follow up Committee of the All India National Education was held in Ahmedabad in March, 1973;

(b) if so, whether the Committee has suggested reforms in examination at all levels;

(c) whether these recommendations have been sent to the State Governments; if so, the reactions of the State Governments; and

(d) what are the other recommendations made by the Committee?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) to (d). This refers to a meeting of a voluntary organisation and it is for the organisation concerned to take such follow up measures as it may consider necessary.

**Assistance to State Governments in the
Formation of Rural Roads**

7073. SHRI R. V. SWAMINATHAN: Will the Minister of SHIPPING AND TRANSPORT be pleased to state:

(a) whether Union Government have decided to assist the State Governments in the formation of Rural Roads;

(b) if so, whether Union Governments have asked the State Governments to submit the Master Plans in this regard;

(c) to what extent the Union Government is likely to assist them; and

(d) how many State Governments have so far submitted their Master Plans in this regard and how many of them have been approved by the Union Governments.

THE MINISTER OF STATE IN THE MINISTRY OF SHIPPING AND TRANSPORT (SHRI M. B. RANA): a State subject and as such fall essentially under the State sphere of activities. Under the Fifth Five Year Plan, it is envisaged to connect all the villages having a population of say, more than 1500 during the Fifth Five Year Plan under Minimum Needs Programme. The Planning Commission have asked the State Governments to submit proposals for various sectors (including rural roads) of the Minimum Needs Programme contemplated in the Commission's approach document for the Fifth Plan.

(d) The preliminary discussions on the State Government's proposals are currently going on and so far proposals pertaining to 10 States and 5 Union Territories have been received by the Ministry of Shipping and Transport (Roads Wing) from the Planning Commission. It is not possible to say at this stages as to what is likely to be the final scope of scheme to be adopted and the extent of assistance by the Union Government for the scheme.

Requirement of Building Materials

7074. SHRI SUKHDEO PRASAD VERMA:
SHRI VARKEY GEORGE:

Will the Minister of WORKS AND HOUSING be pleased to state:

(a) whether Government have estimated the requirements of building materials in the country for the year 1973-74;

(b) the availability of materials at present; and

(c) the measures to overcome the shortage, if any?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) The demand for Cement is estimated at 19 million tonnes. For other building materials no precise information is available.

(b) The information is given below:

Building materials	Available Quantity per year
1. Bricks	20,000 millions (1971-72) (Approximate)
2. Timber (Primary Species)	2 million cubic meters (1971-72) (Approximate)
3. Cement	15.7 million tonnes (1972)
4. Steel	
(i) G.C. Sheets	89,200 tonnes (1972-73 upto June, 73).
(ii) Bars & Rods	6,67,500 tonnes (1972-73)
(iii) Light and Medium Structural	2,82,400 tonnes (1972-73)

(c) (1) To overcome the shortage of cement, additional capacity to the extent of 8.5 million tonnes by way of Letters of Intent/C.O.B. licences has been approved, while a further capacity of about 6.5 million tonnes is under consideration. Out of the former a capacity of about 1.5 million tonnes is expected to come into production by the middle of 1974.

(2) As regards steel, efforts are being made to meet the situation by increasing indigenous production by technological improvements, better industrial relations, improved maintenance etc., a fairly liberal import policy, particularly in respect of categories in short supply, regulation of exports, streamlining of the distribution system and encouragement for the setting up of electric furnaces.

Transfer of Officials of Social Welfare Directorate to Delhi Administration

7075. SHRI SUKHDEO PRASAD VERMA: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether Government are considering to transfer the services of about 700 officials of Social Welfare Directorate, Government of India to the Delhi Administration;

(b) whether employees of the Delhi Administration have protested against the move; and

(c) if so, the reasons for the same, and the reactions of Government thereon?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) The matter is under consideration.

(b) No such protest has been made to the Government of India.

(c) Does not arise.

Implementation of Crash Programme for Rural Employment

7076. SHRI K. RAMKRISHNA REDDY: Will the Minister of AGRICULTURE be pleased to state:

(a) the number of crash programmes for Rural Employment being implemented in the country State-wise;

(b) whether such project is being implemented in Nalgonda district; if so, the progress so far made; and

(c) the number of man days created in the districts?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) The Hon'ble Member perhaps is referring to Crash Scheme for Rural Employment with which this Ministry is concerned. The Crash Scheme for Rural
274 LS—5.

Employment is being implemented in all the districts of the country; and the average amount of funds allocated to each District is Rs. 12.50 lakhs per year.

(b) Yes, Sir. During 1971-72, expenditure incurred is of the order of Rs. 9.32 lakhs and Rs. 10.47 lakhs (upto December, 1972) during 1972-73.

(c) The number of mandays created during 1971-72 is 2.51 lakhs and during 1972-73 (upto December, 1972) 4.42 lakhs.

Outlay and Source on Procurement of Foodgrains during 1973-74

7077. SHRI B. V. NAIK: Will the Minister of AGRICULTURE be pleased to state:

(a) what will be the total outlay on the procurement of foodgrains during the financial year 1973-74; and

(b) what are the sources the budgetary and non-budgetary agencies and quantum of these funds?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHAB P. SHINDE): (a) The total outlay on the procurement of foodgrains during the financial year 1973-74 based on current assessments is estimated at Rs. 1050 crores. However, the entire funds as given above would not be required since there would be simultaneous realisations from the sales of food grains through the public distribution system. The maximum requirement of funds is estimated at Rs. 810 crores in July, 1973.

(b) The Food Corporation of India is at present having an overdraft facility with the State Bank of India to the extent of Rs. 440 crores and loans from Government of India to the extent of Rs. 150 crores. The additional requirements would, thus be Rs. 220 crores and it is proposed to meet this additional requirement by

increasing the cash credit facility with the State Bank of India from the present limit of Rs. 440 crores to Rs. 660 crores.

Foreign Aid Programme in Andhra Pradesh

7078. SHRI K. RAMAKRISHNA REDDY: Will the Minister of AGRICULTURE be pleased to state:

(a) the various places where foreign aid programmes are implemented in Andhra Pradesh;

(b) what is the criteria to get help through Freedom from Hunger Campaign and World Food Programme;

(c) whether Central Government even suggested to the State such opportunities; and

(d) if so, the reaction of the Government of Andhra Pradesh in this respect?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHAB P. SHINDE):

(a) Foreign aided projects in Andhra Pradesh and the various places in that State where they are under implementation are indicated in the state attached.

(b) *Freedom From Hunger Campaign:*

Since F.F.H.C. is essentially a people-to-people movement, assistance from abroad comes mainly from non-official sources; and project proposals having a basically non-official character and a strong element of people's active participation are considered suitable for F.F.H.C. assistance. Some of the other considerations for determining the suitability of a project proposal for F.F.H.C. assistance are technical soundness, economic feasibility, competence of the sponsoring agency to implement the programmes effectively, the extent of counterpart contribution on the part of the executing agency, proportion of investment to the targeted goal, suitability of

local conditions for proper implementation of the programme envisaged, availability of benefits to larger number of small and marginal farmers, production orientation rather than relief operations etc. Proposals pertaining to the field of agriculture and allied subjects only are entertained. To be acceptable for assistance under F.F.H.C. the projects must conform to the objectives of the F.F.H.C. mentioned above.

World Food Programme:

The World Food Programme aims at utilising the food aid received as donations from all state members of the United Nations and member nations and Associate Members of F.A.O. The objective of the programme is to promote economic and social development through the supply of food to projects in a country. The W.F.P. provides aid on request for:

(i) meeting emergency food needs and emergencies inherent in chronic malnutrition and

(ii) implementing projects using food as an aid to economic and social development particularly when related to school feeding, increasing agricultural productivity, labour intensive projects and rural welfare.

W.F.P. gives assistance in the form of food grains. The expenditure on materials and part of wages as also handling and disbursement costs is to be met by the State Government. To enable a project to be accepted under the W.F.P., the above mentioned criteria have to be conformed to.

(c) The State Governments including the State Government of Andhra Pradesh have been made aware of the opportunities available under the various aid programmes including the W.F.P. and the F.F.H.C;

(d) The State Government have reacted positively* and a number of projects are under implementation in that State.

Statement

Statement showing the various foreign-aided projects under implementation in Andhra Pradesh and their respective locations:

Name of the financing agency	Title and place of operation of project
1. Freedom From Hunger Campaign	Farmers' Education & Training Programme in Shadnagar Block.
2. Do.	Training of Farmwomen in Shadnagar Block.
3. Do.	Reclamation & resettlement of land-less labour in Badvel Taluk.
4. Do.	Training Farm for Young Farmers at Vishakapatnam.
5. Do.	Prevention of waste both of crops and animals between field and table at Bapatla.
6. Do.	Development of Model Piggeries in India, Gannavaram.
7. Do.	Development of Indira Seva Sadan Farm & Establishment of dairy and poultry farm at Saidabad.
8. World Food Programme	Projects for improvement of milk supply through balanced food and milk toning at (a) Intensive Cattle Development Programme, Hyderabad and (b) Intensive Cattle Development Programme, Vijayawada.
9. Do.	Intensive Poultry Production & Development of Marketing Centres at (a) Hyderabad, (b) Vijayawada and (c) Vishakapatnam.
10. International Development Association	Pachampad Irrigation-cum-Agricultural Development Project, Pochampad Area, Andhra Pradesh.
11. Do.	Andhra Pradesh Credit Project which covers the whole Andhra State.
12. Banaddian International Development Agency (Govt. of Banada)	Project on Dryland Agriculture. Of the 15 main research centres and 8 sub-centres under this project, 2 main research centres are located in Andhra Pradesh. One is at the Regional Soil Conservation Research Centre, Hyderabad and the other is at the Regional Soil Conservation Research Station, Anantapur.
13. C.I.D.A. (Canadian International Development Agency)	Project on Groundwater Exploration, Hyderabad.
14. United States Agency for International Development.	All India Coordinated Rice Improvement Project, Hyderabad.

Apart from the projects noted above, mention may be made here of the International Crops Research Institute for the Semi-Arid Tropics, which is located at Hyderabad. Pursuant to

an agreement signed on 28th March, 1972 between the Government of India and the Ford Foundation, acting on behalf of the Consultative Group on International Agricultural Research

the International Crops Research Institute for Semi-Arid Tropics was established at Hyderabad, Andhra Pradesh, as an autonomous, international, non-profit, research, educational development and training institute. It is expected to serve as a centre:--

- (i) for improvement of sorghum, millet, pigeon pea and chick pea and
- (ii) to promote the development and demonstration of improved patterns of cropping and systems of farming which optimise the use of human and natural resources in the low rainfall unirrigated, seasonally dry and semi-arid tropics.

Progress of Distribution of Land to Landless and Agricultural Labour

7079. SHRI DEVINDER SINGH GARCHA: Will the Minister of AGRICULTURE be pleased to state:

(a) whether his attention has been drawn to a new-item in the *Hindustan Times* of 12th March, 1973 regarding implementation of land ceiling laws and state whether the progress made with regard to the distribution of land to the landless and agriculture labour has been extremely disappointing; and

(b) if so, the immediate steps taken in this regard?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHAB P. SHINDE): (a) The inability to distribute the entire land found surplus has been due largely to :

- (i) unsuitability of some vested land for cultivation,
- (ii) a certain measure of land having been subject matter judicial proceedings,
- (iii) certain procedural delays, and

(iv) non-availability of suitable persons for allotment of land (in Punjab).

(b) Apart from steps taken to remove the difficulties in the way of distributing surplus land already found, the State Governments proposed to complete the implementation of the ceiling laws by the end of December, 1973. In many States the revised ceiling laws have been enacted recently and in the nature of thing it will take some time to find out the extent of surplus land and to implement the laws.

Progress of 'Operation Flood' Programme

7080. SHRI DEVINDER SINGH GARCHA: Will the Minister of AGRICULTURE be pleased to state:

(a) whether the 'Operation flood' a five year programme to increase milk supplies to urban areas has not made the expected progress due to the dependence on foreign gifts of the milk powder; and

(b) if so, what alternate measures are to be adopted to meet the acute shortage of milk in big cities under this programme?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) and (b). There has been some delay in the timely expansion of the milk processing facilities in the public sector milk plants in the four cities of Bombay, Calcutta, Delhi and Madras as contemplated in operation Flood with the result that the expected supply of s.m.p. and butter oil from World Food Programme has not been fully availed of. The First Phase Expansion programme of these plants is now expected to be completed by about middle of 1974. Operation flood also contemplated to be set up during the year 1974. Operation flood also contemplates a sizeable investment for increasing milk production in the milkshed areas of the four major cities by

provision of technical inputs, development of improved milch animals and organization of rural procurement of milk. It is hoped that on completion of Operation Flood, the throughput of milk in the public sector milk plants of the four cities will be raised from about 1.00 million litres a day (pre-project) to 2.75 million litres a day at the end of the project period to meet full requirements of these cities.

Drought and Starvation Deaths in Mysore

7081. SHRI K. LAKKAPPA: Will the Minister of AGRICULTURE be pleased to state:

(a) whether attention of the Government has been drawn to the Press Report in *Hindustan Times* dated 19th March, 1973 that Mysore drought may turn worse;

(b) if so, how far the tragic story given by the press is correct; and

(c) what immediate steps are being taken to help the State Government for timely checking the starvation deaths in the Mysore State?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE):
(a) Yes, Sir.

(b) and (c). The districts of Bijapur, Raichur, Bidar, Gulbarga and Belgaum have been hard hit by drought. The measures undertaken by both the State and Central Governments to meet the situation are shown in the statement attached.

Statement

The measures undertaken by Mysore Government to meet the situation are as under:—

- (1) Opening of relief measures to provide employment to the affected population. About

8000 relief works employing about 5 lakh persons are in operation at present. Besides, schemes for distribution of gratuitous relief and free feeding programmes are also in operation.

- (2) To meet difficulties of drinking water supply, measures have been undertaken such as deepening of wells, sinking of new wells, carriage of water to the affected areas etc.

- (3) Fodder difficulties are being met by measures such as opening of cattle camps, migration of cattle, concessional movement of fodder, grant of loans for purchase of fodder, subsidy towards cost of transport of fodder, procurement of fodder etc.

- (4) On the basis of the recommendations made by the Central Study Teams which visited the State in September, 1972 and January, 1973 a ceiling of expenditure of Rs. 12.87 crores has been adopted. An amount of Rs. 16.50 crores has been released to the State Government so far. The ceilings recommended by the team which visited in January do not include those for relief works, for which expenditure actually incurred for durable and productive works according to priorities agreed to between the State and Central Governments will be eligible for Central assistance.

- (5) Under the Emergency Agricultural Production Programme, an amount of Rs. 5.30 crores has been released for special minor irrigation schemes against the administrative approval of Rs. 6389 crores. Besides, an amount of Rs. 2 crores has been released as short term loan for agricultural inputs.

- (6) Reasonable quantities of food-grains have been made available to the State Government by Centre. No death due to starvation has been reported by the State Government.

Due place to indigenous and homoeopathic medicine

7082. SHRI K. LAKKAPPA:

SHRI P. M. MEHTA:

Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state:

(a) whether the Central Council for Research in Indian Medicine and Homoeopathy has suggested that indigenous and homoeopathic medicine should be given due place in serving the country's health needs; and

(b) other recommendations made by the Council?

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (SHRI KONDAJJI BASAPPA): (a) No.

(b) The Central Council for Research in Indian Medicine and Homoeopathy has, since its inception during 1969, made a number of recommendations relating to research schemes in respect of Ayurveda, Siddha, Unani, Homoeopathic and Yoga. Copies of the annual reports of the Council for the years 1969-70 and 1970-71 and 1971-72, which contain the information regarding major recommendations of the Council, are available in the Library of the Lok Sabha Secretariat.

Location of Colleges in residential areas in Delhi

7083. SHRI N. K. SANGHI: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether the location of colleges in the residential areas gives rise to

student problems more than those located away from the residential areas;

(b) the number of colleges that are located in Delhi in residential areas and those away from there and the respective statistics of troubles reported in each category during last two years; and

(c) whether with a view to reducing students trouble Government have considered the desirability of setting up a second University enclave in South Delhi and shift all the colleges there; and if not, the reasons therefor?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) No specific study in this regard has been made.

(b) With the expansion of the city almost all the colleges are surrounded by residential areas. Agitation on account of transport and other matters have been reported, from time to time, both from the colleges surrounded by residential areas and those away from residential areas.

(c) There is no such proposal under consideration.

Central assistance to drought affected States for new food production programme

7084. SHRI N. K. SANGHI:

SHRI M. S. SANJEEVI RAO:

Will the Minister of AGRICULTURE be pleased to state:

(a) whether the Central Government have formulated a scheme for giving necessary financial assistance to the drought affected states for new Food production programmes;

(b) if so, the main features thereof;

(c) whether alongwith the financial assistance, Government have considered the desirability to giving some administrative help to the state Government as it has been found that failure in the food front was also due to administrative lapse; and

(d) the quantum of assistance to be given to each of the drought affected States and the target of production that is sought to be achieved through this scheme?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE): (a) No. However, last year i.e. 1972-73 an Emergency Agricultural Production Programme was taken up under which a sum of Rs. 152.4 crores was given to various State Governments for the development of minor irrigation and other programmes.

(b) to (d). Do not arise.

दूध के डिब्बे में छिपकली का पाया जाना

7085. श्री एम० एस० पुरती :

श्री धर्मराव अण्णप्पुकर :

क्या कृषि मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या 21 मार्च, 1973 को प्रेजीडेंट केन्टीन में दूध का वितरण करते समय दूध के डिब्बों में एक छिपकली पाई गई थी; और

(ख) यदि हां तो क्या इस बारे में सरकार ने कोई जांच कराई है और यदि हां, तो जांच का क्या परिणाम निकला

कृषि मंत्रालय में राज्य मंत्री (प्रो० शेर सिंह) : (क) और (ख) 21 मार्च, 1973 को प्रातः लगभग 5 बजे दिल्ली दुग्ध योजना ने राष्ट्रपति के पुलिस गार्डों की कैटीन को एक मुहरबन्द दूध के बड़े डिब्बे (मिल्क केन) का वितरण किया था। प्राप्तकर्ता ने डाकेट पर हस्ताक्षर किये, दूध का बड़ा डिब्बा (मिल्क केन) प्राप्त किया और उसे कैटीन के अन्दर ले गया वहां लेजाकर उसने इसे खाली कर दिया और दूध का खाली बड़ा डिब्बा (मिल्क केन) दिल्ली दुग्ध योजना के वितरण कर्मचारियों को वापिस कर दिया। 3 घंटे के बाद कैटीन प्रबन्धक ने दिल्ली दुग्ध योजना को टेलीफोन किया और यह शिकायत की कि दिल्ली दुग्ध योजना ने जो दूध सप्लाई किया था उसे कैटीन के जिस डिब्बे में डाला गया था, उसमें छिपकली पाई गई। दिल्ली दुग्ध योजना के एक अधिकारी ने इस मामले की तुरन्त जांच की। जिस छिपकली का जिक्र किया गया था वह उन्हे नहीं दिखाई गई। लेकिन इस मामले में विस्तृत जांच करने में उसे पता चला कि दिल्ली दुग्ध योजना द्वारा सप्लाई किये गये मुहरबन्द दूध के बड़े डिब्बे (मिल्क केन) में छिपकली के मौजूद होने की सम्भावना नहीं थी। ऐसा प्रतीत होता है कि या तो कैटीन के उस बर्तन में ही छिपकली थी, जिसमें कि कैटीन कर्मचारियों ने दूध डाला था या उसमें दूध डालने के बाद छिपकली उसमें गिर गई थी।

Curtailment of quota of open market sale of sugar

7086. DR. H. P. SHARMA:

SHRI RAMAVATAR
SHASTRI:

Will the Minister of AGRICULTURE be pleased to state;

(a) whether Government have of late been considering the question of further curtailing the quota of open market sale of sugar from the existing 30 per cent;

(b) the reasons prompting such further curtailment; and

(c) the decision taken in the matter?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) No, Sir.

(b) and (c). Do not arise.

Bhoj drainage scheme of Gujarat State

7087. SHRI PRAVINSINH SOLANKI: Will the Minister of WORKS AND HOUSING be pleased to state:

(a) whether the State Government of Gujarat has requested in April, 1972 for financial help for Bhoj Drainage Scheme; and

(b) if so, the action taken by Government in this regard?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) and (b). Water Supply is a State Sector Programme. During the IVth Plan Central assistance is being given in the form of block loan and block grants of 70 per cent and 30 per cent respectively for all development heads including water supply on the basis of State Plan allocation without any reference to any individual schemes.

The Government of Gujarat had sought for the technical approval of the Central Public Health Engineering and Environmental Organisation for Bhoj Underground Drainage Scheme vide their letter dated the 28th March, 1972. The first stage of Bhoj Underground Drainage Scheme estimated to cost Rs. 42.35 lacs was technically cleared for implementation by the Central Public Health Engineering and Environmental Organisation in September, 1972.

Requirement of D.T.C. buses during Fifth Five Year Plan

7088. SHRI PRAVINSINH SOLANKI: Will the Minister of SHIPPING AND TRANSPORT be pleased to state:

(a) what is the estimated requirement of buses for DTC during the Fifth Plan period; and

(b) the estimated expenditure and likely time to be taken for its implementation?

THE MINISTER OF STATE IN THE MINISTRY OF SHIPPING AND TRANSPORT (SHRI M. B. RANA): (a) and (b). The Delhi Transport Corporation proposes to acquire 2,270 buses during the Fifth Plan period, at an estimated cost of Rs. 2,485 lakhs. If it is ultimately decided to nationalise the entire passenger road transport services in the Union Territory of Delhi, it will be necessary to acquire a further 123 buses at an estimated cost of Rs. 119 lakhs.

The proposals are expected to be implemented by the 31st March, 1979.

Diversion in quota of rape seed and oil seed of W. Bengal

7089. SHRI SAMAR GUHA: Will the Minister of AGRICULTURE be pleased to refer to the reply given to S. Q. No. 5 on 20th March, 1973 regarding purchase of mustard seeds by Vanaspati manufacturers of Gujarat to create scarcity and state:

(a) whether the matter related to diversion of 15 per cent of Canadian rape seed from the quota of W. Bengal Government to Vanaspati producers and the shortfall of oil seed supply to 138 W. Bengal oil mills will be re-examined;

(b) if so, whether any step has been taken in this regard, and its outcome thereof;

(c) whether the Governments have varified whether retail price of mustard shot up; and

(d) other steps taken or proposed to meet the crisis of production and price of mustard oil on the basis of the representations made by the Government of West Bengal and the oil-mill owners association to the Central Government?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) and (b). Imported rapeseed is intended to meet the requirements of consumers of mustard oil in the Eastern region and the manufacturers of vanaspati. No specific quotas have been fixed for individual States but, as far as possible, an effort is made to meet the requirements of each State within the limits of availability of stocks. In the case of West Bengal, about 4,000 tonnes per month was being allotted during the past few months. In view of the substantially larger crop of mustard seed this year on the one hand, and the major shortfall in groundnut production coupled with discontinuance of concessional imports of edible oils on the other, it was proposed in February 1973 to discontinue such allotments of rapeseed to all the States for the time being. However, pursuance to the assurances given in the Lok Sabha on the 20th March 1973, the matter was re-examined, and it has been decided to continue the allotments of imported rapeseed to West Bengal at the rate of 2,000 tonnes per month.

(c) It has been verified, from reports received from West Bengal Government sources, that there has been no increase in the retail price of mustard oil at Calcutta since the 23rd February, that is about a week prior to the date when the use of mustard oil in vanaspati was permitted. On the other hand, the retail price which was Rs. 6.00 per kg. on the 23rd February, fell to Rs. 5.90 per kg. on the 16th March and has continued at that level right up to the 6th April, the date of the last report received.

(d) The situation as of date does not warrant any change in Government's policy in this regard. However, the matter is under constant review and, if any change is found to be necessary, appropriate action will be taken.

अनुपयोगी फर्नीचर की नीलामी

7090. श्री श्रींकार लाल बेरवा : क्या निर्माण और आवास मन्त्री यह बताने की कृपा करेंगे कि :

(क) संसद सदस्य के प्लेटों का अनुपयोगी फर्नीचर किम किस तारीख को नीलाम किया जाता है ; और

(ख) इस बारे में नोटिसों का विज्ञापन किम किस समाचार पत्र में प्रकाशित किया जाता है ?

संसदीय कार्य विभाग तथा निर्माण और आवास मंत्रालय में राज्य मन्त्री (श्री ओम मेहता) : (क) और (ख) अनुपयोगी फर्नीचर के नीलाम की कोई निश्चित तारीख नहीं है । इसका नीलाम तब किया जाता है जब इसकी अवधि समाप्त हो जाती है । यदि अनुपयोगी फर्नीचर का मूल्य 5,000/- रुपये से अधिक हो तो इसे महानिदेशक,

पूति और निपटान के माध्यम से नीलाम किया जाता है । यदि पुस्तांकित मूल्य 5,000/- रुपये से कम हो तो कवाड़ियों की विभिन्न यूनियनों/ठेकेदारों को विभिन्न एसो-सिएशनों को नीलाम के नोटिस जारी करके तथा केन्द्रीय लोक निर्माण विभाग के संसदीय निर्माण कार्य मण्डल के नोटिस बोर्ड पर एक नोटिस लगाकर इसे विभागीय तौर पर नीलाम किया जाता है, ऐसे छोटे नीलामों के लिए समाचार पत्र में कोई विज्ञापन नहीं दिया जाता ।

आयुर्वेदिक औषधालयों के लिये औषधियों की खरीद

7091. श्री ओंकार लाल बेरवा :
क्या स्वास्थ्य और परिवार नियोजन मंत्री यह बताने की कृपा करेंगे कि :

(क) आयुर्वेदिक औषधालयों के लिये किन कम्पनियों से औषधियां खरीदी जाती हैं ; और

(ख) क्या हमदर्द दवाखाना से कोई औषधि खरीदी जाती है ?

स्वास्थ्य और परिवार नियोजन मंत्रालय में उप-मंत्री (श्री कोंडाजी बासप्पा) :
(क) वर्ष 1972-73 में केन्द्रीय स्वास्थ्य योजना के औषधालयों के लिये जिन कम्पनियों से आयुर्वेदिक औषधियां खरीदी गई थीं उनके नाम इस प्रकार हैं :—

1. आयुर्वेदिक रसशाला, पूना ।
2. नवशक्ति आयुर्वेदालय, भुसावल ।
3. श्री धन्वतरि आयुर्वेदिक फार्मसी, अमृतसर ।

4. पेटलाड महल आरोग्य मंडल फार्मसी, नडियाड, गुजरात ।
5. मुभाष आयुर्वेदिक स्टोर नवादा, गया ।
6. आपली फार्मास्यूटिकल लिमिटेड, अहमद नगर ।
7. देश रक्षक औषधालय, (रजिस्टर्ड) कंखल, हरिद्वार, उ० प्र० ।
8. ऋषिकुल आयुर्वेदिक कालेज, फार्मसी हरिद्वार ।
9. राज वैद्य शीतल प्रसाद एण्ड सन्स, दिल्ली ।
10. पुष्कर्णा आयुर्वेदिक फार्मसी, दिल्ली ।
11. एस पी० फर्मा जवाहर नगर, दिल्ली ।
12. श्री मोहता रसायनशाला हाथरस, उ० प्र० ।
13. पटियाला आयुर्वेदिक फार्मसी (रजिस्टर्ड), सरहिन्द ।
14. दिल्ली आयुर्वेदिक फार्मसी, दिल्ली ।
15. अरावली कैमिकल प्राइवेट लिमि०, बम्बई ।
16. झण्डू फार्मास्यूटिकल वर्क्स प्राइवेट लिमि०, बम्बई ।
17. स्वास्थ्य वर्धक औषधालय (रजिस्टर्ड) वाराणसी ।
18. प्रभात आयुर्वेदिक फार्मसी, अमृतसर ।
19. श्री धन्वतरि लेबोरेटरीज, भागलपुर ।
20. स्वस्तिका ड्रग्स फर्मा, अमृतसर ।
21. कोआफरेटिव ड्रग्स फैक्टरी, रानीखेत, उ० प्र० ।

22. दिल्ली फार्मस्यूटिकल एण्ड कैमिकल कोम्प्रापरेटिव इंडस्ट्रियल सोसाइटी लिमिटेड, दिल्ली ।
23. रामेश्वर दास छोटे लाल, दिल्ली ।
24. हिमालय ड्रग्स को० प्रा० लिमिटेड, बम्बई ।
25. दि इंडियन मेडिकल प्रैक्टिशनर कोम्प्रापरेटिव फार्मसी एण्ड स्टोर लिमिटेड, मद्रास ।
26. दि आर्य वैद्य फार्मसी, (कोयम्बटूर) लिमिटेड, कोयम्बटूर ।
27. डाबर (डा० एस० के० वर्मन) प्राइवेट लिमि०, दिल्ली ।
28. आर्य आयुर्वेदिक फार्मसी. बडौत (मेरठ)
29. श्री देवराज फार्मस्यूटिकल, अमृतसर ।
30. श्री वैद्यनाथ आयुर्वेद भवन, प्राइवेट लिमिटेड, पटना ।
31. अलासिन फार्मस्यूटिकल डिबीजन, बम्बई ।

(ख) जी नहीं ।

केन्द्रीय सरकार स्वास्थ्य योजना के औषधालयों में संसद् सदस्यों के लिये दवाओं का कोटा

7092. श्री ओंकार लाल बेरवा :
क्या स्वास्थ्य और परिवार नियोजन मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या केन्द्रीय सरकार स्वास्थ्य योजना के औषधालयों में संसद् सदस्यों के लिये 10 वर्ष पूर्व निर्धारित दवाओं के कोटे में कमी कर दी गई है ;

(ख) यदि हां, तो क्या उनकी कोटा-सूची का पुनरीक्षण करने का विचार है; और

(ग) यदि नहीं, तो इसके क्या कारण हैं ?

स्वास्थ्य और परिवार नियोजन मंत्रालय में उप मंत्री (श्री कोंडाजी बासप्पा) :
(क) जब से केन्द्रीय स्वास्थ्य योजना चलाई गई इस योजना के औषधालयों को कभी भी संसद सदस्यों के लिए दवाइयों का कोटा अलग से नहीं दिया गया । केन्द्रीय स्वास्थ्य योजना के औषधालय इस प्रयोजन के प्रत्येक लाभार्थी को उसकी चिकित्सीय आवश्यकता के आधार पर दवाइयां देते हैं ।

(ख) और (ग). ये प्रश्न नहीं उठते ।

आयुर्वेदिक स्नातकों की ऐलोपैथिक डाक्टरों के समान वेतन-मान दिया जाना

7093. श्री ओंकार लाल बेरवा :
क्या स्वास्थ्य और परिवार नियोजन मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या आयुर्वेदिक स्नातकों के वेतन-मान ऐलोपैथिक डाक्टरों के समान कर दिये गये हैं ; और

(ख) यदि नहीं, तो इसके क्या कारण

स्वास्थ्य और परिवार नियोजन मंत्रालय में उप-मंत्री (श्री कोंडाजी बासप्पा) :
(क) और (ख). भारत सरकार के अन्तर्गत ऐलोपैथिक डाक्टर केन्द्रीय स्वास्थ्य सेवा से संबंधित हैं और वे केन्द्रीय सरकार, संघ शासित सरकारों तथा कुछ स्वयत्तशासी

निकायों के अन्तर्गत सेवा करने के लिये भर्ती किये जाते हैं। उनकी वेतनराशि का निर्धारण उन की ड्यूटी तथा सेवा शर्तों की सम्पूर्णता को ध्यान में रखते हुए किया जाता है। एलोपैथिक डाक्टरों तथा आयुर्वेदीय वैद्यों की वेतन परिलब्धियों तथा पदस्थिति को समानता प्रदान करना सम्भव नहीं है।

**बाजरा (मिलेट) और गेहूं की वसूली
मूल्य में वृद्धि**

7094. श्री ओंकार लाल बेरवा :

श्री एम० एस० संजीवी राव :

क्या कृषि मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या सरकार ने बाजरे और गेहूं के वसूली मूल्य क्रमशः 70 रुपये और 76 रुपये प्रति क्विंटल निर्धारित किये हैं ;

(ख) क्या सरकार का विचार अन्य वस्तुओं के मूल्यों में वृद्धि को ध्यान में रखते हुए बाजरे और गेहूं के उपरोक्त वसूली मूल्यों में पुनरीक्षण करने का है ; और

(ग) यदि हां, तो कब तक ?

कृषि मंत्रालय में राज्य मंत्री (श्री अण्णासाहेब पी० शिन्दे) : (क) सरकार ने बाजरे (मिलेट) और गेहूं का अधिप्राप्ति मूल्य निम्न प्रकार से निर्धारित किया है :

बाजरा (मिलेट)	रु० प्रति क्विंटल
1	2
1 बाजरा . . .	60.00
2 ज्वार . . .	58.00
3 रागी . . .	57.00
4 कोदों और कुटकी . . .	50.00

गेहूं

1 विशिष्ट प्रकार की बढ़िया किस्में 82.00

2 देशी लाल किस्म . 71.00
से 74.00

3 अन्य किस्में . 76.00

(ख) फिलहाल अधिप्राप्ति मूल्यों में फेर बदल करने का कोई विचार नहीं है।

(ग) प्रश्न नहीं उठता।

Progress of Panchayati Raj in Dadra and Nagar Haveli

7095. SHRI RAMUBHAI PATEL:
SHRI D. P. JADEJA:

Will the Minister of AGRICULTURE be pleased to state:

(a) the progress of Panchayati Raj activities in the Union Territory of Dadra and Nagar Haveli; and

(b) why are they not given any more responsibilities?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) and (b). The Panchayats in Dadra and Nagar Haveli are of recent origin and consist of ten Village Panchayats covering whole Territory and the Varishta Panchayat constituted under the Dadra and Nagar Haveli Act, 1961. There were no elected Panchayats prior to 1968. While the Members of the Village Panchayats are directly elected by the people, those to the Varishta Panchayats are indirectly elected by Members of the Village Panchayats.

The functions of the Panchayats cover Public Health, Sanitation, Public Works, Planning and Development, Administration, Social Welfare, Education and Culture, on generally same lines as in Goa, Daman and Diu. The functions of the Varishta Panchayats are advisory in nature and this Institution is regularly consulted on all important matters and kept informed of developmental activities and schemes.

So far Panchayats performance in raising revenues and grant-in-aid works are not commensurate with their existing powers as these institutions are new and the territory is economically backward.

Farmers' relief work in Dadra and Nagar Haveli

7096. SHRI RAMUBHAI PATEL:
SHRI D. P. JADEJA:

Will the Minister of AGRICULTURE be pleased to state the measures taken in Dadra and Nagar Haveli areas for helping the people in farmer relief work?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE): The Dadra and Nagar Haveli Administration has reported that the following measures have been taken:—

- (i) Recovery of land rent and other Government dues have been deferred in full in eight villages and half in twenty-five villages on the basis of crop assessment;
- (ii) Although adequate employment was generally available for rural population until January, a large number of works has been opened thereafter;
- (iii) To deal with any possible shortage of drinking water, boring and blasting of wells and digging of tubewells has

been undertaken. Supply of water by trucks is also in progress wherever necessary;

- (iv) A voluntary relief committee has been organised by leading citizens of the Territory, which proposes to start distribution of foodgrains from 1st May, 1973 with the assistance of the Administration; besides, the Administration has undertaken distribution of grains on loan basis.

Land Reforms Act in Dadra and Nagar Haveli, Goa

7097. SHRI RAMUBHAI PATEL:
SHRI D. P. JADEJA:

Will the Minister of AGRICULTURE be pleased to state:

(a) when the land Reform Act for Dadra and Nagar Haveli, Goa came into force; and

(b) the progress thereof?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE): (a) and (b). The Dadra and Nagar Haveli Land Reform Regulation, 1971 was promulgated on the 8th December, 1971. The Goa, Daman and Diu Agricultural Tenancy Act, 1964 providing for temporary protection of tenants and the fixation of maximum rent payable by a tenant came into force on the 8th February, 1965. Revision of the Regulations for Dadra and Nagar Haveli as well as the tenancy law for Goa, Daman and Diu is under consideration.

Buffer stock of foodgrains and restructuring cropping pattern

7098. SHRI SHRIKISHAN MODI:
SHRI P. M. MEHTA:

Will the Minister of AGRICULTURE be pleased to state:

(a) whether Government are considering two pronged strategy for

'building up massive buffer stocks of foodgrains and restructuring the cropping pattern; and

(b) if so, whether this also was one of the subjects discussed in the symposium on agricultural research and development held in March this year?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE): (a) and (b). A decision has already been taken to raise the level of buffer stocks from 5 million tonnes to 7 million tonnes for the remaining Fourth Plan period. In view of the prolonged drought conditions, a massive Emergency Agricultural Production Programme was launched to bring additional areas under wheat, rabi, jowar, summer rice and increase production of gram by adoption of package of practices. National Symposium on Agricultural Research and Development held in March this year had discussed, *inter alia*, the subject of restructuring the cropping pattern and also building up of buffer stocks of seeds of the major crops in every State in order to provide seeds in case of crop failure due to aberrant weather.

**बिड़ला हायर सेकण्डरी स्कूल, दिल्ली
को अनुदान देना बन्द करना**

7099. श्री फूल चन्द वर्मा : क्या समा कल्याण और संस्कृति मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या सरकार ने दिल्ली में बिड़ला हायर सेकण्डरी स्कूल का अनुदान बन्द कर दिया है, और

(ख) यदि हां, तो इसके क्या कारण हैं ?

शिक्षा, समाज कल्याण तथा संस्कृति मंत्री (प्रो० एस० नूतल हसन): (क) जी हां ।

(ख) दिल्ली प्रशासन द्वारा भेजी गई सूचना के अनुसार क्योंकि बिरला हायर सेकण्डरी स्कूल के प्रबन्धकों ने सहायक-अनुदान से संबंधित नियमों और विभागीय अनुदेशों का पालन नहीं किया है, इसलिए स्कूल को दिए जाने वाले अनुदान रोक दिए गए हैं ।

राष्ट्रीय कृषि आयोग की सिफारिशों को क्रियान्वित करना

7100. श्री फूल चन्द वर्मा : क्या कृषि मंत्री यह बताने की कृपा करेंगे कि :

(क) राष्ट्रीय कृषि आयोग किस तारीख को गठित किया गया था ;

(ख) आयोग की ऐसी सिफारिशें कौन-सी हैं जिनको क्रियान्वित करने का काम आरम्भ कर दिया गया है ; और

(ग) आयोग पर अब तक कुल कितनी धन-राशि खर्च की गई है ?

कृषि मंत्रालय में राज्य मंत्री (श्री अण्णा साहिब पी० शिन्दे) : (क) राष्ट्रीय कृषि आयोग कृषि विभाग के संकल्प सं० 25-13/68-सामान्य समन्वय, दिनांक 29-8-1970 द्वारा गठित किया गया था । इस आयोग के काम का उद्घाटन भारत के राष्ट्रपति ने 16 अक्टूबर, 1970 को किया था ।

(ख) राष्ट्रीय कृषि आयोग ने अब तक निम्नलिखित 14 अन्तरिम रिपोर्टें प्रस्तुत की हैं :—

1. अनाज की अधिक उपज देने वाली और संकर किस्मों के अच्छे बीजों का वर्धन और वितरण ।
2. उर्वरक वितरण ।
3. कृषि अनुसंधान, विस्तार और प्रशिक्षण के पहलू ।
4. छोटे और सीमान्त किसानों और कृषि श्रमिकों के लिए ऋण सेवाएँ ।

5. छोटें और सीमान्त किसानों और कृषि श्रमिकों के जरिये दुग्ध उत्पादन ।
6. कृषि विश्वविद्यालयों में कृषि मौसम-विज्ञान प्रभागों की स्थापना ।
7. उत्पादन वानिकी-मानव निर्मित वन ।
8. भूमिहीन कृषि मजदूरों के आवास के लिये स्थान ।
9. मृदा सर्वेक्षण और भारत का मृदा मानचित्र ।
10. आलू के बीज ।
11. अखिल भारतीय समन्वित अनु-संधान परियोजनाओं के संगठनात्मक पहलू ।
12. मिचार्ट पद्धतियों का आधुनिकीकरण तथा कमांड क्षेत्रों का समेकित विकास ।
13. ग्राम विकास कार्यक्रम ।
14. जन्म विकास परिषदों और निदेशालयों का संगठन और उनके कार्यक्रम ।

प्रथम दस रिपोर्टों में दी गई अधिकांश सिफारिशें, जिनपर विचार किया गया है, सरकार को स्वीकार्य हैं । इनमें से जिनका पांचवी पंचवर्षीय योजना बनाने पर प्रभाव पड़ेगा उनको पांचवीं पंचवर्षीय योजना के प्रस्ताव तैयार करने के लिये ध्यान में रखा जा रहा है । इनमें से जो सिफारिशें सरकार को स्वीकार्य हैं और जिनके मामले में कृषि मंत्रालय द्वारा कायविधि सम्बन्धी सुधार और परिवर्तन करने जरूरी हैं, उनका कार्यान्वयन किया जा रहा है । जहां तक अन्य विभागों, मंत्रालयों और राज्य सरकारों की सहमति प्राप्त करने या उनके द्वारा कार्यवाही किये जाने का प्रश्न है, विभिन्न स्तरों पर सिफारिशों के सम्बन्ध में कार्यवाही की जा रही है ।

इस आयोग ने अपनी अन्तिम चार रिपोर्ट 13-3-73 को प्रस्तुत की थी और इनकी जांच की जा रही है ।

(ग) 21 मार्च, 1973 तक इस आयोग पर लगभग 47.77 लाख रुपये व्यय हुये ।

Setting up of Medical College at Shahdara

7101. SHRI RAM BHAGAT PASWAN: Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state:

(a) whether there is a proposal to establish a medical college at Shahdara; and

(b) if so, the tentative date for its establishment?

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (SHRI KONDAJJI BASAPPA): (a) and (b). Yes. A medical college has already started functioning since 1971. At present the college is housed in the Campus of the University of Delhi.

Justification for imposing zonal restriction on movement of wheat

7102. SHRI RAM BHAGAT PASWAN: Will the Minister of AGRICULTURE be pleased to state:

(a) whether Government plan to impose zonal restriction on the movement of wheat; and

(b) if so, the justification for such decision?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE): (a) and (b). Government of India have already promulgated the Inter-Zonal Wheat and Wheat Products (Movement Control) Order, 1973 creating single State wheat zones. The creation of single State Wheat Zones

is one of the important elements of the scheme which is expected to create conditions favourable for procurement of wheat by the public agencies particularly in the context of the decision to take-over wholesale trade in wheat from the current season.

Rate of condemnation of seeds by National Seeds Corporation

7103. SHRI SHASHI BHUSHAN: Will the Minister of AGRICULTURE be pleased to state:

(a) whether the National Seeds Corporation condemns seeds every year on account of low germination, loss of vigour and viability, the figures of condemnation of seeds during the last three years, year-wise, and the value of seeds so condemned;

(b) whether any official has been held responsible for this condemnation, if so, the action taken against him;

(c) whether there is any proposal to head the Quality Control Wing of National Seeds Corporation with a suitable technical hand and if so, the particulars thereof; and

(d) the steps being taken by the National Seeds Corporation to avoid future condemnation of seeds?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE):

(a) and (b). Seed being a highly sensitive living organism, loses its germination, vigour, because of several factors including age, long storage, transport, handling, temperature, humidity, etc. In order to maintain the correct standard of seed, N.S.C. has been condemning seed of sub-standard quality. The break-up of the value of seed condemned during the preceding three years is given in statement attached. The condemnation of seeds takes place in various sale outlets run by the N.S.C. after the circumstances leading to the loss of vigour, germination, etc., have been examined by a Seed Condemnation Committee and corrective action is taken where necessary.

(c) The Quality Control Wing is headed by a competent technical officer. Even so, it is proposed to de-link quality control from the Production Division and to place it under a technical officer dealing with research development and quality control.

(d) Adoption of quality control measures in the production of seed, proper storage arrangements, management control and correlation between production and demand will minimise condemnation of seeds in future

Statement

Statement Showing Year wise break up of Seed Condemned

(Value in Lakhs)

Year	Value of seed condemned out of surplus stock*	Value of other seed condemned	Gross value of seed condemned (Col. 2 + 3)	Turnover of seeds	% of condemnation of surplus stock to turnover	% of condemnation of other seeds to turnover
	2	3	4	5	6	7
1969-70	2.32	13.84	16.16	296.38	0.78	4.66
1970-71	8.51	8.42	16.93	403.26	2.11	2.09
1971-72	59.88	8.90	68.73	466.14	12.85	1.91

*The Corporation has been carrying surplus unserviceable stocks of hybrids to the extent of Rs. 95 lakhs, which were produced in excess during the year 1966-67 and 1967-68 in fulfilment of the national programme which, however, was not attained rendering the seeds surplus. As and when the seeds lost their viability they were being condemned from year to year during 1969-70 to 1971-72.

Misuse of Residential Properties in Delhi

7104. SHRI SHASHI BHUSHAN:
SHRI M. M. JOSEPH:

Will the Minister of WORKS AND HOUSING be pleased to state:

(a) the number of persons prosecuted in Delhi so far during the last three years, year-wise for misuse of residential properties for commercial and other non-residential purposes;

(b) whether a survey to find out such violations was held and a team of persons was sent from house to house in this connection; and

(c) if not, whether it is proposed to send such a team to find out such violations which are on a large scale in the Delhi city area?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA). (a) Prosecution has been initiated by Delhi Development Authority in 2169 cases. The year-wise position is as under—

Year	Number of cases
1970-71	200
1971-72	400
1972-73	1569

(b) No house-to-house survey was made.

(c) There is no such proposal at present. However, selected areas are being kept under strict surveillance.

Registration with D.D.A. for Allotment of Built up Flats in Middle Income Group or Low Income Group

7105. SHRI SHASHI BHUSHAN:
Will the Minister of WORKS AND HOUSING be pleased to state:

(a) whether persons who have got their names registered with the D.D.A. for allotment of built up flats in M.I.G.

or L.I.G. category cannot indicate their choice while applying for the flat regarding the floor which they like to have and it is the discretion of D.D.A. to allot them flat on any floor or they have to accept the flat on any floor allotted to them;

(b) if so, the reasons therefor, and whether in future these persons be required to indicate their choice of floor and in case they are unable to get the flat on their choice floor, they would not be put to any loss; and

(c) in case a person refuses to accept the allotment on the floor where he does not want to occupy it due to certain reasons, whether he is required to bear any loss and if so, the particulars thereof?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA). (a) Yes, Sir. No choice is given. The floor to be allotted is decided on the basis of draw of lots.

(b) Allotment through draw of lots is considered to be a better method to ensure allotment of flats on all the floors and to avoid any discrimination between the persons registered. D.D.A. would however, be asked to re-examine the matter.

(c) If a person requests cancellation of an allotment after the draw of lots, he has to pay the prescribed penalty which presently is Rs. 300 in the case of MIG and Rs. 125 to Rs. 225 in case of LIG flats.

Allotment of Coal Depot in Sector II of R. K. Puram, New Delhi

7106. SHRI SHASHI BHUSHAN:
Will the Minister of WORKS AND HOUSING be pleased to state:

(a) whether in Sector II of R. K. Puram, New Delhi a depot has been allotted in the lawns in the midst of

Government quarters and if so, the reasons for allotment of such a place for the coal depot;

(b) whether various representations have been received by Government in which a request to shift the above coal depot from that place has been made and if so, the action taken thereon so far; and

(c) the time by which the said coal depot would be removed from that place with a view to avoid inconvenience to the residents of the quarters in that area?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) to (c). The Land was allotted to the depot holder by the Ministry of Defence in 1963 under a wrong impression that the open land in the Defence Hostel comprising of 124 Type IV flats and 56 Type I quarters placed at their disposal by the Directorate of Estates could be licensed by them for running various trades. However, when it was pointed out to them that the open land in the area did not form part of the Ministry of Defence Pool, the licence was cancelled with effect from 1-9-1965. The former allottee has not, however, vacated the site so far. Certain representations for the shifting of the coal depot have been received. Eviction proceedings under the Public Premises (Eviction of Un-authorised Occupants), Act, 1971 would be initiated against the unauthorised depot-holder shortly. As eviction can be effected only after following the procedure laid down under the law, no time-limit can be indicated for the eviction of the coal depot.

Government Servants Occupying below One Class of their Entitled Class

7107. SHRI SHASHI BHUSHAN: Will the Minister of WORKS AND HOUSING be pleased to state:

(a) whether quite a good number of Government employees in Delhi and

New Delhi who are at present entitled to Type III, IV and V are occupying Government accommodation one or two types below their entitlement;

(b) the number of such officers as on the 31st March, 1973; and

(c) whether any specific steps are proposed to be taken to ensure that the employees occupying lower types of quarters allotted to them are shifted to their entitled type with a view to create vacancies for the persons waiting for lower types; and if so, the particulars thereof and if not, the reasons therefore?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) Yes, Sir.

(b) The number of such officers as are in occupation of accommodation lower than their entitled types, as on 31-3-1973, is as under:—

Type	Type of accommodation occupied in lower types		
	Type IV	Type III	Type II
V	. 2,127	501	..
IV	. ..	1,823	1,474
III	. ..	..	5,193

(c) Accommodation from the general pool is allotted to eligible employees on the basis of their emoluments and dates of priority. According to the provisions in the Allotment Rules, such employees, as want to retain lower type accommodation, can do so, without any penalty, provided they have given such an option in their applications. Some of those, who were senior enough, were offered accommodation of their entitled types in their turn. Some accepted and some refused such allotments.

In some cases allotments of lower types were made when the employees

were entitled to those types and subsequently became entitled to higher types.

Linking of Sundergarh with National Highway

7108. SHRI GAJADHAR MAJHI: Will the Minister of SHIPPING AND TRANSPORT be pleased to state:

(a) whether there is any proposal with the Government of India to link Sundergarh district touching Marai-garh, a sub-divisional headquarters, with a National Highway; and

(b) if so, when it is going to be taken up?

THE MINISTER OF STATE IN THE MINISTRY OF SHIPPING AND TRANSPORT (SHRI M. B. RANA): (a) and (b). A new route as National Highway No. 23 has been added to the National Highway System on 8th March, 1972 running from Chas on N.H. No. 32 in Bihar to its junction with N.H. No. 42 south of Talcher in Orissa via Bokaro, Ranchi, and Rourkela. For the portion of this route lying in Orissa, the Government of Orissa have sent a proposal for the route alignment to be followed running via Bonaigarh (instead of Baraigarh as mentioned in the question). A precise indication as to whether or not Bonaigarh would fall on this National Highway route could be given only after its alignment has been settled after a detailed examination of various alternatives, which is already engaging the attention of Government of India.

Repair of Jagannath Temple, Puri

7109. SHRI ARJUN SETHI: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to refer to the reply given to Unstarred Question No. 1977 on the 5th March, 1973 regarding repair of Jagannath Temple, Puri and state whether Government have taken any decision to finance entirely the repair works of the famous temple of Sri Jagannath of Puri, Orissa and to open an archaeological branch to look after the temple?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): An Expert Committee has been set up to go into the question of preservation of the temple. A final decision in regard to the financing of the repair works will be taken after the said Committee submits its report.

Appointment of a Committee for establishing Shipyard at Paradeep

7110. SHRI ARJUN SETHI: Will the Minister of SHIPPING AND TRANSPORT be pleased to state:

(a) whether Government have appointed a Committee to go into details of establishing a shipyard at Paradeep, Orissa; and

(b) if so, the constitution of the Committee and its functions?

THE MINISTER OF STATE IN THE MINISTRY OF SHIPPING AND TRANSPORT (SHRI M. B. RANA): (a) and (b). This matter is receiving Government's consideration.

Institute of Physics at Bhubaneswar

7111. SHRI ARJUN SETHI: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to refer to the reply given to Unstarred Question No. 5748 dated the 23rd July, 1971 regarding Institute of Physics in Bhubaneswar and state:

(a) Whether the proposed Institute of Physics at Bhubaneswar in the meanwhile started functioning; and

(b) if not, the reaction of Government thereto?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) and (b). According to the information furnished by the Government of Orissa, the Institute of Physics at Bhubaneswar has started functioning.

Application of Central Civil Services (Conduct) Rules, 1964 to Employees of Delhi Milk Scheme

7112. SHRI MOHAN RAJ KALINC-ARAYAR: Will the Minister of AGRICULTURE be pleased to state:

(a) whether the Central Civil Services (Conduct) Rules, 1964 are applicable to the staff of the Delhi Milk Scheme;

(b) if so, the date on which this was notified to the staff;

(c) whether any cases of breach of these Rules on the part of Class III staff of the Delhi Milk Scheme have come to notice during the year 1972, and

(d) if so, the action taken in the matter?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) Yes.

(b) The Delhi Milk Scheme is a Subordinate Government Office under the Ministry of Agriculture and as in other Subordinate Offices, the Staff in the Delhi Milk Scheme is also fully aware of the fact that the Central Civil Services (Conduct) Rules, 1964 and other Central Services Rules and Regulations are applicable to them. The CCS (Conduct) Rules, 1964 were not specifically notified to the staff of the D.M.S.

(c) Yes.

(d) The individuals who had made a breach of these Rules, have already been served with Charge-sheets under the Central Civil Services (Classification, Control and Appeal) Rules, 1965 and further enquiries will be made in those cases.

Land Reforms Acts for President's Assent

7113. SHRI C. K. CHANDRAPPAN: Will the Minister of AGRICULTURE be pleased to state:

(a) whether there are any Land Reforms Acts pending with the President which were sent by the States for getting the assent of the President;

(b) if so, from which States and when were those received;

(c) the main features of those Acts; and

(d) which are the State Governments who have not yet sent Ceiling Acts to President for assent and which are the States to whom assent has been given for Ceiling Acts?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE):

(a) and (b). Yes, Sir. Revised ceiling Bills passed by the State Legislatures of Himachal Pradesh, Maharashtra and Uttar Pradesh were received on 24-1-1973, 18-9-1972 and 27-12-72 respectively.

(c) As in the statement laid on the Table of the House. [*Placed in Library. See No. LT-4801/73*].

(d) Bills for Gujarat, Manipur, Mysore, Tripura and Orissa are in the process of legislation and President's assent to them is not yet due. Ceiling bills passed by the Legislatures of Assam, Andhra Pradesh, Bihar, Haryana, Kerala, Madhya Pradesh, Punjab, Rajasthan, Tamil Nadu and West Bengal have been assented to by the President. Besides these, the Jammu and Kashmir bill has been enacted with the receipt of the Governor's assent.

"Rejected U.S. Cattle Dumped on India"

7114. SHRI C. K. CHANDRAPPA: Will the Minister of AGRICULTURE be pleased to state:

(a) whether the attention of the Government has been drawn to the report in *Blitz* dated the 24th March, 1973 with the caption "rejected U.S. cattle dumped on India"; and

(b) the reaction of the Government thereto?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) Yes.

(b) The facts reported in the *Blitz* dated the 24th March, 1973 are either not correct or are exaggerated in several aspects. For instance, it is not correct that American Foundation and Agencies dumped on India 10,000 cattle in the last decade. The total number of exotic cattle received as assistance from Foreign Governments/Agencies from 1961 till 31st of March, 1973 was 2,593 out of which only 665 came from U.S.A. through Hoifer Project. The rest of the cattle came from Australia, mostly under the Colombo Plan, U.K., Denmark and Ceylon. It is not correct that 10 per cent of the exotic cattle imported and their progeny have died or that out of one lot of 60 animals, 35 died on their way to the Hessarghatta Breeding Farm. No death has occurred of any exotic cattle so far during transportation to Hessarghatta farm.

It is also not correct that the Indian Veterinary Research Institute has done precious little in the production of Foot and Mouth disease or that several Indian experts left the Institute because of bad conditions. The correct position is that the Institute is engaging itself fully in the research of Foot and Mouth disease and production of vaccine against this disease. With the use of Tissue Culture technique, the Institute has produced large quantities of monovalent vaccine

for field use. Its production increased from 13,495 doses during 1965-66 to 4,81,255 doses in 1972. Furthermore, the various officials left the Institute for better assignments on promotion.

It is also not correct to state that not even 5 per cent of the 123 imported milk processing plants are working at even 5 per cent of their rated capacity. Out of 132 units in operation in February, 1973, there are 77 liquid milk plants, 11 milk products factories and 44 milk pilot units. There is no rated capacity in respect of pilot units. Out of the remaining 88 dairy plants, 48 units handle more than 40 per cent of their rated milk processing capacities. A few plants even exceeded their rated capacities.

As regards the alleged import of sub-standard and diseased exotic cattle, although for initial supplies no production standards were laid down and pedigree of some of the imported cattle was not available, but all animals imported duly met the health standards prescribed under the Live-stock Importation Act. From the year 1972-73, Government have started purchasing, through Indian Dairy Corporation, Baroda, on global tender basis, quality cattle conforming to minimum prescribed standards and health requirements. Out of the 751 cattle to purchased, the air transportation of 113 cattle from U.S.A. and 202 cattle from Denmark was entrusted to Air India International.

Incentive to staff working in Town and Country Planning Organisation

7115. SHRI VARKEY GEORGE: Will the Minister of WORKS AND HOUSING be pleased to state:

(a) whether any steps have been taken to provide any incentive to the departmental Upper Division Clerks/Lower Division Clerks, who have been working in Town and Country Planning Organisation (a subordinate office of the Ministry of Works and Housing) for more than 10 years;

- (b) if so, the facts thereof; and
- (c) if not, the reasons therefor?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) to (c). Promotion prospects are known to the entrants on the basis of the cadre structure. Upper Division Clerks are eligible for promotion to the post of Head Clerk and Lower Division Clerks are eligible for promotion to the posts of Upper Division Clerk.

Installation of Guide Map of Sector 'D' Type II Quarters of Mandir Marg, New Delhi

7116. SHRI VARKEY GEORGE:

SHRI M. S. SIVASWAMY:

Will the Minister of WORKS AND HOUSING be pleased to state:

(a) whether the guide map of the Sector 'D' Type II quarters, Mandir Marg, New Delhi has since been prepared and got installed in the colony; and

(b) if not, the time by which it is likely to be installed?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a). Not yet.

(b) Necessary instructions have been issued to provide guide map by the end of May, 1973.

Stepping up water supply in the Capital

7117. SHRI VARKEY GEORGE: Will the Minister of WORKS AND HOUSING be pleased to state:

(a) whether any measures have been taken by Government in stepping up water supply in the capital,

particularly in New Delhi and other areas; and

(b) if so, the main features thereof and the progress achieved in this regard?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a). Yes.

(b). The water supply was 175 MGD last year. By June, 1973, the supply is expected to be increased to 190 MGD and by the end of 1974 to 203 MGD including the supply from Okhla Water Works. The Supply is proposed to be augmented further by another 100 MGD by 1976. The details of the measures/works undertaken is given in the statement attached.

Statement

According to information received from the Delhi Water Supply & Sewage Disposal Undertaking of the M.C.D. the following measures have been taken to augment the water supply in the Capital:—

1. The following additional supply shall be available from the current year from the following works:—

(a) Wazirabad Water Plant—5 MGD (which can be overloaded to give additional 2.5 MGD).

(b) Water Supply from 3 Ranney Wells—7.5 MGD.

2. The works undertaken during the current year are:—

(i) Laying of 900 mm main from Wazirabad to Rajghat. 97 per cent of the work has been completed and the line is expected to be operational by the end of May, 1973. This line will carry 10 MGD of water and will help in the city area to certain extent.

(ii) Two Ranney Wells are under construction at Patpar Ganj. The work is expected to be completed by May, 1973.

These wells will make available supply of an additional 5 MGD of water to Kailash Reservoir for feeding South Delhi areas.

- (iii) A new pumping station has been installed at the Kailash Reservoir to increase the pressure. The 800 mm PSC main connecting the two Ranney Wells is being laid. About 80 per cent of the work has been completed.

- (iv) A 900 mm main from Barron Road upto Lodhi Hotel has been completed. With the Commissioning of this main it would be possible to supply about 1 MGD extra water to South Delhi.

3. Emergency arrangements have also been made to supply water through tankers and control rooms are in position in all the Zones.

4. Major Works for future augmentation are:—

- (1) 100 MGD Plant for North West Delhi: The Plans to set up 100 MGD Plant for North West Delhi have been finalised. Land has been acquired. Tenders of setting up the Plant have been called. The work of lining the West Jamuna Canal is being got done through Harayana Govt. who have already started the work.
- (2) Ram Lila Reservoir: This Reservoir has been completed. The pumps have to be installed for which tenders have been called for.
- (3) Rajouri Garden Reservoir: An underground reservoir and pump house are being constructed at Rajouri Garden. The work is nearing completion. The completion of mechanical and electrical work is expected to take one more year.

- (4) Construction of additional four Ranney Wells at Patparganj 4 Ranney Wells are proposed to be constructed near Patparganj. Shahdara. The work has been started on three wells. These wells are likely to be completed by summer 1974 and augment water supply by another 10 MGD.

C.G.H.S. Dispensary, Moti Nagar, New Delhi

7118. SHRI MUHAMMED SHERIFF:
SHRI M. S. SIVASWAMY:

Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state:

(a) whether large number of patients have to be attended to by the doctors in CGHS dispensary in Moti Nagar, New Delhi;

(b) whether the present building for the said dispensary is too small to accommodate such a large number of patients as well as the doctors and other staff; and

(c) if so, the steps taken by Government to shift the dispensary to some better place?

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (SHRI KONDAJJI BASAPPA): (a) The daily average attendance of patients in CGHS dispensary, Moti Nagar during the year 1972 was 415 including old and new cases. The number of medical officers posted to the dispensary is 4 including the Medical Officer Incharge. The number of doctors posted to the dispensary is, therefore, adequate.

(b) The CGHS dispensary, Moti Nagar is housed in a rented building. No complaints has however been received either from the beneficiaries or

from the staff posted in the dispensary regarding shortage of accommodation in the dispensary.

(c) Does not arise. Government is however trying to secure a plot of land for constructing its own building.

**Street Lights in Mandir Marg,
New Delhi**

7119. SHRI MUHAMMED SHERIFF:
SHRI M. S. SIVASWAMY:

Will the Minister of WORKS AND HOUSING be pleased to state:

(a) whether the work of the street lights being provided in Mandir Marg (Government quarters) New Delhi has since been completed;

(b) if not, the time by which it is likely to be completed;

(c) whether the street lights being provided in the Sector 'D' Type II and III quarters, are not well planned and uneconomical; and

(d) the steps being taken to rectify the same?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) No.

(b) By May, 1973.

(c) No. These have been planned according to the standing specifications and design of New Delhi Municipal Committee.

(d) Does not arise.

Take over of entire sugar production under Levy and its Buffer Stock

7120. SHRI P. NARASIMHA REDDY: Will the Minister of AGRICULTURE be pleased to state:

(a) whether the Government propose to take over the entire sugar production under levy to curb the high

open-market price and to make more of it available through controlled distribution; and

(b) if not, what other steps are contemplated to meet the situation keeping in view also the need for building up a buffer stock?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) There is at present no proposal to take over the entire sugar production under levy.

(b) A check on the rise in prices of free sale sugar, and the building up of buffer stock would be possible only by progressively increasing the sugar production. The present policy of partial control combined with incentives given by way of rebate in excise duty for excess production of sugar have already helped to augment sugar production during the current year by more than five lakh tonnes. In addition, efforts are also being made to accelerate the commissioning of newly licensed factories as far as possible and to foster sugarcane development, both quantity-wise and quality-wise.

Allocation to States under Emergency Food Production Programme

7121. SHRI P. NARASIMHA REDDY: Will the Minister of AGRICULTURE be pleased to state:

(a) the total allocation made, State-wise, for Emergency Food Production Programme; and

(b) the extent of their utilisation State-wise?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE): (a) and (b). Against the total amount of Rs. 152 crores administratively approved to State Governments for taking

up special minor irrigation schemes under the Emergency Agricultural Production Programme during the current year 1972-73, funds were released in instalments from time to time on the basis of the progress reported by them. On the basis of a recent review of the progress of utilisation of funds as well as physical achievements under the emergency programme, the last instalments were released to all States. The total amount thus released comes to a little

over Rs. 148 crores. State-wise details of the amounts administratively approved and released are given in the statement attached.

In addition, short-term loans amounting to Rs. 100 crores were also released to State Governments for purchase and distribution of agricultural inputs like seeds, fertilisers and pesticides. These loans are reported to have been utilised in full. State-wise details are given in the attached statement.

Statement

(Rs. in lakhs)			
Name of State	Loan approved	Amount released against (2)	Short-term loan released
1	2	3	4
1. Andhra Pradesh	986.500	840.000	1350.00
2. Assam	202.000*	202.000	250.00
3. Bihar	1772.782	1772.782	700.00
4. Gujarat	500.000	500.000	200.00
5. Haryana	1200.000	1200.000	10.00
6. Himachal Pradesh	50.00	32.500	35.00
7. Kerala	250.000	250.000	125.00
8. Madhya Pradesh	581.000	581.000	600.00
9. Maharashtra	2496.380	2496.380	1600.00
10. Manipur	57.700	38.275	40.00
11. Mysore	638.900	529.988	200.00
12. Nagaland	20.000	20.000	2.00
13. Orissa	660.000	660.000	200.00
14. Punjab	1472.000**	1472.000	Nil.
15. Rajasthan	390.700	389.200	400.00
16. Tamil Nadu	382.000†	299.000	350.00
17. Tripura	22.875	22.875	20.00
18. Uttar Pradesh	2075.000	2075.000	1550.00
19. West Bengal	1433.000	1433.000	600.00
Under normal Programme			1760.40
TOTAL	15190.837	14814.000	9992.40

For Arunachal Pradesh, an amount of Rs. 6.75 lakhs approved and the Ministry of Home Affairs asked to provide this amount in the Area Demand of Arunachal Pradesh.

For Mizoram, an amount of Rs. 2 lakhs approved and the Ministry of Home Affairs asked to provide this amount in the Area Demand of Mizoram.

*Includes Rs. 32.00 lakhs for purchase of tractors and threshers.

**Includes Rs. 197.00 lakhs as grant-in-aid for tubewells in border districts.

†Includes Rs. 20.00 lakhs for purchase of power sprayers.

Progress in work at National Highways No. 6 and 7

7122. SHRI J. G. KADAM: Will the Minister of SHIPPING AND TRANSPORT be pleased to state:

(a) what is the scheme for widening and asphaltting National Highways No. 6 and 7;

(b) the progress made up to January, 1973 in kilometers and time for completion of above works; and

(c) the amount spent upto January, 1973?

THE MINISTER OF STATE IN THE MINISTRY OF SHIPPING AND TRANSPORT (SHRI M. B. RANA): (a) A statement showing schemes for widening and asphaltting National Highways Nos. 6 and 7 is laid on the Table of the House. [Placed in Library. See No. LT-4802/73].

(b) The extent to which the works have been sanctioned has been indicated in the statement *vide* (a) above. The sanctioned works are in various stages of progress, some of which have also been completed already. The information regarding the physical progress in case of sanctioned works and the time for completion of the scheme is being obtained from the various States concerned.

(c) The information regarding the amounts spent upto January, 1973 is also being collected from the States concerned and will be laid on the table of the Sabha in due course.

Incidence of Filaria

7123. SHRI J. G. KADAM: Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state:

(a) what is the State-wise incidence of 'Filaria'; and

(b) the precautionary and preventive measures taken by Government

to check, control and eradicate 'Filaria'?

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (SHRI KONDAJJI BASAPPA): (a) Filaria is not a notifiable disease. The exact State-wise incidence of the disease is, therefore, not known. However, it is estimated that about 8 million persons in India are with disease manifestations while another 12 million are positive for various stages of infection.

(b) National Filaria Control Programme has been made a Centrally Sponsored Scheme during the 4th Five Year Plan. 100 per cent Central assistance is given to States for operational costs besides the free supply of material and equipment for anti-larvel operations. Detection and treatment of Filaria cases/carriers is also being undertaken in the Filaria endemic regions under 'Medical Care Programme'.

Short-term Training Courses are organised at the National Institute of Communicable Diseases to impart knowledge to Municipal Commissioners/Public Health Administrators about the genesis of mosquitoes, their role in transmitting the filarial infection and available methods to prevent/control of the disease.

Research is also being carried out by the National Institute of Communicable Diseases to find out new and more effective methods to control transmission of the disease. The stage has not yet been reached for devising methods for the eradication of the disease.

Report from Vice-Chancellor, B.H.U. about latest Incidents

7124. SHRI PRIYA RANJAN DAS MUNSI: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether the Minister has received any report from the Vice-

Chancellor of Banaras Hindu University about the latest incidents there;

(b) if not, whether the Ministry are aware of the fact that due to outside political interference the University is not able to run the academic activities; and

(c) the reaction of Government?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) to (c). Reports regarding disturbances/situation in the Banaras Hindu University are received from time to time from the Vice-Chancellor/Registrar of the University. The working of the University has been disturbed during the current academic session on account of agitations by students and outside elements. According to the University, all the important agitating student leaders are believed to be associated with Vidyarthi Parishad/R.S.S. and Samajwadi Yuvajan Sabha and leaders of some political parties have been helping them.

Government view with deep concern these disturbances in the campus of the University and condemn all acts of violence and vandalism.

Post of Member-Secretary of the Raja Rammohan Roy Library Foundation

7125. SHRI PRIYA RANJAN DAS MUNSI: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) the reasons why the post of the Member-Secretary of the Raja Rammohan Roy Library Foundation is still lying vacant since its inception in June, 1972;

(b) whether the inordinate delay in shifting the office of the Foundation to Calcutta caused difficulty in getting suitable hands on deputation

to run the day-to-day administration of the Foundation;

(c) position of persons selected through Calcutta Employment Exchange in class III and class IV posts for the office of the Foundation in July, 1972;

(d) the steps taken so far to fill up some important posts of officers for proper implementation of the policy of Government; and

(e) the reasons for delay in shifting the office of the Foundation to Calcutta when suitable accommodation have been arranged in National Library, Belvedere, Calcutta?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) Since the scheme is not yet in full operation, it is not considered necessary to fill the post of Member-Secretary at a considerable cost. For the time being an officer of the Ministry of Education and Social Welfare is looking after the day-to-day duties of the Member-Secretary without any additional remuneration.

(b) No, Sir. The posts created so far have been filled without any difficulty. Out of four posts so far filled, three are held by persons on deputation from other offices.

(c) Two class III and two class IV posts were created by the Foundation and the selections for these posts were made through the Calcutta Employment Exchange. However, appointments orders of the selected persons will be issued when the office of the Foundation moves to Calcutta.

(d) Only one post of Field Officer, created recently, is vacant and efforts are being made to fill it at an early date.

(e) The office of the Foundation has had to be temporarily located in Delhi as, in the initial stages of its

work, the Foundation has found it expedient to operate from here. It is, however, proposed to shift it to Calcutta in the very near future.

Dissatisfaction with the Working of F.C.I. by Mysore Government

7126. SHRI D. B. CHANDRA GOWDA: Will the Minister of AGRICULTURE be pleased to state:

(a) whether Government of Mysore have expressed its dissatisfaction with the working of the Food Corporation of India and has informed the Central Government that wholesale trade in wheat and rice would be entirely handled by the State Governments agencies; and

(b) if so, the reaction of Central Government thereon?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHAB P. SHINDE): (a) No, Sir.

(b) Does not arise.

Withdrawal from World Cup Football Competition

7127. SHRI D. B. CHANDRA GOWDA:
SHRI INDRAJIT GUPTA:

Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether India has withdrawn from the World Cup Football Competition which is to be played in Tehran from May 6 to 24, 1973, and after that in Munich in June-July 1973; and

(b) if so, the reasons thereof?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) Yes, Sir.

(b) The All India Council of Sports, in view of the poor standard of Foot-

ball in the country, did not recommend any financial assistance for India's participation in the F.I.F.A. World Cup Preliminary Round for Asian countries. This World Cup is open for professionals and India had no chance of qualifying even in the Asian Zonal Round. The All India Football Federation, however, was advised to participate at their own expense if they so wished. Apparently, the Federation withdrew from the Tournament primarily in view of the bleak chances of the success of the Indian Team and, possibly, for lack of finances.

नेताजी की प्रतिमा स्थापित करने के बारे में प्रधान मंत्री का सुझाव

7128. श्री शिवकुमार शास्त्री : क्या निर्माण और आवास मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या नेताजी की प्रस्तावित प्रतिमा स्थापित करने के बारे में प्रधान मंत्री ने कुछ सुझाव दिये हैं ; और

(ख) यदि हां, तो तत्सम्बन्धी तथ्य क्या हैं और इन सुझावों के अनुसार यह प्रतिमा कब तक बन जायेगी और स्थापित हो जायेगी ?

संसदीय कार्य विभाग तथा निर्माण और आवास मंत्रालय में राज्य मंत्री (श्री श्री मेहता) : (क) जी, हां ।

(ख) दिल्ली नगर निगम को कुछ मूर्तिकारों से प्राप्त हुए माडलों को निम्न स्तर का पाया गया । प्रधान मंत्री सचिवालय द्वारा उपराज्यपाल से यह अनुरोध किया गया है कि वह व्यक्तिगत रुचि लें और निगम को अच्छे डिजाइन के लिए और बड़े प्रचार द्वारा प्रतियोगिता का आयोजन करने में सहायता प्रदान करें । मूर्ति की स्थापना का समय मूर्तिकार के चयन होने के बाद ही केवल मालम हो सकता है ।

Change of Forests into Man-made Forests

7129. SHRI D. D. DESAI: Will the Minister of AGRICULTURE be pleased to state:

(a) whether the Government intends to change the forests increasingly into man-made forests; and

(b) if so, the main features of the plan?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) Yes, Sir. The Government intends to increase the extent of man-made forests in the country.

(b) Under successive Five Year Plans efforts have been made to increase the area of man-made forests through implementation of following schemes:

1. Plantation of Quick Growing Species.
2. Economic Plantations for Industrial and Commercial Uses.
3. Farm Forestry.

By the end of 4th Plan it is expected that an area of 162 million hectares would be brought under man-made forests. During the 5th Five Year Plan also, it is proposed to implement the programme of man-made forests through a number of schemes and for this purpose the possibility of obtaining institutional financing, as recommended by the National Commission on Agriculture, is being examined.

Supply of Rotten Milk Powder and Ghee under World Food Programme

7130. SHRI S. M. BANERJEE:
SHRI RAM KANWAR:

Will the Minister of AGRICULTURE be pleased to state:

(a) whether his attention has been drawn to the news-item in *Patriot*

dated 18th March, 1973 about supply of rotten milk powder and ghee received under the World Food Programme plan operation project No. 681 to the poor people;

(b) whether the consignment was so bad that it was giving an offensive odour and could not be utilised in milk processing by the Delhi Milk Scheme;

(c) whether these articles were sold among the illiterates with the permission of the Agriculture Ministry; and

(d) if so, whether any investigation has been made into this, and if so, persons responsible for such a crime?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) Yes.

(b) Out of 7,506 tonnes of s.m.p. and 2,708 tonnes of butter oil received by Delhi Milk Scheme under Project 618 since its inception in July, 1970 and upto 31st March, 1973, 9.46 tonnes of s.m.p. and 34.50 tonnes of butter oil were found unsuitable for recombination into liquid milk and were rejected. Out of the rejected commodities 22.40 tonnes of butter oil were found fit for human consumption and transferred to another W.F.P. Project. The balance of 9.46 tonnes of s.m.p. and 12.10 tonnes of butter oil have only been found unfit for human consumption.

(c) No milk powder or butter oil unfit for human consumption was allowed to be sold amongst the illiterates with the permission of the Ministry of Agriculture.

(d) Does not arise.

Employment to Qualified Blind

7131. SHRI S. M. BANERJEE: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) what further steps have been taken to provide employment to qualified blind men in the country;

(b) whether preference is not being given to them although they are qualified, in various educational institutions; and

(c) if so, the steps taken by Government?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) to (c). The information is being collected and will be laid on the table of the House after it is available.

Demand of Dallit Sudhar Association, Sheikh Sarai, Delhi

7132. SHRI S. M. BANERJEE: Will the Minister of WORKS AND HOUSING be pleased to state:

(a) whether the Dallit Sudhar Association, Sheikh Sarai, Delhi has demanded facilities from Central Government to the Scheduled Caste and Backward classes, at village Sheikh Sarai;

(b) if so, what facilities have been given either by Government or by D.D.A.;

(c) whether provision has been made to have a Community Hall and School in that area; and

(d) if not, the reasons for the same?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) Yes. Facilities have been demanded by the Association for all the residents of village Sheikh Sarai, including members of the Scheduled Caste and Backward classes.

(b) Water supply lines have been laid and one latrine block constructed. Work of laying sewers is in progress.

(c) Provision of land has been made for schools and other community facilities.

(d) Does not arise.

Memorandum from Indian Roads Congress

7133. SHRI M. KATHAMUTHU: Will the Minister of SHIPPING AND TRANSPORT be pleased to state:

(a) whether the Indian Roads Congress in a memorandum submitted to Government recently has suggested that at least half of the expected revenue of Rs. 6,300 crores from road transport in the Fifth Plan period should be allocated for road development; and

(b) if so, what is Government's reaction thereto?

THE MINISTER OF STATE IN THE MINISTRY OF SHIPPING AND TRANSPORT (SHRI M. B. RANA): (a) and (b). While submitting the said Memorandum, the Indian Roads Congress expressed their desire to send a delegation so as to explain their view point personally. The delegation accordingly met the Minister on 20th March, 1973. The Memorandum covered a number of issues including *inter alia* the need for larger allocations for Road Development in the Fifth Five-Year Plan with proper regard to the revenue from Road Transport. The views of the Indian Roads Congress delegation have been noted and the matter taken up with the Planning Commission who are ultimately concerned with all matters relating to Plan allocations.

Employment Potential through Road Building during Fifth Plan

7134. SHRI M. KATHAMUTHU: Will the Minister of SHIPPING AND TRANSPORT be pleased to state:

(a) whether road building has immense employment potential;

(b) if so, to what extent this employment potential is to be exploited during the Fifth Plan period; during the Fifth Plan period;

(c) whether any specific plan has been worked out for this purpose; and

(d) if so, the main features thereof?

THE MINISTER OF STATE IN THE MINISTRY OF SHIPPING AND TRANSPORT (SHRI M. B. RANA):
(a) Yes, Sir.

(b) and (c). The Fifth Five-Year Plan is still in the preparatory stage and as such it is not possible to indicate the employment potential likely to be generated by road building during that Plan. However, due note is being taken of the employment potential of roads in formulating proposals for road development in the 5th Plan;

(d) Does not arise.

Progress of Mechanisation of Road Building

7135. SHRI M. KATHAMUTHU: Will the Minister of SHIPPING AND TRANSPORT be pleased to state:

(a) whether mechanisation of road building in the country has been progressing at a very slow pace;

(b) if so, the reasons therefor; and

(c) the steps taken to accelerate the progress of mechanisation of road building?

THE MINISTER OF STATE IN THE MINISTRY OF SHIPPING AND TRANSPORT (SHRI M. B. RANA):
(a) and (b). Use of mechanisation in road building in the country has been gradually increasing, while maintaining an optimum balance between the requirements of construction specifications and speed of execution on the one hand and the need for keeping a high employment potential on the Highway schemes on the other. The process of mechanisation has, however, had to contend with

some constraints, earlier due to import of some items of equipment and spares and presently due to the limited indigenous production capacity, which is now gradually being stepped up by the Ministry of Industrial Development. The problem of inadequacies in mechanical organisation and repair facilities with the States who handle the equipment as executive agency even for Central works is also being faced and tackled.

(c) The first substantial use of machinery was made from 1961 onwards in certain projects financed from World Bank loans, emergency works, etc. The fleet of road-building equipment then built up is now proposed to be supplemented and a larger use of machinery is contemplated in the Fourth and Fifth Plan programmes to meet the improved and higher specifications mainly necessitated by heavier traffic and the need for completion of a much larger programme of road building envisaged in the Fourth and Fifth Plans. The Central Government is arranging purchase of important items of road building equipment at a cost of approximately Rs. 9.00 crores. In addition to providing this machinery to the States, who are the executing agencies, the Central Government is also providing repayable loans to the States for acquiring equipment for mechanisation of road building operations in Central sector. Eleven States have so far been granted loans totalling Rs. 7.65 crores. With the mechanisation growing up in the Central highway sector road building operations the State sector programmes could also be expected to gradually follow suit.

Schemes for Developing Inland Water Transport during Fifth Plan Period

7136. SHRI M. KATHAMUTHU: Will the Minister of SHIPPING AND TRANSPORT be pleased to state:

(a) whether the schemes for developing inland water transport dur-

ing the Fifth Plan period have been finalised;

(b) if so, the main features thereof; and

(c) the estimated cost of the schemes?

THE MINISTER OF STATE IN THE MINISTRY OF SHIPPING AND TRANSPORT (SHRI M. B. RANA):

(a) No, Sir.

(b) and (c). Do not arise.

बिहार में गर्भाधान के उत्पादन के लिये केन्द्रीय सहायता के लिये अनुरोध

7137. श्री रामावतार शास्त्री : क्या कृषि मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या चालू वर्ष में गर्भाधान के उत्पादन को बढ़ाने के लिये बिहार सरकार ने कोई योजना बनाई है ;

(ख) यदि हां, तो उसका व्यौरा क्या है;

(ग) क्या उक्त योजना के क्रियान्वित के लिये राज्य सरकार ने केन्द्रीय सरकार से कोई सहायता मांगी है; और

(घ) यदि हां, तो उसका स्वरूप क्या है और उस पर सरकार की क्या प्रतिक्रिया है ?

कृषि मंत्रालय में राज्य मंत्री (श्रीव अण्णासाहेब पी० शिन्दे) : (क) से (घ). बिहार सरकार से ऐसी कोई योजना प्राप्त नहीं हुई । बिहार सरकार ने राज्य में गर्भाधान के उत्पादन के कार्यक्रम के लिये कोई विशेष सहायता नहीं मांगी है । तथापि, चालू वर्ष के दौरान रबी और ग्रीष्मकालीन फसलों का उत्पादन बढ़ाने के लिये शुरू किये गये कार्यक्रम के अन्तर्गत राज्य सरकार को विशेष लघु सिंचाई कार्यक्रम शुरू करने के लिये कुल 17.73 करोड़ रुपये का एक दीर्घकालीन ऋण दिया गया है । इसके अलावा राज्य सरकार को बीज, उर्वरक और कीटनाशी दवाओं जैसे कृषि आदानों की खरीद और वितरण के लिये भी 7 करोड़ रुपये का अल्पकालीन ऋण सहायता के रूप में निर्मुक्त किया

गया है । राज्य सरकार ने ग्रीष्मकालीन चावल के लिये 24 लाख हेक्टर का लक्ष्य स्वीकार किया है ।

बिहार में पांचवीं योजना में सड़कों के विकास के लिये सहायता

7138. श्री रामावतार शास्त्री : क्या नौवहन और परिवहन मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या बिहार सरकार ने पांचवी पांचवर्षीय योजना के दौरान राज्य में सड़कों के विकास के लिए कोई योजना बनाई है ; और

(ख) क्या योजना की क्रियान्वित के लिये राज्य सरकार ने उनसे सहायता मांगी है और यदि हां, तो इस पर सरकार की क्या प्रतिक्रिया है ?

नौवहन और परिवहन मंत्रालय में राज्य मंत्री (श्री एम० बी० राना) : (क) और (ख). बिहार सरकार ने पांचवीं योजना के दौरान राज्य में सड़क विकास के लिए केन्द्रीय वित्तीय सहायतायें भारत सरकार को ऐसी कोई सामान्य योजना प्रस्तुत नहीं की है । परन्तु उन्होंने अन्तराज्यीय अथवा आर्थिक महत्व की राज्य सड़कों के केन्द्रीय सहायता कार्यक्रम के अन्तर्गत पांचवीं योजना में वित्तीय सहायता के लिए कुल मिलाकर 4.06 करोड़ रुपये की लागत के कुछ सड़क व पुल कार्यों के कुछ प्रस्ताव प्रस्तुत किये हैं । राज्य सरकार का यह आवेदन, अन्य राज्यों से प्राप्त ऐसे प्रस्तावों के साथ विचारार्थ नोट कर लिया गया है । परन्तु इन प्रस्तावों के सम्बन्ध में अन्तिम रूप से विचार उस समय किया जायेगा जब कि इस योजना के लिए निर्धारित योजना नियतन पर निर्भर करते हुए पांचवीं योजना के प्रस्तावों को अन्तिम रूप दिया जायेगा ।

**झुग्गी-झोंपड़ी निवासियों के विभिन्न
कैम्पों में नागरिक सुविधाओं की
व्यवस्था**

7139. श्री रामावतार शास्त्री : क्या
निर्माण और आवास मंत्री यह बताने की
कृपा करेंगे कि :

(क) क्या दिल्ली में झुग्गी झोंपड़ी
निवासियों के नेहरू लेबर कैम्प, इन्दिरा
लेबर कैम्प, शास्त्री लेबर कैम्प और सुभाष
लेबर कैम्प हैं ;

(ख) यदि हां, तो इन में से प्रत्येक
कैम्प में रहने वाले निवासियों की संख्या
कितनी है ;

(ग) क्या वहां पर नागरिक सुविधाएँ
बिल्कुल नहीं हैं ;

(घ) क्या उनको पेय जल का पर्याप्त
सुविधाएं नहीं दी गई हैं ; और

(ङ) उनको पेय जल तथा अन्य नागरिक
सुविधाएं उपलब्ध कराने के लिए सरकार का
विचार क्या कार्यवाही करने का है ?

**संसदीय कार्य विभाग तथा निर्माण और
आवास मंत्रालय में राज्य मंत्री (श्री ओम
मेहता) :** (क) जी, हां ।

(ख) इन कैम्पों में रह रहे परिवारों
की लगभग संख्या निम्नलिखित है :—

(i) नेहरू कैम्प 550 परिवार

(ii) इन्दिरा कैम्प 1500 ,,

(iii) शास्त्री कैम्प 900 परिवार

(iv) सुभाष कैम्प 325 ,,

(ग) से (ङ). दिल्ली नगर निगम इन
कैम्पों में न्यूनतम नागरिक सुविधाएं उपलब्ध
कर रहा है । नेहरू तथा इन्दिरा कैम्पों में
खड़कों तथा नालियों की व्यवस्था की गई है
जबकि शास्त्री कैम्प में ईंटों के फर्शों, नालियों
तथा बिजली के खम्भों की व्यवस्था की
गई है ।

Modern Technology for Small Farmers

7140. SHRI PRABHUDAS PATEL:
SHRI RAMSHEKHAR
PRASAD SINGH:

Will the Minister of AGRICULTURE
be pleased to state:

(a) whether National Symposium on
Agriculture Research and Develop-
ment has suggested adaptation of
modern technology to suit the small
farmers; and

(b) if so, whether the delegates have
stated that structural changes of ex-
tension agencies and creation of new
infrastructure should be taken without
delay?

THE MINISTER OF STATE IN
THE MINISTRY OF AGRICULTURE
(SHRI ANNASAHEB P. SHINDE):
(a) Yes, Sir.

National Symposium on Agricultural
Research and Development since Inde-
pendence which was held at Vigyan
Bhavan, New Delhi from 4th to 12th
March, 1973, has suggested adoption
of modern technology to suit the small
farmers.

(b) In order that benefit of the new technology should accrue to the small farmers the delegates suggested the following two strategies:—

- (i) For the technologies where smallness of holdings becomes a major hindrance, the co-operative endeavour of bringing together of the small holdings in a unit area for the operation of a particular technology was suggested.
- (ii) For pest control it would be useful that the pesticide appliances are jointly owned by the small farmers and the operation of application was taken up for a minimum area so that it becomes an economic operation.

It was also suggested that the management technology for small farmers will not assume uniform pattern. Local variations in ecology and socio-economic conditions will have to be taken into consideration for evolving the details of the working pattern. Emphasis should be laid on measures to increase the income of small farmers.

New class of Agricultural Graduates will have to be created, who would be ready to demonstrate to farmers the benefits of new technology by working with them. Suitable agencies for custom service for agricultural inputs will have to be created, organised and managed. Cooperative endeavours for particular types of technology which are hindered by the smallness of holdings will be encouraged. Proper steps will have to be taken to see that the benefits which should accrue to small farmers are not taken by big farmers by camouflaging themselves as small farmers.

Loan to Gujarat for Emergency Food Production Plan

7141. SHRI PRABHUDAS PATEL: Will the Minister of AGRICULTURE be pleased to state:

(a) whether Union Government has sanctioned a loan of Rs. 5 crores to the State of Gujarat under the emergency food production;

(b) if so, in what way the State has utilised the loan; and

(c) whether any other sought of assistance has been given to the State for improvement of Agricultural production?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE): (a) and (b). Under the Emergency Agricultural Production Programme, a long-term loan assistance of Rs. 5 crores was administratively approved to the Government of Gujarat for taking up quick-maturing minor irrigation schemes. The State Government have utilised this assistance for implementing the following schemes.—

Scheme	Amount utilised (Rs. in crores)
1. Extension of Ukai canals	1.5
2. Lift irrigation	1.0
3. Deepening of existing wells and construction of new kutchha wells	2.5
TOTAL	5.0

(c) The Government of Gujarat have been given in connection with implementation of various Centrally Sponsored Schemes for agricultural production a total amount of Rs. 145.65 lakhs as grant-in-aid and Rs. 2 lakhs as loan so far (upto 1972-73) during the Fourth Five-Year Plan. A break-up of this amount scheme-wise is given in the statement attached.

STATEMENT

(In Rupees)

Name of the Scheme/ Crop	1969-70	1970-71	1971-72	1972-73	Total
1. Maximised Production of cotton including nucleus foundation seeds	12,17,135	11,21,000	9,23,000	9,00,000	41,61,135
2. Intensive Cotton District Programme			7,94,000	18,00,000	25,94,000
3. Production of Hybrid-4 Cotton Seeds			..	2,00,000	2,00,000
4. Maximised production of Groundnut including Rape-seeds and Mustard, Castor Demonstration, Soyabean Demonstration, Soyabean Dev. and Sunflower Demonstration	6,59,540	5,98,000	17,92,00	8,28,000	38,77,540
5. Development of V. F. C. Tobacco	1,36,857	2,67,354	2,00,000	2,61,500	8,65,711

9. Integrated Dry Land Agricultural *Development		1,35,000	5,80,000	14,46,000	21,61,000
10. Development of Pulses					
TOTAL					145,64,604
					145.65 lakhs

*Loan of Rs. 2 lakhs given to Gujarat during 1971-72.

Projects for Cross-breeding of Cattle with Imported Frozen Semen

7142. SHRI G. Y. KRISHNAN: Will the Minister of AGRICULTURE be pleased to state:

(a) whether there is any proposal under the consideration of Government to set up Central Projects for intensifying cross-breeding of cattle with imported frozen semen; and

(b) if so, the broad outlines regarding the Centres' locations and when these Centres are likely to be set up?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) Yes, Sir.

(b) A scheme has been sanctioned for production of high yielding cross-breed milch cattle in selected milk shed and Intensive Cattle Development Project areas by cross-breeding with the use of imported frozen semen from superior breeds like Jersey and Holstein etc. The project has been sanctioned for Karnal, Amritsar, Indore, Bangalore and Lucknow.

Facilities will be developed at these Centres initially to store the imported

frozen semen and undertake breeding in selected pockets of the projects. Negotiations are under way with the Food and Agriculture Organisation of the United Nations and the Government of Denmark for procurement of frozen semen and equipment to store and handle frozen semen in these Centres. The details of the projects are being worked out in consultation with the FAO and the Government of Denmark.

States decided to take over Trade in Sugar

7143. SHRI YAMUNA PRASAD MANDAL: Will the Minister of AGRICULTURE be pleased to state the names of States who have decided to take over sugar trade in the State?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): From the 1st January 1973, the wholesale distribution of levy sugar all over the country has been entrusted to the Food Corporation of India and other public agencies, such as the co-operatives, etc. In the State of Maharashtra, Punjab, Tamil Nadu, Gujarat, Jammu & Kashmir, Himachal Pradesh, Nagaland, Manipur, Goa, Pondicherry, Dadra-Nagar Haveli and Tripura, the wholesale distribution work is being, or will shortly be, carried out by co-operatives, civil supplies corporations, etc. of the respective State Governments instead of the Food Corporation.

Allegation against D.D.A.'s operations for demolishing houses within Lal Dora

7144. SHRI YAMUNA PRASAD MANDAL: Will the Minister of WORKS AND HOUSING be pleased to state:

(a) whether Government's attention has been drawn to the allegation against D.D.A.'s operations for demolishing houses within 'Lal Dora' in the Mehrauli area; and

(b) if so, the reaction of Government thereon?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) No houses within the 'Lal Dora' of Mehrauli revenue estate have been demolished by the Delhi Development Authority.

(b) Does not arise.

Standard of Indian Football

7145. SHRIMATI BHARGAVI THANKAPPAN: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether the standard of Indian football continues to remain far behind the international standard;

(b) if so, the reasons therefor;

(c) whether any concerted effort is being made to improve the standard of Indian football; and

(d) if so, the facts thereof?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) to (d). India's unsatisfactory position in the Merdeka Tournament, where they participated in 1971, as well as their position in the Asian Youth Football Tournament, indicates that they are behind the international standard.

The All India Football Federation, a Private Voluntary Organisation, has been primarily responsible for the development of football in the country. They were asked to look into the causes of India's failure in Merdeka Tournament. The Committee of inquiry, set up by them, generally held that inadequate training due to lack of cooperation from local clubs to release their players in time for such training has been the main cause of such failure.

The Government of India is also of the view that enough talents are not available for proper selection as the All India Football Federation has not initiated any scheme for spotting of football talent right from the grass root level.

The All India Council of Sports is seized of the matter. Arrangements, in consultation with the All India Football Federation, are being made for special coaching of the teams for participation in international tournaments. The All India Football Federation has also been asked to allow inter-University teams to participate in national meets in order to enable young university football players to gather experience for ultimate inclusion in the national teams competing in international tournaments.

Besides the above, Government of India are also providing grants to State Sports Councils for holding coaching camps and creation of physical facilities. Services of trained coaches have also been made available to universities and State Sports Councils. Football has also been included in the All India Rural Sports Competition in order to spot Football talent from the grass root level.

Award is also made of sports talent scholarships at school and college level in respect of football as well.

Delegation of Indian Roads Congress

7146. SHRIMATI BHARGAVI
THANKAPPAN;

SHRI JHARKHANDE RAI:

Will the Minister of SHIPPING AND TRANSPORT be pleased to state:

(a) whether a delegation of the Indian Roads Congress had met him recently and submitted a memorandum on the development of roads and road transport in the country;

(b) if so, what are the main demands made in the memorandum; and

(c) what are Government's decisions thereon?

THE MINISTER OF STATE IN THE
MINISTRY OF SHIPPING AND
TRANSPORT (SHRI M. B. RANA):

(a) Yes, Sir.

(b) The Memorandum covered the following two major issues:

(1) need for more funds for roads in the Fifth Five-Year Plan; and

(2) impediments to road transport development.

(c) The views of the Indian Roads Congress delegation have been noted and the matter taken up with the Planning Commission who are concerned with all matters relating to Plan allocations, etc.

Health facilities for Harijans and Tribals during Fifth Plan

7147. SHRIMATI BHARGAVI
THANKAPPAN: Will the Minister of
HEALTH AND FAMILY PLANNING
be pleased to state:

(a) whether Government have got any proposal to further improve the health facilities of Harijans and Tribals during the next Fifth Five-Year Plan; and

(b) if so, the broad outlines thereof?

THE DEPUTY MINISTER IN THE
MINISTRY OF HEALTH AND FAMILY
PLANNING (SHRI KONDAJJI
BASAPPA): (a) and (b). The Govern-
ment's aim is to establish by the end
of the Fourth Five-Year Plan, a Pri-
mary Health Centre with sub-centres
in each of the community development
blocks in the country including those
which are inhabited by Tribals, Hari-
jans and Backward Classes. There
are at present 5224 Community De-
velopment Blocks, out of which 457
are located in tribal areas. 298 Pri-
mary Health Centres and 854 sub-
centres are functioning in these Tribal

Development Blocks. There are still 159 Tribal Development Blocks where Primary Health Centres are yet to be established. The State Governments have been requested to open Primary Health Centres in these tribal blocks on a priority basis so that before the end of Fourth Five-Year Plan, all the Blocks are provided with Primary Health Centres and sub-centres. In addition, a proposal is under consideration to upgrade about 200 selected Primary Health Centres to 30 bedded rural hospitals in 1973-74 as an advance action to the upgrading of about 1,500 Primary Health Centres, during the Fifth Five-Year Plan.

One of the criteria to identify the Primary Health Centres for upgradation is that the Primary Health Centres should preferably be situated in tribal/backward areas. The actual selection of the Primary Health Centres is to be made by the State Health authorities according to the prescribed criteria.

Boycott of meetings by non-official members of Cochin Port Trust against delay in implementing ports' oil dock project

7148. SHRI C. JANARDHANAN: Will the Minister of SHIPPING AND TRANSPORT be pleased to state:

(a) whether the non-official members of the Cochin Port Trust Board have decided to boycott its future meetings in protest against the delay in implementing the ports' oil dock project;

(b) if so, what is Government's reaction thereto; and

(c) whether any steps are being taken to ensure expeditious implementation of the oil dock project?

THE MINISTER OF SHIPPING AND TRANSPORT (SHRI RAJ BAHADUR): (a) and (b). No such resolution protesting against the delay has

been passed. The Members had however sought an interview with the Minister of Shipping and Transport. This interview has been fixed for the 17th April 1973.

(c) The question of location of the Oil Dock at Cochin is being examined in all its aspects and steps are being taken to expedite a decision.

Bonus to D.D.A. Employees

7149. SHRI NARENDRA SINGH BISHT: Will the Minister of WORKS AND HOUSING be pleased to state:

(a) whether bonus is paid to all the employees of D.D.A. from top to bottom, and if so, the provisions under which it is being paid and the amount thus paid, category-wise, during last three years along with the percentage of bonus paid;

(b) whether percentage of bonus paid to D.D.A. employees has been increasing year by year; and

(c) if so, reasons therefor?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) Yes, Sir. The payment is made to all regular and workcharged employees of the D.D.A. (including deputationists who are drawing pay in the sanctioned time scales of pay) under the provisions of the Payment of Bonus Act, 1965 and various instructions bearing on the subject.

The rate and amount of bonus paid during the last three years are:—

Year	Rate	Amount in lakhs of rupees	
		Per cent	
1969-70 . . .	19	15.66	
1970-71 . . .	8	7.06	
1971-72 . . .	12	12.18	

The bonus is not booked category-wise. The percentage is uniformly applicable in all the cases subject to the condition that maximum pay for bonus is taken as Rs. 1600 per month.

(b) No, Sir. The rate has varied from 4 per cent to 19 per cent.

(c) Does not arise.

Registration for flats and plots for middle income group

7150. SHRI NARENDRA SINGH BISHT: Will the Minister of WORKS AND HOUSING be pleased to state:

(a) whether persons residing outside the Union Territory of Delhi were allowed to get their names registered with D.D.A. for plots or flats and if so, the reasons therefor;

(b) whether in view of the housing problems before the residents of Delhi it is proposed to cancel the registration of persons who are not residents of Delhi territory and if not, the reasons therefor; and

(c) whether it is proposed to open registration for flats and plots for the middle income group in the near future if so, when and if not, the reasons therefor?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) Yes, Sir. They were allowed to get themselves registered for allotment of flats as it was felt that debarring them would amount to discrimination.

(b) There is no proposal to cancel these registrations.

(c) The next registration for allotment of flats will be opened after the demand of persons registered under the earlier registration schemes has been substantially met.

Training centres for small farmers

7151. SHRI S. N. MISRA:
SHRI BIRENDER SINGH
RAO:

Will the Minister of AGRICULTURE be pleased to state:

(a) whether there is any proposal under consideration of Government to open more training centres in the country with a view to extend help and cooperation to small farmers in various fields;

(b) if so, the main features of the proposal;

(c) the number of such training centres alongwith their locations for which Government has so far accorded or propose to give its sanction during the next one year; and

(d) the financial implications thereof?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE):

(a) Under the Centrally Sponsored Scheme of Farmers Training and Education, 100 Farmers Training Centres have been established in the selected high-yielding variety Districts throughout the country. These centres are providing training to all categories of farmers, including small ones, in the latest agricultural technology. It is proposed to set-up additional 100 centres during the 5th Five Year Plan.

(b) The salient features of the scheme are to provide training through institutional and non-institutional courses in various subject-matter areas and to demonstrate latest technology of farming through National and other Demonstrations. Besides, Farmers

Discussion Groups have been formed which serve as a continuing extension vehicle through which farmers keep in touch with the latest findings and developments relating to agriculture.

(c) The State-wise Statement of centres already operating is laid on the Table of the House. [*Placed in Library. See No. LT-4803/73*]. The allocation of future 100 Centres will be done as soon as the 5th Plan proposals are finalised

(d) The approved scheme of Farmers Training and Education provides for each centre a recurring expenditure of Rs. 1.19 lakh per annum and non-recurring expenditure Rs. 77,000 for the entire period of the Scheme.

Collective farming

7152. SHRI S. N. MISRA:
SHRI BIRENDER SINGH RAO:

Will the Minister of AGRICULTURE be pleased to state:

(a) the names of States which have introduced collective farming;

(b) the names of States who are likely to introduce collective farming during the next one year; and

(c) whether those State Governments have consulted or obtained permission from the Central Government in this regard and if not, the reaction of the Central Government thereto?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHAB P. SHINDE):
(a) to (c). The information is being collected from the various State Governments and will be placed on the Table of the Sabha.

Institutions for disabled

7153. SHRI S. N. MISRA: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) the number of institutions working for the disabled in the country, State-wise separately; and

(b) how many of such institutions receive aid from the Centre and the name of the institutions which received the largest amount of aid last year?

THE MINISTER IN THE MINISTRY OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) A statement giving the available information is attached.

(b) The number of institutions which received assistance from the Department of Social Welfare during 1972-73 was 65; the two institutions which were given the largest amounts of assistance were the Occupational Therapy Sheltered Workshop of the Jawaharlal Nehru Institute of Physical Medicine and Rehabilitation, New Delhi and the Ramakrishna Mission Ashram at Narendrapur, West Bengal.

STATEMENT

Drought in U.P. and Central Aid

7154. SHRI S. N. MISRA: Will the Minister of AGRICULTURE be pleased to state:

(a) whether several districts of Uttar Pradesh have been affected by drought recently;

(b) if so, the extent to which food production was affected in each district of that State; and

(c) whether the State Government of U.P. have sought the Central aid to tide over the situation created by the drought and the Central aid actually provided for the purpose?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHAB P. SHINDE):

(a) Although several districts were reported to have been affected by drought, the State Government has stated that the position has improved.

(b) Precise figures of loss of food production are not yet available. However, the State Government has reported that according to tentative estimates, the kharif production this year is likely to be better than that of last year.

(c) Yes, Sir. A statement is attached.

Central Assistance to the Government of Uttar Pradesh

1. On the basis of the recommendations made by the Central Study Team which visited the State in August, 1972 a ceiling of expenditure of Rs. 8.10 crores has been adopted for relief measures and an amount of Rs. 5.65 crores has been released to the State Government so far for relief measures. Another Central Study Team is being constituted for reassessment of the situation.

2. Under the Emergency Agricultural Production Programme an amount of Rs. 20.750 crores has been released to the State Government for special minor irrigation programme. Besides, an amount of Rs. 15.50 crores has also been released as short term loan for agricultural inputs.

3. Reasonable quantities of food-grains have been made available to the State Government.

Promotion of diploma holder and degree holder S.Os. in C.P.W.D.

7155. SHRI BAKSI NAYAK: Will the Minister of WORKS AND HOUSING be pleased to state:

(a) what is the existing procedure guiding promotion of diploma holder and degree holder Section Officers of the Central Public Works Department;

(b) whether any change in this procedure is contemplated and if so, reasons thereof;

(c) whether Government of India has received any memorandum in this regard from the employees concerned and some Members of Parliament; and

(d) reaction of Government thereof?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) Appointments against temporary vacancies in the grade of Assistant Engineer had hitherto been made 50 per cent on the basis of a competitive examination conducted by the UPSC and of the remaining 50 per cent, 25 per cent by promotion of Graduate Junior Engineers (Section Officers) and 25 per cent by promotion of non-Graduate Junior Engineers. In the Writ Petition filed by a few other Assistant Engineers, the Delhi High Court has held that the quotas for appointment to the grade of Assistant Engineer have not been properly determined. In view of this, promotions had to be made on the basis of a common seniority list of Graduate and non-Graduate Junior Engineers through the Departmental Promotion Committee.

(b) Yes, Sir. A change in this procedure is considered necessary as a number of posts in the C.P.W.D. can effectively be manned by Graduate Engineers only, and promotions made on the basis of a common seniority list may not ensure the required number of Graduate Junior Engineers in the zone of promotion.

(c) and (d). Yes, Sir. The views expressed by the Graduate as well as non-Graduate Junior Engineers (Section Officers) Association as well as some of the Members of Parliament will be kept in view while laying down a new policy in the matter of promotion of Junior Engineers to the grade of Assistant Engineer.

U.N.D. programme for crop research scheme

7156. SHRI BHOGENDRA JHA: Will the Minister of AGRICULTURE be pleased to state:

(a) whether the United Nation Development Programme has approved a programme for assisting India in her crop research schemes; and

(b) if so, the broad outlines thereof?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHIB P. SHINDE):
(a) No, please.

(b) The question does not arise.

**केन्द्रीय राज्य कृषि फार्म कर्मचारी संघ,
सूरतगढ़, राजस्थान की मांगें**

7157. श्री भोगेन्द्र झा :

श्री बसन्त साठे :

क्या कृषि मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या "केन्द्रीय राज्य कृषि फार्म कर्मचारी संघ, सूरतगढ़, राजस्थान" द्वारा परिवारित एक पत्र में दी गई मांगों की ओर सरकार का ध्यान दिलाया गया है ;

(ख) यदि हां, तो उन मांगों पर क्या कार्यवाही की जा रही है ;

(ग) क्या वरिष्ठ कृषि असिस्टेंट का एक आरक्षित पद एक ऐसे व्यक्ति को दे दिया गया है जिसका उस समुदाय से सम्बन्ध नहीं है जिसके लिए यह पद आरक्षित किया गया है ; और

(घ) यदि नहीं, तो इस बारे में सही स्थिति क्या है ?

**कृषि मंत्रालय में राज्य मंत्री (श्री अण्णा-
साहेब पी. शिन्दे) :** (क) श्री (ख).

28 फरवरी, 1973 को हिन्दा में छात्र एक पत्रक प्राप्त हुआ है, जिसमें 23 मांगें दी गई हैं। इस पर महामंत्री, केन्द्रीय राज्य कृषि कर्मचारी संघ, सूरतगढ़ का प्रवरण पत्र लगा हुआ था। उन को मांगों पर विचार किया जा रहा है।

(ग) और (घ). वरिष्ठ कृषि सहायक का पद आरक्षित पद 20-1-1969 को पहले से काम कर रहे एक अनिष्ठ कृषि सहायक को तदर्थ आधार पर पदोन्नत करके भरा गया था, न कि आरक्षित समुदाय के किसी कर्मचारी द्वारा।

Free House-sites for Agricultural Labourers during Fifth Five Year Plan

7158. SHRI BHOGENDRA JHA: Will the Minister of WORKS AND HOUSING be pleased to state:

(a) whether there is any proposal to ensure free house-sites and houses to all the landless peasants and agricultural labourers in the rural areas by the end of the Fifth Five Year Plan; and

(b) if so, the main features thereof?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) and (b). No, Sir. A scheme to this effect has however been introduced but considering the constraint on resources and the large size of the problem, it cannot cover all the landless workers in the rural areas by the end of the Fifth Five Year Plan.

Extraction of Sugar from Beet in Pant Nagar Agriculture University

7159. SHRI NAWAL KISHORE SHARMA: Will the Minister of AGRICULTURE be pleased to state:

(a) whether Pant Nagar Agriculture University in Uttar Pradesh has found that extraction of sugar from beet is more economical; and

(b) if so, the reaction of the Government thereto?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE):
(a) Yes.

(b) Preliminary results have indicated that sugarbeet can only supplement sugarcane in increasing sugar production in the sub-tropical regions of India and not supplant it. In view of the above, a Centrally sponsored scheme for fostering sugarbeet production is being implemented by the Union Department of Agriculture in the Sriganganagar area in Rajasthan and Phaltan area in Maharashtra at a cost of Rs. 4.5 lakhs during the Fourth Plan. It is proposed to strengthen this development project during the Fifth Plan.

Protection and Improvement of Cow Progeny

7160. SHRI BIRENDER SINGH RAO: Will the Minister of AGRICULTURE be pleased to state:

(a) whether any efforts have been made by the Central Government to protect and increase the cow progeny and for improvement in their breed;

(b) the number of Centres established in the country by Government during the last three years or by the State Governments with the assistance of the Central Government for the improvement of their breed; and

(c) the progress made in the said Centres during the last three years and amount spent in each year?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) and (b). In this connection, the Government have undertaken the following Central Sector and Centrally Sponsored Schemes:—

1. Central Intensive Cattle Dev. Project 4

2. Herd Registration Schemes in breeding tracts. (There are 84 Centres under this scheme)

3. Progeny Testing Project 9

4. Three foreign aided Central Breeding Projects i.e.

(i) Indo-Swiss Project in Kerala and Punjab;

(ii) Indo-Danish Project at Hessarghatta (Bangalore)

(iii) Under an Indo-German Agreement at Mandi (H.P.) and Almora (U.P.)

5. Frozen Semen Banks 5

(c) Under the Central I.C.D.P. Schemes, nearly 4.8 lakhs cows/she-buffaloes of breedable age have been covered by artificial insemination natural services and under improved feeding and disease control programme. It is estimated that as a result, about 0.25 lakhs cross-breed progenies are now available in these areas.

Under the Herd Registration Scheme, 1653 high-yielding cows and buffaloes of Haryana, Gir, Murrah and Kankarej breeds were registered upto 1971-72.

Four Central Cattle Breeding Farms have been set up at Suratgarh,

Chiplima, Dhamrod and Hessarghatta. Two more farms are being set up at Koraput (Orissa) and Almadhi (Tamil Nadu). One more farm will be set up under this scheme.

Under the Progeny Testing Projects, observation and record of the matings performed by 5 to 6 bulls with 30 cows each, in each of these 9 projects have been started.

Under the foreign-aided projects, nearly 900 exotic cattle of Brown-Swiss, Red-Dane and Jersey breeds have been imported and are being maintained for production and dis-

tribution of semen for artificial insemination.

Under the Frozen Semen Bank Scheme, 5 Frozen Semen Banks have been sanctioned for various parts of the country.

The Government have also imported 2290 exotic cattle of different breeds for cross-breeding etc. under the schemes referred to above.

The amount spent by Government of India during the last 3 years on the Central Projects is given in the enclosed Statement.

STATEMENT

S. No.	Central Projects	(Rs. in lakhs)		
		1970-71	1971-72	1972-73 (Provisional)
		Rs.	Rs.	Rs.
1.	Central Sector Intensive Cattle Development Projects	66.76	50.58	53.00
2.	Central Herd Registration Schemes	1.36	1.48	1.82
3.	Progeny Testing Scheme	Not Sanctioned	7.00	30.00
4.	Frozen Semen Bank	0.76	2.60	0.97
5.	Central Cattle Breeding Farms	45.92	39.25	11.50
6.	Import of Exotic Cattle	4.955	1.81	55.11

Socio-economic Study on Family Planning

7161. SHRI BIRENDER SINGH
RAO:

SHRI BHAGIRATH
BHANWAR:

Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state:

(a) the decisions arrived at the meeting of the Committee for the Socio-Economic Studies on family planning held in New Delhi on 20th March, 1973; and

(b) the reaction of the Government of India thereto and the recommendations of the Committee?

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (SHRI KONDAJI BASAPPA): (a) The main recommendations of the Committee on Socio-Economic Studies on Family Planning made at its first meeting held on 20th March, 1973 are given in the statement attached.

(b) These are under consideration.

STATEMENT

MAIN RECOMMENDATIONS OF THE COMMITTEE ON SOCIO-ECONOMIC STUDIES ON FAMILY PLANNING MADE AT ITS FIRST MEETING HELD IN NEW DELHI ON MARCH 20, 1973

1. The Committee discussed the document entitled "Demographic and Communication Research in India" prepared by the Demographic Communication Action Research Cell of the National Institute of Family Planning. It was decided that a more detailed document should be prepared after the next meeting of the Committee. The revised document should have a review of all the research work done so far, subjectwise and topicwise and programme implications may also be drawn.

2. All Centres may be sanctioned financial grants for 1973-74 on the pattern of 1972-73 budget sanctions: staffing pattern and other expenditure as approved by the Department of Family Planning. For the time being a provision of Rs. 18 lakhs may be taken for sanction purposes but a larger amount could be required for carrying out the programme envisaged by the Committee.

3. About Rs. one lakh should be made available for *ad-hoc* research relating to fertility behaviour and the position should be reviewed at the next meeting. No *ad-hoc* research project should be sanctioned a grant of more than Rs. 25,000. The Committee has recommended that the Chairman may be authorised to sanction grants for such projects.

4. With regard to upgrading of Demographic Research Centre, Dharwar and Demographic Research Centre, Baroda, the Chairman was authorised to visit these centres and make recommendations for the Committee's consideration. Similar decision was taken in respect of the note submitted by Demographic Research Centre, Institute of Economic Growth, Delhi.

5. Keeping in view the heavy responsibilities entrusted to the Chairman, the Committee strongly recommended that the Chairman should be provided with one Research Officer and one Stenographer who should be posted at Bangalore.

6. The doctoral fellowships should be for a minimum period of two years which may be extended by another year in suitable cases.

7. Two sub-committees—one for recommending staffing pattern and pay scales for the Communication Action Research Centres and to review their activities and the other for screening the *ad-hoc* research proposals and making recommendations for release of grants-in-aid were appointed.

8. A meeting of key workers of Demographic Research Centres and Communication Action Research Centres of 2-3 days' duration should be held at Bangalore in the month of August|September, 1973. Annual meeting of the representatives of these centres should be held at Bangalore one day after the key workers' meeting.

9. No Demographic Research Centre|Communication Action Research Centre should hold any seminar till September, 1973.

Rules for a Scheme for Setting up of New Hospitals

7162. SHRI C. K. JAFFER SHARIFF: Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state:

(a) whether Government have finalised the rules for a new scheme under which the cost of new hospitals set up by any charitable organisation will be shared equally by the voluntary body, the concerned State and the Central Government; and

(b) if so, the broad outlines thereof and the number of such hospitals, State-wise?

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (SHRI KONDAJI BASAPPA): (a) and (b). It is proposed to provide financial assistance, as an incentive, to voluntary institutions of all-India character or of State level importance for setting up hospitals/dispensaries in the rural areas. The non-recurring expenditure on establishment of hospitals/dispensaries will be shared on a matching basis by the voluntary body, the State Government concerned and the Centre; the recurring expenditure will be borne by the voluntary institution, or by the State Government in case the voluntary body is unable to meet the same. A certain percentage of beds will be reserved as free and charges for a certain proportion of beds will be at concessional rates. The details as also the rules governing the Scheme are awaiting finalisation.

Target of Area of Wheat and Boro Paddy under Rabi Crop

7163. SHRI C. K. JAFFER SHARIEF: Will the Minister of AGRICULTURE be pleased to state:

(a) the targets fixed by different States regarding the area brought (additions) under rabi crop and what would be the production targets of wheat and boro paddy;

(b) whether the prospects of achieving the targets of wheat and rice are satisfactory; and

(c) if not, the measures Government have taken in this regard?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHAB P. SHINDE): (a) The targets of area as agreed to by the State Governments under Emergency Agricultural Production

Programme for wheat and Boro/Summer Paddy, are given in statement attached. The State-wise production targets were not fixed.

(b) Yes Sir.

(c) Does not arise.

Statement

Name of State	Name of Crop	
	(Area in Hectares)	Thousand Hectares)
	Wheat	Summer Rice
1. Andhra Pradesh	100	1000
2. Assam	148	60

18. Tamil Nadu	..	50

Recruitment of Teachers for Ethiopia

7164. SHRI RAMSHEKHAR PRASAD SINGH:

SHRI P. A. SAMINATHAN:

Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether Ethiopia has requested India for more teachers; and

(b) if so, whether India has helped them to recruit teachers in India?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) Yes, Sir.

(b) The Government of India will give what assistance it can.

"Punjab Government in a Fix Over Ceiling Bill"

7165. SHRI JHARKHANDE RAI: Will the Minister of WORKS AND HOUSING be pleased to state:

(a) whether the attention of the Government has been drawn to the report in 'Patriot' on the 15th March, 1973 captioned "Punjab Government in a fix over Ceiling Bill";

(b) if so, the main features thereof; and

(c) the reaction about the matters relating to the Centre?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): (a) to (c). Yes. The Government of Punjab had sought the advice of Government of India regarding introduction and passing of a legislation for the imposition of a ceiling on urban property by the State Legislature after they had authorised the Parliament by a Resolution under Article 252 of

the Constitution of India to enact such a legislation. The legal position which is substantially as brought out in the report in the "Patriot" dated the 15th March, 1973, has been conveyed to the Government of Punjab for their consideration.

Loss to Government Agriculture Farm

7166. SHRI M. S. SANJEEVI RAO: SHRI S. N. MISRA:

Will the Minister of AGRICULTURE be pleased to refer to the reply given to Unstarred Question No. 2929 on the 4th December, 1972 regarding Government Agricultural Farm running at loss, and state:

(a) the extent of loss of each of the agricultural farms in each States; and

(b) the steps taken by the Government for their progress?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE): (a) According to the audited accounts for 1971-72, which are latest available, under-mentioned Central State Farms, excluding Mizoram farm where only developmental work is being done, suffered losses:—

Jharsuguda (Orissa)	Rs.	7.97 lacs.
Cannanore (Kerala)	Rs.	1.47 lacs.
Chengam (Tamil Nadu)	Rs.	56,463.00
Kokilabari (Assam)	Rs.	1.40 lacs.

(b) Loss at Jharsuguda farm was due to cessation of agricultural operations, on account of political agitation by the villagers. The farm is proposed to be wound up.

Loss at other farms is mainly due to the fact that they are still in developing stage, which takes a few years in each case. Necessary measures for development of these farms are in hand.

Reconstitution of Agricultural Prices Commission

7167. SHRI M. S. SANJEEVI RAO: Will the Minister of AGRICULTURE be pleased to state:

(a) whether there is a proposal to reconstitute Agricultural Prices Commission;

(b) if so, what are the main features of the proposal; and

(c) what is the reaction of the Government in the matter?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHAB P. SHINDE): (a) to (c). The Government have not come to any final conclusion about the reconstitution of Agricultural Prices Commission. But Government is considering various suggestions made by Members of Parliament and others on this question.*

'Wot, no Records of Rights'

7168. SHRI VAYALAR RAVI: Will the Minister of AGRICULTURE be pleased to state:

(a) whether the Government noticed the report appearing in the "Economic and Political Weekly" dated 17th March, 1973 under the caption "Wot, No Records of Rights" under the heading Procurement; and

(b) if so, the reaction of Government thereto?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHAB P. SHINDE): (a) and (b). The Government have noticed the reports appearing in the "Economic and Political Weekly" dated the 17th March, 1973. The statement referred to in the reports, made by the Union Minister of State for Agriculture, was in clarification of the Government's policy and consistent with it. Government do not

agree with the views expressed in the news item, these being the writer's own interpretation of the statement made by the Union Minister of State for Agriculture.

Scheme for Rural Employment during 1973-74

7169. SHRI VAYALAR RAVI: Will the Minister of AGRICULTURE be pleased to state:

(a) the names of States which have submitted schemes for rural employment for the year 1973-74 and the main feature of each scheme and the decisions taken thereon;

(b) the steps taken by the Government to ensure better quality of the large number of local projects and to check the leakage of funds due to corruption; and

(c) whether Government propose to start vigorous campaign to educate the rural unemployed regarding the different aspects of the rural employment scheme?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) Powers of sanctioning schemes were delegated to the State Governments with effect from April, 1972. They are now required to forward to the Government of India particulars of the projects sanctioned by them. All State Governments will be continuing with the Crash Scheme for Rural Employment during the year 1973-74. The projects will involve mostly construction of rural roads, minor irrigation, soil conservation afforestation etc.

(b) The scheme provides for the formulation of projects in the States by such authority as has been prescribed by the State Governments with regard to works of a similar nature undertaken by the States and Union

Territories under their own plans and from their own resources. The estimates, specifications and all other details are required to be in accordance with the same scale and standards as have been laid down for similar works.

The major portion of the outlay under the scheme is spent on construction of roads. The Central Road Research Institute have been entrusted with the task of making an appraisal of the roads that have been constructed under the scheme in different States and to recommend what should be the proper technique in different local conditions and circumstances for obtaining optimum results from the funds allotted.

(c) The Government are examining the possibility of making a documentary film on "Rural Employment". Further more adequate publicity has already been made by Panchayati Raj institutions and other agencies of State Governments regarding the scheme.

Assistance to Develop Ports along Gujarat Coastal Line

7170. SHRI P. M. MEHTA: Will the Minister of SHIPPING AND TRANSPORT be pleased to state:

(a) whether Gujarat Government have decided to develop about 50 ports along the Gujarat coast line;

(b) if so, whether this was one of the recommendations of the interim report of the Committee headed by Shri H. M. Trivedi; and

(c) whether Union Government have agreed to help the Gujarat Government for the implementation of the recommendations of the Committee and to what extent?

THE MINISTER OF SHIPPING AND TRANSPORT (SHRI RAJ BAHADUR): (a) No.

(b) Does not arise.

(c) The State Government's proposal for the development of minor ports in Gujarat State during the Fifth Plan under Centrally sponsored schemes has been recently received and is under examination.

Setting up of New Central Universities

7171. PROF. NARAIN CHAND PARASHAR:

DR. LAXMINARAIN PANDEYA:

Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether it is proposed to set up new Central Universities in the country during the financial year 1973-74; and

(b) if so, the names of the places, alongwith the States in which they will be opened?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) and (b). It is proposed to establish a Central University at Shillong during 1973-74. A proposal to set up a Central University at Pondicherry is also under consideration.

Opening of New Colleges in Delhi

7172. PROF. NARAIN CHAND PARASHAR: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether it is proposed to open new colleges in the next academic year in the Union Territory of Delhi;

(b) if so, the names of the localities for which such proposals are being considered; and

(c) whether any private managements have applied for opening new colleges in Delhi; if so, their names?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) and (b). The requirements regarding admissions to colleges in Delhi during the academic session 1973-74 are being assessed by a Working Group appointed by the Delhi Administration.

(c) The University of Delhi has so far not received any such proposal.

Regularisation of Staff working in Laddakh Institute of Higher Studies

7173. PROF. NARAIN CHAND PARASHAR: Will the Minister of EDUCATION, SOCIAL WELFARE AND CULTURE be pleased to state:

(a) whether most of the staff in the Laddakh Institute of Higher Studies, now known as Vishesh Kendriya Vidyalaya is working on *ad hoc* basis for the last 7 years, if so, reasons therefor;

(b) whether it is proposed to regularise their services and make them permanent shortly; and

(c) the names of the teachers working in the Institution with their grades?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): (a) to (c). The Laddakh Institute of Higher Studies, which was formerly a grant-in-aid institution of the Delhi Administration ceased to exist from 31st March, 1971. Consequent to its closure, the Kendriya Vidyalaya Sangathan, which is a registered Society sponsored by the Central Government, set up, on 1st April, 1971, the Vishesh Kendriya Vidyalaya. The teachers retrenched by the Laddakh Institute of Higher Studies were re-employed on *ad hoc* basis, subject to their being found fit for appointment in the Sangathan. The staff working in the Vishesh Kendriya Vidyalaya have not yet been made permanent; their cases for confirmation have to be considered in accordance with the recruitment rules of the Sangathan.

A list of teachers working in the Vishesh Kendriya Vidyalaya, with their grades, is given at Annexure 'A'.

ANNEXURE 'A'

Statement showing the Names of the Teachers working in the Vishesh Kendriya Vidyalaya with their Grades.

Serial No.	Name	Grade
1.	Shri G. Ram, Principal	Rs. 700-40-980-EB-40-1100.
<i>Post Graduate Teachers</i>

Elimination of out-of-turn allotment of quarters

7174. PROF. NARAIN CHAND PARASHAR: Will the Minister of WORKS AND HOUSING be pleased to refer to the reply given to Unstarred Question No. 2796 on the 12th March, 1973 regarding elimination of out-of-turn allotment of quarters and state the rules and regulations, if any, governing the *ad hoc* allotment of accommodation to Government servants?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF WORKS AND HOUSING (SHRI OM MEHTA): Under the discretionary powers of Government to relax the provisions of the Allotment Rules, *ad hoc* allotments/regu-

larisations of accommodation are made in the following cases—

- (i) To an eligible son/daughter, wife/husband of a retiring/deceased allottee officer;
- (ii) To an eligible son/unmarried daughter, wife/husband of an allottee officer transferred to a station outside Delhi or to an ineligible office in Delhi/New Delhi;
- (iii) To key personnel working in the Prime Minister's Secretariat and to a specified number of personal staff of Ministers/Deputy Ministers and other dignitaries;
- (iv) To an Officer, who is in occupation of Departmental Pool accommodation, which he has to vacate on transfer to an Office eligible for allotment of accommodation from the 'general pool';
- (v) *Ad hoc* allotment on acute medical grounds and on compassionate or other compelling grounds.

Proposal to construct National Highways in Orissa

7175. SHRI K. PRADHANI: Will the Minister of SHIPPING AND TRANSPORT be pleased to state:

(a) whether there is any proposal with the Government of India to construct some new National Highways in Orissa during the next two years in view of the poor road communication existing in the State, specially in the tribal areas of the State;

(b) if so, what are those roads; and

(c) if not, the reasons therefor?

THE MINISTER OF STATE IN THE MINISTRY OF SHIPPING AND TRANSPORT (SHRI M. B. RANA): (a) to (c). In the beginning of the 4th Plan, Orissa had 1363 Kms. of roads forming part of the National Highway system. In 1971-72, the following two more roads passing through Orissa were declared as National Highways:

- (1) Haridaspur-Paradeep Port Road (National Highway 5A).
- (2) Chas-Ranchi-Rourkela-Talchar Road terminating at National Highway No. 42 (National Highway No. 23).

The total length of these two new roads in Orissa works out to 286 Kms.

Of these two newly added National Highways in Orissa, the Haridaspur-Paradeep Port Road is already an existing double-lane highway where only some improvements of pavement surface is required in some stretches but no new construction as such is involved.

As for National Highway No. 23 referred to at (2) above, the proposal received from the State Govt. for settlement of the road alignment is being examined where after the State Government will be coming up with necessary estimates for sanction for improvement/new construction involved, if any as the IV Plan programme envisages its developments to single lane N.H. standard.

In addition to the routes discussed above, the State Govt. have sent certain proposals for further additions to the existing N.H. system in the State during the 5th Plan period. A statement of roads covered by these proposals is attached. The routes mentioned at S. Nos. 1 & 7 pass through the tribal areas in the border region of Orissa and Andhra Pradesh.

A final view on these proposals could be taken along with similar proposals from other States when proposals for the 5th Five Year Plan are finalized dependent on the Plan allocation that may be forthcoming for the purpose.

STATEMENT

Serial No.	Name of route
1.	Angul-Tikarpara-Phulbani-Baliguda-Tumuriband-Maniguda-Kamatelpeta-Koraput road.
2.	Panikoili-Jajpur-Keonjhar-Chaibasa road.
3.	Gopalpur-Berhampur-Baliguda-Titlagarh-Nawpara-Raipur road.
4.	Puri-Pipli-Khurda-Daspalla-Madhupur-Phulbani road.
5.	Sambalpur-Jharsuguda-Rajgangpur-Rourkela road.
6.	Balasore-Jaleswar-Digha-Calcutta road.
7.	Berhampur-Taptapani-Ramanguda-Komatepleta road.
8.	Cuttack-Paradeep road.
9.	Puri-Konark-Paradeep road.
10.	Bhadrak-Chandabali-Paradeep road.

Percentage fall registered in Birth Rate as a result of Family Planning

7176. DR. LAXMINARAIN PAN-DEYA:

SHRI G. Y. KRISHNAN:

Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state:

(a) the percentage fall registered in birth rate during 1972 as a result of Family Planning; and

(b) the steps proposed to be taken to make the programme of Family Planning more effective and create a sense in the public for accepting it voluntarily?

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (SHRI KONDAJJI BASAPPA): (a) It is estimated that the birth rate has fallen by about 2.1 per cent during 1972 as a result of the Family Planning Programme.

(b) The following are the main steps being taken to make the Family Planning Programme more effective and acceptable:—

1. Integration of material and child health, family planning and general health programmes at all levels. Strengthening of schemes of immunisation and prophylaxis with a view to providing better health care for mothers and children.
2. Adoption of new motivational strategy including new slogans which has, as its approach, the health of the mother and the welfare of the child and the family and is directed more and more to individual and special groups.
3. Strengthening of the infrastructure approved under the Programme.

4. Improvement in IUCD and sterilisation services by better selection after allaying public fears and apprehensions about these methods.

5. Greater stress on evolving improved contraceptive technology including the use of indigenously evolved methods and devices.

6. High priority to special programmes like the Post Partum Programme and the intensive district programme.

7. Special attention to family planning work in States where progress has been slow.

8. Intensive approach through large scale mass vasectomy, camps.

9. More intensive and improved training of various categories of personnel working in the family planning programme.

ग्रामीण स्वास्थ्य सेवा में आयुर्वेदिक तथा होम्योपैथी के चिकित्सक

7177. डा० लक्ष्मी नारायण पांडेय :
क्या स्वास्थ्य और परिवार नियोजन मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या सरकार ग्रामीण स्वास्थ्य सेवा में आयुर्वेदिक तथा होम्योपैथी के चिकित्सकों को नहीं लेती है ;

(ख) यदि हां, तो इसके क्या कारण हैं; और

(ग) यदि उन्हें लिया जाता है, तो उक्त सेवा में उनकी कुल संख्या क्या है ?

स्वास्थ्य और परिवार नियोजन मंत्रालय में उपमंत्री (श्री कोंडाजी बासप्पा) :
(क) से (ग). ग्राम क्षेत्रों में स्वास्थ्य सेवा सम्बन्धी जिस योजना पर सरकार इस समय विचार कर रही है उसमें प्रशिक्षित

आयुर्वेदिक चिकित्सकों तथा होम्योपैथिक चिकित्सकों को रोजगार देने की व्यवस्था जरूर है। इस स्तर पर यह कहना संभव नहीं है कि इसके अंतर्गत कितने कर्मचारियों को रोजगार मिल सकेगा क्योंकि इसे अभी प्रारम्भ नहीं किया गया है।

अखिल भारत नेत्र सुधार संघ

7179. श्री अम्बेश : क्या स्वास्थ्य और परिवार नियोजन मंत्री 8 दिसम्बर 1969 के तारोक्ति प्रश्न संख्या 468 के उत्तर के सम्बन्ध में यह बताने की कृपा करेंगे कि :

(क) क्या केन्द्रीय जांच ब्यूरो ने उसके मंत्रालय को सलाह दी थी कि वह अखिल भारत नेत्र सुधार संघ और डा० भगवानदास मेमोरियल ट्रस्ट, 2-एफ, लाजपतनगर, नई दिल्ली—24 के लेखों की जाच पड़ताल करे;

(ख) यदि हां, तो इस सम्बन्ध में उनके मंत्रालय ने क्या कदम उठाए हैं ; और

(ग) यदि नहीं, तो क्यों ?

स्वास्थ्य और परिवार नियोजन मंत्रालय में उपमंत्री (श्री कोंडाजी बासप्पा) :

(क) जी हां। जनवरी, 1969 में केन्द्रीय जांच ब्यूरो ने सलाह दी थी कि इन संस्थाओं के हिसाब किताब का लेखा परीक्षण करा देना चाहिये क्योंकि इन के बारे में कुछ शिकायतें प्राप्त हुई हैं।

(ख) और (ग). स्वास्थ्य मंत्रालय ने दिल्ली प्रशासन से अनुरोध किया था कि 1968-69 तक के हिसाब किताब का लेखा

परीक्षण करा दिया जाए। इसके फलस्वरूप कुछ अनियमितताएं पाईं तो गईं थीं किन्तु उन्हें गबन अथवा दण्डनीय अपराध की संज्ञा नहीं दी जा सकती थी। इस सम्बन्ध में आगे क्या कार्यवाही की जाए इस पर दिल्ली प्रशासन विचार कर रहा है।

12 hrs.

CALLING ATTENTION TO MATTER OF URGENT PUBLIC IMPORTANCE

REPORTED CLOSURE OF ALIGARH MUSLIM UNIVERSITY

SHRI B. R. SHUKLA (Bahraich):
Sir, I call the attention of the hon. Minister of Education and Social Welfare to the following matter of urgent public importance and request that he may make a statement thereon:

"Reported closure of the Aligarh Muslim University"

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): The Aligarh Muslim University was closed under the orders of the Vice-Chancellor on April 5, 1973. During the course of discussion on the demands for grants of the Ministry of Education and Social Welfare and Department of Culture in the Lok Sabha on April 6, 1973, I had placed on the Table of the Sabha a copy of the Statement issued by the Vice-Chancellor on the closure of the University. The statement contains the reasons which led the Vice-Chancellor to take this decision.

The Executive Council of the University reviewed the position in its meeting held on April 7, 1973 at Aligarh. The Council appreciated and expressed its full support for the

[Prof. S. Nurul Hasan]

action taken by the Vice-Chancellor in closing the University. The Council further decided that: (a) the students and members of the staff who created trouble in the Campus be identified and disciplinary action be taken against them; and (b) steps be taken to re-open the University and bring normalcy in the working of the University as early as possible, after ensuring that there is no likelihood of any recurrence of trouble in the Campus. The Council also appointed a Committee to advise disciplinary action to be taken against the students and members of the staff who were responsible for creating trouble and indiscipline in the University Campus and to suggest steps to be taken to re-open the University.

The University has already decided to open the high schools maintained by it with effect from April 17, 1973. I have every hope that all efforts will be made by the University authorities to open the other institutions, faculties and departments of the University also as soon as possible. The intervening period will enable the University to plan afresh its academic programmes, which for a variety of reasons had received a serious setback during the past few months. The Government has given and will continue to give full support to the Vice-Chancellor in whatever decisions he takes to maintain discipline in the Campus, and ensure that coercive action by any section of the University community does not disrupt the working of the University.

I also hope that the academic community of teachers of the University would be able to work out proper plans for normalising the academic life soon, so that the loss of studies of the students is minimum. The support extended to the University authorities by all sections of this House, will, I have no doubt, go a long way in restoring normalcy in this great seat of learning.

SHRI B. R. SHUKLA: It is a sad state of affairs that this great seat of

learning and culture has recently been the hotbed of controversy and political intrigue.

The Vice-Chancellor, in his statement, a copy of which was laid on the Table of the House, has stated that the situation was deteriorating. What are the acts of indiscipline or any other acts which can be termed as acts of indiscipline which account for the deterioration of the situation obtaining in the campus? Is it a fact or not that when the meeting of the Executive Council of the University was held, it was marred by ugly scenes and demonstrations and that the demonstrators even went to the extent of throwing away the food prepared for the hon. Members of the Executive Council. Secondly, were the examinations which were scheduled to be held in the University held at the scheduled time or were they postponed on account of certain undesirable incidents?

Thirdly, it has been made out by some quarters that the examinations were actually in progress and the classes were actually held in a peaceful atmosphere and things were going on so well that there was no occasion for the closure of the University. I would like the hon. Minister to reply to these different allegations which are made by different quarters. I would like to know whether the students' activities are generally on the peak long before the start of the examinations, that is, before December, and the student community or the Student Union Office-bearers then generally invite distinguished members in different walks of life to give their speeches. What were the occasions, even when the examinations were actually in progress or when they were seen to start, when persons like hon. Shri Piloo Mody, Shri Viswanathan, Dr. Faridi and Chaudhury Charan Singh were invited? Also I want to know whether they were invited to some academic discussions for enlightening the student community on particular topics. The

teachers of the University had probably failed to deliver an adequate number of lectures to them and so it was thought proper by the student community that it should be reinforced in the progress of its academic work and so these distinguished gentlemen who are very learned in their own academic fields, besides having some extra-curricular activities, were invited. In the light of the fact that elections in U.P. are to take place in 1974—some people say that they were going to take place by the end of this year—we do not know whether the visits of these honourable gentlemen were motivated by political considerations. I would like to know from the hon. Minister the circumstances which suddenly compelled the Vice-Chancellor to order the closure of the University.

Another aspect on which I would like to seek enlightenment from the hon. Minister for Education is this. In the statement of the Vice-Chancellor, it has been made out that the closure has been ordered in order to enable the students community and the teachers to do some heart-searching which would be for the betterment and normalisation of the academic life. Representations are coming forth from the student community and from other persons who are interested in the peaceful running of this great institution that the closure orders should be cancelled and the student community should not suffer because of the undesirable activities of a handful of persons.

On all these points, I would request the Minister to clarify the position in detail, so that the misgivings which are being created by interested politicians may be removed.

PROF. S. NURUL HASAN: The hon. Member has first asked about the incident which took place when the Executive Council met in Aligarh on 3rd March 1973. I had been avoiding making this statement because it is painful reading. But since a pointed

question has been asked, I do not suppose I can avoid making this statement. If it had been a simple *gherao*, even that would not be very proper in a university. But when the language used is such that it is unfit for any man of culture and education to use it, it is a matter of deep concern. The word used, for example, for the members of the Executive Council and for the Dean of the Faculty of Science was "*kutte*". Anyone who is familiar with Muslim culture knows what the significance of the word "*kutta*" is when used in relation to another human being. One of the Members of the Executive Council, who is a scholar in Islamic Theology and who is a Haji, when he went to plead with the students, was told:

‘अब कुत्ते दाढ़ी छोड़ता जा’ ।

On the collar of a dog, the word "*Rais*", the name of the Dean of the Faculty of Science was put, and it was thrown in the library are building when the meeting was going on. The President of the Union told all the members of the Executive Council that they would not be permitted to enter the campus. It was true that the food cooked for them in the guest house was looted and the luggage of some of the members of the Executive Council was also misplaced. These are very serious matters. The Vice-Chancellor attempted to make the students to see reason. He tried his best; he asked the teachers to intervene. He did not take any precipitate action. He hoped that people would see reason but, to our great regret, all his efforts failed and he came to the conclusion that it would not be possible for him to carry on the normal functioning of the university without closing it for a short period and taking proper steps.

The second question asked is about postponement of examinations. This story started last year. The House will recall that last year the university had decided to hold the final examinations of the second semester with

[Prof. S. Nurul Hasan]

effect from the first week of May, 1972. Then there was a demand from the students' union that these examinations be postponed and be held from May 20, 1972. The demand was that till a favourable University Bill was introduced in Parliament, they would not agree. On 18th and 19th May, the agitation for indefinite postponement of the examination was continued. About a thousand students went to the houses of the Vice-Chancellor and the Registrar, and finally the Vice-Chancellor, after consulting the senior teachers, decided on the 19th to postpone the examinations till July 5, 1972. After that, the first semester teaching was delayed and as a result thereof, the university after careful consideration decided that the examinations of the first semester would commence from January 23, 1973. But then a representation was received from the Secretary, Aligarh Muslim University Students' Union requesting a postponement of the first semester examination scheduled to commence from 23rd January 1973. As a result thereof, the Vice-Chancellor decided that the examinations be commenced from 5th February instead of 23rd January. Then there were further demands that the commencement of the examinations be postponed. As a result of it, the examinations were postponed until late in February. Even while the first semester examinations were going on, there were demands on the 9th and 10th March that the examinations be not held, with the result that even as late as the 5th April, the first semester examinations for many of the students had not been completed. Consequently, a year has been for all practical purposes lost in the case of a very large number of students, whose teaching for the second semester should have been completed by the end of April or early May. This is a matter which has to be considered very carefully.

Another point which has been raised is that an allegation has been made that the teaching was going on normally. I would venture to read from a

document which has been given to me by the university. This is a copy of a document dated 22nd March, which was forwarded by the Principal of the Zakir Hussain College of Engineering and Technology. It reads thus:

"Second Year B.Sc. Engineering students returned from tour on 13th March, but have been absenting themselves from the classes. The Head of the Mathematics Section who is tutor in charge of Sections A and B and the Head of the Physics Section who is tutor in charge of Section C of the class are unable to decide how to deal with the situation. I am also in a similar predicament. Students of other classes have also absented themselves *en masse* on more than one occasion. The favour of your instruction is requested."

These are only some of the examples which I am constrained to place before the House to show that the Vice-Chancellor who had tried not to take this particular action was forced by circumstances to take it.

The university is making plans for holding the examinations and instructions in various classes in a phased manner as soon as possible.

It has been suggested and, I think, the hon. Member is quite right that if a few students are guilty of some misdeeds why should the general body of students suffer. That is a sentiment which I have no doubt everyone in this House and, I am sure, everyone in the University will equally share.

I am told that the Discipline Committee of the University will be taking fairly urgent steps to look into the matter to isolate those who are guilty of gross breach of discipline so that the rest of the students are enabled to manage as best as they can under the circumstances because, as a result of this prolonged agitation, for many of the students a whole year already been lost.

श्री बिभूति मिश्र (मोतीहारी) :

अध्यक्ष महोदय, देश के दो बड़े विश्व-विद्यालय हैं अलीगढ़ मुस्लिम विश्वविद्यालय और बनारस हिन्दू विश्वविद्यालय, और दोनों यूनिवर्सिटियों की हालत सन्तोषप्रद नहीं है। उन के निर्माताओं ने जिस खयाल से निर्माण किया उन का वह खयाल पूरा नहीं हो रहा है। मैं आप से कहना चाहता हूँ कि देश का भविष्य देश के छात्रों के ऊपर निर्भर करता है। हम लगे दिनों दिनों छात्र थे और आज संसद् के सदस्य हैं। कितने दिन नहीं रहेंगे, लेकिन जो आने वाली पीढ़ी है, वही देश का राज्य चलायेगी।

मंत्री जी ने कहा कि साहब यूनिवर्सिटी को क्लोज कर दिया। इम्तहान बहुत दिनों से चले आते हैं। मैं उस स्टेट से आता हूँ जहाँ स्टूडेंट्स की प्रॉब्लेम बहुत जबरदस्त है। अभी कुछ दिन पहले सारी यूनिवर्सिटीज में वाइस चांसलरों की जगह पर सर्विस क्लास के आदमियों को बहाल किया गया, जैसे कि हमारे बिहार में नागराजन को बहाल किया गया। उन्होंने पुलिस के जरिये जोर लगा कर लड़कों को इम्तहान दिलवाया। जिन लड़कों ने इम्तहान नहीं दिया उन को छोड़ दिया, लेकिन जितनों ने इम्तहान देना चाहा उन को दिलवाया। मगर आज केन्द्रीय सरकार, जिस के हाथ में मिलिटरी है, और जिस ने दुनिया में इतना यश प्राप्त किया है, इम्तहान दिलवाने में कमजोरी

कर रही है। आप बिहार का उदाहरण लीजिये। नागराजन एक दुबला पतला आदमी है, दो हड्डी का आदमी होते हुए उस ने डिसिप्लिन मेनटेन किया। मैं समझता हूँ कि यहां पर वाइस चांसलर की कमजोरी है।

दूसरी बात मंत्री महोदय ने यह कही कि हम ने यूनिवर्सिटी बन्द कर दिया ताकि लड़कों के अन्दर डिसिप्लिन आ जाय। मैं जानना चाहता हूँ कि बन्द करने से कितनी डिसिप्लिन आई। आज-कल स्कूलों और कालेजों में थोड़े से हीरो होते हैं। हमारे बिहार में उन को हीरो कहते हैं, पता नहीं यहां क्या कहते हैं। वह लोग लड़कों को डरवाते हैं। मैं पूछना चाहता हूँ कि लड़कों को इन लोगों से बचाने के लिये आप ने कौन सा कदम उठाया? अलीगढ़ यहां से नजदीक है, आप के पास मिलिटरी है, आप ने क्यों नहीं स्टेप लिया लड़कों को परीक्षा दिलाने के लिये? जो लड़के पढ़ना चाहते हैं उनका भविष्य थोड़े से लड़कों की वजह से खराब हो रहा है।

इस के अलावा क्या यह सही है कि आप ने जब से कानून बनाया है तब से वेस्टर्न यू० पी० की राजनीति में, विभिन्न पार्टियों की पालिटिक्स जो है, उस में अलीगढ़ मुसलिम यूनिवर्सिटी एक ग्रेजिंग ग्राउंड हो गई है? उस को रोकने के लिये आप ने क्या किया है? मंत्री

[श्री विभूति मिश्र]

महोदय ने जो स्टेटमेंट दिया है वह भी गुपचुप दिया है। उन को साफ आना चाहिये कि वहां पर यह सीरियस सिचुएशन है। मंत्री महोदय ने वाइस चांसलर के बयान को एक मंत्र की तरह से रख दिया है। हम मंत्र को समझने वाले नहीं हैं। हम लोग मनुष्य हैं, मंत्र तंत्र वाले नहीं है। उन को साफ साफ बतलाना चाहिये था कि अलीगढ़ की परिस्थिति यह है। अगर उन के हाथ में उस की दवा नहीं है तो यह सदन उस दवा को करता। अगले चुनाव में राजनीतिक दलों के अखाड़ेबाजी से बचाने के लिये आप यूनिवर्सिटी को कैसे सुरक्षित रखना चाहते हैं ?

क्या यह सही नहीं है कि बहुत से छात्रों के ऊपर आप की यूनिवर्सिटी का पैसा बाकी है और वह देते नहीं हैं और इसीलिये यह हंगामा करते हैं और कारते हैं ? क्या यह भी सही है, जैसे कि मैंने सुना है, कि जो डीन बहाल हुए हैं वह बहुत जूनियर आदमी हैं जबकि सीनियर आदमी को इस पद पर बहाल नहीं किया गया, और इस से भी असन्तोष है ? क्या यह सही नहीं है कि जो टीचर्स हैं उन का रिप्रेजेंटेशन कम है और इसी लिये वह असन्तुष्ट हैं ? क्या यह सही नहीं है कि इस देश के इस थोड़े से हिस्से में साम्प्रदायिक तत्व के जो लोग हैं वह जिन्दा हैं और कुछ दिनों तक जिन्दा रहेंगे ? आप ने 1920 का कानून बनाया, 1951 का कानून बनाया और 1951

के बाद इस साल कानून बनाया। लेकिन इस कानून को बनाने से पहले क्या आप ने यह नहीं सोचा था कि इन लोगों से निपटने के लिये आप के पास उपाय है या नहीं ? यदि उपाय था तो इस को इस सदन के सामने लाते और अगर नहीं था तो आप ने कानून क्यों बनाया ? मैं कहना चाहता हूं कि राज्य चलता है दण्ड से। राज्य मोठी मांठी बातों से नहीं चलता।

आप ने कहा है कि बेराइटी आफ रीजन्स थे। लेकिन आप ने जो रीजन्स बतलाये हैं उन से यूनिवर्सिटी को बन्द नहीं किया जा सकता। मैं भी राजनीति में रहा हूँ, हम लोगों के सामने आर्डर हुआ कि अगर साम्प्रदायिक दंगे होते हैं तो गोली चलाओ। जब भी ऐसा किया गया तो साम्प्रदायिक लोग मुकाबिला करने के बजाय गोली चलने के पहले भाग गये। साम्प्रदायिक लोग बहुत कमजोर हुआ करते हैं। लेकिन आप ने जो रीजन दिये हैं वह छिपे छिपे दिये हैं। जो रीजन आप ने बतलाये हैं वह यूनिवर्सिटी को बन्द करने के लिये काफी नहीं हैं। अगर कोई खास रीजन हों जिस की वजह से यूनिवर्सिटी को बन्द किया गया हो तो बात दूसरी है। बहुत से लोग होते हैं जो हल्ला गुल्ला होने पर घबरा जाते हैं और डर जाते हैं तथा यूनिवर्सिटी को बन्द कर देते हैं। मुझे लगता है कि वाइस चांसलर कमजोर हैं और थोड़ी सी बात पर उन्होंने यूनिवर्सिटी

को बन्द कर दिया, उस में कोई घबराहट की बात नहीं थी ।

14 तारीख को इण्डियन एक्सप्रेस में एक भाई ने पत्र लिखा है जिस में उन्होंने वेस्टर्न यू० पी० की पालिटिक्स की बात कही है । मेरी समझ में नहीं आता कि इस में वेस्टर्न और ईस्टर्न यू० पी० की पालिटिक्स की क्या बात है । वेस्टर्न यू० पी० की बात का तो मुझे पता नहीं लेकिन ईस्टर्न यू० पी० वाले बिल्कुल निर्दोष हैं । उस पत्र में यह भी लिखा है कि बच्चों के सुधार के लिये जल्दी से जल्दी इम्तहान का क्या तरीका आप सोचते हैं ? और वहां पर जो शिक्षकों की बहाली होगी उन के बहाली के लिये सरकार कोई डिमाक्रेटिक तरीका अपनाना चाहती है या नहीं ? मैं ने सुना है कि शिक्षकों की बहाली में अलीगढ़ मुसलिम यूनिवर्सिटी में बड़ा गोलमाल हुआ है । शिक्षकों की बहाली के लिये आप कोई फूलप्रुफ फार्मुला रखिये, नहीं तो जिस तरह से दलगत आधार पर आज कल बहाली होती उस से छात्रों का बड़ा नुकसान होता है और थर्ड रेट आदमी चले आते हैं । इस के सम्बन्ध में मंत्री महोदय को बतलाना चाहिये सदन में कि वह कौन सा स्टेप लेने जा रहे हैं ।

मैं यह भी जानना चाहता हू कि क्या मंत्री महोदय वहां पर कोई ऐसा कदम उठाने जा रहे हैं कि जब तक उत्तर प्रदेश में चुनाव नहीं हो जाते तब तक यूनिवर्सिटी कैम्पस में किसी राजनीतिक

पार्टी का आदमी जा कर राजनीतिक बातें न करे ? (व्यवधान)

मैं चाहता हूं कि मंत्री महोदय सदन में बतलायें कि वह कौन सी तारीख से यूनिवर्सिटी को खोलने जा रहे हैं, और जिस तारीख से वह उस को खोलने जा रहे हैं उस के पहले क्या उन्होंने पूरी तैयारी कर ली है ताकि कोई साम्प्रदायिक आदमी वहां पर साम्प्रदायिक गडबड़ी न फैला सके । मंत्री महोदय ने बहुत जोर के साथ कहा कि यूनिवर्सिटी खुले और बच्चों को तालीम दी जाये । मैं कहता हूं कि आप यश उठाइये और बच्चों का भी भला कीजिये । जब हम बच्चे थे तब लोग सर सैयद अहमद खां के बारे में कहा करते थे कि वह कितने बड़े आदमी थे ।

प्रो० एस० नूरुल हसन : अध्यक्ष महोदय, सवाल बहुत से हुए हैं । मैं कोशिश करूंगा कि उन सब के जवाब दे कर माननीय सदस्य को मुतमइन करूं । पहली बात मैं यह स्पष्ट कर देना चाहता हूं कि यूनिवर्सिटी में राजनीतिक दलों के आदमियों पर प्रतिबन्ध नहीं लगाना चाहिये और न लगाया जायेगा ।

श्री श्यामनन्दन मिश्र (बेगुसराय) : यह आप के बस की बात ही नहीं है । जैसी व्यवस्था में हम लोग हैं वह आपके बस की बात नहीं है । यह मेहरबानी जाहिर न करें ।

प्रो० एस० नूरुल हसन : जब आप इस कुर्सी पर बैठ जाएं तो जवाब दे लें ।

एक बात मैं साफ कर देना चाहता हूँ । इसको मैं ने 6 तारीख को भी सदन में अर्ज किया था कि यूनिवर्सिटी के जो मामलात हैं, यूनिवर्सिटी कम्युनिटी और इल्मी कम्युनिटी की राय से उन पर जरूर गौर किया जाएगा और उनमें अगर कोई संशोधन की जरूरत है तो जरूर किया जाएगा हम लोग लेकिन पार्टी पालिटिक्स की बिना पर यह डिमिशन लेना नहीं चाहते हैं ।

जहां तक टीचर्स की बहाली में गोलमाल की बात है, इसके सिलसिले में बाकायदा एक सिलेक्शन कमेटी सदन की मंजूरी से मुकर्रर हुई है । अगर कोई स्पेसिफिक केस गोलमाल का सरकार के सामने आएगा तो सरकार जरूर उसके बारे में विजिटर को मशविरा देगी । लेकिन जब तक कोई स्पेसिफिक केस गोलमाल का मेरे सामने नहीं आता मैं अर्ज करूंगा कि इस तरह के आरोप मैं मंजूर नहीं कर सकता कि यूनिवर्सिटी में बहालियां आम तौर से गलत हुई हैं —

श्री विभूति मिश्र : डीन की बहाली ।

प्रो० एस० नूरुल हसन : डीन की बहाली भी जूनियर की नहीं हुई है और वह भी उस कानून के मुताबिक हुई है जो कानून इस सदन ने मंजूर किया था ।

यह कहा गया है कि टीचर्स का रिप्रिजेंटेशन यूनिवर्सिटी बाडीज में काफी नहीं है । अगर यूनिवर्सिटी बाडीज चाहती हैं कि टीचर्स का रिप्रिजेंटेशन बढ़ाया जाए

तो जैसा मैं अर्ज कर चुका हूँ गवर्नमेंट ही इस मामले पर गौर करने को तैयार है । लेकिन इत्तिला के तौर पर मैं अर्ज कर देना चाहता हूँ कि जितने टीचर्स के नुमाइंदे अलीगढ़ की बाडीज में हैं उतने और किसी सेंट्रल यूनिवर्सिटी की बाडी में नहीं हैं । फिर भी इसको और बेहतर बनाने के लिए कोई तजवीज आती है, एकेडमिक कम्युनिटी चाहती है तो हमारा फर्ज है कि हम उस पर गौर करें खुले दिमाग और दिल से ।

जहां तक वहां कम्युनल एलीमेंट्स कानाल्लुक है, मैं बनारस के सिलसिले में अर्ज कर चुका हूँ कि यह बड़ी चिन्ताजनक बात होगी अगर कम्युनल एलीमेंट्स कहीं भी किसी भी यूनिवर्सिटी में फायदा उठाना चाहेंगे और मुझे यकीन है कि पूरा सदन इस पर सहमत होगा कि यूनिवर्सिटीज को कम्युनल पालिटिक का अखाड़ा नहीं बनना चाहिये ।

पूर्वी और पश्चिमी उत्तर प्रदेश के मामले में कुछ अर्जियों नहीं करना है कि मैं तो बीच का रहने वाला हूँ । लखनऊ में मैं पैदा हुआ, इलाहाबाद में मैं पढ़ा, अलीगढ़ में नौकरी की । इसलिए मुझे कोई इस सिलसिले में किसी पालिटिक्स में दिलचस्पी नहीं है ।

यह भी कहा गया है कि जिस इंसिडेंट का मैंने जिक्र किया है वह काफी नहीं है कि जिस के ऊपर यह एक्शन लिया जाता । जनाबेवाला मेरे पास बहुत लम्बी फेहरिस्त है उन तमाम इंसिडेंट्स की जो हुए । लेकिन बेहतर है कि आप इसरार न करें कि इसको पढ़ा जाए ।

हुकम होगा तो मैं सारी पढ़ कर सुना दूंगा । एक सैम्पल मैंने पेश कर दिया है । इससे ज्यादा और न पढ़े तो बेहतर होगा ।

यह कहा गया है कि हमारे सियासी नेता एक दम से वहां तशरीफ ले गए, व क्यों ले गए । पहले मित्र ने भी यही सवाल किया था । इसको तो वही ज्यादा बेहतर जानते हैं कि किस नीयत से गए थे । जिस ढंग से इम्तहानात चलते हैं उस वक्त आम तौर से जैसा होता है लड़कों का मूड राजनीतिक भाषण सुनने का नहीं होता है । लेकिन हो सकता है कि वहां इस वक्त मूड रहा हो इसलिए वे गए । मुझे उस पर कुछ ज्यादा अर्ज करना नहीं है ।

यह भी कहा गया है कि यूनिवर्सिटी में इम्तहानात कराने के लिए जो बिहार में तरीका इस्तेमाल किया गया है वही अपनाया जाए । बिहार के बारे में जो तफसील है वह बिहार सरकार को मालूम होनी, मुझे तो मालूम नहीं है । लेकिन मेरी जाती राय यह है कि ज्यादा बेहतर सूरत यह है कि यूनिवर्सिटी के जो अध्यापक हैं, जो वहां की काउंसिल है वे फैसला करें कि इम्तहाना किस ढंग से और जल्द अज जल्द हो सकते हैं और उनका प्रबन्ध करें । बनिस्बत इसके कि एक्सटर्नल मदद से इसको किया जाए । लेकिन अगर मजबूरी हो और वाइस चांसलर एक्सटर्नल मदद मांगें तो हमारा फर्ज है और मैं कह चुका हूं कि पूरी मदद देंगे । लेकिन यूनिवर्सिटी, आर्थोरिटी को ही इनको

होल्ड करना है और इवैल्युएशन और टीचर्स अलग अलग नहीं हो सकते हैं, एक दूसरे से इनका चोली दामन का साथ है ।

डिसिप्लिन के सिलसिले में थोड़ी देर हुई मैं कह चुका हूं कि डिसिप्लिन कमेटी इस मामले में गौर कर रही है और बहुत जल्दी जो जरूरी कार्यवाही होगी मुझे यकीन है कि वह करेगी ।

खुलने का जहां तक ताल्लुक है वह स्टेजिज में होगा । पहली इंस्टालमेंट का एलान जो वाइस चांसलर ने किया है, उसका मैंने जिक्र कर दिया है । 17 अप्रैल तक पहली इंस्टालमेंट खुल जाएगी । उसी तरह से जल्द अज जल्द एक एक, दो दो, चार चार करके और खोलने का प्रोग्राम भी वह बना रहे हैं और उसका एलान होता जाएगा ।

एरियर्ज का जहां तक सवाल है इसके सिलसिले में मेरे पास थोड़ी सी जानकारी है, पूरी नहीं है । मैं इसके बारे में मालूम करूंगा कि पैसे का मामला क्या है और उस सिलसिले में अगर कोई जरूरी कार्रवाई है तो वह भी की जाएगी ।

श्री इसहाक सभली (अमरोहा) : अलीगढ़ यूनिवर्सिटी को बन्द करने का जब एलान किया गया तो इसको शायद मैंने ही नहीं बल्कि सभी लोगों ने बहुत दुख के साथ सुना । मुझ से पहले हमारे बुजुर्ग साथी मिश्र जी ने साफ तौर पर कहा कि इसको बन्द करना किसी तरह मुनासिब नहीं था, जो वजह बताई गई वह काफी नहीं थी । अलीगढ़ मुस्लिम यूनिवर्सिटी को बन्द करने का सवाल अकेला

श्री इसहाक सम्भली

सवाल नहीं है। उसके बारे में पूरी चीज को देखा जाए, इस चीज को देखा जाए, कि अलीगढ़ मुस्लिम यूनिवर्सिटी एकट जब यहा पर लाया गया, इसको पास कराया गया तो खुद मैंने और हमारे रहनुमा इन्द्रजीत जी गुप्त ने साफ लफ्जों में यह मुतालिबा किया था कि यह डेमोक्रेटिक नहीं है, इसको ज्वायंट कमेटी में भेजा जाए लेकिन मुझे अफसोस है कि इस मोशन को माना नहीं गया। अलीगढ़ मुस्लिम यूनिवर्सिटी की जो हकीकत है उसको देखना होगा। वह कायम हुई मुसलमानों को माडर्न तालीम से वाकिफ कराने के लिए, उनमें माडर्न तालीम फैलाने के लिए। यह उसका तारीखी कारेक्टर रहा है। उसके इंतजाम में भी मुसलमानों की न सिर्फ मुअस्सर बल्कि एक जबर्दस्त अकसरित की पोजिशन रही है। यह उसका तारीखी कारेक्टर है जिसको आप भी मानते हैं। यही वजह है कि मुस्लिम कम्युनिटी ही नहीं बल्कि इंसान पसन्द हिन्दू भी इस चीज को नापसन्द करते हैं कि कोई ऐसी चीज की जाए जिससे मुस्लिम कम्युनिटी को कोई तकलीफ पहुँचे और वह यह समझे कि एक वह इरादा, एक वह इंस्टीट्यूशन जिससे जबर्दस्त उनका जज्बाती ताल्लुक है, लगाव है, उस में कोई दखलंदाजी कर रहा है, उस पर कोई छुरी चला रहा है।

एकट बनाते वक्त डा० गजेन्द्रगडकर कमिशन की रिपोर्ट का सहारा लिया गया था। गजेन्द्रगडकर कमिशन की रिपोर्ट कोई ऐसी पाकीजा और मुकद्दस रिपोर्ट नहीं थी जिस में कोई तरमीम ही न की जा सकती हो।

वह कोई कुरान, बाइबल या गीता नहीं है, जिस की वजह हर एक बात को मानना लाजिमी है। मैं समझता हूँ कि उस में ऐसी कितनी ही बातें हैं, जो जम्हूरी नहीं कही जा सकती हैं, जो एथारिटेरियन कही जा सकती हैं। क्या वजह है कि जब स्टुडेंट्स यूनियन मौजूद है, तो स्टुडेंट्स कौंसिल बनाई जा रही है? नामीनेशन का अनलिमिटेड सिल-सिला रखा गया है। क्या ऐसे कांस्टीट्यूशन को और उसके तहत बनाई गई कोटे और कमेटियाँ को, डेमोक्रेटिक कहा जा सकता है?

यूनिवर्सिटी तो खुलनी ही चाहिए, लेकिन खाली इससे ही काम नहीं चलेगा। जरूरत इस बात की है कि एक हाई पावर कमेटी बनाई जाये जो इस एकट की खामियों को जल्दी स्टडी कर के इस बारे में मुअस्सर एमेंडमेंट्स की सिफारिश करे अगर जरूरत हो, तो एक नया बिल तैयार किया जाये। उस बिल में इस बात की गारंटी हो कि इस यूनिवर्सिटी का तारीखी कैरेक्टर, जिस का मैं ने जिक्र किया है, कायम रखा जायेगा। आज राइट रीएक्शनरीज मुसलमानों को, विद्यार्थियों को डरा रहे हैं और कुछ नादान स्टुडेंट्स उनके आला-ए-कार बन रहे हैं। वे लोग एक तरफ इस यूनिवर्सिटी को तबाह करने की कोशिश कर रहे हैं और दूसरी तरफ उन स्टुडेंट्स को तबाह करने की कोशिश कर रहे हैं। शायद हमारी सरकार और दूसरे जिम्मेदार साहबान इस बात पर गौर नहीं कर रहे हैं। न जाने वे अपने दफ्तर को ही सारी दुनिया समझ बैठे हैं।

जैसा कि मैं ने कहा है, जरूरत इस बात की है कि ऐसा बिल लाया जाय, जिस में

स्टुडेंट्स के जज़्बात की पूरी तरह बर्कसासी हो, जिसमें यूनिवर्सिटी के नैशनल और सैकुलर कैरेक्टर के साथ साथ उस के हिस्टारिकल कैरेक्टर को भी बरकरार रखा जाये । मैंने बिल पर तर्करीर करते हुए भी कहा था कि हमें इस बात का फ़क़ है कि यूनिवर्सिटी में हिन्दू और ईसाई कोई अजनबियत महसूस नहीं करते हैं । इस लिए उस के नैशनल और सैकुलर कैरेक्टर के साथ साथ उसके हिस्टारिकल कैरेक्टर को बरकरार रखने के लिए सरकार को जल्द से जल्द कदम उठाना चाहिए और इसके लिए एक हाई पावर कमेटी बनानी चाहिए ।

मुझे इस बात का ताज्जुब हो रहा है कि बाज़ पार्टियाँ—श्री मिश्र ने कई नाम लिये, लेकिन मैं नाम नहीं लेना चाहता हूँ ; कई और भी हैं—रातों रात अलीगढ़ मुस्लिम यूनिवर्सिटी की हमदर्द बन गई है । कल तक तो उनको अलीगढ़ मुस्लिम यूनिवर्सिटी पाकिस्तान का हिस्सा नज़र आती थी और उसमें पढ़ने वाला हर एक लड़का पाकिस्तानी नज़र आता था । लेकिन आज वे उस यूनिवर्सिटी और उसके स्टुडेंट्स के बड़े भारी हमदर्द बन गये हैं । उन्होंने कुछ लड़कों को गुमराह करके अपने साथ ले लिया है । लेकिन उन पार्टियों को खबरदार रहना चाहिये कि उनकी ये साजिशें ज्यादा दिन तक नहीं चल सकती हैं । क्या यह हकीकत नहीं है, कि इस बात को भुलाया जा सकता है कि इस यूनिवर्सिटी की तरक्की और हिफाजत के लिये तरक्की पसन्द कांग्रेसियों, कम्युनिस्ट पार्टी और खास तौर से श्रीमती इन्दिरा गांधी ने मजबूती के साथ कदम उठाये हैं और इससे

भी पहले मुल्क के रहनुमा, पंडित जवाहर लाल नेहरू और मौलाना अब्बुल कलाम आजाद ने इसकी खिदमत की है । वक्ती तौर पर शायद इस बात को भुला दिया जाए, लेकिन यह याद रखना चाहिये कि सी० पी० आई० और दूसरी तरक्कीपसन्द जम्हूरी अनासिर इस यूनिवर्सिटी की तरक्की के लिये बराबर लड़ते रहे हैं और आगे भी बराबर लड़ते रहेंगे । जो लोग आज स्टुडेंट्स के फस्टेशन और बेचैनी का फाँदा उठा कर बहुत फूल-मालायें पहन रह है, उनको बहुत जल्द मायूस होना पड़गा । मैं यही कह सकता हूँ कि हमारे वे भाई इस बात को खुद भी समझे । वे रीपब्लिकनरी फॉसिज जिस तरह आज इस यूनिवर्सिटी को फुटबाल बनाने की कोशिश कर रहे हैं, वह वक्त बहुत जल्द आ रहा है, जब वे लोग समझेंगे कि यह कितनी गलत बात है ।

अलीगढ़ मुस्लिम यूनिवर्सिटी को बन्द करने के लिये इस बार जो कदम उठाया गया, मैं समझता हूँ कि वह किसी तरह भी सही नहीं था । मैं आपकी याद दिला दूँ कि पिछले साल भी चन्द लड़कों के मुतालिवा करने पर इम्तहानात मुल्तवी कर दिये गये और इस तरह सैकड़ों नहीं, बल्कि हजार दो हजार लड़कों का मुस्तकबिल तवाह हो गया । इम्तहान इतने लेट हो गये कि वेकवत पर दूसरी जगह एप्लाई नहीं कर सके और दूसरे इम्तहान में नहीं बैठ सके । उस वक्त भी एडमिनिस्ट्रेशन ने यह कमजोरी दिखाई थी । अलीगढ़ में मुझे कितने ही लड़कों ने कहा कि चन्द लड़कों की आवाज

[श्री इसहाक सम्भली]

पर इम्तहानों को मुलतवी करके हमारे फ्यूचर को बर्बाद कर दिया गया। यूनिवर्सिटी इम्तहानों का इन्तजाम करती और देखती कि कितनी बड़ी तादाद में लड़के-लड़कियां इम्तिहान देने के लिये आते हैं। लेकिन सिर्फ बहाना बना कर इम्तहानों को मुलतवी कर दिया गया। इस बार भी इसी तरह किया गया है।

मुझे यह कहने में कोई तकल्लुफ नहीं है कि वजीरे तालीम ने जो बातें फरमाई हैं, उनमें कोई वजन नहीं है। आखिर अलीगढ़ यूनिवर्सिटी भी उसी मुन्क में है, जिसमें बनारस हिन्दू यूनिवर्सिटी, इलाहाबाद यूनिवर्सिटी, लखनऊ यूनिवर्सिटी और गुजरात यूनिवर्सिटी हैं। उन यूनिवर्सिटीज में क्या नहीं हो रहा है? बड़े बड़े महारानी तालीम ने, डा० चटर्जी, सरदार हरदित्त सिंह मलिक, डा० राधाकृष्णन और इस हाउस के मेम्बरान, श्रीमती सुभद्रा जोशी, श्री ए० के० गोपालन और श्री शशि भूषण, ने अलीगढ़ मुस्लिम यूनिवर्सिटी के स्टुडेंट्स के डिसिप्लिन को मिसाली डिसिप्लिन बताया है। मुझे ताज्जुब है कि इनडिसिप्लिन की आड़ लेकर यूनिवर्सिटी को बन्द कर दिया गया।

सिर्फ स्कूल खोलना ही काफी नहीं है। सरकार यूनिवर्सिटी को बिला-ताखीर खुलवाने और पूरी तैयारी के साथ इम्तहान कराने का ऐलान करे। मिनिस्टर साहब ने खुद कहा है कि हम वाइस-चांसलर को हर मुमकिन मदद देने के लिए तैयार हैं। मैं फौज की मदद का कायल नहीं हूँ। फौज की मदद की जरूरत

भी नहीं है। अगर जम्हूरी टीचर्स और स्टूडेंट्स के नुमायंदों को कान्फिडेंस में लिया जायेगा, तो इम्तहान कराने में कोई दुश्वारी पेश नहीं आयेगी।

वजीरे तालीम ने कहा है कि इस सिल-सिले में एक कमेटी बैठी है। मुझे डर है कि इम्तहान में फिर देर होगी और फिर लड़कों का साल बर्बाद होगा। मुझे डर है कि इम्तहान होने के बावजूद स्टुडेंट्स का साल बर्बाद होगा। इसलिए वाइस-चांसलर से बिला-ताखीर यह मुतालिबा करना चाहिए कि वह यूनिवर्सिटी को खोले और इम्तहानों का प्राप्तर इन्तजाम करें। हिन्दुस्तान की सारी जम्हूरित ताकतें इस बात में उनकी मदद करेंगी।

मैं जानना चाहता हूँ कि यूनिवर्सिटी में जो नाइन्साफियां हुई हैं, उनको दूर करने के लिए ओर एकट की खामियों को दूर करने के लिए सरकार एक हाई पावर कमीशन बनाने में क्यों देर कर रही है। वह इस बारे में कब ऐलान करेगी? यह तो कोई जवाब नहीं है कि अगर इसकी जरूरत हुई, तो उस पर गौर किया जायेगा।

मुझे मालूम है कि स्टुडेंट्स को जबर्दस्ती यूनिवर्सिटी से बाहर भेजा गया, यूनिवर्सिटी के अहाते में सौ बसें खड़ी की गई और स्टूडेंट्स को जाने के लिए कहा गया। लोग हक्के-बक्के रह गये। आखिर वहां पर क्या आफत आ गई थी?

जो चीजें बतलाई, एक्जीक्यूटिव कौंसिल वाली जिस इंसीडेंट का जिक्र किया जा रहा है स्टूडेंट्स ने मीटिंग कर के उसके बारे में माफी मांगी है। मैं गया हूँ अलीगढ़, मैंने देखा है।

انہوں نے معافی مانگی ہے، افسوس کا اظہار کیا ہے۔ سیکڑوں کی تاداد میں لڑکے گئے ہیں۔ جنہوں نے کہا کہ وہ امتحان دینا چاہتے ہیں۔ لیکن اسکا کوئی انتظام نہیں کیا گیا۔ تو میں چاہتا ہوں کہ سرکار اس بات کا اطمینان دے کہ وہ وائس چانسلر کو مہمراہ دے گی کہ جن لڑکوں کو وہاں پر جبر دہشتی بھیجا گیا ہے انکو اپنی کونویس بھیج کر واپس بلائے اور فوری طور پر ان کے امتحان کے لیے تہیاری کریں۔

[شری اسحاق سمبھلی (امروہہ) :

علی گڑھ یونیورسٹی کو بند کرنے کا جب اعلان کیا گیا تو اس کو شاید میں نے ہی نہیں بلکہ سبھی لوگوں نے بہت دکھ کے ساتھ سنا۔ مجھے یہ پہلے ہمارے بزرگ ساتھی مشر جی نے صاف طور پر کہا کہ اس کو بند کرنا کسی طرح مناسب نہیں۔ جو وجہ بتلائی گئی وہ کافی نہیں تھی۔ علی گڑھ مسلم یونیورسٹی کو بند کرنے کا سوال اکیلا سوال نہیں ہے۔ اس کے بارے میں پوری چیز کو دیکھا جائے۔ اس چیز کو دیکھا جائے کہ علی گڑھ مسلم یونیورسٹی ایکٹ جب یہاں پر لایا گیا۔ اس کو پاس کرایا گیا تو خود میں نے اور ہمارے رہنما اندرا جیٹھ گھتا نے صاف لفظوں میں یہ مطالبہ کیا تھا کہ یہ Demoralise نہیں ہے۔ اس کو Joint Select Committee میں بھیجا جائے۔ لیکن مجھے افسوس ہے کہ اس موشن کو مانا نہیں گیا۔

علی گڑھ مسلم یونیورسٹی کی جو حالت ہے اس کو آپ کو دیکھنا ہوگا۔ وہ قائم ہوئی مسلمانوں کو مادیات تعلیم سے واقف کرنے کے لئے ان میں مادیات تعلیم پھیلانے کے لئے یہ اس کا تاریخی کریکٹر رہا ہے۔ اس کے انتظام میں بھی مسلمانوں کی ناصرف بلکہ ایک زبردست اکثریت کی پوزیشن تھی۔ یہ اس کا تاریخی کریکٹر ہے جس کو آپ بھی مانتے ہیں۔ یہی وجہ ہے کہ مسلم کمیونٹی ہی نہیں بلکہ انصاف پسند ہندو بھی اس چیز کو ناپسند کرتے ہیں کہ کوئی ایسی چیز کی جائے جس سے مسلم کمیونٹی کو کوئی تکلیف پہنچے۔ اور وہ یہ سمجھے کہ ایک وہ ادارہ۔ ایک وہ انسٹیٹیوشن جس سے زبردست ان کی جذباتی تعلق ہے۔ لگاؤ ہے۔ اس میں کوئی دخل اندازی کر رہا ہے۔ چھری چلا رہا ہے۔

ایکٹ بناتے وقت ڈاکٹر گاجندرا گڈکر کی رپورٹ کا سہارا لیا گیا تھا۔ گاجندرا گڈکر کمیشن کی رپورٹ کوئی ایسی پاکیزہ اور مقدس رپورٹ نہیں تھی جس میں کوئی ترمیم ہی نہ کی جا سکتی ہو۔ وہ کوئی قدرانہ بائیبل یا گیتا نہیں ہے۔ جس کی ہر ایک بات کو ماننا لازمی ہے۔ میں سمجھتا ہوں کہ اس میں ایسی کٹلی ہی باتیں ہیں جو جمہوری نہیں کہی جا سکتی ہیں۔ جو ایتھو ریٹھریٹ

[شری اسحاق سمبھلی]

کہی جا سکتی ہیں۔ کہا وجہ ہے کہ جب سٹوڈینٹس یونین موجود ہے۔ تو سٹوڈینٹس کونسل بلائی جا رہی ہے۔ نو میڈیشن کا ان لمیٹڈ سلسلہ رکھا گیا ہے۔ کیا ایسے کانستٹیوشن کو اور اس کے تحت بلائی گئی کورٹ اور کمیٹیوں کو ڈیموکریٹک کہا جا سکتا ہے۔ یونیورسٹی نو کھلی ہی چاہیئے۔

لیکن خالی اس سے ہی کام نہیں چلے گا۔ ضرورت اس بات کی ہے کہ ایک ہائی پاور کمیٹی بلائی جائے جو اس ایکٹ کی کمیوں کو جلدی سٹیڈی کرے اس بارے میں میجر امینڈ میٹ کی سفارش کوہے اور اگر ضرورت ہو تو ایک نیا بل تیار کیا جائے۔ اس بل میں اس بات کی گارنٹی ہو کہ اس یونیورسٹی کا تاریخی کریکٹر جس کا میں نے ذکر کیا ہے قائم رکھا جائے گا۔ آج رائیٹ دی اکشیلر مسلمانوں کو، وندھارتھوں کو دے رہے ہیں اور کچھ نادان سٹوڈینٹس ان کے اعلیٰ کار بن رہے ہیں۔ وہ لوگ ایک طرف اس یونیورسٹی کو تباہ کرنے کی کوشش کر رہے ہیں۔ شاید ہماری سرکار اور دوسرے ذمہ دار صاحبان اس بات پر غور نہیں کر رہے ہیں نہ جانے وہ اپنے دفتر کو ہی ساری دنیا سمجھتی ہیں۔

جیسے کہ میں نے کہا ہے ضرورت اس بات کی ہے کہ ایسا بل لایا جائے جس میں سٹوڈینٹس کے جذبات کی

پوری طرح اگسی ہو جس میں یونیورسٹی کے نیشنل اور سیکولر کریکٹر کے ساتھ ساتھ اس کے ہسٹوریکل کریکٹر کو بھی برقرار رکھا جائے۔ میں نے بل پر تقریر کرتے ہوئے بھی کہا تھا کہ ہمیں اس بات کا فکر ہے کہ یونیورسٹی میں ہندو اور عیسائی کوئی اچلیت محسوس نہیں کرتے ہیں۔ اس لئے اس کے نیشنل اور سیکولر کریکٹر کے ساتھ ساتھ اس کے ہسٹوریکل کریکٹر کو برقرار رکھنے کے لئے سرکار کو جلد سے جلد قدم اٹھانا چاہیئے اور اس کے لئے ایک ہائی پاور کمیٹی بلانی چاہیئے۔ مجھے اس بات پر تعجب ہو رہا ہے کہ شری مشر ب کئی نام لئے لیکن میں نام نہیں لیما چاہتا ہوں کئی اور بھی ہیں۔ راتوں رات علی ڈوہ مسلم یونیورسٹی کے ہمدرد بن گئے ہیں۔ کل تک تو ان کو علی ڈوہ یونیورسٹی پاکستان کا حصہ نظر آتی تھی اور اس میں پڑھنے والا ہر ایک لڑکا پاکستانی نظر آتا تھا لیکن آج وہ اس یونیورسٹی اور اس کے سٹوڈینٹس کے بڑے بھاری ہمدرد بن گئے ہیں۔ انہوں نے کچھ لڑکوں کو گمراہ کر کے اپنے سانہ لے لیا ہے لیکن ان پارتیوں کو خبردار دہلا چاہیئے کہ ان کی یہ سازش زیادہ دن تک نہیں چل سکتی ہے۔ کیا یہ حقیقت نہیں ہے۔ کیا اس بات کو بھلایا جا سکتا ہے کہ اس یونیورسٹی کی ترقی اور

حفاظت کے لئے ترقی پسند کانگریسوں؟
 کمونسٹ پارٹی اور خاص طور سے
 شریعتی انداز گاندھی نے مضبوطی کے
 ساتھ قدم اٹھایا ہے اور اس سے بھی
 پہلے ملک کے دھما پلڈت جواہر لال
 نہرو اور مولانا ابولکلام آزاد نے اس
 کی خدمت کی ہے۔ وقتی طور پر
 شاید اس بات کو بھلا دیا جائے لیکن
 یہ یاد رکھنا چاہیئے کہ سی۔ پی۔
 آئی اور دوسرے ترقی پسند جمہوری
 عناصر اس یونیورسٹی کی ترقی کے لئے
 برابر لڑتے رہے ہیں اور آگے بھی برابر
 لڑتے رہیں گے۔ جو لوگ آج سٹوڈنٹس
 کے فرسٹیشن اور پی جینی کا فائیدہ
 اٹھا کر بہت بھول مالائیں ہیں وہ
 ہیں۔ ان کو بہت جلد مایوس ہونا
 پڑے گا۔ میں یہی کہہ سکتا ہوں کہ
 ہمارے وہ بھائی اس بات کو خود بھی
 سمجھیں۔ وہ ری ایکشنری فورسز جس
 طرح آج اس یونیورسٹی کو فٹ ہال
 بنانے کی کوشش کر رہے ہیں وہ وقت
 بہر۔ جلد جب وہ لوگ
 سمجھیں گے کہ یہ کتنی غلط بات ہے۔

علی گڑھ مسلم یونیورسٹی کو بند
 کرنے کے لئے اس بار جو قدم اٹھایا گیا
 میں سمجھتا ہوں کہ وہ کسی طرح
 بھی سہی نہ تھا۔ میں آپ کو یاد
 دلا دوں کہ پچھلے سال بھی چند
 لوگوں کے مطالبہ کرنے پر امتحانات
 ملتوی کر دیئے گئے اور اس طرح سینکڑوں

نہیں بلکہ ہزار، دو ہزار لوگوں کا
 مستقبل تباہ ہو گیا۔ امتحان اتنے
 لمبے ہو گئے کہ وہ وقت پر دوسری
 جگہ ایلائی نہیں کر سکے اور دوسرے
 امتحان میں نہیں بیٹھ سکے۔ اس
 وقت بھی ایڈمنسٹریشن نے یہ کمزوری
 دکھائی تھی۔ علی گڑھ میں مجھے کتنے
 ہی لوگوں نے کہا کہ چند لوگوں کی
 پرواز پر امتحانوں کو ملتوی کر کے ہمارے
 فوچر کو برباد کر دیا گیا۔ یونیورسٹی
 امتحانوں کا انتظام کرتی اور دیکھتی
 کہ کتنی بڑی تعداد میں لوگ لڑکھان
 امتحان دینے کے لئے آتے ہیں۔ لیکن
 صرف بھانا بنا کر امتحانوں کو ملتوی
 کر دیا گیا اس بار بھی اسی طرح
 کیا گیا ہے۔

مجھے یہ کہنے میں کوئی تکلیف
 نہیں ہے کہ وزیر تعلیم نے جو باتیں
 فرمائی ہوں کہ ان میں کوئی وزن
 نہیں ہے۔ آخر علی گڑھ یونیورسٹی بھی
 اس ملک میں ہے جس میں بنارس
 یونیورسٹی، الہ آباد یونیورسٹی، لکھنؤ
 یونیورسٹی اور گجرات یونیورسٹی ہیں،
 ان یونیورسٹیز میں کیا نہیں ہو رہا
 ہے۔ بڑے بڑے ماہرین تعلیم نے ڈائری
 چیٹر جی، سردار ہر دت سنگھ ملک،
 ڈائریکٹر ادا کیشن اور اس ہاؤس کے
 ممبران شریعتی سہدرا جوشی، شری
 اے۔ کے۔ گوپالن اور شری ششی بھوشن نے
 علی گڑھ مسلم یونیورسٹی کے سٹوڈنٹس

[شری اسحاق سمبھلی]

کے دستپان کو سٹالی دستپان بتایا ہے -
مجھے تعجب ہے کہ اندسپان کی
آز لے کر یونیورسٹی کو بند کر دیا گیا -

صرف سکول کھولنا ہی کافی نہیں
ہے - سرکار یونیورسٹی کو بلا تاخیر
کھلوانے اور پوری تیاری کے ساتھ امتحان
کرنے کا اعلان کرے - ماسٹر صاحب
نے خود کہا ہے کہ ہم وائس چانسلر
کو ہر ممکن مدد دینے کے لئے تیار
ہیں - میں فوج کی مدد کا قائل
نہیں ہوں - فوج کی مدد کی ضرورت
بھی نہیں ہے اگر جمہوری تھپچرز اور
سٹوڈینٹس کے نمائندوں کو کونفیڈینس
میں لیا جائیگا تو امتحان کرنے میں
کوئی دشواری پیش نہیں آئے گی -

وزیر تعلیم نے کہا ہے کہ اس سلسلے
میں ایک کمیٹی بیٹھی ہوئی ہے -
مجھے قہر ہے کہ امتحان میں پھر دیر
ہوگی - اور پھر لوگوں کا سال برباد ہوگا -
اس لئے وائس چانسلر سے بلا تاخیر یہ
مطالبہ کرنا چاہئے کہ وہ یونیورسٹی کو
کھولیں - اور امتحانوں کا پراپر انتظام
کریں - ہندوستان کی ساری جمہوری
طاقتیں اس بات میں ان کی مدد
کریں گی -

میں جاننا چاہتا ہوں کہ
یونیورسٹی میں جو نا انصافیاں
ہوئیں ہیں ان کو دور کرنے کے لئے اور
ایکٹ کی خامیوں کو دور کرنے کے لئے

سرکار ایک ہائی پاور کمیشن پلانے
میں کہا دیر کر رہی ہے وہ اس بارے
میں کب اعلان کریگی - یہ تو کوئی
جواب نہیں ہے کہ اگر اس کی ضرورت
ہوئی تو اس پر فور کیا جائیگا -

مجھے معلوم ہے کہ سٹوڈنٹس کو
زبردستی یونیورسٹی سے باہر بھیجا
گیا - یونیورسٹی کے احاطے میں 100
بسیں کھڑی کی گئیں اور سٹوڈینٹس کو
پانے کو کہا گیا - اگر ہکے ہکے وہ
گئے - آخر وہاں پر کیا آفت آ گئی تھی
جو چور بتلائی - اینگریکیتو کونسل
والے جس انسپیکٹ کا ذکر کیا جا
رہا ہے - سٹوڈینٹس نے میٹلک کرکے
اس کے بارے میں معافی مانگی ہے
میں کہا ہوں علی گڑھ - میں نے دیکھا
ہے - انہوں نے معافی مانگی ہے
افسوس کا اظہار کیا ہے سٹوڈنٹس کی
تعداد میں لڑکے گئے ہیں -
جلہوں نے کہا کہ وہ امتحان دینا
چاہتے ہیں لیکن اس کا کوئی انتظام
نہیں کیا گیا - تو میں چاہتا ہوں کہ
سرکار اس بات کا آشواشن دے کہ وہ
وائس چانسلر کو مشورہ دے گی کہ
جن لڑکوں کو وہاں پر زبردستی بھیجا
گیا ہے ان کو اپنی کلوپس بھیج کر
واپس بلائیں اور فوری طور پر ان کے
امتحان کے لئے تیار کریں -]

PROF. S. NURUL HASAN: Since very few questions have been put to me and it was used as an occasion by my hon. friend....

श्री इस्हाक सम्भली : अध्यक्ष महोदय मैं ने अपनी मादरी जवान में अपनी बात कही है और मंत्री महोदय की भी मादरी जवान वही है। अच्छा होगा वह उमी में जवाब दें।

श्री एस नुरुल हुसन : पहली बात तो मैं वह लेना चाहता हूँ जो सब से आखरी की बात मौलाना साहब ने फरमायी। वह यह कि तालिबडल्मों ने माफी मांगी। मैं आप की इजाजत से वह खन पढ़ना चाहता हूँ जो माफी का एग्जीक्यूटिव कौंसिल के मेम्बरों के लिय पण किया गया :

"The Aligarh Muslim University Students' Union, Aligarh

3rd April, 1973.

Dear Sir,

"A meeting of the Executive Committee of the AMU Students' Union was held on 3rd April, 1973. The meeting took serious note of the demonstration staged by the students before the hon. members of the Executive Council of the University on 3-3-73 in connection with the demand of the resignation of Dr. Rais Ahmed from the post of Dean, Faculty of Science. The Executive Committee noted with regret that some indecent happenings took place during the demonstration which might have hurt the feelings of the hon. members of the Executive Council.

The Executive Committee of the Union unanimously resolved to apologise to, all members of the Executive Council for anything which might have injured the feelings of our elders.

The Executive Committee further hope that the hon. members would pardon the students as it was never intended to insult them or humiliate them."

This letter was handed over to the Vice-Chancellor on 5th April, at about 1 P.M., that is to say, after the University had been closed. It is signed "Mushtaq Ahmed Khan, President." Mr. Mushtaq Ahmed Khan is not the President, but the Vice-President of the Union. I am informed by the Vice-Chancellor that the President of the Union was in fact present in town on the 3rd of April. Therefore, one cannot rule out the possibility that this is an afterthought after the University had been closed. Otherwise, this discrepancy and the fact that it was not handed over before the Vice Chancellor ordered the closure of the University and kept on requesting the students to see the folly of their action cannot be explained.

PROF. MADHU DANDAVATE (Rajapur): What is the discrepancy? Between the President and Vice-President?

PROF. S. NURUL HASAN: Yes.

PROF. MADHU DANDAVATE: He has got rid of the 'Vice'.

श्री श्यामनन्दन मिश्र : इतनी टेक्निकल बातों में जाना (व्यवधान))

PROF. S. NURUL HASAN: The running commentary of the hon. member is very interesting. But I wish to avoid answering that because I have to answer the other hon. member.

SHRI SHYAMNANDAN MISHRA: You cannot get away from certain things which are before the House itself. It is not a dialogue between you and the hon. member.

PROF. S. NURUL HASAN: He can keep on showing his temper. He is

[Prof. S. Nurul Hasain]

most welcome to do so. I hold him in great affection and esteem. But I do not yield.

SHRI SHYAMNANDAN MISHRA:
It is lack of culture on your part to say....

PROF. S. NURUL HASAN: That I am prepared to concede.

The important thing is that everything is hedged in with if and buts. It is not even a clear-cut case of apology after the closure of the University.

श्री इसहाक सभली: और क्या नाम रगड़वाएंगे उन से ? और क्या माफी मंगवाएंगे ?

प्रो० एस नूरुल हुसन : यही कि हम ने गलती की, माफ कीजिए । किस्सा खत्म हुआ . .

श्री इसहाक सभली : दूसरी यूनिवर्सिटीज में प्रोफेसर साहब, इतनी भी माफी नहीं मंगवा सके आप ।

श्री एस० नूरुल हुसन : देखिए मौलाना साहब, आप जो बात फरमा रहे हैं मुझे अफसोस के साथ कहना पड़ा जो मैं नहीं कहना चाहता था । अफसोस के साथ मुझ से वह न कहला-वाइए । आप ने जिम तरह से तकरीर की उसी तरह से मुझे भी कहना पड़ेगा तो वह न मेरे लिए मुनासिब है न इस सदन के लिए मुनासिब है । जो बुनियादी ईशू जो एग्जीक्यूटिव कौंसिल के सामने इस किस्म की नामुनासिब हरकतें इन्होंने की उस के ऊपर कोई बात उन्होंने नहीं की माफी की । यह भी एक बात काबिले गौर है । इसी वजह से

श्री इसहाक सभली : खुशामद की भी कोई हब होती है ।

प्रो एस नूरुल हुसन : इस के बाद एग्जी-क्यूटिव कौंसिल ने जब पूरे मसले पर गौर किया तो वही बाड़ी जिस का मजाज था जिस का मजाज एजुकेशन मिनिस्टर नहीं था मानने न मानने का, उस एग्जी-क्यूटिव कौंसिल ने उस को नहीं माना ।

यह भी सवाल उठाया गया है कि इम्तहानों के मुलतबी कर देनेसे बहुत से तालिब इल्मों का नुकसान हुआ । बिल्कुल दुस्त है और मैंने जो अपना बयान सदन के सामने पेश किया उसमें इसी पर अफसोस और मालाल का इजहार किया । मैं बिल्कुल इम मे मुतफिक हूँ । स्टूडेंट्स यूनियन की लीडरशिप ने वद-किस्मती से पिछली मई से लेकर के अब तक, बार बार, बार बार इम्तहान मुलतबी करवाए, बावजूद इसके कि इस की वजह से ज्यादातर तालिबा का नुकसान हुआ । जो लड़कियां या लड़के सेमेस्टर का इम्तहान दे रहे थे जिन का कि सेमेस्टर का इम्तहान अब खत्म हुआ है और दूसरे सेमेस्टर की पढ़ाई, अप्रैल का महीना शुरू हो गया था, पढ़ाई शुरू तक नहीं हुई थी उन का जो नुकसान हुआ है वह नुकसान बड़ी मुश्किल में शायद कोई खाम तरकीब ये लोग सोच कर के निकाल ले तो शायद साल बच जाय वरना मेरी समझ में अभी तक कोई हल नहीं आता कि यह जो नुकसान हुआ है यूनिवर्सिटी बन्द करने से नहीं बल्कि पिछली मई से अब तक स्टूडेंट्स यूनियन की लीडरशिप ने जो बार बार इम्तहान मुलतबी करवाए, उस की वजह से वह पूरा हो सके । अब यह कोशिश हो रही है कि इन नुकसान को जितना कम किया जा सकता है उस को उतना कम किया जाय क्यों कि बहुत से बेगुनाह लड़के और लड़कियां जिन जिन मुश्किलों से अपनी तालीम हासिल कर रहे हैं उस का एहसास हम सब को है और मुझ को खास तौर पर वहां इतने दिन खिदमत करने के नाते है । इस लिए उन की मुश्किलों को दूर करने के लिए हर मुमकिन कोशिश मुझे यकीन है यूनिवर्सिटी करेगी ।

श्री इसहाक सम्भली : उन इम्तहानों को मुलतवी, कराने की जितनी जिम्मेदारी स्टूडेंट्स की थी उतनी ही यूनिवर्सिटी एडमिनिस्ट्रेशन की भी थी ।

प्रो० एस० नुरुल हसन : मौलाना साहब ने फरमाया कि जिस वक्त पार साल यह एकट यहां आया था उस वक्त मेरे मोहतरिम दोस्त श्री इन्द्रजीत गुप्ता ने कहा था कि इस को सलेक्ट कमेटी में भेज दो . . .

श्री जगतिनय बसु (डायमण्ड हार्बर) : पब्लिक ओपिनियन के निचे सर्कुलेट करने का प्रोपोजल भी था ।

प्रो० एस० नुरुल हसन : वह आप ने किया था ।

मैं दूसरों सदन की कार्यवाही यहां पढना नहीं चाहता हूं लेकिन वह इस वक्त मेरे पास है, उन की ही पार्टी के एक रहनुमा ने 24 मई को इसराय किया कि फौरन लाओ, अभी लाओ, अभी पांच छः दिन बाकी है

श्री इसहाक सम्भली : और सलेक्ट कमेटी को भेजो ।

प्रो० एस० नुरुल हसन : नहीं, यह उन्होंने नहीं कहा ।

चूंकि उस सदन की कार्यवाही पढ़ने का तरीका नहीं है इसलिए मैं पढ़ नहीं रहा हू लेकिन वह मेरे पास मौजूद है ।

श्री इन्द्रजीत गुप्त (अयोपुर) : उन की बात आप को पसन्द आई । मेरी बात आप को पसंद नहीं आई ।

प्रो० एस० नुरुल हसन : की मेरे कल के बाद उस ने जफा से तौबा ।

उस जूद पशेमां का पशेमां हो जाना ॥ पहली बात कही वह मान ली । तो कहने लगे

कि वह आप ने क्यों मानी ? अगर पहले आप फरमाते अपनी बात और मैं मान लेता तो फिर मैं कह देता कि मैं दूसरे की बात मानी वह गलत किया । लेकिन मैं आप को यकीन दिलाता हूं कि मैं सब माननीय सदस्यों का निहायत आदर करता हू और आप ही लोगों के मशयिरा से हकतुल इमकान मानने की कोशिश करता हूं ।

फिर मौलाना साहब ने फरमाया तारीखी किरदार के बारे में । उस से बिलकुल मुत्तफिक हूं । सरकार ने वारे बार कहा है कि इस का तारीखी किरदार बरकरार रखा जायगा और रखा गया है । यह मैं आपसे , जनाबवाला , दस्तवस्ता अर्ज कर रहा हू । इस के तारीखी किरदार को बरकरार रखा गया है और इस का असली तारीखी किरदार वह है, जिस का जिक्र मौलाना साहब ने अभी किया है — नई रौशनी और नई तालीम से दिमागों की खिड़कियों का खोलना यही असली चीज है, जिस की तरफ आपने इशारा किया है । मैं यकीन दिलाता हूं कि जो कानून आपने पाम किया है

13.00 hrs.

श्री इयाम नन्दन मिश्र : यह कौन सी तारीखी बात हुई ?

प्रो० एस० नुरुल हसन : तारीखी बात यह हुई—जब 1872 में सर सैयद अहमद खां मरहूम ने कमेटी बनाई थी कि यूनीवर्सिटी के कालिज का कायम किया जाय तो उस का दस्तूर कुछ इस तरह से शुरू होता था — मैं याद-दाश्त के मुताबिक कह रहा हूं, शायद गलत नहीं होगा—इस कमेटी के मੈम्बरों की तादाद मौइयन नहीं होगी, जैसे जस इस इरादे में हिन्दू तुलवा दाखिल होंगे, उसी हिसाब से हिन्दू हजरात भी शामिल किये जायेंगे . . .

श्री इसहाक सम्भली : हम उस को आज भी बेल-कम करते हैं। लेकिन जो उस का हिस्टोरिकल करैक्टर रहा है, उस के बारे में कुछ अन्देश पैदा हो गया है, उस के बारे में एंशोरेंस आनी चाहिये।

अध्यक्ष महोदय : मैं आप दोनों की तकरीरों के इखतिताम के मुन्तजिर हूँ।

प्रो० एस० नुरल हसन : मौलाना साहब ने जो बातें उठाई हैं, उन सब का जवाब मैं ता० 6 को इस सदन में दे चुका हूँ, इस लिये मुझे दोबारा अर्ज करने की जरूरत नहीं है।

श्री इन्द्रजीत गुप्त : चूँकि मेरे नाम का जिक्र किया गया है, इस लिये आप की इजाजत से मैं उस का क्लैरिफिकेशन करना चाहता हूँ। वह बिल पहले उस सदन में आया था, उस के बाद इस सदन में आया। जब इस सदन में उस पर बहस चल रही थी, आप को याद होगा कि बहस के चलते चलते 84 अमेण्डमेंट्स इन्होंने खुद यहाँ पर पेश की थी मिनट-मिनट पर अमेण्डमेंट्स आती जा रही थीं, जिन को पढ़ कर हजम करने का वक्त भी नहीं था। इस लिये मैंने कहा था कि इस को सिलैक्ट कमेटी में भेजा जायें। वह सवाल उस हाउस में पैदा नहीं होता है।

श्री रामकंवर (टोक) : अध्यक्ष महोदय अलीगढ़ यूनिवर्सिटी बन्द कर दी गई है मेरी समझ में यह सब बिना सोचे-समझे किया गया है। मंत्री महोदय ने कहा कि वहाँ के उपकुलपति ने बन्द करने की कार्यवाही के बार में रिपोर्ट दी है, लेकिन, अध्यक्ष महोदय, ऐसे कितने ही केन्द्रीय विश्वविद्यालय हैं, जिन में कल तक हुए हैं, लेकिन उन को बन्द नहीं किया गया है। इस लिये अलीगढ़ विश्वविद्यालय के बन्द करने का मैं विरोध करता हूँ।

हमारी स्वतन्त्र पार्टी का मद्रास में ता० 13, 14, और 15 को तीन दिन का सम्मेलन हुआ है, उस में हमारी पार्टी ने यह प्रस्ताव पास किया है कि अलीगढ़ विश्वविद्यालय के बारे में जो कानून पिछले सेशन में पास हुआ है, उसमें दोबारा संशोधन होना चाहिये। जब से वह एक्ट पास किया है तभी से जितने केन्द्रीय विश्वविद्यालय हैं, उन के छात्रों और अध्यापकों में असंतोष पैदा हो गया है। इस लिये मैं मंत्री महोदय से कहना चाहूँगा कि पिछला जो एक्ट पास किया गया है, उस में फिर संशोधन किया जाय—इस में सरकार को यह नहीं देखना चाहिए कि संशोधन करने से हमारी कोई तौहीन होती है, क्योंकि आप को इस देश को चलाता है। मंत्री महोदय ने अभी जो वक्तव्य दिया है, उस में इस बात को माना है कि वह विधेयक जल्दी में पास किया गया था, इस लिये उस में कुछ कच्चा काम रह गया था। इस लिये आप दोबारा संशोधन करके उस को पास कीजिए ताकि छात्रों और अध्यापकों में जो असन्तोष बढ़ रहा है, वह ठीक हो सके।

दूसरी बात — मैं यह कहना चाहता हूँ कि जितने केन्द्रीय विश्वविद्यालय हैं, उन सब में एक सा कानून होना चाहिए। हमारी पार्टी की मांग है कि उन सब में एक सा कानून होना चाहिए ताकि बार-बार झगड़े की नाबत न आये—मैं उम्मीद करता हूँ कि मंत्री महोदय इस के बारे में मोत्र समझ कर जवाब देंगे।

प्रो० एस० नुरल हसन : अध्यक्ष जी, माननीय सदस्य ने दो तज्ज्ञीय पेश की हैं, कोई स्पष्टीकरण मुझ से नहीं मांगा है। जहाँ तक पहले सवाल का तालुक है, उस के बारे में ता० 6 को मैं बहुत कुछ कह चुका हूँ। जहाँ तक दूसरे सवाल का तालुक है—सब केन्द्रीय विश्वविद्यालयों में एक तरह का शासन होना चाहिए.....

श्री इसराफ सभली : चारों के लिए एक साथ एक सा कानून आये। यह न हो कि पहले इस के लिए, फिर उस के लिए।

प्रो० एस० नूरुल हसन : करीब-करीब इस वक्त भी केन्द्रीय विश्वविद्यालयों के कास्टीट्यूशन की जो बेसिक चीज है, वह एक ही तरह की है, लेकिन बाज़ विशेषताएँ हर विश्वविद्यालय की होती हैं, उन तारीखी विशेषताओं को हम बरकरार रखना चाहते हैं और जहाँ तक मैं समझता हूँ पूरे सदन में यह फीनिंग है कि यह रहना चाहिए।

श्री इसराफ सभली : बनावट के लिए आज तक नहीं आया।

(Interruptions).

MR. SPEAKER: Regarding the textile workers' strike, I have not admitted the adjournment motion. But, I am allowing, a calling attention motion on this. This matter has been raised in this House from time to time, and I have allowed it a number of times. I think that I have allowed it for three or four times in the last two weeks. The Minister, I think, was asked to reply at the time of the debate on Demands for Grants of the Commerce Ministry.

I shall look into it and see that your wishes are conveyed to the Minister that he should come out with some statement about the latest position.

(Interruptions)

MR. SPEAKER: About textile strike I had allowed a calling attention motion, but that day you said that there would be no use of a calling attention motion. Now you have come for that. You forget what you said the other day.

(Interruptions).

अध्यक्ष महोदय : जो मर्जी करिये। आप का काम कुछ बन जाये तो अच्छा ही है।

12.06 hrs.

PAPERS LAID ON THE TABLE

ANNUAL ACCOUNTS AND AUDIT REPORT OF ALL-INDIA INSTITUTE OF MEDICAL SCIENCES, NEW DELHI.

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (SHRI A. K. KISKU): On behalf of Shri Khadilkar.

I beg to lay on the table a copy of the Annual Accounts (Hindi and English versions) of the All India Institute of Medical Sciences, New Delhi, for the year 1970-71 together with the Audit Report thereon, under sub-section (4) of section 18 of the all India Institute of Medical Sciences Act, 1956. [Placed in Library. See No.—LT—4796/73.]

ANNUAL REPORT OF NATIONAL COOPERATIVE DEVELOPMENT CORPORATION, NEW DELHI

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASHEB P. SHINDE): I beg to lay on the table a copy of the Annual Report (Hindi and English versions) of the National Cooperative Development Corporation, New Delhi, for the year 1971-72, under sub-section (3) of section 14 of the National Cooperative Development Corporation Act, 1962. [Placed in Library. See No. LT-4797/73.]

12.07 hrs.

ARREST OF MEMBERS

MR. SPEAKER: I have to inform the House that I have received the following telegram, dated the 12th April, 1973, from the Station House Officer, Police Station, Barwah:—

"I have to inform you that Shri R.V. Bade, Member, Lok Sabha, was arrested today, the 12th April, 1973, at 18.20 hours, at Barwah Police Station, for violating the Madhya Pradesh Wheat (Restriction

on Movement by rail, road, water) Order, 1973. He is being kept in custody for failure to furnish bail."

वहां कैसे चले गए ? उनको तो यहां आना चाहिए था ।

श्री अटल बिहारी वाजपेयी (ग्वालियर):

उनको पकड़ा क्यों गया ? शायद खाने के लिए थोड़ा सा अनाज एक जगह से दूसरी जगह ले जा रहे थे। इस तरह के आदेश जारी किए गए हैं कि एक जिले से दूसरे जिले में अनाज नहीं जा सकता है। अमरीका से धनुरा मिना हुआ माइलो हिन्दुस्तान में आ सकता है लेकिन यहां एक जिले से दूसरे जिले में अनाज नहीं जा सकता है ? आपने कहा क्यों चले गए, इसलिए मैं ने बताया ।

अध्यक्ष महोदय : आप अच्छा करेंगे, आप खुद वहां न जायें ।

I have to inform the House that I have received the following telegram, dated the 13th April, 1973, from the Superintendent of Police, Ratlam, Madhya Pradesh:—

"Dr. Laxminarayan Pandeya, Member, Lok Sabha, was arrested in Crime No. 25/73 of Police Station Ringned, under the Essential Commodities Act, today, the 13th April, 1973, at 14.00 hours, and produced before the Court immediately. He is sentenced till rising of Court."

12.09 hrs.

ESTIMATES COMMITTEE

THIRTY-SECOND REPORT

SHRI KRISHNA CHANDRA HALDAR (Ausgram): I beg to present the Thirty-second Report of the Estimates Committee on the Ministry of Steel and

Mines (Department of Steel) regarding action taken by the Government on the recommendations contained in their Twentieth Report on Planning, Development, Production, Distribution etc., of Iron and Steel and Ferro-Alloys.

12.09 hrs.

NATIONAL COOPERATIVE DEVELOPMENT CORPORATION (AMENDMENT) BILL*

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE): Sir, I beg to move for leave to introduce a Bill to amend the National Cooperative Development Corporation Act, 1962.

MR. SPEAKER: The question is:

"That leave be granted to introduce a Bill to amend the National Co-operative Development Corporation Act, 1962".

The motion was adopted.

SHRI ANNASAHEB P. SHINDE: I introduce †the Bill.

13.14 hrs.

RE. POLICE FIRING ON WORKERS IN BOKARO

MR. SPEAKER: Shri Jyotirmoy Bosu,

SHRI JYOTIRMOY BOSU (Diamond Harbour): I have received a telegram which is very alarming, from Bokaro. It reads thus:

"Central Reserve Police and Bihar Military Police firing at Bokaro Steel killing 10 and injuring 40 workers Police HSL management collaborated

*Published in Gazette of India Extraordinary Part II, Section 2, dated 16-4-73.

†Introduced with the recommendation of the President.

contractor for non-payment retrenchment—S. K. Banerjee”.

The Minister is present and I shall be grateful if you could kindly ask the minister to make a statement on this because it is a very disturbing telegram.

THE MINISTER OF STEEL AND MINES (SHRI S. MOHAN KUMAR MANGALAM): Sir, the genesis of the trouble which climaxed in the unfortunate police firing in Bokaro on 11-4-73 was the retrenchment by Shri Gaya Prasad, a contractor employed by Hindustan Steel Works Construction Limited, of 150 workers on the ground of their being rendered surplus with effect from 11th April. This contractor had simultaneously charge-sheeted four masons, namely, Jumrati, Amin, Reazul and Hiralal for allegedly instigating others for creating trouble. The workers who resented these actions of the contractor approached the Industrial Relations Department of Hindustan Steel Works Construction Limited at about noon on the 11th April 1973 to sort out their demands relating to incentive bonus, house rent, conveyance facility, leave etc. before their retrenchment by the contractor.

It is reported that while the workers were still in the vicinity of the office of the Hindustan Steel Construction Limited Office, they accosted and surrounded the contractor Gaya Prasad. Police from the Maraphari Police station, which is hardly 100 yards away, on hearing about this development arrived at the spot and tried to control the situation. Finding the situation deteriorating, the officer in charge of the Police Station, Shri Dhanesh Upadhyaya, sent for the resident Magistrate and force which were stationed at the police station nearby in connection with the Ramnavami festival. The Magistrate did his best to maintain order and persuade the crowd to disperse but failed. He then

arrested four of their leaders. Thereupon the crowd became more restive and not only rescued the arrested persons but also man-handled the police personnel and the Resident Magistrate. The Magistrate then declared the crowd unlawful and ordered it to disperse and eventually had to resort to lathi charge. The workers, however, retaliated by resorting to stone throwing. They also badly manhandled the officer in charge, Shri Dhanesh Upadhyaya. The crowd further moved towards the police station and heavily brickbatted the same and damaged two police vehicles parked nearby. It was this that compelled the police to open fire.

In all sixteen rounds, eight from inside the police station office and the verandah of the police station and the remaining eight rounds from near the gate leading into police station compound, were fired. As a result of the firing, one Suresh Munda (an Adivasi worker of contractor Gaya Prasad) was killed at the spot and three others namely, Jamaluddin (a mason of Gaya Prasad), Mr. Isa Khan (a HSCL mason working in hot rolling mills) and Darupadi (an adivasi reza of Gaya Prasad) sustained bullet injuries. Eleven other persons—five workers of Gaya Prasad and four employees of HSCL, including one Assistant Divisional Engineer (Structural), one BSL employee and one resident of Campazl area, sustained various other injuries. All these injured persons have been admitted into the hospital at Bokaro Steel. The condition of Jamaluddin (having a bullet injury) and Nandu Thakur, who sustained a head injury, is said to be serious. Amongst the police personnel, besides the officer in charge, Shri Dhanesh Upadhyaya, who has sustained serious injuries, one Havildar and seven constables are said to have sustained injuries. Shri Upadhyaya is admitted to the Government hospital at Dhanbad for treatment. It is rumoured that the contractor Gaya Prasad too has sustained injuries but he is so far not available.

[Shri S. Mohan Kumaramangalam]

The necessary precautionary action has been taken by the law and order authorities. So far, sixteen persons have been arrested. A Peace Committee has also been formed. The Deputy Commissioner, Chhotanagpur Division, has visited this place. The Chief Secretary and the I.G. of Police were expected to visit Bokaro yesterday.

I must express my sorrow at the loss of life in this incident. The build-up of Bokaro the last two years has been a matter of satisfaction for the country as a whole and in this background this incident is doubly unfortunate. Hon. Members will appreciate that the maintenance of law and order is essentially a State subject and the question of the form and character of any inquiry into the circumstances of the firing will have to be decided by the Government of Bihar.

SHRI JYOTIRMOY BOSU: The telegram says: ten killed and 41 injured whereas the Minister says one killed and 12 injured. Who is speaking the truth? I have a feeling that the Minister is making an under statement.

SHRI S. MOHAN KUMARAMANGALAM: I can only say that I am trying to speak the truth.

13.20 hrs.

DEMANDS *FOR GRANTS, 1973-74—
CONTD.

MINISTRY OF IRRIGATION AND POWER—
Contd.

MR. SPEAKER: The House will now take up further discussion and voting of the Demands for Grants under the control of the Ministry of Irrigation & Power. Shri Bibhuti Mishra will continue his speech.

श्री बिभूति मिश्र (मोतीहारी) :

अध्यक्ष जी उस दिन जब मैं बोल रहा था तो एक बड़ी दुखद घटना हो गई हम लोगों के साथी श्री तेजासिंह स्वतंत्र का स्वर्गवास हो गया, उस के लिए हम सभी दुखी हैं। इसीलिए उस दिन सदन की कार्यवाही भी रोक दी गई।

मैं उस दिन जो कह रहा था उस में एक बात यह थी कि गंडक योजना के ऊपर 150 करोड़ रुपया खर्च होगया नेपालसे उसका सम्बन्ध है, उत्तर प्रदेश से उस का सम्बन्ध है और बिहार से उस का सम्बन्ध है तो केन्द्रीय सरकार उसको अपने हाथ में लेकर स्वयं बनायें। अगर केन्द्रीय सरकार उसको नहीं लेना चाहती है तो बिहार गवर्नमेंट को उदारतापूर्वक पैसा दे ताकि जल्दी से जल्दी गंडक योजना बन सके।

उसी प्रकार मे मैं चाहूंगा कि केन्द्रीय सरकार कोसी योजना को भी अपने हाथ में ले ले क्योंकि बिहार गवर्नमेंट की ताकत के बाहर की बात है। कोसी योजना को भी केन्द्रीय सरकार अपने हाथ में लेकर बनाये जिसकी मांग बहुत दिनों से चली आ रही है। एक बात मैं और बतलाना चाहता हूं कि बिहार में गंडक योजना में जो लोग काम करते हैं वह चाहते हैं कि यह योजना धीरे धीरे चलती रहे ताकि उनका एम्प्लायमेंट लगा रहे। अगर उनका एम्प्लायमेंट लगा रहेगा तो काम चलता रहेगा इसलिए मैं चाहता हूं केन्द्रीय सरकार इसके ऊपर भी ध्यान दे ताकि जल्दी से जल्दी काम हो जाये। उस में बहुत से अच्छे आदमी हैं, इंजीनियर हैं, कार्यकर्ता हैं। लेकिन उस में ऐसे लोग भी हैं कि जिनके लिये मैं ने कहा था कि एक इवैल्युएशन कमेटी बनायी जाय तो यह देखे कि जितना रुपया खर्च हुआ है उतना

*Moved with the recommendation of the President.

काम भी हुआ है या नहीं। केन्द्रीय सरकार का पैसा लगता है, वह इस की जांच नहीं करते हैं। बिहार सरकार इस काम को कर नहीं रही है, इसलिये जांच कराने का काम केन्द्रीय सरकार का ही है। जब ज्यादा खर्चा बढ़ जायगा तो किसानों से बैटरमेंट लैवी ली जायगी जिस से किसान परेशान होंगे और फिर एजीटेशन होगा तो सरकार को ला ऐंड आर्डर मेंटेन करने के लिये कार्य-वाही करनी पड़ेगी। इसलिए इस को केन्द्रीय सरकार ले ले और एक इवैल्यूएशन कमेटी कायम करे ताकि पता चले कि जो रुपया खर्च हुआ है वह सही हुआ है कि नहीं।

हमारा बिहार प्रान्त दूसरा सब से बड़ा प्रान्त है। सेन्ट्रल गवर्नमेंट का शायद ही वहां कोई दफतर होगा। एक ईस्टर्न जोन इलेक्ट्रिसिटी टेक्नोलॉजी आफिस पटना में है उस को आप कलकत्ता ले जा रहे हैं। आप देखिये पटना में इस के अलावा और कोई केन्द्रीय सरकार का आफिस नहीं है, उस को भी आप कलकत्ता ले जा रहे हैं। इस का नतीजा यह होगा कि बिहार में एजीटेशन होगा उस से सरकार को दिक्कत होगी। इसलिए सरकार के सभी दफतर हिन्दुस्तान में जहां जहां हैं वहां आवादी के अनुसार या आवश्यकता के अनुसार उन दफतरों को रखें, और सरकार इस दफतर को पटना से न हटाये। इस सम्बन्ध में मेरे पास एक चिट्ठी आयी है, श्री पूर्णेन्दु नारायण सिन्हा की, जो एम० एस० सी० है, उन्होंने लिखा है कि यह दफतर ले जाया जा रहा है।

दूसरी बात मुझे यह कहनी है कि भारत में बिजली का रेट सारे देश में ए० सा होना चाहिये। किसी में कम और किसी में ज्यादा नहीं होना चाहिए। इलेक्ट्रिसिटी का मामला कानकरेंट लिस्ट में है, स्टेट गवर्नमेंट और केन्द्रीय सरकार, दोनों से सम्बन्ध रखना है। इसलिये केन्द्रीय सरकार को भारत में एक

सा बिजली का रेट रखना चाहिए। इस चीज की मांग मैं बहुत दिनों से कर रहा हूँ। अगर किसी सूबे में ज्यादा है और किसी में कम है तो जिन में ज्यादा है उस को केन्द्रीय सरकार पैसा दे कर के सबसिडाइज करे और सूबों में जहां कम है, उतना ही दूसरी जगह भी लिया जाय ताकि वहां के किसानों को राहत मिले।

वाटर लागिंग और फ्लड कंट्रोल का काम बड़ा भयानक हो गया है। वाटर लागिंग गंडक योजना की वजह से हो गया है और हमारे यहां उत्तर में जितनी नदियां हैं सारी हिमालय पहाड़ से निकलती हैं और वहां से निकल कर फ्लड कर देती हैं। मंत्री जी कोई योजना बना रहे हैं जिस के अनुसार पटना से गंगा-कावेरी का मिलान होगा। उस में पता नहीं 50 अरब रु० खर्च होगा या 100 अरब रु० खर्च होगा और पता नहीं हमारे और आप के जीवन काल में वह काम पूरा होगा कि नहीं, लेकिन आज फिलहाल ऐसी हालत है कि हिमालय से नदी निकल कर उत्तर बिहार को फ्लड कर देती हैं और फिर दक्षिण बिहार के हिस्से को भी फ्लड कर देती है। इसलिये मैं चाहूंगा कि सरकार जल्दी से जल्दी फ्लड कंट्रोल का इन्जाम करे ताकि सरकार का जो पैसा लगता है हर साल फ्लड रोकने के लिये उस की बचत हो सके और फ्लड कंट्रोल हो जाने के बाद उन जमीनों में पैदावार भी बढ़ेगी और देश की उन्नति होगी। इसलिये सरकार इस के सम्बन्ध में शीघ्र से शीघ्र अपनी कार्य-वाही करे। मैं ने कोई भाषण नहीं दिया है, केवल पौइंट्स रखे हैं, मैं चाहूंगा कि मंत्री जी सही सही जवाब दें। साथ ही मेरा उन से आग्रह है कि हर सूबे में अपना निश्चित समय बना कर के वहां के लोगों से उन की कठिनाइयों के बारे में और उन को दूर करने के सम्बन्ध में विचार विमर्श किया करें। क्योंकि इन का मंत्रालय बड़ा उपयोगी मंत्रालय है, पानी

[श्री विभूति मिश्र]

अगर न रहे तो मनुष्य जीवित न रहे, पांच तत्वों से शरीर बना हुआ है इसलिये पानी बहुत जरूरी है। इसलिये मंत्री जी हर स्टेट में नियमित समय बना कर के जो हम लोक सभा, राज्य सभा, विधान सभा और विधान परिषद के सदस्य हैं, उन की मीटिंग बुला कर के, हमारी क्या कठिनाई है इस के सम्बन्ध में यह पूछें और तब उस बारे में कार्यवाही करें। और उत्तर बिहार में जल्दी से जल्दी बिजली की योजना बनावें ताकि वहां बिजली मिल सके और बिजली के अभाव के कारण सिंचाई का जो कार्य बन्द पड़ा हुआ है वह चालू हो सके। बस मुझे यही कहना है।

SHRI DINESH JOARDER (Malda):
Mr. Speaker, Sir, I rise to mention a matter which has been created by the North Bengal Flood Control Board created by the Central Government and controlled by the Central Government and by this Ministry particularly. They are now executing the work of Mahananda river Master Plan in the district of Malda. In executing the said plan, the North Bengal Flood Control Commission has rendered a few thousand people already homeless and also jobless because they have no concrete plan to follow and every now and then they are changing the alignment of the Mahananda river embankment, the proposed bund in the Mahananda river Master Plan in the district of Malda. The alignment is particularly going through populated villages where hundreds of houses are being demolished without giving any prior notice to the dwellers and also the peasants who have a very little amount of cultivable land with them; they are being ousted of their possession of the said land and they are being rendered jobless. A large section of people are resisting this sort of unauthorised and illegal eviction from their land and home by the engineers of the said plan, but indiscriminately arrests are going on. A few hundred people have already been

arrested by the authorities of the State Government; particularly by order of the Minister of Irrigation and Power of the State Government. Mr. Abdul Berkat Ataul Ghani Khan Chowdhury who is unduly interfering in the activities and functioning of the Commission.

The entire fund has been allotted by the Central Government, by the Ministry of Irrigation and Power of the Central Government to the North Bengal Food Control Commission towards the Mahananda river embankment scheme, but the said amount is being misused like anything. I have received telegrams and letters from many people from the district of Malda that, immediately, an expert, a technician, from the Central Water and Power Commission should be sent there to have a detailed survey of the Plan and to see whether any amendment could be made in the said scheme so that thousands and thousands of people who are now threatened of being rendered homeless—their houses are going to be demolished—can be saved.

13.27 hrs.

[M. DEPUTY-SPEAKER in the Chair.]

As regards erosion of Ganga in Malda, I would like to mention that according to alluvion and diluvion process, the land which is being eroded on the Malda side or which will be eroded after a year or two, is and will be rising on the other side of the Ganges, on the Bihar side of the Ganges. The people of Malda, as per natural rules, should get those diluviated lands on the other side of the Ganges, but due to the restriction of inter-State border and the restrictions on the movement of foodgrains, the people of Malda side are not getting any benefit, they are not being allowed to cultivate their lands. There is a long term dispute between the two State Governments over this alluviated and diluviated land that is created out of erosion of the Ganga.

As regards electrification, the North Bengal area is totally backward, and because of non-supply of electricity, this area is not being able to develop. I should like to mention here the article that has been published in *Anand Bazar Patrika* dated the 10th April. The rural electrification scheme has totally failed. But the Central Government is contributing a large part towards rural electrification in West Bengal, but that amount has been spent haphazardly and even in spite of Malda district being the district of the Irrigation Minister of West Bengal, rural electrification has totally failed in that district.

I would also like to draw the attention of the Minister to the Teesta Valley project. What about that project? When will that project be taken up? That is the only project by which the North Bengal area could be irrigated for cultivation and there is no other concrete scheme or plan for irrigating North Bengal area.

I would also like to mention that Malda is affected every year by flood devastation and the drought conditions are also very acute there. There is no irrigation scheme, small or otherwise. I would like to know what concrete steps are going to be taken by this Ministry to control floods and also to mitigate the irrigation difficulties there.

Lastly, I want to say a word about this Ganga-Kaveri link. The number of speakers who have spoken against this scheme is much more than the number of speakers who have spoken in favour of the scheme. I would like to mention one article which has been published in this regard....

MR. DEPUTY-SPEAKER: You just draw the attention of the Minister to that article if he has not already read it.

SHRI DINESH JOARDER: This is the article by Mr. P. Sundarayya published in *Motherland* dated 8th April. I would like the Minister to go through that article.

THE MINISTER OF PARLIAMENTARY AFFAIRS (SHRI K. RAGHURAMAIAH): May I suggest that you may be pleased to call the Minister of Irrigation and Power at 4 O'clock to reply?

MR. DEPUTY-SPEAKER: If the House so agrees. Now, Mr. Arjun Sethi.

SHRI ARJUN SETHI (Bhadrak): At the outset, I would like to support the Demands for Grants of the Ministry of Irrigation and Power.

While supporting the Demands, I would like to make a few observations for the consideration of the Minister.

A country like ours is dependent upon the performance of agriculture for its overall economic growth and till today most of our agricultural operations are affected by the monsoon. So, the development of the irrigation schemes in various States is a MUST for the development of our country as a whole.

Fortunately, we have so many rivers and since we could not make full use of these rivers, the waters of these rivers are flooding the country side and the people are suffering a lot since long past.

If we look to the investment side, we find that we have invested in our irrigation facilities or irrigation development only about Rs. 228 crores, but when we look to the other side, that is, the loss side, the country as a whole is losing on an average, a sum of Rs. 150 crores every year since 1951 due to damage to the crops, houses and public utilities by floods of these rivers. In addition to the annual loss of Rs. 150 crores, there is the expenditure on drought relief programmes which are a regular feature in our economy and add to the alarming figure. What are the returns which the country gets by such huge spendings? In spite of some sizeable progress made by these flood control measures still the annual loss in mone-

[Shri Arjun Sethi]

tary terms has increased in recent years and relatively the affected population belong to the weaker sections of the society who have to undergo these annual sufferings and annual losses. An effective check to cure these maladies is urgently necessary. As I said in the beginning of my speech, the amount of Rs. 228 crores is not enough. The Government has not paid sufficient attention to protect these parts or to mitigate the sufferings of these people, especially those who belong to the weaker sections of the society. It is really very unfortunate that despite the chronic failure of monsoon in various parts of the country irrigation projects are made to be slow-moving. In this honourable House many hon. Members have already pointed out how some of our projects remain idle for a long time and are not completed in time and as per the schedule because there are disputes between various States about the sharing of the water. Prenatal disputes start from the very beginning and last for years and years. These disputes are going on for years together. In the meantime much water flows into the

I am very glad to note one thing which the Minister has mentioned in his Annual Report of the Ministry. It has been said that they have brought to the notice of the Chief Ministers about the proposed amending Bill to declare water a national property. I wish to say that the sooner it is passed in Parliament, the better it is for the country.

Our *per capita* consumption of electricity was only 13 units in the year 1947 and it is now 93 units but it still remains very low compared to some other countries of the world and various datas were already mentioned by some of my friends who spoke earlier to prove that we are at the lowest in electricity consumption.

Orissa has been an unfortunate State which has been subjected to

serious flood and drought year after year. While answering an unstarred question the hon. Minister stated that by the end of the Fourth Plan the irrigation potential in the country is to be 26 per cent of the total crop area and the percentage of Orissa would be 28 per cent. I very much doubt these figures because so far as Orissa's irrigation potential is concerned, today there are as many as 11 medium and small projects which are under examination of the CWPC since long and I would like to name some of these projects. These are: Bhimkund, Rengali, Subernarekha, Bagh, Khar'khai, Nesa, Upper Kolab and Baghalati, Salandi and Mahanadi Delta irrigation projects are lingering since a long time and I do not know how long this will continue and when these projects will be completed at all. Recently the State Government of Orissa requested the Central Government and the Minister of Irrigation and Power to depute a team to finalise the location of the site of the proposed Bhimkund dam which is one of the flood control projects. It seems that the question of the location of the dam has been made complicated not due to any financial difficulties etc. but due to conflict in opinion between two topmost engineers in our State. I do not know how both the engineers are favouring different locations for the same dam. They have not been able to come to a settlement uptil now. However, I request the hon. Minister that he should immediately depute a team so that they can finalise the site for the proposed dam so that the sufferings of the people may be mitigated.

SHRI D. K. PANDA (Bhanjanagar): Mr. Deputy-Speaker, Sir, I have gone through the whole report and I find there is absolutely no critical review as for this one year's performance is concerned. Such type of Report should not be very lengthy and if we critically assess as to our achievement then we can also draw lessons as to where we have failed and where we have succeeded. Some

figures have been given regarding our achievements from 1947—73. That will take us nowhere. I think Dr. Rao, the hon. Minister for having given all these facts but in addition to that a small report would have served the purpose if critical examination has been made. For example, Dr. Rao had made a commitment that in West Bengal 38 per cent achievement will be made in regard to bringing lands under irrigation. What is the achievement? Actually, there is no improvement. Similarly, in regard to Orissa some commitment had been made in regard to the completion of four major projects, that is, Mahanadi Delta, Hirakud, Anandpur and Salandi. Out of these I find only Hirakud is completed. So, from last year to this year what is the actual achievement? There is absolutely nothing. Out of these four big projects only one is completed from 1947 to 1973.

Now, please refer to page 145. Sixteen medium schemes were there out of which only three are completed during the entire period. That takes us nowhere.

Regarding upward revision of project estimates, frequent revisions have been made. What are the reasons thereof? A committee is already set-up to go into this subject. Before this Committee has been set up, we had enough of material as to why the schemes are failing or the costs are going up. Many a time our hon. Minister has spoken about it, namely, due to shortage of funds etc. There is delay in giving clearance by Central Water and Power Commission. One project, Jarau-Harabhangi in Ganjam district has been on the anvil for the last 15 years. Dr. K. L. Rao who is very popular in our area in Ganjam district recently wrote to me a letter saying that at least now Government were considering it. I do not know how long this would be under consideration. The Jarau-Harabhangi project has been kicked like a football from the Centre to the State and from

the State again to the CPWC and clearance has not been given to it so far. We know that this is going to lead to mounting up of costs.

I would also like to mention the delay in submission of reports by the State Government. If there would be a public censure, and if the report does not come in time, the Centre would take the initiative and say that since the State has not taken any action, therefore, the Centre is going to cancel the approval in such and such matters then the situation can improve. There must be some such public censure that since the people are so anxious to have irrigation facilities, they will never permit whoever may be in power in the State to neglect the sending in of their reports.

I find that again they are setting up a committee. I find that now there are more than 102 committees, and all these committees would be going on giving reports, and with no result. Therefore, I would stress that we should assess the position from time to time and take the necessary action.

Recently, I received a report from a very reliable source that the total cost of the Mahanadi delta project would increase as a result of price increases. If the project is delayed, and the funds to the extent of Rs. 14.69 crores are allowed to spill over to the Fifth Plan, then the cost of the delta project would increase by Rs. 3.67 crores as a result of price rise. This has already come in 1971. In spite of this warning, neither the CWPC nor the persons in charge are doing anything. This is how the costs of projects are going up.

Regarding rural electrification, the main stress was on backward areas backward States and backward areas and backward districts. But what has

[Shri D. K. Panda]

been done in this connection, as far as Orissa is concerned? Out of 46,000 villages which were to be electrified, only 1300 as per the report given by the hon. Minister have been electrified, and from the figures that I have collected from Government sources, I find that the number has gone up to about six thousand. I would like to know whether we are going to complete the electrification of 10,000 villages at least before the end of the Fourth Plan.

With regard to cyclone distress, Orissa is visited by cyclone, then by floods and then by drought; in fact, it is affected by these very frequently, and nearly 60 lakhs of people have been affected, and 7000 people have lost their lives. In spite of that, there is only one radar station at Paradip. So, I do not know how we can control floods. I would like to know what steps Government are taking in this matter.

Since Dr. K. L. Rao welcomes a business-like discussion, I would like to suggest....

MR. DEPUTY-SPEAKER: That should be with him in his chamber. A business-like discussion cannot be had here in a few minutes.

SHRI D. K. PANDA: I would just make a brief reference to some very big projects.

As regards the Bhimkund, Anandapur and Salandi projects, nothing has been done; we do not know when they are going to be approved and clearance is going to be given to them. I want a categorical answer from the hon. Minister when this work is going to be started and completed. In regard to the Mahanadi delta project also, I would like to know whether Rs. 14.69 crores are going to be allowed and the project is going to be implemented without any delay.

As regards the medium irrigation projects, projects such as the Bahuda,

the Darjanga project, the Baghwa, the Datia, the Jarau-Harabhangi, the Ghodahoda, the Uttai etc. are still incomplete and the work has not been started. I would like to know what steps Government are going to take in this regard.

Then, the diversion of waters from the Chelligad to the Ghodahoda river is very important. Some people are making a propaganda—I do not know whether they have any vested interests or not—that because this is going to affect some project on the Bamsadhara, this should not be done.

But I know that Dr. Rao, as an engineer among politicians, will not commit any such error and will not fall a prey to such things. But there is propaganda....

MR. DEPUTY-SPEAKER: Shri P. Ganga Reddy.

SHRI D. K. PANDA: This is my last point.

As far as power projects are concerned, there is a serious development that has taken place. I want to ask the hon. Minister whether it is true that in Gujarat the Electricity Board has already sold out the thermal station at Porbander to Saurashtra Chemicals, a concern of the Birla group. The reason given is that it is running at a loss. This cannot be the reason for selling such a public undertaking directly to a Birla group concern.

MR. DEPUTY-SPEAKER: He has mentioned the point. He might pass all those materials to the hon. Minister and request him to go into it.

SHRI D. K. PANDA: I am concluding.

The Vice-President of the Gujarat Vidyut Kamgar Sangh, Jamnagar, has sent a letter dated 4th April, 1973 with regard to this. When it is the declared policy of Government that by 1975 all the electric power stations in

the private sector will be taken over, I want to know why this lapse to denationalisation. I would request the hon. Minister to answer all the points I made in his reply.

श्री पी० गंगा रेड्डी (आदिलाबाद) :
इज्जत-मान डिपुटी स्पीकर साहब, मैं वजारात आबपाशी और बिजली के मवाजना की ताईद करता हूं, जिसके वजीर, डा० के० एल० राव, मुल्क के अजीम और मायानाज इंजीनियर हैं ।

हमारे मुल्क में 13,600 लाख एकड़ फीट पानी है, जो अमरीका के बराबर है । उस में सिर्फ 4500 लाख एकड़ फीट पानी सिंचाई के लिए इस्तेमाल किया जा सकता है, लेकिन असल में सिर्फ 900 लाख एकड़ फीट पानी ही इस्तेमाल किया गया है । हमारे मुल्क में काबिल सैराबी जरई अराजी के सिर्फ 24.5 फीसदी रकबा को सिंचाई दी जा रही है । सरकार इसको बढा कर 50 फीसदी तक लाना चाहती है । हमारे मुल्क में 565 लाख एकड़ रकबा को सिंचाई की जा सकती है । अब तक आबपाशी पर 5676 करोड़ रुपये खर्च किये गये हैं ।

1972-73 का मवाजना 275 करोड़ रुपये का था और 11 लाख एकड़ रकबा की सिंचाई का अन्दाजा था, मगर सिर्फ 9 लाख एकड़ को ही सिंचाई दी जा सकेगी । इस के मानी हैं कि निशाने में 20 फीसदी की कमी रहेगी । चौथे मन्सुबे में 48 लाख एकड़ रकबे की सिंचाई का अन्दाजा था, मगर सिर्फ 38 लाख एकड़ की ही सिंचाई हो

सकेगी, जिस के मानी ये हैं कि निशाने में 22 फीसदी की कमी रहेगी ।

चौथे मन्सूबे के खात्मे पर 216 लाख एकड़ अराजी की सैराबी का मन्सूबा था, जो पूरा नहीं हो सकेगा ।

हर एक मेम्बर ने पानी के तनाजे का जिक्र किया है । आज हमारे मुल्क में 14 रियासतें पानी के तनाजों में फंसी हुई हैं, जिस से हजारों करोड़ों रुपयों का नुकसान हो रहा है । जब तक पानी के तनाजों को हल नहीं किया जायेगा, तब तक नेशनल वाटर ग्रिड का हमारा मन्सूबा सिर्फ ख्वाब रह जायेगा । ऐसी कई नदियां हैं, जिन के पानी के तनाजे सालों से चले आ रहे हैं । मिसाल के तौर पर कृष्णा पर नागार्जुनसागर डैम बन गया है, लेकिन उस के क्रेस्ट गेट्स नस्ब न होने की वजह से हर साल 70 करोड़ रुपये की अनाज की पैदावार का नुकसान हो रहा है । इसी तरह नर्मदा का दस लाख रुपये का पानी हर रोज जाया हो रहा है । मोहतरिम डा० राव ने अन्दाजे के मुताबिक आजादी के बाद से अब तक 900 करोड़ रुपये का नुकसान हो चुका है ।

आंध्र में धवलेश्वरम् बैराज की हालत बहुत खतरनाक है और वह किसी भी वक्त टूट सकता है । उसकी तरफीम के काम में बहुत ताखीर हो रही है । मुझे अन्देशा है कि वह काम जल्दी पूरा नहीं हो सकेगा । मैं चाहता हूं कि उस की तरफ फौरी तबज्जह दी जाये ।

[श्री पी० गंगा रेड्डी]

निजामसागर प्रोजेक्ट रेल भरने की वजह से वेवार् हो चुका है । इस प्रोजेक्ट नेलसाता के पिछड़े हुए इलाके को थिय एक नियमित है । उस की तरमीम का काम इस लिए सुस्ती में पड़ गया है कि वहां स्टील की कमी है । जो बन्ध को रेल किया जा रहा है । उस में गर्कदाबी, मुआवजे और आवांदाकारी के काम को हाथ में लिया जाना चाहिये थिगनूर या कोडूर पर एक बांध बनाने की तर्जवाज है, ताकि माजरा के पानी को निजामसागर में ले जाया जा सके । इनवेस्टीगेशन का काम पूरा हो चुका है । इस लिए उस को मन्जूरी दे कर काम फीरन तकमील किया जाना चाहिये और जरूरी रकूमात का इन्तजाम किया जाना चाहिए । वहां शूगर फैक्टरीज बन्द होने की वजह से गवर्नमेंट को तकरीबन चार करोड़ रुपये का नुकसान लेवी की शकल में हुआ है और साथ ही काश्तकारों को तकरीबन 25 करोड़ रुपये का नुकसान हुआ है । आईन्दा भी इस के तासरात होंगे । वहां की जमीन जरखोज है और हर एक चीज का पूरा इन्तजाम है । इस लिए जरूरी रकूमात की मन्जूरी दे कर प्रोजेक्ट की तरमीम की फीरी तोर पर तकसील की जाये ।

पोचमपाड़ प्रोजेक्ट जेर-तकमील होते हुए भी सिंचाई कर रहा है । लेकिन यह काम जिस तेजी के साथ होना चाहिए, वह उस तरह नहीं हो रहा है । इस प्रोजेक्ट से 23 लाख एकड़ जमीन की सिंचाई हो सकती है, लेकिन 66 टी० एम० सी० पानी एलाट होने की वजह से वहां पर सिर्फ एक ही फेज का काम चल रहा है । इस के लिए फीरी तोर पर

रकूम मन्जूर कर के काम को मुकम्मल किया जाना चाहिये ।

मैं पिछले छ. मास में इस जवन में कहता आ रहा हूँ कि पोचमपाड़ प्रोजेक्ट में आदिनाबाद जिले के, जिस का मैं रूकत हूँ, 36 मावजात गर्कदाव हो रहे है और एक इंच जमीन की भी सिंचाई नहीं हो रही है । गोदावरी नार्थ कैनल का प्लान बहुत पहले का है । अगर इस प्रोजेक्ट को हाथ में लिया जाये, तो इस से न सिर्फ सिंचाई होगी, बल्कि बिजली की पैदावार भी होगी । मेरी माग है कि इस की तकरीबन 6 टी० एम० सी० पानी दिया जाये । मेरी दरखवास्त है कि मोहतरिम मिनिस्टर साहब इस प्रोजेक्ट को फीरी मन्जूरी दे कर इस काम को शुरू करवाये ।

सरकार को यह बात नहीं भूलनी चाहिए कि दूसरे मुल्कों से पैसा लिया जा सकता है, फर्टिलाइजर लिया जा सकता है, लेकिन पानी और बिजली किसी मुल्क से दरसामद नहीं किये जा सकते हैं । उन को इस मुल्क में ही पैदा करना होगा । बिजली की अहमियत का अन्दाजा इस बात से लगाया जा सकता है कि एक किलोवाट बिजली मुसावी है एक आदमो के दस घंटे काम के ।

चौथे मन्सूबे के खातमें तक 230 लाख किलोवाट बिजली पैदा करने का निशाना था, मगर सिर्फ 202 लाख किलोवाट बिजली ही पैदा की जा सकेगी । इस के मानी ये हैं कि निशाने में 15 फीसदी की कमी रहेगी । पहले मन्सूबे से आज तक निशाने के मुताबिक काम नहीं हो रहा है ।

और कम बिजली पैदा ही रही है। 1972-73 में 15 लाख किलोवाट बिजली पैदा करने की तजवीज थी, मगर सिर्फ 10 लाख किलोवाट बिजली ही पैदा की जा सकी है। इस तरह इस साल निगमने में 50 सीपटी की कमी रही है। इस कमी को बजट खाफ तौर पर रकूमात का दस्तबाव न किया जाना और मुल्क के अन्दर मशीनों का न तैयार किया जाता रहा है।

माहरीन का अन्दाजा है कि साले-हाल में बिजली की कमी की वजह से कम से कम 1000 करोड़ रुपये का नुकसान हुआ है। इन भारी नुकसान की तलाफ़ी के लिए कम से कम आइन्दा मुनामिव इकदामान करने की जरूरत है। सरकार को अब भी बाहर से मशीनें दरामद करने की बात सोचनी चाहिए, वर्ना बाद में पछताना पड़ेगा।

पांचवें मन्सूवा में 410 लाख किलोवाट बिजली पैदा करने की तजवीज है, जिस के लिए 11,000 करोड़ रुपये की जरूरत है। हमारे मुल्क में पानी के काफ़ी जराये हैं, कोयला भी काफ़ी मिक्कदार में है और इसके अलावा युरेनियम और थोरियम भी मौजूद है। इसलिए हमारे मुल्क में बिजली पैदा करने में कोई दिक्कत नहीं होनी चाहिए। मुल्क में हाइडल, सुपर थर्मल और एटमी बिजली पैदा करने के लिए जरूरी रकूमात मुहैया की जानी चाहिए।

1973-74 के मवाज़ना में बिजली के लिए साले गुजशिता के मुकाबले में ज्यादा रकम, यानी 115 करोड़ रुपये मुहैया किये गये हैं। मौजूदा पैदाशूदा बिजली का 80 फ़ीसदी हिस्सा सनम्रतों के लिए किया जा रहा है और वह भी रियायती कीमतों पर,

जबकि ज़िराअत के लिए कम बिजली दी जाती है और वह भी बहुत ज्यादा कीमत पर। इस बारे में नज़रे-सानी की जानी चाहिए।

इस मुल्क में नये नये नदीकों से बिजली पैदा करने की जरूरत है। जैसे, सूरज की शमाओं से बिजली पैदा की जा सकती है, जो शायद सब से सस्ती होगी। इसी तरह हाइड्रोजन गैस से भी बिजली पैदा करो के बारे में रिचर्च करनी चाहिए। इन बारे में रिचर्च करने के लिए रकूमात फ़ीरी तौर पर मुहैया की जानी चाहिए।

ट्रांसमिशन में जो बिजली रायगां जाती है, उसको बचाने के लिए यह जरूरी है कि जहां कोयला हो, वहां सुपर थर्मल स्टेशन कामय किये जायें।

जब भी आवपाशी और बिजली के मवाज़ने पर बहस होता है, तो हकूमत को रकूमात की कमी का जिक्र किया जाता है। 1973-74 के मवाज़ना में बेरोज़गार ताली-मयीफता लोगों को रोज़गार फ़राहम करने के लिए 100 करोड़ रुपये रखे गये हैं। इसी तरह पांचवें मन्सूवे में एडवांस एक्शन के लिए भी काफ़ी रकम रखा गई है। मेरी गुज़ारिश है कि इस रकम में से कम से कम 50 करोड़ रुपये इस महुकने को दे दिये जायें, ताकि आवपाशी और बिजली के जो प्रोजेक्ट लिये गये हैं, उनकी जल्दी तक मील हो और इस तरह काफ़ी बेरोज़गार इंजीनियरों को रोज़गार दिया जा सके।

14 hrs.

आप जानते हैं कि हैदराबाद शहर कितना ख़ुबसूरत शहर है, लेकिन आज उस पर बेवगी का आलम है। 6 बजे के बाद बिजली न

[श्री पी० गंगा रङ्गी]

मिलने की वजह से तमाम दुकानें 6 बजे ही बन्द कर दी जाती हैं। आन्ध्र के सिनेमाघरों के लिए सिर्फ 5 मेगावाट बिजली की जरूरत है, लेकिन वह भी दस्तयाव नहीं हो रही है इसी तरह ज़राअत के लिए भी सिर्फ दो से चार घंटे तक बिजली दी जाती है। आंध्र का बिजली का परकैपिटा कंजप्शन हिन्दुस्तान में दूसरे नम्बर पर है—लेकिन नीचे से, ऊपर से नहीं आन्ध्र के लिए 980 मेगावाट बिजली की जरूरत है, लेकिन उस की पैदावार सिर्फ 650 मेगावाट है। इस साल पानी की कमी की वजह से बिजली की पैदावार बुरी तरह से मुतासिल हुई है। सैबंथ एनुअल पावर सर्वे के मुताबिक आंध्र को पांचवें मसूवे के खतमे तक 2300 मेगावाट की जरूरत होगी जिसके लिए 250 करोड़ रुपये की जरूरत पड़ेगी। 86 करोड़ आन्ध्र में चौथे मसूवे के लिए एलाट किए गए थे। पांचवें प्लान के लिए 175 करोड़ की मजदूरी जरूरत होगी। यह आंध्र के बस के बाहर की बात है। आप इस में इमदाद दें। लोअर सलेख प्रोजेक्ट जहां यू०एस०आर०की मशीनरी साइट पर मौजूद है उसमें मजदूर अगर कुछ रकम दें तो यह काम जल्दी तकमील हो जाएगा। नागार्जुन सागर की पम्पिंग स्कीम के लिए 8 करोड़ रुपये की जरूरत है जहां से मैगावाट बिजली पैदा की सकती है। श्रीसेलम पर 450 मैगावाट बिजली पैदा की जा सकती है। ऐसी स्कीमों के लिए आप रकमी इमदाद दे कर उनको जल्दी तकमील कराएं। बिजयवाड़ा थर्मल पावर स्टेशन, अपर सेलेख और कोटिंग इम की स्कीमों को प्लानिंग कमिशन

से जल्दी मंजूरी दिलवा कर काम शुरू कराएं। ये सब काम तकमील होने के बाद दो से मैगावाट बिजली की कमी रह जाएगी।

मेरे क्षेत्र में कुंटाला हाइडल प्रोजेक्ट की स्कीम मंजूरी के लिए भेजी गई है। उसे मंजूर करके फौरी काम शुरू कराया जाए। मेरी प्रार्थना है कि तेलंगाणा के पिछड़े इलाके में सोमशिला पर एटमिक पावर प्लांट को मंजूरी दे कर फौरन काम वहां शुरू कराएं उस प्लांट को फौरन आप हाथ में लें।

रूरल इन्फ्रैक्चिफिकेशन कारपोरेशन ने काफी नमायां काम किया है। उसके लिए वह काविले मवारिकवाद है। आदिलाबाद की कलस्टर स्कीम मंजूरी के लिए भेजी गई थी। उसके लिए आप फौरन मंजूरी दें।

आप ने प्रिवीपसिस एवालिश किए और बहुत सी चीजें एवालिश कर रहे हैं तो यह दस्तूर 311 कांस्टीट्यूशन का जो मला-जिमीन सरकार को गैर मामूली मुराआत देता है इसको तबदील किया जाए वरना आपने देखा, यू० पी० में पावर स्ट्राइक हुई, आंध्र में हुई। इसलिए जब तक इनकी मुराआत को खत्म नहीं करेंगे तब तक मुल्क की तरक्की नहीं होगी इसके लिए आप फौरी तौर पर कार्रवाई करें।

SHRI V. MAYAVAN (Chidambaram): I rise to say a few words on the Demands for Grants of the Ministry of Irrigation and Power. The acute shortage of Power throughout the country is causing much hardship and irritation to all. Hence, the Ministry may best be called as Ministry of Irrigation and Power failure! Without meaning any offence to Dr. Rao.

The Ministry is headed by a talented and eminent engineer in the cabinet but still there is much left to be desired. We see the dismal failure of the Ministry in the handling of Cauvery water dispute between Tamilnad and Mysore. Actually, Mysore has acted belligerently and because there is a Government to the liking of the centre, the Union Government is not taking strict measures to ensure equitable distribution of Cauvery water.

The Inter-State Agreement of 1942 is more honoured in the breach than in the observance by the Government of Mysore.

The terms and clauses of Agreements are violated with impunity.

The Government of Mysore has taken several projects like Hemavathi, Kabbini, Swarnavathy, Harangi, etc. These projects, in gross violation of the Agreement, are causing great detriment to the irrigation interests of Tamilnad.

Government of Mysore at no time took the concurrence of Tamilnad Government; nor at any time furnished full information regarding the Projects.

None of these Projects appear to have obtained technical clearance from the Union Government. But Mysore Government have taken law in their hand and gone on with the Projects.

Tamilnad Government sought the intervention of the Prime Minister as early as 1969. Though 4 years have passed, though much water has flown under the bridges, nothing has been done to resolve this dispute.

Government of Mysore non-chalantly have stepped up the pace of work.

The conference of Chief Ministers convened in 1970 failed since Mysore Government was adamant and was not inclined to discuss the Projects.

Though the Government of India recognised that the Hemavathi Project as formulated by Mysore was against the spirit and intention of the 1924 Agreement, the Government of Mysore stated that this Project was not open for discussion.

The diversion of Cauvery water by Mysore will certainly affect the irrigation system under Cauvery in Tamil Nadu. The fact-finding Commission appointed by the Centre has gone into the various aspects and observed that the utilisation of Cauvery water is important for Tamil Nadu than any other State. Our interests are in jeopardy and the Union Government should, therefore, see that these Projects do not become '*fait accompli*' so that the damage done cannot be repaired.

Cauvery is our life line and the entire Tanjore delta depends upon Cauvery waters. With a stiff and unhelpful attitude of Mysore Government, I think that the negotiations will bear no fruit. This is a matter of great importance to our State. I would request the hon. Prime Minister through the Minister for Irrigation and Power to refer the matter to Tribunal for adjudicating upon the dispute before it is too late to undo the damage caused by the active progress of these projects.

I see in the newspapers that the Government of India is contemplating to extend by another 50 years, the 1924 Agreement on sharing of the Cauvery water.

What is the use of extending the Agreement if one party is keeping on violating the terms? What assurance can we have that the terms and conditions of the Agreements will be respected by the Mysore Government? I would repeat my request that the Government without any further delay set up a tribunal to go into the dispute. With regard to the allegation of our hon. Minister for Industrial

[Shri V. Mayavan]

Development at Coimbatore—it appeared in the newspaper yesterday—that on account of lack of far-sight and bad management on the part of D.M.K. Government, the problem of power has worsened in Tamil Nadu. I wonder whether he wants to denigrate the D.M.K. Government in Tamil Nadu or denigrate the Prime Minister, Shrimati Gandhi. He must be definitely aware of the fact that in U.P., Haryana, Rajasthan, Punjab, and Gujarat, where the nominees of the Prime Minister are the Chief Ministers, there is power cut to the tune of 75 per cent. Instead of indulging in mud-slinging on an opposition political party ruling a State, he could as well take energetic steps to import immediately the generators required to meet the power crisis throughout the country. Shri Mohan Kumaramangalam might brag that he has sent the required quantities of coal to Tamil Nadu through sea. I think he indirectly accuses his colleague, Shri L. N. Mishra, the Railway Minister for his failure to make available the required wagons to transport coal to Tamil Nadu. Shri Kumaramangalam perhaps wants to hide his own shame by saying that he was not aware of the coal requirements of Tamil Nadu till the last moment. But, as my colleague, Shri E. R. Krishnan, pointed out, the Tamil Nadu Government had been at regular intervals informing the Centre the impending power crisis in Tamil Nadu. From the trend of comments given out by Shri C. Subramaniam, Shri Mohan Kumaramangalam, Dr. K. L. Rao regarding the power crisis in Tamil Nadu, it is obvious that the Ministers of Central Ministry are viewing the national crisis from different angles. Dr. Rao is realistic in his approach to the crisis but the two Central Ministers, who owe their prestige and position to D.M.K. are according to me, turn-coats and do not hesitate to stone their own god father.

Here I want to make a mention to our hon. Minister that his interven-

tion with regard to Cauvery water dispute is immediate and warranted. We have read from the newspapers that on the 30th April all the Chief Ministers are meeting here and in that meet. I hope that the hon. Minister will decide the Cauvery water dispute favourable to the Tamil Nadu Government.

MR. DEPUTY-SPEAKER: Shri B. P. Maurya—absent.

Shri Yamuna Prasad Mandal.

श्री यमुना प्रसाद मण्डल (समस्तीपुर): उपाध्यक्ष महोदय, मैं सिंचाई और विद्युत मंत्रालय की मांगों का तत्पर समर्थन करता हूँ। इसके सम्बन्ध में अभी जो बातें हमारे सहयोगी श्री विभूति मिश्र जी ने कही हैं, मैं आपको उसके दूसरे पक्ष की ओर ले जाना चाहता हूँ। गण्डक प्रोजेक्ट उत्तर बिहार के लिये है, यह बहुत महत्वपूर्ण योजना है और इसके अन्दर भी तिरहुत कैनल, जिसकी लम्बाई करीब 160 किलोमीटर है, बहुत महत्व रखती है। इसके अन्तिम छोर पर मेरा क्षेत्र पड़ता है, जितमें दो जिले हैं—वैशाली और समस्तीपुर। कई वर्ष पहले, 1960 में इस पर काम शुरू हुआ था, लेकिन आज तक इन दो जिलों में कुछ मकान वगैरह ही बने हैं और कोई काम दिखाई नहीं पड़ता है। मैं आप को बतला दूँ—यह 'ए' हिस्सा नहीं है, 'जेड' (अंतिम) हिस्सा है और 160 किलोमीटर के आखरी हिस्से में पड़ता है। जिस गति से वहाँ पर काम चल रहा है, उसको देखते हुए लोगों को विश्वास नहीं हो रहा है कि 20वीं सदी के अन्दर वहाँ पानी पहुँच सकेगा। जब भी कोई बड़ी योजना बिहार में शुरू होती है तो पहले करोड़ों रुपये उसके पैलेशियन बिलिडिंग पर खर्च किये जाते हैं। डा० राव उधर जानेवाले हैं—मैं आप से यही निवेदन करूँगा कि इस

की गति को तेज कीजिये, जैसा आप ने कोती के समय किया था, यहाँ पर टेन्ट डाल कर काम शुरू किया गया था, उसी उत्साह से यहाँ पर काम किया जाना चाहिये। दो चार फुट इस्पात जो सेन्ट्रल एन्सिस्टेस के रूप में मिलते हैं, वे उस हिस्से में गढ़ान बनाने पर खर्च हो जाते हैं। इस समय जो इलाइनमेंट वहाँ पर तैयार हो रहा है, उस हिताब से तो आषाढ बरसों इस काम में लग जायेंगे। पांचवीं पंच-वर्षीय योजना के अन्त तक इसको पूरा करने का कार्यक्रम है, लेकिन मुझे दिखाई नहीं देता कि यह पूरा हो पायेगा।

बिहार की आज जो हालत है— डा० राव उसके बारे में जानते हैं—वहाँ की आर्थिक स्थिति बाढ़ की वजह से, सूखे की वजह, अकाल की वजह से इतनी दयनीय हो गई है कि केन्द्र की नज़र उस पर पूरी तरह से नहीं रहेगी तो काम नहीं चल सकेगा। हम लोगों ने इस के सम्बन्ध में डा० राव से और प्रधान मंत्री जी से भी बार बार कहा है कि ऐसी महत्वपूर्ण योजना को केन्द्र स्वयं कार्यान्वित करे, तब तो काम आगे बढ़ सकता है, अन्यथा नहीं बढ़ेगा। मैं उसी बात को फिर दोहराना चाहता हूँ—बिहार के संसद् सदस्यों की राय है कि सब प्रमुख योजनाओं को केन्द्र अपने हाथ में ले तब वे आगे बढ़ सकती हैं अन्यथा पांचवीं पंच वर्षीय योजना के अन्त तक पूरा होना मुश्किल है। नतीजा यह होगा कि वहाँ के लोग सूखे की चपेट में ही पड़े रहेंगे। यह इतनी महत्वपूर्ण योजना है कि इस में नेपाल का भी हिस्सा है, उत्तर प्रदेश का भी हिस्सा है और बिहार का हिस्सा तो है ही। गण्डक कन्ट्रोल बोर्ड इस तरह का आश्वासन दे कि

जो हिस्से पिछड़े हुए हैं, जहाँ काम धीमी गति से हो रहा है, वोर्ड उनका विशेष ख्याल करेगा—अन्यथा जिस अर्थभाव में बिहार के लोग पड़े हुए हैं यह काम होना मुश्किल है।

दूसरी बात— ये दो जिले—वैशाली और समस्तीपुर जो क्रमशः मुजफ्फरपुर और दरभंगा से निकाल कर नये जिले बने हैं, गंगा-वेसिन में हैं। डा० राव को मालूम है 1971 में गंगा में बड़ी भारी बाढ़ आई थी। उसके बाद अप्रैल, 1972 में उन्होंने गंगा-फ्लड कन्ट्रोल कमीशन की स्थापना की और अगस्त से वह कमीशन काम कर रहा है। इस में कुछ ऐसे हिस्से उन्होंने दिये हैं—जिनके बारे में संसद् सदस्यों की राय नहीं ली गई। मैं डा० राव से निवेदन करूंगा कि जब ऐसी योजनायें बनाई जाती हैं तो केवल बिहार सरकार के लोगों से ही राय न ली जाये, बल्कि संसद् सदस्यों से भी राय ली जाये, क्योंकि गंगा के लैफ्ट-हैंड साइड में, उत्तर बिहार में काफी बरवादी होती है, लाखों लोग बेघर-बार हुए हैं और अभी तक पड़े हुए हैं। यदि मैं आप के प्रोग्राम को पढ़ कर सुनाऊँ तो पता चलता है कि यदि अब की बार भयंकर बाढ़ आई तो समस्तीपुर और वैशाली ये दोनों जिले जो गंगा के किनारे हैं, विलकुल ध्वस्त हो जायेंगे। इसकी दवा है—खुरखुरा बांध और बरखा बांध, लेकिन इनपर ध्यान नहीं दिया जा रहा है। इस समय तो दक्षिण की बात चल रही है, लोअर-वेसिन में बांध बनाने की बात हो रही है। ये उपेक्षित दोनों हिस्से वैशाली और समस्तीपुर गंगा वेसिन के हिस्से हैं और अपेक्षानः अपर-रिजन में पड़ते हैं। नतीजा

[श्री यमुना प्रसाद मण्डल]

क्या होगा — नीचे के हिस्से में बांध बन जाने से पाना; समस्तीपुर के इलाके की ओर चल पड़ेगा और वैशाली का इलाका जहां कैंश-क्राप होता है, तम्बाकू और मिर्च जैसी क्राप बोई जाती है, जिस से करोड़ों रुपये की एक्साइज आती है, वह सब हिस्सा ध्वस्त हो जायेगा। इसलिये मैं चाहता हूं कि इस काम को गंगा फ्लड कंट्रोल कमीशन के जिम्मे डाला जाये। जिस तरह से आप ने लोअर रिजन के लिये आठ बड़ी बड़ी स्कीमें दी हैं और उनमें काफ़ी खर्च करने जा रहे हैं, उसी तरह से बरुआ बांध और खुरखुआ बांध को भी लें। खुरखुआ हम अपने गांव की भाषा में बोलते हैं, बरुआ बांध में अभी थोड़ी सी मिट्टी डाली गई है। इस समय वैज्ञानिक ढंग से सुरक्षा की बात नहीं हो रही है, जिसका नतीजा होगा कि वहां फिर ब्रीच होगा 1971 में ब्रीच हुआ था, उसके लिये अभी तक कोई उपाय नहीं हो सका है। लाखों आदमी अभी भी बेघर-बार पड़े हुए हैं, पी०डब्लू०डी० की रोड़ पर पड़े हुए हैं, आवागमन अवरुद्ध हो गया है, लेकिन उन को बसाने का अभी तक कोई इन्तजाम नहीं हुआ है। उनको बसाना बिहार गवर्न-मेन्ट के बूते के बाहर है, गंगा का इतना सुन्दर क्षेत्र आज वीरान पड़ा हुआ है। इस लिये मेरी फिर पुरजोर अपील है कि इन बांधों को गंगा फ्लड कंट्रोल कमीशन के जिम्मे डालें। इसके सम्बन्ध में आप को बड़ी गम्भीरता से विचार करना चाहिये, वरना वहां की जनता यह सोचेगी कि केन्द्रीय सरकार उस कैलेमिटस एरिये के लिये, विशेष कर डा० राव का ध्यान उस तरफ़ नहीं जाता है।

कुछ मैं बिजली के सम्बन्ध में कहना चाहता हूं। ग्रामीण विद्युतिकरण के सम्बन्ध में खुद उन्होंने अपने नोट में कहा है कि कुछ राज्य बहुत पिछड़े हुए हैं। उत्तर बिहार के लोग तो इस मामले में बहुत ज्यादा पिछड़े हुए हैं। आप की रिपोर्ट पढ़ने से ऐसा मालूम होता है कि काफ़ी हरिजन वस्तियों में और दूसरी जगहों पर काम हुआ है, लेकिन उत्तर बिहार तो अभी भी अछूता है। डा० राव ने आश्वासन दिया है कि मुजफ्फरपुर में एक बहुत बड़ा स्टेशन बनेगा। वहां पर बड़े विद्युत स्टेशन की आवश्यकता है। बरौनी में जो थर्मल पावर स्टेशन है उससे करीब तीन करोड़ की आबादी का काम नहीं चल सकता है। वहां के आर्थिक पिछड़ेपन का आज यही कारण है। पावर को प्रास्पेरिटी फालो करती है लेकिन अगर वहां पर पावर ही नहीं होगी तो प्रोस्पेरिटी कैसे आ सकती है। दस सालों से डा० राव देख रहे हैं कि उत्तर बिहार की बड़ी बुरी स्थिति है। 18 तारीख को वे फिर वहां जा रहे हैं। यदि इन बातों पर वे विचार करेंगे तो ठीक है वरना वह क्षेत्र जो सबसे पिछड़ा हुआ है वह पिछड़ा ही रहेगा।

श्री नागेश्वर द्विवेदी (मछलीशहर) :

माननीय उपाध्यक्ष महोदय, मैं सिंचाई और विद्युत मंत्रालय के अनुदानों की मांगों का समर्थन करने के लिये खड़ा हुआ हूं। मैं सरकार को इस बात के लिए बधाई देता हूँ कि उसने पिछले कुछ दिनों में सुदूर गांवों तक बिजली का विस्तार करने का बहुत अच्छा प्रयास किया है। इससे गांवों में रोशनी पहुंची है और एक आशा गांवों के लोगों में भी पैदा

हुई है, उनके अपने स्वयं के विकास और तरक्की के लिए इस वर्ष देश भर में बिजली की चिन्ताजनक स्थिति पैदा हुई है। एक ही प्रान्त में नहीं, अनेक प्रान्तों में ऐसी स्थिति पैदा हुई है। मैं समझता हूँ उसका खास कारण तो जो बड़ा व्यापक सूखा पड़ा है वही रहा है लेकिन अगर हम सावधान होते और नदियों का जो अपरंपार जल समुद्र में वहां जा रहा है, मुख्यतः हिमालय से निकलने वाली नदियां, यदि हमने उनके ऊपर बांध बनाये होते तो हम बिजली का इतना उत्पादन कर सकते कि आज जो संकट आया है, वह पैदा ही नहीं होता और साथ ही आगे के लिए भी उसका बहुत बड़ा उपयोग होता, दोनों तरह से यानी बिजली की भी पूर्ति होती और पानी जो बेकार चला जा रहा है उसको नहरों द्वारा सिंचाई में भी प्रयोग करते इस प्रकार खेती की पैदावार बढ़ाने में भी उससे हमको बहुत बड़ी मदद मिलती।

हमारे उत्तर प्रदेश में भूगर्भीय जल का बहुत भारी भंडार पड़ा हुआ है लेकिन हम उसका समुचित उपयोग नहीं कर पा रहे हैं। यदि हम उसका पूरा उपयोग करते, नलकूप बना करके तो अकेला उत्तर प्रदेश ही सारे देश को अन्न दे सकता था। परन्तु इतना बड़ा लम्बा, चौड़ा गंगा, यमुना और घाघरा का मैदान और उसकी इतनी उपजाऊ मिट्टी, आज पानी की कमी के कारण अपने भर के लिए भी अन्न नहीं पैदा कर पा रही है, जिससे अनेक दिक्कतें पैदा हो रही हैं। इसलिए मैं माननीय मन्त्री जी से चाहूंगा कि उत्तर प्रदेश का जो भूगर्भीय जल है उसका उपयोग करने के लिए अधिक से अधिक प्रयास करें और प्रांतीय

सरकार को इस मामले में सहयोग दें। बड़ी बड़ी नदियां जो हिमालय से निकलती हैं उन में 12 महीने पानी चलता है। वह इस वर्ष सूखी पड़ी रहीं। लेकिन इस वर्ष हिमालय पर बहुत बर्फ पड़ी है, उसका भी यदि हम उपयोग करना चाहते तो कर सकते थे। लेकिन कोई बड़ा जल विद्युत गृह न होने से हम उसका उपयोग नहीं कर पा रहे हैं।

उत्तर प्रदेश की सरकार ने लगभग 12 सौ मेगावाट की क्षमता की 330 करोड़ रुपये की 8 योजनाएँ बनाकर भेजी हैं। वह सारी बातें विस्तार के साथ यहां पर आ चुकी हैं। मैं आशा करूंगा कि केन्द्रीय सरकार उन योजनाओं को स्वीकार करेगी और उनको बनाने में पूरा सहयोग देगी। हमारे उत्तर प्रदेश में जो थोड़े बहुत नलकूप लगे हैं। लेकिन जो नलकूप लगे हैं उनमें से कई बेकार पड़े हैं क्योंकि काम अधूरा छोड़ दिया गया। कुछ रिज की कमी है जिससे पूरी पूरी गहराई तक बोरिंग नहीं हुई और वह अधूरे पड़े हैं। एक तो वैसे ही उन की संख्या कम है और जो बने भी हैं उनमें से भी बेकार पड़े हुए हैं। दो दो, तीन तीन साल से वह बेकार पड़े हैं। यदि उनको चालू कर दिया जाता तो उससे लाभ मिल सकता था।

मैं चाहता हूँ नदियों के पानी का मामला जो कि प्रान्तों के आन्तरिक झगड़े का कारण है, उसको राष्ट्रीय सम्पत्ति घोषित किया जाये और केन्द्रीय सरकार उसको अपने हाथ में ले ले। इसी तरह से विभिन्न प्रान्तों में जो बिजली बोर्ड बने हुए हैं वह पूरी बातें सुनते नहीं हैं। कुछ भ्रष्टाचार की

[श्री नागेश्वर द्विवेदी]

भी शिकायतें हैं। वैसे भी एकरूपता लाने के लिए आवश्यक है कि विद्युत विभाग को केन्द्रीय सरकार पूरी तरह से अपने हाथ में ले। और जैसा कि मैंने सुना है देश में जो बिजली की लाइन हैं उनको एक में जोड़ने का प्रयास सरकार कर रही है, मैं भी चाहता हूँ कि सरकार पूरी तरह से उसको एक लाइन में कर दे ताकि सारे देश के लिए एकरूपता पैदा हो सके। हमारे प्रदेश में किसानों को वैसे ही बिजली मंहगे भाव पर दी जाती थी, बनिस्वत उद्योगपतियों के लेकिन माननीय मन्त्री जी के प्रयास से उसमें एकरूपता लाई गई। 13 पैसे फी यूनिट बिजली का रेट निर्धारित हुआ लेकिन आज हालत यह है कि किसानों को 40 पैसे फी यूनिट बिजली दी जा रही है। एक तरफ तो बिजली इतनी मंहगी है और दूसरी तरफ किसानों पर जोर डाला जा रहा कि वह अपना गल्ला सस्ते से सस्ता बेचें। मैं चाहूंगा कि सरकार इस बात पर ध्यान दे और सस्ती से सस्ती बिजली किसानों को देने का प्रयास करे। 13 पैसे फी यूनिट से 40 पैसे फी यूनिट बिजली का रेट हो जाना बड़ी चिन्ताजनक बात है। जैसा कि मैंने अभी नलकूपों के सम्बन्ध में बताया कि बहुत से नलकूप जो बने हैं वह अधूरे पड़े हैं लेकिन वहां पर चौकीदार रख दिए गए हैं। बेकार में उनको वेतन दिया जा रहा है और हम उसका कोई लाभ नहीं उठा पा रहे हैं। मैं चाहता हूँ सरकार इन सभी बातों पर विशेष तौर से ध्यान देगी।

पुराने जमाने में अंग्रेजी राज्य के पहले लोग सिंचाई के लिए अच्छे पानी का उपयोग करते थे, छोटी छोटी बंधियां बनाते थे। लेकिन अंग्रेजी काल में वह बंधियां टूटती गईं और पट्टे होते गए। नतीजा यह है कि जो छोटे छोटे बांध बनाकर पानी से सिंचाई की जाती थी वह बांधों के टूट जाने से अब बाढ़ का कारण बन गई हैं। दूसरी तरफ सिंचाई में भी कमी आ गई है। अब वैसी छोटी छोटी बंधियां बनाना मुश्किल है लेकिन सरकार मध्यम दर्जे के बांध बनाकर बरसाती पानी को रोक दे और उसमें छोटे छोटे पंपिंग सेट्स लगाकर सिंचाई की सुविधा दी जाये तो छोटे पैमाने पर भी बहुत बड़ा काम किया जा सकता है और उसमें सिंचाई के काम में बहुत बड़ा सहयोग मिल सकता है। प्राचीन काल की जो झीलें हैं या बड़े-बड़े तालाब हैं वह बड़ी तेजी के साथ टूट रहे हैं और बचे कुचे अब टूटते जा रहे हैं। लेकिन जो बच गए हैं, जिनके पट्टे नहीं हुए हैं, मैं चाहूंगा कि उनके तोड़ने पर रूकावट डाली जाये और उनको उसी हालत में रखा जाये और उनका इस तरह से निर्माण किया जाये कि स्थानीय तौर पर सिंचाई का लाभ उठाया जा सके। यदि सरकार ध्यान देगी तभी वह बच पायेंगे नहीं तो थोड़ा थोड़ा करके खेती की भूमि का दायरा तो बढ़ता जायेगा किन्तु सिंचाई की कमी हो जायेगी जिससे खेती की तरक्की में बाधा पड़ेगी।

हमारा जौनपुर शहर पिछले दिनों तीन चार सालों के अन्तर पर बराबर

बाढ़ से पीड़ित रहता है। पिछले साल 1971 में तो बहुत बड़ी बाढ़ आई यानी पिछले ती सालों में जैसी बड़ी बाढ़ आई थी उससे भी आगे वह बढ़ गई। मन्त्री महोदय ने कृपा करके उस शहर की सुरक्षा के लिए अनुदान दिया है, सहायता दे रहे हैं और उसकी सुरक्षा व्यवस्था होने जा रही है। उसके लिए हम उन्हें धन्यवाद देते हैं लेकिन साथ ही मेरा निवेदन है कि जीनपुर से पहले ही गोमती से प्रभावित पिलकिछा का क्षेत्र है वहां पर बाढ़ का और भी गहरा प्रभाव पड़ना है। बीरमपुर और कुछ इस तरह के गांव है जोकि बराबर कटते जा रहे हैं। वहां की आबादी उजड़नी जा रही है और खेत एवं घर बराबर कटते जा रहे हैं तथा नदी में विलीन होते जा रहे हैं। इससे वहां किसानों में आपस में तनाव भी पैदा होता है। मैं चाहूंगा कि बीरमपुर और दूसरे जो गांव गोमती के कटाव से बहने चले जा रहे हैं, बराबर होते जा रहे हैं सुरक्षा के लिए यदि कोई प्रबन्ध मन्त्री जी कर मके तो मैं उनका बड़ा आभार मानूंगा।

इन शब्दों के साथ मैं सिंचाई व विद्युत विभाग के अनुदानों की मांगों का समर्थन करता हूं।

SHRI M. S. SANJEEVI RAO (Kakinada): Mr. Deputy-Speaker, Sir, I rise to support the Demands relating to the Ministry of Irrigation and Power.

At the outset, I have to remark that the allocation made to this vital Ministry is too meagre to cope up with

the pressing needs of the country and, particularly, the demand for power continues to outstrip the growth rate resulting in the acute shortage of electrical power throughout the country. The electrical power is the most important constituent in the vital infrastructure for the development of industrial base which creates employment potential in the country. The power development programme has, therefore, to be essentially planned with the object of meeting the estimated demand of power to sustain the industrial growth rate as envisaged in the Fifth Five-Year Plan.

In the Fourth Five-Year Plan, the Ministry has fixed a target of raising the installed generating capacity from 14.3 million kw to 23 million kw, by adding 8.7 million kw. But, unfortunately, even this meagre target we have not been able to achieve, and we expect to attain only 20 million kw, thereby adding only 5.7 million kw, instead of 8.7 million kw.

To further add to our problems, the monsoon has been particularly weak this year with the result that the inflows into the reservoirs feeding the hydro power stations have been sub-normal.

To be exact, most of the hydro power stations in the entire country are generating, at the most, half of their rated capacity. It is the same story with the nuclear power stations where the Tarapur Atomic Power Station which uses enriched uranium and also the Rana Pratap Sagar Nuclear Power Station which uses natural uranium are generating much below their rated capacities. It is most unfortunate that even the conventional thermal power stations are generating much below their rated capacity. As a matter of fact, quite a few units are idle either due to want of spare parts or due to not getting timely supply of coal. In this bleak and gloomy atmosphere, I think, the Ministry of Irrigation has rightly planned to give top priority for elec-

[Shri M. S. Sanjeevi]

trical power generation and decided to accelerate the power development programme. But, unfortunately, they are not keeping up to their word. According to their Report, the Ministry of Irrigation wants, in the Fifth Plan, to double their rated generating capacity, from 20 million kw. to 40 million kw. But I doubt whether they can reach that capacity. The reasons are, as you know, they should raise 20 million kw in five years, by the end of the Fifth Plan, whereas in the last Plan, the Fourth Plan, they could raise only 5.7 million kw. The additional targeted capacity to be commissioned in the Fourth Plan is 8.7 million kw, out of which the indigenous equipment to be added is 4.9 million kw. But, unfortunately, the indigenous manufacturers like Bharat Heavy Electricals and Heavy Electricals, Bhopal, could manage to give only 2.2 million kw instead of 4.9 million kw. So, if we want to generate 20 million kw of power, the indigenous power plants should be able to give at least half of their targeted capacity of 20 million kw which, I think, is a very difficult task.

Now I come to raw materials. I think, we are fortunate in this respect. We are producing 70,000 million tonnes of coal out of which we are only making use of 16,000 million tonnes of coal for thermal power. As regards nuclear power, we have only 30,000 tonnes of uranium and 500,000 tonnes of thorium. I request that the Ministry of Irrigation may, in consultation with the Atomic Energy, give priority for planning and installing fast reactor feeder type of nuclear power stations using, as fuel, thorium and plutonium instead of uranium which we are using for Tarapur and Rana Pratap Sagar.

Now, I come to my State of Andhra Pradesh which people generally call Andhra Pradesh because we have nothing but darkness all around within the State. Here, paradoxically, a State which has plenty of natural resources for hydel and thermal power

generation and ample mineral wealth to start the industries is by far the most backward State as regards power generation is concerned. The State Government has planned to instal a thermal station at Vijayawada for generating 400 M.Ws of power but, unfortunately, I understand the Planning Commission has not cleared that project on the pretext that they have to bring coal from Singareni collieries, some 90 miles away. But the very same Planning Commission only a few days ago cleared a thermal power station at Ennore for getting coal all the way from Singareni, a distance of 400 miles. I cannot understand why this discrimination to my State. Is it because that the Andhra Pradesh has 39 MPs to support Shrimati Indira Gandhi while Tamil Nadu has sent only 9 M.Ps as against our 39?

Same is the case with regard to the Godavari Barrage. Here is a barrage which was built 100 years ago by that great and eminent engineer, Sir Arthur Cotton. He predicted the life of the dam as 100 years but now the engineers have found out that the barrage is very weak. Accordingly, the State wants to build another barrage at a cost of Rs. 35 crores and the local people have come forward generously giving nearly Rs. 5 crores. But, Sir, the amount spent by the State Government last year is just Rs. 90 lakhs. I leave it to you, Sir, just think for yourself as to how many years it will take to complete the dam. May I warn you that 12 lakhs acres of fertile land is under this great barrage and think of the serious consequences for not only the State but for the entire country once this dam gives way and for the production of rice.

Lastly, I congratulate the Ministry once again for taking up this massive and ambitious plan to raise the installed capacity to 40 million kilowatts by the end of the Fifth Plan and I hope and trust that under the eminent and efficient leadership of Dr. K. L. Rao, this plan will be completely

realised of generating 20 million kilowatts of power for the good of the people of India.

SHRI P. M. MEHTA (Bhavnagar): I want to make only one point and that is regarding the Narmada Project. We all know very well that this is the most important project of the country and somehow or other this project, though decided by the Experts' Committee, has not yet been finalised and that has created doubts in the mind of people of my State.

There was a dispute among four States regarding this project and the dispute was referred to the Tribunal. But after the elections to the Assembly, the Chief Ministers of all the four States came to a decision that the dispute should be handed over to the hon. Prime Minister because as there is the rule of the same Party in the Centre as well as in the States, they thought that it would smoothen out and they would be able to get the decision early. But, unfortunately, that has not happened. In August 1972 it was reported that the laying of the foundation would be done by the Prime Minister on 15th August, but that did not happen. Then, we heard that the award would be out by the end of December, but that also did not happen. It was said that soon the decision would be given and it was stated by the hon. Minister, Dr. Rao, but that too did not happen. In March we appealed to the honourable Prime Minister that immediately the award should be given on this important project but that has not happened. March is over and we are in the middle of April. The hon. Minister has time and again said outside the House and inside the House that the award will come soon. I do not know whether the hon. Minister knows when the Prime Minister will be pleased to spell out the award on this dispute. This has created doubts in the minds of the people, especially when our State Gujarat is facing such serious drought conditions. This is a very important project and it should be

implemented. This is actually resulting in national loss because huge quantities of water are going to waste into the sea, without any useful purpose being served. It is a multi-purpose project. It can give navigation facilities, it can control flood and it is useful for irrigation and power, both. The Expert Committee has recommended about the height of the dam at Nowagaon and other things also. But somehow or other, this Ministry has failed to take up the matter. I request the Prime Minister to give the award and to implement the same because it is very important for the whole nation, and it is in the interest of the country at large. A long time has passed by. It is not only useful of the State of Gujarat but it is useful for the whole country. That is why I make this submission. Many problems will be solved if this project is implemented as early as possible. This project should not be neglected. Because there are some differences between the Ministers concerned of these States it should not be kept hanging fire for long and long. So, this dispute should be solved. If it is a dispute, well, the Minister should go ahead with the recommendations of the Expert Committee. Irrespective of the political party affiliations all Members of Parliament have requested the Prime Minister to give the award as early as possible. Two representatives on behalf of all the MPs also met the honourable Prime Minister. They reported to us saying that the response was favourable. But, unfortunately, the result has not come yet. Therefore, I would request the hon. Minister to take up this matter, if needed, with the Prime Minister, and I appeal to him that this project should be taken up and implemented as early as possible.

SHRI G. BHUVARAHAN (Mettur): I rise to support the Demands. I want to say something about the power shortage and power generation. In the modern world power is no longer a

[Shri G. Bhuvarahan]

luxury. It has become an absolute necessity. Without power we cannot do anything now. In a developing country like India power is a principal mover of the economic and also industrial growth.

If we want to do something in any field we depend upon the power resources. No doubt, we have achieved something in the previous Plan. Before independence our power generation was 1.8 million kw and now we are producing more than 20 million kw. Our per capita power consumption also at the time of independence was only 10 kwh but now it is 90 kwh. We have achieved the financial targets of the Plan period but not the physical targets. There is shortfall of almost all the plan periods. 27 per cent, 35 per cent, 36 per cent and 37 per cent in the production. We have appointed so many committees to go into the details of the administration, performance, maintenance and other important matters. In the year 1969 we had appointed one economy committee. They have suggested and recommended so many important issues. I do not want to go into the details. I want to mention only one thing. They suggested periodical check-up and inspection of the power Plant. But there is no follow-up of this suggestion. The Report was placed in the year 1969 but nobody followed it up. The departmental people never care for this Report, for example, the transmission loss is increasing every year as compared to other countries. In the beginning it was 12 per cent and now it is 18 per cent. Can't we reduce this transmission loss? We are now in the advanced stage. Nothing has been implemented so far. If we can at least reduce the transmission loss by one per cent we will be saving Rs. 5 crores in a year. But nobody is interested in implementing these things.

Dr. Rao is a very efficient and expert engineer. He has been in the same department for more than a

decade. I cannot understand the meaning of the words 'efficient' and 'expert'. If you are efficient and an expert can't you reduce losses. Can't you make-up this deficit by better planning? Nobody is interested in all these things.

Now, I want to say something about my State Tamil Nadu. Now we are in a very difficult position. Everybody in the DMK criticises the Central Government for not supplying enough coal. But they are not interested in getting coal. They are only interested in getting more power. I am surprised to note that in the Annual Report there is one Thermal Power unit still existing in the list which has already been sold by DMK Government two years back, that is, Madurai unit. How have they put the Madurai unit in the existing list? They are not interested in getting any new project. If they want to get coal they can, but they are not interested in getting coal. They wanted to fight with the Centre. They have already sold Madurai Thermal Unit. They wanted more power not for producing power but to sell Power Plant. The actual position in Tamil Nadu is that after the monsoon failure, the DMK split came about. They are interested only in their own party matter. They are not interested in producing more power and proper distribution of power. Now we are in a very difficult situation.

Tamil Nadu is one of the most important yarn producing States. We cannot produce more yarn to supply to weavers. There is a 75 per cent power cut. How to solve this problem is a matter to be considered.

We had sent some of the schemes for the Fourth Plan before 1967. It was done when there was the Congress Government and most of the schemes have not been sanctioned so far. I shall mention about 3 or 4 schemes. One of them is Hogenekkal. It is a very important hydro-power Plant.

The former Mysore Chief Minister recently mentioned about the importance of the scheme and very cheap also. There is a possibility of setting up Hydro-power station of the capacity of 12 lakhs kw, because the Government of India has declared Dharmapuri as one of the most industrially backward areas. Hogenekkal is in Dharmapuri District. What is the difficulty in sanctioning and starting a Hydro Project? Hogenekkal scheme must be sanctioned and it should be implemented soon.

Neyveli second minecut is also most important. The existing unit is also needed for the second minecut for its economic viability.

What about the Kalpakkam Atomic Power plant? Why was it so much delayed for commission and what is the cause for that? I want to know the answer from the Ministry. Also, Ennore Thermal Station is getting delayed due to some faults. So many stories are there about it. I do not want to go into all those stories. How much money has been spent for rectifying these defects. and who is responsible for the defects?

About the Tuticorin Thermal Power Station, a proposal has already been sent. No sanction has so far been given for it.

About the Cauvery dispute, one of the DMK Members mentioned just now. I want to tell the House that we have appointed a fact-finding Committee. The Committee has also submitted a report. The Minister is going to meet the Chief Minister shortly. He is fully confident of settling the matter and solve the problem, by negotiation. I am very glad to know that Dr. K. L. Rao wants to solve the problem by negotiation. Instead of going about here and there, it is better that we sit together and discuss the matter with the Chief Ministers, settle these points and solve

the problem without any difficulty. I am glad that the Irrigation and Power Ministry under K. L. Rao is tackling this problem very efficiently.

MR. DEPUTY-SPEAKER: The hon. Member has made his points long before. He is just dragging on. He should conclude now.

SHRI G. BHUVARAHAN: The Ganga-Cauveri project is a very important one. If we want to solve the problem of unemployment, banish poverty and usher in green revolution, it is necessary that we must take up the Ganga-Cauveri project in right earnest. Otherwise, all our slogans of banishing poverty have no meaning at all. This Ganga-Cauveri project has now attracted the attention of the entire nation. No doubt, it involves huge costs and longer time. We should take up the challenge with a strong will and determination and implement it.

With these words, I support the Demands.

*SHRI KRISHNA CHANDRA HALDER (Ausgram): Mr. Deputy-Speaker, Sir, while speaking on the Budget grants of the Ministry of Irrigation and Power, demands have already been made on behalf of my party for the supply of 40,000 cusecs of water in the 'Bhagirathi' river from the Farakka Barrage all the year round for saving the Calcutta port. Various other demands have also been put forth by my party. I will not go into them again. In the short time at my disposal, I will only like to draw the attention of the Hon. Minister of Irrigation and Power to the devastation caused by the Ajoy river through floods every 2 or 3 years and to the need of taming this turbulent river. The Ajoy river flows through Bihar and Bengal and it causes untold suffering to millions of people every year in the districts of Birbhum, Burdwan, Nadia and Murshidabad in West Bengal through devastating floods. I will demand of the Hon.

*The original speech was delivered in Bengali.

[Shri Krishna Chandra Halder]

Minister to draw up schemes for improving the flood control measures on this river. I will like to know categorically whether flood control schemes for the Ajoy river have been included in the Fifth Five Year Plan or not. Sir, the 'Kunur' river is a big tributary of the river Ajoy. There is constant water logging in the Kunur river as a result it fails to function as a drainage outlet for the flood waters of the Ajoy. It is therefore of the utmost importance that schemes should be drawn up for desilting the Kunur river and for improving its drainage outlets so that there is no water logging and the excess waters may be drained away, thereby minimising the danger of floods.

Sir, you are aware that a Commission of Enquiry was appointed by the West Bengal Government to enquire into the causes of the terrible and devastating floods in Bengal in 1956. That Commission had made detailed investigations and in the Report of its findings it has been stated that the embankments on the river Ajoy collapse frequently. Previously steps used to be taken by the Zamindars and the Government to protect these embankments. Now, the Government is solely in charge of looking after the embankments and although they are taking some measures for their protection, it is not adequate. Sir, at other times of the year there is not enough water in the 'Bhagirathi'. But at the time of floods the Bhagirathi is one of the main drainage outlets in West Bengal. But in the rainy season when flood waters flow in the Bhagirathi, it proves inadequate to contain and drain the excessive flood waters. I will therefore suggest that a scheme may be taken up for constructing dams and reservoirs in the 'catchment' areas of the Ajoy river with a view to control the devastating floods of this river and for providing irrigation facilities at the time of scarcity of water. The flood waters can be stored in the reservoirs, this will prevent the destruction from floods. This

stored up water can be utilised for providing irrigation facilities through a net work of canals and Hydro-electricity can be generated with the help of this huge mass of stored up waters to meet the future demands of power. I will therefore demand for taking up such multi-purpose projects in the 5th Five Year Plan for utilising the excess waters of the Ajoy river which will bring untold prosperity to the people in place of the untold miseries brought at present. Sir, I will conclude by drawing the attention of the Hon. Minister to the request made by the West Bengal Government to the Centre for taking up the Teesta Barrage Scheme as a Central Scheme. The West Bengal Government have requested the Centre to allocate the necessary funds immediately in connection with the above scheme. I will expect a categorical reply from the Hon. Minister about this request of the West Bengal Government. With that Sir, I conclude my speech.

15 hrs.

श्री जगन्नाथ मिश्र (मधुबनी) : उपाध्यक्ष महोदय, प्राणी मात्र के लिए जल और रोशनी कितने आवश्यक और महत्वपूर्ण हैं, इस की चर्चा मैं यहां आवश्यक नहीं समझता हूं। मैं केवल यह कहना चाहता हूं कि वेदों में भी इन दोनों की स्तुति की गई है कि प्राणी मात्र का कल्याण हो, सुख हो और समृद्धि हो। इसी तरह विश्वबंध कवीन्द्र रवीन्द्र एवं बंकिमचन्द्र ने भी स्वरचित नैशनल एन्थम और विख्यात कविता के द्वारा पानी और रोशनी की स्तुति की है मानव के कल्याण के लिए। रूस में महाक्रान्ति के बाद लेनिन ने कहा कि समूचे रूस का विद्युतीकरण होना चाहिए और वैसा हुआ। इस चृष्टभूमि में हमारा यह इरिगेशन और पावर का मंत्रालय देश में पानी और बिजली देने का काम करता है,

इसलिए यह कितना महत्वपूर्ण है, इस का अनुमान सहज ही किया जा सकता है।

15'01 hrs.

[SHRI K. N. TIWARY in the Chair]

जब देश आजाद हुआ तो 1951 में सिंचाई के लिए 588 योजनाएँ स्वीकृत की गई, जिन में से आज तक 366 योजनाएँ पूरी हो चुकी हैं। इस संबंध में जो कठिनाइयाँ आई—जो स्वाभाविक हैं—उन के निराकरण के लिए सरकार ने एक राष्ट्रीय जलग्रिड के संगठन की योजना बनाई है। वह इन के माध्यम से सिंचाई के मार्ग को प्रशस्त करना चाहती है और देश भर में खेतों को पानी देना चाहती है, जो बड़ा उत्साहवर्द्धक है। फिर भी हम देखते हैं कि इस मंत्रालय से जो अपेक्षा की जाती है, वह पूरी नहीं हुई है और हमारे लक्ष्य पूरे नहीं हो सके हैं। हमारे देश में 70 प्रतिशत लोग खेती पर निर्भर करते हैं। करीब 38 करोड़ एकड़ भूमि खेती के लायक है, जिस में से एक-चौथाई भाग में सिंचाई सम्भव हो सकी है।

इस संबंध में अन्तर्प्रान्तीय विवादों जैसी कठिनाइयाँ आई हैं। गंगा, गोदावरी, नर्मदा, कावेरी, सोन और कृष्णा आदि नदियों के बारे में विवाद उत्पन्न हुए हैं, जिन का तसक्रिया या फैसला अभी तक नहीं हो सका है। इसके कारण सिंचाई का मार्ग अवरुद्ध हो जाता है। यह आवश्यक है कि इन सब बातों पर मुस्तैदी से ध्यान दिया जाय, ताकि इस विभाग के मार्ग में कोई कठिनाई न आयें।

यह ठीक है कि देश के लिए बृहद और मध्यम योजनाएँ आवश्यक हैं—लेकिन

मुझे कुछ परेशानी होती है, जब मैं देखता हूँ कि लघु सिंचाई योजनाओं पर कोई खास ध्यान नहीं दिया गया है। यही कारण है कि हम अपने लक्ष्य प्राप्त नहीं कर सके हैं। हम बड़ी बड़ी योजनाओं के फेर में पड़े रहते हैं और इसलिए सिंचाई का काम पूरा नहीं होता है।

उदाहरणस्वरूप गंडक को लीजिए बिहार में दस बारह वर्ष पहले इस योजना का कार्यागम हुआ, जब कि इस की लागत 56 करोड़ रुपये थी। आज उस की लागत बढ़ कर 120 करोड़ रुपये तक हो गई है, लेकिन अभी तक सिंचाई का काम नहीं हो पाया है।

पूर्वी कोसी नहर अभी बनी ही है कि उस में गाद भर गई है, जिस से सिंचाई का काम बन्द हो गया है। पश्चिमी कोसी नहर का काम शुरू हुआ है, इसके लिए मैं डा० राव का बहुत आभारी हूँ। उन की जितनी तारीफ की जाय, वह थोड़ी है। उन्होंने बड़े परिश्रम से नेपाल सरकार से उसकी मन्जूरी ली है। उस का काम शुरू हुआ है, लेकिन अखबारों से पता चलता है—मैं ने भी जाकर देखा है—कि जिस ढंग से काम चलना चाहिए, वह उस ढंग से नहीं चल रहा है। वहाँ के असामाजिक तत्व काम में रुकावट पैदा कर रहे हैं। बड़ी योजनाओं में इस प्रकार की दिक्कतें पैदा होती हैं।

मैं उत्तर बिहार में लघु सिंचाई योजनाओं के बारे में कुछ सुझाव देना चाहता हूँ। ग्रीष्म-काल में गंगा और अन्य

[जगन्नाथ मिश्र]

बड़ी नदियों में से विद्युत पम्पों से पानी निकाल कर उन को सहायक नदियों और अन्य छोटी-छोटी नदियों में डाला जाये, जिस से हम नहरों की खुदाई के बिना ही पानी उपलब्ध कर सकें।

गंगा के क्षेत्र में पम्पों से पानी निकालने के बजाय स्वयं गंगा से पानी निकालने की व्यवस्था की जाय। राहत-कार्यों के लिए निर्धारित धन का उपयोग गांवों में तालाबों की खुदाई के लिए किया जाय, ताकि अत्यन्त सूखे के समय पेय जल का अभाव न हो और मवेशियों के लिए भी पानी मिल सके। जहां सतही पानी उपलब्ध है, उस क्षेत्र का सर्वेक्षण कर के प्रत्येक छः एकड़ पर एक कुआं देने की व्यवस्था की जाये। जमीन की अनिवार्य हदबन्दी की जाये, ताकि लोगों को सिंचाई के लिए अपनी पूंजी लगाने की प्रेरणा मिले।

चूंकि बिजली की कमी है, इसलिए डीजल पम्पों का पर्याप्त मात्रा में उत्पादन कराया जाये, जो छिटपुट खेती के लिए अधिक सहायक होते हैं और अगर आवश्यकता हो, तो उनके निर्माण के लिए विदेशों से भी कारखाने का आयात किया जाये और उसकी स्थापना कोसी अंचल में की जाये।

सरकार का यह दावा है—और यह सत्य है—कि उसने 1951 से लेकर आज तक बिजली की उत्पादन क्षमता आठ गुना बढ़ाई है। वह 2.3 मिलियन किलोवाट से 18 मिलियन किलोवाट तक पहुंच गई है। लेकिन बिहार को, और खास तौर से उत्तर बिहार को, क्या मिला? देश में बिजली का पर कैपिटल

कनजम्पशन 91 यूनिट है, लेकिन उत्तर बिहार में वह केवल 13 यूनिट है।

बरौनी के थर्मल पावर स्टेशन की कार्य-क्षमता की चर्चा की जा चुकी है। एक थर्मल पावर स्टेशन कटिहार में स्थापित करने की चर्चा चली। लेकिन बाद में ओवर-नाइट विचार बदल गया और उत्तर बिहार के लोग मुंह ताकते रह गये। अब मुजफ्फरपुर के बारे में चर्चा चल रही है। मैं प्रार्थना करूंगा कि इन दोनों स्थानों पर थर्मल पावर स्टेशनों की स्थापना की जाये और साथ ही बिहार में अणु विद्युत केन्द्र की स्थापना पर भी गम्भीरता से विचार किया जाये, ताकि बिहार का कल्याण हो।

इस मामले में बिहार के साथ हमेशा सौतेली मां जैसा व्यवहार होता रहा है, जो बर्दाश्त नहीं किया जा सकता है। इस कारण बिहार में बड़ा असंतोष और आक्रोश है। सरकार ने 1965 में यह निर्णय लिया कि सारे देश में चार विभिन्न स्थानों में रिजनल इलैक्ट्रिसिटी बोर्ड की स्थापना हो। उस के आधार पर बिहार में ईस्टर्न रिजनल इलैक्ट्रिसिटी बोर्ड की स्थापना हुई। वैंस्ट बंगाल, बिहार और उड़ीसा को मिला कर ईस्टर्न रिजनल इलैक्ट्रिसिटी बोर्ड का संगठन हुआ और शुरू में यह फ़ैसला किया गया कि दो दो वर्ष तक एक एक स्थान पर उसका हैडक्वार्टर रहे। कुछ प्रशासनिक और अन्य दिक्कतों के कारण बाद में यह निर्णय लिया गया कि पटना में उसका स्थायी कार्यालय खुले। इस के अनुसार 1965 से आज तक वहां पर वह कार्यालय

कार्यरत है। अब यहां लोड डेसपैचिंग स्टेशन खुलने की बात हो रही है। यह केन्द्रीय सरकार द्वारा संचालित होगा और उसके जरिये बिजली का वितरण होगा। उसकी क्षमता बहुत बढ़ने वाली है। अब अचानक यह निर्णय लिया गया है कि इसको भी उठाकर के बैस्ट बंगाल कलकत्ते में इसका कार्यालय स्थापित किया जाय। उससे बिहार को कितना घाटा लग सकता है यह सहज ही अनुमान करने की चीज है। वह बहुत ही बड़ी संस्था होगी, सेंट्रल गवर्नमेंट के कंट्रोल में होगी। उसके जरिए से बिजली देने का काम होगा। एम्प्लायमेंट का स्कोप होगा। बिहार कितने दिनों से सताया हुआ है और सब तरफ से सताया हुआ है। इसलिए मैं आपके द्वारा डा० के० एल० राव से प्रार्थना करूंगा कि वह अपने इस फैसले पर फिर विचार करें और इस संस्था को बिहार से न जाने दें ऐसा करके जिस तरह से अन्य कार्यों के लिए उन्हें बिहार की तरफ से धन्यवाद दिया जा रहा है उसी तरह से इसके लिए भी धन्यवाद लें।

SHRI GIRIDHAR GOMANGO (Koraput): I rise to support the demands for the Ministry of Irrigation and Power. For the last three days, the hon. friends have discussed about the problems of the irrigation and power of this country, covering almost everything and within the limited time. I shall talk about the uncovered things so far, about Orissa, and especially related to my constituency.

We face two problems; drought and floods. To talk of drought first, the Ministry of Irrigation and Power had some proposals for making water available. There are some inter-State water disputes. Dr. Rao visited the

flood affected area in Orissa, especially Ganjam, Koraput and other districts. In his report he suggested that there was flood in Bansadhara river and damaged the towns and cultivable lands either sides of the river. There was a proposal to construct a dam upstream of the river Bansadhara but it has been shifted to Gotta in Andhra Pradesh, because the Orissa Government objected to it. Now Dr. Rao is suggesting that the Chief Engineer of Andhra and Orissa should discuss and finalise whether the dam should be constructed upstream in Orissa or at Gotta in Andhra Pradesh. But how the Government of Orissa agreed to re-construct the committee on this river, which was denied in the past. There are water disputes on river Kolab and Indrabati also. So we are facing drought and flood problems in the district every year. The same thing is happening about another river, Bahuda in Ganjam district. This river is also under dispute.

I want to say something about backward tribal areas of this country. The Ministry of Education and Social Welfare constituted an Expert Committee and submitted a report to this Ministry in 1972 for the development of the tribal areas. 2,000 hectares of land are yet to be irrigated in tribal areas. They have recommended Rs. 115 crores for irrigation and Rs. 100 crores for electrification for the tribal areas throughout the country where the tribals are thickly populated. I hope the recommendations should be granted by this Ministry for implementation in coming plans.

Here I want to submit that the hon. Minister should allot this required money and see that it is properly utilised. As regards my constituency I want to make submission before the hon. Minister that the multipurpose project i.e., Kolab, Indrabati and Pottiru and medium irrigation project i.e., Badaulla, Ramapadi

[Shri Giridhar Gomango]

and Bahuda should be taken up. My request to the hon. Minister is that, these irrigation projects should be taken up as early as possible for the development of backward areas of Orissa State.

Lastly, my request to Dr. Rao is that he should undertake electrification of adivasi villages in Koraput and Ganjam Districts. Already, some minor irrigation project has been undertaken in these areas and it is to be completed very soon. I want to finish my speech by saying that Dr. Rao should take immediate steps to see that the problems faced by the people are solved as early as possible.

SHRI A. K. KOTRASHETTI (Belgaum): Mr. Chairman, Sir, we are on the threshold of the Fifth Five Year Plan. And what we do now will set the pace for greater achievements in the next five years. Irrigation and power are the two key sectors which are responsible for the economic growth of our country. It has been rightly said by some of the Members that the country's prosperity and development are measured by the power that it consumes. During the last twenty-five years after Independence we have not been able to make much progress in the production of power. Hydro-electric projects are the main source of power in our country. At present we have the power shortage due to failure of monsoon. Normal demand for power is likely to outstrip the supply unless vigorous steps are taken to maximise the generation of power. Mysore has a hydel potential of about 5,500 MW. This is about a tenth of the country's potential. We have so far commissioned seven projects into service with an installed capacity of 966.6 MW generating energy to the tune of 5,142 million units and we have still a number of hydel projects with a potential for over 4,500 MW yet to be commissioned. Some of them are the Sharavathi-Stage III Linganamakki Dam Power House, Kalinadi-Phase I and II, Varahi and Bedthi.

These six projects will cost about Rs. 290 crores. Their installed capacity is about 1,623 M.W. and the energy potential is about 6,748 million units. Sharavathi-Stage III and Linganamakki Dam Power House are already included in the Fourth Plan. They require immediate clearance from the Government of India. Kalinadi—Phase I has already been cleared by the Government of India and central assistance is provided outside the plan.

Kalinadi—Phase II needs the highest priority and immediate clearance from the Government of India for the reasons set out below:—

- (i) The work has to be taken up along with Phase I;
- (ii) Advantage has to be taken of the working season in order to meet the advanced targets of commissioning;
- (iii) Supa Dam in Phase II offers considerable technical problems which require to be solved during the working season as that work on it may begin during the next working season; and
- (iv) Orders for generating equipment have to be placed immediately.

Varahi and Bedthi have been investigated and project reports prepared and have been sent to the Government of India for clearance. If the above hydel projects are taken up forthwith by giving such clearance by the Government as may be required in each case, it should be possible to commission some of them in the early part of the Fifth Plan and the remaining ones by the end of the Plan. The surplus power over and above Mysore's requirement can be made available to other States which are in need of power at rates considerably less than thermal power till such time as load develops in Mysore. Instead of making heavy investments

on costly thermal units in other States which are in need of power, it is preferable to invest on cheap hydel projects in Mysore and make cheaper power available to them.

Mysore has already built up a basic organisational set-up. It has also the technical know-how for execution of hydel projects. This will be geared up and strengthened to the extent necessary to take up all the above projects simultaneously on a war footing and complete them by the end of the fifth plan period. Thereby, we will be increasing the installed capacity from 966 MW to 2589 MW and add 6748 million units to the existing system.

In our country agriculture accounts for nearly half of our national income and the fluctuations in national income particularly in agriculture are mainly due to weather conditions. Agriculture in large areas of our country depends on rain-fed water. In order to minimise the amplitude of the fluctuations, we must reduce the dependence of agriculture on rain-fed water. So, the Government must concentrate more and more on the construction of irrigation projects.

MR. CHAIRMAN: Please conclude now.

SHRI A. K. KOTRASHETTI: Please give me two minutes. I am the only member from Mysore participating.

In Mysore there are three major projects coming up in the Krishna Basin, namely, Ghataprabha, Malaprabha and Upper Krishna. The estimated cost of Ghataprabha Stage I and II, Malaprabha and Upper Krishna Phase I projects is Rs. 239.77 crores. These three projects on completion will provide irrigation benefits to the drought affected districts of Belgaum, Bijapur, Dharwar and Gulbarga. It was therefore suggested by the Chief Minister in the last week of September to the Union Minister of Planning that special assistance must be given by the Centre, so that these projects could be completed early and a permanent relief provided to this area.

श्री बलदेवनाथ भार्गव (भजमेर) :
सभापति महोदय, सिंचाई और विद्युत मंत्रालय द्वारा जो मांगें प्रस्तुत की गई हैं, मैं उनका समर्थन करता हूँ। मैं यह महसूस करता हूँ कि जितनी राशि का प्रावधान किया गया है वह देश की आवश्यकता को देखते हुए सर्वथा अपर्याप्त है। जहां तक सिंचाई और विद्युत मंत्रालय का प्रश्न है, उसकी क्षमता के आधार पर उसके लिये कोई आर्थिक बन्धन रखना, मैं मानता हूँ कि देश की आवश्यकताओं को नजरअन्दाज करना है। हमारा देश कृषि प्रधान देश है। हमारे देश की अर्थ-व्यवस्था मुख्यतया कृषि पर आधारित है, जिसमें सिंचाई का प्रमुख स्थान है। देश की बढ़ती हुई जनसंख्या तथा उस की खाद्य तथा अन्य आवश्यकताओं की पूर्ति हेतु कृषि उत्पादन तथा प्रति एकड़ उपज बढ़ाने के लिये पानी की निश्चित सप्लाई आवश्यक है। भारत में वर्षा केवल कुछ महीने होती है, वह भी अनियमित होती है, देश के विभिन्न भागों में इसकी मात्रा में काफी अन्तर है—इसलिये यदि हमें देश की आर्थिक अवस्था को सुधारना है तथा उसको ठोस धरातल पर खड़ा करना है तो हमें सिंचाई को सर्वोच्च प्राथमिकता देनी होगी।

प्रथम पंचवर्षीय योजना के प्रारम्भ में कुल कृषि योग्य क्षेत्र 3820 लाख एकड़ भूमि में से 560 लाख एकड़ भूमि में सिंचाई के साधन उपलब्ध थे, अब चौथी पंचवर्षीय योजना के अन्त तक 1000 लाख एकड़ भूमि में सिंचाई के साधन उपलब्ध करा सकेंगे, जो यद्यपि काफी बड़ी उपलब्धि है तथा इस पर देश को गर्व भी है, परन्तु इस उपलब्धि के उपरान्त भी हमारा कृषक अभी भी वर्षा पर आधारित है।

[श्री बशेश्वर नाथ भार्गव]

इतने बड़े क्षेत्र के बढ़ने के बावजूद भी हमें यह नहीं भूलना चाहिये कि चौथी पंचवर्षीय योजना के अन्त तक केवल 24 प्रतिशत भूमि को सिंचाई के साधन उपलब्ध करा सकेंगे। इसलिये आज आवश्यकता इस बात की है कि हमारे पास जितने भी साधन उपलब्ध हैं उनके द्वारा जो हमारे देश के बाकी हिस्से हैं, 76 प्रतिशत जो कृषि योग्य भूमि है, उसको सिंचाई के साधन उपलब्ध कराये जायें।

जो एक हजार लाख एकड़ भूमि हमने सिंचाई के योग्य बनाई है उसमें भी अधिकांश भाग सिंचाई के लिये छोटी-छोटी नदियों, नालों और क्यूओं पर अवलम्बित है। हम देखते हैं कि कुछ क्षेत्र प्रति वर्ष बाढ़ पीड़ित रहते हैं। और कुछ क्षेत्र भयंकर अकाल की पीड़ा से पीड़ित रहते हैं। प्रति वर्ष होने वाले इस बहुत बड़े नुकसान को रोकने के लिये यह आवश्यक है कि हम बाढ़ों की समस्या और उसके साथ-साथ सूखे की समस्या के निराकरण के लिये इस प्रकार की बृहत् सिंचाई योजनाओं को प्राथमिकता के आधार पर लें जिनकी भण्डार क्षमता काफी बढ़ी हुई हो। इस सम्बन्ध में मेरी सब से पहली और बड़ी मांग है कि हमारे देश के जल को राष्ट्र सम्पत्ति घोषित किया जाय तथा इसी सम्बन्ध में जो हमारे अन्तर्राज्यीय विवाद चल रहे हैं या जो दूसरी चीजें हैं, उनके लिये यदि हमारा संविधान बाधक हो रहा है तो हमें संविधान में भी संशोधन करना चाहिये ताकि जो हमारी जल रूपी राष्ट्र सम्पत्ति है उसका सर्वोत्तम उपयोग हो सके।

यह हमारे देश का दुर्भाग्य है कि हमारा देश कृषि प्रधान होते हुए भी हमारे देश के कृषकों की बहुत बुरी दशा है, बड़ी दरदनाक

दास्तान है। इसलिये जल को राष्ट्र सम्पत्ति घोषित करके जो अन्तर्राज्यीय विवाद चल रहे हैं, उसको उन विवादों से निकाला जाय और एक समन्वित कार्यक्रम बनाया जाय जो हमारी सभी पालिसी साधनों को मिला कर बनाई जाय। मैं आपका ध्यान इस ओर भी दिलाना चाहता हूं कि हमारे देश में कुछ क्षेत्र ऐसे हैं जिन में काफी जमीन उपलब्ध है, मगर पानी की कमी की वजह से, वर्षा न होने के कारण बेकार पड़ी हुई है। यह राष्ट्र का नुकसान है। यदि आप राजस्थान को ही लें—वहां 8 करोड़ 40 लाख एकड़ भूमि है, जिसमें 6 करोड़ 60 लाख एकड़ भूमि कृषि योग्य है, लेकिन उसमें से केवल 3 करोड़ 75 लाख एकड़ भूमि में कृषि होती है यानी शेष 43.5 प्रतिशत क्षेत्र में वर्षा की कमी के कारण या सिंचाई के साधनों के अभाव के कारण खेती नहीं हो सकती। देश का जो कृषि योग्य क्षेत्र है, वह 13.8 प्रतिशत राजस्थान के अन्दर है जब कि भूमि पानी की वर्षा से जो उपलब्ध है—वह 1.35 प्रतिशत है। यदि सभी साधनों को उपलब्ध कराया जाय, उनका पूरा उपयोग किया जाय तो केवल 13 प्रतिशत कृषि भूमि को ये साधन उपलब्ध कराये जा सकते हैं। इसलिये जरूरी है तथा राष्ट्र के हित में है कि हम इन तमाम साधनों का उपयोग करें।

हम यह भी चाहते हैं कि जो हमारे पड़ोसी राज्य हैं उन से भी हमें पानी उपलब्ध कराया जाय। जैसे भाखड़ा व गंगा नहर है, उससे 16 लाख एकड़ भूमि सिंचित हो सकती है, लेकिन हमें 12 लाख एकड़ की सिंचाई की सुविधा दी गई। इसी प्रकार से राजस्थान

नहर है—जो एक प्रमुख योजना है, उसके लिए यदि हम यह चाहे कि राज्य स्तर पर पूरा कर लें तो यह एक भारी भूल होगी हमें उस को पूरा करने के लिए राष्ट्रीय स्तर पर प्रयास करना चाहिए। यह राज्य सरकार के साधनों के बूते के बाहर की बात है।

मैं आप से प्रार्थना करना चाहता हूँ कि एक तो वहाँ पर प्रकृति का प्रकोप है और यदि इधर आपका भी प्रकोप हो जाये...

सभापति महोदय : 5-6 आदमियों को अभी और समय देना है।

श्री बशेश्वरनाथ भार्गव : राजस्थान नहर की योजना एक राष्ट्रीय योजना है इसलिए इसका प्रबन्ध राष्ट्र को अपने हाथ में लेना चाहिए, केन्द्रीय सरकार को अपने हाथ में लेना चाहिए क्योंकि वह राजस्थान सरकार के बूते के बाहर भी है। पौंग डैम जो आज बन जाना चाहिए था, उसमें भी जो पानी रोकना चाहिए था जो संधि हुई थी उसके अनुसार सतलुज, बयास और रावी का पानी बांध कर इससे सिंचाई सुविधायें बढ़ाई जानी चाहिए थी वह नहीं की गई। मैं मानता हूँ कि राज्य के साथ एक द्रोह किया गया है।

इसके साथ साथ राजस्थान नहर का द्वितीय चरण पूरा नहीं किया गया जिससे कि 30 लाख एकड़ में सिंचाई होती, उससे खाद्यान्न की समस्या का समाधान होता तथा उन क्षेत्रों में प्रभावकारी कृषि हो कर महस्थल के विस्तार पर रोक और यह उत्पादन ऐसे क्षेत्र में होता जहाँ वर्षा और सिंचाई के साधनों के अभाव में एक दाना अनाज नहीं होता।

सुरक्षा की दृष्टि से भी यह बहुत आवश्यक था। मैं सरकार से विनम्र प्रार्थना करना चाहता हूँ कि इसी प्रकार से सिंदमुख व नोहर योजना से तीन लाख एकड़ को सिंचाई हो सकती है तथा चम्बल योजना से 7 लाख एकड़ भूमि की सिंचाई हो सकती है। यह सभी जितने क्षेत्र हैं वह अर्पित पड़े हुए हैं। अभी तक केवल 2,70 हजार एकड़ को सिंचाई के साधन मिले हैं इसी प्रकार से गुड़गांव नहर तथा भरतपुर फीडर योजना के द्वारा 1.50 लाख एकड़ की सिंचाई कर सकते थे लेकिन अभी तक 12 हजार एकड़ की सिंचाई की व्यवस्था हुई है। इसी प्रकार से यमुना नहर योजना है जिससे 5 लाख एकड़ को सिंचाई की व्यवस्था कर सकते हैं। माही व नर्मदा योजना से 9 लाख एकड़ भूमि को सिंचाई हो सकती है। इन सभी योजनाओं को पूरा करने पर राजस्थान में अनुमानतः 158 लाख एकड़ भूमि में सिंचाई की सुविधा प्राप्त कर सकेंगे जो कि कृषि योग्य भूमि का 23 प्रतिशत है और कृषि होने वाली भूमि का 42 प्रतिशत होगा। मेरी आपसे प्रार्थना है कि जो भी अकालग्रस्त क्षेत्र हैं वहाँ की योजनाओं को आप प्राथमिकता दें।

अजमेर जिले के संबंध में मैं आपसे प्रार्थना करूँगा कि लसाड़िया बांध की योजना द्वितीय योजना में सम्मिलित की गई थी परन्तु उसको अभी तक कार्यान्वित नहीं किया गया है। अजमेर के राजस्थान में विलोनीकरण के समय केन्द्रीय सरकार ने आश्वासन दिया था कि तत्कालीन अजमेर राज्य की सभी योजनाओं को पूर्ण करने का उत्तरदायित्व केन्द्रीय सरकार का होगा परन्तु राजस्थान सरकार की ओर

[श्री बाशेश्वर नाथ भार्गव]

से आज तक जो उपेक्षापूर्ण नीति बरती जा रही है उसका कोई निराकरण नहीं किया गया है। आपने भी आश्वासन दिया था कि इस योजना को 1973 में प्रावधान रखकर पूरा किया जायेगा। यह भी आश्वासन दिया था कि योजना-मंत्रालय से विचार-विमर्श करके उसकी पूर्ति करायेगे इसलिए मेरी आपसे प्रार्थना है कि भयंकर अकाल की स्थिति को देखते हुए उसको पूरा किया जाये। इससे वहां पर रोजगार की स्थिति भी ठीक होगी और इस योजना का बहुत बड़ा रिटर्न मिलेगा।

इसी प्रकार से मैं चम्बल लिफ्ट योजना के संबंध में प्रार्थना करूंगा कि अजमेर जिले के सभी शहरों में पेय जल का बहुत बड़ा समस्या है, वहां पर पीने के लिए पानी भी उपलब्ध नहीं है। वह एक ऐसा क्षेत्र है जो बंगाल की खाड़ी और अरब सागर से जो मानसून चलते हैं उनके छोर पर स्थित होने के कारण वहां पर पानी नहीं बरसता है। ऐसी स्थिति में इसके सिवा और कोई रास्ता नहीं है कि तत्काल वहां पर इस योजना को पूर्ण करें। आप करोड़ों रुपया अस्थाई योजनाओं पर खर्च करते हैं लेकिन समस्या का निराकरण नहीं होता है इसलिए मेरी आपसे प्रार्थना है कि तत्काल चम्बल लिफ्ट योजना को पूरा करें। आप राष्ट्रीय जल ग्रिड बनायें, गंगा को कावेरी से मिलायें लेकिन जिन क्षेत्रों में पानी की तत्काल आवश्यकता है वहां पर प्राथमिकता देकर योजनाओं को पूरा करें। इसलिए मेरी आपसे प्रार्थना है कि चम्बल लिफ्ट योजना की पूर्ति के लिए तुरन्त ध्यान दें। हमारे जिन्ने अजमेर की जो समस्या है

वह बड़ी गम्भीर समस्या है और राष्ट्रीय स्तर पर ही उसका निराकरण करने को व्यवस्था करें।

MR. CHAIRMAN: Please take five minutes only. I want to give time to everybody.

SHRI M. RAM GOPAL REDDY (Nizamabad): I am duty-bound to support this demand of Dr. K. L. Rao. Yes, Sir, I say, I am duty-bound. Because, left to myself, I am not going to support it, the reason being that the amount given to him is very meagre and it cannot meet the demands made by the Members even to the extent of ten per cent. That is why I want that the amount may be raised to one hundred per cent. That is my demand.

I want to draw the attention of Dr. K. L. Rao to the fact that after every five years we have to double the generation capacity of our power. But, unfortunately we are not producing more than ten per cent every year. That is why we cannot make the demands of our people.

The most important Ministry in the country is the Ministry of Defence. Next to that Ministry is the Irrigation and Power Ministry. We have taken a pledge to banish poverty from the country. If we want to banish poverty from the country, we have to give top priority to irrigation and power. Unless and until more and more power is developed, we cannot achieve that goal.

We cannot go on depending on the monsoon. We have seen the vagaries of monsoons. In some places, we have got drought and in some other places, we have got floods. We are alternately having floods and droughts in the same place. That is the tragedy of this country. I want to know from Dr. K. L. Rao how long is he

going to depend upon the whims and fancies of rain God and whether he is going to take the place of rain God or not. The science and technology and engineering skill has improved so much that we can have an artificial rain till such time we have to make our own efforts to generate more power.

We should not depend upon one or two types of electricity generation, the hydro and thermal power projects. Mostly, we have to depend on atomic energy. Then alone we will be in a position to maintain uniform supply of electricity to our factories and fields.

The factories are losing every month about Rs. 30 crores. In 10 months, they are going to lose about Rs. 300 crores. The labour is being laid off. The wages of labour will go down by Rs. 20 crores per month. This comes to about Rs. 200 crores. So, the total loss to the country on account of less supply of power to the tune of about Rs. 500 crores.

Moreover, the thermal projects are not being run properly. There are no trained persons. Dr. Rao has himself seen it. He is a man who never loses his temper. But I have seen him lose his temper in Ramagundam, in Andhra Pradesh, where this project is very badly-managed. Apart from that, there is the Bharat Heavy Electricals and the Heavy Electricals. They are not supplying required machines to this Department and are being run on 70 per cent capacity. What I suggest that those two factories should be handed over to the Irrigation and Power Department. Just like the Agriculture Ministry is managing the affairs of all sugar factories, why not the Irrigation and Power manage the affairs of these two factories? This Ministry can properly advise those people what sort of machinery they should manufacture, when to manufacture, and they can give the time-schedule and

all that. My demand is that these two factories should be put under the charge of the Irrigation and Power Ministry.

Coming to irrigation, I want to give one or two suggestions. From all the irrigation projection projects, the canals must be properly lined. The new projects which are coming up are being lined. But the channels are not being properly lined. 25 per cent of the water in the *kutch* channels is going in seepage. There are seepage losses. They are creating so many problems of drainage and other things. That is why I urge upon Dr. Rao to take up this work immediately.

In Nizamabad, there is the Nizam-sagar project which irrigates 2,75,000 acres of land. For the last several years, it is badly neglected. It is silted to the extent of 60 per cent. There are three sugar factories under this project. They produce about 80,000 tonnes of sugar every year. On account of the failure of this project, the sugar factories have stopped working. Next year, the Central Government is going to lose about Rs. 3-4 crores in excise duty. I demand from Dr. Rao whether he can spare Rs. 1 crore. We have been giving every year to the Central Exchequer about Rs. 3-4 crores from these factories, for the last 30 years. We are now making a demand on the Central Government to give at least Rs. 1 crore.

This Ministry is spending most of its amount on new irrigation projects. They are neglecting the old projects where the lands are very fertile. I urge upon the Minister that instead of extending the facilities to other areas, let him concentrate on old projects which are becoming dry and unfit for irrigation purposes now. So, I would request Dr. Rao to devote more of his time on old projects so that we reap the maximum possible advantages from the old projects.

श्री पन्नालाल बारूवाल (गगानगर) : सभापति महोदय, मैं आप का आभारी हूँ कि आप ने मुझे बोलने का समय दिया। मैं सिंचाई और विद्युत मंत्रालय की मांगों का समर्थन करने के लिए बोल रहा हूँ। हमारे सिंचाई और विद्युत मंत्री देश के माने जाने तथा विषय के अनुभवी एवं दक्ष व्यक्ति हैं। उन की सूझ-बूझ और कार्यकुशलता पर हमें गौरव और विश्वास है। परन्तु सभापति महोदय, मैं आप से निवेदन करूंगा कि राजस्थान नहर मेरे निर्वाचन क्षेत्र के बीच से निकल रही है। यह बहुत बड़ी नहर है। आप से निवेदन है कि आप बीच में घंटी न बजायें वरना मेरी विचारधारा टूट जायेगी।

सभापति महोदय : 7 मिनट आप को दूंगा।

श्री पन्नालाल बारूवाल : मैं माननीय मंत्री जी से यह निवेदन करना चाहता हूँ कि आप ने सारे विश्व का अध्ययन किया है। इस संबंध में एक बात मैं यह कहना जरूर चाहूंगा कि हमें इजराइल से कुछ सीखना चाहिए। जिस प्रकार इजराइल ने रेगिस्तानी क्षेत्र को हरा भर बना लिया है उसी प्रकार की पद्धति को हिन्दुस्तान में अपनायें तो राजस्थान देश का एक हरा भरा हिस्सा हो सकता है और उससे काफी लाभ हो सकता है। अगर वह पद्धति हम अपनायें तो राजस्थान के रेगिस्तानी इलाके को हम हरा भरा कर के देश को समृद्धिशाली बना सकते हैं और हर दूसरे, तीसरे वर्ष पड़ने वाले अकाल तथा सूखा को सदा के लिए समाप्त कर सकते हैं।

जहां तक मेरा खयाल है कि विश्व जल मंडल समझौते के अनुसार पोंग डैम तैयार होने के बाद एक बूंद भी पानी पाकिस्तान को नहीं देना चाहिए। उस का पानी 1970 से ही पाकिस्तान को देना बन्द कर देना चाहिए था। परन्तु जैसा हमारे साथी भागव जी ने बताया, खेद है कि आज भी कुछ नहरों का पानी पाकिस्तान में जा रहा है। आज हमारी शिथिलता तथा त्रुटियों के कारण हम पोंग डैम का पानी लेने से असमर्थ रहे क्योंकि उस पानी को डालने के लिए हम लोग चैनल भी नहीं बना सके हैं और आज वह पानी पाकिस्तान जा रहा है, और पाकिस्तान उल्टा क्लेम करता है।

एक बात और कहना चाहता हूँ कि इस सदन में कई बार यह प्रश्न उठा है कि हिमालय से निकलने वाली गंगोत्री और जमनोत्री जो कि देव प्रयाग के पास से निकलती है वहां गंगोत्री और जमनोत्री के बीच में एक पहाड़ है जो 7 किलोमीटर का है अगर उस में से सुरंग निकाल कर गंगा का पानी जमुना में डाल दिया जाय, और उस से आगे 5 किलोमीटर का एक और पहाड़ पड़ता है, उस पहाड़ की सुरंग में दोनों नदियों को मिला कर घग्गर नदी में डाल दिया जाये और उस घग्गर नदी का पानी पूरे राजस्थान को दिया जाये तो देश हरा भरा हो सकता है, और मैं समझता हूँ कि उस पानी से अकाल की भी समस्या का सदा के लिए हल हो जायेगा। किसानों ने अपने खर्चे से नलकूप लगाये परन्तु विद्युत शक्ति न मिलने से वे सब बेकार पड़े हैं जब कि आज देश में सिंचाई के लिए अधिक साधनों की जरूरत है।

“आज के राजस्थान” नामक दैनिक में 13-4-73 को जो समाचार निकला है उसे आप के सामने रखना चाहता हूँ, क्योंकि पढ़ने का समय नहीं है। इसी प्रकार साप्ताहिक यंग लीडर के 15-4-73 में भी ऐसा ही है।

सभापति महोदय, क्षमा करेंगे कि मैं इस मामले में बहुत चुन रहा परन्तु आज कहना चाहता हूँ कि राजस्थान नहर बोर्ड के चेयरमैन हैं उन्होंने उस में बड़ा ही घोटाला किया हुआ है क्योंकि राजस्थान सरकार में उन की जड़ें बहुत गहरी हैं। मुझे मजबूर होकर यह कहना पड़ता है कि राजस्थान नहर का कार्य जिन के द्वारा आप कराना चाहते हैं उन पर मुझे संदेह है। मैं दावे के साथ कह सकता हूँ कि मैं पढ़ा लिखा तो नहीं हूँ लेकिन अनुभवी जरूर हूँ। 21 साल से इस पार्लियामेंट का सदस्य हूँ, और नेहरू जी, शास्त्री जी, तथा जी० बी० पंत जी से मैंने बहुत कुछ सीखा भी है। अपने अनुभव के आधार पर ही कहना चाहता हूँ कि राजस्थान नहर में बड़ा घोटाला है, उस घोटाले की जांच आप को सी० बी० आई को देनी चाहिए और जिन्होंने करोड़ों का माल बर्बाद किया है, गलत ठेके दे कर गलत काम कराया है, उनको जेल भेजना चाहिए। राजस्थान कैनल बोर्ड के चेयरमैन बड़े प्रभावशाली व्यक्ति हैं, अगर मैं आज उन के विरोध में कुछ कहूँगा तो कल ही राजस्थान के 10 सदस्य उन की सिफारिश ले कर आ जायेंगे, लेकिन मेरे विचार में वह बहुत अड़ियल और बदतमीज हैं, और इस प्रकार का आदमी है कि जिस की कोई हूद नहीं है। मैं मंत्री जी, आप से मिला भी था और आप ने कहा था कि

राजस्थान सरकार की नीयत में पानी नहीं है जब कि नहरों में पानी बहुत है। लेकिन सभापति जी, नहरों में पानी होते हुए किसानों को पानी नहीं दिया, लाखों की सम्पत्ति बर्बाद हो गयी मेरे पास चिट्ठी आयी है, अखबार की कटिंग है, चूंकि पढ़ने का समय नहीं है, इसलिए मैं उन को मंत्री जी को पेश कर दूँगा। मैं आप के जरिए मंत्री जी से कहना चाहता हूँ कि आप इस की पूरी जांच करायें। आज राजस्थान नहर के निर्माण में सीमेंट का घोटाला है। नहर के दोनों तरफ प्राकृतिक रेत के घोरे हैं, वह रेगिस्तानी इलाका है इसलिए उन घोरों की आड़ ले कर अन्धाधुंध करप्पशन चल रहा है। यह लोग करप्पशन कर के घोरे की आड़ में छुप जाते हैं। घोरे की आड़ में दोहरा करप्पशन चल रहा है। एक तरफ तो यह कि घोरे की बालू को दिखा कर चेयरमैन महोदय कह देते हैं कि यह हम ने नहर की खुदाई कर के ही किनारे-किनारे बालू लगाई है, जबकि वास्तविकता में वह प्राकृतिक चीज है। तो बिना खुदाई किए हुए ही खुदाई का पैसा खा जाते हैं और दूसरा करप्पशन इस प्रकार करते हैं कि नहर तो हम ने खोदी थी, जब कि वाकई में खोदी नहीं गयी, लेकिन बालू ने उड़ कर नहर को पाट दिया। इस प्रकार झूठे ऐंस्टीमेट बना कर झूठी मिट्टी डलवा कर रुपया लूटा जाता है। गलत ठेके दिए जाते हैं। जो कौड़ी के आदमी थे वे आज करोड़पति बन गए हैं। पता नहीं मेरी जान भी सुरक्षित होगी या नहीं क्योंकि वह बहुत बड़े आदमी हैं। मेरा निवेदन है कि इंजीनियर और एग्जिक्यूटिव इंजीनियर किसानों को पानी देना चाहते हैं, लेकिन चेयरमैन साहब का माथा खराब है

[श्री पन्नालाल बारूपाल]

वह नहीं चाहते, जब सन् 1967 में पानी किसानों को मिलने में कठिनाई होने लगी तब जब तक उन के पास पैसा पहुंचता रहा तब तक वह उन को पानी देते रहे, जब लोगों से मैंने कहा जा कर कि पैसा न दो, इन्दिरा गांधी का सन्देश है कि कर्षण को मिटाना है, प्रधान मंत्री समाजवाद लाना चाहती हैं, भ्रष्टाचार का मुकाबला करो और उन्होंने पैसा देना बन्द कर दिया तब से किसानों को पानी मिलना बन्द हो गया। वह दो भाई थे। विधि की विडम्बना यह है कि एक भाई गोवर्धन सिंह थे जिन्होंने पिछले अकाल के समय में जब गवर्नमेंट ने पैसा मंजूर नहीं किया तब अपनी रिस्क पर राहत कार्य खुलवा कर किसानों की सहायता की और दूसरा तरफ दूसरा भाई है जो बिना पैसा लिये हुए काम नहीं करता। मैं समझता हूं कि यह आदमी एक मिनट के लिये भी चेंबरमैन रहने लायक नहीं है। उस को तुरन्त हटा देना चाहिये। और उस के कार्यों की जांच कराई जानी चाहिये, नहीं तो मजबूर हो कर मुझ को पार्लियामेंट से इस्तीफा देना होगा। आज छोटे-छोटे आदमी किसानों का शोषण कर के लखपति और करोड़पति बन गये हैं। इसलिये मैं फिर निवेदन करना चाहता हूं कि किसी बड़ी अथॉरिटी के द्वारा राजस्थान नहर के बारे में जांच कराई जाये। जो सीमेंट यहां बीस बीस रुपये में नहीं मिलता वह वहां पर पांच पांच रुपये में मिल जाता है और इस तरीके से बहुत से आदमी लखपति और करोड़पति बन गये हैं चेंबरमैन साहब की मेहरबानी से।

मैं इस से अधिक और कुछ नहीं कहना चाहता हूं। मेरे पास कुछ कागज हैं जिन में

अखबारों की कटिंग भी है वह मैं मंत्री महोदय को देता हूं और प्रार्थना करता हूं कि वह सारे मामले की जांच करवावे।

SHRI P. ANKINEEDU PRASADA RAO (Angole): Sir, I rise to support the Budget Estimates introduced by the Government.

The power generation is the yardstick to measure a country's progress and prosperity. Especially, in our country enough power is not yet generated to meet the requirements of the country's demands. In our country, the meagre economic resources that we are having are diverted towards industry and agriculture, which need power at every stage but due to the drastic power cuts, whatever may be the reason for the cut, the reasons may be either natural calamities or paucity of funds or labour troubles, the industry and agriculture, the two main arms of the country's national development are suffering very much, causing not only loss of production and making the investment idle but are causing a lot of hardship to the labourers employed in those sectors as they are not having security of service, security of labour and security of their earnings. The Government should take these into consideration and should give proper attention for the generation of power in order to keep up all other things work properly.

Moreover, even with regard to the power generated in this country, there was no proper distribution among the needy areas. The generation of power is mostly entrusted to the States and the States are using the power generated in their areas in their own way. Whereas in some States they are not able to get power required for their necessities, in some others they are using power for their luxuries. In Andhra Pradesh we are having installed capacity of 15 MW per thousand persons. Our brethren and our neighbours in the neighbouring States, Tamilnadu, are having installed capacity of 50 MW per thou-

sand persons. We are in bare necessity of power. Though coal required for power generation is taken from Andhra Pradesh to Tamil Nadu we don't get even a 100 MW of power from that State for ourselves. The generation of power and distribution should be taken over by the Central Government and it should be a Central subject. Centre should take up the complete power generation and distribution; the Centre should have a national grid; the Centre should distribute it among the States, depending upon their dire necessities.

Coming to the issues of my own State, the power position in Andhra Pradesh is worse. In place of our requirement of 900 MW of power our installed capacity is 650 MW but to day we are producing only 350 MW. In other words, 40 per cent of the required power is only supplied by our State. Kindly think of the vast investments made in my State by the small agriculturist. Our State is an agricultural State. He has installed pumpsets and he has invested on fertilisers and on labour with the hope that he will be able to produce a little more so that it may be a little bit more beneficial to the small agriculturist. But today the situation is in a mess. He is not in a position to know what to do or what not to do depending upon the power supply. He has already made all investments in these fields and when power is not supplied he is faced with enormous difficulties. He has done all this with the hope that Government will generate and supply the necessary power. With that hope he had invested. But now these people are feeling sorry for it. I would like to make a request at this stage that top priority should be given to Andhra Pradesh, because, Andhra Pradesh is at present in the bottom of the list so far as power generation is concerned. Most of the projects are lingering for want of funds. These projects should be given priority and taken up, such as, the Lower Sileru

project. With some little amount of funds it will be able to give results immediately and this can solve the problems in my State to some extent at least.

Similarly there are two other projects namely the Nagarjunasagar Pumping Scheme Project and the Srisaillam project. If sufficient funds are given, if adequate funds are provided for, they will be able to relieve us to some extent from the power crisis.

Most power generation in Andhra Pradesh is hydel power. Whenever monsoon fails, we have to face the consequences. More thermal power units should be started in our State. This is my submission to solve the difficulty. Feasibility reports have already been made about Vijayawada Thermal Power Project and Kothagudam Extension No. IV. These two must be included in the Fifth Plan. Government should see that they are included and implemented.

SHRI P. M. SAYEED (Laccadive, Minicoy and Amindivi Islands): I want only five minutes. I want to state some points regarding electricity, which is being generated in my constituency, Laccadive, Minicoy and Amindivi Islands. Unless I give a small background of it, perhaps, my point, which I am going to submit here, may not be well-understood in its proper perspective.

Sir, ever since my coming here in 1967 I have been hammering that education, especially in that part of the country, must be given on the basis of the raw-material available there. Till recently government was thinking that my submission may not be fruitful if at all implemented in toto. My difficulty is age. Whatever is submitted by me is taken at a discount. Anyway, better late than never. Government realised that job-oriented education is a must in Laccadive island. So, from the beginning of this year we are going to have

[Shri P. M. Sayeed]

our education based on the raw-material available there. From 8th standard onwards students are going to get education based on fisheries technology. Fisheries technology is going to be the main subject. Based on this we are inviting from the mainland, industrialists—from Mysore Fishereis Corporation and also Kerala Fisheries Corporation. But the difficulty is, the moment we approach them they ask what is the cost of electricity there. I do not know to what extent they have gone into the viability of it, but the costliest unit in the country is prevailing in that part of the country. The cost per unit is 60 paise. The moment they hear the cost they say: *Na, Baba*, we are not coming there.

Secondly, when we ask for power we are asked why we want power when no industry is there. When we ask for industry we are told why do we want industry when there is no power. So, we are left in between the deep sea and the devil. In each of the ten inhabited islands there is a small unit functioning. During nights, even upto 12 O'clock, it will be functioning with great difficulty. Our difficulty is, suppose one set goes out of order, it has to be transported from the island to the mainland, and that depends on the availability of the ship which may have to be diverted from the other island. So, apart from the cost, these difficulties are also there.

16 hrs.

We have an advisory committee associated with the Home Minister, and we have decided that we must invite the industrialists from the mainland. Whenever we invite, the difficulty which immediately comes forward is that of transport, communications and also the cost of the unit. I have to make only two points here. Firstly, the Ministry of Irrigation and Power should examine the viability of this unit, and it should be highly subsidised and brought on

par with the rest of the country as far as the cost of the unit is concerned. Secondly, we were told in the Advisory Committee and the Advisory Council also, that from 1967-68 so many sets have been ordered through the DGS&D. DGS&D is a great organisation where everything is held up for years together. I do not know why they are holding up vital matters. For the last three or four years our sets are still there. They are not prepared to give the things in time. At least in the case of far-flung areas like Laccadive, the Ministry should give preference, and in certain cases it should be given exemptions, so as not to go through all these formalities which take years together. I want the Ministry to take these into account and to give preference to Laccadive.

Finally, the Minister concerned is a very experienced Minister. Vermaji had already visited Laccadive when he was a Member of the Public Accounts Committee. He knows the island. I request Dr. Rao to make a visit to Laccadive and find out whether electricity can be generated at a lesser cost so that a permanent solution can be found out. Thank you very much.

श्री नरेन्द्र सिंह बिष्ट (अल्मोड़ा) :

सभापति महोदय मैं आप का बड़ा आभारी हूँ कि आप ने इस महत्वपूर्ण अनुदान पर बोलने का थोड़ा सा समय मुझे दिया। मैं मंत्री महोदय का ध्यान उत्तर प्रदेश और बिहार की तरफ आकर्षित करना चाहता हूँ। उत्तर प्रदेश और बिहार बिजली के मामले में सब से पिछड़े हुए हैं। वहाँ बिजली कम भी है और जैसा अभी पूर्व वक्ता ने कहा था कि अंडमान निकोबार में बहुत मंहगा है, उसी तरह से उत्तर प्रदेश और बिहार की बिजली आप देखेंगे तो वह सब से ज्यादा मंहगी है। इन दोनों चीजों की ओर मैं आप का ध्यान

आकर्षित करना चाहता हूँ। एक तरफ तो केरल और हरयाणा के हर गांव में आप बिजली दे रहे हैं और दूसरी तरफ उत्तर प्रदेश और बिहार में 8 प्रतिशत भी आप ने टच नहीं किया है। और वहां की दरों में बहुत भारी असंतुलन आप को दिखाई पड़ेगा।

सनयाभाव से अधिक न कह कर मैं अपने क्षेत्र की ओर ध्यान आकर्षित करना चाहूंगा। उत्तर प्रदेश के पर्वतीय क्षेत्र के आठ जिले हैं—उत्तर काशी, चमोली, पिथौरागढ़, गढ़वाल, टिहरी, गढ़वाल, नैनीताल, अल्मोड़ा और देहरादून।

गंगा जमुना या और जितनी भी नदियां हैं, वह इन्हीं इलाकों से आती है। लेकिन उन इलाकों को बिजली बिल्कुल नहीं मिलती है और न पानी मिलता है। सारा पानी वहां से आता है और सिंचाई का वहां कहीं नामो-निशान नहीं है पहाड़ों में। जहां आप पम्प लिफ्ट स्क्रीम से इरीगेशन करें या छोटे छोटे डैम बनायें या वाटर चैनल बना कर सिंचाई की व्यवस्था करें।

बिजली के लिए छोटी-छोटी स्कीमें हो सकती हैं। पिथौरागढ़ जिले में 17 स्कीमें मंजूर हुई थीं, लेकिन उनमें से एक पर भी काम नहीं हुआ, सारा रुपया लेप्स हो गया। इस ओर मैं सरकार का ध्यान आकर्षित करता रहा लेकिन रुपया लेप्स होता रहा। सरकारी कर्मचारी अपनी तनख्वाह तो पूरी लेते रहे लेकिन जनता की ओर से सब उदासीन हैं। आप इस ओर अब विशेष ध्यान दें। ऐसे ही आठों जिलों में छोटी छोटी स्कीमें हैं और जिस तरह से जापान में छोटी-छोटी स्कीमें चलती हैं ऐसी ही स्कीमें

आप इन आठ जिलों में चलायें तो काफी नदी नाले हैं जिन से बिजली पैदा की जा सकती है। बिजली के लिए वहां अथाह स्कोप है। उत्तर प्रदेश में बिजली की जो योजना बनी थी उस में यह कहा गया है कि मैदानी हिस्से में कहीं बिजली निकालने की गुंजाइश नहीं है। अगर है तो पर्वतीय क्षेत्र में है। उस में टेहरी डैम तो आप ने मंजूर कर ही लिया है। उसके लिये केन्द्र कम्पेन्सेशन और रिहैबिलिटेशन का झगड़ा जल्दी खत्म कर के इस डैम के काम को जल्दी से जल्दी शुरू करायें। एक पंचेश्वर का डैम है। राव साहब वहां स्वयं गए थे। उनका वक्तव्य निकला था कि सारे भारत में यह सब से बड़िया डैम बनने जा रहा है। उस से बड़ी आशाएं वहां के लोगों को हुई थी। लेकिन बहुत अर्सा गुजर चुका। धीमे-धीमे काम चल रहा है। सड़क बन चुकी है और बहुत थोड़ा काम हुआ है। उस की ओर मैं आप का ध्यान विशेष रूप से आकर्षित करना चाहूंगा। वह मेरे क्षेत्र का एक हिस्सा है। लेकिन उस से मेरे क्षेत्र का ही भला नहीं होगा। पूरे उत्तर प्रदेश का भला उस डैम से होगा। इस पंचेश्वर योजना की तरफ कई दफा मैं आप का ध्यान आकर्षित कर चुका हूँ। मैं आशा करता हूँ कि आप इस को शीघ्र कार्यान्वित करने के लिये कटिबद्ध होंगे।

सारे पर्वतीय क्षेत्र का जीवन बिजली पर आधारित है। वहां पर काफी अच्छी टूरिस्ट ट्रेड हो सकती है, हमारे पहाड़ों की सुन्दरता अपार है, हमारे कुमायू और गढ़वाल के सामने स्विटजरलैंड के पहाड़ों की सुन्दरता दसवां हिस्सा भी नहीं है लेकिन वहां की तरक्की के लिये बिजली एक मूल कारण है। ट्रेन

[श्री नरेन्द्र सिंह बिष्ट]

चलती हैं—बिजली से, वायर-रोप चलती हैं—बिजली से। स्विटजरलैंड इतना बढ़िया कैसे बन गया—बिजली की वजह से। अगर आप चाहते हैं कि हमारे यहां टूरिस्ट ट्रेड बढ़े तो बिजली की व्यवस्था कीजिये।

स्माल स्केल इंडस्ट्रीज, लैटर ट्रेड, वाचेज, कागज या जितनी भी ऐसी इंडस्ट्रीज हैं, जिन के लिये साधन पहाड़ों पर उपलब्ध हैं, वे भी बिजली के बिना नहीं चल सकतीं। बिजली न होने के कारण वहां कोई इन्फ्रा-स्ट्रक्चर नहीं बन रहा है, डेवलपमेंट नहीं हो रहा है। हमारे यहां वही हालत है जो अण्डेमान निकोबार की है, वही 12 वीं सदी की सभ्यता चल रही है। जब तक बिजली नहीं होगी, कोई काम नहीं चल सकता।

हमारे यहां अथाह खनिज हैं लेकिन सब जमीन के अन्दर पड़ी हुई हैं, बिजली के बिना निकाली नहीं जा सकतीं और यही कारण है कि हमारे यहां इकानामी शून्य पर आ गई है। गवान ने नदियां दी हैं, पर्याप्त बिजली पैदा हो सकती है लेकिन आप लोगों के ध्यान न देने की वजह से दयनीय स्थिति है, इकानामी-कली, सोशली, हर तरह से पिछड़ चुका है, अगर आप उस की ओर ध्यान नहीं देंगे तो उस की हालत सुधरने वाली नहीं है। मेरी हाथ जोड़ कर प्रार्थना है कि इन पर्वतीय जिलों की ओर विशेष ध्यान दें ताकि वहां का सामाजिक और आर्थिक स्तर सुधर सके।

श्री हमेन्द्र सिंह बनेरा (भीलवाड़ा): सभापति जी, मैं मंत्री महोदय का ध्यान राजस्थान के भीलवाड़ा क्षेत्र की ओर आकर्षित करना चाहता हूं।

हमारे यहां एक भेजाबांध सिंचाई योजना है। केन्द्रीय सरकार ने तीन साल पहले उस के लिये 1 करोड़ 30 लाख रुपये स्वीकृत किये थे। तीन साल तक उस पर काम नहीं हुआ, जब गत वर्ष वह एस्टीमेट रिवाइज हुआ तो वह 1 करोड़ 30 लाख से बढ़ कर 3 करोड़ रुपये हो गया। इस लिये मैं मंत्री महोदय से पूछना चाहता हूं कि क्या ये तीन करोड़ रुपये एक साल या दो साल के अन्दर लगाये जायेंगे या नहीं लगाये जायेंगे? हमारे यहां भीलवाड़ा में अकाल की स्थिति बड़ी गम्भीर है। यदि इस समय इस भेजा फीडर के काम को शुरू कर दिया जाय तो 15 हजार मजदूरों को काम मिल सकता है।

दूसरी योजना चोखम बांध की है—इस में भी केन्द्रीय सरकार ने सहायता दी है। मैं जानना चाहता हूं कि यह योजना कब तक पूरी हो जायेगी?

आखरी बात आप के माध्यम से मैं यह पूछना चाहता हूं—केन्द्रीय सरकार ने बड़ी कृपा कर के राजस्थान को 100 मैगावाट का प्लांट लगाने की इजाजत दी है, आज इस को तीन साल हो चुके हैं, राजस्थान सरकार ने क्यों इतनी देर से शिथिलता अपनाई हुई है? क्या मंत्री महोदय को इस योजना के बारे में कोई जानकारी है?

THE MINISTER OF IRRIGATION AND POWER (DR. K. L. RAO): Mr. Chairman, at the outset, I must thank the hon. members for the extraordinary interest they have shown inasmuch as 50 members have taken part in this debate, making it a record number of participants. A large

number of useful suggestions have made. Within the time at my disposal, it may not be possible for me to do justice to all the various points raised by hon. members.

My first observation is that hon. members have more or less represented the case of rural India in this discussion. I think this is the first time the expression of rural India has been made so forcefully by the representatives of rural India who have very rightly stressed the most important requirements of the rural areas in regard to irrigation and power.

Hon. members, like Shri B. R. Shukla and many others, have also observed that the Irrigation and Power Ministry must not be merely a silent spectator, as it is today, but should also participate in the development of these two sectors. At the moment, the Ministry of Irrigation and Power at the Centre is merely a co-ordination body. It does not irrigate one acre of land, nor does it generate one MW of power. That is one of the unfortunate things about this Ministry. All that we are trying to give is co-ordination and specialised technical assistance. But what I find from what hon. members have said is that they want that this Ministry at the Centre should also participate in the development of these two sectors. As so many members representing the people of our country have very correctly stressed, the Centre in this case also, like the Railways, Posts and Telegraphs and other Departments, must participate and co-operate along with the States in the development of these two sectors. I only hope that in the decades to come—such things cannot come about very quickly—these observations of hon. members will be borne in mind and will be given careful thought and we shall have, in the course of the next decade, the Ministry of Irrigation and Power at the Centre also participating in the actual planning and development of irrigation and power in this country.

Now, we have done fairly well after independence. We have doubled the irrigation that was there at the time of independence. We have brought the total irrigated area to 100 million acres. But the one unfortunate thing is that out of these 100 million acres, only two-thirds of the irrigated area is based on certain resources and one third is dependent on tanks and shallow wells which just get dried up at the time of drought conditions. In years like the last one these shallow wells and tanks dry up with the result that we are not able to provide irrigation to all the 100 million acres. The result is that the food production varies. If it is a good year, we are able to provide irrigation to all the 100 million acres; otherwise, in a bad year, we are able to irrigate only two-thirds of that or 66 million acres, with its adverse result on food production. This is one defect in the present system of irrigation.

When we are discussing these problems of India, we must also bear in mind that our population is growing very much. At the beginning of this country, the population of India was about 150 million; at the middle of it, it was 300 million; now it is 550 million and at the end of the century, we expect it to go up to 900 million. The fact that there is a tremendous increase in population should be borne in mind so that we should try to give more and more irrigation to our land so that crops may be grown in large quantities as we require. At the moment, we are able to utilise only one acre out of 4. It is our aim to see that at the end of this century, we shall be able to irrigate 2 acres out of 4, that is to say, 50 per cent of our land should be irrigated. In that case, it will be possible for us to provide enough of food to feed all the 900 million people in a quite adequate manner.

This is our aim. In order to achieve this, what we have got to do is to introduce irrigation on a very

[Dr. K. L. Rao]

vast scale. In the last ten years, we have been adding irrigation at the rate of 1½ million acres per year. We have to double it. In the further Plans which we will have to take up, we have to provide irrigation for three million acres every year. If you are going to irrigate three million acres every year, that is, bring under irrigation three million acres every year, then only it will be possible for us to bring under irrigation two acres out of every four acres, that is, 50 per cent of our land. I am thinking only of major and medium irrigation in this context. I am not talking of minor irrigation. For major and medium irrigation alone, you must double the pace of our development. That is why, for the fifth Plan, our aim is to provide under major and medium irrigation an area of 15 million acres. Our aim is to bring under irrigation about 15 million acres of land in the fifth Plan. That is, at the rate of three million acres a year. That being our objective in the fifth Plan, we must proceed to go ahead.

Hon. Members have rightly asked what will be our objective in the fifth Plan. One of the hon. Members has very correctly said that we must try to finish those projects that we had taken up in the first Plan. There are some projects which were taken up in the first Plan, second Plan and the third Plan which are still lingering on. For example there are as many as 59 major irrigation projects undertaken prior to 1969 which are still not completed. The result of this is, the costs are going up. At the time of sanctioning these projects they cost only Rs. 1,200 crores. But today, the costs have gone up. They now cost Rs. 2,700 crores. So, we have to spend Rs. 1,500 crores more than the estimated cost at the time of their sanction. We are only able to achieve 40 per cent benefit. 60 per cent benefit is yet to come. So by providing another Rs. 1,000 odd crores more, in the fifth Plan, we can

complete those projects and bring under irrigation about 20 million acres. The costs go up when we spread them over a large number of years. I am very glad that some hon. Members have pointed out that we should try to finish those projects as early as possible, and that should be our main aim in the fifth Plan, that is, we must finish those projects that we had already taken up in the first, second and the third Plans.

Then there is another point. There are five large States in our country—Mysore, Maharashtra, Madhya Pradesh, Rajasthan and Gujarat—where the percentage of irrigation is much below the average. The percentage for the whole country at the end of the fourth Plan will be 26 per cent. But in these States it will be only nine to 18 per cent. Madhya Pradesh has got the lowest percentage in the matter of irrigation in the country it is only nine per cent. It is very sad to think that though we have in Madhya Pradesh a vast area, 51 million acres under crop, with a good source of water—most of our rivers come from there—we irrigate only 9 per cent there. and we are not able to connect one river with the other. whereas in Punjab, with one-third of the land—only 14 million acres—we are producing seven million tonnes of foodgrains there, with a percentage of irrigation which goes up to 70 per cent. In Madhya Pradesh, the percentage of irrigation is only nine per cent though the land is three times more and we are able to produce only 11 million tonnes. In other words, we are not able to produce more food there. We have to take up more irrigation projects in some of the States, Madhya Pradesh and Maharashtra, especially. Though there are a number of projects which have been taken up no doubt, we will have to give a push to those States a little more. In our planning, we should see that we give some extra amount or assistance and see that these States which are backward in irrigation are brought up to at least a reasonable level.

SHRI VASANT SATHE (Akola): In Vidharba, it is only 1.6 per cent.

DR. K. L. RAO: There is another very important aspect which I must submit to the House, and that is—it is a very unfortunate fact—one-third of our country is under drought conditions. In the last century, much more land was under famine conditions. Now, the figure is reduced, but still, we are subject to droughts. What happened was, in the last century, Sir Arthur Cotton in the south and Sir Cautley in the north had constructed several projects. There was the Hardwar canal, the Sone Barrage, and the famine areas were converted into very good farmlands. The Krishna, Cauvery, Godavari and the Mahanadi—so many deltas projects were constructed. That work must continue. They must not be left at that. As I said, one-third of our crop total land is under drought conditions. We have a crop land of 400 million acres and out of that, 130 million acres are under drought conditions. That is subjected completely to the gamble of the rainfall. That is why Gandhiji said that agriculture without irrigation is a gamble in this country. It should be our aim to see that the drought areas located in the five States mentioned by me plus some part of Haryana and a little part of Bengal and also parts of Orissa and Andhra Pradesh are taken care of. These are extremely bad areas; yet people are living there and it is our national responsibility to see that these areas get water, if not 50 per cent irrigation, at least 40 per cent or 30 per cent. That is exactly what the Irrigation Commission has recommended: you must maximise irrigation in these drought areas. We should try to use all the available resources.

Many hon. Members referred to the national water grid. The idea is not just to take water from the North and dump it in the Cauvery. The main object, in fact the only object is to give water to the lands in the drought affected areas, wherever they

may be located. Water from the Ganga will not be used in the prosperous areas but in drought areas, starting from Rajasthan, Mysore, Maharashtra, Madhya Pradesh, Tamil Nadu and Andhra Pradesh in Rayalaseema area and so on, like that, Orissa.... (*Interruptions*). Mysore will be one of the important States which will benefit; if there are no drought areas, they will not get it but we all know that Mysore has a large drought affected area. The national water grid shall give water to all the drought areas. Members should not be carried away by Mr. Sundarayya's article or the writings in Motherland.

I am surprised that the irrigation works taken up in the Gangetic basin in previous years had not covered the chronic drought areas in the basin we have some of the worst drought areas like the Rewa plateau, Mirzapur and Palamau area south of the Ganga. Why should there be such areas, right in the middle of water? The first beneficiaries of this water grid will be these areas, in the Gangetic basin itself. The first waters will go to these areas. We have of course not finalised the alignments; it is only paper study. We are awaiting sanction to take up investigations. So, we cannot give any definite plans now. The idea is to connect one river with the other, to connect Brahmaputra to Ganges; that is one of the first thing to be done, and then this to the other river and so on.

The other day I was in Bundelkhand in connection with the Rajghat dam inauguration by the hon. Prime Minister and I was looking at that area. There are five beautiful rivers as in Punjab, Chambal, Sind, Betwa, Dhasanand, Ken. But this area is in utterly drought conditions, utterly poor—Bundelkhand area in U.P. and in Madhya Pradesh. Are we to look on only? No. We should try to investigate and connect one river with the other and make use of the water to cover as much area of Bundelkhand as possible. It is important to remem-

[Dr. K. L. Rao]

ber that water required in the basin itself will not be diverted.

We only divert the surplus water, that is the monsoon water. We shall never take the water in monsoon months from any of these rivers. We shall divert only the monsoon water. I was surprised to hear Rao Birender Singh—he is not here at the moment—a very respected ex-Chief Minister of Haryana as saying that the Yamuna water should be diverted to Haryana. That is exactly the basic idea of water grid. But, unfortunately, there is no surplus water in the river Yamuna. Probably he does not know that. When we construct Kishan Dam and Lakuwa Dam, there will be no surplus water in the river Yamuna. In the upper reaches of Yamuna we have to find water from some other source. So, please do not be carried away by emotions. We are trying to look far ahead and not for to-day or tomorrow. We want to start investigations and prepare plans for the whole country. It is very unfortunate that some Members have misunderstood me. Some were telling as to why Mysore canal is not going there. We are trying to take the canal in a way which will cost us less. But it does not mean that we will allow the water for extension of the Cauvery delta. We shall use the transported water for drought areas only.

SHRI VASANT SATHE: Are you going to allow the C.P.W.D. to implement it or will you allow the mass movement of the people to do it as it has been done in other countries? Take for example Bhagirath Sena.

DR. K. L. RAO: We are not doing anything extraordinary here. We are following what exactly is being done by the U.S.S.R. In U.S.S.R. what they are planning is to divert water going to the North to irrigate Southern thirsty areas round Aral sea.

In America too, the same thing is being done in Western Texas. This is a dry area. They want to take the water from Mississippi to Texas. We
